FOURTIETH YEAR.

WAYNE, NEBRASKA, THURSDAY, JUNE 7, 1906.

NUMBER 17.

GRAND FOURTH COMES NEXT

Will be Celebrated on Big Scale in Wayne.

SPECIAL EFFORT FOR A SPEAKER

Soliciting Committee Now at Work. Pyrotechnic Display Will be a Prominent Feature.

Attention is now being turned to preparations for the celebration in Wayne on July 4th. The intention of those having the arrangements in charge is to prepare for a grand old-fashioned celebration and to raise \$700 or \$800 for the purpose. Good, clean entertainment will be furnished with no grafts. Special effort is to be made in the selection of a speaker. If possible a man of national reputation and known ability will be secured. Senator Tillman of South Carolina was asked to be orator of the day, but he was compelled to decline on account of a previous engagement. Messrs. Jno. T. Bressler, J. M. Ellis and Jas. Britton have the matter of securing a speaker in hand and they are determined to get one whose standing as an orator will warrant people in coming a long distance to hear him.

The soliciting committee, consisting of Dan Harrington, Ed. Raymond and Lambert Roe, is now at work and will not stop until ample funds have been guaranteed. One prominent feature will be the fireworks and it is assured that a magnificent display will be provided. Wayne will be put at its best for the occasion and visitors will be made to feel a cordial welcome. For several years Wayne has not celebrated on the Fourth, but its people have gone to other towns to mingle their patriotic sentiments with those of their neighbors. Therefore, this year, people in the surrounding country and towns are asked to come to Wayne and join in a grand, joyous, old-fashioned celebration.

THE ANTI-PASS REGULATION.

Lincoln correspondence in Sunday's Herald a stir was brot about the state house today by the report that the anti-pass regulations and the rule requiring state officials to present receipts for railroad fare had been rudely shattered by the board of public lands and buildings and State Auditor Searle. It was reported that Warren Beemer of the penitentiary had been allowed a claim for taking a prisoner to Wayne county without the formality of a receipt showing that he had paid cash for railroad fare. An Auditor Searle had formerly ruled that railroad fare would not be allowed unless receipts were forthcoming, everybody picked up their ears in expectation of a throwing down of the bars.

It is true the claim has been allowed, said Auditor Searle, "but the warden presented a receipt for his fare to Wayne county and explained that on the way back he rode on a freight train and it was not convenient to get a receipt. He made oath that he had expended the money on the return trip. I believed that he could be placed on his honor for \$1.20 and allowed the full claim. The old rule requiring receipts is still in force, but whenever a proper showing has been made that railroad fare has been paid on official trips I will allow such claims. I allowed a similar claim for the sheriff of Dawes county." The auditor said the receipt showed that the warden had paid the fare of himself and prisoner to Wayne county and had paid his own fare back to Lincoln.

DEATH OF JONAS DRAKE.

Jonas Drake, aged about 82 years, died at the home of his daughter, Mrs. F. M. Corbit, in Wayne Sunday morning, cause being cerebral hemorrhage. Short services were conducted at the house Monday afternoon at 2:30 o'clock by Rev. Thos. Osborne, and the remains were conveyed Tuesday morning, accompanied by Mrs. Corbit, to Soldier's Grove, Wis., where funeral services and interment will take place. Mr. Drake located with his family at Soldier's Grove, Wis., in 1866 where he lived until about a year ago when, following the death of his wife, he came to Wayne to be with his daughters, Mrs. Corbit and Mrs. McLease.

ANNUAL PIONEERS' PICNIC.

WAYNE, NEB., June 4, 1906. EDITOR WAYNE HERALD: Dear Sir: As the season is approaching when the old settlers and pioneers of Wayne county will again meet to celebrate and have their annual picnic, I would like to call your attention to some of the things that should be done that we may make the meeting one of the best ever held. The interest in these meetings has been increasing every year, and every settler in Wayne county, young or old, should put his shoulder to the wheel and do all that is possible to have this interesting and attractive. We propose as far as possible to have this meeting wholly on the lines of a real old settlers' and pioneers' gathering, for we are aware of the fact that soon there will be no pioneers left who have laid the founda-

tion for the greatness which Wayne county has achieved. We would be pleased to have each of the old pioneers give a five-minute talk on some interesting incident connected with the early history of the county, as this would not only be entertaining, but instructive and historical to those who have come into the county later, and to the children who are now growing up and cannot long more be entertained by the pioneers and old settlers. We trust that every old pioneer and old settler constitute themselves a committee of one to devise the best means and methods for observing the day, and we will be pleased to receive suggestions that will help us to make out a program that will be attractive and pleasing. The meeting will be held in August, the exact date of which due notice will be given, and it is hoped by that time many suggestions for our entertainment will be on file from which the committee may select the best.

Respectfully yours,
DR. R. B. CRAWFORD, Pres.

The HERALD has received a copy of The Monitor, a religious paper published at Stanton by Rev. O. N. Dawson, a former pastor of the Wayne M. E. church.

Nebraska postmasters are requested to meet in Omaha June 12, 13 and 14 and it is expected that 700 will be present. They are promised royal entertainment.

The I. O. O. F. will have annual memorial services at the Lutheran church next Sunday morning at 11 o'clock, sermon to be preached by the pastor, Rev. C. J. Ringer.

Mrs. Frank A. Bryner and daughter departed Tuesday afternoon for a two weeks' visit at Newhall, Io. Mr. Main's son accompanied them as far as Vinton, Io., to visit relatives.

Prof. F. M. Gregg, former teacher in the Wayne college, but now of the Peru Normal faculty, arrived here Saturday to attend the county institute as one of the instructors.

Miss Alice Brown who has been teaching at Hartington, stopped in Wayne over Sunday to visit the family of her uncle, Fred Brown, being on her way to her home in Fremont.

The name of the winner of highest averages in the recent eighth grade examinations is Wm. Carl Kipper instead of Wm. Carl Kepling, and he comes from district No. 51 instead of No. 50.

John Mandy commenced to rebuild his brick building, which was partly destroyed by fire a few months ago. He will extend it twenty feet toward the alley we understand.—Winfield Tribune.

Mr. and Mrs. A. G. Parker sold their household furniture Saturday at auction preparatory to moving to Sioux City. Some of the things offered brought good prices, while others were disposed of at considerable sacrifice.

Blaine Skeen of Wayne has been secured by the Hartington base ball team as catcher for the season. Skeen has a reputation as being one of the best amateurs behind the bat in this part of the state.—Hartington Herald.

The farmers in the vicinity south of Stanton will soon be fitted out with telephones. The Stanton telephone Co. is constructing a line south from here which will be connected up as soon as possible.—Stanton Picket.

Miss Gay Hunter celebrated her fiftieth birthday anniversary Monday by inviting to her home a party of girl friends in the evening. Games, sociability and excellent refreshments made the evening pass quickly and pleasantly.

Organizations of railroad employes are flooding Washington with protests against that part of the rate bill which would prevent them and their families from accepting and using passes. It appears likely that the measure will be remodeled to suit them.

Four Pullman sleepers were attached to the eastbound passenger from Norfolk Sunday afternoon, containing 130 delegates from the Black Hills counties, en route to the republican and democratic state conventions held in Sioux Falls and Yankton on Tuesday.

Campbell Bros. circus showed at Randolph Monday and Wakefield yesterday. The fact that the circus visited the two no-license towns in this vicinity would appear like good argument in behalf of temperance only that the itinerary of the circus for the summer was doubtless mapped out long before it left winter quarters.

Sunday will be Children's Day at the Baptist church. In the morning the pastor will deliver an address on "The Value of a Child." In the evening the children will have charge of the service, rendering a program of song and recitations. An offering will be taken for the Baptist Sunday school work.

B. P. Peterson who moved with his family to Colorado Springs, Col., last fall in the interest of his wife's health, was in Wayne Friday, having been looking after business at Carroll of late. Mr. Peterson reports that his wife's health has been very much improved by the high, dry climate of Colorado.

Union services devoted to the temperance cause were held in the M. E. church Sunday evening. Revs. Duley, Ringer, Osborne and Wright talked and handled different phases of the question, all insisting that the saloon could be eliminated without injury to any interest and with signal benefit to society. The audience filled the church.

The president has issued a proclamation for the opening of the Shoshone Indian reservation in Wyoming, and registration of applicants will be held at Lander, Shoshone, Thermopolis and Worland, beginning July 16 and ending July 31. The drawing will commence at Lander Aug. 4. There are 1,150,000 acres to be thrown open to settlement.

Colonel Wm. J. Bryan will arrive in New York on his return from a trip around the world early in August. Some kind of a demonstration will be pulled off in his honor when he lands in New York, and the Lincoln Journal suggests that it would be the proper thing to give him a suitable welcome entirely without reference to politics when he reaches his home town.

The class play at the opera house Thursday night and the address and presentation of diplomas Friday evening attracted a crowded house and passed off without a flaw. Rev. Swearingen of Lincoln gave the address and it was an intellectual treat which no one failed to appreciate. A. A. Welch presented the diplomas after some brief remarks. The decorations were beautiful and the music was an interesting feature on each occasion.

D. E. Miller arrived home Friday from a few weeks' absence in the Big Horn country, Wyoming. He had intended to move to Thermopolis soon, but found that freighters charge two and one-half cents per pound for hauling goods to that point from Cody, and so has concluded to remain here for the present. The exorbitant charges of freighters will end as soon as the railroad is completed and it is being built as rapidly as possible.

Messrs. B. J. Holte and H. B. Ware of this place and Dan Harrington and Chas. Robbins of Wayne have formed a partnership and will open a general store in Wakefield about the first of September. A store building 50x80 is now being erected for them. Mr. Ware will have charge of the establishment as manager, and with his wife will move to that place. This will in no way affect the firm of Holte & Ware of this place, so the Advocate is informed, but Mr. Holte will remain here and conduct the business. The Advocate is glad to see this firm branching out, but desires to see any of our citizens move from among us. The Advocate predicts that the firm will meet with success from the start. However, Laurelettes are especially sorry to lose Mr. and Mrs. Ware.—Laurel Advocate.

Investigation of the management of the Norfolk hospital for the insane commenced at Norfolk today before the state board of public lands and buildings. "Of the investigation the News says: 'It is expected that the investigation will clear up fully the hospital muddle. As the matter now stands, the superintendent and physician both have the governor's request that they tender their resignations. This request was made with the idea that they would retire on the 10th of May, and was based upon letters and other evidence that was sent to the governor defamatory of the manner in which the hospital was being conducted. Instead of resigning as requested, Dr. Alden demanded a public investigation into his conduct, which was granted, and upon the advice of the attorney general the board of public lands and buildings was deputed the proper authority to conduct the hearing.'

BOARD OF EQUALIZATION. Notice is hereby given that board of county commissioners, the county assessor and the county clerk will sit as a board of equalization, commencing Tuesday, June 12th, 1906, for the purpose of reviewing the assessor's books and hearing any and all complaints regarding the assessment of property, both real and personal. The board will continue in session for not less than three days, and all complaints must be made at this time. Dated at Wayne, Nebraska, this 14th day of May, 1906. (Seal) CHAS. W. REYNOLDS, County Clerk.

COLIC AND DIARRHOEA. Pains in the Stomach, colic and diarrhoea are quickly relieved by the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. For sale by Raymond's drug store.

HOW TO KILL DANDELIONS

Secretary of Commercial Club is Informed.

CUT ROOTS AND USE GASOLINE

Method Advanced by Horticulturist of State University Experiment Station at Lincoln, Neb.

As secretary of the Wayne Commercial club, A. R. Davis wrote a letter some weeks ago to R. A. Emerson, horticulturist of the state university experiment station, asking for information as to the quickest and most effective means by which to exterminate dandelions, and received the following reply:

LINCOLN, NEB., May 24, 1906. Mr. A. R. DAVIS, Wayne, Neb.

Dear Sir: Your request for information with reference to the extermination of dandelions, has come to me for attention. During last summer the experiment station carried on rather extensive experiments calculated to throw some light upon this question. The best treatment as shown by our tests was to cut the dandelions an inch or two below the surface of the ground and pour a spoonful of gasoline into the hole directly onto the cut surface of the root. This treatment resulted in the killing of over 90 per cent. of the plants treated. Pouring the gasoline upon the crown of the plant without cutting has less satisfactory results. Cutting the dandelions out as deeply as possible was very unsatisfactory. A large per cent. of the plants sprouted from the root. When the treated plants were cut back a second time after sprouting, however, the results were practically as good as where gasoline was used immediately after cutting.

Very truly yours,
R. A. EMERSON, Horticulturist.

Call on Wm. B. Vail and have your eyes examined under the new method and if need be get glasses that suit you and are properly adjusted.

DO NOT NEGLECT THE CHILDREN. At this season of the year the first unnatural looseness of a child's bowels should have immediate attention. The best thing that can be given is Chamberlain's Colic, Cholera and Diarrhoea Remedy followed by castor oil as directed with each bottle of the remedy. For sale by Raymond's drug store.

LOW PRICED ATLAS. An up-to-date atlas of the Northwest and the Orient for \$1.00. The Northern Pacific railway company will send an atlas of the northwest, very complete in detail, to anyone upon receipt of price named.

This is a recent compilation, and data, maps, illustrations, etc., are reliable and from best sources. Sent prepaid on receipt of price.

EVERY MAN HIS OWN DOCTOR. The average man cannot afford to employ a physician for every slight ailment or injury that may occur in his family, nor can he afford to neglect them, as so slight an injury as the scratch of a pin has been known to cause the loss of a limb. Hence every man must from necessity be his own doctor for this class of ailments. Success often depends upon prompt treatment, which can only be had when suitable medicines are kept at hand. Chamberlain's Remedies have been in the market for many years and enjoy a good reputation. Chamberlain's Colic, Cholera and Diarrhoea Remedy for bowel complaints. Chamberlain's Cough Remedy for coughs, colds, croup, and whooping cough.

Chamberlain's pain balm (an antiseptic liniment) for cuts, bruises, burns, sprains, swellings, lame back and rheumatic pains.

Chamberlain's Stomach and Liver Tablets for constipation, biliousness and stomach troubles.

Chamberlain's Salve for diseases of the skin.

One bottle of each of these five preparations costs but \$1.25. For sale by Raymond's drug store.

A CRITICAL PERIOD.

Intelligent Women Prepare. Danger and Pain of This Critical Period Avoided by the Use of Lydia E. Pinkham's Vegetable Compound.

How many women realize that the most critical period in a woman's existence is the change of life, and that the anxiety felt by women as this time draws near is not without reason. If the system is in a deranged condition, or she is predisposed to apoplexy or congestion of any organ, it is at this time likely to become active and, with a host of nervous irritations, make life a misery.

THE DEVELOPMENT OF CHRISTIAN DOCTRINE.

By Rev. James Moorhouse. Text.—"We know in part and we prophesy in part."—I. Corinthians xiii, 9. It is universally acknowledged amongst students in the religious teaching of the Old Testament we can discern a gradual development. God not only spoke to the fathers in the old time, "in many parts and in many modes," but also with a largeness of truth and spirituality of feeling which, on the whole, increased through the ages until the great revelation of the fullness of the times.

It is for us to appeal to a Divine witness and impulse, and in days of doubt and danger, when foes are many and shadows are dark and hopes are low, to say our souls upon that promise of Him to whom all human power is weakness and all human wisdom foolishness. "As I live, saith the Lord, every knee shall bow to me and every tongue shall confess to God."

GOD'S REVELATION TO MAN.

By Rev. F. W. Macdonald, D. D. Text.—"God, who at sundry times and in divers manners spake in time past unto the fathers by the prophets, hath in these last days spoken unto us by His Son."—Heb. i, 1, 2. That revelation waits for the spiritual recovery and renewal of man, and then it will pour its light and testimony into the mind and heart prepared. As in Christ our race is renewed, the primary revelation in Nature will become available for the nourishment and inspiration of the human will like the manuscript of which the key has long been lost, whose characters are no longer intelligible, the great revelation that encompasses us on every side shall once more be read; the language that we have ceased to understand will be intelligible; and in the fullness of the days of Jesus Christ we shall take up the long-lost scrolls of praise and adoration. "All things were made by Him, and without Him was made nothing that was made."—John i, 3.

INFLUENCE OF FRANKLIN'S RELIGION.

By Rev. Russell H. Conwell, D. D. Text.—"And in very deed, for this cause have I raised thee up, for to show in thee my power, and that my name may be declared throughout all the earth."—Exodus ix, 16. "There is one God, He made all things. He governs the world by His providence. He ought to be worshipped by adoration, prayer, and thanksgiving. The most acceptable service to God is doing good to man. The soul is immortal. God will certainly reward virtue and punish vice either here or hereafter."

These words composed the creed of Benjamin Franklin. The fact that he was a "self-made man" has been declaimed over and over; but men do not fully appreciate the fact that he was the first national example of a self-made man, and that he was consequently the greatest factor for making the present civilization representing Christianity in America.

SHORT TALK SERMONS.

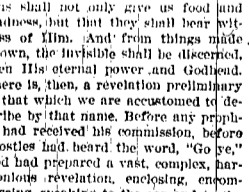

They seek in vain for power who fear all pain. Toleration may be but a synonym for sloth. He cannot reach ether who does not touch heaven. Platitudes in the pulpit make pearls in the jaws. Star gazing will never make you shine as the stars. The two-faced never have more than half an outlook. Many a man thinks he is busy when he is only buzzing. The man who will not waste his love always wastes his life. Dreams of heaven do not come in slumbers in the church. Hell is never far from him who thinks that all men are demons. It's easy to have large ideas of liberality with other people's money. He cannot be a light to others who is unwilling to be consumed himself.

HOSIERY NEWS

No matter how pretty a lady's hat or dress or shoes, a glimpse of a cheap, baggy, stretchy stocking dispels the good impression. The season of low cut shoes calls for dainty and high grade hosiery. No bagging or stretching can be tolerated. Hosiery that fits snugly and stays fit is shaped by hand. It is for this reason that Topsy Full Fashioned are absolutely necessary if one would know that the foot and ankle were dressed stylishly and faultlessly.

and queen of Spain is denounced as an act of abhorrent and villainous anarchy, by all civilized countries. Anarchy, which prompts the assassination of heads of nations, would destroy governments and create disorder, wreck and ruin. The doctrine of an anarchist is a menace to life and property and if it succeeded—as it never will—it would make existence intolerable.

Mr. B. Davis, publisher of the Democrat Message of Mount Sterling, Ill., who is visiting friends in Lincoln for a day or two, is of the opinion that the direct primary law enacted by the Illinois legislature will fail to fill the bill. "The people voted for a direct primary law because they want it," Mr. Davis explains, "and the attempt to work off on them a weak substitute will be resented, in my opinion."—Lincoln Journal.

E. Cunningham, who has been mentioned in connection with the office of representative, informs the HERALD that he is not a candidate, that he hasn't given the matter a moment of favorable consideration and that he could not afford to suffer the sacrifice that accepting such an office would mean to him. The fact that Mr. Cunningham's large auction business comes in mid-winter when the legislature is in session, would be enough to compel him to forego the honor. The republicans of Wayne county will have to look around and light on some other good man for representative.

A. Galusha has made an excellent record as secretary of state; he has, without prejudice to anybody, probably been the most efficient official in that office the state has ever had there. Mr. Galusha is a business man. He has looked after the affairs of the state without fear or favor just as a good business man looks after his own business interests. The fact is we never had a better set of state officers than now if as good and it looks like they are entitled to consideration at the hands of the state convention on the principle that good service one term deserves recognition by another term.—Fairfield Herald.

Geo. L. Sheldon of Cass county and Geo. L. Rouse of Hull county are prominent candidates for the republican nomination for governor. Mr. Sheldon was a member of the last state senate and Mr. Rouse was speaker of the house. Both are farmers and men of intelligence, good habits and sound judgment. Dr. Williams who represented this district in the senate, is well acquainted with both gentlemen and speaks favorably of both of them. As Wayne county has no "favorite son" for gubernatorial honors, its delegates to the state convention will have to familiarize themselves with the merits of all candidates and act accordingly.

President Roosevelt has called the attention of congress to unclean and unsanitary conditions of the Chicago packing houses as reported by Reynolds and Neill after an investigation for which they were specially appointed. The Chicago packers have followed with a statement denying the charges lodged against their institutions. Further investigation is on foot, and wherever reform is needed in the preparation and preservation of meats it will be made promptly. People will not tolerate such conditions as are reported by the Neill-Reynolds report, and consumption of packing house products will materially decrease until there is assurance that the laws of cleanliness and health are followed in the methods of the big packing institutions.

REGISTRATION OF BIRTHS AND DEATHS.

We are told by the authorities that many persons do not seem to be informed as to the law passed by the last legislature regarding the reporting of births and deaths. This law makes it obligatory upon physicians in attendance to report to the local registrar within three days after each birth, and when no physician is called it is the duty of the parents or householders where each birth takes place, to report. It is the duty of the undertaker or person in charge of any funeral, to have executed report to state registrar sending all original death certificates in his hands and birth reports, on monthly blanks. He must also make a report stating that no unreported births or deaths have occurred during that time. This law took effect Oct 1, 1905.

Don't Count Your Chickens Before They Are Hatched

Every person naturally believes they will in some manner receive something in the future that is not yet in sight, and therefore they count their chickens before they are hatched. If every egg was fertile you might with some certainty count your chickens before they were hatched. Eggs are like stores, they all look fertile, but you have to test them to find the good ones. You waste your time trying to hatch eggs that are not fertile and you waste your money doing business at a store that sells goods that have not been tested. This store is fertile and if you do business here you have good results. Our clothing has been tested and we know the quality is good. Our prices have withstood every test and proved satisfactory to all who have patronized us. Why not buy clothing that is warranted to give satisfaction? You can count on getting good results if you buy anything here, and you don't have to wait and see. We usually charge less than other merchants, and will give you another suit if we make a mistake, or fail to give you satisfaction. You cannot make a mistake to patronize this store. Don't count your chickens before they are hatched, but count on getting up-to-date clothing, and at the lowest price, if you trade here. You can expect the best results and not be disappointed when you do business with us. Leave your dollars with us and we will convince you that you left them at the right place. Give us a trial and see.

Get Ready to Celebrate

The Glorious Fourth is coming and it's time you were looking around for the necessary "fixes" to be "in it" on that great day. We wish to call your attention to the fact that we can serve you better than ever before with the right things at the right price, either in the goods or the ready-made garments.
We are justly proud of our Skirt Line, made in White Mohair, White Linen, Grey Panamas, Shadow Checks, Blue and Blacks. If you can't be fitted out of stock, skirt can be made to your measure without extra cost, and fit guaranteed.
Our Skirt Waist Suits in White Linen and Lingerie Waists are equally satisfactory as to fit, style and price—a very nice lot just opened up and more coming.

Why They Wear Better, Fit Better and Hold Their Color

Every part of these stockings exposed to hard, grinding wear is spliced with linen—the kind that fish lines are made of. There are no bulky seams to chafe the leg, and the toes are hand finished. The dye is not only fast and lustrous, but positively guaranteed not to tender the stocking or burn the feet. They are perfectly shaped—wide leg, narrow ankle and slender foot.

A Dozen Boys Each Earn a Watch

For selling 5 sacks of GOLD MEDAL FLOUR. In response to my offer of last week to give a watch to any boy who would sell five sacks of Gold Medal flour, twelve boys, inspired with the idea of earning a real watch, a good time-keeper, started out for orders and within two hours some of them had secured the required number.

This Offer Expires June 16

so you boys with push and pluck who would like to have a watch should begin at once soliciting among your friends and neighbors and as soon as you have sold 5 sacks bring in your list and receive a watch FREE.

TO MY PATRONS

who are using Gold Medal flour I desire to say that you are using flour produced from No. 1 Northern wheat. You no doubt find Gold Medal is satisfactory and will produce the following results: A perfect, flaky, white loaf; holds moisture well; bread has a GOOD taste; requires less flour to make the same size baking as compared with other flours. I have no excuses to make for Gold Medal. It is sold on its own merit and if you don't find it satisfactory in every respect and superior to other flours, return the empty sack and purchase price will be refunded. Gold Medal sells for a trifle more than most flours, but there is a reason for this—it is better. That's what the people say who use it, too. Let your next order be for a sack of Gold Medal. I especially solicit a trial from those who are hard to please.

THE TEMPERANCE SERVICES. (Contributed.) Sunday night at the M. E. church was held a temperance meeting under the auspices of the Anti-Saloon League. David Cunningham, president of the organization, presided. A male quartette led the singing and the pastors of the different churches uniting in the service gave short talks on various phases of the liquor business. The following subjects were dealt with: "The Saloon and Business," "The Saloon and Morals," "The Saloon and Politics," "Can the Saloon be Abolished?" All the speakers agreed that there is nothing good about the influence of the dram shop.

It does not help business because money is spent for drink that should be spent for clothing, food, furniture and implements. The manufacturing of liquor employs far fewer men in proportion to the capital invested than the average manufacturing business. Instead of liquor increasing a man's capacity for work, it diminishes his ability to produce, being more a poison than a food.

So far as morals are concerned, no case can be shown where a saloon has elevated the community. Many a respectable man has been ruined by it, but where is the vicious man who has been made respectable? Does the grog shop foster or decrease profanity, vulgarity, obscenity, lawlessness and kindred vices? No man of sense would maintain that it decreases vice. Likewise the saloon has a demoralizing effect on politics. The law compels it to be closed on election day, for the free American citizen cannot properly exercise his suffrage if his brain is muddled with "extra dry." The most corrupt cities in America are the ones where the liquor dealers have the largest political influence. In New York City in a recent year, out of 1,000 primaries 939 were held in saloons and 92 others next door. In effect our laws permit a man to fill up on liquor when he chooses his ticket but compel him to be sober when he votes it. The result is x x New York City. The aspirants for political honor are also demoralized by the saloon's power. Let the impression get out about any candidate for office that he is a real temperance man and the saloon element will knife him no matter what his qualifications or party.

Therefore many good men will stand for office and many button their mouths on the subject if they do run. "Can the saloon be abolished?" It was said that slavery could not be abolished; that it had existed since human society began. The statement held good for thousands of years but the time came for slavery to go and it went. The time will come for the saloon to go when public sentiment is enlightened with fact and formed for action. The first temperance organization in America was made only 90 years ago. Its views were free and easy. Everybody drank; preachers passed the jug, whiskey was kept in every home. What a change in opinion since that day! The world moves and the saloon must go. ONE OF THE LEAGUE.

THE TEACHERS IN SESSION

Attendance as Large as Usual.

ABLE INSTRUCTORS IN CHARGE

Lecture by Dr. Ross One of the Best Ever Given Here—Prof. F. M. Gregg Talks Tonight.

The Wayne county teachers' institute opened its weekly session in the court house with the largest first-day enrollment yet reported, there being eighty-three teachers. The enrollment has since passed the hundred mark. One of the unique features of the institute is the model school which has been organized and is in charge of Mrs. Phillips of the Wayne city schools. Some eighteen pupils have been collected from near Wayne representing the various grades of a country school, and this "school" was organized on Monday morning in the presence of the teachers and has since been conducted as a model school, illustrating all the details of the first week's work of a typical school of the country. Mrs. Phillips is doing some ideal work, and her school room is crowded at almost every hour of the day with observers, who there get lessons about school management as they could get it in no other way.

Prof. Wilson is in charge of the work to grammar, arithmetic, reading and school management. His talks are intensely practical and he speaks with such a degree of ease and authority on all his subjects that the teachers of the country are deriving great pleasure and benefit from all he has to say. Prof. Wilson's years of experience in school work combined with abundant professional training and reading, and native ability as a true teacher make him an especially capable educational adviser and the schools of Wayne county will be conducted on a higher plane by reason of his work in the present institute.

Prof. Gregg has the work in orthography, physiology, geography and agriculture. He now occupies the position of associate professor of biology in the state normal at Peru, but by reason of his long connection with the Wayne normal he has had practically every teacher of the county in his classes, and these are delighted to be again permitted to enjoy the privileges of his class work. In the teaching of geography and of agriculture a solar projection apparatus is being used to effectively illustrate important phases of the subjects under discussion.

Prof. Gregg will give an illustrated lecture at the court house on Thursday evening on "Nebraska's Geological Story."

The marked success of the institute thus far has been largely due to the careful and complete preparation and untiring efforts of Superintendent Lattell. The work that has been provided has been in consequence of his careful analysis of the needs of the teachers of Wayne county and in the round table which he is conducting for young teachers he is able to come directly at the core of many school problems. Mrs. Lattell is ably assisting Superintendent Lattell in the management of the institute.

On Tuesday evening the teachers and citizens of the town were given an intellectual treat such as is rarely afforded to any community. Dr. Ross here of the University of Nebraska had hereafter to be conducted with the "University of Wisconsin" gave his splendid lecture on "Meditation and the Grand Sign of Sinners." In the lecture Dr. Ross crystallized and clearly defined some of the things that all Americans have been vaguely thinking by reason of recent disclosures of the irregularities in our large corporations.

Superintendent N. C. Abbott of the Tekamah schools gave an illustrated lecture on China, Japan and the Philippines before a good-sized audience in the court room last evening, and all felt amply rewarded for having attended.

Tonight Prof. F. M. Gregg will present "Nebraska's Geological Story," illustrated, and his well known ability is a guarantee that he will have a large audience and that none will be disappointed.

The institute will close tomorrow, and in the afternoon the graduation of eighth grade students will take place. Ernest E. Sias of Lincoln will be present to give an address.

GALE BOY RETURNS.

George, the 14-year-old son of Mr. and Mrs. Walter Gale of Wayne, returned home this morning after an absence of a couple of weeks during which he suffered experiences which he will never forget. But on seeing a little of the outside world, he left home with a companion without consulting his parents. He first stopped at Perce and then journeyed to Randolph. At the latter place he met out to a man who was traveling from here to after the war, he had been and fell asleep. Before morning awoke, the car was locked and he was unable to get out. He was taken to the police station and two days later he was released.

Miss Temple returned the first of the week from a visit in Norfolk.

The streets have been much improved of late under the direction of the commissioner, and the good work still continues.

F. J. Falber is busy getting his new store stocked and ready for business. He expects to have it duly launched for business within two weeks.

It is reported that the Randolph authorities and the Omaha railroad company have clashed over the removal of the stock yards alleged to be in a street which the city wishes to open.

It is reported that August H. Miller who was sentenced in Stanton county to fifteen years in the penitentiary for shooting his wife, father-in-law and mother-in-law, has appealed his case to the supreme court.

Crops are generally doing well and can easily make up for the slightly backward season. The soil is in good condition, plenty of moisture and not too much, and everything is promising.

Dr. A. Naffziger and family arrived in Wayne Tuesday from Remsen, Iowa, and are moving into the residence recently vacated by Mr. Orr. Dr. Naffziger has decided to locate here permanently.

The work of building cement walks in Wayne is being carried on more extensively than it was a month ago, and the present prospect is that many dilapidated board walks will be replaced with the substantial sort before fall.

FARM FOR SALE.

Eighty acres improved farm for sale 6 1/2 miles southeast of Wayne and 6 1/2 miles southwest of Wakefield. Rent goes to purchaser if taken at once. For particulars call on or write L. D. Matcalf of Emerson.

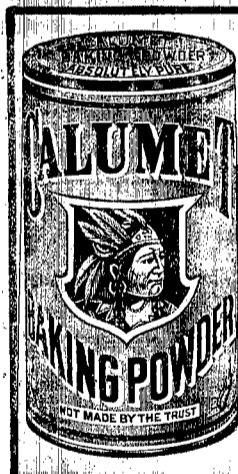

Outing Suits to Wear

Outing clothes are made just to look good in the window, or on a dummy; as soon as you wear 'em you wish you hadn't. Hart Schaffner & Metz make outing clothes to wear; tailored, not merely sewed together; all wool, not flimsy cotton-mixed fabrics. Ask us for these outing suits. They're right, and ready.

MANY AMERICANS ARE SLAIN.

Forty-five Americans were killed Friday at Cananea, Mex., where is located the great copper company of Col. W. C. Greene.

The trouble arose at Cananea over the demand of the Mexicans for an increase in wages from \$3.00 to \$5 per day.

Parties who left there at 1:30 o'clock Friday afternoon said that Col. Greene was addressing practically the entire population of the camp in an effort to pacify the excited Mexicans.

However, between 4 and 5 o'clock Friday afternoon the Mexicans opened fire on the Americans and forty or more were killed.

The population of Cananea is 23,000, of which 5,000 are Americans.

The family of Col. Greene arrived at Naco, Ariz., Friday afternoon, but the colonel remains with his property.

Two trains loaded with refugees are now en route from Cananea and will go to Bisbee.

There has been bad blood at Cananea for some time and only a month ago the home of the superintendent of the mine was dynamited by unknown parties.

Thursday a policeman of the city was killed by an American, who claimed it was a personal grievance he had against the man.

Capt. Tom Spyming, of the Arizona Rangers, arrived Friday night from Douglas with a mass of his men.

All the arms obtainable in Bisbee, Douglas and Naco are now in the hands of plucked men, who are ready to go to Cananea.

It is believed that the Mexican officials are doing all they can to save life and property. There is great excitement along the border.

At 11:30 Friday night a train load of refugees arrived from the scene of trouble and confirm the stories earlier in the evening.

It is known that at least a dozen Americans have been killed and fully fifty Mexicans.

TRAGIC WEDDING DAY.

Bomb Kills Many in Alfonso's Nuptial Parade.

The public rejoicings over the marriage of King Alfonso and Princess Victoria at Madrid had a terribly dramatic sequel at 2:25 o'clock Thursday afternoon, as a bomb thrown from an upper window exploded with deadly effect near the coach occupied by the king and queen.

Provisionally King Alfonso and Queen Victoria escaped when an electric wire deflected the bomb, but at least sixteen persons, most of them belonging to the personal and military escorts, were killed.

Several of those killed were standing on the balcony of the house from which the bomb was thrown.

The explosion occurred just as the royal couple were about to enter the palace. The route of the cortege had been diverted from Arsenal Street to Mayor Street, owing to the popular desire. The procession had just passed through Mayor Street and was about to turn into the esplanade leading to the palace when an explosion shook the buildings in the vicinity, stunning a large number of people and throwing the cortege into inextricable confusion.

The royal coach was brought to a sudden stop by the shock, officers and soldiers of the escort falling to the ground about the querry and horses that had been killed.

It was immediately seen that the royal coach was intact except as it had been damaged by flying splinters.

TRIED TO CUT DAM.

Trouble Over the Big Drainage Ditch Near Tekamah.

A Tekamah special says: A few nights ago some persons tried to put a hole in the big dam at the southern end of the ditch where it will empty into the river.

The dam was built by the State and is supposed that the water was high on some person's land and that they were going to get it off, as there is about fifteen feet of water in the ditch, which is about 35 to 40 feet deep.

The dam should have been broken if it would have taken months to repair it. The guards have been doubled and a very careful watch will be kept to see that no persons tamper with it.

Hundreds of people are planning on going down to see the big waterway opened and hear the ceremony of the transferring of it to the county.

It has taken nearly a year and a half to dig the main canal, the branches having not yet been started.

KING ALFONSO WEDS.

MARRIAGE TAKES PLACE MID-SCENES OF GREAT POMP.

All Madrid Turns Out to Cheer Young Monarch and Princess Victoria His Bride, as Pageant Takes Place in the Cathedral.

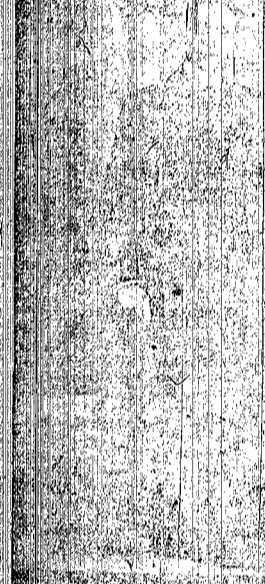

King Alfonso of Spain and Princess Victoria of Battenberg, niece of King Edward, were married at noon Thursday in the presence of the leading nobles and grandees of Spain, the European monarchs and the royal houses of Europe and envoys from the principal governments of the world. The Archbishop of Toledo performed the ceremony.

All Madrid was out early to see the marriage procession from the royal palace to the church through the principal streets of the capital. The state carriage in which the king rode, was drawn by eight magnificent horses, and the pompant passed between all the solid lines of troops, back of which the crowds jammed the sidewalks and cheered the royal pair. The streets were the most imposing seen in Spain since the marriage of the queen, the late King Alfonso XIII, over twenty years ago.

Princess Victoria was escorted to the palace by a military band, where she took her place at the head of the royal ladies to receive the marriage procession. The bride's face was veiled with flowers by which she was surrounded while the ceremony was being performed.

Some of the church music heard during the ceremony was brilliantly lighted and the music of the high altars in the cathedral.

CURCING THE CORPORATIONS.

How the Railway Bill Supplements Previous Legislation.

The passage of the railway bill will put the corporation under a structure of laws designed to check corporate ruthlessness. The first of the series of bills with this end in view was the interstate commerce law, enacted in 1887. It was at least a noble measure because it was born of its own time, and it was the first of a series of laws designed to curb the power of the trusts.

The next great enactment in the same line was the Sherman anti-trust law of 1890. For a long time it remained a dead letter, practically on the statute books. The corporations laughed at it. It was not until the passage of the Clayton act in 1914 that the Sherman law was given its full force.

The Clayton act was a landmark in the history of corporate regulation. It was the first of a series of laws designed to curb the power of the trusts. It was a noble measure because it was born of its own time, and it was the first of a series of laws designed to curb the power of the trusts.

RUSSIA AT A CRISIS.

SITUATION SIMILAR TO THAT OF FRANCE A CENTURY AGO.

Developments at St. Petersburg Similar to Conditions in Paris Preceding the French Revolution—Donna's Defiance of Czar.

For a parallel to the present developments at St. Petersburg one must go back to the situation which prevailed in Paris in the days preceding the French revolution. In many respects the crisis which the czar faces resembles that which confronted Louis XVI, four hundred years ago, when the states general, resuscitated after a lapse of nearly 200 years, asserted its demand for legislative rights and a constitution. Now, as then, monarch and legislators have clashed upon the question of their relations and respective powers.

Now, as then, the ruler's failure to satisfy the assembly's demands has provoked a menacing storm of indignation. Sturdy as the czar is, the announcement of his program are strikingly reminiscent of the utterances of Louis XVI and his colleagues when they declared that having been overruled by the will of the people bayonets alone would dispense them.

As the imperial ministers in their reply to the czar refuse some of its most important demands and are arrogantly equivocal regarding others, the hot anger of the progressives is easy to understand. Briefly summarized, the czar's demands are: the abolition of the fundamental law, the abolition of the council of the empire, a ministry responsible to the czar and the suppression of the crown lands to be distributed among the farming classes.

The czar in his effort to force a middle course has found it impossible to grant most of these requests. He promises ameliorative measures, including a provision for universal education, a system of local autonomy, the early release of many prisoners arrested by administrative orders and steps to improve the farmers' conditions of land. But he indignantly refuses the principle of autonomy and of local self-government, and of other reforms which would transfer power from the administration to the legislative branch of government.

The czar's reply to these counter-proposals has been prompt and volent. It denounces the industrial program in emphatic terms, declares it incomplete, distinct in an irreconcilable manner, and demands the immediate resignation of the present cabinet as not having its confidence. Whether the czar's policy in Russia makes the starting of the wheels for the czar and his people, with revolutionary sentiment, depends largely upon the tact and skill with which Nicholas handles the situation. His position is extremely difficult. Aside from the difficult problems involved in the creation of a new parliament, he must try to placate conflicting and wholly irreconcilable elements. To overcome the czar's dilemma, he needs to put the empire in jeopardy. To do so he must be prepared to face the consequences of a true constituent representative assembly.

GOVERNMENT HELPS SOLDIERS.

Will Fight Prosecution of Men Who Killed Thief.

The War Department has detailed Lieut. Edwin M. Stanton, Third infantry, a grandson of the famous War Secretary and at present attached to the office of the judge advocate general, to assist the district attorney at Pittsburgh in the defense of a military soldier who was convicted before the court of charges of manslaughter at that place on a charge of manslaughter.

The case is one of first importance to military men, for upon the decision of this court depends the right of the United States to inflict summary and capital punishment on civilians who commit crimes upon a military installation and their escape. Incidentally involved in the question as to the extent of the authority of the commanding officer of a post to protect the government under his charge from harm.

Lieut. Drury and Private Dowd are accused men. Some private had been shot on the Allegheny Arsenal and a military soldier was running away with a parcel. It was pursued across the line of the post and, failing to stop upon demand of Drury, by his order Dowd sent a bullet through the fugitive.

If the man had fallen within the limits of the post there would have been no question as to the right of the soldier to shoot him. But as he was killed on the Allegheny Arsenal the case is a military one. The government has the soldier arrested. The government intervened and in the lower court pleaded lack of jurisdiction on the part of the state, but this was rejected, and now the case will come before the appellate tribunal.

MRS. LARCH'S TENANT.

It really is getting down her teeth.

Shackel, putting down her teeth, and glancing at her daughters, two fresh complexioned young women clad in pink linen dresses, who were playing tennis.

As the hard-worked wife of the doctor of Arlemore, Mrs. Shackel's expenditures were few and far between, but generally consisted of those of an unpleasant nature, such as rebellion in the kitchen, the flirtations of the school mistress, or Wifey from the boys' headmaster, or Wifey from the boys' headmaster, or Wifey from the boys' headmaster.

DEVIL BIRD OF FAR CEYLON.

It is a strange bird, the Devil Bird of Far Ceylon.

Most people who have visited the island of Ceylon have penetrated into its jungle fastnesses and heard the cry of the Devil Bird. This avian creature, which is said to be the most terrible of the island, is said to be the most terrible of the island, is said to be the most terrible of the island.

SCHOOLS AND COLLEGES.

Maine pays the elementary teachers at average of \$120 a day for 333 days in the year.

Complaint has been made in a few of the counties of Alabama that the supply of licensed teachers is not equal to the demand.

New York City has discovered a floating trunk population, estimated at from 2,000 to 4,000, among the coal barges moored along the water front.

Baron Takaki says four-fifths of the Japanese are now studying English and that it will soon become the language of Japan and later of the world.

Prof. Simon Newcomb, whose "Romanticism of an Astronomer" was recently published, has been honored by Emperor William with the order, "four white stars and a laurel wreath."

HARRISON WAS AN IDEAL HOST.

Harrison, "in that fascinating bewitching Italian organ-grinder way," you know, "I'm as black as a coal and my eyes to match. And he's so unaffected and amiable. I had quite a long chat with him yesterday. He had come out in the park helping some poor fellow motor-car had broken down in his gate. I thought it so nice of him. I'm sure you will like him."

"I hope we shall," remarked young Mrs. Smythe, the organ-grinder's wife, whom Harrison had met and taught to never be sure of anything or anyone.

"I wonder what induced him to pitch his tent in Arlemore?" pursued Mrs. Smythe, thoughtfully. "There is no fishing or golf; nothing much to attract a young man of the world's laughter. It seems rather funny."

"Not at all," rejoined Mrs. Larch, sharply. "Mr. Harrison has come for his health. It is his eyes and his lungs. So pathetic. I think so. He was studying hard for an exam—those competitive exams are an excruciating thing. In my opinion—and broke down at the last moment. The doctors ordered him complete rest and change of air and he has returned to see my advertisement for Armbia Cottage. He has taken the house for the year."

"And is he going to live there alone?" asked Mrs. Smythe. "Brain fog always means so much depression. What can his people be thinking if they are leaving him to his own devices?"

Do You Go Hunting or Fishing?

VACATION days cannot be spent to a better advantage than at some beautiful lake in Northern Wisconsin enjoying the healthy attraction of outdoor life

If you have ever inspected a map of Northern Wisconsin, you have undoubtedly observed that hundreds of the most beautiful lakes are adjacent to the

Northwestern Line

At many of these lakes are summer cottages and hotels providing excellent accommodations at reasonable prices. Then again, if a camping party wishes, they may drive a few miles inland and enjoy practically a virgin field. Trout, pike, bass and muskellunge will be found at almost any of the Northern Wisconsin resorts

For Booklet showing maps of the fishing localities, list of hotels and prices, or any assistance you may desire in finding a desirable location, call on or address,

ORDER OF HEARING AND NOTICE ON PETITION FOR SETTLEMENT OF ACCOUNT.

In the County Court of Wayne county, Nebraska.

State of Nebraska, ss.

Wayne County, ss.

To Maggie J. Elliott, widow, and all persons interested in the estate of James A. Elliott, deceased:

On reading the petition of Henry Ley, Administrator, praying for final settlement and allowance of his account filed in this Court on the 26th day of May 1906, and for the distribution of the residue of said estate remaining in his hands according to law.

It is hereby ordered that you and all persons interested in said matter may, and do, appear at the County Court to be held in and for said county, on the 19th day of June A. D., 1906, at 10 o'clock A. M., to show cause, if any there be, why the prayer of the petitioner should not be granted, and that notice of the pendency of said petition and the hearing thereon be given to all persons interested in said matter by publishing a copy of this order in the WAYNE HERALD, a weekly newspaper printed in said county, for three successive weeks prior to said day of hearing.

(Seal) E. HUNTER, County Judge.

PROBATE NOTICE TO CREDITORS

In the County Court of Wayne County, Nebraska.

In the matter of the estate of George Mick, deceased.

Notice is hereby given, That the creditors of said deceased will meet the Executor of said estate, before me, County Judge of Wayne County, Nebraska, at the County Court Room in said county, on the 25th day of June, 1906, and on the 26th day of November, 1906, at 10 o'clock a. m., each day, for the purpose of presenting their claims for examination, adjustment and allowance. Six months are allowed for creditors to present their claims and one year for the Executor to settle said estate. This notice will be published in the WAYNE HERALD for four weeks successively prior to the 25th day of June, 1906.

Witness my hand and seal of said court, this 25th day of May, A. D., 1906.

The wrong way

to select harness is the way it is usually done. Price is generally the first consideration. If that is very low the goods seem attractive, regardless of quality. Judge our goods the other way about. Examine into the quality of this harness first. Then it will be seen that it is worth almost any price. But our prices are not high. You considered they are remarkably low.
