

IMPROVEMENT ON INCUBATOR

Ponca Man's Invention Being Tested.

FACTORY PROPOSED FOR WAYNE

John Kate Thinks the Machine Has Superior Points and Will Work Successfully.

John Kate is now testing an improved incubator invented by Dr. J. W. Porter, of Ponca, with the idea of a factory being established in Wayne if the machine proves to be all that is claimed for it. Mr. Kate says the incubator has some good points not possessed by other makes. It has a glass top, showing the internal workings without opening the machine; the necessity of handling the eggs after they are first put in is avoided. The lamp is a self-trimmer and does not have to be fed during the hatch. Such improvements are very essential, and if the machine in other respects meets expectations it ought to be a big winner on the market. Wayne would gain much by an incubator factory, and with the business management of the institution in the hands of John Kate its success would be guaranteed. Wayne is favorably located for such a factory, and if the incubator now under trial possesses sufficient merit, as now appears probable, it would be a valuable acquisition to the town.

TARANTULA INFANTS.

Two thousand active tarantula babies, offspring of the mother tarantula that was chloroformed on a bunch of bananas in Dickson's restaurant last week, first saw the light of day in Howells, June 20. All of them are alive, and all of the little wriggly creatures may be seen in a single tobacco box at Dickson's—they are his pets, as well as a curiosity and one of the sights of northern Nebraska. When Balaban, of Colfax county, who lured the egg from the tarantula that laid the egg that hatched out the young spiders, the parent insect was carefully mounted in a cigar box, and is still on exhibition to the curious; but when Dickson preserved the egg in a vaseline bottle he had no idea that it would hatch, much less hatch forth abundantly. When, on Wednesday, the little tarantulas, each one-fourth of an inch across, began to be born, they "bobbed" rapidly, and within an hour after the first one appeared, were emerging from the egg cocoon at the rate of ten a minute. They are a dark brown in color, but among the number are a dozen albinos, with very black eyes.

The young ones have already started hatching, as it were, which tells the story, and are spinning their nests in communicative fashion within their range, where bananas has been placed for the delectation of their insect appetites. It is one of the sights of the year, no one who can possibly come to Howells should miss seeing these wonderful, though poisonous, little creatures from the tropics.—Colfax Citizen.

G. A. R. REUNION.

Extensive preparations are being made for the Northeast Nebraska district G. A. R. reunion to be held at Oakdale, July 10, 11, 12 and 13. This district reunion has become one of the features of life among the old soldiers of northeast Nebraska, and the annual gathering is attended each year by an ever increasing number of interested crowd. The meeting is held during July each year at some town in the northern part of the state, last year at Meadow Grove, and the year before at Platt. Oakdale promises this year to outdo all previous efforts to give the visitors a good time, and from the aggressive manner in which citizens of the place are taking hold of the affair the prospects point to that end. A fine camp is promised, with plenty of hay, straw and wood, music by good bands and free attractions galore. Among the speakers will be Governor Misko, Senator Allen, P. E. Taylor and others. Every evening there will be a camp fire and a dance. It is promised that there will be no gratters on the grounds. Low railroad rates have been made for the reunion.—Norfolk News.

COMMISSIONERS PROCEEDINGS

Carl Folk is the owner of a cow that is considered of more value than the ordinary run of cows. On May 27 this cow gave birth to a good strong calf and on June 24 she gave birth to another calf. Mr. Folk vouches for the truthfulness of the above and says that both calves are alive and doing well.—Hoskins Headlight.

A gasoline lamp exploded and scattered fire in rooms occupied by R. A. Clark, over D. E. Newton's feed mill, at 10 o'clock Sunday night and the greening of the fire whistle brought out the hose company. The flames were extinguished, however, before it became necessary to throw water and little damage resulted.

There were two funerals at Coleridge last Sunday. Mrs. W. C. Boucher died at her home four miles east of Coleridge, aged thirty-three years. She leaves a husband and one child. John Newton died last week at the Norfolk asylum and the remains were brought to Coleridge for burial. His father died at the Soldiers' home at Marshalltown, Iowa, only a few months ago. An aged mother survives him.—Harrington Herald.

W. B. McCabe was summoned to Lincoln on Wednesday last week on account of the serious illness of his

little daughter. The child was considered dangerously sick for several days, but late telegrams to the Matheny family give assurance that she is now recovering. Mrs. McCabe with the child had gone to Lincoln the week before to be at the bedside of her sick mother.

Gussay, Emil and Edward Marotz were down from Hoskins yesterday, in attendance at their suit against the M. & O. railroad before Justice Lambert. It seems eight cattle, belonging to them were killed by an M. & O. train sometime last fall for which they brought suit before the justice. The suit was settled yesterday and the company will pay for the stock. J. Koenigstein acted as attorney for the plaintiff.—Norfolk Press.

Congress adjourned Saturday after a session characterized by President Roosevelt as more fruitful of good than any within his recollection. Several bills of great importance were passed, including the railroad rate bill, pure food bill and meat inspection bill. These measures which finally became laws, were for a long time subjects of lively discussion in both houses. The total appropriations of the session amounted to \$900,000,000.

F. M. Woods stirred up the animals last week at Kansas City. He sold one bull for \$5,500, made an average on the bulls of \$1,100; sold one cow for \$2,125, another for \$2,000. Sold 39 head for \$39,000, and the whole sale, 150 head, averaged \$358. Total amount of sale was over \$66,000. They were the Tebo Lawn Short-horns. The best animals and the \$5,500 bull all came to Nebraska. Mr. Woods leaves for Illinois this evening to make his last sale for the season. The 28th he will go to his island home in Lake Superior for a three months' rest.—Randolph Times.

A storm of unusual severity struck this section Saturday evening and the wind and lightning did some damage to the telephone system and electric light plant. Many wires were crossed and some were broken, and much work has been necessary to restore normal conditions. The switchboards at the power house were badly injured, and all the electric light fuses in the western part of town where the lightning was most severe, were burned out. At John Sherbahn's residence the light fixtures were destroyed. In the store of the Owen Shoe company a bolt of lightning set fire to a screen and caused a lively blaze for a few moments. Rain fell in torrents, and together with storm was the worst of the season.

A London litterateur says gray hair, bald heads and old age come from a lack of development of the imagination. The imaginative person, this litterateur affirms, will neither grow gray nor old. We are inclined to believe there is something in this theory. The one who can dream things can picture a glorious and attractive future, as well as all beautiful things in the world about him. The one who cannot is what we call a practical and hard-headed person, and the hard-headed person is apt to have a head so hard no hair will grow, or if it does it soon becomes gray, the pigment fading from it as the green fades from a frost bitten turnip top. The imaginative person's head is softer. It furnishes the basis for a better growth. It keeps the hair natural.—Fremont Tribune.

Some of the papers of Knox county are complaining that the salaries of their county officers are not large enough in view of the increased population and business. When the salaries were fixed, the country was sparsely settled and times were not so prosperous as they have been of late years. Present conditions require men to earn more than they did five or ten years ago and they are able to do it in most lines of endeavor. But with the greater volume of business to be handled by county officers and the increased cost of living, their salaries remain the same. For that reason, official positions offer no temptation to many business men. Some years ago deputyships to county officers excited a great deal of rivalry. The salaries invited consideration then. Now they are not deemed sufficient to meet the requirements of the times, and such places are not sought after.

BEST MEDICINE IN THE WORLD FOR COLIC AND DIARRHOEA. "I find Chamberlain's Colic, Cholera and Diarrhoea Remedy to be the best remedy in the world," says Mr. C. L. Carter of Skirum, Alp. "I am subject to colic and diarrhoeas. Last spring it seemed as though I would die, and I think I would if I hadn't taken Chamberlain's Colic, Cholera and Diarrhoea Remedy. I haven't been troubled with it since until this week, when I had a very severe attack and took half a bottle of the twenty-five cent size Chamberlain's Colic, Cholera and Diarrhoea Remedy, and this morning I feel like a new man." For sale by Raymond's drug store.

THE DOCTOR AWAY FROM HOME WHEN MOST NEEDED. People are often very much disappointed to find that their family physician is away from home when they most need his services. Diseases like cramp colic and cholera morbus require prompt treatment, and have in many instances proven fatal before medicine could be procured or a physician summoned. The right way is to keep at hand a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. No physician can

prescribe a better medicine for these diseases. By having it in the house you escape much pain and suffering and all risk. Buy it now; it may save life. For sale by Raymond's drug store.

MRS. THAW IN COURT.

Answers No Questions Relating to Tragedy.

Harry Kendall Thaw was indicted at New York Thursday for murder in the first degree for the killing of Stanford White on the Madison Square roof garden.

The grand jury's consideration of the case followed an inquest before the coroner's jury, which heard the testimony of several eye witnesses and rendered a formal verdict that White's death had been caused by Thaw.

The latter calmly listened to the testimony and while the jury was out on that matter with his counsel and a policeman sitting near, laughing aloud at one stage of the conversation.

It is conceded that Judge Graves of Pender can have the democratic congressional nomination in this district if he wants it.

The United States senatorship in Nebraska has narrowed down to a contest between Edward Rosewater and Norris Brown. Others with senatorial aspirations have been overshadowed.

The republican primaries in Douglas county on Tuesday resulted in a victory for Edward Rosewater, candidate for United States senator, and the eighty-three votes of that county in the state convention will be cast for him.

A distinguished French surgeon has discovered that most cases diagnosed as appendicitis are merely mucocombransous typhoiditis. We are glad to hear it, for it would be less annoying and dangerous to have such a simple complaint.

The Aeolian musical club entertained about thirty guests in Mrs. Brown's apartments last Monday evening. The rooms were beautifully decorated in green and pink, the club colors. A well rendered program followed by installation of officers and refreshments helped to make the evening a most enjoyable one.

The New York Sun complains that W. J. Bryan stopped in Vienna to get some new clothes made and thinks he should have patronized American tailors. If Bryan is as careless as the generality of newspaper men in the matter of wearing apparel, he probably was merely meeting an emergency and couldn't delay his purchases until he reached the dealers of his native land.

Don't compel yourself to give as an excuse, "I forgot". In the young especially it shows mental poverty. For mistakes of omission or commission, don't crawl behind "I forgot" with the idea that it is an acceptable reason. It is not a credit to forget, and one who habitually does it doesn't make a success of any vocation. If your memory is at fault, make a big and determined effort to cultivate and improve it.

The sensational tragedy in New York a few days ago when Harry Thaw, the young Pittsburgh millionaire, shot and killed Stanford White, distinguished as an architect, was the result of the moral depravity that has enslaved many of the rich in the large cities. Though a man of great wealth and an eminent architect, White revelled in debauchery, ruined young lives and sacrificed the happiness of his own home. Thaw has also been a debauchee and backed by wealth has defied law. The public has no sympathy for either Thaw or White.

W. W. Young, an attorney of Stanton and a former state senator, was in the city on Wednesday meeting the people. Mr. Young wants to succeed McCarthy as congressman from this district as a republican. Four years ago he was a prominent candidate for the position when McCarthy won out. The fight is really between McCarthy and Judge Boyd, but Young might hold enough votes to be a compromise candidate in case of a dead-lock. He is a very nice fellow and has some strength in the district. —Schnayler Free Lance.

The Lincoln Herald of recent issue criticizes Governor Mickey and the Lincoln Journal for their efforts to defeat Secretary Galswain, Auditor Scarle and Commissioner Eaton. The Herald claims in effect that Mickey is suffering from cranial purgation due to self-esteem incident to holding the chief office in the state, that he is a grandstand player and wants to run the whole works. It is said that while he shouts railroad reform and publicly scorns the free-pass practice, his son, employed in his office, rides on passes. It is also alleged that the governor would like to have the United States senatorship light on him, and in that event no doubt believes he could develop into a LaFollette.

Some syndicate journalist with a powerful imagination wrote a readable yarn about the culinary arrangements at the White House and the meals eaten by the President's family. The story, which was published this week, contained the information that four or five course breakfasts, six or seven course luncheons, and elaborate dinners of from six to ten courses were the means of daily warding off hunger in the President's official residence. President Roosevelt promptly took to task the local paper in which the story appeared. He declared emphatically that the yarn was the veriest bosh, and then explained that the White House means is of the simplest kind. At luncheon, when he is alone, the President says he enjoys a bowl of bread and milk. The family dinner never exceeds three courses and more often averages two.

Slavery has been abolished throughout the civilized world, but it has remained for a Democratic paper printed at Potosi, Mo., to favor its revival as a matter of business expediency. This unique publication says: "It is now claimed that the system of peonage practiced by the farmers of New Madrid county is necessary to the business interests of that section; that without

modified slavery there can be no money made by capitalists in that section, and that it is therefore necessary to coerce the negro, notwithstanding the provisions of the constitution against slavery." What is the constitution between Missouri Bourbon? The capitalists of New Madrid can't make a profit without slavery, so they simply re-establish the peculiar institution. What could be easier, until Uncle Sam takes them by the snuff of the neck? —St. Louis Globe-Democrat.

Affairs incident to the Fourth have worked against bringing the Herald up to the usual standard this week.

Business men have been busy today restoring normal conditions after the rush and whirl of yesterday's celebration.

There never was a bigger or more orderly crowd in a town of Wayne's size than gathered here yesterday to celebrate the Fourth.

R. Karo, of Pender, opened his new meat market on the west side of lower Main street yesterday. He has neat and well equipped quarters.

Meister & Bluchel of West Point, have located in Wayne, engaging in the farming implement business. They bear high reputations and will doubtless do well.

The crops in Wayne county are doing well and promise to be abundant. They have not thus far suffered injury from storms, and the elements continue friendly the yield will satisfy all expectations.

A woman at Grand Island deserted her husband and little child to join a band of religious fanatics, and then later, after a little reason had been restored to her, she regretted her folly and wanted to return to her family.

The differences between the governor and Norfolk asylum officials are still unsettled. It is predicted that Governor Mickey will insist on the resignation of Dr. Alden, the superintendent, but that the latter will refuse to quit and carry the trouble into the courts.

At the monthly meeting of the school board Monday evening, the question of building a new school house in Wayne was given some attention and all agreed that the enterprise would have to be undertaken within a year or two. In the meantime plans to meet the growing necessity of a new building and modern equipments will be discussed and formed.

THE DOCTOR AWAY FROM HOME WHEN MOST NEEDED.

People are often very much disappointed to find that their family physician is away from home when they most need his services. Diseases like diphtheria, cholera and cholera morbus require prompt treatment, and have in many instances proven fatal before medicine could be procured or a physician summoned. The right way is to keep at hand a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. No physician can prescribe a better medicine for these diseases. By having it in the house you escape much pain and suffering and all risk. Buy it now; it may save life. For sale by Raymond's drug store.

BEST MEDICINE IN THE WORLD FOR COLIC AND DIARRHOEA.

"I find Chamberlain's Colic, Cholera and Diarrhoea Remedy to be the best remedy in the world," says Mr. O. L. Carter of Skirum, Ala. "I am subject to colic and diarrhoea. Last spring it seemed as though I would die, and I think I would if I hadn't taken Chamberlain's Colic, Cholera and Diarrhoea Remedy. I haven't been troubled with it since until this week, when I had a very severe attack and took half a bottle of the twenty-five cent size Chamberlain's Colic, Cholera and Diarrhoea Remedy, and this morning I feel like a new man." For sale by Raymond's drug store.

The streets of Wayne have been greatly improved of late and never looked as well as they do now. Let the good work continue.

A son was born on the 28th ult. to Mr. and Mrs. W. E. Johnson of Omaha. Mrs. Johnson was formerly Anna Gamble of Wayne.

Mr. John Morris Larsen and Miss Nettie May Groat, both of Hartington, were united in marriage at this place Tuesday by Judge Hunter.

Mrs. J. B. Stallemitz, who underwent an operation in the hospital at Sioux City, returned home Tuesday evening, having recovered satisfactorily.

Louis Peters and wife and C. G. Dolen and wife of Randolph, and Elwood Williams of Magnet, were guests of Dr. J. J. Williams in Wayne yesterday.

The school board met Monday evening and among other business re-employed Peter Hinkle and E. Ferrin as janitors of the two school buildings at increased salaries.

Over 200 cattle stalls are already reserved at the coming State Fair to be held in Lincoln the first week in September and very few stalls are unoccupied in the horse barns.

Mrs. W. O. Gamble and daughter, Miss Daisy, visited relatives last week at Galeburg, Ill., and will spend a week with relatives at Missouri Valley and Omaha before returning home.

S. K. Theobald and wife, O. A. King and wife and a number of others expect to take a trip to Denver next week and camp out for a time among the mountains in the vicinity of King Solomon's mine.

Miss Maude Edmondson, of Upland, a student in the music department at the college, departed last Monday for Sioux City, where she expects to spend a couple of weeks visiting friends and relatives before continuing her journey home for the summer.

At a meeting of the Baptist church Tuesday evening, it was decided to extend an invitation to the Northeast Nebraska Baptist association to hold its annual meeting in Wayne this month. The meeting takes place between the 17th and 20th.

Mrs. Simon, a W. C. T. U. lecturer of national reputation, addressed a large audience at the union temperance meeting in the Presbyterian church Sunday evening. She is a woman of exceptional ability, and all who heard her were highly pleased with her talk.

The Wayne college boys played two games of base ball with the Pilger club last week. On Friday at this place the game resulted in favor of Wayne by a score of three to one, and on Saturday at Pilger the latter won in a score seven to five. Tomorrow the college boys expect to cross bats with the Ponca team at that place.

The live stock department at the State Fair this year is already assuming vast proportions. It has been necessary for the management to build three more permanent swine barns, each containing thirty-eight pens, which increases the capacity so that about 1500 can now be exhibited, and there have been requests for 200 additional pens filled with the superintendent.

The little girl of Carl Lutz, aged 3 1/2 years, living northeast of Wayne, strayed away from her father while in the crowd on Main street last night and was not found until nearly 10 o'clock when her cries were heard in the vicinity of Jake Dornberger's residence, members of that family discovering the child and taking her to her anxious parents. The little one drifted away and became lost at about eight o'clock and a lively search was continued until she was found ten blocks west of Main street. The relief to the mother and father, on the finding of their child, may be easily imagined.

CELEBRATION IN WAYNE

Immense Crowd Here on the Fourth.

FAVORED BY IDEAL WEATHER

Program Carried Out as Advertised—Messrs Savidge and VonSeggern in Chief Amusements.

Fair weather—not suffocating, but hot enough to inspire ice-cream dealers with satisfaction—favored the celebration of Independence day yesterday. The crowd in Wayne was variously estimated from 5000 to 8000. So many people came down the Bloomfield branch in the morning that it was necessary to use a flat car, notwithstanding that an extra coach had already been added. Nearly 300 railroad tickets for Wayne were sold in Winside and the Norfolk train was loaded with passengers for this point. Humanity poured into Wayne from every direction until Main street and side streets presented an immense throng.

Messrs. Savidge and Von Seggern, acrobats and vaudeville performers, furnished most of the amusement features of the program, and for that purpose had previously erected horizontal bars, trapeze, high wires, etc., along Main street. The first attraction was a high wire performance, and was followed by the ascension of a trained dog up a sixty-five foot ladder, from which it voluntarily leaped, landing in a net.

At 10:30 o'clock, Hon. Carl F. Kuehnle of Dennison, Iowa, delivered the address of the day before a big audience in the bowery. He gave utterance to patriotic sentiments, and his speech throughout merited and received close attention. He was frequently interrupted by hearty applause.

After dinner some difficult feats in horizontal bar acting were exhibited by Messrs. Savidge and Von Seggern, and later trapeze acts, slack wire walking and vaudeville performances.

A ball game between Winside and Wisner on the college grounds attracted a share of the crowd. The result was 14 to 8 in favor of Winside.

The foot race was won by a man from Stanton, Martin Rieger, taking second prize and Mr. Powers of the college third. The distance covered was eighty yards.

From 7 until 9 o'clock a band concert and vaudeville performance took place on central Main street. The band discoursed some excellent music during the evening, as it also had done during the day.

The display of fireworks followed and lasted for an hour. Dances in the opera house and bowery gave enjoyment to lovers of the Terpsichorean art. Good order prevailed and no accidents occurred to mar the enjoyment of the day. There was no drunkenness and no arrests were made.

CHOICE

FARM LANDS

IN NORTH AND SOUTH DAKOTA

FOR SALE BY

Northwestern Land Companies

We offer for sale, in the eastern part of the Dakotas, choice farm lands on such terms and at such low prices as to make it easy for men of small means to acquire homes of their own free from debt within a comparatively short time. We own all these lands absolutely, and they are the choicest farm lands that can be found in the localities where they are situated. They were carefully selected by our own expert land examiners when we purchased them. We give perfect abstracts and full warranty deeds.

We have lands for sale in the following named counties in S. Dak., where corn makes all the way from 25 to 50 bu. per acre: Aurora, Beadle, Brown, Brule, Clark, Codington, Day, Deuel, Edmunds, Faulk, Grant, Hand, Jerauld, Kingsbury, McPherson, Miner, Potter, Roberts, Sanborn, Spink and Walworth counties.

And in N. Dak., in the famous red river valley the best wheat country in the world: Barnes, Benson, Cavalier, Dickey, Eddy, Grand Forks, Griggs, La Moure, Nelson, Ransom, Rolette, Sargent and Stutsman counties.

The following are the various plans on which we offer to sell these lands:

CROP PAYMENT PLAN On this plan we require a cash payment of only one-fifth. The purchaser is required to break forty acres or more of each quarter section each season until at least three-fourths of the land is under plow, and deliver to us one-half the crop each year, the proceeds to apply on the purchase money and interest. **INTEREST ONLY 6 PER CENT**, payable annually. The purchaser is given ten years in which to pay for the land out of the crops if one-half the crop does not pay the purchase money and interest in a shorter time. A great many purchasers have paid for the lands out of three or four crops. At any time after one-fourth of the price is paid the purchaser may, if he desires, change the plan to an **INSTALLMENT PLAN** under which he will pay the balance of the purchase money in equal annual installments.

THE CROP PAYMENT PLAN insures success. There will be no danger of losing the farm under foreclosure, as the only claim is for one-half the crop.

All the money the purchaser needs is enough to make his cash payment, and buy his team and implements. We will assist good farmers to construct suitable buildings if necessary, adding the cost to the price of the land. A thrifty man is absolutely certain to succeed in making himself independent. **This is an Unusual Opportunity** to get choice land on easy terms.

INSTALLMENT PLAN On this plan one-fourth cash is required; the balance in annual installments, at 6 per cent annual interest. The installments may be distributed over ten years if desired.

PRICES Prices range from \$12.50 to \$35.00 per acre, according to location, improvements, etc. Land values are rapidly increasing, but prices are still much lower than in the older settled states, although the lands are better and more productive.

BIG EXCURSION on July 10th and 17th. You had better buy before they harvest their big crops. Land will be from \$3 to \$5 higher after this crop is harvested.

PRaise FOR A FAMOUS MEDICINE

Mrs. Willadsen Tells How She Tried Lydia E. Pinkham's Vegetable Compound Just in Time.

Mrs. T. C. Willadsen, of Manning, Iowa, writes to Mrs. Pinkham: Dear Mrs. Pinkham:

I can truly say that you have saved my life, and I cannot express my gratitude to you in words.

Before I write to you, telling you how I felt, I had been for over two years nearly blind, and I had lost all my money in medicine, but I had not failed to help me.

When I was troubled with irregular or painful periods, headaches, dizziness, nervousness, and general debility, they should remember there is one remedy and that remedy is Lydia E. Pinkham's Vegetable Compound.

No other female medicine in the world has received such widespread and unqualified commendation.

My dear Mrs. Pinkham, daughter-in-law of Lydia E. Pinkham, has under her direction, and since her decease, been advising sick women free of charge.

Don't Make Mistake. Please—Don't you think Mr. Galley is awfully handsome?

Yes—Huh! "Handsome" is an handsome dock. He told me last evening that he was going to kiss me before he left.

Yes—The idea! Weren't you indignant?

Yes—I should say I was. When a man promises to do a thing he ought to keep his word.—Philadelphia Press.

BOY'S TERRIBLE ECZEMA. Mouth and Eyes Covered with Crusts—Hands Flamed Down—Miraculous Cure by Cuticura.

When my little boy was six months old he had eczema. The sores extended so quickly over the whole body that we at once called in the doctor.

We then went to another doctor, but he could not help him, and in our despair we went to a third one. Matters became so bad that he had to put a plaster in his cheeks, large enough to put a razor into.

The food had to be given with a spoon, for his mouth was covered with crusts as thick as a finger, and whenever he opened his mouth they began to bleed and suppurate, as did also his eyes, hands, arms, chest and back, in short the whole body, was covered over and over.

We had no rest by day or night. Whenever he was laid in his bed, we had to plug his hands down; otherwise he would scratch his face, and make an open sore. I think his face must have itched most fearfully.

We finally thought nothing could help, and I had made up my mind to send my wife with the child to Boston, hoping that the sea air might cure him, otherwise he was to be put under good medical care there. But, Lord be blessed, matters came differently, and we soon saw a miracle.

A friend of ours spoke about Cuticura. We made a trial with Cuticura Soap, Ointment and Resolvent, and within ten days or two weeks we noticed a decided improvement. Just as quickly as the sickness had appeared it also began to disappear, and within ten weeks the child was absolutely well, and his skin was smooth and white as snow.

Do You Go Hunting or Fishing?

VACATION days cannot be spent to a better advantage than at some beautiful lake in Northern Wisconsin enjoying the healthy attraction of outdoor life

If you have ever inspected a map of Northern Wisconsin, you have undoubtedly observed that hundreds of the most beautiful lakes are adjacent to the

Northwestern Line

At many of these lakes are summer cottages and hotels providing excellent accommodations at reasonable prices. Then again, if a camping party wishes, they may drive a few miles inland and enjoy practically a virgin field. Trout, pike, bass and muskellunge will be found at almost any of the Northern Wisconsin resorts

For Booklet showing maps of the fishing localities, list of hotels and prices, or any assistance you may desire in finding a desirable location, call on or address,

The wrong way

To select harness is the way it is usually done. Price is generally the first consideration. If that is very low the goods seem attractive, regardless of quality. Judge our goods the other way about. Examine into the quality of this harness first. Then it will be seen that it is worth almost any price. But our prices are not high. Value considered they are remarkably low.
