AMERICAN MANNERS ABROAD

At Dinar the Women From This Country Drink Cocktails With Cold Potato Chips.

"American manners rule at Dinar," says the English Sketch, "and trans Atlantic tastes are catered for on the Casino terrace, where the hostess plays daily an assortment of routine two-stroke and a procession of sidious waiters brings cocktails at noon to the table. In hushed chairs, who never seem to tire of starting at each other. "The men gulf down their dry Martinis without accompaniment, but the pretty American women drink theirs with cold fried potato chips, a singular form of nourishment which it is the mode at Dinar to convey to your mouth with nature's utensil, your fingers."

"This is the most beautiful thing of Dinar--including those who are lovely and youthful enough to wear the new pink henna" may be seen today with this honey vegetable in just this primeval manner. Wonderful are the ways of fashion, for nothing more unlikely could have been conceived than that beautiful ladies should drink gin and vermouth in public while helping themselves to cold fried potatoes with their bare, beringed hands."

THANKSGIVING DAY WEDDINGS

ONE AT EARLY HOUR TODAY

Theobald-Hyde Wedding This Morning Livinghouse-Panabaker Nuptials at Noon.

THEOBALD-HYDE

A quiet home wedding was solemnized at the residence of Mr. and Mrs. S. R. Theobald at 7 o'clock this morning when their son Perry A. was united in marriage to Miss Marion L. Hyde. Only relatives and a few immediate friends witnessed the ceremony which was performed by Rev. W. W. Theobald of Denver. The room in which the circle formed for the event, was made attractive by decorations of pink and white chrysanthemums and carnations and smilax. After the ceremony and congratulations, a splendid wedding breakfast was served.

Then the happy couple, accompanied by the family and friends, went to the depot, and amidst showers of rice and good wishes, left on the 8 o'clock train for Omaha where they will visit for a few days. They will return to Wayne early next week, and begin housekeeping in the furnished residence of J. W. Epler.

The bride has taught school in Wayne county for several years. She is now teacher in a school five miles southeast of Wayne, and expects to complete the term. She is a young woman of many accomplishments, and will make a valuable helpmate for the young man who has won her. The groom is employed with the Chase Lumber company, and has a bright and promising future. He has lived all his life in Wayne and is esteemed by everybody. The Herald joins their many friends in wishing them happiness and prosperity.

LIVINGHOUSE-PANABAKER

Fifty invited guests gathered at noon today at the home of James Harmon at the court house to witness the marriage of Mr. Jack Livinghouse, son of Mr. and Mrs. John Livinghouse, to Miss Effie Panabaker, daughter of Mr. and Mrs. L. E. Panabaker. The court room was arranged and decorated for the ceremony, the color scheme being pink and green. Carnations and ferns were used.

Promptly at high noon the wedding march, played by Harold Mears, announced the coming of the bridal party. The bride was gowned in cream colored satin, and carried a bouquet of roses. The groom wore navy blue. Miss Cora Livinghouse, sister of the groom, acted as

bridesmaid, and Mr. Richard Auker was the best man. The impressive ceremony was performed by Rev. William Gorst of the M. E. church.

Following the marriage and felicitations in the court room, the guests repaired to the dining room where an appetizing dinner was enjoyed. Decorations about the festal board harmonized with the color plan. The afternoon was devoted to music and sociability and a general good time.

Tomorrow the newly wedded couple will go to Norfolk where they will live. The groom is in the employ of the Northwestern railroad company, and makes his home in Norfolk. He has spent most of his life in Wayne, and has a large circle of friends here. The bride has lived in this city about a year having recently resigned as book-keeper for the incubator factory to prepare for the event which has just taken place. She is a popular young woman, and while here won many friends. In beginning married life, Mr. and Mrs. Livinghouse are accompanied by the hearty good wishes of all.

CLUB MEETINGS.

The Acme club had its regular meeting Tuesday afternoon at the home of Mrs. Walter Weber. Mrs. J. W. Bartlett was a guest of honor. The meeting next week will be held at the home of Mrs. J. J. Williams.

The U. D. club met Monday with Mrs. Harry Jones. A paper entitled "Three American Historians," was presented by Mrs. H. S. Ringland; paper, "Famous American Orators," was given by Mrs. F. J. Felber, and music by Mrs. J. W. Jones. Excellent refreshments were served. The next meeting takes place at the home of Mrs. W. H. Morris.

The Monday club met with Mrs. Dan Harrington this week, and had what the members term an "Aunt Jane day." They wore old-fashioned gowns, and devoted the afternoon to crocheting, knitting and quilt-patching. Mrs. Chas. Beebe treated the club to a selection from "Aunt Jane From Kentucky." A delightful chafing dish luncheon was served by Mrs. Harrington. The club meets next week with Mrs. Epler.

The Minerva club meets next Tuesday afternoon at the home of Mrs. Bert Brown. It will be Nebraska day, and the following program will be carried out: Roll call, facts about Nebraska; "Our Natural Resources," Mrs. Fortner; "Our Universities and Colleges," Mrs. Conn; "Three Nebraska Orators," Mrs. Huse; "Original Poem on Nebraska," Mrs. Lutgen; music led by Mrs. Grothe; a Nebraska domestic science luncheon, by Mrs. Britton and Mrs. Berry.

THE FLEGE TRIAL NEXT WEEK

TO FACE CHARGE OF MURDER

Albert Echtenkamp Chief Witness for State--Main Points in His Recital to Officers.

Next week in the district court at Ponca, the case of the state against Wilhelm Flege, charged with the murder of his sister, Louise Flege, will be called for trial. The young woman was found murdered on the Flege farm, five miles north-east of Wayne, on June 30 last. Two bullet wounds in her body testified to the manner of her death.

News of the tragedy spread a wave of excitement, and search for the author of the crime was at once instituted. Detectives were employed, and the sheriffs and prosecuting attorneys of two counties were vigilant and active for evidence that would suggest a solution of the mystery. Days and weeks passed before suspicion pointed to the brother who was finally charged with the slaying of his sister. It was nearly a month after the young woman had been murdered that Albert Echtenkamp, the hired man, told Sheriff Mears that Wilhelm Flege committed the awful deed.

Albert, who is 17 years of age, swore that he had previously kept still because of threats made to him by Wilhelm Flege. Young Echtenkamp testified that Flege had a quarrel with his sister on June 30 because the latter protested against his waste of time in driving his automobile, advising him to devote more attention to the corn field. Echtenkamp alleges that after some hot words between the brother and sister, he and the former went out to get the automobile ready for use. Echtenkamp says he was later left to fill the water tank in the machine, while Flege returned to the house. Shortly afterwards, he says he heard angry voices, and looking up saw Louise backing across the yard, followed by her brother. Going toward them, Albert states that he was ordered to go to the barn which he says he did. A few moments later he charges that he heard a shot, and then another one, and that Wilhelm stood over his dead sister with a smoking pistol in his hand. Echtenkamp swears that Flege got into his automobile and rode to the barn and cautioned him to say nothing on penalty of a similar fate to that which had overtaken Louise. Echtenkamp says he was then ordered to go to the field, and that Flege drove off to Dixon. In the evening the body of the girl was

found, and a faithful dog was guarding it. That in brief and in substance is the story told by Albert Echtenkamp.

He is the main witness for the state, and both sides will summon numerous witnesses from the vicinity of the crime. A great deal of interest is felt in the case, and many from northeast of Wayne will be attracted to Ponca during the progress of the trial. A. R. Davis will assist the state, and Berry & Berry will join the forces of the defence.

Ingenious Optical Device. An ingenious optician in Marseilles, France has invented a camera that in a manner that a user can see over the heads of a crowd in front of him.

Getting Down to Realities. "If two forces traveling at right angles meet," said the professor of physics, "what happens?" "Something terrible," replied the young man, "if one of them is a motor car and the other's a freight train."

FROM NEARBY EXCHANGES

Winside Tribune: Mrs. Peterson is still at Wayne taking care of her daughter, Mrs. Alvina Christensen, who is very ill with typhoid fever. The latest report is that the sick one is improving.

Norfolk Daily News: Miss Pauline Voget of Wayne, sister of Professor Otto Voget of this city, has gone to Berlin, Germany, where she will finish her studies of piano and composition at the Sterns conservatory of music. It is from this conservatory that Professor Voget graduated. Miss Voget is well known here, having played at a number of concerts in this city.

Winside Tribune: Considerable has been said in the newspapers about Earl Pickrel, the young man ill with typhoid fever at the home of his grandparents at Neligh, because doctors and nurses were discharged and the young man was being treated by Christian Science, yet they admit that the fellow was somewhat improved. The Tribune has not heard of his death as yet.

Randolph Times: Farmers who are turning their horses and cattle into the cornstalks this fall should keep a watchful eye on them as this year the cornstalk disease is apt to be quite violent owing to the dryness of the past season. John Gubbles had the misfortune to lose three fine yearling steers and four more of his cattle are sick. Upon examination W. H. Rogers found both stomach and intestines of the dead animals badly affected by the disease.

Hartington Herald: Overt is a dry town at present writing and is likely to remain so for a while. This condition is the result of a compromise between Mr. Scougall and the county board whereby he agreed to withdraw his application for license providing the state would drop its action against him for running a gambling device. The matter was argued before the board on Monday. The county attorney agreed to the compromise on condition that someone pay the costs, but so far the costs have not been paid and the case remains in statu quo. Meanwhile Overt is dry.

Pender Times: Ed Rice was down from Thurston Tuesday and imparted the cheerful information that a Thurston man who knows says the petitions have been drawn up and are ready to circulate, asking for an election to remove the county seat. Walthill parties have the matter in charge and Ed thinks the scrap will be on at once. To remove the county seat at this time will require a petition of three-fourths of the votes cast at a recent election 1525 votes cast—or 1146 bona fide names. Then it will require three-fifths of the votes cast to carry the election. If 1800 votes should be cast it would require 1080 for Walthill to win. It is probable, however, that there will be 2,000 votes cast.

Winside Tribune: The unsatisfactory and inconvenient way in which the voting divisions are formed in Winside makes it likely that a change will be made before the next election. As it is now Winside voters are in three precincts. Some living within four blocks of one polling place are obliged to go over two miles to another to cast their ballots. Two plans have been proposed to remedy the situation. One is to move the Chapin polling place into the north end of town and the Hancock polling place into the south end of town. Voters living north of the street in front of the school house to vote in Chapin and all those south of it to vote in Hancock. The other plan and the most satisfactory one would be to annex the south mile of Chapin and the north end of Hancock to the present division of Winside, of course for voting purposes only. We understand it requires a petition to the county board signed by a majority of the voters who would be transferred by the change.

Most democratic papers that supported Dahlman, are pleased over his defeat since his maudlin boasts on the night of election. The democratic Cedar County News has this to say: "This newspaper supported Jas. C. Dahlman for governor, but it is not sorry that he is defeated. His speeches of the last few weeks before election sounded more like the raving of a maniac or a drunken man than of one safe to elect governor of a state. The people showed by electing a democratic legislature that they do not favor county option, but neither do they favor unrestrained and irresponsible license. This newspaper believes that the speeches of Mr. Dahlman during the last few weeks do not rightly represent the real man, but reflect only total mental and physical exhaustion. We prefer to believe that the weeks and weeks of incessant campaigning, traveling, speech-making and working almost night and day had tired the man until he did not know what he was doing. But he was judged by people in full possession of their faculties, and he went down to defeat." Saturday's Norfolk Daily News

has this to say of the concluding football game with Wayne today: Accompanied by a brass band, the Wayne high school football team will arrive in Norfolk on Thanksgiving day, on a special train crowded with Wayne football fans. They will endeavor to wrest the honors of the pigskin in the afternoon from the Norfolk high school team on the driving park gridiron where last Saturday the local high school team defeated the Wayne normal team by a score of 23 to 5, and the preceding Saturday played the Columbus team a nothing to nothing game.

Although the local team are confident of winning, they have not given up their practice, under the able coaching of Superintendent F. M. Hunter, who pulled last year's champions to victory. The players this year are looking as good as the champions of 1909. They declare brass bands cannot hold them back and they are determined to make good. Should Norfolk win the game Thanksgiving day, they will easily be the champions of northeast Nebraska. Should they lose they will still claim that honor, having played one more game than last year's team with but two defeats.

The first defeat this year was in a misunderstanding on the part of a number of players as to the touching of the ball in their second game with Neligh. They lost the game by a 2 to 0 score, having defeated Neligh previously by 18 to 0. Laboring under the impression that the Stanton football team who defeated the second Norfolk high school team here a few weeks ago, was the first eleven, the Pender team has announced its claim to the northeastern Nebraska football championship. Pender declares it has defeated the Wayne normals, who defeated the Stanton team. Unless Pender claims the championship of second high school teams in this territory they are not by any means champions. The Stanton team defeated the second Norfolk high school team by a score of 9 to 0. Pender defeated the Wayne normal by a score of 5 to 0, while Norfolk defeated the normals 23 to 5.

The friends of Wm. Blecke and Geo. Otte will be glad to hear of their recovery after a long siege of typhoid fever.

The Epworth League of the M. E. church enjoyed a social time at the church parsonage Friday night. About sixty were present.

Herman Ballard and wife of Wall, S. D., arrived here last Thursday to visit A. G. Bohnert and family. Mrs. Ballard is Mr. Bohnert's niece.

Last week C. C. Meier of near Leigh bought the C. O. Johnson farm, three-fourths of a mile south of Wayne for \$200 per acre. The sale was made by Albert Berry.

Union Thanksgiving services will be held tonight at the M. E. church, the sermon to be preached by Rev. Alexander Corkey of the Presbyterian church. Everybody invited.

Rev. Jas. S. Corkey and family returned Friday to their home at Winterset, Io., Rev. Corkey having closed his work in connection with the evangelistic meetings at the Presbyterian church.

Saturday night a slight change took place in the time of the arrival of trains in the evening, the Norfolk train reaching here fifteen minutes earlier, and thus the branch train departing earlier accordingly.

The State Normal closed Tuesday night for the rest of the week, thus giving teachers and students an opportunity to properly observe Thanksgiving day and attend the teachers' meeting in Lincoln.

Miss Margaret Coleman went to Carroll Friday to spend a few days with her sister, Mrs. Collins, while her niece, Mary and Irene,

came to Wayne to stay with their grandfather. All returned to their homes Monday morning.

Hugh Boile, attorney associated with M. F. Harrington at O'Neill, was in Wayne the latter part of last week on legal business. Mr. Boile was a classmate of W. P. Rooney of Wayne, and while here the two had a pleasant renewal of acquaintance.

The local M. E. church commenced a series of evangelistic meetings Monday night, conducted by the pastor, Rev. William Gorst, assisted by Miss Jessie Williams, church deaconess of Kansas City. The meetings will continue three or four weeks, and it is expected much interest will be aroused.

J. R. Russell and wife who live on a farm three miles from Meadow Grove, arrived here last Thursday for a few days' visit. Mr. Russell was one of the early settlers of Wayne county, and was county commissioner for a number of years. He reports that crops around Meadow Grove are the best every grown there.

Harry Tidrick's sale of fifty-four head of Shorthorn cattle in Wayne Saturday passed off satisfactorily to all concerned. Prices were not so high as have been paid in years past, but were as high as expected. The average price paid was \$48.16. Sixteen head were sold to one man, J. H. Shulenberger, at Wausa, and parties from Bancroft, Thurston and other outside points were purchasers. Also Wayne county stockmen were active bidders, and shared in the purchases. G. P. Bellows of Maryville, Mo., was the auctioneer, assisted by Clyde Oman of Wayne.

Members of the Baptist Scissors' Guild were pleasantly surprised at their meeting Saturday afternoon by their mothers who served a three-course lunch for them. A few weeks before the mothers were similarly surprised by the young folks. Both occasions were delightful. The Scissors' Guild is an organization of girls from 12 to 16 years of age, meeting each week for various worthy purposes, chief among which are sewing and Bible study. Articles now being made by the society will be sold and the proceeds sent to the Children's Home at Council Bluffs.

The Sioux City Journal of a recent date contained the following announcement which will be of interest to the Wayne friends of the young man mentioned: "Mr. and Mrs. Samuel Aughey Heikes, of Dakota, Nebr., announce the engagement of their daughter, Miss Agnes Blanche Heikes, to Mr. Charles R. Kate, of Wayne, Nebr. The marriage will take place January 4." The prospective groom is the son of Mr. and Mrs. John Kate of this city, and is at the head of a prosperous clothing institution here. His friends will extend congratulations in advance.

Old Man Beut. The young politician was obliging as possible, but there was a limit to his possibilities. When the reporter asked him what his wife would wear at the mayor's reception, he assumed a confidential air. "I'll tell you just as much as I know myself," he said. "Last night she told me she should wear white; this morning at breakfast she said she'd decided on her rose-colored gown, and when she said good-by to her she had spread a gray one beside the rose-colored one on a chair, and her black lace beside the white on another, and was taking something else out of the closet. If her hair hadn't caught on a hook as she turned round I might have been able to tell you more."—Youth's Companion.

HAPPY RESULTS.

Have Made Many Wayne Residents Enthusiastic.

No wonder scores of Wayne citizens grow enthusiastic. It is enough to make anyone happy to find relief after years of suffering. Public statements like the following are but truthful representations of the daily work done in Wayne by Doan's Kidney Pills.

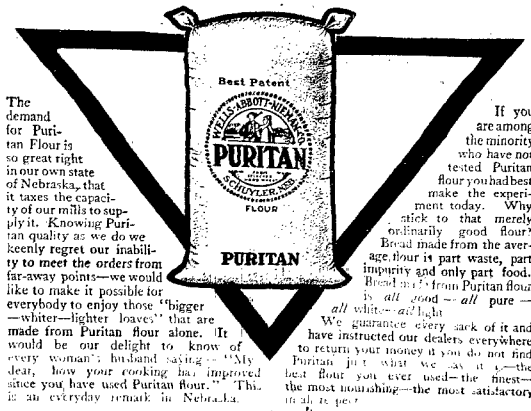

Mrs. J. C. Hanson of Wayne, Nebr., says: "I have no reason to withdraw anything from the public statement I gave three years ago recommending Doan's Kidney Pills. I had a serious attack of kidney complaint and I suffered terribly from headaches, dizzy spells and a tired, languid feeling. There was sediment in the kidney secretions and I had a dull, heavy ache through my loins. In a few days after I began the use of Doan's Kidney Pills, I felt better and the improvement continued until all the symptoms of my complaint had disappeared."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

Nebraska Women Have the Choice of the Finest Flour in the World

The demand for Puritan flour is so great right in our own state of Nebraska, that it taxes the capacity of our mills to supply it. Knowing Puritan quality as we do we keenly regret our inability to meet the orders from far-away points—we would like to make it possible for everybody to enjoy those "bigger—whiter—lighter loaves" that are made from Puritan flour alone. It would be our delight to know of every woman; husband saying: "My dear, how your cooking has improved since you have used Puritan flour." This is an everyday remark in Nebraska.

Romance of Old Portugal
The recent deposition of King Manuel of Portugal and the events in the young king's life that led up to it will no doubt bring back to the minds of some of the older residents of the city the story of Elise Hensler, the Springfield girl who married a king and became the Countess Edia.

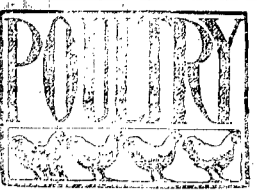

"No Openings Nowheres"
She is fortunate in having girl chums who draw roses from their friends now and then. The other afternoon one of her rosy friends planned a bright red one on her and she sallied forth into the street to make other women envious. She had not gone far when she felt a tug at the shoulder and turned to see a strange woman.

One evening the stablemen were in somewhat of a hurry and tried to get the mules out of the water without the shower. One animal, more determined than the rest, refused to be driven out, and the water was turned on to oblige that particular mule. This saved time, as the mule is a pretty difficult object even for a dozen men to handle, especially in the water.

Practical Poultry House

Each year many prefer to whitewash their poultry houses both inside and out. This is a good plan; it effectively destroys mites and purifies the premises. The following is a formula used by the government on light-houses, etc. Shake one peck of quicklime with boiling water, covering closely as soon as the water is supplied. When it is slaked strain and add one gallon of salt dissolved in hot water. Two pounds of powder are previously added to this paste.

Chickens Relish Spinach.
We have found after years of experience that variety in feeding poultry during the cold months adds most effectively in filling the egg basket, and nothing helps to supply this more satisfactorily than a patch of winter spinach, says a writer in an exchange.

Cabbage for Hens.
Did you raise cabbage enough to last the hens all winter? If not, now is the time to buy unsalable ones of some farmer at a low price, and it is easy to keep them in a pit if you have not cellar room. Next year plant some mangrel wurtzels and see how the hens will relish them as a change.

Dust for Winter.
Laid in your stock of dust yet for winter? Don't forget it. Neglect is one of the worst enemies hens have—almost equal to lice. Try to avoid dampness in your houses; sure to bring disease.

DOCTORS FAILED

Suffered Several Years With Kidney Trouble, "Peruna" Cured Me.

Mr. John N. Watkins, 3133 Sheenan St. o. n. Ave., St. Louis, Mo., writes: "Among all the great advertised medicines for kidney and bladder trouble I have tried none but Peruna. I suffered for several years with this trouble, and all the hundreds of dollars and medicines and all to no purpose until I took Peruna. The more bottle I took the more I felt better. I am now cured and I give all praise to Peruna."

Bladder Trouble.

Mr. C. B. Newirth, 10 Delaware Street, Albany, N. Y., writes: "Since my advanced age I find that I have been frequently troubled with urinary ailments. The bladder seemed irritated, and my physician said that it was catarrh caused by a protracted cold which would be difficult to overcome on account of my advanced years. I took Peruna, hardly daring to believe that I would be helped, but found to my relief that I soon began to mend. The irritation gradually subsided, and the urinary difficulties passed away. I have enjoyed excellent health now for the past seven months. I enjoy my meals, sleep soundly, and am as well as I was twenty years ago. I give all praise to Peruna."

RAID BY UNCLE SAM SWOOPS DOWN ON TWO BROKER- AGE FIRMS IN NEW YORK CITY.

GIGANTIC FRAUD REVEALED

Postmaster General Hitchcock estimates that Public has been defrauded out of \$100,000,000 in Past Five Years by Misses of Mails.

New York.—In raids so important that Postmaster General Hitchcock took charge in person, his inspectors seized two concerns Monday afternoon, which they charge with swindling the public out of more than \$40,000,000 by fraudulent use of the mails.

Sheldon H. Barr, president; Eugene H. Burr, secretary and treasurer and Charles H. Tobey, vice president of Burr Bros., were arrested in the first raid and held in \$20,000 bail each.

The government charges that the firm sold between \$40,000,000 and \$50,000,000 of mining and oil stocks worth little or nothing.

Charles L. Vaughn, director of the Continental Wireless Telegraph and Telephone company, incorporated in Arizona, was taken in the second raid and held in \$10,000 bail.

Both raids are further evidence that the government in its warfare against alleged investment swindlers means business and no longer will be content with issuing fraud orders denying them the use of the mails, but will press forth convictions on criminal charges.

DELEGATES END THEIR WORK.
New Mexico's Constitution Framed for Adoption.

Santa Fe, N. M.—The constitution for the state of New Mexico, framed by the convention which was closed Monday, contains 60,000 words and 130 sections, grouped into twenty-two articles.

Probably the other commission work was confined to the peculiar difficulties that faced the constitutional convention when it assembled.

COMMONS RAIDED BY WOMEN
Militant Suffragettes Storm British Parliament and 116 Are Arrested After Lively Fight.

London.—One hundred and sixteen of the 1,000 militant suffragettes who marched on the parliament building were arrested after a lively fight with the police.

Led by Mrs. Emmeline Pankhurst, the women made a determined attempt to force the police cordon about the house of commons and, reaching Premier Asquith, to insist upon the introduction of a woman's suffrage bill.

The women made every effort within their power to break the lines, bringing into play some rare military strategy and football tactics.

The machine fell outside Overland Park at the corner of Iowa and South Delaware streets, where a crowd had gathered on a knoll overlooking the park.

REVOLT IN MEXICO

FORTY ARE KILLED IN BATTLE AGAINST DIAZ'S SOLDIERS.

WOMAN SLAYS POLICE CHIEF

Pueblo, Seething With Rebellion, is Scene of the Clash—Francisco Madero, Head of Revolutionary Party, Claims the Presidency.

Mexico City, Mex.—Revolution broke but Friday in the city of Pueblo between the anti-re-electionists and the federal forces and it is reported that 40 persons were killed and three wounded.

A woman killed the chief of police and another wounded a major of infantry.

Many arrests of supporters of Francisco Madero, the revolutionary leader, are being made all over Mexico.

Eleven Mexicans were arrested at Buena Vista and lodged in jail at Cuernavaca charged with attempting to foment a revolution.

At Orizaba numerous arrests were made and the police captured a large quantity of arms and ammunition.

Details of the anti-Diaz conspiracy have come to light. The conspirators had extended their operations to the state of Vera Cruz, Hidalgo, Coahuila, San Luis Potosi, Nuevo Leon, Pueblo, Jalisco, Guanajuato, Yucatan and Zacatecas.

"I, Francisco I. Madero, will place myself at the head of a revolutionary party against the government of Mexico. Between the 20th and 30th of November I shall lead my followers against the government of Mexico."

Of the men arrested here for complicity in the conspiracy one, Cosme Robelo carried a commission from Madero naming him as governor of the state of Hidalgo.

No anti-American talk is being heard now.

"It is true a conspiracy against the administration has been unearthed, but it is a mistake to suppose that the participants, who have been arrested are of any importance."

So said one of the highest officials of the government. The official, whose name is withheld, continued:

"The men under arrest are petty agitators and malcontents, who have affiliated themselves with every group which in the last year or so has organized opposition to President Diaz's administration. These men were first Reactionists, then Democrats, then anti-re-electionists; more recently they have been supporters of Francisco I. Madero, who is suspected of supplying them with money."

"They are incapable and have no prestige or any quality necessary to successful leadership. The present conspiracy had ramifications. The police seized arms and ammunition worth perhaps \$5,000 or \$8,000 in this city, at Toluca and elsewhere."

Francisco Madero was a candidate against Diaz at the late presidential election in Mexico. He was arrested then for "political offense" and jailed. He was released last month on condition that he leave Mexico. He returned to Texas.

UNCLE SAM GIVES THANKS

AVIATOR IS KILLED

RALPH JOHNSTONE MEETS HORRIBLE DEATH IN FLIGHT AT DENVER, COL.

EVERY BONE IN BODY BROKEN

Aeroplane Wing Crumples at Height of 800 Feet and Airman is Dashed to Ground in Presence of Thousands—Struggled to Save Life.

Denver, Col.—From ten to fifteen thousand persons saw Ralph Johnstone, the holder of the world's aviation altitude record, plunge in his Wright airplane, at Overland Park Thursday, from a height of 800 feet to a terrible death, nearly every bone in his body being fractured.

His tragic flight was not without a thrilling struggle with the grim reaper, for when the daring birdman realized that the earthward dive might mean the loss of his life, he tried to climb swiftly to the top of his aeroplane, but the heavy machinery crumpled his life.

The tragedy was apparently due in great measure to an accident on Tuesday, when on alighting in front of the grand stand, a screw gave way and his plane crashed into a fence and stopped with a crushed wing. It was this wing, probably not properly repaired, that gave way and sent the machine and its driver to the ground.

Johnstone got away perfectly when he started his last flight. Once or twice he circled above the admiring throng, then rose to a height of 800 feet. Johnstone gave some exhibitions of aerial rough riding, making his plane dip and rise, dip and rise, as though it were borne by some huge, invisible wave.

After seventeen minutes of flight, Johnstone decided to come down. He was making a fancy descent, known to aviators as the aerial spin. When at a distance of about 800 feet from the ground his machine was noticed to wobble several times. Suddenly it swerved and the right wing crumpled. The part that had been injured gave way entirely and like a huge bird crippled by a shot, it began to flutter to the ground.

Apparently Johnstone realized instantly that death was reaching out for him, for he hurled off his heavy headgear and seizing the rods sought to clamber to the top of the aeroplane, evidently trying to escape being caught under the heavy machinery.

The machine fell outside Overland Park at the corner of Iowa and South Delaware streets, where a crowd had gathered on a knoll overlooking the park.

All scrambled to safety save one man, who seemed not to realize the weight of the machine that was coming down upon him, but stood with uplifted arms as if to catch the bird-like monster. Suddenly he darted from under and Johnstone crashed to the ground, the machinery all above him, parts of it, however, driven close through his body, in which no bone remained unbroken.

WOOLEN DUTY LEAK IMMENSE

IT IS ASSERTED FRAUDS WILL EXCEED \$10,000,000.

Government Attorneys Declare Losses Are Far Greater Than Those in Sugar Swindle.

New York.—Assistant United States Attorney Whitney declares that the woolen duties frauds against which Collector William Leach, Jr., has begun a campaign will prove the most stupendous swindle yet disclosed at this port since the government began its investigation into customs leaks.

It is said that the losses in duties claimed by the government will amount to upward of \$10,000,000.

In the sugar cases, which previously held first place in the amount of money involved, the full extent of the frauds was never ascertained, but the government obtained restitution of more than \$2,000,000 from the importers.

The government seeks to recover all the money claimed to be lost in the last five years by alleged false invoices for imported wools made by Joseph Brooks & Co., manufacturers of wools, worsteds and hosiery, of Bradford, England, and this city. Assistant Attorney Whitney said:

"This is the biggest case of the kind the government has ever had. The frauds involve several woolen manufacturing firms in England. The total amount of the duties which the government has lost through these importation frauds is much greater than in the sugar underweighing cases."

AMERICAN FLEET IN ENGLAND

British Warships Salute United States Battleships and Latter Reply in Kind.

Portland, England.—The first division of the American battleship cruising fleet, which includes Rear Admiral Schroeder's flagship, the Connecticut, arrived here Wednesday.

While sailing from Tor bay the American warships passed the second division of the British home fleet, which was passing out. Salutes were exchanged. The visiting vessels also made the customary salutes when they entered Portland harbor.

Vice-Admiral Sir William Henry May, commander of the home fleet, entertained the American admiral and captains on his flagship, the Dreadnought, Wednesday evening. The mayor and the corporation will give a banquet to the American officers, while a fancy ball and other entertainments for the American and British bluejackets have been arranged.

The men of the visiting fleet will have all the privileges of the naval canteen at Portland and of the sailors' homes in Weymouth harbor. This is a courtesy never before granted to men of foreign ships. The naval recreation grounds have been placed at the disposal of the Americans and rowing and sailing matches between crews of American and British seamen have been planned.

CANAL COMPLETED IN 1913

PRESIDENT IS SO INFORMED AT PANAMA.

Official Opening, However, Remains January 1, 1915—Taft Gratified at Progress.

Panama.—President Taft, wearing a white flannel suit and wearing Panama hat, spent several hours watching the work on the famous Gatun dam and was informed that the canal would be completed December 1, 1913.

The official date of the opening remains January 1, 1915. Lieutenant Colonel Goethals desiring one year in which to train the canal tenders and to get the machinery working smoothly. Ships meantime will be granted the privilege of the canal, but at their own risk of delay incident to inexperienced operation.

In addition, it was announced by the colonel that the report that President Taft's visit was the forerunner of a request of another \$100,000,000 from congress was unfounded. The canal will be completed in 1913, he said, within the \$375,000,000 already authorized.

Colonel Goethals has recommended to President Taft that the canal be fortified by the military government of the Canal zone, the army and navy to be represented on the fortifications board, each branch of the service to have control of matter pertaining to it.

The president was pleased at the outlook for the early completion of the great work, and congratulated Colonel Goethals. He expressed amazement at the amount of work accomplished since his visit to the isthmus in February, 1909.

The president was pleased at the outlook for the early completion of the great work, and congratulated Colonel Goethals. He expressed amazement at the amount of work accomplished since his visit to the isthmus in February, 1909.

President Taft is gratified over the results of his three days' inspection. Wednesday he went deep down in the Culebra cut, giving special attention to this, the most difficult part of the construction.

The president heard delegations of mechanics and laborers, who are asking increased wages based on increases in the United States.

Conditions here differ from those in the United States, as government commissary has been successful in preventing the increased cost in living that has been general elsewhere. It is doubtful that larger wages will be paid in the zone.

STANDARD OIL WINS CASE

Indiana Concern Is Declared Not Guilty by Jury Through Instruction of Judge.

Jackson, Tenn.—Judge John E. McCall of the United States district court Thursday instructed the jury in the case of the government against the Standard Oil company of Indiana to return a verdict of not guilty.

Judge McCall sustained the contention of counsel for the defendant that the United States had failed to prove the allegations set forth in the indictment. The oil company has been on trial for a week charged with receiving freight rate concessions in violation of the so-called Elkins law.

The Tennessee suit against the Standard Oil company of Indiana was based on a number of federal attacks in charges of the Interstate State Commerce Commission under the Roosevelt administration, and the line of prosecution followed in a number of significant details the case in which a \$25,000,000 fine was imposed by Judge Keneany M. Landis in Chicago, only to be set aside by the federal court of appeals.

TAFT REPLIES TO PINCHOT

President Gives Ex-Forester Permission to File Briefs in Connection With Alaska Claims.

Washington.—President Taft, replying to the request of Gifford Pinchot, former forester of the United States, and his brother, Amos Pinchot, for permission to submit a brief on the south of Alaska lands in the Cunningham basin, said in a letter that he may submit such a brief and advised him to send it to the executive office before December 1.

Mr. Pinchot is thus informed in a letter authorized by President Taft and written by the secretary to the president, Charles D. Norton, which was made public Tuesday. The letter is in reply to a recent communication to the president from Mr. Pinchot and his brother, expressing fear that the interior department will recommend the patenting of the Cunningham claims.

Robin J. Cooper Is Freed.
Nashville, Tenn.—Robin J. Cooper, charged with the murder of Senator Edward Ward Carmack November 9, 1908, was Tuesday acquitted in the criminal court on recommendation of Attorney General A. B. Anderson. This was brought to a close the final chapter in one of the most celebrated cases in the court annals of Tennessee.

Mother Held for Child Murder.

ALL OVER NEBRASKA

Big Fire Loss at Leavitt. Dodge County—Fire practically wiped out the Standard Cattle company and sugar factory buildings at Leavitt, causing a loss of \$750,000. Thirty-five thousand bushels of grain were destroyed. All of the stock was rescued.

STANDARD OIL

Has Filed Expense Accounts. Expense accounts of candidates for office have been filed with the secretary of state as follows: Chester H. Aldrich, republican candidate for governor, \$463; Peter Mortensen, candidate for railway commissioner by petition to fill an alleged vacancy, \$110; Moses Kinkaid, republican candidate for congress in the Sixth district, \$575.09; Menzo W. Terry, populist for attorney general, nothing; Grant G. Martin, republican for attorney general, \$490.41; Henry T. Clarke, republican for railway commissioner for a full term, \$375.85; B. F. Good, democrat for congress in the Fourth district, \$502.79; W. B. Eastman, fusion for state land commissioner, \$290; J. F. Boyd, republican for congress in the Third district, \$285.50; Thomas M. C. Birmingham, prohibition candidate for United States senator, \$25 over and above donations received by him.

Bootlegger Fined \$300. Gage County—Albert Loper, a Gage county farmer of the Miller family, was fined \$300 and costs in district court on a charge of having sold intoxicating liquor without a license. He was arrested and indicted by the grand jury some months ago.

Farm Worked For Gold. Seward County—A report of excitement has been heard over the work of Denver prospectors in a creek on the farm of John Johnson, near miles from Millard. A number of holes have been dug and the dirt assayed, with a showing of \$100 a ton of gold.

Killed in Fall From Horse. Sheridan County—White brand cattle on the Caldwell ranch, eight miles east of Rushville, Edward Caldwell, a young man 21 years old, was thrown from his horse and fell in such a manner as to fracture his skull at the base of the brain and died two hours later.

Tracked Hens With Hounds. Dawson County—Lew Shivers was convicted of stealing two chickens from Mrs. F. D. Waller on the night of August 31. He was tracked by bloodhounds to the Shivers' home, where the heads of the chickens were found in the weeds. Shivers alleged they were the legs of chickens he had purchased.

George Virgion Ends His Life. Holt County—George Virgion of Grand Island, aged 25, with suicidal intent, took two ounces of a mixture of carbolic acid, rosinic sublimate and wood alcohol and died several hours later at the hospital to which he was removed when his condition was discovered. He had parted from his wife because of infidelity.

Shippers Want Better Facilities. Cedar County—A petition is being circulated and signed by all the stock raisers and shippers in the vicinity of Hartington, Fordyce and Crofton, to be presented to the railroad commissioners asking for an investigation of the train service on that branch for shippers of live stock. There are many grievances to be adjusted.

Shoots a Porcupine. Johnson County—Harry Miller, the young son of Alderman G. W. Miller, shot a full grown porcupine. Porcupines are rare in Nebraska. The Miller boy was hunting on Badger creek when he found the porcupine in a tree. The trappers in that community report big catches of muskrat and a few mink so far this season.

The Chadron Normal. Dawson County—The laying of the cornerstone of the new State Normal building at Chadron was witnessed by 500 public school children, their teachers and 2,000 citizens. The exercises were in charge of the Nebraska State Masonic lodge, Messrs. Shilbourn, Brian, Tooley and Ladd in the state board were present and assisted.

Seats for Legislators. Lancaster County—Applications for seats in both the senate and house continuing to reach the office of the secretary of state. No assignments are being made because no plan has been prepared. It is expected that a blue print of the two floors will be available soon, and the members can then pick their places and know where they will sit.

Landmark Gilt With Fire. Dodge County—The burning of the big feed barn at Ames removes one of the old land marks along the line of the Union Pacific railroad. It was built by the Standard Cattle company in 1885 at a cost of between \$5,000 and \$50,000, and had stood for over 2,000 head of beef steers. It was a financial failure and was only used a few years. When the company quit business about eight years ago it was sold with other property at Ames to Johnson & Graham, and for the last few years has been used for feeding sheep.

Bed of Pumice Near Cowles. Phelps County—The discovery of a substantial bed of silica or pumice near Cowles gives promise of developing another industry in that part of the state. H. Gestrich on whose farm the bed has been located has known of its existence for some time past, but not until recently did he attempt to learn the composition of the product. He has just received word from Prof. E. H. Barbour of the State university who declares they are a fine quality of native pumice.

State Appeals Follmer Case. The attorney general has appealed to the supreme court from a judgment for \$1,504.93, obtained in the district court of Lancaster county by George D. Follmer, formerly state land commissioner. The judgment was given to the former land commissioner for legal services performed for E. J. Murfin in connection with state lands in Boyd county which the land commissioner succeeded in keeping out of the hands of squatters who claimed title from the state.

Fire at State University. Fire broke out in Mechanics hall at the state university Saturday morning and before it could be controlled damaged the structure more than \$12,000 worth. The origin of the fire is believed to have been through a short circuit in the air shaft between the third and fourth floors. The fire was confined almost entirely to the upper floor, but water damage was considerable to the entire building. Among other things lost in the blaze were the "subjects" of the medical students.

Eddyville Man Sued. Dawson County—J. C. Barnes, of Eddyville shot himself dead, the bullet going through the eye. He was found by a member of the family in the creek just a few feet from the house. Mr. Barnes resided with his family on a small tract of land adjoining Eddyville. The gun was found at his side. He left no word. Mr. Barnes was nearly 80 years old and used to be a prominent business man in Lexington. He moved to Eddyville about six years ago.

Yola Taylor's Relative in Grief. Yola Taylor's dispatch, "Ignorant that his son, Bert M. Taylor, was hanged the state penitentiary at Lincoln Neb., Mr. Taylor and inmates of the Allen county poor farm, bowed down beneath the weight of years of woe and worry over the wayward son, is wondering what the result of the trouble had been. Taylor was a resident of Iola for years prior to his removal to Nebraska in 1903, where he murdered his sister-in-law, Pearl Taylor, and for which she suffered death on the gallows.

COME Go to Texas With Us! 2500 Miles for \$27.50

The Wayne Commercial Club Band Will Escort our Big Excursion to Texas Gulf Coast Country

Tuesday, Dec. 6

On the above date we will conduct a Private Car Excursion to the Texas Mid-Coast Country. Our Combination Sleeping and Dining Car leaves Wayne at 2 p. m., Tuesday, December 6, by way of Omaha, Kansas City, Ft. Worth to the Coast. It will be a trip of continuous pleasure, instructive as well as profitable to those who join us on this excursion. See the Sunny Southland where great stretches of smooth, virgin prairie, dotted locally by settlements of thrifty and prosperous Northern farmers, whose orange, fig and citrus fruit orchards are now loaded with fruit; growing in a soil and climate that produces corn, alfalfa, rice, cotton, ribbon cane, oats, potatoes, vegetables and fruits of all kinds; flowers bloom out of doors at all times. See the locality which in the near future is destined to become one of the wealthiest farm sections in the United States by reason of its fertile soil, its wonderful climate, its great market facilities (both water and rail transportation).

High School Notes

Remember the school fair on December 3.
Rev. Corkey and A. J. Ferguson were visitors Tuesday.
Schools dismissed on Tuesday evening for the week.
All is ready for the great Thanksgiving game at Norfolk today.
The second examinations for the year were held on Monday and Tuesday.
The foot ball game with Pender last Saturday resulted in no score for either team. It was a good game.
Miss Schuerin is spending her vacation at Belden, Miss Beachmen at Jefferson S. D. and Miss Wood at Craig.
Mrs. Phillips, Miss Lewis, Miss Ferguson, Miss Strickland and Miss Wallace are attending the State Teachers' association in Lincoln this week.
The high school teachers gave the following program last Friday morning: Instrumental music, Mrs. Kemp; "Robert Lewis Stevenson," Miss Lewis; "A Plea For The Home," Mr. Kemp; vocal solo, Mrs. Phillips.

TO REMOVE STATE CAPITOL.

Several towns in central Nebraska have organized what they term the Nebraska Capitol Removal association, and have issued a pamphlet explaining why the state house should be hauled away from Lincoln to a more central location. The movement is to head off an appropriation for rebuilding the present capitol, preventing action on the part of the legislature until the people have been given an opportunity to vote on the question of removal. No one denies that the structure serving affairs of Nebraska is a ramshackle building which ill comports with the wealth and dignity of the state. But western and central parts of the state will fight against improvements in the hope that people, if given a chance to vote, would decide to favor a new location. If it were possible to arouse enough support to insure a change, the towns that are now working together would become spirited rivals for the seat of government. But the bulk of population is still found in the eastern part of the state, and it is inconceivable that enough votes could be found to gratify the ambition of the central Nebraska points. It would be fortunate, however, if the question were definitely disposed of, if it is to be allowed to prevent needed improvements for the present building.

South Omaha Live Stock Market.

Special Report, So. Omaha, Nebr., November 22, 1910.
Cattle.—Receipts this week much more moderate; 11,300 for two days. Market fully steady at last week's decline of 25 to 40 cents. Cornfed more numerous but only on the warm up order, bulk selling at \$5.25 to \$6.00 with the top up to \$6.60. Common steers are selling at \$4.25 to \$4.90. Rangers are growing more scarce but selling well, the decline only amounting to 10 to 15 cents. Pretty fair demand for feeders of quality but heavy plain cattle are neglected. Cows and heifers still find a good outlet, \$3.05 to \$4.25 and best up to \$4.50; medium grades \$3.35 to \$3.60 and canners quite strong at \$3.00 to \$3.30, only a very few under \$3.00. Veal calves still strong at \$7.50 for top and bulk between \$6.00 and \$7.00. Bulls unchanged. There is nothing encouraging in the outlook but continued light supplies will help.
Hogs.—Receipts growing heavy, 12,800 for two days and prices breaking daily. 10 to 15 cents off yesterday and the same again today. Bulk to \$6.80 to 6.95, top 7.05. Our prices are still in line with Chicago and will not be surprised at further declines.

DON'T TALK ABOUT YOUR AGE

Man of Experience Makes a Wise Suggestion to Old Men and Young.
"Don't," said a man of experience, "tell people your age."
"I don't mean by that that you want to be about it; indeed you want to tell the truth if it's necessary, but what I mean is don't go around blabbing about it. Keep it to yourself."
"You meet men who are proud of their age, men of mature years but who are still strong and rugged and able, and like to tell how old they really are, and then you meet youthful men and are getting on in the world and doing fine things that like to tell how young they really are. Mistake both."
"The mature man may really look years younger than he is, and if he does that is to his great advantage, for the majority of people don't like old men around; they want young blood. And as for the young man who may look older but who boasts of his youth, that's a mistake because people don't like men too young; they want men seasoned with at least some age and experience."
"It's a foolish man, however, able he may be, who goes around talking about how old or how young he really is. This can't do him any good and it may do him harm. It is a wise man, whatever his age, that is doesn't talk about his age at all, but let's his work do the talking."

Books and Their Care.

Books on shelves may be seriously injured if packed too tightly. When quickly pulled out for use the top of the back is likely to come off. Moreover, the constant pressure, if too great, will loosen the whole back in time and the friction in putting upon and taking from the shelf mars the covers. On the other hand, a reasonable amount of lateral pressure is necessary. If placed on the shelves too loosely the leaves tend to open and admit dust, dampness and consequent mildew. In the case of heavy volumes the weight of the leaves will be found resting on the shelves if the books are placed too loosely. This is likely to make the backs concave. Badly painted shelves are another source of injury to books. Care should be taken when paint or varnish is used that the surface is perfectly smooth, hard and dry when the books are put in place and that the surface will remain so during variation of temperature or humidity.—The House Beautiful.

Fifty Men and One Elephant.

Interesting tests were recently made to determine the respective pulling power of horses, men and elephants. Two horses, weighing 1,000 pounds each, together pulled 3,700 pounds, or 550 pounds more than their combined weight. One elephant, weighing 12,000 pounds, pulled 8,750 pounds, or 3,250 pounds less than its weight. Fifty men, aggregating 7,500 pounds in weight, pulled 8,750 pounds, or just as much as the single elephant, but, like the horses, they pulled more than their own weight. One hundred men pulled 12,000 pounds.

Making Children Strong.

Strength is the one great good life has to offer, but like most desirable things, there is no royal road to it. Sometimes it is only to be gained in devious pathways which appear to lead in quite another direction. Study your children; this only will you be able to attack their particular routes to health. Learn the strengthening power of cold water, outdoor exercise, sleep in a cold, dark room, early bed hours and simple meals. Do not send for a doctor at each sneeze, or live with a clinical thermometer in your hand.

Syrian Tobacco Best.

The tobacco generally considered superior to all others is Syrian. It is called Latakia, from the city of that name, the ancient and renowned port of Laodicea, which to the present day has a no inconsiderable trade. The city lies at the foot of Mt. Lebanon, not far from the spot where the remnants of the patriarchal cedars still grow.

Bloodthirsty "Sportman."

Sir Victor Brooks in 1880 laid himself out to fire exactly 1,000 cartridges at the bunions. This feat he accomplished in the day's shooting, firing one-half of the day from his right, and during the other half from his left shoulder, and causing no fewer than 740 members of the rabbit race to bite the dust.

Paris Green.

Paris green is a double arsenite and acetate of copper, containing arsenious acid, oxide of copper and acetic acid. Its manufacture is too complicated and too dangerous for an amateur to attempt. The immense quantities of Paris green made in the chemical factories enable the drug stores to retail it very cheaply.

Useful Reflection.

The optimist was reciting some of the numerous articles in his creed. Finally he came to the one, "Oh, there is one more, after all," he said. "On the days when I reflect how little I really amount to, I cheer myself by remembering how much I expect of others."—Youth's Companion.

Laughter.

Laughter and love are everywhere. The mother laughs continually at the child, the lover laughs continually at the lover, the wife at the husband, the friend at the friend.—Gilbert K. Chesterton.

What else can joy be but diffusing joy?—Byron.

REST CURE FOR THE NERVES

That is the Best Remedy Yet Discovered, Though Carrots Also Are Prescribed.
A case of "nerves" is like a bad habit—easily acquired and hard to get rid of. Nervousness affects the digestion, causes the eyes to glare, strains the bowels, causes the muscles of the face, and, if allowed its course, will even make the hair thin. So the woman who wants to be beautiful must keep an eye upon the state of her nerves.
The best cure for nervousness is rest. And resting is an art known to few women. Many find inducement to rest in his pipe and his trousers pocket. "Worrying," having neither the trousers pockets of the pipe nor the woman's fingers, is level to the only way she may get repose and relax the body and nerves is by actual will power.
Carrots are prescribed by physicians and beauty doctors alike as a cure for nervous indigestion. You are told to eat three times a day, either cooked or raw. Young onions, or scallions, are excellent, eaten with plenty of salt, also lettuce with salt and plenty of olive oil, but no vinegar or red pepper.
Strenuousness is the greatest menace that can befall a woman's nerves. Have for beauty and health, "Sleep" may be induced by warm milk at bedtime, or if this is ineffective, long draughts of cool water and a cold bandage around the brow.

Too Honest for a Lawyer.

A noted Philadelphia attorney tells one on himself. He left his native town in Tennessee years ago, and came to this city to practice law. He has been uniformly successful. His brother, upon the other hand, remained behind at the family homestead.
Returning to his native town some time ago, the attorney met an old dork in the road.
"Hello, uncle," he said, but the old man did not recognize the boy he used to know in the prosperous looking citizen who addressed him.
"Well," asked the lawyer, "how are the Blank family?"
"Oh, they're all right," said the old dork. "Jim Blank has 'come to Philadelphia, and done made a lot of money. He's a lawyer, too."
"Is that so," answered the attorney. "And his brother Tom, how is he, has he made a fortune, too?"
"Lawdy, no," answered the old dork, shaking his head, "he ain't no lawyer. Marse Tom wouldn't take a dishonest penny from nobody."

Yachting in Olden Times.

Yachting was little indulged in until about a hundred years ago. Owing to the presence in the British waters of the pirate cutters, sailing craft was scarce out of sight of land and attended with considerable risk and most of the earlier yachts carried brass cannon. The yachts built in England at the beginning of the last century were either on the lines of revenue cutters or smugglers. The best of them were built by Charles White, who would, it is said, often lay down a couple of clippers together, one for the government and the other as a smuggler. He would thus be able to obtain a premium from the government for making the revenue cutter the faster vessel of the two.

Law on the Links.

In the course of a case which came before Mr. Justice Scrutton in the vacation court counsel reminded the judge that he granted leave to serve a writ of habeas corpus by telegram.
His Lordship—Yes, the application was made to me just after I made a very excellent shot from a tee, and I granted it before I took my putt.—London Telegraph.

Motor Troubles.

The automobile being out of order, the hand of the family took the children out in the old family carriage and hired a nag that was in need of exercise. When the horse began to snort and cavort, the younger boy said: "Pop, you'd better shut off the current and fix him. He's missing fire."—Everybody's.

And That's Going Some.

A paragraph in an exchange says that the "Hampton good boy" found in New Jersey has attended Sabbath school, 2,946 Sundays consecutively. Unless our arithmetic is at fault that a promising good boy must now be a champion lad of 48 years of age.—Philadelphia Inquirer.

What They All Say.

A man went to see a small baby. "He's a fine fellow, isn't he," he said when he thought he had to say something. "How old is it now? Do her teeth bother him much? He does look like you, doesn't she? Every one says it does."—Atholion Globe.

One Thing Ready.

A German shoemaker, having made a pair of boots for a gentleman of whose financial integrity he had considerable doubt, made the following reply to him when he called for the articles: "Der boots his not quite done, but der beel ish made out."

Novel Clock.

A clock that plays soft music not only to awaken a sleeper, but to put a person to sleep, thus reversing the usual function, and one that turns on the lights in a bedroom are recent ideas in timepieces.

One of the Best Assets.

The cities that are not growing enough should advertise—and take care that they have good government among the attractions.—Chicago Record-Herald.

The Crowning Joy.

"Young man, you ought to marry. A cozy home, blooming children—there is nothing happier in the world! And above all, you have the sweetest recollections of the time you were a bachelor."—Eugene Blaisot.

The packing houses are blamed for the falling meat prices, and they were blamed last winter when prices went up. If the packing houses are responsible, they ought to try and hit the right level to win popular approval.

Buffalo county wants to get rid of its poor farm, not having had any use for it for several years and deeming it unprofitable. The county ought to hang to its haven for the poor until there is assurance of continued good times.

An invoice of the number of deaths and lesser accidents as the result of football thus far this season shows eighteen of the former and 421 of the latter. But people are cheered by a comparison with what happened during the same time last year when there were about double the number of unfortunate consequences.

The fact that an inmate of an insane asylum won a magazine prize in competition with other poets for the best poem should not discourage literary ambition along that line. Without brains one could not go crazy, and brains sensitive and keen enough to write high-grade poetry may be bughouse along some lines. More people in Beatrice write good poetry than any town of similar size in the world, and yet they are sane enough on most subjects.

Count Leo Tolstoi, the greatest Russian who died in seclusion during the past week, scorned the nobility into whose ranks he was born, but from which he fled in disgust. He lived the simple life, and endeavored to be a practical follower of the Nazarene. He was a great author. His literary works pointed to the better life, and often uncovered the faults and wrongs of royal heads. His unfortunate treatment of his family in later life may be compassionately regarded, the effect of a mind broken down by extreme old age.

Last week the Hartington Herald entered its twenty-eighth year. William Huse, sr., started the Herald when Hartington started in 1883. The prospect of a new town caused people to rush there to take advantage of opportunities. When Mr. Huse arrived on the scene, few buildings were up, and planting his printing outfit on the ground, built an office over it. He wintered in this crude temporary structure, and the next spring erected a substantial building. Hartington has grown and prospered, and the Herald has kept pace with it.

The World-Herald remarks in the course of an editorial that trust prices have been falling because men voted the democratic ticket, and that farm products are coming down because of natural causes. The World-Herald cunningly seeks to give the party credit for a desirable result, but at the same time clear it from responsibility for consequences unfavorable to the farming interests of the state. It is patently clear that if voting the democratic ticket reduced prices along one line it would do so along all lines. Next year when the World-Herald gives its party credit for the sunshine, showers and harvests, it will simultaneously disclaim responsibility for the destructive cyclones, hailstorms and waterspouts. The World-Herald is as consistent as a prejudiced partisan organ playing politics is capable of being.

The Thanksgiving day spirit should lift men above the mere gratification of appetite. It should stimulate impulses of generosity—not purely in material things, but in good feeling, one for another. Words of gratitude count for nothing if they proceed from a soul shackled to selfish or sordid desires. The truly thankful heart is touched by the meaning of the golden rule, and is exalted by sincere regard for others. It is a sham to give thanks while harboring hatred for one's fellows, or seeking opportunity to fling a javelin into the object of a cherished grievance. A soul radiant with the luster of genuine fellowship, giving helpful hands and cheering words to the world about, most nearly harmonizes with the great source of infinite good, to which voices of thanksgiving are raised. With the beginning of another holiday season, let us hope for permanent betterment in good will and higher purposes. Ceremonious

thanksgiving and expressions and gifts of Christmas cheer are of no value if we are out of accord with the right spirit and are not made to think better and do better.

After upholstering the head with rats or excelsior, and then drowning the bulging mass with a huge hat, a woman, unless she thoughtfully removes the gigantic structure when joining an audience, becomes a source of awful grief to any one happening to sit behind her. At theatres custom invites the removal of hats and the same is developing with reference to church discipline. In places ministers, realizing that a towering and overspreading hat is a barrier to the proper spread of the gospel, have enforced a rule for its elimination during the progress of meeting. A woman who feels that the money and care devoted to the burden which she wears, entitles the same to public inspection, should go to church early, remain intact for five minutes' review and then pry off the creation, together with a few coils of hirsute padding. This is the sensible thing to do in view of the importance of comfort in church as a means to religious growth.

Since the assurance of Aldrich's election to the governorship, the cry has gone up from democratic throats for nonpartisan consideration of appointments. A lot of democrats, serving under Shallenberger, want to hold their jobs. They feel that the public service would be better managed in their hands. As to their political bias during the late campaign, they were not much against Aldrich, anyway. After Shallenberger was elected two years ago he removed republican appointees just as soon as he could get his hands on the reins of government, and every one was jarred loose from the pie counter with celerity that made his head swim. This action was in sharp and agreeable contrast with the tardy methods of ex-Governor Sheldon. Sheldon often dragged along for months before making an appointment. The result was that applications accumulated as time went on, and every applicant was mad, whether successful or not. Unsuccessful ones didn't like delay which ended in defeat, and successful ones didn't feel joyful over shortened terms. The way Shallenberger followed the Sheldon procrastination by decapitating republican officers was really refreshing and admirable, and the good precedent which he established should be closely followed by his successor. Democratic appointees ought to get ready to gather up their belongings and move out as cheerfully as possible.

The late vote for governor in different senatorial and representative districts of the state shows the unfairness of the apportionment as it stands today. Twenty-five years ago when it was made, representation in the legislature was perhaps in accordance with the population, but today it discriminates most unjustly against the north part of the state. Witness these figures: Otoe county with a total vote of 4,081 for governor, has one senator, whereas Wayne, Stanton, Pierce and Madison counties, with a total vote of 8,635, have only one senator. Cass county cast 4,695 votes for governor, and has one senator, while Dixon, Dakota, Knox, Cedar and Thurston counties which cast 11,048 votes, wiggles along with one senator. Richardson county which polled 3,796 votes, has three representatives, while Wayne and Stanton counties polling 3,317 votes, have one representative. Pawnee county with 2,275 votes, has two representatives, while Banner, Cheyenne, Deuel, Garden, Keith, Kimball, Lincoln, McPherson, Morrill and Perkins counties, with 8,297 votes, have only one representative. Fillmore county which cast 3,302 votes, has two representatives, while Cedar and Pierce counties, with 4,889 votes, have only one. The above are a few illustrations showing the glaring injustice done the north part of the state by the prevailing apportionment.

Uncle Walt The Poet Philosopher

My neighbor keeps a frantic steed that always tries to run away "You are a foolish man, indeed," I said; "he'll kill you off some day." And then into my car I stepped, and ran against a vagrant cow; and when WHO'S LOONY NOW? I from the ruins crept, my neighbor said: "Who's loony now?" My wife has bought a new fall hat, and I remarked, with great disdain: "The dame who'll blow good seeds for that, should have a cobbler fix her brain." And then I took my old stiff tile, and jammed it down upon my brow; the frau surveyed it with a smile, and murmured low: "Who's loony now?" All day I'm toiling in my den; I grind out essays double dense; I'm always roasting other men, and saying that they have no sense. And when I'm all swelled up with pride—e'en as the reader finds me now—I make some break, and folks deride, and cry aloud: "Who's loony now?"

I hired a toiler whose name was John, to come with his weapons and mow my lawn, for long green whiskers were growing there; it badly needed some tender care. And John arrived at the break of day, and whittled grass in a cheerful way; the job was fierce, the weeds had grown, and the dog had scattered some chunks of bone, but John, he labored to beat the band, and shaved that lawn with a master hand. He named his price when the work was o'er, and I gladly coughed up a quarter more. And whenever I find that my lawn is due for a good clean shave or a dry shampoo, I'll hunt up John, if he's still on earth, and pay him more than the job is worth. I'll hunt up John if I have to trot from the court house clear to the dumping spot, for he does his work as a workman should, and doesn't quit till he finds it good. The streets are haunted by shiftless men, who seek employment and seek again; they say that jobs are as hard to find as pearls of price in a melon rind, their hopes are hazy, their chances gone—for most employers are hunting John!

They are holding high carousal down at Charlie's grog bazar, and the boys are burning money where the shining bottles are; you may hear their joyous laughter, you may hear them shout and sing, and they're finding life a solace as the noisy hours take wing. But the morning, O the morning when the singing rounds wake! When the mouth is like a hen's nest, and the head a mass of ache! O the agonies remorseful, and the wallings that ascend! For all men must pay the fiddler when the dance is at an end. There are fellows all around us who are cutting quite a swath, thinking that unless they're stylish they are surely in the broth; and they're buying motor wagons, and they're jaunting off to Rome, with a lot of borrowed money and a mortgage on the home. And some day a beastly panic on the land will spread a pall, and a lot of stylish alecks will be backed against the wall; then you'll hear a lot of pleading—pleading in vain, my friend; for a man must pay the fiddler when the dance is at an end. Little Cora Jane DeJiggers has her feelings badly miffed, for her mother often tells her that her gait is much to swift. With her swagger girl companions through the streets she likes to roam, and she sees the moving pictures when she ought to be at home; she is flirting with the Johnnies in her harmless, foolish way, and she may invest in sackcloth on some bitter future day; for the laws that govern mortals never yield and never bend—girls, like boys, must pay the fiddler when the dance is at an end.

THE FIDDLER

Don't talk about the prize you'll win, or how you will pursue it, for boasts are like the clank of tin; don't talk—get down and do it. Don't say you'll cut the habits out, that make your friends uneasy; just turn your conduct face about—for talk is cheap and wheezy. About your seedy clothes don't talk, and say you'll soon be tony; go get the sort of duds that knock—for promises are phoney. Don't make some wild and foolish break and then beg people's pardon; such conduct makes them fairly ache to plant you in their garden. Don't try to tell a funny tale to friends who may be busy, or they will say you'd be in jail if peckers were not dizzy. Don't talk about your own conceits to one who's in a hurry; he doesn't care three tinkers' derns about your woe and worry. Don't blow a damp, hang-over breath into your neighbors' faces, or they will wish that Colonel Death would take you where his

place is. Don't talk unless the thing you'd say is truly worth the trouble; for work's the stuff that puts up hay, and talk is but a bubble.

Be kind to old Dobbin, your long-legged bay, and pet him and fondle his chops; for Dobbin is faithful and to his hay—he'll work in the tugs till he drops. The gods who keep cases on men won't indorse the sport who in anger will crack a club on the ribs of his trusty old horse, which hasn't a chance to hit back. Be kind to old Bessie, the gentle-eyed cow, that patiently stands in her shed; and don't with the milking-stool cave in her brow because there's no sense in her head. The gods have no use for the sinful galoot who loses his temper too quick, and wears out his grudge on an innocent brute with any old bludgeon or stick. Where kindness is lacking existence is flat and naught that we do is of worth; be kind to the bow-wow, be kind to the cat, be kind to all creatures on earth. For kindness is music whose chords all agree; the oil on the waters of strife; if man were as perfect as mortals should be, he'd even be kind to his wife.

COLUMBUS Columbus stood before the queen, and begged that she would aid him. He was attired in garments mean—no royal tailor made 'em. No clanking sword, no jewels, brave, no plumes or braid adorned him. "You need a haircut and a shave," her majesty had warned him. And yet he had a noble mien, as he enchanted kept her: "I beg you, O most noble queen, to soak your-crown and sceptre; ransack these stately regal halls and all the basements under; go through your husband's overalls, and hand to me the plunder. I tell you that 'neath yonder sky, where only birds have hovered, some rich and lovely islands lie, that wait to be discovered. And if you'll dig up sundry plunks, all grouchy prophets scorning, I'll pack my Saratoga trunk, and sail tomorrow morning." "In sooth," the stately queen replied, "thou art a goodly fellow, and I would aid, but, by St. Bride and James of Compostella, thou art some seven hours too late; some agents (drat the varmints!) came to me with a goodly freight of hats and new spring garment—" Columbus gave a little squent of anguish, deep and bitter, and then he turned upon his heel, for though he was no quitter, he knew it was no use to talk, and walked away disgraced; the queen had met the agent flock, and so was surely busted.

I'm thankful on Thanksgiving day, I'm thankful all the time. To bunch your gratitude this way is something like a crime. I'm thankful when November brings white meat and pumpkin pie; but my old heart as gaily sings in April or July. Of course I'm glad of the bumper crops, and barns and cribs that groan; I'm glad the little kids have tops, that Fido has a bone. I'm thankful for substantial things, that make us rich and fat; I'm thankful when the hausfrau springs a new gown or a hat. I'm thankful that I have some hay to cheer my pony's lot; I'm thankful that my old hens lay real eggs that hit the spot. But more than this, my friends, though things like these are grand, I'm thankful that the heaven bends above so good a land. A land where people do their best because they like to strive; who do their work with pleasant zest, all glad that they're alive. I'm thankful that each day I meet fine people, clean and white, with kindly hearts and tempers sweet, ambitious to be right. I'm thankful that so many unmindful of life's scars, to shape their pathway for the sky, and earn a crown of stars.

THANKS-GIVING

While returning home from church on Sunday, the 13th inst., Miss Laura Lyons, who lives ten miles northwest of Wayne, was thrown out of the buggy, with the other occupants, her two brothers and Miss Hannah Hansen, and received serious injuries. The tongue dropped while the buggy was speeding along, overturning it and throwing the young people to the ground. Miss Lyons fell under the buggy and was badly hurt. The other members of the party escaped with a few bruises. Miss Lyons was taken home and a doctor summoned from Laurel. He found that while no bones were broken, the spine may have been injured. Mrs. J. F. Kelly and daughter Miss Sylvia, living four miles from Wayne, visited Miss Lyons Monday, and report the fear that she had suffered from concussion of the spine. Miss Lyons' friends in Wayne and vicinity will hope her injury is temporary, and that she will soon be restored to usual health.

ORDER OF HEARING ON ORIGINAL PROBATE OF WILL. The State of Nebraska, ssu Wayne County. At a County Court, held at the County Court Room, in and for said County of Wayne, on the 18th day of November, 1910. Present: James Britton, County Judge. In the matter of the estate of W. A. Donner, deceased. On reading and filing the petition of C. T. Norton praying that the instrument filed on the 18th day of November, 1910, and purporting to be the last will and testament of said deceased, may be proved, approved, probated, allowed and recorded as the last Will and Testament of said W. A. Donner, deceased, and that the execution of said instrument may be admitted and that the administration of said Estate may be granted to C. T. Norton as Executor; Ordered, That December 14, A. D. 1910, at 10 o'clock A. M. is assigned for hearing said petition, when all persons interested in said matter may appear at the County Court to be held in and for said County, and show cause why the prayer of the petitioner should not be granted; and that notice of the pendency of said petition and the hearing thereof, be given to all persons interested in said matter by publishing a copy of this order in the Wayne Herald, a weekly newspaper printed in said County, for three successive weeks prior to said day of hearing. STATE NORMAL SCHOOL NEWS

Miss Alwine W. Luers had charge of the work in the first and second grades of the Model School last Thursday, Miss Stocking being absent on account of sickness.

The contract for thirty-nine storm windows has been let to C. A. Chace & Company and these windows will be put up at once on the north and west sides of both buildings.

The correspondence in the office indicates that a number of students will enroll for work after the Thanksgiving vacation. Others will enter on January 3 following the holidays.

The Normal school was dismissed on Tuesday and all departments of work given a vacation on Wednesday, Thursday and Friday. Nearly all the students spent Thanksgiving day at home.

Miss Anna Martiny, who finished the professional course last year in the old school, is planning to return to Wayne and complete the work of our advanced course. Miss Martiny is now teaching her first term of school near Winside.

The board of education has elected Mr. Earl Lewis to the position of superintendent of buildings and grounds, his services to begin December 15. Mr. Lewis is a first class mechanic, and he will be a very valuable man for the work he has been selected to do.

At the last meeting of the board of education the Remington typewriter was adopted for use in the commercial department and two machines have been ordered. The number 10 Smith-Premier typewriters are already in use and it will now be possible for a student enrolling for this work to select either a single or a double keyboard.

Mrs. Anna B. Bright gave a very excellent talk in chapel Friday morning, her subject being, "The Philippine Islands." Mrs. Bright spent sometime on the islands, and she was well prepared to speak of the life and habits of these people. Her talk was illustrated with articles of clothing, weapons, etc., used by the Filipinos, and which she had collected during her stay there.

The Normal Glee club, which for several weeks past has been under the direction of Professor Lewis, made its first public appearance at convention last Friday. The ladies delighted the students with their first selection and responded to a very hearty encore. We hope the part they contributed to the chapel exercises of last week will be repeated many times during the year.

In the prize oration contest we note that Mr. Britton has selected for his subject "An Address to the Republican National Convention of 1912. Placing in nomination for the Presidency, the Name of Theodore Roosevelt," and that Mr. Christenson will place before the same convention the name William Howard Taft. It is said that Mr. Britton does not fear that his subject is a dead one despite the late unpleasantness, also that Mr. Christenson has all confidence in the present occupant of the White House. The speakers will be the Conkling and Garfield of the convention which they address. The gathering, however, by consent of the republican committee, will meet a year early in order to allow these young men to receive college credit for these addresses of national interest. Taking the class as a whole it is worth while to note the serious nature of the themes discussed. The class consists of seven young men and one young woman, and these young people are having the experience of studying for themselves and arriving at their own conclusions, an all important bit of training for citizenship. They are further testing methods of interest for convincing others of the correctness of their views, a matter of scarcely less moment.

ONLY THREE WEEKS REMAIN

CONTEST WILL SOON CLOSE

December 17 Will Wind Up the Big Herald-Nebraska Farmer Subscription Campaign.

There are only three weeks more after this week of the automobile piano subscription voting contest. The closing date will soon be here and it stands each contestant in hand to make a lively campaign for votes.

JAMES STEELE was born in Smith county, Virginia, May 23, 1884. He has lived with his parents in Wayne county sixteen years.

From now on, no contestant is so far in the lead but what he or she can easily be overtaken by a lower contestant, no contestant is so far behind but what he or she can easily take first place by a little extra effort. Look over the list of contestants and the number of votes to the credit of each one and then remember that a five-year subscription to both papers, providing it is new to the Herald, counts for ten thousand votes and you will see that

MRS. ROY E. FISHER is a native of Red Oak, Ia., where she was born December 16, 1888. She has lived in Wayne county four years.

The race is a very close one and that the lowest contestant could take the lead by a very little effort. The race is so close that the winner will need all the votes that can possibly be secured from now until the closing. In talking to the contestants they tell us they are going to be able to accomplish wonders in the next few weeks. We believe they will, because there are so many who have not as yet been asked to subscribe, and there are a great many others who have promised their subscriptions to some one of the contestants, so we believe that the closing days will be quite exciting, and it is impossible to even make a

ALBERT SAHS was born in Illinois, February 25, 1886. He has lived with his parents on a Wayne county farm twenty-two years.

guess, as to who will own the automobile, when the final count is made. The votes will be counted on Tuesday, December 6, for the last time during the contest and the standing of the contestants announced.

MISS MARIE JAMES was born in Platte county, Neb., September 19, 1897. She came with her parents to Wayne county thirteen years ago.

ed in the paper of that week. This does not mean that the contest will close on that date, but only that no information will be given out as to the standing of the contestants the last twelve days of the contest. After the count is made on December 6, the voting will go right on until 6 P. M. Saturday, December 17, at which time the contest will close and a set of disinterested judges will count the votes and award the prizes.

The lowest contestant stands just as good a chance as anyone, for the first or second prize, but it is going to take work from now on to gain that point. All contestants should line up their friends and organize a campaign and work for votes as they never have worked before.

The standing this week is as follows:

- Jas. Steele.....57,100
- Mrs. Roy E. Fisher.....47,900
- Albert Sahs.....39,611
- Marie James.....36,900

PRESBYTERIAN NOTES.

F. H. Jones has presented the primary department of the Sunday school with an organ for use in the primary room. The "Sunshine Songs," which the boys and girls learned during the special meetings, will be used hereafter in their Sunday school exercises.

The midweek meeting at the Presbyterian church this week was dismissed that all might attend the special meetings in progress in the M. E. church. During the meetings at the Presbyterian church the Methodists took similar action, and their courtesy was much appreciated.

Next Sunday evening the pastor of the Presbyterian church will begin a series of sermons on "Religion in Every-Day Life." The first sermon in the series will be on "Courtship." At the morning service a series of sermons on "Messages of our Lord" will begin. These sermons will be based on the pictorial representations of truth as they were portrayed in Christ's teaching. The subject of this first sermon in the course will be "The Causes of Apparent Failures in the Church."

THE SCHOOL FAIR.

The teachers and pupils of the public schools will hold a fair in the basement of the high school building on Saturday afternoon and evening, December 3.

The proceeds will be used in the purchase of pictures and other works of art.

There will be a table devoted to fancy articles, suitable for Christmas gifts; a candy table; and a food table, milk, pies, cakes, jellie, preserves and everything good to eat. Contributions solicited for any and all tables. And don't forget to donate something to the children's room, where will be found pop-corn, doll articles, etc.

Contribute something and so help and encourage the pupils in their good work. Admission free.

RECORD-BREAKING SALE.

Tuesday's Omaha Bee contained the following gratifying report on the initial sale of Rev. Alexander Corkey's new volume, "The Victory of Allan Rutledge."

"The record was broken on the

sale of a book of fiction when "The Victory of Allan Rutledge" arrived Saturday at 4 p. m., in Bennett's book department. One hundred and twenty-five copies were sold that day. The author, Mr. Alex. Corkey, is receiving letters from all parts of the United States praising him for his emphatic answer to Mr. Wright's "The Calling of Dan Matthews." Many Omaha people believe the character "Allan Rutledge" is Mr. Corkey himself.

DEATH OF CHAS. STALLSMITH

Chas. E. Stallsmith, who was born and raised in Wayne, died of typhoid fever in a hospital at Omaha, last Thursday. His parents, Mr. and Mrs. John B. Stallsmith, of this city, were with him when he passed away. The funeral took place Sunday, with interment in the cemetery at Council Bluffs.

Chas. Stallsmith left Wayne about ten years ago. His wife died a few years ago, leaving three children for his care. He was about 35 years of age, and was well known and well liked by the people of Wayne. They will truly sympathize with the orphan children, and be of any possible assistance to them.

CRITICISM ON NORMAL.

Mr. C. R. Witter of Wayne, who was in Creighton one day last week informed some of our citizens that the State management of the Normal School has been a great disappointment. That only about half the attendance is present and the standard of entrance being raised detracts from its value to those living in the vicinity. Young folks going away to school find so many more attractions in the city it is very hard for the small towns to compete.—Nebraska Liberal.

In reply to the above which appeared in the Nebraska Liberal, published at Creighton, President Conn has sent the following for publication in that paper:

November 21, 1910.

To the Editor of the Creighton Liberal, Creighton, Nebraska.

Dear Sir: My attention has just been called to an item in your paper purporting to be an interview with Mr. C. R. Witter of this city in which he is quoted as saying that the State Normal school and its management is a disappointment to the people of Wayne because of the

small attendance and because the standard of the school has been raised so that it is impossible for many to enter who have been attending here. In justice to the school and its patrons I desire to say that Mr. Witter is very much misinformed in regard to the attendance. The records show that there has never been a time in the history of the Nebraska Normal College when the attendance at this time of the year exceeded the present attendance.

Judging from our correspondence I am confident that the total enrollment for the present year will equal the total yearly enrollment of any year the Nebraska Normal College ever had. The attendance is not only not "very small", as reported, but it is exceptionally good when it is remembered that no one knew six weeks before the opening of the school whether the school would continue under private management, would close down or would be taken over by the state. No time whatever was given to get facts before the people. Many students had already made their plans for entering other schools yet in spite of this condition our attendance is equal to that of any other year at this time.

As to the raising of the standard of the school we feel guilty. The standard is a matter fixed by law and not by the management. However, we have been as liberal in construing the provisions of the law as possible, as you will find by looking on page 12 of our bulletin under the heading, "Who May Attend School Here." In this you will observe that anyone who has completed the eighth grade may be accommodated. There has not been a single student denied admission to this school. Mr. Witter may represent himself in regard to the Wayne Normal but he certainly doesn't represent the sentiment of this community. The State Normal School belongs to the people and it is the intention of the management to make the school serve the interests of the people to the greatest possible extent consistent with the existing laws by which the school is governed. I hope you will give space for this statement as I feel that your readers are entitled to know what the real facts are and not be led astray by the report of any dispenser of bad news. Very respectfully,

U. S. CONN, President.

Paul Meyer has bought an automobile from L. L. Way, and will invite his friends to ride with him as soon as he is able to keep it safely in the road.

Pringle C. Hughes, local manager for the Nebraska Telephone company, arrived home Tuesday night from his trip to Texas. He likes the Texas country, and had a pleasant journey there.

Miss Hazel Weber, who teaches at Broken Bow, Neb., arrived home today to visit her parents, Mr. and Mrs. Wm. Weber. She was accompanied by a lady friend.

The coming school fair affords an opportunity for the public to help the worthy ambition of the teachers and students to improve the looks of the interior of the school house.

Mrs. Emily Collins and daughter Mildred returned Monday to their home at Keokuk, Io. Mrs. Collins led the singing at the evangelistic meetings at the Presbyterian church.

Mrs. George Warner underwent an operation at the Samaritan hospital in Sioux City Sunday, and Mr. Warner who returned from there Monday evening, expressed himself as very much encouraged over the prospect of her early recovery.

Fire supposed to have started from the furnace damaged the house occupied by Seville Olsen on the Benshoof farm south of town, Sunday evening. Early discovery of the flames and quick action in putting them out reduced the loss to about \$50.

Farmers north of town report good crops of corn in spite of the dry spell which followed this summer. Thirty-five acres of Jas. McIntosh's place went fifty bushels to the acre, while the balance went from forty to forty-five bushels per acre.

Chas. Grewey who visited at the home of John Sabs for two weeks, returned Friday to Gettysburg, S. D., where he is employed on a farm. Mr. Grewey has been in very poor health and came here for a complete rest and change of climate.

Russell, 12-year-old son of Chas. Rubcek, living two and one-half miles southeast of Wayne, was kicked by a horse on Tuesday, the blow striking him below the right knee. The bone was not broken, but was badly bruised. Dr. Williams was called.

The many friends of Miss Ruth Larson will regret to hear of her prolonged illness. She has been suffering the past nine weeks with inflammatory rheumatism and until of late her condition had been very serious. Ruth had been teaching school two and a half miles from home prior to her sickness.

Mrs. A. C. Zehner of Texas will speak in Wayne on temperance December 11. She comes highly recommended. Rev. W. Hill, pastor of the First Methodist church at Dallas, Texas, has this to say of her as a speaker: "I regard Mrs. Zehner as easily one of the best speakers and most brilliant lecturers on the American platform at this time."

The Universal Baseburner, sold by Otto Voget, has no superior on the market in all the qualities that are acceptable to a household. It radiates more heat at less cost than any other. Why send to a foreign market for a stove when you can get something better at home? Besides getting a poor stove from a foreign house, you are not certain to get repairs when you want them. With a Universal in the house, you not only have perfect satisfaction in the way of heat, but can always get repairs promptly when they are needed. Call at Otto Voget's hardware store, Wayne, Neb., and let him show you the latest and best in stoves. N24th

A good example of the kind of story Mark Twain used to like to weave into his after-dinner speeches was the tale of the drinker who unwillingly put in an application for membership in a temperance society, called the next day on a three years' voyage, on which he kept his pledge in spite of longing and temptation, and returned to resign only to find that his name had been blackballed originally.

The First Milliners. About two hundred years ago Milan was noted for the fineries made there for female wear, the manufacturers of which were men. They were therefore known as milliners, from the name of the place.

POSTS HER VISITING RULES

Mrs. Appleton Has Set of Good-Natured Hints on Her Guest-Room Door.

Mrs. Lysander John Appleton has done so much visiting herself that she realizes how many things arise to cause discomfort to a guest, and has had printed and framed a set of rules which hangs on her guest-room door, similar to those that hang in hotel bedrooms.

1. Don't bow the head at meals as if expecting grace. We don't ask it unless the preacher is present, and a guest's expectation of a religious observance that isn't coming is embarrassing to the family. 2. Make yourself at home, but don't expect us to treat you like one of the family. We want to retain your friendship. 3. If a guest knows any wonderful experiences of women who have made money by keeping a cow, the hostess will appreciate it if they are told in the presence of Mr. Appleton.

4. Pay no heed to scolding remarks about company made by Chauncey Devereux. He takes after his father. 5. Don't leave your toothbrush when you depart. The washstand drawer is filled with toothbrushes left by guests, and every one has been used and is therefore useless to the Appleton family. 6. When the preacher calls, don't stay in the parlor. Your hostess finds herself reinforced for the trials of life if she can have a short season of prayer with her pastor alone. 7. All visits due the hostess and her daughters promptly collected. 8. The printed slips attached showing the High Cost of Keeping up a Dining Room Table are for free distribution. Help Yourself.—Atchison Globe.

Wonderful Kitchen. The largest kitchen in the world is that of the Bon Marche, the noted department store of Paris. In this kitchen is prepared the food for the whole of the 4,000 employees of that great establishment. The smallest kettle holds 75 quarts, the largest 375 quarts. There are 50 frying pans, each of which is capable of holding 300 omelets at a time, or of frying 220 pounds of potatoes. When there are omelets for breakfast 7,500 eggs are used. The coffee machine regularly employs 60 cooks and 100 kitchen boys.

City Streets. Dr. Johnson would have said a wise thing had he said what somebody said later for him: "Come, let us take a walk down Fleet street!" It sounds commonplace, but often a common place is a concentrated wisdom, and that is how, in our careless day, a master of the commonplace gets to be regarded as an oracle. If you want to understand a people, just do take a walk—many walks—in their great highways of traffic.—James Milne, in the Fortnightly

Impressive Postscript. George Washington Postmaster, thinking of matrimony and trembling on the edge, wrote to his married brother, Rufus, for advice. "Dear Jawie," wrote Rufus in reply, "every man should marry. A wife is a man's greatest gift. She soothes his troubles, dabbles his joy and helps him every wick way. The marid life is the one life specially when you is fortunate enuff to get a fool of a wife like mine. P. S.—Mandy has Jess stepped out. You blame fule you STAY SINGLE."

Astrakhan Lambs. From Bokhara some million and a half astrakhan skins are sent each year to Europe and America. The lambs whose skins are known as astrakhan are specially bred for the purpose, and some flocks contain as many as 5,000 head. The skins are roughly dressed before being exported. Experiments have been made in the breeding of lambs for astrakhan in various parts of Asia and Europe, but it is claimed that Bokhara alone produces the best lambs for the purpose.

Help Urgently Needed. Wanted, at once—two fluent and well learned persons, male or female, to answer the questions of a little girl of three and a boy of four; each to take four hours per day and rout the parents of said children. Apply at the Register office.—Neopawa (Manitoba) Register.

Hop-Pillows for Insomnia. Our George III. derived great benefit from the "hop-pillow" prescribed for him by Dr. Willis after other sedatives and drugs had failed; and a similar remedy was eminently successful in 1871 with his late majesty King Edward VII.—then Prince of Wales—who was suffering from typhoid fever.—London Telegraph.

Handicapped. Prisoner under life sentence says he has perfected the flying machine by a new principle. Too bad that a man who could invent a thing like that will never have a chance to try it.

Immense Palm Leaves. Palm trees have the largest leaves. The Inaja palm of the Amazon country has leaves which reach a length of from 30 to 50 feet, and a breadth of from 10 to 12 feet.

FEAR OF NIGHT AIR PASSING

We Are Slowly Learning That It is Far Healthier to Breathe Than That of Closed Room.

Slowly, far too slowly, we are realizing how dire is the danger to incur every time we sleep in bedrooms with the windows shut close. After all, we ought to feel it a kind of slur on our intelligence and a libel on our healthy, temperate climate that consumptive sanatoria should be considered necessary for this country. It has been established beyond a doubt that fresh air is not only curative, but also preventive of tuberculosis; and surely it would be better to impress this fact deeply upon the minds of the rising generation rather than cram them with padding which produces only mental indigestion. The prejudice against the open window is so deep rooted in some country homes that it is only through the children that it will ever be destroyed. Even worse is the prejudice against night air. Many people who ought to know better will contend that night air is dangerous on account of its dampness. One can quite understand that for persons suffering from bronchitis and asthma the cold night air may be dangerous, but for comparatively healthy people, both old and young, cold night air, even if it is slightly damp, is infinitely healthier and safer to breathe throughout the night than the slowly poisoning air of the closed bedroom.

The Truth Will Out. Rich banker to his daughter's suitors: "Don't talk so much of love; you know that what really attracts you is the \$10,000 marks that my daughter will get when she marries. 'Snore—What! No more than that!—Fleegende Blaetter."

Delight for Antiquarians. A Roman tomb of the second century before Christ, containing a marble sarcophagus of exquisite workmanship five feet long and admirably preserved, has been discovered at Grosseto.

Defies Efforts at Measuring. All effort to ascertain the depth of the famous Pitch lake of Trinidad has been unsuccessful. At the sides of the lake the pitch is hard and cold, but at the center, it is hot, and almost constantly boiling in a liquid state.

Uncle Eben. "Remember, son," said Uncle Eben, "dat you' advantages in dis life don't necessarily mean you's a sure winner. I's heard tell of a game in which de most interest centers in beatin' a man wit a good big hand."

Intangible Carens. What is that which, exchanged between two persons, is something whilst in the act of exchanging, nothing after the exchange is made, and for which neither can show value received?—A Kiss.

A Deadly Weapon. Artist to his friend: "Yes! I use the palette-knife a good deal. Knocked a child's head on in the morning and sold it in the afternoon. Nervous old gentleman goes out hurriedly at next stop."—M. A. P.

Human Imperfections. It is not human to be perfect. Irritability, intolerance, conceit, foolishness, irresolution, love of pleasure—all are qualities shared in greater or less degree by most of the human family.

Easy. When a woman is getting ready to celebrate her silver wedding, it is easy to stand well in her estimation. Merely tell her you think she must have been married very young.

Believe Looks Bring Luck. In Wales it is considered very lucky to have house leeks grow on the houses, this being supposed to insure all those in the house from disease or disaster.

All She Wanted Was the Man. "My wife didn't ask me to sign over my fortune when I married her," said the man in the corner seat. "She was too glad to get me to bother about trifles."—Cleveland Plain Dealer.

His Cue. Merton was learning his letters from a primer. He pointed to the ones he knew, and when he came to "q" he said: "Why, that's an O with a banana through it."—Delineator.

Roadbed Differences. If 33 pounds' pull will move a wagon over wood pavement, a pull of 147 pounds will be needed to move the same vehicle over a newly graveled road.

Moonshine and Stammering. Moonshine has been found to have a marked effect on stammering. People so afflicted stammer most at the full of the moon.

Little Saving. A man's admiration for himself may keep him from committing suicide, but in a case of that kind the saving doesn't amount to a great deal to the rest of the country.—Atchison Globe.

Genius and Goodness. Under heaven there is but one thing we ought to bow to—genius, and only one thing before which we ought to kneel—goodness.—Victor Hugo.

Plaster of Paris. Plaster of Paris is so called from having been obtained in the beginning from Montmartre, near Paris, France.

National Light

OIL

We have just finished delivering an eight-thousand-gallon tank of the celebrated National Light oil, making the third car delivered here since the introduction of such oil less than a year ago. Our representations to the farmers who have decided to try this oil, have been carried out exactly, and on a fifty gallon lot each purchaser saves \$2 50, besides the great advantage guaranteed in the way of convenience. It says the bringing an oil can to town, with the likelihood of contaminating foodstuffs and clothing. The old plan often causes grievous damage, saying nothing about the shrinkage of oil by that way of handling it. Buying a fifty-gallon lot of oil not only saves dollars and cents and insures the highest grade article on the market, but avoids the nuisance and likely injury by bringing a can to town to be filled. One can readily figure out what he has made in money and convenience in the course of a few years.

National Light Oil is doubly refined, meeting the highest test, and when burning does not emit the disagreeable odor common in the use of low grade oils, nor does it smoke the chimney and thus cause annoyance.

People who have used the National Light oil, would use no other kind, and those who have installed tanks, are mighty well pleased with results.

DOES YOUR BACK ACHE?

Backache is usually kidneyache. There is only one way to remove the pain, you must reach the cause—the kidneys. No better kidney remedy exists than Doan's Kidney Pills. They permanently cure all kidney ills.

Mrs. M. C. Morris, 545 Pacific Ave., Alameda, Cal., says: "For twelve years I suffered from kidney trouble. My back ached so intensely I did not receive one good night's rest. The kidney secretions were suppressed and the bladder burned and pained. Several physicians treated me without benefit. Then I began using Doan's Kidney Pills and was relieved from the first. Continued use cured me."

Remember the name—Doan's. For sale by all dealers. 50 cents a box. Foster-McMillan Co., Buffalo, N. Y.

UNSIGHTLY COMPLEXIONS

The constant use of Cuticura Soap, assisted by Cuticura Ointment, for toilet, bath and nursery purposes not only preserves, purifies, and beautifies the skin, scalp, hair and hands, and prevents inflammation, irritation and clogging of the pores, the common cause of pimples, blackheads, redness and roughness, yellow, oily, moist and other unsightly conditions of the complexion and skin.

Dr. Ward took snuff with violence as he regarded me critically. "I do not doubt the young man's sincerity and faithfulness," said he. "I was only questioning one thing."

"His age," Calhoun rubbed his chin. "Nicholas," he said, "you heard me. I have no wish to encumber you with useless instructions. Your errand is before you. Very much depends upon it, as you have heard. All I can say is, keep your head, keep your feet, and keep your heart."

He arose now, and bowed to us both, even as I rose and turned for my cloak to shield me from the raw drizzle which then was falling in the streets.

So this, then, was my errand. My mind still tingled at its unwelcome quality. Dr. Ward guessed something of my mental dissatisfaction.

"Never mind," Nicholas said, as we parted at the street corner, where he climbed into the rickety carriage which his colored driver held awaiting him. "Never mind, I don't mind you. I will be back in a few days, and then you will see me."

There proved to be truth in what he said.

SYNOPSIS.

The story is told by Nicholas Trist, the chief senator John Calhoun, offered the position of secretary of state in Tyler's cabinet. It is told by Dr. Ward that his time is short. Calhoun declares that he is ready to die and he is ready to accept Tyler's offer if it means that Texas and Oregon must be added to the Union.

CHAPTER II.

By Special Dispatch. In all eras and all climes a woman of great genius or beauty has done what she chose—Ouida.

"Nicholas," said Calhoun, turning to me suddenly, but with his invariable kindness of tone, "oblige me, tonight, I have written a message here. You will see the address—"

"I have unavoidably heard this lady's name," I hesitated.

"You will find the lady's name above the seal. Take her this message from me. Yes, your errand is to bring the least known and most talked of woman in Washington, alone, unattended save by yourself, to a gentleman's apartments, to his house, at a time past the hour of midnight!"

"That gentleman is myself! You must not take any answer in the negative."

"As I sat dumbly holding this sealed document in my hand, he turned to Dr. Ward with a nod toward myself."

"I choose my young aide, Mr. Frist here, for good reasons. He is just back from six months in the wilderness, and may be shy; but once he had a way with women, so they tell me—and you know, in approaching the question of femininity we operate per hominem!"

Dr. Ward took snuff with violence as he regarded me critically.

"I do not doubt the young man's sincerity and faithfulness," said he. "I was only questioning one thing."

"His age," Calhoun rubbed his chin. "Nicholas," he said, "you heard me. I have no wish to encumber you with useless instructions. Your errand is before you. Very much depends upon it, as you have heard. All I can say is, keep your head, keep your feet, and keep your heart."

In detail and without quibble as the master mind should dictate.

I was, indeed, young—Nicholas Trist, of Maryland; six feet tall, thin, lean, always hungry, perhaps a trifle freckled, a little sandy of hair, blue I suppose of eye, although I am not sure; good rider and good warhorse, I know; something of an expert with the weapons of my time and people; fond of a horse and a dog and a rifle—yes, and a glass and a girl. If truth be told, I was not yet 30, in spite of my western travels. At that age the rustic of silk or dimity, the suspicion of adventure, tempts the worst or the best of us, I fear. Woman!—the very sound of the word made my blood leap. I went forward rather blithely, as I now blush to confess. "If there are maps to be made tonight," said I, "the Baroness Helena shall do her share in writing on my chief's old mahogany desk, and not on her own dressing case."

That was an idle boast, though made but to myself. I had not yet met this woman.

Personally I am gifted with but small imagination. In a very matter of fact way I had got into this carriage with a strange lady. Now in a sober and matter of fact way it appeared to me my duty to find out the reason for this singular situation.

"Madam," I remarked to my companion, "in what manner can I be of service to you this evening?"

"I am fortunate that you are a gentleman," she said, in a low and soft voice, quite distinct, quite musical in quality, and marked with just the faintest trace of some foreign accent, although her English was perfect.

CHAPTER IV. The Baroness Helena.

Woman is seldom grateful to the man who is kind—Edward Bulwer Lytton.

There was one of our dim street lights at a central corner on old Pennsylvania avenue, and under it, after a long walk, I paused for a glance at the inscription on my sealed document. I had not looked at it before in

fourth ward showed me her kind, small, firm, white, and I could not see a glimpse of her dress as I stepped into the street. Her figure was a slender, taper, hence all her limbs and joints were hidden, because they did not do such things by halves. It makes no sense in her eyes to be a specimen of humanity. It was a noble specimen of what woman may be.

I was not in such a hurry to see again how I might be of service, in fact, being somewhat surprised and somewhat pleased, I remained silent for a time, and let matters adjust themselves; which is not a bad course for any one similarly engaged.

She turned toward me at last deliberately, her fan against her lips, studying me. And I did as much, taking advantage as I could of the passing street lamps. Then, all at once, without warning or apology, she smiled, showing very even and white teeth.

She smiled. There came to me from the purple-colored shadows some sort of deep perfume, strange to me. I found at the description of such things and read of perfumes, but I swear that as I sat there, it was not I who swam up around her, but a sort of airy shadow, edged with light, that gave this perfume, called "the perfume."

"I was not, sir, in a hurry to see again how I might be of service, in fact, being somewhat surprised and somewhat pleased, I remained silent for a time, and let matters adjust themselves; which is not a bad course for any one similarly engaged."

levels at her throat, in her ears—a necklace of diamonds, long hoops of pearls and emeralds used as earrings, a sparkling clasp which caught at her white throat the wrap which she had thrown about her ball gown; for now I saw she was in full evening dress. I guessed she had been an attendant at the great ball, that ball which I had missed with so keen a regret myself—the ball where I had hoped to dance with Elizabeth. Without doubt she had lost her way and was asking the first stranger for instructions to her driver.

My lady, whoever she was, seemed pleased with her rapid temporary scrutiny. With a faint murmur, whether of invitation or not I scarce could tell, she drew back again to the farther side of the seat. Before I knew how or why, I was at her side. The driver pushed shut the door, and whipped up his team.

Farmers, mechanics, railroads, laborers rely on Dr. Thomas' Electric Oil. Takes the sting out of cuts, burns or bruises at once. Pains cannot stay where it is used.

Another Novelty. It was after the stone-laying ceremony, and a wife was sent to the builder with the news: "Stone laid with great zeal." The builder, smoothing an awful oath, muttered: "Another new foreign conceit," and flung the mislaid from him in passionate disgust.

Lame back comes on suddenly and is extremely painful. It is caused by rheumatism of the muscles. Quick relief is afforded by applying Chamberlain's Liniment. Sold by all dealers.

Sense of Superiority. "Billings seems exceedingly self-confident." "Yes, he has just bought an encyclopedia and feels that if he doesn't know more than any of the rest of us he can whenever he chooses."

A HOUSEHOLD MEDICINE To be really valuable must show equally good results from each member of the family using it. Foley's Honey and Tar does just this. Whether for children or grown persons Foley's Honey and Tar is best and safest for all coughs and colds.

Paste That is Lasting. The natives of the interior of Ceylon finish the walls and roofs of their houses with a paste of slacked lime, lute, and alum, which glazes and becomes so durable that specimens three centuries old still exist.

The old, old story, told times without number, and repeated over and over again for the last 30 years, but it is always a welcome story to those in search of health. There is nothing in the world that cures coughs and colds as quickly as Chamberlain's Cough Remedy. Sold by all dealers.

Racial Changes. A national and racial type of faces, whose existence none can deny, varies at different historical periods corresponding to that nation's rise or fall in morals, well being, etc. The age of Pericles left a treasure of noble faces in statue.—Wichita Eagle.

Many school children suffer from constipation, which is often the cause of seeming stupidity at lessons. Chamberlain's Stomach and Liver Tablets are an ideal medicine to give a child, for they are mild and gentle in their effect, and will cure even chronic constipation. Sold by all dealers.

Some Lovers of Fat Men. They say that nobody loves a fat man. Well, I am not so sure about it. I once knew a very fat old gentleman who became a missionary and went to Africa to convert the heathen. He never came back. I dare say the cannibals love the fat ones best.—Exchange.

Croup is most prevalent during the dry cold weather of the early winter months. Parents of young children should be prepared for it. All that is needed is a bottle of Chamberlain's Cough Remedy. Many mothers are never without it in their homes and it has never disappointed them. Sold by all dealers.

Hard Task for Most Men. Let the man who complains that his wife is foolish be compelled to show that he has no foolish habits; that he does not smoke or drink or waste his time talking inanities to other men, that he never is jealous of other men in his own line of business, that he is always good-natured and even-tempered.

Mr. Otto Poni, Milwaukee, Wis., says Foley's Honey and Tar is still more than the best. He writes us, "All those that bought it think it is the best for coughs and colds they ever had, and I think it is still more

than the best. Our baby had a bad cold and it cured him in one day. Please accept thanks.

Four Things to Cultivate. If you wish success in life, make perseverance your bosom friend, experience your wise counselor, caution your elder brother and hope your guardian genius.—Addison.

DRESSED IN "BLACK AND YELLOW." Not "football colors" but the color of the carton containing Foley's Honey and Tar, the best and safest cough remedy for all coughs and colds. Do not accept a substitute but see that you get the genuine Foley's Honey and Tar in a yellow carton with black letters.

Light on Ancient Egypt. Enough has been unearthed in Egypt to prove to scientists that a blond race or caste, believed to have been of German or Teutonic origin, brewed beer in Egypt many thousand years ago.

HEXAMETHYLENETETRAMINE Is the name of a German chemical, one of the many valuable ingredients of Foley's Kidney Remedy. Hexamethylenetetramine is recognized by medical text books and authorities as a uric acid solvent and anti-septic for the urine. Take Foley's Kidney Remedy promptly at the first sign of kidney trouble and avoid a serious malady.

Degrees of Goodness. "Don't you think you have a good mamma, to spread such a nice, big slice of bread with jam for you?" asked the visitor. "Oh, yes," replied little Lola, "but my grandma is gooder; she lets me spread the jam myself."

GOOD RESULTS ALWAYS FOLLOW. The use of Foley's Kidney Pills. They are up-building, strengthening and soothing. Tonic in action, quick in results.

The Census. The census originated in Rome, but it was mainly directed to fiscal objects, the numbering of the population being a matter of secondary consideration. The census, in the real modern sense of the word, is the creation of the United States and England. Our first census was taken in 1790, and England's in 1801.

When a cold becomes settled in the system, it will take several days' treatment to cure it, and the best remedy to use is Chamberlain's Cough Remedy. It will cure quicker than any other, and also leaves the system in a natural and healthy condition. Sold by all dealers.

Holding Their Own. What about all this young-man-for-the-world's-work business so vehemently preached by the great moral force and others so short a time ago? Only a few days ago an 88-year-old Ohio farmer kicked because the navy would not take him as a recruit, and now a 92-year-old Chicagoan gets married.—Milwaukee Daily News.

BOTH SPEEDY AND EFFECTIVE This indicates the action of Foley's Kidney Pills as S. Parsons, Battle Creek, Mich., illustrates: "I have been afflicted with a severe case of kidney and bladder trouble for which I found no relief until I used Foley's Kidney Pills. These cured me entirely of all my ailments. I was troubled with backaches and severe shooting pains with annoying urinary irregularities. The steady use of Foley's Kidney Pills rid me entirely of all my former troubles. They have my highest recommendation." Felber's Pharmacy.

240 Sacks of Puritan Flour in Prizes
You Can BAKE the Best Bread from Puritan Flour—What Can You MAKE from Puritan Flour Sacks?
Enter your name in the grand contest ever held in Nebraska—The Puritan Flour Sack Contest. 240 sacks of Puritan Flour in Prizes. Four Sacks for Each of the 20 Most Useful Articles. Four Sacks for Each of the 20 Most Attractive Articles. Made from Puritan Flour Sacks—60 Prizes of Four Sacks Each—Contest Open July 1st—Closes September 1st, 1910.

Because
PURITAN is made from the choicest hard wheat. When you buy the lowest priced flour you get the same number of pounds as when you pay for the best—but far less value. Bread made from average flour is part impurity and only part flour. Bread from Puritan Flour is every bit good, pure, blood-making food. And Puritan Flour makes lighter, whiter, tastier loaves by actual baking tests than any other flour you can buy. We separate our flour into twenty different “stocks” or streams, then blend it to get in every sack the scientifically right combination of nutritious bread-making qualities. This is done by actual chemical and baking tests—part of our milling system. Your bakings, therefore, can't fail with the use of Puritan Flour.

Furthermore
EVERY sack of Puritan Flour is Guaranteed. Use half or more—if it isn't satisfactory, if it doesn't make the best Bread, Cake, Biscuit or Piecrust you have ever made—return the balance of the sack and your dealer will refund your money without question. Don't be satisfied with just good flour. When you go to the expense and labor of buying flour, baking bread, using fuel and taxing your entire system to digest it—you want the finest—the purest—the most nourishing you can buy—you want Puritan—Nebraska's Quality Flour.

WHY PEOPLE SEE PHANTOMS

Hallucinations of Famous Characters Due to Abnormal Sensibility of the Nervous System.

A morbid condition of the organs of sense or of belief is sufficient to invent our mental conceptions with phantom shape. Our thoughts vary, according to the violence of our emotions, from faint mental phantasms to vivid and almost corporeal apparitions. The strength of these sensational influences is naturally proportionate to the susceptibility of the nervous or cerebral system.

The Tabernacle. The tabernacle was the holy place of the Israelites until the erection of Solomon's temple. It is said that the Tabernacle was constructed about B. C. 1491. The Tabernacle set up by Joshua, at Shiloh, B. C. 1444, was the head center of the Jewish religious life until the year B. C. 1001, when the great Temple of Solomon was finished at Jerusalem.

The Short and Simple Annals. "No gottin da good job," said Pietro, as he gave the monkey a little more after grinding out on his own a selection from "Santa Lucia." "Gotta fifty dollar da month and eat myself; thirty da month da boss eat me." Everybody's Magazine.

Phlandering is a rather new game at which to play, but the woman usually has to pay the stakes.—T. P. O'Connor, in London T. P.'s Weekly.

Not Everything. "You play poker as though it were everything in life." "But it isn't. There's a limit to everything and the kind of poker I play has no limit."

Kissing the Dying. To kiss the dying was long considered a gift of strength to the kisser, and among the Romans the nearest of kin was supposed to kiss the dying on the forehead to receive the soul as it escaped the body. To this day the same custom is maintained among the European Jews and at the death of a czar of Russia. The Smart Set.

An Emergency. "An emergency is something that every man should be ready to, but usually never is."—Detroit Free Press.

A Squirrel Barometer. A merchant in a western city has a queer barometer. It is a domesticated squirrel. He keeps the little pet in a large paint barrel, all inclosed with the exception of a small round hole in one end. Inside the barrel is a good supply of straw, old paper and leaves. During a run of weather of any kind, hot, cold, wet or dry, the little animal is in and out of the house, keeping an open door.

But should there be a change coming, say 10 or 12 hours off, the squirrel plunges up his hole with the matter from his bed and keeps it closed until the change comes. It is claimed the squirrel never makes a mistake, and that he gives no false alarms to his keeper.
