ENTERS ON HIS FIRST ELECTIVE TERM

Anson A. Welch
Judge of the Ninth Judicial District

Judge Anson A. Welch was born in Bennington, Vermont, in 1854. At an early age his parents moved to Illinois, where the subject of this sketch received his early training and where he studied law. In July 1883 he came to Wayne county, and commenced the practice of law. In 1885 he was elected County Superintendent of schools and served one term and in 1894 was elected County Attorney and served two terms. In 1900 he was again elected to the same place but by reason of his rapidly growing law practice he declined to accept another nomination after serving that term. In February 1907 he was appointed by Governor Sheldon as Judge of the Ninth Judicial District to fill the vacancy caused by the resignation of Congressman Doyd. Last fall he was nominated by the republicans as District Judge and so satisfactory was this to the democrats that they did not nominate an opposing candidate. This month Mr. Welch commences a four-year term on the bench in his own right. The counties in this Judicial district are Wayne, Madison, Pierce, Knox and Antelope.

Judge Welch's success in the line of his chosen profession can be attributed more than anything else to his habits of hard persistent study and his determination to thoroughly master his cases before going into court. On the bench his fairness and his sincerity of purpose in getting at the facts inspires the confidence of all. In Wayne county affairs he has always been influential without in any way seeking leadership.

THE NEW CHANGES

Annual Readjustment of Officeholders Occurred Thursday

COUNTY OFFICERS FOR YEAR

Board of Commissioners Reorganize With R. Russell as Chairman

Last Thursday was the date of new county officers taking their places and old ones stepping out. There's nothing enduring about the personnel of the court house officers and the result is new faces seen and old faces missing the first week of nearly every year.

Chas. S. Beebe of Carroll succeeds J. M. Cherry in the treasurer's office. This office has been in the hands of democrats for twenty years

long enough to get the place well saturated with democratic atmosphere and the republicans hope that their luck may be as well in the next twenty years. Mr. Beebe has not yet decided who he will appoint as deputy for the place. Mr. Cherry goes out of the office with a splendid record for his service. He will remain in Wayne but has not yet decided just what he will do. In the County Clerk's office there will be no change and Mr. Reynolds enters on his third term in the office and has the distinction of being the choice of both parties.

Judge Hunter enters on his sixth term in the office of County Judge. He has served ten years and has given such good service that no one thinks of voting for anybody but Hunter for County Judge. The

term as Clerk of the District Court. He was first appointed to fill vacancy caused by the resignation of Otto H. Kuhl about a year and a half ago. He was then elected for the one year vacancy and last fall the voters decided he was all right, and elected him for a full term of two years. Grant S. Mears is entering on his fourth term as Sheriff. Judging from the election returns Mears is getting stronger in the confidence of the people every election. Last year he led all the rest with over seven hundred majority. County Superintendent Littell is entering on his second term. He is doing good work for the schools of Wayne county. A. T. Witter will be county assessor four years having been elected to succeed J. W. Ziegler, who has just completed a four years term. Dr. J. J. Williams who was re-elected county coroner and Robert Jones who was re-elected county surveyor will serve for the next two years in those two offices. On the board of commissioners George S. Farran of Chapin precinct was elected to succeed E. W. Cullen of Winside and took his place on the board Thursday. R. Russell was elected Chairman of the board for the ensuing year. Politically the republicans now have the offices of treasurer, county judge, assessor, Clerk of District court, superintendent, sheriff, coroner, surveyor and two members of the board. The democrats have the offices of county clerk, county attorney and one member of the board. The only county officers to be elected this next fall is County Attorney and one member of the board of commissioners.

LAND! LAND! LAND!

Land that grows 15 to 25 tons of sugar beets to the acre, 200 to 400 bushels of potatoes, 40 to 100 bushels of oats, 25 to 60 bushels of corn to the acre, and all kinds of fruit, berries and melons in abundance. Rich, virgin soil, that grows immense crops like magic, when the water that the U. S. government provides at cost is flowed upon it. There is no such thing as crop failure under irrigation. The farmer plants his crop and absolutely controls the amount of water his crops need at exactly the proper time, and he can grow more profitable crops than he can grow in any natural rainfall country, such as sugar beets and alfalfa. Government statistics show that irrigated land will produce from one-third to one-half more crops than any natural rainfall country. Officials of the U. S. Reclamation Service say that the North Platte project, which will irrigate the land we are selling, is best adapted to irrigation of any land in the country, and the supply of water is unlimited.

RENTERS. Why pay from \$3 to \$10 an acre rent for land when you can get 160 acres of fine irrigated land for about the same money you are paying for one year's rent of an eastern farm?

COME TO THE NEW LAND and own a fine farm that will grow larger crops than the high-priced land you are renting. Uncle Sam will supply you with water to irrigate 160 acres of the most productive land in the country at cost. I can secure you a fine 160 acre, irrigable farm for from \$1 to \$5 per acre.

DON'T WAIT! It won't last long. Thousands of people are flocking to this country, and the sooner you come the better bargain I can get you. Don't waste your life renting somebody else's farm at a high price. Come to the rich and fertile North Platte Valley, and make a home and fortune for yourself and family. Don't neglect this splendid opportunity. There's big money in it. This land that you can now secure for practically nothing, will be worth from \$100 to \$300 per acre as soon as irrigated and improved. It is better land than Colorado land, that is now selling for as much. You can hire all the work done on sugar beets for \$45 an acre, and at the average yield of 20 tons an acre, you can clear \$55 an acre and do no work on it yourself.

FARM OWNERS. Why farm \$100 eastern land when you can buy irrigated land here for from one-tenth to one-fourth the money, and get land that will produce larger crops and increase rapidly in value? Sell out and come to the rich North Platte Valley. We are not pioneering. There are no hardships in this country—towns, railroads, schools and churches are close at hand. The Platte Valley is centrally located and convenient to all markets. Railroad communications are unexcelled to all good shipping points. All kinds of produce, cattle, hogs and sheep command a high price. The Burlington R. R. now runs through the valley and the Union Pacific is rapidly pushing work on a through line to the coast, which line also runs through the valley. Thousands and thousands of tons of hay are cut in the river bottoms every year.

INVESTORS: We can sell you deeded land that is increasing rapidly in value and will continue to increase in value for years to come. Irrigated land is not subject to the depression in land values that always go with a period of crop failures in any natural rainfall country. No matter what the weather you can grow a crop every year under irrigation. I control the sale of thousands of acres of irrigated and dry lands, hay land and ranches. I can secure you any kind of land at a price that will make money quick for you.

WRITE TO-DAY FOR FURTHER INFORMATION. Local real estate dealers correspond. We can make some money for you.

If Gov. Hughes fancies that the country regards him as a neutral candidate, occupying a position of silence between the progressive and and reactionary wings of the republican party, he is deceiving himself. The activity of the reactionary politicians in his own state in his behalf, together with his acceptance

of this activity, has placed him on the side opposed to the policies of the Roosevelt administration. The only way Mr. Hughes can escape this classification is to take his stand on the other side, but in doing this he would forfeit the organized movement already started for him in New York.—Kansas City Times.

We can see no good reason why office-holders should be selected to represent Nebraska in the National convention. There are plenty of re-

publicans who are just as competent to represent the party, who would like the honor of going to the convention. Why not permit those in office to attend to their official duties and pass the honors around among those who are just as much entitled to them?—Albion News.

One thing the people of Nebraska would like to know, and that is whether the express companies are amenable to law. They have been openly repudiating the law passed

by the legislature reducing their tariff twenty-five per cent. Isn't it about time to know whether that law is any good or not?—Ex.

There was a big democratic talk-fest and feed at Lincoln last night called the "dollar" democratic dinner in which over thirteen hundred democrats participated in honor of Mr. Bryan. Exercises for Opening of New Central School Building at Sholes

PROF. I. A. DOWNEY SPEAKS

A Great Event in the Educational History of that Town. Large Attendance at Dedication

Sholes, Neb., Jan. 13, 1908. Special to the Herald.—Last Friday night, January 10, occurred the formal dedication of the new centralized school building at Sholes. This was an event that had attracted much attention in Wayne and adjoining counties, for as Sholes enjoys the distinction of having the second consolidated district in the state, the progress of the new school has been watched with unusual interest.

By seven o'clock the M. E. church which was beautifully decorated for the occasion, was filled to overflowing; every seat was taken, standing room was at a premium and still people came; until many being unable to crowd into the hall, were forced to remain outside.

An hour later Miss Clara Burson took her place at the organ and hushed the great crowd with the strains of a beautiful prelude, at the conclusion of which, Prof. Robinson arose promptly and invoked the divine blessing. Following this was a selection by the double quartette, entitled "The Hunting Chorus."

M. S. Moats then spoke a few words from the standpoint of the school board, telling briefly the great effort that had been exerted in accomplishing the consolidation and expressing his appreciation of the splendid results now being obtained. The body of singer then rendered another selection, entitled, "The Midnight Moon is Beautiful," and while the writer is no judge of music yet from the applause that followed, this was certainly a treat to those present. It is plainly evident that Sholes has some young people who can sing, and best of all they are not imported.

Many who came expecting to hear State Supt. McBrien, were at first disappointed to learn that it was impossible for him to be present. Their disappointment, however, was of short duration, for he sent his substitute in the person of Inspector I. A. Downey. Mr. Downey is a man of exceptional ability, broad education and a wide field of experience. He possesses a great sympathy for mankind, has a keen knowledge of human nature, and above all a heartfelt interest in our boys and girls of the rural sections. He has the characteristics of the true orator, and held the undivided attention of his audience from the first. His address on, "The Rights of the Child," was an hour at an intellectual feast. It contained wit, humor, wisdom and hard cold facts. He presented the educational problem in all its various phases; from the standpoint of the parent, pupil and teacher, and urged the hearty co-operation of all.

"The education of a human soul," said Mr. Downey, "is the most precious task that one can undertake, therefore no pains should be spared to make it the best possible." His message was indeed an inspiration filling the young people with a determination to exert a greater effort and obtain all those things which make for manhood and womanhood; and encouraging the old to assist them in every way possible.

The vocal solo by Mr. Kuhleman, "Oh! Happy Day," was indeed a fitting close to the exercises, and the handshaking that followed was such as is not often seen. If rural school consolidation is the means of bringing about such an educational revival, it is certainly a move in the right direction.

The recital given by Miss Hill attested to the worth of her training and to the artistic merit of her success which was received. Her program ranged from Tennyson to Kipling and back again to Mary E. Wilkins and Paul Lawrence Dunbar, each piece being read with rare expression and sympathy.—Chicago Events.

Good farming, based on sound principles of science and practice, was never more important or profitable than now. The Homestead, an agricultural and live stock paper published every Thursday at Des Moines, Iowa, is the best exponent of good farming. The Homestead is edited by farmers who live upon and operate their own farms right here in the middle West, so that their teachings are thoroughly practical. It has departments devoted to horticultural, poultry, sheep, dairy, veterinary, laws affecting far-

mers, current events, house and home Sunday school lessons, editorial comment, live farm gossip, etc; and its contributors include able and successful farmers and experiment station experts throughout the West. Many farmers in this vicinity are already subscribers for the Homestead and all should be; as whatever adds to the practical knowledge of the farmer increases the value of land and enhances the prosperity of the community. We take subscriptions for this splendid farm paper at this office; and, by special arrangement with the publisher, can give you a low subscription rate for it in connection with the Wayne Herald.

Beware of Frequent Colds

A succession of colds or a protracted cold is almost certain to end in chronic catarrh, from which few persons ever wholly recover. Give every cold the attention it deserves and you may avoid this disagreeable disease. How can you cure a cold? Why not try Chamberlain's Cough Remedy? It is highly recommended Mrs. M. White, of Butler, Tenn., says: "Several years ago I was bothered with my throat and lungs. Someone told me of Chamberlain's Cough Remedy. I began using it and it relieved me at once. Now my throat and lungs are sound and well. For sale by Raymonds Drug Store.

20TH ANNIVERSARY

The Big Storm Twenty Years Ago
last Sunday

BLIZZARD LONG REMEMBERED

Over Two Hundred People Perished
Throughout the Northwestern States

Last Sunday January 12th, was the twentieth anniversary of one of the worst storms that ever swept over the northwest and the most destructive on record in loss of life and property. The storm extended from the Rocky Mountains to the eastern states but was most severe in Montana, Minnesota and the Dakotas. The loss of life was over two hundred and many were the stories of suffering and hardships it brought on. Intense cold followed the storm everywhere the mercury ranging from 20 to 35 below. In Montana a temperature of 49 below was recorded. Railroad traffic was practically suspended for many days. The following clipping is from the Wayne Herald of January 19, 1888:

The blizzard that paid this section a visit last Thursday is generally admitted to have been the worst ever seen here, for the time, it lasted. The snow had been falling heavily all day, with a ten mile wind from the southeast. At three o'clock, the thermometer registered 30 above. The wind died away for a few minutes and then came with a rush from the northwest filling the air so thickly with the flour-like snow that it was for a while impossible to see across the streets. It seemed to grow steadily worse until about six o'clock when the wind was blowing probably forty miles an hour, and getting around out of doors was not only very difficult but very dangerous. The schools were dismissed as soon as the storm began and teach-

er, parents and others at once began the task of getting the little folks to their homes or to the neighboring houses where many of them remained all night. The intense cold added to the horrors of the night, the mercury having gone down to six below by six o'clock. The wind died away by morning when the sky was clear. There was a general apprehension that the day would bring reports of persons perishing in the storm which came up so suddenly as to give no warning of its approach, and especially fears were entertained for the safety of children at the country schools. It was a great relief when it was found that beyond frosted feet, hands or faces, no one was injured, though several people wandered around several hours in the storm before finding shelter. There were not even many serious losses among the stock though there were scattered losses of cattle and hogs. Altogether the country escaped very luckily from such a blizzard as we hope never to see here again.

BRIDGE CONTRACT LET

Commissioners Find the Standard Bridge Co.'s Bid Lowest

The bridge contract for the year 1908 was let by the commissioners to the Standard Bridge Co., of Omaha the same company that has had the bid the past four years. There were three bidders, the Standard Bridge Co., The Midland Bridge Co. of Kansas City and the Western Contractors Co. of Omaha. The successful bid was as follows: For pile bridges, superstructure \$3.75 per lineal foot. For pile in place, 40 cents per foot. For lumber placed in bridge including paint, hardware and bolts, \$40.00 per 1000 feet. For steel girder bridges (such as are usually built in this county) \$7.50 per lineal foot. All three of the bids were higher than the bids of a year ago which is accounted for in the advance of the prices of lumber. For comparison the prices paid on the last year's contract was, lumber in bridge \$36.00 while this year it is \$40.00. For pile bridges superstructure the old contract was \$3.15 per foot, while

this year it is \$3.75. For piling in place, the old contract was for 35 cents and this year it is 40 cents. For steel girder bridges the old contract was \$6.70 while the new contract is \$7.50. There was only \$1400 worth of bridge work done under the contract which is an exceedingly small amount of improvements in the way of new bridges for the county in one year.

Good Cough Medicine for Children

The season for coughs and colds is now at hand and too much care, cannot be used to protect the children. A child is much more likely to contract diphtheria or scarlet fever when he has a cold. The quicker you cure his cold the less the risk. Chamberlain's Cough Remedy is the sole reliance of many mothers, and few of those who have tried it are willing to use any other. Mrs. F. F. Starcher, of Ripley, W. Va., says, "I have never used anything other than Chamberlain's Cough Remedy for my children and it has always given good satisfaction." This remedy contains no opium or other narcotic and may be given as confidently to a child as to an adult. For sale by Raymonds Drug Store.

Special Excursion

To Summerfield Texas, January 21, 1908

Round Trip From Wayne, Nebraska to Summerfield in the Pan-Handle of Texas and Return \$20.00

The fare for the round trip without this excursion is about \$48.00. We furnish you with a free sleeping car from the time you leave Omaha till you get back to Kansas City.

Have 15,000 acres of fine farm lands for sale around Summerfield in the shallow well district, ranging in price from \$15.00 to \$25.00 per acre.

Soil of the Pan-Handle

The soil around Summerfield is a chocolate brown from two to four feet deep, underlaid with a yellow clay subsoil. There is absolutely no trace of alkali or gypsum. This is covered in its natural state with a dense growth of buffalo and grama grasses which cure in sun when ripe, and afford as good pasturage in winter as in summer. The land is slightly rolling, wells are from 40 to 100 feet deep with good water and plenty of it.

Crops Raised in the Pan-Handle

Wheat twenty to forty bushels per acre. Kaffir corn, milo maize, forty to sixty bushels; oats, thirty to sixty-five bushels; Indian corn, twenty to forty bushels, and in some cases seventy bushels have been made to the acre. Vegetables and melons of all kinds, when properly planted and cared for do well. Fruit also of all kinds do well. In some sections of the Pan-Handle cotton is grown and makes from one-half to one bale per acre. This section has never been visited by the boll weevil. In fact the amount raised per acre appears to be limited only by the energy and ability of the farmer. Flax, Kaffir corn and milo maize are generally used as a sod crop and almost invariably net the owner on an average of fifteen dollars per acre according to James J. Hill (who is probably the most competent man and in the best position to judge of such matters.) In 1950 there will be three people in the United States for every one here now! Just think what this means! It means that we shall have to either have three times the average under cultivation or else import our food stuffs from foreign countries. With these facts and statistics staring you in the face, is it any wonder that the prices of farm lands have lately been increasing in value at a surprising rate, not only in one locality, but extending from the Atlantic to the Pacific and from Canada to the Gulf, and immigration is even now knocking at the door of Old Mexico. The march of progress will continue.

Do Not Hesitate

How often have you heard people say: "Why, I remember when I could have bought land at \$10.00 an acre which is now worth \$100.00 an acre," but I didn't have sense enough to invest then." That same opportunity we are offering you today in Texas for there is no question that land which will produce crops that will net from fifteen to thirty dollars an acre will, within a short time, be worth from fifty to seventy-five dollars an acre. Remember the old saying: "He who hesitates is lost," and make up your mind to go with us on our special excursion Jan. 21, 1908. You will never regret it. For further information inquire of

A Nebraska saloon man gives the following reasons why he is in the business: "One day a man came into my store when I was a merchant and wanted some cheap socks. I showed him some that were 10c a pair. He asked me if I did not have something cheaper. I got down some that were 5 cents a pair. He looked at them for some time, but finally walked out, saying they were too expensive. I happened to step to the door and saw him go into a saloon, and I followed him out of curiosity. There were several men in the saloon and he called them up and treated. He spent 80 cents for booze. I concluded that when a man kicked on buying socks at 5c a pair and immediately went up for booze, the saloon business was the one I wanted to engage in, so I got into it as soon as possible."

NORTHEASTERN NEBRASKA NEWS

It is rumored that the first young lady of Norfolk who takes advantage of leap year, will be given a medal. It is also rumored that the young man is apt to get a bullet if he refuses. That's a habit of the Norfolk ladies.—Nebraska City Press.

The Washington dispatches state that Congressman Boyd has introduced a bill to authorize the payment of the funds due the Winnebago tribe of Indians and to enable them to sell and convey their allotted lands in Nebraska. Under this bill the secretary of the treasury is directed to place to the credit of the Winnebago Indians, \$883,246, being the balance of the unappropriated amounts due the tribe under the treaty of November 1, 1837. The bill if passed will enable the Indians to give good titles as it removes most of the restrictions on the statute books.

C. A. Randall for many years cashier of the Security bank at Randolph expects to retire from the position soon and will be succeeded by Fred M. Buol.

Laurel is preparing to organize a commercial club.

Mr. Christensen, living south-east of Allen, got up too early Tuesday morning and going to the barn observed that a big span of black mares, worth \$400 were missing on

got busy with the telephone and quickly notified the sheriffs, the bloodhounds, Sioux City and in fact the whole country was on the look out for the thieves. Mr. C. then returned and found the horses in a back stall in the barn munching hay. The boys had turned them loose in the barn the evening before and forgotten to tie them up. It cost Mr. C about \$7 for expense besides the scare. Joe Isom also lost his jack the same night. His toes had grown up like sled runners and some one just hauled him off like a bob. He was also afterwards found in the barn hid under a blanket. But everything is quite over in that neighborhood now.—Albin News.

A tickling cough, from any cause, is quickly stopped by Dr. Shoop's Cough Cure. And it is so thoroughly harmless and safe, that Dr. Shoop tells mothers everywhere to give it without hesitation, even to very young babes. The wholesome green leaves and tender stems of a lung-healing mountain shrub, furnish the curative properties to Dr. Shoop Cough Cure. It calms the cough, and heals the sore and sensitive bronchial membranes. No opium, no choleraform, nothing harsh used to injure or suppress. Simply a resinous plant extract, that helps to heal aching lungs. The Spaniards call this shrub which the doctor uses, "The Sacred Herb." Always demand Dr. Shoop's Cough Cure, and you will be benefited.
