## 6000-Gallon Tank Car

National Light Oil to Arrive About August 20

Very few people who do not realize the superiority of National Light Oil. The introduction of this high-grade product into over 300 homes has brought about an active demand for an oil which will produce a brilliant light, free from smoke and offensive odor. National Light merits all of these qualifications and every gallon sold is positively guaranteed to please. My canvass, supply- ing farmers in 50-gallon quantities has indeed been a glowing success. Every patron sold last year had a good word for National Light and placed an order to be filled from tank car soon to arrive. Your purchase of 50 gallons high grade oil and a serviceable tank affords a saving of over \$3.00 besides eliminating the disagreeable custom of transporting old cans filled with oil which often wastes and is not uncommon to spoil several dollars worth of groceries during the year.

GET THE PROGRESSIVE IDEA—phone your order for 50 gallons National Light oil while I can offer you the special \$3.00 saving. Use 5 gallons; if you are not thoroughly satisfied it's the BEST oil you ever used the full purchase price will be refunded. This is no experiment, 300 farmer around Wayne have profited by this manner of buying and everyone is a friend to the proposition. When testing the lighting quality of National Light Oil be sure and change your lamp wick. They are free at my store. Ask for them.

## Soon All Housewives Will Know

The superiority of Splendid, the flour made, first, only from nice, smooth, plump, No. 1, hard wheat of a rich, brownish color, which is thoroughly washed and steam dried; then comes the grinding which converts the golden grain into flour. A boy five years of age can turn a grindstone just about as well as his grandfather who perhaps turned one all his life. Grindstones turn just the same as they did 50 years ago—anybody can turn a grindstone. Not so with making flour. To be a proficient miller requires years of constant experience, knowing what to do and what not to do just at the proper time. Every sack of Splendid is a product of 36 years' actual experience combined with the very latest machinery and up-to-date milling methods. There is a reason why Splendid renders superior and more satisfactory results. It's made right, made upon honor and made to please the housewife.

Just how soon you will be a constant user of Splendid no one can determine, but the time is not far distant. Every day this flour demonstrates its merits in 300 homes. The demand is phenomenal—the one factor of QUALITY is responsible for this condition. Join the army of Splendid users, connect with a flour made in the sanitary way, and remember, if it does not "make good" I will.

Splendid users kindly send me a loaf of bread next baking day. I will send the money back with little Johnnie or Mary.

## RECEPTION TO M. E. PASTOR

CORDIAL GREETINGS GIVEN

Omaha Bee Treats of Work of Wayne's Newly Appointed Minister—Other Receptions.

A crowd of more than 200 gathered at the M. E. church Monday evening when a reception was given for Rev. and Mrs. William Gorst, who lately moved here from Omaha. Chas. H. Bright gave the address of welcome in behalf of the church, and Rev. Parker Smith of the Baptist church and Rev. Alexander Corkey of the Presbyterian church also made speeches, all voicing the hearty good feeling with which the newly appointed minister and family are received. Vocal music was furnished by the men's chorus and ladies' quartet. Refreshments were served, and the occasion delighted every one present.

Sunday's Omaha Bee contained the following in regard to the ministry of Rev. William Gorst: The Rev. William Gorst, D. D., who is just leaving Omaha for Wayne, Neb., to become pastor of the Methodist Episcopal church at that place, will be missed from church circles in Omaha and this part of the state. During his eight years' residence in Omaha Dr. Gorst has made himself felt for all those things which make for better citizenship and for higher types of manhood and womanhood. For the last twenty-six years Dr. Gorst has been prominently identified with the work of the Methodist Episcopal church in northern and eastern parts of the state covered by

REV. W. H. GORST

the North Nebraska conference. Within this territory practically all of his ministerial life has been spent. In 1884 he was admitted on trial and stationed at Blair, where he remained two years. From Blair he went to Wayne in 1886 and served the charge for four years or until 1890, when he was appointed pastor at Neligh. After three successful years at Neligh he was appointed to Norfolk by Bishop J. M. Walden. During his three years' pastorate at Norfolk and in the midst of the hard times incident to that period, he managed a church building enterprise which resulted in the erection of a \$15,000 church. At the close of his pastorate in Norfolk he was appointed presiding elder of the Neligh district, serving the full term of six years. He came to Seward Street, Omaha, at the close of his term on the district. Two years' service at Seward Street put him in touch with the work of the city, and Bishop I. W. Joyce appointed him to the superintendency of the Omaha district six years ago. Having completed the full six-year term allowed a superintendent on any one district, he now goes to Wayne; returning to the charge to which he was appointed twenty-four years ago.

During these twenty-six years that Dr. Gorst has been at work in the North Nebraska conference he has been connected with various important enterprises of the church and has been the recipient of varied honors at the hands of Nebraska Methodism. For years he has been connected with the Nebraska Wesleyan university and the Nebraska Methodist hospital, serving on the board of trustees of these institutions. During the days when things looked dark for the future of the educational work of the Methodist church in Nebraska his counsel was always hopeful and his faith optimistic; and he has lived to see the school at University Place grow to its present place of usefulness and power in the educational work of the state. Several years ago the Wesleyan university, in recognition of his services and his work in varied forms of Christian enterprise conferred upon him the honorary degree of doctor of divinity.

It was under Dr. Gorst's superintendency of the Omaha district that a new enterprise came into the possession of the Methodists of Nebraska—the Crowell Memorial home, at Blair. His counsel and wisdom guided in the taking of this magnificent gift and helped in shaping the charter and policy of the new institution that today shelters a number of needy aged persons and that bids fair to become a popular home for the aged persons both of the ministry and laity.

Dr. Gorst has been honored by the conference three times in being selected as one of its delegates to the general conference; a position much coveted by both preachers and lay-

men, and likewise a position of great responsibility. In all the positions to which he has been chosen he has proved himself a capable and useful man. The young people of the charges and the districts that he has served remember him with gratitude, for he has ever taken a great interest in them, understanding their needs and comprehending their natures. He has given a son from his own home to the work of the ministry, presenting him to the North Nebraska conference on the twenty-fifth anniversary of his own entrance into that body. Careful and painstaking in his work, attentive to all the details of an arduous position, he has well earned the honors that have come to him throughout the years.

Through some very trying experiences he has held steadily to the right course and has left a lasting impression of his genius on the work of the Methodist church in Nebraska and in Omaha. His place is secure in the hearts of a host of friends as a preacher of much power and a judicious and impartial administrator.

RECEPTION AT THE MANSE. The reception given by Rev. and Mrs. Alexander Corkey at the manse Thursday evening for the instructors of the Normal and public schools was largely attended and thoroughly enjoyed by all.

The program consisted of a piano solo by Mrs. Jas. Miller, vocal solo by Herbert Welch and music by Ensign and Paul Young. A gramophone also contributed to the entertainment. Rev. Corkey gave the address of welcome in his usually spirited and interesting style, and was followed in response by President Conn of the Normal in appropriate words.

Light refreshments were served at the conclusion of the program of music and speeches, and the host and hostess had the satisfaction of having carried out a most successful social function.

## WAYNE LADIES' CLUBS MEET

The season of club meetings among Wayne ladies has begun, and members of the different organizations have resumed their work with renewed interest. The Monday club held its initial meeting at the home of Mrs. Chas. Rebe Monday afternoon. The club has taken up a miscellaneous literary course, and at Monday's meeting each member gave a brief talk on a subject previously selected. Light refreshments were served by Mrs. Beebe.

The Acme club met at the home of Mrs. Jno. T. Bressler Tuesday afternoon from 3 to 5 o'clock. This club is studying the Bay View course. The Minerva club met at the home of Mrs. Henry Ley Tuesday afternoon, when a program appropriate to the opening meeting was carried out. The program consisted of an address of welcome by Mrs. Lou Owen, the president, poem of welcome by Mrs. Lambert Roe, and a history of the club by Mrs. Henry Ley who was the only charter member present. She pointed out that the club was organized fourteen years ago. Mrs. C. A. Grothe outlined the work for the year, and Mrs. Bert Brown gave a musical selection. Refreshments were served.

## THE MASONS ENTERTAIN

Members of the A. F. & A. M. entertained their wives and the Eastern Star in their hall Friday evening. A harpist furnished music while the crowd assembled, and until Lambert Roe, who presided, announced the program. An address of welcome by A. R. Davis expressed in a happy vein a cordial greeting, especially directed to new acquisitions to the local order from the Normal school faculty. In the absence of Dean Hahn of the school, response was made by Registrar Redmond whose pointed stories and good humor were thoroughly appreciated. Short and interesting speeches were made by Chas. M. Bright and Rev. Gorst. The addresses were interspersed by songs by a male quartet, and so well did the members sing that they were compelled to respond to an encore.

This part of the program was con- sidered by a gift of eight dozen spoons by the Masons to the Eastern Star, the presentation speech being made by Mr. Roe, Master of former. To Mrs. A. A. Welch, Matron of the latter. Representing the two orders, both gave expression to appropriate thoughts in well chosen words.

Then followed a season of sociability, the guests becoming acquainted with the strangers and having a merry time visiting. The climax came with the serving of refreshments of ice cream and cake, members of the Masonic fraternity passing around the delicacies without standing with an armful of dishes or otherwise disturbing the serenity of the occasion. The Masons carried out the entertainment with eminent success, to the high pleasure of all present.

## DEATH OF A PIONEER

The death of Mrs. Rachel Louise Penrose Richardson at her home, three miles southeast of Wayne, Tuesday morning at 9 o'clock, marks the passing of one of the county's most useful and highly esteemed pioneers. Mrs. Richardson who was past 85 years of age, had been sick about a week. The funeral took place from the M. E. church this afternoon at 2:45 o'clock. Rev. William Gorst the pastor, officiating. A large concourse of friends, many of them old settlers who remember the splendid character and exemplary deeds of Mrs. Richardson, gathered to show their respect and admiration.

Mrs. Richardson was born in Canada April 5, 1825, and was married to M. B. Richardson January 1, 1842. The family moved from Canada to DeKalb, Ill., in 1855, and from there to Wayne county in 1870. They homesteaded the farm southeast of town where Mr. Richardson died in 1892, and where Mrs. Richardson has just passed away. They are survived by one son, I. O. Richardson, who lives on the home place, and two daughters, Mrs. Austin Hines of Jackson, Ill., and Mrs. Chas. Nelis of Whittemore, Iowa.

Old settlers unite in according high praise to the active and useful life of Mrs. Richardson. Forty years ago in this then sparsely settled and untamed frontier, there was seldom a doctor or preacher in the county, and she often answered the call of the sick, and spent much time as a leader in organizing religious work. People learned to seek her wisdom and aid when in distress. She welded religious circles, and frequently preached in the absence of ordained ministers. She had a bright mind, sturdy character and indomitable resolution to do and promote right, and that she succeeded in her noble purpose, all acquainted with her will testify. It is no wonder old settlers pause and reflect with reverence on the generous and self-sacrificing life that has just passed, and whose remains are today laid to rest in the Wayne cemetery.

## Are Your Pigs Full of Worms?

Pen them up. Do not give them anything to eat for one day. This is necessary to get their stomachs empty. A worm medicine is best on an empty stomach. Then give WORMITE in thick slop made of ground feed morning and evening for three days. The number of worms that will be killed and expelled from your pigs will make you think they are worm factories working overtime. If your pigs are wormy, you cannot give them Wormite too soon.

CONVOCATION ADDRESS.  
On Thursday morning last, the students listened to the first convocation address by President Conn. The subject was that of "Habit." The speaker showed that habit is not merely negative, as has been frequently indicated, but rather an active, vital force in every life. A bad habit is as a living enemy, tearing the character to pieces, a good

habit a beneficent friend co-operating with every good choice the person may make, a refuge in times of disaster and trouble.  
There are those who have the bad habit of fault-finding. "The Kicker" is a destructive force, or, at the best, merely negative. He does not help to make things better.  
Again, there are those who lean on others until the habit of dependence is fixed and can scarcely be broken. Some are too easily satisfied with their achievements. This state of mind produces sloth and failure.  
Hold a reasonable estimate of your self and a fair estimate of your surroundings. Then you will form the right habits and will be a constructive, not a destructive, person, a helper, not a hindrance.  
The students were much interested in this earnest and practical address. It reflected the helpful and sensible attitude that has characterized all the actions of President Conn since taking hold of this new institution, and which augurs well for the future of the State Normal school at Wayne.  
COME IN WHISTLING.  
When the Omaha and South Omaha business men are within a mile of Wayne on their northeastern Nebraska trip, they intend to announce their coming with long blasts of a siren whistle which they have attached to the baggage car that it might be blown on the entire trip without changing from one engine to another.  
The party will arrive in this city promptly at 2:55 p. m., Oct. 27, and visit the merchants and business men in their offices. They are not looking for entertainment, but want to see much of the town and learn as much about it and the country surrounding it as possible.  
Those towns which have a siren whistle for a fire alarm will have some useless runs if they do not remember the date when the Omaha train is coming. The blasts of the whistle have taken many a reception committee from the depot where they intended to meet their guests and sent them running after a hose cart to fight fire. For this reason the Omahans want it known that they use a bad siren whistle and thus it will not be mistaken for a fire alarm.  
One of the souvenirs will be miniature cow bells made of copper and engraved in the metal are the words "Ring for Omaha." Fifteen thou-

sand of these bells will be given away by the Omahans. One hundred different firms represented on the train will each have something for children as well as for the older ones.  
A number of high railroad officials and several well known newspaper writers will accompany the Omaha business men on their trip in northeastern Nebraska and the trip ought to result in every town getting a boost where the train stops. All the Omaha newspapers will be represented.  
A GOOD POSITION.  
Can be had by ambitious young men and ladies in the field of "Wireless" or Railway telegraphy. Since the 8-hour law became effective, and since the Wireless companies are establishing stations throughout the country there is a great shortage of telegraphers. Positions pay beginners from \$70 to \$90 per month, with good chance of advancement. The National Telegraph Institution operates six official institutes in America, under supervision of R. R. and Wireless Officials and places all graduates into positions. It will pay you to write them for full details at Davenport, Ia., Cincinnati, O., Portland, Ore., or Memphis, Tenn. S-15 6t  
GOOD NEWS.  
Many Wayne Readers Have Heard It and Profited Thereby.  
"Good news travels fast," and the thousands of bad back sufferers in Wayne are glad to learn that prompt relief is within their reach. Many a lame, weak and aching back is no more, thanks to Doan's Kidney Pills. Our citizens are telling the good news of their experience with the Old Quaker Remedy. Here is an example worth reading: "Mrs. W. M. Fleetwood, of Wayne, Neb., says: 'When I began using Doan's Kidney Pills, I was in such great misery that I could scarcely get about. There was a dull, heavy ache across the small of my back and I was lame and stiff. I had a feeling of tiredness and languor and it was out of the question for me to rest well at night. I feel the beneficial effect of Doan's Kidney Pills immediately after beginning their use and I continued taking them until I was restored to good health. Whenever I hear anyone complaining of disordered kidneys, I advise a trial of Doan's Kidney Pills.'"

Uncle Walt The Poet Philosopher

September, glad September! For you I break a pen! The fireplace and the ember seem passing good again; the days are short and hazy, the nights are long and lazy, the flies don't drive us crazy, and man enjoys his den.

An old man held a place of power, and in his proud exultant hour, when clothed with prestige of a czar, the statesman came, from near and far, and bowed in most effusive style, and fawned and cringed to gain his smile.

his nod, they knelt beneath his chastening rod. And time rolled on and it was plain that ended was the old man's reign; rude hands reached out and got his crown, and threw his rusty sceptre down; he was disturbed from great affairs, and hustled down the palace stairs.

I toil with my hoe in the garden, and talksmiths come to me and say: "We ghebt, my dear sir! Beg your pardon, but hark while we talk half a day. The evils confronting this nation will swamp us unless we reform, and stand up for true conservatism."

Mary clerked in Whimple's store, and her heart was sick and sore, for poor Mary wasn't strong, and the hours were beastly long, and her pay was pretty slim, and the boss was sour and grim.

Mary's nerves were worn to shreds, selling yarns and pins and threads. And one day a haughty dame to this salesgirl's counter came, wanting stuff to make a gown; and she made the girl hand down fifty tons or so of cloth, and she grew exceeding wroth 'cause the prices were too high; and she glared with fiery eye at the weary girl and said: "Hustle! try to earn your bread! Bring me half a carload more of the dress goods in your store! On those highest shelves I see fabrics that look good to me!"

the case was tried, and poor Mary, weary-eyed, told her simple tale with tears, thinking she would get ten years. But the jurors, honest men, did not send her to the pen. "She's not guilty!" they all cried, and she's now the foreman's bride.

I'm editing the Inlook, a helpful magazine, whose scintillating pages are always chaste and clean. It keeps me pretty busy, for editing's no snap; there are no idle hours for the journalistic chap.

LATTA'S EXCUSE.

W. J. Bryan's Commissioner contained the following reference to Congressman Latta's indifference to the democratic platform in his vote against postal savings banks:

"When Mr. Latta offered this excuse, he perhaps forgot that both of the national platforms declared for postal savings banks. It is, therefore, a mighty poor excuse for him to say that he voted against the proposition because the people 'turned down' the democratic platform."

The delinquent tax list appears in this issue, and the fact that it is the smallest in the history of the county is proof of the healthy financial condition of the people of the county. Tuesday's Omaha reports state that the directors of the Nebraska Transportation company have decided to build two electric lines from that city, one to Sioux City and the other to Norfolk. If such a line would be an advantage to Wayne, effort ought to be made at the proper time to have the two roads connected by a line through this point.

A Washington report states that Lincoln's population is 43,973, an increase of 3,804 since 1900. This result of the census will be disappointing to residents of the capital city who have entertained inflated ideas of their population, and similar disappointment is probably in store for every town in the state. As soon as the census returns are in and the reality wears off, people can again build extravagant estimates of growth.

The senator is meeting with grand receptions wherever he goes and his speeches are being greeted by great crowds and increased enthusiasm everywhere.

# Old Violins

And How They are Made

It is claimed that the violins of the 17th century are the finest the world has ever known for tone quality. Why? The old violin makers selected trees from the upper Alps in Switzerland. After cutting the logs in proper lengths, they dropped them in skidways sliding down for two or three miles. The friction created from contact with the skidway caused the logs to become heated to such an extent that when they dashed into the water at the bottom the sudden change in temperature completed the preparation of the timber to be cut into thin strips for violin making. The claim is that this is what gave the tone to the timber or material from which they are made. Now a few words about

# Wayne Flour

And How It Is Made

The most essential thing about the manufacture of flour is to procure raw material of superior quality. This we have done. The best KIND of wheat. The best QUALITY of wheat. The MOST PERFECT berry. Having all the necessary material with which to make flour, we proceed by thoroughly separating, cleaning and washing the wheat before grinding, after which it is bolted, dressed and ready for the packer. The flour is a pure pearly white, having no superior and few equals. It makes flaky bread, splendid rolls, fine grained cake. Try it now.

We will give each newly married couple a sack of Superlative flour with the compliments of the Mill. Application must be made in person at the Mill.

Stanton Register: Its highly probable that there will be plenty of good base ball in this part of the state next year. The managers of Wayne, West Point, Madison, Wisner, Norfolk and Stanton have entered into a tentative agreement towards forming a league next Summer. They agree that a two months' season beginning about June 15th, will be all right with two games a week, possibly Tuesdays and Thursdays. If the league closes about the middle of August it will give the different towns a chance to play at the fairs and tournaments that are held in the fall. Limiting the hired players to about three, men will make it possible for the financial arrangements to be made and the cost so reasonable that no town will feel that the keeping of a team in the field will be a burden. A meeting will be held early in the winter to settle the matter definitely.

day we met an old gentleman who said: "I am eighty years old, and have seven children and forty grandchildren. Yet I am compelled to clean house every week, and do other work." We asked him: "Is your statement a joke or a fact?" "It is a fact," he replied.

Hoarseness in a child subject to croup is a sure indication of the approach of the disease. If Chamberlain's Cough Remedy is given at once or even after the croupy cough has appeared, it will prevent the attack. Contains no poison. Sold by all dealers.

We don't care much for smart men; there is so much difference of opinion as to who is smart and who is not. But we always admire a polite man; there can be no bogus politeness. Politeness is politeness whether it is assumed or natural.

A GENEROUS AND CHARITABLE WISH: "I wish that all might know of the benefit I received from your Foley's Kidney Remedy," says I. N. Regan, Parmer, Mo. His kidneys and bladder gave him so much pain, misery and annoyance, he could not work, nor sleep. He says Foley's Kidney Remedy completely cured him. Felber's Pharmacy.

An old story: A man went to see a small lady. "He's a fine fellow, isn't she?" he said when he thought he had to say something. "How old is it now? Do her teeth bother him much? He does look like you, doesn't she? Everyone says it does."

It is in time of sudden mishap or accident that Chamberlain's Liniment can be relied upon to take the place of the family doctor, who cannot always be found at the moment. Then it is that Chamberlain's Liniment is never found wanting. In cases of sprains, cuts, wounds and bruises Chamberlain's Liniment takes out the soreness and drives away the pain. Sold by all dealers.

A certain Atchison man, when his wife goes away, always wants the reporters to make a notice of it; he wants to give notice that he is on the All Night Circuit. He gave the usual personal to Bill today (they give everything to Bill), and Bill said: "Do you want this advertisement printed as a display, or as a reader?"

"IT BEATS ALL." This is quoted from a letter of M. Stockwell, Hannibal, Mo. "I recently used Foley's Honey and Tar for the first time. To say I am pleased does not half express my feelings. It beats all the remedies I ever used. I contracted a bad cold and was threatened with pneumonia. The first doses gave great relief and one bottle completely cured me." Contains no opiates. Felber's Pharmacy.

An Atchison woman is proud of her husband; she says when he is sick, he is as good as a neighbor. Billious? Feel heated after dinner? Tongue coated? Bitter taste? Complexion sallow? Liver needs waking up. Doan's Regulets cure billious attacks. 25 cents at any drug store.

Some men are so optimistic they can figure a dividend out of the money they invest in a hunting license. Chamberlain's Cough Remedy has become famous for its cures of coughs, colds, croup and influenza. Try it when in need. It contains no harmful substance and always gives prompt relief. Sold by all dealers.

It's a wonder there is so little polygamy, when it is remembered that every one is a natural-born polygamist. Good results always follow the use of Foley Kidney Pills. They contain just the ingredients necessary to tone, strengthen and regulate the kidneys and bladder, and to cure backache. Felber's Pharmacy.

James H. Garside will take a vacation September 19, and will visit his sister, Mrs. J. W. Crossley, and family, in Portland. The pleasant purgative effect experienced by all who use Chamberlain's Stomach and Liver Tablets, and the healthy condition of the body and mind which they create, makes one feel joyful. Sold by all dealers.

We can always tell when a woman has an ambition to go abroad as a missionary; she begins cultivating an oratorical style of talking. A RELIABLE MEDICINE, NOT A NARCOTIC. Get the genuine Foley's Honey and Tar in the yellow package. It is safe and effective. Contains no opiates. Refuse substitutes. Felber's Pharmacy.

Any man who can cook bacon and eggs has a secret conviction that women fuss a good deal about cooking, considering how easy it is. Your cough annoys you. Keep on hacking and tearing the delicate membranes of your throat if you want to be annoyed. But if you want relief, want to be cured, take Chamberlain's Cough Remedy. Sold by all dealers.

The despised prune, which is abused so much, has not been abused so much that it is not advancing in price; prunes are higher now than at any other time in the past twenty years. FOR MORE THAN THREE DECADES. Foley's Honey and Tar has been a household favorite for coughs, colds, and ailments of the throat, chest and lungs. Contains no opiates. Felber's Pharmacy.

Some men become easily infatuated with actresses and soprano singers in opera; women who have divorced three or four husbands, and who sometimes have love affairs without the formality of divorce afterwards. We could no more become infatuated with such a woman than we could become infatuated with a milch cow with her fourth calf.

The potato crop around Carroll is a big one this year. There will be many more than the local merchants can handle, so if the Wayne merchants see fit they might call on the extra supply and not have so many shipped in from a distance. The farmers around here think that

feated by the Wayne high school last Friday evening by a score of 5 to 0. The only score of the game came when Strahan of the high school, on the Normal 5-yard line, made a brilliant 40-yard run around end, and advanced the ball over the goal line.

The students were somewhat surprised and perhaps a little startled when President Conn told them at chapel service on Tuesday morning that all the written work of the students in any subject whatever would be graded with reference to spelling. While it is not possible for the Normal to spend much time in teaching the three R's, yet it is possible and will be the practice of the institution to insist that the students be proficient in the fundamentals. Such a policy will commend itself to thoughtful people who are interested in matters of education.

The visit of Dr. Luther Ludden, secretary of the board of education, made Monday a red-letter day to the students and faculty of the Normal. His speech during chapel hour was filled with helpful thoughts expressed with an earnestness, a wit, and a fluency that occasionally rose into a noble eloquence, such as won the hearts and attention of all. He spent considerable time with President Conn and Registrar Redmond going over the details of administration and expressed pleasure at the care with which these matters are being handled by the executive office of the institution. He was also well satisfied with the attendance, the quality of the instruction and was enthusiastic as to the outlook.

# Wayne County Corn Show

## Second Annual Corn Show and Domestic Science Exhibition

WILL BE HELD AT

### Wayne, November 9, 10 and 11

The Wayne Commercial club is going to a great expense and undertaking a great deal of hard work to pull off these corn shows each year, but we feel that the benefit derived is worth the effort and expense.

Good ideas for improvement in all agricultural work are sure to come from observation and comparison of the exhibits, and from the exchange of information which can be made so conveniently at such a time.

Lectures by men and women who are trained in this line of work at our state university will add very much to the educational value of the show.

Pamphlets are issued from the state agricultural school with all the necessary information on how to select your exhibit. These pamphlets can be had by applying to your district school teacher, or address a card to the county superintendent and the book will be sent to you.

The committees are busy at work now getting out the premium list, which will be ready for distribution in about ten days.

The success of such a worthy undertaking is worth a good effort by every one of us. You can help make this show this year a greater success by bringing in an exhibit in some of the classes and we will do the rest of the work necessary to make this year's corn show a great success.
