The Apollo Player Piano

Is the Standard of the World

Our Questions:

Have you said all along that all player pianos are mechanical?

What is to be your answer to this proposition?

We make the sweeping statement that no one, not even a musician, can tell the difference between Apollo playing and expert hand playing, and take this unusual method of proving that this claim is unqualifiedly true.

FLEGE TRIAL NEARING END

SOON TO BE UP TO THE JURY

State Rests its Case, and Testimony of Witnesses for Defense is Introduced.

Friday or Saturday will likely see the wind-up of the trial of William Flege, charged with the murder of his sister, Louise. The trial will have occupied nearly two full weeks.

Albert Eichenkamp, main witness for the state, concluded his testimony Monday afternoon. He charged William Flege with murdering his sister. The details of the story of the witness were substantially the same as heretofore published.

William C. Davenport, the Sioux City detective, who was following clues for a number of weeks to unravel the mystery, was on the stand for the state. He told how he, in company with others, traced every possible clue to the bottom, and said the murder pointed to either William Flege or Albert Eichenkamp.

Tuesday afternoon, after exhibiting the blood-stained garments worn by the girl when she was killed, the state rested.

The first witness for the defense was Jacob Koch, who testified that he heard a shot on the Flege farm about 3 o'clock in the afternoon of the day the girl was murdered. He swore that he was working for Christ Soren in a field about 100 rods away.

He was followed by Maggie Roeder, 13 years old. She testified that she passed the Flege farm on her way to Wayne on the afternoon of the murder, and about 3 o'clock saw a man in the middle of the field going toward the house.

Dr. J. J. Williams, coroner of Wayne county, was called to the stand by the defense yesterday morning, and testified as to the condition of the body when he arrived at the Flege farm on the evening of the murder. He swore that the girl had been criminally assaulted either before or after she had been shot.

He was not positive as to the time. He testified that the fact that he was not the coroner in charge was the reason he did not examine the girl's stomach and otherwise make a more critical examination of the body.

J. P. Gaertner, the undertaker who had charge of the body, also testified as to the condition of the body.

Fred Flege, brother of the defendant, was called to the stand yesterday, and detailed how he was called to his brother's farm by Albert Eichenkamp.

George Bannon testified that in passing the Flege farm he saw Albert Eichenkamp coming away from the Flege home at about 2:30 o'clock.

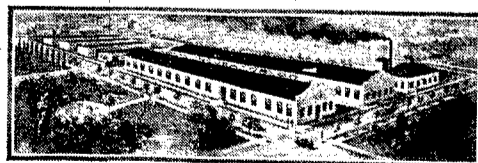

Alice Mau, living about one mile north of the Flege home, said she heard a noise resembling a shot about 3 o'clock on the afternoon of the murder.

H. F. Wilson and Herman Henney, Wayne bankers, testified in regard to the finances of the defendant.

AMONG HERALD EXCHANGES

Randolph is holding its annual corn and domestic science show this week.

Fremont merchants joined in advertising a holiday opening sale December 3.

W. R. Olmstead is the name of the man who succeeds G. E. Grow as editor of the Carroll Index.

Pender is stirring itself to fight Walthill's movement to gobble up the county seat of Thurston county.

R. B. Crellin has bought the Belden Progress, and the appearance of the paper reflects the work of a trained newspaper man.

The little four-year-old boy of Mr. and Mrs. Chas. Dally of Crofton was drowned while attempting to cross a creek on the ice Thanksgiving day.

Early Christmas buying is urged everywhere again this year, and shoppers are coming to appreciate the importance of the request and are governing themselves accordingly.

Hartington Herald: Mrs. Heady of Wayne, and Mrs. Steele and daughter of Harlan, Ia., returned to their homes Tuesday morning after a visit with their parents, Mr. and Mrs. Southwick, and other relatives.

In referring to Park Phillips who was fined \$300 in the Wayne county district court recently, the Randolph Times says: "Phillips wanted to run a pool hall in Randolph some time ago and had some signers to his petition."

Northeast Nebraska papers are crowded with attractive Christmas announcements. Nearly every paper has had to print extra pages to accommodate the demand for space. The showing reflects a healthy condition for both papers and advertisers.

J. M. Paul, village attorney of Wakefield, announces through the Republican that he will hereafter prosecute on his own responsibility all who violate local ordinances. He proposes to see that laws relating to Sunday closing, gambling and bootlegging are strictly enforced.

Pender Republic: The twenty-day old baby of Mr. and Mrs. Geo. Allbright who live in Wayne county just west of Pender died Monday morning of stomach trouble. Funeral services were held Tuesday and interment made at the German cemetery, six miles south of Wakefield.

Bloomfield Monitor: Leonard Mitchell came up from Wayne the first of this week for a few days' visit with his old time Bloomfield chums. Leonard has been working at the carpenter business at Wayne for some time past. He says the last he heard from them, his people were doing well at Wall.

Columbus Tribune: Miss Violet Woosley, secretary to President Conn at the state normal school at Wayne, came down Wednesday to spend Thanksgiving and Sunday at home. She seems to be well pleased with the work in her new position, and reports that the Conn and Brittell families are well and happy.

South Sioux City is considering the advisability of voting bonds for the purpose of installing waterworks, electric lights and a sewerage system. At a mass meeting held recently to consider the question, the matter of moving the county seat there from crumbling old Dakota City was introduced and boosted.

The Dakota City Eagle reports that the bloodhound which the sheriff of Dakota county bought at Beatrice to run down criminals, hasn't thus far manifested any tendency to satisfy the purpose of the officer. A late test was disappointing. Instead of "taking up the scent," as a bloodhound specialist would say, the animal stood and acted as though it were waiting for something to eat.

Cedar County News: Chas. Hubbard and Miss Florence Kuehn, both from near Laurel, were married in this city on Thanksgiving day. Hubbard had been in jail six days in default of \$1500 bail, or \$1000 cash with which to settle the case of the young lady against him. The young man had expressed a willingness to wed, but the young lady had declined to become his wife. She evidently changed her mind, for on Thursday she appeared and a ceremony was performed.

The Stanton Picket contains this mention of the entertainment of a number of Wayne girls: The Misses Mabel Clark, Freda Ellis and Margaret and Goldie Chace were guests at a house party given by Miss Bess Horton latter part of last week. Several entertainments were given in their honor, first of which was a card party Friday afternoon at the home of Miss Ethel Chace followed by a large party at the home of Miss Horton when about twenty young people participated in games and music, and on Saturday evening Mrs. Syl Person entertained the

same company at a dancing party. Stanton Register: Councilman Al Marks was in Wayne last week on business and while in the city made inquires regarding the efficiency of the day service of the Wayne electric light plant. The city owns the light plant in Wayne and while Mr. Marks was in the city, he made inquires as to the necessity and efficiency of the daylight run. He found the business men were perfectly satisfied with their daylight service and would not give it up for any consideration. He also found that it was a paying proposition for the city as it was a source of considerable extra revenue besides the convenience of having power and light all the time.

Here is a political observation from the pen of J. C. Ecker in the Winside Tribune: Now that the 1910 election is over and settled, one hears a little discussion of next year's campaign. There are those who think that the time is ripe to fill up the court house for once with Winside, Carroll and Hoskins men. Such a proposition is a possibility but not a probability. It would take a shrewd lot of manipulation to attain such an end. A non-partisan could only be elected by a thorough understanding and goings of harmony between the individual towns and surrounding territory. The other town-knockers and "vote'r straight" fellows would have to be killed before the commencement of the battle.

BOOSTS THE WAYNE NORMAL

Boone County Advocate: Prof. I. H. Brittell and children, of Wayne, were guests the latter part of the week of St. Edward relatives. Prof. Brittell, who served sixteen successful years as principal of the city schools of Columbus is just as enthusiastic in his work at the new state normal school at Wayne. In response to a question concerning the new school and his work, his characteristic devotion to the institution with which he has cast his lot is evidenced in the following reply: "The Wayne state normal, the third of its kind in Nebraska, was opened September 19 and in less than eight weeks had enrolled 140 students. Indications are that the enrollment will exceed 200 by December 1. The new school is located in the heart of one of the richest agricultural districts in the state, and its object is the preparation of young men and women as teachers in the public schools. It's necessity is more readily realized when it is known that the other state schools are within 75 miles of the Kansas line, one in the extreme eastern part of the state and one in the western part. The faculty has been selected from among men and women who have been in actual school work for from ten to twenty years, instructors who really know what they are preparing the young people for. The state bought two good school buildings from the old Wayne Normal school, and five dormitories capable of rooming 300 students. The advanced students already enrolled insure a graduating class of seven or eight for the first year. The need of the school is a large main building suitably equipped which would cost the state from \$60,000 to \$70,000 and a liberal appropriation by the next legislature for the maintenance of the schools, laboratories and the department of music. As all the state schools are located at points within about 50 miles from the Kansas line, this school will be of inestimable value to students residing in the northern part of the state. Wayne is a city of churches, having some of the best modern buildings in the state. It has no saloons and students there have an educational and religious environment. While the Wayne schools claim no superiority over the other state schools, all three normal schools being upon an equal basis as to credits, I feel that I am justly proud of the institution and as a member of the faculty I shall certainly do everything within my power to insure its success." Prof. Brittell says that the fourth state normal school, located at Chadron, will be opened about June 1, but as it will be distant from Wayne 350 miles, the territory of the two schools will not overlap.

PRESIDENT TAFT'S MESSAGE

Resume of the Work of the Various Departments of the Government Is Presented to Congress.

NEED OF ECONOMY POINTED OUT

Has Little to Say About the Tariff--Work on Panama Canal Is Reviewed--No Change in Anti-Trust Laws--Interstate Commerce Laws Are Discussed.

Washington, Dec. 6.—In the longest document of its kind ever sent to congress, President Taft reviews at length the business of the year in the various departments of the national government. The settlement of the tariff with England through the Hague Tribunal comes in for a considerable share of the president's attention. The history of the fisheries dispute and the establishment of the national fish conservatively reviewed.

The president gives a resume of the foreign relations of the government, which he declared to be in a satisfactory condition.

Tariff Negotiations.

Referring to the negotiation of new tariff agreements, President Taft says: "The new tariff law, in Section 2, respecting the maximum and minimum tariffs of the United States, which provisions came into effect on April 1, 1910, imposed upon its responsibility of determining prior to that date whether any undue discrimination existed against the United States and its products in any country of the world with which we sustained commercial relations."

"In the case of several countries instances of apparent undue discrimination against American commerce were found to exist. These discriminations were removed by negotiation. Prior to April 1, 1910, when the maximum tariff was in force, no operation with respect to importations from all those countries in whose favor no proclamation applying the minimum tariff should be issued by the president, one hundred and thirty-four such proclamations were issued."

This series of proclamations embraced the entire commercial world and hence the minimum tariff of the United States has been given universal application, thus testifying to the satisfactory character of our trade relations with foreign countries."

"Marked advantages to the commerce of the United States were obtained through these tariff settlements."

"The policy of broader and closer trade relations with the Dominion of Canada, which was initiated in the adjustment of the tariff act of minimum provisions of the tariff act of August, 1909, has proved mutually beneficial. It justifies further efforts for the readjustment of the commercial relations of the two countries so that their commerce may follow the channels natural to contiguous countries and be commensurate with the steady expansion of trade and industry on both sides of the boundary line."

The president urges such action as he believes will increase American trade abroad, and says:

"Another instrumentally indispensable to the unhampered and natural development of American commerce is merchant marine. All maritime and commercial nations recognize the importance of this factor. The greatest commercial nations, our competitors, naturally foster their merchant marine. For a long time we have had a need for such a direct mail passenger and freight communication with the United States and Latin America. We can secure no other quarter of the world such immediate benefits in friendship and commerce as would flow from the establishment of direct lines of communication with the countries of Latin America adequate to meet the requirements of a rapidly increasing appreciation of the reciprocal dependence of the countries of the western hemisphere upon each other's products, sympathies and assistance."

"I alluded to this most important subject in my last annual message; it has often been before you and I need not recapitulate the reasons for its recommendation. Unless prompt action be taken the completion of the Panama canal will find this the only great commercial nation unable to avail in international maritime business of this great contribution to the means of the world's commercial intercourse."

Governmental Expense.

To no one subject does he devote more space than to the expense of conducting the various government departments and the urgent need for economy, and in this connection he says:

"Every effort has been made by each department chief to reduce the estimated cost of his department for the ensuing fiscal year ending June 30, 1912. I say this in order that congress may understand that these estimates thus made present, the smallest sum which will maintain the departments, bureaus and offices of the government and meet its other obligations under existing law, and that a cut of these estimates would result in embarrassing the executive branch of the government in the performance of its duties. This remark does not apply to those for expenses of maintenance and the meeting of obligations under authorized contracts, nor does it apply to the public building bill nor to the navy building program. Of course, as to these congress could withhold any part or all of the estimates for them without interfering with the discharge of the ordinary obligations of these functions of its departments, bureaus and offices."

The Tariff.

The president devotes but little space to the subject of the tariff law, and of it he says:

ness, due to the announcement that a new tariff bill is to be prepared and put in operation will be avoided by treating the schedules one by one as occasion shall arise for a change in the rates of each, and only after a report upon the schedule by the tariff board competent to make such report. It is not likely that the board will be able to make a report during the present session of congress on any of the schedules, because a proper examination involves an enormous amount of detail and great deal of care; but I hope to be able at the opening of the next congress, or at least during the session of that congress, to bring to its attention the facts in regard to these schedules in the present tariff that may prove to need amendment."

"Our island possessions. During the last summer, at my request, the secretary of war visited the Philippine islands and has described his trip in the report. He found the islands in a state of tranquility and growing prosperity, due largely to the change in the tariff laws, which has opened the markets of America to the products of the Philippines and has opened the Philippine markets to American manufactures."

Second-Class Mail.

"The year has been one of prosperity and progress in Porto Rico. Panama Canal. At the instance of Colonel Goethals, the army engineer officer in charge of the work on the Panama canal, I have just made a visit to the isthmus to inspect the work done and to consult with him on the ground as to certain problems which are likely to arise in the near future. The progress of the work is most satisfactory. If no unexpected obstacle presents itself, the canal will be completed well within the time fixed by Colonel Goethals, to-wit, January 1, 1915, and within the estimate of cost, \$375,000,000."

"Among questions arising for presidential solution is the decision whether the canal shall be fortified. I have already stated to the congress that I strongly favor fortification and I now reiterate this opinion and ask your consideration of the subject in the light of the report already before you made by a competent board."

"Another question which arises for consideration and possible legislation is the question of tolls in the canal. This question is necessarily affected by the probable tonnage which will go through the canal."

"In determining what the tolls should be we certainly ought not to neglect that for a good many years to come they should amount to enough to pay the interest on the investment of \$400,000,000 which the United States has made in the construction of the canal. We ought not to do this, first, because the benefits to be derived by the United States from this expenditure is not to be measured solely by a return upon the investment. If it were then the construction might well have been left to private enterprise."

"My own impression is that the tolls ought not to exceed \$1 per net ton, and I should recommend that within certain limits the president be authorized to fix the tolls of the canal on the basis of what seems to be a commercial necessity."

"I cannot close this reference to the canal without suggesting as a wise amendment to the interstate commerce law a provision prohibiting interstate commerce railroads from owning or controlling ships engaged in the trade through the Panama canal. I believe such a provision may be needed to save to the people of the United States the benefits of the competition in trade between the eastern and western seaboard which this canal was constructed to secure."

Department of Justice.

Discussing the affairs of the department of justice, the president says:

"I give especial attention to the prosecutions under the federal law of the so-called 'bucket shops,' and of those schemes to defraud in which the use of the mail is an essential part of the fraudulent conspiracy, prosecutions which have saved ignorant and weak members of the public and are saving them hundreds of millions of dollars. The violations of the anti-trust law present perhaps the most important litigation before the department, and the number of cases filed shows the activity of the government in enforcing this statute."

"In a special message last year I brought to the attention of congress the propriety and wisdom of enacting a general law providing for the incorporation of industrial and other companies engaged in interstate commerce, and I renew my recommendation in that behalf."

"The crying need in the United States of cheapening the cost of litigation by simplifying judicial procedure and expediting final judgment is pointed out and action looking to correction of the evil is urged."

Postal Savings Banks.

"At its last session congress made provision for the establishment of savings banks by the postoffice department of this government by its general control of trustees, consisting of the postmaster general, the secretary of the treasury and the attorney general, the system could be begun in a few cities and towns, and enlarged to cover within its operations as many cities and towns and as large a part of the country as seemed wise. The initiation and establishment of such a system has required a great deal of study on the part of the experts in the postoffice and treasury departments, but a system has now been devised which is believed to be more economical and simpler in its

"It is gratifying," says the president, "that the reduction in the postal deficit has been accomplished without any curtailment of postal facilities. On the contrary, the service has been greatly extended during the year in all its branches."

"The year has been one of prosperity and progress in Porto Rico. Panama Canal. At the instance of Colonel Goethals, the army engineer officer in charge of the work on the Panama canal, I have just made a visit to the isthmus to inspect the work done and to consult with him on the ground as to certain problems which are likely to arise in the near future. "Another question which arises for consideration and possible legislation is the question of tolls in the canal. This question is necessarily affected by the probable tonnage which will go through the canal."

"In determining what the tolls should be we certainly ought not to neglect that for a good many years to come they should amount to enough to pay the interest on the investment of \$400,000,000 which the United States has made in the construction of the canal. We ought not to do this, first, because the benefits to be derived by the United States from this expenditure is not to be measured solely by a return upon the investment. If it were then the construction might well have been left to private enterprise."

"My own impression is that the tolls ought not to exceed \$1 per net ton, and I should recommend that within certain limits the president be authorized to fix the tolls of the canal on the basis of what seems to be a commercial necessity."

"I cannot close this reference to the canal without suggesting as a wise amendment to the interstate commerce law a provision prohibiting interstate commerce railroads from owning or controlling ships engaged in the trade through the Panama canal. I believe such a provision may be needed to save to the people of the United States the benefits of the competition in trade between the eastern and western seaboard which this canal was constructed to secure."

Discussing the affairs of the department of justice, the president says:

"I give especial attention to the prosecutions under the federal law of the so-called 'bucket shops,' and of those schemes to defraud in which the use of the mail is an essential part of the fraudulent conspiracy, prosecutions which have saved ignorant and weak members of the public and are saving them hundreds of millions of dollars. The violations of the anti-trust law present perhaps the most important litigation before the department, and the number of cases filed shows the activity of the government in enforcing this statute."

BEGINS WORK AGAIN

SIXTY-FIRST CONGRESS OPENED ITS FINAL SESSION ON MONDAY.

DEATH TOLL HAS BEEN HEAVY

Both Branches Adjourn Out of Respect to Departed Members—Uncle Joe and Champ Clark Vie in Elicitation of Applause from Crowded Galleries.

Washington, D. C.—The closing session of the Sixty-first congress opened at noon Monday. No business was transacted, both branches merely meeting to appoint a joint committee to formally apprise the president that the legislative branch of the government was ready to proceed to call the rolls and to adjourn after adopting resolutions to the memory of those members who had died since the congress last met.

The usual animation marked the opening in both the house and senate, but the reunion of the old legislative friends was tinged with sadness because of the heavy toll of death taken in the last few months. In consequence, the senate was in session only a quarter of an hour, while the house occupied fifty minutes before Speaker Cannon declared it adjourned until Tuesday.

More than usual interest was manifested in the opening because of the passing of the balance of political power with the session. As a result the galleries were crowded with visitors. On the floor secretaries and clerks, whose positions give them the privilege of entering the chambers, lined the walls.

Since adjournment last June there have been four deaths in the senate and nine in the house. It was necessary to make official announcement in each case while the senate convened. Vice President Sherman was prompt in entering the senate chamber and bringing the senate to order just as the hands of the clock indicated the noon hour. Immediately afterwards came the opening prayer of Dr. Ulysses Grant Pierce, who referred to the unusual number of deaths within the recess.

The roll call that followed disclosed eighty senators present, only eight failing to respond.

ALL THERE BUT MR. HAUGEN.

Tap of Cannon's Gavel Finds Iowans on Hand.

Washington, D. C.—All of the Iowa members of the house, with the exception of Representative Haugen, were in their seats Monday when Uncle Joe Cannon's gavel fell, promptly at the noon hour. Among the first of the "Iowans" to reach the floor were Representative Hull of Des Moines, who on March 4 will retire after long years of service in congress. Mr. Hull was one of the "dame ducks" to receive a complimentary address.

Representative Martin and Burke, of South Dakota, were also present when the house met.

Southern Iowa Drought.

Creighton, Ia.—A most unusual condition, the result of the prolonged drought in Wisconsin on the Chicago, Burlington and Quincy line in southern Iowa, where train service will be resumed, is already undeniably evident. The railroad company is only in a "half" way to the completion of the winter supply, the company's servants having again dry.

Woman Killed by a Robber.

St. Louis, Mo.—Mrs. Frank St. Louis was shot and killed by a robber in her home here here. Her husband jumped from a window and fled to the home of a neighbor. When he returned his wife was dying. The robber escaped.

Bacteria in Canned Eggs.

Chicago.—United States marshals seized 5,000 pounds of "canned" eggs shipped into Chicago. United States District Attorney Sims asserted that a test of one teaspoonful of the substance showed the presence of 34,000,000 bacteria.

Fire at Zanesville, O.

Zanesville, O.—Fire destroyed the building occupied by the H. Weber Sons here on Main street and extended to other buildings, causing a loss of \$10,000.

St. Louis, Mo.—Monday's quotations in the local live stock market follow: Top beefs, \$6.75. Top hogs, \$7.35.

Guest of Admiral Howard.

Brest, France.—Rear Admiral Thomas Howard, commander of the fourth division of the American Atlantic fleet, left Brest, gave a reception Monday to French naval and civil authorities on the battleship Georgia.

Creditors Get a Dividend.

Washington, D. C.—Creditors of the First National Bank of Billings, Mont., will receive their first dividend of 30 per cent, which was declared by the controller of the currency the first of the week. The bank failed last July.

Silver Worth 55.3 Cents.

Washington, D. C.—The treasury has accepted a bid to deliver 100,000 fine ounces of silver at the Denver mint at the rate of 55.3 cents per fine ounce.

Lumber Plants Burned.

St. Louis, Mo.—The plant and lumber yard of the Little Lumber company and the lumber yard of the Stauk & Woodcock Lumber company here were destroyed by fire. The loss is estimated at \$20,000, covered by insurance.

MAKES SOCIAL DEBUT

HELEN TAFT IS FORMALLY PRESENTED TO SOCIETY AT WHITE HOUSE.

COLONIAL STYLE IS REVIVED

Custom of Giving Dinner in Honor of Debutante Is Displaced by Reception and Tea in Famous East Room.

Washington—Arrived in a gown of her favorite rose shade, Miss Helen Taft, the president's only daughter, made her formal debut Thursday at a reception which attracted all Washington society.

This latest bid in the historic bouquet of White House debutantes was formally presented at a tea given in the famous East room where so many notable social events have occurred.

The outward aspect of this event, which has exceeded the anticipation of the buds and blossoms of society for the past three months, was a great crush of automobiles, carriages and pedestrians beginning at the Metropolitan club and extending all the way to the east entrance to the East room. This room was a marvel of lighting and color at the hour at which the doors were opened for the host of friends of the accomplished young debutante. The army, the navy, the corps diplomatique, each with its depth of gold and silver and fur, contributed its share to the luster and beauty of a scene which comes but rarely in the life of the White House.

Nothing could better attest the popularity and esteem in which Miss Taft is held than those tributes, all of which were manifestations of admiration and "pleasing" hope for her future career as a White House belle, which bids fair to equal that of any of the twelve daughters of the nation who have "come out" at the White House.

Miss Taft, in the thirteenth bid of the bouquet but there is lack in old numbers, a fact which was demonstrated by the exquisite features of music, flowers, lights, gaily, enthusiasm and animation of her entrance into the world of society of today.

Of course the president was there and it is needless to say that there never was an occasion on which the Taft smile was more in evidence or more amply justified. It happened, apropos that at the moment when he had finished his message to the people, society assembled to convey its message personally to his charming daughter.

There was a decided innovation in this affair which was due to the tact and discrimination of Mrs. Taft. Heretofore it has been the custom to give a dance for the younger set, after which the presidential bid was at liberty to accept invitations and be considered formally "out." Mrs. Taft, however, reverted to the colonial custom, which included a reception and a personal presentation to society, young and old. This gave her an opportunity of introducing her daughter, not only to her debutante contemporaries, but to the members of the cabinet, army and navy folk, the diplomatic corps and the creme de la creme of society. Mrs. Taft was plainly pleased by the success of the revival of the old style.

REBELS SEIZE CHINESE ISLE

Portuguese Troops and Sailors Rise in Revolt—Drive Out Nuns from Convent.

Macao, China.—This city, a dependency of Portugal, is in the hands of the local garrison and the crew of the gunboat Patria, who revolted Tuesday night, marched to the public square and took possession of the city government at the point of the bayonet.

At the demands of the mutinous garrison, which included expulsion of the religious orders, increased pay for the army and navy and indemnity for alleged wrongs done the sailors and soldiers; were granted by the governor under threat.

The first act of the rebels, who numbered several hundred, was to drive the nuns from the Santa Clara convent. A cannon was then mounted in front of the government house and the officials compelled to accede to the demands. Considerable apprehension is felt among the people, as no guarantee for the security of life and property has been made.

ILLINOIS CENSUS 5,438,591.

Washington.—Illinois has a population of 5,438,591, according to the 1910 census figures, announced here Monday. Cook county contains 2,405,233. This is an increase of \$1,704, or 16.9 per cent over 1,831,529 in 1900. The increase from 1890 to 1900 was 995,139, or 26 per cent. Cook county is one of those showing the largest increases. Many rural counties lost in population.

INDICT THREE ROADS

FEDERAL GRAND JURORS CHARGE RAILWAYS AND SHIPPERS BREAK ANTI-TRUST LAW.

WUE TO GRAIN SHIPMENTS

Those Hit by the Government Are Atlantic Coast Lines, Seaboard Air Line, Miners' Transportation Company and Philadelphia Firm.

Savannah, Ga.—Three large corporations and two individuals were indicted by the federal grand jury in the United States district court here Friday on a charge of infringing the anti-trust laws by giving and accepting rebates on grain shipments.

The Atlantic Coast line and the Seaboard Air line railroads were indicted jointly with the Merchants and Miners' Transportation company for specific violations of the Sherman anti-trust and Kilgus laws.

Harvie C. Miller and Morris F. Miller, grain merchants and members of L. F. Miller & Sons, Philadelphia, were the individuals to feel the wrath of the government. The Miller brothers put themselves in the jurisdiction of the United States court for the southern district of Georgia through their shipments into this district over the lines of the three corporations indicted.

In the indictments dates are given when the individual defendants are alleged to have made shipments over the lines named at rates less than those on the with the interstate commerce commission.

It is alleged that from western points to Philadelphia the Millers obtained export rates where the law demanded domestic rates. This saved them from one to three cents on every 100 pounds of grain shipped.

Morris F. Miller and Harvie C. Miller of Philadelphia were immediately arrested and placed under bonds of \$25,000 each.

FIFTEEN HURT IN WRECK

Passengers Suffer In Accident on the Missouri Pacific Due to a Broken Rail.

Lamotte, Mo.—Fifteen persons were seriously injured when a Missouri Pacific passenger train was wrecked two miles east of Knobloch Friday. Among them were Mrs. Belle Rose, Chicago; Mrs. Josephine Flood, Evansville, Ind.; W. S. Humphrey, St. Louis; E. G. Wood, Lenexa, Kan.; Mathew Matson, Maplewood, Mo.; G. R. Bastland, Nevada, Mo. The wreck was caused by a broken rail.

FIGHTS NEW PULLMAN RATES

ATTORNEYS GENERAL OF SEVERAL STATES OPPOSE PLAN.

Car Company Announces Reduction in Charges for Upper Berths of 20 Per Cent.

Chicago, Dec. 2.—A slash in the Pullman sleeping car rates that is nationwide in its effect and comprises a general cut of 20 per cent, in practically all upper berth rates, and a reduction ranging between 25 cents and \$1 on 20 per cent of the total of the company's lower berths, was announced by G. S. Fernald, counsel for the Pullman corporation, at a hearing before Interstate Commerce Commissioners Clark and Lane.

The voluntary cut in prices by the company came as a surprise and will mean that \$1,750,000, approximately, will be carved from its revenues annually, providing the new rates do not stimulate business.

The reduction suggested by the company, however, is not all that has been demanded, and the above sum may be swelled to \$2,000,000 or more if the attorneys who are appearing before the commission on behalf of varied other interests succeed in convincing the commission that a further cut should be made.

It developed that the attorney generals for the states of Kansas, Indiana, Oklahoma, Arkansas and Iowa, who are seeking to have a reduction enforced, have agreed to "stand pat" on their original demands. In addition, the Santa Fe, Great Northern and Northern Pacific roads believe that the reduction should not be made, the commissioners being informed by representatives of these companies that the contemplated drop in prices will mean a substantial reduction in their revenues.

It is the belief of close observers of the situation, however, that the opposition to be made will not be exceptionally vigorous and that the reductions volunteered by the Pullman company, in the main, probably will be put into effect by the commission. Whatever opposition comes from the railroads, it is thought, will be confined to only a few lines.

91,000,000 PEOPLE IN U. S.

Total Population Estimated on Basis of Results of Count Already Given Out.

Washington.—The total population of the United States, as revealed by the thirteenth census, is expected to be announced by the census bureau December 10.

Counting Arizona and New Mexico as states, the totals for 28 of the 48 states already have been announced. The grand total for 26 of these states is 60,036,769, which is a gain of 21 to 22 per cent over the population in the same states in 1900. At this rate of increase the total population of the country should be about 91,000,000.

The most striking development of the census bureau so far shown is the relative growth of cities and industrial centers compared with farming regions. The eastern states have more than held their own, while the states of the middle west have fallen off.

Wilson Seeks Permit to Leave.

Washington.—Harry Lane Wilson, United States ambassador at Mexico City, Friday applied to the state department for leave of absence from his post. This is interpreted as indicative that conditions in Mexico are approaching a normal state.

Gravesend, England.—Eight persons lost their lives Wednesday when the bark Gratitude collided with a coal steamer in Thames river. The Gratitude sank in two minutes.

CORPORATIONS PAY TAXS HIGH

262,490 CONCERNS MAKE RETURNS UNDER NEW LAW.

Total Amount Collected First Year Totals \$27,000,000, Averaging \$103.97 Per Company.

Washington.—The sweeping importance of President Taft's order for the publicity of corporation tax returns is emphasized by the figures contained in the annual report of Royal C. Cabell, commissioner of internal revenue. According to this report, the books of his office show that these returns have been filed by 262,490 corporations chartered by the various states.

The total capital is \$2,471,626,752. The interest bearing indebtedness of those corporations is \$1,333,952,896.82; net income for the year which the tax ran, \$3,125,481,101.04.

The tax collected for the first year was \$27,290,767.43. This is an average of \$103.97 per corporation.

In the state of Illinois there are 17,908 corporations, aggregate capital, \$31,191,068,968.74; total indebtedness, \$10,832,808,126.87; net income, \$274,321,833.85.

The average indebtedness of corporations in the whole country is 60 per cent of the whole capitalization. In the state of Illinois it is 94 per cent.

According to the report Illinois stands first in internal revenue taxes, the total it pays being \$49,165,273.75. New York is next with \$36,000,000 in round numbers; Kentucky, \$22,000,000 and Indiana, \$28,000,000. There were twenty-four million more gallons of distilled spirits this year than last year, and three million more barrels of cemented liquor than last year.

The total receipts of the bureau for the past year were \$289,957,220.16.

DIAZ IS RE-INAUGURATED

President of Mexico Takes the Oath of Office for Eighth Consecutive Time.

Mexico City.—Gen. Porfirio Diaz was for the eighth time inaugurated president of the republic of Mexico Thursday with simple ceremony. In view of the disturbances through which the country has recently passed, the inauguration was not marked by the season of feasts, which has accompanied it in former years, but was conducted with the same formal dignity and impressiveness.

A ker mess, with which it was planned to celebrate the occasion, was postponed until the Christmas holidays, because of a lack of time to make preparations.

The ceremonies occurred in the hall of congress in the Palace of Mines, where the chamber of deputies has been holding its sessions pending the completion of the beautiful new home of that body. Only the diplomatic corps and a few other distinguished personages in addition to the high Mexican government officials were in attendance.

Following the induction of President Diaz the oath was administered to Ramon Corral, re-elected vice president.

The president and vice-president then proceeded to the national palace where they received the congratulations of diplomats, government officials and private delegations.

REBELS HOLD UP A TRAIN

Cars Ditched, Three Women Killed—Passengers Held Prisoners 24 Hours, but Well Treated.

Torreón, Mexico.—Americans arriving here Tuesday from points in the state of Chihuahua tell of the holding up a few days ago of a passenger train on the Chihuahua & Pacific railroad by revolutionists. Cars were ditched and three Mexican women were killed. There were said to be about 100 revolutionists in the party and the train was wrecked in the belief that it carried soldiers. The affair occurred between Chihuahua and Madera. The passengers were held prisoners by the revolutionists for 24 hours, but were well treated. Upon extorting a promise from the railroad officials not to send a train of soldiers, the passengers were released and were taken back to Chihuahua in a special which went out after them.

INDICT JAMES J. GALLAGHER

Assault of Mayor Gaynor Is Held on Charge of Assault With Intent to Kill.

Jersey City, N. J.—The Hudson county grand jury Tuesday handed up to Judge Blair of the court of common pleas three indictments against James J. Gallagher, the assailant of Mayor Gaynor. Two of the indictments charge atrocious assault with intent to kill Mr. Gaynor and Street Cleaning Commissioner Edwards, and the other the carrying of a concealed weapon.

NEW ERA IN FINANCE

ACCURACY AND PUBLICITY PROVES TO BE A POPULAR MOTTO.

Prompt Response to Bold Move of President Vail—"Accuracy" Reduced Western Union's Surplus \$13,000,000—"Publicity" Restored Confidence and Its Stock Went Up.

Are the great financiers of the country beginning to see a new light? Time was, until recently in fact, when the men at the head of the big corporations "kiss their business to themselves," as far as the law would allow. Capable men at the head of big concerns, long realized the weakness of their position, but what was needed obviously, as in all great reforms, was an unmistakable occasion and a courageous man. The occasion arose in the purchase of the Western Union Telegraph company by the American Telephone and Telegraph company, and the man appeared in Theodore Tilton, president of the purchasing corporation.

It was last December when public announcement was made that the Gould holdings of Western Union had been taken over by the Telephone company.

On account of the high esteem in which the management of the telephone company is so generally held, great things were predicted as a result of the absorption of Western Union. By the press of the country the "deal" was most favorably commented on, it being widely pointed out that under the direction of such men as Theodore N. Vail and his associates, the telephone company was bound soon to work itself into a position far more efficient service than it had ever before been able to give.

But a very few months had elapsed when it became apparent to the new management that a modern and up-to-date appraisal of the company's assets would make possible a far greater degree of efficiency of operation. "Here," they said to themselves, "we've bought control of this property and we know it's immensely valuable, but we don't know just how valuable. These appraisals of real estate and securities owned were made a long time ago. If we have a complete inventory made of every thing we've got we can announce the facts to the public, start a new set of books, and begin our responsibility to stockholders right there."

How inventory Was Taken. The most expert accountants and appraisers to be had were put at the task. Their labors lasted over eight months. Their report and its publication by the company marks an epoch in finance.

It began by recommending an adjustment of the difference between the appraisal and book values by a charge of \$5,595,000 against surplus. Book values of securities held were reduced to market values, bad and doubtful accounts were "charged off," an allowance of \$2,000,000 was made for "depreciation," another of \$500,000 for "reserve," and so on, until the old surplus of \$18,867,000 came down to \$5,135,000.

It required courage, the publication of this statement to stockholders, saying in effect: "The property of your company has been revealed; the surplus isn't nineteen millions, as you have been led to believe, but five millions," but it was the truth, and President Vail did not flinch.

"Accuracy and publicity," he declared, was a right. "The stockholder had a right to know. The shareholders of this company are scattered from one end of the Union to the other. This is more than a private corporation. It is a great national enterprise. The public is entitled to the facts."

The report was ordered published forthwith. Financiers of the old school and speculators generally were aghast. What would happen? Would the bottom drop out of Western Union when the shareholders realized that their property was worth \$13,000,000 less than they had supposed? But the stock went up and stayed up. The public had responded to this remarkable display of frankness and confidence; to the new motto, "Accuracy and Publicity."

The full significance of the action of the new board is stated concisely by Harper's Weekly in these words: "Is this policy of publicity and of open-handed dealing with shareholders and public the forerunner of a similar movement on the part of other big corporations? Certainly it is to be hoped that it is. In the case of these big companies, dependent upon public patronage and doing business under public franchise, can there be any question of the right of the people to know?"

"That right is being recognized. It is recognized now in this epochal act on the part of the telephone and telegraph interests. It is the dawn of a new era in corporation finance."

Timeliness.

All measures of reformation are effective in exact proportion to their timeliness; partial decay may be cut away and banished; impelled error corrected; but the point at which corruption can no more be stayed, nor wandering recalled, it has been the manner of modern philanthropy to remain passive until that precise period, and to leave the sick to perish, and the foolish to stray, while it spent itself in frantic exertions to raise the dead, and reform the dust.—Ruskin.

Rider and Ridden.

I never could believe that Providence had sent a few men into the world, road-booted and spurred to ride, and millions ready saddled and bridled to be ridden.—Richard Rumbold.

Longevity in Birds.

Wild geese have been known to live to the age of 100, and the raven commonly lives 50 years. A record is said to be extant showing that a cockatoo once attained the ripe old age of 81 years.

PESSIMIST RAISES A WAIL

Incidentally Gives a Hard Jolt to Time-Honored Conception of New England Thanksgiving.

"Oh, yes; the New Englanders make a great time of Thanksgiving," said the insurance man as the subject was under discussion. "Yes, they are great on Thanksgiving."

"All the relatives gather for a big dinner, don't they?" was asked. "Yes, My Uncle Ben, up in Vermont, gathered thirty of us at his house last Thanksgiving."

"What a visit you must have had!" "Yes."

"And the lamb, I can picture it." "Can you?"

"There was turkey, goose, duck, chicken, roast pig, and spareribs. There was also a big pumpkin pie and elder. There was a big cottage pudding and cranberry sauce. Ah, it must have been a royal feast."

"Yes, it was," drily replied the insurance man. "My Uncle Ben killed four or four old roosters, his wife made four or five apple pies, and stewed up a peck of grapes, and we sat down to the feast."

"Sure, Mike, if it hadn't been we wouldn't have got the grape." "And—and that was all?"

"All except that, after dinner my Uncle Ben took up an collection for the heathen, and I chipped in 50 cents apiece. My Uncle Ben was the heathen, you know. Oh, yes—New England Thanksgiving. I've been there."

Putting in the Time.

A gentleman was engaging a general man and telling him that he wanted him to do "You will have to clean the windows and the doors and the knives and cutlery, chop wood, cut short grass, mow the horse and feed after the garden and keep the house supplied with vegetables and do any odd job that is required and if suitable you will get ten shillings a week."

"Is there any extra in the garden?" asked the man.

"What makes you ask that?" asked the gentleman.

"I was thinking I could make bricks in my spare time," said the man.

Did the Potato Drop Off the Oil Can

And your wife spoil her best skirt? Was it a pair of new horse blankets or a box of groceries that was placed too close to the can of kerosene? Every farmer has had his experience with the oil can, sooner or later it leaks and becomes a source of annoyance.

Why not get the progressive idea of handling kerosene? You no doubt have noticed your friends and neighbors hauling out tanks of National Light Oil. These gentlemen have solved the problem of handling oil: 300 of them about Wayne car. tell you the advantages. Points they considered: First, quality, because oil cannot be too good. Second, the saving in cost on a year's supply was sufficient to cover the cost of a serviceable tank, complete with a brass faucet. Third, it does away with the aggravating experiences with the leaky oil can. Think of the convenience of stepping to a faucet and drawing oil—once a year to town for kerosene. Come prepared to take out a tank on my guaranteed proposition. Use 10 gallons of National Light from your tank, if you are satisfied you have the best burning oil you ever used your order will be confirmed, if not, the ten gallons cost nothing. None but National Light is offered on such a liberal guarantee.

Miss Emma Hughes, teacher in the seventh grade of the city schools, returned home Saturday from Omaha, where she had been called by the death of her grandfather.

Remember, if you want to buy as good a base burner as was ever made that Otto Voget keeps it. It is the Universal, and every one using it will testify to its excellent qualities.

The following stock shipments were made Sunday night: O. Johnson, two car loads of cattle; Chas. Thompson, two cars of cattle; Andrew Stamm, two cars of cattle; Ted Perry, one load of hogs. All were shipped to South Omaha.

Everybody likes music, and a gift from the stock of musical instruments kept by Otto Voget, the hardware dealer, would be very pleasing. He has phonographs, accordions, concertinas, etc. He also carries a large stock of records for phonographs.

Never is a long while, but many assert they will never use any oil but National Light. It's double refined, especially suitable for lamps. Don't impose on your eyesight by using cheap, inferior oil. Get the progressive idea, a year's supply in a guaranteed tank at a saving of three dollars. Call and examine my list of three hundred constant users of National Light.

Henry Miller, who was one of the old-timers of Wayne county, came down yesterday from Bloomfield where he had been visiting. Mr.

Miller's home is at Chelan, Wash., where he owns a valuable fruit orchard, and where he has lived for ten years. He is 82 years of age, but his friends think he doesn't look to be much more than half that age.

Mrs. A. C. Zehner of Dallas, Texas, lectures in the Presbyterian church at this place next Sunday evening, and according to the reputation of the woman as a speaker, a treat is in store for all who hear her. Prof. E. P. Wilson, formerly of Wayne, now of Chadron, has heard her and writes to a Wayne citizen recommending her very highly.

Fire broke out in the residence of Sam Miller in the eastern part of town yesterday morning, and the alarm hurried the firemen to the place. When they got there they found they did not have sufficient hose with them, and while they were getting more, the flames were extinguished with buckets of water. The fire started from a defective flue, and holes were burned through the ceiling and roof.

At a regular meeting of the Casey Post, No. 5, Dept. of Nebr., held in their hall on Dec. 3, 1910, the following officers were elected: R. J. Roush, Commander; S. Fox, S. V.; Thomas Bell, J. V.; J. W. Bartlett, G. M.; A. J. Ferguson, Chaplain; D. Cunningham, surgeon; James Harmon, O. D.; J. B. Stallsmith, O. G.; A. J. Ferguson, delegate to the state encampment.

W. H. and A. A. Barbee who farm northeast of Carroll, were in Wayne yesterday on business. They are advertising a combined public sale to be held on the farm of W. H. Barbee December 22. They have rented their farms, and expect to remove from the county, W. H. Barbee going to Yakima, Wash., and A. A. Barbee to the northwestern part of Nebraska.

The Rural Home society met today at the home of Mr. and Mrs. Jas. McIntosh, two miles north of town. Today's meeting was the annual occasion of the entertainment of the husbands by the members of the society, and, therefore, they gathered with the ladies at the McIntosh home and were regaled with an excellent dinner. Social amenities made the time pass swiftly and pleasantly.

E. W. Stang is advertising an auction sale at his farm residence one-half mile north of Wayne on Monday, December 19. Having sold his farm, he is preparing to leave Wayne. His horses, cattle, hogs and chickens are high-grade, and his farm machinery is in good condition. His corn, oats and seed potatoes will be in demand. This is one of the first sales of the season, and promises to be a big one.

The evangelistic meetings at the M. E. church closed Sunday night, and while there were few apparent converts, the attendance was good and the interest encouraging. At the men's meeting Sunday afternoon, the question of organizing a brotherhood was talked over, and plans looking to that end are likely to be made soon. Such organizations are important aids to church work in many places, and it is be-

lieved they would be valuable here.

New Royal Neighbor officers elected Tuesday evening are as follows: Oracle, Neighbor Rennie; vice oracle, Neighbor James; chancellor, Neighbor Ash; recorder, Neighbor Barnett; receiver, Neighbor Lamberson; marshal, Neighbor Schroer; In. sentinel, Neighbor Surber; O. sentinel, Neighbor Linke; manager, Neighbor McNeal; manager, Neighbor Bell; musician, Neighbor Lamberson; assistant musician, Neighbor Grosse; delegate, Neighbor Barnett; alternate, Neighbor Grossland.

SCHOOL FAIR BIG SUCCESS

The School Fair, which was held in the basement of the school building on Saturday afternoon and evening was a great success in every respect. The receipts were \$143. This will be expended by the committee on school room decorations, for such pictures and statuary as they see fit in carrying out their plan of systematically and artistically decorating the school rooms.

The public schools wish to thank everyone for so generously contributing to the success of the fair, both in donating and in purchasing the things offered for sale.

The patrons, the pupils, the teachers and the friends of the schools all share equal honors for the success of the fair.

The committee on school room decorations merit particular praise for their tireless devotion to this good cause. Mr. Clyde Oman is hereby given a unanimous vote of thanks for the kind assistance he gave in disposing of the last several articles of the fair.

The loyalty which prevails among Wayne people to their schools always assures success for whatever the schools see fit to undertake.

Natural Antipathy. Work kills a few men, but that isn't why so many are afraid of it.

The Wayne Herald

The Oldest Established Paper in Wayne County Entered at the postoffice at Wayne, Nebraska as second-class mail matter.

Official paper of Wayne and Wayne county Published Every Thursday

Telephone No. 140

To start the Wayne State Normal of right, the legislature ought to fix its appropriation for the first new building at an even \$100,000.

Women were treated as considered in England, as they are in America, there would be less demand for the electoral franchise for them.

The World-Herald expresses a good deal of grief because party regularity compels Governor-elect Aldrich to displace democratic appointees with republicans. It didn't feel that way when Shallenberger was enthroned two years ago.

Every time the mail is distributed, the size of the crowd that gathers at the postoffice reminds one of the need of a federal building. Wayne's postoffice quarters would be considered fair for a town of a thousand people, but they fall far short of answering the demands of present and growing dimensions.

The Emerson Enterprise, in giving an account of the meetings conducted by an evangelist at that place, mentions that a large body of men listened to the story of the evangelist's life and conversion. The paper's recital does not reveal the story, but we trust he was a well behaved man even prior to his conversion.

Dr. Cook has finally come to the conclusion, reached months ago by the rest of the world, that he didn't find the north pole. He appears to have thought the matter over carefully, taking plenty of time to do so, and thus decided that he made a mistake in announcing his discovery. His confession furnishes the basis for a magazine article which will bolster up his finances somewhat.

Congressman Geo. Norris' victory in the fifth district by an increased majority has started talk about senatorial lightning striking him two years hence when Senator Brown's term draws to an end. Also, on the democratic side, Governor Shallenberger appears to be edging towards the senatorship, encouraged by the success which crowned the effort of Congressman Hitchcock.

A movement has been started to persuade the legislature to make an appropriation to extend the services of the labor commissioner in the way of advertising the state and inducing a greater influx of new settlers. It is believed home-seekers from the east are not familiar with the opportunities afforded in Nebraska for living happily and prosperously and dying rich, and therefore, instead of stopping here, they move swiftly across the state and locate in other better advertised but less favored portions of the west. It is proposed to divert the stream of people coming out of the east every year, and persuade as many as possible to pitch their tents permanently in Nebraska.

they place the spiritual idea above the material and sordid.

The average boy has a hard time trying to overcome the obstacles flung in his path by people who imagine he needs knocks instead of boos to prepare him for later life.

In the struggle between the ages of ten and twenty, the boy suffers disadvantage over the girl. She is usually graceful, because she is a girl, while he, being a boy, is usually awkward, and a little slower in learning how to manage his hands and feet. By the public, the girl is greeted with an amiable smile, while the boy, on account of being a boy, is often repelled by a cold and gruff grunt. She is regarded with genial affability, while he is frequently chilled and frozen by contemptuous seniors who can see no reason for treating a mere boy with respect. This discrimination is all wrong. The girl receives no more favor than she deserves, but the boy, too, ought to be given friendly attention and encouragement. When such consideration is most needed is when it is most often withheld. In the period when habits are being formed for life is the time when the boy needs helpful words and healthy environment. Boys should be encouraged as companions, and not simply tolerated. Parents, especially, ought to cultivate the companionship of both boys and girls, and make the home the chief playing and loafing place for them. It is made easier for a boy to form good habits if he is spoken to kindly and treated with the respectful interest due one who is not a mere cipher, but who will in time become a full-fledged American citizen.

Uncle Walt The Poet Philosopher

They are swarming in the cities and the woods; you will find them in all earthly neighborhoods; swiping thunder from their neighbors, profiting by others' labors—you have met them in your walks, the Just-as-goods! Some inventor with a peck or two of brains, may produce a something new in aeroplanes; then the Just-as-goods will start it, rush an airship on the market, and the good man gets his labor for his pains. You may write a little book that hits the spot, something clever; with a brand new line of thought; and the Just-as-goods will grab it, and they'll imitate its habit, and they'll clutter up the bookstores with their rot. You may make a little painting or cartoon; or invent a better way to cook a prune; and the Just-as-goods will travel on your trail, a-scratching gravel, and they'll fill your soul with sorrow pretty soon. E'en a poet who is old and tired and fat finds the Just-as-goods forever standing pat; and they imitate his verses, and he might indulge in curses, but there really wouldn't be much good in that.

Some unknown friend sat down and wrote to me a kind and pleasant note. His sentiments were mighty sweet; his penmanship was plain and neat until he tried to write his name, and then a SIGNATURES fit attacked his frame. His must have suffered fearful pain to make a drawing so insane. Methinks I see him paw the air, and bite the rungs out of his chair. I only hope that some kind soul was there to push him, with a pole, in the ice-chest, there to lie until the fierce attack passed by. How sad it is so many men climb up and ride upon a pen, and splatter ink, and bust their hames, when they attempt to sign their names! The note to which I have referred—could anything be more absurd? I've studied it with tears and groans; sometimes I think that name is Jones, and then again I'd say it's Brown, with sundry letters upside down. Perhaps it's Smith; it may be Duff; I give it up—I've toiled enough. There ought to be some chloride cures for men with dizzy signatures; they make the angry passions rise, they bring hot water to the eyes, they waste the time of busy men, by their gymnastics with the pen.

I've made a million bad mistakes, I've made a million foolish breaks, in this wide world of wonders; and I expect to make some more before I reach that happy shore where no one ever blunders. BAD BREAKS And I shall not apologize, or squint the briny from my eyes, or make long explanations; the breaks I made in other days are made their ghosts I shall not raise, to swell men's tribulations. Of all the useless things men do, the blameworthy is to stand and view the past with grief and wailing; the future, like a sunlit sea, is waiting still for you and me, so let us both go sailing. The future, like a minstrel gay, is singing of a pleasant way, of scenes and days beguiling; the future, like a star-eyed maid (mixed metaphors, I am afraid) is beckoning and smiling. The man who marks the future's curves, and frets about the past, deserves the kicks that he'll be given; he likes to make a friend of woe, and so, wherever he may go, by woe he will be driven.

Where is the stately Mr. Grimes, the noblest man of modern times, whose apple soothes and pleases? He surely is a crackerjack; I'd like to pat him on the back, and hold him on my knees. I'd like to fold him to my breast, and say: "You're apple is the best that ever grew and ripened; I think so much of you that I would share with you my pumpkin pie, my taxes or my stipend." O let the good old name of Grimes be sounded by the evening chimes, and blazoned on the hoarding; his apple drives dull care away, and makes each heart seem light and gay, down here where I am boarding. O let the noble name of Grimes be handed down to future times, embalmed in song and story; his apple cheers, inspires and thrills, incited to splendid deeds, and fills our boardinghouse with glory. 'Twould be the foulest of all crimes if nevermore the name of Grimes should be on earth paraded; for he has brought a new delight—an apple that the gods would bite—and has old Burbank faded. O Grimes, I lack the poet's speech, or I would tell you what a peach you are, you dear old lummix! You've poured some balm upon our smart; you've surely reached the people's hearts, and reached them through their stomachs!

My feet are broad and flat and

large, and either shoe might be a barge. My feet are always in my way; I stumble o'er them every day; and all the people that I meet are ever looking at my feet; I've heard them saying, as they passed, that Cinderella is outclassed. I gaze upon my trilbys wide, and oft my bosom swells with pride, for, though they look like hods of bricks, I've trained them to some useful tricks. If there's a sick man needing aid, those feet will give a street parade, and hasten to his humble door, that I may do some helpful chore. If there's a neighbor plunged in woe, those blamed old trilbys seem to know, and they go scorching down the road, that I may ease that neighbor's load. If there's a sane and helpful plan to benefit the creature man, those feet are straining in their shoes, and not a minute will they lose; they carry me in haste away, that I may butt into the fray. If earnest men, with weapons strong, are battling with some grievous wrong, those trilbys fairly paw the ground, as though they heard the martial sound, and bear me to the scene of strife, that I may fight as for my life. Some people hand me large bouquets, and praise me forty-seven ways, but I'm an idle, trilling skate, content to go a careless gait, who shies at care and toil and sweat—my feet deserve the praise I get!

When luck is dead against you and everything looks black, it does no good to falter or turn upon your track; it does no good bemoaning the errors you have made, or counting all the byways in which your feet have strayed; it does no good insisting that others were at fault, for he who blames his comrades is hardly worth his salt; and weeping never helps you, or makes the way less rough, for tears are only water, and water's washy stuff. Brace up, O weary pilgrim, brace up and be a man! Though fortune sorely sways you, do still the best you can! Dame Fortune often tests us, to see how high we stack, and if she sees us weeping, or turning on the track, she sadly says: "These pilgrims are bargain counter goods; it's not worth while to show them the pathway from the woods!" But if we meet affliction with courage bold and high, she guides us to the valleys where her possessions lie. So do not weep or languish when life seems void of hope, for tears are only water, and water's flimsy dope.

COURAGE

Presbyterian Notes. The work of redecorating and frescoing the Sunday school and parlor rooms of the church has been completed. The room downstairs has also been furnished with new electric lights, making it very attractive.

The social meeting of the young people of the Presbyterian church, which was held at the church parlor room last Friday evening, under the auspices of the Westminster Guild, was a great success. There was a crowded attendance of the young people, and a delightful program was given. Refreshments were also served.

The sermon at the Presbyterian church next Sunday morning will be on "The Eye." This is the third sermon in the series on Christ's teaching through pictorial illustrations. The subject of the "Children's Talk" will be "Two Lamps." In the evening there will be a union service in the church which will be addressed by Mrs. Zehner, a woman who has a message of power to the Christian people of Nebraska, and who is traveling over the state speaking to large audiences in the different towns.

BAPTIST BAZAR. The Baptist Ladies' union will have a bazar December 10, in the basement of the church, and everybody is invited to attend and take advantage of the opportunity to buy Christmas presents. The ladies will serve a chicken pie supper at the church beginning at 5 o'clock p. m. Pie will be on sale at the mothers' booth. You can buy all the candy you want at the sweetheart's booth. Don't forget the baby's booth where there will be lots of pretty things for the little ones. At the childhood's booth will be many little garments and beautiful, dressed dolls. The bride's booth will be pure white, with fine embroidered things for sale. Any one wanting anything in this line should be on hand early. The spinster's booth will have most anything you could want, such as tea pots, dusting caps, dusting bags, kensington bags and aprons. Grandmother's booth will have comforts, caps, aprons and other things.

CHARLES EMERSON AUSTIN'S VISIT TO WAYNE. The people of Wayne will be able to enjoy a great treat next Friday evening in hearing the popular reader and impersonator, Charles Emerson Austin. He will give a vast program, literary, humorous, and popular, at the Presbyterian church on that evening, beginning at 8:00 p. m. Mr. Austin is at his best in the Monologue, and his rendering of Enoch Arden, Tennyson's masterpiece, will be a rare opportunity for all students of literature to hear this charming story. Admission is free to those having season tickets for the C. E. lecture course, but a charge of 25 cents for adults will be

made for others. A flat admission charge of 15 cents has been arranged for in case of all students in Wayne, both of the high school and those at the State Normal school. This low student rate is made to enable every student to take advantage of this rare literary treat. DROPSY CAUSES DEATH. Benjamin Hutchinson, aged 29 years, died at the home of his wife's mother, Mrs. R. S. Olmstead, in Wayne, Saturday morning at 8 o'clock. He was stricken with heart trouble while living in Chamberlain, S. D., last February, and accompanied by his wife, came to Wayne in March. Heart trouble turned to dropsy, and the young man's condition grew gradually worse.

Mr. Hutchinson was born in Walnut, Io., and resided for a short time in Wayne about six years ago. Besides his wife, he leaves a father and mother who live at Hartington, and one brother, Charles Hutchinson, who lives at Coleridge. Funeral services were conducted at his late home Monday afternoon at 2 o'clock by Rev. Parker Smith of the Baptist church. The deceased was a young man of good qualities, and was esteemed by those who knew him. To the sorrowing relatives, the sympathy of the community is extended. Henry Bartling went to Winside Saturday night and from there expected to go to O'Neill.

Useful Christmas Presents

Are the ones most appreciated by a majority of your friends, and this is the kind we have taken the most pains to put in stock. You may be very sure that everything we offer you, from our large and varied assortment will be the best of its class and dependable in every respect. Exchange of sizes will be cheerfully made after Christmas and we can only mention a few of the lines, that we have taken special pains to have complete:

LADIES' COATS! Here we will make SUBSTANTIAL REDUCTIONS in price as our stock is too large. You don't have to wait till after the holidays for this cut in price. The same is true of Misses' and Children's Coats.

A large selection of **SEPARATE SKIRTS** on which very small profits will be asked. Every skirt shown is of the best workmanship and cloth for the price.

LADIES' AND MISSES' FURS! A good selection of the new things in furs. Scarf and Muff sold separately or together. We guarantee satisfaction in all furs. Nothing makes a lady a nicer present.

LINEN OR SILK WAISTS, all ready to put on. Perfect fit and workmanship. Often at less price than the cost to make at home.

LADIES' KID GLOVES, all the new shades. We sell the best \$1.50 kid glove in the county (a real French kid) and guarantee the same. All kinds of Golf and Fabric Gloves and mittens for Ladies and Children—not to mention the Men, we don't neglect them.

HANDKERCHIEFS! Here is where WE DO SHINE. We selected this line while in Chicago and had them packed and shipped for this holiday season. We have any quantity of Irish Hand Embroidered handkerchiefs. The daintiest pattern you ever saw at 35c to \$1 each. Also hundreds of fine cambric and linen handkerchiefs at 5c to 25c.

LADIES' AND GENT'S HOUSE SLIPPERS are nice gifts. We have them in all sizes and guarantee a fit. See us for all footwear needs. "Bannigan" Rubbers are the best.

Very suitable and useful gifts of which we have a complete assortment are **LADIES' SWEATERS, Men's Coat Sweaters, Boys' and Children's Sweaters, Knit Mufflers, Neckties (Ladies' or Gent's), Belts, Combs.**

SILK WAIST PATTERNS, Single Dress Patterns, no two alike.

RIBBONS for the hair, a special assortment at 10c and 15c, all silk.

Something new in **SILK SCARFS,** "Senorita Silk Spun", for the head. You must see these. The latest and best, all colors.

100 FINE VELVET RUGS (make a useful present to any home) worth up to \$2.50, a special price of \$1.50 while they last.

WE DID NOT FORGET THE KIDS. See our display tables loaded with Dolls, Dishes, Games and Toys, all priced at the lowest figure. Finish out those Punch Cards and get a Dinner Set or that Rocking Chair NOW. Wishing you all a Merry Christmas, we are yours truly,

Wm. Shorten and wife and children returned to their home at Orchard, Neb., Tuesday, after visiting Mr. Shorten's mother, Mrs. James Shorten.
Herman Henney, H. S. Wilson, Dr. Williams, Wm. Lessman and J. P. Gaertner were called to Ponca Tuesday afternoon as witnesses in the Flege trial.
Mrs. Elsie Dittell has received a card from Mrs. Henry Ley, written at Salt Lake City, saying that she and Mrs. Vincent had had a safe and pleasant journey.
Miss Fairchild, teacher in the Model School, returned Monday from Peru where she was called by the serious illness of father. She left her father much improved.
At the M. E. mid-week service this week, Rev. William Gurst, the pastor, treated briefly church history and doctrine, preparatory to the admission to membership of several next Sunday.
J. W. Bartlett and wife and Dr. Thomas started Tuesday on their trip south, going from here to Chattanooga, Tenn. Mr. and Mrs. Bartlett expect to spend the winter in Florida, returning to Wayne next March.
The far east has been in the clutches of a blizzard this week, with travel and traffic impeded. People used to look to Nebraska for blizzards, but of late years the scene of such storms has been located in the east.
C. F. Whitney sold \$12 worth of pure-bred chickens in one day as a result of advertising in the Herald, and seldom a day passes without an order from some source. He has high-class stock to offer, and follows the right course in appraising the public.
Dr. C. S. Lutgen of Auburn, and Dr. Morris of Lincoln, were here Monday between trains to see the former's brother, Dr. S. A. Lutgen, who is recovering from typhoid fever. The sick man is gradually improving, as his friends will be pleased to know.
The social given by the Westminister Guild of the Presbyterian church Friday night was largely attended, and hugely enjoyed. Games, a pantomime and musical selections furnished amusement, and were followed by the serving of pineapple ice and cake.
It is figured that the uniformed newspaper clack in the east about an enormous corn crop is keeping the price down. A local corn grower says the crop is not large, but smaller than usual, and that prices would be going up instead of down if it were not for the limber imagination in the east.
LAND BARGAINS—Deeded Indian lands in that part of the Sioux Reservation soon to be opened for settlement. Buy before the opening and railroad. Land at \$16 to \$20 an acre that will produce crops equal to eastern Nebr. The finest undeveloped country remaining in the west. Call on or write, Interstate Land Agency, Merriman, Neb.
On Tuesday J. G. Mines moved

his jewelry stock into his splendidly finished new building, and is now ready to greet and serve the public there. As usual in putting up new buildings, completion came slower than expected, but now that it is done, the delay and annoyance seem to have been fully justified in the realization. A sign equal to the best in the business district of Omaha, adds attractive up-to-dateness to an already metropolitan store front. Mr. Mines has an elegant building, correctly appointed for his business.
The Enterprise of Spaulding, Neb., announces the marriage of Miss Mary Olive McGinty, formerly of Wayne, to Mr. B. E. Moriarty of Minneapolis, Minn., at Spaulding, on November 30. The bride lived in Wayne some years ago, and was esteemed by a large circle of friends. She has been teaching school at Spaulding. The newly wedded young people arrived in Wayne the latter part of last week to visit the John Massie family, stopping here on their way to their future home at Minneapolis. Wayne friends will extend hearty good wishes.
Mrs. W. R. Gillett who lives six miles northwest of town, had a narrow escape from serious injury last Saturday. She was driving to town in a buggy with one horse, and passed the wagon and team of Oscar Krause who left them standing in the road while he went into a field to talk to a neighbor. On passing it, Krause's team started and overtook the buggy of Mrs. Gillett catching one wheel of the vehicle and turning it over. Mrs. Gillett was thrown out and her buggy was demolished. Fortunately she escaped without injury. A buggy in the neighborhood was secured for her, and she came on into town.
The excursion to the Texas Gulf coast country, accompanied by a brass band, started Tuesday afternoon, going by way of Omaha and Kansas City. Phil H. Kohl is the Wayne promoter of the excursion, and he is represented on the trip by Martin Ringer. Messrs. Bohner, Shook, Buroker, Root, and Herman and Jas. Ballard were Wayne members of the band who went. Of those who made up the excursion, a number came from Laurel, Emerson and other outside points. What promises to be a much bigger excursion to Texas, under the same leadership, will take place in January. Many who were prevented by the holiday season from going now, will go then.
Some exception is taken to the city marshal's claim that the town is more orderly and law-abiding than it has been before in many years. Any one feeling that the marshal is mistaken in his conclusions, ought to point out his error to him and set him right. If there are infractions of the law that he hasn't found out about, he should be told. Any one having knowledge that the city is not as law-abiding as the marshal represents it to be, ought to reveal what he knows and be able to furnish sufficient proof of his knowledge. People are not usually grieved and distressed by the assurance that progress is being made in the matter of law-observance, and so it may be assumed that any one taking exception to the statement knows something that he ought to tell.

Practical, Sensible Gifts

Every year a lot of holiday money is wasted on mere trinkets which possess neither usefulness nor beauty and which in a few weeks are discarded. Why not give sensible gifts this year? These things which convey fully your good will, are far more acceptable and certainly show better judgment than gifts chosen for their showy qualities. We have scores of these better gifts of which the following will give you only a hint:

Brushes

High-grade hair, tooth, clothes, hat and various other brushes, singly and in sets, in such materials as French stag, ebony, foxwood, and other fine natural woods. Some mounted with Sterling Silver or Oriental Pearl.

Toilet Sets

Combination toilet sets—brush, comb and mirror, at a score of prices. The quality is of the kind you would select if you were as well posted on values as we are.

Manicure Goods

Have them in single pieces and in sets. Each piece is made specially for use. Some full sets in handsome, silk-lined cases.

Perfumes

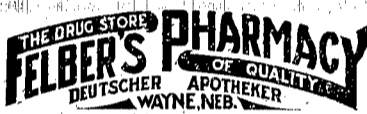

Perfume is always looked for at Christmas time. We have none of the ordinary "holiday perfumes" in which more attention is given to the package than the odor. We sell the same goods we sell the year round and we cannot match them for excellence. Also have all the good triple extracts, colognes, toilet waters, sachet powders, etc., and some of the prettiest atomizers ever seen here.

Leather Goods

Our usual ample line of pocket books, hand bags, purses, card cases, bill books, cigar and match boxes, etc., has been considerably augmented for the holiday season. These are always acceptable gifts and getting them here you escape paying the usual holiday profits.

Stationery Items

Our stationery line contains many good gifts which should not be overlooked—fine box papers, ink wells, desk sets, letter openers, gold and fountain pens, etc.

Christmas Greetings

As Christmas draws near we know many ladies are puzzled to know what to give a man—husband, son, brother, friend; it's an annual problem.

Now, we want you to know that we recognize the difficulty presented by this problem; and that we've made some special preparations to help you solve it satisfactorily.

It seems to be quite clear that the best present you can give a man, is to give him something he wants. And naturally, the best place for you to get what a man wants is to go to the place where HE gets what he wants.

This store is that sort of a place; full of things a man wants; things for his special or his regular needs; big things such as Hart Schaffner & Marx suits and overcoats; small things such as a handsome cravat, a pair of gloves, house coat, bath robe or slippers.

We can hardly include in a letter all the things we have. We offer you our help in selecting what you want; and anything you get here that isn't satisfactory may be returned.

Respectfully,

DAN HARRINGTON.

United Doctors

WILL MAKE ANOTHER VISIT TO WAYNE ON

Thursday, December 15

The Famous Specialists will be at the Boyd Hotel on that day and may be consulted there.

ONE MORE WEEK OF THE CONTEST—HAVE YOU VOTED?

The contest votes were counted this week for the last time until the judges make the final count which will take place at the Herald office as soon as the contest closes Saturday, December 17. From now on there will be no information given out as to the standing of the contestants, for the ballot box will not be opened to make a count and there will be no information to give out. The contestants are now doing their hardest work and they will no doubt accomplish more from now on until the close of the contest and turn in more votes on the last day of the contest than all the rest of the time put together.

Here is a hunch that will mean a great many votes for the contestants if they will push it: Since the contest started a great many subscriptions have been turned in for the Herald that did not include the Nebraska Farmer. Contestants may now turn in the Nebraska Farmer at the fifty cent rate on all subscriptions they have turned in for the Herald alone and the fifty cents will count for the regular 800 votes. One contestant cannot turn in the Nebraska Farmer subscriptions on Herald subscriptions that have been turned in by another contestant and cannot turn them in for a longer time than the Herald has been paid for.

Contestants should remember this and see that the Nebraska Farmer is added to each subscription they have turned in for the Herald alone as each fifty cents of this kind will mean 800 votes.

We will also allow contestants to turn in subscriptions for three years to the Nebraska Farmer alone at the rate of \$2.00 for the three years and such subscriptions will count for 2400 votes.

Contestants should keep busy from now as the time is short. It is all up to you. Someone is going to get an automobile and someone a piano only a week from next Saturday. You would have to work a long time at any other work in order to make enough to buy one of these prizes. Are you going to stand by now and lose out by not doing your best, and the last week of the contest? Of course you are not. You cannot afford to lose out and the only way to keep from it is to do your best from now on and have as many votes as possible in the ballot box at 6 p. m. Saturday, December 17.

The standing this week is as follows:

Jas. Steele	65,800
Albert Sahls	63,077
Mrs. Roy E. Fisher	58,970
Marie James	51,300

SPECIAL NOTICE.

Having sold my business and expecting to give possession January 1, I am desirous of closing all book accounts between December 20th and January 1st 1911. All who are owing me an account will confer a favor by making settlement by that time. Respectfully,
DAN HARRINGTON.

PRIZES FOR DAIRY ESSAYS

Nebraska Dairymen's Association Offers Cash Inducements.

The Nebraska Dairymen's Association offers \$100 in premiums for essays on the following subjects:

No. 1.—Why is the silo a profitable investment for a Nebraska farmer? First prize, \$75; second, \$10; third, fourth, fifth, sixth, seventh, eighth, ninth, tenth, eleventh, twelfth, thirteenth, fourteenth, fifteenth and sixteenth, \$5 each.

No. 2.—How would you conduct dairying on a Nebraska farm? First prize, \$75; second, \$10; third, fourth, fifth, sixth and seventh, \$5 each.

In addition to the above a prize of \$5 is offered for the best essay on question No. 3, written by a student in attendance at a state normal school.

A similar prize of \$5 will be given for the best essay on the same question written by a student in attendance at the university school of agriculture; another prize of \$5 is offered for the best essay on question No. 4 written by a student in attendance at a high school.

Students of the normal schools, school of agriculture and high schools need to write only one essay on the silo in order to compete for all the premiums offered for question No. 1, but the essays should bear the endorsement "normal school" school of agriculture, or "high school," as the case may be.

The association also offers \$150 in prizes for judging dairy cows, the winners to take place at the university farm on Friday, January 20.

Each essay is to contain not less than 1,000 words nor more than 1,500, in typewritten form on one side of the sheet only. According to the conditions, no name shall be signed to an essay, but enclosed therewith on a separate sheet shall be sent the name and address of the author. All essays are to be the property of the association and prize essays to be read at the annual meeting of the association to be held at Lincoln, January 18 to 20, at which time awards of prizes will be announced. All essays, in order to compete for prizes, must be mailed not later than January 1 and addressed to Professor A. L. Hancock, university farm, Lincoln, Nebraska, relating to the silo may be had free, by addressing Professor W. L. French at the university farm.

Any resident of the state may compete for the above prizes. Charles Harding of Omaha is president, S. C. Bassett of Gibbon is secretary.

WAITED FIFTY YEARS. Cute Cord Wood from Grave He Planted Fifty-two Years Ago.

Fifty-two years ago Hon. D. T. Skeen, and his brother Andy got out a grove of trees on the home place west of Nemaha. On last Thursday Mr. Skeen was in Auburn with a load of cord-wood cut from that selfsame grove that for over half a century has been slowly coming to maturity.

While possessing a somewhat sentimental interest, the wait of five decades between planting and harvesting is hardly an inducement for the younger generation to go to the grove of cord wood on an extensive scale.

Patient in Hastings Asylum Suddenly Remembers Who He Is.

Hastings.—After wandering about the country for months, unable to remember his name or his place of residence, Otto A. Withlun has suddenly regained his mind, and has been returned to his home near Gothenburg.

Withlun underwent an operation for appendicitis some time ago, and lost his mentality as a result. His mind is now clear and his memory is perfect as far as events up to the time of the operation are concerned.

Had Narrow Escape. Nebraska City.—Monroe W. Wright and family nearly lost their lives in a fire which destroyed the dwelling and all the household effects. Mrs. Wright was awakened by her baby's coughing and discovered the house on fire and the rooms filled with smoke. She awakened her husband and he hurriedly assisted his wife to leave the house. By the time the family was safely out of doors the entire structure was ablaze. No cause is known for the fire.

Church Women Ship Over 30,000 Pounds to the Factories This Week.

Auburn.—The ladies of the Christian and Baptist congregations of this city have been collecting old papers for some time, and last week shipped a carload to the factories at Marshall, Ill.

There was over 30,000 pounds in the shipment, which will bring the ladies quite a neat sum of money in response to their labors.

Funeral of Conductor Spence. Fairbury.—The funeral of the late Peter Spence was held from the Methodist church Sunday. Mr. Spence was the Rock Island conductor who was run over at Beatrice Thanksgiving night. The funeral was one of the largest ever held in the city. The Order of Railway Conductors and Brotherhood of Locomotive Engineers attended the church in a body. Mr. Spence was an unusually popular conductor among the railroad employes on the Rock Island. The remains were buried in Fairbury cemetery.

STATE CAPITAL LINCOLN CHAT.

A Uniform Standard.

A new standard for state teachers' certificates was adopted at a conference of the normal school and college men in attendance at the state teachers' association.

The question was presented to the meeting under the discussion of the question of whether the state should hold to the time element as fixed by the northwestern association of colleges and secondary schools in the matter of life-educative requirements.

Mr. Ludden took the ground that Nebraska should adopt the same standard as other states. His plea for a ruling by this association similar in character met with a warm reception, and led to a unanimous adoption of it.

As the ruling of this association is almost equivalent to a law for the state, the matter is of importance to all teachers and those preparing themselves for the profession. It calls for a four years course in high schools, not only in the matter of credits, but in the element of time. Three and a half years being the maximum limit under this rule, the minimum time was cordially approved by those present.

It was asserted that it meant a great advance in educational work in the state, and brings all the forces interested in the matter of certificates into agreement with each other.

Students Work Their Way. According to a report of the university Y. M. C. A. employment bureau, students working their way through school earn approximately \$137,000 each school year. The bureau has made an investigation wherein interviews were had with every tenth man registered in the colleges of arts and sciences, of medicine, of law, and of engineering. Of 145 men examined, seventy-five were paying their expenses in whole or in part by their earnings during the school year. Their cash earnings amounted to \$9,800 and board and room earnings added \$1,900 to this amount. If the total for the 145 men enrolled at the city campus is proportionate to these figures, over \$17,000 is earned annually, over half of the students doing work of some kind. Further data is to be gathered.

Shift in District Lines. Census figures for Nebraska show that a shift of congressional district lines is necessary even if the state re-tains the present number of congressmen. The First, Second, Fourth and Fifth districts each have fewer people than the average. The first district is far below the average while the sixth district has fully 60,000 more population than the first.

Following is the population by districts: First, 164,305; Second, 190,408; Third, 233,191; Fourth, 189,679; Fifth, 176,901; Sixth, 226,775. The average of a district is 236,000. The average of the state is 198,700.

62,000 Books in State Library. State Librarian Lindsay has filed a report with the governor showing that there are now 62,318 books in the state library. The library has been increased nearly 1,000 volumes during the last six months, 286 volumes having been acquired by purchase and 614 by exchange or donation. There are on hand 25,434 volumes of supreme court reports. During this period the state librarian has turned \$383.25 over to the state treasurer, \$85 of this sum being derived from the sale of some laws and the remainder from the sale of court reports.

Organized Agriculture. Organized agriculture holds meetings at Lincoln January 16 to 20, 1911. Agricultural, horticultural and live stock subjects will be discussed each day. In the evening discussion, Tuesday will be assigned to horses, Wednesday to swine and Thursday to cattle, and a general soil discussion is set for Friday morning. This is the great farmer meeting of the year.

Adjutant General Hartigan has reviewed the findings and sentences of the military court martial appointed to pass upon charges filed against members of the Nebraska national guard. He has modified the findings in some instances, but they will not be made public till Governor Shallenberger, commander in chief, signs his name to the documents.

The battery of field artillery offered by the war department has not yet been accepted. The Nebraska national guardsmen of Beatrice have the first chance. The state will pay \$1,000 a year and the city that obtains the prize must pay \$2,000 a year for the maintenance and care of the equipment. No city has yet signified its desire to pay that amount.

Failure on the part of Omaha property owners and agents to equip buildings with fire escapes will result in numerous prosecutions. Deputy Labor Commissioner Laughlin having notified the county attorney's office that he will hasten to Omaha to swear to the complaints.

The application of the Lincoln Traction company for permission to raise its fares to a straight five cent rate, briefs in which were filed some time ago, will be heard commencing December 16. The city of Lincoln is a party to this hearing.

A petition signed by residents of the western part of McPherson county has been filed with the governor asking that the forgotten county of Ar. be revived and put upon the map once more. A provisional board of county commissioners is proposed and a county clerk is also suggested. There are fourteen signers to the petition. It is said that about 1,000 people live in the area from which a new county may be created. Arthur county has existed legally for thirty years or more, but no one has thought of its existence. Why it was swallowed up

ALL OVER NEBRASKA

Population Loss and Gain.

Following is a table of increases and decreases of Nebraska's population in the last ten years.

Table with columns: County, Inc., Dec. Lists counties from Adams to York with population changes.

Charged With Bootlegging. Gage County.—J. C. Sedgwick of Burdick, Neb., aged 60 years, and a cripple, was brought to Beatrice by a deputy United States marshal and arrested on the charge of bootlegging.

Says He Blowed Safe. Dodge County.—Coming into the police station at Fremont, George Tuttle, a transient character, gave himself up to the police, claiming that he had assisted in the blowing up of a safe at South Bend, Neb., five years ago, and that he had never been punished for the crime.

Woodmen Day at McCook. Red Willow County.—The rally and class adoption of the Modern Woodmen of America was held in McCook and exceeded anything of that character ever attempted in that section of the state before. Hundreds of Woodmen from within a radius of 50 miles were present.

Land Office at Omaha. Douglas County.—Omaha is to be the location of the land office of the government, an order having been issued for the transfer to that point of part of the land office force now located at Cheyenne. The transfer will take place shortly, but the exact time has not been determined.

Magoon in Lincoln. C. E. Magoon, former governor of Cuba, former governor of the Panama strip and interested in Mexican affairs, arrived in Lincoln to remain for about two weeks. He has not been in the government service for a year and a half and has spent most of his time in Washington. In an interview he said that the progress made by the Cubans since the United States withdrew from the island has led him to believe that American intervention in the affairs of the island will not again be necessary.

Section Man Found Dead. Cedar County.—Charles Jones, section foreman employed by the C. St. P. M. & O. railway at Sholes, was found dead beside his handcar a mile and one-half west of Sholes, where he had evidently fallen. He was alone and pumping his car from Randolph to Sholes. The supposition is that death came from heart failure as there were no marks upon the body and no train had struck his car.

Illegal Fencers in Jail. Adams County.—W. G. Comstock, Aquilla Triplett and "Parson" Jameson, brought to Hastings to serve sentences in Adams county jail for illegally fencing range land, spent their first day in jail arranging things in their cells. Fine guns have been bought for the cells and telephones and extension electric lights put in for their exclusive use. For the present they will have only the prison fare, as there has been some hitch in the negotiations with the Japanese chef, who has not yet arrived.

Wants \$25,000 Damages. Otoe County.—Miss Lulu Lloyd, through her attorney, has filed a suit against George W. Justice asking for \$25,000 damages for a breach of promise. The plaintiff is one of the best known young women in Nebraska City.

Walthill Wants to Be County Seat. Thurston County.—Walthill has opened its campaign for the county seat of Thurston county. Over 800 of the necessary 1,146 signatures to the petition for a special election have at this writing been secured.

INNOCENT OF THE COUNT.

Mrs. Garner.—Say, did you say you wasn't former? to do no work for dat dinner?

Boston Billings.—Ah! ma'am, I assure you the double negative is a solecism I've never been guilty of.

16 YEARS OF SKIN DISEASE

"For sixteen long years I have been suffering with a bad case of skin disease. With a cure that broke out a red sore on the legs, just in back of my knees. It worked from bad to worse, and at last I saw I had a bad skin disease. I tried many widely known doctors in different cities but to no satisfactory result. The plague bothered me more in warm weather than in winter and being on my leg joints it made it impossible for me to walk, and I was forced to stay indoors in the warmest weather. My hopes of recovery were by this time spent. Sleepless nights and restless days made life an unbearable burden. At last I was advised to try the Cuticura remedies [Cuticura Soap, Ointment and Pills] and I did not need more than a trial to convince me that I was on the road to success this time. I bought two sets of the Cuticura Remedies and after they were gone I was a different man entirely. I am now the happiest man that there is at least one true cure for skin diseases. Leonard A. Hawley, 11 Nostrand Ave., Brooklyn, N. Y., July 30 and Aug. 8, '09."

The Big Show. The personally conducted tourists were viewing the Egyptian pyramids. "Goodness gracious!" ejaculated Mrs. Newrock. "It must have cost a pile of money to build them."

"Surest thing you know," said Mr. Newrock, "but don't imagine for a moment that any one tourist agency stood for all the expense—it was probably a jackpot affair!"

Discouraging. "George," said her husband's wife, "I don't believe you have smoked one of those cigars I gave you on your birthday."

"That's right, my dear," replied his wife's husband. "I'm going to keep them until our Willie wants to learn to smoke."

Some of Cautionness. Seymour Young Tiger looks like a cautious man.

Ashley—He is cautious; he's so cautious that he wouldn't ask the prettiest girl in all the world to let him see her home unless he had learned how far away she lived.

Important to Mothers. Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it bears the Signature of J. C. Ayer & Co., Lowell, Mass. In Use For Over 30 Years. The Kind You Have Always Bought.

Wanted a Change. Milkman—I see by the papers that a Frenchman has invented a new way of transforming water into milk.

Customer.—Well, I hope you'll adopt it. I'm getting awfully tired of the old way.

SPOLIN'S DISTEMPER CURE will cure any possible case of DISTEMPER, PINK EYE, and the like among horses of all ages, and prevents all others of the same kind from being the disease. Also cures chicken cholera, and dog distemper. Any good drug store, can supply you, or send us a note, and we will mail you the Agency wanted. Free book, Spolin Medical Co., Spec. Contagious Diseases, Goshen, Ind.

A Meritorious Act. Mr. Cynic—Tell me one thing you ever did for your fellow men?

Mr. Optimist—This morning I kicked a banana peel off a sidewalk.—Judge.

Thousands of country people know that in time of sudden mishap or accident HAINES VITROL OIL is the best substitute for the fat and sleet on the road. It is so often found upon the shelf.

To Put It Mildly. "They say he has a swelled head." "I must admit that he seems to appreciate himself very much."

One Thing That Will Live Forever, PETER'S EYE SALVE, first box sold in 1807, 100 years ago, and still the best. All druggists or Howard Bros., Buffalo, N. Y.

The man who has a good reputation may not be able to realize the fun he might have if he didn't.

Mrs. Winslow's Soothing Syrup. For children teething, softens the gums, reduces inflammation, allays pain, cures wind colic, &c. A bottle.

Fairy tales are made out of the dreams of the poor.—Lowell.

Dr. Pierce's Favorite Prescription

In the best of all medicines for the cure of diseases, disorders and weaknesses peculiar to women. It is the only preparation of its kind devised by a regularly graduated physician—an experienced and skilled specialist in the diseases of women.

It is a safe medicine in any condition of the system. THE ONE REMEDY which contains no alcohol and no injurious habit-forming drugs and which creates no craving for such stimulants.

THE ONE REMEDY so good that its makers are not afraid to print its every ingredient on each outside bottle wrapper and attest to the truthfulness of the same under oath.

It is sold by medicine dealers everywhere, and any dealer who hasn't it can get it. Don't take a substitute of unknown composition for this medicine of known composition. No counterfeit is as good as the genuine and the druggist who says something else is "just as good as Dr. Pierce's" is either mistaken or is trying to deceive you for his own selfish benefit. Such a man is not to be trusted. He is trifling with your most priceless possession—your health—may be your life itself. See that you get what you ask for.

PUTNAM FADELESS DYES

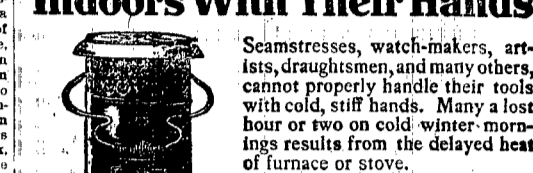

Color more bright and faster colors than any other dye. One tin package colors all fabrics. They do it with less water than any other dye. You can dye any garment without tracing marks. Write for free booklet—How to Dye, Bleach and Mix Colors. MORRIS BROS. CO., Quincy, Ill.

People Who Work Indoors With Their Hands

Seamstresses, watch-makers, artists, draughtsmen, and many others, cannot properly handle their tools with cold, stiff hands. Many a lost hour or two on cold winter-mornings results from the delayed heat of furnace or stove.

The Perfection Oil Heater in a few minutes gives the temperature that assures the worker warm hands and pliable muscles. The

PERFECTION SMOKELESS OIL HEATER Absolutely smokeless and odorless

quickly gives heat, and with one filling of the font burns steadily for nine hours, without smoke or smell. Has automatic-jacking flame spreader which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back so the wick can be quickly cleaned.

It has a temper top and a cool handle. Indicator always shows the amount of oil in the font. The "fl" cap does not need to be screwed down; it is put in like a cork in a bottle, and is attached to the font by a chain, and cannot get lost.

The burner body or gallery cannot become wedged, because of a new device in construction, and consequently, it can always be easily unscrewed in an instant for re-wicking. The Perfection is finished in iron or nickel, is strong, durable, well-made, built for service, and yet light and ornamental.

Practical, Sensible Gifts

Every year a lot of holiday money is wasted on mere trinkets which possess neither usefulness nor beauty and which in a few weeks are discarded. Why not give sensible gifts this year? These things if well chosen fully convey your good will, are far more acceptable and certainly show better judgment than gifts chosen for their showy qualities. We have scores of these better gifts of which the following will give you only a hint:

Brushes

High-grade hair, tooth, clothes, hat and various other brushes, singly and in sets, in such materials as French stag, ebony, fox-wood, and other fine natural woods. Some mounted with Sterling Silver or Oriental Pearl.

Toilet Sets

Combination toilet sets—brush, comb and mirror, at a score of prices. The quality is of the kind you would select if you were as well posted on values as we are.

Manicure Goods

Have them in single pieces and in sets. Each piece is made strictly for use. Some full sets in handsome, silk-lined cases.

Perfumes

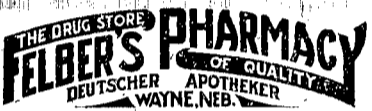

Perfume is always looked for at Christmas time. We have none of the ordinary "holiday perfumes" in which more attention is given to the package than the odor. We sell the same goods we sell the year 'round and we cannot match them for excellence. Also have all the good triple extracts, colognes, toilet waters, sachet powders, etc., and some of the prettiest atomizers ever seen here.

Leather Goods

Our usual ample line of pocket books, hand bags, purses, card cases, bill books, cigar and match boxes, etc., has been considerably augmented for the holiday season. These are always acceptable gifts and getting them here you escape paying the usual holiday profits.

Stationery Items

Our stationery line contains many good gifts which should not be overlooked—fine box papers, ink wells, desk sets, letter openers, gold and fountain pens, etc.

Christmas Greetings

As Christmas draws near we know many ladies are puzzled to know what to give a man—husband, son, brother, friend; it's an annual problem.

Now, we want you to know that we recognize the difficulty presented by this problem, and that we've made some special preparations to help you solve it satisfactorily.

It seems to be quite clear that the best present you can give a man, is to give him something he wants. And naturally, the best place for you to get what a man wants is to go to the place where HE gets what he wants.

This store is that sort of a place; full of things a man wants; things for his special or his regular needs; big things such as Hart Schaffner & Marx suits and overcoats; small things such as a handsome cravat, a pair of gloves, house coat, bath robe or slippers.

We can hardly include in a letter all the things we have. We offer you our help in selecting what you want; and anything you get here that isn't satisfactory may be returned.

Respectfully,

DAN HARRINGTON.

United Doctors

WILL MAKE ANOTHER VISIT TO WAYNE ON

Thursday, December 15

The Famous Specialists will be at the Boyd Hotel on that day and may be consulted there.

ONE MORE WEEK OF THE CONTEST—HAVE YOU VOTED?

The contest votes were counted this week for the last time until the judges make the final count which will take place at the Herald office as soon as the contest closes Saturday, December 17. From now on there will be no information given out as to the standing of the contestants, for the ballot box will not be opened to make a count and there will be no information to give out. The contestants are now doing their hardest work and they will no doubt accomplish more from now on until the close of the contest and turn in more votes on the last day of the contest than all the rest of the time put together.

Here is a hunch that will mean a great many votes for the contestants if they will push it: Since the contest started a great many subscriptions have been turned in for the Herald that did not include the Nebraska Farmer. Contestants may now turn in the Nebraska Farmer at the fifty cent rate on all subscriptions they have turned in for the Herald alone and the fifty cents will count for the regular 800 votes. One contestant cannot turn in the Nebraska Farmer subscriptions on Herald subscriptions that have been turned in by another contestant and cannot turn them in for a longer time than the Herald has been paid for.

Contestants should remember this and see that the Nebraska Farmer is added to each subscription they have turned in for the Herald alone as each fifty cents of this kind will mean 800 votes.

We will also allow contestants to turn in subscriptions for three years to the Nebraska Farmer alone at the rate of \$2.00 for the three years and such subscriptions will count for 2400 votes.

Contestants should keep busy from now as the time is short. It is all up to you. Someone is going to get an automobile and someone a piano only a week from next Saturday. You would have to work a long time at any other work in order to make enough to buy one of these prizes. Are you going to stand by now, and lose out by not doing your best and the last week of the contest? Of course you are not. You cannot afford to lose out and the only way to keep from it is to do your best from now on and have as many votes as possible in the ballot box at 6 p. m. Saturday, December 17.

The standing this week is as follows:

Jas. Steele	65,800
Albert Saha	63,077
Mrs. Roy E. Fisher	58,970
Marie James	51,300

SPECIAL NOTICE.

Having sold my business and expecting to give possession January 1, I am desirous of closing all book accounts between December 20th and January 1st 1911. All who are owing me an account will confer a favor by making settlement by that time. Respectfully,
DAN HARRINGTON.

PRIZES FOR DAIRY ESSAYS

Nebraska Dairywomen's Association Offers Cash Inducements.

The Nebraska Dairywomen's association offers \$100 in premiums for essays on the following subjects:

No. 1—Why is the silo a profitable investment for a Nebraska farmer? First prize, \$15; second, \$10; third, \$5; fourth, \$3; fifth, \$2; sixth, \$1; seventh, 50c; eighth, 25c; ninth, 15c; tenth, 10c; eleventh, 5c; twelfth, 3c; thirteenth, 2c; fourteenth, 1c; fifteenth and sixteenth, 50c each.

No. 2—How would you conduct a silo on a Nebraska farm? First, \$15; second, \$10; third, \$5; fourth, \$3; fifth, \$2; sixth, \$1; seventh, 50c; eighth, 25c; ninth, 15c; tenth, 10c; eleventh, 5c; twelfth, 3c; thirteenth, 2c; fourteenth, 1c; fifteenth and sixteenth, 50c each.

In addition to the above a prize of \$5 is offered for the best essay on question No. 1 written by a student in attendance at a state normal school. A similar prize of \$5 will be given for the best essay on the same question written by a student in attendance at the university school of agriculture. Another prize of \$5 is to be awarded for the best essay on question No. 1 written by a student in attendance at a high school.

Students of the normal schools, school of agriculture and high schools need to write only one essay on the silo in order to compete for all the premiums offered for question No. 1. But the essays should bear the endorsement "normal school," "school of agriculture," or "high school," as the case may be.

The association also offers \$150 in prizes for judging dairy cows, the judging to take place at the milking farm on Friday, January 20.

Each essay is to contain not less than 1,000 words nor more than 1,500, in typewritten form on one side of the sheet only. According to the conditions, no name shall be signed to an essay, but enclosed therewith on a separate sheet shall be sent the name and address of the author. All essays are to be the property of the association and prize essays to be read at the annual meeting of the associations to be held at Lincoln, January 18 to 20, at which time awards of prizes will be announced. All essays, in order to compete for prizes, must be mailed not later than January 1 and addressed to Professor A. L. Haacker, university farm, Lincoln, Nebraska, relating to the silo may be had free by addressing Professor W. L. French at the university farm.

Any resident of the state may compete for the above prizes. Charles Harding of Omaha is president, S. C. Bassett of Gibbon is secretary.

WAITED FIFTY YEARS.

Cuts Cord Wood from Grove He Planted Fifty-Two Years Ago.

Fifty-two years ago John B. P. Steinhilber and his brother Andy cut out a grove of trees on the home place west of Nebraska. On last Thursday Mr. Steinhilber was in Auburn with a load of cord wood cut from that same grove, that for over half a century has been slowly coming to maturity.

While possessing a somewhat sentimental interest, the wait of five decades is hardly an inducement for the younger generation to go to the growing of cord wood on an extensive scale.

62,000 Books in State Library.

State Librarian Lindsay has filed a report with the governor showing that there are now 62,348 books in the state library. The library has been increased nearly 1,000 volumes during the last six months, 286 volumes having been acquired by purchase and 614 by exchange or donation. There are on hand 25,994 volumes of supreme court reports. During this period the state librarian has turned \$383.25 over to the state treasurer, 88% of this sum being derived from the sale of session laws and the remainder from the sale of court reports.

Organized Agriculture.

Organized agriculturists in the most lines at Lincoln January 16 to 20, 1911. Agricultural, horticultural and live stock subjects will be discussed each day. In the annual discussion, Wednesday will be assigned to horses, Wednesday to swine and Thursday to cattle, and a general discussion is set for Friday morning. This is the great farmer meeting of the year.

Adjutant General Hartigan has reviewed the findings and sentences of the military court martial appointed to pass upon charges filed against members of the Nebraska national guard. He has modified the findings in some instances, but they will not be made public till Governor Shallenberger, commander in chief, signs his name to the documents.

The battery of field artillery offered by the war department has not yet been accepted. The Nebraska national guardmen of Beatrice have the first chance. The state will pay \$1,000 a year and the city that obtains the prize must pay \$2,000 a year for the maintenance and care of the equipment. No city has yet specified its desire to pay that amount.

Failure on the part of Omaha property owners and agents to equip buildings with fire escapes will result in numerous prosecutions. Deputy Labor Commissioner Manly having notified the county attorney's office that he will hasten to Omaha to swear to the complaints.

The application of the Lincoln traction company for permission to raise its fares to a straight five cent rate, brings in a hearing commencing December 16. The city of Lincoln is a party to this hearing.

A petition signed by residents of the western part of McPherson county has been filed with the governor asking that the forgotten county of Arthur be revived and put upon the map once more. A provisional board of county commissioners is proposed and a county clerk is also suggested. There are fourteen signers to the petition. It is said that about 1,000 people live in the area from which a new county may be created. Arthur county has existed legally for thirty years or more, but no one has thought of its existence. Had Narrow Escape.

Nebraska City.—Monroe W. Wright and family nearly lost their lives in a fire which destroyed the dwelling and all the household effects. Mrs. Wright was awakened by her baby's coughing and discovered the house on fire and the room filled with smoke. She awakened her husband and he hurriedly assisted his wife to leave the house. By the time the family was safely out of doors the entire structure was ablaze. No cause is known for the fire.

Church Women Ship Over 30,000 Pounds to the Factories This Week.

Auburn.—The ladies of the Christian and Baptist congregations of this city have been collecting old papers for some time, and last week shipped a consignment to the factories at Marshall, Ill.

There was over 20,000 pounds in the shipment, which will bring the ladies quite a neat sum of money in response to their labors.

Funeral of Conductor Spence.

Fairbury.—The funeral of the late Peter Spence was held from the Methodist church Sunday. Mr. Spence was the Rock Island conductor who was run over at Beatrice Thanksgiving night. The funeral was one of the largest ever held in the city. The Order of Railway Conductors and Brotherhood of Locomotive Engineers attended the church in a body. Mr. Spence was an unusually popular conductor among the railroad employes on the Rock Island. The remains were buried in Fairbury cemetery.

Patient in Hastings Asylum Sufferingly Remembers Who He Is.

Hastings.—After wandering about the country for months, unable to remember his name or his place of residence, Otto A. Wittlhuber has suddenly regained his mind, and has been returned to his home near Gothenburg.

Wittlhuber underwent an operation for appendicitis some time ago, and lost his mentality as a result. His mind is now clear and his memory is perfect as far as events up to the time of the operation are concerned.

STATE CAPITAL LINCOLN CIAT.

A Uniform Standard.

A new standard for state teachers' certificates was adopted at a conference of the normal school and college men in attendance at the state teachers' association.

The question was presented to the meeting under the discussion of the question of whether the state should hold to the time element as fixed by the northwestern association of college and secondary schools in the matter of pre-collegiate requirements.

Mr. Ladden took the ground that Nebraska should adopt the same standard as other states. His plea for a raising by this association similar in character met with a warm reception, and led to a unanimous adoption of it.

As the bulk of this association is almost equivalent to a law for the state, the matter is of importance to all teachers and those preparing themselves for the profession. It calls for a four years course in high schools, not only in the matter of credits, but in the element of time. Three and a half years being the maximum limit under this rule, the minimum time was cordially approved by those present.

It was asserted that it meant a great advance in educational work in the state, and brings all of the forces interested in the matter of certificates into agreement with each other.

Students Work Their Way.

According to a report of the university Y. M. C. A. employment bureau, students working their way through school earn approximately \$117,000 each school year. The bureau has made an investigation wherein interviews were had with every tenth man registered in the colleges of arts and sciences, of medicine, of law, and of engineering. Of 145 men examined, seventy-five were paying their expenses in whole or in part by work during the school year. Their cash earnings amounted to \$9,800 and board and room earnings added \$1,900 to this amount. If the total for the 1,450 men enrolled at the city campus is proportionate to these figures, over \$17,000 is earned annually, over half of the students doing work of some kind. Further data is to be gathered.

Shift in District Lines.

Census figures for Nebraska show that a shift of congressional district lines is necessary even if the state retains the present number of congressmen. The First, Second, Fourth and Fifth districts each have fewer people than the average. The First district is far below the average while the sixth district has fully 60,000 more population than the First.

Following is the population by districts: First, 145,000; second, 194,453; third, 223,191; fourth, 183,678; fifth, 176,806; sixth, 226,776. The average of a district if six congressmen are allowed the state is 198,700.

Woodmen Day at McCook.

Red Willow County.—The rally and mass adoption of the Modern Woodmen of America was held in McCook and exceeded anything of that character ever attempted in that section of the state before. Hundreds of Woodmen from within a radius of 50 miles or more were present.

Land Office at Omaha.

Douglas County.—Omaha is to be the location of the land office of the government, an order having been issued for the transfer to that point of part of the land office force now located at Cheyenne. The transfer will take place shortly, but the exact time has not been determined.

Magoon in Lincoln.

C. E. Magoon, former governor of Cuba, former governor of the Panama ship and interested in Mexican affairs, arrived in Lincoln to remain about two weeks. He has not been in the government service for a year and a half and has spent most of his time in Washington. In an interview he said that the progress made by the Cubans since the United States withdrew from the island has led him to believe that American intervention in the affairs of the island will not again be necessary.

Section Man Found Dead.

Cedar County.—Charles Jones, section foreman employed by the C. St. P. M. & O. railway at Sholes, was found dead beside his handcar a mile and one-half west of Sholes, where he had evidently fallen. He was alone and plunging his car from the rails. The supposition is that death came from heart failure as there were no marks upon the body and no train had struck his car.

Legal Fencers in Jail.

Adams County.—W. G. Comstock, Aquilla Triplett and "Parson" Jameson, brought to Hastings to serve sentence in Adams county jail for illegally fencing range land, spent their first day in jail arranging things in their cells. Fine rugs have been bought for the cells and telephones and electric lights put in for their exclusive use. For the present they will have only the prison fare, as there has been some hitch in the negotiations with the Japanese chief, who has not yet arrived.

Wants \$25,000 Damages.

Otoe County.—Miss Lulu Lloyd, through her attorney, has filed a suit against George W. Justice asking for \$25,000 damages for a breach of promise. The plaintiff is one of the best known young women in Nebraska City.

Walthill Wants to Be County Seat.

Thurston County.—Walthill has opened its campaign for the county seat of Thurston county. Over 800 of the necessary 1,146 signatures to the petition for a special election have at this writing been secured.

Population Loss and Gain.

Following is a list of the increase and decrease of Nebraska's population in the last ten years:

Table with columns: County, 1900, 1910, Change. Lists counties from Adams to York with population figures and changes.

Charged With Bootlegging.

Gage County.—J. C. Sedout of Birchard, Neb., aged 60 years, and a cripple, was brought to Beatrice by a deputy United States marshal and arraigned before United States Commissioner Cobley on a charge of bootlegging. He pleaded not guilty and was held to the federal court in bonds of \$300.

Says He Blowed Safe.

Dodge County.—Coming into the police station at Fremont, George Tuttle, a transient character, gave himself up to the police, claiming that he had assisted in the blowing up of a safe at South Bend, Neb., five years ago, and that he had never been punished for the crime.

Woodmen Day at McCook.

Red Willow County.—The rally and mass adoption of the Modern Woodmen of America was held in McCook and exceeded anything of that character ever attempted in that section of the state before. Hundreds of Woodmen from within a radius of 50 miles or more were present.

Land Office at Omaha.

Douglas County.—Omaha is to be the location of the land office of the government, an order having been issued for the transfer to that point of part of the land office force now located at Cheyenne. The transfer will take place shortly, but the exact time has not been determined.

Magoon in Lincoln.

C. E. Magoon, former governor of Cuba, former governor of the Panama ship and interested in Mexican affairs, arrived in Lincoln to remain about two weeks. He has not been in the government service for a year and a half and has spent most of his time in Washington. In an interview he said that the progress made by the Cubans since the United States withdrew from the island has led him to believe that American intervention in the affairs of the island will not again be necessary.

Section Man Found Dead.

Cedar County.—Charles Jones, section foreman employed by the C. St. P. M. & O. railway at Sholes, was found dead beside his handcar a mile and one-half west of Sholes, where he had evidently fallen. He was alone and plunging his car from the rails. The supposition is that death came from heart failure as there were no marks upon the body and no train had struck his car.

Legal Fencers in Jail.

Adams County.—W. G. Comstock, Aquilla Triplett and "Parson" Jameson, brought to Hastings to serve sentence in Adams county jail for illegally fencing range land, spent their first day in jail arranging things in their cells. Fine rugs have been bought for the cells and telephones and electric lights put in for their exclusive use. For the present they will have only the prison fare, as there has been some hitch in the negotiations with the Japanese chief, who has not yet arrived.

Wants \$25,000 Damages.

Otoe County.—Miss Lulu Lloyd, through her attorney, has filed a suit against George W. Justice asking for \$25,000 damages for a breach of promise. The plaintiff is one of the best known young women in Nebraska City.

Walthill Wants to Be County Seat.

Thurston County.—Walthill has opened its campaign for the county seat of Thurston county. Over 800 of the necessary 1,146 signatures to the petition for a special election have at this writing been secured.

INNOCENT OF ONE COUNT.

Mrs. Farmer—Say, did you say you wasn't going to do no work for dat dinner?

Boston Billings—Ah! ma'am, I assure you the double negative is a solecism I've never been guilty of.

16 YEARS OF SKIN DISEASE

"For sixteen long years I have been suffering with a bad case of skin disease. While a child there broke out a red sore on the legs just in back of my knees. It waxed from bad to worse, and at last I saw I had a bad skin disease. I tried many widely known doctors in different cities but to no satisfactory result. The plague bothered me more in warm weather than in winter and being on my leg joints it made it impossible for me to walk. I was forced to stay indoors in the warmest weather. My hopes of recovery were by this time spent. Sleepless nights and restless days made life an unbearable burden. At last I was advised to try the Cuticura remedies [Cuticura Soap, Ointment and Pills] and I did not need more than a trial to convince me that I was on the road of success this time. I bought two sets of the Cuticura Remedies and after these were gone I was a different man entirely. I am now the happiest man that there is at least one true cure for skin diseases. Leonard A. Hawtof, 11, Nostrand Ave., Brooklyn, N. Y., July 30 and Aug. 8, '09."

The Big Show.

The personally conducted tourists were viewing the Egyptian pyramids. "Goodness gracious!" ejaculated Mrs. Newrocks. "It must have cost a pile of money to build them."

"Surest thing you know," said Mr. Newrocks; "but don't imagine for a moment that any one tourist agency stood for all the expense—it was probably a jackpot affair."

Discouraging.

"George," said her husband's wife, "I don't believe you have smoked one of those cigars I gave you on your birthday."

"That's right, my dear," replied his wife's husband. "I'm going to keep them until our Willie wants to learn to smoke."

Acme of Cautionness.

Seymour—Young Ticer looks like a cautious man.

Ashley—He is cautious; he's so cautious that he wouldn't ask the prettiest girl in all the world to let him see her home unless he had learned how far away she lived.

Important to Mothers.

Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it bears the Signature of J. C. Watson.

In Use For Over 30 Years. The Kind You Have Always Bought.

Wanted a Change.

Mittman—I see by the papers that a Frenchman has invented a new way of transforming water into milk.

Customer—Well, I hope you'll adopt it. I'm getting awfully tired of the old way.

SPAIN'S DISTEMPER CURE will cure any possible case of DISTEMPER, PINK EYE, and the like among horses of all ages, and prevents all others in the same class from taking the disease. Also cures chicken cholera, and dog distemper. Any good druggist can supply you, or send to Miller, Adams and Stone, Agents, 1001 Broadway, New York, N. Y.

A Meritorious Act.

Mr. Cynic—Tell me one thing, you ever did for your fellow men?

Mr. Optim—This morning I kicked a banana peel off a sidewalk.—Judge.

Thousands of country people know that in time of sudden illness or accident Hamlin Wizard Oil is the best substitute for the family doctor. That is why it is so often found upon the shelf.

To Put it Mildly. "They say he has a swelled head." "I must admit that he seems to appreciate himself very much."

People Who Work Indoors With Their Hands

Seamstresses, watch-makers, artists, draughtsmen, and many others, cannot properly handle their tools with cold, stiff hands. Many a lost hour or two on cold winter mornings results from the delayed heat of furnace or stove.

The Perfection Oil Heater in a few minutes gives the temperature that assures the worker warm hands and pliable muscles. The

PERFECTION SMOKELESS OIL HEATER

quickly gives heat, and with one filling of the font burns steadily for nine hours, without smoke or smell. Has automatic-locking flame spreader which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back so the wick can be quickly cleaned. It has a non-perpetual and cool handle. Indicator always shows the amount of oil in the font. The flat cap does not need to be removed down, it is put in like a cork in a bottle, and is attached to the font by a chain, and cannot get lost. The burner body or gallery cannot become wedged, because of a new device in construction, and consequently, it can always be easily unscrewed in an instant for reworking. The Perfection is finished in Japan or nickel, is strong, durable, well-made, built for service, and yet light and ornamental.

Dr. Pierce's Favorite Prescription

Is the best of all medicines for the cure of diseases, disorders and weaknesses peculiar to women. It is the only preparation of its kind developed by a regularly graduated physician—an experienced and skilled specialist in the diseases of women.

It is a safe medicine in any condition of the system. THE ONE REMEDY which contains no alcohol and no injurious habit-forming drugs and which creates no craving for such stimulants.

THE ONE REMEDY so good that its makers are not afraid to print its every ingredient on each outside bottle-wrapper and attest to the truthfulness of the same under oath.

It is sold by medicine dealers everywhere, and any dealer who hasn't it can get it. Don't take a substitute of unknown composition for this medicine of known composition. No counterfeits is as good as the genuine and the druggist who says something else is "just as good as Dr. Pierce's" is either mistaken or trying to deceive you

DO IT NOW.

If you have the slightest symptom of kidney trouble, begin using Doan's Kidney Pills at once. Delay may lead to dropsy, diabetes, or fatal Bright's disease.

Mrs. William McGregor, 711 Lilbush St., Pendleton, Ore., says: "All my life my kidneys had troubled me. I bled terribly, could not control the kidney secretions and suffered intense backache. Finally I began using Doan's Kidney Pills and was cured completely. I had previously suffered without relief."

An Unmistakable Hint. You see that get a delicate hint from the young lady he was calling on the other evening.

She found looking at the clock and other trifling devices useless, so she ordered some refreshments and her mother sent her a plate of breakfast food.

MERELY A THEORY.

Lanidany—Dear me! What a peculiar habit! It smells like a piece of old starch.

YOUR STOMACH FEELS FINE. Dyspepsia, Indigestion, Sourness, Gas and All Stomach Misery Ended in Five Minutes.

This harmless preparation will promptly digest anything you eat and overcome a sick, sour, gassy or out-of-order stomach within five minutes.

Paper's Diapiesis is a certain regulator for out-of-order stomachs, and besides it takes hold of your food and digests it just the same as if your stomach wasn't there.

Remember, if your stomach feels out of order and uncomfortable now you can get relief in five minutes by taking a little Diapiesis.

Admitted. "Women already do a lot of govt. errands," said Mrs. O. H. P. Belmont, the brilliant suffrage leader, in an interview in New York.

"The editor, who was, like all editors, extremely observant and extremely frank," answered.

"Well, to tell you the truth, I think Miss Dash prompted me more than anybody else."

54-40 FIGHT BY EMERSON HOUGH

Without the least hesitation in the world, or the least impropriety, she half protruded the foot which still retained its slipper. As I removed this latter, through some gay impulse, whose nature I did not pause to analyze, I half mechanically thrust it into the side pocket of my coat.

CHAPTER VI. The Boudoir of the Baroness.

"Wait!" she said. "We shall have candles!" She clapped her hands sharply, and again there entered the silent, old serving woman, who, obedient to a gesture, proceeded to light additional candles in the prism stands and sconces.

The furniture I discovered to be exquisite in detail, of rosewood and mahogany, with many brass chislings and carvings, after the fashion of the empire, and here and there a world ornamentation following that of the court of the earlier Louis.

"Precisely. Could you go to the office of a United States senator and possible cabinet minister in broad daylight and the fact not be known? Could he come to your apartments in broad daylight and that fact not be known? What would that man Pakenham suspect in either case? Believe me, my master is wise. Great necessity sets aside conventions, sets aside everything. Come, then!"

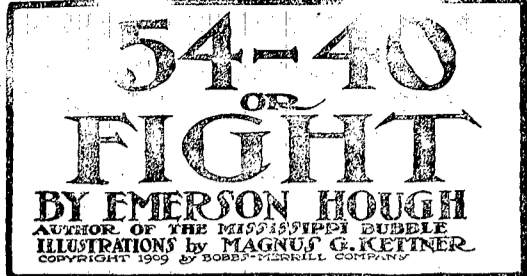

"Never!" she said, her head swaying slowly from side to side, her face impenetrable. "Am I not a woman? Am I not?"

"What would you do if I refused to go with you?" she asked, still smiling at me. But I saw that her attitude toward me held no more than that of a bird of prey and some little creature well within its power. It made me angry to be so rated.

"What do you think of my little place?" she asked finally. "Two things, madam," said I, half scornfully. "It belonged to a man, and to a minister plenipotentiary, I should not approve it, if it belonged to a lady of means and a desire to see the lands of this little world, I should approve it very much."

"But, I went on, 'in any case and at all events, I should say that the bird confined in such a cage, where there is so little room, and at times, and weariness would, in fact, wish to escape to other employment. You, madam,'" looked at her directly—"are a woman of so much intellect that you could not be content merely to live."

"It is late," I reiterated. "Come! Must I do some of these things—force you into obedience—carry you away?"

In the Splendor of Satin and Lace and Gems.

"Madam," said I, feeling in my pocket, "no heathen has much of this world's goods. All my possessions would not furnish one of these rooms. I cannot offer gems, as does Senator Yturbe—but, would this be of service—until to-morrow? That will leave him and me with a slipper each. It is with reluctance I pledge to return mine!"

"I obeyed her gladly enough. Under the fringe of the satin counterpane I found a box of boots, slippers, all manner of footwear, daintily and neatly arranged. Taking out a pair to my fancy, I carried them out and melted before her."

"Then, madam," said I, "since you insist on this, I shall choose. America is not Europe. Our feet here have rougher going and must be shod for it. Allow me!"

"I should think," said the beautiful young widow, "you would resent Mr. Brown's remark, concealing you."

"Care of Clocks. The household timekeeper needs regular care and superintendence if it is to keep time accurately. A responsible member of the family should be put in charge of it, to wind and regulate it."

Farmers Live Longest. The average life of a tradesman is shorter than that of a farmer.

"I should think," said the beautiful young widow, "you would resent Mr. Brown's remark, concealing you."

"What has he been saying about me?" asked Senator Pillsbury.

"He says you are a politician and not a statesman."

"Oh, please! I don't mind that. I was afraid you were going to tell me he had been saying I was not true to my party."

New Idea for Raising Money. In France the government is about to venture upon an experiment for raising money by letting or selling the rights of advertising on match boxes, the sale of matches being a state monopoly.

Household Lubricant THE ALL-AROUND OIL IN THE HANDY, EVER-READY TIN OILER. Is specially selected for any need in the home. Saves tools from rusting. Can't break. Does not gum or become gummy.

RED CROSS SEAL IN HISTORY. First Used During the American Civil War—Now an Aid in Fighting Tuberculosis.

Red Cross Christmas seals date back in their origin to 'charity stamps,' first used for the soldiers' relief funds in Boston in 1862, through the Civil War. After the war, this method of raising money was discontinued in this country for a generation, although it found vogue in Portugal, Switzerland, Norway, France, Spain, Denmark, Australia, Russia, Sweden and other European countries.

In an Illinois town a workman having been informed that a sixth baby had arrived at his home, exclaimed: "Sufficient," and his neighbors, referring to his having given that name—Sufficient—to the new arrival, credited him with originality.

Time to Think Over Suicide. He took Paris green to commit suicide. Too big a dose to kill him. Eminent specialist happened to be called in, and started to fix him up. "No use," said Paris green performer, "I'll do it anyhow after you have done with me." Doctor got mad. "If that's the way you feel about it, you feel on you," he said, "I'll not waste my time on you."

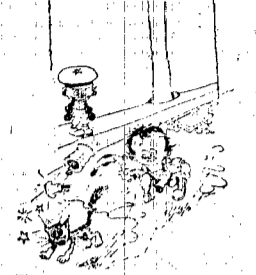

Was All Right. Howard—Did you telephone Mrs. Howard that I would be detained at the office until midnight? Office Boy—Yes, sir. "And what did she say?" "Said she didn't blame you—she had made an engagement to go to the theater tonight herself."—Smart Set.

As Time Passes. "Before you were married you used to send your wife flowers." "Yes," replied Mr. Moxton. "Now it takes a diamond necklace to make her as enthusiastic as she used to be over a five-dollar bunch of roses."

THEY GROW Good Humor and Cheerfulness From Right Food and Drink. Anything that interferes with good health is apt to keep cheerfulness and good humor in the background. A Washington lady found that letting coffee alone made things bright for her. She writes: "Four years ago I was practically given up by my doctor and was not expected to live long. My nervous system was in a bad condition. "But I was young and did not want to die so I began to look about for the cause of my chronic trouble. I used to have nervous spells which would exhaust me and after each spell it would take me days before I could sit up in a chair."

"I became convinced my trouble was caused by coffee. I decided to stop it and bought some Postum. "The first cup, which I made according to directions, had a soothing effect on my nerves and I liked the taste. For a time I nearly lived on Postum and a little food besides. I am today a healthy woman. "My family and relatives wonder if I am the same person I was four years ago, when I could do no work on account of nervousness. Now I am doing my own housework, and care of two babies—one twenty, the other two months old. I am so busy that I hardly get time to write a letter, yet I do it all with the cheerfulness and good humor that comes from enjoying good health. "I tell my friends it is Postum I owe my life today. "Read 'The Road to Wellville' in plain English. "Ever read the above letter? A new one appears from time to time. They are interesting, true, and full of help."

Editor I've placed it in a pigeon hole.—Boston Transcript

The peculiar properties of Chamberlain's Cough Remedy have been thoroughly tested during epidemics of influenza, and when it was taken in time we have not heard of a single case of pneumonia. Sold by all dealers.

Hold the Sunshine.

Just one way to keep the sun shining—that is to burnish up a cheerful courage every morning.

Worse than an alarm of fire at night is the metallic cough or croup, bringing dread to the household. Careful mothers keep Foley's Honey and Tar in the house and give it at the first sign of danger. It contains no opiates. Felber's Pharmacy.

Copernicus.

Nicholas Copernicus, 1473-1543, first demonstrated the fact that the earth moves around the sun rather than the sun around the earth, which was the universally accepted belief.

The greatest danger from influenza is of its resulting in pneumonia. This can be obviated by using Chamberlain's Cough Remedy, as it not only cures influenza, but counteracts any tendency of the disease towards pneumonia. Sold by all dealers.

Little Real Difference.

"Tough luck for Jim. The girl he married turned out to be a professional pickpocket." "Gee. The rest of us drew some pretty clever amateurs, though."—Cleveland Leader.

Many people find themselves affected with a persistent cough after an attack of influenza. As this cough can be promptly cured by the use of Chamberlain's Cough Remedy, it should not be allowed to run on until it becomes troublesome. Sold by all dealers.

Fitness in Life.

Build new domes of thought in your mind, and presently you will find that instead of your finding the eternal life, the eternal life has found you.—Jenkin Lloyd Jones

A sprained ankle will usually disable the injured person for three or four weeks. This is due to lack of proper treatment. When Chamberlain's Liniment is applied a cure may be effected in three or four days. This liniment is one of the best and most remarkable preparations in use. Sold by all dealers.

Lie Seidom Harmful.

No lies can hurt a man for a long time. There is little use in spending your time trying to correct lies. The lie itself will drop like a feebly shaft against the armor of truth.

If you are suffering from biliousness, constipation, indigestion, chronic headache, invest one cent in a postal card, send to Chamberlain Medicine Co., Des Moines, Iowa, with your name and address plainly on the back, and they will forward you a free sample of Chamberlain's Stomach and Liver Tablets. Sold by all dealers.

Welcome Relief.

From Gloucestershire comes a report of a shower of frogs. This is good news. We were getting so tired of seeing it raining cats and dogs.—London Punch.

TAKE CARE!

Remember that when your kidneys are affected your life is in danger. M. Mayer, Rochester, N. Y., says: "My trouble started with a sharp shooting pain over my back which grew worse daily. I felt sluggish and tired, my kidney action was irregular and infrequent. I started using Foley's Kidney Pills. Each dose seemed to put new life and

strength into me, and now I am completely cured and feel better and stronger than for years." Felber's Pharmacy.

Catching On.

Timid Lover (glancing at his watch)—"Well, I must be going, Miss Dora. Time presses." Miss Dora (losing all patience)—"I suppose so—nothing else presses!" "How dare you! Stop, George, you are missing my hair."

GET THE GENUINE ALWAYS.

A substitute is a dangerous makeshift especially in medicine. The genuine Foley's Honey and Tar cures coughs and colds quickly and is in a yellow package. Accept no substitutes. Felber's Pharmacy.

Home and Happiness.

To earn money and pay bills seems to occupy most of a man's time, and he wonders why his home isn't happy. When he learns to earn love and pay attention to his home, happiness will ooze into his home through every crack and keyhole.

YOU MUST READ THIS IF YOU WANT THE BENEFIT.

J. W. Greer, Greenwood, Ia., suffered with a severe case of lumbago. "The pains were so intense I was forced to hypodermic injections for relief. These attacks started with a pain in the small of my back which gradually became fairly paralyzing. My attention was attracted to Foley's Kidney Remedy and I am glad to say after using this wonderful medicine I am no longer bothered in any way by my old enemy lumbago." Felber's Pharmacy.

He Loves Me, He Loves Me Not.

"God doesn't love me any more," sobbed Mary to her mother one day. "Why, dear? God loves everybody; what do you mean?" "Oh, no, he doesn't love me, I'm sure, for I tread him with a daily."—Metropolitan Magazine.

A SIMPLE SAFE GUARD FOR MOTHERS.

Mrs. D. Gilkeson, 326 Ingles Ave., Youngstown, Ohio, gained wisdom by experience. "My little girl had a severe cold and coughed almost continuously. My sister recommended Foley's Honey and Tar. The first dose I gave her relieved the inflammation in her throat and after using only one bottle her throat and lungs were entirely free from inflammation. Since then I always keep a bottle of Foley's Honey and Tar in the house. Accept no substitutes. Felber's Pharmacy.

The Modern Youngster.

Johnny's father took him to the office, and there the youngster saw the stenographer come in late and take the cover off her typewriter. "Look at that!" exclaimed Johnny. "She lifted the garage right off the machine."

THE TEST OF MERIT.

Wayne People Are Given Convincing Proof.

No better test of any article can be made than the test of time and this is particularly true of a kidney medicine. Doan's Kidney Pills have stood this test and stood it well. What better proof of the merits of this remedy could you demand, than the statement of a Wayne resident who has been cured and has stayed cured?

Read the following: Mrs. Ira Hoshan, of Wayne, Nebr., says: "About a year ago I was confined to my bed for several weeks by an attack of La Grippe and upon recovering found that my kidneys were badly disordered. I suffered intensely from sharp, darting pains across the small of my back and there was much lameness through my loins. After taking Doan's Kidney Pills a few days, I felt better and in about three weeks, all symptoms of my trouble had disappeared. There has never been a return attack."
