SUICIDE BY HANGING

Mrs. Jasper Myers Takes Her Life While in Demented Condition

FOUND DEAD BY HER HUSBAND

Coroners Jury Returns Verdict of Suicide by Hanging Herself to Tree—Funeral Wednesday

While in a demented condition Mrs. Jasper Myers hung herself in the grove at the home of her father, Lars Spike, two miles south of LaPorte sometime last Sunday night and the next morning the body was found by her husband.

Mrs. Myers' mind has been unbalanced for years and at one time she was in the asylum for a while, but she seemingly recovered and was allowed to return home.

She has been in poor health for some time and only Sunday morning her husband brought her to town to consult a physician. She however did not seem to want to take treatment and acted strangely. Sunday afternoon on returning home she wandered through the grove near the house looking at the limbs of the trees which in the light of subsequent events was significant.

The family, Jasper Myers, his wife and two children aged five and eight respectively, have been staying at the home of her parents, Mr. and Mrs. Lars Spike. Sunday night Mrs. Myers slept down stairs with her eldest child so it is not known at what time of the night she committed the act. She had taken a piece of clothesline and getting up on a small box in the grove fastened the rope to the limb of a tree and with the rope about her neck had pushed the box from under her. She left two notes, neither of which were signed or addressed to anyone. They were rambling and evidently written under great mental excitement. She seemed to be imbued with the idea that she had to kill herself as she said she was sorry she had to do this when she had such good parents and two of the sweetest children. Another sentence said she was sorry she had ever got married being as she was so nervous. In another sentence she said drinking whisky was a curse to anyone.

Coroner Williams and Sheriff Means went out Monday morning and impaneled a jury. The jurors were Oliver Anderson, Louis Arvold, Carl Ingliert, Wm. E. Hory, Fred Larson. The verdict of the jury was suicide by hanging. Mrs. Myers was about thirty years old. The funeral was held Wednesday afternoon and the remains interred in the Wayne cemetery. The bereaved relatives have the sympathy of all in their sorrow.

Nine government surveyors are at work along Logan creek from Concord to the Elkhorn making a survey for the straightening of this crooked stream and the reclamation of many thousand acres of Nebraska farm lands. — Randolph Timney.

One of those common questions now is: "Did you ever see so much rainy weather?" Yes, but sometimes it was a little earlier in the season. In 1896, the latter part of April and first of May the sun scarcely showed itself for three weeks; and for days it rained continually. The writer was in central Iowa that spring and well remembers how some people said they hardly recognized the sun when it did appear. That was a year of great crops, too. Don't worry about the weather. — Laurel Advocate.

"People are forever finding fault with the country," says an exchange. "There is either too much or too little rain, or too much hot weather or too much cold weather, but have you ever noticed that the 'country' does very well? It is a little richer every year, and no other country has ever shown equal progress. If you do as well as the 'country' you will do particularly well."

The State Journal of last Saturday says:

Senator Charles Randall of Madison county has won the first round in the fight with the Northwestern for better train service for his part of the country, particularly between Oakdale and Fremont and from Humphrey east. When the case was called before the State railway Commission Friday, C. C. Wright, attorney for the railroad, asked that it go over until July 7th, and this was done upon the assurance of Mr. Wright that the railroad would give to the complainant the train service asked for pending the final settlement of the case. Evidence in the case was taken some time ago at Albin, but during the proceedings the railroad secured a continuance until this morning. This is the case where the Northwestern run two trains from Oakdale to Fremont daily and recently took off one of them and Senator Randall appealed to the commission to have the train restored.

There will be an annual eclipse of the sun June 28 visible in nearly all parts of the United States but total only in the vicinity of Tampa, Fla. The eclipse will begin at the geographical location at 7:45 a. m. and of two hours and forty-five minutes duration. About three fourths of the sun's surface will be hidden by the eclipse at this place leaving only about as much of the sun visible as may be seen of the moon in its first quarter. In a strip of country ninety miles long by forty-five miles wide in the vicinity of Tampa the eclipse will be as near total as it is possible for the moon to hide the sun for a period of three minutes.

The Laurel Advocate says Carrie Nation will visit Laurel some time in the near future but the editor does not disclose the exact date, and the Laurel saloonkeepers are doing a good deal of worrying over it.

Prof. Stevens of Ponca has bought the Allen News and will take possession next week.

Judge Welch, in the district court of Knox county, has made an important decision, which, if affirmed by the supreme court, will knock out the so-called "trimmings" of the county officials. The case came up through objection being made to the Knox county commissioners allowing a claim of \$21.84 filed by the county attorney for expenses incurred while traveling through the county, such as railroad fare, livery, hotel and telephone bills, etc. Judge Welch ruled that the claim was not a legal one, and that any agreement with the board whereby they would allow such expenses was in contravention of the statutes.

From Benkelman News-Chronicler: Man is a little cuss and hasn't long to stay. He lies around and makes a fuss and then he hikes away. Some men imagine they are great and try to tear up Jack, but each one meets the same old fate and and trots the same old track. Great Caesar's dead and turned to clay and so is Cicero, Alexander has gone the way the rest of us must go. The sages, poets, heroes, all the men of worth, into an open grave must fall and crumble back to earth. Then let's not join the mad affray to struggle like the deuce, and agonize our lives away for really what's the use? Let's live and love and sing the while and work some now and then, and give to every one a smile that cheers the hearts of men. And whether we are crowned with flowers or chilled with winter shows, with happiness let's fill the hours ere we turn up our toes.

Labor World

San Francisco chauffeurs have organized a union.

A branch of the Union Label League is to be organized in Memphis.

Vancouver, B. C. will soon have a building trades council in working order.

At Lebridge, Canada, with a population of 4,000, there are about 1,000 trade unionists.

National Brotherhood of Operative Pottery will meet next month in Atlantic City, N. J.

Minneapolis will entertain the 1909 convention of the International Musicians' Association.

The eight-hour day for all municipal work has been introduced in the City Council at Louisville.

The Women Suffrage League of New York City wishes the support of the labor organizations in its agitation for political equality.

The Maytag Railway Company of Sao Paulo has just constructed in its shops the first locomotive which has been built in Brazil.

The Central Labor Council at Richmond, Contra Costa county, Cal., recently reorganized, has already fifteen unions affiliated with it.

Boston (Mass.) Upholstery Union is admitting mattress makers to its ranks for the first time in its history, and has already taken in nearly 100 of these men.

San Francisco Laundry Workers' Union has decided to contribute 10 cents per capita on the membership in support of the movement against Japanese laundries.

The child labor law, with fourteen years as the age limit and the eight-hour day for persons under 16 years of age, was recently passed by the Kentucky Legislature.

The recently organized Building Trades Council of San Mateo county, Cal., now has fifteen unions affiliated with it, and the aggregate membership is in excess of 1,000.

The extra appropriation given the Lowell Textile School by the State of Massachusetts, will enable the trustees to lay the foundation for a thorough engineering education.

A resolution providing for the establishment of a labor paper at San Juan, Porto Rico, has just been passed at a convention there of representatives of 110 unions having affiliation with the American Federation of Labor.

The call for the New England convention of the Metal Polishers', Buffers', Platers' and Brass and Silver Workers' unions has been issued. It will be in Boston July 5. The Boston unions are requesting the international for a permanent Boston organizer.

The Scottish coal owners have put forward a demand for a reduction in wages of 25 per cent. Only a short time ago a matter of reduction was referred to arbitration, as the conciliation board could not agree. The award was for a reduction of 1/4 per cent; now comes the claim for 25 per cent.

The subject of a State industrial college is being considered in Massachusetts. It is proposed to establish the institute in Boston or vicinity, and that it shall maintain both day and evening classes. The main object of such a school is to develop men for the lower and middle supervisory positions.

The last reports presented to the Gas Workers' Union were to the effect that all the members of the jurisdiction, which include the cities of San Francisco, Cal., San Jose, Oakland and Sacramento, are at work, and that this craft has been particularly fortunate in having work for the membership during the last ten months.

The new wage agreement between the cotton manufacturers at Fall River, Mass., and the Textile Council, which will be in force until next November, became effective last month. Under the agreement the 25,000 operatives accept a wage reduction of 17.04 per cent. The cut swells the number of cotton operations in New England whose wages have been reduced this spring to about 170,000.

Labor is to have a newspaper system covering the entire country. A syndicate has been formed and the enterprise capitalized. It is said, to the extent of issuing a paper in the cities of New York, Philadelphia, Washington, Chicago, St. Louis, Denver and San Francisco. Publication will begin Sept. 1, and the policy will be one of ultra conservatism, the object being to restrain the labor movement from merging with the more radical socialist element that has been making great inroads on the membership of the unions composing the skilled crafts.

HARD LUCK TALES.

Pay Allen, the 9-year-old daughter of Mr. and Mrs. J. W. Allen of Waterloo, Iowa, was stung for several hours by lightning that struck the Allen home. The bolt passed along the wall against which Fay had her bed.

At Hopkinsville, Ky., Rev. J. M. Gordon, a prominent missionary of the Disciples of Christ denomination at Munford, Ind., was asphyxiated in a bathtub at the residence of Rev. H. D. Smith, whom he was visiting.

High waters in the Mississippi drove thousands of low land residents from their homes. At Hannibal, Mo., citizens organized an armed guard which patrolled in boats the flooded district with the avowed intention of shooting any one caught looting deserted houses.

At Jackson, Tenn., twelve men were injured in a rear-end collision between two passenger trains in the Illinois Central yards.

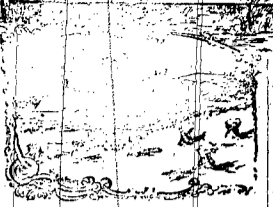

Arthur Anderson, the 11-year-old son of August Anderson of Kennedy, Minn., was drowned while swimming in a pond near that place.

As the result of the explosion of an old four-inch cannon, which was being used to fire a salute to the passing Atlantic fleet, one man was instantly killed, three women and one boy dangerously and a girl more or less slightly injured at Centerville Beach, Cal.

Suddenly losing his mind, and with a mania to end his own life, Carl Lentz, for years one of the most prominent farmers of Potter county, has been committed to the State hospital for the insane at Yankton. He had made three attempts to commit suicide.

Leaving the supper table at his brother's house, Alfred Melander, 39 years old, 2504 Ninth street, south, Minneapolis, crawled into the cellar at the rear of the house and, with a "dolk," a Swedish dagger, inflicted two ghastly wounds in his throat, one of which severed the jugular vein. Poor health and lack of work was the cause of the suicide.

AGRICULTURAL

two per day. Now she has hatched out of thirteen eggs fifteen healthy chickens. Mrs. Dush can not account for the extra number except that there must have been two pairs of twins.

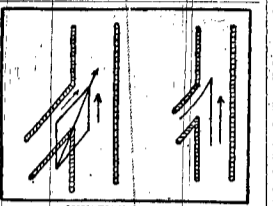

Fruit and Truck Farms.

The man who has not capital to purchase a large farm must be satisfied with small holdings. Ten acres in fruit and truck garden will furnish occupation for one man all the time, and during fruit harvest extra help will need to be employed.

If the husbandman can realize as large returns for his individual labor devoted to the cultivation of ten acres of land as he could from operating a quarter of a section it would be great economy to work the smaller farm and place the residue of his capital at interest.

Truck gardening and fruit growing have become established branches of agriculture. The farmer raises his own supplies of fruit and vegetables, but the multitude of residents of cities depend on the professional fruit grower and market gardener for their supplies of fruit and vegetables. Small farms are multiplying annually and become profitable investments when operated as truck gardening and fruit growing. An acre of onions in average seasons will return a gross income of \$300 to \$700 and fruit with average \$250 to \$600 per acre. An acre of apple trees have sold as high as \$1,200 on the trees, the purchaser furnishing the packages and harvesting the crop.

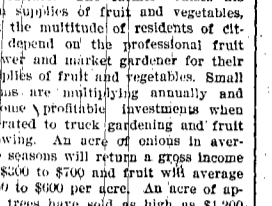

The land can be so operated as to produce a crop of early peas and followed by turnips or late cabbages. Small farms are particularly adapted to men in moderate circumstances and who depend on their labor to support their families. The small farm not only yields a large cash income when properly managed, but it furnishes a home for the family and guarantees steady employment to the owner twelve months in the year.—Goodall's Farmer.

connecting box or basin, built in the main drain at points where laterals connect. These basins may be made of plank or brick or cement, according to convenience or fancy. Of whatever material, the box should be from twelve to eighteen inches square, according to the size of the main tile. The best time to build the box is when the main is laid. Two sides of the box, namely opposite sides, will be used for the main line, the other two sides when the box is built should be fitted with the first tile of the lateral, which may be immediately or at some subsequent time completed. This basin or box should extend six to twelve inches below the line of the drain, and besides serving for connecting the basin will serve for a silt basin, that is, will collect any sediment which may happen to get into the various lines of the discharging line. Also, the box may be continued to the ground surface and provided there with a tight cover, or if it is not desired to have a box exposed thus and in the way, it may be covered with plank about fifteen inches below the ground surface and then covered over with soil—the position of the box being carefully marked on the drain map or its distance measured from two points near at hand. Such a basin is an excellent device to use where two or three lines of drain unite.

Of whatever material the box is built, the tile on the four sides should be carefully fitted in so as to allow nothing to enter the box except what goes there through the tile.

If the main drain is to be built of plank, it certainly would be better to spunk the plank for two reasons: First, to prevent displacement, and secondly, to prevent entrance of solid matter. It has been found that the joints of the box will afford sufficient means of ingress for the water even if the planks

or to a wooden floor for a creamery. When properly put in, a cement floor will last indefinitely and can be kept clean and sanitary, whereas a wooden floor is short-lived, quietly rots out and is always a source of contamination.

Spraying for the Codling Moth.

The apple trees should be sprayed for codling moth as soon as the blooms have fallen. For this the Colorado Experiment Station says arsenic of lead, or Disparane, should be used in the proportion of 3 to 6 pounds to 100 gallons of water. The merits of this poison are—it will not injure foliage and it adheres better to the foliage than other poisons. The second application should be made from seven to ten days later.

Raising Corn.

Making every hill contain at least two stalks, and each stalk contain at least one average sized ear, is the secret of successful corn raising. As soon as the corn is an inch high, replant every hill that contains no plants. While this may be a little later than the first planting, and some may not get out of the way of frost, it will make good cattle feed if nothing more.

Calves with Scours.

A diphtheria gives this remedy for white scours: Carbolic acid diluted 1 to 5; kept a vial in my pocket and just as soon as the calf was dropped I poured some on the navel next to body and some on the nose, and every calf that I got before dry I raised, but when dropped in the night and the calf licked dry before I got them, they died.

A Few Farm Tips.

Alfalfa or clover makes an excellent pasture for hogs.

Keep the water sprout growths rubbed off the fruit trees.

Oats make one of the best horse feeds for the farm.

Cow peas are to the South what clover and alfalfa are to the North.

Angora goats have been found exceedingly profitable on many farms.

Bordeaux mixture is the best all-around spraying material in existence.

In renting land be sure to make a contract with the tenant and then both live up to it.

No one is quite so much out of place as the farmer who retires to a whitening place in town.

All the corn growing land is taken. Cheap corn land is no more. The price of corn must stay up.

A farmer's garden is not a joy forever to the grocer because it means fewer sales of foodstuffs to him.

When a mare with a colt has to be worked it is the best plan to keep the colt at the barn while she is in the geld.

Change pastures as often as possible, especially with sheep, as they are apt to become contaminated with some disease.

The atmosphere contains an unlimited quantities of the most essential plant foods, Nitrogen, but the farmer must grow legumes before he can get any benefit from this vast store.

After suffering for seven years, this woman was restored to health by Lydia E. Pinkham's Vegetable Compound. Read her letter.

Mrs. Sallie French, of Painesville, Ind. Ter., writes to Mrs. Pinkham: "I had female troubles for seven years—was all run-down, and so nervous I could not do anything. The doctors treated me for different troubles but did me no good. While in this condition I wrote to Mrs. Pinkham for advice and took Lydia E. Pinkham's Vegetable Compound, and I am now strong and well."

FACTS FOR SICK WOMEN.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration. Why don't you try it?

Don't hesitate to write to Mrs. Pinkham if there is anything about your sickness you do not understand. She will treat your letters with confidence and advise you free. No woman ever regretted writing her, and because of her vast experience she has helped thousands. Address: Lynn, Mass.

The Handy Doctor in Your Vest Pocket

IT'S a thin, round-cornered little Enamel Box.

When carried in your vest pocket it means Health-Insurance.

It contains Six Candy Tablets of pleasant taste, almost as pleasant as Chocolate.

Each tablet is a working dose of Casparets, which acts like Exercise on the Bowels and Liver.

It will not purge, sicken, nor upset the stomach.

Because it is not a "Bile-driver," like Salts, Sodium, Calomel, Jalap, Senna, nor Aperient Waters.

Neither is it like Castor Oil, Glycerine, or other Oily Laxatives that simply lubricate the intestines for transit of the food stopped up in them at that particular time.

The chief cause of Constipation and Indigestion is a weakness of the Muscles that contract the Intestines and Bowels.

Casparets are practically the Bowel Muscles what a Massage and Cold Bath are to the Athletic Muscles.

They stimulate the Bowel Muscles to contract, expand, and squeeze the Digestive Juices out of food eaten.

They don't help the Bowels and Liver in such a way as to make them lean upon another assistance for the future.

This is why, with Casparets, the dose may be lessened each succeeding time instead of increased, as it must be with all other Cathartics and Laxatives.

Casparets get the exercise, (or carried in My Lady's Purse, and eaten just when you suspect you need one, you will never know a sick day from the ordinary ills of life.

STEELE, SIMAN & COMPANY

LIVE STOCK COMMISSION MERCHANTS

Sioux City, Iowa

Five loads of dehorned western steers, fed by L. M. Owen and shipped by Strahan & Kingsbury, Wayne, Nebraska, sold by Steele, Siman & Co., of Sioux City, Iowa, June 16, 1908, to Armour & Co., at \$7.50 per hundred. Average weight 1,270 pounds.

Steele, Siman & Co. have a fine growing business that ranks up close to the top of the list of firms doing stock commission business in Sioux City although they have not been established two years yet. About a year ago they topped the market by selling the Geo. Bush cattle at \$7.20. This was the highest price on the Sioux City market for six years until the recent spurt in the market. T. J. Steele, who is manager of the firm is personally known to all the old settlers of Wayne county, he having successfully been in business here for many years. He was County Clerk at one time and was connected with many business enterprises. This firm has the confidence of all and obtains a great deal of commission business from this locality.

Death of Henry Claseman
Henry Claseman died at his home in Wayne Monday of cancer of the stomach after a few weeks illness. Gebhart Henry Claseman was born in Hanover, Germany Sept. 21, 1839. He came to this country when a young man and has been a resident of Wayne county, having lived near Wakefield until about two years ago when he moved to Wayne. He is survived by his wife and several sons and daughters. Mr. Claseman was well known in the eastern part of the county and highly respected. The funeral was held from the Catholic church this forenoon at ten o'clock. They family have the sympathy of the community.

House Party
Mrs. Frank Strahan and Mrs. Henry Ley entertained a number of Sioux City ladies on Wednesday at a house party. The forenoon was delightfully spent in automobiling. Mrs. Strahan gave a one o'clock dinner and Mrs. Ley served a buffet luncheon at 6:30. In the evening the ladies were entertained at the Strahan home with a card party and a short musical program. Mrs. Raymond charmed the guests with a whistling solo followed by a vocal solo by Mrs. Morris instrumental music by Mrs. J. Miller. Dainty refreshments were served. The Sioux City guests were Mesdames Geo. Terwilliger, F. F. LaRowe, J. D. Gillmore, W. L. Sedgewick, T. J. Steele, R. Q. Rowse, and Geo. Maben of Minneapolis.

Additional Local
Elmer Lundberg who with his wife is visiting her relatives at Utica, New York sends the Herald a copy of the Utica Daily Press which contains an account of the nomination of Sherman for vice-president. Utica New York is where Sherman lives.

Judge Norris and family arrived home this week from the Philippines and will visit here for a couple of months. Judge Norris has been on the bench there for the past nine years and it is four years since they were here last. The Judge will deliver the Fourth of July address at Neligh.

Messrs. Matheny, McCabe and Grunemeyer returned from Omaha last week with two car loads of automobiles and supplies, there being two Maxwell machines and two Buicks. They will open their automobile garage in a part of the Palace livery barn which will be remodeled for their use.

The 16th Annual Christian Endeavor convention of the first Nebraska district which was held in the Presbyterian church last week, closed on Friday night by a splendid lecture on "Damascus" by Rev. J. M. Caldwell. Mrs. Dr. Burleigh of Hartington was elected president for the ensuing year. Miss Chanin of Macy, vice-pres.; Miss Mikesell of Sioux City, cor. secy; Miss Green of Wakefield; rec. secy.

The Wayne lodge of Masons had an enjoyable time last Friday evening at their regular meeting when Don Cunningham was given the third degree in Masonry. Past Grand Master Baird of Hartington was present and other out of town visitors were Walter Gaebler, Harry Siman, Gilbert French and Clyde Ecker of Winside and Julius Tower of Laurel. After the lodge meeting refreshments were served and a general good time had by all present.

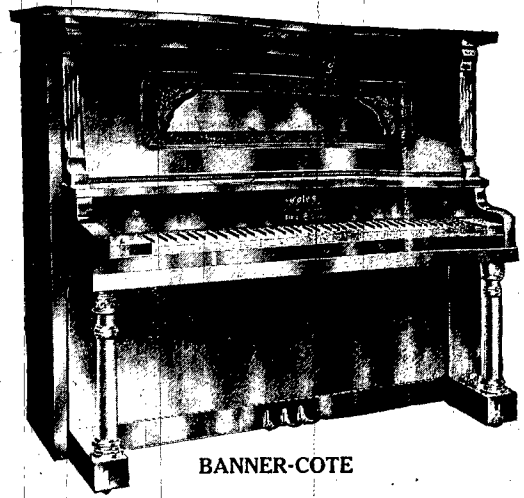

Talk about the periodical roller skating craze among the young people. Well it isn't in it with the curiosity and interest the older people are now showing over the automobile craze, and those that haven't a benzine wagon seem to have worse than those who have. Let a machine get out of whack and stop on main street to be fixed it will attract a larger and more curious crowd of spectators than if a man had been run over and had a leg cut off, and how they will wisely discuss the relative merits of the Rambler, the Buick, the Maxwell, the Ford and a dozen other kinds of makes of machines, just as though they had been raised in an automobile factory. Truly we Americans are rapidly acquiring the characteristics of the French for our fads and our enthusiasm for one thing for a brief spell only to forget that and take up another.

Automobile For Hire

Competent driver from Sioux City in charge. Rates reasonable. Phone 61 when you want to take a ride.

Wayne Automobile & Garage Co.

PHONE 61

Roché, a young French woman, at the wheel. The car dashes down a steep incline from the dome of the tent. An abrupt upward curve sends the car high above the heads of the audience, where it accomplishes two complete revolutions and then lands with a crash on a narrow strip way, exhausting its terrific momentum on the hippodrome track.

This is an act that defies English. It cannot be described, and when once seen the picture of it will be carried in memory to the end of life. It is the first instance where a single automobile has turned two somersaults in space.

The world-wide character of this year's remarkable company can be seen at a glance. From France comes the great St. Leon family of acrobats; the Pally Brothers, who walk, skip the rope and dance on their heads; Bugeos and Clara, the gymnasts; the wonderful Martell troupe of cyclists; the aerial Millettes, and Miss La Belle Roché, who does the dangerous automobile double somersault.

From Italy have come the great Bedini family of riders and the Marullo-Marulitz quartet of acrobatic bellringers. In Germany were found Schadel, the great zebra rider; Marguerite and Hanley, the gymnasts; and the Prosit trio and Horton and Lindge, burlesque bar performers. Riccobono, the world's greatest trainer of animals, and his marvelous company of horses are from Russia; and the Mirza Golem acrobats are from the court of the Shah of Persia.

Wolfwood and his trained bears; the Duttons and the Clark Brothers, riders; the great aerial Clarksons and the famous Jordan family are from England; Kerslake and his company of pigs that skip the rope and shoot the chutes are from New Zealand; and the eight Carnellos, acrobats; Alvarez, the acrobat; De Mario, the contortionist, and a company of burlesque bull fighters are from Spain.

Bonded Over to Court

In Judge Hunter's court Tuesday morning W. A. Stewart was bound over to the district court on the charge of selling intoxicating liquor to minors without a license. The charge being that he secured liquor for two boys. His bonds were fixed at \$200 which he secured.

At a Bargain

I am compelled to sell my White Plymouth Rock chickens because I have no room for them. Anyone wanting to start in that popular breed can get them at a bargain. 12 hens and 1 rooster for \$10.00, if taken at once; just what I paid for the rooster.—J. H. Kate.

Grover Cleveland Dead

Ex-president Grover Cleveland died at his home in Princeton, New Jersey yesterday morning. He was twice president of the United States and since his retirement from office was the only living ex-president. The funeral will be held Friday.

Hardware Sold

J. E. Marsteller has sold the hardware business of Marsteller & Peterson to J. F. Barrett and J. W. Dally and the work of invoicing the stock will be completed in a few days, when the new firm will take possession. The members of the new firm are prominent young business men of Dunlap, Iowa. They have purchased a good business and will no doubt do well here. Mr. Marsteller does not contemplate leaving Wayne but expects to continue to make his home here.

The nominee for the presidency and the platform adopted both represent progressive Republicanism and a continuation of the policies of President Roosevelt. Four years ago there really was no need of a platform of declarations with Theodore Roosevelt on the ticket. This year it became a question of making a progressive platform in terms or going back to the old lines in terms. The contest had to be made, and the platform victory, considering its far-reaching for the next four years, regardless of circumstances intervening, is more important than was the nomination of a progressive candidate for the presidency. The platform as a whole is well designed to represent the Roosevelt policies and the Taft declarations, and of all the planks the one of much interest in the west is that of the tariff. For the first time in the history of the party a tariff revision candidate has been nominated for the presidency and a tariff plank fixing the time for a revision of the tariff and the basis upon which it is to be done. Taft is heartily in accord with the progressive platform and in his letter of acceptance will doubtless take a farther advanced step than did the party at Chicago.

The platform and the candidates are satisfactory to the republicans of the west and had it not been for the Iowa factional fight there would have been a western man for vice-president.

Taking it altogether the work of the national convention is highly satisfactory and republicans will lay aside their local differences and present a united front for a victorious campaign to the end that the party of progress and prosperity remains in charge of the national government.

The platform of the Chicago convention has almost the significance of the organization of a new party in the advanced stand taken and the progressive ideas contained therein.

Senator LaFollette's enemies are sorely grieved over his attitude towards Taft's nomination. They had expected that after his platform planks had been rejected by the convention that he would become indignant and bolt the party but the Senator has fooled them by giving assurance of his loyalty to the republican national ticket and it is not far guess to say that what he is contending for may be written into the next republican national platform. The support given some of his planks by the Nebraska delegates is proof of fact that his demands have sympathy from the progressive republicans of Nebraska.

Platform and Candidates
The platform of the Chicago convention has almost the significance of the organization of a new party in the advanced stand taken and the progressive ideas contained therein.

Ringling Bros.
At Sioux City, Iowa
The people of Wayne will have an opportunity on Saturday, July 11th, of visiting Ringling Brothers' World's Greatest Shows, the point of exhibition being Sioux City. This season marks the twenty-fifth anniversary of this great circus, and the Ringling Brothers are celebrating the year by presenting the greatest European program ever offered, a parade that surpasses all those of the past, a new and complete menagerie, another brilliant spectacle, and the most astonishing and sensational "thriller" in all history.
The "thriller" is nothing less than a double somersault in mid-air made by a heavy automobile with Miss La Belle

Political attention is now directed towards Denver.

Isn't it in order now for Wayne to have a Taft & Sherman club?

Mr. Bryan don't like the republican platform. That's another evidence that it is a good one.

The next report from the steam roller will be that it is in operation at Denver with Bryan as engineer.

Announcement for Senate

I hereby announce that I am a candidate for the nomination for senator in this Eleventh senatorial district, subject to the will of the republican voters at the primaries to be held September 1, 1908.—C. A. Randall.

Announcement for Senate

I desire to announce to the republican voters of the eleventh Senatorial District, that I am a candidate for the nomination for Senator of said District at the Primary Election to be held September 1st, 1908, and hereby earnestly solicit the vote of every Republican in the District.—R. Y. Appleby.

J. M. Shively of Fremont who is a candidate for commissioner of public lands and buildings is receiving many favorable notices from the press of the state. Mr. Shively has been deputy commissioner in that office and has given excellent character and ability and is thoroughly familiar with the work pertaining to the place. He has many friends up in this end of the state who will do all they can to give him the republican nomination at the primaries.

**How to Get
An Automobile**

An automobile is in the reach of nearly everyone. If you will commence and get on the right track you will soon be able to indulge such luxuries as automobiles. It is impossible to accumulate anything where the outlet is greater than the income. If you want an automobile you must at once shut off the unnecessary expense you now have, and you will in a short time find you have accumulated sufficient funds to buy a first class automobile. You cannot shut out the outlet by doing business with anyone but an experienced merchant. Inexperienced merchants are experimenting with your cash, and you will be the loser. We can help you to save a number of dollars if you will buy your clothing of us. We are experienced merchants and you will always get the full value of your money in anything you buy here. We are now fitting out our customers for hot weather. Your feet will need attention when the weather gets hot. We know how to fix them so they will be comfortable. Your head should be cool in hot weather. Let us fix your head, so that you need not fear a sun stroke. Your body will need cool clothing and we can supply that for very little money. Now the extra money you save here you can put in the bank and if you will use the same good judgment in buying all other necessary things you will soon find your bank account will justify you to buy an automobile. If you don't want an automobile it will be pleasant and profitable for you to do business with us anyhow. Try us for a year and see if you don't make money. You can't lose anything by doing business with us, then why not see if you can't save something.

Give us a trial.

TAFT NAMED FOR PRESIDENT BY REPUBLICANS

Nomination of Ohioan Amid Striking Scenes in the National Convention.

FIRST BALLOT BRINGS RESULT

Platform Is Adopted and Speeches Are Made in Favor of Other "Favorite Sons."

William H. Taft, of Ohio, is the nominee of the Republican party for President of the United States. The nomination was made on the first ballot at the national convention late Thursday afternoon. The vote stood as follows:

Taft	702
Knox	68
Hughes	67
Cannon	28
Fairbanks	40
La Follette	27
Borah	10
Roosevelt	10

TUESDAY

Chicago, Tuesday, Sept. 12.—Shortly after noon Tuesday Chairman Henry S. New of the national committee swung the official gavel, and the fourteenth Republican national convention was in session. All had been well

of the principal cities, in their eyes going over the principal places of a great republic. The people who streamed up and down the thoroughfares were hawks which indicated that every citizen was from Texas to the south to the States which border the Canadian provinces on the north from New England on the east to the coast States of the West, was represented adequately not only by the ubiquitous delegates but by correspondents and visitors as well.

Shortly after 11 o'clock it was as if a floodgate had been opened, for streams of people poured into the great ballroom at every door and scrambled for their places. At the outside entrance the dockworkers would have been swamped except for the aid of police, who insisted that everyone find their proper entrance. By 12 o'clock the floor was a black sea of humanity, while Michigan and Wabash avenues were crowded with overflows of people anxious to hear the shouting and witness the entrance of celebrities.

At the crowded human five which had been made of the Coliseum, the fall of National Chairman Harry New's gavel was greeted with a roar, which drowned all further efforts of the chairman for several minutes. Every seat in the floor and galleries was occupied, while on the stand occupied by the chairman were men whose names are among the greatest which a great party possesses. Many of the delegates had been in their seats for an hour or more and there was accordingly little delay in the opening.

It Was an Impressive One.

It was a wonderful and impressive scene, this great body of 980 delegates gathered from every part of the country and its remote possessions, calmly settled down to carry out the wishes of the party they represent, and nominate a candidate for the highest office the people can give.

President Roosevelt got applause

loy the band struck up "America," the delegates and visitors stood as masses, waving flags and giving a mighty shout. The secretary read the list of temporary officers, which was confirmed, following which the membership of the several committees, chosen by the State delegations, was announced. Then, on motion of a New York delegate, the rules of the last Republican national convention were adopted for the control of the gathering. The convention then adjourned until Wednesday noon.

WEDNESDAY

The convention was called to order at 12:20 p. m. Senator Fulton, of Oregon, announced that the credentials committee, of which he was chairman, would not have its report ready for one hour.

At 12:30 Senator Burrows, as temporary chairman of the convention, called the delegates to order. He introduced the chaplain of the day, the Rev. William O. Walker, of Chicago, who offered the invocation, closing with the Lord's prayer. The delegates and the visitors joined the minister.

Chairman Burrows interrupted the regular order of business long enough to introduce to the convention Henry Baker, of Minnesota, and James D. Coaker, of Indiana, two gray-haired veterans of the party who were delegates to the first Republican convention in 1856. Messrs. Baker and Coaker were greeted with continuing rounds of applause as they stepped to the front of the platform and bowed their acknowledgments.

On motion of Mr. Warren, of Michigan, the convention invited to a place on the platform A. G. Proctor, of St. Joseph, Mich., who was a delegate to the Lincoln convention in Chicago forty-eight years ago.

Parade of Marching Clubs.

It was next announced that while waiting for the report of the committee on credentials there would be a parade

THE PLATFORM AT A GLANCE.

ROOSEVELT—The abuse of wealth, the tyranny of power, and the evils of privilege and favoritism have been put to scorn by the simple manly virtues of justice and fair play. We pledge a continuance of the Roosevelt policies.

ANTI-INFLATION—The Republican party will uphold the authority of the courts, but believes the rules of procedure in Federal courts with respect to injunctions should be more accurately defined by statute, and that no injunction should be issued without notice.

LABOR—The same wise policy will be pursued in every legitimate direction within Federal authority to lighten the burdens and increase the happiness and advancement of all who toil.

THE TARIFF—The Republican party declares for a revision of tariff by a special session of Congress immediately following the inauguration of the next President. We favor the establishment of maximum and minimum rates to be administered by the President.

MONEY—An expanding commerce and increasing crop movements disclose the need of a more elastic and adaptable system.

TRUSTS—The Federal Government should have greater supervision and control over corporations engaged in interstate commerce having the power to create monopolies.

INLAND WATERWAYS—We call for a large and comprehensive plan, just to all portions of the country, to improve the waterways, harbors, and great lakes.

ARMY AND NAVY—While the American people do not desire and will not provoke war with any other country, we nevertheless declare our devotion to a policy which will keep this republic ready at all times to defend her traditional doctrines.

GOOD ROADS—We approve the efforts of the Agricultural Department to make clear to the public the best methods of good road construction.

NEGROES—We demand equal justice for all men without regard to race or color, and condemn all devices for the disfranchisement of the negro.

REPUBLICAN POLICY—The difference between democracy and republicanism is that one stands for vaccination and unity to government, the other for strength and purpose. Democracy would have the nation own the people, while republicanism would have the people own the nation.

When the delegates entered the Coliseum to name a running mate to Secretary William H. Taft it was practically settled that Congressman James S.

Republican Convention, After Four Days, Completes Its Work and Adjourns.

Chicago Correspondence:

Congressman James S. Sherman of New York was nominated for Vice President by the Republican-national convention at the Friday morning session. Timothy Woodruff of New York made the nominating speech, and "Uncle Joe" Cannon, Speaker of the National House, seconded the Sherman nomination.

Delegates and spectators, tired after the strenuous efforts of the previous day, at the Republican national convention, were slow in assembling Friday morning, and when Chairman Henry Cabot Lodge rapped the convention to order for the start on the fourth day's session he faced hundreds of vacant chairs in the galleries and not a few delegates were absent.

When the delegates entered the Coliseum to name a running mate to Secretary William H. Taft it was practically settled that Congressman James S.

COMMERCIAL FINANCIAL

CHICAGO.

Next to the immediate stimulant from the lower costs established for various steel makes, the most important favorable development was the government forecast of the early crops and its magnificent promise under normal conditions of agricultural enrichment. Business generally reflects a strengthened tone and the outlook has a brighter aspect, although the volume of new demands in manufacturing branches does not yet show the expansion expected. Where heavy commitments are involved definite action is withheld until after the deliberations of the Republican convention next week. Encouragement is derived upon from that source in aiding recovery from trade depression. It is desirable that indorsement should be placed upon the effort to secure more adequate waterways and minimum freight cost for the promotion of this city's commerce.

Seasonable weather greatly aided the activity in retail dealings, and the demand for men and women's apparel, housewares and vacation goods made a satisfying advance. Merchandise stocks have under gone sharp reduction, and this has caused frequent replenishments for both local and country needs.

Mercantile collections throughout the interior occasion little trouble, and the record of defaults maintains the recently noted betterment.

Failures reported in the Chicago district numbered 22 last week, against 14 a year ago. Those with liabilities over \$5,000 numbered 8, against 5 last week and 3 in 1907.—Dun's Review of Trade.

NEW YORK.

Weather, crop and trade reports display irregularity. It has been too wet and cool in the Southwest and Northwest for best retail trade and crop developments, but east of the Mississippi river conditions have been better and more favorable reports come from the latter sections. In wholesale lines evidence of improvement in fall buying are seen, but purchasers are generally cautious, while sales for immediate shipment are confined to strictly filling-in requirements. Political and crop uncertainties seem likely to influence distant purchases for some time to come, and trade is hardly better than quiet to fair the country over.

Business failures in the United States for the week ending June 13 numbered 253, which compares with 225 last week, 181 in the like week of 1907, 170 in 1906, 175 in 1905 and 181 in 1904. In Canada there were 30 business failures, as against 32 last week and 22 in the same week of 1907.—Tradekeeper's Commercial Report.

JAMES S. SHERMAN

elled for the moving along of the convention plans, and when the crowds got into the Coliseum nothing was wanting in the way of arrangements. Bishop Malahan offered the prayer opening the convention, and then Senator Julius C. Burrows of Michigan was introduced as temporary chairman.

Early in the afternoon the crowds turned their faces Coliseumward. An hour before the convention was called to order the terraced sides and galleries of the big building were filled with ticket holders. Usually the scenes incident to the hour preceding the opening of a President-making convocation are an enthusiastic display of the events taking place on the stage after the performance has been normally begun. Here are the celebrities to receive cheering homage as they march into the hall at the close of State delegations.

There is the seemingly unending confusion, out in the arena where the President-makers are moving about before settling into the reservations for the respective State delegations. Here is a United States Senator whose name is a household word talking to the Governor of a State who perhaps already has been "mentioned" as a likely candidate for White House honors "next time." There they are, as you look down from your seat on terrace or in gallery, "conservatives" and "radicals"—patriot and self-seeker, demagogue or statesman—according to the standpoint of the faction to which you belong. Nowhere can they be seen all together in animated mixture except every four years at the national party convention.

The streets reflected the nation. On every corner, gains hawked the papers

when Chairman New spoke first in announcing that the time had arrived to take up the business of the convention. The chairman declared the country had just ended "twelve years of the most brilliant administration in the world."

John R. Malloy, temporary secretary, who has a powerful voice, read the call for the convention, and then Chairman New announced that the national committee had recommended Julius C. Burrows, of Michigan, for temporary chairman. Senator Burrows was warmly received as he stepped to the front of the platform. He bowed his acknowledgments and began his "key-note" address.

From the time the gathering was called to order until Senator Burrows concluded his 15,000-word "keynote" speech, the interest and attention of the 2,000 persons in the hall seldom flagged. Parts of the Michigan senator's address were wildly cheered, particularly his mention of Theodore Roosevelt and later on his declaration of the anti-inflation question. Still more cheers greeted the "key-note" declaration that any tariff revision "would not put out the fires of any American industry."

Senator Burrows spoke for an hour and eight minutes and concluded amid hearty applause. Then the band, which had been kept out of the proceedings for longer than an hour, had its inning.

Unrestrained applause broke loose among the Southern delegates, when the band played "Dixie." This was followed by a shout that filled the big hall and it gradually began to look like an national convention. When in its used

through the hall of visiting and local marching clubs. As the uniformed marchers swept through the hall enthusiasm broke loose. When the band played "The Star-Spangled Banner" every man, woman and child jumped up. Cheers shook the roof of the big hall.

The credentials committee of the convention, in an all-night session, had disposed of all the contests, and in every case upheld the decision of the national committee. The work of the committee aroused considerable bitterness, with the result that threats of a minority report were made. Major Charles A. Bookwalter, of Indianapolis, was the champion of the "allies" and was outspoken in his charges of "rogue rule," declaring the committee riddled the contests and denied the minority a fair hearing. With a chorus of "Yess" and many "Nays" the report of the credentials committee, senting the contested delegates in the same manner as the national committee ruled, was adopted by the convention.

The committee on permanent organization next made its report, which was adopted, and Senator Henry Cabot Lodge, of Massachusetts, was introduced as permanent chairman. He was given a rousing greeting and at once plunged into his speech.

THURSDAY

The convention was called to order by Chairman Henry Cabot Lodge shortly after 10 o'clock and opened with an invocation by Rev. John Wesley Hill of Metropolitan Temple, New York. Senator Albert J. Hopkins of Illinois, chairman of the Committee on Resolu-

tion he raised frequent applause by the laudation of President Roosevelt.

The platform was adopted after a three hours' debate and without a halt the convention swept on to the nomination of a presidential candidate. Tired, scorched, hungry and restless, the spectators sat through the nominating speeches. Sweltering under the great roof of the Coliseum the crowd of 15,000 grew light-headed from the heat and became so lost to control while Gov. Hanly of Indiana was nominating Charles Warren Fairbanks, that Chairman Lodge had to threaten that the police would clear the galleries.

On the call of States, Illinois was the first to be reached, having a "far-oro" son—Representative H. S. Boutwell presented the name of Joseph G. Cannon, Speaker of the House of Representatives. Then Vice President Fairbanks and Governor Hughes were presented, Congressman Burton, of Ohio, took the platform at 2:20 o'clock and placed the name of William Howard Taft before the convention, and afterward the claims of Senator Knox and Senator La Follette were offered.

The nomination of Taft was made amid wild enthusiasm. The great building rang with shouts as Ohio placed her favorite son in nomination, and even greater applause marked the beginning of the vote. On the only ballot taken he received 702 votes out of 978.

The nomination was made unanimous on motion of Gen. Stewart L. Woodford of New York, seconded by the delegation chairman of all the other favorite son States.

OTHER LONG CHEERING SPELLS.

The cheering for Roosevelt Wednesday in the Chicago convention stirred up the statisticians. They found that among other notable instances of prolonged applause following the nomination of a favorite son or the mention of his name were:

James G. Blaine, Minneapolis, 1888, forty minutes.

William McKinley, St. Louis, 1890, thirty-two minutes.

Mark Hanna, St. Louis, 1896, twenty-four minutes.

Theodore Roosevelt, Philadelphia, 1900, forty minutes.

William Jennings Bryan, Chicago, 1898, thirty-six minutes.

John Sharp Williams, Kansas City, 1900, twenty-two minutes.

Benjamin R. Tillman, Kansas City, 1900, twenty-four minutes.

Theodore Roosevelt, Chicago, 1904, thirty-five minutes.

A session report has been heard as far as 140 miles.

GAVEL FROM FORT DEARBORN.

Part of Historic Log Used in Construction of Mallet.

A gavel made from an oak log of old Fort Dearborn was used to open the Republican national convention. For the manufacture of the gavel and its box two feet were cut off the end of an eight-foot log in the collection of the city's department of municipal history. A silver plate on the box bears this inscription: "Made of hand-hewn oak log from the stockhouse of old Fort Dearborn, the first outpost of civilization under the

United States government in Chicago or vicinity in the old Northwest, 1803—burned by the Indians and rebuilt in 1810.

Utah Seeks a Woman.

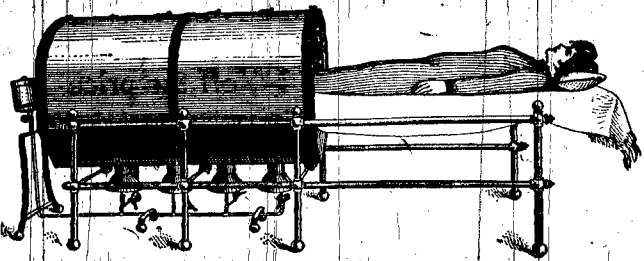

The only woman who had a seat on the floor of the Republican convention, as a regular delegate is Mrs. Lucy A. Clark of Brigham City, Utah, and it is declared that she is also the only woman who ever had a vote in a Republican convention. Mrs. Clark came merely as an alternate delegate. When it was found that one of the regular delegates was absent. There

upon the vacant position was allotted to Mrs. Clark as a regular delegate, and the gold badge was pinned upon her dress.

Attended 1856 Convention.

Closely resembling "Uncle Joe" Cannon and as nimble on his feet as an athlete, Judge J. D. Conner, the "grand old man" of Wabash, Ind., was on hand to watch "the youngsters" put through a convention. Judge Conner is one of the four surviving delegates to the first Republican convention held in Philadelphia in 1856, when his party nominated John C. Fremont.

Badly Sprained Ankle Cured

Three years ago our daughter sprained her ankle and had been suffering terribly for two days and nights—had not slept a minute. Mr. Stalling, of Butler, Tenn., told us of Chamberlain's Pain Balm. We went to the store that night and got a bottle of it and bathed her ankle two or three times and she went to sleep and had a good night's rest. The next morning she was much better and in a short time could walk around and had no more trouble with her ankle.—E. M. Brumitt, Hampton, Tenn. 25c and 50c sizes for sale by Raymond's Drug store.

Weak women should try Dr. Shoop's Night Cure. These soothing, healing, antiseptic suppositories go direct to the seat of these weaknesses. My "Book No. 4 For Women" contains many valuable hints to women, and it is free. Ask Dr. Shoop, Racine, Wis., to mail it. Ask the doctor in strictest confidence, any questions you wish answered. Dr. Shoop's Night Cure is sold by Felber's Pharmacy.

Superintendent's Notice
Teacher's examinations will be given on the third Friday and Saturday following of each month.—A. E. Littell, Superintendent.

Born in Iowa
Our family were all born and raised in Iowa and have used Chamberlain's Colic, Cholera, and Diarrhoea Remedy (made in Des Moines) for years. We know how good it is from long experience in the use of it. In fact when in El Paso, Texas, the writer's life was saved by the prompt use of this remedy. We are now engaged in the mercantile business at Narcoossee, Fla., and have introduced the remedy here. It has proven very successful and is constantly growing in favor.—Ennis Bros. No Need of Suffering from Rheumatism

It is a mistake to allow rheumatism to become chronic. As the pain can always be relieved, and in most cases a cure effected by applying Chamberlain's Pain Balm. The relief from pain which it affords is alone worth many times its cost. It makes sleep and rest possible. Even in cases of long standing this liniment should be used on account of the relief which it affords. 25 and 50 cent sizes for sale by Raymond's Drug Store.

The blue front implement house

Mr. and Mrs. Lester Bellows arrived from Omaha Saturday evening. Lester is now in charge of the hardware department at the Bagley & Renard Co. They will live in the Geo. Yaryan house.

Mr. Ferguson and family, who have been working for W. H. Billster will return to their former home at Harlan Iowa this week.

Mrs. Walt Yaryan left Tuesday for Sioux City to remain at the home of her brother until Walt gets located at Woodsey, S. D., where he has secured a job as manager of a thoroughbred stock ranch.

Last Monday Frank Noelle sold to John Shannon 20 head of choice steers, for which he received the fancy price of \$7.00 per hundred. These steers averaged 1475 pounds, netting Mr. Noelle \$103.74 per head. Mr. Noelle is certainly one of the best feeders in the country.

Mrs. Arthur Tucker went to Lincoln the first of the week to be present at Delta Delta Taws, the Greek letter to which she belonged at College.

Winside
From the Tribune.
Mrs. T. E. Johnson has commenced the erection of a house in the west part of town.

A deputy for the Highlander lodge has been in Winside for several days working up new members and we understand he has secured thirteen or more.

E. Hayes and family arrived from Colorado last Friday. Mr. Hayes left for St. Paul Monday where he will again go into the land business. The family may remain here a month or two.

During the storm last Thursday night, lightning struck the McLaughlin, Ellis Co. elevator, but only tore off a few shingles.

Mrs. Schwerin went over to Belden the last of the week to visit relatives.

Victor Siman went to Wayne Monday to attend the Normal for a few weeks and play ball on the side.

Dr. Williams was up from Wayne yesterday and drove out to the Podd home and placed a smallpox quarantine. This disease has been going through that neighborhood and the only way to keep it from spreading is stringent quarantine.

A patriotic Winsider seeing a flag flying Monday at once consulted his almanac to find out what it was for. Reading that June 15 was the anniversary of the signing of the Magna Charta by King John, he threw the almanac down with disgust and muttered: "I fly my flag for no d—king."
