Doyles new romance,

The cry of "fake reform," raised against the Republican party last year, is no longer heard upon the compelled even the editors of the hustings. The reason is that every platform pledge made by the convention of 1906 was promptly and faithfully redeemed by the legisla-When this was followed by Anth-

ony Hope's new Zenda romance, "Sophy of Kravonia." the reading world needed no further proof that Most significant is the record of railroad legislation accomplished. Bills which had been introduced in every session for the past twenty years only to meet defeat at the hands of the railroad lobby were enacted into laws and the overthrow of the corporation influence was made complete by the passage of a unsurpassed beauty and artistic very comprehensive measure congrace. Its short stories, descriptive ferring powers and duties upon the newly created railroad commission. Besides this most important measure the railroad record of the last Nebraska Legislature is in part as fol-

Anti-pass.

Two cent passenger fare. Liberal mileage book for family

Fifteen per cent reduction on freight rates, on live stock, grain, lumber, coal, etc.

Twenty-five per cent reduction of

express vates. Compulsory weighing. Municipal taxation of railway ter-

While some of these new laws are being contested in the courts, the attorney general and railway commission are defending them stoutly and have won every point in controversy thus far:

Besides the good record made by the legislature and the railway commission on railroad regulation, the work or the state board of assessment is deserving of mention. Since Soothes itching skin. Heals cuts or burns without a scar. Cures piles, eczema, salt rheum, any itch-ing. Doan's Ointment. Your deugthe revenue law of 1904 became effective the assessed valuation of railroad property in Nebraska has almost doubled. A review of the asesments for the past thirteen years interesting at the present time

	mind our sun branch	· orreio.
YEAR	MILEAGE	
1895	\$22,4	125,308.00
1896	554225,4	124,708.00
1897	5542 25,8	561,720.70
1898	554226,1	108,639.80
1899	5542 26,	106,450.10
1900	5652 26,3	346,735.90
1901	2706 26,4	122,732.30
1902	5703 26,	588,612.70
1903:	5777 27,0	077,353.50
1904	5777 46.0	082,892.75
1905	5772 47,2	264,976,35
1906	5876 47.	796.031.32
	50CF 59.4	

. . 5967 . It will be noted that under the four fusion years from 1896 to 1900 the assessments remained practically the same, while immediately after the return of the republicans to power in 1901 they began to increase and that they are still being held up to their proper relation to other property, the \$5,000,000 jump from 1906 to 1607 bears witness

It is not extravagant to say that more substantial progress has been made towards the control of rail-roads in Nebraska during the past year than in any other state in the union, or in all the preceeding half century of the history of this commonwealth.

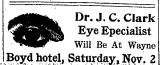

In view of this record there is little ground upon which the Democrats can base an appeal for a change of administration.

J. D. King was the subject of a neat surprise on Friday evening, when the members of Casey Post G. A. R., gave an event in his honor at the hall. The old vets thoroughly enjoyed a social evening. At the proper time D. Cunningham arose and made an appropriate talk which was followed by W. O. Gamble along similiar lines, with the result that Mr. King was presented with a gold headed cane, upon the head of which was engraved the words; "Presented was engraved the works, I tested to J. D. King by Casey Post, No. 5, Dept, of Nebraska. It was accepted by the old soldier with expressions of gratitude. It proved an appropriate gift for remembrance.

A very pretty wedding was solemnized at the residence of Mr. and Mrs. Charles W. Meeker, Wednesday evening, when their accomplish-Chas. Culler and wife were Dakota ty visitors Wednesday.

Mr. Reed, of Madison, Nebr., ras in Wayne on business Friday.

W. E. Reed, a Madison, Nebr., ttorney, was in Wayne on business Friday. Fauneil Senter and Watson Foster, niece and nephew of the bride, pre-senting a veritable cherub appearance, both in white, each five years old, color bearers, entered the spa cious parlors from the west which were handsomely decorated with pink and white, together with cut flowers and smilax, appoaching the Altar in the east, to the strains of Mendelsohn's wedding march, ren-dered by Mrs. Frank McLain, where the ceremony was performed

The bride wore a handsome white crepe, princess style, the groom the conventional black,

After hearty congratulations and expressions of regret that the young bride would soon leave for her new home, but confident in the belief that the young couple are well suited to combat life's struggles together, the entire company repaired to the dinning room where a banquet such as Mrs. Meeker and her daughters are noted for, was served. Col. Meeker came near spoiling the whole arrangement by insisting that each one partake of at least a taste of each of the viands, however it was apparent from the start that Miss Payne a former teacher in this could not be done by any one the High School, but now teaching present who desired to catch a few ours sleep after the banquet.

There was something particularly mpressive about this wedding to almost every one present. It seemed just like a family affair to a large ing. He spent part of his time in number of the guests, for Cleo May Chicago with a son while the rest was born in Imperial, reared to young womanhood here and beloved by all, a social leader and popular with young and old on account of her lady like qualities.

Pure White Lead

is worth \$7.50 to \$8.00 per hundred pounds. One hundred pounds of barytes or silica is worth 65 cents.

Paint Buyers

who accept 65-cent barytes or silica and pay \$8.00 (the price of White Lead) for it, or who pay even half the price of White Lead, could hardly be called shrewd buyers.

That is the "bargain" which

the buyer of "graded" or so-called "cheap" lead makes.
When in need of paint, buy
PURE White Lead. The Dutch

Boy Painter on the keg is your guaranty.

Nearing Its Quarter Century.

The Christian Home Orphanage of Council Bluffs, Iowa, is nearing its Council Bluffs, lowa, is hearing its quarter century of work for orphan, spend Sunday.

Dr. E. C. Horn has decided to accept the appointment to Minnesota and during that time has cared for many thousands of children who would otherwise grow up in ignorance, and form a great problem for to be a small out building near the society to solve society to solve.

The Home is preparing to cele brate the closing of the year by the dedication of another splendid new building for the care of deformed and crippled children, being the only institution in the middle west which provides for this most needy and pathetic class. The building will be fully equipped for the careful and proper treatment of such cases as come under its care.

The Home is large and varied in its departments, having four large main buildings, and in its work it embraces not only the regular work of a childrens' home and the constant placing of homeless children in private, Christian families, but it also conducts a department or hospital for deformed and afflicted children; and a department for aged helpless women, and a department for destitute widows with children who need temporary and immediate assistance.

The Home also conducts its own school, and as fast as means will permit, other industrial departments are being added for the teaching of trades to such children as are physically deformed, therby render ments of the Repulican party under ing it impossible to place them in the splendid leadership of Theodore private families, but who notwith-Roosevelt and insists that his suc-standing, can become self-support-

The value and importance of work suggests Secretary Taft as such a for this hitherto sadly neglected class, who have been left to grow up in vice, a constant increasing source officials for their care of the state of expense to the state in court costs institutions maintaining the credit etc., cannot be estimated, and should appeal to the hearts of all who are in sympathy with neglected children.

It will well repay anyone to visit this great institution, which is open Calls attention to the magnificient to visitors every day in the year. The management will be glad to mail to any interested person an illustrated booklet of the Orphanage, free on request

Having constantly an average of 200 in its care funds are greatly needed for the proper carrying on of the work, and we trust that the readers of this paper will open their hearts and hands to it, and, remembering the near approach to Thanks giving, send on offering of cash, food, fruit, or clothing to help in the care of these little ones.

All donations should be sent to The Christian Home, care of H. R. Lemon, manager, Council Bluffs, Endorses the direct primary, and Iowa, who will also be glad to anspledges such amendents as shall im- wer any inquires in regard to the wer any inquries in regard to the institution, which is non-sectarian, Commends the good work of the has no endowment, employs no state railway commission, in its agents, but is supported entirely by

LOCAL NEWS.

Misses Surber and Lewis, teachers in the Hoskins school, were down to

Anchor Elevator.

We understand that W. J. Bryan has promised to come to Wayne and give an address at the Opera House on Friday evening, Nov. 1

Miss Mabel Lund, returned to her with her cousin Miss Anna Lund. Mr. and Mrs. Wm. Roberts of

Benkleman, Nebr., are guests at the John Hufford home this week Mrs. Roberts is a sister of Mr. Hufford. Chas. Kate has lettered the In-

cubator Factory over the outside, and there is little question put that everybody will understand what the building is used for, hereafter.

mplement dealer came up from Hastings, Friday for a few days visit. He says apples are a scarce article in that part of the state, selling as high as sixty cents a peck.

home of Mr. and Mrs. I. C. Trum-bauer, on Thursday of last week, when Judge Hunter tied the not for Mr. Chas. A. Demers and Mrs. Clara Harold, both of Emerson, Nebr. They left on the afternoon train for that place where the groom has fitted up a nice home. The bride is a sister of Mrs. Trumbauer.

Dr. S. E. Meek, a great Naturalist, Curator of the Field Museum Chicago, who is visiting in our city, will lecture on "Old Mexico," at the College Chapel, Thursday evening for the benefit of the College Library. Dr. Meek has traveled in every state of that Republic, and has written much for scientific magazines conerning that wonderful country, Admission 10 cents.

Gordon, the cement walk man, tells us that in summing up his season's work in Wayne he finds that he has put in cement walks to the value of \$5412.41. During the past several years the value of cement walk laid each year has nearly approached this, and to cast up the total would make an exceptional showing for Wayne. Another sum-mer will likely see the board walks along all the principle streets, replaced with cement.

We are informed that on Tuesday morning fire destroyed the house occupied by Henry Echtenkamp, right east of the German Church north-east of Wayne. Mr. Echtenkamp was out in the field at the time and his attention was first called to the burning building by the explosion of some shot gun shells by the flames. He hastened to the house, and arrived just in time to break in a window and rescue the children, while his wife, had barely succeeded in getting out herself. The household goods were distroyed. The cause of the fire is unreported. The real activity in county politics

is centered on the offices of treasurer and superintendent Chas. Revnolds for county clerk has everything his own way as a nominee of all three parties, while county Judge Hunter holds the fort alone as a republican Feather for clerk of courts and Mears for Sheriff, have contestants named on the ballot, but its evident that neither Mr. Toombs nor Mr. C. E. Brown, are interested enough themselves, to put forth any effort whatever. Its easy to discern the forces backing up the fight against Chas. Beebe for treasurer but the voters are fast coming to understand the motives in the deal, and for this reason the republican candidate is gaining in strength with each passing day. Mr. Beebe, in temperment, training and exper-ience, meets the test and can fill the place as an ideal public servant. Lets hire him for county treasurer.

It was Mr. Heighton's first appearance in this city and he made a decidedly favorable impression. He

LINCOLN'S LIFE MASK.

It Was Looked Upon With Wonder and Admiration in France.

"It is to Frenchmen that is dus of the founder were: What a beautiful face! Why, it's more beautiful and has more character than the abbe's, and we think that is the handsomest one in France! What an extraordinary construction, and what fine forms it has! Then he home at El Campo, Texas, Wedness asked who it was and added, I shall day, after a several month visit take pleasure in showing it to Soand-so,' naming several of the prin-cipal sculptors in Paris for whom andhe did work. "Fremiet was particularly interested. He said, among other things

'It seems impossible that a new country like yours should produce such a face. It is unique. he asked: 'Do you know anything about the physique of this man? He must have been tall and slim, having little flesh and very alert in action. As I was then making E. B. Cook, formerly a Wayne some sketches of a statuette, based upon very little knowledge of Lin-coln's physical appearance, Fre-miet's suggestions were of great value, as I knew him to be a learned ethnologist. He then recommendelling as high as sixty cents a peck. ed me to get for a model a man of A quiet wedding took place at the the neighborhood who was tall and slim, but very compactly built. His height was six feet four inches, the same, as I learned long afterward, At the close of as that of Lincoln. our conversation Fremiet said: You have in hand a wonderfully inter-esting subject. I envy you.'
"Some weeks after, when I went

to get the bronze copy, the founder told me that these sculptors and others had seen the Lincoln and expressed themselves in the most appreciative terms of what they saw in it. Here, in substance, is what they said: 'It is unusual in general construction, it has a new and interesting character, and its planes are remarkably beautiful and subtle. If it belongs to any type, and we know of none such, it must be a wonder-ful specimen of that type."—Truman H. Bartlett in McClure's.

Dodging a Shot.

When Dewey was first lieutenant of one of the gunboats which Farragut used as a dispatch boat the admiral used often to come aboard and steam up near the levee to rec-onnoiter. The southerners had a way of rushing a fieldpiece to the top of the high bank, firing point blank at the gunboat and then back ing down again. Upon one such oc-casion Farragut saw Dewey dodge a

"Why don't you stand firm, lieu-tenant?" said he. "Don't you know you can't jump quick enough?"

A day or so after the admiral dodged a shot. The lieutenant smiled and held his tongue, but the admiral had a guilty conscience. He cleared his throat once or twice, shifted his attitude and finally de

clared:
"Why, sir, you can't help it, sir. It's human nature, and there's an end to it."

Playing Gooseberry.
Playing gooseberry or "to play gooseberry" is common enough in connection with sweethearting lass arranges a walk with a lad, but for some reason she does not care for some reason she does not care to go alone, so she takes a friend, another girl, and the friend "plays gooseberry." Sometimes the girl who is invited to share the walk refuses, saying, "Nay, I'm not going to play gooseberry." The girls speak of the lad in this connection as "gooseberry fool." By the way, green gooseberries stewed with a little water, mashed and sugar added, constitute "gooseberry fool."—London Notes and Queries. London Notes and Queries.

The Fall of Rome.

Odoacer, the Goth, was proclaimed king of Italy A. D. 476. This ended the Roman empire of the west. The Byzantine, or eastern empire, founded A. D. 395, with the division of the empire by Theodosius, fell A. D. 1453 with the capture of Constantinople by the Turks. In truth it cannot be said that any one, or even two, nations overthrew Rome. Rome was over-thrown by the pressure of the whole barbarian world, assisted by the in-herent corruption of the Roman people.

The Prettiest Wild Flowers.

ONE OF THE IMPORTANT FIRM CLASS PRODUCTIONS OF THE SEASON, "MY BOY, JACK," WILL BE SEEN HERE IN A FEW DAYS. The play was

CARE WILL

written by I win Milton Royle, author of "The Squaw Man,"

author of "The Squaw Man," the most famous Bradway success of recent seasons, "Moline Moonshine," which Marke Marke Moonshine and other noted plays. The company will have for its head and star EUGENE MOORE, who will be remembered for his brilliant performance of "Monte Cristo" and his high position among leading men and the cleverest light comedians. MR. MOORE SHINES BRIGHTLY IN THE PART OF JACK, and nothing could be better suited to the tasts of American their records the could be better suited to the taste of American theatregoers than the character of this independent, worthy young son of a typical American business man. THE OPPORTUNITIES IN THE FART American business man. THE OPPORTUNITIES IN THE FART TO SHOW THE ACTOR'S ART in delineating a vivacious personal-

ity with a keen play of wit and humor, through which is strength and nobility of character, are sell om excelled in any play.

MR. MOORE IS ONE OF THE FEW ACTORS IN THE COUNTRY WHOSE WIDE AND COMPLETE EXPERIENCE and high ideals the full excellence of such a role. The other WHOSE WIDE AND COMPLETE EXPERIENCE and high ideals equip them to convey the full excellence of such a role. The other parts in the play are all of unusual interest, including the musical Karje, Margeret the prima donna, her dissipated lather, and the landlady of the poet and composer in their poverty. The whole play is full of the best kind of entertainment the stage offers, and presented thoroughly well. There are four acts which carry the story from the poor lodgings of the poet and musician through

handsome apartments of the prima donna and the mansion of her rich admirer to the green room of the opera bouse. You

THEREFORE LET'S BE MERRY

wont see any thing better is town this season than this production.

Reasons why gold mining should eceive the support of everyone having capital to invest are many and varied, chief among these being that gold is our money standard.

every piece of paper issued as currency by our government, there must be an equal amount of gold deposited in our treasury.

There is little or no fluctuation in the price of gold. If every Investor should scoff at mining and refuse this support, what standard of money would be used?
Truthfully it has been said that

there is no purer business tnan gold mining. It takes from no one, but gives to all. The fact that there have been losses made through illadvised investments should not, and does not, apply alone to mining. It is a known fact that the per centage of successes is far in favor of mining as compared with our great industrial enterprises.

Investigate mining propositions as you would investigate any business in which yon have intentions of makthat you will decide in favor of the legitimate miner and his proposition.

A mining property, to begin with is like any business—a prospect. It requires considerable money to ascertain if the earth will give fourth the results to be expected through Mineral conher surface-showing. ditions must be found before an at tempt is made to uncover the wealth the earth holds and if the surface indications warrant, then development

alone will make a mine of it.

For this reason stock is sold at first at a low price, and as conditions are bettered and development pro gresses, more money is needed. It is only good business policy that the price of stock be increased as the property begins to give forth what

the surface indications promised.
"Speculation," you say? Certainly!
Is there a business on earth that in its early career anything but a speculation?

is a speculation, pure and simple.

Mining gives forth such greater profits than any other business that t should come first in the thoughts of all investors.

to my office over the First Nat. Bank than you ever had before. Very truly yours.

O. A. KING.

COUNTY SUNDAY SCHOOLS

Hold Annual Convention in Wayne Interesting Speakers Make a Profitable Meeting

The Annual Convention of the Wayne County S. S. Association, wes held at the M. E. church, Wayne, Nebr., Oct. 16 and 17, where a good and strong program was carried out. About tharty delegates registered from the various schools of the courty. Prof. H. M. Steidly, of Lincoln,

and State Secretary was present the first day, and added much interest

to the convention in the discussion

of the various subjects pesent d

he gave two excellent addresses on the subjects of "Teachers Training" "New Movement," both of which were full of helpful thoughts. Rev. Alexander Corkey of Ceda: Bluffs was present throughout the whole convention. His main work was the Bible readings, of which he seemed to be master. He also gave an excellent address on "The new Jones and John Larson left yester- fu filling the old, or the eleventh day for Malvern, Iowa, to be gone commandment," Dr. O. R. LAND! LAND!

Land that grows 15 to 25 tons of sugar beets to the acre, 200 to 400 bushels of potatoes, 40 to 100 bushels of oats, 25 to 60 bushels of corn to the acre, and all kinds of fruit, berries and melons in abundance. Rich, virgin soil, that grows immense crops like magic, when the water that the U.S. government provides at cost is flow ed upon it. There is no such thing as crop failure under irrigation. The farmer plants his crop and absolutely controls the amount of water his crops need at exactly the proper time, and he can grow more profitable crops than he can grow in any natural rainfall coun-try, such as sugar beets and alfafa. Government statistics show that irrigated land will produce from one-third to one-half more crops than any natural rainfall country. Officials of the U.S. Reclamation Service say that the North Platte project, which will irrigate the land we are selling, is best adapted to irrigation of any land in the country, and the supply of water is unlimited.

RENTERS. Why pay from \$3 to \$10 an acre rent for land when you can get 160 acres of fine irrigated land for about the same money you are paying for one year's rent of an eastern farm?

COME TO THE NEW LAND and own a fine farm that will grow larger crops than the high-priced land you are renting. Uncle Sam will supply you with water to irrigate 160 acres of the most productive land in the country at cost. I can secure you a fine 160 acre, irrigable farm for from \$1 to \$5 per acre.

DON'T WAIT! It won't last long. Thousands of people are flocking to this country, and the sooner you come the better bargain I can get you. Don't waste your life renting somebody else's farm at a high price. Come to the rich and fertile North Platte Valley, and make a home and fortune for yourself and family. Don't neg-lect this splendid opportunity. There's big money in it. This land that you can now secure for practically nothing, will be worth from \$100 to \$300 per acre as soon as irrigated and improved. It is better land than Colorado land, that is now selling for as much. You can hire all the work done on sugar beets for \$45 an acre, and at the average yield of 20 tons an acre, you can clear \$55 an acre and do no work on it yourself.

FARM OWNERS, Why farm \$100 eastern land when you can buy irrigated land here for from one-tenth to one-fourth the money, and get land that will produce larger crops and increase rabidly in value? Sell out and come to the rich North Platte Valley. We are not pioneering. There are no hardships in this country towns, railroads, schools and churches are close at hand. The Platte Valley is centrally located and convenient to all markets. Railroad communications are unexcelled to all good shipping points. All kinds of produce, cattle, hogs and sheep command a high price. ington R. R. now runs through the valley and the Union Pacific is rapidly pushing work an a through line to the coast, which line also ruus through the valley. Thousands and thousands of tons of hay are cut in the river bottoms every year.

INVESTORS: We can sell you deeded land that is increasing rapid-

ly in value and will continue to increase in value for years to come. Irrigated land is not subject to the depression in land values that always go with a period of crop failures in any natural rainfall country. No matter what the weather you can grow a crop every year under irrigation. I control the sale of thousands of acres of irrigated and dry lands, hay land and ranches. I can secure you any kind of land at a price that will make money quicklo for yon.

THE KING ROAD DRAG

Fame of Split Log Variety and How it is Made.

FOREIGN LANDS ASK ABOUT IT

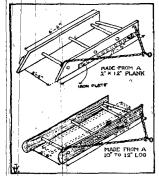

Improving Device Tells How to kind of Wood to Use.

(Copyright, 1907, by D. Ward King.) Convigent 180, by New King The fame of the split log or King trag is becoming worldwide. Inquiries concerning it have come to me from Australia, Porto Rico, Honolulu, Canada, Paris and elsewhere.

Here in our own country there is no

lifer in our own country there is no longer any question concerning the merits of the King system of road dragging. Six states have put "drag laws" on their statute books, while the scientific roadmakers of most states, ow satisfied of its practicability, are indorsing the method and urging the se of the drag

split log drag is so exceedingly simple that most men feel able to improve it and many believe they have

PLANS OF THE KING ROAD DRAG.

Instructions.—After each rain drive up one side of the wheel track and back on the other side at least once, with drag in position to throw the earth to the center. Ride on the drag. Haul at an angle of forty-five degrees. Gradually widen, the strip dragged as the road Improves. To round up the road better plow a shallow furrow occasionally each gide of the dragged strip and work the loose dirt to the center.]

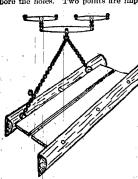

done so. I have no quarrel with these men. For years I have been saying that any tool which will smooth the surface of the highway and move a litthe earth to the center of the road is's the earth to the control of the reader that I have myself spent a great deal of thee years ago trying to improve the drag and gave it up as impossible. With all deference to the opinion of others I feel that one might opinion of others I feet that one ungut
as well try to improve an ax or a
spade. I have seen and know of a
great many different styles of drags.
Some are made of one slab with a
tongue, others are bullt in the shape of
a V and used with broad end to the
front, working both sides of the road

the two parties both states of the today at once, and so on. Any one of them is better than no drag and will improve the road if properly used.

Ilowever, I have been asked to tell how to make and use a split log drag, and, with the concessions made above, the the thetate of the two pore navious the to indicate that I am more auxious the road should be cared for than to insist it must be cared for by any particular style of drag, I will confine myself to

The best form of material for building is the log. The straighter the log and the straighter its grain the better. ond the straighter its grain the better Other things being equal, I prefer the lightest log. Weight, when needed, can be added to a light drag, but a drag constructed of heavy material cannot be lightened. The weight of the cannot be lightened. The weight of the driver on the drag will generally prove sufficient to do good work. If given my choice I would prefer a log of the sort of wood in the following list, in the order given: Red cedar, walnut, elm, cypress, soft maple, box elder, with oak, ash and hickory in a class by themselves and last on the list. Even settlement or willow is preferable to cottonwood or willow is preferable to the heavy woods.

Having split the log, we are ready to bore the holes. Two points are impor-

KING ROAD DRAG REVERSED

tant in building a drag if we hope to have it go together shipshape; bore the holes at right angles to the face of the slab across the grain, and ditto lengthwise of the grain of the wood. But fittle difficulty, however, will be experienced even if the holes are not absolutely true for the scales can be made Intelly true, for the stakes can be made in fittle smaller for the crooked holes and, with careful wedging, they will be all right. Select the best slab, to go in front. Now, with the flat face to the north the right hand end of the slab will be the ditch end. Eighteen or twenty inches from the ditch end of this slab and midway of its cross section we will bore a two liceh hole. At the other end of the slab and as close to the end as the strength of the timber will permit—say three to six Intely true, for the stakes can be made

will permit—say three to six

A. hes we will here the second hole. Next stretch a chalk line from center o center of these holes and hore the hird hole halfway between the other lwo and on the chalk mark. Now we will hing the other slab up close to and half did the front slab flat state. and behind the front slab, flat side to the north, but with the end slipped west to a point within three or four FOREIGN LANDS ASK ABOUT IT

Concess of the first hole we bored, and after carefully adjusting the slabs we can mark for all three holes on the rear slab. When these holes are bored for will prepare three stakes and slip the slabs out to the stakes (about thirty).

The Practicability—Inventor of High
Its Practicability—Inventor of Hi inches apart) and wedge them se-

These stakes should be sawed off smoothly in front or they will clog the earth as it drifts along the slab, but the wedges and stake ends may protrude at the rear, where they will save you much time and bother by mutely explaining exactly how the slabs are held together. The hitch may be a strong wire or

the nitch may be a strong wire or chain. A trace chain and one-half is about the right length. Pass one end over the top of the front slab at the rear end and loop it around the stake; the other end should be passed through a hole made for it two or three inches from the ditch end and at the center of the clab.

If forced to use plank, get elm or If forced to use plank, get elm or cypress 2 by 12 of the proper length and a 2 by 6 of the same length. Use the 2 by 6 to re-enforce the 2 by 12 lengthwise of its center, so that there will be four inches in thickness of the will be four inches in linearies of the wood through which to bore the two inch holes. By this arrangement of the plank the shape of the log slab is approximated. At the end of six months' use the road will become so hard that the front slab will need to be found with three or four four of steel. faced with three or four feet of steel or iron. Any flat plece will do." No bolts are necessary except to fasten the flat steel to the ditch end of the

The length of the drug will depend on the tength of the drag win depends on the tenm that is to be used. For horses that weigh 1,200 pounds a seven foot drag is large enough. Two horses weighing 1,700 pounds each will han die a nine foot drag. In other articles of the series I will

try to explain how to secure the best results.

BUILDING SWAMP ROADS.

Horatio S. Earle Tells of Methods That Have Been Tried.

Have Been Tried.

To say first how best to build a good road or even a fair road over swamp; ground is something that no sane road builder will attempt to do. The main reason why is that there are seldom reason why is that there are seldon two swamps alike, and so what has worked in one place would be worthless in another place. About the only thing I can do is to relate some things that have been done and let you take your choice without any guarantee that they will produce a cure in your panticular piece of road, says Horatio S. Earle, state highway commissioner for Michigan. for Michigan

One man had been drawing gravel for years. Each year it sank, and the rond was no better than before. He drew cobblestones in the winter time and threw them into the ditches along and threw them into the directes unique side of the road. In the spring they sank. Next winter he did the same thing. In the spring they sank some, but not out of sight. The result was he had two walls on either side of his road, so that the muck could not once the state of the side and those hose how no

road, so that the muck could not ooze to the side, and there has been no sinking of his road since.

A prominent railroad engineer says that generally it is best not to break the sod across a swamp, but to haul on the earth to build up your turnpike, first making a mat of trees and placing rour earth on ton of this mat. The your earth on top of this mat. trees should be from one and one-half inches to three inches in diameter. He says he built a ratirond grade in this way across a swamp which was so soft that he could run a pote down thirty feet by hand, and the grade has stayed up without any trouble for over ten years.

Another man, instead of building a corduror road, took the logs and drove them down endwise beside the road, using logs sixteen feet long. He drove them with a hand pile driver made out trees should be from one and one-half

them with a hand pile driver made out of an elm butt with three handles, so that three men could use it. These logs kept the muck from ozding to the side and proved very satisfactory.

Where you have a soft spot in your road it can often be improved by put-

road it can often be improved by put-ting a layer of swale grass of ryc straw or hay over it and then putting your gravel on top of that. The hay or straw is not a water carrier and will generally hold up the grade until the gravel has a chance to pack, after which there will be no further trouble.

Effect of Automobiles on Roads.
At a meeting of the Los Angeles board of supervisors and the highway commission G. H. Squires, who returned recently from Europe, told of the building and maintenance of roads there. Contrary to general belief, he said, affairs have not yet reached the stage of perfection abroad, although they are far in advance of the United States. Fast autos, he said, are bad for good roads, and slow autos are good for bad roads. Effect of Automobiles on Roads

Public Roads of New York.
From the office of public roads, the United States department of agriculture, a report shows by comparing the total road mileage with the area of the state that there are 1.54 miles of public road per square mile of area. A comparison of mileage with population shows that there is a mile of road to every ninety-eight inhabitants and one trille of improved road to every inhabitants. Public Roads of New York

Good Roads In Cuba It is reported that about eighty miles of good roads will be built this year in the province of Havana, Cuba

To judge by the appearance of the election ballots, now in preparation, fusion is becoming common practice. In the matter of county offices, this is especially evident. Chas. Reynolds is the nominee of the democrats, republicans and independents, while Miss Rayburn goes on as a candidate of the demo-crats, independents and "by peti-tion," as does also Mrs. McManigal for the office of county superintendent. The republican and independents have fused on B. F. Feather for Clerk os the Courts. Things are getting somewhat mixed and its going to be hard to tell who's hit missed when we "vote'r straight."

ORDER OF OWLS.

ITS MOTTO IS: There's so much bad in the best of us, And so much good in the worst of us It hardly behooves any of us, To speak ill of the rest of us. See JOHN L. SOULES, DEPUTY FOR THE LITTLE ONES.

The Shepherd and the Wolf is a Good Outdoor Game.

The children stand in a long line, one behind the other, holding each other's dress or coat. The one at the head of the line represents the shepherd. His little followers are the lambs. One player stands apart from them, and he is the wolf. He prowls stealthily around the flock, and the shepherd calls out, "Who goes around my house this dark night?"

The other answers, "I am the wolf."

The shepherd says, "I beg of you not to hurt my lambs."

The wolf then says, "I only wish

for one, and I mean to have this lit-tle lamb." And he jumps at the aro one, and I mean to have this little lamb." And he jumps at the last player in the line. The shepherd swings around to save his pet lamb, followed, of course, by the others. The wolf is sly and pretends to turn aside, only watching his opportunity to grab. When he catches the lamb she must try to slip away, and if she succeeds she in slip away, and if she succeeds she in turn becomes shepherd. The wolf must then pay a forfeit and relin-quish his place to the last lamb in line, taking his place.

Spanish Tag.

Spanish children play a kind of tag which they might have taken from some fairy game book if such a thing existed. One child, chosen by lot, is the moon and must keep within the shadow. The others are the morning stars and are safe only in lighted spaces. The game is for the morning stars to run into the shadow, daring the moon, who, if successful in catching one, becomes in turn a morning star and passes out into the light. This, of course, leaves the one caught to act the part of the moon. As the morning stars run in and out of the moon's domain they sing over and over:

O the moon and the morning stars,
O the moon and the morning stars,
Who dares to tread—J,
Within the shadow?

What is better than a land boom to take real estate off your hands?

Soap.

What is the western part of a boy's trousers? The seat, for it is where the sun sets.

I had a little piece to speak
And knew it well all through the week,
But when the time for speaking came
And I got up and gave the name
I found my voice was weak and lame. oak and lame. ink the same

WHAT THE KIDNEYS DO

Their Unceasing Work Keeps Us Strong and Healthy

All the blood in the body passe through the kidneys once every three minutes. The kidneys filter the blood. They work day and night. When healthy they remove about 500 grains of impure matter daily, when un-healthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms- pain in the back, headache, nervousness, hot, dry skin, rheumatism, gout, gravel, disorders of the eyesight and hearing, dizziness, irregular heart, debility, drowsiness, dropsy, deposits in the urine, etc. But if you keep the filters right you will have no trouble with your kid-

. C. T. Barto, living in Wake field, Nebr., says: "I think Doan's Kidney! Pills a fine remedy. For about two years I had been subject to kidney trcuble and had some very severe attacks. My back was very painful and ached so severely at times that I thought it would break in two. Accompanying this trouble was an annoyance from the kidneys. The kidney secretions passed much to freely and I tried every kind of remedy without any relief. I finally learned of Doan's Kidney Pills. They not only stopped the pain in my back, but also corrected the action of my kidneys. 1 have not had an attack for over two months and give Doan's Kidney Pills the credit for this change in my condition.'

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agent for the United

Remember the name-Doan'sand take no other.

There is more Catarrh in this ection of the country than all other diseases put together, and until the last two years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies by constantly failing to cure by local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure manufacured by F. J. Cheney & Co., Teledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood

and mucous surfaces of the system. They offer \$100 for any case it fails to cure. Send for circulars and

testimonials.

Why Colds are Dangerous.

Because you have contracted ordinary colds and recovered from them without treatment of any kind do not for a moment imagine that colds are not dangerous. Everyone knows that pneumonia and chronic catarrh have their origin in the common cold. Consumption is not caused by a cold but the cold prepares the system for the reception and development of germs that would not otherwise find lodgement. It it the same with all infectious diseases. Diptheria, scarlet fever, measels, and whooping cough are much more likely to be contracted when the child has a cold. You will see from this that more real danger lurks in a cold than in any other of the common ailments. The easiest and quickest way to cure a cold is to take Chamberlain's Cough Rem edy. The many remarkable cure effected by this preparation have made it a staple article of trade over a large part of the world. For sale at Raymonds Drug Store.

Notice.

I invite all brother farmers to come and inspect my Poland China hogs and at least some of them. Do not wait until you get the money, a bankable note is just as good to me as the cash. I guarantee every hog a breeder or money refunded. have as fine hogs as you can find in the land. My herd of boars perfect.
