Blood Poisoning

Nearly two weeks ago while J. W. Bartlett was doing some work about his farm he accidentally ran a sliver in the palm of his left hand, or in nail he is not certain which. At an rate it was such a small and apparently healed so quickly that he did not think much about it. Last Friday his hand began to pai him and by Saturday had got so bad that he came in and consulted Dr. Blair, who judging by the inflamed and swollen condition of the hand, prononneed it blood poisoning. He made an incision in the hand and applied remedies for cleansing and keeping the wound open, but by Monday the inflamation was muc worse and the pain more intenit was found necessary to still cessary to still further apply the knife, which was done. The case is being watched carefully and all the best known treatments are being made and it is hoped that Mr. Bartlett may get along with out anything more serious than the

Republican National Ticket FOR PRESIDENT:
William Howard Taft, of Ohio FOR VICE-PRESIDENT: James S. Sherman of New York

Senator Randall deserves to be re elected on the record he made dur-ing the last legislative session. He served the people, not the corporaand a vote for his opponent is

The democrats claim to be much concerned regarding the future this country on account of the influ-ence of the "trusts," and yet in this state it is a notorious fact that all democratic state and legislative tickets.

Taft means continued prosperity, Bryan at best means "what next?" Taft means certainty and stability, Bryan means at best "what next?" Taft means money in the pocket, Bryan at best means money in a dream and ('what next?'' You have to make a choice. Which will it be? Taft and solid progress and prosperity or Bryan and "what next?"

The republican party enacted the direct primary law forever abolishing political bossism and railway domination of state government in Nebraska. For this alone the party deserves the support of every square deal" citizen in the state at the approaching election. Will you lo your share to protect the rule the people and preserve to all the benefits of the progress already made and the advance toward the necessary laws that yet remain to be enacted to secure the "square deal" in all our affairs of state? You can do it by voting the republican state ticket November 3rd.

We have never been able to form very high opinion of a man who has so poor an opinion of the Amercan voters that he thinks they can whoever is willing to pay the most for votes. What must the democrats think of their candidate for president, who is so far belittleing himself the past few days by declaring that the republicans are going his accusation was true who would they buy? Not republicans surely y are going to vote their own admit that they are a purchasable quantity. Such declarations on the much to lose, by having the strength part of Bryan simply show what a become the dominating influent the mailting influence.

The republican party has reduced o mill on dollars created by democratic extravagance and mismanagement to during the years of demo-fusion ex-ess than half a million and will wipe travagance and mismanagement, to tital out within the the year if con-tinued in power. Will not that rec-ord gain the vote of the tax payer for the republican party? It cer-

Candidate Bryan is still shouting 'Shall the people rule?" but he ha failed to indicate whether this beau tiful theory applies equally to all th states of the Union. He is silent or for the rule of the brown man in the the rights of the black man to vote in the Carolinas, Mississippi, Geor gia, Alabama and the rest on from which he expects to get nis largest support.

The farmer who farmed from '93 to '96 will never forget the places he eceived for farm products in also think of the prices his products bring in these prosperous republican party closed up his markets, the oth-er opened them, has kept them open on his place and possibly a few him and expanded them. Will the farm er believe that this was all luck and chance and take another chance on disaster by again voting the demo-cratic ticket for democratic prices?

We wonder if the democrats be willing to take the New York World's figures for the presidential forecast this year? If they do they must concede Bryan's feat. For a great many years it has been conceded by both parties that the poll taken by the World is al-most absolutely correct. This year's poll in New York state gives Taft majority. New Jersey for Taft by 30,400, and Connecticut for 17,000. The same poll indicates that Hughes is to lose New York

Henry Watterson and Bryan

The above was Watterson's ion of Bryan in 1896, but this he is supporting the same man the presidency, and, as he sees ing his hands and frantically calling upon the republicans to forsake their party and save the country from imperialism and all other kindred terson's stamp in the South would be the controlling influence in the Bryan administration, if he should be elected, and is but another r South as a whole, has no idea principles of advancement and farming, or any other industry or enterprise has nothing to gain, but much to lose, by having the South

The reduction of the Nebraska state debt from a sum exceeding two million dollars, piled on the people loss than half a million at the ores ent date, which result is wholly due to republican care and economy ought alone to be enough of a cam naign" issue to elect the entire re publican state ticket without additional argument.

The real question is to cure the buses which have crept into big business," not to destroy business to promote prosperity, to regulate not annihilate. Candidate Bryan advocates a killing process which would destroy the guilty and the inadvocates a killing process promise is to destroy the bad, to correct abuses, to regulate whereve needed and to conserve all eeded and to conserve all honest usiness and promote prosperity. Which plan is best

Says a traveler who has been serving political conditions in "There is no use in trying to try is going to the dogs and a change are not responding to Mr. Bryan's pleas, and they don't sympathize with his ideas. They are satisfied to let things run on as they are."

Last Friday evening Rev. Shar and wife tendered their friends reception at the Methodist There were a large number themselves of the opportunity t give the pastor and his good wife a wish them well for another year The reception proved to be an enjoy attend. Such gatherings tend to bind together pastor and people and help to smooth off the rough places in life.

Last Sunday was observed harvest home day. The church was artistically and bountifully decorat ed with oats, corn, wheat and other good numbers in the Tripp with autumn leaves, showing much trawing. Those we have work on the part of some one is work on the part of some one in planning and carrying out the de-tails. At the morning hours the pastor, Rev. Sharpe, gave his the text: "Ye are God's Farm," in three classes of tillers of the soil, and then drew a powerful lesson on might be doing on their individual farms—their lives. In the evening he continued the thought of the day was full of practical suggestions, es pecially for the young people, and the truths suggested ought to be woven into the everyday life of every individual, and more often would be if they would stop to think and consider the innumerable blessings hey are receiving from the giver of ood and perfect gifts.

Many men who have those kinds of farms are often led to wonner why it is that the boys and girls do not stick to the farm, why are so anxious to get out into towns and cities. You could no more keep a boy or girl who is born with an eye for beauty, or with the least bit of sentiment in their natures, on a farm like that than you could convert an eagle into a common barnyard fowl with no inclination to fly away into realms of greater and better things. excuse for any man living in farm buildings of that character. October Party.

October gave a party:
The leaves by hundreds cam
And Ashes, Oaks and Maples,
And those of every name.
The sunshine spread a carpet,
And everything was grand,
Miss Weather led the dancing,
Professor Wind the band.

The Chestnuts came in yellow.
The Oaks in crimson dressed.
The lovely-Misses-Maple
In scarlet looked their best,
And balanced all their partners,
And gayly fluttered by;
The sight was like a rainbow
