GOVERNOR SHALLENBERGER

SIGNS WAYNE NORMAL BILL

Hope Deferred Maketh The Heart Sick. A Week Of Anxiety.

BILL WAS SIGNED TUESDAY

After nearly a week of anxious waiting, in which hopes and fears played a see-saw game, one day of hope and then a day of fear, Governor Shallenberger affixed his signature to the bill passed by the legislature appropriating \$90,000 for the purchase of the Nebraska Normal School located in Wayne, by the state, and the conversion of the same into a state school. The battle has been a long one, waged against great odds and the most persistent opposition, and to win out under those conditions, as we stated last week, entitles the Wayne workers to a large meed of praise, and they will certainly receive it at the hands of our people.

The legislature failed to make any appropriation for the maintenance of the school, and a delegation of our business men called upon the governor and agreed that if there should be any deficit in the maintenance of the school for the next biennium it would be made good by the people of Wayne.

Poor old Fremont, beaten at every turn, now accuses Senator Volpp of being a traitor to the only measure that was of any real and vital interest to the constituents of his district, and that the senator has been the victim of moral chills and fever for his cowardice and has been sweating drops of blood, so to speak, for the past two weeks on account of his lack of foresight in voting for the Wayne bill. If Fremont has only the normal school and saloons to build its future hopes and stability upon it is surely in a very bad way.

Wayne people should now give a strong pull, a pull all together, to make the very best out of our little city that can be done by earnest, honest effort to build up every interest that will advance the commercial, industrial and moral prosperity of Wayne, already the best town in this part of the state. The locating of this state institution here means much for our town and a determined effort on the part of its citizens means much more.

Kindergarten Fund Grows

Since the Kindergarten fund was last published nearly one hundred dollars have been raised. Three hundred dollars will be needed for furnishings and piano. The list to date is:

Previously Published	\$ 78 11
Donated	1 00
Boys Selling Popcorn	50 00
Food Exchanges	41 40
Y. M. C. A. Banquet	45 00
By Subscription	5 00
Miss Elsie Merriman	1 00
Total	\$172 01

One interested mother has undertaken to earn or raise five dollars between now and August. A few such subscriptions would bring the list up rapidly, and it is surprising how easily the money can be raised. We shall feel that we have so large a part in this department, of which Supt. Wooley, of Menominee, Michigan says: "It will live because it has the life element in it." And Henry Sabin, ex-Superintendent of Schools for Iowa, writes: "There is no longer any question as to the advisability of introducing the kindergarten as a part of the school system in all our graded schools. It has demonstrated its usefulness in so

many instances that there is no reason why the children in our smaller places are not entitled to its privileges and its benefits."

The widespread movement urging the introduction of Manual Training as a part of the public school curriculum, making it, in fact an educational basis, is most significant. "More of the practical, fewer fads and less superficiality," is the watchword. Even if a boy never wishes to follow a trade, it will give him a greater respect for labor; it is the basis for more than can be estimated and it will give a larger grasp on the essentials of life.

In Manual Training the kindergarten is the first step on the basis. Of this Supt. Elson, of the Grand Rapids, Michigan schools, has this to say: "The kindergarten is the natural foundation of the system of public education. It introduces the child to community life, fosters a spirit of helpfulness in work, gives control of body and mind, and develops the whole child. It is an ideal Manual Training school which believes in the use of the hand for educational purposes. It not only helps the child, but is of service to the home as well." Dr. E. Benjamin Andrews declares that he has known one child from the kindergarten to regenerate a whole family.

Kindergarten training is essentially easy and natural—a drawing out, not a pouring in; an encouragement of all the child's originality. Froebel, with a clear vision, had a large intellectual grasp on the marvelous awakening, stimulating and developing of mind faculties which lay in this method as a basis of education. He recognized the child's natural love of play and made use of it for the accomplishment of practical, definite ends. The true kindergarten is in truth a happy, busy, wide-awake "children's garden." And not only is the development on these various lines important, but the beautiful training in ethics leads the child into purer, sweeter, more ennobling conceptions, more unselfish living. One hundred fifty-seven American cities of over 8,000 population and a large number of smaller towns have made the kindergarten a part of their public schools.

Teach Good Citizenship

A bill providing for the instruction of all school pupils in the state in the fundamental principles of civic-righteousness, has been introduced in the California state legislature, and there is little doubt that it will become a law. The Pasadena Star of March 10 prints the following:

The measure is based largely upon the successful experience of Pasadena with the teaching of good citizenship in the public schools. While Los Angeles and a good many other cities have some provision for such teaching, Pasadena probably goes farther than any of them, and the idea has proved exceedingly successful here.

The state text-book committee was easily persuaded that, if the bill passed the state legislature, good citizenship should be embodied in the civil government text-book soon to be issued, and this will make possible the thorough teaching in all the cities and districts of the state, this subject which has in most places not barely been touched.

In Pasadena "Manners and Morals" as the course is called, is just as much a part of the curriculum as arithmetic or geography. The first grade pupils take up its study, and the eighth grade pupils give it up only when they receive their diplomas.

TEXT-BOOKS ARE USED

In the higher grades four text-books are used, while in the lower grades morals and manners are taught by lecture and by references to other text-books, or by supplementary reading.

The principle underlying the teaching, as stated by Superintendent of Schools A. L. Hamilton, is that if boys and girls are not taught what is right, when they grow up they are more likely to do wrong than right. The lessons in the early grades are of an elementary character, naturally, growing more complex as the pupil advances.

In the first grade for instance, following is a part of the instructions given to the teachers: First quarter: In connection with health lessons, teach cleanliness and neatness of body, of clothing, of face, teeth, hair, hands, nails and also of desk and contents, and floor about desk. A lesson on earnestness; also on thankfulness. In thoughtfulness for others. Kindness and

courtesy and politeness at school, towards teachers, playmates, visitors; at home, towards parents, brothers, sisters; at table, on the street, at public places, toward the aged, crippled, needy.

Give instruction in the school duties, punctuality, regularity, honesty, truthfulness, industry, regard for property of others, good will toward teachers and pupils and good conduct on playground.

HELPLESSNESS AT HOME

In the second grade the lessons are continued. School duties, and habits of personal neatness are dwelt upon during the first half of the year, while the last quarter is devoted almost entirely to lessons on the duty of helping at home, and the proper place of a child in the family.

The third grade continues these topics along logical lines. Courage, heroism and similar qualities are impressed upon the children by a citation of examples from history. Stories are read, in connection with the lectures, which cannot fail to be connected in the pupils minds with what he has heard in an abstract way. The fourth grade continues on the same line.

In the fifth grade the pupil is provided with a text-book, "Good Health," by Frances Gulick Jewett. This is not a physiology, but deals with its subject in a broader way, laying emphasis not on the structure of the body, but upon the proper use of the body.

Along with the use of this book, the training in morals is continued on much the same general lines as in the earlier grades.

RELATION TO COMMUNITY

In the sixth grade, "Town and City," a book by Miss Jewett which develops the ideas treated in her "Good Health," is used as a text. It deals directly with the individual's relation to the community, along hygienic and sanitary lines. The moral aspect of the work is also continued.

The seventh grade pupil is provided with "The True Citizen," by Marwick and Smith, which goes more directly at the subject of good citizenship than the first two books used. It is supplemented again by the lectures, which take up such subjects as "Nobility of Toil," danger in alcoholic beverages, and cigarette smoking.

"The Community and the Citizen" by Dunn, is the text-book of the

eighth grade, and brings to a focus all the teaching of the past seven years. It is supplemented by the lectures, and the following advice to teachers is sent out by Superintendent Hamilton:

Much has been suggested in the preceding outlines in morals and manners and civic duties for giving the pupils through the eight grades a very definite and well formed impression with reference to their duty to themselves, to others and to the land and city in which they live. These lessons should find expression in actions and the teachers should not feel satisfied unless they see the fruits of their work in the every-day lives of the pupils. When reference to the city in which they live, or may live, the children should take a lively, personal interest.

They should be taught to avoid boisterous and noisy conduct on the streets or in the parks on Sundays, holidays or other days of the week; not to stand idly about street corners, alleys or other public places; to avoid loud, profane or other improper language; not to play ball or other violent games in the streets, alleys, or small vacant lots; thus avoiding possible danger to themselves and annoyance to others; to avoid the smoking of cigars and other bad habits which retard the growth of the body and prevent success in their studies.

Children should take pride in keeping gutters and sidewalks clear of papers or other uncleanness, especially in front of their own homes and in the alley in the rear, and about the school premises. They should avoid throwing away carelessly, apple-cores, banana skins, or other things which may cause people to slip and fall. They should consider the comfort and health of other people. They should avoid throwing into the streets or alleys, pieces of glass, nails, wire, stones or other things by which horses or other animals may be injured, or bicycles and automobile tires may be punctured. They should aid in preventing the weeds from growing in their gardens and yards, and when possible on adjoining vacant lots. They should be interested in elections, and know something of the methods pursued in electing men to office, and of the general duties of good citizens in that matter.

"The purpose for which American schools exist," concludes Mr. Hamilton, "is training for good citizenship, and if we fail to do that we have failed in our chiefest duty."

ATTORNEY IS KILLED

LIST OF VICTIMS ADDED TO IN DODGE LANDS CASE.

Pope Hill had been retained to represent new client and carried deeds and documents to present in court at McAra, Ga.

That Pope Hill, a prominent attorney of Macon, Ga., is the third victim in the new celebrated Dodge case is the belief of the authorities. The coroner's jury declared that Hill was murdered by parties unknown.

Hill was found dead in the office of a McAra attorney Monday with a bullet in his brain and a revolver with one chamber discharged grasped in his right hand. The condition of the office indicated a desperate struggle.

Pope Hill. The next time you interfere with our settlement you will be broke. Instead of a signature there was a crudely drawn skull and crossbones.

Kate O'Dwyer escapes. Young woman's case brought about a stir in Georgia. Kate O'Dwyer, the young woman who was shackled and forced to work on the chain gang at Athens, Ga., made her escape Monday night.

FRENCH PRESS CAUSTIC. Comment on 'Naples' Reception to Roosevelt Resentful. The special correspondents of the French newspapers at Naples send interesting and somewhat caustic, first impressions of the former president of the United States, which possibly may be attributed to the difficulty which the correspondents experienced in getting through the precautionary barriers with which the Italian authorities surrounded Mr. Roosevelt.

Five Years in Prison. Five years in the Fort Leavenworth (Kan.) penitentiary was the sentence imposed by Justice Gould in the criminal court at Washington, D. C. Monday upon Thomas M. Hayes, former receiving teller of the American National bank, convicted last Tuesday of embezzlement and misapplication of funds of that institution.

Wreck on the Rio Grande. Thirteen persons were injured, one seriously, when the rear coach on a Denver and Rio Grande train was overturned by striking a switch point at Carleton mine, near Colorado Springs, Colo., Monday.

Search for Crazy Snake. The United States cavalry has taken a hand in the search for Crazy Snake, leader of last week's disorders in Oklahoma.

Yelava Ready to Settle. Information has been conveyed to Secretary Knox that the Nicaraguan government would make an early effort to settle the claim for damages of the G. D. Emery company whose consent for cutting mahogany was cancelled about two years and a half ago.

INSANE ASYLUM FIRE

Six hundred helpless insane persons were in danger of death Sunday afternoon when a blaze, starting from a prairie fire, destroyed several buildings of the state insane asylum at Fort Gay, Okla. The fire broke out in the laundry building shortly after the noon meal and the inmates had been returned to their quarters. The asylum fire department was ordered out and every effort made to conceal from the patients of the fact that the building was burning. One woman, looking out of a window, however, saw the fire and excitedly gave the alarm.

The attendants rushed among their charges and tried frantically to pacify them, but a great panic was narrowly averted. The fire spread from the laundry to the pharmacy supply building and threatened the asylum itself. When the blaze was very near them the inmates had yielded to the entreaties of the attendants and kept good order when the danger was the greatest. It took hard work to save the ward building. So effective was the work of the fire department that these were spared. No loss of life occurred.

YELLOW HOUSE DESTROYED

Daughter of R. B. Carter loses life in famous building. Miss Virginia Carter, young daughter of Reese B. Carter, was burned to death in the fire which destroyed her parents' home, "Yellow House," at Rest, near Pinchot, Va., Sunday, Mar. 26. Mrs. Carter was badly burned in an effort to save their daughter.

UNKNOWN MAN SUICIDES. Pitched head foremost from Luna Island bridge into falls. An unknown man, about 38 years old, committed suicide at Niagara Falls by jumping into the river from Luna Island in sight of a score of persons, who saw him swept over the falls. He stood on the railing of the bridge for a second or two peering down into the water, and then dove in head foremost. He was described as a handsome man weighing about 150 pounds with black hair and mustache. The authorities hope to establish his identity by means of a child's ring found in one of the pockets of his overcoat which he left on the bridge.

NOTED IRISHMEN MEET. Friday night more than 300 prominent New York Irishmen, under the auspices of the Ancient Order of Hibernians, tendered a complimentary banquet to Matthew Cummins, national president of the order.

Two Deaths are Recorded. Mrs. Lilly Bennett Baldwin, widow of E. J. Baldwin had a deed recorded Friday conveying all her interest in the Baldwin estate to her late husband's two daughters.

Burned Area a Mile and a Half Long and Half Mile Wide. A party of small boys and a carelessly thrown cigarette is credited the fire at Fort Worth, Tex., Sunday. Destroyed property in South Fort Worth valued at \$2,000,000; caused the death of J. J. Newton, a bank employe; caused the serious injury of six others; rendered 300 families homeless, and caused temporary idleness to several hundred workmen.

TRINIDAD EXPECTS CASTRO. The governor of Trinidad Sunday issued a proclamation prohibiting the exportation of arms, ammunition, gunpowder and military and naval stores. This action was taken, it is believed, in view of the probability of arrival there at an early date of ex-President Castro, of Venezuela.

Three Ohio Men Arrested for Murder Eight Years Ago. Barney Devine, Leonard Stevens and Matthew Taylor, indicted eight years ago for the murder of Clarence Warrick, 15 years old, at Somerset, O., have been arrested at Zanesville, O. The murder was very brutal. At night burglars entered the home of Mrs. Warrick, an aged widow, and tortured the boy to force him to reveal where the family money was hidden. The boy refused. The burglars then shot and killed him, throwing his body into the bed where his mother lay.

IRISHMEN ARRIVE IN NEW YORK. Archbishop Ireland arrived in New York Sunday night on La Lorraine, after a five months' stay in France and Italy. He will remain in New York only for a day or two, for he is anxious to reach St. Paul and take up the work of his diocese before fall.

Can of Kerosene Explodes. Too much concerned with the safety of her two children to try to save herself, Mrs. Grazia Petinato, of New York, was burned to death Monday following the explosion of a can of kerosene.

CHAUFFEUR'S NECK BROKEN. The crashing into a tree of an automobile, said by an eye witness to have been racing at the rate of forty miles an hour, caused the death of Harrytown, N. STONE SAYS HE LIED

Perjury is admitted in Wisconsin inquiry Friday. Chief State Game Warden James W. Stone, of Wisconsin, testifying before the senatorial primary investigation committee Friday confessed to perjury in that his testimony when he appeared before the committee three weeks ago in his explanation as to the distribution of \$2,500 of the Stephenson campaign fund was false. In addition to this, Mr. Stone informed the committee that the game warden raised a sum of \$1,200, which was given to Gov. James O. Davidson for his campaign fund. The witness presented a list showing how he disposed of something over \$2,000, which was materially different from the list which he offered when he first appeared before the committee.

NEW VIGOR FOR BAD BACKS. How to Make a Weak Back Better. Women who suffer with headache, bearing-down pain, dizziness, constant dull, tired feelings, will find hope in the advice of Mrs. M. Some Wedding Ring History. To wedding rings there has been often attached a value even unto death. One of the smallest wedding rings of which there is record was that fitted to the finger of Mary, daughter of Henry VIII., who at the age of two years, was solemnly wedded amid much pomp and splendor to Francis I., of France, who had just attained the dignity of six months. Attending the little bride were her father and mother, Henry and Catherine of Aragon, and Marie of France, mother of the bridegroom. The bridegroom himself was not present at the ceremony, but his place was taken by Admiral Bombyer, who acted as proxy and placed upon the finger of the little princess a tiny wedding ring, set with a magnificent diamond. Cardinal Wolsey performed the ceremony at which the whole court was present. Though gold is the metal generally accepted for wedding rings, various other materials have done service in its stead. There is one story of an eloping bride, for whom a ring was improvised from her own leather glove; the church key has frequently done similar duty; and brass curtain rings have been many times substituted for a ringlet of more valuable material.

NEBRASKA STATE NEWS

END OF SESSION. THE STATE SENATE.

Both Houses Adjourn Saturday Just Before Dinner, Bell Rings. After a final legislative day of sixty hours, the thirty-first legislature of Nebraska adjourned a half hour before noon Saturday and the members started home to face their constituents, but wherever possible they did not go via Omaha.

The work of scrubbing bills occupied the clerks until a short time before the conclusion of business, and for the twenty-four hours preceding the fall of the gavel there was practically no business to transact. Members of the senate introduced congratulatory resolutions of thanks, and extended to their colleagues tokens of friendship in the way of photographs and mementoes of the house. A number of members, occupied themselves tearing up their bill files and scattering the result of the senate's printing bill on the floor of the assembly chamber.

The passing of the 8 o'clock closing act was the principal topic of discussion on the floors of the two houses and in the lobby, while engineers and lawyers of protest poured in upon the governor. The Douglas county senators and members of the final hours did not arouse them even to passing interest in the procedure. A delegation of thirty business men from Fremont arrived at noon to see Gov. Shafer. The senator in protest against the bill to buy the Wayne Normal and were given an extended hearing as soon as the executive attached his name to party measures that had been dumped upon him from the halls above.

An unusually large number of members witnessed the end of the session, due to the care of the sponsors of the salesmen club bill that their entire forces should be available to meet any moves to alter the record on the bill and leave a loophole for legal attack. Ordinarily not half a dozen members are in at the death, but in each case it would have been possible to secure a quorum almost any time until final adjournment. Efforts to reconsider the action taken that with other senators in opposition to the bill, there was no chance to succeed and none was made.

The legislature passed a total of 204 bills and in addition the governor has vetoed one—the measure repealing the law permitting saloons within two and a half miles of the limits of military reservations. The young age legislature passed and the governor signed 206 bills and fourteen bills in addition were passed and vetoed after the session adjourned, with one veto submitted during the session.

ATTEMPT TO SHOOT TAYLOR.

Father of the Girl He Killed Pulls Gun. Just as officers in charge of Bert Taylor, murderer of Pearl Taylor, were about to board a train with their prisoner, at the Burlington depot at Minden Saturday morning to return him to the state penitentiary at Lincoln Wednesday, Deputy Sheriff E. J. O'Neil, dead girl, and father-in-law of the murderer, made a desperate attempt to shoot the prisoner and was only prevented from doing so by prompt efforts of Deputy Sheriff Slack and others. In the scuffle which ensued O'Neil, the father and Mr. Taylor were bruised and scratched.

Bert Taylor has been confined in the state prison for safe keeping ever since he was brought back from California a couple of months ago. Early in the week he was brought from Lincoln for trial. On Friday the defense submitted a motion for continuance on the ground that the father of the dead girl, and other witnesses were in Europe and would not return to Minden until in May. On this representation the court granted a continuance until the latter part of next month.

When the news became noised about that the trial of Taylor had been postponed Saturday that was to be taken back to Lincoln after a week's delay around the jail and followed the officers and their men to the station.

Schuyler Furnishes Truck. A peculiar specimen of animal life was born recently at the farm of James Booth, two miles east of Schuyler. It was a calf having two heads. Its two heads are joined together about the two hind ears would be if it had four ears. The calf has only two ears, one on the outside of each head, but it has four eyes, and two distinct mouths and noses.

Kearney Session Closed. The Central Nebraska Teachers' association closed their session at Kearney Saturday. The following officers were elected for the ensuing year: President, George Burt, of Kearney; vice president, H. M. McKinley, of Broken Bow; secretary, Edith B. Lathrop, Valentine. Five hundred and sixty-five teachers attended the meetings. A deep interest was taken in the work.

Preparing for Big Time. The Hastings Knights of Pythias are making elaborate preparations for the convention of the Knights of Pythias and the Pythian sisterhood, which is to be held there May 10 and 11. Some 350 members are expected and practically every day in the state will be represented.

Land Brings High Price. It is reported that a quarter section of land, eight miles from Minden was sold for \$18,000. This is not very well improved, so that the price of the bare land would be about \$100 per acre.

Base Ball at Liberty. Liberty has organized a baseball team, with J. M. Cunningham as manager. The town is to have some good exhibitions of the national game this season.

One Dead of Suffocation. Two prisoners confined in the county jail at Geneva started a fire, supposedly by accident, and one was found dead from suffocation and the other in a serious condition.

Arrested for Bootlegging. Almer Miller, of Tekamah, has been arrested for bootlegging. He had been secretly carrying on a distillation business in that dry town, as he last week brought up from Omaha eighteen quarts of whiskey in a suitcase and sold it to private consumers.

Habitual Constipation

May be permanently overcome by proper personal efforts with the assistance of the one truly beneficial laxative remedy, Syrup of Figs, a Liniment of Senna which enables one to form regular habits daily so that assistance to nature may be gradually dispensed with when no longer needed as the best of remedies when required are to assist nature, and not to supplant the natural functions which must depend ultimately upon proper nourishment, proper efforts, and right living generally. To get the beneficial effects always by the genuine.

What Could She Do? "Once upon a time Dewolf Hopper met a Boston person in that town whom he had not seen for a long period of duration. 'Hello! How are you? Where have you been?' said Hopper in his hearty way, giving the New York pronunciation to the word 'been.' 'Please don't say 'bin,' but 'been,' pleaded the Boston person plaintively. 'Sorry, but I can't,' pleaded the big fellow. 'I never had a bean in my mouth in my life, not even in Boston.'—The Bohemian.

Perfume Used by Royalty. Queen Wilhelmina of Holland has daily a pint of eau de Cologne in her morning bath. Queen Victoria of Spain affects a mixture of Iris and lavender on her handkerchiefs. Queen Helena of Italy prefers Iris and heliotrope; the Dowager Queen of Italy and Queen Amelia of Portugal are devotees of sweet violets, but the Empress of Russia leads the way, as she spends no less than \$20,000 a year on perfumery in Paris alone. In respect of violets she requires that they shall be plucked just at sunset. And when the boxes reach St. Petersburg they are first sent to be examined lest they might conceal a bomb or some deadly poison.

To Prevent Smut in Wheat

Dissolve one pound of blue vitriol in 4 gallons of water, pile the wheat on the floor and spray or sprinkle it shoveling rapidly. A sprinkling can may be used for this purpose. Constant shoveling and care in the spraying is very important. Dissolve one pound of quick lime to 40 gallons of water, or you can use air slacked lime. If the air slacked lime is used it does not need to be dissolved in water. One half hour after using vitriol spray on some of the lime water and shovel it over as before or if you use air slacked lime, dust it thoroughly into the wheat, shoveling it over. Sow all treated wheat as soon as possible. Do not wait for it to get dry. Shovel it up and proceed to seed it.

Most drills will work upon freshly wet wheat as well as upon poorly dried wheat.

If the spraying and shoveling has been properly done, there will be no water visible upon the wheat. Wheat should never be treated long before it is seeded. Aim each morning to treat the amount for the day's supply but if you wish to keep the wheat sometime after treatment, it should be shoveled over until dry. Air slacked lime will help to dry it. The idea is to wet each grain of wheat all over, but at the same time to allow it to soak up as little of the solution as possible. Blue vitriol and lime are not expensive, so that the cost of this method is comparatively light.

From the Electrician's Notebook

The tides of the Bay of Fundy will be harnessed for electric power. An electric sand-papery outfit is one of the latest electrical devices. England is now in direct communication with India, a distance of 5,374 miles. A wireless plant has been installed on the top of the tower of the city hall of Philadelphia, 500 feet above the street. A device has been perfected, driven by a tiny General Electric motor, for polishing stoves and ranges in hotels and restaurants. The adoption of electric furnaces in large steel plants is expected to produce a rail that the highest speed freight engines cannot injure. A wireless telephone is to be used along the coast as a fog signal. It has been tried out and found to work well under heavy weather conditions. Electric sirens are in use on the railways of Germany. The sound is produced by the vibrations of a diaphragm under the influence of an electro-magnet. Wireless communications have been successfully carried on from a special train on the Lake Shore railroad to Cleveland and Chicago, while running at full speed. One of the first electric locomotives was built by Stephen B. Field, of Stockbridge, Mass., and the motor is still preserved in the cellar of the Field house as a souvenir. The General Electric Company has organized a corps of heating engineers to design apparatus and make plans for unusual applications of electric heat in the industrial field. The first practical demonstration in this country of the new process of telegraphing photographs was made March 4th when pictures of Taft and Roosevelt were flashed over the wires between Washington and New York. The largest storage battery in the world has been installed at the Sixteenth Street station of the New York Edison company. The 150 cells have a capacity of 22,000 for one hour at 120 volts. It will be used only in emergencies. A great dam is to be erected across the Colorado River at Marble Falls, Texas. When completed this dam will give more than 10,000 horse-power which will be used to operate a large cotton mill and other industries. The largest electric power station in the world will shortly be erected within fourteen miles of Johannesburg under the terms of a contract officially announced, by which the Victoria Falls Power Company will supply electric power to practically all the mines in that group. Nearly 300 miles of line for power transmission purposes is to be put up by the Ontario Hydro-Electric Power Commission in order to supply various towns and cities in Ontario with electricity generated at Niagara Falls. About a million pounds of aluminum wire will be used. The line will consist of three cables supported on towers spaced 550 feet apart. Three towns are equi-distant from one another; one of them is three miles, another is eight miles, and the other is five miles from the same railroad station. How far apart are the towns.

Need a Lesson.

Some cities, like Omaha, get the notion that they are the whole dog instead of a very small portion of the tail, and it is a good thing once in a while to give them a valuable lesson, hence, if for no other reason, it is a good thing that Governor Shallenberger signed the daylight saloon bill. We suppose, according to all the newspaper accounts from that city that the population will now decrease at a rapid rate and the city will become the abode of bats and owls.

A New Back For an Old One. How It Can be Done in Wayne.

The back aches at times with a dull, indescribable feeling, making you weary and restless; piercing pains shoot through the region of the kidneys, and again the loins are so lame to stoop is agony. No use to rub or apply a plaster to the back in this condition. You cannot reach the cause. Exchange the bad back for a new and stronger one. Wayne residents would do well to profit by the following example.

Mrs. John Festnow of Bloomfield, Neb., says: "Last spring I caught a severe cold and soon after my back began to ache. My feet became swollen and painful. I had dizzy spells and my eyesight was often blurred. On a friend's advice, I procured a supply of Doan's Kidney Pills and took the first I combined taking the remedy. My back is now strong, I have no more dizzy spells and feel better in every way. I heartily recommend Doan's Kidney Pills as I consider them a good remedy for the kidneys." For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

Lincoln Baseball Club

The exhibition season of the Lincoln baseball club promises to be the best this year in the history of the club. Some of the more important games are as follows: April 8th, Chicago White Sox; April 9 & 10, Minneapolis; April 19th & 20th, Omaha; April 23rd & 24th, Nebraska Indians. In Outfielder Neixell, whom Manager Fox picked up in Minnesota this winter, the Lincoln baseball team has one of the most promising youngsters ever seen in uniform in Nebraska. President Green traded for Maldron of Denver, late in the winter, else Neixell would easily win a regular place on the Lincoln team this year. As it is, he will probably be placed with a team in the Three-league for a season's experience and brought back to Lincoln next season. George Huff, the famous coach of the University of Illinois baseball team for so many years, recommended to the Lincoln baseball team this spring one of his catchers by the name of Mason. Mason has arrived in Lincoln and has been setting the town afire by his backstopping, hitting and throwing. He is almost sure to remain a regular on the team this season.

Frank Jude, the little Chippewa Indian outfielder of the Lincoln team, has reported to Manager Fox, and is looking better than ever. President Green has two Indians on the Lincoln team, both of whom are stars. They are outfielder Jude and pitcher Johnson.

Order to Show Cause

In The District Court of Wayne County, Nebraska. In the matter of the application of May House, Guardian of the person and estates of Grace House, Abbie House and Charlie House, minors, for leave to sell real estate. On reading the petition duly verified and filed with the clerk of this court, by May House, Guardian of the persons and estates of Grace House, Abbie House, and Charlie House, minors, for license to sell the following described real estate situated in Pierce County, Nebraska, to-wit: The Southeast quarter of Section Twenty-two (22) in Township Twenty-five (25) North of Range One (1) West of the 6th P. M. subject to the dower interest of May House therein. And it appearing to the court from said petition that it would be beneficial to the said wards that said real estate be sold and the proceeds put out at interest or invested in some productive stock; it is therefore ordered that the next of kin of said minors and all persons interested in their said estate and in said real estate appear before me, the Judge of said court, at chambers, at the Court House, in the City of Wayne, County of Wayne and State of Nebraska, on the 17th day of April, 1909, at Three o'clock p. m. to show cause if any there be, why license should not be granted to the said May House, guardian of said minors to sell the above described real estate of said minors for the purpose above set forth. And it is further ordered that a copy of this order be published at least four successive weeks once a week in the Wayne Herald, a newspaper printed and published in said County of Wayne, and that it shall not be necessary to make personal service of this order upon the next of kin or other persons interested in said real estate. Done in open court at Wayne, in said Judicial District this 13th day of March, 1909. ANSON A. WELCH, Judge of District Court.

Notice of Bidders for the Construction of an Outlet Sewer to Connect with Sewer District Number One of the City of Wayne, Wayne County, Nebraska.

Notice is hereby given that sealed proposals for a sanitary sewer outlet to connect with Sewer District Number One at the junction of Second and Nebraska Streets in the City of Wayne, Nebraska, and include man hole at said junction, endorsed with the title of the work and name of the bidder will be received at the office of the City Clerk until eight o'clock p. m. on April 15, 1909, at which hour the bids will be properly opened and read, and the rate of bids for different items noted. The City Council will proceed without unnecessary delay to award the contract for the above work to the lowest responsible bidder with adequate security, the right being reserved to reject any and all bids, the adequacy of the security will be determined by the City Council. Permission will not be given for the withdrawal, modification or cancellation of any bid or proposal. Bidders are required to state in their proposals their names, place of residence and exact postoffice address, also the names and similar addresses of all persons interested with them therein. Bidders are required to thoroughly examine the plans, specifications, form of proposal and form of contract and if there be any doubt or obscurity as to the meaning of any part of the same they are requested before making their proposals to ask in writing for an explanation and said explanation will be given in writing by the City Clerk. Work on said sewer to commence not later than May 15, 1909, and said work to be completed by October 1, 1909, the city of Wayne to furnish free of charge all necessary water for flushing, contractor to furnish all hose necessary for said flushing. Notice is further given that the estimate by the city engineer of Wayne, Nebraska, on file with the City Clerk of Wayne, Nebraska, shows the cost of construction of the sanitary sewer outlet including man hole at junction of Second and Nebraska streets according to plans and specifications prepared by the City Engineer, now on file with the City Clerk of Wayne, Nebraska, to be \$2,500. Each bidder will be required to deposit with his bid a certified check on a Wayne, Nebraska bank, for five per cent of the total amount of the said bid, said certified check to be retained by the City of Wayne, Nebraska, as liquidated damages in case of the failure of the bidder in case his bid is accepted, to enter into a contract when requested by the said City of Wayne, Nebraska, in accordance with the form attached, and a part of the plans and specifications now on file with the City Clerk of Wayne, Nebraska. Dated at Wayne, Nebraska, this 23rd day of March, 1909. HENRY LEY, Mayor of the City of Wayne, Neb. MARTIN RINGER, Clerk of the City of Wayne, Neb.

Great Sale of EASTER HATS AT \$4.00 This week we do a very unusual thing—offer special values in hats BEFORE EASTER—but we have made a special effort this season to reproduce the smart styles at very moderate prices. This offer includes over 50 becoming designs in good materials, actually worth \$6 to \$8 each. You may choose now at \$4. Miller & Jones

Our people should be very careful in making purchases of traveling peddlers or of people who are "here today and tomorrow gone." As a rule their goods are cast off junk that can only be sold to the unsuspecting. Your home merchant is the man who pays taxes and is interested in the welfare of the town and surrounding country and who makes good any dissatisfaction. If you have a few dollars to spend give your home merchant a chance, he will give you one hundred cents value on every dollar.

Rolling Winter Wheat Rolling winter wheat in the spring has not failed in any of the four years to give an increased yield, the average increase being 5.1 bu. an acre. The rolling was given early in the spring, soon after the frost was out, and about the time growth started. Harrowing after rolling was not as good as rolling alone; probably due to loosening up the plants again after the roller had pressed them firmly into the soil. Early spring rolling of winter grain, pressing the earth as it does, produces good results. When frost comes out in the spring it is very likely to leave the soil filled with small cracks or checks, especially around the plants. If these checks are examined closely, it will be seen that a large number of roots are thus exposed, and if the weather continues dry they are killed or at least injured. We have taken up plants in the spring when half of the roots were injured in this manner. If the soil is not wet at the time of rolling, and it should never be rolled when wet, rolling aids in no small degree to form a surface mulch. It does this rather than compact the surface.

Resolutions of Sympathy At the regular meeting of Casey Post No. 5, held last Saturday evening, the following resolution was adopted: WHEREAS it hath pleased the Great Commander of the Universe to remove from this earthly sphere to the land beyond, an old soldier comrade and a former member of Casey Post No. 5, G. A. R. Department of Nebraska, Amos Wright, Therefore be it resolved, that we extend to the family and friends in this hour of their great bereavement and affliction our heartfelt and sincere sympathy: Resolved, that a copy of this resolution be spread on the records of the Post and also be sent to the wife of the deceased comrade. Image of two boys in XTRAGOOD clothing. XTRAGOOD CLOTHES FOR BOYS are best without showing it in the price. They wear so much longer that the slight advance over unidentified cheaply built clothes doesn't at all cover the saving they bring. One XTRAGOOD suit will survive more boy-handling than two average suits. Every pair of XTRAGOOD knee-pants is lined all through. This not only means extra endurance, but also extra fullness and grace to a degree not to be found in clothes that are not XTRAGOOD. John H. Kate Wayne, Nebraska

Rev. Millard, a former pastor of the M. E. church in Wayne, occu- pied the pulpit last Sunday. In the morning he presented the cause of education, holding that an education was essential to the fullest enjoy- ment of life, and that a christian education was a necessity if the young people were to be fully equipped to meet the great problems they will have to face in the years to come. He also took a collection for the Wesleyan university at Lin- coln. In the evening he preached a most excellent sermon from the text "I will not glory save in the cross of our Lord Jesus Christ."

The county commissioners did not meet until Tuesday, this week, in- stead of on the 2nd as we stated last week, and they did not do very much business. The state of the treasury is not very flush, but will be after the first of May.

Congressman Latta of this district, has an appointment to make to the Annapolis naval school. The ap- pointment will not be filled by a competitive examination. Candi- dates for the appointment have been requested to notify Dan V. Stephens of Fremont, chairman of the Demo- cratic congressional committee.

D. C. Main returned from Iowa Tuesday forenoon, having been there nearly three weeks, most of the time, owing to the serious ill- ness of his father, who died last Friday, full of years and good deeds, being 89 years old. The deceased had visited his son and family in Wayne once or twice and will be re- membered by some of our people.

One day last week the X-Ray In- cubator company received in their mail \$600 worth of cash orders for their incubators and brooders. This indicates which way the wind is blowing in the incubator business. These orders came from all direc- tions from the Atlantic to the Pa- cific and from over into Canada to the Gulf of Mexico.

It is said that the early bird catches the worm, and that it is the early worm that gets caught. Some of the farmers began sowing oats last week, but the majority are in- clined to believe that it was too ear- ly. Freezing nights and cool days are not usually productive of the best results so it remains to be seen whether those who have sown early will meet with loss or profit.

Frank Whitney, who left here fif- teen or more years ago without let- ting anyone know where he was go- ing, and has not let them know of his whereabouts since, was in town a part of the day Friday, greeting former acquaintances; also some relatives. He is now a resident of Al- berta, Canada. His father and a good many other relatives have died since he went away, and he knew nothing about it. Such a policy is a very poor one for any young man, or any other kind of a man, for that matter, to follow.

The strength of a child.

It is surprising to find how few parents know the great strength giving qualities of good oatmeal. Most of them think of it as a food for the sturdy Scotch or the brawny Englishman, and overlook its value as a food for children. Every now and then a mother will take to feeding her children on Quaker Oats and will be astonished at their improvement in strength and vigor. Of course, she tells her friends, and they prove it for themselves, but every mother in the country should see that her children are strong and vigorous. Plenty of Quaker Oats, eaten often, will do it.

Put up in two sizes, the regular pack- age and the large family size which is more convenient for those who do not live in town.

Don't miss a day; eat Quaker Oats every morning for breakfast.

A delegation of nearly 100 stu- dents from the Nebraska Normal college here, attended the memorial services in honor of the late Pres- ident of that institution, J. M. Pile, at Norfolk Friday. All of the fac- ulty was also in attendance.

Mr. J. E. Francis was called to Wayne Sunday by the illness of her brother, County Superintendent A. E. Littell, who is suffering from ma- laria and other complications. She came home Tuesday and reports her brother as improving nicely. Pierce Leader.

Real estate taxes become delin- quent May 1, and the rush of paying taxes before they draw interest is on. Monday is the busiest day of the week at the treasurer's office. That seems to be the most popular day to pay taxes; that is, excepting April 30, the last day.

W. O. Gamble went to the western part of the state Tuesday morning, and will be at Morrill for a month or so. That country seems to be better for his health this spring than it is here. He may also invest in some more real estate in that part of the state.

Judge Hunter says that 47 years ago Tuesday was a much hotter day than last Tuesday and that it was not snow flakes that his regiment was pelted with on that day, but rebel bullets, his regiment being the first one to be struck on the first day of the great battle of Shiloh, Ten- nessee.

Behold, The Conquering Heroes Come!

Wednesday morning Phil Kohl, J. T. Bressler and Henry Ley, who had been in Lincoln for several weeks nearly all the time, arrived home, and were met at the depot by a representative from nearly all the business houses in Wayne, and by the cornet band, as a slight token of the efficient work these gentlemen had done in getting the Wayne Normal School bill through the legislature and standing by their guns until the governor had affixed his signature to the bill. A hearty hand shake, a word of good cheer and music by the band does not of course repay them for the time and money expended but it did let them know that their fellow citizens realized the importance of their work and appreciated what had been accomplished.

Wayne Wins Again

Last evening the debating team of the Wayne High school, in company with Supt. E. P. Wilson, were at Oakland where they met the Oakland High school boys in debate, and won. The question debated was, "Resolved, that the United States should establish a system of Postal Savings Banks," and the Wayne boys, Herbert Welch, David Meecker and Richard Forbes, had the affirmative side of the question. It was the first time the young men had ever tried their mettle in the way of thought and expression, away from home, in contest with other minds, and they are to be congratulated, not only on winning a victory, but also on making the necessary effort to win even though they should have met with defeat. They were all treated well and had a fine time.

Are Getting Frisky

Archie Lindsey is the last one of the old soldiers to have a raid made on his premises in the hours of darkness, while he was quietly meditating on the good deeds of the day. Last Thursday evening was the time chosen for the attack on his home, and owing to the darkness he knew nothing of the approach until it was too late to make any defense, so of course he had to surrender and make the best terms he could with his captors. There were about twenty in attendance—ladies and gentlemen—and there was music, a fine oyster supper, and other things to pass away the hours until nearly midnight. A. J. Ferguson did not take his wife along and he flirted so much with the other comrades' wives that some of them seriously thought of calling him out for a duel the next day.

City Election

There was no great stir at the city election Tuesday. As there was only one list of candidates there was no competition for the offices so of course the candidates that were nominated at the caucus a few weeks ago were all elected, they being Henry Ley, Mayor; H. S. Ringland, Treasurer; Martin Ringer, Clerk; W. W. Kingsbury, donkeyman in the first ward; P. L. Neely in the second ward, and A. M. Jacobs in the third ward. What contest there was was over the question "Shall the saloon license ordinance be repealed?" and a total of 329 votes were cast, but all of the voters did not vote on the saloon question. There was two majority in favor of the drys in the second ward, 26 majority in favor of the drys in the first ward, and the total vote showed a majority in the town of 26 in favor of the saloon. Everything was as peaceful and calm as a midsummer day.

Commercial Club Will Banquet

At a meeting of the executive committee of the Commercial Club on Tuesday evening it was decided to give a banquet Tuesday evening, April 13, to the citizens of Wayne and vicinity in honor of those whose efficient work during the recent session of the Nebraska legislature made possible the establishment of the Normal school at Wayne. The banquet will be held in the gymnasium of the new college building, and will be of the nature of a general jollification over the recent event.

An effort is being made by the Commercial Club to secure the presence of Governor Shallenberger and Lieutenant Governor Hopewell and those who worked so faithfully in the interests of the project.

A general invitation is extended to all in Wayne and vicinity who are interested in the welfare of the town.

There will be a charge of one dollar per plate and tickets can be procured from H. C. Henney or C. H. Sweet. It is urged that the tickets be taken by Saturday evening so that the committee may know how many to plan for.

Bert Brown Buys

Monday forenoon was the day and ten o'clock the hour on which Grant S. Means, administrator of the estate of Charlotte Holmes, deceased, had set for the sale of the east twenty feet of the west forty feet of lots 17 and 18 in block 21 of the original town of Wayne, and at that time and hour a number of bidders were present to compete for the ownership of the property. Bert Brown was the individual who had the largest purse or else the most faith in the town and the property was bid off to him for \$1100. This is the store room now occupied by Miss Temple's millinery store, and the price seems reasonable.

Baptist Church Notes

The ordinance of baptism will also be administered.

The right hand of fellowship was extended to 14 new members last Sunday.

Rev. Smith is at Lincoln this week to attend a meeting of the Board of Managers of the Baptists of the state.

The pastor will preach an Easter sermon Sunday morning and in the evening there will be a musical concert with Prof. Davies in charge.

The work of soliciting funds for the new church building is progressing nicely and the good people of Wayne are responding so willingly and liberally that it makes the work a pleasure.

Wedded at Four O'clock

Yesterday afternoon, the 7th, at the home of Judge Hunter and wife in Wayne, at four o'clock in the afternoon, occurred the marriage of their niece, Miss Hattie Hunter, to Grant Simmerman, of Carroll, the ceremony being performed by a minister from Carroll. The bride is a daughter of Mr. and Mrs. W. A. Hunter, who reside a few miles northeast of Wayne, and is a young lady of estimable character and one who will make a good home maker and help meet for him to whom she is pledged her troth. The young man is well and favorably known in the vicinity of Carroll, industrious and of good habits and should prove to be all that Miss Hattie hopes and expects he will be. There was a goodly number in attendance at the wedding and all, with a host of other friends, trust that the sea of matrimony may not have too many squalls as they sail across it in the coming years, and that peace, prosperity and happiness may be their portion day by day.

Will Be a Candidate

We have reliable information that Mrs. M. A. Phillips of the Wayne schools will be a candidate for the office of County Superintendent of Schools on the Republican ticket at the primary election, when it shall be held. Mrs. Phillips has been teaching in the Wayne schools for about nine years, is a talented woman and capable in all respects to fill the office if elected. Her educational ability or character cannot be questioned and if she shall be chosen to the office for which she aspires it will be placed in worthy hands. As a great majority of the teaching force of every county is now young women, it seems fitting and proper, at least the voters in many instances so look at it, to elect a woman as a superintendent. As the canvass advances we may have more to say on this important subject.

Mr. Marshall, representing the Arlington nurseries was in town yesterday and today delivering nursery stock orders that were taken some months ago. Many farmers have been taking out trees, shrubs and plants to beautify and improve their premises.

Public School Gymnasium Fund

The gymnasium fund is growing encouragingly. The public has responded in a way that proves conclusively its keen interest in our schools. Following is a statement of the fund to date:

C. C. Band Benefit	76 20

Total.....\$286.60

Special thanks are due the members of the Wayne band for their courtesy and generosity in giving the entire proceeds of the concert on St. Patrick's night. They were at their best and gave a most excellent program of choice music beautifully rendered. Wayne is justly proud of this organization. Mrs. W. B. Morris and Miss Bellows, who had already endeared themselves to the hearts of the Wayne people, contributed a material part in making the program the decided success that it was.

Still Sticks

A law suit tried before Judge Hunter and a jury last Saturday was entitled Scroggs vs. Weible. Scroggs is a non-resident land holder, having a farm near Winside. Weible occupied the farm last year and along in mid-summer began to make enquiries in regard to remaining on the farm this year, and was told that he could have it if a sale was not made. The latter part of August Weible went to Smith, at Winside, who was acting as Scroggs' agent and told him he must know positively whether or not he was to have the farm this year, as he wished to do the fall plowing and sow winter wheat. Smith wrote to Scroggs and received a reply that he saw no signs of any chance to sell and that Weible could have the farm this year and as long as he owned it, as he was all right as a renter. Depending on this Weible went ahead and did the plowing and sowed his wheat and made other preparations for the year's work. Early this spring Scroggs sold the farm and the new owner notified Weible to move off the premises and on his refusing to do so brought this suit of ejectment, but lost his case, as the letter of Scroggs introduced in evidence convinced the jury that he had the right of possession for that year until the crops were harvested.

O. S. Gamble and wife, out on route two, are having more than their share of sickness and trouble this year. Last week they took their son Earl to Sioux City for an operation for appendicitis, and he was found to be in a very serious condition, and at first it was thought he would not recover but now is getting along nicely, but not able to sit up. Wednesday morning their daughter, Miss Belle, aged 18 years, went to the hospital at Sioux City for an operation for the same disease with which she has been afflicted for some time, but not seriously heretofore.

Continued cold is making spring a little backward, perhaps. Farmers are not figuring on sowing oats until around the 10th of April, unless the ground takes a sudden notion to get warm. Spring plowing is being done on some farms, and the man who has much of it to do wishes he could have had a little earlier start.

If you haven't the time to exercise regularly, Doan's Regulents will prevent constipation. They induce a mild, easy, healthful action of the bowels without gripping. Ask your druggist for them, 25c.

Signs Daylight Bill

Governor Shallenberger signed the daylight saloon bill. The measure forbids the sale of liquors except between 7 A. M. and 8 P. M. The bill goes into effect July 6th. Omaha business men are bitterly opposed to the measure.

A City Beautiful

The two mothers' meetings that have been held thus far have been wide awake and full of interest. Not only are the mothers keenly interested in the subject of child study, but along the line of civic improvement as well. We know we have a beautiful town and we can and will make it more beautiful. Its possibilities are so great that it is a matter which touches every live citizen.

It is proposed to give the boys and girls of our public schools an opportunity to advance all the good practical ideas along this line which may come to them, and it is quite likely we older heads will receive some hint on this subject of which we shall be glad and justly proud to take advantage of and put into practice. At the last mothers' meeting it was unanimously decided to offer prizes for the best essays on "How to Make Wayne Beautiful." On Tuesday afternoon members of the prize committee met Supt. Wilson and his teachers at the High school building and talked over the plan which was met with much interest and cordial willingness.

The competition will begin with the second grade and end with the tenth. In each of these grades two prizes will be given in the Ward School (one boy's and one girl's prize) and two in each grade in the High School building except in the ninth and tenth grades, in each of which one prize will be given.

Further details will be printed next week, and in the meantime committees will be informed and the work reduced to as good a system as possible. So boys and girls, put on your "thinking caps" and sharpen your wits for we know you are full and brimming over with splendid ideas. We shall soon see what practical plans for a city clean and beautiful will unfold from our public schools.

A young man by the name of Crinklaw, who comes here from Pender, Nebraska, is the new operator at the depot in Wayne.

They are beginning to get busy in the treasurer's office these days. One man paid over \$600 in taxes this morning before nine o'clock.

County Clerk's office shows 167 deeds, 113 mortgages, 105 releases and 258 chattel mortgages filed for the quarter ending April 1st.

Miss Maud Grothe, who had been spending a week's vacation at home, returned to her school studies at Yankton, South Dakota, the first of the week.

Mrs. W. C. Pond has gone on a visit with her parents at Parkersburg, Iowa, and with other relatives in that part of the Hawkeye state.

Miss Ellen Ragland, who drew No. 126 in the Tripp land lottery, returned Tuesday from that section where she made her selection of 160 acres of good land as her homestead. She was very fortunate in her choice too.

We hear considerable complaint this season about the loss of colts to foaling time as well as the death of mares. The loss seems to be much more severe than for many years, with no known reason therefor.

The Presbyterian church society held its yearly congregational meeting Monday evening with a fair attendance. David Cunningham and Wm. Gildersleeve were re-elected elders, and Dan Harrington and W. M. Orr trustees, the positions they now hold. Reports from all the different church organizations were read and Rev. Osborne reported that the last year was the most satisfactory of any year of his ministry.

Dan Harrington was over to Wakefield Wednesday afternoon.

The children in one of the districts in the western part of the county who went to school last Monday morning were disappointed by the report "the teacher is married."

Rev. T. C. Osborne united in marriage yesterday at the Presbyterian parsonage Miss Mattie Galvin, of Randolph, Nebraska, and H. P. Madison of Viborg, South Dakota.

There will be special Easter services at the Presbyterian church next Sunday. Both at the regular service and at the Sunday School session appropriate exercises will be given.

You will be pleased if you attend the theatrical performance at the Wayne opera house next Saturday evening. It is a western play—"The Cow Puncher"—but the title does not give the character of the play.

Mr. Girton, who had been in the western part of the state for a couple of weeks, returned Tuesday morning. He reports the weather much more favorable for out-door work there than here, and the roads in better condition.

Henry Hansen returned Tuesday from a visit with the Greenwald family at Pierce. While there he made a bargain for 240 acres of land near that town at \$46 per acre and will dispose of a residence property in Wayne if the deal is consummated.

S. B. Seace tore down the picket fence in front of his residence this morning and the red cedar posts that had been in the ground for twenty-two years were found to be nearly as sound as the day in which they were set.

Graves & Lamberson have purchased the R. J. Armstrong coal business, office and scales. The two latter items they will sell and the business will be run in connection with their elevator. It will be a good thing all around.

Judge Hunter united in marriage Wednesday John Herman of Sholes and Miss Anna Becker of Randolph. Assessor Whittier and Ed. Johnson were the witnesses but they were both too bashful to kiss the bride, although she was arrayed in a long white veil, white slippers, and the other accessories of a fine wedding outfit. But what nearly broke all their hearts was the fact the groom made his prospective bride walk all the way from the depot to the court house with her wedding finery on in the slush and mud.

The Harmony Westminster Guild of the Presbyterian church will have a sale of home-made candies in Neely & Craven's hardware store on Saturday afternoon, April 10th, beginning at 2 o'clock.

Wayne, Neb., April 4, 1909. Whereas, it has come to my knowledge that Fred Reber has made a statement that while making a visit to his house on March 21, 1909, that William A. Meyer had informed me that he, Fred Reber, had small pox at his house. I wish to state most positively that I did not make such statement to any person whomsoever.

J. J. Williams.

It cost Fred Warnemund \$25 last week to learn that it is not best to talk to a juror during the progress of a trial. While the case of Warnemund vs. Erickson, from Hoskins, was on trial Warnemund said to one of the jurors "We Germans must stick together." Judge Welch held that this was trying to influence the jury and fined him \$25 for the remark.

Just a little more boosting of the part of the patrons of the Wayne postoffice will raise the office to second class privileges. Postmaster McNeal informs us that the receipts are so close up to that point that only about \$100 more is needed to reach it. Everyone should take just pride in reaching this, and in doing all that they can to advance every interest of our thriving and beautiful little city.

As a Little Embroider
A Michigan New Yorker stepped from the Michigan Central train in Chicago, a handsome young lady rapturingly about his neck, and kissed him many times, saying, "Oh, papa, you're just what I need!" The old gentleman, with both arms around her and his hand to his face, and soon she looked up into his face, and horror stood in her eyes. "Oh, my, you're not my papa," she said, trying to free herself from his embrace. "Yes, I am," insisted the old gentleman, holding her tightly. "You are my long-lost daughter, and I'm going to keep you right in my arms until I get a policeman." When the officer came and found the old gentleman's diamond pin in the girl's hand, he said, "That's a new trick, hey? 'Is it?' was the remark. "Well, it's several weeks old in New York."

High Finance.
"I have a bookkeeper in my office who is evidently destined to be one of our future captains of finance, all right," a broker remarked the other day. "He is a good clerk, but of late he has been late several times, and I had to call him down."
"You have been late three times already this week," I said. "What is the trouble—oversleeping yourself?"
"No, sir, and I am very sorry," he answered. "I will try not to let it happen again. It has been due to the fact that I have been walking to the office instead of riding."
"Think the exercise does you good?" I asked him.
"No, sir; rather a matter of economy," he explained. "Even small sums count to me, you see, and I have already saved enough to have my shoes resoled."—Harper's Weekly.

WORTH MOUNTAINS OF GOLD

During Change of Life, says Mrs. Chas. Barclay

Graniteville, Vt.—"I was passing through the Change of Life and suffered from nervousness and other annoying symptoms, and can truly say that Lydia E. Pinkham's Vegetable Compound has proved worth mountains of gold to me, as it restored my health and strength. I never forget to tell my friends what Lydia E. Pinkham's Vegetable Compound has done for me during this period. Complete restoration to health means so much to me that for the sake of other suffering women I am willing to make my trouble public so you may publish this letter."—Mrs. CHAS. BARCLAY, R. F. D., Graniteville, Vt.

No other medicine for woman's ills has received such wide-spread and unqualified endorsement. No other medicine we know of has such a record of cures of female ills as has Lydia E. Pinkham's Vegetable Compound.

The more than 20 years it has been curing female ailments, such as inflammation, indigestion, local weaknesses, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration, and it is unequalled in carrying women safely through the period of change of life. It is worth mountains of gold to suffering women.

WESTERN CANADA THE PENNANT WINNER

"The Last Best West."

The Government of Canada now gives to every actual settler 160 acres of wheat-growing land free, and an additional 160 acres at \$3.00 acre.

The 300,000 acousted American Settlers making their homes in Western Canada is the best evidence of the superiority of that country. They are becoming from 10 to 30 bushels wheat to the acre; 60 to 110 bushels oats and 45 to 60 bushels barley, besides having splendid herds of cattle raised on the same land. Dairying is an important industry.

The crop of 1908 will keep Western Canada in the lead. The world will soon look to it as its food supply.

The thing which most impressed us was the magnitude of the country that is available for agricultural purposes.

BIG MILITARY PRISON BURNS.

800 of the Army's Convicts Rescued at Fort Leavenworth.

The military prison at Fort Leavenworth, Kan., was partially destroyed by fire at midnight Wednesday night. The 800 prisoners all were taken from the main building as soon as the fire reached it and none was injured.

The convicts were confined in a stockade under the guard of United States troops. Some of them, so far as is known, succeeded in gaining their liberty during the transfer to the stockade. At 2 o'clock some of the convicts had collected sufficiently to allow half of the prisoners to return. The others will be taken to the Federal prison, two miles away, at daylight. Two of the Federal soldiers who were fighting the fire were injured. The property loss on the building is estimated at \$200,000.

The fire was first discovered at 10 o'clock in the tailor shop. It soon spread to the shoe shop and the blacksmith establishment. Lack of water pressure prevented all hope of saving even the main building, and it was decided to move the inmates. Long before this, however, the convicts had seen the flames and, fearing they would be burned to death, they battered on the bars of their cells and screamed in terror.

As soon as several companies of soldiers, including cavalrymen, had gotten under arms, a "strong column" was thrown about the prison and the delivery of the prisoners began. The convicts were removed first, placed in ambulances, and taken to the Fort Leavenworth hospital under guard of cavalry.

The records were removed from the administration building. If everything had not been done in perfect order lives doubtless would have been lost. As it was, strict military discipline prevailed.

BABY'S BODY IN BASKET.

Cleveland Man Unknowingly Carries Corpse Home to His Room.

For several hours Walter Johnson, Jr., carried the body of a baby about Cleveland in a basket, thinking it contained groceries. Johnson bought groceries at several markets. He started home, but, meeting "friends on the way," was delayed until morning. He then went to bed without opening the basket, leaving it in the center of his room. His father opened the door and lifted out the groceries. The police believe the body was left in a basket in one of the markets visited by Johnson. Death is said to have been due to exposure.

MINE AGREEMENT OR WAGE CUT

President Buier Wants Contract Signed or Conditions of 1000.

From local operators in close touch with President Buier of the Reading Railroad and Morris Williams of his Pennsylvania Coal Company, it was learned in Philadelphia, Pa., that unless officials of the United Mine workers of the three anthracite districts signed another three years' agreement, the same as the one now in force, the coal companies would insist on all conditions reverting back to 1905. This would mean the abolition of the sliding scale and a reduction of 20 per cent.

NEW CUBAN ENVOY IN OFFICE.

Senor Veloz Reaches Washington and Takes Charge of Legation.

Senor Carlos Garcia Veloz, who succeeds Senor Quesada as Cuban minister to the United States, has reached Washington from Havana, and has assumed charge of the legation. His wife and children stopped off in Florida and will remain there for several weeks. Minister Veloz asserted that it would be his purpose to foster the cordial and friendly relations between this country and Cuba.

Senators Open on Lake Erie.

The passenger traffic season for 1909 on Lake Erie opened Monday when the Detroit and Cleveland Lake steamer City of Detroit left Detroit for Cleveland. Less ice in Lake Erie than for many years and splendid weather made it an ideal day for the opening.

Engine Kills Engine Inventor.

Noble M. Davidson, inventor of the traction engine, was killed in Ada, Ohio, by being struck by a Pennsylvania passenger engine. Davidson invented the traction engine in 1877 and in that year the first engine was put on the market.

SOME SPRING OPENINGS.

SLAY U. S. SCIENTIST.
Dr. William Jones is Victim of Homicide in Philippines.
Troops have been ordered out to investigate the murder of Dr. William Jones of Chicago, a noted ethnologist of the Field Museum, who was killed by savage head hunters in the mountainous district of the Island of Luzon, P. I. A force of Philippine constabulary, under American officers, has been sent to the spot to recover the body and learn, if possible, what tribe killed the scientist. The scene of the murder is the town of Dumaban, at the headquarters of the Cagayan River in Isabela Province. In the extreme north of the island, Dr. Jones had been in Luzon two years studying the customs and religions of the wild tribes for the Field Museum of Chicago. He had been living or several months among the Hmongos, a friendly tribe, but planned to leave them to investigate another tribe of head hunters in the mountains. It is believed he was killed while making this journey.

THINKS HE IS CHARLIE ROSS.
Berkman Believes Self and Famous Kidnaper Boy Are Identical.
William Grant Eckert of McKee's Rocks, a Pittsburgh suburb, formerly a coal miner at Shamokin, now a brickman on the Pittsburgh and Lake Erie Railroad, stated that he believes he is the Charlie Ross kidnaped from Germantown, Pa., thirty-five years ago and never recovered. He said he learned early in life that he was not the child of his supposed parents, and that many things he did led him to believe that he was Charlie Ross. He said he tallies in every respect with the description of Charlie, even to moles on his body. Memories of his early home, he said, agree with descriptions of the Ross home. His foster parents, who lived at Shamokin, are dead and he has no evidence of his identity and is not making any effort to prove his claim with the name in the case because of the notoriety it would give him.

PIANIST'S CAREER ENDS.
"Player's Cramp" Stops Paderewski for Years and Perhaps Forever.
Ignace Jan Paderewski, the pianist of the piano, may never charm again in America, possibly never again anywhere. He will devote the principal part of his remaining life to composition, if his fears prove true.

The reason for this resolve, the famous pianist virtually admitted, was "piano player's cramp," the insidious, creeping malady that often follows years of brilliant and nerve-wearing execution on the keyboard, blighting the career of an artist before his time.

When Paderewski, who was accompanied by his wife, sailed from New York on the Kaiser Wilhelm der Grosse Tuesday, he held his left hand in the right as if it needed the most tender nursing. He seemed apprehensive that his rheumatism might be permanent. "I may never return to America," said the great Polish artist somewhat sadly. "I still have pains—shooting pains—in my left arm and hand. I have them now."

PRIEST BIG BANKRUPT.
Liabilities of \$1,504,140 Scheduled by Rev. W. McMahon.
Rev. William McMahon, pastor of St. Bridget's Roman Catholic Church, Cleveland, and editor of the Catholic Universe, filed a voluntary petition in bankruptcy in the United States Court there Wednesday. In the petition his total liabilities are stated to be \$1,504,140.44, with assets aggregating \$75,294.08, of which \$71,300 is in cash. The secured claims amount to \$346,325.73; unsecured claims, \$371,307.91; and commercial paper, \$185,512.1. Father McMahon was a director of the Fidelity Funding Company of New York, founded by P. J. Kieran, and which now is in the hands of receivers. Thus it came about that his name was signed to many of the papers issued by the company, and for which he now is held liable.

ADMIRAL CONVERSE DEAD AT 75.
Chief Who Assembled Globe-Girdling Ships Assembled at Home.
Rear Admiral George A. Converse, 75 years old, died at his home in Washington, D. C., of uraemic poisoning. Although placed on the retired list several years ago, he was in active service at the time of his death, being president of the board of construction of the navy. It was under him, as chief of the bureau of navigation, that the battleship fleet of sixteen vessels which recently circled the globe was assembled. His widow, who was a Miss Wood of New York, and his two unmarried daughters, Maud and Olga, were with him when he died. Two other daughters survive—Mrs. Colt of Bridgeport, Ct., and Mrs. Jackson of Baltimore, Md. Admiral Converse was born in Norwich, Vt.

Famous Chicago Tenor is Dead.
William Castle, for more than twenty years director of the Chicago Musical College School of Opera and noted for his interpretations of tenor roles during the early history of the opera in Chicago, died at his home in that city. He was the head of the Castle & Campbell Opera Company, which was one of the first pretentious organizations to sing English opera in America.

Find Wife Dead in Wagon.
Theodore Maynard, wealthy farmer, drove into Bellingham, Wash., with his wife, and as he attempted to help her out of the carriage found she had died. The husband explained that shortly after leaving home she had swayed in the seat and he put his arm around her, keeping it there until he reached the city.

Eight Killed by Blast.
Eight men were killed and nine others injured as the result of a premature dynamite explosion on the Norfolk and Western Railway five miles south of Chillicothe, Ohio. The men were members of a construction crew on double-track work.

Try to Wreck Chicago Flyer.
A short time before the arrival of the Twentieth Century Limited on the Lake Shore Railroad at Elyria, Ohio, Max Tunington found a pile of ties laid across the tracks. It is believed that traps driven out of town during the day had planned to wreck the train.

Indian Woman Shoots Dentist.
Dr. William Ader, a dentist, was shot four times by Harriet Pace, a full-blooded Chickasaw Indian, at Madill, Okla., and died of his wounds. The woman alleges Ader attacked her and that she fired in self-defense.

THE CRACKING OF PAINT.

Property Owners Can Save Money by Learning the Cause.
Do you know what is wrong when paint peels or cracks, or otherwise necessitates repainting?
Well, sometimes it hasn't been properly applied—the surface being damp or too moist, containing too much turpentine or too much lead.
But, nine times out of ten, the trouble is caused by adulterated white lead. To avoid all such trouble, every householder should know in a general way when a surface is in proper condition to receive paint, what kind of primer and finishing coats different surfaces require, and how to avoid adulteration in materials.

A complete painting guide, including a book of color schemes, specifications for all kinds of painting work, and an instrument for detecting adulteration in painting materials, with directions for using it, can be had free by writing National Lead Company, 1902 Trinity Bldg., New York, and asking for Harpington's Painting Outfit No. 44.

This company, the largest makers of pure white lead, include tests, by means of its microscope (included in outfit), in any other way, of the purity of the white lead sold under their famous "Dutch Boy Painter" trademark. This trademark on a keg of white lead is in itself an absolute guarantee of purity and quality.

Hamlet Grimes.
Thomas W. Lawson at a dinner in Boston, talked about success.
"Success in finance," he said, "is due in great measure to prompt action. The doubting, hesitating, Hamlet type of man had best keep out of finance. He is sure to be swamped. The street has no use for him. Such a man always makes me think of my boyhood friend, Grimes. Grimes was a failure, a doubter, a Hamlet of the worst type. One night I dropped in on him and found him bent in a brown study over a white vest."
"Hollo, Grimes," said I. "What's the matter?"
"This vest," said he. "It's too dirty to wear, and not dirty enough to send to the wash. I don't know what to do about it!"

\$100 Reward, \$100.
The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical profession. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure (taken internally), acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by holding up the system of the assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

His Only Fear.
Kind Lady—You should be careful how you tramp around in the street, my poor man. This paper states that there are five varieties of grip.
Sandy Pilkes—Dat may be, lady, but der is only one kind dat I am skeered of.
Kind Lady—And what is that?
Sandy Pilkes—De bulldog's grip, aunty.

Don't Be Mistak.
Many a life has been cut short by a cough that was not believed to be serious. Many a backache and slight cough follows a coughing spell. Many a night is passed in restlessness caused by coughing. Many a cough "cure" that never cures is tried. Do not be misled. It is your duty to take the old reliable Kerley's Balsam, the best cough cure. At druggists' and dealers', 25c.

In the Cave of Gloom.
Correspondent—Do you know, Senator, that the creek in the thirty bell has extended several inches lately?
Pessimistic Statesman—No, I hadn't heard that. But I know there's a hole in the constitution big enough to drive an elephant through.—Chicago Tribune.

Power of Plants.
Farmers are well acquainted with the fact that the roots of trees will disrupt and sometimes overturn a stone wall, but the lifting power of tender vegetables is equally surprising.

The one result which has perhaps attracted the greatest attention is the discovery that a weight of two and a half tons can be lifted by the common pumpkin in the course of its development.

Mr. Carpenter relates the story of a paving stone weighing eighty-three pounds that was raised from its bed (when joined by others on all four sides) by such a soft piece of fungus as the common mushroom. And still another and more remarkable story is added to the above.

A man had a cask of sweet wine placed in a cup of eucalyptus culture. When examined several years later it had risen from the floor of the cellar to the ceiling, having been borne upward upon the tender shoots of a vine fungus with which the cellar was filled.—London Home Notes.

Taking No Liberties with History.
"I think, Ivergous," said the young professor's wife, as she leaned fondly over the cradle of their first born, "we'd have to name him after you."
"Yes," responded the young professor, "about 200 years after me. His name, my dear, will be Solon."

Unequal Distribution.
The head waiter at the banquet was in a towering rage.
"They paid that world-slender \$70 for half an hour's talk," he fumed, "and all I got was \$62.50, mostly in nickels!"

 Do not twist your head too suddenly to one side or you may experience the same kind of an accident that Laura Nieman, of Pierce, did. She was sitting in a chair at home, and turning her head suddenly to one side to look at something behind her, dislocated her neck, and now has to wear it in a cast for a time.
 W. A. Poynter, ex-governor of Nebraska, while making a speech before governor Shallenberger at Lincoln Monday morning for the daylight saloon bill, was stricken with apoplexy and died within a few moments. He was governor of the state from 1899 to 1901 as a populist.
 Heretofore the people have been led to believe that the prosperity of Omaha was founded upon the substantial basis of the trade of a half dozen mighty states in the mighty west, but since the passing of the daylight saloon bill it is clearly evident that it rests simply upon the foam in the top of beer glasses. At least all classes of businessmen from the barbers to the manufacturers have so telegraphed governor Shallenberger. Poor Omaha!

CONSOLIDATED MAY DOUBLE ITS DIVIDEND

Statement of March Production Shows Net Profit of \$950,000.00

Prospect That Disbursements to Stockholders Will Exceed Those of the Smelter Trust

Special to Daily Mining Record: GOLDFIELD, Nev., April 3—Secretary A. H. Howe, of the Goldfield Consolidated Mines Company today gave out a statement concerning the operations of the company during March. It shows that the mill handled 19,010 tons of ore and 341 tons were sent to the smelters, the total value, partly estimated, being \$1,074,020. The cost of mining, milling, and office expense and transportation is placed at \$124,020, thus leaving a profit of \$950,000. According to these figures the company is earning \$11,400,000 a year, or approximately 33 per cent. on its outstanding capital stock of \$35,425,000. The present dividend rate is approximately \$60,000 a month, which leaves a surplus of nearly \$600,000 a month. The continuance of this rate of production, which does not seem unlikely, would apparently justify the doubling of the dividend rate, which would bring the yearly disbursement up to \$8,500,000, more than the dividends upon both preferred and common stock of the so-called smelter trust.

NEW LAWS OF NEBRASKA

What Thirty-first Legislature Has Accomplished.

PRESENTED IN A NUTSHELL.

One of the last acts of the legislature of 1909 was to pass a bill providing that all saloons in Nebraska should close at 8 o'clock in the evening and remain closed until 7 the next morning.

Final adjournment was delayed until Saturday, though it had been set for Thursday, by reason of the disagreement of the conference committee on the physical valuation bill. This was settled on the last day of the session by exempting from the bill all property of the stock yards save the railroad it owned, the unloading pens and the viaduct. Electric lights, gas and water companies were also exempted. The act provides that the state railway commission shall, with the approval of the governor appoint experts to find the value of the rail roads, telephone and express companies and the property mentioned. Forty thousand dollars was appropriated for the carrying out of the act.

Of the bills passed of general interest were the following: The bill to guaranty bank deposits; the Oregon plan for the election of United States senators; the reciprocal demurrage bill; the non-partisan judiciary; regents of the state university and state and county superintendents; the levy of a flat tax on all foreign corporations based on the capital stock, to be paid annually and to be called an occupation tax; the bill to provide all foreign and domestic corporations, save insurance and railroads and those not engaged for profit, shall list the name of their agent with the secretary of state and pay to him a fee of \$50 for keeping the records of the names and addresses; the amendments to the primary law changing the date of the primary to the last Thursday in July and providing for the county convention; the Ollis primary bill which provides for the open primary. Bills signed by the governor:
