

FOOTBALL GAME

Wayne Plays First Game at Pierce.

NEITHER SIDE MAKES A SCORE

Both Teams Made Creditable Showing and Were Witnessed by Appreciative Spectators.

The Wayne football boys, recently organized, played their initial game with the Pierce team, on the latter's grounds, Monday afternoon resulting in a tie, neither side gaining a point. The Wayne team came near scoring in the first half of the game and Pierce did the same in the last half. Pierce substituted with a couple of fresh men during the contest while Wayne played from start to finish without change. (This gives grounds for suspicion that the latter had the stronger team.) There were no fancy plays, but hard work throughout, no one being killed nor even injured for life. Both sides played well, all conducted themselves with proper decorum and earned the encomiums of a large crowd of spectators who enjoyed every minute of the exhibition. The Wayne boys were treated with courtesy and hospitality by Pierce and will reciprocate when the opportunity is presented in the near future. They will play two more games this fall—one in about a week and one on Thanksgiving day, both games at this place, with Pierce and Winside as outside contestants.

Here is the line-up of the Wayne team: Perry Hughes, center; John Aze, right guard; Ernest Nichols, right tackle; Wm. Von Seggern, right end; Percy Strahan, left guard; Perry Theobald, left tackle; Robt. Mears left end; Rev. Thos. Osborne, quarter back; Frank Skoen, right half back; Robt. Melloy Jr., left half back; Paul Harrington, full back.

Miss Brown of Fremont, is here visiting the family of Fred Brown.
Man Peters and wife of Randolph, were in town Tuesday afternoon.
J. I. Alger of Greeley, Colorado, arrived here Friday evening on business.
Frank Weible, one of Winside's rustling merchants, was in the city Tuesday.
James Chase of Pilger, was in town Tuesday visiting his parents, brother and sister.
Mrs. John Harrington went to Boone, Iowa, Tuesday to visit her sister who lives there.
Miss Libbie Ellis gave a pleasant tea party Friday evening in honor of Miss Hattie Weber.
Mary Mason entertained a party of lady friends at her home in the city Friday afternoon.
R. F. Williams arrived home Monday evening after a two weeks' visit in Missouri and Iowa.
Henry Hodson returned Monday from Illinois where he had been called by the death of a sister-in-law.
George Lundburg and wife of Lyons, were Sunday visitors in the city at the home of the former's parents.
Fleethood & Johnson have finished moving their furniture stock into the new building of Philo Graves.
Mrs. Dunn of Breckenridge, Kansas, has been in Wayne the past week visiting her aunt, Mrs. Jas. Britton.
Judge Hunter and son went down to Crystal Lake, in Dakota county, last Friday to enjoy a few days' hunting.
W. H. Nangle came over from Sioux City Monday, called here by the very serious illness of his father, E. J. Nangle.
Mr. and Mrs. C. A. Grothe arrived home Tuesday morning from Grand Island where they had been visiting relatives.
The ladies of St. Mary's church are preparing to give a big supper on the evening of November 25. Plans will be announced later.
T. A. Berry, the well known auditor for the Edwards & Bradford Lumber Co., stopped in Wayne Monday on his way to Randolph.
C. H. Chase and wife and Mrs. McLeod of Stanton, were in the city the latter part of the week visiting with E. B. and Cheney Chase.
Edward Anker, son of S. E. Anker, returned Monday from Omaha where he underwent a surgical operation some weeks ago. The operation was very

successful and his recovery is complete. B. F. Payne and wife were in Chicago the latter part of last week buying some new machinery for their Wayne laundry.
George Damon of Council Bluffs, was in town Tuesday looking after his dry goods customers and seeing that their wants were supplied.
Miss Mary Bayr of Wayne, who has been a guest of her sister, Mrs. Thomas, for the past two weeks, returned home Thursday.—Pender Republic.
F. S. Welch has this week moved his jewelry stock into the rooms vacated by Dr. Gamble who is now located on the second floor of Judge Moses' building.
Joe Heneshep went to Chicago Monday to have another operation performed as the result of injuries received in the railroad wreck on the Bloomfield branch some months ago.
D. O. O'Connor, for several years superintendent of the Norfolk schools, has received the appointment as superintendent of education in Panama. The plan was secured by Senator Burkett.
Mr. and Mrs. S. M. Cutler wish to express their gratitude to Wayne people who made liberal cash and other donations to them on the occasion of Mrs. Cutler's birthday anniversary last Friday.
Democrats are congratulating each other on their ability in getting republican votes for their candidates and against the candidates of their own party. It must be admitted that they have good grounds for congratulations.
Miss Hattie Weber left Saturday morning for Boston, Mass., where she will attend the New England conservatory of music. She was accompanied as far as Sioux City by Mr. and Mrs. Weber who returned home Monday morning.
John G. Neihardt of Bancroft, and his sister Lulu were over Sunday visitors in Wayne at the home of Charles Culler. John is becoming somewhat famous as a contributor of Indian and other stories to some of the best of the current magazines.
Tom Pringo of Winside, was in town Friday and says corn picking is progressing very satisfactorily and that the yield is from 20 to 40 bushels per acre. The corn in his part, like much of the county, is badly down and picking is not a very easy job.
A petrified man was exhibited in a covered wagon stationed on Main street Saturday afternoon and a considerable number of people satisfied their curiosity. This petrification is dead—dead as Adam. One often reflects that all petrified bipeds are not dead.
While Wayne has sent quite a goodly number of men to Lincoln to receive the "jag cure," from reports in circulation around town of some recent doings, it would seem that she has yet several who ought to travel the route and doubtless will if they do not call a halt.
W. W. Thurston, a former proprietor of the hotel Boyd in Wayne and who until lately has been running a meat market and grocery store at Onawa, Iowa, was in Wayne Saturday. Having sold his business at Onawa, he is now traveling for a Sioux City wholesale house.
The weekly review by the New York commercial agencies shows unprecedented prosperity in all parts of the country. The harvest of big crops, good markets, reasonable weather and industrial activity have combined to make times better than they ever were before in the history of the country.
The Carroll Index suggests that Jack Cherry is either very popular in Wayne or else the slump from Bert Brown was caused by dissension in the ranks of the republican party in the city. Probably there was a little of both that brought about the result indicated and it is not particularly to the credit of the outters.
The HERALD omitted mention last week of the meeting of the Minerva Club at the home of Mrs. Wilbur on the 7th inst. The ladies were pleasantly entertained and excellent refreshments were served. They had an enjoyable meeting this week with Mrs. L. W. Roe. This club has begun a study of the history of France.
The two burglars who were captured at Wakefield after they had dynamited a safe in Matojka's saloon, waived preliminary hearing at Ponca and were bound over to the district court with bonds fixed at \$2,000 each. Both of the men are identified as notorious robbers and one of them is wanted at Minneapolis to answer to a charge of murder.
Miss Topping, matron of the Florence Ortitenden home of Sioux City, for women and children, was in the city the latter part of the week on her way to Bloomfield to look after a father who a few months ago threw an unfortunate daughter on the mercedes of a not too sympathetic world. The father was at one time a respected citizen of this county.
If we all agreed in opinion on politics, religion, society, business and methods of development, what a humdrum existence this would be. Our contrary opinions clash and we try to convert others to our way of thinking, and yet if there were absolute harmony of thought life would be a monotonous, dreary ordeal, and there would be no progress.
Marshall Miner furnished lodging Saturday night for four young fellows who got too much "jag juice" aboard. They were strangers here heading corn and after drawing their wages Saturday

evening thought to have a good time and landed behind the bars. Sunday morning they were turned loose and probably their mothers will never know that their darling boys occupied a drunkard's cell in a common saloon for a night.
Workmen are busy getting the new front ready for the building known as the Davies bookstore now owned by Phil Kohl and that will soon be occupied by C. A. Berry with a stock of books, wall paper, toys etc. The new front will be plate glass and will add greatly to the appearance of the building and make it much easier to display goods and greatly increase the light on the inside of the room. Mr. Berry has purchased a great deal of his stock and expects it to commence arriving in the very near future.
Skeen & Houser have been busy the past week surveying and laying off the streets, alleys and lots of the new addition to Wayne, to be made out of the Connable acreage recently purchased. This addition will have some very desirable lots and doubtless the promoters will find ready sale for them when they are ready to offer the public an opportunity to buy. Town lots in Wayne have been in pretty strong demand for the past few years and anything offered at reasonable prices has readily found buyers.
An editor says a brother editor died and slowly wended his way to hell. The devil met him and said: "For many years hast thou borne the blame for the errors thy printers had made in the paper. They have deviled thee on Saturday for wages when thou hast not a red penny to thy name. Men have taken thy paper without paying a cent for it; yea, verily and cursed you for not issuing a better one. Thou canst not come in. In this place there would be a continual dunning of delinquent subscribers, as hell is full of them, and the sad wailing of the town killers would be like unto an amateur band playing a dirge rag time. Begone! Heaven is your place."
The new firm of Marsteller & Peterson have a new ad elsewhere in this issue of the HERALD, calling your attention to their great hardware stock. The involving of the stock of J. E. Marsteller and that of Peterson & Berry has been completed and the new firm formerly occupied by Mr. Marsteller. The firm is composed of J. E. Marsteller and Luther Peterson, both well known to our readers as men of undoubted integrity and able business men and it is safe to predict success for them in the combination of the business of the two old firms. They are courteous gentlemen who will see that every customer gets a fair deal in every transaction and their guarantee on any article can be accepted as absolutely good.
Evangelistic meetings have been in progress during last week and this in the city, in charge of the ministers of Wayne. No town or city of the size of Wayne in the state of Nebraska is better provided with good churches or more thoroughly equipped than they are. The pulpits are filled with ministers who are conscientious, able men and every Sabbath the church goes are treated to very able sermons that really ought to fill every house of worship to the limit of its seating capacity. You can hear as good or better music in our churches than in many of the noted churches of the city and many times the sermons are powerful expositions of the word of God. Every person having the best interests of the city at heart ought to lend encouragement by their presence to the efforts of these noble workers. No minister or public speaker of any kind does his best when faced by empty seats. It is the crowded house that inspires the speaker to greater effort, to nobler thoughts, to better work. Your presence aids a good cause.
The residence section of Wayne cannot be equaled by any town of its class in the state. In fact the best dwellings here, with their neatly kept yards, will compare favorably with the best in Omaha and Lincoln. That is no dream, but a statement, the correctness of which an investigation will prove. Several elegant and costly residences have been built the past year and others are nearing completion. The town has long excelled in fine residences, but of late years has added greatly to its distinction along that line. In striking contrast to the attractive and commodious homes, however, are the two public school buildings which ordinarily would be deemed inadequate to the worthy purpose for which they are used, in a town half the size of Wayne. Twenty years ago they were doubtless on a par with surrounding structures and made a creditable appearance. There is still a suggestion of paint and there is evidence that the artizan skill originally piled in the construction of the school houses was in keeping with the era in which they were built. But succeeding years of progress have left them far in the rear. Now they look like the ramshackle, tottering, decaying architectural shells of a deserted fort. A town of 1,000 population in a rich section like this, should do better. They ought to be replaced with modern buildings, having modern equipments—school houses that serve their purpose well and may be pointed to with pride. Then in escorting strangers through the elegant residence portion of Wayne, citizens would not have to refer to their public school buildings with an apology.

A FATAL FALL

Luther M. Dearborn Accidentally Killed.

WAS WELL KNOWN IN WAYNE

Visited His Father Here on Many Occasions—Prominent in Chicago Legal Circles.

Luther M. Dearborn, who was killed by a fall Thursday night, had been conspicuous in legal circles in Chicago. He had practiced law in this city since 1895, and previously for ten years had been an attorney at Aurora. Mr. Dearborn was born at Geneva, Illinois, August 5, 1838, and was educated at Racine College and the Harvard Law School, graduating from the latter institution in 1883. During three terms he was a member of the Illinois legislature. He belonged to the Illinois State Historical Society and the Chicago Historical Society. The funeral will be held at Geneva, Chicago Record-Herald. The subject of the above sketch was quite well known in Wayne, where he visited his brother Frank A. many times during the residence of the latter in the city.
Friday was the eighty-first anniversary of the birth of Mrs. S. Cutler, and a party of friends and neighbors thought it an opportune time to give the lady and her aged husband a surprise and consequently on the afternoon of that day gathered at the home in the west part of the city. The visitors went well loaded with the necessities and luxuries of life and at their departure the aged couple found themselves in possession of a purse containing a very nice amount of money and also an abundance of things necessary to pass a comfortable winter. This aged couple are most highly respected and beloved by every resident of our city who has the pleasure of their acquaintance and it is the wish of all that they may be spared to celebrate many more anniversaries.
Booze makes queer critters of what otherwise would be men. It will make a dwarf occupy more sidewalk than a sober giant, cause the limber to choke the woman he has promised to love, cherish and protect. It will put barefooted children out of doors to face the blasts of winter, or send them to bed supperless and perhaps find them early graves because of starvation and abuse. It will wreck the best business ever built and make the drinker feel like a millionaire one day and like the devil the next. It fills asylums and penitentiaries, adds to the market price of corn and lowers the worth of men. It makes millionaires of distillers and brewers and beggars of thousands, fills houses of prostitution and wrecks the lives of unnumbered young girls. Travel with it my boy, keep its company, and hell will be yours long before you pass in your checks.
Last Friday night when Agent Wm. Sobrumpf was assisting in loading some heavy trunks on the 7 o'clock train, one of the largest ones fell on his left foot and smashed it badly. The railroad company sent him a helper and with the assistance of Alex. Gabler, who takes him up and from the depot in a buggy, he continues to look after the affairs of the depot. The foot is still in the cast and it will be some time before he can have it removed. One evening last week Neva Benschoof, the young daughter of Mr. and Mrs. Curtis Benschoof accidentally swallowed a safety pin. The parents did not seem to realize that the pin would cause any serious trouble, until Monday, when they took her to Dr. Cherry and with artificial light and mirrors, he located the pin in the vocal cords. Tuesday morning Mr. Benschoof took the little girl to Sioux City and had the pin removed. Mrs. Frank Perlin arrived home from the Clarkson hospital in Omaha last Thursday evening. She is regaining her strength quite rapidly and it is thought that a permanent cure has been effected this time.—Winside Tribune.

THE INVESTOR'S OPPORTUNITY

More Gold Found

Two Veins Cut in Less Than Thirty Days

The telegram from President F. C. Dinsmore, as published last week, announces the cutting of a two-foot vein which assays ten dollars and twenty-five cents per ton. The strike is not phenomenal, but is very encouraging to the stock-holders and their friends.

MULTIPLY YOUR MONEY

About This Company

Its Possessions and Management

It has immense properties, known to contain valuable ore. We have at least ten wider and richer veins yet to open. Some of them are from 50 to 100 feet wide.

The properties are located in a gold-bearing belt. Our neighbors have cut some of the veins which will be opened by our tunnel and they contain good values. There is no question in the minds of those who have seen the properties about our having large bodies of ore.

We can market our ore at minimum cost. Ore can be loaded direct on cars from the mouth of the tunnel, or from the mill when one is erected. We can make good money on \$10.00 ore at that time.

Two veins have been cut in less than thirty days and have inspired confidence in the stockholders and their friends. Enough ore has been shipped from the surface of the veins to prove the value but no more. THIS IS NOT A PARTIALLY WORKED OUT MINE but is in the stage of development.

In addition to these true fissure veins, which are practically inexhaustible this company owns 800 acres of placer ground and a good water power. Estimates on the value of the water power alone show that it will furnish profit sufficient to pay a good dividend on the entire capital stock.

The company still needs money for development work and with which to build a mill, and will get it. It has friends in several states and its success is assured. The citizens of Wayne are fortunate in having an opportunity to secure some stock at development prices.

The company is noted for the honesty, economy and ability of its management and the smallest shareholder is sure of getting that which belongs to him. Those who have investigated do not hesitate to recommend it to their friends as a safe and profitable investment.

I Would Call the Attention of Those who have Options

at 20 Cents a Share

that December 1 will soon be here. All who were stockholders on September 14, 1905, are entitled to an option on twice the amount of their stock at 20 cents until December 1.

I Will Be Home November 18. Get Your Money Ready. This is Your Last Chance.

An opportunity to get stock in an energetic company with immense valuable properties and safe, clean management, at development prices. Will you take advantage of it. Others will and you should. You'll have to be prompt though unless you want to pay more for the privilege.

Samples of ore, pictures of the properties and other information can be seen at my office. I will be glad to come to your home or place of business and show them to you.

Our literature, like our proposition, is all high class and will be sent upon request. We publish a book, of interest to all, entitled Rudiments of Geology and Prospector's Guide, by Jas. H. Myers, B. A. E. M. It sells for 25 cents, paper cover; 50 cents, cloth. Cut out the Coupon for a cut price. We publish a paper which will delight your heart and will send it free to January 1 if you cut out the Coupon. Do it now while you think of it.

What Wayne Men Say

After Having Inspected the Properties

"I admit frankly that after seeing the King Solomon properties and machinery at work; its advantage gained by the railroad; its natural drainage of water from the tunnel and best of all its wide veins of ore laying open on the top of the range, that it is a fine proposition."

HENRY W. LESSMAN

" * * * They have every condition necessary to develop one of the largest mines in the state. I hold a large block of the stock."

H. W. THEOBALD

" * * * I have purchased a nice block of the stock because, in my estimation, there is no question but that in time it will be one of the largest mining properties in Colorado."

THEO. DEKOR

" * * * It is difficult to conceive the amount of ore that is possible to be uncovered by the extension of the tunnel. I cannot help but believe it will be a profitable investment, but it needs money to develop its resources."

B. E. SWAN

" * * * I was pleased to find the property greater in extent and much more promising than I had anticipated."

"I also investigated other mines near here and spent several days talking with assayers, engineers and miners and I have every faith in the mine, so much that I have increased my holdings in the company. I feel safe in recommending the King Solomon company to my friends."

E. S. BLAIR

" * * * After spending several days in looking over the property of the King Solomon Tunnel and Development company I was more than surprised with the outlook."

"I am glad that I secured more stock with the company."

TO QUIT THE CLOTHING BUSINESS

Wayne Churches

There may be a town the size of Wayne that can boast of more and better churches than we have, but if there is such a town we are not acquainted with it. We are not only proud of the buildings we have for church purposes, but the class of members and the social feeling that exists between the different denominations. Owing to our hearing being deficient, we are not able to testify how well the ministers can preach, but we stand ready to prove that no town on earth has a more sociable set of ministers than Wayne. Every minister in Wayne has been trained especially for his business, and no one would be willing to pay anyone that was not an expert to preach to them. Did you ever stop to think that you invested more each year in clothing than you pay for church purposes? Don't you think you ought to use the same judgment in selecting your clothing store that you use in selecting your minister? We have been trained and especially for the clothing business and will give you the same satisfaction that an educated minister will give you. He expects to make his work a life business and so do we. If you do as he tells you you will save your soul. If you follow our instructions you will enjoy good health and long life. Every dollar you invest for church purposes is well invested, and every dollar you invest with us is guaranteed to give you satisfaction. You cannot make a mistake to become identified with any church in Wayne, and you will soon be convinced that you have made no mistake if you patronize this store. The church will insure you everlasting life and we will insure you good health if you will wear Staley underwear. Our business could not prosper if we did not have churches. Very few men would find it necessary to have good clothing if they had no church to attend. Attend church regularly and you will enjoy a social life and have an assurance that you will be blessed in eternity. Patronize our store and you will enjoy life on this earth because you will be dressed properly and at less expense than others ask. You will meet here at all times a social and experienced person to wait on you, and this, with the fact that we have more and better clothing than can be found in any store in Wayne county, should make it a duty for you to investigate this store before buying elsewhere. STUDENTS' VERSION GIVEN.

Midshipmen Tell of Fatal Fight.

A statement coming from within the naval academy at Annapolis, Md., believed to represent the midshipmen's version of the fight between Midshipman Meriwether and Branch and the death of the latter, is as follows:

The fight between Midshipmen Branch and Meriwether was because of personal dislike and trouble between the two midshipmen, which culminated in the latter personally insulting the former.

The code at the naval academy absolutely prohibits fighting over a report. Midshipmen on duty frequently have to exercise their authority for the maintenance of the state of discipline, and it would be just as serious an offense against their code for the midshipmen to report to challenge one who made the report, as it would be for a University of Virginia student to offend against their code of honor by cheating at an examination.

A Washington, D. C., special says: The president has called upon Secretary Bourne for a report on certain features of the case of Midshipman Branch, who died at the naval academy at Annapolis after a glove fight with another midshipman.

Secretary Bourne said Friday his objection of fighting at the academy was objectionable and would be discouraged.

CRONSTADT MUTINY.

Sailors from the Warships Try to Seize the City.

St. Petersburg was in a fever of excitement all of Thursday and late into the night over the news of the mutiny at Cronstadt. Every one of the exaggerated reports of the affair received credence in many quarters; half the inhabitants of the capital believed that the mutiny was successful; that the troops sent from St. Petersburg would follow suit; and that the town of Cronstadt had been burned to the ground, together with the surrounding forts.

The place was represented as being in the hands of 8,000 sailors who had murdered their officers, seized the arsenal and bombarded the imperial palace at Peterhof across the bay. Buttery was said to have prevailed in the streets all during the day, and the rumors even went to the extent of saying that Father John of Cronstadt had left the bed on which he was supposed to be dying to lead the mutineers.

Many of these sensational reports were, of course, entirely false, but sufficient details have been received to prove that about 3,000 sailors and a battalion of artillerymen from one of the forts indicated in a mutiny which was only put down by about 7,000 Cossacks and troops of the imperial guard hastily detached from St. Petersburg and from the garrisons at Peterhof.

Before the arrival of the troops the sailors, many of whom were drunk, having plundered the spirit shops, had set fire to the market and to several groups of houses. About 200 sailors were still holding out at midnight, and although they are expected to surrender, the authorities became so alarmed that the Paul regiment of the guard was dispatched to Cronstadt at 1 o'clock in the morning.

The government officers of Cronstadt telegraphed the general staff at midnight that the mutiny had been crushed; that there was no likelihood of a renewal of the revolt; that reports to the effect that the members of the guard had joined the revolt were false, and that there was no truth in the report that the mutineers had seized the arsenal and forts.

FOR WRECKING A TRAIN.

Son of German Baron Found Guilty of Murder.

A Des Moines, Ia., special says: After an all night deliberation the jury returned a verdict at noon declaring Erich von Kutzleben, son of Baron von Kutzleben's family, of Germany, guilty of murder in the first degree.

The jury found that the defendant, who came all the way from Germany to see that her son was properly defended, was found guilty when the verdict was announced.

The specific act for which young von Kutzleben was tried was the wrecking of a Rock Island passenger train at Homestead, Ia., on March 21st, and the wrecking in the death of Engineer A. C. Honekiss.

STATE OF NEBRASKA

NEWS OF THE WEEK IN A CONDENSED FORM.

Two Lives Lost in Crash—Laborers Buried Beneath Tons of Debris—Accident Occurred in a New Building Being Erected at Omaha.

Albert Lumpkin and James McNamara, laborers, working on the fireproofing of the new Hayden Bros. building on Douglas street, between Sixteenth and Seventeenth, Omaha, were buried in nearly 100 tons of concrete and brick Monday morning, when the roof of the section of the building being erected on the fourth floor, where the men were working, and were killed instantly.

The explosion tore out the whole side of the saloon building. The crash from the explosion was enormous.

It is the belief of the officers that the two prisoners are members of the gang which has been blowing safes in South Dakota this fall. It is believed they first saw the safe at the Milwaukee and St. Paul freight depot at Sioux Falls, Sept. 28.

GRIPPEN WILL RECOVER.

Plainview Marshal Not Fatally Hurt, as Was First Reported.

A telephone message Monday from Plainview says that City Marshal H. H. Grippen, of the place, who was thought to have been fatally strangled by Farmer Carl Leiser, will recover.

Alleged Cuddey Kidnaper Will Face Charge of Shooting.

The trial of Pat Crowe has been set for Monday, Dec. 4, at Omaha. He will be first tried on the charge of assault with intent to kill Oliver Jackson, Jackson received a serious wound in the thigh.

Nearly 100 witnesses are named in the brief filed by the prosecution who are to be called in the case. Crowe is being brought to trial on the charge of kidnaping in connection with the Cuddey kidnaping.

Alleges Malpractice.

Edward Hart, of Nebraska City, filed in the district court a \$10,000 damage suit against Dr. W. T. Neal, also of that city. That was injured several months ago while in the employ of the Chicago Burlington and Quincy Railway Company.

Laborer Has Close Call.

Shortly after the track laying machine on the Great Northern Railway's new Sioux City-Ashtabula line was started from Ashland Tuesday morning for the first time the rear of one of the workmen, named Johnson, caught in the machinery, tearing his clothing all off and scratching his left arm and chest. He escaped death by strangulation only by the promptness of the engineer in throwing off the power.

House Caused a Panic.

One small mouse was the big feature of the women's Christian association picnic held Saturday night at Omaha. Three hundred women were thrown into panic when the mouse scampered across the floor. Tables and chairs were crowded for standing room.

Divorced Couple Remarry.

Mr. and Mrs. S. J. Parker, early settlers in the north part of York county and highly respected, prosperous farmers, who were divorced at the last term of district court at York, have decided they would like to get together again and have not yet decided on the date, but have petitioned to set the divorce aside, and Mr. and Mrs. Parker are living together.

Fremont Druggists Organized.

The druggists of Fremont held a meeting and organized a retail association in connection with the national druggists' association. The following officers were elected: President, Otto Polk; vice president, Dana Dodge; secretary, Frank Ross; treasurer, W. Platt.

DYNAMITERS AT WAKEFIELD

Wreck a Saloon Building in an Attempted Burglary.

Dynamiters early Monday blow up the saloon of E. E. Matjka at Wakefield, secured \$30 in cash from the safe, fled from town and were later captured three miles east by a posse of armed citizens. The yezzams were not taken without a battle, in which one of them was shot and wounded, though not seriously, in the arm. The other had been wounded in the leg.

The explosion tore out the whole side of the saloon building. The crash from the explosion was enormous.

It is the belief of the officers that the two prisoners are members of the gang which has been blowing safes in South Dakota this fall. It is believed they first saw the safe at the Milwaukee and St. Paul freight depot at Sioux Falls, Sept. 28.

NEBRASKA RETURNS

REPUBLICANS CLAIM PLURALITY OF 9,000 TO 12,000.

Lincoln: Returns from the election in Nebraska are sufficiently complete to indicate with certainty the election of Chas. B. Eaton, Republican, over William G. Hastings, fusion, as associate justice of the supreme court, by a plurality greater than in any case in the history of the same office two years ago, which was 9,127. The Republican candidates for regents ran slightly behind Eaton, but the returns show that the pluralities will not be materially reduced from those received by the regents in 1903.

It was a quiet election day in Nebraska and a light vote was polled. Officially this was the case in Lincoln, where there was much scratching. The Republicans elected all their candidates in this county, but two-private judge and coroner win by narrow margins.

Chairman Warner, of the Republican central committee, said early Tuesday morning he was not prepared to give an estimate, but that Judge Letton was elected by a greater vote than that given the ticket two years ago.

Chairman Allen, of the Democrats, said the scattering returns indicated a Republican plurality of 12,000 for the state, which, compared with the vote of a year ago, he regarded in the light of a mission accomplished.

Omaha: Practically complete reports from Douglas County show that the Republicans have been successful in every instance, electing their entire county ticket and giving a big majority for the Republican nominees on the state ticket. The Democrats held their own in South Omaha, however, but the vote there did not indicate a change in the county.

ELECTION RESULTS

McClellan and Jerome Win Bitter Fight in New York.

HEARST TO CONTEST.

Wholesale Trade Is Charged and Courts May Have to Decide.

The victory over the regular Republicans (machine) ticket was complete, the majorities being about 6,000 for each of the candidates. Many precincts were made up of the regular Republican vote, and in several instances the blood-red vote of the regular Republican ticket was the only vote cast.

New York—George B. McClellan has been re-elected Mayor of New York by about 3,000 plurality. While the city, James W. O'Connell was elected by a plurality of 3,000 over Jerome. The Democrats carried the city by a plurality of 3,000 over Jerome. The Democrats carried the city by a plurality of 3,000 over Jerome.

McClellan's victory was a surprise to many, as he was considered a weak candidate. His opponent, James W. O'Connell, was widely expected to win. The election was a bitter fight, with both sides making every effort to secure the victory.

Wholesale trade is charged with being the cause of the election results. It is alleged that large firms used their influence to secure the victory of the Democratic ticket. The courts may have to decide on the validity of these charges.

KRONSTADT ON FIRE.

GREAT RUSSIAN NAVAL PORT REPORTED IN FLAMES.

Mattinson Soldiers and Sailors Join in Revolt, Loot the City and Compel Inhabitants to Flee—Flames After Massacre.

A dispatch from St. Petersburg says that the sailors of the Russian squadron at Kronstadt mutinied Wednesday night, overpowered their officers, looted and attacked shops, public buildings and spirit stores. Troops were called out and fighting ensued, in which machine guns were used and many persons were killed or wounded. In addition a number of houses were set on fire. The fighting lasted all night. The British embassy in St. Petersburg requested General Trepoff to protect British subjects at Kronstadt.

Authentic accounts received at Odessa from various points in Bessarabia show that the anti-Jewish outbreaks there followed the same lines as at Kronstadt, varying only in the number of victims. At Kishinev the disturbances were preceded by inflammatory speeches, gendarmes and city officials near the Governor's house asserting that the Jews had attempted to take the life of the local bishop and intended to loot the treasury. The mob was thus incited to the bloody work.

Carrying books and portraits of the Emperor, the mob proceeded to Alexandrovskaya, Pushkinskaya and Gostinskaya streets, devastating and pillaging unbridled. Attempts at self-defense were prevented by the troops. Ninety per cent of the killed and wounded were victims of bayonets and rifle bullets.

DANGEROUS SPORTS AT FAIRS.

Statistics Show Long List of Accidents for Season Just Closed.

County fair accident statistics gathered by the Chicago Tribune for the season just closed point to the driving of trotting horses by amateurs as the most common cause of injuries. The most dangerous injuries are received by aerial performers. For children attending fairs the danger is in riding on merry-go-rounds and in standing close to the running track.

Tagging the States of Illinois, Indiana, Iowa, Michigan and Wisconsin, the Tribune asked 450 county seats for information as to accidents to performers and spectators at county fairs and street carnivals. Fifty-five counties reported a total of seventy persons injured, the remaining twenty counties reporting no accidents. Of the injured forty-five were performers, professionals or amateurs, and twenty-five were spectators. The injuries range from broken ribs and legs to bruises. Of the forty-five performers injured, twenty-six were hurt by the collision of sulkies in driving races and in being thrown from running horses.

The most serious accident to a driver took place at Atlanta, Ill., where Edward Stuchlik, president of the Edward County Fair Association, was thrown from his seat in a collision with a sulky, and for a time was near death. "The slide for life" a feat in which the performer slides down a wire from the top of the court house dome or other high elevation, hurt three men, and "leaping the gap" and "leaping the loop" claimed five victims.

Five of six aeromats injured have falling accidents or had trouble in landing to blame for their injuries, ranging from a crushed shoulder to a sprained ankle. One woman dressed in red tights landed near a bull, and another fell into a tree top.

The crash of vehicles at the gates to fair inclosures and the frigidating of farmers' horses by the noise and unusual sights at the grounds were responsible for the overturning of wagons and wagons and the resulting injury of six persons.

The following table tells the nature of the work in which performers were engaged when injured:

Table with 2 columns: Number injured, and Description of accident. Includes entries like 'Driving and riding in horse races', 'Aeromats in making parachute descents', 'Leaping the gap', etc.

McCLELLAN AND JEROME.

Sketches of the Mayor and District Attorney Jerome are probably the most complete of any men in New York. George B. McClellan is a son of Gen. George B. McClellan of Civil War fame and is 40 years old. He is a graduate of Princeton and a lawyer by profession, having been admitted to the New York bar in 1882. For two years he was president of the Board of Aldermen of New York City until his election to Congress in 1894. He served as a representative until 1903, when he was elected Mayor of New York on the Tammany ticket. In politics he has always been a Democrat. William Traverser, 49 years of age and a native of New York City, was educated at Amherst college and the Columbia law school and was admitted to the bar in 1884. From 1895 to 1902 he was justice of the court of special sessions and since Jan. 1, 1902, has been District Attorney for the county of New York. He is a Democrat in politics.

MASSACRED IN A CATHOLIC CHURCH.

Missionaries at Lienchow Pursued by an Infuriated Mob.

Bishop Merel, of the Catholic Church at Hienchow, has received a letter confirming the news of the massacre of American missionaries at Lienchow and giving the following particulars:

Dr. Machie requested the removal of a street theater near by the hospital on account of the noise. This request incensed the Chinese, who became violent and attacked the hospital. The mob then paraded the street exhibiting the skeleton used in the instruction of the medical class and alleging that it was an example of the foreigners' inhumanity to the Chinese people. Becoming frenzied, the crowd burned the hospital, the girls' school and the residences of the missionaries.

Dr. Machie, Mrs. Machie, their 10-year-old daughter, Mr. and Mrs. Peable, Dr. Chestnut and Miss Patterson took refuge in a cave. The mob pursued them and killed all except Dr. Machie and Miss Patterson, who escaped to the yamen. Dr. Machie was badly wounded. The American gunboat Catalo and two Chinese gunboats, with members of the American board of missions, proceeded to the scene of the massacre.

Advices from Canton declare that the measures taken to suppress disturbances in the provinces are inadequate and that the native officials will not give out any information on the subject.

The Catholic converts have written to Bishop Merel to petition the Jesuits of the province for the protection of the French mission at Lienchow.

It is declared that the boycott headquarters at Canton received the first news of the massacre of the American missionaries at Lienchow, but the native gentry assert that the boycotters are not connected with the slaughter.

GROW PECANS IN TEXAS.

Expert Says the Land Is Admirably Adapted to Culture.

The development of the pecan industry in west Texas is urged by many farmers with the great returns that can be had from the planting of the nut, says the St. Louis Post-Dispatch.

The tree will grow with very little cultivation and will bear for many years, and experts say that no crop yields a better return, especially as the land could be utilized for other crops during the time the pecans were coming to maturity.

H. A. Halbert, an expert on pecan culture, says:

"As a rough estimate we would say that an area of land in Texas in which the pecan will thrive without crowding is 20,000,000 acres. This vast area will grow half a billion of trees. At a low estimate of \$3 per tree as an annual income the total annual value would be \$60,000,000. This in pounds would be 50,000,000,000, or 1,250,000,000,000, enough to supply the world and in a few years to absorb its wealth. This estimate is made upon a basis of the low average rate in Texas and bearing qualities of the pecan wild pecan. Suppose this area was planted in the improved soft-shell varieties and the price obtained for them, these figures would be greatly augmented."

"What are the actual facts, approximately of the area covered by the wild pecans in Texas? We would estimate it at about 500 square miles, or 32,000 acres. From this area are gathered and shipped the best bearing years, in carload lots, about 700 cars, or 30,000,000 pounds. The quality shipped by express and consumed at home by man and beast will make 10,000,000 pounds. This quantity at 5 cents a pound should be worth to the State \$2,000,000. But prices are generally low on such bumper crops, and perhaps it actually brings only \$1,000,000 to the State. In my opinion nothing could be cultivated more profitably."

THE LESSER EVIL.

The death of the sculptor, Bartholdi, who is best known in America by his statue of Liberty in New York harbor, recalls an incident connected with his work. This Liberty has been called "a great girl," but it is chiefly her size which is remarkable. Her artistic merits, says the Boston Herald, were summed up by a distinguished foreigner.

"When he sailed into New York harbor he pointed to the gigantic figure, and asked: "Is that Liberty?"

"Yes," said a bystander.

"Then," he concluded, quoting Patrick Henry, "give me death!"

Indigestion Causes Catarrh of the Stomach.
 For many years it has been supposed that Catarrh of the Stomach caused indigestion and dyspepsia, but the truth is exactly the opposite. Indigestion causes catarrh. Repeated attacks of indigestion inflame the mucous membranes lining the stomach and expose the nerves of the stomach, thus causing the glands to secrete mucus instead of the juices of natural digestion. This is called Catarrh of the Stomach.

 It is not too early to begin to prepare for the campaign of next year. State officers, congressmen, state senators and members of the state legislature are to be elected and if the people will take an early interest in securing good men to make the fight for these places the office hunters and party bosses may not be able to control conventions and name men who will misrepresent instead of represent the people.
 Senator Millard is inclined to slide step a little on the railroad rate issue. Better line up old man or else get ready to step down and out. Nebraska has no use under present conditions for one that will not toe the mark. The people of the state believe President Roosevelt has the right idea about the matter and if you truly represent your state you will be found supporting a bill that embodies the president's views. That is the way it looks to most Nebraska republicans just at present.

When a day or night passes in Russia without the massacre of innocent Jews, it is deemed by the associated press an event worthy of notice. If Russia as a government, is not wiped from the map of great nations for the horrible atrocities she allows to be perpetrated in her midst, she will escape her just deserts. That men can be murdered in cold blood, innocent women and children subjected to the terrible atrocities practiced and their homes looted by hands of lawless men is a terrible condition of affairs to exist anywhere on the face of the earth in this day and age of boasted civilization, and the nation that permits it has no claim to perpetuation.
 The bureau of education maintained for several months by the railroads of the country for the purpose of educating the people of the country against the policy of governmental interference with the rate making methods employed has been disbanded. The roads feel that they have accomplished the end desired and that no interference will occur at the coming session of congress. If the railroads are right in their conclusions, it certainly reflects on the intelligence of the American people, that paid empires can succeed in scaring the country away from a much needed reform of present conditions. We do not believe that President Roosevelt can be turned aside in his determination to correct existing abuses and we believe the American people will sustain him in his stand for the required legislation.

No railroad rate is just that accorded to any class of freight a less rate than will pay expense of transportation, because a rate of that kind necessitates the putting a higher rate on something else than it should equitably bear in order to make up the deficiency caused by the lower rate granted the favored article or shipper. It is not just, or good business to tax the business of one man to pay the losses of another, and that is what occurs when a rate below what will pay expenses is granted. That is what the great American public means when it robs against discriminations. The public wants a square deal with the transportation companies, and it have will it, though it becomes necessary to supervise rate making in order to accomplish the desired end. If Nebraska representatives in the senate and house of representatives do not stand up to the rack during the coming session of congress, other men will take their places who will represent the real sentiment of the state.
SENATORS MILLARD'S POSITION
 Senator Millard has declined to say what sort of railway regulation he favors, believing it would be out of place to say what he would do regarding a bill that has not been prepared or considered by the interstate commerce committee of which he is a member. The senator denies the statement that he is opposed to the president's ideas, and says that personally he hopes his committee "can frame a bill which will meet with his entire approval."
 The Nebraska senator is evidently laboring under a misconception of his duty to his committee. Senator Foraker is a member of the senate railroad committee, and he has not done much else of late than make speeches against the president's "ideas." Senator Elkins is chairman of this committee, and he has not hesitated to declare his opposition, even to the extent of saying that he hopes to convert the president to his views. Senator Dolliver was the committee, and he has allowed no scruples to keep him from saying that he stands with the president on the railroad question; for that matter no more has Senator Oulson, who has been in the senate a long time and would certainly be expected to observe the proprieties. Senator Millard has evidently overlooked

ed these examples else he would align himself so openly as his fellow committee-men.
 Nebraska people might have been better pleased had their senator hoped his committee "will" meet the president's views instead of wishing that it "can." The committee "can" frame a bill to meet the president's views with the greatest ease. The question that is burning in the minds of Senator Millard's constituents is, will it? And will Senator Millard use his influence and vote to see that it does.—State Journal.

 Every Ounce You Eat.
 Every ounce of food you eat that fails to digest does a point of harm. It turns the entire meal into poison. This not only deprives the blood of the necessary tissue-building material, but it poisons it. Kodol Dyspepsia Cure is a perfect digestant. It digests the food regardless of the condition of the stomach. It allows the organs to rest and get strong again. Relieves belching, heart burn, sour stomach, indigestion,

Nature Needs But Little.
 Nature needs only a little Early Riser now and then to keep the bowels clean, the liver active, and the system free from bile, headache, constipation, etc. The famous little pills, "Early Risers" are pleasant in effect and perfect in action. They never gripe or sicken, but tone and strengthen the liver and kidneys. J. O. P. Jones, Chief Burgess, Millersburg Borough, Pa., says: "I never used pills in my family during the 40 years of housekeeping that gave such satisfactory results as DeWitt's Little Early Risers." No better pill was ever made. Sold by Raymond's Pharmacy.
