Judge W. F. Norris Writes a Wayne Friend.

Taclobon, July 28, 1907.

MY DEAR MR. MAIN:
I am still at Taclobon, expect to go to Catbalogan early next month. We have a lot of Pulajanes to try owing the collapse of the movement. I don't know as you have paid any attention to it, or whether the papers of the States have given it much celebrity, but this Island and the adjoining Island of Samar have been the scene of depredations by a set of outlaws from the mountains, whom they call Pulajanes, or the men who wear the red. They seem to be influenced largely by religious fanaticism, their real leader being a religious enthusiast. Some who have been on the witness stand say that they were told that if they went to the mountains where the Pulajane camp was they would see wonderful sights. There were all their dead friends. There were seven churches and seven priests saying masses. One woman was a defendant in a case, in which a witness said that she was heard telling a man "If you don't say the Lord's prayer fire will come out against you." The rank and file are exceedingly credulous, seem to believe whatever is told them by their leaders. They wear a charm on their breast to keep away the enemies bullets, they are told that if killed in battle they will rise after three days, scraps of paper are given them which if eaten will keep off hunger. Some of the cases here are interesting in their quaintness. Several witchcraft cases have been tried in the Islands, one notable one being reported in the Supreme Court reports. I have tried parties where I suspect the real motive for the murder was that the deceased was suspected of witchcraft, but they seem reluctant to acknowledge it in court.

I am expecting my wife about the end of next month, she intended leaving Yokohama the 27th inst. which will bring her to Manila the 11th.

With kindest regards to Mrs. Main.
Sincerely yours
W. F. NORRIS

Blessed is the man who has found his work and knows it. He needs no pity, for, whatever it may be, he has within his reach the essentials of happiness. His work may demand his efforts and attention sixteen hours a day; it may entail an uphill fight against many discouragements; it may separate him from friends and subject him to discomforts. But none of these things matter; if he has the nerve and determination he will win. There is a wonderful satisfaction in doing what one likes to do, for he will do it the best he can and will find much gratification if it is done well, for after all there is but little more to it than accomplishing the mission to which one is appointed. To the man who has found his work, labor is a pleasure, as it is certain to produce a healthy interest in life and enhance the value of existence. There are some dissatisfied men in the world. They have either found some body else's work, or else have found none. They are in bad shape, but there is always hope. Get next to your work it is waiting around somewhere.—Country Merchant.

A square meal will help wonderfully in making a sinner appreciate efforts to save his soul.

If real coffee disturbs your stomach, your heart or kidneys, then try this clever Coffee imitation—Dr. Shoop's Health Coffee. Dr. Shoop has closely matched old Java and Mocha Coffee in flavor and taste, yet it has not a single grain of real coffee in it. Dr. Shoop's Health Coffee Imitation is made from pure toasted grains or cereals, with Malt, Nuts, etc. Made in one minute. No tedious long wait. You will surely like it. We'd a good deal rather be known as the right place for good stuff, than as a place where you get low prices.

It's always easy to quote prices; but it's what the price buys that counts.

Dr. Lutton, of Lincoln, Dr. Cline, of Baltimore, secretaries of the home ana foreign missionary societies of the Lutheran church, with Dr. Albrecht an India missionary were passengers from Bloomfield this morning where they had been to attend the Nebr. H. H. Taylor came to town Tuesday and filled a complaint for the arrest of Will Seifkin, J. Earl Sweet and John Lauman, for shooting his dog. Sheriff Mears soon had the parties complained of in custody, and it looked for a time like a lively trail was to be had. However, the parties concluded to adjust matters out of court, and we understand the canine was priced at \$10 and paid for. It appears that the three boys had been out hunting and while driving past the Taylor place on their return, the dog appeared on the scene and received a charge of shot which caused its finish. It was a case of "intention" with or against the dog.

Bolt Rips Shoe And Kills A Dog

Winside, Nebr., Sept. 18.—Lightning performed its second freakish trick of the summer, Monday night when it struck the home of Will Baldwin. Mr. Baldwin, who was standing in the door way, had a shoe ripped to pieces, a dog, lying on the doorstep, was instantly killed, while other members of the family, all sitting near by, were uninjured except from the shock. Mr. Baldwin is suffering greatly from his foot. The house, a new one recently built, was badly riddled. —Sioux City Tribune.

Fred French returned from a tour of investigation in Colorado last week. He has decided to locate in a new town not far from Grand Junction, now building along a government irrigation project. The people are flocking into the place at present, in great numbers to take up the land or establish themselves in business. The future of the town looked good to Mr. French. His mother and family plan on spending the winter in California and will not likely take up their home in Colorado until spring.

ALUMNI NOTES

Interesting Items Taken From the September Issue of the Alumni Echo.

Ella Buck, '06 Teachers', had a pleasant vacation, all summer in California. She comes back looking well and takes up her school work for the year. She will not continue in teaching after this year but schools need just such service as she gives.

M. Z. Spahr of the first Normal graduating class writes from Portales, New Mexico. He is traveling and likes that section of the country and later may take up school work there. For a few years he has not engaged in school and had his home in Oklahoma.

The Philippines have taken another Alumni for educational work. Lester Powers arrived there in July and was assigned to a good position in one of the southern islands. He expects to stay at least three years. He thinks the work and climate will be found pleasant.

Fay Britton, '06 Scientific, remains in the school at Sanborn, Iowa and her sister, Edna, '05 Scientific, returns to her place at Aberdeen, Washington. Here are two good girls, good teachers and good Alumni friends. Both were present Alumni Day and helped to make things enjoyable. Come again next year.

Miss Ollie Elliott, '02 Teachers', gave an educational entertainment at Stanton one evening of the county teachers' institute. She has given much attention to this line of work the past few years. Her entertainments are of a high order. She is also a splendid musician and gives music programs.

Our Mary Richardson, '04 Teachers, is now Mrs. Paul Killion with her home on a fine ranch near Fairfax, S. D. Mary was a mighty good girl, one of the best teachers, and hardest workers we ever knew. She has a fine husband and our members rejoice that it is so. Congratulations, shake.

Glen Peters and Joe Humpal of '06 Teachers' are attending Medical College. They will take a four years' course. They are bright, honest, industrious fellows in whom all have great confidence and feel sure of their success. We know they will not be found wanting in preparation nor in manhood.

Dr. E. J. Paul, '93 Teachers', with his wife was unfortunate enough to be a passenger on the great pleasure boat which was destroyed in a collision off the California coast in July. After several hours floating on some wreckage, they were picked up and thus their lives were saved. They reached their home in Columbus the latter part of August.

Margaret Carroll will spend the year attending a school of elocution in Chicago. This school and every member of the faculty with hundreds of students have unbounded confidence in her as a successful teacher of her branches. With more preparation, she will place herself in the list of great teachers and performers of the country.

Of the 30 members of our association who are located in Wayne county; Miss Wallace, '00 Scientific, and Miss Beauchemin, '05 Scientific, are in the Wayne city schools. Pearl Sewell, '00 Teachers', and Miss Vernerberg, '03 Teachers', are in the Carroll schools; Mr. Simonin, '06 Certificate, and Miss Surber, '05 Scientific, are in the Hoskins school.

F. S. Lacro, '95 Teachers', has been nominated for county superintendent of Platte county. He is a splendid school man. His work as principal at Pilger and Platte Center has been most successful. His graduates are strong thinkers and thorough, methodical students who show excellent training. He ought to be elected and will make a great superintendent.

Of our Alumni located in Knox county; Mr. Lundak is principal at Verdigrass, Miss Longcor is grammar teacher at Creighton, Miss Bruner is intermediate teacher at Bloomfield, Miss Wadsworth is grammar teacher at Niobrara, Misses Fagerli, Niblock, Daisy Cronk, Cross, Hazen are in the rural schools.

A number of the '06 Teachers' have positions in town schools this year. Alice Wadsworth has the grammar room at Niobrara. She has done so well in country schools that we feel certain of a splendid record in present place. She is a lovely little woman whose friends are all who know her.

The library was transferred to the new room and catalogued during vacation. New books are being added and when you return to the Normal the library will be found to be far better than ever.

The new director of music is Miss Hewins who has had a most successful experience coupled with a long and thorough preparation. We expect the very best of work during the year. The enrollment in the department is very good.

Miss Dugger continues with our Model school. Of course her work was perfectly organized and started off without any confusion. Some more pupils will be admitted later. Several teachers are taking the observation work this term.

The classes in algebra and geometry are larger than usual for the fall term. About all who enter the Teachers' and Certificate classes, enrolled in algebra and a number also take up geometry. So your editor is kept quite busy as well as happy.

E. B. King, of '95 Scientific', has sold out his furniture business at Cedar Rapids and will go west to seek improvement of health. He gave up temporarily the ministry for business on account of poor health and now goes to a new location for the same reason.

The elocution starts out well under the direction of Miss Jennie Bellows who comes from the Cummock school of elocution. She was a student here several times and is acquainted with the spirit and aim of the Normal. She will prove an excellent teacher for the department.

The following Alumni folks are teaching in Dixon county: Messrs. Borg, Wright, Abbott; Misses Samuelson, Degroot, Rakow, Hirschman, Ellen Johnson, Bush. We have not a list of the teachers of the county but these are known to be teaching in that county.

Hattie Schultheis of Wayne, '04 Teachers', and '07 Scientific, has the second primary in Cedar Rapids this year. None doubt her ability to make a number one teacher for town schools. Her teaching in the country showed earnestness and individuality. She is an excellent woman and every friend wishes her the greatest of success.

Five members of the '06 Teachers' are married, with serious indications of a few more. The married ones are Nettie Glassburn (Hutchins), Nanna Carson (Whitmore), Leora Porter (Wright), Nellie VanVleck (Norwood), Hazel Scott (Christ). The two first continue teaching, the last one is living in Illinois, the others are living in Nebraska.

Members of the faculty will be glad to fill dates by making addresses for you is you have lecture courses or for your graduating classes next summer. You can take the matter up directly with your choice or with the school. No charge other than expenses will be made. Plans should be made as early as convenient.

"Miss Margaret Carroll, elocution teacher at Wayne, gave several selections at the musical program on Thursday evening, and had to respond to encores in order to satisfy the audience. Should she ever visit Niobrara again, all who heard her at Institute would not miss her part of the program."—Editor Review, Knox County.

Mr. and Mrs. C. H. Bright will complete their teaching in the Philippines next April and leave for this country, coming the Atlantic route and reach Wayne for Alumni Day. They hope to meet many Alumni friends here. They become members of the Normal faculty, beginning with September, '08. Hundreds of Alumni and other former students will rejoice that they return to N. N. C. The school never had more popular teachers than Mr. and Mrs. Bright.

We do not see how Holt county could have made a better nomination for county superintendent. Miss Van Conett is a grand good woman of great natural ability as well as splendid mental training and culture. She has taught several years with the best of success. In '04 she finished our Teachers' course and Scientific last year. She taught a class two or three terms last year. She stood among the leaders of a large strong class and won the \$20 oratorical prize given by Banker Tucker for best oration by a member of graduating classes. She should be elected and if elected, she will not be a common place superintendent. She is filling a good position as Normal teacher in the Central City High School.

Claude Wright is principal at Dixon. He did good work, the past two years as principal at Winside and no doubt will do as well at Dixon. He goes into a good school, whose head for several years has been a strong man. The town is enterprising with good school sentiment.

A number of the Alumni folks will spend the year at the Normal completing the Scientific: Emma Richardson, Wayne; Maude Davis, Madison; Julia Davis, Emerson; Barbara Matheson, Stanton; J. F. Rohn, Pierce; Burrett Wright, Wayne; N. B. Mack, Pender; Mabel Neiland, Wayne; Arthur Anderson, Concord; Vern Rightmire, Wayne; others will enter in January.

The museum has been placed in the old library room and is found interesting. We hope friends may from time to time send us some things of interest to place in the collection. We hope to enlarge our collection much during the year.

Cement walks have been completed on the campus and in front of the buildings, extending from the east to the west dormitories. This improves the looks of the grounds and gives us permanent walks. We will have the hill in good condition before spring.

Several of our men attended the State Encampment of the National guard at Lincoln, at the close of the summer term. Among the number were Mr. Lundak, Mr. Nies, Mr. Raubach, Mr. Halla, Jim Pile, Mr. McClure. They had an enjoyable time for the week.

The finishing touches were put on the new college during vacation. The cornice adds to appearance, all outside wood work wanted, cement walks were put in. All buildings are now in the best possible condition and will be so kept. Never did the hill look so pleasant.

Miss Edith Beechel is president of the Y. W. C. A. and Mr. Neal B. Mack is president of the Y. M. C. A. Both associations are starting out well with a splendid body of officers and committees. The union meeting during the first Sunday of the term was addressed by Rev. Smith of the Baptist church.

Dixon county is fortunate in having a large number of Normalites in the county schools. President Pile spent a week the latter part of August instructing in the institute and found that about 75 per cent of the teachers were Normal students. He reports a most enjoyable time and a very successful institute.

A number of the Wayne high school graduates are taking the Scientific this year. This will prepare them for admission to sophomore class at the university and give them a first grade state certificate which after three years teaching will be exchanged for a full life certificate. Miss Richardson and Miss Olmstead have taught several successful terms.

Harry Zeimer, Ralph Linehart, W. C. Altig are a trio of strong fellows in the Scientific. All are good workers with sufficient teaching experience to make them strong in class work and in all the general work of the school. They are fine men who will prove helpful with a crowd of strangers. A large percentage of the attendance is former students who are completing their courses.

The next term of the Normal will open October 28 and close December 20. The winter term will open December 30. We have vacation from December 20 to 30. We look for a larger attendance these terms and trust friends and former students will call attention of young people to the value of a term or two spent here. Help us secure a larger attendance. Write us and send names of those who may attend.

Harmful Stomach Dosing.

The best physicians believe that the less medicine one swallows the better.

Do not try to cure catarrh of the head by dosing the stomach; this is neither common-sense nor scientific. Breathe Hyomei, and its medication will go right to the spot where the catarrh germs are present and free the system from all catarrhal poisons.

E. J. Raymond has seen so many cures of catarrh made by Hyomei, some of them chronic and complicated cases, that he gives an absolute guarantee of cure or money will be refunded with every outfit he sells. The complete Hyomei outfit costs but \$1.00.

Eric Chapman returned Wednesday morning from a two months visit with old friends and relatives in Sweden. He reports a fine voyage both ways and enjoyed his visit very much.

The school year has now opened in earnest. Never before was there such a demand for a new school building in Hoskins as at the present time. The school house is crowded to its full capacity, the primary department being obliged to use the M. E. church. Under the present conditions it is easy to see what an advantage a new school building would be. The enrollment this year greatly exceeds that of last year, demanding the services of another teacher. There are 81 scholars attending at present, and with the opening of the winter term it is expected that the attendance will greatly exceed that number.

Winside News

The little girl was painfully injured while at school by one of the Hansen boys, who she says jumped off a pony into her face, breaking her glasses. A large cut was made in the side of her nose by the broken glass and it seems only a miracle that her eye was not injured.

A runaway, with rather a miraculous windup, in that either or both of the horses were not killed, took place Monday afternoon. S. W. Elder, left his team standing in front of Durrin's marble works for a few minutes when they became frightened at a passing motor bicycle and started off at a dead run down Main street. Attempts were made to stop them but this only added to their speed. At second street they started to turn west but instead just missed the row of hitching posts along the south side and smashed up against the wall of the State Bank. The compact was terrific and the horses fell into a silent heap on the cement walk. It happened that the tongue of the heavy wagon penetrated the veneered wall, going clear thru so as to remove the plastering on the inside. After the horses were loosened from the wagon, they got up apparently unhurt. It appears that the only damage done was to the brick wall of the bank building.

Another week of dry hot days and warm nights will put 80 per cent of the corn out of the frost's reach.

The business houses of Wayne have built up an enormous trade from near-by towns and also a reputation for offering much greater bargains than elsewhere. Shoppers no longer think it necessary to travel to Sioux City or Omaha for to spend their cash, when Wayne has just as good at reasonable prices. Watch the HERALD's advertising columns for bargains.

The primary plan of selecting party candidates is but another application of the principle of majority rule. That's why a defeated aspirant can submit with good grace and be a loyal supporter of his party's choice. By but a few votes, Geo. S. Farran was made the republican candidate for county commissioner over August Zeimer, of Hoskins. Both men had ardent supporters before the primary and an energetic canvass was made in certain localities. Each was accorded a fair field and no favors were shown from the district. Both men were entirely acceptable and the victor in the primary is rightly entitled to the undivided support of his party at the polls. Mr. Farran has all the qualifications for a good commissioner, and the responsibilities of public duty appeal to him. His business training and wide acquaintance over the west end of the county makes him a true representative of the third commissioner district. While a resident of Chapin precinct, yet he is naturally fair minded and liberal enough to recognize the real needs of every section of his county. There is no reason why George Farran should not be the voters choice in November.

And now goes up the wall of the would-be political manipulators that the direct primary is a failure and a fraud and all sorts of a bad thing. All the newspapers who have been known as railroad allies, all the politicians who have been in the habit of setting up the pins and manipulating the caucuses and convention, these are putting up a big "holler" against the new primary law. Who doubts that Judge Sedgwick would have been renominated under the old convention system, with all the pass-holders and railroad influence for him notwithstanding the vote shows a tremendous sentiment against him? There are many things about the new law that must be changed to make it more definite and less cumbersome, but it is right in principle, and the people will never permit it to be repealed altogether. Never before has there been such a full expression of the people's will as in the late primary election, notwithstanding ignorance of the provisions kept many away from the polls. Albion News.

Republican Committeemen

In conformity with the provisions of the primary law, the candidates nominated on the republican ticket Sept. 3, meet in Wayne on Saturday and selected the following as county committeemen of their respective precincts:

Brenna—O. C. Lewis
Hunter—O. S. Gamble
Plum Creek—A. E. Gildersleeve
Strahan—Geo. Porter
Wilbur—Jas. Greer
Chapin—Wm. Prince
Winside—F. S. Tracy
Deer Creek—Simon Tracht
Garfield—D. E. Francis
Hoskins—Peter Kautz
Hancock—Otto Miller
Logan—Frank Crane
Leslie—Amos Longe
Sherman—M. S. Moats
Wayne, 1st ward—Max Moller
Wayne, 2nd ward—Dr. Heckert
Wayne 3rd ward—H. B. Jones
A. R. Davis is chairman and Bert Brown, secretary, of the county organization. The state convention of committeemen (one from each county) meet at Lincoln next Tuesday, Sept. 23, when a platform of party principals will be promulgated.

A. A. Welch attends as delegate or rather committeeman from Wayne county. A. R. Davis was selected as alternate.

Teacher's Musn't Dance

Under an eight line "scare head" the Norfolk News, for Tuesday published the following article as special telegraphic news from Wayne. Its an excellent product of enterprising journalism:

Wayne, Nebr., Sept. 19.—"No dancing for teachers during the school year," is the edict of his boss-ship. County Superintendent Littell, and great is the indignation thereat. Pretty school ma'ams, heretofore queens of the ball room, are so angry they cry about it, the beaux three for every schoolma'am, are downcast, and those financially interested in the success of the dance vow vengeance. With the queens gone the cavaliers are missing, and no dollars drop into the cash box from each of them.

"I will not permit it," says Mr. Littell, and he means what he says. So it's no more two-steps, three-steps or waltzes for Alyss or Carrye and Charlie and George must do his wooing in the parlor and "There's always somebody hanging around."

"I won't teach any more," says some of the school ma'ams and they act like they mean it. Unless this resolution is broken, enough old maids, long resigned to their fate and indifferent to the thrill of the music, will have to be imported to fill the broken ranks and wield the rod in the future.

Card of Thanks

Mr. and Mrs. S. Taylor and family have requested the HERALD in their behalf to extend their heartfelt thanks to the many Wayne people who so kindly assisted and served them in their hours of sadness. Especially are they grateful to the band boys for their music and assistance they so willingly rendered.

Dr. and Mrs. W. C. Wightman and two children were passengers for Omaha yesterday.

Miss Monte Theobald returns to Madison, Wis., today, to enter upon her final year as a student of the state university of Wisconsin.

The golden wedding anniversary of Mr. and Mrs. Eugene L. Wilbur was celebrated at South Sioux City, Nebr., yesterday. Those in attendance from Wayne were Mrs. Guy Wilbur, Mr. and Mrs. George R. Wilbur, and Mr. and Mrs. Bueton. Mr. Wilbur landed in South Sioux City in 1855, being among the very first of the pioneers to take up a residence in north east Nebraska.

Sheriff Mears returned from his Kansas trip Sunday, empty handed. Hardesty, who is wanted on complaint of E. A. Bullock, of Norfolk, for giving a mortgage on property not his own, had enlisted the services of his friends and relations to keep him from being returned to Nebraska. Habeas corpus proceedings had been begun before Sheriff Mears arrived, but in order to make the delay more certain, Hardesty's mother had entered a complaint with the insanity commissioners, and had her sor taken into custody and held for a hearing at a date some two weeks in the future. Grant concluded he would return home, await developments, and determine just how anxious the Norfolk parties are to prosecute their man.

The "country fellows" won out in the republican primary fight in spite of the big Omaha and Lincoln dailies and their lesser satellites. The country newspaper that lives up to its true mission and deals honestly with its reader is a power in influencing votes and directing public policy. On the other hand the "yellow" newspaper, whether country or city, that fakes constantly and cannot be relied upon is not only without influence in its own community, but is an absolute damage to any cause it espouses. May every country editor be granted the wisdom to see and follow his mission and do his duty honestly and fearlessly. If he does, he is the salt of the earth.—Norfolk Press.

A Good Inside

...Is Worth Having...

There is something about A Two John's Suit and Overcoat that is lacking in other makes.

That something is in the garments because it belongs there. Because other makes have not put it there is the reason that—no matter how good they may have made their clothing—their standard is not as high as this store insists upon having.

There is no special secret about a merchant selling the best clothing. All he has to do to sell the best clothing is to first buy the best clothing. The proper consideration for his customers should prompt a merchant to do this; but too often they fail in this. If a merchant is not too set on a skin game, if he does not look too closely on present advantages at the expense of future patronage, he will invest enough more money in the wholesale cost of clothing to get the best.

This the "2" Johns Store Does

We do business on the theory that a patron of this store well satisfied, is a personal friend and a walking advertisement. We aim to treat every customer as such. Our knowledge of clothes values, gained through 28 years of experience, is at your service. We have the best clothing because we have insisted that the inside shall be just as good as the outside. The workmanship must equal the quality of the cloth. We were willing, and did pay the money to secure this. The result of this insistence is wholly to your advantage.

The cut herein shown is one of the neat, dressy models in the KUPPENHEIMER make, and when you buy a Kuppenheimer made suit, you get a strictly hand tailored suit, and the inside is equal to the outside. If it is a KUPPENHEIMER it is right, and if it is right it must be a KUPPENHEIMER.

THE MODERN "PITTSBURGH PERFECT" WIRE FENCE, WELDED BY ELECTRICITY.

What a Marvel it would have been to Abraham Lincoln, splitter of rails.

Mr. Farmer: Your progressiveness is keeping you in close touch with improvements in farm machinery, in dairy methods, and with all the scientific facts that bring about the greatest possible agricultural production.

You are also informing yourself about fence. We know you are.

First—there was the stone fence of medieval history.
Second—pioneer America converted its timber into rails.
Third—somebody found a way to weave wire and slats.
Fourth—along came barb wire, with its marvelous sale.
Fifth—machines were invented to twist or clamp one wire around another: the woven wire fence.

But, most important of all, electricity now welds the wires at the joint, making no longer necessary those wraps and clamps. Stay and strand, wizard-like, become one.

The greatest step forward in fence building is thus accomplished at a single, master stroke.

Of course, you are not using anything else. Surely you are familiarizing yourself with this remarkable improvement, to be found only in "Pittsburgh Perfect."

The Farr family have been residents of Wayne for nearly twenty years, and their departure is a distinctive loss to the social and church circles of the community. Delbert Earl Taylor.

One of the saddest deaths that has fallen to the writer to chronicle is that of Delbert Earl Taylor, who passed away at Sioux City on Friday evening, Sept. 13, 1907, following an illness of only four days in which he suffered untold agonies. Relief was sought by the surgeon's knife, but to no avail. With full knowledge that his end was only a matter of hours, he sought peace with his maker and bid his parents, sisters and friends good bye.

Delbert was born at Long Pine, Nebr., Aug. 19, 1887, and came with his parents to Wayne in 1888, where he has since resided. A good share of the past summer he has worked at Sioux City at his trade, that of mason. About Tuesday of last week he was taken down with terrible pains in the region of the small intestines. The physicians pronounced it appendicitis and the patient was taken to the hospital for an operation, which revealed an unusual condition of the intestine, in that they were knotted and inflamed and passage thru them stopped. It seems that in their condition no relief could be provided and death appeared almost welcome to the sufferer. The remains were brot to Wayne on Saturday evening and the funeral services held from the Methodist church on Sunday afternoon under direction of Rev. Parker Smith of the Baptist Church. The Commercial Club Band of which deceased was a member, played a funeral dirge as the procession moved from home to the church and following the services, to the cemetery. The turnout to the services was unusually large and the floral tributes from loving friends were beautiful and abundant. Death appears but natural when old age falls to the reaper, but when youth, in strength and happiness, is cut down, death is grim and cruel. Then the consolation of love and all kindness hardly seems a soothing balm. A father, mother, two brothers and three sisters survive deceased, and the deepest sympathy of the community goes out to them in their sore distress.

Two gangs of cement walk builders are having their hands full in Wayne at present. The amount of permanent walks that has been put in this season is surprising. A cement walk is recognized as a necessity and the property owner who has not improved his premises to this extent is behind the times.

A merry surprise party was given at the home of Mr. and Mrs. P. L. Miller last Thursday evening in honor of Mrs. J. G. Miller's birthday. The guests consisted of the members of the U. D. Club and their husbands, Mr. and Mrs. Buchanan, Mr. and Mrs. Dan Harrington, Dr. and Mrs. Liesenring, and Mrs. Kohl. Cards and dancing provided the amusement. This being the first event of the social season, and will be remembered as one of the successes.

The office rooms in the second story of the new Mellor building have been finished and are now occupied by tenants. Dr. Gamble, the osteopath, is comfortably settled in the two front rooms, undoubtedly the most desirable in town, while A. N. Mathney has moved his office furniture into the north front room. Dr. Naffziger has the remaining rooms on the floor making a suite of seven, with excellent light and ventilation. He will use them for hospital purposes.

them. You're invited; and when you come you'll meet a lot of the finest clothes you ever saw. We feel that our good friends and our good clothes ought to know each other better.

These are Hart Schaffner & Marx clothes; and you can put it down as a fact that better clothes, more stylish, more perfectly tailored, never came from the hand of a tailor.

The new suits are in a number of very smart models, and the patterns are varied enough to suit every taste--grays, browns, tans, in stripes, plaids and checks.

The new Fall overcoats are certainly very snappy; you'll find your kind here. It is hardly necessary to say that Hart Schaffner & Marx clothes are always all wool; you get no cotton mixture stuff under that name.

Other departments are also full of fine seasonable goods; hats of the latest blocks; shirts and neckwear like a regular flower-garden of color and rich design.

We hope you received our style book.

A WOMAN'S BACK

The Aches and Pains Will Disappear if the Advice of This Wayne Citizen is Followed

A woman's back has many aches and pains.

Most times 'tis the kidney's fault. Backache is really kidney ache; That's why Doan's Kidney Pills cure it.

Many Wayne women know this. Read what one has to say about it: M. K. Rickabaugh, living in the eastern part of Wayne, Neb., says: "My wife used Doan's Kidney Pills and was greatly benefited by their use. Her case was not very serious, but was very annoying. She had a sharp pain which would settle in her back and greatly break her rest at night. As a result for want of sleeping well at night she was weak and tired the next day. When I saw Doan's Kidney Pills advertised, I procured a box and she received such great relief from their use that she has been recommending them to her neighbors ever since."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agent for the United States.

Famous Walthill Indian's Base Ball Tournament and Street Carnival

A Cut Rate Price.

This is the first campaign in Nebraska in which political bosses cut no figure. The people will nominate the candidates and afterwards elect them. You are one of the people and should take an active interest in these primaries and elections hereafter. Politics from now on means a square deal for the masses, lower passenger rates, lower freight rates, less extortion by trusts and combinations. These things can only be accomplished by every honest voter making it a part of his business. The people can only know what is really going on by reading the newspapers. But you ought to read a newspaper that can print the truth about all the candidates; a paper that has no self-interest in politics; whose owners are not office-holders or office-seekers. The publishers think the State Journal is such a paper and in order to prove it to you make the special offer of only 50 cents from now until after election; seventy-five cents if you want the Sunday also. The earlier you send in your order the more you get for your money. Lincoln is the news center.

A Traveling Man's Experience.

"I must tell you my experience on an East bound O. R. & N. R. R. train from Pendleton to LeGrande, Ore," writes Sam A. Garber, a well known traveling man. "I was in the smoking department with some other traveling men when one of them went out into the coach and came back and said, 'There is a woman sick unto death in the car.' I at once got up and went out, found her very ill with cramp colic, her hands and arms were drawn up so you could not straighten them, and with a deathlike look on her face. Two or three ladies were working with her and giving her whiskey. I went to my suit case and got my bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy (I never travel without it) ran to the water tank, put a double dose of the medicine in the glass, poured some water into it and stirred it with a pencil; then I had quite a time to get the ladies to let me give it to her, but I succeeded. I could at once see the effect and I worked with her, rubbing her hands, and in twenty minutes I gave her another dose. By this time we were almost into LeGrande; where I was to leave the train. I gave the bottle to the husband to be used in case another dose should be needed, but by the time the train ran into LeGrande she was alright, and I received the thanks of every passenger in the car." Deafness Cannot be Cured.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. F. J. Cheney & Co., Toledo, O.

The wrong way

to select harness is the way it is usually given. Price is generally the first consideration. If that is very low the goods seem attractive, regardless of quality. Judge our goods the other way about. Examine into the quality of this harness first. Then it will be seen that it is worth almost any price. But our prices are not high. Value considered they are remarkably low.
