TWENTY-NINTH YEAR.

WAYNE, NEBRASKA, THURSDAY, OCTOBER 12, 1905.

NUMBER 35.

A CONSOLIDATION

Two Hardware Firms Get Together.

CHANGE EFFECTIVE NOVEMBER

Marsteller and Peterson Form New Firm—Berry Will Go into Other Business.

The HERALD is informed that the hardware stores of J. E. Marsteller and Peterson & Berry will be consolidated November 1, when Messrs. Marsteller and Peterson will form a partnership and Mr. Berry will retire from the business. The combined stocks will have the building now occupied by Mr. Marsteller. Mr. Berry has not announced the line of business he intends to follow, but says he expects to remain in Wayne.

DEATH OF WESLEY PHILLIPS.

The friends of Wesley Phillips were shocked and pained on Sunday to hear of his sudden death which occurred Saturday night in an Omaha hospital. He had been suffering from an enlarged and diseased kidney and it was reported that trouble that surgery was resorted to. The operation which was performed Friday, was not considered especially severe, but the disease had made such unexpected progress and his vitality was so greatly impaired that his recovery was impossible. It is believed he could have lived but a few days if he had not submitted to an operation. Attending physicians expressed surprise that his health permitted him to return from California, which he did the week before.

Wesley Phillips had not been in good health for a number of years. About a year and a half ago he quit the employ of the Republican office in Wayne and went to southern California in the hope that the change of climate would improve his physical condition, but he was ill from a well on his return here, and an examination by Dr. Williams disclosed the fact that he was suffering from kidney trouble in a severe form, and Wesley determined to undergo an operation. For that purpose he was accompanied to Omaha by his mother, Mrs. M. A. Phillips, last Thursday.

His remains were brought to Wayne Sunday and the funeral took place from the family residence yesterday forenoon at 10 o'clock. Rev. Thomas J. Wright of the M. E. church officiating. A large concourse of friends attended, and mingled their tears with those of the bereaved relatives, attesting to the popular esteem in which the young man was held.

Wesley was aged about 19 years. His father died while he was an infant, and he and his mother and grandfather, J. W. Bonds, came to Wayne from North Bend, Nebraska, about six years ago. Mrs. Phillips having been employed as teacher in the city schools here.

Wesley was an only child, and notwithstanding poor health, he was ambitious and industrious and was a young man of exemplary habits. His untimely death and tender, hearty sympathies to the sorrowing mother and grandfather who have sustained an irreparable loss.

BARN BURNS.

The following is a special from Fremont to the Norfolk Daily News: "Fremont, Neb., Oct. 9.—A large barn belonging to Mrs. Louise Reichenauer burned to the ground during the night while a dance was in progress in the hay mow.

Many jumped twelve feet to escape and all landed injured.

The barn collapsed as the last danger jumped from the flaming mow to the ground. Seven horses were burned. The loss was \$3,500."

FORMER WAYNEITE.

The following paragraph in Monday's Lincoln Star refers to a young man who used to live in Wayne and attended school here:

"Another Nebraska writer is gaining a foothold with the eastern magazines. His name is John H. Niehardt, and the current issue of a fiction magazine contains a story from his pen. It is an interesting old Indian legend and is told in a charming manner. Mr. Niehardt has contributed several stories to Nebraska newspapers, and all of them were worth reading."

THE CONVICT'S DAUGHTER.

This is the fourth season of that powerful melodramatic success entitled "The Convict's Daughter." So far, it has repeated its yearly successful business, crowning the theatres to their utmost capacity. Surely there must be a reason for such large audiences. The secret of its success lies in the fact that both the author and manager have put forth their best efforts to please and supply the demands of a melodrama-loving public. The box office returns show the wisdom of their judgment.

This is a pure American play depicting love and pathos, hate and passion, a play that touches the heart. There is one way, and only one way, to appreciate this play, and that is to see it. For nearly three hours intense dramatic scenes, laugh-provoking complications follow each other in rapid succession. An unequalled company of artists have been engaged, each one for his or her special character, and a wealth of beau-

tiful scenery, startling mechanical effects has been provided. At the opera house, Wayne, Nebraska, Wednesday evening, November 8.

C. A. Cox who was editor of the Carroll Index in 1893 and 1894, arrived in Wayne Saturday from Payette, Idaho, where he spent the summer. He is visiting relatives near Carroll and expects to locate in this section or in Iowa where he lived prior to going to Idaho.

The Howells Journal, democratic, opposes the McKillop boom for governor. It says it supported McKillop for congress, but considered him mighty poor timber in view of the fact that he met greater defeat than was ever before handed out to a congressional candidate in this district.

Henry L. Sman reports that the people of his neighborhood have been busy threshing this week. He says spring wheat yields about ten bushels to the acre and fall wheat about twenty-five. Oats run from thirty-five to fifty bushels to the acre. It has been conclusively demonstrated that fall wheat is the only kind worth raising.

We are pretty hard to please. A month ago everybody and their sisters, cousins and aunts were hoping that frost would not come and now they are all afraid we are not going to get enough frost to stop the growth of corn and cause it to properly mature. We are a queer lot of ducks; things are never quite right according to our notions.

C. J. Randall cites an instance where a populist official at some time or other paid railroad fare. Such rare and isolated cases should be duly credited and praised. To deny that anything of that kind ever happened would be as unfair as to assume that no democrat could be found in Kentucky who does not occasionally violate custom and good taste by drinking water.

Sheriff Mears returned Friday from Lincoln where he placed John Harner in the hospital for treatment for drunkenness. Sheriff Mears reports that Fred Schroeder who was taken to the asylum on a similar charge last July, was released Saturday and returned to his home at Carroll, free from the habit and greatly improved in health and spirits. Mr. Schroeder praises the treatment he received in high terms.

Jim Holdober and wife, both held in Chicago on a count of insanity, will be returned to Wayne, together with their children, as charges of Wayne county. It was expected that they would be brought back at once, but Judge Hunter received a telegram from the Chicago authorities Tuesday stating that delay of two weeks in removing them would be required on account of the birth of a child to Mrs. Holdober. The unfortunate pair will probably be committed to the hospital for the insane at Norfolk and the children will be properly cared for.

The marriage of Mr. Chas. L. Culler of Wayne and Miss Martha E. Adair will take place at the residence of the bride's parents, Mr. and Mrs. William Adair, in Dakota City, this evening. The newly wedded couple will live in Wayne. Mr. Culler is in the employ of the railroad as mail clerk, running between Norfolk and Sioux City, and is well and favorably known by a host of friends in this city. He was formerly principal of the schools at Dakota City and while thus engaged made the acquaintance of his future wife. His bride is an accomplished young lady and will meet a cordial welcome to the social circles of Wayne.

There were a number of Indians on the train that was wrecked between here and Bloomfield last Friday evening, who will perhaps wait for some time before they will trust themselves to travel behind the "iron horse," again. As soon as the cars were thrown from the track, and landed, the Indians crawled out through a window without waiting to see whether or not they were hurt, and they ran as hard as they could until they got to Bloomfield. When they got there they told of the wreck and then hiked out of town. They never stopped to figure out how the thing happened. Evidently their curiosity had been satisfied.—Wausa Gazette.

We occasionally behold an animated but inanimate, phlegmatic clump of fat—a lardy, expressionless biped that responds feebly if sufficiently goaded, and wonder if he contains anything that is not wholly akin to whale blubber. We are often surprised to find evidence of intelligence in such a creature, a source from which we frequently gain new ideas. We thus learn that there is good to be derived from and the possibility of worthy effort in every individual, no matter how little thought that one may apparently devote to anything outside of the limit of eating and drinking. Acquaintance usually diminishes the suggestion of pork. Therefore we should not pass judgment on the qualities of human character without a thorough diagnosis.

VISIT TO IOWA

Comparison of Conditions Favors Nebraska.

AS GOOD LAND CHEAPER HERE

Iowa Has Disadvantage of Higher Priced Soil and No Better Crops of Markets.

During the past week the writer has been down in central Iowa and while there took some notes of crop conditions and land prices. In crops we cannot see where that country has any bulge on eastern Nebraska as a crop producer, but when it comes to land prices we are hardly in the reckoning. Eastern Nebraska, or more particularly speaking, Wayne county, has just as good corn as the counties of central Iowa; she has just as good or a little better oat crop and when it comes to grass we can show up with that or any other section. In other words, acre for acre Wayne county land will feed just as many hogs or cattle as will the country referred to and the price of the land is not nearly so great. Down in central Iowa very little if any first-class land can be had for less than \$80 per acre and at that price will not be very close to a good town by railroad and the best lands within easy distance of good towns is worth from \$100 to \$150 per acre; that nearly takes away your breath don't it, well it is true just the same. The market price of fat cattle or hogs is but a trifle, if any better than here and yet the cost of producing the raw material from which beef and pork are manufactured is greater than with us, but those people do not think that their lands are too high and if they are not Wayne county lands are too cheap. We expect some fellow will jump up and say so many have any right to compare central Iowa with drouth stricken, pop. ridden Nebraska, but we are in a position to demonstrate some things to those not well informed along this line and shall take great pleasure in standing up for Nebraska.

COMMENDATION: In a paragraph touching the treasuryship and clerkship, the Winside Tribune, democratic, bestows the following words of praise on Messrs. Don't be an infernal hypocrite.

Grant Mears makes a first-class sber-

iff and voters will see that he is tri-

umphantly re-elected.

A. E. Littell is thoroughly equipped

by education and experience to give the

schools of the county excellent man-

agement.

Not a single case appealed from

Judge Hunter's to the district court at

its last sitting was reversed. That

shows how just have been his conclu-

sions and ought to demonstrate, beyond

a doubt that it would be poor policy to

change the county judge.

John D. Rockefeller assures the

young men of his Sunday school that

their chances in business are just as

good as his were, and that they only

need to be honest, economical and in-

dustrious to equal his success. His

elucidations and admonitions with

reference to business opportunities

and methods for the young show the

stout wisdom and superlatively sensi-

tive common sense of the oil king. He is a

man of amazing versatility and

in town Monday. Mr Brown was for
four years county clerk and gave such
good satisfaction that after a rest up of
two years the republicans of his county
have nominated him for county treasur-
er. He is a fine appearing, pleasant
young man and we doubt not that he
will roll up a good round majority for
himself. The Republican certainly
wishes him success at the polls.—Wayne
field Republican.

The fellows who try to sidetrack the
pass issue in Nebraska, by insisting that
newspaper transportation should come
under the same ban as other forms of
free transportation, are simply entering a
plea in avoidance. The newspaper
men of the state feel that they give
value received in advertising space for
every mile of transportation and are
not influenced in the expression of their
opinions on issues between the railroads
and the people by having received the
transportation. The position of the
press of the state generally on the
granting of passes, is in itself sufficient
evidence that the transportation re-
ceived does not effect its utterance. Can
as much be said for state officials who
have been recipients of free transporta-
tion?

Charley Reynolds is a good fellow
and a capable officer, but he has no
edge on Frank Benson in any respect
and besides Frank is a republican and
as such entitled by all party ties to the
solid support of the republicans of the
county when they come to vote for
county clerk. Frank S. Benson is a
young man who is capable in all re-
spects to fill the position for which he
has been named and he is entitled to
receive the vote of his party and also
ought to get the influence of each re-
publican in aid of his candidacy. As
between Benson and Reynolds no ac-
count of the sympathy plea because of
physical disability there is no choice
and it is simply a matter as to whether
enough republican voters can be coaxed
away from supporting their own candi-
date to put the other fellow into a po-
sition that a republican ought to fill. The
whole matter rests with republicans
and if on election day they will do
their full duty there will be no democ-
rat, except county assessor, holding an
office in Wayne county after January
1, 1900. Will you be true to your
party's candidates?

The air of certainty so long worn by
the democratic candidates for re-
election as county clerk and treasurer is
not nearly so strongly in evidence as it
was a few weeks ago. As Frank Ben-
son, the republican candidate for clerk
and Bert Brown for treasurer, get out
among the people the political sky as-
sumes a different aspect to the demo-
cratic candidates. Republicans every-
where have arrived at the conclusion
that their own party has men fully as
well qualified for these places and are
much more entitled to their support

than the candidates of the opposition
and as a result are not giving much
encouragement to the democrats. It is
not the year for republicans to disor-
ganize their own party by lending sup-
port to the opposition candidates for
county offices and without republican
support no democrat can be elected to a
county office this year. Stand by your
party this year and make its position
strong in the county for next year's
campaign when a full state, legislative
and congressional ticket will be in the
field. Democrats or democratic candi-
dates never help a republican; just
remember this when you go into the
booth on election day.

It is probably opportune at this time
to call attention to typewritten letters
sent out by County Treasurer Cherry
during the campaign a year ago in which
he set forth the amount of taxes due
from the recipient and wherein he gave
the amount of taxes against the same
person for the year prior and in which
he sought either by open declaration or
insinuation to convey to the person re-
ceiving the letter that republicans and
a republican legislature were responsi-
ble for the increased taxes. Treasurer
Cherry lacked the fairness to point out
the real facts in the case, but sought to
put the republicans at a disadvantage
in order that democracy might be
strengthened in the estimation of the
voters. He failed to tell the whole
truth by not saying that a democratic
county assessor had raised the assessed
valuations of Wayne county more than
80 per cent, while the state as a whole
only got a rise of about 50 per cent, and
he further failed to show that in a
large measure the increased taxes were
due to school districts failing to adjust
their levies to conform with the great
increase in assessed valuations. This is
only one of the many ways in which he
has ever since he has been mixed in the
politics of the county, sought to pull
down republicanism in the county. It
is hardly to be expected that the repu-
blicans of the county will endorse these
tactics to ruin their own party in the
county by voting for him for re-election
to the best office in the county and by
so doing turn down a capable and wor-
thy member of their own party. Just
remember that Jack's vote and influ-
ence at all times and under all circum-
stances has been for democracy and
against republicanism, and that it is
about time to show him that republic-
ans are not being coaxed by his pitiful
personal pleas, into pulling his political
chestnuts out of the fire.

Cheated Death.
Kidney trouble often ends fatally but
by choosing the right medicine, E. H.
Wolfe, of Bear Grove, Iowa, escaped
death. He says: "Two years ago I
had kidney trouble, which caused me
great pain, suffering and anxiety, but I
took Electric Bitters, which effected a
complete cure. I have also found them
of great benefit in general debility and
nervous trouble, and keep them constantly
on hand, since, as I find they have no
equal." J. T. Leahy, druggist, guaran-
tees them at 50c.

A Successful Farmer

This is a class of men that is much talked about, and especially when one of them comes up for office. Some people think a successful farmer is a man that lives on a farm and makes lots of money. I have known farmers that never raised a good crop or had a decent house, or owned a steer worth killing, and had the poorest hogs in the neighborhood and cows that were not good enough even for the home butcher, but they made money just the same. If such farmers came up for office and subscribed liberally to the campaign fund they would be spoken of as successful farmers. No really successful farmer would ever think of buying stock of such a farmer nor would he consult him about raising a crop, and why? Simply because a tree is judged by its fruit—not by the amount it yields, but by the kind it bears. We have merchants that they say are successful merchants because they are making money. Some of these so-called successful merchants buy anything that they find is cheap and pile it into their stores any old way, sell all they can and then grow tired, and you will find them howling a closing out sale "to make room" or to quit the business. To buy clothing of such merchants is like sailing a boat that is constantly springing leaks. It is uncomfortable and a long time getting there. If you trade at this store you will do business with a successful merchant, not because we make as much money as some of those short-lived merchants, but because we have the best clothing made and the most of it. We have been successful in the clothing business for nearly thirty years and today enjoy the largest clothing trade in Wayne. Our stock is always clean and up to date and our prices are more satisfactory than the so-called "closing out at cost" sales always to be found in Wayne. We are selling more of it than ever before. Isn't that success? We are selling shoes that we have sold for twenty-seven years, and more of them than ever before. Don't you call that successful? We sell more Staley underwear each year and have sold it for twenty-nine years. You can't call that a failure, can you? The fact is that every part of our business is a success and if you will investigate you will find that the most successful men in Wayne county patronize this store. Can you afford to buy any clothing before you have investigated this store? It costs nothing to see our goods and all we ask is that you come here and we will do the rest. We now have ready the largest collection of clothing ever seen in Wayne and the prices are satisfactory in every way and you are invited here to look at it. Will you come?

The parts were well taken, the costumes were elegant and appropriate to the time when the characters were portrayed, and the play throughout was one of lively interest.

The Monte sale of male Durco Jersey hogs was pretty well attended yesterday and very satisfactory prices were obtained for the entire offering. Messrs. Mosher of Randolph, and Cunningham of this city, were the auctioneers and from all accounts got fairly as good prices as could be obtained by the imported, high toned flocks.

Gratifying word has been received by Mr. Notthrop that his daughter, Miss Helen, who is preparing herself for teacher of deaf and dumb students, has made unexpected advancement in her studies in the school at Washington city. She entered the freshman class this fall, but later found that her preparation enabled her to take up the work of the sophomores.

The Democrat offers a unique argument in behalf of Masse for county judge. Failing to find other good reasons for his election, it frankly asks the people to vote for him because he would bring business to his column. But can the Democrat complain of lack of republican patronage? It is liberally treated by a republican county board, and altogether suffers little from the fact that it espouses the cause of a minority party. It would be utterly to suppose that the Democrat's selfish plea will lead voters to turn down a staunch republican who has given eminent satisfaction as county judge.

If Omaha expects to make a success

of her Ak-Sar-Ben festivals in the future her Commercial Club will find it necessary to put a curb on her hotels in matters of charges to guests during the festival. When a hostelry like the Murray undertakes to hold people up for \$5 per day for a cheap room and board it favors considerably of highway robbery and will be resented by the people who usually go to the festival and leave many good dollars with the tradesmen of the city. Charging more than regular rates at such times about as mean a thing as can be done by any hotel or other business house and it is one of the things that will put a city or town in bad repute about as quickly as any form of graft we know of.

Chris Sodeinan, of Carroll, was in town this morning and informed us that his father, John Sodeinan, died at his home in Carroll Wednesday afternoon very suddenly of heart failure. Mr. Sodeinan was 82 years of age and was in his usual health until a few minutes before his death when the son's wife discovered him apparently lapsing into an unconscious condition when a physician was quickly summoned, but in spite of all efforts, death resulted in a few minutes. Mr. Sodeinan came to America from Germany in 1869, making his home in Michigan until about five years ago when he came to Nebraska and has since that time made his home with his children. The interment will be in Wayne cemetery tomorrow (Friday) afternoon.

You will be beggared by democratic candidates to vote for them because they are poor and need the office and promise that if you will only elect them this time that they will never ask your support again. Ain't that poverty plea getting mighty stale? Have you not been confronted with it in every campaign from some one or more of the democratic candidates for the past dozen years or more and do you notice that when one of them steps aside another steps right up to the feed rack and puts in the starvation plea. Ain't it about time that officers were elected, not because of the necessity of support, but because of their ability to properly administer the affairs of the office without regard to the emoluments thereof? Have you ever stopped to consider that if you are a republican and have any favors to grant they should go to the man who stand shoulder to shoulder with you when it comes to upholding the policies you believe in? That you should endeavor to strengthen your own party by supporting its candidates instead of weakening it by giving your support to the men who seek to tear it down? Think over some of these things before you vote.

Probably many of our readers are not aware of a law regarding the registration of births and deaths that took effect October first. Under the law now in force it becomes the duty of any undertaker or person in charge of a funeral to file a certificate of death together with cause thereof with the registrar of the district in which deceased resided at time of his death and such registrar will then issue a burial or removal permit without which no sexton or superintendent of cemeteries shall allow the interment of any body. In cases of birth the physician or person in attendance must make out a certificate of such birth and file same with registrar, and in case of such person failing to make out and file such certificate it is the duty of the parent or householder where birth occurs to make out and file such certificate within three days after the birth of child. Noncompliance with the law in either of above cases subjects the person or persons whose duty it is to perform this duty to a fine of not less than \$10 or more than \$100, or be imprisoned for not more than 60 days or to both fine and imprisonment at the discretion of the court. B. F. Feather has been appointed registrar for the eastern half of Wayne county.

In talking with a prominent business man a few days ago regarding the prospects for the election of the republican county ticket this fall he gave expression to some things that republican voters ought to consider before voting for any man not on their own ticket. "Why," said he, "Jack Charry and Charly Reynolds are good fellows but does that make them any more fit for the places they seek than Bert Brown and Frank Bausner? Before election they come to us republicans and ask us not to be partisan in county matters and as soon as election is over and if they are elected, the cry will go up all over the county from democrats, 'Wayne county has gone democratic; we have elected our men to the two best offices in the county.' Vote for them! well I hardly think so. I am a republican and I don't propose to be used by democrats for the same purpose that men use a fork in a cow stable. No sir, there is not a candidate on the republican ticket that does not deserve the support of every republican in the county and if we want to see republican politics prevail in the nation we must vote for our own men. Show me a democrat that don't vote his ticket just as he takes his whiskey—straight, and then maybe I'll begin to think differently."

A SUDDEN DEATH.
L. L. Lush died of heart failure at his farm residence, two miles southwest of Wayne, this morning at 7 o'clock. He was taken suddenly and seriously ill during the night. The past week he had apparently been in his usual health, though for some time he has complained somewhat of heart trouble. He was about 67 years of age, and leaves a wife and two sons and three daughters to mourn his loss. Another son died in the Philippine service.

Mr. Lush moved here with his family from Iowa about eight years ago and was a citizen of high integrity, enjoying the esteem of a host of friends.

As we go to press the funeral arrangements have not been made.

A SUGGESTION.
Editor Herald:
I would suggest that certain interested parties call a mass meeting to form a Citizens' Protective Association for the purpose of pledging themselves to unite in sharing all necessary expense for prosecuting any of our cattle "barons" who are in the habit of driving unruly and vicious cattle on a mad run through the main street of our city.

Also to petition our city council to pass an ordinance regulating the speed of such animals and the unnecessary noise which they are in the habit of causing in order to force the animals on a run, without regard to pedestrians or teams.

A suit for damages after some one has been crippled for life or killed would not be much satisfaction, consequently I think it a good plan to curb the enthusiasm of certain cattle drivers before some one is seriously injured.

Respectfully,
H. G. LESENHORN.

Fifty Men Are Miraculously Saved from Deaths.

Advised received from Pueblo, Colo., state that a defective electrical condenser started a disastrous fire at the Fremont coal mine near Edwards, Colo., Saturday night. All the works, save the shaft, were destroyed.

By the prompt work of their companions the miners who were in the underground workings of the Fremont mine were rescued and taken to the surface by a shaft which was being slowly lowered.

The men were in the mine working Saturday when the fire started and were unable to get to the surface by reason of the flames having stopped the main shaft. Six hundred of the men were rescued and taken to the surface by a shaft which was being slowly lowered.

Superintendent McCallister and twenty men were rescuing the men in the shaft, one at a time, the work being so slow that only two were raised in an hour. It took the combined strength of twenty men to hoist one of the miners from below.

At a late hour Friday night nearly all of the men had been brought out, and the rest were in no danger.

All of the buildings, including the electric house, blacksmith shop, boiler house, main shaft, etc., were totally destroyed. The property loss is about \$75,000.

The meeting of directors lasted all going behind closed doors. It was admitted that a disastrous rain would be inevitable Friday and the only course was to liquidate at once. The loan of \$100,000 by the Peoria clearing house was tied up in such a way that it could not be accepted. UNCOVER A STEAL

Prominent Peoria Educator Involved in Big Theft.

N. C. Doughtery, for many years superintendent of schools at Peoria, Ill., and one of the most prominent educators in the country, is under arrest, following an indictment by the grand jury charging forgery.

Doughtery was released on a \$5,000 bond. His arrest follows most astounding revelations by the grand jury, now in session, which has been examining the books of the Peoria school board. With a comparatively brief space of time a shortage of \$75,000 was discovered. A further discovery was made that the peoria schools have been extorting a long time of years. The shortage will reach hundreds of thousands of dollars.

The arrest followed an investigation by the grand jury on charges brought against Prof. Doughtery that the accounts of the school funds which were reported in the book of which he was president were being manipulated. The investigation resulted in the discovery that there was a shortage of at least \$600,000.

The investigation covered only the period from January, 1901. The grand jury, it is stated, will investigate the entire record of Prof. Doughtery as superintendent of schools and it is believed a huge deficit will be found.

Prof. Doughtery was first arrested on a charge of forgery, the specific charge being that he had forged a check for \$114,500 per cent. He promptly furnished \$25,000 bail. The indictment and arrest on the charge of embezzlement followed Thursday afternoon, and on the charge Prof. Doughtery furnished \$25,000 bail.

Following his arrest on the charge of forgery, Prof. Doughtery sent in his resignation as president and director of the Peoria National Bank. He also sent in his resignation as superintendent of schools.

Prof. Doughtery's arrest created a sensation. He has been reputed a wealthy man, owning much real estate, considerable western land, and is connected with a number of financial institutions besides the Peoria National Bank.

STATE OF NEBRASKA

NEWS OF THE WEEK IN A CONDENSED FORM.

Franchise of the Sioux City, Homer and Southern Railway Company Expires—Hobart if the Enterprise Will be Revived.

A Dakota City special says: Hobart Saturday night the expiration of the franchise granted the Sioux City, Homer and Southern Railway Company by the board of county commissioners for the purpose of establishing a street car line between South Sioux City and Homer via this place. On March 10, 1903, the board of county commissioners decided that it was going to the limit by the proposed line, giving the company eighteen months in which to install and operate the line. During that year some work was done on the line and during the summer of 1904 the grade was completed nearly the entire way from South Sioux City to Homer and ties and rails were laid from South Sioux City to a point about a mile west of this place.

During the month of October last year a gasoline pump was installed on the line and after several weeks' work of work in trying to install passenger service, it was abandoned. On Oct. 22, 1901, Capt. R. A. Taylor, proprietor of the road, advised the board of county commissioners that he had no objection to the expiration of the franchise, but that he would like to have an extension of the time in which to complete the line. The board of county commissioners granted the extension until Sept. 30, 1905.

At the time the franchise was granted, J. S. Lawrence, president of the Sioux City, Homer and Southern Railway Company, advised the board of county commissioners that he had no objection to the expiration of the franchise, but that he would like to have an extension of the time in which to complete the line. MAN BEHEADED BY TRAIN.

Frank Miller Instantly Killed at South Omaha.

Sunday afternoon a freight train ran over and killed Frank Miller at 11 Street in South Omaha. Railroad men who saw the accident say the man was walking north on the tracks when the train from the south whistled and he stepped from one track to another and was struck by the engine.

(So badly was the body mangled that a description of the remains could not be given.) A portion of a woman was also found. The man was a laborer, but there was nothing to show who he was, except a receipt for \$1 paid to Sheldon & Landon, Omaha, on July 15. On this receipt the name of Frank Miller was given.

Monday evening the man was positively identified as Frank Miller, a laborer who was formerly employed in the Omaha building plant. He was a member of the Ancient Order of United Workmen, lodge No. 96, and was unmarried.

ROBBERS LOOT A TRAIN.

Great Northern Overland Held Up Near Seattle, Wash.

The Great Northern overland train leaving Seattle at 8:20 Monday night, was held up by the express car dynamited about five miles from Ballard, at 8:54 p. m. It was 11 o'clock before the train pulled into Edmonds, and major damage was done to the engine, the express car and the passenger cars. The train was carrying 100 passengers, and the robbers, who were armed with shotguns and revolvers, and led by trained bandits, went in pursuit of the band of robbers. Two boys who attempted to help the passengers while the adult bandits demanded the through fare in the express car were shot. Monday it is reported that the highwaymen obtained a big shipment of gold from the Alaska bank, amounting to \$100,000, as estimated at the way from \$200,000 to \$300,000.

Three men, well dressed in rain coats and wearing slouch hats, did the work. Commander Grant's report of the holdup shows that at least seven men were in the gang that committed the robbery. The conductor believes three or four of the gang were hidden in the train, but did not have any positive proof. When one of the robbers began to demand the first explosion being a big bang, the second of twelve, and the third of thirteen. No one was injured seriously, although a continual fire of revolvers was kept up. After securing the contents of the safe the robbers made their escape in an orderly manner.

The train was delayed and the engineer showed the crowd of people gathered over the holdup and the robbers at the head of the train. When the train stopped two of the robbers jumped off, making the engineer and the train follow, and all the robbers returned to the train. The robbers then returned to the train and the train proceeded on its way. The robbers were captured at Edmonds. The robbers were captured at Edmonds. The robbers were captured at Edmonds.

Washington Gossip.

Officials of the State Department are looking at the Cuban situation with feelings akin to dread. Notwithstanding the policy, so hard to uproot from the minds of some people, that the administration would be glad of a valid excuse to pave the way to bring Cuba under the flag, it is fear rather than hope that besets the officials of state. Cuba until the last election period was moving upward in an orderly, prosperous course, and there was genuine satisfaction in American administration circles over the apparent soundness of the fruit of the tree of independence. The passions of the people, so easily aroused in other Latin-American republics, seemed in Cuba to be checked by an unexpected conservatism and a sincere desire to have the world know that the mixed races occupying the island were worthy of the gift of freedom.
