WAYNE FAIR AND RACES

Three Days of Enjoyment for All.

GOOD RACES EVERY DAY

Although Attendance is Small the Gathering is an Enthusiastic One—Good Exhibits.

Each day of the Wayne fair last week was one of ideal "fair" weather, not a drop of rain falling during the entire three days. The lack of attendance on account of the dates being fixed at an inconvenient season for the country people, was partly overcome by the excellent weather and each day saw a goodly number of people in attendance, the second day being an especially good one. The attendance throughout, however, fell considerably short of that of last year, there being only about 3,000 paid admissions during the three days. But the lack of attendance did not in any way detract from the enthusiasm of those present and everyone enjoyed themselves from the opening to the evening of the closing day.

The usual number of shooting galleries, doll racks, etc., with their irresistible "spicers" were in evidence, and those, together with the free vaudeville attractions, band concerts, and dances on each evening of the fair, afforded ample diversion for the visitors. The Wayne merchants, as a side attraction to the fair, subscribed sufficient funds to procure Press Bros, the vaudeville company showing at the Carroll celebration on the 9th and 10th inst, and they gave a free show each evening on the streets that was all right. The Wayne Commercial Club, band furnished the music for the races, and gave a concert every night on the streets, and we hear nothing but praise for them as a musical organization.

The exhibits of horses, cattle, hogs, chickens, machinery, etc., although not large, were all first class and attracted considerable attention.

The races, however, were the principal feature of the fair. About ninety horses were entered with about forty starters.

Following is a summary of the races showing the positions of each horse at the finish of each heat, the winners of each race, time, etc.:

Messrs. Tracht, Tift, Larsen, W. E. Bellows, John Mellick, Ed. Evans, Jas. Shannon, Wm. Barrells, Griff Garwood, J. W. Johnson and Spencer Jones were a few of Carroll's representatives on Friday, at the Wayne races.

The lady in Japanese costume, demonstrating the superior qualities of "Jap-a-lao" in the show window of the Raymond drugstore, was all O. K. The advertisement was a novel one and attracted considerable attention.

The 5-year-old daughter of Edolph Heftl, Jr., living near Laurel, died Sunday night and was buried here Tuesday.

Mrs. Randolph Eftl, Sr., and daughter, Bertha, and Mrs. Robt. Heftl, of this city, left for Laurel Monday afternoon.

Mrs. Chas. Plumleigh and daughter are visiting in Wayne with Mrs. Shook this week. "Deacon" Plumleigh is with the "A Messenger Boy" show this year. They commenced the season at Storm Lake, Iowa, Saturday. The company expects to show here some time in October.—Harrington Herald.

If the saying that "crickets bring good luck" is true, providence ought to be pretty good to us at this season. However, the great numbers of these insects that infest this locality have no doubt let many a man to jeopardize his look in an attempt to get a smash at one of the little "kneases" that is keeping him awake at night.

And now comes reports from the east of the appearance of the "peek-a-boo bug." The bug, it is said, confines its depredations to the patches of pink skin that show through the openwork waist and stocking, and is as ill-mannered as it is annoying. A number of proposals, the dispatches say, have been interrupted by the insect.

On Thursday evening while Mrs. Eric Norling was returning home from her daughter's, Mrs. P. Lund, she was thrown out of the buggy, striking on her head and tearing the scalp open. She was rendered unconscious and by the help of three others who were working near by she was taken to the home of her father, Edick Henriksen. Dr. Underburg, of Stanton, was immediately called and sewed up the wound which required fourteen stitches and fat this writing she is doing well.—Hoskins Headlight.

Mr. and Mrs. S. R. Theobald left for Chicago Monday afternoon to complete their fall buying. This firm has found it necessary to enlarge their store to accommodate the new goods which will soon be arriving. The addition now building, and to be complete October 1, is 15x25 feet, with a 16 foot ceiling, making ample room for balcony over the entire 35 feet. This will be used as a carpet, rug and drapery department, and when stocked with the new goods will be the most complete carpet room in this part of the state. A comfortable rest room for the patrons of the store is also being planned.

Balthazar Court, No. 14, Tribe of Bon Hur, of this city, met on last Saturday evening and enjoyed a very successful social and business session. There was a good attendance of the members who listened to an interesting address by State Manager W. J. who was present, as was also Deputy Mrs. McHenry, who has been here for several days in the interests of the order. Refreshments were served. Seven applications for membership were received. The lodge here already has a membership of about 115 and Manager Smith expects to have 500 new ones for class initiation about September 15. He will return to Wayne in a few days and begin hustling for members.

The 13th annual picnic of the pioneers and old settlers of Dixon county will be held at Allen Tuesday, August 28, this year. The citizens of Allen have very enthusiastically subscribed the largest sum ever before expended on a similar picnic, and are making every effort to entertain the people that day. In the way of amusements there will be two fast ball games—Allen vs. Wakefield, Ponca vs. N. Weasle—four of the fastest teams in northeast Nebraska, there will be the usual foot races for boys, girls, men and Old Settlers, a team pulling contest for county teams, etc., and a balloon ascension, free street carnival, "luck wire walking, etc., and a free open air moving picture show, two good bands for music, a nice shady grove, a rest pavilion, a fine orator, and local speakers, bowery dance, etc. The usual merry-go-round and all kinds of amusements, but no gambling. There will be extra police protection and everything done to please and entertain visitors during their stay. All in all the best programmed picnic so far advertised this year. You will be sure of a good time if you go to Allen.

BECKENHAUER-TAGGART. The following, relative to the recent marriage of Miss Etta Beckenhauer to Mr. Robert E. Taggart, of Aberdeen, Wash., is taken from the Aberdeen Daily Bulletin, of August 4: Surrounded by relatives and intimate friends, Miss Etta Beckenhauer and Mr. Robert E. Taggart were united in marriage at high noon on Wednesday, Rev. E. R. Brichard, pastor of the Presbyterian church, officiating. The bride was charmingly dressed in a handsome gown of white tulle, made over white tulle, with a yoke and collar of valenciennes, and was trimmed with a beaute of lace, with band and bows of heavy silk. She carried a bouquet of creamy white bride's roses. She wore no veil. The groom was attired in conventional morning dress. The wedding took place at the home of the bride's parents, Mr. and Mrs. Beckenhauer, on upper G. street.

The decorations, which were artistically arranged, were carried out, mainly in white and green. The staircase was garlanded with streamers of twisted green and white and ivy, and a large dish of yellow dahlias was placed at the foot. In one corner of the parlor was an archway covered with English ivy. This was mixed with ferns at the base, and large bouquets of Shasta daisies were placed on each side. At the back banks of white feverfew radiated from

a large cluster of the daisies, the whole forming the setting for the bridal party. Sprays of ivy on the lace curtains and bouquets of out flowers, including a large mass of cream roses on the piano, finished the decorations of this room. Intertwined streamers of green and white were effectively used in the dining room, with bouquets of daisies; ivy on the walls, bouquets of white sweet peas on the tables, and delicately colored blossoms of the same flower, with leaves of fern scattered over the cloth. Guests were ushered into the dining room, where wedding breakfast was served, Miss Elizabeth Girton and Miss Harriet Hogan assisting in serving.

Mrs. Taggart is a young woman of most attractive personality, who has made many friends during her residence of two years here, who all unite in wishing her every happiness in her married life. Everyone knows Mr. Taggart, who is now serving his second term as city attorney, and a bright future is predicted for him in his chosen profession.

Mr. and Mrs. Taggart left on the afternoon train for the Sound and Hood Canal, for a two weeks' trip. On their return they will go to housekeeping in Mr. Taggart's home on Third street. They were the recipients of many gifts from friends in this place, and from absent relatives and friends, but space forbids their enumeration.

Besides Mr. and Mrs. Beckenhauer and sons, Arthur, Lou and Carl, the guests were: Mr. and Mrs. W. W. Bizer, Miss Duera Taggart, Hon. O. V. Linn, Mrs. Linn and son, Donald, of Olympia; Miss Margaret Taggart, Misses Lillie and Ruth Beckenhauer, Mr. and Mrs. E. E. Boner, Rev. and Mrs. E. R. Brichard, and daughter, Ruth, Mr. and Mrs. J. H. Fuller, Miss Clara Anderson, Miss Hazel Magill, Miss Harriet Hogan, Miss Elizabeth Girton and Mr. Will Manning.

PROPOSED CONSTITUTIONAL AMENDMENT. The following proposed amendment to the Constitution of the State of Nebraska, as hereinafter set forth in full, is submitted to the electors of the State of Nebraska, to be voted upon at the general election to be held Tuesday, November 6, A. D. 1906.

Be it enacted by the Legislature of the State of Nebraska: Section 1. That at the general election for State and Legislative officers to be held on the Tuesday, succeeding the first Monday in November, 1906, the following provision be proposed and submitted to the electors of the State as an amendment to the constitution.

Section 2. There shall be a State Railway Commission, consisting of three members, who shall be first elected at the general election in 1906, whose terms of office, except those chosen at the first election under this provision, shall be six years, and whose compensation shall be fixed by the Legislature.

Of the three commissioners first elected, the one receiving the highest number of votes, shall hold his office for six years, the next highest four years, and the lowest two years. The powers and duties of such commission shall include the regulation of rates, service and general control of common carriers as the legislature may provide by law. But in the absence of specific legislation, the commission shall exercise the powers and perform the duties enumerated in this provision.

Prisoners and Captives

CHAPTER XXVII.

Three years ago an important period in the middle of existence was marked. It was a time when the world was passing very lightly over the small phase of existence working itself out pined by the world in the drawing room where we last saw Agnes Winter, and where we now find her again.

The room (as unchanged, and the Agnes Winter dwelling therein) was the same. The same strong finished chairs attended their moments, but her eyes looked at the wall. There it was, the eyes of one who has waited and waited in vain. None need search very far off to find such eyes as now looked up nervously to the door at the sound of the large old-fashioned bell pealing in the basement.

"Who is that?" said Agnes Winter to herself. "Who can that be?"

She rose and set one or two things in order about the room, and after standing at the clock, stood motionless with her tired eyes fixed on the door, listening.

"Well," she said in a sharp, unsteady voice ignoring his question, "what news have you?"

"I have no news of the ship, Miss Winter," he replied.

"Tell me," she said, "what you have done." "I have," he said, "explored every yard of the coast from the North Cape to the Yarna river."

"And why did you stop at the Yarna river?" asked the lady, with an air of knowing he was ground.

"I will tell you afterward," he said. "You must first tell me if you do not object to my presence."

She drew writing materials toward her and wrote. "Mr. Easton is here," she said. "She read it aloud, and, raising the veil, dispatched the note."

"I presume," said Easton, slowly, "that the admiral is still with you?" "Helen is—you will find her a little changed."

He raised his eyes to her face. His glance was as quick as ever, but his eyes did not twinkle now; they were grave, and the rapidity of their movement, being deprived of brightness, was almost freezing. There they sat, looking at each other, the silence oppressive.

Suddenly Easton spoke with a return of the quaint, narrative manner which she remembered as characteristic.

"One evening," he said, "as we were standing down the little last week—a dull, rainy evening, Tuesday, I expressed my wish to go ashore, and you, Miss Winter, were standing at the door, and something fell upon my sleeve. I looked at it curiously, for I had not seen such a thing for years. It was a tear—most singular! I feel like crying now, Miss Winter; I should like to sit down on that low chair in the corner there, and cry myself out."

"I have no objection," she said, "to your doing so, but I should like to know the cause of your weeping."

"I have no objection," she said, "to your doing so, but I should like to know the cause of your weeping."

"I have no objection," she said, "to your doing so, but I should like to know the cause of your weeping."

CHILE GETS SHOCK

Earthquake Wrecks Valparaiso and Other Cities.

HUNDREDS ARE DEAD

Fire Follows Quake and Victims Are Roasted in Demolished Homes.

Disaster Similar to That at San Francisco Benefits Port and Capital of Southern Republic—Tidal Wave Leaves Trail of Disaster—Miles of Pacific Coast Line of South America Wrecked.

One of the worst earthquake disasters in the history of South America occurred in Chile, with the City of Valparaiso as the focus point of the disaster, according to cables from Valparaiso, Buenos Ayres, and other South American points. Advances are being made that a large part of Valparaiso has been blown out, with an appalling loss of life and the destruction of millions of dollars' worth of property.

The earthquake caused such a terrible immediate damage that all communication was stopped between the city and the remainder of the world. The most terrible rumors were about the Argentine and Brazilian coast to the east of the Chilean disaster, some reports being to the effect that not only had Valparaiso been largely destroyed, but that the earthquake had caused a great tidal wave to sweep along the coast of Chile and Peru, by the suggestion of earthquake shocks which weakened the entire Pacific coast line of South America Thursday night.

So widespread and so great is the disaster that it was impossible for us to gather more than the most fragmentary details, but enough is known to make it sure that the catastrophe ranks second only to that at San Francisco. As was the case at San Francisco, families there are the tens of thousands of survivors of the earthquake.

HAVOC WROUGHT BY QUAKE

Two of the largest cities of the continent and one smaller town are believed to be practically demolished by the earthquake and the conflagration that followed it. These places and the population are:

Santiago	275,000
Valparaiso	145,000
Los Andes	50,000

The loss of life is estimated at one hundred and thousands and the value of the property destroyed at millions.

Although the main commercial center and the seat of government of Chile seem to have suffered most severely from the disturbance, grave alarm is felt for the safety of the inhabitants of scores of other places along the coast, as the whole longer Andes range was severely shaken.

As at San Francisco, fugitive threats of the disaster, and an appeal for world-wide relief is expected from the devastated region.

The earthquake caused such a terrible immediate damage that all communication was stopped between the city and the remainder of the world. The most terrible rumors were about the Argentine and Brazilian coast to the east of the Chilean disaster, some reports being to the effect that not only had Valparaiso been largely destroyed, but that the earthquake had caused a great tidal wave to sweep along the coast of Chile and Peru, by the suggestion of earthquake shocks which weakened the entire Pacific coast line of South America Thursday night.

So widespread and so great is the disaster that it was impossible for us to gather more than the most fragmentary details, but enough is known to make it sure that the catastrophe ranks second only to that at San Francisco. As was the case at San Francisco, families there are the tens of thousands of survivors of the earthquake.

WOW'S INTERSTATE FAIR

Will Be Bigger and Better Than Year—Good Tunes—Fine Exhibits.

Never in the history of all the Corn Palaces, carnivals, and fairs given in Sioux City has anything on so colossal a scale as that of the great Interstate Fair of 1906 been attempted. The Fair which this year will be given Sept. 10 to 15 at the beautiful Woodland Park, Riverside, Sioux City, by the Interstate Live Stock Fair Association, will be bigger than ever in every way than in previous years. The Fair Association has taken the profits of former years and placed them in betterments. Twenty additional acres of ground lying between the park and the Big Sioux River have been partially cleared of trees and this space will be utilized in making room for farm machinery and like exhibits. New cattle barns and horse barns and pens for swine have been built. The sum of \$100,000 has been raised for the purpose of housing accommodations of the stock on exhibition by better than at Woodland.

While wonderful success in the number and quality of fine cattle, horses, sheep, and swine has been crowned the efforts of the association in previous years, never before were so many head of princely stock entered at this time for exhibition. Of course, from the very name it bears, the Interstate Live Stock Fair Association makes the exhibition of stock in the heart of this great stock raising region its crowning feature, nevertheless, while the stock on exhibition at the Interstate Fair will compare favorably with that of the exclusive International show of Chicago, and American Royal in Kansas City, still, as a race meeting the fair of 1906 could stand alone.

For the harness events 240 animals will compete for prizes aggregating \$10,000. Already 175 running horses have been entered for the jumping events. From the horseman's point of view, the star attraction of the week will be the wonderful speed exhibition of the world's champions, Dan Patch, 1:55 1/4, and Greecue, 2:02 1/4, respectively the king of pacers and the king of trotters, which will take place Wednesday, the 12th. Dan Patch, alone, last year, at the Minnesota State fair, drew a crowd of 103,000 people. This is the first time in the history of race tracks when the kings of the two speeds have been seen upon a track at one time, and the horsemen regard it as the greatest and most thrilling sight in horse history.

Among other races will be the cowboy relay race which will be run in sections of five miles each day with a change of horses each mile.

The Western Fair Derby for a distance of one and one-half miles, which is one of the society events of the year in Sioux City, will be run on Wednesday.

In front of the grand stand will be more free attractions than ever before. The exhibition has contracted at great expense for the twelve Nelsons, Rice and Elmer, The Buckley Trio, Lisette's Whirl of Death, Martinec and Sylvester, and the thrilling Spectacle of Love, which will be run every day, constituting by reality a circus in itself.

At night the great fireworks spectacle "Moscow," which gives a graphic picture of the destruction of the Russian city, will be produced. At every night performance the 200,000 people will take part and \$2,000 worth of fireworks will be consumed.

Sioux City is making preparations to take care of the great crowds of people which will be attracted to the city during the festival week. Arrangements have been made with all railroad companies for reduced rates of fare and for special excursions. Particulars as to the points from which the trains will be run and the days upon which they will run, will be made public as soon as the general passenger agents conclude their schedules, which will be with in a week or two.

His Story Was True.

"Here's a cup I got in Morocco," said the enthusiastic tourist, showing his collection of souvenirs, says the New Orleans Times-Democrat. "You see it has an Arabic inscription. His friend, who was turning the cup curiously around at length by remark, dryly:

"Yes, the inscription is Arabic all right."

"Sure!" replied the returned tourist, a little lifted at the intimation of a possible doubt.

"You can read it better if you turn the cup upside down," suggested the friend; and sitting the action to the truth, he showed the tourist that the mysterious characters were nothing more than "1903" engraved in rough, irregular figures on the metal.

"The rascal!" exclaimed the outraged collector; "he told me that it was an Arabic inscription when he sold it to me!"

"He told you nothing more than the truth," was the reply. "You forget that our numerals are Arabic!"

But somehow from that moment the collector lost interest in the souvenir from Morocco.

He Wasn't Romantic.

She nestled her head on his manly breast.

"Oh, George," she whispered, "how long your heart beats! And every beat is for your own Angeline, isn't it, dear?"

He looked uncomfortable.

"The well, the fact is," he said, "that the engagement ring cost so much that I'm—obliged for the present to carry one of those dollar watches. That's what you hear."—Cleveland Leader.

Chickens.

"You may try to hold me in like you did last year," drawled the customer youth in the purple band, "but I will see that I go through my vacation this summer unshooked."

"That's what you will," chuckled the old gentleman. "I'll see that checks to you are cut out altogether."

Our greatest glory is not in never falling, but in rising every time that we fall.

COMMERCIAL FINANCIAL

Chicago. The weekly review of Chicago trade by R. G. Dun & Co. says:

"The aggregate of new demands in the leading manufacturing branches maintains favorable deductions as to future activity. An assuring element of stability appears in the remarkable strength which characterizes the raw material markets and the unexpected consumption of supplies, augmented into the finished products of the mills and workshops. Distributive dealings exhibit a rapidly expanding tendency. The markets are unusually well attended by visiting buyers, and this has greatly stimulated orders for general merchandise to be forwarded within the next few weeks. Transactions in staple goods exceed those of a year ago, the buying being well distributed in the textiles, wearing apparel, boots and shoes, house furnishings and food products. Western merchants are much encouraged in their operations by the splendid results attained in agriculture, and are planning for the largest fall business ever known."

"Local retail trade has made seasonal headway, and summer stocks are well reduced. The forwarding of finished materials and store supplies exceeds all previous volume and is about to be much augmented by the jobbing-warehouse shipments."

"The total quantity of grain handled at this port aggregated 8,255,578 bushels, against 7,730,000 bushels last week. The receipts increased 3 per cent and shipments decreased 5.4 per cent, as compared with those in same week last year. Live stock receipts were 262,320 head, against 257,542 head last week. Lumber receipts aggregated 40,225,000 feet, against 32,710,000 feet last week. Compared with the closings a week ago, prices advanced in sheep 10 cents and cattle 20 cents per hundredweight, and decreased in corn 3/4 cent a bushel, wheat 1/4 cents, pork 10 cents and hogs 4 1/2 cents."

"Bank clearings, \$195,533,978, exceed those of the corresponding week in 1905 by 8.5 per cent."

New York

Bradstreet's says: "Fall trade has opened actively. The first rush of house buyers being the largest on record at all large centers East and West."

"Free and confident buying of dry goods, boots, shoes, clothing and kindred articles is reported from all Western and Southern points, and first and second hands at the East report business of full volume for the season. Other developments have been mainly favorable."

"Heavy rains have affected some lines of retail trade at the West. Checked spring wheat cutting at some points and injured the quality rather than the quantity of winter wheat in stock; but, on the other hand, headed moultrie has been elevated by corn and new crops have been secured to displace turkeys at most points. Only the best reserves come from the Southern corn crop, and cotton has been improved by the cessation of heavy rains in the South Atlantic States."

CHICAGO BANK CASHIER TAKEN

Cashier of Wrecked Bank Is Held for Investigation Without Bail.

Henry W. Hertig, cashier of the Milwaukee Avenue State Bank in Chicago, which closed its doors several days ago, was arrested in that city the other day. He was released until his connection with the disappearance of nearly \$1,000,000 of the bank's funds is cleared up.

The delving into the causes of the wrecked institution developed the most astounding mass of financial rottenness ever unearthed since the State of Illinois undertook the supervision of the people's saving depositories.

With Cashier Henry W. Hertig as special and one too willing a guide to the investigators and the novel devices of bank looting were shown together with certain evidence involving other bank officers and even outsiders in the spreading of the net.

Even State Bank Examiner C. C. Jones, who has been clearing up failures in the State for twenty years, gasped over the baroque frauds which have been perpetrated with impunity under his nose in this institution.

The most startling of the revelations was the finding of dozens of checks for various amounts which the examiners, to their astonishment, found signed not with names but with numbers.

CASHIER HENRY W. HERTIG.

Thousands of dollars were found to have been paid out, with nothing to indicate who was held for payment but a set of numerals. The names had been found papers without number and which are further worthless.

While further arrests are expected, attempts are being made to post up the loss to be suffered by the 22,000 holders who deposited \$1,200,000 in the State Bank. One official says the bank will pay 67 per cent. This is on the basis that no new funds will be uncovered in the \$1,000,000 of mortgages in the bank vaults. The resources are estimated as follows:

Cash on hand	\$ 250,000

Get the Children Ready for School!

Cadet Hose 25 cts FOR Boys and Girls

These stockings have been sold in Wayne for only six months. We have had so many expressions of genuine satisfaction from mothers that we feel safe in saying they are THE STOCKING for everybody to buy. The knees, heels and toes are reinforced with stout linen thread such as fish lines are made of. They stand any amount of hard wear. The dye is a deep, rich black, will not rub off or tender the feet. We can refer you to dozens of satisfied mothers who have had less to do with the work basket since they bought Cadet Hose for the Children.

Buster Brown Shoes

The Brown Shoe Co. of St. Louis, one of the largest shoe manufacturers in the world have devoted one immense factory and years of time and improvement upon the making of a cracker-jack shoe for boys and girls.

Buster Brown shoes are the result of these efforts, and Buster Brown shoes the boy and girl should have. Boys and girls who are wearing them, like them. They look well, they wear well. Start the children to school in Buster Brown shoes.

The next president will be a stand-patter—Uncle Joe.

The Northwestern railway company will build a line from Sioux City to Minneapolis via Pierre, S. D.

The question of a cap and progressive will be argued in 1908. It will be a stand-patter Cannon against progressive Bryan.

Valparaiso, the largest city in western South America, with a population of 150,000, was shaken by a terrible earthquake Friday. The number of dead is estimated at 1,000 and property loss at \$250,000,000.

So far as the present congress is concerned, President Roosevelt is a "stand-patter" without qualifications—Omaha Bee.

Still the tariff-slipping followers of Cummins and La Follette claim to be in accord with the president.

Judge Guy Graves of Pender was nominated for congress by the democrats and populists of the third district at Norfolk on Monday. The nomination was made by acclamation there, being no contestant. Graves was placed before the convention by P. E. McKillop, the candidate two years ago.

A dispatch from Norfolk to the Lincoln Journal of August 21, says: County Attorney Koenigstein today received word from Judge Boyd announcing that the latter will go to Madison Friday and call a grand jury as requested by Koenigstein to investigate the alleged abuse among attendants in the insane hospital there.

An exchange lauds the "heroism" of a man, an expert swimmer, who last week saved the life of a drowning boy. The "hero" was called to the spot by conspicuous of the lad, "and being an expert swimmer, heroically leaped into the water and brought the boy safely to the shore." Now, wouldn't that jar your aunt's pickles? The man did his duty, nothing more. He being an "expert swimmer," not to have rescued the lad would have been simple murder. Better praise the effort of the weaker one who attempts the valiant deed, even though he fails, than the success of the stronger, as in this case, with whom the "heroic rescue" was cheap exercise.

Governor Folk, in addressing the retail merchants of Missouri at their convention spoke against the mail order business and favored advertising in the town papers. He said in part: "I do not believe in the mail order citizen. If a place is good enough for him to live in and make his money in, it's good enough for him to spend his money in. No merchant can succeed without advertising in one way or another. Patronize your town papers, build them up, and they will build the town up, and give you up increased trade and greater opportunities. Do not be afraid your business is going to be hurt by recent exposures of wrongdoing in the commercial world. No man who is doing an honest business can be injured by the light. All business will be better for this clearing process. It is going through and the stamping out of evil."

Wayne is visited by a number of quack doctors and specialists who prey upon the people without molestation and in most cases benefit no one except possibly the hotel and "ad" man, while the injury they are credited with doing cannot be estimated. Most of them claim to be "specialists." Yet a careful examination will disclose the fact that their specialty covers every known disease and probably some that are unknown. Many of their cases are cured, indirectly, by the knowledge that the "specialist" will be here and has no reputation to lose when a peddler or street vender comes to town they are compelled to pay a license and the merchants, whose taxes help build up Wayne county, are thereby protected.

but the medical and optional professions suffer and the local practice is subjected to the practice of these "specialists" probably because they are reluctant to consider the mail order citizen.

THE CANDIDATES.

The voters of Wayne county can make no mistake by voting for all of the republican nominees for county offices in this county at the coming election. Each man on the county ticket is fully and especially fitted for the office to which he aspires. No better choice could possibly have been made for any of the three offices than those placed in nomination at the recent convention. They are each and everyone of them men for whom all can vote with the assurance that the interests of the taxpayers of the county will be looked after in the manner they should be and the count of the votes after the election in November will be ample evidence of the appreciation by the voters of the right man in the right place.

For county attorney no one better fitted could be found than A. R. Davis. His experience in the legal field has been ample and his honesty, integrity and knowledge of the law is unquestioned. His election to the office will not only be a deserving recognition of ability but an act on the part of the voters that will never be a source of regret. A long eulogy of Mr. Davis, setting forth the particular reasons why he should be elected to the office, however, we consider unnecessary, being willing to leave it to the popularity already gained by Mr. Davis throughout the county. The same may also be said of the other candidates.

B. F. Feather is the candidate for clerk of the district court and is the ideal man for the place. His business ability and years of experience as a clerical lines make him an especially strong candidate for the position, and the voters will see to it that he is named for the place.

Ed Owen is a man with the interests of the county and tax-payers at heart; honest and upright in his business dealings, and as commissioner from the second district will see to the interests of his constituents and the county at large as few could. A vote for Mr. Owen is a vote for the best business management possible in county affairs and his election is already assured.

REPUBLICAN STATE CONVENTION.

The following nominations were made by the republican state convention held at Lincoln yesterday:

Senator, Morris B. Own, Buffalo; Governor, George L. Sheldon, Cass; Lieutenant Governor, M. R. Hopewell, Bart; Secretary of State, George C. Junkin, Gosper; Auditor, E. M. Searl, Keith; Treasurer, L. J. Brian, Boone; Attorney General, W. T. Thompson, Hall; Railway Commissioner, H. J. Winnett, Lancaster; Robert Cowell, Douglas; J. A. Williams, Pierce; Land Commissioner, H. M. Eaton, Dodge; Superintendent of Instruction, J. L. McBrien, Fillmore.

SIDEWALK BUILDING.

County Attorney Barry is preparing a new ordinance which it seems that will exactly fill the bill when it comes to compelling the laying or repairing of walks where needed and the city proposes to find some way to get at the difficulty. The ordinance, as it now stands, relating to the repairing of defective walks, provides for no inspection by the authorities, leaving the complaint to the pedestrian who is compelled to see them. The principal difficulty thereof lies in the fact that it is extremely unpleasant, to say the least, for a citizen to be obliged to enter a complaint before the city council, as to the condition of his neighbor's sidewalk, and for this reason the walks are allowed to remain in an impassable condition. The ordinance now proposed makes it the duty of the street commissioner to regularly inspect the sidewalks in all parts of the city and report to the council any needed repairs. The authorities notify the property owner or tenant and sufficient time is given to fix up the walks, at the end of which time, if the repairs have not been made, the city does the work, taxing the expense against the abutting property.

The ordinance relating to the construction of walks of nothing but cement, brick or stone, after May 1, 1907, is unaffected by the ordinance now in course of construction. After the above date no walks may be made of wood, nor no repairing of board walks, thus making it only a question of a short time until nothing but the concrete, brick or stone walks will be used.

All of the smaller towns herabouts are doing away with the board sidewalks. At Carroll all the old dilapidated walks are being discarded and are being replaced with cement. Hastings has ordered cement walks all over town. The city council of Hartington, at which place they claim more cement walks than any town of its size in northeast Nebraska, has just ordered cement walks amounting to eight square blocks and cement walks are being laid altogether at the new town of Watfall. Cement walk has been found to be the walk, better, and much cheaper in the long run, than wood.

The Most Economical Way to Secure Good Flour

It will not pay you to sell your wheat and buy your flour

FLOUR!

Everybody is interested in getting good flour as cheaply as possible. There are several ways of procuring flour. You may send your money to some other town or city and have the flour shipped to you. You may buy outside flour at home if you wish. You can buy flour which is manufactured at home, or you can bring your wheat to the Wayne Roller Mills and get in exchange flour and feed. If you have not raised any wheat this year, buy some and store it with us while it is cheap. If that is too much trouble, you can leave the cash with us and we will buy it for you, which will save you \$\$. New wheat will be cheap, and it will pay you to come and see us in regard to laying in your yearly stock of flour. You can get your flour at any time—one sack, ten sacks or fifty sacks if you wish. We warrant every sack of flour to be A-1, or money refunded. It will be money in your pocket to do so. We are giving 27 pounds of Superlative Patent and 10 pounds of Bran to the bushel, or 32 pounds of Snow Flake and 10 pounds of Bran to the bushel. So do a little figuring for yourselves.

Pronounced by Men of Authority

AS ONE OF THE

Largest Propositions in the State

When I say that it is one of the largest in the state, I am simply giving you the words of the United States Mineral Surveyor, who has been over the property thoroughly within the past two weeks.

He said he had made a study of every mining camp in the state, and no where did he find a better mineralized showing than on the King Solomon, and this is the verdict of several experts who have examined the property.

The veins on this mountain have been thoroughly prospected to the very heart of the veins by diamond drills, so there is no guess work about it.

We Know what We Have and are driving to the big ore bodies as fast as steel drills and steam can take us. Four good veins of ore have already been opened in the tunnel and we are not far from another one.

Nearly thirty-five people have visited the property the past two weeks and more are coming each week. They all leave enthused and well pleased with the property.

A great many Wayne people have visited the property this summer, and if you would like to learn more about the proposition we would be pleased to have you see them.

A large number are going to join the next excursion on

Saturday, September the 1st, remember the date; we want you to join with us in the grandest of trips through the Rockies. A trip that is worth many times the price in natural scenery and healthful recreation.

An exchange says that a Kansas man died and went to the bad place. The evil one put him in the caldron and put the cover on and, knowing he was from Kansas, built an extra hot fire and left him in longer than usual. After he thought the body had been reduced to ashes he took the cover off and the Kansas man stuck out his head and asked if the hot wind had injured the corn.

A very pleasant surprise was given Miss Jane Cook at her home in this city on Tuesday afternoon by about twenty of her lady friends, each with a well filled lunch basket, the refreshments being eaten on the lawn. During the afternoon Miss Cook was presented with a solid silver spoon and the Misses Midge and Jennie Bayer each with a beautiful souvenir plate as tokens of esteem. The Misses Bayer and Miss Cook expect to leave next week for Penner where the Bayer will open a millinery store.

Sometime ago the mother of Hazel Blanche Griffith signed papers giving the girl, who is 16 or 17 years of age, to the care of the Nebraska Christian Home of Omaha. While the papers were being signed the girl disappeared and it was impossible to locate her until Wednesday, when in company with George I. Sampson, the general superintendent of the society, Acting Sheriff Van Kirk found her in Blaine township. She was placed under arrest and brought to town and the formal hearing of the case will be before the county judge. It is thought there will be no objections to turning the girl over to the society.

The whereabouts of her father is unknown. He left his family about six years ago and since then has not contributed to their support. The parties lived near Orchard. -Falgout Leader

WORK FOR YOURSELF.

Then You Will Have a Chance to Develop Your Individuality.

It is well known that long continued employment in the service of others often cripples originality and individuality. That resourcefulness and inventiveness which come from perpetual stretching of the mind to meet emergencies or from adjustment of means to ends is seldom developed to its utmost in those who work for others. There is not the same compelling motive to expand, to reach out, to take risks or to plan for oneself when the programme is made for him by another. Our self made men, who refused to remain employees or subordinates, are the backbone of the nation. They are the shapers of our country's life. They got their power as the northern oak gets its strength, by fighting every inch of its way up from the acorn with storm and tempest. It is the hard schooling that the self made man gets in his struggles to elevate and make a place for himself in the world that develops him.

Some employees have a pride in working for a great institution. Their identity with it pleases them. But isn't even a small business of your own, which gives you freedom and scope to develop your individuality and to be yourself, better than being a perpetual clerk in a large institution, where you are merely one cog in a wheel of a vast machine?

The sense of personal responsibility is in itself a great educator, a powerful schoolmaster. Sometimes young women who have been brought up in luxury and who have known nothing of work when suddenly thrown upon their own resources by the loss of property or compelled even to support their ones wealthy parents develop remarkable strength and personal power. Young men, too, sometimes surprise everybody when suddenly left to carry on their father's business unaided. They develop force and power which no one dreamed they possessed.

We never know what we can do until we are put to the test by some great emergency or tremendous responsibility. When we find that we are cut off from outside resources and must depend absolutely upon ourselves we are at the height of our powers.

The trouble with working for others is the cramping of the individuality—the lack of opportunity to expand along original and progressive lines—because fear of making a mistake and apprehension lest we take too great risks are constantly hampering the executive, the creative, the original faculties.—Success.

Cap'n Bill's Explanation.

After the visitors to the island of Nantucket had covered the course over which sightseers are always conducted, says a writer in the Boston Herald, one of the ladies of the party requested that the drive be continued to "Sheep pond."

"The place where the natives used to wash the wool on their sheep in the old days," she supplemented. "Everybody goes to see it."

The driver and guide, Cap'n Bill, looked perplexed. He was evidently puzzled as to the location of this interesting sheet of water. But an old sailor and town character is rarely nonplussed, and presently Cap'n Bill snapped his whip, determination in his eye. He drove to a neighboring hill and stopped his horses.

"Here 'tis," he said, with a sweep of his hand.

"I don't see any water!" was the general exclamation.

"Not now," Cap'n Bill gravely admitted. "You see, the sheep was so dirty that the bloom'n' pond got filled up."

PEPYS AS A PROSER.

The Time When Women First appeared on the English Stage.

In the methods of producing plays, Pepys' period of playgoing was coeval with many most important innovations which seriously affected the presentation of Shakespeare on the stage. The chief was the substitution of women for boys in female roles. During the first few months of Pepys' theatrical experience boys were still taking the women's parts. "That the practice survived in the first days of Charles II.'s reign we know from the well worn anecdote that when the king sent behind the scenes to inquire why the play of 'Hamlet' which he had come to see, was so late in commencing he was answered that the queen was not yet shaved. But in the opening month of 1661, within five months of his first visit to a theater, the reign of the boys ended. On Jan. 3 of that year Pepys writes that he "first saw women come upon the stage." Next night he makes entry of a boy's performance of a woman's part, and that is the final record of boys masquerading as women in the English theater. I believe the practice now survives nowhere except in Japan. This mode of representation has always been a great puzzle to students of Elizabethan drama. It is difficult to imagine what boys in Shakespeare's day, if they were anything like boys of our own day, made of such parts as Lady Macbeth or Cleopatra. Before, however, Pepys saw Shakespeare's work on the stage the usurpation of the boys was over. It was after the Restoration, too, that scenery, rich costume and scenic machinery became, to Pepys' delight, regular features of the theater. When the dramatist saw "Hamlet" first time he was most favorably impressed. Musical accompaniment was known to pre-Restoration days, but the orchestra was now for the first time placed on the floor of the house in front of the stage instead of in a side gallery. The musical accompaniment of plays developed very rapidly, and the methods of opera were applied to many of Shakespeare's pieces, notably to "The Tempest" and "Macbeth."—From "Pepys and Shakespeare" by Sidney Lee, in "Forthright Review."

Hawaiian Hackleberry.

On the island of Hawaii are great thickets of the oleio, or Hawaiian hackleberry (Vaccinium reticulatum), which the natives consider sacred to Pele, the goddess who is supposed to preside over the famous crater of Kilauea; and which, together with white pigs and chickens, are thrown by them into the boiling red lake during an eruption to appease the wrath of the aggressive dame and thus cause the rivers of lava to cease flowing on their destructive course. These berries grow in clusters on low bushes right on the very brink of the brimstone beds and are so numerous that a bushel may be easily gathered in half an hour. In appearance they somewhat resemble a cranberry, and the flavor is pleasantly suggestive of grapes.

Worth While.

Whatever adds in even the smallest way to the world's brightness and cheer is worth while. One who says an encouraging word to a disheartened neighbor, gives a look of love to a lonely one or speaks a sentence which may become strength, guidance and comfort to another does something worth while. It is always worth while to live nobly, victoriously, struggling to do right, showing the world even the smallest fragments of divine beauty.

A Kurdish Tent.

The tents of the Kurds, in which they seek the pasturage of the mountains in summer, vary much in size, though in appearance and shape they conform throughout to one plan. The covering of the tents consists of long, narrow strips of black goat's hair material sewed together lengthways. Along the center of the tent this roof is supported on three to five poles, according to the size, and stretched out by ropes which, made fast to the edge of the roofing, are pegged securely to the ground. The poles within the tent being of some height, usually eight to ten feet, the edge of the tenting does not nearly reach the ground, but walls are formed of matting of reeds, held together by black goat's hair thread, which is often so arranged as to form patterns on the yellow mats.—Blackwood's Magazine.

Funerary Customs in Greece.

Many funeral customs in Greece are unique. The body of an unmarried girl is always dressed as a bride, the common saying being, "She is married to death." The body of a boy is always dressed as a sailor. Women never accompany funerals to church or to the graves. Processions are always on foot, the priest leading, accompanied by acolytes bearing the cross and lanterns. The body of the deceased is invariably exposed to view, and at the close of the service in the church, which concludes with the words, "Take the last kiss," both friends and strangers press about the body and give this token of farewell.

The Test.

We never know what we can do until we are put to the test by some great emergency or tremendous responsibility. When we feel that we are cut off from outside resources and must depend absolutely upon ourselves we can fight with all the force of desperation.—Success Magazine.

REPUBLICAN CONVENTION OF THE NINTH SENATORIAL DISTRICT.

The republicans of the 11th senatorial district of the state of Nebraska, are hereby called to meet in convention at the city hall, in the city of Norfolk, on Monday, Sept. 3, at 11 o'clock a. m., for the purpose of placing in nomination a candidate for senator of the eleventh senatorial district, and for transaction of such other business as may properly come before it. The said convention shall be made up of delegates chosen by the republicans of the respective counties of the district, apportioned, one delegate at large for each county and one for each 125 votes or major fraction thereof; cast for Charles E. Lefton, republican nominee for judge of the supreme court, at the last election. Said apportionment entitles the several counties to the following representation in said convention:

Madison 12; Pierce 7; Stanton 6; Wayne 8.

It is recommended that no proxies be allowed and that the delegates present from each of the respective counties be authorized to cast the full vote of their delegation.

By order of the senatorial central committee of the eleventh senatorial district.

The races at the State Fair, the first week in September, are well filled and will be hotly contested. There are several features which will be new, some of which are a Derby in which a goodly number of the best running horses of the state are already entered. A guideless pacer, named "Emma," from Evansville, Indiana, will go twice, as will also another guideless pacer, "Dr. Tom," of Tecumseh, and a guideless sprinter, "Suzena," of St. Edward. These last two will be the contestants in a guideless race, which is something new in the racing line. Morphy, the man who sings to bank the band, will sing before the grand stand each afternoon.

THE EXHIBITS.
Only two exhibitions of cattle were in the ring at the fair last week, Wm. Lesman and A. B. Clark, each of them having a fine herd of Shorthorns. Neither of the breeders caring to enter into competition against the other for the premiums, none were awarded. Stock Judge Maganz, however, picked a class of animals from the two herds and made a few appropriate remarks thereon for the benefit of the farmers and breeders present, by way of demonstrating the class of animal to breed for the different purposes.

A number of swine were exhibited, as follows: J. M. Mills, of Laurel, with Poland Chinas; W. M. Maxon, of Ponca, with Poland Chinas and Duroc Jer-seys; W. H. Gildersleeve with Poland Chinas, and Wm. Lesman with Duroc Jerseys. The judge awarded the premiums on hogs as follows:
Poland Chinas—Boar 1 year old and under 3, Mills 1st and 2nd; Boar 6 months old and under 1 year, Maxon 1st; Boar under 6 months, Maxon 1st and 2d, Gildersleeve 2d; Four swine, get of same boar, Mills 1st; Four pigs under 6 months, produce of same sow, Mills 1st; Boar any age, sweepstakes, Mills; Sow any age, sweepstakes, Gildersleeve; Boar any age, bred by exhibitor, sweepstakes, Maxon; Sow any age, bred by exhibitor, sweepstakes, Mills.
Duroc Jerseys—Boar 1 year old and under 3, Lesman 1st; Boar under 6 months old, Maxon 1st; Lesman 2nd and 3d; Sow under 6 months, Lesman 1st and 2d; Four swine get of same boar, Lesman 1st; Four pigs, produce of same sow, bred by exhibitor, Lesman 1st; Boar any age, sweepstakes, Lesman 1st; Sow any age, sweepstakes, Lesman; Boar any age, bred by exhibitor, sweepstakes, Maxon; Sow any age, bred by exhibitor, sweepstakes, Lesman.

OUR LANGUAGE UNIFORM.
While Great Britain, for instance, has many different languages. It has been observed that the language spoken in the United States is remarkably uniform. True, there are many dialects, but Great Britain, less in area than any one of half a dozen of our states, contains such very different languages as English, Welsh and the Gaelic of the provincial dialects of Cornwall and Yorkshire and the unique speech of the London cockney, while in this country, with its vast expanse of territory, its settlement by Spanish, French, Dutch and Swedish colonists and its millions of immigrants drawn from nearly every country, large and small, all over the world, there is far greater uniformity of speech than in any other land of equal area and population.

The causes can be readily seen. The public schools have made us a nation of readers, and the press has supplied books and papers without limit. Press associations have done their part toward giving a uniform and fairly good tone to the newspaper language of the day. The telegraph, the telephone and cheap postage have brought distant parts of the country into quick and easy communication, and so have aided in teaching a common language. The railroad has penetrated every corner of the land and made us a nation of travelers. Countless human shuttles thus are thrown daily across the land in every direction, carrying with them the threads of thought and speech and doing their part to make one part of the whole. No doubt our maps, which still present so many different kinds of names, will in time lose the strangeness and the "foreign air" that are so noticeable now. H. M. Ringler in St. Nicholas.

The Great Clock at Rouen.
The ancient city of Rouen, France, owns the very earliest specimen of the larger varieties of the ancient clock makers' triumph. It was made by John de Pezins and was finished and set going in September, 1290. So perfect in construction is this ancient time recording machine that, although it has been regularly striking the hours, halves and quarters for centuries, it is still used as a regulator. The case of this early horological oddity is six feet eight inches in height by five inches broad. For 325 years it continued to run without a pendulum, being provided with what the old time clock makers called a "foliot."

An Honest Man.
Hiram Stroode for the seventh time was about to fail. He called in an expert accountant to disentangle his books. The accountant after two days' work announced to Hiram that he would be able to pay his creditors 4 cents on the dollar. At this news the old man looked vexed.
"Herebefore," he said, frowning, "I have always paid 10 cents on the dollar."
A virtuous and benevolent expression spread over his face.
"And I will do so now," he resumed. "I will make up the difference out of my own pocket."

Love's Minutes.
"Are you ready, dear?"
"In five minutes, darling."
"Marriage does not dispel all our illusions," he muttered as he lit a cigar. "Before we were married I thought every moment I had to wait for her was an eternity, and so it's turned out to be."
"Baltimore American."

Moan Cure For Bald Heads.
The superstition in agricultural communities that the phases of the moon affect the germination and growth of seed has a parallel in a queer belief that the moon also influences the growth of hair on the head. Here is an old recipe. The baldheaded should take two ounces of bear's grease, one dram of the ashes of burned bees, one dram of the ashes of sulphur wood, one dram of the Juice of a white lily root, one dram of oil of sweet almonds and six drams of pure nix. Make an ointment of these and the day before the full moon shave the place and anoint it every day.—New York Tribune.

MANY TOWNS IN RUINS

WALPARAISO DISASTER EQUALLED IN CHILIAN PROVINCES

Tracks, Destroyed and Bridges, Are Wrecked from Santiago to the Andes. At Least Six Provincial Towns Partially or Wholly Wrecked.

Authoritative news has been received confirming the worst reports of the earthquake in Chile. Valparaiso is partially destroyed. Most of the damage done was in the center of the city, extending from the Plaza del Orden to the Plaza Prata. Many lives were lost, but the number is not known. Hundreds of persons were injured. A state of panic prevailed at Valparaiso, and there was much loss of life.

Los Andes, eighteen miles east of San Felipe, had a population of 5,000, was almost totally destroyed. The finest buildings of the town, government house, hotels and public offices, were completely wrecked. Other towns on the Chilean side of the Andes wholly or partially destroyed.

Illinois, with a population of 9,000,000; Ohio, with a population of 2,500,000; Michigan, with a population of 3,500,000; and San Felipe, having 1,500 inhabitants.

Illinois is a mass of ruins, and there was great loss of life there. From Santiago to the Andes every bridge and tunnel on the railroad was utterly wrecked and the railway lines torn up.

The shock is supposed to have been caused by the eruption of a volcano near San Felipe.

The disaster has cast gloom over the republic of Argentina, and all activities have been suspended.

All the ordinary means of communication with Chile are closed. This public is awaiting to ascertain the facts of the earthquake in Chile, and the government officers and newspapers are besieged by anxious inquirers.

TEXANS UP IN ARMS

Danger of Battle with Federal Negro Troops

Further trouble is feared at Brownsville, Texas, with the negro troops. A citizens' guard of 150 men is stationed along the coast between Brownsville and Fort Brown, and if the negroes attempt to leave the garrison it is the avowed purpose of the citizens to shoot them down. Four hundred rifles were sold to citizens Wednesday. The negroes are themselves afraid of the negro troops has determined the citizens to take no chances. Many people are leaving their homes on the side of the city near Fort Brown. Additional appeals is made to Gov. Lanham to send state troops. Business is nearly suspended in the city.

It is reported that the Texas National Guard, now attending the maneuvers at Camp Mabry, are clamoring to be sent to Brownsville. Several negro and it is now believed that the negro raiders committed the recent acts in Brownsville in retaliation for the reported intention of Texas militiamen to use ball cartridges in the event the United States permitted the negro troops to participate in the Camp Mabry maneuvers. Adjt. Gen. Hulen considers it unwise to send state troops to Brownsville.

No replies being received by the investigating committee to requests for protection and relief from the strain under which the city has been since Monday night, the committee has sent an urgent message to President Roosevelt. United States Senators Culberson and Bailey and Gov. Lanham, detailing the outrages, saying that after two days' diligent inquiries it has been found that no blame attaches to the citizens and asking that the negroes be replaced by white troops. The message states that threats have been made by the soldiers that they will burn the town and it is feared the five commissioned officers cannot control the men.

NO PEERABOO BILL COMING

Congressman Hale Says the Report is Due to a Joker

As a result of the storm of protests from all parts of the country over reports that he would introduce a bill in the next congress prohibiting women from wearing peckaboo shirts and regulating the wearing of corsets, Nathan W. Hale, congressman from the Second Tennessee district, denies that he will offer such legislation. He declares he never dreamed of introducing a bill of this kind in the thickness of regular session.

MONEY FOR DEPOSITORS

Some Cash for Victims of Milwaukee State Bank

John C. Feizer, receiver for the Milwaukee Avenue state bank in Chicago, announced Wednesday that the actual work of paying the depositors 25 per cent of their accounts had begun. The depositors have been mailed statements of their accounts with affidavits. They were requested to return the affidavits attesting to the correctness of the amount. A voucher will then be given to each depositor for 25 per cent of the amount due, payable at the First Dearborn National Bank.

EAGLES AMEND LAWS

One Office Abolished, Another Created at Grand Aerie

ON TRAIL OF STENSLAND

Fugitive Banker Was Seen in Pittsburg

Paul O. Stensland, the defaulting president of the Milwaukee Avenue State Bank, of Chicago, was in Pittsburg, Pa., Wednesday and at present is thought to be in the east. Stensland was seen aboard a Pennsylvania Railroad train at the union station by Oscar Holmer, a mechanical engineer who tried to be a close friend of Stensland, but had not seen him for two years. Holmer had gone to the station to meet a friend that way on his way east, and while talking in the Pullman car his attention was unexpectedly attracted to a man seated near him. In telling of the incident Holmer said:

"I walked up to him and said, 'Hello, Stensland, what are you doing here?'" "For God's sake," he said, "let me go. Don't talk to me." "I told him he and his affairs were none of my business, and then he started to talk. He said he supposed I knew all about his trouble and declared he was almost out of his mind with worry. He told me that he was going east, and said he had plenty of money. "My friend, who came from Rochester, Va. Buffalo, told me the man whom I recognized had been on the train from that time and that they had talked together."

Byers, Who Ends Life in Kansas City

Will H. Byers, Secretary of the Kansas City Board of Trade, whose dead body was found in a field near that city Saturday afternoon, was formerly a resident of Plattsmouth, at one time his residence in the city of Washington. His father, R. W. Byers, former sheriff of Cass County, resided in Plattsmouth, and left for the home of his son, Postmaster Byers, of Hawkeville. He is a brother of the deceased, and a sister resides in the city of Washington. A wife survives him.

Liquor Maker Charged

Charles Johnson was brought before United States Commissioner Shugart, Tuesday, charged with selling liquor in Topeka without a license. Johnson was arrested by the city authorities about a month ago and proceeded under the city ordinance, being confined in the city jail for thirty days. He was released on Monday and when Sheriff DePue released him, United States Deputy Marshal Stiles was "Johnny on the spot" and took him before Shugart, who bound him over to appear before the federal grand jury.

Shortage of Teachers

There are indications that a shortage of teachers may exist in Stanton County the coming school year. The new law which requires that applicants for certificates must pass an examination, has caused many teachers to fail in the examination. These will be given more time and an additional amount for teachers has been estimated to be \$100,000. The county board will receive \$15 and some as high as \$20 per month.

Boy Robs Store

Paul Sharp, a youthful burglar, only 12 years, Monday, followed the postoffice at Millburn. So far he has made good his escape. A number of pocket knives and small hardware also disappeared from the same place at that time. The boy who was charged with the robbery was last seen riding to town from Broken Bow on a horse which he is supposed to have stolen from his parents, who reside at Dunbar. He is charged with the robbery of his father's store at Dunbar.

Thieves Leave Silverware

During the temporary absence of Dr. Houser and wife of Arapahoe who were in the city on Monday night, a sneak thief broke into his residence and stole several valuable rings and between \$15 and \$20 that Mrs. Houser had left in her purse. The thieves had also gathered up a quantity of silverware and left from some cause failed to take it.

Immoral House on Wheels

A young man giving his name as Joseph Willard was arrested Thursday at City Center for the complaint of the county attorney for running a covered wagon, used as a dwelling house, for immoral purposes. He pleaded guilty before the county judge and was fined \$100 and costs which he paid.

Boy Hurt by Torpedo

Leo Ball, aged 6, son of William Ball, of Greeley Center, exploded with a brick a torpedo in the street in front of his home. The explosion was heard several blocks. An ugly wound over the right eye and upon the left hand was the extent of his injuries. Part of the brick, used by the boy was blown to atoms.

Brakenman Loses a Leg

Jack Ledgerwood, a Union Pacific brakeman, had his left leg severed above the knee and his right leg broken at the knee, in a fall from a freight car at City Center, on Thursday afternoon. No. 58 was making a switch near the Union depot and while attempting to release an air brake his foot caught.

NEW WHEAT RECORD.

TOTAL YIELD IS ESTIMATED AT 759,030,000 BUSHELS.

Government Report Shows that World's Figures Are Heated—Corn Promises to Establish High Mark—Oats Above Average.

The greatest wheat crop in American history, which also means the greatest wheat crop ever raised by any country on earth, is officially measured up by the Department of Agriculture in the latest crop report. Final figures, subject to the usual December revision, are made on winter wheat, which is all harvested. Percentage estimates only on spring wheat are given, as the harvest of this grain is not yet completed. The grand total is 759,030,000 bushels.

That the big record is made easily and that the country has not set some its best is shown by the fact that the spring wheat promise is only for a full average crop, the winter wheat yields having been tremendous enough to make a record-breaking grand total for the two combined.

This year's wheat yield has out-classed the famous wheat crop of 1911 by about 12,000,000 bushels, although the spring wheat promise for 1912 is 52,000,000 bushels behind that produced in that year.

Corn Given by States as Indicated by the Government figures for this year and last was:

State	1911	1912
Alabama	1,000,000	1,000,000
Arkansas	1,000,000	1,000,000
California	1,000,000	1,000,000
Colorado	1,000,000	1,000,000
Illinois	1,000,000	1,000,000
Indiana	1,000,000	1,000,000
Iowa	1,000,000	1,000,000
Kansas	1,000,000	1,000,000
Michigan	1,000,000	1,000,000

Wyoming	1,000,000	1,000,000
Total	1,000,000	1,000,000

Corn Makes High Strides. The corn crop is also making strides and promises to make a gain in the last few months of its existence as it did last year, when it gained nearly 60,000,000 bushels between August and harvest, and it gained nearly 60,000,000 bushels in the last few months of the year.

Oats crop is about 150,000,000 bushels short of last year's yield, which was in turn the second largest ever raised in the United States. Despite this, the average yield per acre is about 100 bushels above the average.

The following table shows the estimated average yield per acre in each of the eleven principal wheat wheat States in 1911 and 1912, the figures for 1912 being the final estimates issued Dec. 20.

Irrigated Governm't Lands in Idaho

D. M. Laughlin has returned from a visit to the irrigated lands near Mountain Home, Idaho, that are being sold by G. E. Townsend and E. D. Pratt of this place, and he pronounces the land to be the finest irrigated land he has ever seen. He says that he saw alfalfa on irrigated land growing two feet high right next to sage brush on non-irrigated land; that alfalfa cuts from 40 to 10 tons to the acre and is selling at \$15 per ton; all kinds of fruit is growing there; one man having on his place 28 varieties of apples and all doing fine. He says that he saw a lawn covered with as fine a sod, grown in two months, as it would take two years to grow in the country. In some of the older irrigated districts in Idaho land is selling for \$1,000 per acre, that Mr. Laughlin says is not so good as that at Mountain Home, which a few years ago was selling at the same price as the Mountain Home land is selling for, \$31.25 per acre. Mr. Laughlin says he thinks no man can make a mistake by buying a tract of this land while it is so cheap, as it can be developed at once and pay for itself in a year. LOW PRICED ATLAS.

An up-to-date atlas of the Northwest and the Orient for \$1.00. The Northern Pacific railway company will send an atlas of the northwest, very complete in detail, to anyone upon receipt of price named.

This is a recent compilation, and data, maps, illustrations, etc., are reliable and from best sources. Sent prepaid on receipt of price.

A. M. O'LELAND, General Passenger Agent, St. Paul, Minnesota.

Dan Patch and Orchestra, free attractions of all kinds, the best music in the state and the shows of the Parker Amusement Company are some of the features of the Interstate Live Stock Fair which will be held in Sioux City from Sept. 10 to 15, inclusive. A fair without good music and plenty of it can never be a success. The directors of the fair have recognized this and there will hardly be a moment in the day during which some of the numerous bands will not be discoursing music.

YELLOWSTONE PARK.

This is the grand tourist resort of the people and one of the most beautiful parts of the American Continent.

Only by a trip to this region can the tourist comprehend the endless variety and stupendous grandeur of the features embraced in this tract of country.

Very low round-trip rates to this resort have been put in effect this summer by the Union Pacific and its connections.

For full information in regard to rates, and Yellowstone Park folder, address A. K. CURTS, T. P. A., Omaha, Neb.

A Handsome Souvenir.

Twelve specimens of wild flowers from Yellowstone National Park pressed and mounted in a neat portfolio, with six half-tone illustrations of scenes in the park; makes a very pretty souvenir of the National Park which is truly nature's own Wonderland.

Mailed postpaid for 50 cents.

A. M. O'LELAND, T. P. A., Northern Pacific Railway, St. Paul, Minn.

A dashing equipage, drawn by a blooded horse and driven by a woman daintily dressed, is a sight which forces the admiration of everybody. At the Interstate Live Stock Fair which is to be held in Sioux City September 10 to 15, inclusive, there will be exhibits of fancy carriage horses which will hold their own against any in the west. This is a feature which invariably draws the attention of a crowd, and the keenest interest is displayed in the various exhibits. A. Y. Weir, the well known horseman, of LeMars, will act as superintendent of this department. The exhibits will be of every description, ranging from a four-in-hand drag to children's traps drawn by pretty ponies.

HAD AN AWFUL TIME.

But Chamberlain's Colic, Cholera and Diarrhoea Remedy Cured Him.

It is with pleasure that I give you this unalloyed testimonial. About a year ago when I had a severe case of measles I got caught out in a hard rain and the measles settled in my stomach and bowels. I had an awful time and had it not been for the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy I could not have possibly lived but a few hours longer, but thanks to this remedy I am now strong and well. I have written the above through simple gratitude and I shall always speak a good word for this Remedy.—SAM E. GWIN, Concord, Ga. For sale by Raymond's drug store.

GET THE MOST PLEASURE OUT OF YOUR VACATION.

To do this, you should go to Colorado where you breathe the purest air and see some of the grandest sights in the world. Here are to be found all the recreations of the east—golf, polo, boating, hunting, fishing, tennis, riding, etc., together with all the attractions of a new and mountainous country.

Very low round-trip rates to Denver, Colorado Springs and Pueblo, are now in effect, via the Union Pacific, whose splendidly equipped trains and perfectly ballasted road-bed insure you a pleasant journey. For full information in regard to rates and Colorado literature, inquire of A. K. CURTS, T. P. A., Omaha, Neb.

REMEDY FOR DIARRHOEA NEVER KNOWN TO FAIL.

"I want to say a few words for Chamberlain's Colic, Cholera and Diarrhoea Remedy. I have used this preparation in my family for the past five years and have recommended it to a number of people in York county and have never known it to fail to effect a cure in any instance. I feel that I can not say too much for the best remedy of the kind in the world."—S. JAMISON, Spring Grove, York county, Pa. This remedy is for sale by Raymond's drug store.

CHAMBERLAIN'S COLIC, CHOLERA AND DIARRHOEA REMEDY BETTER THAN THREE DOCTORS.

Three years ago we had three doctors with our little boy and everything that they could do seemed in vain. At last when all hope seemed to be gone we began using Chamberlain's Colic, Cholera and Diarrhoea Remedy and in a few hours he began to improve. Today he is as healthy a child as parents could wish for."—MRS. B. J. JOHNSON, Linton, Miss. For sale by Raymond's drug store.

PROBATE NOTICE TO CREDITORS

In the County Court of Wayne County, Nebraska.

In the matter of the estate of Detlef W. Doose, deceased.

Notice is hereby given, that the creditors of the said deceased will meet the administrator of said estate, before me, County Judge of Wayne County, Nebraska, at the County Court Room in said county, on the 4th day of September, 1908, and on the 4th day of February, 1909, at 2 o'clock p. m., each day, for the purpose of presenting their claims for examination, adjustment and allowance. Six months are allowed for creditors to present their claims and one year for the administrator to settle said estate, from the 4th day of August, 1908.

The wrong way

To select harness is the way it is usually done. Price is generally the first consideration. If that is very low the goods seem attractive, regardless of quality. Judge our goods the other way about. Examine into the quality of this harness first. Then it will seem that it is worth almost any price. But our prices are not high. Value considered they are remarkably low.
