Items Relating to People, Events, and Different Things.

The bank at Newcastle has increased its capital stock to \$20,000.

The vote on the electric franchise at Hartington carried by 31 majority.

Randolph will have a baseball tournament and carnival August 11 and 12.

The First National bank, of Cole-ridge, has been authorized to begin business.

H. H. Howe, who has been in the hotel business at Norfolk, has gone to Pilger to engage in a like business.

Civil war pensioners are now dying at the rate of about ninety a day according to pension bureau information.

The Tribune says that Wynot is the youngest town in the state to be wired for electricity. Well, this is a progressive age.

The Lutheran congregation at Wausa celebrated the twenty-fifth anniversary of its organization Wednesday of this week.

The Stanton county republicans are against county option. Naturally they would be as their candidate for state senator is against it.

A farmers' grain company organized at Pierce has bought out one of the old elevators there. That is better than a fight over competition.

Carrie Nation's date at the Norfolk Chautauqua has been cancelled on account of local opposition to her appearance as one of the attractions.

The Pierce county republicans are in favor of re-districting the state. That ought to be a live issue in this section as the present representation is grossly unfair.

The Des Moines, Iowa, Register and Leader ask: "What is there about the telephone to make a boor of a gentleman?" We give it up. If it be true who can tell why it is thus?

A meat market at Wynot has cut the prices on all classes of meat two cents per pound, but they are still high enough to make a man look twice at his pocket book before buying.

What a straddle is that my countrymen! Rev. T. C. Birmingham, of Pender, has gone Latta one better and has filed as a candidate for U. S. Senator from this district on three platforms.

The Index tells how three boys, aged six, nine and ten years of age, robbed the depot at Carroll one day last week, securing about \$7. Pretty young to begin that kind of work. The money was recovered.

Both parties appear to be afraid to touch county option jokes. The politicians seem to think one and of it is hot and do not know how to take hold without getting burned. They may find it a red-hot proposition anyway.

Norfolk has a \$25,000 damage suit to occupy its attention, the result of a dispute over chickens. Now who would think that as apparently harmless a thing as a chicken could stir up such a row? Moral: Keep your chickens at home.

There appears to be but little hope of landing the reward offered by the Farmer's Loan & Trust Co. has been withdrawn. The rewards of the Bankers' Association and insurance company still stand. A settlement of the loss has been made and everything paid up.

The man who attempts to straddle two horses at once usually falls down in between them, but Congressman Latta of this district has filed on both the democratic and populist ticket as a candidate this year. Does that signify that he thinks that the platform planks are so rotten that it will take them both to hold him up?

### The Dairy Industry of the United States

According to the last year book of the Department of Agriculture, there are 21,720,000 milk cows in the United States, and these are worth \$702,945,000.00. The magnitude of the industry can perhaps be best understood when it is considered that these cows produce yearly about \$1,000,000,000.00 worth of dairy products.

There is no other branch of diversified agriculture so important to the progress of a community. The fertility of the soil can best be maintained by the liberal use of barnyard manure and the dairy herd not only makes this possible, but dairying is also more remunerative than other branches of farming when properly carried on.

Dairying has made wonderful progress since the advent of the modern creamery and the consumer of butter has not only been benefited by being furnished a more wholesome and palatable article of food, but the wife in the farm home has been relieved of the drudgery incident to making butter on the farm. Where formerly the cream was ripened and churned into butter under conditions not conducive to fine quality in the finished product and in the majority of cases by unskilled hands, now the most of the milk or cream is delivered to a modern creamery where conditions are suited to the purpose of making butter, and the result has been a wonderful improvement in the quality of our dairy products.

As the quality has improved consumption has increased and the progress of dairying has been remarkable during the past decade.

The perpetuity of the country's greatness depends upon increasing the production of farm products from year to year, a result which not only furnishes our people with food but maintains the prosperity of our farming communities. Increase in production can only come through improved methods of agriculture and soil improvement. When it is considered that the dairy cow is the foundation for soil improvement and farming prosperity, her importance is best understood, and interest in her should not be confined to her owner. She is an important factor in the development and prosperity of our country.

### I Favor

1. The extension of industrial education to every school room in the state.
  2. The addition to the present school curriculum of a practical business course for the 95 per cent. who do not now finish high school.
  3. Providing high school privileges for those now debarred by living in districts exempt under the law.
  4. An appropriation sufficient to give a normal training course to every four year high school.
  5. A rural high school by the gradual consolidation of small districts.
  6. A standard yet flexible course of study for the state normal schools.
  7. Increasing the efficiency of the county superintendency through increase of salary and provision by law for adequate office help.
  8. Better country schools in ALL parts of the state with necessary state aid to accomplish the same.
  9. A graded reading circle course with adequate recognition for teachers who complete the work.
  10. At least one agricultural high school in every county.
  11. A uniform and definite system of certification of teachers by normal schools and colleges.
  12. A square deal for all the school interests of the state.
- That would seem to be a good platform on which to stand, and it is the one that Frank S. Perdue bas his candidacy on for State Superintendent of Public Instruction.

For a good every day household angel give a woman who laughs. Hence is not a battlefield, nor life one long unending row. A trick of always seeing the bright side, of shining up the dark one, is a very important faculty and one of the things no woman should be born without. We are not all born with the sunshine in our hearts, as the Irish prettily phrase it, but we can cultivate a cheerful sense of humor if we only try.

### Pretty Near, Not Quite

Three fine pairs of shoes for three home runs was the reward received by Charles Landers, son of C. W. Landers, of Norfolk. Landers is now employed at Wayne and it playing in the Wayne team. In the recent ball game between Wayne and Randolph, which resulted in the former's victory by a score of 14 to 4, a \$5 pair of shoes was offered for every home run made. Landers succeeded in making three of these long hit. — Norfolk News.

### Individual Dental Cups

It's a sanitary age. Individual cups for patients at the dentist's are now provided and you no longer take a drink of water out of the same glass that has furnished rinsing liquid to the hundreds of others before you.

### Not True

Last week there was a rumor in active circulation around Wayne, that W. L. Fisher, a young man who had been employed around here for about a year, had been lynched at Gordon, Nebraska. The Herald, being unable to find the truth about the matter, said nothing regarding it. Monday Mr. Lamberson was talking over the phone with a party from Atkinson, Nebraska, who knew Fisher, and he said there was no truth in the report, as Fisher was there. How the man who was lynched came to have one of Graves & Lamberson's cards in his pocket with Fisher's name on it is not known, but those who had formed an acquaintance with the young man here are glad to know that he has not met with such a fate.

### McLeod States Position

In the legislature of 1905, I and others advocated certain reforms. The republican party would not stand for them and they failed to pass. In state convention of 1906 we had a majority and placed the debated measures in the platform. They were passed in 1907.

At home I have always been known as a pronounced progressive. I have never dodged an issue. Both Republicans and Democrats have always known where to find me.

Members of the state committee are not allowed to espouse the cause of any candidate. I am a republican and a member of the state executive committee. I will support the republican nominees, in my filing with the secretary of state, I signed statement No. 1.

As to the liquor question, I am sorry it is in politics. Fifteen years ago I would have been in favor of county option. Since then through observation and study I have become convinced that I was wrong and for several years have been opposed to county option. My honesty and integrity have never been questioned here at home. I am sincere in the belief that I am right on this question. I hope you will hear of enough good in my behalf to give me your support. There are other things at stake. If my experience and acquaintance over the state is of value to the district they are welcome to it. A strong effort will be made to redistrict the state into legislative districts.

If I fail to get the nomination, I sincerely hope the man who does will be an organizer and fighter; not a mere voter.

Very sincerely yours,  
CHAS. McLEOD.

### Wayne County Teacher Notes

It would be a great help in our placing of teachers if directors would notify this office as soon as they have decided upon one.

If a teacher cannot find a boarding place in the district at a reasonable distance from the school house do not expect many applicants.

### Nebraska Law Governing Speed of Automobiles

For the benefit of those who sometimes have a tendency to be affected with the joy riders' fever, we quote the following section of the Nebraska law in reference to automobile speed in running.

Sec. 8. No person shall operate a motor vehicle on a public highway at a rate of speed that is greater than is reasonable and proper, having regard for the traffic and use of the highway, or so as to endanger the life and limb of any person, or in any event in the close built up portion of the city, town or village at a greater rate than one (1) mile in six (6) minutes, or elsewhere in a city, town or village, at a greater rate than one (1) mile in four (4) minutes, or elsewhere outside of the city, town or village, at a greater rate than twenty miles per hour; subject, however, to the other provisions of this section. Upon approaching a crossing of intersecting public highways or a bridge or a sharp curve, or a sharp descent, and also in traveling such crossings, curves, bridges or descent, a person operating a motor vehicle shall have under control and operate at a rate of speed less than heretofore specified and in no event greater than is reasonable or proper, having regard to the traffic then on such highways and the safety of public.

### Will Make Good

Frank S. Perdue, the present efficient deputy state superintendent of public instruction, has filed for the republican nomination for state superintendent to succeed Superintendent Bishop who has decided to accept the position tendered him in Iowa. Mr. Perdue needs no introduction to our readers as he served this county so splendidly as county superintendent before going to Lincoln and has endeared himself to all education loving people by his uniform courtesy to all and the excellent condition in which the schools of this county were placed through his untiring efforts. We know of no man in the state better fitted to take up the duties of state superintendent than Superintendent Perdue and we hope to see him nominated and elected by a large majority. The splendid state of Nebraska may be congratulated in being able to procure so competent an educator as Prof. Perdue to take charge of this important office. Mr. Perdue has a host of friends here who hope for his nomination and election. — Newman Grove Reporter.

A good country road is always to be desired and is a source of comfort and convenience to every traveler. Good roads attract population as well as good schools and churches. Good roads improve the value of the property, so that it is said a farm lying five miles from market, connected by a bad road is of less value than an equally good farm lying ten miles away from market connected by a good road. A larger load can be drawn by one horse over a good road than by two over a bad one. Good roads encourage the greater exchange of products and commodities between one section and another.

AT BAT, URGES HARTSEL

VETERAN OUTFIELDER OF THE PHILADELPHIA ATHLETICS SAYS THESE QUALITIES ESSENTIAL IN WINNING.

By "TOPSY" HARTSEL.

The biggest thing in winning games is patience and coolness at the bat. It always has been my theory that the team which has players who can get on the bases without hitting is the best team or not. I believe a team of good waiters, who are patient and who do not hit or strike at bad balls, will beat the heaviest hitting team steadily.

There is another thing almost all the prominent writers of the last few years would tell you that they would be satisfied by hitting the other team's infielders, and that the chances of their having good hits were doubtful.

I think the best advice I can give young players about how to win, or how I think they should win, is that instead of trying to win a game themselves they let the other side lose it. There are many games lost because a team gets too eager to force the game and falls down on the attack just when the other side is exploding and threatening to throw away the game.

"Topsy" Hartsel.

as he can when a hit and run play is tried, even if he cannot hit it. If he does not swing he allows the catcher to run in three or four feet to meet the ball and gives him a much better chance to throw out the runner.

Fielding is more a matter of speed, practice and experience. A man who has had a great deal of experience to play the outfield well, if he has the speed he can cover up a lot of mistakes while he is gaining knowledge of where and how batters hit.

He ought also to watch the positions of the fielders, to see where they are shifting and how he has seen many games won because the fielders were moving what ball was to be pitched, and were prepared to hit that kind of ball.

### MURDER WILL OUT

#### William Flege is in Jail

#### Albert Echtenkamp Has Made a Confession.

Interest in the Flege murder, which occurred June 30th, has been revived the past week. There have been all sorts of rumors in the air and many stories afloat, but without again reciting the circumstances and details of the crime, which our readers are entirely familiar with, we can say that William Flege is in jail at Ponca, the county seat of Dixon county, charged with having fired the fatal shots that took his sister's life.

Knowing nothing about the family or its antecedents there has been one thing that has struck us very forcibly regarding the crime, and that is the universal belief among the older residents, especially the German farmers, and we have

talked with a good many of them, that William Flege had committed the dreadful act. We do not know why, but invariably they would say with a shake of the head: "I believe he did it."

When it was learned Tuesday evening that Flege, Echtenkamp, Sheriff Mears, Detective Davenport and others were going to Ponca with automobiles it leaked out that Echtenkamp had made a confession implicating William Flege and there was at once a good deal of excitement, but no demonstration. Flege was not really arrested, that is no formal information was sworn out charging him with the crime until the party reached Ponca, but he was induced to go there on the supposition that it was to look up a supposed clue. The officers thought wisely that that was the best way. Since being put under arrest and lodged in jail all he has had to say in the matter is: "I no did it." He is not aware that Echtenkamp has made a confession, and no one but Grant Mears, County Attorney Davis and the stenographer who took the notes in Davis' office, know what the confession really is, but it is down in black and white, and to

William Flege did really kill his sister he is deserving of all the punishment he will receive.

#### Chautauqua A Success

The opening day of the Chautauqua in point of attendance and interest was certainly a success. The program was well received, and the afternoon session Tuesday and the afternoon session Wednesday, and the church and the church was crowded to its fullest capacity. The I. Paul Weiss Egery musicians and Donna Bell Elder gave a very pleasing entertainment of instrumental music, piano, violin and violoncello, and in the evening also had the opening hour of the program. They are certainly artistic in their line. Rev. Frank Loveland occupied the platform for two hours in the evening, lecturing on "Fogysim," and there was not a dull moment in the entire time. He is certainly a prince as a platform entertainer, being an orator, having a large fund of humor and the faculty of interesting and entertaining an audience. There were any number of things said that ought to have attracted the attention of the young people present and help them have a larger and better view of life and urge them on in their efforts to more fully grasp the fundamentally good things of life. It is probable that nothing finer in the way of word picturing has ever been heard than Rev. Loveland's description of a mountain scene in the west. This alone showed him to be a man of wonderful talent, for when a man, by the magical use of words, can carry his audience hundreds of miles away with him and make them see the sights and hear the sound of falling water and all the rhythmic noises of mountain heights as he himself saw it in the years gone by, he certainly has a matchless power, and this the speaker did in the closing twenty minutes of his address. To our mind nothing more beautiful in the weaving of words together can be found anywhere than this description of Rev. Loveland's which almost transports the speaker and his hearers up beyond the realm of earth into those where the divine Creator rules supreme. There was a large audience in attendance. If you have no official program you should get one and see what a feast of good things the management has in store for you in the days to come. Sunday is going to be a great day. #### New Firm Gives Greeting

After nineteen years in the mercantile business in Wayne, H. C. Henney retires from the firm of Forchner, Duerig & Co., and will devote his entire time to the interests of the Citizens National Bank. Theo. Duerig, who has been a member of the firm for many years, also retires from the active work but will be there for a time. Patrons will much regret their retirement. The old firm has enjoyed the confidence of the public in the past and fully appreciate the liberal patronage given them at all times and thank the generous public for the same. With the retirement of Mr. Henney and Mr. Duerig the firm takes on a new name and will hereafter be known as Forchner, Warner & Co., Geo. Warner and others having purchased an interest in the business and taken possession of it. While there is a nominal change in the name of the firm and business, the new management desires to inform the public that there will be no change in the methods of doing business. Everyone will be treated with the same courtesy as in the past, most of the familiar faces will still be seen at the store, and the same standard of excellence in the quality of goods will be maintained. In this way the new firm hopes and expects to retain all of the customers of the past and will also endeavor to win new ones.

#### Normal Notes

At the regular examination held last week for certificates, we had over one hundred enrolled. Thirty-one counties of the state were represented.

Inquiry regarding the work for next year is being made. We hope to be able to answer these requests for information soon.

The management is very busy getting ready for Commencement which begins August 4 and closes August 11.

Mr. Taylor, a real estate man of Lincoln, was over Sunday visitor of Miss Johnson and her brother.

This is Chautauqua week and, as there are no recitations in the afternoon, many of the students are regular attendants.

Mrs. Martiny of Winside and Mrs. Porter of Norfolk were guests at the dormitory on Sunday. Each of these ladies visited her daughter.

Miss Lottie Johnson has received the contract for a \$600 country school in Cedar county. Miss Rebecca Moore will go to the same county at \$50 per month.

Miss Edith Porter of this year's graduating class was elected grade teacher at Wakefield. Miss Porter is a splendid student and will make a successful teacher.

Rev. Bithel, pastor of the M. E. church at Fremont and a good friend of the Pile family, visited the College Friday, conducting Chapel exercises.

Rev. Corkey will preach the baccalaureate sermon this year. From the addresses given by Rev. Corkey on the occasion of Memorial Day and other times, we know this will be fine.

Among the new students to enter this week we have Mrs. Elmore, grade teacher of Stanton, Miss Stella Lorge of Randolph, Miss Marjorie Connelly of Decatur, and Miss Gay Hunter of Wayne.

Mr. Robert I. Elliott, who was a graduate of our Scientific Course and later graduated from the State University, present superintendent of the schools of Broken Bow and principal of the Junior Normal at that place, will give the graduating address this year.

#### Progressive Matrimony

Kansas City Journal: "You can always tell a young husband from an old one by the way he acts when he goes after a bucket of water," says Uncle Hiram. "Three months married, he swings the pump handle, whistles and casts covert glances at the house as though someone were looking at him from the window. One year married, he swings the pump handle more slowly, smiles occasionally and seems to be annoyed because the meal is late. Two years married, he looks sour and glum, kicks the cat over the coal house and looks at the house like he would like to choke somebody. Three years married, he sits on the door step and smokes while his wife works the pump handle."

### Puritan Flour Contest

240 Sacks of Puritan Flour in Prizes

You Can BAKE the Best Bread from Puritan Flour—What Can You MAKE from Puritan Flour Sacks?

Enter your name in the contest over held in Nebraska—The Puritan Flour Sack Contest—240 Sacks of Puritan Flour in Prizes.

Four Sacks for Each of the 20 Most Useful Articles. Four Sacks for Each of the 20 Most Attractive Articles.

Made from Puritan Flour Sacks—50 Prizes of Four Sacks Each—Contest Open July 1st—Closes September 1st, 1910.

Have yourself eligible—Including Sewing Circles, Societies and Charitable Organizations—Agree equitably. Have families to get their winter supply of Puritan Flour. The finest, purest, most reliable and healthiest article ever known in the world. Everyone will enjoy making something from a Puritan Flour Sack—the greatest of all the flour sacks. You probably have seen in the pantry now or your neighbor has one—You don't know it is a new sack of flour to make the contest—The Puritan Flour Sack you have. Fill the coupon, fill out all mail orders for participants. A sack will be made and Prize Sacks delivered by your grocer as fast as they are ordered. September 1st, 1910.

Because Puritan is made from the choicest hard wheat. When you buy the lowest priced flour you get the same number of pounds as when you pay for the best—but far less value. Bread made from average flour is part waste, part impurity and only *half* good. Bread made from Puritan Flour is every bit good, pure, blood-making food. And Puritan Flour makes lighter—whiter—faster loaves by actual baking tests than any other flour you can buy. We separate our flour into twenty different "stocks" or streams, then blend it to get in every sack the scientifically right combination of nutritious bread-making qualities. This is done by actual chemical and baking tests—part of our milling system. Your baking, therefore, can't fail with the use of Puritan Flour.

#### Children's Puritan Doll

The little tots can't enjoy the Puritan Flour Sack Contest, so we have prepared a consolation prize for the children. In every sack of Puritan Flour is a coupon good on a Puritan Boy Doll, eighteen inches tall, with rosy cheeks and Puritan clothes. Mail the coupons you find in the flour sacks to us and we will send you back the doll. His name is Little Puritan Miller.

#### An Explanation

When organizing the baseball team this spring the Baseball Committee of the Commercial Club offered Blaine Skeen \$50.00 per game to catch during the season. Skeen made a verbal acceptance of the contract and later on repudiated it claiming he could not catch for less than \$50 per month. He was urged to accept the position at \$5 per game and was told that on account of being a home boy we would much prefer employing him rather than look for someone else. He refused to stay for \$5 per game and another catcher was employed at that price. Our opening game was at Stanton and Skeen accompanied by his brother and another player, went to Stanton ahead of our team and offered his services gratis to the Stanton team to help defeat the club from his town (Wayne). The manager of the Stanton team refused his services, making the statement that a man who could not play on his own home team could not play with Stanton. During this game Skeen and his friends roasted the Wayne boys playing and did what was in their power in other ways to defeat us.

This action, and other moves since made, calculated to interfere with the success of the Wayne ball team, so incensed the patrons of the game who knew of it that the Baseball Committee of the Commercial Club judged it would only be the means of spoiling our games and causing much bitter comment to have Skeen play either for or against the team and consequently they decided that we would play against no team who employed Skeen either at home or abroad.

Every manager with whom baseball games have been arranged has been informed of this fact without fail. On June 23 Mr. Hufford, secretary of the local team, phoned J. Carrol, manager of the Randolph team, and explained this to him fully. In the face of this knowledge Randolph sent a team here to play with Skeen employed as catcher. Our management refused to play unless the Randolph boys got another catcher and the Randolph team made no attempt to do this but walked off the grounds. The our baseball committee were justified in taking this stand in regard to Skeen was well proven by the exhibition of anger and disgust displayed by the spectators when Skeen was discovered in a Randolph uniform.

The ball team at Wayne is conducted as an entertainment proposition for the pleasure of the women and young ladies as well as the men of our town—there is not a dollar of profit for anyone connected with it—and it takes lots of work to do it, and the men who do this work are determined to see that the games are so conducted that they will be a source of pleasure to our people who attend.

We are sorry to disappoint our out of town friends who came to see the game but the fault was Randolph's, not ours. We would gladly have furnished a player and had the game go on.

The 1910 State Fair, September 6 to 9 offers an excellent line of attractions. Among them are four fights each day by Wright's aeroplane, concerts by Signor Lombard's band of forty-four instruments and grand opera company of twenty-four voices, fifteen harness speed contests and a number of running races, the derby, a ten-mile relay race—two miles each day; the Great Patterson Shows, night speed contests, stupendous fireworks and vaudeville attractions. Taken with the great exhibits in every department, this indeed will make a great show.

#### SHOLES NEWS

Miss Clara Burson came up from Wayne Friday evening to attend the social meeting of Royal Highlanders.

Grant Mears was in Sholes Saturday doing some advertising in the interest of the Wayne Chautauqua.

Two young students of Morning-side College are in Sholes this week soliciting orders for reference bibles.

Miss Grace Jones left Monday morning to spend a month of her vacation visiting relatives in Minneapolis.

Carl Gould, the young man recently in the employ of John Jackson, left Monday for South Dakota to take up work there.

Mr. Will Closson, of Randolph, is moving his family to Sholes to reside permanently. We are glad to welcome Mr. Closson's family to our community.

Rev. J. W. Beard, of Randolph, will conduct religious services here next Sunday afternoon at three o'clock. Come out and hear this splendid man.

J. C. Meink and W. J. May left Saturday afternoon for Iowa to attend the funeral services of a brother-in-law, who was killed Friday in a railroad accident.

The people of Sholes had an opportunity to enjoy a rare treat last Saturday evening and Sunday, when Dr. Thomas Bithel, of Fremont, was here. He gave three of the most excellent addresses it has been our privilege to hear. On Saturday evening the Dr. spoke on the "Right Side of Life," on Sunday morning he preached from the parable of the sower, and Sunday evening gave his great sermon-lecture on the "Story of the Immigrant." Dr. Bithel is a masterful speaker and those who failed to hear him missed the opportunity to hear the best three lectures ever given in Sholes.

#### Found in a Cake of Ice

During the ice harvest last winter Dave Garrett lost his watch and after a futile search gave it up. One day last week while loading ice into his wagon from the ice house Carson Kettleson discovered the long lost time piece firmly imbedded in a cake of ice. After it was removed the watch was wound up and started right off as though nothing had happened.—Madison Post.

Phil Kohl has listened to the voice of his friends and has filed as a candidate on the democratic ticket for the primary election to be held August 30, from this senatorial district comprising Wayne, Stanton, Pierce and Madison counties. He will probably have no opposition.

How often do we hear people say: "Where in the world do all the flies come from?" It is simple enough. The Toper makes the blue-bottle fly, the storn father makes the gad fly, the sycone makes the house fly, the blacksmith makes the fire fly, the driver makes the horse fly, the grocer makes the sand fly, and the boarder makes the butter fly.

We are told that telegraphy has the speed of the wind. That may be true but you cannot make the Mitchell and Harry Fisher families believe that it is true in every case, as Mrs. Mitchell sent a message from Tulsa, Oklahoma, to Harry Fisher that she and her daughter would arrive in Wayne Tuesday to visit them, and they got here before the message did.

Miss Addie Brown and Randall McLaughlin surprised their many Emerson friends by quietly slipping away to Wayne last Saturday where they were quietly married by County Judge Britton. The bride is the accomplished daughter of Mr. and Mrs. J. I. Brown and the groom is one of the most prominent young farmers in this community. **AXEL VENNBERG.**

L. M. Owen shipped two carloads of fat cattle to the Omaha market Tuesday afternoon, and accompanied them to market. This closes out all of his cattle until another feeding time next winter.

Van Bradford, who had been running a billiard and pool hall just north of Voget's hardware store, closed the same Monday morning. He seems to think that the old saying, "Two is company, three is a crowd," is true.

The improvements that have been made on the basement of the M. E. church are completed and will be used for Sunday School purposes for the first time next Sunday. The ladies of the church are planning for a kitchen shower to furnish their part of it.

Better not do it. We see that several of the notices that the law requires shall be posted before the primary election have been torn down. We do not know whether there is any law against such work or not but they are posted for the information of the voters and should not be destroyed.

Governor Shallenberger had a chance to do the fair thing by Wayne and this part of the state by appointing a Wayne man on the Normal board, but could not rise to the opportunity, and has appointed I. F. Roach, of Lincoln, an M. E. minister, to the position, to bear date of September 1.

Wausa will come here with a good nine tomorrow afternoon to cross bats with the Wayne club and Stanton comes Monday. Both of these teams put up good ball and are a gentlemanly lot. Our people should give the games better attendance than the last few have received. Carroll plays here this afternoon.

There is one good thing about the present Chautauqua management and that is the programs begin promptly at 7:45 every evening whether the audience is there or not. Those people who have been in the habit of going to entertainments after it is time for everyone to go to bed miss a good share of the program, but the lesson may be valuable in the future.

It is said "that a poor beginning makes a good ending." Whether this be true or not the railway company were responsible for a whole lot of trouble to the Chautauqua people, in that the poles shipped with the tent failed to arrive, and as there was no time to trace them up, poles had to be improvised out of something else, which took lots of hard work and nearly all day Tuesday to get them in shape. The afternoon meeting on the first day had to be held in the Baptist church but the evening meeting was held in the tent. The location is pleasant, the tent is large and there is promise of the best of entertainments.

There was an exciting game of base ball pulled off on the home grounds last Friday between Randolph and Wayne. Randolph came down fully expecting to take the Wayne boys' scalp home with them but were let down with a sickening thud. The old saying is "three times and out," and had the boys from the north been content to rest on the laurels already won, having defeated the Wayne team three times they would not have had to go home with a 14 to 4 score against them. The features of the game were the two home runs by Landers and the home run by Strawn, of the home team. The battery for Wayne was Siman, Sabs and DePew, and for Randolph, Krause, Kemp and Buol.

Save money on your summer purchases by attending Ahern's Clearing Sale.

Lee Buraker went to Hartington Wednesday morning to assist in furnishing good music for the races.

Rev. Lloyd Cunningham and family, of Marion, Kansas, are visiting his parents, Mr. and Mrs. David Cunningham.

A. M. Cunningham and wife, who had been visiting at the home of David Cunningham, returned to Madison yesterday.

John Beebe, who had visited at the home of his son, Charles, and wife, over Sunday, returned to his home at University Place Tuesday.

E. W. Huse, formerly in the newspaper business in Wayne, was in town Wednesday greeting old friends and renewing acquaintances.

You can figure it yourself. All goods marked plain. Its a big discount—20 per cent. S. R. THEOBALD & Co.

Miss Rose Piepenstock, who had been in a hospital at Omaha for three weeks, returned home Wednesday evening, much improved in health.

Governor Shallenberger has designated the Wayne Democrat as one of the state papers in which to publish the proposed constitutional amendments.

Work was begun this morning in tearing out the small building north of J. G. Mines' jewelry store, to give him room to move his building and build a new one.

John Muth, a former resident of Wayne, now residing in South Dakota, and Miss Meyer, living near Carroll, were united in marriage at Sioux City Tuesday evening. They will live in South Dakota.

There was what was called a ball game over at the park Wednesday afternoon but it was too one sided to be interesting. The score was 16 to 1 in favor of Wayne against a Norfolk team. Vic Siman pitched for the Wayne nine.

Jno. B. Ratto, who occupied the platform at the Chautauqua Wednesday night, is certainly a genius in his line, and his make up varies in characters and his imitations furnish a wonderful evening's entertainment.

Just to advertise the fact that he handles a fine line of Men's Shoes, Ahern offers a pair free to any of the local baseball team who knock a home run during this season. Landers won two pair for himself in the game with Randolph.

Dr. Thomas returned from his trip through the south last Saturday night, having had a most delightful outing and being very favorably impressed with the country through which he traveled, especially south of Tennessee.

Rev. W. V. Burns, Supt. of the Chautauqua now in progress here, will occupy the M. E. pulpit next Sunday morning at the regular hour of service. He does this for old acquaintance sake, he and Rev. J. W. Kirkpatrick having been friends for the past twenty years.

Between forty and fifty Wayne residents joined in a picnic party that went to Emerson Wednesday morning to spend the day. The weather looked rather threatening for a time and seemed inclined to spoil the day's program but later it cleared away and all attending report an enjoyable day of it.

F. S. Tracy has sold his hardware and furniture business and building to parties in Stanton and will give his entire attention to the postoffice, which will remain at its present location for a time at least. Bruner & Company purchased the hardware stock and the furniture will be disposed of as soon as possible.—Winside Tribune.

It is said that Metcalfe, who has filed as democratic candidate for U. S. Senator, is going to try and get in on a postage stamp campaign. That is, he asks his friends to send him as many stamps as they feel his candidacy is worth. That is nearly as bad as Willis Reed's free plate matter campaign.

The democratic county convention of Wayne county met and elected the required number of delegates, drank a bottle of pop and silently faded away. There is a time to talk and a time to shut up, and the democrats of Wayne county know both. We notice that our friend, Jonas Ecker, was in the bunch, which is nuff said.—Coleridge Blade.

Superintendent Miller of Cedar county reports that it required 141 teachers for his schools last year, seventeen being male teachers; and 124 female teachers. The average monthly salary paid was to male teachers, \$72.70; to female teachers, \$48.87. One thousand and forty-seven dollars and eighty-one cents was expended for library books under the requirements of the library law. Total amount of district bonds issued in past year, \$15,000; total amount paid on district bonds, \$8,290.

Superintendent Teed, of Dixon county, reports a total enrollment of 3,426 pupils last year. Of this number 1,838 attended rural schools and 1,588 graded schools. Every school district in Dixon county has complied with the library law and the expenditure for library books last year amounted to \$686.90. One thousand and one dollars were received from free high school tuition, of which \$529.50 was collected by the Ponca high school, \$115.50 by Newcastle, \$171.75 by Wakefield, \$81 by Emerson, and \$103.25 by Allen. The average monthly wages paid to male teachers was \$74.25, and to female teachers, \$47.32.

Mrs. R. N. Miller, of Kirksville, Missouri, who had been visiting her sister, Mrs. F. M. Thomas, for three weeks, returned home this morning.

Twenty-five cent goods for that summer dress for 15c per yard. July Clearing Sale. S. R. THEOBALD & Co.

With five counties missing the total assessed valuation of the state shows an increase of \$12,000,000. Wayne county shows an increase of \$42,349.

Be a booster for your town and county all the time. There may be better places, but you are not there and if you're not a booster the better places don't want you. Then it's easier to do your work when the world and mankind look good to you. The grouch to business is like a frost to a fruit tree in bloom, cannot possibly do any good and may do lots of injury.

**Compromises With Ben Hur**

State Auditor S. R. Barton, who has contended that all fraternal insurance organizations doing business in Nebraska, must have a representative form of government has about effected a settlement with the supreme Tribe of Ben Hur. The auditor has contended that no one but delegates elected by local lodges have a right to vote in the supreme body of fraternal organizations. The Ben Hur lodge auditor's ruling requiring a representative form of government. After the auditor's demurrals to that claim, the supreme officers promised that in the next meeting of the supreme tribe there should be a majority of elective delegates ranging from fourteen to fifteen. If this is not the majority present the officers promise to appoint on standing committees enough delegates in the voting body. This may be accepted by the auditor although the plan contemplates retaining some appointive persons who may have a right to vote.

**Two Crops at Once**

On the Hans Paulson farm four miles southeast of Pender could be seen the unusual spectacle of two crops being harvested from the same ground at the same time. Mr. Paulson had a piece of alfalfa which seemed to be dying out. His boys, who keep a close watch on all the farm papers for new and profitable ideas, read somewhere that winter wheat and alfalfa could be raised on the same ground at the same time. They thought that since their alfalfa had not come good that would be their opportunity to experiment. So they sowed their field of alfalfa to winter wheat. The two crops grew together and last week were ready to harvest. Mr. Paulson started his binder to work harvesting the wheat and then started the mower immediately after the binder to cut the alfalfa. A number of persons went to see this unusual sight. They report that there was a fair crop of each and the experiment was a success. Mr. Paulson and his sons are to be congratulated for their success in this matter and doubtless have put other farmers under very great obligations to them for the introduction of this idea in farming which may prove very helpful in this age of high priced land.—Pender Republic.

**No Game**

After the severe drubbing they got last Friday at the hands of the Wayne base ball team the Randolph club were afraid Tuesday to trust their own members to uphold the honor of their town and tried to play Blaine Skeen as catcher, and when they could not do this they played the baby act and marched off the grounds followed by the booing of those who had assembled. It has been distinctly understood by the management of every team, when they were asked to enter into a contest with the Wayne club, that they should not allow any Wayne player to play on their team, either on their own grounds or when they came to Wayne, and the Randolph boys knew this before they came here. The reason for this sort of an agreement or understanding on the part of the Commercial club, who is managing the home team arises over some disagreement between the Commercial club and some of the players on the team last year who have been doing all in their power to prevent the Commercial Club from organizing and maintaining a team here this season, most of whom had a chance to get on the home team this year if they wished to do so, and some of whom had agreed to sign and then failed to keep their word. So far as the Wayne team were concerned, they were perfectly willing that the game should go on, but the Commercial club did not nor do they propose to back down from the stand they have taken. The game was given to Wayne, 9 to 0. Of course those who had reached the ground and others who were on their way there were disappointed that the game did not go on.

It is that of Caring for Increasing Insane

Nebraska faces a serious problem in the matter of caring for insane patients who fall upon the mercy of the state. A few days ago Robert Smith, clerk of the district court and a member of the Douglas County Insanity commission, writes to Governor Shallenberger, calling to his attention the inadequacy of the Douglas County hospital and the lack of accommodations for the insane. A reply was received Thursday morning. The governor states that all state institutions are crowded to their capacity and that the increasing number of insane persons for whom the state must provide is demanding, more and more, that further provision be made. A paragraph from the governor's letter says: "Our state institutions for the insane are very much overcrowded at present. There has been one building completed at Norfolk, which has somewhat relieved the situation, but another is being completed. I understand, at Hastings. Every one of our institutions are crowded beyond measure, and it seems as though the state is confronted with the fact that these unfortunate people are constantly increasing in numbers that must be cared for by the state, I will endeavor at once to relieve the situation as much as I can."

Supreme Court Holds Law of 1895 is Void

The supreme court handed down four belated opinions which make a material change in the law of decedents in Nebraska. Judge Root wrote the decision, Chief Justice Reese and Judge Sedgwick dissenting from a portion of it.

Rights of Widows Involved

The court reaffirms its former decision, rendered several years ago, but goes further and declares invalid a curative act of 1895, which had never before been questioned. The Baker act gave the widow of a deceased person the homestead in fee and authorized the county judge to set aside a homestead for a widow.

No Pardon on Fourth

The governor did not issue a pardon under the Fourth of July pardon act to Hawkins of Frontier county. Hawkins was the only prisoner eligible to pardon under the Fourth of July law. He is serving a life sentence for the murder of an old man named Jensen who was tortured and mutilated, supposedly in an attempt to compel him to tell where he had money hidden. He was finally killed and his body was thrown in an abandoned well. The warden of the penitentiary applied for Hawkins' pardon, but the governor also received telegrams of protest.

Corn Crop Outlook

Nebraska's corn crop is pronounced by crop experts to be in as fine shape as it ever was at this time of the summer, except in fields where proper care was not taken to test the seed. The dry weather during June and the early part of this month enabled farmers to cultivate the fields thoroughly, with the result that they are much more free from weeds than ordinarily. Recent rainfall, covering practically the whole state, will give the corn a great impetus just as it was ready to lay by and insure a good crop.

Jerry Hanks to Give Bail

Jerry J. Hanks of Dawson county, sentenced to seven years for a criminal assault upon Florence Weaver, has appealed to the supreme court and the court has suspended sentence and permitted the defendant to give bail in the sum of \$2,500. George Crister of Harlan county, who, with young Heddendorf, was charged with complicity in the murder of William C. Dillon, has appealed to the supreme court, alleging that when his case came up for trial in Franklin county, the case was dismissed without prejudice to a new action, but that he is still held in jail.

State Institutions Expenses

At the July meeting of the state board of public lands and buildings vouchers for state institutions were allowed amounting to \$54,978, which is about the amount usually expended for maintenance, salaries and wages and repairs. Land Commissioner Cowley who keeps tab on the vouchers allows that the June expenditures of state institutions comprise \$29,435 for maintenance, \$2,485.08 applied from institution cash funds for maintenance, \$17,468.76 for salaries and wages and \$4,691.75 for repairs.

Martigan Issues Order

Adjutant General Martigan has issued the following order: 1. The rifle and revolver teams authorized by general order No. 2 will report at the state range near Ashland on July 18, 1910. Company commanders will file with rifle teams from their commands a list of one enlisted man as marker, and all will be equipped for field service. Tentage and subsistence will be provided at the range. 2. The commanding officer of the hospital corps will detail one medical officer, one noncommissioned officer and two privates to report at the range on July 18, 1910, with necessary equipment for the installation of telephone service on the range. 3. The following officers are assigned to duty: Executive officer, Brigadier General J. C. Hartigan; chief range officer, Major E. H. Phelps.

Wayne Normal School

The Wayne Normal school, purchased by the state, will be opened September 10. This is made possible by a decision from Attorney General Thompson in which he holds that it is legal to use the remainder of the \$90,000 appropriated for the purchase of the school, to maintain it. State Auditor Barton and Treasurer Brian both have approved the decision, so there will be no hitch. There will be \$25,000 for the maintenance of the school which is sufficient to keep it going until appropriation is made.

Experiment at County Fairs

Experiments are under way whereby demonstrations may be made at the county fairs of Nebraska this fall, of the use of serums for the prevention and control of hog cholera in this state. At the instance of F. C. Crocker, president of the Nebraska state board of health, the experiment of J. A. Haddock and Dr. Gain of the Nebraska experiment station have consented to cooperate to bring its use directly to the homes of the farmers and stockmen of Nebraska.

A DECEDENT RULING

It is that of Caring for Increasing Insane

SUPREME COURT HOLDS LAW OF 1895 IS VOID

RIGHTS OF WIDOWS INVOLVED

County Judges Cannot Set Aside Homesteads in Fee Because Not Allowed to Determine Title.

The supreme court handed down four belated opinions which make a material change in the law of decedents in Nebraska. Judge Root wrote the decision, Chief Justice Reese and Judge Sedgwick dissenting from a portion of it.

The court reaffirms its former decision, rendered several years ago, but goes further and declares invalid a curative act of 1895, which had never before been questioned. The Baker act gave the widow of a deceased person the homestead in fee and authorized the county judge to set aside a homestead for a widow.

That act was held unconstitutional several years ago on the ground that it was not properly passed and because it gave a county judge power to determine title to real estate. The curative act of 1895 was intended to legalize the acts of county judges in setting aside homesteads in fee to widows.

The supreme court now holds that the curative act is unconstitutional because such an act cannot source the defects of an act that is void in itself. The result is that the law enforced prior to the Baker act is now the law and that widows may only have a life interest in a homestead. After she gets her share the heirs may take title in fee. It is believed that few cases will arise under the ruling because in most cases of division of estates the statutes of limitations has run and litigation is barred.

Chief Justice Reese and Judge Sedgwick dissent from that part of the decision holding that part of the court's old decision, holding that a decree of a county judge, setting aside a homestead in fee to a widow, is granting power to a county judge to determine title to real estate, and from that part of the new holding which says that children of a deceased person are not stopped, if they have not ratified such an order of a county judge, from objecting to such an order. They agree with the court that the curative act of 1895 is void and with the balance of the opinion.

Another Senatorial Candidate

Alfred Sorenson of Omaha, known as the "will-be-senator," filed his receipt with the secretary of state showing that he had paid his \$50 filing fee to the county clerk of Douglas county as a candidate for United States senator. He is running for the republican nomination.

Millers Planning Appeal

Secretary H. B. Smith of the South Platte Millers' association, announced that he would call a meeting of Nebraska millers to take action on the successful government prosecution in the bleached flour cases at Kansas City, and make plans for carrying the case to the United States supreme court.

Scarlet Fever Closes School

The junior normal school at McCook has been closed by order of the school board of that city on account of scarlet fever. The school had three weeks to run. About 150 students are in attendance. It is believed that the order of the board will practically break up the school for the rest of the term.

Barton Files for Auditor

Shias R. Barton, state auditor, has filed his name as a candidate for a second nomination on the republican ticket. Mr. Barton is now serving his first term. He filed from Grand Island.

Can't Stop in Lincoln

Senator Burkett received a telegram saying that Theodore Roosevelt would make an address in Omaha, September 2. Mr. Roosevelt's engagements will not permit him to make a stop in Lincoln on that trip.

School Bonds Registered

W. W. Young was here and registered \$20,000 high school bonds, voted by the city of Stanton for a new school house. The bonds pay 5 per cent and run twenty years, being optional at ten years.

Address by Mr. Bryan

Responding to an invitation from the farmers' national congress to address at its annual meeting in Lincoln, W. J. Bryan has written that he will be pleased to deliver his lecture on "The Prince of Peace" at any other suitable address on October 20th.

Complaint Against Dr. Johnson

A complaint has been prepared by County Attorney Frank Tyrrell against Dr. W. E. Johnson, convicted of having performed a criminal operation which resulted in the death of a woman, a 15-year-old girl, for filing with the board of health a certificate of the state board of health in which it is stated that Dr. Johnson's license to practice medicine has been revoked. Dr. Johnson was sentenced to two years in the penitentiary. His case is now in the supreme court for further consideration.

Rife Range for Regulars

Senator Alex Lavery of Ashland, was in Lincoln to consult Senator Burkett on the tender of a 500-acre tract near that city for sale as a rifle range for the regular army troops stationed in Nebraska and the national guard of the state. An appropriation of \$25,000 for the purchase of the site to be used in that way was secured by Senator Burkett in the last session. The acreage near Ashland is Platte river lowlands, the ground having been chosen this year for the national guard camp.

A SERIOUS PROBLEM

NEBRASKA IN BRIEF

News Notes of Interest From Various Sections

In a barn fire at Bayard fourteen horses perished. Many of the Nebraska farmers celebrated the Fourth in the harvest field. The cornerstone of the new Odd Fellows home at York was laid on the Fourth.

W. G. Davis, a farmer merchant at Lyons, died recently in the state of Washington. There were three quite serious accidents at Ponca on the Fourth, none of them fatal. The power house and electric plant of the Lexington Mill & Elevator Co. was destroyed by fire.

Presbyterians of Beaver City will erect new church to take the place of the one destroyed by fire. Harvest hands are in such demand that at some places as high as \$4 per day has been offered. Kenneth Enlow, eight years old, was drowned in the Republican river at Orleans while swimming.

The drouth is responsible for many prairie fires around Fremont. Much hay land has been swept over. Joseph Hamm, twenty-two years old, was drowned while swimming in the Woodruff sand pit near Meadow, Cass county.

While playing in the river behind his father's home, Guy Reed, 3 years old, son of Claude Reed of Norfolk, was drowned. C. M. Surprenant, a section hand, was killed instantly while at work by a box car being switched in the yards at Plattsmouth.

Roy Hodges, who was shot by Frank Rice in a fight over a trivial matter at Kearsaw, died in the hospital at Hastings. The board of education made the estimate for the coming year, which is \$55,000. This will make a levy of 25 mills the same as last year.

Three near fires occurred in Pierce during a terrific rain and electrical storm that lasted from 2 o'clock until 5 o'clock. The fires were quenched with but little damage. At Scottsbluff a fatal accident was narrowly averted when Harvey Heyn became overcome while working on top of the steel work of the sugar factory and was saved from falling sixty feet to the ground by a fellow workman.

County Assessor Sonnenichsen has just completed the compilation of the personal property assessment of Cass county, which shows the total to be \$1,448,110, an increase over last year of \$43,297. A letter from General Manager Mohler of the Union Pacific stated that work will begin on the new Union Pacific depot at North Platte this fall. This building is to be erected at a cost of \$80,000.

Shirley Dunkel of Hall and Iler of Morrill county made quite a catch at Maxwell when they hunted in Billy Crawford on the charge of stealing an automobile. The machine disappeared from a garage at Marquette some time ago. August Anderson and wife of Hill-dreth found a sad greeting when they returned from a three months' visit in Sweden. At Chicago they were met by relatives and notified of the death of a 17-year-old son. The boy had been buried six weeks.

There is a move on foot in Nebraska City to establish what is known as the People's church, because of the action of four of the ministers of that city in regard to the playing of baseball on Sunday and the arresting of the players therefrom. Governor Shallenberger heard the plea of Ralph Nieman for pardon. Nieman was convicted of killing Emilie Sandos of Sheridan county. The governor withheld judgment and will not pass upon the case until he has seen a transcript of the proceedings in district court. Governor Shallenberger has given his promise to speak at Albion August 25 at the old settlers' picnic. In Fillmore county J. N. Cox and a party of friends while going at a high rate of speed, struck a piece of new grade. The auto turned turtle and most of the party was thrown out and escaped with slight bruises, but Louis Kalf was pinned under the auto and had his shoulder mashed and suffered internal injuries. George Overton, one of the large land owners residing south of Nebraska City, fell from a windmill tower, forty feet above the ground, but he caught a projecting beam, half way down and held on until rescued sometime later by persons who chanced to see him. He was quite seriously injured. The civil service commission announces that examinations for positions in the department service will be held this fall as follows: Nebraska, Omaha, September 19, 21, October 12; Beatrice, September 14, 19, October 12; Lincoln, September 14, 20, October 12; Norfolk, September 14, October 12; North Platte, September 14, October 12. Charles Riley, a stranger in Beatrice, was drowned in the Blue river while swimming. His body was recovered. Guy Sheffer, a young farmer who lived a short distance from Belgrade met his death in a peculiar way. He was cutting wheat, when, in oiling his machine, he stepped in front of the sickle bar when his horses became frightened, ran away and he was caught by the guards of the sickle bar and his skull was cut open, exposing the brain. His was taken to his home and only lived an hour after the accident. Congressman Edmund H. Hinshaw and wife will spend the summer in Washington and Greensboro, Ind., before returning to Fairbury. The village of Cortland is to have a new bank. Twenty farmers of that vicinity met at that place and subscribed over \$4,000 in stock towards the new institution. Internal revenue collections for the district of Nebraska for June aggregated \$359,532.14, as compared with \$222,309.80 in June of last year, an increase of \$137,222.34. Of this amount \$94,647.28 was produced by the new corporation tax.

TERRORIST TELLS OF BOMB DEATH

ANONYMOUS WRITER DESCRIBES ASSASSINATION OF THE HATED PLEHVE.

WRITES CALMLY OF CRIME

Describes How He Ordered "Yanek" to Go and Slay Police Chief—Failed and Another Man Finished the Grievous Task.

London.—It was a bright sunny day, says an anonymous writer in an account of the assassination of Plehve, the chief of the Russian police. As I approached the square in front of Pekrova church I saw the following scene: Sazonoff, seated on a bench, was at a table, expatiating to Sikorsky, with great animation, exactly how and where to drop his bomb. Sazonoff was quite calm, and seemed to have no thought for himself. Sikorsky was listening attentively. On another bench a little farther off, Uman sat with his usual imperious face, and beyond him, at the gates of the church, Kalf stood with his hat in his hand crossing himself in front of a holy image. I went up to him.

"Yanek?" "What?" "Go."

He embraced me, and, with his light graceful walk, started off to overtake Sazonoff. Sikorsky went slowly after him. I followed them with my eyes. The buttons of Sazonoff's uniform shone in the sun. He carried his bomb under his right arm and, evidently, found it heavy. I turned back along Garden street, and went through Assenston street to Ismailski Prospect calculating that I should meet the throwers between the canal and First street. By the look of the street, I guessed that Plehve was to pass along it directly. The police—both officers and men—hid a strained, expectant, stiff look. Here and there at the street corners were spies.

As I approached the corner of Seventh street I saw a policeman draw himself up to salute. At the same moment I saw Sazonoff on the bridge over the canal. He was walking as before, with his head high, holding his bomb near his shoulder. At that moment I heard the sound of hoofs, and a carriage with its pair of black horses dashed past. There was no footman on the box, but just behind the left back wheel was a spy, as it turned out later, an agent of the secret police—Frederick Hartman. Behind him were two other detectives in a private open carriage drawn by a black trotter. I recognized Plehve's cortege. Several seconds passed. Sazonoff was lost in the crowd, but I knew that he must now be in Ismailski Prospect, near the Warsaw hotel. These few seconds seemed interminably long to me.

Suddenly, in the midst of the monotonous noise of the streets, a loud, strange sound was heard.

When I reached the spot there was no smoke. There was a small burning. Straight in front of me, about four yards from the pavement, I saw Sazonoff. He was half lying on the dusty road. His half-closed eyes were leaden. At the pit of his stomach there was a big, dark blood-stained spot, which spread and formed a large crimson pool at his feet.

A mass of people were running toward me from the canal. I went in a contrary direction to those people, conscious only of one thing—Plehve lived and Sazonoff was killed!

I went to the baths in Kazank lane, asked for a room, and lay down on the sofa. There I remained till two o'clock, when I considered it was time to look up Shvetzer and prepare for the second attempt on Plehve. On reaching the Nevsky I mechanically bought the latest bulletin from a newspaper boy, thinking it must be from the front, in the most prominent position I saw Plehve's portrait framed in black, and his obituary notice.

## Lineage Won Social Victory

Mrs. Frederick Jones Had Only to Tell Her Family Connections to Get Reception Cards From Ambassador Field.

It is doubtful the general opinion that the descendants of John Adams were those who are descendants of John Quincy Adams, who became president 25 years after his father's retirement from the office. Yet it is a fact that there are many descendants in the direct line from John Adams; some of them live in the western part of New York state, some in the middle west and a few in the far west. And one of these direct descendants of John Adams that the anecdote I am about to relate was told me by a lady who is herself a great-great-granddaughter of John Adams.

her if her husband were an English citizen, and she replied that he was, and that her daughter was born in England. Thereupon, the secretary told her that he greatly regretted that he would be obliged to refuse her application for cards to the reception and he explained that it was limited strictly to American citizens.

"Well, Mrs. Jones was a good deal disturbed by this refusal, yet the more she thought about it the more persuaded she was that she had a right to be given the invitation she sought. So at last she determined to write to Mr. Reid, and this is what she told him:

## Miss Cushman Rebuked Him

How the Famous American Actress Showed Her Patriotism When Crossing the Ocean on the Noted Great Eastern.

"I have been told that Charlotte Cushman, the celebrated American actress, showed her intense patriotism at the time of the civil war by giving performances for the benefit of the Sanitary Commission," said to me several years ago a relative of Hamilton Towle, who was a well-known American consulting engineer about forty-five years ago, and who at one time was called to the important position by the Swiss government. "But I believe that I can tell you a story that will show more strongly, even, for great love for America."

## Prairie Pioneer's Gratitude

Interesting Story of the Great Northwest When It Was Traversed by the Railroad Marvyn Hughitt Built.

I really believe that I was never so deeply impressed with the truth that is in the Bible story of the widow's mite as I was at the time I was one of a party of railroad men who, at the invitation of its president, Marvyn Hughitt, made the first trip in the early '60s over the extension of the Chicago & Northwestern railroad, from Chicago, Ill., to Pierre, S. D."

"Where do you live? I asked him, when the train had come to a stop. "Back yonder, about 50 miles, he asked."

"Where are you going? I asked. "A yonder, he replied. I am looking for a lost horse."

"Have you come all the 50 miles on that hunt? I asked. "Yes, I reckon my shack is about 50 miles from here."

"I'll be glad to give you some sense of the absolute isolation and loneliness that were characteristic of much of the greater part of the country on either side of the extension of his railway system. Why, we went all the way without seeing any living thing except prairie dogs and birds. We did not even see an Indian."

## A Cat and Dog Skirmish

Which the Cunning and Resourceful Cat Won by Superior Strategic Ability.

I never fancied cats, very much, said a limited lover of nature, "but certainly the cat is a fairly courageous animal and more than ordinarily shifty and resourceful, and so it's quite likely to be able to hold its own against an enemy much larger and more powerful than itself."

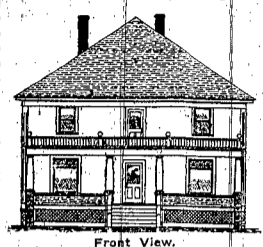

be cat's paw to sweep the air down yard, and a cat's claws are very sharp and a dog's nose is very tender and delicate, and the dog didn't close. In a moment he jumped for the cat again, but again the cat clamped him off, or the fear of the claws was enough to make the dog shy again.

### To Get Rid of Ants.

To rid your garden of ants effectively, you must first find the location of the nests. They can then be easily destroyed by benzoin, gasoline, bisulphide of carbon or boiling water.

### Care of Cucumbers.

Cucumbers for pickling may be planted as late as the middle of July. Bordeaux mixture then comes to the aid of the grower in the protection of the yellow-striped beetle which attacks cucumbers, melons and squashes in the early summer, and is also the preventive for blight.

### Early Potato Blight.

Early potato blight is liable to attack the potato crop at any time from June until the crop is ripe, but is most seriously destructive in July and August. It attacks the foliage. Professor Kohler of the Minnesota experiment station doubts if it will be profitable to spray early plantings of early varieties.

### Neatness in Garden.

Too much stress cannot be laid upon neatness in the garden. If faded flowers and fallen leaves are allowed to accumulate the charm that should characterize it is gone, and no amount of bloom can make up for the lack of care which is thus made manifest.

## CREATE LOVE FOR THE FARM

Farmers' Co-Operative Demonstration Work Has Solved Problem of Agricultural Life.

(By S. A. KNAPP.) One of the greatest problems before the American people has been how to interest in rural life, and attach to the farm the young man who has acquired a capacity for leadership. The loss of rural leaders by emigration to the city has been one of the most serious retrogressive factors in our whole civilization. The Farmers' Co-operative demonstration work has solved the problem. These young men left the farm because they were repelled by the hardships, excessive toil and meager gains on the farm and were attracted by a seemingly greater opportunity to acquire wealth, influence and position in the city. The demonstration work undertakes to create in the schoolboy a love of the farm and a new hope by showing the wonderful possibilities of the soil when properly managed and the ease with which wealth and distinction are achieved in rural life when science and art join hands. This is worked out by the cooperation of the demonstration workers, the county superintendent of public instruction, and the teachers.

The superintendent and teachers organize the schoolboys over ten years of age into clubs; the demonstration work furnishes the plan of organization and the instructions (which the boys agree to observe); the respective parents furnish land, teams and implements; the merchants and bankers provide the prizes; and the local papers give the publicity. Each boy must personally work one acre under the same regulations governing all other contestants. The result of 800 to 400 boys entering intense interest. The boys learn the best way to raise corn or cotton and his appreciation of the farm is greatly enhanced.

The boys in the corn contest of one county in Mississippi last year averaged a production of 74 bushels of corn per acre, while the farmers averaged less than 20. In South Carolina one boy raised 152 1/2 bushels on a measured acre, while the state average was 16.

## FARM NOTES

There is one sure way of preventing large weeds from growing in the garden—kill all the small ones. White onions are very much better keepers than the yellow variety, although the latter grow larger. The best garden-seeds are not always found in the packages on which are found the prettiest pictures. Keep the cultivator and the hoe going in the sweet corn patch. Not a weed should be allowed to grow in it. While it costs from \$8 to \$11 to grow an acre of corn, it costs less than four dollars to grow and save an acre of hay.

It is best to sow grass seed with a drill on light sandy or sandy loam soils, as it is less likely to dry out in dry seasons.

Arsenate of lead will not destroy the black squash-bug and other sucking insects. They must be picked off by hand and squashed.

The extensive root systems of grass crops, especially clovers, open up the subsoil, increase the supply of humus and are of great value to the soil.

Coal-ashes contain no fertilizing value and our experience is that they only serve to pack the soil instead of making it friable. Wood ashes are different.

The average wheat yield of America is only about 14 bushel to the acre in the England the land that has been farmed for hundreds of years averages about 30 bushels to the acre. In the mild climate, lettuce may be set out in the fall in beds protected by glass or cloth and this delicious vegetable may be had through most of the winter months.

If other remedies fail, spray the cucumber-vine with arsenate of lead. It destroys the yellow-striped beetle, which is the most dangerous enemy of the cucumber, and requires the most vigilant watching.

Drainage prevents loss of crops and labor from stagnant water; permits air to circulate more freely through the soil, carrying with it fertilizing properties, making a warmer soil that can be cultivated early, for dry soil works easier than wet, roots go down deeper in it and get a greater supply of plant food and more moisture in a dry season. Drainage also prevents baking and cracking.

Keep Up Garden Notes. Do not neglect to keep up with your notes on the garden. The housewife should have the record book in the pantry and note when the first vegetables are used. This is the only correct way to test varieties and become familiar with the qualities of each. It requires little time to do this yet it gives you much valuable information.

Select Best Laying Hens. Select your best laying hens and mate them with the best roosters and use the eggs from their "cocking" hatchings. Select the eggs of the best hen all winter if you want pullets that will lay the year round.

## Anne Gage's Beau

By CORA A. N. SORNSSEN

"Girls, look quick!" Gail sprang from her chair and ran to the window. "Isn't that Anne Gage going by? It is, as I live, Anne! Anne!" she called, thumping upon the window with all her might. Then she flew to the front door and flung it wide open. "Anne! Anne! Anne! Anne! Anne! Anne!" she called, her face brightened with a smile. She had not before been aware that her attention was being demanded. And Anne was always so quick to hear and see!

"Oh, is that you, Gail?" she exclaimed. She came slowly up the steps, laid out her hat. There was a gentle abstraction in her manner, a dreaminess in her face, a conscious reserve in her voice that Gail noticed without being able to define, and which was new to her. Certainly, Anne's three months of absence had changed her perceptibly.

"I'm so glad to see you," Gail said, kissing her a little breathlessly. "I did not look for you so soon. When did you come?"

"Oh, we came yesterday, father and I. But it is no sooner than we expected to come." She followed Gail into the parlor, where Fanny Leal, who was always cold, and Hilda Mains, who could never be happy at any distance from Fanny, were hovering over the radiator and eagerly awaiting her entrance.

"Oh, Anne!" They both kissed her rapturously.

"And you wrote me only two letters in all those three months," Fanny reminded her reproachfully.

"You wrote me the only one, Anne," Hilda took up the complaint. "And Gail says you treated her almost as badly. Such snippy letters too! Nothing to them but beginning and ending."

"Well, now! By the beginning you knew I was alive and well, and by the ending you knew I loved you in

"Anne, how lucky you are!" Hilda gushed.

"Yes, I think I am lucky," Anne said, complacently.

"I think he is lucky to get Anne," said loyal Gail.

"Oh, Gail, you are partial," Anne chided. "Wait till you see him and then you will wonder how he could ever have chosen him."

"Have you got his picture?" Fanny asked.

Anne shook her head.

"What is his name?" questioned Hilda.

"His name is Theodore Rivington Reese," Anne announced the name slowly and with becoming reverence. "What a beautiful name!" Gail breathed. "Do you call him Teddy for short?"

"Oh, no!" Anne looked startled. "No, indeed! Teddy would be horribly out of place—with him."

"IT HAPPENED JUST BEFORE I CAME AWAY"

the same old way. What more would you have? Anne parried laughingly, sitting down comfortably and loosening her furs.

"Lots more," Hilda grumbled. "We wanted to know about your good times and your beaux for surely you must have had both. No girl could spend three months at a Georgia winter resort without them."

Anne was slowly pulling off her gloves while she studied a water color upon the opposite wall. Yet she did not seem to see the picture so much as something far beyond it.

"Oh, beaux and good times," she said. "Yes, I suppose I had as many of both as were good for me." She was fumbling for her left glove. It yielded suddenly and slipped from her hand.

"Anne!" the three girls cried in one breath, starting. Anne looked down at her gleaming new ring with a flush and smile.

"Yes, I nearly half a head shorter!" gasped Fanny. Then, jerking her black and blue arm from Gail's unconsciously cruel grip.

"And he wears eye glasses and he's getting fat and bald, and he is every day of forty-five," wailed Hilda. "And he keeps a hardware store. Oh!" moaned Hilda.

"But she loves him!" cried Gail in vindication.

"Yes, she loves him," Fanny agreed. "Girls, if love can do that it can do anything."

"And she might have had John Wilbur," Hilda said.

Then their solemnity gave way to hysterical giggling, which lasted until John Wilbur, who had been looking everywhere for Hilda, came peeping around the corner and inquired what was the matter.

Sets End to Public Service. It was the example set by Nathaniel Macon, one of the old-time public men of the south, that has influenced Congressman Champ Clark in setting a date for his own retirement. Mr. Macon fixed upon his seventy-fifth birthday, and when it came he immediately resigned his seat in the United States senate, although his term was no more than half expired. Mr. Clark proposes to retire likewise at precisely seventy-five.

World's Model Power Plant. The finishing touches have just been placed on the exterior of "the model power plant of the world"—a \$1,600,000 structure erected by the United States government, a stone's throw from the capitol at Washington. This station is to furnish heat, light and power to the entire group of important government buildings on Capitol Hill.

Specialization. Doctor—"What can I do for you?" Patient—"I have cut my index finger." Doctor—"Very sorry, but my special-ty is the middle finger."

CHAS. W. REYNOLDS, Clerk.

No Trouble at All.  
Father (to son)—And are you in a position to support a wife? Son—Oh, yes; I'm a perfect natter at raising money.—Fleegende Blatter.

Beat Him to It.  
Census Man: How old are you, madam? Lady: Twenty-five. Census Man, gallantly: You could easily say you were five years younger than you are. Lady: Oh, I've done that already.—Boston Transcript.

Feel languid, weak, run-down? Headache? Stomach "off"?—Just a plain case of lazy liver. Burdock Blood Bitters tones liver and stomach, promotes digestion, purifies the blood.

Substitutes for Human Hair.  
So great is the demand in Germany for human hair that many substitutes, chiefly vegetable fibers, have been introduced.

Foley's Kidney Remedy will cure any case of kidney and bladder trouble not beyond the reach of medicine. No medicine can do more. Feibel's Pharmacy.

Got Rid of Snake.  
A farmer's wife near Gering, Neb., saw a snake eating bread from her baby's hand. She put out a doll next day with poisoned bread in its hand and in the evening found a dead snake in the yard.

Chamberlain's Stomach and Liver Tablets gently stimulate the liver and bowels to expel poisonous matter, cleanse the system, cure constipation and sick headache. Sold by all dealers.

Growing Old.  
"I don't believe she is as young as she claims to be." "Of course she isn't. Didn't you hear her confess a moment ago that she could very well remember when everybody was crazy about Omar Khayyam?"

"I suffered habitually from constipation. Doan's Regulets relieved and strengthened the bowels, so that they have been regular ever since."—A. E. Davis, grocer, Sulphur Springs, Tex.

Astonishing.  
Laker—Did you see anything in Philadelphia that surprised you? De Salle (just returning from a visit): Yes, removing pictures.—Chicago Daily News.

Teething children have more or less diarrhoea which can be controlled by giving Chamberlain's Colic, Cholera and Diarrhoea Remedy. All that is necessary is to give the prescribed dose after each operation of the bowels more than natural and then castor oil to cleanse the system. It is safe and sure. Sold by all dealers.

Rapid Growth of Empire.  
When Queen Victoria ascended the throne her subjects numbered 168,000,000, when she died the figures were about 400,000,000.

Soreness of the muscles, whether induced by violent exercise or injury, is quickly relieved by the free application of Chamberlain's Colic, Cholera and Diarrhoea Remedy. It has relieved more pain and suffering and saved more lives than any other medicine in use. Invaluable for children and adults. Sold by all dealers.

In Card Table Parance.  
"He placed his hand and fortune at my disposal," said Miss Bridgeton. "Signifying, I suppose," replied Miss Cayenne, "that he is willing to play 'ummy' for the rest of his life."

When the stomach fails to perform its functions, the bowels become deranged, the liver and the kidneys congested, causing numerous diseases. The stomach and liver must be restored to a healthy condition and Chamberlain's Stomach and Liver Tablets can be depended upon to do it. Easy to take and most effective. Sold by all dealers.

School of Wisdom.  
"Shall we not learn wisdom as we look back upon the irrevocable past, and make sure that in the future we shall not permit the doors of opportunity to shut in our faces?"—Miller.

Hay Fever and Asthma.  
Bring discomfort and misery to many people but Foley's Honey and Tar gives ease and comfort to the suffering ones. It relieves the congestion in the head and throat and is soothing and healing. None genuine but Foley's Honey and Tar in the yellow package. Feibel's Pharmacy.

Ideal Condition.  
Solon, on being asked how wrong doing can be avoided in a state, replied: "If those who are not wronged feel the same indignation at it as those that are."—Stoebaus.

"Is Life Worth Saving?"  
Mrs. Mollie McRaney, Prentiss, Miss., writes that she had a severe case of kidney and bladder trouble, and that four bottles of Foley's Kidney Remedy cured her sound and well. She closes her letter by saying: "I heartily recommend Foley's Kidney Remedy to any sufferer of kidney disease. It saved my life." Feibel's Pharmacy.

Your Car Fare Paid to Quinn, S. D.  
Quinn, South Dakota, is located in the best farming part of Pennington county, between Pierre and Rapid City. Good land for sale at \$20 to \$30 an acre. Now is the time to buy for a home or an investment. Cut out this ad. and take it with you to FURNAS, THE LAND MAN, at Quinn, and he will pay your car fare from your town to Quinn, if you buy land of him. 99

A Few Short Weeks  
Mr. J. S. Bartell, Edwardsville, Ill., writes: "A few months ago my kidneys became congested. I had severe backache and pain across the kidneys and hips. Foley's Kidney Pills promptly cured my backache and corrected the action of my kidneys. This was brought about after my using them for only a few short weeks and I can cheerfully recommend them." Feibel's Pharmacy.

Still in the Ring.  
"Billinger used to be one of the best fish bars I ever met."  
"Has he left?"  
"He quit lying about fish some time ago. But he's more than making up for it by the lies he tells about the smartness of that four-year-old son of his."

Must Be Above Suspicion  
Kidney and bladder ailments are so serious in their consequences, and if unchecked so often fatal that any remedy offered for their cure must be above suspicion. Foley's Kidney Pills contain no harmful drugs, and have successfully stood a long and thorough test. Feibel's Pharmacy.

A Mere Assertion.  
H. Fly is the name of a New York publisher. It is said that one of the novels which he has recently brought out is a good book for an idle hour on a screened-in porch.

Foley's Kidney Pills Have Cured Me  
The above is a quotation from a letter written by H. M. Winkler, Evansville, Ind. "I contracted a severe case of kidney trouble. My back gave out and pained me. I seemed to have lost all strength and ambition; was bothered with dizzy spells, my head would swim and specks float before my eyes. I took Foley's Kidney Pills regularly and in a few days I felt well and feel like a new man. Foley's Kidney Pills have cured me." Feibel's Pharmacy.

(SEAL) CHAS. W. REYNOLDS,  
6-30 '3w County Clerk.

Notice To Non-resident Defendant  
To Henry A. Blunt:  
You are hereby notified that on the 9th day of April, 1910, Hattie Blunt filed her petition against you in the District Court of Wayne County, Nebraska, the object and prayer of which are to obtain a divorce from you on the ground that you have grossly, cruelly and wantonly refused and neglected to provide support and maintenance for plaintiff, although of sufficient ability so to do, and have willfully abandoned plaintiff without good cause for more than two years last past.

You are required to answer said petition on or before Monday the 22nd day of August, 1910.

IF WOMEN ONLY KNEW  
What a Heap of Happiness It Would Bring to Wainy Homes

Hard to do housework with an aching back.  
Brings you hours of misery at leisure or at work.  
If women only knew the cause—that Backache pains come from sick kidneys.  
"I would save much needless woe. Doan's Kidney Pills cure sick kidneys."  
Many residents of this vicinity endorse them.

Mrs. C. T. Barto, Wakefield, Nebraska, says: "I believe that Doan's Kidney Pills are an effective kidney remedy. For about two years I was subject to attacks of kidney trouble, some of which were very severe. My back was so lame and sore that it sometimes seemed as if it would break in two. My kidneys were also weak and the secretions from these organs passed too frequently. I tried several remedies, but received only temporary relief. With Doan's Kidney Pills it was different. They not only stopped the pain in my back, but also corrected the difficulty with the kidney secretion. I have no hesitation in giving Doan's Kidney Pills the credit for my present good health."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.
