SCHOOL MEN TO ORGANIZE.

Have Banquet at Norfolk. Nov. 29.

Organization of the "North Nebr School Folks Club" is under way, the new organization will be launched at a banquet in Norfolk on Friday evening, November 29. It will be a club for the county and city superintendents, the high school principals and teachers and the college faculties in the north Nebraska territory tributary to Norfolk.

Plans are being laid now for the first of the "schoolmasters" banquet Among the men who will respond to asts are President Thomas of the Kearney Normal, City Superintend-ent Barr of Grand Island, City Superintendent Davidson of Omaha, Gurney of Fremont, J. C. tt of West Point, President Pile of the Wayne Normal, President Clemmons of the Fremont Normal, Superintendent Hahn of Blair County Superintendent Teed of Dixon county, and superintendent Perdue of Madison county.

The proposed organization has the enthusiastic support of the men who are prominent in the North Nebr.. Teacher's Association. President Pile of the Wayne Normal is also among the educators who is in hearty accord with the movement. Mr. Pile will only attend the banquet, but he expects to bring his entire

Just how frequently the club will meet is a matter of conjecture. Details of the organization will be passed on at the coming banquet.

Incidently on the occasion of the

banquet there will be a meeting in Norfolk of the executive committee of the North Nebraska association. The committee, which consists of County Superintendent Teed, Dixon county, County Superintendent Pilger of Pierce county, Superand Miss Zink, county superintendent Campbell of West Point and Miss Zink, county superintendent of Holt county, will begin its work of preparing for next April teachers' convention.

The Coleridge Blade tells of a Wakefield man who came racing to town with his horses wringing wet with perspiration, rushed to the bank and demanded to know how much balance he had there. The banker looked up the account and told the man that he had overdrawn \$1.75, "O, all right," says he, "let it stand. I knew all the time that the banks were solid."

So when one day this man had growled and whined the whole day through, she turned him up and fanned his pants-as his mother used to do. Ex.

An exchange says it is easy enough to get rich if you want to loadly enough. Here is the way to do it: Work like fury sixteen hours a day at least, run back and forth to your at least, run back and forth to your meals, hurry your wife into, hyster-ics if she doesn't have every meal ready just when you get there, sleep as little as you can and live; grasp every dollar in sight and dig for every dollar in sight and dig for some that you think are covered up; pinch your pocketbook, shrivel your soul and overwork your body, and you will make money. You will be rich when you are old, if you live.

The farmers with the rest of us share the benefits of the pure food law, but its strict enforcement is likewise going to effect not a few of them. Over in Dakota county the county attorney has ruled against fourteen ounce butter prints being sold for a pound, and that when sold in such a form the print must be tag-ged with its weight. Now comes Food and Dairy Commissioner J. W. Johnson and insists that selling rotten eggs are lial penalty of from \$10.00 to \$100.00. However, a mere fine for selling putrid specimens is light as compa-red with John Kat.'s idea of the cates making it a penitentiary offense.

FILLS A LONG FELT WANT.

Every coffee drinker in this town and every one who would like to drink coffee, but who can not drink ordinary brands, should try this widely advertised and justly celebrated Steel-Cut Coffee.

We have added it to our stock of high grade pure food groceries, because it will become immensly populer when once introduced.

When you buy a pound of Barrington Hall, you get a pound of the best part of the coffee only. It is cut, not ground, into fine, even particles and the bitter chaff containing the injurious element is removed.

Barrington Hall sells at 35 cents per pound tin. Buy a pound—try it in your home, and if you do not agree that it is the most delicious, healthful and economical coffee you have ever used, return what is left and get your money back.

For fifty-four successive weeks we have borne the cares and duties of its publication and from the standpoint of both The Reconstruction Period. progress and profit, it has been a most successful year for the HERALD. The office equipment has been modernized with a Cranston press and new type thruout. We are confident that no weekly paper in North Nebraska has a more complete printing plant. The paper's list of subscribers has been materially increased and the readers who are 'paid up" and in advance, reveals an exceptional condition for the average newspaper. Accepted by us as a trust, the traditional policy of the HERALD was adhered to, dispite the fears of some, and if results count for anything it has excelled its record as a party organ, and this has been accomplished without violation of our own sentiments or opinions. The day of vituperation and abuse is passed, and the individual or newspaper that resorts to their use, only uncover their own weakness.

As a boy we learned the printer's trade in the HERALD office, and now that we have had a chance to make a year of its history, we are satisfied to turn its destinies over to more worthy and capable hands.

The new proprietors, Lister Bros. are both talented and experienced in newspaper work and are bound o win the confidence and support of our people by maintaining the HERLID to its recognized standard of being a "rattling good paper in rattling good town.'

In this connection we wish to thank Wayne's business men for making our days (and not a few nights) a round of toil, by their liberal patronage. Cherishing a kindly feeling for the HERALD and all its readers, with especial regards to Mr. R. Philleo for timely encouragements, we step down and out.

In nineteen hundred, a half dozen woman's clubs decided that their efforts should be directed towards the establishment of a Free Public Library for Wayne and Wayne The fund first raised for this project was the result of a Bazaar held in the old Court House in March 1900. The N. E. Nebraaka Teachers' Association was held here at the same time, so in connection with the Bazaar meals were served. The total net receipts of this venture was about \$175. Nothing much was done in 1901, for these were hostesses to the State Federation, but in 1902 the efforts of these women were renewed and the fund increased to a little over \$300. A Book Social was held near the close of the year and 114 books received besides government reports and January 1903 with 255 volumes. Later the Monday Club denoted their library of about 350 volumes. Since that time, the Library has grown until today there are nearly been added this year and thirty more tion and supported by taxation, in have peen ordered and will be on the shelves within the next three

Thankful It's No Worse..

The idea of setting aside a certain day in the year in which to give thanks for the bles sings bestowed on us, originated, as everybody knows, with our Puritan ancestors. for this year will be here in just one week, and don't let us forget the many things for which we should be thankful, this year. Let us be thankful that the financial panic scare that swept over the country for the past three weeks, is about over, and that it was no worse than it was

We would be more thankful if the laws of our country were such, that when a few bank president stock gamblers of Wall street, would ruin their banks, that the people who deposits with them would not loose their money, the whole country would not then tremble under a Financial panic. We are thankful however that our Wayne banks were solid enough, that they did not at any time refuse to pay out money and did not have to issue clearing house checks.

=You Should Be Thankful:

That there is a store in Wayne where you can buy STALEY underwear, which is cold proof, and that the wearers of STALEY underwear are exempt from Pneumonia, Rheumatism, Divorce Courts and Jail, and that the price of STALEY underwear is so that the poor as well as the rich can afford to wear it. You will have double reason to be thankful if you have STALEY underwear on. Be thankful that there is a store in Wayne that has the nerve to sell the genuine SNAC PROOF pure gum artics, as one pair of them will out wear two pairs of any other make, and the price is only \$2.50 per pair.

—— Be Thankful =

That it is possible for you to get a KUPPENHEIMER hand Tailored suit or Overcoat at THE "2" JOHN'S for \$17.50 to \$25.00 and if you are going out to eat Thanksgiving, dinner with your best girl, you had bettter get one of those KUPPENHEIMER Suits, as it will leave a better impression with her Dad. Look well to your furnishings also, look over your neckwear, and if you haven't one of the latest, go to THE "2" JOHN'S and get one of those new Thanksgiving ties which just came in this week. Get out your swellest shirt, and if it don't ust suit you, or if you have worn it too many times, go to THE "2" JOHN'S and get one of the newest. Be sure your collars and cuffs are the proper style and as an absolute necessity for your Thanksgiving attire to be complete you should have one of those swell fancy vests on display in our center show case. Your Thanksgiving dinner will taste all the sweater, if you are dressed proper for the occesion, and THE "2" JOHN'S can dress you proper.

If you have a whole lot to be thankful for, give somebody else a little. If you haven't got nything to be thankful for, you are certainly hard up. We have got a whole lot to be thankul for, so we are going to give somebody else a little, in the following bargains:

BARGAINS IN SWEATERS

We have a few of the old style neck sweaters, which we carried over from last year, and are determined to get rid of them, to do so we have sorted them up in three

Lot 1--Childs and Boys sizes, former price was 75c to \$1.50, now Lot 2-Boys and Mens sizes, good all wool neck sweaters, was \$1.00 to

Lot 3-Boys and Mens sizes, extra quality wool, regular values, \$1.50 to \$2.50, while they last

\$1.50, they are now.....

OVERCOAT BARGAINS

The only overcoats which we carried over from last season was in Youth's sizes, from 16 to 18 years old, and as they are somewhat different from this seasons styles we will give a discount of 20 per cent on them till they are all sold. We will not carry goods over the second season. This is a chance for you to get your boy a good overcoat for the price of a cheap one, if you are not particular about having the style right up to the very latest, we will be pleased to show you these coats, and your boy will be thankful to get one of them.

In addition to the help derived from the sources stated above, the citizens of the city have contributed toward the building up of the largest collection of books in this section of the state. Certainly, the women of Wayne are doing a grand work.

Mr. S. H. Alexander, Denver, Colo

Dear Sir: In regard to vein number two mentioned in your letter of on the Ashland cut-off. It will be the 7th inst., will say that I examininamed the Chiefton. ed this on my arrival from Denver and have held the report on same until the assays were returned,

The development already done on this vein demonstrates without question the presence of value in this formation and the winze shows values from \$60 to \$158.00

All of the ore now being opened in veins 2, 4, and 7 will be a mill reserve as soon as sufficient ore has been opened up to warrant a mill being constructed.

I feel sure that this will prove a source of continuous profit to the tunnel company for you can make a good profit and yet handle the ore as custom ore far cheaper than they can mine it from the surface.

The test holes sunk on the western side of the the property has discosled some of the richest ore yet found on the company's property so that I now feel sure that development to the west on the veins as they are cut will be as productive as you have expected on the drifts to the east.

I will make a fuller report on the prospect on the western slope of the group as soon as returns are all in on the samples taken. Respectfully,

LAND!

Land that grows 15 to 25 tons of sugar beets to the acre, 200 to 00 bushels of potatoes, 40 to 100 bushels of oats, 25 to 60 bushels of corn to the acre, and all kinds of fruit, berries and melons in abundance. Rich, virgin soil, that grows immense crops like magic, when the water that the U.S. government provides at cost is flowed upon it. There is no such thing as crop fail are under irrigation.
The farmer plants his crop and absolutely controls the amount of water his crops need at exactly the proper time, and he can grow more profitable crops than he can grow in any natural rainfall coun-try such as sugar beets and alfafa. Government statistics show try, such as sugar bees and arran. Government scatistics show that irrigated land will produce from one-thirl to one-half more crops than any natural rainfall country. Officials of the U.S. Re-clamation Service say that the North Platte project, which will ir-rigate the land we are selling, is best adapted to irrigation of any

and in the country, and the supply of water is unlimited.

RENTERS, Why pay from \$3 to \$10 an acre rent for land when you can get 160 acres of fine irrigated land for about the same

money you are paying for one year's rent of an eastern farm?

COME TO THE NEW LAND and own a fine farm that will grow larger crops than the high-priced land you are renting. Uncle Sam will supply you with water to irrigate 160 acres of the most pro-ductive land in the country at cost. I can secure you a fine 160 acre, irrigable farm for from \$1 to \$5 per acre

DON'T WAIT! It won't last long. Thousauds of people are flocking to this country, and the sooner you come the better bargain I can get you. Don't waste your life renting somebody else's farm at a high price. Come to the rich and fertile North Platte Valley, and make a home and fortune for yourself and family. Don't neg-4ct this splendid opportunity. There's big money in it. This land that you can now secure for practically nothing, will be worth from \$100 to \$300 per acre as soon as irrigated and improved. It is better and than Colorado land, that is now selling for as much. hire all the work done on sugar beets for \$45 an acre, and at the average yield of 20 tons an acre, you can clear \$55 an acre and do

FARM OWNERS, Why farm \$100 eastern land when you can buy irrigated land here for from one-tenth to one-fourth the money, and get land that will produce larger crops and increase rabidly in value? Sell out and come to the rich North Platte Valley. We are not pioneering. There are no hardships in this country towns, railroads, schools and churches are close at hand. The Platte Valley is centrally located and convenient to all markets. Railroad communications are unexcelled to all good shipping points. All kinds of munications are unexcelled to an good snipping points. An kinds of produce, cattle, hogs and sheep command a high price. The Burlington B. R. how runs through the valley and the Union Pacific is rapidly pushing work an a through line to the coast, which line also runs through the valley. Thousands and thousands of tons of hay are cut in the river bottoms every year.

TNVESTORS. We can sell you deeded land that is increasing rapid-

ly in value and will continue to increase in value for years to come. Irrigated land is not subject to the depression in land values that always go with a period of crop failures in any natural rainfall mantry. No matter what the weather you can grow a crops every country. No matter what the weather you can grow a crops every year under irrigation. I control the sale of thousands of acres of irrigated and dry lands, hay land and ranches. I can secure you ny kind of land at a price that will make money quicklo for you.

CONVINCING A ROAD KNOCKER Wood Hauler's Eyes Opened to Value of Hard Highways.

While Samuel C. Lancaster, a gov-ernment good roads expert, was lecturing at Spokane on improved high-ways, he said, according to the Spo-

"There are some excuses made for not having roads. While engaged in the construction of the roads in a cer-tain community I heard one day, while tain community I heard one day, while we were sitting under the shade of some trees and talking with the men who were working on these roads, one man say he didn't believe in that 'hard road proposition anyhow.' And I knew that he was earning \$38 a week in the construction of this road, that he was a poor man and had a small farm and was earning more than he could in any other way, and I said to him:

I said to him:

'Smith, what is the matter? Why

are you against this proposition?
"He said, 'Mr. Lancaster, I own a little farm, and I have some wood on that farm, and during the winter months, when I can't do anything else,

months, when I can't do anything else, I haul the wood to town. Now, you build these roads and anybody can get to town at any time of the year, and everybody will be hauling wood, and my wood won't be worth so much.'

"I didn't pursue the argument there. I simply left. And the next winter, when the roads were real bad, I went out with my camera to get some photographs to illustrate something. I wanted to say about good roads, and I met Smith with his team and a load of wood coming into town. He had on that wagon a cord and a quarter with an ordinary team of mules, and I began to laugh when I saw the man, because I reinembered his statement, and he began to smile. I said to him. 'Smith, how much wood have you on that wagon?'

"He said, 'About a cord and a quar-

"He said, 'About a cord and a quarter.'

"'And how much did you used to get for your wood?' I asked him.

"Three dollars,' he said.

"'And what do you get for that?'

"Three and a half.'

"He had uever got more than \$2,75 or \$3 before. He was making enough to pay his taxes on that road for about three years in one day's time, for he three years in one day's time, for he was then able to haul three loads of

was then able to haul three loads of wood a day where before he was able to haul but one.

"Roads can be built in almost any community which will not be a burden to that community. In fact. I have seen it several times over where the town had issued bonds, semetimes large sums, before the roads were completed concent receptue had cobjet in in the shape of investment and increased citizenship to pay the increased taxes which were made necessary on account of the bonds necessary for the roads."

COST OF BAD ROADS.

Colory Men Tell of Money They Could Have Saved. Perhaps the strongest argument for

good roads offered at a meeting in the interest of a bond issue to build highmarries of a bond issue to build night-ways in the Huntington Beach dis-trict held at Huntington the other alght was presented by H. S. Hazel-tine, manager of the Celery Growers' association, says the Los Angeles

Trazeltine said that had colory growers had macadam roads such as it is proposed to build with the money obtained from the bond issue they would have saved \$40,000 in harding expenses. He said that the celery men shipped 417.790 crates of celery this last season, and the actual cost of hauling the ceiery from the fields over muild; ronds to the railrond stations was \$50,400. Had the roads been good the hauling expenses would have been

\$10,469.
W. T. Newland and C. W. Warner were appointed a committee to circulate the good reads petition in the Huntington Beach district.

Work For Improved Roads.

The American Motor league has be-gun to sublivide its membership into state divisions, and this work is now under way in thirty-four states, says the Motor News. Each state has been divided into a convenient number of districts, and prominent automobilists are being selected to represent these districts on the several state boards and to serve the state organization. districts on the several state boards and to serve the state organization committees until the beginning of the next official year. The state boards will elect delegates to the autional assembly, the first meeting of which will be held in October next at a place to be announced by the executive committee announced by the executive commutee.
The national assembly will elect officers for the ensuing year and will take
up actively the work for improved
roads, better road laws and the more
equitable regulation of automobile travel on the streets and roads.

Nebraska Public Library Commis-

The Nebraska Public Library Commission was created by the Legisla ture of 1901 and began active work the following November. Its purpose is to encourage the founding of libraries where none exist, and the better administration of those already established, to give advice and instruction, when asked, to all libraries or individuals, and to all communities as to the best means of establishing, organizing and administering such libraries.

The Commission has a system of traveling libraries. The traveling library contains 40 well selected books for children and adults and is designed to furnish reading to rural communities which are not large enough to support local libraries. It also may supplement the book collection of the small public lipraries says: "My husband had to give up whose means are limited. Ventilate your sleeping rooms vhere you spend one third of your lives. Too many people poison themselves with the noxious exhalations of the night air.

Why Colds are Dangerous

Because you have contracted ordinary colds and recovered from them without treatment of any kind, do not for a moment imagine that colds are not dangerous. Everyone knows that pneumonia and chronic catarrh have their origin in a common cold.

Consumption is not caused by a cold but the cold prepares the system for the reception and develope-ment of the germs that would not otherwise have found lodgment. It Diphtheria, scarlet fever measles and whooping cough are when the child has a cold. You will ee from this that more real danger No opium, no lurks in a cold than in any other of the common ailments. The easiest and quickest way to cure a cold is over a large part of the world.
