Tekamah will try the primary system this spring in nominating candidates for city offices.

Miss Dell has been the primary teacher in the Randolph schools for 12 years. A good record.

The Methodists of Walthill are planning on dedicating their new church building on Easter Sunday.

The Methodist society at Allen has decided to sell the old church building and erect a larger and better one.

Congressman G. M. Hitchcock of the 2nd Nebraska district, has announced himself as a candidate for the U. S. senate, on the democratic ticket, to try and succeed Senator Burkett.

The Coleridge Blade seems to think that LaFollette, Cummins, Roosevelt, Folk, Lindsey, Bryan and Johnson represent the cream in both parties and should serve as nucleus for a new party. Oh my! Pass the cream.

A Cleveland, Ohio, bank witnessed a run on the institution for two days, the withdrawals being at the rate of \$1,225 per minute, and then the depositors came to their senses and the run ceased. \$5,000 reward has been offered for the arrest of the man who started the stories which caused the run.

Randolph will vote on the saloon question again this year, but differently than heretofore. This year it will be a straight question, for or against saloons, leaving the question of ordinance to the council after the election is over. That is the proper way to vote on the matter, then there is no chance for any voter to get muddled up on it.

"He who fights and runs away shall live to fight another day," might apply to a man who waded out into the Missouri river with the intention of committing suicide but

day trains when they know that if their request be granted it requires station agents, telegraph operators as well as other station employees, and train men and mail clerks to toil the seven days' round. Leaving out the moral phase of the question, why is not the class of men we have mentioned as much entitled to their day of rest as anyone else. We do not believe, as a matter of fact, that anyone would be seriously discommoded even on the line between Sioux City and Norfolk if no trains were run at all on Sunday, and the railway company would benefit enough business off from any of the branches on Sunday to pay them for the additional expense of running trains.

Washington News Letter

Judge W. F. Norris, formerly of McCook, Nebr., who for a number of years represented the United States in a judicial capacity in the bench in the Philippine Islands, was the principal speaker at the monthly meeting of the Nebraska State Association held at "Neighborhood House" in this city last week.

"Neighborhood House" is in all essentials a settlement house, and is under the charge of former Nebraskans, Mr. and Mrs. Neligh. Mr. Neligh being for many years a resident of West Point. They have been settlement workers for many years. It has been recently reported that "Neighborhood House," which is located in southwest Washington, amid squalor and want, has come to the front as an institution which has changed conditions immeasurably in a neighborhood bounded on one side by the Potomac River, on another side, by stables, and on still another side by a garbage plant, the fourth side open to dumping grounds, government storage places and the like.

Judge Norris faced a hundred or more Nebraskans, and he was accorded close attention in his heart to heart talk about conditions in the Philippines. While the address seemingly was extemporaneous, it showed careful preparation, close analysis and a statesmanlike arraignment of conditions as he found them during his seven years on the Philippine bench.

Summed up, it was a complete endorsement of the policies of President Taft, whom he regarded as one of the very greatest missionaries who had ever carried, not only religion, but the flag, to a people who seemed ready to receive enlightenment, and who he believed, regarded the Stars and Stripes as the beacon standing for square dealing in the Orient; and that around the emblem of the states the nations of the world would foregather at the close of the present century.

Almost every county in Nebraska was represented at the meeting, and it looked like "Old Settlers' Day" in Nebraska to see the number of well known and familiar people present.

Senator Isidor Raynor, of Maryland, in his answer to the speech of Senator Burkett, has taken occasion to use some thoughts presented by the senior Senator from Nebraska on the Postal Savings Bank bill, by heading his speech in the Congress Record as follows: "A Few Obiter Observations Upon the Constitution." It will be recalled that Senator Burkett paid his compliments to the Senior Senator from Md., who is a strict constructionist of the constitution, by stating that Senator Raynor, if he had been a great musician would have always insisted upon singing requiems; that if he had been a preacher he would always have been found delivering homilies for the departed. Raynor came back the other day with a vitriolic attack upon Senator Burkett, forgetful of his position, as constitutional lawyer (self-appointed) and really made a laughing stock of himself in his answer to Burkett's closely prepared speech. Raynor was undoubtedly mad all the way thru when he made his reply to Burkett, and while it convulsed the Senators and interested the galleries, the consensus of opinion is that Burkett not only had the best of it, but that his refusal to reply to Senator Raynor showed that he had a farther reaching knowledge of the situation than Raynor; for the Postal Bank bill was passed by every Republican voting for it, and every Democrat voting against it, save one. That was Burkett's triumph.

The North Nebraska Teachers' Association meeting will be held at Norfolk March 31st and April 1st. Governor Folk, of Missouri, is to deliver an address the first evening. Wayne will be represented as follows:

Music—Vocal solo, Willis Fleetwood, Wayne high school.

Address—"English and Scottish Schools"—Mrs. Ella J. File, Wayne Normal.

Music—Male quartet, Wayne high school.

High school building, Room 9. High school section, Superintendent J. H. Kerip, Wayne presiding.

"Better Teaching of English and Language in Rural Schools"—President Fred M. File, Wayne.

Discussion—Superintendent Elsie Littell, Wayne.

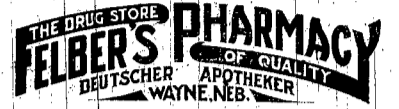

"Art Work in Primary Grades"—Miss Edith Stocking, Wayne.

"Queer isn't it?" As soon as anything happens in the community that the doers of the act think is at all disgraceful some one will visit the newspaper offices and ask that nothing be said about it, while at the same time every male and female gossip is retailing it, enlarging upon it and making it a great deal worse than it really is, and much more so than the mere statement of the fact in the papers. The disgrace, if any, is in the act and not in the mentioning of it after it is done.

POWER OVER ILLNESS

Don't criticize your doctor because a medicine prescribed by him fails to have the desired effect. The prescription may have been good, but the ingredients dispensed poor.

F. G. PHILLEO & CO.

Charles A. Merritt is the name of the new postmaster at Wakefield and has been confirmed by the U. S. Senate.

The Hartington Commercial club is discussing good roads and street paving. Two good subjects for any town to consider.

A. M. Anderson, one of the county commissioners of Thurston county, and according to the Tekamah Journal the best one, has resigned.

Governor Shallenberger is out with a statement that he will oppose Bryan's county option program. Thus does harmony reign in the democratic ranks.

The Allen News asks its readers if they have taken time to worry about the comet that is to appear in May? What is the use? There are enough things close at hand to worry over let alone running after those two months ahead.

W. H. Stageman, of Randolph, sold nearly two million dollars worth of real estate the past year. 133 tracts of land were sold by him, the smallest piece bringing \$2,600 and the largest \$34,000. There were twenty-five buyers from Harlan, Ia.

The editor of the Coleridge Blade has hardly recovered from the shock of having an out of town subscriber remit for three years in advance. None of our subscribers need fear that it will have a bad effect on us if they should do likewise.

The Journal says that the chief issue before the citizens of Tekamah this spring is to get good business men to take hold of the city's business. The question of no-license is practically settled. There are very few who will do differently on the liquor question than they did last year and then the vote was so strongly against license that it reflected a very healthy growth of public sentiment against the saloon.

found the water so cold that it took all the desire to end his life out of him, and he waded back to the shore again.

The senate committee on Indian affairs has decided to report Senator Brown's bill favorably which provides that all lands held by the Omahas which may be eligible to patent in Nebraska shall on April 1st be placed on the taxable list. A great majority of the broad acres owned by the Omahas, which have been exempt from taxation for years, lies in Thurston county.

The Tekamah Journal puts it this way: "It is getting to be a dangerous thing in many towns to get even a slight ailment. One is advised immediately to go to the operating table and there he gets knifed both in his flesh and his pocket. Surgery is all right in its place, but the hold-ups practiced upon the ignorant patient are often far more criminal than that of the foot pad with his gun."

The question of saloons or no-saloons will be before the Wayne voters again this year. The arguments for and against them have all been thrashed over so many times that there is no use in discussing them; if you do not want the saloons, and think they are an evil that should be voted out, go to the polls and cast your vote to that effect. There is no use talking against the saloons 364 days in the year and then the only day in which you can really have any voice in the matter stay away from the polls altogether or else refrain from voting on the proposition. Talk is cheap but it is votes that count.

A whole lot of people, good ones too, think that it is better to rest on the Sabbath than to toil seven days every week, and yet a whole lot of that same class of people will sign a petition to have railroads run Sun-

Not Well Represented

The time of year is near at hand when both political parties in this state are casting about for issues to pledge their candidates to carry out in case they are successful at the polls. One issue we wish to call their attention to, at the suggestion of Representative John Kuhl, is that of re-apportionment as a basis of representation in our state legislative halls. The statute of the state provides that every ten years, at the session of the legislature next following the taking of the census, the re-apportionment shall be made, but for twenty-four years past this has gone unchanged, the legislature each time agreeing to disagree. During all this time the population has been rapidly increasing, more especially north of the Platte river, leaving us without a just representation. At the next session of our state legislature this question comes up and to insure some action on this the Enterprise advocates a party pledge from either of both of the great political parties, that the next legislature agree to re-apportion. The north half of the state was but sparsely settled twenty-four years ago, and to longer continue under this apportionment, gives us an unfair representation in the making of our laws. Without a party pledge we have no assurance that the state legislature in its next session will again agree to disagree. Let us prepare the bridge before we cross. Ten years more is a long time to wait to have another opportunity to get a just representation for our people.

The above is an editorial from the Randolph Enterprise and sets the matter partially before the voters of this part of the state. It is surprising that the people in the north and northwestern part of the state have been content to sit year after year, with a country developing as rapidly as all that portion north of the Platte has done, and yet have such a poor representation in the legislature and in the affairs of the state. One thing is certain, and that is the part of the state south of the Platte will never give the northern part of the state any different representation than it has at present unless the press and people press their demands upon them. And this, as the Enterprise says, should be taken up now and pressed to an issue that will not be down until something has been done. In our next issue we shall try and give some facts and figures regarding the unfair position this part of the state is laboring under. In the meantime we hope that every editor in northeast Nebraska will awake to the fact that he has a work to do in this movement. There is no party politics in it. It is a question of right and justice that should be forever thrust upon the next legislature that they cannot afford to pass it by. Brother editors give the matter a boost and keep at it.

Will Attach for Better Power

We just learned from the King Solomon people that they are going to attach to the Colorado Central Power Company whose line runs within a few rods from the King Solomon plant. This electric line was built at cost of \$21,000,000.00 and generates 360,000 the different mines in that district and as they have recently reduced the rate it will be much cheaper than burning coal. Nearly all the mines in Colorado have met with difficulty in securing coal during the past winter and the King Solomon Company does not intend to be bothered any more with this hindrance.

President Dinsmore has been having some mill tests made with ore from No. 11 vein and he finds that the Wilfley tables have more than 95 per cent of the values in this ore. They are making these tests to determine the kind of reduction mill they will need to treat their ore.

Mr. Dinsmore has just purchased some new drills, cars, air hose water tanks and other necessary apparatus and will put on a larger force of men at the mine and will make a big showing this summer on the blocking of the ore in the several veins already cut by the tunnel and will also keep the drills on the heading of the tunnel to open up the other still larger bodies of ore ahead. The company expects more visitors during the coming summer than ever before.

County Corn and Cooking Contests

State Superintendent Bishop has changed the plan of his boys and girls' corn growing and cooking contests to include work to be done by both boys and girls during the summer, under definite instructions, monthly reports of progress to be made by the boys and girls. In addition he has added county contests in a somewhat different form.

The new departure is called the home experiment department. The work for boys includes acre contest in the growing of corn, ear to row test, husking contest, potato growing, while the girls are at work at cooking, canning and preserving of fruits and vegetables, sweet pea culture and sewing.

At the county contests a test on work done will be given by which delegates to a state convention may be chosen from each county. The date for the Wayne county contest has been set for Friday, April 29th, at Wayne.

Graves May Make Race

Another democrat, Judge Guy T. Graves of Pender, is now the possessor of a well sized "boom" for United States senator which, although without his consent, is spreading and gaining ground rapidly. All that is lacking now is a "yes" from the judge to put him "well up in front" in the race.

Strayed from my premises, one mile south of town, two steers, weighing about 1,000 pounds each. Reward for information regarding them. J. MINER.

Mrs. Munson, of Meskill, was the guest of Mrs. W. H. Hognewood a few days the first of the week. The two ladies went to Wakefield Wednesday afternoon for a visit.

Miss Mary Mason went to Omaha Wednesday morning to accompany her mother home, she wishing to come back from the hospital where she has been for a couple of weeks.

The morning passenger train on the branch did not get in Wednesday morning until after 10 o'clock, owing to a bridge being burned out just this side of Bloomfield. No. 57, the early north bound freight, was turned back at Carroll and sent to Emerson for material to rebuild the bridge.

The infant daughter of Mrs. Miller, only about eight months old, fell out of its bed Monday evening and broke both bones of one of its legs, just above the ankle. Mrs. Miller is the daughter of Mr. and Mrs. Sears, with whom she lives. Such accidents are of a very rare occurrence, as the little tots can usually fall in all sorts of shapes and sustain no serious injury.

The report of the Chicago, St. Paul, Minneapolis & Omaha railroad filed with the State Board of Assessment under the provisions of the terminal tax law shows an increase in the valuation of local property as well as an increase in the net earnings of the road. The value of the local property in Wayne is \$77,764.07, being more than any other station on the entire line except Florence, Oakland, and Omaha. The net earnings in Nebraska show an increase of \$17,985.86 over last year.

Rev. Osborne loaded his household goods Tuesday and shipped them to Scotts Bluff, and followed them the next day.

J. T. Bressler started Tuesday afternoon on a trip to the gulf coast country of Texas. He will be gone a couple of weeks.

Dr. Gamble got his tennis court in working order Monday, and the first games of the season were played there the same afternoon.

Robert Mellor, who owns the building in which Dr. Gamble has had his office, will occupy the rooms as an office for himself. He deals in land.

Dr. Eells loaded his household effects into a car Monday and shipped them to Acadamy, Charles Mix county, South Dakota, and his wife went there Tuesday afternoon. Their departure from this city is much regretted.

Mr. and Mrs. C. E. Long, of Merville, Iowa, who had been visiting her parents, Mr. and Mrs. L. J. Courtright, for over a week, returned to their home Wednesday morning.

The Bible Study Parlor Circle will meet at the home of Mrs. J. G. Mines next Wednesday afternoon. It is to be Vechti Mega day, the girl whom the society is supporting in the foreign mission field Japan we believe.

The council proceedings in another column show that ordinance No. 177, to establish and maintain a public library and reading room in the city of Wayne, was unanimously passed at the meeting Monday evening.

Mr. Fox, who moves here from Burwell, Nebraska, and who purchased the property two doors south of Bonawitz's livery barn, has had the house raised up a foundation of concrete blocks put under it, is now adding a new porch and other improvements.

PIANO BARGAIN—We have a slightly used piano in the vicinity of Wayne, Nebr. To save expense of boxing and shipping, will sell very cheap for cash, or on very easy payments. Write to Onley Music Co., St. Joseph, Mo. M10 w-3

The ladies of the Pleasant Valley Club entertained their husbands at their annual dinner at the home of Mrs. Chas. Madden last Tuesday. The gentlemen think these annual suppers a great event, not that they do not get enough to eat at home, but it gives them a chance for a social time and to compare their wives' cooking.

Mrs. Mossman, a former Wayne resident and landlady of the Union Hotel, but now residing at Inman, Nebraska, was in our city a few hours Tuesday afternoon, while on the way to Carroll, where she was called by the illness of one of her daughters. The editor of the Herald knew the lady years ago at Ackley, Iowa, before she was near grown to womanhood, when her name was Ida Pittinger.

By mutual agreement, and with the best of feelings on both sides, as I wish to retire from the active duties on the farm, I have turned over to my sons, Fred L., and John, all my interests in the farm and they will conduct their own affairs, and I will not be responsible for any debts they may contract.
 LEWIS BECKMAN.

The Bpy Choir, the last of the entertainment course for this year Tuesday evening, was a most excellent one and gave the best of satisfaction. Those who have the lecture course in charge did not come out even again this year. The really only successful way to conduct a course of that kind is to canvass for tickets before a course is selected, and then if pledges enough can not be secured to make it win out, not have any. If people will not pledge before hand they will not buy, and there is no reason why a few men should go down in their pockets every year to provide a feast of good things for the people when they do not care enough to partake of them after the table is spread.

On Tuesday afternoon the Minerva Club gave a most delightful afternoon in honor of Mrs. Frank Owen, of Ashton, Idaho, and Mrs. Minnie Frazier, of Texas, both ladies being former members of the club. It being a delightful day, they decided to have a picnic dinner at the lovely home of Mrs. Lou Owen, a mile north of town.

Both ladies assisted in the afternoon's entertainment, Mrs. Owen rendering several choice selections on the piano and Mrs. Frazier giving them a full description of her home in Texas. Mrs. Dr. Lutgen did herself great credit in reciting a poem. The program was carried out in full. The curtains of the dining room were tightly drawn for it had been announced that a prize would be given to any lady resisting uttering an exclamation at first sight of the dining table. Some felt it necessary to tie their mouths up. The center of the table was adorned with a large Easter nest filled with decorated easter eggs, little chickens and ducks, with ribbons attached to each place card. A most elaborate menu was served after which a number of toasts were given.

There will be a Confirmation Service in the German Lutheran church next Sunday, March 20th. The following young people will renew their baptismal vow and be received into communicant membership of the church: Irene Otte, Alice Mau, Dorothea Kugler, Elsie Mildner, Fred Lerner, Wayne; and Emma Suehl, Antonia Warnemunde, Kate Dimmell and Franz Krause of Winside. The service will begin at 10 o'clock a. m.

Rev. J. H. Karpenstein.

The basket ball games at the opera house last evening were not largely attended as was hoped for. The receipts were about \$55. The games were well played. The first game by the Wayne High School against the Wayne Athletics was won by the high school boys by a score of 16 to 12, and the second game between the Wayne Athletic Club and the N. N. C. team was won by the former by a score of 11 to 9. The sport certainly affords plenty of bodily exercise, especially when the players get into the game with vim.

Rev. Osborne Says Goodbye

Last Sunday was the closing day for Rev. T. C. Osborne in Wayne, and he was given a good audience at the Presbyterian church both morning and evening and both discourses were well received. For nearly five years and one-half Rev. Osborne has stood in that pulpit in our little city and preached the Word. It requires no little stamina for a man to stand in such a place and preach his convictions Sabbath after Sabbath for that length of time, and raise his voice against what he believes to be wrong in the individual life, and the social and civic life of a community, and during these years Rev. Osborne has never sought to shirk the responsibility laid upon him by the sacred vows of his church, his own honest convictions, and his understanding of the word of God. He has always shown an interest in the betterment of the community and has gone out and come in before the people in a manner to commend himself and the gospel he has represented to the thoughtful consideration of the people. Of course there have been some to condemn his words and actions, as there always is in every community, but a man for aye that who can go the even tenor of his way discharging the duties that come to him unflinchingly and with an unwavering faith in the principles for which he contends. Rev. Osborne can be commended to his new field of labor as a conscientious worker for the things which are good and true in the world, for the eternal principles which underlie the gospel he represents, and a worthy man in every respect, and he goes from Wayne with the good wishes of a host of friends who trust that his work at Scotts Bluff may be even more blessed than it has in Wayne.

Miss Beauchemin, our fifth grade teacher, had a long distance phone call, from Jefferson, South Dakota, Wednesday announcing the death of her uncle.

Supt. R. S. Whitley of Sioux City, Supt. Dixon of Tekamah, and Supt. J. E. Marsh of Ponca, will judge the Wayne-Randolph debate Friday evening.

Our schools will be dismissed from Wednesday evening, March 30th till Monday morning April 4th for the purpose of giving the teachers the time to attend the North Nebraska Teachers' Association at Norfolk on March 31st and April 1st.

Don't fail to attend the debate Friday evening. You will enjoy the debating and good music. Admission only 15c.

Breaks Leg Wrestling

Wisner, Neb., March 15.—Charley Dudley had his left leg broken while wrestling in play a few miles out in the country, where he was husking corn.

The hearts of Mr. and Mrs. A. R. Davis are very tender and sore over the death of the baby, which came to their home Monday, to gladden their hearts for only a couple of days, it dying yesterday. It was very small only weighing 1 1/2 pounds, and fears were entertained from the first that it might not live. The sympathy of friends go out to them in this trial.

Donovan a Detective?

J. B. Donovan, deputy game warden for the Third congressional district, will very likely resign his position in the very near future to become detective for the Union Pacific railroad.

Principals of Normal Schools

When the state normal board meets at Chadron, April 4, it will elect principals for three state normal schools, or at least make the attempt. This is to be done on motion of Dr. Shellhorn of the board, in addition to the work of selecting a site for the Chadron school. The Wayne and Chadron schools can not be operated by the state in less than one year, but the board thinks it well to elect principals and give them one year to get a faculty together. The person who is elected principal of the Peru normal in place of Mr. Crabtree will have until fall to go to work, but he may be asked to take charge of a summer school.

Shoots Off Part of Hand
 Wisner, March 15—While out hunting ducks Sunday Marsh Metz, who is living on the Farley farm, four miles west of town, had the lower three fingers and part of his hand blown off with a shotgun. He sat down to rest on the banks of the Elkhorn. When he arose to start on, taking hold of the muzzle of the gun, it was discharged with the above result.

WM. CROSSLAND

Our Civic Duty

(Oration delivered by Wm. Crossland at the State Debating Contest)

The three inherent principles of a true democracy are liberty, equality and self-government. They are the basis of national unity, the foundation stones upon which the superstructure of democracy must rest.

The Revolutionary fathers probed by their experience of the past and builded well. Upon this sacred trinity of principles our republic was founded. Into its governmental form was crystallized the best victories of humanity, achieved through centuries of sacrifice and struggle.

Civic duty has a threefold aspect. It is functional. The ideal citizen thinks, speaks and acts. He informs himself upon all public questions, voices his convictions and uses his suffrage.

Almost a century and a half has elapsed since the Revolutionary fathers finished their work. Under the guidance of an all-wise Providence, the thirteen scattered colonies of the Revolution have become the mighty nation of today.

Who is responsible for these conditions? How have these evils crept in? Which inherent principle of democracy has been violated? We cannot say that corruption alone is responsible for there will always be corrupt forces at work to undermine our government.

Neglect of civic duty is the charge which can justly be lodged against the American people. Kossuth, the great Hungarian patriot, pointed out this danger, in these words, "If shipwreck shall ever befall your country, the rock upon which it will split will be your devotion to your private interests at the expense of your duty to the state."

To rightly use our suffrage, we should be intelligent. Yet here again we are weighed, and found wanting. How many citizens are acquainted with the theory and institutions of our government? They probably know that this is a democracy and a free country.

From the fact that those who have charge of the lecture course each year fail to make both ends meet in a financial way, it is evident that our people prefer something that will merely tickle the fancy rather than those things which really entertain, instruct and furnish food for thought.

A new day has dawned in our history. This is an age of reform. The neglect which has so long shrouded our political life in darkness is giving way to an awakened spirit of civic devotion.

And free men, unfettered by servile allegiance to king or pope, will decide the contest. Here is boundless opportunity for the abilities of the patriotic citizen. And here will his allegiance be tested, his faith tried. If he would lift up a standard of political purity, he must expect the storms of ridicule, the jeers of the populace.

Those who have made a study of economic questions, and like to juggle with figures have estimated that every saloon operated in any city or town costs the municipality \$2,000 per year. If this be true, and of course it is, as figures will not lie, the stroller can not see where the two saloons in Wayne are paying investment even with the license of \$1,600 each.

From the fact that those who have charge of the lecture course each year fail to make both ends meet in a financial way, it is evident that our people prefer something that will merely tickle the fancy rather than those things which really entertain, instruct and furnish food for thought.

The Wayne telephone exchange has been absorbed by the Nebraska Telephone company, a part of the Bell system, possession to be given on April 1st. We did not learn the amount of the consideration of the exchange but, R. and E. B. Philleo, owners of the Wayne exchange, told us they got in spot cash all that they thought the property was worth.

Why it Pays To use CALUMET

INSTEAD OF CHEAP AND BIG CAN BAKING POWDER

You simply cannot get as good results from the cheap and big can kind—the baking cannot be evenly raised, it cannot be as light and wholesome because the quality is not there. And it cannot be any more economical. Calumet is medium in price—the standard 1-lb. size can costs 25c. Less of its is required and the baking is certain to be better. Try one can—if not satisfactory your money will be returned. Calumet Received Highest Award—World's Pure Food Exposition. FREE—large handsome recipe book. Send to and slip found in pound can.

The Cheap and Big Can Kind

In this can you get more substance but not more baking powder. It is great in quantity only—not in economy—not in satisfaction.

The debate between the Wayne and Randolph high school debating teams is to take place in Wayne at the high school auditorium tomorrow (Friday) evening. Randolph will send down a large delegation with their team with the hope of spurring them on to victory. There should be a large attendance of our people to aid the local debaters. Turn out and give the boys encouragement and at the same time spend a very pleasant evening.

William Sonnoken, one of the early settlers of Wayne, and one of the first to engage in business here, was in town last Friday, and had the pleasure of greeting a number of old time friends. He still owns some property here. At present he is residing in one of the suburbs of New York City. He had been spending the winter in California and was on his way home. He went to Hoskins Friday night to visit a sister before returning home. Old settlers delight to tell how, after one of those nights when the gentle Nebraska breezes blow the snow in all directions, Mr. Sonnoken came down to his place of business in the morning to find it completely buried up in a drift of snow, and he had to go and borrow a shovel to dig his way inside.

Citizens Caucus

We were misinformed regarding the date of the citizens caucus for the nomination of city officials, and it was held Friday evening, the 11th, instead of the 18th, as the date was given us. It was certainly a representative gathering, being largely attended and much interest shown, as there should be. The meeting was called to order by E. Cunningham, the permanent chairman of last year. On motion C. A. Grothe was made temporary chairman and A. E. Woodruff, secretary. J. T. Bressler, J. P. Gaertner, F. E. Strahan, and C. A. Chace were placed in nomination as candidates for Mayor. Phil Kohl moved that the caucus proceed to take an informal ballot. E. Cunningham offered an amendment that the candidate receiving the highest number of votes be declared the nominee. The amendment carried, and also the motion as amended. Messrs Graves, Craven, Strickland and Duerig were appointed tellers. There was some question as to the length of time a

voter had to be in the city before he could vote, and after a little delay the law was read, showing that a man must be in town or village 90 days before he was entitled to that privilege. A motion was made and carried that the name of each voter be taken as he cast his ballot, after which the balloting began. On the vote for Mayor there were 192 ballots cast of which J. T. Bressler received 89; J. P. Gaertner, 35; F. E. Strahan, 53; and C. A. Chace 15. Bressler was declared the nominee of the caucus.

For the office of City Clerk W. H. Rooney and John L. Soules were placed in nomination. 163 ballots were cast, of which Rooney got 103 and Soules 60, and the former was declared the nominee. H. S. Ringland was nominated for the office of treasurer by acclamation, as were also T. W. Moran and C. A. Chace as members of the school board. James Britton was nominated for Police Judge in the same manner. C. M. Craven, John Meister and F. A. Berry were appointed a committee to fill vacancy should any occur. The temporary chairman and secretary were made the permanent ones and the caucus adjourned. Immediately following the adjournment of the city caucus the ward caucuses were held. In the first ward the caucus was held at Hotel Boyd. Geo. Stringer acted as chairman and W. W. Kingsbury as secretary. John Meister and C. B. Thompson were placed in nomination as candidates for councilman from that ward. On the vote being taken Meister received 16 and Thompson 8, Meister being the nominee.

In the 3rd ward there were two councilmen to select. One to fill vacancy one year, and one for the full two year term. James Ahern, John Larison and Guy Strickland were placed in nomination for the two year term. On the ballot being taken Larison received 41 votes, Ahern 17, and Strickland 9. Larison was the nominee. For the one year term the candidates were James Ahern, C. L. Gildersleeve and Guy Strickland. The ballot resulted as follows: Ahern 21, Gildersleeve 38, Strickland 8. Gildersleeve was the choice. H. F. Wilson and G. S. Mears were appointed committee to fill vacancies should there be any. H. F. Wilson was chairman of the caucus and A. E. Woodruff secretary.

The second ward caucus was held at the city hall. Fred M. Pile was chosen chairman and F. A. Berry secretary. Sprague, Owen, Hufford and Lamberson were nominated for the short term one year and the vote being taken showed Sprague had ten votes; Owen, 13; Hufford, 7; and Lamberson 18, and he was declared the choice for the short term. Hitchcock, Sprague and McVicker were put in nomination for the two year term and Hitchcock got 13 votes, McVicker 13, and Sprague 20, being the choice for the long term.

Every one should boost for Wayne and its products. We have several good industries here, well worthy a good word from every one. While they are doing a good business now they could soon do much more if everyone would continually sound their praises at home and abroad. There is the Wayne roller mill, than which there is none better, the Wayne butter factory, whose product already finds a ready market in many states, the ideal concrete works, which is turning out a wide variety of products in that line, and all of the best; the Wayne marble and granite works; the Wayne brick and tile company; John Lewis' brick yards and several other industries, besides all of the business firms. Be loyal to your town and community; sound its praises continually abroad and great shall be your reward.

Information, Gathered for Statistics, Will Be Treated as Confidential.

TAXES WILL NOT BE RAISED.

U. S. Bureau in Statement Allays the Fears of Those Who Apprehend Troublesome Quizzes.

(Washington Correspondence.)

Letters from the census supervisors to the United States Census Bureau show the erroneous apprehensions of a considerable element of the population that their answers to the enumerators' questions in the next census, beginning April 15, this year, will cause increased taxation, legal entanglements or injurious consequences to their persons and property.

In order to quiet such unfounded fears, which would, unless rebuffed, materially affect the accuracy of the census, the bureau has prepared an official statement relative to the decennial census, its origin, purpose and uses.

This statement should furnish complete assurance to those concerned that information given by the enumerators is held by the Census Bureau in the strictest confidence with reference to the identity of the informants, as required by the policy of the bureau and commanded by the law of the United States.

The bureau earnestly hopes that clergymen, priests, physicians, school teachers, employers and other public-spirited citizens who come in contact with large numbers of people, will cooperate with the bureau by telling persons who are believed to entertain erroneous opinions of the census the real facts and urging them to give full replies to the enumerators. Teachers are particularly requested to speak of the census to the school children and ask them to tell their parents about it.

The statement issued by the bureau explains that the constitution requires a census of the population to be taken every ten years in order to reapportion state representation in the National House of Representatives. It is the means also to ascertain the increase in the population, agriculture, industries and resources of the nation since the last census.

It is emphatically declared by the statement that the information sought from the people of the United States is used solely for general statistical purposes. It will neither be published nor used in any other way to disclose facts regarding any individual or enterprise. The census, it goes on to say, it not, never has been and can not be employed to obtain information that can be used in any way in the assessment of property for purposes of taxation or the collection of taxes, either national, state or local, or for deportation proceedings, extradition measures, army or navy conscription, taxation or revenue investigations, compulsory school attendance, child labor law prosecutions, or in any way affect the life, liberty or property of any person.

It points out that, besides the enumerators and must be held by the Census Bureau in strict and absolute confidence. All the bureau officials, supervisors, clerks, enumerators and interpreters, before entering upon their duties, are obliged to take a solemn oath not to disclose any information they may obtain, except to the Census Bureau, and a violation of the United States law in regard to this oath means a \$1,000 fine or imprisonment for two years, or both, in the discretion of the court.

FIRST IN "CANNED DRAMA."

Boston Spends \$2,730,155.50 in Ten Weeks Upon Moving Pictures.

In investigating the high cost of living, the Twentieth Century Club of Boston has discovered that \$2,730,155.50 was spent by patrons of theatrical and moving picture shows during ten weeks of the winter season in that city. It was found that moving picture and vaudeville performances made up about 85 per cent of the amusement enterprises of the city and cost the general fun-loving public \$120,000 weekly through the height of the season. Theaters, legitimate theaters and grand opera, the total expenditure weekly was found to be only slightly more, or \$132,646.45. The club asserts that Boston has a greater number of performances of the cheaper class in proportion to the population than any other American city.

Test Seed Corn.

Agricultural scientists have been testing last year's corn crop in the Northern Mississippi valley, and warn farmers that much of it is unfit for seed purposes. The early frost of last October caught the standing crop before the kernels had ripened and killed the reproductive germ. The repeated hard frosts of the winter had the same effect on much of the corn stored in granaries.

Can't Explain High Prices.

A county grand jury at Louisville, Ky., has been conducting an inquiry for three weeks into the high cost of living, announced that its efforts were futile; that the problem is not local but national. It recommends as one step toward a solution that cold storage plants be compelled to make monthly reports of the quantity of foodstuffs on hand.

FOREIGN NEWS NOTES.

Theron Otto O'Han, an aged Hungarian nobleman, was torn to pieces by wolves in a forest in Transylvania recently. William J. Bryan recently dined with President Montt of Chile. A reception was given in his honor at the American legation. A violent snow storm has swept over Arizona and Navarre, in Spain, and in some places the snow is fifteen feet deep. In several small villages in the mountains the snow completely covered the houses which have been abandoned. Rivers have overflowed their banks.

Justice Wright of the Supreme Court at Washington handed down a decision in which he opposes the Senate's contention that he unlawfully invaded the constitutional rights of that body when he summoned members of the Committee on Printing to appear before the court on a writ of mandamus. The lawyers of the Senate Judiciary Committee say that the senators have no right to obey the summons, since they have been forbidden to do so by the Senate as a body, so there exists an unprecedented state of affairs which will be watched with great interest. The House members of the Printing Committee appeared once through counsel, but only as a courtesy. The House does not admit that the court has jurisdiction. Judge Wright, in his decision, quotes numerous precedents to show that officers of legislative bodies, heads of executive departments, and even the courts themselves, are amenable to the writ of mandamus.

President Taft has given strong in-dorsement to the proposed commerce court, but it has been disclosed in the testimony of Chairman Knapp and other members of the interstate commerce commission that it is doubtful if the proposed commerce court would be really serviceable. The court has been favored by President Taft because it would expedite business, make decisions uniform, and secure the services to the court of experts in railroad matters. That one of the new tariff gans burst during the recent trials at Sandy Hook without the fact being published was asserted by Rainey of Illinois in the House. He charged that this gun was made by the most poorly paid skilled labor in the country and that the plant was the home of strikes and lockouts, but that the government continued to give it large contracts, while the government arsenals were not fully employed.

"Red" Adams Sentenced. Charles "Red" Adams, a great confidence man, who has been a central figure in the country for years, has at last been convicted and sentenced to four years in the Atlanta prison. He is charged with conspiracy to defraud the bank of \$100,000 by a "dead relation" game whereby Adams and Englishmen were called "trick" in this country to claim illicit inheritances. Adams is nearly 70, and when arrested was living under an assumed name as a respectable citizen of Brooklyn. He was tried and sentenced by Judge Hough in the United States Circuit Court of New York.

REFUSES REWARD TO PEARY.

House Subcommittee Says He Must Give More Proof.

By a practically unanimous vote the subcommittee of the House naval committee in Washington decided against bestowing any reward upon Robert E. Peary until he had furnished further proof that he discovered the north pole.

The only member of the committee who did not vote to defer action on the pending bill was Representative Engelbright of California, who said he was convinced Mr. Peary had discovered the pole. Bates of Pennsylvania, heretofore considered a supporter of Peary, opposed the resolution.

"I confess I am exceedingly skeptical about Mr. Peary's ever having discovered the pole," declared Representative Macon, "and I am going to protest against any honor being conferred upon him by Congress until he has established beyond a reasonable doubt that he did discover it." Macon expressed himself as being "indignant at the thought of being called upon as a representative of the American people to confer a high honor upon any one of its citizens in the dark." All legislation by Congress, he said, ought to be open and above board.

Macon said he wanted to direct attention to one discrepancy in Mr. Peary's story. "This was the speed the explorer declared he made from the time Capt. Bartlett left him until he reached the pole. Peary said that for five days he made 26.4 miles a day, but Macon said this appeared singular in view of the fact that the Peary party had made only 9.06 miles a day up to the time Bartlett left. 'The astonishing part of Mr. Peary's statement,' said Macon, 'is the number of miles he traveled every day after Bartlett left him, and when he white man was with him as witness, his only companion being his negro valet and four Eskimos.'

FIRE RUIN BURIES WORKMEN.

Five Killed, Fifteen Injured in Collapse of a Wall.

Five men were killed and seven probably fatally injured by the collapse of a brick wall fifty feet high, which had been left without supports by the fire that destroyed the bolt and nut plant of M. Lanz & Son, in Pittsburgh. Together twenty men were buried when the wall fell. They had been engaged in razing the ruins. Every one of those not killed were injured. An hour after the accident two workmen were found alive, but crushed in a crevice between timbers and brick piles.

ROBBERS LOOT EXPRESS CAR.

Nearly 1,000 Packages on New York Central Train Broken Open.

When train No. 27 on the New York Central reached Rochester the other day it was discovered that one of the ten American Express cars, a through car, had been looted. Nearly all of the 1,000 packages had been broken open and their contents scattered. Just how much the robbers got will not be known until an inventory is taken at Buffalo. It is the belief of the express company officials that the robbery was the work of a gang that is supposed to have boarded the train at Utica, getting off at Syracuse.

SAVES THREE, LOSES OWN LIFE.

Crowd Watches Pittsburgh Man Slowed by Die of Electrocutation.

Before the eyes of several hundred horror-stricken promenadeurs who were enjoying the sunshine in the pretty little Pittsburgh suburb of Fair Oaks, Charles Rommel was electrocuted while attempting to save two of his young daughters and a young playmate from meeting the same fate. Rommel had just started from his home when, crossing the street, an electric light wire dropped and the children became entangled in its meshes. He succeeded in extricating them, but in throwing one end of the broken wire, which was dead, he inadvertently came in contact with the other end. This completed a circuit, and the sparks darted from the man's face and body by the thousand. It was fully half an hour before the deadly current was turned off, and in the meantime the horrified crowd stood helplessly, watching Rommel die.

STEALS \$800,000 FROM CHURCH.

Frenchman Charged with Taking \$200,000 from Law Affairs.

M. Ducez, judicial trustee to the tribunal of the Seine and formerly liquidator of the properties of the dissolved religious congregations, which were dissolved by the law of 1901, has been arrested in Paris on a charge of embezzling \$1,900,000, of which \$800,000 belonged to the congregations and \$200,000 to the common law affairs. After his arrest M. Ducez confessed his frauds. He said he had lost the money in stock speculations. He was removed from the post of liquidator some months ago owing to the manner in which the property was administered, but he undertook to clear himself. The matter had been discussed frequently in the Senate. It is rumored that other revelations of misappropriations of the funds of the congregations are impending. Ducez was connected with the liquidation of the property of the Misericorde Missionaries, the Pious Fathers, Marlanistes, Oblates, Redemptionists, Oratorians, and the Ladies of Saint Maur. He is succeeded by Mr. Lemaquiere, who liquidated the affairs of the Panama Canal Company.

FIVE DEAD IN RACE RIOT.

Negro Slayers of Deputy Sheriff Lynched by Florida Mob.

With three negroes dead as the result of a race riot in the neighborhood of Palmetto, Fla., the wrath of the residents in that section seems to be assuaged. The sum total of deaths to three negroes and two white men, with one white man in the emergency hospital in Tampa with a bullet hole through his head. The last of the three negroes implicated in the murder of two deputy sheriffs and the fatal wounding of the third was lynched by a posse at dusk in the palm-thicket on the banks of the Manatee River. He had fallen asleep, and when he awoke he was gazing into the barrels of a dozen rifles and shotguns. Even then he showed resistance and reached for his rifle. In a second he was riddled with bullets.

WANT ALL MISSOURI DRY.

Forty Thousand Persons Sign Petition for Prohibitory Amendment.

Judge William H. Wallace, president of the State Constitutional Amendment Association, left Kansas City for Jefferson City the other day with petitions, bearing more than 40,000 signatures, asking for a prohibitory amendment to the State constitution. Advocates of the constitutional amendment claim this number of signatures more than meets the requirements of the initiative law. Eight hundred petitions are being circulated in St. Louis.

COIN WEIGHT IN ERROR.

Brass Troy Pound, in Use at Philadelphia Mint for \$3 Years, Heavy.

WATCHFUL EYES GUARD IT.

Tests of Standard Brought Over by Gallatin in 1827 Indicate Lightness of "Yellow" Money.

By comparison with the government standard of weights here, the discoverer has been made that the brass troy pound, the basis for the standardization of weights used by the mints and assay offices of the United States, has increased by oxidation seven one-thousandths of its grain since it was brought from England in 1827.

A suggestion that the deterioration by oxidation of the pound probably had amounted to two or three grains, caused considerable alarm among treasury officials for a time, for gold coined in such a basis would be profitable to export as a commodity. It is estimated that the brass troy pound used in the mints of other countries and at the bureau of standards.

As the treasury has accepted and coined the gold on the same basis of weights, it has not lost any money. Following the disclosure made by the comparison of the brass pound and the weights at the bureau of standards the calculation was reached that the difference between the two on \$100,000,000 of gold coinage would amount to \$111.53. The coinage last year amounted to \$89,000,000.

MANY YELLOWSTONE VISITORS.

Secretary Ballinger Furnishes Registration Figures for Thirty Years.

Secretary of the Interior Ballinger has furnished figures showing the number of persons who have visited Yellowstone National Park for each season since 1870, the first year an attempt was made to secure registration records.

In the thirty years a total of 242,738 tourists entered the national preserve. Officers of the railroads operating to the park predict that 1910 will be the record year for travelers, many of them coming during the present season. It is estimated that the great summer wonder during the coming summer.

Following shows the number of visitors to the park for their seasons named, there being no record for the years omitted:

SENSATIONS AT KANSAS CITY.

Scandal in the Millionaire Set Continues to Be Talk of the Town.

Talk about your social scandals and society sensations! Upper tendom in Kansas City never before had such a subject of agitated gossip and the plain people never before had greater reason to decry the "goings-on" of the millionaire set. The Cudahy-Lillis affair is the talk of the town, and will be for weeks. The principals in the affair, however, are not doing much talking. Mr. Cudahy was taken to the police station and released on bail on disturbance charge. He has "nothing to say." Mr. Lillis has been removed from the hospital to his palatial apartments and the doctors announce that he will recover, but always will be terribly scarred. The banker has "nothing to say." He will not even prosecute the packer.

The meat packer's wife was Miss Edna Corbin, an Omaha belle, when about seven years ago she married Cudahy. Now she is the mother of five children. She says Cudahy is insanely and unjustly jealous of her. She acknowledges that a couple of years ago

Edna Corbin

there was considerable talk about her and Lillis and that Cudahy demanded an explanation from the banker at that time.

The bachelor banker and the packer's wife went for a spin in Lillis' new auto. Then they went to a hotel for dinner. Later, in the evening they went out for another ride. When Mr. Lillis brought her home she invited him into the library? Then, all of a sudden, she says, Mr. Cudahy appeared, with his chauffeur, struck her in the eye, knocked Mr. Lillis down and tied him with a rope and proceeded to jump and carve him in a manner which spoke well of his enthusiasm if not of his hospitality. That's about all there is to the story.

Some Plain Rules for Building Up Your Own Town.

1. Have every man and woman who has made a dollar in your town, take it as far off as possible to invest.

2. If two or more of you meet in the street, in an office, or a store, especially if a number are standing around, set up a clatter of what splendid opportunities there are for investing in some place way off somewhere. Bring to your aid a fruitful imagination. Tell wonderful tales of how many thousands, yea millions, Tom, Dick and Harry have made them never mind whether your tales are true or false— if false they will catch suckers all the same.

3. Have all improvement made in the town done by taxing the property of those who have foolishly invested there, or have had thoughts of investing there. High taxes is a wonderful drawing card for investors of capital. It will send the price of property up like a skyrocket.

4. Under no circumstances suggest, or encourage, a new enterprise to be started in the town, or near the town, and if any one has the temerity to even suggest some new business there, all join in a clack that it can't be done. Suggest as many reasons as you can think of whether there is any sense to them or not.

5. If some one, in defiance of your clack, should start the business, discourage everybody else from patronizing him, and tell everybody that his stuff is not as good as can be got elsewhere.

6. If you are selling groceries, be sure to get your goods out of town; buy nothing from a sack of flour to a bunch of grapes, that is made in town, or grown in the county. And then blow loud, and long, about the superiority of goods brought from some other place. This will show the public spirit of the inhabitants of the place, and make a fellow as crazy as a bed bug to go into business there.

7. Never buy a thing of your home merchants. If you want a Jew's harp or a new hat, go off to a little bigger town to get it, even if you have to wait two whole evenings to show it. By that means you can demonstrate your superior taste, and the magnificent dressing of the residents of the town.

8. Don't send your Misses and half-grown lads to your town college, but send them off to some other town. It sounds bigger and it indicates to outsiders what estimate you place on your town college.

9. If you are a merchant, carrying certain lines of goods, and some other person is carrying a different line, stick your nose into his business just as far as you can, without getting a kick, and if you think he is making something on some article he is carrying, put that article into your trade. Set this down as a rule without an exception, that "no man or woman in town shall make a dime except yourself, if you can prevent it."

If these rules are strictly followed, any little frontier village will soon become a metropolis. **ARTISTOPLE.**

Are You Interested?
 There are a number of stallion owners in the state who do not understand the provisions of the new law known as House Roll 127 Section 567, A. Chapter 4, Article 11, of the compiled statutes of 1909, an enactment designed to stop the practice of advertising grade stallions as pure-breds. If the owner of a stallion does not possess the certificate of registration as issued by the association in which his horse is recorded, he should correspond with the secretary of that association to procure a duplicate, if the original has been lost.

The law is quite lengthy but we quote section five:

Section V: Any person who shall fraudulently represent any animal, horse, cattle, sheep or swine to be pure bred, or any person who shall give or publish or cause to be posted or published any false pedigree or certificate, or shall use any stallion for public service, or sell, exchange or transfer any stallion, representing said animal to be pure bred, without first having such animal registered, and obtaining the certificate of the Department of Animal Husbandry of the University of Nebraska as herein before provided, or who shall violate any of the provisions of this act, shall be guilty of a misdemeanor and be punished by a fine of not more than one hundred dollars (\$100.00) or imprisonment in the county jail not exceeding thirty days, or by both such fine and imprisonment.

Which Would You Rather Have?
 There's a merchant back in Sycamore, Ohio, who evidently doesn't swear allegiance to the theory that "saloons make business." Judging from his business card, one is forced to conclude that this merchant thinks his profits will go up as the saloon's go down. On his card is found this unique inscription:
 "Anyone who drinks three drinks of whiskey a day for one year and pays ten cents a drink for it can have in exchange for his store:
 Two hundred pounds of granulated sugar,
 Twenty-five pounds coffee,
 Twenty pounds tea,
 Fifty pounds prunes,
 Twenty pounds raisins,
 Fifty pounds rice,
 One barrel crackers,
 One hundred pounds hominy,
 Fifty cakes laundry soap,
 Twenty-five cakes toilet soap,
 Five dozen clothes pins,
 Twenty gallons coal oil,
 One hundred pounds salt,
 Five pounds pepper,
 Ten pounds starch,
 One hundred pounds beans,
 Twenty-five cans tomatoes,
 Ten pounds soda,
 Twenty-four boxes matches,
 Ten cans salmon,
 One hundred yards muslin,
 One hundred yards calico,
 Fifty yards gingham,
 Fifty yards shirting,
 Fifty yards outing,
 Twenty-five yards toweling,
 Fifty yards lace,
 Five pairs lace curtains,
 Five pairs blankets,
 Ten pairs shoes,
 Twenty-five pairs hose,
 Fifty spools thread,
 Thirty handkerchiefs,
 Ten window shades,
 Ten papers pins,
 Twelve dozen buttons,
 Ten suits underwear,
 Twenty-five yards matting for the same money and get \$4.93 premium for making the change in his expenditures.

Read this over carefully. Whether you believe in the saloon or in prohibition, you will find much food for thought in it. By adding a pencil and paper calculation to your mental impression you will also be able to figure out whether the merchant would make or lose by the transaction if he should happen to be taken up by somebody who was about to swear off.

Killed by a Passing Train
 Dakota City, Neb., March 13. The body of a man, believed from a letter in his pocket to be Joseph W. Packard, was found dead, about a mile south of Coburn Junction, about fifteen feet from the right of way of the Northwestern road, Sunday morning by three South Sioux City boys, who were going hunting. The man was evidently killed instantly by a passing train, as he had a deep cut across his forehead, his left cheek torn open, his hip broken and numerous other bruises and contusions all over his body. He was about 27 years of age. The letter in the inside coat pocket was addressed to B. F. Packard and signed "Father." It was dated at West Cunningham, Mass. About \$5 in change, a quart bottle of whiskey, a raffle ticket and a receipt belonging to Dugan & Hefferman's saloon was found in his clothes. He is suspected of the robbery of Dugan & Hefferman's saloon Saturday night in Hubbard, Neb. He was seen in that city at midnight Saturday night.

Woman Shoots Herself
 Lyons, Neb., March 13. Mrs. Edward Sabin shot and killed herself east of here this afternoon at the home of John Cooney, where she and her husband were working. It appears that John Crawford and Mr. Sabin were in a quarrel at the Cooney home. Crawford drew a revolver, when Mrs. Sabin snatched the gun from his hands and shot herself, dying instantly. The trouble started a few days ago when Crawford and John Montgomery had a fight, supposed to have been about Mrs. Sabin. The case was taken into court, and the trial set for April 8. The coroner and sheriff have been sent for.

J. Knox Hall, of Toulon, Illinois, is indeed a philanthropist. He offers seven books of editorial and local copy, ready for the copy hook, for \$3.50. That might be a snap for some newspaper men but we prefer to write our own copy, even if it is not so good as some one else can write.

A STEADY DRAIN
 Sick Kidneys Weaken the Whole Body—Make You Ill, Languid and Depressed
 Sick kidneys weaken the body through the continual drainage of life-giving albumen from the blood into the urine, and the substitution of poisonous uric acid that goes broadcast through the system, slowing the seeds of disease. Loss of albumen causes weakness, languor, depression. Uric poisoning causes rheumatic pain, nervousness, nausea, crick in the back, gravel and kidney stones. The proper treatment is a kidney treatment, and the best remedy is Doan's Kidney Pills. Here is good proof in the following testimonial:

S. S. Hall, four miles south of Pender, Neb., says: "I was bothered for some time by kidney trouble. I finally recommended Doan's Kidney Pills to me and deciding to give them a trial, I procured a box. From my experience I can say that Doan's Kidney Pills are a reliable kidney remedy. I do not hesitate to recommend them."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.
 Remember the name—Doan's—and take no other.
