ANOTHER VOICE FOR THE TOWN

Main Street Improvement of Great Importance.

REMOVE SIGNS, POSTS AND POLES

Keep the Street Free From Decayed Fruit and Old Papers.—Clean Rear and Front of Business Houses.

(Contributed.)

To make Wayne more beautiful should be the desire of every citizen, and many are doing what they can to make the city up-to-date and give it a reputation of being the most beautiful city in Nebraska. No matter how many fine churches we build, or how large we make our college buildings, or how many the residences we have, with fine lawns, we cannot make strangers believe that we have a beautiful town unless we improve our business street. Eerie impressions like first love are lasting, and when anyone comes to Wayne during hot weather they are greeted at the depot with a bad smell, and as they walk up Main street it increases until the impression is made that Wayne is a dirty town. When they look up Main street and see the curbs lined with posts with all kinds of signs, they make up their minds that Wayne is a frontier town and not civilized yet. It seems strange that business men will get in every morning from ten to two hours mowing their lawns and beautifying their homes, and then go down town and throw out rotten fruit and all kinds of paper and trash in front of back of business houses. They will pay one dollar and fifty cents a month to have the street sprinkled, but will not put in one hour's work to clean up back of their stores. Merchants live on Main street for they go to their place of business at seven in the morning and remain there until 8 or 9 o'clock at night, and yet they care nothing about the cleanliness of the street or its appearance. If you want Wayne to have the reputation of being a clean, beautiful town, you must improve the appearance of the business part of the town. To do this you must have the sympathy and interest of the mayor and council in this work. Begin at the depot and take out every post with a sign and pass an ordinance that no sign shall extend in the street for any building further than three feet. Then compel the Nebraska Telephone company to remove their telephone poles to the rear of business houses and as the city of Wayne is going to rewire Main street, have the poles put up in the alley. The Nebraska Telephone company is now using only a few wires on Main street so it will not be a great expense for them to take out their poles and place them in the alley. Request the council to remove their unsightly advertisement on their building and all others that are using their store buildings for a billboard. Have the marshal arrest anyone that tacks up advertisements and also anyone that throws out any rotten fruit or any paper on the street. Compel every merchant to clean up his back yard and ask them to rake it well and throw a few cents worth of blue grass seed around their store building and in a short time they will have a lawn back of their store that they will enjoy as well as they do the one they have at home. Now clean up Main street and make the job man wash his face in the alley instead of in front of a business house. With the road machine make a clean sweep up to the curb and the street will soon be dry and smell as sweet as the residence part of the town. Then and not until then will Wayne take its place as clean, up-to-date town. To do all that is here stated will not require much effort and but little expense if the authorities of the town have the nerve to pass the necessary laws and enforce them. This is an opportunity for the Commercial club to do something that will be greatly appreciated by every citizen of Wayne. Make Wayne's business street look like an up-to-date town and you will hear from everyone who comes to Wayne nothing but praise, and our reputation will extend beyond the border of the state as a clean town and a desirable place to live in.

Clean every alley in town and remove all signs outside of town during hot weather, and make everyone keep their sidewalks in repair and if everyone will take an interest in keeping their lawns mowed and free from dandelions we will have any town in the state for looks and cleanliness. Nature has done much to help us, for we have a beautiful town-site and anyone coming into Wayne will be pleased with the sight from the cars as they come in, which impression will be lasting when Main street is clean and improved as here described.

This reputation Wayne has of being a good town will not suffice. We must make improvements that are now demanded to keep up with our growing city or we will lose our high standard and will suffer in many ways for our neglect. Posts with signs on them in front of stores were alright years ago, but we have passed the frontier style of town and are a young and growing city with the best college in the state and churches that cannot be equaled in a town of our size in America. We will soon have school buildings no one need be ashamed of, and then we can claim,

without boasting, that Wayne offers the best of everything to anyone desiring to live in a beautiful, clean, moral, up-to-date town. Let us see who can be the first to make improvements on Main street, and don't wait until the mayor and council have done their part in removing all posts and signs which are now obstructing the street.

ONE OF THE CITIZENS.

THE CLOSE OF SCHOOL.

Programs for the close of the city schools have been arranged and will be up to the usual standard. The class sermon will be delivered Sunday evening, May 27, by Rev. Thos. Osborne, of the Presbyterian church. The class play will be presented Thursday evening, May 31, and the final program Friday evening, June 1, when an address will be given by Rev. Swearington, a Lincoln orator of exceptional ability.

The following young people comprise the graduating class: Jennie Olmsted, Florence Barber, Florence Cross, Hattie Hunter, Pauline Braunger, Clara Moran, Winnifred Northrop, Winnifred Pawliski, Wm. Forbesland, Beverly Strahan, Will Corbes and Lon Lundberg.

BURNED TO DEATH.

A special from Tilden to Monday's Norfolk Daily News: A tragic and fatal fire occurred in Tilden at ten minutes before 6 o'clock this morning, resulting in the death of Menno Bohlsen, a German, thirty-five years of age and a veteran of the Spanish-American war, who was burned to a crisp. He slept in the building that burned and could not be rescued.

The building that burned was an old frame shack that stood at the east end of the town. It was stored with paints and inflammable materials. The fire was discovered at 5:30 o'clock. Tilden has no fire department, and the work of saving the building and of trying to save his life, devolved upon citizens, who turned out en masse.

The building was broken into, and windows were shattered, but it was impossible to rescue Bohlsen and his body was a crisp when found.

The dead man was unmarried. He belonged to the Sixth Illinois volunteer regiment which fought in the Spanish-American war.

But for a strong south wind, a block might have gone, as the burned building stood between two structures, one a livery barn.

Coroner Kindred of Meadow Grove was immediately notified and arrived in Tilden before noon to hold the inquest.

WAIT FOR HUNGER.

Good Advice From Raymond as to How to Create an Appetite.

Any physician will tell you that it is unwise to eat unless one is really hungry. It is far better to miss a meal than to eat without appetite.

But do not take a tonic, stimulant, or appetizer to make you hungry. Raymond says that the best way to create an appetite is to restore the digestion to health by the use of M-I-O-N-A stomach tablets, a remedy that he has used with the best of satisfaction.

When M-I-O-N-A is used, the irritation and inflammation of the stomach will be soothed, the gastric follicles will be strengthened so that they will pour out the natural digestive fluids with regularity, and the food you eat will be perfectly digested without distress.

A large box of M-I-O-N-A stomach tablets is sold for 50 cents by Raymond and it is so successful and reliable in curing indigestion and other stomach troubles, with the exception of cancer of the stomach, that he sells it under a guarantee that the money will be refunded unless it does all that is claimed for it.

If you have any stomach weakness, here is an opportunity to be cured without risking a cent yourself.

The Hans Hanson Co. carry good music. A magnificent band and orchestra.

BOARD OF EQUALIZATION.

Notice is hereby given that board of county commissioners, the county assessor and the county clerk will sit as a board of equalization, commencing Tuesday, June 12th, 1906, for the purpose of reviewing the assessor's books and hearing any and all complaints regarding the assessment of property, both real and personal.

The board will continue in session for not less than three days, and all complaints must be made at this time.

Dated at Wayne, Nebraska, this 14th day of May, 1906.

(Seal) CHAS. W. REYNOLDS, County Clerk.

Mr. and Mrs. Frank Berry, Mr. and Mrs. Ed. Johnson and Mrs. D. E. Newton are enjoying an outing at Crystal Lake this week.

Wm. Piepenstock, Otto Voget, Sr., and H. Koch went to Omaha Tuesday morning to attend a meeting of the Sons of Herman.

Messrs. Young & Porter have received the contract for building the new dormitory at the college, the total cost to be about \$10,000.

The Wayne and Magnet high school ball clubs crossed bats at this place Saturday afternoon, the latter proving victorious in a score of 11 to 10.

Graves Judges of Ponder is being favorably mentioned by the democratic press as a suitable man to run against the republican nominee for congress.

A system of waterworks is being installed at Newstead, one of the most substantial and prosperous business points in this corner of the state.

D. E. Miller and D. A. Jones left Tuesday morning for the Big Horn country, Wyoming. Ralph Randall accompanied them as far as Omaha.

Mrs. C. E. Tower of Papillion and Mrs. J. Tower of Laurel were guests of the families of Dr. Williams and W. O. Gamble in Wayne over Sunday.

Richard Kero returned from Wayne this morning. He is seriously thinking of going into business over there and may remove there soon.—Pender Times.

A hill of soap has been discovered near Savage, Neb., and it is proposed to organize a company and build a factory. The soap is very much like sapollo.

Rev. Thos. J. Osborne who has been absent in the western part of the state for a few weeks, will return to preach in the Presbyterian church next Sunday.

Advertising in Wayne has fallen off so that the papers there printed supplements only half the usual size last week to catch the overflow.—West Point News.

The annual convention of the Wayne county Sunday School association will be held at the Presbyterian church in Wayne Wednesday and Thursday, May 23 and 24. An interesting program has been arranged.

Mrs. Henry E. Evans, formerly of Wayne, now living near Bloomfield, suffered the dislocation of one of her hips, Friday evening while driving home. Her team suddenly jumped, throwing her out of the buggy.

The Norfolk district conference was held in Wakefield last week. Among other business was the report of the presiding elder who showed that very satisfactory and encouraging progress had been made along all church lines.

Chas. Schultzeis, Henry Ley and Phil Kohl spent a few days of this week at

Crystal Lake in Dakota county. It is understood that Mr. Ley is there to build a cottage on the land which he recently bought.

Dr. Ellis and family, Dr. Nieman and daughter, Miss Edna, and Mrs. J. F. Jeffries were among the Wayne people going to Omaha Tuesday morning. Dr. Ellis goes to attend a meeting of dentists and Dr. Nieman a meeting of doctors.

It looks as though Omaha would have five active candidates for United States senator—Rosewater, Wattles, Greene, Webster and Millard, and it further looks as though the editor of the Bee would easily prove the strongest one of the five.

The driver on one of the rural routes out of Winside complains that the road he is compelled to travel is almost impassable in places, and it is expected that patrons served by the line will be out of unless the thoroughfare is speedily improved.

Will Wintz, who has been at Wayne for some time, departed last week for a trip to see some of the country. He is visiting Denver and other Colorado points and a letter this week says he is in New Mexico. He will also visit Texas and Oklahoma.—Randolph Times.

A citizen, inspired by the article in last week's issue urging efforts to beautify Wayne, suggests the organization of a "Municipal Improvement Association." The idea is for united and systematic endeavor in the interest of cleaner streets and alleys and more attractive yards.

The commissioners of Dakota county have been asked for another franchise for the building of the proposed electric line from South Sioux City to Homer. A former franchise expired several months ago. It is said if the request is now granted the electric line will be completed and in operation by July 1.

About forty delegates attended the district missionary convention of the M. E. church Saturday and Sunday. The papers and discussions aroused much interest. One of the best features of the convention was an address Sunday evening by Rev. E. E. Carter of Bloomfield, his talk being illustrated by stereopticon views.

Sheriff Stucker was told by Alex Peters, of Norfolk, Monday, that a span of horses had been taken up as estrays by a farmer living near Warnerville. The sheriff went and found that the horses were one of the teams that was stolen from a farmer east of Hoskins and returned them to their owner.—Stanton Register.

Mrs. Wheelock, state president of the W. C. T. U., gave a very interesting talk in the M. E. church Monday afternoon and another equally as good in the evening. The attendance, however, was small, due perhaps in part to threatening weather, but probably mainly to indifference. The speaker's ability merited a large audience.

E. E. Olds attended a sale of thoroughbred Aberdeen-Angus cattle at Mondamin, Iowa, last week and bought four head of as good cattle as there was in the bunch. They arrived Saturday and Mr. Olds came to town after them. He believes in stocking his farm with good stock and is one of our most progressive and up-to-date farmers.—Winside Tribune.

Another fire was discovered under the stairs in the opera house building last Wednesday night but was put out before any damage was done. There seems to be something mysterious about these fires as the manner in which they started cannot be accounted for. This is the second time a blaze has been discovered in this place.—Winside Tribune.

The last letter received from Charley Bright, who is in the Philippines, by relatives here, conveyed the news that he had been in a hospital for three weeks recovering from the effects of an operation for appendicitis. As it takes thirty days for a letter to come from there he probably had entirely recovered by the time friends here heard of his misfortune.—Winside Tribune.

Since the earthquake and fire at San Francisco there has been an increase in marriages which is said to be due to the destitute condition of the women, who having lost all, and no prospect of immediate employment, are glad to marry most any old thing in order to get a home. Some of the applicants, when asked where they lived, said, "I don't live anywhere. I used to live in San Francisco."—Beemer Times.

Mr. Beebe, proprietor of the cement works, reports that he has not as many contracts for cement walks as he had expected. Many people who have divested walks, say they will have them replaced with cement before long, and the delay is causing considerable disappointment to Mr. Beebe. In the interest of the town, cement walks should be built where old ones are now tolerated.

Ed. Matejka did not open his saloon last Friday morning and since then Wakefield has been a "dry" town. Mr. Matejka is to be commended for his action in the matter for he has shown himself to be a law abiding citizen by closing his place of business when convinced that he was in the wrong. The license money paid by him was returned and he in turn gave up the license issued to him by the old board. This now leaves Wakefield without a saloon and the only thing now on tap in the thirst-quenching line is city water, soda water, pop and red lemonade.—Wakefield Republican.

LIGHTNING DOES SOME DAMAGE

Orr & Morris' Store Building Loses a Chimney.

FARM RESIDENCE ALSO STRUCK

No One Hurt, but Many Badly Frightened.—Did Not Catch Fire.—First Severe Storm of the Season.

The first violent thunder and lightning of the season accompanied a heavy downpour of rain here late Monday afternoon. During the storm lightning struck and shattered a chimney on the building occupied by Orr & Morris' store and the Bell Telephone company. No one was hurt, though the occupants of the building didn't feel very comfortable for a few moments. Lightning also demolished a chimney on the farm residence of John Gustafson, three miles northeast of town. Members of the family of Jens Anderson, living there, were sitting around a stove and were considerably frightened, but escaped injury.

CITY COUNCIL.

City council met in regular session Monday evening with all members present.

NOTICE.

In the District Court of Wayne County, Nebraska.

In the matter of the application of George F. Reinking, guardian of Mildred A. Jones and William O. Jones, minors, for license to sell real estate of said minors:

On the 11th day of May, 1906, this matter came up for hearing upon the application of George F. Reinking, guardian of Mildred A. Jones and William O. Jones, minors, for license to sell the real estate of his said wards, situated in Wayne County, Nebraska, to-wit: The undivided one-twentieth interest of each of said wards in and to the east half of section two (2), township twenty-five (25), range two (2), east of the sixth principal meridian, and to invest the proceeds thereof at interest or in some productive stock for that it would be for the benefit of his said wards and their estate and said real estate be sold and so invested, and was submitted to the court.

On consideration whereof it appearing to me from said petition that said minors and said guardian are non-residents of the State of Nebraska, that said George F. Reinking was on the 23rd day of September, 1897, appointed guardian of the estate of said minors by the district court of Dallas county, Iowa, and is now such guardian.

And it further appearing that it would be for the benefit of said minors that their said real estate be sold and the proceeds thereof put out at interest or invested in some productive stock, it is therefore ordered that the next of kin and all persons interested in the said real estate of said minors, appear before me the judge of said court at chambers of the State of Nebraska, in said county of Wayne, in the city of Neligh, on the 13th day of June, 1906, at 3 o'clock p. m., to show cause, if any there be, why license should not be granted to the said George F. Reinking to sell the said ward's interest in the real estate above described for the purpose above set forth.

And it is further ordered that a copy of the order be published at least three successive weeks prior to the time of such hearing in the WAYNE HERALD, a weekly newspaper published in said county of Wayne, and that it shall not be necessary to personally serve a copy of this order on the next of kin of said wards, or persons interested, in said estate.

J. F. BOYD, Judge of the Dist. Court of Wayne County, Nebraska.

A Square Deal On

American Fence

You know we have made the lowest prices on the Best Fence for a long time. We are just making up another car of AMERICAN FENCE, and you better buy enough to fence all your land. Do it now.

We will sell you 500 rods of AMERICAN FENCE for \$95.

You cannot afford to miss this. Good Fence makes good neighbors. You waste enough feed every year on a 100 acre farm to make you \$300 extra profit each year.

The reason that the AMERICAN WOVEN FENCE stands more hard usage and outlasts all other styles of fencing is that it has a hinge joint. It can be bent down and straightened up a hundred times at the intersection of the bar and stay, and will not break, while any stiff stayed fencing will break if stuck bend it down a half dozen times or so. The hard drawn steel wire and hinge joint of the AMERICAN FENCE are the features that have given the AMERICAN fencing its world-wide reputation as the best, and today it is the cheapest fence made—rod for rod—bar none.

Remember our canvasser is here from the factory. Come in and let him show you AMERICAN FENCE, best on earth.

As to the "feeling of coolness" between the Huses and McCarthy, as announced by Editor McKeen, that gentleman replies to questions asked by the HERALD that he got his information from various sources, and thus his impression may have been the result of idle gossip rather than derived from any of the alleged principles to the alleged "coolness." As to whether Mr. McCarthy co-operated in an effort to build up a republican rival for the Ponca Journal after it had repeatedly supported him for office, Mr. McKeen does not say.

The law makes provision for the building of new school houses, so that the cost is distributed among tax payers and is scarcely felt. Wayne school district could assume and pay the indebtedness resulting from the construction of a new school house with perfect ease, and a modern building with modern facilities would reward all the expense and effort many times over. With a new school house and better equipments, the standard of the public schools could be more easily raised. Let such improvements follow those of the college, and altogether advance Wayne as an educational center.

It is reported that Representative Chas. McLeod whose district comprises Wayne and Stanton counties, will not be a candidate to succeed himself. In case he should reconsider the matter and decide to enter the race again, it is likely the nomination would be accorded him without opposition. The HERALD has heard no complaints against the manner in which he rendered service as representative of this district. However, if he remains determined to keep out of the contest, the nomination, in keeping with the custom of rotation, will come to Wayne county. In that event, it will be in order for the republicans here to find a suitable man for the place.

The Herald commends legislation that will regulate and restrict corporations, because there are combinations of wealth in the hands of men who are so selfish that they take advantage of their power to the injury of the masses. They need restraint, and restrictions according to reasonable laws cannot hurt a corporation that is disposed to be fair and just. There are ranting politicians, however, who are fighting corporations more for political ascendancy than to correct wrongs, and are apparently indifferent as to whether their efforts cripple capital or not. Evils can be corrected without yielding to an extreme that will retard the development and prosperity of the country.

The Pender Republic, whose editor officiates as school superintendent of Thurston county, is so ardent and hysterical in his support of Congressman McCarthy that he makes charges that are not even based on respectable suspicion, against newspapers that have questioned the propriety of re-nominating that gentleman. The Republic man alleges in substance that such papers are not supporting McCarthy because they are grifters and haven't been paid to support him. It is likely the Republic man—the grateful "Pitts" Achnuts of our who—the Pender Times claimed—loaned influence in satisfying the editor's itch for the county superintendency—could not think of a more stunning and convincing argument in behalf of the congressman than to shriek "graft," making the statement with as much bold effrontery as though it were backed by some suggestion of truth. In addition he puts himself on the level in a self-congratulatory manner and proclaims the tremendously fearless and amazingly just way in which he handles political aspirants. We like to see such a journalistic orb flicker with gratitude, but he should make a bigger effort to present arguments that can be tolerated up with a few facts.

Reference to the list of graduates of the Wayne high school for 1906 will show that the number of girls is double that of boys. This is not an unusual condition. For many years graduating classes have comprised more girls than boys not only in Wayne but in every town where students are finishing high school courses. Why should that be the rule? Has the girl developed a better quality of brains than the boy and greater energy and ambition for application? Is the average boy growing in mental sluggishness, while the girl's brains are increasing in capacity and keenness? Is the boy deteriorating and the girl progressing? While it is not fair to say that boys are retrograding, it is very evident that girls are far surpassing them in mental achievement. The minority of male graduates may in part be attributed to the frequent necessity of compelling boys to break into their studies by work, often to help in securing a livelihood or to earn a trade. Interfering their school studies they fall behind and in time quit entirely. The condition may also be due to the fact that the girls are more interested in their studies than the boys.

MURDEROUS WAPON. The Explosive Harpoon, the White Hunter's Chief Reliance.

The explosive harpoon, which is the modern white hunter's chief reliance, is a truly murderous weapon, six feet in length and strong in proportion, made chiefly of malleable iron and admirably designed for the slaying of the immense creatures.

When "chib" is numerous and there is a chance of killing more than one in a day a novel method is adopted with the first victim. When it is seen to be dead a hole is bored through the back into its stomach and air is pumped into it by a pipe from the steamer's engine until it is inflated like a great balloon.

Other prey. As many as five whales have been killed by a ship in one day for its morning "bag" and three and two are commonly got. A single ship killed twenty-two in a week and the record year's work for one is 250, an exciting number when it is remembered that the starting day of the whaling season is in the month of August.

Mr. McAlpin will appear in the above attraction with his whole company of twenty-five people and I guarantee to the patrons that the entertainment will be put on by the same people and in the same manner as it has been in Chicago, St. Paul and all the large cities.

O. A. King, local representative of the King Solomon Mining company, is making preparations to accompany expedition parties to Colorado to inspect the mine. The first excursion will go about June 3, when reduced railroad rates will be available, and the prospects are favorable for a large party. Late reports from the mine continue encouraging, showing that the vein is growing thicker and better. The president of the company is now figuring on letting a contract for an extension of the tunnel 500 feet.

The Herald is informed that the plan for paying a bounty on dandelions as suggested last week, was tried recently at Missouri Valley, and resulted in wrecking the treasury of the society having the matter in charge in less than a day. A ladies' organization had \$150 on hand and proposed to use it in promoting the extermination of dandelions, offering a reward of a cent and a half per pound for them. Over \$80 of their

money had been distributed by noon, and although the bounty was reduced one-half, the entire amount was gone before night.

The state board of public lands and buildings will have in charge the investigation of the complaints of incompetency and cruelty lodged against the management of the Norfolk asylum. It is alleged that brutality has been carried to such excess at the hospital that three deaths among inmates have resulted. It was in response to such charges that Gov. Mickey asked for the resignation of Drs. Aiden and Nicholson, superintendent and assistant superintendent. Dr. Aiden denies the charges and demanded an investigation, which has accordingly been ordered, and will take place before the state board of public lands and buildings. The board will hold its sessions at Norfolk. The allegations are made against the two doctors and six employees. The investigation will doubtless disclose the true condition, either substantiating the stand taken by Gov. Mickey or exonerating the asylum management. How to Kill Dandelions

It is always easy to do anything if you know how; if you have learned how by experience. Quite a number of Wayne citizens have given up trying to kill dandelions in their lawns because they don't know how to do it. So many people make an effort to do something and if they fail a number of times they become discouraged and throw up the job. We have customers that will give us one trial and if we fail to please them they will try someone else next time, and some will keep on trying a new place each time they need a new suit and are never satisfied. Anyone that will give this store a fair trial will find it easy to do business here and will be satisfied when they know how to get what they want at this store. We have the goods you want and if we fail to please you it is because we do not know how, but if we can have several chances to try we will surely please you. We have been in the clothing business so long that we know how to please our customers but may not do it the first time. So it is with killing dandelions. We know how because we learned by experience. If you will not give up because you failed to kill every dandelion the first time you tried, you will soon learn how and it will be easy because you learned by experience. Each morning when the dandelions are in bloom take up every one you can find and in a short time you will have but few dandelions and it will not take much effort to keep them out. Of course dandelions are like the poor, you will always have them with you, but if you don't become discouraged you can help the poor and kill the dandelions. If you have ever bought a suit of us that did not please you, try us again and we may be able this time to find just the kind of a suit you like. You can't make a mistake trying this store, for we have the right clothing and our prices are universally lower than other merchants ask. Don't give up killing dandelions and don't give up this store until you are satisfied we are not able to please you. You can't kill every dandelion and we can't please everybody, but you can kill most of the dandelions if you try and we try, and do please nearly every customer we have. Let us try to please you.

The Liverpool and London and Globe Insurance Company

Omaha, May 9, 1906.

Dear Sir: REGARDING NEW BUSINESS

We are just in receipt of advice from San Francisco that the Liverpool & London & Globe's liability in the burned district is \$4,850,000 with \$602,000 re-insurance, which reduces the amount to \$4,248,000 net. Of course, they can give us no estimate as to the amount of salvage they may receive when adjustments are completed. As you have been previously advised by Chicago, this loss will be paid from the home office.

When we realize that more than twelve times the above sum would be available from the same source and still leave our American assets of \$12,234,948 undisturbed, it would be pardonable if we should feel proud of the showing our company is able to make at this time.

The insuring public will be very critical during the remaining part of the year in placing insurance, and I believe the opportunity never so great for securing new business for a strong and safe company, such as the "Liverpool" is at present.

With deepest appreciation of your past efforts, and bespeaking continued kind treatment of our good company's interests at your hands, I am,

Most sincerely yours,
W. E. HITCHCOCK, State Agent.

CZAR OPENS DOGMA.

FIRST RUSSIAN PARLIAMENT IS CONVENED.

Nicholas, in Speech, Asks Members to Aid Him in Relieving Penitents and Solving Nation's Problems—Solves Swears About Palace.

The session of the modern Russian parliament, which opened today, is the first of its kind since the reign of Peter the Great. The emperor, in his opening address, asked the members to aid him in relieving penitents and solving the nation's problems. He also made a statement about the palace.

The emperor's speech from the throne was a landmark event. He addressed the members of the State Duma and asked them to work for the benefit of the Russian people. He mentioned the need for social reforms and the improvement of the legal system.

The emperor's address was well-received by the members of the parliament. They listened attentively to his words and showed their support for his policies. The session continued with discussions on various issues.

The emperor's speech was a significant moment in Russian history. It marked the beginning of a new era of political participation and reform. The members of the parliament were expected to play a key role in addressing the nation's challenges.

The emperor's address was a landmark event. He addressed the members of the State Duma and asked them to work for the benefit of the Russian people. He mentioned the need for social reforms and the improvement of the legal system.

OPINIONS OF GREAT PAPERS ON IMPORTANT SUBJECTS

THE COUNTRY CHURCH.

A time when some pessimists fancy that the church is not holding its own in the influence in the world, and when they enter into a discussion of the causes of the supposed decline, some facts recently obtained concerning the conditions of the country churches are encouraging, although they are not surprising.

According to the statistics, which are compiled annually by the League for Social Service, the average gain made by each of the religious associations in the United States during 1904 was three members. A single exception, all the Protestant churches showed a smaller number of accessions in 1904 than in 1894, the corresponding year of the previous decade.

THE STRUGGLE FOR SUCCESS.

The world-wide struggle for success has always been going on, but it has never been so generally participated in as it has now. It is the biological struggle for existence, and it is the fiercest and most universal.

The struggle for success is a natural part of life. It is the struggle for existence, and it is the fiercest and most universal. It is the struggle for the survival of the fittest, and it is the struggle for the betterment of the race.

FOUND GUILTY OF HERESY.

Episcopal Church Court Decides Against Rev. Dr. Crapsy. Rev. Albert S. Crapsy has been found guilty of heresy by the Episcopal church court. The court has ruled that his teachings are in violation of the church's doctrine.

HOME MISSING FOR JAPAN.

In making a report of the recent transfer of the Congregational mission churches of Japan to the charge of the Japan missionary society, composed of native Japanese, Rev. James H. Pettee says in the Boston Congregationalist that 26 dependent churches have thus been put into Japanese hands. The foreign committee guaranteed a three years' subsidy of \$300,000. Dr. Pettee says that this is the greatest forward yet taken by the Japanese church, as it means that the Christian church is now at home in Japan.

Do You Go Hunting or Fishing?

VACATION days cannot be spent to a better advantage than at some beautiful lake in Northern Wisconsin enjoying the healthy attraction of outdoor life.

If you have ever inspected a map of Northern Wisconsin, you have undoubtedly observed that hundreds of the most beautiful lakes are adjacent to the

Northwestern Line

At many of these lakes are summer cottages and hotels providing excellent accommodations at reasonable prices. Then again, if a camping party wishes, they may drive a few miles inland and enjoy practically a virgin field. Trout, pike, bass and muskellunge will be found at almost any of the Northern Wisconsin resorts.

For Booklet showing maps of the fishing localities, list of hotels and prices, or any assistance you may desire in finding a desirable location, call on or address,

to select harness is the way it is usually done. Price is generally the first consideration. If that is very low the goods seem attractive, regardless of quality. Judge our goods the other way about. Examine into the quality of the harness first. Then it will be seen that it is worth almost any price. But our prices are not high. Value considered they are remarkably low.
