

Do You Open Your Mouth

Like a young bird, and gulp down whatever food or medicine may be offered you? Or do you want to know something of the composition and character of that which you take into your stomach whether as food or medicine?

Most intelligent and sensible people nowadays insist on knowing what they employ whether as food or as medicine. Dr. Pierce believes they have a better right to know the character of the medicines they take into their stomachs than they have to know the character of the food they eat.

For the cure of woman's peculiar weaknesses, irregularities and derangements, such as indigestion, headache, backache, dragging-down pain or distress in lower abdominal or pelvic region, accompanied, oftentimes, with a debilitating, pelvic, catarrhal and kindred symptoms of weakness, Dr. Pierce's Favorite Prescription is a most efficient remedy.

It is equally effective in curing painful periods, in giving strength to nursing mothers and in restoring to the expectant mother for baby's coming, thus rendering childbirth safe and comparatively painless.

It is also effective in curing the various ailments of the female system and the various ailments of the female system and the various ailments of the female system.

Between Two Fires

By ANTHONY HOPE

"A wise man will make more opportunities than he finds." —Francis Bacon.

CHAPTER IX.—(Continued.) I had thought left to say. I fell back in my chair, and gazed at the Colonel. At the same moment a sound of rapid wheels struck on my ears. Then I heard the sweet, clear voice I knew so well saying:

"I'll just disturb him for a moment, Mr. Jones. I want him to tear himself from work for a day, and come for a ride."

"She opened my door, and came swiftly in. On seeing the Colonel she took in the position, and said to that gentleman: "Have you told him?"

"I have just done so, Signorina," he replied. "I had not energy enough to greet her; so she also sat down uninvited, and took off her gloves—not lazily, like the Colonel, but with an air as though she would, in a man, take off her coat, to meet the crisis more energetically."

At last I said, with conviction: "He's a wonderful man! How did you find it out, Colonel?"

"Had Johnny Carr to trust," said that worthy. "I don't mean he trusted Johnny?"

"Odds, jinks!" said the Colonel. "With his experience, too. He might have known Johnny was an idiot. I suppose there was no one else."

"He knew," said the Signorina, "any one else in the place would betray him; he knew Johnny wouldn't if he could. He's underated your powers, Colonel!"

"Well," said I, "I can't help it, can I? My directors will lose. The bond-holders will lose. But how does it hurt me?"

...and that one man being found alone and guarded at 12 o'clock on Friday night. If he discovered the plot, we were lost. I took it into his head to attend the supper, our difficulties would be greatly increased. At this point we turned to the Signorina, and I said, briefly:

"This appears to be where you come in, Signorina. Permit me to invite you to dine with us to-morrow on Monday evening at 8 precisely."

"You'll dine?" she said slowly. "That I am to keep him at home on Friday?"

"Yes," said I. "Is there any difficulty?"

"I do not think there is great difficulty," she said. "I don't like it; it looks so thorough."

"Of course it did. I didn't like her doing it myself, but how else was the President to be secured?"

"Rather late to think of that, isn't it?" asked McGreggor, with a sneer. "A revolution won't run on high emotional whiffers."

"Think how he jockeyed you about the money," said I, assuming the part of the tempter.

"By the way," said McGreggor, "it's understood the Signorina enters into possession of the President's country villa, isn't it?"

"No," said I. "I have a longing for that choice little retreat, and between presenting her her lost money and a desire for the money house, she was so beset. Left to herself, I believe she would have yielded to her better feelings and spoiled the plot."

While there is no doubt as to the success of the republican candidates at the polls this fall, provided anything like a full vote is cast, over confidence on the part of the voters should not pause anyone to fail to exercise his right to cast a ballot. Let each one see to it that the full vote is polled.

Editor Ladd of the Albion News puts the whole argument in a nutshell: "Brother Bryan's little plan to run the trunk lines of railway under federal ownership and the branch lines under state ownership does not go far enough. The switchboards should be managed under county ownership."

Who steals my purse, and like a streak Conceals it in his bouquet. Will find so little cash the speak Will wish he hadn't done it; But he who treads on my good name By calling me a boozier, May mean no harm, but just the same, I do not like the sneezer. —Bixby in State Journal.

George W. Berge is to the true reform element among the fusionists what George L. Sheldon is to the square deal republicans. Shallenberger occupies about the same position in his party as John Wall does in his. No person who is within halting distance of the situation should experience any difficulty in deciding which party is honest in its effort to shake off the corporation yoke. —St. Paul Republican

Yesterday we were asked if we ever saw a baldheaded woman. We answered "No," we never did, nor did we ever see a woman walking around town in her shirt sleeves with a cigar in her teeth, and running into every saloon she saw. We have never seen a woman go fishing with a bottle in her pocket, sit on the damp ground all day and come home drunk at night. Nor have we ever seen a woman yank off her coat and say she could lick any man in town. God bless her, she's not built that way. —Ponder Republic.

The movement in favor of pure and clean food has been launched at Kansas City on the theory that hotels and restaurants are serving the public and that filthy or unsanitary service is dangerous to the public health. It is safe to assume that the board of health will require nothing of the caterers that is not demanded by the best interests of all concerned. It is equally safe to conclude that the large section of the public which must depend on the restaurants for one or more meals daily will be delighted to have assurance that the eating places are conducted in a clean and sanitary way. The public will not patronize an eating house where the table service is not clean and attractive. The kitchen service, however, must be taken on faith. Certainly the board of health in any city could not be doing a more practical service than by endeavoring to offer a substantiated foundation for this faith.

The biggest boost that has been given the candidacy of Judge Boyd in the Third district is the bite of his nomination by the Ponder Republic, which pretends to base its opposition on the charge that he once rode on railroad passes. The Ponder Republic is known far and wide as the thick and thin mouthpiece of the ring of Indian land grafters, who have been despoiling the poor Indians on the Omaha and Winnebago reservations. Its opposition to Boyd means that the land thieves and their abettors do not regard the republican candidate as a safe man for them and that they prefer his democratic opponent, who lives nearer to the agency

and is better known to them. The Thurston county delegation, which was named by the ringsters, was against Boyd for nomination, which was one mark to his credit, and their continued opposition should strengthen him still further with decent and honest people—republicans and democrats alike—throughout the district.—Bae.

WORKING? WELL I SHOULD SAY SO

Day and night the machine drills have been continually at work. We have been too busy with our excursions to advertise much, but we feel that we must tell you of some of the things we have accomplished this summer.

We have acquired nearly four times the amount of property we originally held

which now gives us a tunnel line nearly TWO MILES LONG and has added untold wealth to the stockholders of the King Solomon Company. Every one that holds stock in the company ought to give "three cheers" to the management, who by their untiring efforts and forethought have built up and made the King

Solomon what it is today. The people who are interested in us have watched us grow from month to month. It was but a short time ago we started to drive the tunnel in a crude way by hand and as we grew we added machinery, engines, air compressor, drills, trams, cars and blowers, and from time to time as we opened the several veins of finely mineralized ore, which we had previously announced we would, stock advanced until today it is worth many times what it was.

We are now in over 1000 feet

and the developments and the acquisition of the new property warrant an advance in the price of stock.

The Directors have decided to advance the price of stock, to take effect on or before October 15

Now is the time to buy before the advance. We have had business men from nearly every vocation out to the mine this summer. Bankers, merchants, lawyers, doctors, ministers, farmers and real estate men, and they all come back stockholders and more than pleased with the property.

Every person who has seen the property speaks well of it.

and if any man who has not seen the property speaks ill of it, he is doing us an injustice and is not fair with his fellow men, because he knows nothing about us. Only a few days ago I met a man who four years ago had the opportunity to buy stock in the Newhouse Tunnel for about twenty cents per share, and today it

is over \$15.00 per share. He lost the opportunity because a couple of men discouraged him to leave it alone. He told me had he used his own judgment he would have been independently wealthy today.

In adjoining towns all about us I find quite a number of mines have been and are being developed which have made a great many millionaires.

We have a property that is unexcelled for large quantities of ore, water power and shipping facilities, and has every advantage that could be desired.

Brush away from your mind the cob-webs of prejudice and investigate us. That is all we ask. You who have watched us grow, will before very long see stock selling at \$1.00 per share par value, an increase of several hundred per cent.

THIS IS YOUR OPPORTUNITY. BUY NOW

PROPOSED CONSTITUTIONAL AMENDMENT.

The following proposed amendment to the Constitution of the State of Nebraska, as hereinafter set forth in full, is submitted to the electors of the State of Nebraska, to be held upon at the general election to be held Tuesday, November 6, A. D., 1906.

Be it enacted by the Legislature of the State of Nebraska:

Section 1. That at the general election for State and Legislative officers to be held on the Tuesday, succeeding the first Monday in November, 1906, the following provision be proposed and submitted to the electors of the State as an amendment to the constitution.

Section 2. There shall be a State Railway Commission, consisting of three members, who shall be first elected at the general election in 1906, whose terms of office, except those chosen at the first election under this provision, shall be six years, and whose compensation shall be fixed by the Legislature.

Of the three commissioners first elected, the one receiving the highest number of votes, shall hold his office for six years, the next highest four years, and the lowest two years. The powers and duties of such commission shall include the regulation of rates, service and general control of common carriers as the legislature may provide by law. But in the absence of special legislation, the commission shall exercise the powers and perform the duties enumerated in this provision.

Section 3. That at said election in the year 1906, on the ballot of each elector voting thereat, there shall be printed or written the words: "For Constitution Amendment, with Reference to State Railway Commission" and "Against Constitutional Amendment, With Reference to State Railway Commission." And if a majority of all votes cast at said election, shall be for such amendment, the same shall be deemed to be adopted.

J. A. GATHER, secretary of state of the State of Nebraska, do hereby certify that the foregoing proposed amendment to the Constitution of the State of Nebraska is a true and correct copy of the original enrolled and engrossed bill, as passed by the Twenty-ninth session of the legislature of the State of Nebraska, as appears from said original bill on file in this office, and that said proposed amendment is submitted to the qualified voters of the state of Nebraska for their adoption or rejection at the general election to be held on Tuesday the 6th day of November, A. D. 1906.

In testimony whereof, I have hereunto set my hand and affixed the great seal of the state of Nebraska.

Done at Lincoln this 25th day of July, in the year of our Lord One Thousand Nine Hundred and Six, of the Independence of the United States the One Hundred and Thirty-second, and of this state the Fifteenth.

A. GATHER,
Secretary of State.
