WAYNE TAFT CLUB

Republicans Organize for the Campaign

WITH A LARGE MEMBERSHIP

Activity Among Republicans Promises a Warm Campaign in Wayne County This Fall

Is your name written there? If not you better line up and join the Taft Club of Wayne which stands for the election of William Howard Taft for president and a continuation of the Roosevelt policies and the assurance of the continuation of good times. At the mass meeting held in the Woodmen hall last Friday evening the first steps towards the organization of a Republican club were made and it is planned to hold an informal meeting at the near future to get the work of the campaign under headway. The club starts out with a membership roll of over one hundred and in the next few weeks it is expected to add several hundred more names. The officers of the club are: J. A. Lister, president; C. M. Craven, vice-president; W. H. McNeal, secretary; Bert Brown, treasurer. The Executive committee consists of nine members as follows: J. C. Bressler, Judge Hunter, C. A. Chace, F. L. Neely, Chas. Beebe, Grant Mears, J. G. Miller, A. E. Little, Alex Holtz.

It is five weeks yet until the time for holding the primaries and by that time the Taft Club of Wayne will be ready for the fray.

NOT FAR AWAY

Items of Interest from Nearby Localities Boiled Down For Busy Readers

The August issue of Woman's Home Companion is full of delightful stories—just the right sort of mid-summer reading. Just to pick up the magazine and look at the little Dutch boy and the windmill on the cover makes you feel cool and comfortable. Then, when you open the magazine, you come across enough stories and entrancing illustrations to give you enjoyment for the entire month. There are serious and practical things, too. Doctor Hale talks hopefully about "Sleep and Re-Creation." "The Garden in August," many recipes for summer salads, meats and substitutes for meats by Fannie Merritt Farmer and Christine Terhune Herrick, the Summer Fashions by Grace Margaret Gould, Sam Lloyd's Own Puzzle Page, are a few of the things that will interest most every woman who reads the August Woman's Home Companion.

A drive into the country will convince anyone of the splendid crop prospects. Corn has about all been "laid by" and the winter wheat harvest has begun with the prospects of a good yield. The oats' crop is not quite as promising as it might be as there is considerable evidence of rust which will affect the proper maturing of the late oats. The hay crop much of which is already cut is just immense and assures an abundance of rough feed for next winter. Taking it altogether there is reason for everybody here to feel glad that they live in Northeast Nebraska, whether the election goes to suit them or not.

J. C. Ecker informs The Advocate that he thinks he has the Winside Tribune sold, and that should the sale go through he may step into a Cedar county newspaper. — Laurel Advocate.

G. L. Woods of Ponca is announced as a candidate for the republican senatorial nomination to succeed Senator Wiltzie of that district.

If Bryan carries every state he carried in 1896, which includes Kansas, Colorado, South Dakota, Washington, Nevada and a few others the Democrats have no chance to carry this year, and if Taft fails to carry New York, Indiana and Illinois, which the republicans stand no chance to lose, then Bryan could win. It's a long shot, of course, but why discourage the Democrat who optimism will allow him to shout over the outlook?—Kansas City Star.

Centers in Lincoln

The great national battle between Taft and Bryan centers at Lincoln.

The state fight between Sheldon and Berge-Dahlman-Shallenberger centers at Lincoln. The anti-saloon fight for county option centers at Lincoln. The fight for guarantee of bank deposits centers in Lincoln. The fight for lower freight rates centers in Lincoln. The fight for anything that promises good to the masses of the state centers in Lincoln. Read your state paper, Nebraska State Journal, at the cut price of One Dollar until after election, without Sunday. Including Sunday, \$1.50. If you are interested in the state university, state agricultural college, state fair, state institutions of any kind, you should be a reader of The Journal. It's a state newspaper. It's a long time until after election but One Dollar pays for it all. We stop the paper when your time is up. It's not forced on anyone. Send your dollar direct to The State Journal, Lincoln, Neb.

Gompers and the "Labor Vote"

W. E. Lewis in the New York Telegraph:

I had the curiosity the other day to interview, as to the political situation, two men who really work with their hands, and their heads, too, for that matter. One of them was assisting to lay an asphalt pavement at Broadway and Eighty-sixth street. I said: "You're a laboring man, are you not?"

"I'm a working man, but not a laborer," said the man.

"Do you know Sam Gompers?"

"I've heard of him."

"Can he deliver your vote to any candidate? Whom shall you vote for?"

The man said: "Neither Gompers nor anyone else can deliver my vote. I am a Democrat, but I think it likely I shall vote for Taft. He is the safest man running for the office."

I said to a first class printer, member of the union:

"Do you call your vote one of the 'labor vote'?"

"Not exactly," said the printer. "I'm a skilled workman and you'd not class me with laborers."

"Who are the men that make up the 'labor vote' that Gompers says he is delivering to Bryan?"

"I give it up."

"Can Gompers deliver your vote?"

"Not so you could notice it."

"Whom shall you vote for?"

"Taft."

James and Ed Pratt, father and son, of Wakefield, have been boord over to the Dixon county district court on the charge of bootlegging.

Shales Items

Miss Ella Hurlbert and John Fitzsimmons, were passengers for Wakefield Tuesday.

Mr. and Mrs. Burns who have been visiting relatives here left the first of the week.

Mrs. Gibbs, who has been visiting with her daughter, Mrs. M. L. Halpin was called to Elgin, Neb., Monday by the serious illness of another daughter.

Mrs. Will Closson was down from Randolph Monday.

Miss Engert of Wayne is visiting her sister, Mrs. H. Fitzsimmons.

The ball game between Sholes and the Brandt nine was won by the latter by a score of 11 to 6. The Brandts have some very good players. Sholes played Carroll Wednesday and will go to Wareham Sunday.

Mr. Wadsworth of Red Oak, Iowa is here looking after his interest at the ranch.

Fred Marsh shelled corn for Elmer Closson Monday.

A number of the people of this vicinity are planning on taking in part of the Chautauqua.

Miss Summers and Mrs. Burnham were Omaha passengers to Omaha Tuesday.

E. W. Closson, Mrs. Clark and Miss Stivers took dinner with the Ed Carroll family Sunday.

North Bend Items

Miss Celia Buck returned from a visit at Plainview Tuesday.

John Nairn returned Monday from a visit with relatives in South Dakota.

Ed Fork was pleasantly surprised by a visit from his parents, and two brothers of Chicago.

A family reunion was held at the Bartels home July 19th, in honor of Grandma Bartels' seventy-third birthday.

Mrs. John Horn is visiting relatives at Gretna, Neb.

A sister of Wm. Barbee of Iowa, arrived Saturday for a few weeks' visit.

BREAKS WORLD RECORD

James Graves Drives Auto 25 Miles in 32:33 3-5 at Sioux City

James Graves chauffeur for the Wayne Automobile and Garage Co., did stunts at Sioux City Saturday that made the folks over there sit up and take notice, and incidentally brought Wayne into the limelight as an automobile town. Speaking of the feat the Sioux City Journal says:

Not satisfied with having won four races with the car he was driving, James Graves, an 18-year-old chauffeur from Wayne, Neb., broke a world's record at the meet of the Sioux City Automobile club by driving a fully equipped touring car twenty-five miles on a track in 22:33 3-5. The car is a Buick, four-cylinder, 20-30 horse power.

Very distinctly the driving of this young man was the big feature of the race. Barney Oldfield and Chas. Soules came in for their share of the applause, but neither was able to make the showing made by the Wayne boy, who has been driving a car scarcely two years.

The record was made in the last race of the day, which was the first heat of the 25-mile derby open to cars owned by members of the Sioux City Automobile club. The races which the lad took with his bar were the five-mile jaunt for touring cars, the free for all three-mile race, the novelty race and the derby. Sunday Graves will drive the same car round the track in an attempt to break the fifty-mile record and also to better his record for twenty-five miles. The best previous twenty-five mile record for that type of car was established at Minneapolis last Wednesday, and the time was 34:45 4-5.

In the derby Graves run his car with astonishing precision. His fastest time for the mile lap was 1:16 and his slowest time was 1:18.

Miss Matheny, McCabe and Graves returned home from Sioux City with their machines Monday. In addition to other honors they won a cup in the second event Saturday with their two cylinder Buick.

Wayne Chautauqua

The Chautauqua Assembly at Wayne will begin July 23 and close July 30. A splendid program has been prepared. The cost of the talent is over \$2000. This assembly affords a great opportunity to the people of Northeast Nebraska to hear some of the most prominent men of the country speak and to enjoy some of the best entertainments that are before the public.

Following is an outline of the program:

July 23—Wayne Band Concert in afternoon and evening. Ex-Senator Carmack of Tennessee, one of the great men of the New South, two lectures.

July 24—Wayne Band, Virginia Jubilee Singers, Rev. J. M. Cleary of Minneapolis in the afternoon and The Passion Play Illustrated in the evening.

July 25—Virginia Jubilee Singers, Gov. Hanly, Indiana's great governor in the afternoon and The Story of Hiawatha Illustrated in the evening.

July 26—Virginia Jubilee Singers, Dr. Wilbur F. Crafts of Washington, D. C., in the morning and afternoon, Bishop Bristol of Washington in the evening.

July 27—Male Quartett and Wayne Band, Bishop Bristol in the afternoon and Packard the great cartoonist in the evening.

July 28—Male Quartett, and Wayne Band and Dr. Wilbur F. Crafts in the afternoon and Packard in the evening.

July 29—Dunbar Bell Ringers and Male Quartett and Wayne Band, Hon. E. C. Bishop of Lincoln and Col. Robert S. Seeds of Pennsylvania in the afternoon and Ralph Parlette in the evening. This is Farmers' Day.

July 30—Dunbar Bell Ringers and Male Quartett and Wayne Band, Dr. Waters of Brooklyn in the afternoon Ralph Parlette in the evening.

Dr. Wilbur F. Crafts, superintendent of the International Reform Bureau will hold a Citizenship Conference each forenoon at 10 o'clock except on the opening day and on Sunday. Each of these conferences will be followed by a lecture.

REAL TEST TO COME

AMERICAN ATHLETES EXPECT TO OVERCOME BRITISH LEAD

Need 14 Points to Tie Rivals—United States Men Strong in Remaining Events—Visiting Athletes Find the Climate of London Great Handicap.

The United Kingdom, which before the opening of the Olympic games at the stadium had a big lead over all other nations in the number of wins in the contest for supremacy in all sports, almost doubled that lead the past week and further overtook the American team in the count for track and field events. But this has not served to dishearten the American athletes and those of their countrymen who accompanied them to England.

James D. Sullivan, the commissioner representing the United States, said he is representing the United States, says championship in their sports, and we are going to do it despite the handicap from which we are suffering.

The other handicap against which we have had to contend is the manner in which the heat drawings have been conducted. The drawings have gone against us in the 7,500-meter race, when our best men, Sheppard and Halden, were pitted against each other and the same thing occurred in the 800-meter event.

Sheppard and Halden were drawn against each other for a second time. Bradley and Raby also have been put into a heat together in this event, while in two other heats of the 800-meter race not a single American has been drawn. It is either extraordinary bad luck or the manner in which the drawings have been made that has resulted in such unfavorable conditions for the Americans.

We have tried to find out how the drawings are conducted, but have not been able to get anything from the Amateur Athletic Association officials except the reply: "The drawings have been made in the usual way."

He returned no answer to other pointed questions that were put to him. The fugitive and custodians proceeded at once to the Santa Fe depot, where they left for Los Angeles on the 8:41 o'clock train.

Deaths of Negro Elks. Supreme Justice McReynolds, of New York, has made permanent an order restraining the Improved Order of Elks from issuing a protective order of their kind from their jurisdiction over a colored man, whose lodges are in Brooklyn and other places. The application for the injunction was made by the Benevolent and Protective Order of Elks.

Gives Birth to Quadruplets. Mrs. Susan Turner, wife of Louis C. Turner, of Argentine, Kans., gave birth to quadruplets, three boys and a girl. The girl died a short time after birth, but the boys are alive and apparently healthy.

Mrs. Thugle Dies of Wounds. Walter C. Thugle, wife of Stanley C. Thugle, who shot herself Wednesday night at her home in Pasadena, Cal., died Sunday without having regained consciousness.

Slough City Like Stock Market. Saturday quotations on the Slough City live stock market follow: Beaves, \$2.20 to 2.25. Top hogs, \$6.45.

To Attend Quebec Celebration. Brig. Gen. Arthur Murray, chief of artillery, U. S. A., has been detailed as the ranking military officer of the suite of Vice President Charles W. Fairbanks to go to Quebec to attend the bicentennial celebration there.

Receivers for Department Store. Receivers have been appointed for the D. C. Hege company of Columbus, O., the largest department store in central Ohio. No figures are given.

Rich Man Slain by Robber. John B. Chapman, a wealthy resident of Winchester, Va., 50 years old and an ex-confederate, was murdered Saturday at Slansville, Va. The motive is believed to have been robbery.

Baltimore Train Wrecked. The western Maryland express, from Baltimore to Baltimore, was completely wrecked near Keyser, W. Va., Saturday. Eleven passengers were seriously injured. Nearly all are West Virginians.

IN CLASS AT MINES.

Battle Follows Strike in Alabama District.

Lloyd Gardner, a deputy marshal, was fatally wounded and at least a dozen miners were more or less seriously shot as the result of an attack on a train bearing strike breakers to take the places of striking union miners at Jefferson, Ala., Friday. The train was in charge of thirteen deputies and was en route to Adamsville. It is said the union miners attempted to force the train and strike breakers to leave the train and threatened to kill them if they went to work.

Gov. Comer has ordered a company of cavalry from Montgomery to the scene, and troops are already on the ground under arms.

Deputy Gardner mortally wounded, was taken to Birmingham. Deputy George Smith, accompanying him, estimates that no less than 1,000 shots were fired on both sides in the attack at Jefferson.

According to Smith the engagement was opened when a train bearing fifty strike breakers attempted to leave Jefferson for Adamsville. Prior to this a number of union miners had made overtures to the strike breakers to join their ranks, threatening at the same time to kill them in case they attempted to work the mines of the operators. In this emergency the deputies attempted to have the train pulled out of Jefferson under fire if necessary.

An open switch, however, brought the engine to a stop, and in this predicament the deputies and strike breakers were fired upon. Bullets riddled the train, and that many were not injured or killed is due to the fact that they fell to the floor and remained there. Thirteen deputies returned to the train, and they declare that at least a dozen miners were either killed or wounded. At this juncture Gardner fell mortally wounded.

The engagement was brought to a conclusion when the engine was enabled to make headway.

Miss Carter was visibly nervous as she took the witness stand. During a part of the trial the women in the court room were asked to leave, but only several young girls in the court room offered to stir in response to the request. The court room was packed, about thirty women being present.

Triving Carter shot young Buxby when the latter was making a clandestine call on Miss Carter. The defense will plead the "unwritten law."

Bank Closed by a Run. Cleveland Institution Falls to Open Door Friday.

Owing to a run that gradually reduced its vaults of currency the Farmers and Merchants Banking company of Cleveland, failed to open its doors Friday morning. Later a deed of assignment was filed in the solvency court and Edward S. Spurney was appointed receiver. The bank was capitalized at \$100,000. The assets and liabilities are estimated at \$500,000.

The run upon the bank started in a small way two months ago. The bank could not realize upon its securities. It is said the securities when realized upon will be sufficient to pay all depositors in full.

Collision on the Lake. Crowded Excursion Steamer Hits a Schooner.

The three-masted schooner Lucy Simpson, laden with railway ties, was towed into the Chicago harbor early Friday in a disabled condition and reported having been in collision with a crowded excursion steamer, probably bound for some Michigan port. The steamer, according to Capt. Simonson, backed away after the accident before he was able to learn its identity. He declared the shouts of fear and sharp orders on board the excursion boat led him to believe a panic ensued.

To Advance Freight Rates. An advance in all classes of freight rates into the territory of the Southwestern Freight association and of commodity rates into the territory of the Southeastern Mississippi Valley association will probably be the outcome of the conference of executive officers of the southern roads, now being held in Louisville.

Call to National Banks. The comptroller of the currency Friday issued a call to national banks for a report of their condition July 15.

No Indian Uprising. An official denial came Friday from Fort Wingate of the reported uprising of the Navajos.

Corby Returns from Europe. W. E. Corby, president of the United States Steel corporation, has returned from Europe. Mr. Corby said that by applying he expects to see a return of practically normal conditions in the business world.

Fire Destroys Big Factory. Fire destroyed the main building of the Elk Tanning company at Everett, Pa. The plant employed 150 men. The loss is estimated at \$350,000.

More Fever Cases on Nebraska. Several more cases of scarlet fever, which developed on the battleship Nebraska, have been transferred to the hospital ship Relief. The Nebraska will go to Hawaii, Honolulu, to be isolated and cooled.

Insurgents Repulsed. The Honduran insurgents who Wednesday night captured the town of Popoverin, on the north coast, Thursday attacked Colpa, but were there repulsed and are fleeing back to Salvador.

WATER WAGON TEAM.

Prohibits Hitch Up of Couple of Farm Horses.

For president, Eugene W. Chafin, of Chicago; for vice president, Aaron S. Watkins, of Ada, O. The above ticket was nominated Thursday at Columbus, O., by the prohibitionist national convention, which was being chosen unanimously. The full endorsement of the convention was not given to Mr. Chafin until after three ballots had been taken.

The forenoon session of the convention was devoted to the discussion and adoption of a brief platform, which is probably the shortest on record, containing not more than 350 words, and is as follows:

The prohibition party of the United States, expressing gratitude to Almighty God for the victories of our principles in the past, for encouragement at present and for confidence of the future, makes the following declaration of principles and pledges their enactment into law when placed in power.

1. The submission by congress to the several states of an amendment to the federal constitution prohibiting the manufacture, sale, importation, exportation or transportation of alcoholic liquors for beverage purposes.

2. The immediate prohibition of the liquor traffic for beverage purposes in the District of Columbia, in the territories and all places over which the national government has jurisdiction on alcoholic liquors, and the prohibition of the interstate traffic therein.

3. The election of United States senators by direct vote of the people.

4. Equal graduated income and inheritance taxes.

5. The establishment of postal savings banks and the guarantee of deposits in banks.

6. The regulation of all corporations doing an interstate commercial business.

7. The creation of a permanent tariff commission.

8. The strict enforcement of law instead of the official tolerance and practical license of the social evil which prevails in many of our cities, with its unspeakable traffic in girls.

9. Uniform marriage and divorce laws.

10. An equitable and constitutional employers' liability act.

11. Court review of postoffice department decisions.

12. The prohibition of child labor in mines, workshops and factories.

13. Legislation basing suffrage only upon intelligence and ability to read and write the English language.

14. The preservation of the mineral and forest resources of the country and the improvements of the highway and waterways.

Believing in the righteousness of our cause and in the final triumph of our principles and convinced of the unwillingness of the republican and democratic parties to deal with these issues, we invite to full party fellowship all citizens who are with us agreed.

TROY MURDER IS MYSTERY. Police Puzzled by Killing of Hazel Drew.

What is considered the most important point yet developed in the Teal pond murder mystery came into possession of the police Wednesday night, when County Detective Kaye, of Troy, N. Y., found the suit case which Hazel Drew carried the day before she was murdered and for which the police have been conducting an exhaustive search. From articles found in the suit case, it is established, the police say, that Hazel Drew did not intend to go to Averill park on the day she was murdered, and the startling theory is advanced that she was murdered in Troy and taken either by carriage or automobile to Teal pond, where her body was cast into the stagnant waters.

There is much to hear out this theory and it appears that the authorities are nearing a solution of the mystery. In the first place the murdered girl's black leather handbag, containing all her money except 50 cents, was found in the suit case. The suit case, it is noted, was found in Teal pond, which is near Troy, and it is noted that the girl was wearing a 5-cent piece. Controversy on all of the trolley cars running to Averill have been closely questioned and not one has been found who remembers having seen Hazel Drew on his car. It would have been next to impossible for the girl to have ridden to the park on a trolley car and not have been recognized.

FAST TRAIN WRECKED. One Woman is Killed and a Dozen Persons Seriously Injured.

A White Mountain express on the New York, New Haven and Hartford railroad was wrecked at Greenwich, Conn., Thursday. One woman, Miss Marguerite Armstrong, of Wayne, Pa., was killed and a number of persons were injured. The wreck occurred on a bridge almost in front of the railroad station. There were five parlor cars and all were thrown from the track and overturned.

Soldier Murdered in Philippines. Another murder has been reported to the war department from the Philippines. Gen. Weston, in a cablegram, reports that Albert L. Burtleigh, Company C, Eighteenth Infantry, was murdered by Moros on July 3.

No Roosevelt Records. President Roosevelt has refused an offer to make speeches into the recording of a talking machine for the purpose of making records for public sale.

Hugh McCurdy Is Dead. Hugh McCurdy, former head of the Knights Templars in the United States, and one of the most prominent Masons in the country, died at his home in Corunna, Mich., Thursday, after a long illness.

Hurt in Auto Wreck. Eugene Etienne, former minister of war and interior, together with his chauffeur, was seriously injured in an automobile accident near Alencon, France, Thursday. Madame Etienne was badly hurt.

Watermelon Produced Death. Tyler Hughes, a young man about 19 years old, died at his home in Wayne, O., Thursday, after eating a cold watermelon.

NEBRASKA STATE NEWS

VALUE OF WIRE LINES.

What the Supreme Court Will Do in Decided by Recent Decision. What the supreme court will do to the railroads if any case comes before it was indicated in a decision at a case from Dodge county, where the Western Union objected to the taxing of its lines at a uniform rate of \$54 per wire mile. It contended that the board had given the mileage in Dodge county the same value as every other county in the state. The supreme court says this is a proper case for that state to carry through this state and this service enters into the value of it in Dodge county. It says that the income of the messages received in Dodge county is not a proper measure of the value of the wires, because they carry interstate messages and it holds that the net earnings of the corporation for one year is not a fair measure of its value.

Applied to railroads this is a good solution to the theory of the corporation attorneys that only interested business should be considered in determining the earning power of the companies.

RANGE CATTLE COME EARLY. Two Weeks Ahead of Time and in Excellent Condition.

Range cattle are pouring into Dodge county two weeks ahead of the time from the ranchlands of Texas. They arrived on the ranges. During the week the Burlington has handled several carloads from Sheridan and other Wyoming points and from the Black Hills country. The Northwestern reports a heavy movement in sight from the Black Hills. Commissioned to carry the movement of range cattle to continue uninterrupted and the supply is exhausted. The cattle from the ranges are in excellent condition because of the splendid condition of the grass on the ranges, because of this excellent condition the stock is bringing a good price and shippers are bringing it along before there is a break in the market. The road officials expect this heavy cattle business to keep up until time for grain to start to move.

SHUMWAY MUST HANG. Convicted of Killing Mrs. Sarah Martin.

Mead Shumway, who killed Mrs. Sarah Martin, wife of his employer, in Dodge county, must hang on the gallows. This was the decision of the supreme court in his case.

The murder was a most revolting one. Taking advantage of the fact that Mrs. Martin was a weak woman, he killed her in the kitchen and hid her body in a closet. He put it up in a compact mass and hid it in a closet. He was caught by the police and the evidence of the guilt is most convincing.

SCHMIDT HELD FOR DEBT. He is Accused of Kicking L. C. Jensen.

A charge of manslaughter was filed by County Attorney E. Pfeil against Geo. Schmidt, who was held responsible by a coroner's jury for the death of Lars C. Jensen. The coroner's jury found Jensen came to his death by means of a kick administered by Schmidt during an altercation between the two men on July 5. Schmidt was a tenant on Jensen's farm, drinking beer in the front yard when Jensen protested. In the altercation that followed Schmidt, it is charged, kicked Jensen in the groin. Jensen was taken to St. Joseph's hospital, where he died July 14. Both men lived on 15th-third and Center streets, Omaha.

BAR IOWA LAWYERS. Refuse Harkness Barristers to Conduct General Practice.

In affirmation of its statutes, the Nebraska supreme court has ruled against the petition of Leonard Harkness, of Sioux City, who asked that he be allowed to practice law generally in the courts of Nebraska. While the decision of the Nebraska court makes the conditions of Iowa at least as bad as Nebraska courts no worse, it does not better that condition one iota, and merely holds that its own statute forbidding the general practice of outside attorneys in Nebraska are good and unchangeable.

E. J. Christy Offered. E. J. Christy, who it was thought was burned to death in the destruction of the mill of the Fonda Bros., at Genoa, was found by some friends at Grand Island. While using a torch to the lower part of the mill, the explosion that started the fire stunned him. He does not remember what happened, but crawled out of a window and was found in a half-demented condition at Grand Island.

Hloodfield Man Killed. Glenn Jacob, who recently town north of Hloodfield, was struck by lightning and instantly killed. Mr. Jacob was in the barn feeding his horses when the bolt struck him.

Indian a Suicide. With the declaration that "Crowes are singing bad songs and I am going to kill them," William Cox, an Omaha Indian, borrowed a shotgun and going into the woods placed the butt of the gun against a tree and killed himself instantly.

Young Man Attempts Suicide. In a fit of despondency Frank Friebauer, a young Bohemian farmer living about seven miles east of Pawnee, attempted to kill himself with a 22-caliber rifle.

Blunkron Pays Elevators. L. S. Blunkron, of the firm of Blunkron Bros., which recently sold its line of grain elevators on the Burlington railroad in Nebraska, has closed the purchase of another line. The elevators which now have come into the possession of Mr. Blunkron are located at Winnebago, Waltham, Rosalia, Nickerson and Jackson.

Watermelon Produced Death. Tyler Hughes, a young man about 19 years old, died at his home in Wayne, O., Thursday, after eating a cold watermelon.

STOLEN HORSES RECOVERED.

Animals Are Located After a Thirty-Day Search.

Sheriff Dwyer, of Pierre, was instrumental in recovering a team of horses for Charles Currough, of DeS Moines, Ia. County. It seems that the horses and buggy were stolen about the middle of June. Sheriff Dwyer received a description of the team within an hour and last week he noticed a team in the lively barn of Lou Davis that answered this description. He asked Davis about it and Davis said he brought it out of one of the trading houses of St. Louis. He said that he had a pair of Hall county, and he arrived with Charles Currough and they went to Osmond where Burroughs identified the team as his own. Davis was brought to Pierre by the gentlemen and turned loose. Just before the train left Pierre he was arrested and taken in charge by Sheriff Dwyer and taken to Hall county where he will have to stand trial for horse stealing. The news of Davis' arrest did not reach Osmond in time to institute habeas corpus proceedings to release Davis. A few weeks ago a horse was stolen from the pasture of Editor B. St. Leonard of Osmond and a trace of it has been found at the house. The sheriff of the county that it is the property of.

RECEIVER FOR RAILROAD. Omaha, Decatur and Northern Railroad Will Be in Trouble.

A suit of the receiver in litigation between the Omaha, Decatur and Northern Railroad and the Omaha, Decatur and Northern Railroad, which was filed in the U. S. District Court at Omaha, has appointed T. L. Shumway, of Omaha, receiver for the railroad.

The Omaha, Decatur and Northern Railroad company was an Omaha corporation, of which former district judge E. A. Hartley was president and a number of Omaha men were stockholders and directors. At the time of the filing of the suit, Mr. Pierce and Mr. Shumway entered into a contract with the receiver to assume the management of the road. They were to receive about \$25,000 for their services and their work proved unsatisfactory to the company. The contract was annulled.

NEBRASKA NEWS SOME BEER. Revenue Collected on 400,000 Barrels During Year.

Four hundred thousand barrels or more of beer were sold in Nebraska during the twelve months ending June 30, 1908.

The Omaha and Northern breweries have a large share of the 400,000 barrels of beer sold in Nebraska during the year. The Omaha brewery has a larger share to the Omaha brewery than any other brewery in Nebraska.

WANTED ON SERIOUS CHARGE. Man Arrested in Omaha Will Be Sent to Missouri Valley.

A man arrested in Omaha on a charge of assault committed in the Omaha, Neb., and taken to the Missouri Valley.

Wanted on serious charge. A man arrested in Omaha on a charge of assault committed in the Omaha, Neb., and taken to the Missouri Valley.

TOLSTOI STINGS CZAR AS CIVILIZATION'S FOE

Scathing Arraignment of Government by Execution Is Published.

Count Leo Tolstol, in a long article published in London, indicts, with his old vivid literary skill, the present system of "government by execution" in Russia, the article concluding with a noble appeal to the better nature of his countrymen.

During the course of the article the Count writes:

"I can no longer endure it. I write this either that those inhuman deeds may be stopped or that my conscience will be purged and I will be no longer a prisoner, where I may be nearly asphyxiated by the atmosphere of still horror (so good that I dare not even dream of such happiness), that they may put me to rest on those twenty or twenty-five years' imprisonment and cap and only push me also off the bench so."

Reformer Says Crimes in Name of Law Are More Awful than Revolutionists' Acts.

CHICAGO MAN NAMED PROHIBITION LEADER

Eugene W. Chafin Is Nominated for President by the Aqua Pura Party.

WATKINS IN SECOND PLACE. Shortest Platform in History of National Conventions Is Adopted at Columbus.

Colombus Correspondence. Eugene W. Chafin, of Chicago, was nominated for President of the United States by the Prohibition national convention Thursday.

Republican and Democratic candidates and platforms were scored alike, and evidence held to prove that Lincoln was a Prohibitionist was presented at the opening session of the Prohibition party's national convention.

Mr. Patton held the attention of his audience throughout his speech and at times moved his hearers to great enthusiasm.

"Take off your coat" and "Hit him again" cried the delegates, and those shouts were interspersed with "Amen's." The speaker took off his coat and then paid his compliments to the late Herman Raster of Illinois, author of the personal liberty plan of the 1872 Republican platform.

"Caught with the goods!" shouted some one in the audience. Passing from the Republican party, Mr. Patton spoke of that "very talkative man from Lincoln," and said that in the last sixteen years Mr. Bryan "has championed everything loose under the sun in the way of a political issue except the prohibition question."

The convention was called to order at 10 o'clock in Memorial Hall by Chairman Jones. The invocation was offered by Rev. E. L. Eaton of Illinois, and after the formal reading of the call for the convention the name of Robert H. Patton of Springfield, Ill., was announced as temporary chairman.

Following the address of Mr. Patton the roll of states was called for the announcement of committees. An address of welcome to the delegates was delivered by Mayor C. A. Bank of Columbus, and a response was made by W. P. F. Ferguson of Chicago.

Planks in the Platform. 1. Submission by Congress to the several States of an amendment to the federal constitution prohibiting the manufacture, sale, importation, exportation or transportation of alcoholic liquors for beverage purposes.

THE WEEKLY HISTORIAN

1174—William the Lion defeated at Alnwick. 1366—The elector of Brandenburg was appointed hereditary arch-bishop of the German empire by the golden bull of Charles IV.

1706—English and allies under Duke of Marlborough and Prince Eugene defeated the French besiegers at Oudenarde, Belgium. 1776—The statue of King George in Bowling Green, New York destroyed.

1770—Stony Point taken from the British by the Americans. 1790—The United States and Morocco concluded a treaty of peace. 1790—Aboukir in Egypt attacked and carried by assault by the Turks under Saïd Mustapha Pasha.

1804—Famous duel between Hamilton and Burr. 1812—Sweden concluded an alliance with England. 1829—The directors of the Bank of the United States declared a dividend of 3 1/2 per cent.

1830—Chartist riot in Birmingham, England. 1840—Treaty of London between the Sultan and Mehemet Ali. 1849—Vice President Millard Fillmore assumed the presidency of the United States.

1862—Gen. Halleck appointed commander of all the land forces of the United States. 1863—United States ship Wyoming sank three Japanese ships in battle at Shimonoseki. 1873—Communist rising in Spain.

1883—Chilians defeated the Peruvians with great loss at Iquique. 1884—Democratic national convention nominated Cleveland and Hendricks. 1885—International park at Niagara Falls opened.

1886—Charles D. Graham went through the Niagara whirlpool rapids in a barrel. 1900—The President signed the Wyoming admission bill. Wyoming territory became a State. 1894—Earthquake at Constantinople, with loss of 200 lives.

1905—Gen. Nicola Plevra elected President of Rumania. Henry M. Stanley elected to the British Parliament. 1908—Admiral Cervera and other officers of the Spanish fleet reached Annapolis, as prisoners of war. 1902—Mining disaster at Johnstown, Pa. resulted in loss of 114 lives. The Porte demanded the suppression of Cretan money with Prince George's effigy.

Political Comment

Secretary Luke Wright. President Roosevelt has appointed a southern Democrat to succeed Taft in the War Department.

General Luke Wright, of Memphis, who followed Mr. Taft at the Philippines, and was afterward sent to Tokio to represent this government, is the lucky man. The general belongs to that class of Americans who do things.

The selection of General Wright will meet with approval. The only criticism, we venture to say, will come from the hide-bound partisans who regard it as political treason for a public servant to choose subordinates from outside the ranks.

The most important purpose. It is about time that some opinions hitherto maintained in this country respecting the operations of the tariff were considerably revised.

FOREIGN. Charles E. Ulm, formerly an officer in the French navy, has been publicly stripped of his uniform, insignia and sword and taken to begin a sentence of life imprisonment on Devil's Island for having attempted to sell naval secrets to a foreign power.

The British punitive expedition under Gen. Willcocks against the Hobbani tribesmen of Northwest India is continuing after having completely quelled the insubordinate rebellion. The period of actual hostilities lasted only eight days. British losses were 78 killed and 123 wounded.

The first diplomatic note of the meeting of Edward and Nicholas at Reval is the story that Emperor William of Germany has told the Russian ambassador at Berlin, personally, that if the result is an alliance between Russia and England and France, it would be regarded by him as a war threat against Germany.

The Canadian government has sent out a survey party to lay out a township at Fort Churchill, the future metropolis of Hudson Bay, to which point the government will build a railway from northern Saskatchewan. The site is on the east side of the Nelson river. Only one settler lives there now, and he will get 169 acres.

Advices concerning the recent elections in Belgium (all of the Socialists having gained five new seats in the lower house of parliament) are: Eighty-seven Clericals, 43 Liberals, 35 Socialists and 1 Christian Democrat. There was a large increase of the Socialist vote all over the line.

The strike of Italian peasants in the districts about Parma, Italy, has steadily increased in size and feeling. More than 50,000 peasants still refuse to go to work unless the farmers pay better wages. Details of the situation have been rigidly suppressed by the censor, but it is known that clashes between strikers and troops have occurred frequently.

SOUND TABLE PRINCIPLES

American People Should Consider Platform by Their Votes. One of the best things in the Republican platform, as plain as a pike-staff and as honest as government coin, is the tariff plank.

The Republican party declares unequivocally for a revision of the tariff by a special session of Congress immediately following the inauguration of the next President, and commends the stage assigned to this end in the work assigned to the appropriate committees of Congress which are now investigating the operation and effect of existing schedules.

In all tariff legislation the true principle of protection is well maintained by the imposition of such duties as will equal the difference between the cost of production at home and abroad, together with a reasonable profit to American industries.

We favor the establishment of maximum and minimum rates to be administered by the President under limitations fixed in the law; the maximum to be available to meet discriminations by foreign countries against American goods entering their markets, and the minimum to represent the normal measure of protection at home, the aim and purpose of the Republican policy being not only to preserve without excessive duties that security against foreign competition to which American manufactures, farmers and producers are entitled, but also to maintain the high standard of living of the wage earners of this country, who are the true beneficiaries of the Protective System.

Between the United States and the Philippines we believe in a free interchange of products with such limitations as to sugar and tobacco as will afford adequate protection to domestic interests. Here is a declaration that means something and always the same something to everybody. We shall have no tariff, whether rates are so high that they prohibit abuses in the matter of exportation, or so low that they induce the temporary abatement of the duty on coal a short time ago, and which did not result in the increased importation of a single ton of mineral fuel. The reason is perfectly plain. In most things we are perfectly able to compete with the foreigner, and our own prices are low enough, with a little dropping, to keep out the imported product. If the only object of a protective tariff had been to create industries which would enable us to compete successfully, it would be time to let go; but there is another purpose back of the policy and that is to preserve the American standard of living by refusing to enter into a competition which would compel us to lower it to the foreign level.—San Francisco Chronicle.

Foreign Trade a Broken Reed. Just now Japan is supplying an illustration of how poor a dependence foreign trade may be as a support for industries. The people of the southern part of China inaugurated a boycott on Japanese goods in retaliation for the humiliation to which their country was subjected a short time ago by Japan; and now comes the report that the Japanese industries which formerly supplied the Southern China trade are about to shut down, because of the boycott and the subsequent inability to dispose of their products. The home market is the best and the safest; and the country which does its own work builds its prosperity on the surest foundation. Break down the protection to our industries which the tariff provides, and we would thereby throw open the rich field of American trade to the competition of industries which give employment to other workers and promote the wealth and prosperity of other countries.—Denver Republican.

Wholly Acceptable. Revision having been determined upon, it is the part of wisdom to voice the party's purpose in unambiguous language. This is done in the first paragraph. The second paragraph attempts to outline the party's position upon the question of protection. There is no radical departure from the ancient standards in this declaration. The last paragraph is more in line with the policy which Congress has pursued than could have been expected. For the reason that Secretary Taft has favored practical free-trade with the Philippines. The tariff document as outlined will be wholly acceptable to Republicans everywhere.—Cedar Rapids Republican.

If the Democrats Should Win. The Senate will remain Republican, regardless altogether of how the election on November 3 goes. In the improbable event of the election of a Democratic President and House of Representatives this year there will be no tariff revision. A tariff bill framed by a Democratic House under Bryan would receive the same treatment from the Republican Senate that the Mills bill got from that body in Cleveland's first term. It would be hung up there, and a new measure would be framed by that chamber. That would be the end for that Congress. The two branches would not be able to get together, and Mr. Bryan would get no chance to sign or veto a tariff bill.—St. Louis Globe-Democrat.

Needs it All. Old Gentleman—Bastus, if you had half of that big watermelon you'd be happy? Little Bastus—No, sah. Old Gentleman—What more would you want to complete your happiness? Little Bastus—De odder half of dat melon, sah.

Capital at the Bat. Pearl—Yes, our college had a Summa baseball team. Ruby—Did you have any good catches? Pearl—I should say so. Five of them caught husbands in the first season and broke up the team.

Just this way, sir, said the court-ous clerk in the railroad office. Let me show you some summer guides entitled 'Where to go and 'When to Go.'

The man with the modest manner shook his head. 'They don't interest me,' he sighed. 'What I want to know is 'How to Go.'

Capital at the Bat. Pearl—Yes, our college had a Summa baseball team. Ruby—Did you have any good catches? Pearl—I should say so. Five of them caught husbands in the first season and broke up the team.

The Herald Thing. Clarence—I told the minister he mustn't kiss you. Corolla—And what did he say? Clarence—He thanked me, and said under the circumstances he would only charge me the usual fee.

Great Need. Oh, that some Burbank of the West Would permit, make and sell An union with an onion tassel— But with a violet smell.—Judge.

Time to Move On. Just a bit of 'moonshine.' Just a bit of song. Just a big policeman—and It's time to 'move along.'—Chicago News.

LOVE IDEA BREAKS WILL

School Denied \$51,000 for Teaching Swedenborg on Conjugal State. Any bequest in Pennsylvania to any institution that teaches conjugal love after the tenets of Swedenborg is void.

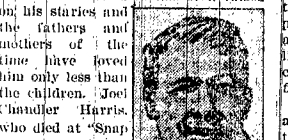

While it appears that the Academy of the New Church is such a school as was intended by the testator to receive the residue of his estate, yet it also appears that the testator's intention was not a proper one.

For that reason, the bequest is declared to be void, and, if falling, the estate will be distributed under the intestate laws of the State.

There were three claimants to the bequest in question, two rival factions in the Swedenborgian church and the heirs of the estate. The court awarded the entire estate to the heirs.

Mr. Kramphel died fifty years ago, but his real estate was only recently sold. In his will he gave the residue of his estate for the endowment of a university of the New Jerusalem to be founded in the consolidated city of Philadelphia for the education of ministers who are to teach the doctrines laid down in the writings of Swedenborg. The Academy of the New Church, with a university at Bryn Athyn, near Philadelphia, proved its right to the bequest under the will.

The one complaint against his teaching is on conjugal love, and the court deposes its opinion in that feature and says the teaching is in conflict with the laws of the State and contrary to accepted public policy.

George S. Batcheller, who died in Paris recently, had a long and distinguished career in political and diplomatic life. He was at his death judge of the international tribunal in Egypt.

He was first appointed to this office in 1873 and served until 1885, when he resigned. His second appointment was in November, 1898. Judge Batcheller was 70 years old.

a native of Saratoga County, New York, and a graduate of Harvard Law School. He was several times a member of the New York Legislature, an officer in the civil war, First Assistant Secretary of the Treasury, Minister to Portugal, diplomatic representative in Paris and president of the Universal Postal Congress.

Richmond Pearson Hobson, who told the committee on Denver convention States should prepare for war with Japan and urged pledging the Democratic party to a large navy, acquired fame by sinking the collier Merrimac in the harbor of Santiago, under fire from Spanish guns, in 1898. He was for a number of years a naval constructor, and in 1899 and 1900 was on duty in the Philippines and China. In 1903 he resigned from the navy to become a lecturer and writer, and in 1904 was elected a member of Congress from Alabama, his native State. He was born in 1870 and was graduated from the Annapolis Naval Academy in 1890.

Dr. David J. Hill, the new American ambassador to Germany, was received by Emperor William at Berlin, with every evidence of cordiality. The reception was unprecedented in being arranged only two days after Hill's arrival, whereas custom makes the period more than a week for new ambassadors.

Right Rev. James J. Keene, who offered prayer at the opening of the Democratic national convention, has been bishop of Cheyenne, which diocese covers the State of Wyoming, since 1902. He is the third prelate to rule the diocese, which was created in 1857. The bishop was ordained in 1882 from the Grand Seminary, Montreal, where he received his theological education, and early in his career took charge of St. Mary's and St. Joseph's churches in St. Paul. Later he became president of St. Thomas' College at Hamline, Minn.

At San Francisco Joe Gans, the negro who so long had held the lightweight championship, was beaten in seventeen rounds by "Batling" Nelson.

SCHOOLS AND COLLEGES

Commissioner of Education Draper of New York has stirred up a hornet's nest of hostile criticism by his reported remarks at the New York University Summer School touching on the cherished birthright of the American youth to aspire to the highest positions of honor and power.

Hein Keller has opened at Manchester, Mass., the first of what she expects will be a chain of shops for the sale of the handicraft of blind workers. The display includes fine products of the loom and various house furnishings.

By turning Protestant and taking his bride to the office of the London registrar, Prince Helle de Sagan of France finally succeeded in making the American Gold heiress, divorced wife of Count Boni de Castellane, Mice Anna, the Princess de Sagan.

Death Harvest of the Fourth

Incomplete returns of accidents on the Fourth of July due to the celebration of the day indicate the death of over 70, and the injury of nearly 3,000 persons, this breaking previous records of the day's casualties since 1890.

The New York Board of Education has recommended to the Charter Revision Commission that no married woman be employed as a teacher unless her husband was crippled mentally or physically, and that any teacher who gets married shall thereby lose her place.

Farmers from all over Central Iowa went to Ames to witness and to be explained to them experiments in corn growing which the Iowa State college agricultural department has under way.

Republican National Ticket
FOR PRESIDENT:
William Howard Taft, of Ohio.
FOR VICE-PRESIDENT:
James S. Sherman of New York.

Mr. Bryan does not feel the least superstition about being nominated on a Friday. His unlucky day has always been the first Tuesday after the first Monday.—Kansas City Star.

For County Attorney
I wish to announce myself as a candidate for the republican nomination as County Attorney, to be determined at the primaries to be held Sept. 1st.—Richard Closson, Carroll, Neb.

In speaking of Kern the newspaper correspondents all agree that he is a mild mannered likable sort of a fellow and if not of presidential size still an improvement over Sewell and Uncle Cassaway. Bryan's former running mate.

There will be one fortunate feature in the presidential contest. Both Bryan and Kern are used to defeat. Bryan has twice been defeated for the presidency and Kern has twice been defeated for the governorship of Indiana.

Announcement for Senate
I hereby announce that I am a candidate for the nomination for senator in this Eleventh senatorial district, subject to the will of the republican voters at the primaries to be held September 1, 1908.—C. A. Randall.

Announcement for Senate
I desire to announce to the republican voters of the eleventh Senatorial District that I am a candidate for the nomination for Senator of said District at the Primary Election to be held September 1st, 1908, and hereby earnestly solicit the vote of every Republican in the District.—R. Y. Appleby.

Announcement for Commissioner
I wish to announce to the republican voters of Wayne county that I will be a candidate at the primaries September 1, 1908 for the republican nomination for county commissioner to fill the vacancy caused by the resignation of R. Russell and for the full term commencing January 1, 1909.—Eph Anderson.

The first political wager to be recorded comes from Chicago and was made between H. G. Merry of Baltimore and N. E. McBride of Chicago. Merry put up \$1000 against \$500 that Taft would be elected. Mr. Merry declares he will accept similar bets 2 to 1 to the amount of \$50,000. Enthusiastic Democrats with the join of the team to back up their belief of democratic success should get in touch with Mr. Merry.

Referring to the overtures made in Bryan's Commoner to get Bryan to run up for the democratic nomination, the candidate Mr. Mearns' New York American says: We are

bound to add, with regret, that we have lost confidence also in William J. Bryan, who by well manipulated boss-ship has compelled this nomination. No reliance can be placed on the democratic platform or on Bryan's declarations. The democratic platform declares for one set of principles at one election, and for an entirely different set at the next election, while Bryan is apparently without permanent principle or sincere conviction, or even honest attitude. A note is a promise to pay. It is valuable according to who makes it, and who endorses it. A platform is a promise to perform, and a platform made by the democratic party and endorsed by Mr. Bryan is not worth the paper it is written on.

F. A. Berry has filed his application with the county clerk for the democratic nomination for county attorney and Eph Anderson has filed for the republican nomination for commissioner. There is only about a week more for filing to get names on the primary ballot. The primary election will be held September 1st and names must be filed thirty days prior to the primary election.

Silas R. Barton, Grand Recorder of the A. O. U. W. of Nebraska, at Grand Island, Neb., is out for the nomination for State Auditor, on the republican ticket. The fact that Mr. Barton has held his present position for the past seven years, proving his eminent ability as an accountant and all around rustler, will go a long way toward securing for him the coveted prize and his many friends in Wayne county will not hesitate to boost him toward the coveted goal. Mr. Barton is a forcible platform speaker and if nominated, will add very materially to the available campaign force in Nebraska and will work hand in hand with Governor Sheldon, in carrying out his policies in the conduct of the affairs of the state, when elected.

Additional Local
Dr. A. H. Jastrum and Matt Fifer of Remsen, Iowa were in town this morning, the Doctor going to Norfolk on professional business and later will go to Dakota on land business.

Sherriff Mears has been wearing a black eye, not as a result of the taking into custody of someone who has offended the majesty of the law but in the peaceful pursuit of being a dutiful husband and helping to do the family washing. He was moving the washing machine and in doing so fell in such a way as to sustain quite a bruise over one eye.

O. A. King returned last evening from a trip to Frisco where he had a party of ten to look over the King Solomon mines. They were all very well pleased with the property and found it to be fully up to their expectations. On the way out an engineer who had done considerable work for the government in Colorado and Alaska was induced to go up and inspect the property and he was very emphatic in his praises for King Solomon and stated that it was destined to be a big winner.

Pain will depart in exactly 20 minutes if one of Dr. Shoop's Pink Pain Tablets is taken. Pain anywhere. Remember! Pain always means congestion, blood pressure—nothing else. Headache is blood pressure; toothache is blood pressure on the sensitive nerve. Dr. Shoop's Headache Tablets—also called Pink Pain Tablets—quickly and safely coax the blood pressure away from pain centers. Painful periods with women get instant relief. 20 tablets for 25c Sold by Felber's Pharmacy.

Wayne needs more houses for rental purposes. Within the past two days the writer has heard four parties say they could not find a house to rent and consequently are unable to move their families here. Such a condition is detrimental to the town's best interests and we believe two dozen new houses built for rental purposes would find occupants. If there are any empty houses in Wayne they are either too small or are too far to the outskirts of town. This is a matter that should have attention as the building of new residences is not keeping pace with the steady growth of population in Wayne.

G. F. Moles has just returned from a ten days trip to Draper, S. D., where he purchased a quarter section of land and is on a deal for another quarter. Mr. Moles speaks very favorably of South Dakota and says the prospects for crops are fine. Winter wheat all in shock, spring wheat promises to be a big crop, some counting on as high as 30 to 35 bushels per acre and oats will make from 40 to 60 bushels, corn looking fine. Land is selling rapidly at from \$1800 to \$3000 per quarter according to improvements and distance from town. Draper is 60 miles west of Chamberlain in Lyman county and on the C. M. & St. Paul R. R., a lively little town nearly two years old, has two good banks with a deposit of \$6500 and all branches of business nicely represented. At present they are building an elevator to take care of the big crop of small grain they are expecting. Anyone interested in South Dakota should see Mr. Moles as he has several samples of grain.

Grain to Cut
I have 65 acres of grain to cut and want man and outfit to do the work by the acre.—Phil Sullivan.

Superintendent's Notice
Teacher's examinations will be given the third Friday and Saturday following of each month.—A. E. Littell, Superintendent.

BRIGHT PROSPECTS

Second Annual Chautauqua Opens Today

WEATHER CONDITIONS GOOD

Everything Points Towards a Large Attendance for the Whole Meeting

Today opens favorably for the second annual meeting of the Wayne Chautauqua and unless weather conditions are bad the Chautauqua will be a splendid success as it should be. The season ticket sale has been sufficiently large to assure the financial part of the enterprise and the splendid program for each day should draw big crowds. The reports from adjoining towns and country is most flattering and gives assurance of a large attendance. Father Cleary, one of the great lecturers of the country arrived this morning from Minneapolis. General Black, Commander of the Grand Army of the Republic and a great man is here and speaks this afternoon in place of Ex-Senator Carnack of Tennessee, who has been obliged to cancel all his Chautauqua dates on account of sickness. General Black is an equal of the Southern Statesman on the platform and will give the people a splendid address.

THE PARADE

This afternoon on the arrival of the Bloomfield train a parade was formed at the depot and marched to the grounds. Headed by the Wayne Commercial club band the order of the parade was the Wayne Commercial club, the Wausa Improvement club band and members dressed all in white and ladies all carrying red, white and blue umbrellas they presented a very attractive sight. The Jumbo elephant, "Maggie Murphy" the belle of the town and the giant rooster were special features of the parade that attracted much attention. The Randolph business men were next in the parade and followed by a dozen automobiles gaily decorated for the occasion. From all along up the branch large delegations are here to participate in the festivities.

Sad News to Father Cleary
Rev. J. M. Cleary of Minneapolis, who arrived here this morning to fill two dates with the Chautauqua received a telegram at noon conveying the sad news of the death of his mother. He left on the two o'clock train this afternoon for Minneapolis and the Chautauqua management will probably secure General Black who arrived this afternoon to fill his dates.

Card of Thanks
We desire to thank our friends and neighbors for their loving sympathy and beautiful floral offering at the death of our son and brother.—Mr. and Mrs. W. B. Hughes and family.

Boy's Life Saved
My little boy, four years old, had a severe attack of dysentery. We had two physicians; both of whom gave him up. We then gave him Chamberlain's Colic, Cholera and Diarrhoea remedy which cured him and believe that saved his life.—W. H. Stroling, Carbon Hill, Ala. There is no doubt but this remedy saves the lives of many children each year. Give it with castor oil according to the plain printed directions and a cure is certain. For sale by Raymond's drug store.

Will Teach in Philippines
Miss Winifred Hunter, one of Wayne's prominent young teachers will leave next Monday for Manila, Philippine Islands where she has a position as teacher in the public school at a salary of \$1200 a year. She will go direct to San Francisco and sail for the Islands on August 1. Miss Hunter has a sister, Mrs. W. L. Blackett at Manila who is also a teacher in the schools there. Her many friends wish her a pleasant trip and hope that she will like teaching in Uncle Sam's new possessions.

If wish to rod your buildings do it with W. C. Shinn's 30 soft copper wire cable, the only rod recommended by the insurance companies of the state of Nebraska and the only one you can get a reduction of from 10 to 25 per cent on insurance. I have already put up in the south part of Cedar and North part of Wayne county nearly 6000 feet and I am going to commence around Wayne soon. I am the only one that has the agency for the Shinn rod here and the only one that can give you a guarantee. If you wish your buildings rodged write me at Wayne.—Chris Larsen.

home was a most delightful ride. Arriving here the party went to the home of W. R. Weber to spend the rest of the evening after which the party went to Felber's Pharmacy where a dainty spread had been prepared for the party. The ladies de-

clare their husbands are splendid entertainers and it was a most pleasant and novel social event that will long be remembered. Markets today—Spring wheat 88, winter wheat 83, oats 47 1/2, corn 63 1/2, barley 42 1/2, rye 54, flax \$1.00, hog \$5.80.

The editor was dreaming in his "den" when the door opened and a rather stern-visaged woman entered, without apology, says a writer in the Baltimore Sun.

"Will you kindly explain," she began, gratingly, thrusting a newspaper clipping under the editor's nose, "why your review refers to my recent book as a 'History of Female Suffrage by a now Historical Writer?'"

"Quite understandable," said the editor, gravely. "Of course the word should be spelled with a 'y'."

BED-BOUND FOR MONTHS.

Hope Abandoned After Physicians' Consultation.

Mrs. Rose Steiner, 104 and Wash. streets, Centralia, Wash., says: "For years I was weak and run down, could not sleep, my limbs ached, and the secretions were troublesome. I was sent to bed for four months. Three doctors were given up to die. Being urged, I used Dr. Williams' Pink Pills. Soon I was better and in a few weeks was about the house, well and strong again."

Sold by all dealers. For a box, Foster-McMillan Co., Buffalo, N. Y.

Revised edition of the book, "The History of Female Suffrage," is now being published by the author, Mrs. Rose Steiner, 104 and Wash. streets, Centralia, Wash. The book is a history of the struggle for woman's suffrage in the United States, and is a most interesting and valuable work. It is now being published by the author, Mrs. Rose Steiner, 104 and Wash. streets, Centralia, Wash.

Libby's Food Products

Libby's Vienna Sausage

You've never tasted the best sausage until you've eaten Libby's Vienna Sausage.

It is a sausage product of high food value. Made different. Cooked different. Tastes different and is different than other sausage.

Libby's Vienna Sausage, like all of the Libby's Food Products, is carefully prepared and cooked in Libby's Great White Kitchen.

It can be quickly served for any meal at any time. It is pleasing, not over-flavored and has that satisfying taste. Try it.

Libby, McNeill & Libby, Chicago.

COMMERCIAL AND FINANCIAL

Developments are mainly favorable in their general effect upon the future course of trade. The government crop report proved as good as looked for, and with the splendid prospects for greater harvests this year, there is reasonable basis for raising the average of the leading indicators. Money is easier in tone and (excepting investment in high-grade securities and capital for business needs, holiday retail trade rose to extended proportions and this has caused much reduction of merchandise stocks. Clearance sales have brought much buying, prices being attractive in reasonable wares, food products and household furnishings.

A very hopeful indication is presented by the increase of attendance at visiting buyers in wholesale markets, and there is more than the demand usual at this period for fall deliveries of dry goods, footwear, wooleens, clothing and men's furnishings. Furniture exhibits are exceptionally well taken, and the pleasure bookings furnish a gratifying total in the best quarters.

Bank clearings for five days, \$24,461,717, compared with \$20,844,331 in the full week of 1907, a decrease of 20.1 per cent.

Profits reported in the Chicago district number 25, against 25 last week and 24 a year ago. Those with liabilities over \$1,000 number 6, against 10 last week and 7 in 1907.—Dun's Review of Trade.

Midsummer quiet still reigns in general in the industry, but the advance of the season and the volume of good livestock crops have accumulated the feeling of confidence as to the ultimate outcome of future fall business. Filling-in orders from jobbers are numerous, but small, probably indicating widely broken retail trade, and retailers have rather earlier than usual put in force reductions as a means of stimulating consumption. At the West preparations are making for late-season sales, and a more thoroughly organized and systematic buying is looked for this fall than ever before. Industry is possible a trifle more active following last week's holidays, but shut-downs for inventories' repairs or to limit production have apparently more than counterbalanced stimulations that have taken place. Business failures in the United States for the week ending July 9 number 230, which compares with 237 last week, 165 in the like week of 1907, 141 in 1906, 195 in 1905 and 243 in 1904. Business failures in Canada for the week ending 29, which compares with 28 last week and 19 in this week last year.—Bancroft's Report.

Chicago—Cattle, common to prime, \$4.00 to \$7.75; hogs, fair to choice, \$3.00 to \$4.00; sheep, fair to choice, \$2.00 to \$4.00; wheat, No. 2, 90c to 91c; corn, No. 2, 71c to 72c; oats, standard, 50c to 57c; rye, No. 2, 74c to 75c; hay, timothy, \$8.00 to \$12.00; alfalfa, \$8.00 to \$12.00; butter, choice creamery, 15c to 17c; butter, choice family, 14c to 15c; potatoes, new, per bushel, 90c to \$1.00.

St. Louis—Cattle, \$4.50 to \$7.75; hogs, \$3.00 to \$6.88; sheep, \$2.00 to \$4.25; wheat, No. 2, 90c to 92c; corn, No. 2, 72c to 73c; oats, No. 2, 51c to 52c; rye, No. 2, 74c to 75c.

Cincinnati—Cattle, \$4.00 to \$6.25; hogs, \$3.00 to \$7.15; sheep, \$2.00 to \$4.00; wheat, No. 2, 80c to 91c; corn, No. 2, mixed, 75c to 78c; rye, No. 2, 81c to 82c.

Des Moines—Cattle, \$4.00 to \$5.50; hogs, \$3.00 to \$7.00; sheep, \$2.50 to \$4.00; wheat, No. 2, 81c to 82c; corn, No. 2, 71c to 72c; oats, No. 2, 51c to 52c; rye, No. 2, 74c to 75c.

Milwaukee—Wheat, No. 2, northern, \$1.15 to \$1.16; corn, No. 2, 71c to 72c; oats, standard, 50c to 57c; rye, No. 2, 71c to 72c; barley, No. 2, 74c to 75c; pork, mess, \$15.00.

Buffalo—Cattle, choice shipping steers, \$4.00 to \$7.25; hogs, fair to choice, \$3.00 to \$7.00; sheep, common to good mixed, \$1.00 to \$3.50; lambs, fair to choice, \$5.00 to \$7.50.

New York—Cattle, \$4.00 to \$7.25; hogs, \$3.00 to \$7.00; sheep, \$2.00 to \$4.50; wheat, No. 2, 81c to 82c; corn, No. 2, 71c to 72c; oats, No. 2, 51c to 52c; rye, No. 2, 74c to 75c; hay, timothy, \$8.00 to \$12.00; alfalfa, \$8.00 to \$12.00.

Trade and Industry.

Over 150 loaves of what is alleged to be underwear had been found confiscated by W. D. McCall, inspector of bakeries, Minneapolis. It is said that the wary inspector is on the trail of a number of bakers who are furnishing their customers with short weight loaves.

The pro movement from the head of Lake Superior will reach about 22,000,000 tons, according to figures received by vesselmen here. This is little over half of that of 1907.

The annual meeting of the Minnesota State Pharmaceutical Association was held at Lake Carlos, near Alexandria. This session was novel in that it was an outing in a camp, established between Lakes Carlos and Darling. The sessions were held in a large tent and smaller ones were used for sleeping quarters. A large dining hall furnished refreshments.

The plant of the Royal coal mines, at Argentine, Pa., was destroyed by dynamite, the loss will exceed \$20,000. Windows in forty-six residences were shattered. For some time past labor troubles have been experienced at the mines and recently it was believed the difficulties had been adjusted.

With the closing of the federal courts in New York for the summer, so far as their litigation is concerned, nearly 47,000 appeals by importers are now pending on the suspended files of the board of United States general appraisers. No more customs cases will be heard by the courts until October.

Artificial Honey.

Artificial honey can now be made so like the genuine article in flavor that even the expert cannot tell the difference. Thick sirup sugar is boiled with a minute quantity of mineral acid, which converts it into the same form occurring in nature. This is mixed with some natural honey of strong flavor, and thus closely simulates the real article. It is said that the following, known as Ley's reagent, will detect the spurious honey: Ten parts of silver nitrate are dissolved in a hundred parts of water, and to this twenty parts of a 15 per cent solution of soda carbonate is added. The precipitate is filtered, washed and dissolved in a 15 parts of a 10 per cent solution of ammonium chloride. It must be kept in the dark in a well-stoppered bottle. The honey to be tested must be diluted with twice its weight of water. A few drops of the reagent are to be added and heated for five minutes on a water bath in the dark. Natural honey turns brown and shows a greenish-yellow fluorescence; the imitation turns a lighter tint and shows no fluorescence.

Fight the Late Weeds.

The late weeds in the garden—those that come in August and September—are the ones that produce seed before the fact is noticed, and thus stock the ground with weeds next year. The garden is often neglected late in the summer, but it should be kept clear of weeds until the frost, and the result will be a great saving of labor in the growing of small fruits and vegetables, as most of the work required is due to the weeds and grass which spring up at all times.

Cracked Breast in Chickens.

Cracked breast bones in chickens are caused by the heavy birds roosting on poles or fences. The bones of the young birds are soft and are turned to one side by pressing on the roost. If you have heavy fowls let them roost on

FARMS AND FARMERS

A home-made stacker that will do good service in handling hay is shown in the illustration. There are no castings to break and the timber required in its construction can be readily prepared. The dimensions of the various parts are:

The lower timbers which are marked 1 are about 12 feet long and are made of 4 by 5-inch scantling. The side uprights, marked 2, are about 14 feet long, and made of the same material as No. 1. The stanting pieces, marked 3, are about 16 feet long, and made of 4 by 5-inch stuff. The cross piece, No. 5, is 13 feet long, and made of 3 by 5-inch stuff. No. 6 is of 2 by 5-inch stuff, and is bevelled on the front edge to allow the hay to slide over it easily when being shoveled on by the sweep. Timbers numbered 7, 8, 9 and 10, are made of 2 by 6-inch stuff, and are 10 feet long, except No. 7 and No. 8, which should be only as long as the stacker frame is wide. Each end of Nos. 9 and 10 should project a foot on each end over No. 2.

Nos. 11 and 12 are made of 2 by 4-inch stuff, about 10 feet long; those bolted to No. 13 about 15 inches from the higher end of No. 13.

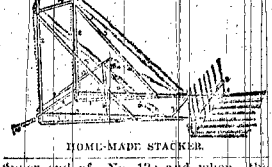

No. 13 is made of 2 by 4-inch stuff, about 8 feet long; the higher end should be about 8 feet above the ground, so that when the stacker is on the ground the weight box, No. 14, should be about two inches from the two pulleys on the upper end of No. 13, also when the stacker is upright, as it is when the hay is thrown on the stack, the weight box should be about 2 inches below the two pulleys on the

upper end of No. 13; and when the stacker is half-way down the weight box, No. 14, should be just clear of the ground.

No. 14 is the weight-box, and should be made of 2-inch stuff, about 8 to 10 inches deep, and about 2 feet square; it must be well spiked together. The idea of the weight is to start the stacker back to the ground as soon as the load is delivered from it on to the stick, and when the stacker is halfway to the ground, the weight acts as a brake for the other half of the way down. The box is filled with stones.

The rope which attaches the weight-box to the stacker should be three-quarters high, passing from the weight up between the two pulleys on the upper end of No. 13, and down to the center of stacker head No. 5. The pulleys on the frame of the stacker should be attached by means of wooden blocks with a notch cut out so that the pulley can fit between the block and frame. Pulleys for this purpose are 4 inches in diameter and made of turned hard wood. These are fastened in place by means of a hard wood pin for an axle. The pulleys should be kept well oiled to keep them from clogging.

The rope for raising the stacker should be either hick or hick and a quarter. The teeth on the stacker can be made of 2 by 4-inch pine scantling, 16 feet long and bevelled on the upper side to allow the hay to slide on easily. The short upright teeth on the stacker head should be about 5 feet long. They are bolted to the long teeth about 2 inches from the stacker head, No. 5, and just against the stacker head, No. 5. The stouter arms, No. 4, should be bolted to No. 2 with a large bolt, about 12 inches from the ground.

Wide Tires Needed.

Every farmer needs one or two low-wheeled, wide-tired wagons on the farm. They are the most convenient for every kind of work in which a wagon is used, especially for hauling manure, filling the silo, hauling grain, corn fodder, etc. A wide-tired wagon hauls easily and does not cut up the land, and also saves much back-aching labor in loading and unloading manure, seed grains, wood, hay, straw, etc. If one already has high-wheeled wagons outright, there are many firms manufacturing wide-tired wheels that will fit any wagon. They cost but a few dollars, and are one of the best investments any farmer can make.—Wisconsin Agriculturist.

Wrecking Windmills.

The passing of the windmill in England, antiquated by such recent power producers as the gas engine and electric motor, has given life to a new industry—windmill wrecking. The old windmill builders understood their business and meant their handiwork to last, and so the demolishing of such structures is no simple task. Many of the old mills stood 100 feet high and had eight or ten floors, fitted with four runs of stones, and contained tons upon tons of brick. Often these huge mills stand close to other buildings, and, says Popular Mechanics, accidents would be inevitable if the wreckers did not have experience in their tasks.

Timely Hints on Farm Work.

A low-wheeled wagon saves many a backache.

A well-oiled, sharp saw saves time and trouble.

The sign of the silo marks a progressive farmer every time.

Too much water and wet, mushy fowls will not lay on fat. It takes the concentrated stuff to do that.

Paint costs pretty high these days, but it will pay in the long run in saving the buildings—provided it is good paint.

The man who cannot lick the hired man harder than the hired man licks the cow doesn't deserve the name of farmer.

Make up your mind that you will not get mad and misuse the calf you are trying to teach to drink, no matter what the little fellow may do. Be patient. You will think more of the calf, and surely of yourself.

Do not make the mistake of filling the silo with corn that is green. It sours quickly and has little feeding value. Wait till it is ripe.

Be liberal with the use of kerosene about the place. A good way to use it is with a spray pump. Send it into every crack and crevice on the house.

It is all right to fix up the old harness rather than to spend money for a new one, providing you can make it good and safe. But don't run any risks. Better go without something else than to work with an old, tender harness.

Truth and Quality

appeal to the Well-informed in every walk of life and are essential to permanent success and creditable standing. Accordingly, it is not claimed that Syrup of Figs and Elixir of Senna is the only remedy of known value, but out of many reasons why it is the best of personal and family medicine is the fact that it cleanses, sweetens, and relieves the internal organs on which it acts without any debilitating after-effects and without having to increase the quantity from time to time.

It acts pleasantly and naturally and truly as a laxative, and its component parts are known to and approved by physicians, as it is free from all objectionable substances. To get it beneficial effects always purchase the genuine—manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists.

Its Money's Worth.

A gentleman interviewed the laundress in regard to lost garments, and she said she had a list of them, with the following result:

Laundress—I regret to tell you, that one of your shirts is lost.

Customer—But here I have paid you twenty cents for doing it up.

Laundress—Quite right, sir. We laundered it before we lost it.

You Can Get Allen's Foot-Powder FREE.

Write today to Allen S. Olmsted, Le Roy, N. Y., for a FREE sample of Allen's Foot-Powder, a powder to shake into your shoes. It cures tired, swollen, hot, swollen, itching feet. It makes new or tight shoes feel like a certain cure for Corns and Bunions. All Druggists and Shoe Stores sell it. 25c.

Chemists say that papers written with the ink in general use will be illegible in 27 years.

He Knew Him.

The jolly, good-natured Greek who drives his wagon round to the Benham's two or three times a week to supply them with fruit, is unknown to simply by name, but answers cheerfully to whatever name they call him by, whether it be Socrates, Epaminondas, Theon, or any other.

"I suppose, Lyssippus," said Mrs. Benham to him one day, "you are proud to be a countryman of the illustrious Marco Bozzaris."

"Who, me?" responded George—for that is the name by which he is usually known.

"Marco Bozzaris. You came from the same country, you know."

"Marco what?"

"Bozzaris. Don't you remember—'Oh, yeh,' said George, his face lighting up. 'He sell fruit over on other side river. But his name? Marco Bozzaris. I know 'im.'"

Man with the Bulging Brow—How do you get so much satisfaction from watching a baseball game? It's no fun to me. Man with the Bulbous Nose—It's because I have a bulbous nose.

ITCHING HUMOR ON BOY.

His Hands Were a Solid Mass, and Disease Spread All Over Body. Cured in 4 Days by Cuticura.

"One day we noticed that our little boy was all broken out with itching sores. We first noticed it on his little hands. His hands were not as bad then, and we didn't think anything serious would result. But the next day we heard of the Cuticura Remedies being so good for itching sores. By this time the disease had spread all over his body, and his hands were nothing but a solid mass of this itching disease. I purchased a box of Cuticura Soap and one box of Cuticura Ointment, and that night I took the Cuticura Soap and lukewarm water and washed him well. Then I dried him and took the Cuticura Ointment and anointed him with it. I did this every evening and in four nights he was entirely cured. Mrs. Frank Diggs, 238 Fremont St., Kokomo, Ind., Sept. 16, 1907."

Good Judgment.

"Your partner," remarked the privileged friend, "seems to be a man of unusually good judgment."

"You bet he is," replied the self-knowledge brain of the firm. "Why he never makes a move without asking my advice!"—Chicago News.

Mrs. Winslow's Soothing Syrup for Children teething, softens the gums, reduces inflammation, allays pain, cures wind colic, &c.

At One Fell Swoop.

"Have you got any of those preparations for removing superfluous hair?" asks the man who enters the drug store with a firm tread and a set countenance.

"Yes, sir," answers the druggist.

"Give me a pint. I want to use it on my head."

"But, man, you haven't got any superfluous hair on your head. You're nearly bald now."

"I know it. And I've got so aggravated and tired watching the confounded hair leaking off day by day that I want to remove the rest of it at one sweep and have the agony over."

Save the Babies.

INFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twenty-two per cent, or nearly one-quarter, die before they reach one year; thirty-seven per cent, or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save a majority of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium, or morphine. They are, in considerable quantities, deadly poisons. In any quantity they stupefy, retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse, but you must see that it bears the signature of Chas. H. Fletcher. Castoria causes the blood to circulate properly, opens the pores of the skin and allays fever.

900 Drops

CASTORIA

ALCOHOL 10 PER CENT.

Vegetable Preparation Stimulating the Food and Bowels of Infants and Children.

Promotes Digestion, Cleanses and Rests Contains neither Opium, Morphine nor Narcotics.

NOT NARCOTIC.

AN HONEST DOCTOR ADVISED PE-RU-NA.

M. R. SYLVANUS E. SMITH, Room 219, Granite Block, St. Louis, Mo., writes: "Peruna is the best friend a sick man can have.

"A few months ago I came here in a wretched condition. Exposure and dampness had ruined my once robust health. I had catarrhal affections of the bronchial tubes, and for a time there was a danger to my recovery.

"My good honest old doctor advised me to take Peruna, which I did and in a short time my health began to improve very rapidly. The bronchial trouble gradually disappeared, and in three months my health was fully restored.

"Accept a grateful man's thanks for his restoration to perfect health."

Per-una for His Patients.

A. W. Peck, M. D., 600 Halsted St., Brooklyn, N. Y., says:

"I am using your Peruna myself, and am recommending it to my patients in all cases of catarrh, and find it to be more than your present. Peruna can be had now of all druggists in this section. At the time I began using it, it was unknown."

His hands were not as bad then, and we didn't think anything serious would result. But the next day we heard of the Cuticura Remedies being so good for itching sores. By this time the disease had spread all over his body, and his hands were nothing but a solid mass of this itching disease. I purchased a box of Cuticura Soap and one box of Cuticura Ointment, and that night I took the Cuticura Soap and lukewarm water and washed him well. Then I dried him and took the Cuticura Ointment and anointed him with it. I did this every evening and in four nights he was entirely cured. Mrs. Frank Diggs, 238 Fremont St., Kokomo, Ind., Sept. 16, 1907."

Good Judgment.

"Your partner," remarked the privileged friend, "seems to be a man of unusually good judgment."

"You bet he is," replied the self-knowledge brain of the firm. "Why he never makes a move without asking my advice!"—Chicago News.

Mrs. Winslow's Soothing Syrup for Children teething, softens the gums, reduces inflammation, allays pain, cures wind colic, &c.

At One Fell Swoop.

"Have you got any of those preparations for removing superfluous hair?" asks the man who enters the drug store with a firm tread and a set countenance.

"Yes, sir," answers the druggist.

"Give me a pint. I want to use it on my head."

"But, man, you haven't got any superfluous hair on your head. You're nearly bald now."

"I know it. And I've got so aggravated and tired watching the confounded hair leaking off day by day that I want to remove the rest of it at one sweep and have the agony over."

900 Drops

CASTORIA

ALCOHOL 10 PER CENT.

Vegetable Preparation Stimulating the Food and Bowels of Infants and Children.

Promotes Digestion, Cleanses and Rests Contains neither Opium, Morphine nor Narcotics.

NOT NARCOTIC.

Exact Copy of Wrapper.

Save the Babies.

INFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twenty-two per cent, or nearly one-quarter, die before they reach one year; thirty-seven per cent, or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save a majority of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium, or morphine. They are, in considerable quantities, deadly poisons. In any quantity they stupefy, retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse, but you must see that it bears the signature of Chas. H. Fletcher. Castoria causes the blood to circulate properly, opens the pores of the skin and allays fever.
