

MEMORIAL OBSERVED

L. O. F. Hold Services at Lutheran Church:

SERMON BY REV. C. J. RINGER

About Thirty Odd Fellows Are Present—Decorate Graves Deceased Members.

The memorial services of the L. O. F. were held on last Sunday morning at the Lutheran church. About thirty members of the order were present. The musical program consisted of several hymns and a vocal solo by Prof. M. S. Davis, each number accompanied by A. G. Bohner, cellist.

The sermon was delivered by Rev. C. J. Ringer, the theme being "Brotherly Love," taken from the example of the Good Samaritan, of which the Master has commanded us "Go, and do thou likewise."

Following are extracts from Mr. Ringer's address:

"The parable is an explanation of the second part of the great command 'Love thy neighbor as thyself.' In this parable we have laid before us in unmistakable terms our duty to our fellow man. Love is the cord that binds together the brotherhood of man; that develops the finer graces in the christian character; that brings about the companionship with the golden rule. The Master has vividly explained to us in this parable the meaning of 'brotherly love.' He has also coupled with this explanation the command, 'go, and do thou likewise,' which applies to us just as much as it did to the lawyer, to whom the words were uttered. The Good Samaritan, as a ministering angel, goes forth to minister to the sick and afflicted; to pour the oil of healing on the wounds. He is ever ready to help the dead; to give words of cheer and comfort to the bereft, to take care of the helpless and destitute and to give a helping hand in every form of distress; to counsel the erring brother to forsake the way of sin, and to turn back into the path of right. He is ever ready to comply with the golden rule. 'Do unto others as you will to be done by.' It is the plan and substance of our religious duty to our fellow men. He has a high conception of his moral obligation, he stands for the higher type of manhood; he is conscious of the fact that he is leaving a lasting impression upon society. He stands for all that is true, just, honorable and righteous. If you want to know what the principals of Old Fellowship is, study the principal of this parable and you have the foundation of the order."

"We have here today to pay tribute to the memories of the departed, that we may reflect upon their lives and character, and that all which was good may be kept alive in our memories and as we cherish these good qualities it helps to sweeten our disposition and character. Let us consider whether we are living as pure lives as we should, that in case the death angel should summon us on the morrow, and upon next year the living brothers come to strew our graves with flowers, they can say: 'Here is the last resting place of the brother whose life was a benediction to his family, to his neighbors and to society, he was ever ready to give a helping hand to the poor and the needy; whose life was for the purifying of the moral atmosphere. Such a memory left behind is a monument far more over than any marble shaft that can ever be erected to the honor of man. It is this blessed memory that unites the living and the dead, earth and heaven."

After the conclusion of the services at the church the lodge, marched to the cemetery where the graves of deceased Odd Fellows were strewn with flowers.

DESIGNER FOR JULY.

The designer July is divided between midsummer fashions and patriotism. Cataloging to the first mentioned is a generous supply of up-to-date designs for warm weather apparel and millinery. Also two special articles on "Attractive Waists of Thin Material," and "Sunbonnets and Shadetails." Appropriate for the "Glorious Fourth" are "A Fire-Cracker Drill" for small boys, "A Little Feast for the Fourth," containing recipes of value to the housekeeper, and two short stories, "The God in the Car" and "A Box of Fire-Works." All mothers will appreciate "An Outdoor Baby" with its charming illustrations, which advocates letting the wee folk get as close to nature as possible. "Bath-House Keeping" is given as a money-making occupation for women by Bortha Haddock, and "Our American Daughters" comes to a happy conclusion. In this number of the Designer are given the opening chapters of a droll continued story of country life, "The Village Improvement Society," by Della Lutz; lessons in Dressmaking, Hat Making, Skidow and Coronation Embroidery and Drawnwork are made lucid by clear instruction and many illustrations. The department of Vacation Suggestions is continued, and is proving of great value to those contemplating short or lengthy holidays. Two pages of illustrations show how the little folks of city slums contrive to get fun out of the heated term. "The Mother's Advisory Club," "Flouriculture," "For Lovely Woman," "Want Women are Doing," "Helps

Along the Way," and "Etiquette Chat" are filled with timely and valuable suggestions.

CHILDRENS' DAY.

Last Sunday was given over entirely to the interest of the children at the Lutheran church. At the morning service the pastor delivered an address on the "Value of a Child," using as a text Matt. 18:14, Christ's estimate of the child value. It was an earnest presentation of the place which should be given to children in public and religious schools. An earnest appeal was made for greater concern on the part of parents as regards the development of the character of their children.

The program, "Songs of Summer," rendered in the evening by the young people and children of the Sabbath school, was faultless. The large and appreciative audience was an inspiration to those taking part to do their best. At the close the pastor spoke of the missionary work being done by the Baptist publication and Sunday school board, after which an offering was taken, the amount of which testified to the thorough appreciation of the service on part of the audience.

The services at the M. E. church were appropriate, consisting of prayers, singing and an excellent program by the children. The Cradle Roll, consisting of members of the Sunday school under the age of three years, was called by Supt. Mrs. E. B. Young, as the names were called the children responded by coming forward and those who wished received baptism. Eight were baptized.

LOCAL AND PERSONAL

Events of the Week Dished Out in Brief.

A merry-go-round came to town Friday.

Eli Jones was a Carroll visitor Friday.

The Minerva club elected officers last week.

Thos. Holtz spent Sunday at Randolph.

Mrs. Wolf was down from Winside Friday.

Miss Hopkins returned to Sioux City Friday.

A. A. Wollert went to Council Bluffs Sunday.

Wm. Olds was in town between trains Monday.

John Shannon was down from Carroll Saturday.

Walden Tucker was down from Winside Sunday.

A. G. Anderson, of Concord, was in Wayne Friday.

Chris Weible, of Winside, was in Wayne Friday.

Leroy Ley came up from Crystal Lake Friday evening.

Blaine Skeen came down from Hartington Monday.

Fred Billis was a Norfolk visitor the last of the week.

A. H. Carter was down from Winside Friday morning.

Chris Wischoff of Dixon county, was in Wayne Saturday.

Will Vobor returned Friday morning from Florence, Neb.

Mrs. Patrick Dixon was a visitor at Wakefield Saturday.

Mrs. O. E. Schulz visited her sister at Norfolk over Sunday.

Father Haley was an Emerson passenger Monday morning.

Miss Eva After returned home from Dakota at Lincoln Friday.

Master Ralph Bohner went to Neligh Saturday to visit relatives.

T. S. Goss and daughter were passengers to Sioux City Friday.

Mr. and Mrs. John Evans left for Norfolk and Lincoln Friday.

The Dr. Nieman residence property will be occupied by A. E. Littell.

A son was born to Mr. and Mrs. Chas. W. Reynolds on Saturday.

Autba Bigler went down to Sioux City Saturday, returning Monday.

H. S. Welch returned Saturday from a visit with relatives at Osceola, Neb.

T. W. Moran came home Sunday evening from his Dakota homestead.

Mrs. Harry Craven and Miss Mary Mason were Sioux City visitors Friday.

Miss Inez Keiner, of Norfolk, visited friends at the Nebraska Normal over Sunday.

Nathan Chace of Stanton, was an over Sunday visitor with relatives in this city.

Mrs. Madam Mel Norton and Arthur Norton visited relatives at Sioux City Tuesday.

Frank Gordon, the Sioux City cement walk man, was in town between trains Saturday.

Mrs. Richmond of Exeter, Neb., is visiting her parents, Mr. and Mrs. C. D. Martin.

Mrs. Nelhart was an arrival in this city Saturday for a visit with relatives and friends.

"Jack" Liveringhouse came down Friday from Wausa where he has been employed in a drug store.

Henry Lesman, Chas. Welch, Henry Meyer and Joe Onaon returned from Dakota Saturday evening.

Eli Chace of Stanton, visited in Wayne last week with his grandparents, Mr. and Mrs. E. R. Chace.

Mrs. William Len and Miss Anna

Snod went to Norfolk Saturday for a visit with relatives and friends.

The back room over the Hiscox Implement house has been procured for the use of the Commercial club band.

Misses Anna and Ella Leahy left Saturday afternoon for an extended visit to Boston and other eastern points.

Miss Mattie Bridesbaugh returned to her home at Hubbard Friday, after a week's visit at the E. Hunter home.

Mrs. H. N. Way and daughter of Omaha, arrived here Monday afternoon to visit with the family of L. L. Way.

Wm. Fleetwood left Monday for Lincoln to attend a state convention of Nebraska undertakers and embalmers.

Herman Henney was a passenger for LeMars, Ia., Monday to join his family who have been visiting there for several days.

The town of Wakefield will establish a public drinking fountain. This move is no doubt due to the abrogation of the saloons.

W. C. Blessing, who has resided in this city for several months, is now manager of the Peavey elevator at Wakefield.

Sam Owens and wife were arrivals from Virginia the last of the week, and are guests at the home of C. B. Owens in this city.

Mr. and Mrs. E. G. Sherwood returned the last of the week from a visit with friends and relatives at Ponca, Coburn and Sioux City.

Phil Sullivan went to Omaha Saturday to meet a cousin, Mrs. O. K. Williams. Mrs. Williams was on her way to Denver, Colo.

Earl Gibson came down from Hoskins Friday morning where he had been visiting a few days with his former pupils and old friends.

Misses Anna Hoyer and Anna Norgard visited at Winside over Sunday. Miss Norgard left Monday for her home at Kaukaee, Ill.

Wm. Dammeyer moved his cigar factory Monday from his old stand west of the postoffice to the rooms over the O'Connell pool hall.

J. M. Bartlett came home from Grand Island Friday here he attended a meeting of the board of trustees of Grand Island college.

The Sunday school class of Miss Julia Ramsey drove out to the home of W. F. Ramsey on Saturday where an enjoyable picnic was held.

Chas. Fred, formerly proprietor of the City meat market at this place, was in town the first of the week. Mr. Fred is now located in Sioux City.

Edmund Christides, of Wayne, came up the latter part of last week and is the guest of his cousin, Vern Neidham, for a few days.—Bloomfield Monitor.

Mrs. Hattie McLees has recently purchased the Holtz cottage in the east part of town and is adding a story and otherwise improving the property.

Jacob Hoadley, of Omaha, was recently murdered and the coroner's jury has laid the crime at the door of his two sons, Jess, aged 19 and Noah, aged 14.

Mr. and Mrs. Henry Slaughter came down from Napier, Neb., Saturday morning from a visit with Mrs. Slaughter's parents, Mr. and Mrs. Henry Hanson.

Miss Mary Richardson went to Hoskins Monday morning. Miss Richardson has been engaged as a teacher in the schools at that place for the coming year.

The HERALD omitted mentioning last week of the closing of the year's work of the Shakespeare club with an elegant supper at the home of Miss Mary Mason.

Trouble occurred between the operators, cappers and patrons of a shell game at the Concord picnic last week, which resulted in the arrest of one of the gamblers.

Mrs. W. O. Gamble was a passenger for Omaha Friday morning. At that city she was joined by Miss Daley, going from there to Woodhull, Ill., for an extended visit.

Mrs. John Eiting and daughter Clara came in from Wayne Saturday for a visit with relatives here. P. G. Nelson and Sam A. and Nettie Nelson.—Oakland Independent.

The Lincoln Star of Friday contained an announcement of the marriage of Everett Sherman, of this place, and Miss Frances Krant of Lincoln. The couple will reside in Wayne.

Osmer Swanson and Mrs. Ed. Swanson came down from Hartington Saturday for a visit with Mr. Swanson's parents here. Mr. Swanson is employed in the Hartington roller mills.

Although Wakefield is a "dry" town, the Republican of that place mentions the robbing of the "beer house" last Wednesday evening by circus employees who, it says, obtained a quantity of beer.

Miss Lula Neibardt has been granted a leave of absence from the Nebraska Normal college at Wayne until Sept. 1. She will spend her vacation in Lead, S. D., and points in Wyoming.—Banner of Blade.

Miss Kitty Reynolds, daughter of Mr. and Mrs. A. F. Reynolds, living two miles east of Dixon, committed suicide on Wednesday afternoon of last week by taking strychnine. The cause of the deed is unknown.

Miss Morgan, formerly of this city but now engaged as a member of the faculty of the Sioux Falls schools, left

Saturday evening for a visit with relatives at O'Neill, after stopping a week with Wayne friends.

We neglected last week to change the figures in the grain markets as published in the HERALD, thus making the prices appear considerably lower than those really being paid. We have arranged to get the correct quotations hereafter.

Prof. J. M. Pile, president of the Wayne Normal college, came to this city Saturday morning and in the afternoon delivered an excellent address before the school officers and the rural school graduates in the union convention.—West Point Democrat.

Roy Lathrop of Bonesteel, S. D., arrived Saturday and has accepted a position in Holle & Ware's store. John Dobbin is expected to return from Wayne about the middle of next month and resume his position behind the counter. This will give the firm plenty of help.—Laurel Advocate.

Edw. Schurig, an expert electrician of Omaha, was in the city the last of the week, and he and City Electrician West spent a couple of days going over our lighting system with a view to ascertaining the improvements needed upon the lines to better the service. Mr. Schurig returned to Omaha Saturday afternoon.

The supreme court has made an order permitting August Miller, charged with shooting his wife and father-in-law, Fred Hohnke, at the home of the latter south of Winside several months ago, to be released on bail pending his appeal from the sentence of fifteen years given him by the district court of Stanton county. His bail was fixed at \$7,600.

Two lively runaways occurred Monday morning. As Will Wright was unloading cobs at the residence of W. M. Wright his team became frightened, ran down Main street and struck the telephone pole in front of the State bank, frightening Drayman White's team which also ran a couple of blocks before being caught. No serious damage was done.

A dispatch to the Sioux City Journal dated June 10, says: In driving an oil well for development purposes at Yankee hill, near Lincoln, a large amount of petroleum has been found in a heavy artesian flow at a depth of 650 feet. The product is pronounced by experts to be a good quality of crude petroleum. This is the first authoritative discovery of oil in Nebraska.

Three wagon loads of Nebraska Normal students, consisting of this year's graduates, drove to the Skiles grove four miles northeast of town on Saturday where a picnic was held in honor of Miss May Neptune, teacher of languages, who will sever her connection with the school with the ending of the term this week. An abundance of ice cream, cake and other delicacies was taken along and all report a very enjoyable outing.

The recital given at the Lutheran church last Thursday evening by the Aeolian club, was well attended and thoroughly appreciated from the opening to the closing number. The club is composed of the music students of Mrs. Grace Brown who were assisted by Misses Edna Bush and Laura Lundberg, and Prof. M. S. Davies, vocalists, and Messrs. Baroker and Bohner, cornetist and clarinetist. The program was an excellent one throughout.

Walter Savage, of this city, and Fred Von Seggern start next week to make the circuit of fairs throughout the several states with their attraction, starting at Sibley, Ia., on the 20th. Novelty slack wire acts, high tight wire with Roman ring trapeze, Japanese whirling ladder and horizontal bar acts are some of the features of the performance. A dog belonging to the boys makes a leap from the top of a 65-foot ladder, that is good. They have their apparatus set up for practice on the lots west of the electric light plant.

The members of the Baptist church are urged to be present at the morning service next Sunday. A call has been made by the various boards for an offering for the churches on the Pacific Coast which suffered such great loss in the recent earthquake and fire. Sunday June 17, has been designated as California day. It is a case which should receive a most generous response. At Des Moines the other day the Presbyterians voted \$300,000.00 to aid their needy brethren in the west. The call upon Baptists is but \$200,000.00.

When the catalogue comes from a mail order house, draw an easy chair to the table where the light will shine full upon the pages, and put on your glasses that no bargain may escape your eye. What a wonderful book it is, to be sure! Wonderful for what it does not contain as well as what it does. You will miss some things you would be glad to see. Where is their offer to pay cash or exchange goods for your wheat, oats, corn, beans, butter, eggs, and hay? How much do they pay for cattle, sheep and hogs, f. o. b. at your depot? How much tax will they pay to support your schools and educate your children—for improving roads and bridges, for the expense of running the business of the township, county and state? On what page is their offer to contribute money to the church? What line of credit will they extend to you when your crops are poor and money gone, when through illness or misfortune, you are not able to send "cash with order" for your groceries, clothing, farm tools and crockery? Also stove and range?—Ex.

DAIRYMEN ORGANIZE

To Establish Cream Testing Station at Wayne.

A. P. GOSSARD TO BE MANAGER

Farmers Propose to Get a Square Deal From Creameries—Will Better the Quality.

Owing to the vast amount of cream being sold and shipped through the agents of different creamery concerns of Omaha, Sioux City and other cities throughout this section, and owing to the fact that the tests of the product have been made after the cream had been shipped to the city, houses it has been decided by cream producers hereabouts to install some method whereby the farmers could be sure of a square deal in the matter of test and also better the quality of cream being sent to the city creameries. With this end in view a meeting of Wayne county farmers was called at the court house in Wayne on last Saturday afternoon. A good crowd was in attendance and an organization effected, to be known as the Farmers' Cream association.

The meeting was called to order with Chris Wischoff as chairman and P. M. Corbit as secretary. An executive committee was then appointed to look after the interests of the organization. The executive committee consists of the following men, all prominent farmers and dairymen of the county: Henry Lesman, Chris Wischoff, August Wiltier, P. M. Corbit and I. O. Richardson.

It was decided to locate and operate a testing and shipping station at this place and the committee empowered to procure a location for the plant, install suitable machinery for testing and employ a competent operator to conduct the station. A steam boiler and steam tester will be procured and all cream will be tested here before shipping, thereby giving the producer guarantee of justice as to amount of butter fat contained in the product. The farmer heretofore has been compelled to accept the test of the city concern if he wished to dispose of his cream and all are confident that they have for several months they have been obliged to submit to a system of "skinning" at the hands of the creameries.

It was also shown that by arranging for a suitable place here for caring for the product and by careful handling and prompt shipment the quality will be much better and the test more satisfactory when the cream reaches the city. It was argued that cream purchased here by different stores and other agents, roughly handled and allowed to stand in the sun several hours before shipping as in some cases, could not possibly reach its destination in the same condition as when it left the hands of the producer. This no doubt is a fact.

In order to effect a close organization of the association, each cream producer becoming a member is bound by giving bond in the sum of \$20 to have all his surplus cream handled through the association and to sell to the creamery company having the contract with the organization. The company organizes for a period of five years.

There were two applicants for the position as operator of the testing plant here, A. P. Gossard and Vern Newkirk, both of this place. Mr. Gossard was chosen by the committee.

Representatives of the following creamery companies were in attendance at the meeting in the interests of their respective companies: Hanford and Hathaway, of Sioux City and the Beatrice, Fairmont and Harding, of Omaha. All of these will probably bid on the cream handled here and the committee will contract with the highest bidder. Tuesday, June 12, was the date fixed by the committee for receiving bids.

This move on the part of the farmers is bound to prove a good venture and no doubt many other farming and dairy communities will follow in an effort to get a square deal as to test from the city buyers of cream.

BUSINESS CHANGE.

A deal was completed the last of last week whereby the firm of Miller & Ahern became the owners of the general merchandise business formerly conducted by Chas. Robbins. Invoice was begun Monday morning. Messrs. Miller & Ahern will occupy the two buildings, making them an excellent business location. Owing to the poor health of Mrs. Robbins, we understand Mr. and Mrs. Robbins will go west about August 1.

FERTILIZER FOR HOUSE PLANTS.

An excellent and clean fertilizer for house plants is to get a pound each of nitrate of soda, superphosphate of lime and sulphate of potash. Do not mix them, but use them as desired. A teaspoonful of each to half a gallon of water will partially serve to protect against insects and provide plant food when used around the roots of the plants. If the leaves of the plants are very green reduce the nitrate of soda one-half. If the stems and shoots are slow in growth slightly increase the potash. When seeds and flowers are forming the proportion of superphosphate may be increased.—Nebraska Farmer.

Jones' Book Store

F. H. Jones, Proprietor

Continues original ideas, furnishing Wayne with a large and complete stock of Books of all kinds including College and School Books, Tablets, Pencils, Ink and all Office Supplies, Blank Books. A most complete line of Stationery.

A great store for Gifts suitable for all occasions. Commencement Birthdays, Weddings—the great variety furnishes for all occasions.

Music

will figure with us. Still more unexcelled instruments. Hardman and "Harrington" pianos. Dealing direct with factory we can compete with anyone. EVERYTHING in music, small instruments, strings, etc.

Hammocks, All Prices

Kodaks and Kodak Supplies

The Remedies. Attorney General Moody was discussing certain flaws in the criminal code and certain remedies that had been suggested. "These remedies," he said, "are not logical; they would not be effective if enforced. They are singularly like the remedy that a chop-house waiter once introduced to an inebriated guest. The guest had ordered a chop and when it was brought to him he said, with disgust, 'That's all right, but the waiter, my plate is quite cold.' 'Yes, sir,' he said, 'but the chop is hot, sir; which I think you'll find will soon warm up the plate nicely, sir.'"

Gardening is Exercise for Women. The theory for the woman whose standards, such as the physical, do not permit her to live in a home, it seems to me is to give an indoor exercise as a girl club. An hour's exercise along a golf course will produce the finest kind of a glow, and without you get so much more done with a hoe! It is not a prosopical person who will 'putter with flowers' but dare not work in the vegetable garden for fear that some one may think that she has to do it. If the neighbors are scandalized because I turn the baby loose in the shade on the grass and push the insect net instead of the parasol over it is their lookout. Perhaps, now, they are trying to dig and have not quite dared for fear of my scolding criticism. Let them know the worst. I purpose to dig, to rake, to sow, to weed, to hoe, and to harvest, for the sake of what I get out of it in mental growth, flowers, exercise, aesthetic, health and vegetables. I shall take my turn too, with the bicycle, the tennis racket, and the golf club; but next to the general who 'hoes' is my favorite hobby. Success Magazine.

The Baby's Bottle. Too many babies cannot be used in keeping the bottle clean. As soon as the baby is ready to suck, put the nipple in a cup of pure hot water. Cut a potato in small pieces and drop in the bottle. It will fill with soap suds and shake well. Empty, rinse and dry. BEAUFORT R. PARKER.

Only Wanted a Square Deal. "I don't," said the "stand up," "I'm not going to say, why judgment of the court should not now be pronounced against you?" "I'd like to say your honor," answered the prisoner, "that I hope you will not allow your mind to be prejudiced against me by the poor defense my lawyer put up for me. I'll admit it is a great favor if your honor will let me have my own lawyer. I've got it. I had pleaded guilty in the first place."

Professional Advice. "Young Man—Doctor, I am addicted to the liquor habit. Is there any cure for it?" "Doctor—That depends on circumstances. Are you married?" "Young Man—No." "Doctor—Then marry a woman who is more strenuous than you are."

His Modest Fear. "Do you believe in 'reincarnation'?" asked the woman who is interested in the subject. "Yes," answered the young man who never contradicts.

Women Obtain Mrs. Pinkham's Advice and Help.

Just as surely as Mrs. Berryhill was cured, will Lydia E. Pinkham's Vegetable Compound cure every woman suffering from any form of female illness. If you are sick write Mrs. Pinkham for advice. It is free and always helpful.

WASHINGTON GOSSIP

So far ten States have declined the invitation sent out by Assistant Secretary Oliver of the War Department, to send some of their national guard organizations into camp with the regular troops this summer. Colorado has declined because the guard is too much scattered about the State to admit of easy concentration. The approaching trials for murder of the labor leaders in Idaho have made it prudent for the authorities to retain the entire force of militia within the limits of the State ready for any uprising against the legal authorities. Pennsylvania, Massachusetts and Ohio already have planned to have their entire national guard go into large State camps, and are unwilling to go to the expense of another camp, in doing which the State authorities are meeting exactly, the suggestions of the War Department, which is going to be taxed to the utmost to make the expected appropriation of \$700,000 meet all the expenses of the combined camps. California reports that the experience of the State troops in guarding San Francisco and other places devastated by earthquake and fire and the expense to which the State has been put makes it inexpedient to join in the regular camping. South Dakota reports that the national guard is not equipped or untrained for a season in camp.

A heavy war is on in the House between two desiring measures, which may result in preventing the consideration of both at this session. The pure food bill, which passed the Senate, and the immigration bill, which has not been considered in the Senate, occupy the same position upon the House calendar. These two measures, with the naturalization bill, are in form for consideration whenever the Speaker gives his consent and when appropriation bills are not claiming the floor. Some of the leading supporters of the immigration bill oppose the passage of the pure food bill. To prevent its consideration at this session they are working to have the immigration bill given preference. They believe they can accomplish the double purpose of temporarily defeating the pure food and of securing the passage of the immigration bill if they are able to prevail upon the Speaker to recognize them. On the other hand, the friends of the pure food bill have formed themselves to rush it through the House, as soon as Mr. Hepburn is recognized to call it up.

Another measure which will be added to the list passed by Congress because of the influence of the President is the bill to preserve the scenic beauty of Niagara Falls. The bill is agreed upon by the House committee admitting the free use of water for domestic and sanitary purposes instead of limiting it to a maximum quantity, as suggested by the international commission. William Livingston, president, and other members of the Lake Carriers' Association contend that this unrestricted use of water will result in materially lowering the levels of the lakes as soon as the Chicago sanitary canal is opening to its full capacity. They estimate that with 14,000 cubic feet of water passing through the canal each second the levels of Lakes Michigan and Huron will be lowered nine inches and of Lake Huron eight inches. This, it is calculated, will decrease the carrying capacity of each 10,000-ton boat annually \$13,500.

The Supreme Court has reaffirmed its opinion that the duties imposed on Philippine imports from this country between the date of the signing of the treaty of Paris and the enactment of the tariff law were collected legally and that the President lacked power to impose them, notwithstanding that Congress had ratified the previous action. Justice White and McKenna dissent. The duties to be refunded amount to about \$8,000,000 on duties already paid.

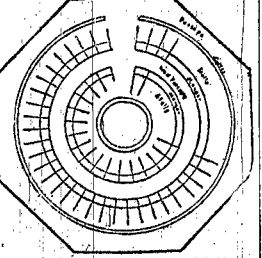

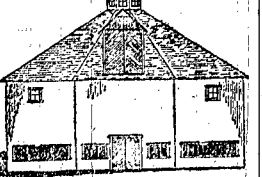

Chief Engineer Stevens, on arriving from Panama Thursday, said that the work had reached a point where it must now be known whether the canal is to be at sea level or above. He said that dredges could be gotten cheaper in Europe, but were hard to get anywhere, and cost \$350,000 each. It would take from 20 to twenty years to complete the work of a sea level canal and from eight to nine years for a lock canal. There are now between 15,000 and 16,000 men at work.

The United States Supreme Court ruled Monday that the American sugar company cannot get recover 20 per cent of the duties paid on sugar imported from Cuba because the date when the reciprocity treaty was to have gone into effect and the date of its proclamation by the President.

FARMS AND FARMERS

An Eight-Sided Barn. Here is a plan for a barn of the eight-sided or octagon shape. This octagonal barn is 25 feet on each side, providing accommodation for about fifty head of cattle. There is a considerable gain in floor space when the octagon form is used instead of the square form, the same amount of wall enclosing a greater number of square feet. The main objection to an eight-sided barn is that it is difficult to fill with a hay fork of sheep carrier. This may be largely overcome by erecting a gable on one of the sides of the roof and running a track in from that height, which may be extended to within 20 feet of the opposite wall. The roof requires to be self-supporting and to secure this the plates should be bolted together at the

Traveling School of Agriculture. Cornell University in New York will this summer make an entirely new and somewhat unique departure in its agricultural work. Following a petition signed by seventeen students who were desirous of becoming acquainted with agricultural conditions existing in different portions of the United States, the college will send out a special car, fitted with the accommodations for the housing and study equipment of the students during their trip. It has been styled a traveling school of agriculture. These in charge plan to start on the trip about the 1st of July, the itinerary being planned with a view to covering about eight weeks, while the cost per student is placed at about \$400. The car will go from Illinois to Buffalo and through Ohio, Illinois, Iowa, Nebraska, Colorado, Texas, Louisiana, Mississippi, Alabama, Georgia, South Carolina, Virginia, Pennsylvania and back home. In a way this experiment will be along the line of the seed corn and good road special trains which have been in operation on many lines of road in the upper Mississippi valley during the past two years, proving both popular and greatly beneficial to the agricultural interests of the localities visited. The course of agricultural instruction contemplated in the above tour will give the students who take advantage of it a first hand and intimate as well as extensive acquaintance with the conditions and methods of agriculture covering the whole country and will give a breadth of view and a fund of practical information that could hardly be got from study in one place or in one school.

Planting the Orchard. The insect tax upon this country's agricultural interests is something stupendous. Indeed, were it not for the ravages of insects, great and small, the life and profits of the horticulturist would be so attractive as to completely change the present attitude toward their occupation. The government experts are doing an enormous amount of detective work in determining the exact particular form of damage and the best method of combating same. Fungicide is one of the modern farmer's multiple scientific weapons by which, in a trice, he clears his crops of insect life that if not held in check would probably destroy his entire crop. In California, immense bulbous-like arrangements of canyons are used in fumigating fruit trees, and now a Texas inventor proposes to modify the plan, with the idea of making it available for smaller crops, such as cotton and corn. The appliance consists of a supporting truck for movement over the ground, generally by the use of horses, a combustion chamber for the formation of the fumes, or gases employed as fumigant, and a framework, adjustable as to heights, and a hood covering the whole.

Brought Rather than Molesture. It is much easier for one to be independent of dry weather than of wet. The soil is naturally wet, so that it may be plowed and then get rid of the excessive moisture and this is an expensive operation, but, notwithstanding, a most desirable one in the end. Potato growers are perhaps more interested in the problem of how to battle with dry weather than growers of any other crop and, under normal conditions, the secret is simply to see that the soil is properly supplied with humus or vegetable matter.

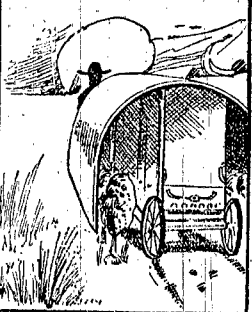

Profit in Forest Thinning. A bulletin entitled "Improvement Thinning" has been issued by the State forester of Massachusetts. The author shows that the growth on considerable areas can be improved and made more productive by the application of moderate thinning while the stands are in the process of development. This is often as the material is removed will pay for its removal in the extra light done to the soil to the thin. As to the degree to which it is safe to thin, the grower should never be broken to such an extent that it will not close again in two or three years and cast a dense shade. In answer to the objection that it is sometimes urged that such work is impracticable under existing conditions of the labor and wood market, the author refers to the fact that thinning has been done and is going on now in Massachusetts and neighboring States, and that it has not only paid for itself, but has in some instances yielded a net profit of from twenty-five cents to \$2 on each cord of wood removed.

How Are the Feet? Many farmers make the mistake of feeding starchy food or other similar mixtures to horses when they seem to have difficulty in eating, when what the animal needs is to have his teeth cared for by a competent veterinarian. A horse whose teeth are out of order, bolts much of its food because it cannot masticate it, hence the food taken does little or no good and the animal loses both flesh and energy. If the horse is trying to eat and is not keeping up its vigor better look to its teeth, for in nine cases out of ten here is the trouble lies.

Prepare the Wool Well. A wool grower sending wool to market in a heavy, dirty condition, leaving anything in the fleece to make more money is greatly mistaken. Buyers estimate the value of the clip by the net yield of clean wool. When growers do their best they secure for themselves the best results. The soundness of the fiber may be tested by stretching a small staple between the fingers. Sta-

ple 2 1/2 inches in length up, is classed combed below clothing. Lintor extended in preparing the clip for sale is well bestowed and brings its own reward. The yolk in wool is the oily substance which gives color and lends softness to the fleece. It also promotes the growth of the fleece and prevents the wearing of the fiber. Good feeding, shelter and care promotes this secretion.

Clark County Raises Skunks, Coo Dogs, Snakes and Ginseng. Clark County probably raises the most varied crops of any section in the State of Indiana and has several peculiar industries, one of which is a skunk farm near Marysville, where the animals are raised for the pelts. Not far from this highly scented place is a dog farm, in Washington Township, where various breeds are reared and sold. In Charlestown Township is another dog farm, where nothing but coon dogs are looked after, the proprietor of the industry getting high prices for them. Near Nabb is the headquarters of a side show where farm stock is raised in large numbers. In Bethel, Jeffersonship, a number of farmers devote a good part of their land to the culture of the sunflower, which is grown for its seed, and the crop this season is expected to reach 100 tons and bring in a revenue of \$2,000. In the same locality butter-making is a paying industry, and hundreds of gallons are now being shipped to Louisville and Cincinnati. A Ginseng farm on Camp Creek, Washington Township, is attracting considerable attention. Next year the first crop of roots will be gathered. On the knobs in the vicinity of St. Joseph's Hill is probably the largest grape vineyard in Indiana, nearly the entire crop being used in making wine. Near Henryville is one of the few forest reservations in the country, and in this Mongolian pheasants are being raised in large numbers.

Building Food. To crush a half-inch cube of granite requires a weight of eleven tons.

To Bring the Hables Around. When a little human machine (or a large one) goes wrong, nothing is so important as the selection of food to bring it around again. "My little baby boy fifteen months old had pneumonia, then came brain fever, and no sooner had he got over these than he began to cut teeth and, being so weak, he was frequently thrown into convulsions," says a Colorado mother.

The Plowing Garden. If you have a garden it carries with it the satisfaction of going out early in May and watching radishes, lettuce, young onions and spinach. A few weeks later early peas and beans are there for the taking. By the fourth of July early potatoes, sweet and nutt, under a fashion never found in any store, can be dug. In succession follow snap beans, crisp cucumbers, tomatoes, corn that is sweeter in something more than name and mysterious fragrant, melting, delicious.

Awake in Mexico. Mexican farming interests are waking up under the example of their neighbors of the North, and a new school of agriculture is to be established under the charge of one of Father Burbank's co-workers. This school is the first of the kind to be established in Mexico, and is located near the boundary line. The conditions there are similar to those in Texas and south California, and a high grade of agriculture may be expected under intelligent methods.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of *Chas. H. Fletcher* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that traffic with the Endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS Bears the Signature of *Chas. H. Fletcher*

The Kind You Have Always Bought

The conditions there are similar to those in Texas and south California, and a high grade of agriculture may be expected under intelligent methods.

SICK HEADACHE

Young Fellow Repairs a Refractory Pump and Charges Accordingly. The question of remuneration for labor, always a mooted one, is susceptible of being viewed from various standpoints. In a small community in Texas where water is hard to find, Henderson, the owner of a well fitted out with a patent pump, was a person of consequence. It was also matter of public concern when the pump got out of gear and refused to perform its proper functions. All the men in the locality spent the day in Henderson's back yard, consulting him about "fixing" it jointly and severally, at the pump, but all to no avail. Finally along came a young fellow, Joe Brady by name, from a neighboring ranch. He looked the pump over, thought a couple of minutes and inside of two minutes more had it in working order again. Approbation was general. "Just name your price, Jo, my boy," said the owner of the pump heartily. "I considered a bit and then said that he guessed \$5 would be about right." "There was a change at this, and remarks of a different nature. One prohibition were freely indulged in. "Now, see here, Joe," said the aggrieved Henderson, "thought you was a square kind of a chap. That ain't any white man's charge. Why, you didn't do nothing at all—any one of us could-a done what you done—and you won't more'n five minutes' time! It neither. Fifty cents had a big price for that work you done." "All right," he said, "I'll make another charge. I'll send you my bill," he added, turning on his heel. When the bill came it read thus: For working on one pump five minutes \$50 For horse sense that no other mother's son of you could scratch up \$50 Total \$100 —New York Times.

Great Closing Out Sale

...OF A COMPLETE...

New Dry Goods Stock

We Will Place on Sale Next Monday Morning, June 18th, at 9:00 O'Clock, the Robbins' Stock of Fine Dry Goods and Carpets

We bought this stock at a big sacrifice for cash. We must have the room which it occupies for new lines which we are adding to our own store. Every dollar's worth of the Robbins' stock must be sold AT THIS GREATEST BARGAIN SALE EVER HELD IN WAYNE. PRICE IS NO OBJECT---We have not stopped to consider the value of the goods---we own them at a sacrifice---we must have the room, and we will sell the entire stock at prices that will clear it out completely. You will find the CUT PRICE marked on every article in blue pencil on the original ticket in PLAIN FIGURES... Eggs taken same as cash---Bring your eggs to the Miller & Ahern store and get produce money---which will be as good as cash at this sale.

Fine Dress Skirts Tailor-Made Suits

Fifty handsome new Dress Skirts--the well-known Buckingham make--blacks, blues, browns and fashionable grey. A shipment of new styles received while invoicing. Every one of these Skirts must be sold. Four fine Cravenette Coats to go, five handsome Tailor-Made Suits, fifteen beautiful Silk Underskirts. We have marked the whole lot down to prices that will move them quickly--it's your opportunity.

Summer Wash Goods

We Cut Deep Here

There are about seventy-five pieces of the very newest, high-class Summer Dress Materials in this lot. Fine Lawns, Tissue Silks, Silk Gingham, Flowered Silk Organdies, Black and White Suitings, and several pieces of White Linen and Linen Finished Suiting in the lot. They won't last long at the price we have marked them. This sale comes at just the right time for you. The summer season is at hand and your summer dress may be had at a great saving.

Shirt Waists and Shirt Waist Suits

Prices no Object. They Must Go and Go Quick.

Banner Brand Waists--well-known to Wayne people. There is a big lot including White Waists from 75c up, Silk Waists from \$2.00 up, Lingerie Waists at \$3.00 to \$5.00. It is a shame to offer these handsome waists at such a sacrifice--right at the beginning of the Shirt Waist Season--but we have a stock of our own to sell, and these waists must go.

Summer Hosiery and Underwear

No mother will miss this remarkable opportunity to provide Summer Underwear and Hosiery for the whole family. These hose are all made and dyed especially for the Carson-Pirie-Scott Co., Chicago, and are among the finest stockings made.

The Summer Underwear stock is complete and is a rare snap at the price we have put on it. Visit this stock early as it will go quickly.

A Great Bargain Opportunity

...IN...

They Want the Best... That's Gold Medal

From all quarters the demand is steadily increasing for Gold Medal Flour. People come from far and near and say their neighbors have so many words of praise for Gold Medal they desire to try it. A commodity of merit will create a demand of itself and this is proving true of this flour. This is a day and age where quality not quantity appeals to the general public. If an article has merit, people will use it and what more, import it to their friends, and so it is with Gold Medal.

Henry Kloppling says:—"Everybody should use Gold Medal Flour. It's the best we ever used—never had a bad sack."

Mrs. J. M. Barrett has used Gold Medal for several months. She says:—"I will never use anything but Gold Medal as it's just fine."

Another lady who uses flour says:—"It's a pleasure to bake since I begun using Gold Medal—it goes so much further and makes perfect bread."

I have added 100 new customers to my list of Gold Medal users and in every instance they are satisfied. They find it to their advantage to use Gold Medal because it makes perfect bread, it goes further and produces bread that pleases and satisfies.

My patrons used to say:—"Send me a sack of flour"—It's different now, they say "Gold Medal."

Barley	84 1/2 Eggs 14
Rye	45 Flax 80

Baltimore yesterday suffered a \$1,000,000 loss by fire.

The Nebraska postmasters were in convention at Omaha this week.

More than 5,000 bricklayers went on a strike at St. Louis on Tuesday.

After a few months' breathing spell, the Longworths are again in the public eye, this time as King Edward's guests.

Senator George L. Sheldon announced himself as candidate for the nomination of governor subject to the decision of the republican state convention to be held in August.

Except in a limited area the rainfall throughout Nebraska has been small during the past week. The weather has been windy and the soil is beginning to need rain badly.

We are anxious to know by what ornatorial fete Col. Bryan will tell the Longworths, in his Fourth of July address there, how the Johnnies got their jackets tanned by the Yankees.

Edward Rosewater is in France but his political record is indelibly impressed on the minds of the voters of Nebraska and his long and active career against railroad encroachments will go farther

to secure his nomination and election to the United States senate than the "sounding brass and tinkling symbol" of some of his opponents.

A state law prohibiting the trimming of hats with birds wings or feathers, goes into effect in Iowa on July 1. May the good work go on until not only Iowa but every state in the Union forbids this fashionable hat.

The jury in the United States court in the cases of Armour, Swift, Ondahy and Morris packing companies, at Kansas City, Tuesday, returned a verdict against the companies, charged with accepting rebates from the railroads.

Mrs. Kaufman, wife of Mose Kaufman, a millionaire brewer, of Sioux Falls, S. D., was arrested Tuesday charged with the murder of a 16-year-old girl, Miss Agnes Polreis, who had been employed in the Kaufman home as a domestic.

Hall county has a republican candidate for the nomination for governor in the person of Hon. George L. Rouse. Mr. Rouse has been in the state legislature for the past ten years and was speaker of the house at the last session, where he fully demonstrated his ability to make the people of Nebraska a good executive.

For the benefit of prospective June brides, the weather bureau has obligingly issued a report, or weather card, covering the last thirty-five years. The clear days in June during that period have averaged ten, with thirteen partly cloudy and seven cloudy. The normal temperature has been 73 degrees. The average amount of rain for the month during the thirty-five years was 4.04 inches.

The investigation of the affairs of the Norfolk hospital by the state board of public lands and buildings has had two effects. It has cast suspicion on the character and questioned the reputation of an honest man and faithful employe, and it has brought out the damaging effects of the "muck raker" and shown how readily the public mind, in its present unsettled state, grasps the sensational without regard upon whose neck the ax may fall.

The democrats who have been proselyting around some of the so-called progressive republican camps, are liable to hear the loud sonorous bugle call of W. J. Bryan and wonder where they "are at." Whatever may be said of Mr. Bryan's doctrines, he is at least sincere. When he couldn't agree with the leading element of his party, he didn't try to split it but, as he said, "chose the better of two evils and bided his time." Now his party is calling to him "come over into Macedonia and help us."

The remarkable strides made by the rural free mail service is set forth in a statement just issued by the fourth assistant postmaster general. The report declares that the service now reaches 3,202,730 families and 13,502,457 persons. The demand for an extension of the service is great, the total number of petitions for new routes up to the first of the current month being 53,367, upon 14,827 of which adverse reports have been made. The number of petitions pending on June 1 was 3,233, while the number not acted upon is set forth as being 2,875.

MAY CUT OUT ANTI-PASS LAW.

There has been prepared by the house conferees on the railway rate bill a modified form of the anti-pass amendment which will be presented at the next meeting of the joint conference committee for consideration. The modification is in the way of specifying an excepted class who may receive free transportation from the railroads lawfully. The first exception is that railway employes and their families may receive free transportation. Another is that of employes of the postoffice department who hold commissions from the postmaster general and are required to travel.

There is a vast difference between a politician who has a principle and one who has only an ambition. The one is imbued with the welfare of his countrymen, the other of self; the one appeals to the people of reason, the other to fanatics who have the same power at the ballot box; the one is laboriously striving to control the greed of the great monopolies, the other bewailing graft; the one is putting good laws on our statute books, the other frantically treading the public platforms eloquently pleading "reform;" the one keeps sawing wood, the other howling calamity; the one is kept pretty busy holding in check the desperate efforts of the other.

The two rival logical candidates for the presidential nomination on the democratic ticket in 1908 are William Jennings Bryan and William Randolph Hearst. In 1904 when Bryan was out of the role he supported Hearst. Now that the democrats in several states and especially in Washington are loudly calling for Bryan, will Mr. Hearst be magnanimous enough to step down and out or is he so overcome with yellowism that he is blind to his own selfishness. Bryan represents the conservative and Hearst the radical (progressive) element of their party. Hearst's newspapers, filled with all kinds of crime and vice, are as damaging to the minds of the youth as Bryan's lectures on "Ideals" is elevating to mankind. The "hold" on Hearst by some of his constituents, is so electrical that it is difficult for them to "let go."

The assurance that a satisfactory inspection law will be had from congress safeguarding alike the interests of meat consumers and live stock growers and yet without hardship to fair-dealing packers, is gratifying. The president no more than congress seeks any un-

reasonable or harsh restrictions, but has stood firmly for efficient protection for the public health, which, indeed, is required as much for the permanent good of the packers themselves as for the public interest. It is significant that the packers and allied interests already accept a strong measure of national inspection as inevitable and are beginning to urge that the legislation be perfected and put in force as soon as possible. They see that this is necessary to stop injury to the meat business and to put them in position to recover the losses already sustained in the home as well as in the foreign market. Indeed, such a system as the president has insisted upon is now the only basis on which, especially in the foreign trade, our great meat industries can permanently prosper.—Bee.

THE COST OF INSPECTION.

The packers think that the government should pay the cost of meat inspection, because forsooth if the government does not shoulder the burden the packers will have to pass the cost on to the stockmen and that will mean hardship for the stockmen. It sounds good, but it doesn't sound sound. Inspection is for the purpose of protecting the public against the careless or injurious practices of the packers. It is the business of the packers to see that only good and wholesome meat goes out from their establishments. If they need watching to keep them from buying and selling diseased animals, if they allow meats to rot so that poisons are necessary to make them salable, if they allow insanitary surroundings and criminal carelessness to jeopardize the general health by the introduction of infection into the products passing out of their plants, they should be made to pay the cost of insuring the public against injury. It is to their own interest to see that the public is so insured.

There is no doubt but that the cost will be passed on all right, but it will not be the stockmen that will pay it. The general public will pay for the inspection in the increased cost of meat and meat products and it will be willing to pay, but the question is the way in which it is to be assessed. The cost of inspection will be less in the large establishments than in the smaller ones and the relative advantage of the big packing houses will continue as at present. The immediate effect of the inspection law may be the depression of live weight prices, but the conditions will shortly be equalized and the packers will not see much in the handling as before. A stand by the stockmen against the assessing of the price of inspection against the packers would be an economic mistake, for the ultimate effect of the right law proposed will surely be an enhanced price for all meat products and a greater and more certain market than this country has ever yet enjoyed.—Sioux City Journal.

COLLEGE NOTES.

An enjoyable day was spent by the graduating classes Saturday at a picnic in Skiles' grove.

The Misses Gutru, of Newman Grove, enrolled this week. The young ladies will be in school for the remainder of the year.

Quite a number of the students will go to their homes at the end of this week to remain until the beginning of the new term next Tuesday.

On account of the large number of new students who will arrive the first of next week, all those who wish to enroll should do so this week if possible.

The regular term examinations are being held in all the classes today. In most of the classes good results are looked for by both teachers and students.

Mr. Geo. L. Towne, editor of the "Nebraska Teacher," visited the college last week. He spent some time in the various classes and was the guest of Prof. and Mrs. Pile at dinner. All citizens who can rent rooms for students for the summer term and have not notified the college, will confer a favor by giving notice by Saturday. A large number of rooms are needed. Call phone number 207.

The carpenters this week completed the work on the addition to the large dormitory, and it will be ready for occupancy next week. This provides a great deal more room for the kitchen and dining room and on the second floor there are nine large rooms.

NEWS FROM HOSKINS.

W. F. Schrieber has sold his farm to John Lenzar. Consideration \$10,000.

Gustav Petzold, living west of town, and Mrs. Erb, are to be married today.

Chas. Joehens was in town Monday and bought the lumber for a large new house.

H. T. Wadsworth, of Red Oak, Iowa, is looking after his land interests here this week.

J. F. Crosby expects to leave in a few days for a six weeks' visit with relatives in New York.

Jas. Hamilton and W. F. Peltzer returned Tuesday from a trip to the western part of the state.

F. O. Oldenberg, Chas. Maas and Fred Joehens were passengers to South Dakota Monday morning.

The German Evangelist Sunday school will have a picnic in the Schenrich grove next Thursday.

Mrs. Lydia Pierce returned from Rembrandt, Io., Saturday, where she had been for several months.

One of the best games of ball ever played here was played Sunday between Hoskins and Winslow, Hoskins winning the game by a score of 5 to 2.

PREPARATIONS FOR FOURTH.

The Wayne Commercial club met on Monday evening to appoint committees and make other arrangements for the celebration to be held in this city on July 4. In addition to the committees

on Finance and Speaker heretofore appointed, the following committees were fixed: Amusements, Concessions, Fireworks, Advertising and Music. Here are the committees:

Finance, Dan Harrington, E. J. Raymond, L. W. Roe.
Amusements: W. H. Morris, E. J. Raymond, A. R. Davis, C. M. Craven.
Concessions: S. R. Thobald, H. B. Jones, H. Whalen.
Fireworks: H. Whalen, J. E. Marsteller, James Leaby.

Advertising: W. H. McNeal, W. M. Orr, W. S. Goldie.

Music: Dr. Frank Gamble, E. A. Johnson, W. H. Rickabaugh.

Different arrangements as to attractions, etc., were discussed and it is planned to make the celebration the best in this section. No speaker for the occasion has yet been secured. About \$500 has been subscribed so far and the sale of concessions will amount to considerable.

All are invited to participate of Wayne hospitality on that day and a good program and good time is assured.

COUNCIL PROCEEDINGS.

Wayne, Neb., June 11, 1906.

Council met in regular session. Present Mayor Piepenstock, Councilmen Roe, Duerig, Gaertner, McVicker, Harrington, Stringer and Clerk Wister. Minutes of last meeting read and approved.

The following bills were presented and on motion approved:
Stegeman & Chapman, plow.....\$12.00
Geo. W. McCullen, labor.....75

Mrs. Walter Andrews arrived in Wayne Tuesday to join her husband.

Pleasant Valley Union Sunday school, four miles southwest of Wayne, observed "Children's Day" last Sunday with an excellent program. Sixty people attended the service and pronounced the effort a decided success.

Fairview Sunday school organized by Missionary Young in the Baird district, starts out with an attendance of about forty. The school is a ranging to have a Children's Day service. School meets at 10 o'clock.

Celebrate July 4th in Wayne

WILL DONATE A KRELL PIANO

TO ANY CHARITABLE INSTITUTION IN THE COUNTY

Our prices, considering the quality, are not lower than those of any other piano house in the state. We are not going to leave the city. The experience of Otto Voget, Jr., in piano building gives you the opportunity to purchase the best instrument for your money. Remember when you give us a call we can show and explain to you all parts of a good piano; do not purchase an instrument by its name only, but by its quality in tone, touch, case design, and mechanical construction.

HEADQUARTERS FOR

Brass, Wood and String Instruments

and Supplies of All Kinds

Also Talking Machines, Up-to-Date Records and Sheet Music

VOGET'S HARDWARE

Jos. Farran, who has been hovering between life and death for several weeks from the ravages of what is supposed to be a cancer of the stomach, died last Sunday afternoon at 5 o'clock. The funeral was held from the residence Tuesday afternoon and the interment made in the Winside cemetery.—Winside Tribune.
The implement stock recently purchased of Wm. Larson by Stageman & Ohlman, has again been sold, this time to a party at Lynch, Neb., and was shipped to that place Tuesday. The Powers building, we understand, will be occupied about July 1 by a West Point man who will handle buggies and conduct a paint shop.
The American Sunday School Union is pushing the work of organization in this state. About seventy Sunday schools have been started up during the past three months. Mr. Young, representing the society in this section, now has a helper on his field, Mr. W. H. Gray, of Ponca, who will work in the north part of Dixon and Cedar counties.
Prof. Gregg's lecture last Wednesday evening on Nebraska's Geological Story was of unusual interest. About one hundred lantern slides were used. Prof. Gregg possesses to a remarkable degree the power to grasp scientific facts and the power to impart them to others. The facts so far as known that are involved in the story of Nebraska's geological growth were presented in a vivid and interesting manner. The meaning from the standpoint of historical geology of the soils of our state, and of the various coal and rock strata that are exposed, was made clear. The cultural value to a community or to a group of teachers of such a lecture is certainly great. Prof. Gregg's long and successful experience as a science teacher in the Normal college here contributed to the interest that was taken in the lecture.
When the family of Chas. Pfeil, living eight miles southeast of Wayne, awoke on Friday morning it was discovered that their 17-year-old daughter Anna and Henry Ulrich, employed as a farm hand by Mr. Pfeil, were missing. The family immediately suspected an elopement and Mr. Pfeil, having no idea as to the direction the runaway could have taken, came to Wayne and took the morning train for Emerson but discovered no trace of them. Sheriff Means being out of town a warrant charging Ulrich with abduction was placed in the hands of Constable John Soules who traced the couple to Laurel where their horse and buggy were found. The couple were taken into custody at Harrington, where they had gone from Laurel by train, and brought back to Wayne. The case against Ulrich was dismissed on Tuesday, the day set for hearing, there being insufficient evidence to hold him on the charge preferred.
The home coming from Nellig of the local attorneys has, as was expected, but the enormity of which was never grasped, circled stories of the great number and enormous sizes of the funny tribe, successfully reeled in by the wily attorneys. Space will not permit us to publish but one of the most important of these stories told by the local fishermen, Chas. Kelsey, of Nellig, and L. E. Peterson and A. B. Davis, of Wayne, after having skillfully prepared their hooks and lines, waited impatiently the forthcoming issue. They had not long to wait when their bait was swallowed by a monstrosity, with a will power second only to an attorney. After a desperate struggle lasting six hours, and a council of war held by some of the older members of the profession, it was decided that, owing to the pugilistic powers of Mr. Kelsey he should doff his raiment and meet the enemy in a hand to hand encounter. The latter tactics proved successful and the huge monster was landed, after having baffled the ingenuity of the legal profession of the 9th judicial district for seven long hours. His weight was estimated all the way from 8 to 800 lbs., owing to the quantity and quality of the snuff contained that stimulates the fisherman's imagination. After having heard this story there is no use for any one in Wayne to go fishing unless the clergy decide to lay aside the ministerial robe and enter the contest.
HURLEY-SKILES.
Mr. C. O. Hurley, of Glendire, Mont., and Miss Fannie Skiles, daughter of Mr. and Mrs. Robt. H. Skiles, living four miles northeast of Wayne, were married yesterday at the home of the bride's parents, Rev. C. J. Ringer officiating. Mr. Hurley is county attorney of Dawson county, Mont., and was at one time a student at the Nebraska Normal college here. The bride is well known here, having been for several years a teacher in the schools of this county. The HERALD joins her many friends here in extending congratulations. Mr. and Mrs. Hurley left last evening for Grand Island for a short visit.
A SMALL FIRE.
During the supper hour on Monday evening a fire alarm was turned in from the residence of Mrs. R. S. Olmstead in the northeast part of town. When the fire company arrived on the scene a few minutes later, however, the blaze had been extinguished with slight damage to the building. The fire originated from a stove pipe placed in close proximity to the kitchen wall.
PANAMA SUNSET, the new sundae, Raymond's Fountain.
I will put in cement gutters, first-class work, three feet wide for \$10, four feet wide for \$12.50 per lot (25 feet).
FRANK GORDON Supt.
Lost, somewhere on the streets of Wayne, Saturday, a heavy brown shawl. Finder please leave at this office and receive reward.
Lost—On Monday evening somewhere in the city, sum of money tied in handkerchief. Finder will please leave at this office.
Great Wallace shows Sioux City, June 19th. Fare \$3.15. Tickets sold June 19th, good returning June 20th.

It Makes A Difference

SOME MEN believe it makes no difference where they buy a suit if they can find what they want and the price is satisfactory. In this they are mistaken, for it makes a great difference where you buy your clothing. We do not claim we have the only good clothing made or that you cannot buy the right kind of anyone but us, but we do claim that no one sells better clothing than we do, and our prices are invariably more satisfactory than others ask. Not many merchants have had the experience in the clothing business we have, and no one is better fitted to take advantage of a cash price than we are. Our expenses are less than any other merchant we know in the clothing business. We pay no rent and sell the goods ourselves, and buy them direct from the factory for cash. These advantages are not enjoyed by many in the clothing business, and for these reasons it makes a great difference to you if you buy your clothing of us. Please consider these claims, and investigate this once to prove them. You will be treated courteously, no matter if you buy or not, and we feel sure you will be well paid for the time spent in this store. We are better prepared to fit and please you than we ever have been, and we are anxious to have a chance to show you that it will be greatly to your advantage to buy your clothing of us.

Why Not Give Us a Trial?

400 Men Wanted

AT ONCE

To buy Refrigerators—the cheapest and the best from \$8.00 to \$25.00. Gasoline Stoves—nothing better for hot weather, and nothing cheaper to burn. We have all prices from \$3.00 up of the best makes on the market. Files are coming. Buy your Screen Doors and Screen of us and save money for the Fourth. Enamel Ware—See our big line of Enamel Ware—it is cheaper than tin and much better. Get our prices before you buy. Nothing nicer or more durable than Nickel Plated Ware. We have a complete line. Fence—When you build a fence you want the best—the Pittsburgh Perfect has them all beat. Use the Pittsburgh—We have it. Steel Ranges—The best is the cheapest and, of course we have them. See our line and you will have no other. We sell Grindstones. Washing Machines, and our line of Shelf Goods is complete. Paint is what you need to look good—Our line can't be beat and our price is right. We have a complete line of Machine Oils, Roofing Oil, Wood Preservative, and in fact everything that belongs to a hardware store, and the place to buy is of.

Marsteller & Peterson.

Outing Suits to Wear

Some outing clothes are made just to look good in the window, or on a dummy; as soon as you wear 'em you wish you hadn't. Hart Schaffner & Marx make outing clothes to wear; tailored, not merely sewed together; all wool, not flimsy cotton mixed fabrics. Ask us for these outing suits. They're right and ready.

BLOWN TO PIECES

ELEVEN KILLED AND FIVE INJURED IN PENNSYLVANIA.

Dynamic Plant Explodes—Every Building But One Demolished and Victims Literally Torn to Shreds—Cause of Explosion Is Not Known.

Lancaster, Pa., special says: Eleven persons were blown to pieces and five others seriously injured by the explosion of a dynamite plant Saturday near Pequea, along the Susquehanna River. The dead are Benjamin Gebhardt, aged 22; Benjamin Rieker, 21; George Rieker, 20; Fred Rice, 23; Collins Parker, 18; Phares Shoff, 18; William Funk, 16; John Boatman, 17, and three unidentified men.

The seriously injured are Walter Brown, Martin Rieker, George Gray, Charles Crigger and Jacob Shoff. The accident was one of the most horrible in the history of Lancaster County. The victims were literally torn to pieces, hardly enough remaining of the bodies to make identification possible.

The cause of the explosion is not known. Two of the unidentified victims had just started to drive from the plant with a load of dynamite. They had gone scarcely fifty feet when the plant blew up with a detonation that was plainly heard fifteen miles away. A great cloud of smoke covered the site of the factory and when it cleared away there was not a vestige of the factory or the men.

A large number of people in Lancaster sustained slight injuries, but so far as known no one has been killed. Several passenger steamers which reached port Friday night reported having trying experiences on Lake Ontario.

Of the dead two were members of one of the parties that entered the mine in the effort to reach the men known to be there.

The mine of the state capitol building from complete destruction by fire Thursday night was accomplished in a spectacular manner by Gov. Blanchard, assisted by many Louisiana legislators, pressed in their night clothes, and by thousands of citizens supplementing the fire department.

The fire started from defective wiring near the roof of the senate chamber, destroying the capitol's eastern wing above the first floor. The damage is about \$75,000. The famous painting, "The Battle of New Orleans," valued at \$40,000, was ruined.

Scores of buildings demolished by Wind in Ontario. A terrific wind and rain storm swept Ontario Friday from one end of the southern peninsula to the other, demolishing buildings, uprooting trees and leaving the telegraph and telephone lines in a tangled mass.

The roof of the warehouse of the Deering Agricultural Implement Company was blown off and some of the smaller buildings of the plant were wrecked. The roof was blown off the Hamilton Vinegar Works and a wing of the Hamilton Club was raised.

Author of Beef Report Is Questioned. At Washington, D. C., the house committee on agriculture continued its hearing on the Neff-Kaynolds meat inspection report Thursday.

Thomas B. Wilson, manager for Nelson Morris & Co., and representing the large Chicago packing houses, continued his remarks on the feverish amendment providing for meat inspection.

Wilson said the objection he had pointed out Wednesday Mr. Wilson said the only other serious objection was the provision placing the cost of inspection on the packers.

Five Men Overcome by Gas During Department Store Blaze.

A fire of heavy damage to the stock of the Hayden Bros. department store at Sixteenth and Dodge streets, Omaha, and the burning of a fire from death of five men and a police surgeon Sunday afternoon.

The fire, which was of unknown origin, started in a furniture store at the rear of the building. It had not done more than 100 minutes when it started. The automatic sprinkler which flooded the fire, and the fire department, had not done more than 100 minutes when it started.

MEXICAN RACE WAR.

FORTY-FIVE AMERICANS KILLED IN MINE RIOT.

Outbreak Follows Strike and Demand for Increased Wages—Mexicans Fire on Foreigners and Many Fall at the First Volley.

In a desperate race war between striking Mexican miners and American forty-five Americans were killed Friday at Cananea, Mexico, where is located the great copper camp of Colonel W. C. Greene. The camp was set on fire and it is reported that the Mexicans defied all authority. They were reported to be using dynamite in blowing up the great smelters and mills owned by the Greene company.

The trouble arose at Cananea over the demand of the Mexicans for an increase in wages from \$3.50 to \$5 per day. Colonel Greene addressed practically the entire population of the camp in an effort to pacify the excited Mexicans. However, between 4 and 5 o'clock in the afternoon, the Mexicans opened fire on the Americans and forty or more were killed.

Colonel Greene wired at once to Bisbee for all the armed men that could be sent to protect the Americans and their property at Cananea. The population of Cananea is 23,000, of which 7,000 are Americans. The family of Colonel Greene arrived at Nacozari, Ariz., Friday afternoon, but the colored riotous with his property.

There has been blood at Cananea for some time and only a month ago the home of the superintendent of the mine was dynamited by unknown parties. Friday one of the policemen of the city was killed by an American, who claimed it was a personal grievance he had against the Mexican.

George Altieri, who was in charge of the large lumber business of the Greene company, was one of the first men to be killed. The Mexican laborers had been gathering in a great crowd during the forenoon and Friday afternoon about 1,500 of them started toward the lumber yard.

On the way they stopped at a livery stable and tried to persuade two Mexicans at work to join them, but they refused, and when the proprietor told them the stable was his individual property and was not connected with the mining company they left. At the lumber yard a large fire hose was brought out and as the crowd approached the office water was thrown on them.

At the same time Mitchell advanced on the crowd with a rifle. The Mexicans closed in on him, took the gun from his hands and beat him to death with it. William Mitchell, a nephew, rushed to the rescue of his uncle, when he was shot by a Mexican. Three Mexicans were killed at the lumber yard.

LAKE BUSINESS SHOWS A GAIN.

Government Report Indicates Heavy Movement of Freight.

A bulletin issued by the Department of Commerce and Labor says that commerce on the great lakes during April and the first four months of 1906 exceeds that of like periods in any earlier year. For the month of April shipments from all points on the lakes amounted to 4,345,765 net tons, while for the year to April '05 they aggregate 2,418,481, a gain for the month of 1,927,012 and for the four months of 1,702,573 net tons. It compares with corresponding months in 1905.

It should be noted, however, says the bulletin, that the unusually heavy west-bound movement of coal was probably in some degree due to the spring of vast quantities of this commodity at eastern ports prior to the opening of the lakes, in anticipation of a coal strike, which the general movement of nearly all articles of commerce may have been accelerated by the four of a general strike among semi-skilled employees, of which there seemed to be a probability during the entire month.

Of the coal, from one and a half million tons for April, 1905, increased over 50 per cent of the total west-bound movement of that month in 1906. It came mostly from 16 states, while the movement from iron and copper was generally in the opposite direction. Of the April coal movement 138,829 tons were shipped from Cleveland and 328,521 from Buffalo.

Right to Denunciate Violated.

The recent decision of Judge Rice of the Superior court of Pennsylvania, sustaining the lower court in its decision upon the constitutional vital section of the law of 1905, prohibiting the employment of boys under 14 in the hosiery and underwear industry, is regarded as a victory for the hundreds of thousands of small boys back in the mines and hosiery. Although the prohibition against employment of these boys stands its effectiveness is totally nullified by striking out the provision regarding prohibition of employment certificates, including the record showing the employment of each child in the industry.

The presiding court, Florence Kelly, secretary of the National Consumers League, says in her opinion and the opinions, that the certificate device authorized by the simplest device yet invented for making the age limit workable, and declares that these Pennsylvania judges "will add down to history as the most unscrupulous and the worst of the Georgia Senators who first gave consent to child labor in the cotton mills by day, and by night child labor." The Pennsylvania case will be carried to the supreme court.

Law Compulsory Education Laws.

William H. Allen, general agent for the New York association for improving the condition of the poor, speaking in the Chamber of Deputies at Albany, today calls attention to the fact that from 50,000 to 100,000 children who are supposed to be attending the schools of New York City, under the compulsory education law, in fact are running the streets or working in tenements and factories, in violation of the child labor law. He makes this the basis for a demand for more satisfactory school reports.

Conditions of Working Women.

The conditions of working women was the subject of a paper read before the assembly of political and social science at Philadelphia by Mrs. Rose Pastor Baker. She argued that much of the hardship of wage-working women was due to the fact that they are obliged to contribute to the support of families who live in tenements and slums, and she thought that it was the universal recognition of this fact among the working people which led to all strikes and industrial disturbances that have taken place in the last few years.

The growth of paternalism. Representative Tamm of Minnesota of the House appropriations committee said that he had no conception of the rapacity with which federal police and federal supervision of the domestic affairs of the people of the country is being extended until he had examined the estimates for appropriations for the next fiscal year. These provide for 3,113 inspectors and special agents, at the compensation of \$3,507,728.

The Glass Bottle Blowers' Association has sent \$1,000,000 in strike benefits and relief work of various sorts since 1904.

The Farmers' unions of Oklahoma and Indian Territory have over 700,000 members. The organization is gaining a foothold in Missouri.

Fourteen Chicago printing firms have broken away from the Typographical and moved to the new premises at the Typographical Union.

Warnings a day away from San Francisco are being sent out. Workmen are leaving that city for other points because of local conditions.

President James M. Lynch of the L. T. U. reports a steady gain of orders to the cloth-hoist tanks. The L. T. U. sent \$20,000 to San Francisco.

Now and revised schedules were obtained on 21 systems last year by the Order of Railway Telegraphers and 6,300 members were added to the union.

The independent contractors of New York have voted to join the Building Trades Employees' Association on pay \$4.50.

During the past few months three of the country's top labor leaders of the country have died. J. P. McGuffey was first, then J. P. McDonald, and now Edwin G. Gould.

On the recommendation of President Hobbs of the Iowa State Federation of Labor, the United Brotherhood of Carpenters and Joiners has announced their intention of going actively to college.

The Chicago Federation of Labor is said to have decided to support the Socialist revolution planned by Bishop McCabe of the Methodist church, on account of the recent attempt to abolish the honor of having the first labor candidate in history is claimed by the city of Detroit, Michigan. As long ago as 1533 the commons of the city put a schoolmaster named Collins in opposition to the nominee of the corporation.

Carpenters' District Council (Boston) is planning to hold a general assessment on every member of the 25 affiliated organizations for the council district fund. The aggregate membership of the council organizations is 6,000.

A year's agreement was signed recently by committees representing the Diamond Manufacturers' Association of America and the Diamond Workers' Protective Union, and an increase of about 10 per cent in wages was secured by the union.

The United States is the largest producer of iron in the world. It is expected that the production for this year will be considerably over 12,000,000 tons in weight, while the output in the wrought iron article will exceed 2,000,000 tons.

Los Angeles shows the largest yearly increase in labor union membership of any city in California. The increase here was more than 27 per cent. The membership in skillful trade unions in that city increased from 4,286 to 5,314 during the last year.

The Brotherhood of Railway Trainmen has been in existence 25 years. Last year it had 78,000 members, \$1,500,000 in its treasury, pays out \$140,000 every 30 days in claims, has 887,000,000 in assets in force, and has paid out \$11,512,637 in benefits.

The employees employed by building companies in the city of Providence are for the summer a half-holiday Saturday afternoon without a reduction in wages, under the decision of President W. H. P. Faurer of Brown university, to whom was referred the dispute over this question in April.

The proposed Montreal (Can.) labor camp, which it is estimated will cost in the neighborhood of \$700,000, will be made the headquarters of a newly organized Canadian labor party. Every city in Canada will place labor candidates in the field at the next general and provincial elections.

A union intended to include every one of the railroad employees in the Pullman car service in the United States has been organized by the porters, carmen and dining car men among other New York City employees who have been active in the union. The union is known as the American Brotherhood of Railway Employees, and now has a large membership.

In consequence of the lockout in the metal trades at Berlin and other German cities, a general strike of all skilled workmen, involving 250,000 national and 150,000 non-national workers, engaged in the brass and copper trades, was announced. The strike chief demands a minimum wage scale of 21 marks or about \$7 a week.

John Hines, recently selected for the presidency of the British coal workers' movement in the new ministry formed by Sir Henry Campbell-Bannerman, has been known to American trades unionists as the successful leader of the great dock workers' strike of over a dozen years ago, has made an appeal to union men to be sympathetic toward the point of total abstention.

Colorado Springs is in the race for the \$175,000 international home to be built by the Plumbers, Gasfitters and Steamfitters unions of the United States and Canada. Over 500 packages of literature descriptive of Colorado Springs and Pike's Peak have been sent to the various branches of the Glendale of Commerce of Colorado Springs, and these will be followed up by personal letters. In each package was a pamphlet telling about the Union Printers' Home. The location of the home will be selected in a short time by a referendum vote of the unions.

It has been officially announced that Governor W. P. Miller has been re-elected president of the International Glassworkers' Union by a big majority. Samuel Gompers as first vice president; L. A. Bulls of Westfield, Mass., fourth vice president; J. A. Roberts of Tampa, Fla., sixth vice president, and Gibson Weber of Philadelphia treasurer. There will be another election on Sept. 24 for the election of second, third, fifth and seventh vice presidents, as none of the candidates for these offices received a majority vote, which, according to the constitution, is necessary for election.

Over \$1,500,000 was paid in sick and death benefits last year by unions affiliated with the American Federation of Labor.

Corporation Counsel Lewis of Chicago has decided that union wages and hours shall prevail for the employees of the city. If they work on holidays and Sundays he holds that they should receive double pay.

There are 22,000 miners out of work in districts 21 and 25. About 120,000 people are affected by the present suspension. Gov. Hoch of Kansas wants the American people that such conditions will bring on a wave of socialism if not changed.

EDITORIALS

Opinions of Great Papers on Important Subjects.

THE OLD GOVERNMENT CLERKS.

Each of the thought that used to be given to a consideration of what to do with our boys has been transferred to the problem of the old men. What is to be done with a man when he is old and feeble? In more recent times, the question was answered by disposing of him in a mode which was the reverse of sympathetic and humane. We cannot refer to that system. Indeed, the difficulty today is, in the opinion of many persons, that we are too sympathetic. Take the case of the clerks in the departments at Washington. The law directs the secretaries to discharge them when they become incapacitated, but the law is not obeyed. So kindly disposed are people in these latter days that few if any old men are turned off. As a Congressman said recently, in discussing the condition, "Under the operation of the civil service regulation, with its wide-open door at the entrance, there is no other outlet, except resignation, than a door wide enough to let a coffin through."

Under the old spoils system, whenever there was a change of administration the President was accustomed to "turn the rascals out." There was a general sweep of officers, and the newcomers made a pretty clean sweep of clerks. Now, although we are told that the Government service ought not to suffer by being made an asylum for those who are no longer able to do all that is reasonably required of them, the old men stay, and every one regrets that it seems expedient even to consider what shall be done with them.

How to promote Government efficiency without working hardship and doing violence to every kindly human sentiment is the problem with which Congress is now struggling. All sort of remedies have been suggested, such as summary dismissal at the age of 70, a pension system, and a progressive reduction in salary, beginning at 65 and growing less as the usefulness of the clerk diminishes.—Youth's Companion.

A GREAT LESSON FROM FRISCO.

It was Sunday in Golden Gate Park, San Francisco. Thousands of men, women and children, destitute, some suffering all close to the most sublime tragedy this country has ever witnessed, gathered about a simple old man, white-haired, powerful-faced. There were men there who had not seen the inside of a church in years; there were those who had denied prayer weakness and religion shame. There were those who had scoffed and those who had forgotten the days when they had knelt at mother's knees, and then slipped off to bed, feeling, somehow, that somewhere there was a Great Suffering Hand that would care for them. Then these words were read, words as grand and as impressive as God's out-of-doors: "Other refuge have I none, hangs my helpless soul on thee; Leave, oh, leave me not alone; still support and comfort me." And thousands of people joined in that simple hymn and sang the sorrow from their breasts; sang till heaven seemed closer; sang till hope found place in aching hearts; sang to the glory of the Almighty and in a belief that whatever is must be for good; sang for the

THE GREAT ERUPTION OF VESUVIUS—EXORCISING THE FURY OF THE MOUNTAIN.

Throughout the ruined district such scenes as this were frequent. Before the sacred images the priests, surrounded by fugitives, said prayers for the cessation of the eruption. These services were often held in the midst of the rain of ashes.

building a house and garden," writes one young woman. Another, with several degrees and a sense of humor, frankly states her present occupation is miscellaneous and miscellaneous and miscellaneous in miscellaneous. "I am a model man endeavoring to show four sisters how to bring up children, modestly state another graduate. "The most enthusiastic naturalist in the State of Vermont," sings up one lucky girl. One young woman writes tersely, "My native town can boast of but one same college woman, and my family questions that." Bookbinding has been the occupation of one graduate. Another, whose specialty is engraving, has performed a difficult operation on the maharaja at the palace of the maharaja of Dehra. A third has written books and music and learned to ride a bucking broncho. A fourth, who has really achieved fame as an artist, modestly writes that she has been "doing a little illustrating, bear shooting and chaparraling." And a fifth has evidently made up her mind that she is to be a spinster; for she has adopted a little girl.

AFTER GRADUATION.

In reply to the question, "What becomes of college girls?" a certain college president says, "Why, nothing unusual or sensational happens to them. They scatter all over the country, and become active and useful members of society." Then, says the New York Sun, the president produced a class book of a class that has been out of college for years, and let the record reveal the history of the members.

There were one hundred and forty-five in the class when it was graduated. One-third of the members have traveled abroad, and all but thirty remain in teaching and tutoring. About fifty-five have done graduate work at other schools and colleges, and up to the present time forty-one husbands have been acquired.

"Married on the hottest day you ever saw to the best fellow," records one girl.

"Married, a lieutenant in the United States navy, and since then have lived in a trunk in various places as near the seacoast as possible," writes another.

"Have achieved neither fame nor matrimony," is the pathetic record of one, "but belong to many societies, most of them respectable."

"After two years of nervous exhaustion, got married, and am now emulating 'The Commuter's Wife' in

brother days that are to come. And the white-haired prayer book in the grass and prayed as only a man can pray who has washed his feet in a just God. He prayed for hope, for light, for guidance. And he told his God that the people still trusted and believed, and were sure that all would be well.

No great organ pealed, no flock chanted congregational hymns, no choir sang. These people were blankets, rags, the cheapest garments, to hide their nakedness. But they were there, that inscrutable Providence that rules the earth, that governs the tides and the life of the sparrows, that ever before. There were no stained glass windows, but the setting was nature's own, a heaven for a multitude in the time of need.

And hope was born on that Sunday. And there was new courage to do and be and face calmly with stout hearts; to set feet toward duty and to again do men's work; to build better, cleaner, better, finer, as they said.

"All my trust in Thee is stored; all my help from Thee I bring. Cover my defenceless head with the shadow of Thy wing."—St. Louis Chronicle.

THE RUSH TO EUROPE.

It is billed up of the passenger steamers of the three lines plying between Europe and this country, and Canada on this side of the Atlantic, have never carried so many passengers as during this year.

The demand for rooms for summer travel has never so largely before. Shows no signs of abating. Even the July sailings to the ports where the tropical sun beats everything in its path are all taken. This is not because torrid temperatures are sought in the middle of the year; it is the only way left by those disappointed in a northern passage to get to the mild zones of northern and central Europe. Forty-eight hours on a railroad train, from the dismounting port, sun baked and scorched by the winds from Sahara desert, will bring the American pleasure seeker to the mildness and exhilaration of Switzerland, Germany, Great Britain and the Scandinavian countries of the north. This atmosphere will repay the gentleman and gentlewoman for the discomfort of a long, dusty and hot railroad journey in the semi-tropics.

All the lines are adding new steamers but the demand keeps ahead of the supply and thousands of Americans who would like to make the trip to Europe in pleasant weather are obliged to stay home for lack of suitable accommodations.—Uten Globe.

GRAFTERS IN CHARITY WORK.

WILSON Kansas was suffering from the visitation of grasshoppers the whole country united in raising money and contributing food and clothing for the sufferers. Many a man was developed then. The contributions were so generous that opportunity was afforded for graft. And more than one man may richly find the foundation of his fortune in the cash or goods which he stole from the relief fund. Much the same thing has been noted in a smaller scale in the San Francisco earthquake. It is about the smallest business in the world.—Salt Lake Inter-Mountain.

DAINTY BLOSSOMS

have their counterpart in the dainty fitted feet of My Lady who gets footwear at the Owen Shoe Co's store. There is nothing so pretty as a pretty foot so why spoil its contour by an ill-fitting shoe? There are shoes made that give to the wearer the same degree of delightful comfort as they delight the eye with their grace and style and that is the kind we have in stock for you and all other women who dress well.

Flour and Feed

Payne's compound, not celery but chicken food. I make this food. It is equal to the best and you do not pay for packing or freight. It is just the thing for small chicks. We are agent for Dr. Hess' poultry food, which is good for the laying hens. Also have the mite and louse killer which none can afford to do without. We have clover brand stock food always on hand, millet seed, white shorts, graham, corn meal, whole wheat flour, a No. 1 soft wheat flour, Ladies' Favorite, and the Right Kind, chop feed, hay, oats, corn, oil meal, blood meal, and tankage. Don't forget the place, second door south of the depot.

John L. Payne

Do You Go Hunting or Fishing?

VACATION days cannot be spent to a better advantage than at some beautiful lake in Northern Wisconsin enjoying the healthy attraction of outdoor life

If you have ever inspected a map of Northern Wisconsin, you have undoubtedly observed that hundreds of the most beautiful lakes are adjacent to the

Northwestern Line

At many of these lakes are summer cottages and hotels providing excellent accommodations at reasonable prices. Then again if a camping party wishes, they may drive a few miles inland and enjoy practically a virgin field. Trout, pike, bass and muskellunge will be found at almost any of the Northern Wisconsin resorts

For Booklet showing maps of the fishing localities, list of hotels and prices, or any assistance you may desire in finding a desirable location, call on or address,

T. W. TEASDALE, Gen'l Pass. Ag't, St. Paul, Minn.

Referees' Sale

The following described land will be sold to the highest bidder on the 2nd day of July, 1906: The Southwest Quarter of Section 22, Township 25, North Range 3, in Wayne county, Nebraska. This land is known as the Kean estate and is as good a piece of ground as any in Wayne county. This 160 acres is eight miles southwest of Wayne, being between two markets and is worth looking up. Has good improvements. For other information inquire of

Referees (ROLLIE W. LEY, PHIL H. KOHL, A. R. DAVIS.)

Dr. Cosner, dentist, over First National Bank.

SHORT HORN BULLS FOR SALE

Old enough for service and out of such bulls as Cumberland Hero, the half brother of Cumberland's last, the white bull that C. A. Saunders of Manilla, Io., sold a few weeks ago for \$10,000. Every one a good one and the best of colors. A. B. CLARK.

Dr. Cosner, dentist, over First National Bank.

Wanted, a girl for general house work. Inquire of Mrs. Henry Herrell, half block west of postoffice.

Why don't you get a cement curb around your lawn? Beebe will do it.

Dr. Cosner, dentist, over First National Bank.

See W. L. Robinson, of Ostrick, for real estate, farm loans or insurance.

Instant louse killer for sale at Leahy's drug store.

Five-room house, near court house, for rent. Inquire of Chas. Robbins.

See Beebe about a new cement walk. Poultry pan-a-cop for sale at Leahy's drug store.

Good fresh cows for sale. Inquire of Wm. Fisher.

For rent, brick store room, adjoining the postoffice. Inquire of O. A. King or A. R. Davis.

Call on Wm. B. Yall and have your eyes examined under the new method and if need be get glasses that suit you and are properly adjusted.

DO NOT NEGLECT THE CHILD. At this season of the year the first natural looseness of a child's bowels should have immediate attention. The best thing that can be given is Chamberlain's Colic, Cholera and Diarrhoea Remedy followed by castor oil as directed with each bottle of the remedy. For sale by Raymond's drug store.

EVERY MAN HIS OWN DOCTOR. The average man cannot afford to employ a physician for every slight ailment or injury that may occur in his family, nor can he afford to neglect them, as so slight an injury as the scratch of a pin has been known to cause the loss of a limb. Hence every man must from necessity be his own doctor for this class of ailments. Success often depends upon prompt treatment, which can only be had when suitable medicines are kept at hand. Chamberlain's Remedies have been in the market for many years and enjoy a good reputation.

Chamberlain's Colic, Cholera and Diarrhoea Remedy for bowel complaints.

Chamberlain's Cough Remedy for coughs, colds, croup, and whooping cough.

Chamberlain's pain balm (an antiseptic ointment) for cuts, bruises, burns, sprains, swellings, lame back and rheumatic pains.

Chamberlain's Stomach and Liver Tablets for constipation, biliousness and stomach troubles.

Chamberlain's Salve for diseases of the skin.

One bottle of each of these five preparations costs but \$1.25. For sale by Raymond's drug store.

FARM FOR SALE. Eighty acres improved farm for sale 8 1/2 miles southeast of Wayne and 6 1/2 miles southwest of Wakefield. Rent goes to purchaser if taken at once. For particulars call on or write L. D. Metcalf of Emerson.

HERALD AND NEBRASKA FARMER FOR \$1.25.

Get a good local paper and a farm paper for Nebraska farmer's for the price of one. The Nebraska Farmer discontinues all subscriptions at expiration, no dues for any subscriber to the Farmer. Try it a year.

ORDER OF HEARING AND NOTICE OF PETITION FOR SETTLEMENT OF ACCOUNT.

In the County Court of Wayne county, Nebraska,

Wayne County, ss. To Maggie J. Elliott, widow, and all persons interested in the estate of James A. Elliott, deceased:

On reading the petition of Henry Ley, Administrator praying a final settlement and allowance of his account filed in the Court on the 28th day of May, 1906, and for the distribution of the residue of said estate remaining in his hands according to law.

It is hereby ordered that you and all persons interested in said matter may, and do, appear at the County Court to be held in and for said county, on the 18th day of June, A. D., 1906, at 10 o'clock A. M., to show cause, if any there be, why the prayer of the petitioner should not be granted, and that notice of the pendency of said petition shall be given thereof to be given to all persons interested in said matter by publishing a copy of this order in the WAYNE HERALD, a weekly newspaper printed in said county, for three successive weeks prior to said day of hearing.

(Seal) E. HUNTER, County Judge.

PROBATE NOTICE TO CREDITORS. In the County Court of Wayne County, Nebraska.

In the matter of the estate of Robert Mink, deceased.

Notice is hereby given, that the creditors of the said deceased will meet the Executor of said estate, before me, County Judge of Wayne County, Nebraska, at the County Court Room in said county, on the 25th day of June, 1906, and on the 26th day of November, 1906, for the purpose of presenting their claims for examination, adjustment and allowance. Six months are allowed for creditors to present their claims and one year for the Executor to settle said estate.

Witness my hand and seal of said Court, this 25th day of May, A. D., 1906.

(Seal) E. HUNTER, County Judge.

The wrong way

to select harness is the way it is usually done. Price is generally the first consideration. If that is very low the harness is attractive, regardless of quality. Judge our goods the other way about. Examine into the quality of this harness first. Then it will be seen that it is worth almost any price. But our prices are not high. Value considered, they are remarkably low.
