Expects to Get Busy

O. A. King and wife went to Mount Pleasant, Iowa, Monday morning and will go from there to Chicago, taking a little rest and recreation, the first in several years. O. A. expects a very busy season a little later on and is fitting himself to care for all the work that may come his way.

A Kind Act.

The conductor on the east bound passenger train did a very kind act Monday morning by stopping the train near a farmhouse west of Winside in order that a sick man might be put on the train instead of having to be taken to the station in the cold and storm in order that he might be taken to Sioux City for treatment. We did not learn the man's name nor the nature of the disease, but the railway company are to be commended for the act.

Broke Her Arm.

Mrs. Harvey Ringland met with a bad accident Saturday that resulted in a broken arm. She stepped upon a chair to make some alteration in the household furnishings, and got so near the edge of it that the chair upset, throwing her to the floor. In the fall she threw out her right hand to try and save herself, striking heavily on the palm and bending the hand backward, breaking both bones just above the wrist joint. It was a very painful accident, but she is getting along nicely and will have no serious results beyond the pain and enforced idleness for several weeks.

Membership Increased.

Last Friday and Saturday the days set apart to canvass for membership in the local Y. M. C. A. Workers, assisted by district secretary Hollowell were early in the field, and were active in their efforts. While not as large a membership was secured as was hoped for, over forty names were secured, which forms a good nucleus for further efforts later on and a foundation for some good work along the lines of Christian activity. Every Christian man in the community should lend his aid and influence with this organization.

Eighth Grade Examinations

The exact date of the eighth grade examinations has not been set, but we hope to be able to give one the middle of April, and another about the first of May. For the accommodation of those living a distance from Wayne examinations will be given at Carroll and Winside, also at Wayne. All who have been doing eighth grade work will be permitted to take these tests. Teachers should not encourage those not well up with the work of the grade to attempt it, and under no consideration will those below this grade be allowed to take the test—it only discourages the pupil and causes unnecessary work. Those who took the examination last year or other years and have a grade of 75 per cent, or better in any subject or subjects need not re-take the same. All pupils must make an average of 75 per cent, with no grade below 70 per cent. Teachers should urge pupils to take first examination, so in case they fail in any branch or branches, they will have an opportunity to re-take them. All papers will be graded by the county superintendent. Fuller instructions will be sent to all interested in this work after the date has been set.—Wayne County Teacher.

Suddenly Stricken.

Last Friday morning William Thompson, a man well known in this vicinity, living about six miles southwest of Wayne, where he has resided for the past eighteen years, arose in his usual good health and went to the barn to do the morning chores. Not returning when breakfast was ready search was made for him, and he was found in an unconscious condition in the barn where he had fallen. Medical aid was secured as soon as possible but without avail and that same evening his spirit took its flight to the realms of eternity. Nephritis of the heart was decided to have been the cause of death.

Deceased was born on June 5th, 1845, in England, being at the time of his death 63 years, 8 months and 29 days of age. On the 24th of March 1873, he was united in marriage to Miss Rebecca Pettet, of Littleport, England. To this union there were born four sons and five daughters. About thirty-four years ago the family came to America and settled in Illinois. After living there a number of years they moved to Iowa and later came to Nebraska, settling near Wayne, where they have since resided.

There remains to mourn his death a wife, three sons and five daughters, being William P. Levi P., of Wayne; George P., of Carroll, Mrs. Alex. Suhr, of Wayne, Mrs. E. D. Land, of Westington Springs, Nebraska, Mrs. S. P. Miller of Carroll, Nebraska, and Pamie and Sarah at home. The funeral services were held on Sunday afternoon at two o'clock at the St. Paul's Lutheran church, being conducted by the pastor, Rev. C. J. Ringer, after which the remains were laid to rest in the Greenwood cemetery.

Rev. Joseph H. Feigerman, Salsbury, N. C., who is the author of several books, writes: "For several years I was afflicted with kidney trouble and last winter I was suddenly stricken with a severe pain in my kidneys and was confined to bed eight days unable to get up without assistance. My urine contained a thick, white sediment and I passed same frequently day and night. I commenced taking Foley's Kidney Remedy, and the pain gradually abated and finally ceased and my urine became normal. I cheerfully recommend Foley's Kidney Remedy." Felber's Pharmacy.

GOSPEL OF GOOD OATS

Suggestions for Improving the Quality and Quantity of Oats Crop—Better Seed Needed.

Having gotten the farmers pretty well educated up to the needs and importance of good seed corn and better methods of cultivation, agricultural schools are now turning their attention to oats. We give below extracts from an article by Prof. Foxman; of the Iowa State College at Ames:

It is by no means an uncommon thing to find that the oats used for seed purposes were taken directly from the oat bin without any special care and attention being given before they are sown. Every farmer certainly appreciates the fact that small or light or immature seed can by no means be expected to produce as strong and vigorous plants as will the large, plump grains. This has been so thoroughly demonstrated, and requiring as it does so little amount of time to properly prepare the seed that no one can be excused for not giving this matter his most careful attention. In considering the proper preparation of seed oats

for planting, it will be taken up under two headings.

FANNING AND GRADING THE SEED.

First—The benefits derived from fanning and grading the seed are indeed very marked. By so doing, the light, chaffy grains, which are much less valuable for seed purposes, will be removed. Likewise, the weed seed may be eliminated. This is an especially important factor in some localities where weeds such as mustard and others common to our oat crop are plentiful. Again, not only will the weed seeds and light, inferior seed oats be removed, but the large, plump oat grains may be separated from the smaller, lighter ones. This is all important. The last couple of seasons have not been favorable for oats, resulting in a large amount of light grains. Especially has this been true with those varieties which are not so well adapted to our conditions. In general, we find that the early oats have been much better yielders than have the late oats. In all cases, however, we find even in desirable seasons that all the grains are not equally plump or equally large, but on careful examination a very large part, in fact 30 to 50 per cent, will be found to be small or not sufficiently

filled. In seasons when the oats run light in weight, such as last year when many of them were weighing from 18 to 24 pounds per bushel, it will be found that if the oats are thoroughly fanned and screened in many instances it will be hard to save more than 15 to 20 per cent. The importance of fanning and screening oats cannot be too forcibly impressed. Running through the machine once is seldom sufficient; it may be necessary to put them through two or three times before you will be satisfied that the work is thoroughly done. Many of the elevators throughout the State are co-operating with the farmers in this important work.

TREATMENT FOR SMUT

Second—It will cost about eight to ten cents per acre for treating oats with formalin for smut. By a large number of tests over the State it has been found that on a conservative basis there is a loss of from 7 to 10 per cent due alone to smut; or in other words, the Iowa farmer loses annually from 3 to 5 bushels of oats per acre due to smut which could have been eliminated for not to exceed 10 cents per acre by treating the seed with formalin. One pound (1 lb.) of formaldehyde (40 per cent) mixed with 40 gallons of water will treat 40 bushels of oats. The oats should be spread out about 4 or 5 inches deep; a sprinkler is a very convenient method of applying the solution. While the solution is being added it is well that the oats be stirred (a rake can be used for this purpose), in order that the solution may become equally distributed. The oats should then be shoveled into a pile and covered with blankets or gunny sacks, something to prevent the formaldehyde from evaporating too readily. This treatment may be done in the evening and the oats left covered during the night. The following morning they may be uncovered and again spread out. By stirring them occasionally it will be found that they will soon dry out and may be sown the same day. If more oats are treated than are needed for seed they be fed after they have been left exposed to the air for 24 to 48 hours, during which time the formaldehyde will have evaporated. The formalin is the simplest and most effective treatment for smut in oats. In purchasing the formaldehyde great care must be taken that it is of the proper strength as above stated. Should it be weak, the treatment will be of no avail.

AMOUNT AND METHOD OF SEEDING
Seldom do we find that there is being too much seed sown per acre. In general it may be said that 3 to 3½ bushels have been giving better results than a less amount. At the Iowa station this past year 4½ bushels of seed per acre gave the maximum yield. On the average, however, 3 to 3½ bushels per acre can be very generally recommended.

DRILLING VS. BROADCASTING

Taking one year with another it will be found that the drilling of oats is much preferable to the sowing of oats broadcast. The seed is more evenly covered. From a peck to a half bushel may be saved in the amount of seed needed. In some seasons, such as 1907, the use of the drill will be found to be exceptionally profitable. At the Iowa Station an increase of 9 bushels per acre was secured in favor of drilling that season. It will be remembered that the spring was rather cold and dry. Figuring the oats at 33¢ cents per bushel, it will be found that less than 35 acres of oats would have paid for a drill that year. In seasons more favorable for oat production this increase is by no means as marked, yet the drill can be recommended as a much more profitable method of putting in oats than the common system of broadcasting.

District Meeting

About twenty of the Wayne Odd Fellows went to Hartington Tuesday morning to attend the 7th annual meeting of the Northeast Nebraska Odd Fellows Association. There was a large attendance from over the district and an interesting session. H. E. Burkett of Hartington, gave the address of welcome which was full of hearty good cheer and brotherly greetings, which was responded to by F. A. Berry of Wayne, in one of his characteristic addresses, always full of good things. At the evening session the Wayne team exemplified the degree work in a manner that showed them to be familiar with all the details. The session wound up with a banquet given by the Hartington Rebekahs, which was good enough for kings, and was given full justice to by all in attendance.

A DROP OF 4,000 FEET

AN AMATEUR AERONAUT MEETS DEATH IN THE OCEAN.

Hundreds Watch Frantic Efforts of the Unfortunate Man to Control the Hugo Gas Bag—Parachute Caught by a Heavy Wind.

While hundreds watched his frantic efforts to control a great balloon which was swiftly bearing him out over the Pacific ocean Monday at San Pedro, Cal., Lester Atkins, an amateur aeronaut 20 years old, soared 4,000 feet into the air before he cut loose his parachute and dropped into the waters of the outer harbor to his death.

As the stiff wind carried him out to sea, he was seen to struggle with the inner fabric in launches to rescue him, but owing to the high wind their efforts were useless.

As the huge bag rapidly it careened and was carried across but over the water, Atkins tried desperately to guide it back to the land by swinging from the bar below, but soon the balloon was far out to sea. The parachute fell after he had fallen a short distance, but was caught by the wind and carried still further out, and fell in the ocean a mile beyond Deadman's Island. Atkins came to California a few months ago from San Antonio, Tex., where his mother now lives. His body has not been recovered.

HAT WORKERS IN A RIOT.

Attack Made on Men Who Refused to Quit Work—Misses Thrown.

Several persons were injured at Woodbine, N. J., in a riot growing out of a strike at a hat factory when a crowd of about 400 set upon a dozen men who had continued working in the hat shop. Stones, bricks, and other missiles were thrown.

Abraham Willert, one of the men attacked, was struck by a brick and rendered unconscious. Several others were hit by missiles before they succeeded in getting clear of their assailants.

The attack is said to have grown out of the refusal of a dozen men to quit employment in the hat shop. When the disturbance had been quelled the shop was closed down for the day.

FOUND DEAD IN DOORWAY.

Killing of a Chicago Man Puzzles Police.

Hugh Hopkins, 37 years old, son of J. J. Hopkins, superintendent of stations of the South Side Elevated railway, was found dead Monday in a doorway at 8703 Wentworth avenue, Chicago, after John Laterra, a bartender, had reported to the police by telephone that he had exchanged shots with a holdup man in a south side saloon. Laterra was detained by the authorities pending an investigation of his story. He says Hopkins pointed on the door of the saloon after closing hours and when the door was opened drew a revolver and fired. Laterra returned the fire and Hopkins fled. The body was found a block from the scene of the shooting.

Dies in Electric Chair.

William Jones, a negro, was put to death in the electric chair at Sing Sing prison Monday for the murder of Timothy Bunn at Memphis, T. I., September 1, 1907. Three shocks were given before the man was pronounced dead. Jones shot and killed Bunn after a quarrel over a trifling matter in a livery stable, where both were employed.

HUNTING ACCIDENTS

Two Boys Killed and Another Wounded for Several Hours.

Saturday morning Harry Taylor, about 15 years of age, son of a Bellwood Jeweler, and Warren Burton, went duck hunting and when about two miles from town the gun which he had just fired in some manner was accidentally discharged and the entire load of shot entered Taylor's left side near the lung, cutting a large hole. The boy was conveyed to Bellwood by a farmer and died a few minutes after the doctor arrived.

A. J. Taylor and Walter Yankow were freed for three hours on the Gulf river on the north side of the Loup river by the waters which of the meacherosus Platte.

Louis Nebell, the 7-year-old son of Mr. and Mrs. Joe Nebell, was shot by the discharge of a gun by the hands of his brother, Frank. The latter had been out hunting and had just returned and was in the act of letting the hammer down when the gun was accidentally discharged. Louis and his brother were standing in a line about 100 feet apart, the latter standing almost in front of the boy when the accident occurred. Thirty-six No. 2 shot entered the boy's face and neck and the latter expired before medical aid could reach him. On Monday morning the body was buried in the cemetery. The tragedy occurred at the farm home, ten miles south of Leigh.

SHAWMAY DIES FOR CROUP.

Appeals Prove Fruitful and Grant Pails Friday at 2:42 O'Clock.

All efforts to save the life of the dead Shawmay, the son of Mrs. Sarah Martin of Adams, failed Friday and he was buried at 2:42 p. m. in the cemetery at Lincoln. Six hours of execution had been granted during the progress of the case.

Shumway walked to the scaffold supported by two assistants, and as he ascended the steps he said, "I am hanging an innocent man." He said, when asked to make a final statement, "Then I do." "And for the sake of you who have had anything to do to me."

Death did not come so swiftly as in the case of the executioner had hoped for. He died after a struggle of about 15 minutes and it was twenty-one minutes before the heart ceased beating and twenty-seven and a half minutes before the physicians pronounced Shumway dead. After the fall it was necessary to raise the body and replace it on the gallows for a respiration. The next was of broken.

The execution took place in the east end of the broom company's warehouse in the presence of about 150 persons, many of whom were residents of Cass county, where the crime was committed. Among the spectators were Jacob Martin, husband of Shumway's victim, and all relatives living near Adams, including H. H. Groves, a brother of Mrs. Martin, and Representative C. E. Groves, of Platte, a nephew.

GUILTY OF MANSLAUGHTER.

Verdict Returned at Plattsmouth After All Night Session.

After being out all night at Plattsmouth the jury returned a verdict finding the defendant, Fred Osenkopp, guilty of manslaughter in the manner and form as charged in the information.

Osenkopp is still out on bond and his attorney will have three days to file a petition for a new trial. The verdict of the jury is approved by the general public. Osenkopp killed Charles Byrne, at Platte last September.

Much interest was manifested during the trial, which attracted largely attended, not only by the people residing in Platte and vicinity, but also from other portions of the county. The case was bitterly contested throughout.

Hunter Drowned.

Joseph Sharp was drowned and two companions, John Sheet and Richard Aitcher, narrowly escaped a like fate while duck hunting near Plattsmouth. Their boat was crushed in the ice and all three were thrown into the water. Sharp disappeared beneath the ice, but Sheet held to the bank, while Aitcher swam to shore and secured assistance.

Winter Wheat Damaged.

From some parts of Johnson county some wheat has been damaged, but winter wheat has been considerably damaged and that as a result, the crop will be materially shortened. Dry weather has killed the excessive weeds following the spring-like thunder showers of several weeks ago are given as the cause.

That of Official Disclosures.

Supervisor J. H. Wentworth has made a statement under oath concerning specific affairs in the Adams county government and it is understood that it may be used as a basis for disclosure soon to be made by the electric corporation.

Cattle Quarantine May Be Laid.

If the stockmen of Cass county will follow government instructions, it is probable the quarantine that has existed for some time, may be lifted in the near future.

Equation Solved.

Gov. Shallenbarger Friday morning announced the appointment of Fred W. Plafman as member of the board of fire and police commissioners in Omaha to succeed the late Fred Plafman, who recently died. Mr. Plafman's commission will run from March 1 to April 1, 1911.

WOULD HURT BIG PROJECT.

Scotts Bluff People Wrought Up Over Progress of Measure.

Strong feeling has been aroused at Scotts Bluff by the receipt of a copy of S. P. No. 174, introduced by Senator Raymond and passed by the senate last week. Telegrams were sent by officials of the government irrigation project in an effort to head off the bill in the house. The board of directors of the National Valley Water Users' association in a session attended by all of the nine directors, passed the following resolutions:

"Whereas, We, the members of the board of directors of the North Platte Valley Water Users' association, consider that a bill now before the state legislature, known as S. P. No. 174, and which is the interests of the farmers under the government project, and whereas, we believe and are confident that should said bill become a law it will stop the further extension of the government project or construction of the government reservoirs, therefore, be it resolved, that we request and urge our senators and representatives in the state legislature to use all honorable means to defeat said S. P. No. 174."

The resolution was adopted unanimously.

The Water Users' association comprises all the settlers under the four million dollars government project. They pay \$15 per acre on their land under the government ditch to reimburse the national government for the building of the ditch and it then becomes their property. As a part of the government ditch, the National Valley Water Users' association are emphatic in expressing the belief that the bill would do great injury to the government project, which ultimately will be the property of several hundred settlers.

MAYOR MILLER AFTER THEM.

Armed with a warrant sworn out upon complaint of Mayor Miller, who claimed to have reason to believe that certain persons were conducting an improper resort north of Central City, Sheriff Fred. Deputy Diney, Marshal Foster and Constable M. H. Solt made a raid on the place Sunday night and brought in two women described as "Mary Roe" and "Nellie Doe." Judge Peterson convened an extra session of the court Sunday morning and upon the women pleading guilty they were fined \$10 and costs. Upon paying this they were released with the understanding that they would return to take up their residence elsewhere.

Small Boy Kills Player in Baseball Game.

Stevenson Cozad was accidentally shot and killed a baseball game about a mile north of Fremont in Frontier county. Young Cozad is a boy about 13 or 14 years of age. While he was making a run during the game a revolver fell from his pocket, which was immediately picked up by a young boy named Bang, a son of George N. Bang, who was sitting on the bench. "Stop or I will shoot you," apparently in fun and they fired the revolver, Cozad turned at the call and was shot through the left breast and died almost instantly. The boy who thought the gun was loaded, so it is reported.

Nebraskans Congratulate Taft.

The Nebraska legislature, both houses of which are democratic, Friday adopted a joint resolution congratulating President Taft and wishing him a successful administration. The resolution, signed by the speaker of the house and president of the senate, was telegraphed to the White House.

Former Nebraskan Killed.

Mrs. Mary Thomas, who was president of the Nebraska State Normal school, was killed Tuesday in a railway accident at North Worth, Tex. Mrs. Thomas, in company with her little son, was driving over a crossing in the outskirts of North Worth, when the biggy was struck by a passenger train.

Improvement at Hardy.

Butler & Son have begun the erection of a brick store building for Ole Berg at Hardy on the site of the frame building destroyed by fire over a year ago. The excavation has been done for several days and the work is being pushed as fast as the weather permits.

Postoffice Burglary at Pauline.

The general store of Clay McClery at Pauline, Neb., was entered by burglars about \$75 in cash and \$170 worth of jewelry was secured from the post-office which is in the store. Merchandise to the value of between \$50 and \$100 was secured. Nothing is known as to how they entered or left the store.

Case is Restored.

The murder case of the state vs. Fred Osenkopp, who is charged with the responsibility for the death of Charles Byrne of Platte, has been returned in the district court at Plattsmouth after a vacation since November 9, when the case was adjourned by the court on a condition of \$5000 bail.

Prisoners Released.

The W. C. T. U. of Wayne has planned to give an entertainment for the latter part of April. It is planned to have a concert, and the selections to be given will be selections which have been given at the "Hour of Prayer."

Body of Murdered Man Buried.

The body of a man who was killed in Geneva, N. Y., has been buried in the Niagara River near Valparaiso. The man was killed by a bullet. It is supposed he was hit by a bullet and killed during the rush of lead soldiers' last fall.

Settled the sign. When William M. Everts was secretary of state a new elevator man had been employed in the department who did not know Mr. Everts by sight. In his car was a conspicuous sign to the effect that by order of the secretary of state smoking was prohibited. One day Mr. Everts boarded the car in company with a famous senator, the latter smoking a cigar. The new man promptly touched the smoker on the elbow and said, pointing at the notice, "Can't you read that sign?" Mr. Everts promptly tore down the offending notice and, turning to the elevator man, said: "What sign? I don't see any." The attendant, suspecting something, wisely held his peace, but he followed the pair out and asked the guard at the door who the chap with the large head was. The guard told him.

The Other Side.

An article clipped from another paper recently appeared in our columns in which the name of a well-known chemist and pure-food authority was used in a way that might lead one to suppose that he had condemned Calumet Baking Powder. We are informed that this is not the fact, and that the truth in regard to the exposition award given the Calumet is as follows:

When the World's Pure Food Exposition of 1907 was organized, a Commission on Tests, consisting of twelve most eminent scientists (chemists, physiologists and physicians) was appointed which had entire control of the granting of awards.

The Commission on Tests directed the chemists as to the nature and extent of the tests to be applied in the case of each particular product. The reports made by the chemists were the basis of facts upon which the Commission granted the awards. Every possible safeguard was placed about the granting of awards to prevent crookedness.

Under these circumstances the Calumet Baking Powder Company feels justly proud of having received the highest award for Calumet Baking Powder.

Continuous Performance.

"Ebezer," called out Mrs. Jayway from the floor above, "have you been drinking again?"

"No, in dear," answered Mr. Jayway, in the hallway below. "Not again, still."

Breaking Up Colds.

A cold may be stopped at the start by a couple of Lane's Pleasant Tablets. Even in cases where a cold has seemed to gain so strong a hold that nothing could break it, these tablets done it in an hour or two. All druggists and dealers sell them at 25 cents a box. If you cannot get them send to the proprietor, Orator E. Woodward, Le Roy, N. Y. Sample free.

Well Chorus.

"Bad as it is to be in a rut, it is better than to wobble all over the road. There are times when it is possible to get too much of a good thing, even in the matter of denominational breadth. Such a case is mentioned by a writer in the Redman. At the close of a revival service the minister went down the church aisle, according to his custom, to greet the strangers in his congregation.

"I don't think you are a member of our church," he said to one, as he warmly shook his hand.

"No, sir," replied the stranger.

"Well, you will not think me unduly curious if I ask you to what denomination you belong?" asked the minister.

"I suppose," responded the other, with a twinkle in his eye, "that I am really what you might call a submerger."

"A submerged Presbyterian!" exclaimed the minister. "I should be glad if you would explain."

"Well, I was brought up a Presbyterian, my wife is a Methodist, my eldest daughter is a Baptist, my son is the organizer of a Unitarian church, my second daughter sings in an Episcopal choir, and my youngest goes to a Congregational Sunday school."

"But," said the minister, agast, "you contribute, doubtless, to some church?"

"Yes," was the answer, "I contribute to all of them, and that's what submerges me."

CONGENIAL WORK.

And strength to perform it. A person in good health is likely to have a genial disposition, ambition, and enjoy work.

On the other hand, if the digestive organs have been upset by wrong food, work becomes drudgery.

"Until recently," writes a Washington girl, "I was a railroad stenographer, which means full work every day.

"Like many other girls alone in a large city, I lived at a boarding house. For breakfast it was mush, greasy meat, soggy cakes, black coffee, etc.

"After four months of this diet I began to feel sleepy and heavy in the mornings. My work seemed a terrible burden—and I thought the work was to blame—too odious.

"At home I had heard my father speak of a young fellow who went long distances in the cold on Grape-Nuts and cream and nothing more for breakfast.

"I concluded if it would tide him over a morning's heavy work, it might help me, so on my way home one night I bought a package and next morning I had Grape-Nuts and milk for breakfast.

"I stuck to Grape-Nuts, and in less than two weeks I noticed improvement. I can't just tell how well I felt, but I remember used to walk the 12 blocks to business and knew how good it was simply to live.

"As to my work—well, did you ever feel the delight of having congenial work and the strength to perform it? That's how I felt. I truly believe there's life and vigor in every grain of Grape-Nuts."

President Taft's Inaugural Address

President Taft, after taking the oath of office, immediately began the delivery of his inaugural address, which in part is as follows:

Any one who takes the oath I have just taken must feel a heavy weight of responsibility. It may be that no condition of the powers and duties of the office upon which he is about to enter, or he is lacking in a proper sense of the obligation which the oath imposes.

In giving an inaugural address it is to give a summary of the main policies of the new administration, so far as they can be anticipated. I have had the honor to be one of the advisers of my predecessor, the professor, and as such, to hold his hands in the reforms he has initiated. I should be untrue to myself, to my promises and to the expectations of the people, if I did not make the inauguration the inauguration of these reforms, the most important feature of my administration. To preserve the reforms, however, and to secure the full benefit of freedom from government interference, it is necessary that the legislative and executive branches of the government should be able to work together in a harmonious and efficient manner.

GROOMING COUNTS

But it cannot make a Fair Skin or a Glossy Coat.

Lane's Family Medicine

Women with good complexions cannot be homely. Creams, lotions, washes and soaps cannot make a fair skin. Every woman knows that the skin of her face is the most important part of her appearance. Let the horse get off his feet and his coat falls off. Give your skin the same care.

Lane's Family Medicine is the best preparation for ladies who desire a healthy, clear, and glowing complexion. It is a gentle, reliable, and effective remedy for all skin troubles.

CALUMET Baking Powder

Received Highest Award
World's Pure Food Exposition
Chicago, November, 1907

What does this mean?

It means that Calumet has set a new standard in Baking Powder—the standard of the World. Because this award was given to Calumet after thorough tests and experiments, over all other baking powders. It means that Calumet is the best baking powder in every particular in the world. And this means that Calumet produces the best, most delicious, lightest, and purest baking of all baking powders. Doesn't that mean everything to you?

Good Showing

In this issue will be found the statement of the Farmers State Bank of Altona at the close of business February 23rd. It shows deposits of a little over \$19,024. This is certainly a good showing for an institution only a little over two months old, and especially in a little inland town like Altona. The bank has a fine set of officials who are looking carefully after its affairs, and outlook for still further business is bright.

Confidence Well Placed.

The State Bank of Wayne, in its published statement last week, at close of business February 23rd, shows a remarkable degree of vitality. Its individual deposits subject to check were \$148,098.36; demand certificates of deposits, \$940; and time certificates of deposit, \$176,815.64, a total of \$325,854. In these figures there is abundant evidence that the people have confidence in the officers of the institution and that its affairs are well looked after and carefully managed. The State Bank of Wayne is one of the strong banks in this part of the state, and is well officered and controlled.

Exciting Experience

Otto Krie had an exciting experience one day last week in trying to cross the Logan creek bridge on the Concord road north of town. The high water had washed away part of the approach to the bridge, making the driveway narrow and forming a deep hole. As the team approached the bridge it shied a little with the result that the wagon loaded with corn and Otto, was forced off the grade into the icy water and it looked for a few moments as though the whole outfit would go under. Fortunately the horses held their footing and succeeded in pulling the wagon out with Otto hanging on for dear life.

Jake Surprised.

Last Saturday evening a very pleasant surprise was perpetrated upon Jacob Roush, one of Wayne's citizens and an old soldier residing on West Third Street. Jake attended G. A. R. Post meeting on that evening, and at its close was inveigled by Comrade Anson into attending the Lyric theater. While they were there looking upon the moving picture exhibit, ten or a dozen of his army comrades marched upon the citadel of his home and captured it without a struggle. Mrs. Roush and some of the neighbors being implicated in the plot. When it was ascertained by watchful scouts that Jake was nearing his home all noises ceased, and when he stepped into the room it was to be greeted by the assembled guests in a hearty manner. He was dumfounded at the sight, but soon regained his composure and made merry with the others until quite a late hour. There were some good songs by two little girls, sisters by the name of Kobb, a recitation by Gottlieb Heller, some remarks by Miss Charlotte White, and reminiscences by some of the comrades, and then followed a luncheon that was very much in contrast with what the soldier boys were used to in the days of the civil war, consisting of sandwiches and coffee, salad, doughnuts, two kinds of cake, ice cream and oranges, all so appetizingly cooked and served that it is very evident that Mrs. Roush understands the art of cooking to perfection. The evening was a pleasant one and enjoyed by all participating. All of Jake's soldier comrades who were unable to be present regret their absence.

Effective March 1, 1909: All rural letter carriers will resume count of the number of pieces of mail matter delivered and collected by them on their routes. This count will continue during the months of March, April and May. After this it will all depend on the count whether carriers will have to continue count or not. It is to the interests of every patron on the route to do all their business with the route man; remember it is to your interests, not the rural carrier's, to give all your money orders and registers to your carrier.

The schoolma'am is certainly the guiding star of the republic. She takes the little bantling fresh from the home nest, full of his pouts, his pet and his passions ungovernable in many cases, a rampant, riotous little wretch whose own mother often admits that she sends him to school purposely to get rid of him. The schoolma'am takes a whole carload of these little anarchists, half of whom singly and alone cannot be handled by their own mothers, and she puts them in the way of becoming useful citizens.

If a state Normal is to be located in north Nebraska, the legislature can do no better than to buy the institution at Wayne. It is undoubtedly worth the price asked for it, is well equipped and located in a good town.—Winside Tribune.

DO YOU WANT TO GO TO COLLEGE? If so we can help you. We have already put hundreds through college by means of our plan. Write today for full information regarding our offer of a free scholarship in any school or college. Address: Robert J. Sherlock, 29-31 East 22nd Street, New York City.

"One flew east, one flew west, and one flew over the Cuckoo's nest," is an old song that used to be sung years ago. That is much the way with the emigrants this year. They are going in all directions, nearly one-half of the freight cars passing over the roads are goods of that kind. It seems to be much worse than for many previous years.

Nothing pays better than good roads. It costs something to secure them, but they are the arteries that connect city and country, along which the currents of comforts perpetually flow. Bad roads, full of chuck holes, kill time, team and temper. Be sure then that money thus intelligently expended is wisely invested and be sure to realize the future results.

Almost every one is able to find some excuse when things do not turn out as they expected or prophesied they would do. Just tow the weather prophets are very much in disrepute, having said that the weather for the presidential inauguration and that for last Sunday in this section would be clear and pleasant, while in both instances it was snowing. But the weather man calls such things "flare backs" and comes up smiling.

A man had seventeen horses and three sons. He wished to give the first son half the horses, the second son a third and the third son a ninth, but as he could not cut a horse in two he was at a loss what to do until a neighbor came to his assistance. "Let me give you a horse," said the neighbor. "Then you can give your first son half of your horses, the second son a third and the third son a ninth, and you will have my horse left to give back to me." The man accepted the offer and found it as the neighbor had said. Work it out and see if it is not so.

Mr. and Mrs. H. P. Bellows, who are to leave Wahoo in a few days to make their home at Wayne, were given a surprise by the members of Stella Chapter, O. E. S., at the lodge room Tuesday evening. There were a large number of their friends present and the evening was a very enjoyable one. On behalf of the chapter, Mr. Gilkeson presented Mr. and Mrs. Bellows each with a handsome souvenir silver spoon. Refreshments of sandwiches, salad, cake, coffee, pickles and fruit were served. The departure of Mr. and Mrs. Bellows from this city is regretted by all who know them.—Wahoo Wasp.

You would be much surprised, no doubt, to go out in a farmer's field and find \$75 or \$100 in cash lying around in a snowdrift, and then learn that it had been there all winter and no one had picked it up, and yet that is what can be done in many instances, in the way of good machinery, left to the care of the elements.

The home paper is one of the most telling and forceful advertisements of a home institution. It speaks for the enterprise of the place, and to strangers it illustrates the spirit and enterprise possessed by the people. It is always well to bear in mind that seekers for homes and for business locations never pick out dead towns. A small town where the people are enterprising often holds forth to the progressive settler greater opportunities than does the larger city.

Local cream men are stirred up over some proposed legislation now before the state legislature. Representative J. P. Krause of South Omaha has a bill before the legislature to permit the packing houses to manufacture a substitute for butter. The cream and dairy men all over the state are opposed to it and petitions are being circulated to kill the bill. The cream business is a large item in the state's industries, amounting to about \$9,000,000 last year, and those engaged in that business believe the proposed law will materially affect the price of cream and butter fat.

Judge McPherson of the United States District Court says that the two cent fare law and the rates fixed by the Missouri legislature are not remunerative to the railroads. The Judge says that six per cent is a necessary basis on which to give the roads a reasonable profit and that the evidence in the cases—eighteen roads being combined in the suit—shows that many of the roads are earning nothing and the best of them only four per cent, therefore the law is confiscatory and invalid. The increase in travel, by the decrease in fare, at the best was only three per cent and in most cases only one per cent, and the increase owing to the abolition of passes was less than one per cent.

Notice is given that 51,657 acres of public lands, belonging to the United States, in Gregory county, South Dakota, will be sold at public auction to the highest bidder for cash, at not less than one dollar an acre, in the town of Gregory, South Dakota, beginning on March 25, 1909. Bids may be made in person or through agents, and bidders will not be required to show any qualifications as to citizenship, ownership of other lands, or otherwise, but no person can buy more than six hundred and forty acres. Purchasers will not be required to reside upon, improve or cultivate the lands, and patent will issue soon after the close of the sale. Maps showing the lands to be sold can be had on enquiry of postmasters at Dallas or Gregory.

The daily papers of Monday morning had extended items about the Roosevelt family walking to church in the snow at Oyster Bay, and that President Taft also went to church on foot. Well, what of that? Lots of people in Wayne walked to church Sunday morning. The Roosevelts and Tafts are only American citizens the same as the rest of us.

A Good Man Gone

J. M. PILE

We are very sure that this item will bring a tinge of sadness to many lives and a feeling of sincere sorrow and regret to a very large circle of friends, acquaintances and former students of the Nebraska Normal College, of which he was the President. At about 10:30 this forenoon the spirit of J. M. Pile passed out of its tenement of clay to the unknown realities of another world. He has been in very poor health for many months and the past few weeks has been gradually growing weaker and weaker until the end came. Mr. Pile was born in Kentucky on October 21st, 1857, and was 51 years of age last October. He had been a resident of Nebraska for many years, being engaged in educational work elsewhere before coming here. Nineteen years ago he came to Wayne and established the Nebraska Normal College and has been its President and Manager all these years, having by his ability and character as an educator and a man made a success of the institution from the start. As we go to press no arrangements have yet been made for the funeral, and a more extended notice will be given next week. We are sure that his wife and children have the heart-felt sympathy of the community in this, their great affliction.

LATER—Just as we go to press we learn that it has been decided to hold the funeral services Saturday morning at 10:30. The students will hold a service in the Chapel and services will also be held at the residence on College Hill. During the hour of the funeral all the business houses in the city will be closed in honor of the deceased.

The Foreign Missionary society of the M. E. church will meet with Mrs. F. E. West Friday afternoon of this week. A good attendance of the members is desired as there is business of importance to transact.

C. A. George Newman, who styled himself the "King of Laughter," held forth at the opera house three nights this week. Do not know whether his entertainments were good, bad or indifferent.

An Old Resident Called.

Wednesday evening of this week, after an illness lasting from last November, Robert J. Armstrong passed over the border land between the known and the unknown. Deceased was born in Montreal, Canada, February 7th, 1841, being a little past 68 years of age at the time of his death. He was united in marriage in New York State to Miss Ellen Fortune, removing from there to Muscatine, Iowa, and coming from Iowa to Wayne 25 years ago. Five children were born to them four of whom are living, being James, of Kansas City, Missouri, Robert, of Groversville, New York, Mrs. Bertha Forbes, Rhinelander, Wisconsin, and Harry of Wayne.

The funeral services will be quiet and from the home, taking place at 10:30 Friday morning. Rev. Sharpe will conduct the services which will be in charge of the Local Camp of the Modern Woodmen of America, of which he was a member. Burial will be in Greenwood cemetery. Another worthy citizen has laid down the warfare of life and gone to try the realities of the realm beyond. The sympathy of a large circle of friends goes out to the bereaved members of the family.

Mr. Armstrong was engaged in the coal business here and on Friday morning at 10:30 all the business houses will be closed during the funeral.

Was Showered

At the home of Mrs. Blaine Skeen on Thursday evening, twelve married ladies surprised Helen McNeal with a handkerchief shower. The young women all wore sheets and pillow-cases and masks so when Miss McNeal came to call at the invitation of Mrs. Skeen she was greeted by their twelve ghost-like figures. Each lady carried her handkerchief in a deceiving parcel, one being in a hat box, one a stick-pin box, another a sack, another a fruit-knife box. The unwrapping of these afforded a great deal of amusement. To each parcel was a short rhyme of the donor's own composition, these were of a sentimental nature and welcoming Miss McNeal to the ranks of wedded women. Though the meter was not always correct the sentiment was not lacking and some of the verses were very clever.

The invited guests were Mesdames Harry Jones, H. J. Felber, Rolfe Ley, Harry Craven, W. E. Johnson, Harry Fisher, Will Morris, Roscoe Jones, A. R. Davis and Geo. Sherbahn.

The Johnson Furniture Company received a car load of furniture Wednesday morning. That is a good indication of the kind of business they are doing this season.

County treasurer Beebe has the frame work for his fine new home up and mostly enclosed. It is to be much after the plan of the Baptist parsonage and will be modern and convenient in every respect.

The large amount of furniture our dealers are selling these days indicates that a great many people are getting married and setting up housekeeping or else the newcomers are getting new outfits, or perhaps both.

County assessor Witter is very much pleased over his set of new books, for this year. They are a great deal more complete than any ever used before. He has everything in readiness for the deputy assessors to begin their work the first of April.

Representative Nettleton, one of the legislative visiting committee that was appointed to come to Wayne to investigate the Normal School proposition, is an old time friend of Judge Hunter and wife and was their guest while here Saturday.

C. S. Sprague, the jolly man who has charge of the oil wagon, has been limping around by the aid of a cane the past week, caused by a horse trying to lay down on him, last Thursday, badly wrenching one of his legs. He is a very strong man, but not stout enough for that kind of usage.

Postmaster McNeal informs us that he will be a candidate for postmaster to succeed himself when his present term of office expires. If an accommodating spirit, strict attention to the duties of his office, and neatness of office count for anything, and they most assuredly do, he should have no trouble in securing the appointment for another term, and very likely will have no opposition.

Mr. and Mrs. Henly departed Monday for Missouri to remain. Mrs. Henly received word that her father was dangerously ill, and as Mr. Henly, who had been employed at the city pumping station during the winter at night, was out of work, they decided to move to Missouri to reside.

Miss Bellows will please you with her reading at the Band concert March 17.

G. P. Gaertner is still doing business at the old stand, and is not only selling wagon loads of it to the farmers but is also sending furniture to the neighboring towns.

If you do not think there is a demand for good Plymouth Rock chickens you should have seen the scramble for those C. F. Whitney had on sale the past week.

Mrs. Green, sister of Mrs. H. G. Leisenring, arrived here Monday afternoon from California, for a visit. Three days and two nights out from the Pacific coast is going some.

Mrs. Lloyd, wife of one of our good farmers northwest of town, was taken to Sioux City Saturday where she was operated on for appendicitis, and is recovering nicely from the same.

Sheriff Means has not exactly gone into the saloon business but he has had charge of one of the thirteenth parlor—the middle one—for the past week, the alleged owner having departed, being unable to meet his obligations.

We will bet a nickel that Mrs. R. Phileo was the first person in Wayne or vicinity to cast any kind of seed into the earth this spring with any thought of its growing. Last Monday she was sowing grass seed on top of the snow on their lawn. She said the old saying was to sow the seed on top of the March snow and it was sure to grow.

The Young Men's Christian Association will hold a banquet in the A. O. U. W. Hall next Tuesday evening. Mr. McCormick, one of the prominent bankers of Sioux City will be present and give an address. He is thoroughly posted on the movement from a business man's standpoint and will give an able address. There will also be other speakers and a general good-fellowship time.

Vechti Mega, the little India orphan who has been helped to a Christian home and an education by Wayne friends, has written a most touching letter to her kind benefactors. Vechti is now almost thirteen years old and is in the seventh grade at school. Her teacher describes her as a "quiet, earnest child and an eager student." All the ladies are cordially invited to attend the Bible Study Circle at the home of Mrs. C. O. Fisher, Wednesday afternoon, March 17, when an offering will be taken for the child's support for another year.

St. Patrick was a good Saint. The Band concert on the 17th will also be a good one.

John Coleman shipped one of his fine brood sows to Coleridge Monday afternoon and received another one the same day from that place. Both breeders of Poland Chinas thus improving their herds.

To those wanting horse bills printed for the coming season we wish to state that the Herald is the best equipped office in this locality to furnish just the kind of a bill you want—any size or description—in an attractive manner.

J. W. Bartlett has moved into town from his farm on route 4. He sold the same last fall and the new proprietor, W. T. Munsinger, from Iowa, has taken possession. Mr. Bartlett will improve his town residence this season by an addition.

If you are in need of any kind of job work call at the Herald office. We are now in position to do all classes of work, neatly, quickly, and well. Prompt service is our motto, coupled with the best of goods and low prices.

William Hayward of Nebraska City, Nebraska, secretary of the National Republican committee, has been asked to become first assistant postmaster general of the United States. Mr. Hayward is only thirty-two years old but has had considerable experience in politics and law.

Mrs. H. G. Leisenring, who has been so seriously ill for the past three weeks that at times her life was despaired of, has had a decided change for the better and is now on the road to rapid recovery, which her many friends will be very glad to learn.

Dr. Summers, of West Point, who sold his practice and went to Utah with John Hoar, has found that the high altitude and the climate of that state does not agree with him and he has been forced to give it up and return to West Point. The two gentlemen expected to go into the fruit-raising business together.

H. C. Henny has decided to erect a fine business block on the lot north of Neeley & Craven's store. It will be the full width of the lot, 25 feet, and 80 feet in depth, two stories in height, and will be a valuable improvement to the business portion of the town. When completed Howard Whalen expects to occupy the same with his bakery.

Mrs. Morris will sing a solo at the Band concert on the 17th.

Wall Paper **Dinner Ware Talk** Phonographs

We have this week placed in our store an open stock pattern of HEINRICKS THIN WHITE CHINA. This is a plain white Austrian china, the shape is something new and very neat and stylish. In quality it looks like the Haviland that you have all seen and admired. We enjoy a very low cost on this ware, and have marked our selling price correspondingly, so this pattern is within reach of all who wish to add something new and dainty to their table ware. We ask you to give us a chance to show you this pattern.

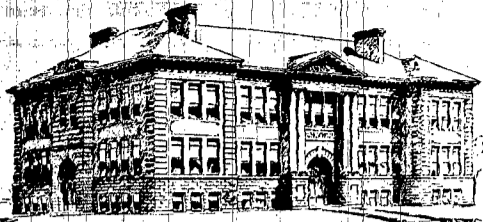

We also have an open stock pattern of the CHANDOS WHITE AND GOLD dinner ware. It is a very neat, dainty pattern, and at prices just a trifle more than the plain white ware.

A dinner set of both the above patterns is on display in our window. We ask you to look at them and learn the very low price at which you can own a dinner set of this ware.

CORNER STONE WAS LAID.

The Corner Stone of Wayne's New High School Building was laid last Saturday Without Ceremony.

After two ineffectual attempts to lay the corner stone of the new school building, the plans being frustrated by the weather, the stone was put in position by the stone masons without any ceremony and in the presence of only a few witnesses, last Saturday at the noon hour. Within the stone was placed two copies of the Wayne Herald, copy of the Wayne Democrat, a copy of the Sioux City Journal containing President Taft's inaugural address, a copy of the school board proceedings leading up to the issuing of the bonds, the name of the contractor, list of the directors, the names of the School Superintendent, E. P. Wilson, and his corps of teachers, the autograph name of every school child in the district able to write, and many other items that might be of interest after many years in case the building should be torn down. Owing to the severe weather during the month of February practically no work was done on the structure but with the advent of the warmer March days and prospects for a continuance, work was resumed again

last Friday, with a small force of men, which was largely augmented Monday, and from now on there will be something doing every day until the building is finished. All of the window frames on the first story, 48 of them, are set and a little of the pressed brick laid most of the way around. There will be three large entrances to the first floor from the outside, one on the south, west and east, the principal entrance being from the east. The hall-ways from east to west and from north to south run the entire width and length of the building and are wide and commodious. Every room on the first floor can be reached from every other room so that there will be very little chance for an accident to occur in case of fire or from any other cause, owing to the inability of the scholars to make an exit. The same plan will also be carried out on the second floor. Every patron of the schools and our citizens in general will have reason to feel a just degree of pride in the new building when completed as it is to be second to none in the matter of equipment and completeness of detail in every respect.

Laurel Advocate Says
"Uncle Billy" Walters suffered a sad accident Monday evening. Mrs. Walters was away for the night and just what happened is not known; but Mr. Walters had a new team and it is supposed they knocked him down and tramped upon him when he went into the barn to water them. His collar bone and two ribs are fractured and his condition is reported to be very serious.

Mrs. S. V. Flint left on the early train yesterday for short visits at Wayne and Watertown, (S. D.), before going to the new home at Ree Heights, South Dakota. Mr. Flint and Ralph left Tuesday night with the car. Before leaving Mr. Flint sold his home to his son Frank. They say they may return to Laurel after a few years; in the meantime their friends hereabouts wish them success and happiness in their new home. They were among the early settlers in this part of Nebraska, having resided in the vicinity of Altona many years before coming to Laurel.

J. A. Wingate and wife were drowned in the East Bow, about fifteen miles north, Tuesday evening, while on their way home from Hartington. They lived on what is known as the O'Flaherty place and had been in the state six years. They were in the sixties and leave a large family. One son is in a bank in North Dakota and several daughters are married. They were very highly esteemed and their sad fate is deeply regretted. Sheriff McFadden was in Laurel when news of the accident reached here and said that he talked with Mr. Wingate on the street in Hartington about five o'clock Tuesday evening, and the latter said then that he must hurry and start for home, as the roads were so bad and the water so high. The distance from Hartington to their home was about twelve miles. One of the bodies was not found until late Wednesday afternoon.

Some Superstitions

Yes, Ethelinda, we do believe in certain superstitions. For instance: We think opals are unlucky when we pay \$75 apiece for opals that are worth \$2 a dozen.

We think it unlucky to walk under a ladder and have a painter on the top rung drop a quart of green paint on our new chimney top hat.

We think it most unlucky to sit thirteen at a table when there is only food enough for four.

We think it unlucky to start on a ten day trip on a Friday when we have hardly enough money in our pockets to last over Sunday.

We think it unlucky to pass in front of a funeral procession when the hearse is going so fast that it knocks us down and runs over us.

We think it is a sure sign of bad luck to open an umbrella in the house and have a hornet's nest drop out of it on our head.

We think there is no doubt that trouble will follow a man five feet two inches high, with muscles like a jellyfish, who calls a professional pugilist a liar.

We are sure it is a sign of ill luck when a mirror cracks across the front and it costs \$22 to have a new glass inserted.

We think it unlucky to put a beaver hat on a bed where some man or woman weighing 260 pounds is likely to sit on it.—Ex.

Contest Held

Last Friday the students of the Wayne High School held a debating contest to select three of their number to debate with the Oakland High School. There were seven contestants for the honor—Herbert Welch, William Sharpe, David Meeker, Chas. Nicholas, Ben McEachen, Rollie Miller and Richard Forbes. The question under discussion was the Postal Savings Bank, not really for or against, but to see which of the boys were best fitted to meet the Oakland contestants. All of the boys were in favor of the Postal Savings Bank except Richard Forbes and he took the negative. The judges were Chas. Beebe, Rev. C. J. Ringer and A. R. Davis, and their decision was in favor of Herbert Welch, William Sharpe and David Meeker, and those three will meet the Oakland debaters. Those kind of contests are a good thing as they tend to put the boys on their mettle and bring out their individuality.

Will Bring Suit

It takes some people a good long time to get mad, at least mad enough to go to law. Among the cases on the docket for the March term of court in Wayne are those of Grace Houser vs Effie M. Repine and Louise M. Dornberger vs Effie M. Repine. The injuries received that are the basis of the above cases occurred nearly a year ago, at which time the two young ladies who are the plaintiffs, were run over by the defendant's automobile. The injuries received were not of a very serious nature but it was only their good fortune that they were not as all who saw the accident were sure they would not escape without broken limbs at least.

They Are Good Coats to Own

KUPPENHEIMER cravenette coats are good to look at too—and they are good to wear, and good in a great many other ways. We show two styles in these coats this season, the "Naval," a "button to neck" model, and the "Watershed '09." Both are beautiful coats and both have that KUPPENHEIMER Label. This label—by the way—is something that you should have in your spring clothes. Once you have it, you will always have it.

Come in and ask to see these coats—try them on—and you will see at a glance that they are coats well worthy of the KUPPENHEIMER Label.

Under storm clouds or fair skies, the "Watershed '09" and "Naval Watershed" are equally good form, good style, good protection—and superior quality distinguishes them as it does every other KUPPENHEIMER garment.

Remember the Label

JOHN H. KATE

Thirty-five years' experience in selling various makes of clothing has taught this store that KUPPENHEIMER Clothes are best—and that the KUPPENHEIMER Label means more than other labels.

Committee Were Pleased

Last Saturday morning Messrs. A. H. Bowman, J. L. Fogarty, C. J. McCall, George W. Leidigh, B. K. Bucher, D. J. Killer and R. H. Holmes, the committee of Representatives appointed by the Nebraska legislature to come to Wayne and investigate the Nebraska Normal College, arrived in Wayne at eight o'clock and were met at the depot by a large delegation of our representative business men and were taken in carriages out to the college where they spent a couple of hours looking over the grounds and buildings. Most of the committee returned on the ten o'clock train but some of them remained until evening. The school has been offered to the state for \$100,000, and the committee were much surprised to see the extent of the buildings and their substantial character, and were very favorably impressed with the surroundings and site. We are told that they expressed themselves as being so much pleased with the town and school that they should report favorably on the proposition to have the state purchase the same, but perhaps not at the price asked. There can be no question as to the desirability of the location nor the town in which it is located, neither can there be any question but what this part of the state is entitled to a normal school. Men who have been here a long time and are well versed in all the details of the institution are certain that the state would be getting a bargain at the price asked. The school already has a fine reputation as an educational institution, which is abundantly proven by the large attendance at all seasons of the year. Its course of study and instructors is among the very best in the state, so that there would not be any long wait to secure an enrollment of students as there would be at Ainsworth or other places to the northwest where new schools are talked of and where the population does not, and will not for a great many years, begin to be near as condensed as it is in the northeastern part of the state. These are all considerations that should have an influence upon the legislature in determining the outcome of the bill now before that body for the purchase of the school. It will be a good thing for the town, a good thing for the state and the student body if the change shall be made, and we hope that it may be done.

Is It A Failure?

The question as to whether or not marriage is a failure has been discussed pro and con a great many times and from a great many view points with no definite answer. The following persons appear to have become convinced that in their cases at least it is not a success, as they will ask the March term of the Wayne county district court to grant them a divorce:

Lizzie Yeager vs Lewis Yeager
Corla B. Shafer vs Thos. I. Shafer
Ella Brown vs Wallace Brown
Rebecca Gadowallader vs Win. Gadowallader
Mary Tillson vs Jos. Tillson
Maud Marshall vs Ed. Marshall
Amanda Wagener vs Peter Wagener

Hallie Hanuse vs John Hanuse
In all these cases it is the wife who is seeking divorce.

CARROLL CORRESPONDENCE

(A Regular Epistle)
Mrs. John Beach and son are here visiting.

Considerable moving is going on these days.

Tom Evans is here assisting the departure of his sons.

Mr. and Mrs. Chas. Beebe spent Sunday at Carroll with his folks.

Special meetings have been held during the past week at the Prince school house.

There will be a box social in the K. P. hall March 15th, by Carroll Concert Band.

Mr. and Mrs. Ed. Stephens welcomed the arrival of a baby girl into their home last Saturday morning.

A box social will be held by the Sunday-School at the W. M. Prince school next Friday night, March 12. Everybody come.

A box social was held in the Morris school four miles west of town by the Welch Congregational church. The proceeds amounted to \$77.50. A large crowd attended and standing room was scarce. All enjoyed a good time.

Ed. and Luther Evans and Charley Edwards departed with their stock and goods for Ashton, Idaho, last Thursday morning. The two Mrs. Evans will leave immediately on the arrival of their goods. We regret such a number of young folks from our midst who have always lived here, but our loss is but the gain to others, we know they will be welcomed as Christian workers into other fields.

WHEN HER BACK ACHES

A woman finds all her Energy and Ambition Slipping Away.

Wayne women know how the aches and pains that come when the kidneys fail make life a burden. Backache, hip pains, headaches, dizzy spells, distressing urinary troubles, all tell of sick kidneys and warn you of the stealthy approach of diabetes, dropsy and Bright's disease. Doan's Kidney Pills permanently cure all these disorders. Here's proof of it in a Wayne woman's words:

Mrs. Henry Hansen, of Wayne, Nebraska, says: "I was subject to attacks of backache for years, always being worse during cold weather or when I over-exerted myself. At night I could not sleep on account of the pain in my back and I felt run down. Last spring I began taking Doan's Kidney Pills and in a short time they made me feel like a new woman. I take great pleasure in endorsing this remedy."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

THE RULE OF THREE.

A Superstition of the Men Who Build the Skyscrapers.

These airy crews are a generous crowd, says Ernest Poole, writing in Everybody's Magazine of men who work on skyscrapers. They earn high pay. When working full time they make \$27 a week, and, like their rough brothers out on the plains, they are quick to give of their earnings. On Saturday afternoons when they line up at the pay window the Sisters of Charity are always there, and quarters and dimes jingle merrily into their little tin boxes.

Behind this generous giving is a superstition belief that amid risks like these it is well to propitiate fate all you can, for fate is a relentless old machine, and when once its wheels begin grinding no power on earth can stop them. The "rule of three" is centuries old. You may hear of it out on the ocean, in the steel mills, in the railroad camps and down in the mines. And you find it up here on the jobs in the skies.

"Believe it?" said an old foreman. "You bet they believe it." "Do you?" I asked. "Well," he said, "all I can say is this: It may be a spell or it may be because of the whole crew is expecting it. But, anyhow, when two accidents come close together you can be sure that the third ain't very far off."

BUYING CHAIRS BY SIGHT.

Few Folks Ever Think to Try Them by Sitting in Them.

"I went with some folks the other day," the man said, "to buy a couple of chairs. We went to a furniture store and looked over what they had to offer.

"There were just ordinary chairs for a bedroom, so that it wasn't a very momentous purchase. The folks I was with looked at the cloth on the chairs and asked questions about the wood and how the chairs would wear. Then they bought the chairs and ordered them sent home.

"What struck me as peculiar about the transaction was that never once did either of the two persons with whom I was think of sitting down in the chairs to see whether or not they were comfortable. I dropped into a furniture store not long afterward and asked a salesman about it, and I wasn't surprised to learn that very few persons buying chairs ever seem to think about testing them by sitting in them.

"Except in the case of rockers, that is. Few persons can resist the temptation to take a few preliminary rocks in a prospective purchase."—New York Sun.

Learned by Experience. "I always make to a point," said the man with a wisp of a hair nose, a couple of cross eyes and a hair lip, but otherwise possessing a perfectly good face, "to say polite and complimentary things to the ladies. It does me no harm and I notice it always gives them a lot of pleasure. My motto is to scatter sunshine provided it costs no money as I journey along."

"I used to do that, too," said the man whose set of neglected whiskers were calling plaintively for the lawn mower, "but I have been broken of the habit. No more sunshine radiating from these quarters."

"And what cured you?" asked the other.

"A couple of breads of promise suits."

Yes, It Was True. "Is it true that you threw something at Mike that caused the swelling over his eye?" the square-jawed of a little woman. "Yes, sor, I did," said the woman, catching her breath, "but I never meant to hurt him, an' well he knows it. We'd just come home from the cousin's wedding, an' I was feelin' kinder soft to Mike, an' I up an' axed him if he loved me as much as he did the day we was married, an'—yer anner, he was so slow answerin' me that I up wid the top an' dung it at him! If we poor women don't have love our hearts jist breaks inside us!"

Origin of Geography. The Phoenicians were the first people to communicate to other nations a knowledge of distant lands. It is now known that before the time of Homer that enterprising people had passed beyond the limit of the Mediterranean into the great western ocean, and it was by their sailors that the first rough charts of the world as then known were made. But geography as a science originated among the Greeks, its real father being Herodotus of Halicarnassus, about B. C. 484.

No Encouragement. Mrs. Short—Oh, dear, I do wish we were rich! Just think of the good we could do if we only had lots of money! Mr. Short—True, my dear, but we can do a great deal of good in a quiet way. Mrs. Short—Yes, of course, but no one will ever hear of it!

His Excuse. Diggs—You believe that whisky is good for a cold, don't you? Swiggs—Yes, but how did you know? Diggs—Oh, I've noticed that you nearly always have a cold.—Chicago News.

Repetition. Husband (entering house with bag of chestnuts)—I brought home some more chestnuts, dear. Wife (wearing, without glancing up)—I'm listening, Judge.

The face of a wife shows what her husband is; the shirt of the husband shows what his wife is.—Servian Proverb.

Newport is the greatest hay-shipping town in the world. During 1908, 19,940 tons, 1,994 carloads, of hay were shipped out of that station.

The South district of Dixon county hold their annual Sunday school convention at the Presbyterian church, Wakefield, on Wednesday, March 17.

People down Pilger way have the moving habit also. The Herald of last week gave the names of thirty families that have made a change this spring.

Bancroft is expecting a building boom in the spring. A new German Lutheran church and a modern brick building for the First National bank are among the good things promised.

Saloons or no saloons will be the principal feature of the spring election at Pender. The Republic announces that it will publish the names of all persons who sign a petition for saloons.

Mead Shumway's attorneys made a great fight for his life but the supreme court again refused to interfere, and the murderer was hanged in the prison yard at Lincoln last Friday.

W. H. Stageman, at Randolph, made settlements last week for \$286,200 worth of real estate he sold in that vicinity the past season. He surely had something doing all the time.

Two bad cases of blood poisoning were reported in the daily press last week, one a bank cashier from handling infected money, and the other a young lady stenographer from handling sheets of carbon paper.

Prof. Cross announces that he will not be an applicant for the principalship of the Pender schools another year. He will go to Chicago to complete his studies and will then enter the ministry of the Presbyterian church.

Latta, when running for congress on the democratic ticket last fall, in this district, made large claims to being a farmer, but his first act at Washington was to have cards printed bearing the inscription: "James P. Latta, Banker."

To what an extent the moving spirit among the farmers of this part of the state has taken hold on them is well illustrated by the last issue of the Randolph Times, which contains the names of fully fifty farmers who have made a change in that vicinity this month.

S. J. Englemeyer, of West Point, while on his way to Oklahoma last Thursday, was bucconed out of \$65 in the Union Depot at Omaha, by some slick confidence men, and was obliged to return home in order to get some more money. He says he has learned a valuable lesson.

How can any person risk taking an unknown cough remedy when Foley's Honey and Tar costs them no more? It is a safe remedy, contains no harmful drugs, and cures the most obstinate coughs and colds. Why experiment with your health? Insist upon having the genuine Foley's Honey and Tar at Felber's Pharmacy.
