

AN EXPERT ON PLAY.

Director of Boys and Girls Sports at Chautauqua-Old Northwestern Man.

HAS BEEN A FOOTBALL HERO.

Trained a Class of Young Men Now All Are Playground Experts—Some Stars Among Them.

George M. Finney, the director of the boys' play, Chautauqua...

He is a Northwestern man and a graduate also of the Springfield Mass. Training school.

He was the greatest football player at Northwestern in his senior.

He has played against Yale and Harvard and some of the finest schools of the east.

He is now physical director of the boys' play at Chautauqua.

GEORGE M. FINNEY

the Lincoln (Neb.) Y. M. C. A., one of the strongest institutions in the west.

He has organized a class of eight expert gymnasts and under Finney's direction these men are conducting the boys' play Chautauqua week.

Three of his men are playground experts. All of them have at some time won honors in the field of sports.

They are further qualified because of their knowledge of the rules of the game.

The work they will do here will simply be for a week of sports for the boys.

They will conduct hiking trips, bird study expeditions, field meets, camping excursions and things of that sort.

There won't be a dull moment in it. The boys are asked to get some things—a Chautauqua season ticket and an adult suit.

The suit is a good play suit and can be used for many purposes.

You can buy these of the State Aid plan a day or two before the Chautauqua or have them made to order at one dollar and that's a very small price for it.

THE EARLY DAYS IN TWO COUNTIES.

From the Wayne Review, published at La Porte, by Hunter & Childs, July 28, 1881:

A. D. Allen sold two cows to H. B. Shields for \$60 and \$70 each.

A letter belonging to John J. Decker written down with the heat.

R. L. Maxwell will commence work on his new hardware store at Wayne this week.

W. P. Agler has purchased the Grover house east of town, now occupied by Sheriff Miner.

Dixon county people are working for a new bridge over the Logan near the new town of Waukegan.

Miss Sallie Hunter closes her school, in District No. 6 this week, and will commence teaching in District No. 1 next week.

It is said that the denizens of the new town could have been seen last week sitting on the corner tables, sheltering themselves from the scorching rays of old Sol with umbrellas, watching for the cars, and swaying by the aid of a sign.

Harvesting is fairly under headway, and white oats are proving to be a "rotting" good crop.

Where pronounced a failure, and will not average much over six bushels to the acre, although we hear of one or two farmers who are counting on a yield of fifteen to twenty bushels per acre.

Britton, Hardenburgh & Johnson, a new firm consisting of James Britton, Tunis Hardenburgh and Charles Johnson, will open up in Wayne with a large stock of general merchandise about August 10.

The business of H. & J. at this place will be continued by "Tom" remaining at La Porte, while "Hooker," with "Lou" Hunter for assistance, will keep business moving at Wayne.

Freeman Bokerman had the misfortune to lose one of his horses last Sunday night by fire.

It seems that his own breaking several rods from the stable, to smoke mosquitoes while milking, but supposed that he had put the fire all out, and the family went to bed, but awakened to find the stable in flames.

One horse was burned to death, and the other quite badly injured.

From the Wayne Herald, published by W. H. McNeal, August 6, 1891:

The estate of the infant daughter of M. P. Woodruff is announced.

Married, in Wayne, August 2, 1891, Mr. Peter Heekle to Miss Louise Heft.

Married at Carroll, by Rev. W. W. Theobald, Mr. Charles Simons to Miss Ora E. Collinson.

Misses had decided to discontinue their high school for the present, but suggest some improvement for Wayne.

Rev. F. P. Baker resigns as pastor of the Presbyterian church to accept a call to the First Reform church at Constantine, Mich.

From the Wayne Herald, published by W. H. McNeal, August 8, 1891:

After thirty-two days without moisture, rain began falling and continued several hours.

Grant Meas, Charles Jeffrey and George L. Cook are nominated for the republican nomination for sheriff.

Henry Stump reports that one piece of wheat which he threshed went sixteen and one-half bushels to the acre, and another piece twenty-three bushels to the acre.

The Wayne county teachers' institute is to be held the last week in August.

Winona correspondent says wheat tests fifty-eight pounds to the bushel, just as it comes from the machine.

From the Potosi Journal, published by William Huse and W. N. Huse, Aug. 24, 1891:

The rush into the Logan valley continues to be great. That beautiful valley is destined within five years to be as densely settled, and with as prosperous a class of people, as any part of the state.

The new city of Wayne, in Wayne county, has five houses, and the expectations of the people there continue to be great.

It is reported that in Elk Point the settlers continue to be full of hope, which has remained here ever since the days of last spring.

The population of Dixon county, as shown by the returns of the precinct assessors for 1891, is 41,885, of whom 21,193 are males and 19,692 females.

The assessment rolls give the total number of cattle in the county 39,374, and of horses 2,875, and of swine 48,978, and of sheep 1,000.

FOR SUPREME JUDGE.

As qualifications for a position on the supreme bench I beg the following:

I have been a practicing lawyer since 1869 years, during that period I have given my whole time to a serious study of the law.

I am the author of the "Law of Real Estate" and the "Law of Contract Obligations," two best known legal authorities wherever the English language is used in the courts. Also a number of smaller works and articles in law magazines and journals.

I have been the "Associate" "Attorney at Law" and a member of several other substitute makers are following.

In preparing the notes for the statute I read carefully every decision ever rendered by our supreme court and every section of the statute many times.

Frequently comparing them with those of other states. This knowledge will greatly aid me in disposing of the business of the court rapidly and correctly.

Under employment by the territory I prepared a complete new statute for New Mexico to be adopted when it shall become a state.

I have been United States commissioner for more than thirty years, being appointed by both the republican and democratic federal judges.

With this exception and one term as county judge of Geage county, I have not been an officeholder.

I have always been a republican.

If nominated and elected I shall take the office untrammelled and with the best of my power apply the correct principle of law to the facts of each case without prejudice, fear or favor.

John Ahern is expected home from Chicago next Tuesday for a three weeks' vacation. Of course John will play ball.

as an oil inspector as he has been as a newspaper man, he is all right.

A. R. Davis and J. G. Mipes left Monday afternoon for Lake Elysian, Minn., to enjoy a outing for one week.

There will be a large crowd of the coming of these two Wayne-piscatorial experts, and had become resigned to the inevitable. One can imagine the week of unexampled terror—and slaughter among the busy fishes of Lake Elysian.

Take an afternoon or two off during the week and see the ball game. The Commercial club has gone to the expense to get a ball team that would be credit to Wayne—and you'll enjoy watching them play. There will be lots of fine games at home, now right along with the best teams in northeast Nebraska. Let's all get out and support the game. It is the one good recreation we have here in the summer. Let us keep it up. Big game Saturdays with Wausa-Bloomfield.

Mr. W. L. Fisher of Fisher & Johnson, left for Central City, Neb., this morning with a party of Wayne county farmers, who are intending to visit the celebration at R. Head's place, which is being sold at a great sacrifice to the estate. There are 8,000 acres of this estate lying along the main line of the Union Pacific railroad near Central City, which will be sold, in eight or ten years, at a very low price and on easy terms.

Mr. Fisher will have with another party on Tuesday, August 1, for the same place. The entire expense of this trip is less than \$5. Arrangements for the party are being made. For full particulars and illustrated literature call of Fisher & Johnson, over the postoffice.

Ladies, we have missed a lot of you at the ball games this summer. When the Commercial club first started the ball games, you were right with the idea of having summer entertainment that the ladies as well as the men would enjoy. Last year you turned out big and your attendance helped wonderfully to keep up the baseball interest, enthusiasm and receipts. Perhaps you have lost a little interest because there have been so many changes in the team and you did not have an opportunity to pick your favorite players when you could root for them and encourage. That has been remedied—the 1911 season ball will be here all season, and they are the nicest, cleanest, swiftest set of ball players in northeast Nebraska.

They need your encouragement—the Commercial club wants you to come and enjoy the entertainments. Big game Saturdays. Game every day of Chautauqua. Come and bring a friend.

MUSICAL AND LITERARY. That was a unique and delightful entertainment that Dr. and Mrs. Wright man furnished to their guests last Monday evening at the home of Miss Leach.

Instead of the customary games a musical and literary program of high order was carried out. Mrs. Wright gave one of her ringing soprano solos, Monday evening at the home of Miss Leach. COUNTY TREASURER ISSUES STATEMENT.

The statement is being reprinted here that the proposed bond issue for the purpose of building a city hall will greatly increase the taxes of our citizens, and the bonds are being opposed on these grounds.

The actual value of the city, as shown by the assessor's books, is approximately \$1,850,000, the assessed value being one-fifth of this, or \$370,000.

The interest on the \$9,000 bond issue would amount to \$450. It would simply require a heavy levy, making it impossible, unless would only increase the taxes 25 cents on each \$1,000 of actual valuation. That is to say, a man who has an actual value of \$1,000 in property is assessed at \$200, and his taxes would be increased 25 cents per year for the purpose of paying interest on these bonds.

The bonds, if issued, would become due in twenty years, optional after ten years. If it is desired to create a sinking fund by making a 2% mill levy every year for ten years and a 2 mill levy every year for the remaining ten years, a fund would accumulate which would be sufficient to pay off the bonds at maturity. By making a 2% mill levy it would only increase the taxes 45 cents per year on each \$1,000 of actual valuation, and the 2 mill levy for the remaining ten years would not increase the taxes 30 cents on each \$1,000 of actual value.

Under the levies for the present year, \$13 was the amount of taxes paid on a property with an actual value of \$1,000. The largest increase in taxes necessary in any one year on the sinking fund plan would only be 45 cents on an account of the bond issue. Signed, CHARLES S. BEER, County Treasurer.

ITCHISON GLOBE SIGHTS.

The poorest paper advertisement in the biggest works when he sends a communication to a newspaper office. Speaking of the great temptations of the artist's model, she isn't the only one who walks into them without being seen.

Does it ever occur to Delicate Daughter that a little work might be just the training she needs to get in good condition?

If a woman would do as much for her health as she will do for her complexion, even the complexion would get along better. A third for Truvinge is another kind which won't afford much satisfaction to the man who spends most of his time trying to satisfy it.

Conceit sometimes carries a man through with ease, and does a good deal to discourage modest men who believe they were born to the high command of play.

No doubt the London scene poker players stay up so late at night is that they hope to make a little money by so doing. And it takes some of them a long time to get ready for the next day.

POSTAL SAVINGS BANK. The Wayne postoffice has been designated as a postal savings bank, and will commence business August 15.

PLEASANT BIRTHDAY.

A company of ladies were delightfully entertained last Saturday afternoon at the home of Mrs. J. G. Mipes, in honor of the birthday of her mother, Mrs. Rogers, who has been the guest of her daughter and family for several weeks. The guests remembered those whose mothers were also asked to be present, and many of the occasion unique and very pleasant.

A delicious luxuriously supper was served, and after wishing the guests honor many more such happy birthdays to the ladies seated.

Have your school treasurer file a bond with the county clerk.

Miss Jennie Gaertner is assisting in the superintendent's office this week.

Miss Clara Whitney, who taught in district No. 20 last year, has been elected to a position in the grades at Norfolk.

Miss Ada Leonard, who was principal of one of the schools at North Sioux City last year, has decided to take the home school at \$60 for next year.

If your district has decided upon a teacher and her name does not appear in the list published, it is omitted because this office has not been notified of her election.

The director and moderator cannot become sureties upon the treasurer's bond for the reasons that they are the ones to approve the bond. This is a mistake made frequently in filling out these bonds.

Institute convenes in Wayne county on August 28 and lasts one week. The law provides that all schools shall be closed during institute, so teachers' contracts should be drawn up for a term beginning September 4.

One hundred thirty-five teachers were writing on the county examinations Friday and Saturday. Most of these are students of the normal. The institute fund of Wayne county is very materially increased by the summer school here.

We are pleased to note by the teachers' reports that so many of the school officers visited their schools last year. One director told me that he thought that was a very poor sign for school officers did not visit the schools unless there was some 'kick' to straighten out. We certainly hope that such is not the case.

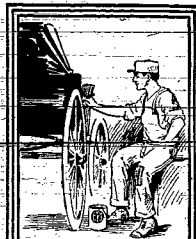

'A good certificate doesn't exactly guarantee that the holder will be a good teacher. It attempts to show that the holder is properly educated. The certificate is a legal requirement. It takes more than an education to be a good teacher. It takes vim, vim, common sense and a lot of common sense. Superintendent Frank Pyle.

Announcements of the Wayne county teachers' institute will be issued next week. All persons who are intending to teach in Wayne county during the next year are required to be present. Licenses for absence will be granted only for very urgent reasons. We were glad to discover one teacher last year for non-attendance. She evidently thought this requirement a bluff.

Ex-State Superintendent Bishop may a professor in the state normal college at Ames, Ia., who recently visited schools in several cities, informs State Superintendent Graves that he has seen the best rural schools and the strongest rural school teachers of any state he has visited. He considers our teachers are not any better qualified in scholarship but that they are more enterprising and practical in their methods of teaching.—World-Herald.

It is a positive educational waste to conduct a school with fewer than ten children. The teacher and the children would be happier and the school more efficient if there were never fewer than twenty pupils. The number could never exceed forty, and thirty to thirty-five would be still better. There is as great a waste in having too many as in having too few.

Kidney Diseases Are Curable under certain conditions. The right medicine must be taken before the disease has progressed too far. Mr. Perry A. Wayne County Teacher

Reading Circle Credits. Credits added to eighth grade examination grades. The state superintendent and the reading circle board recommended that the county superintendent award each year a credit of three per cent a book to a pupil in the seventh or eighth grades who shall read in a satisfactory manner from one to five of the books recommended by the reading circle board for the grammar grades for the current school year. Such credits may be applied by the county superintendent, at his discretion, to the grades earned by the pupil in reading, geography, grammar, history, and physiology, or the examination for the eighth grade diploma provided that not more than fifteen credits may be earned in any one year, and provided further, that in no case shall more than five credits be applied on any one of the subjects named.

Seventh and eighth grade pupils should preserve their reading certificates and present them to the county superintendent when they register for the eighth grade examination. Teachers' Reading Circle Work. The basal book for use in the meetings of the teachers' reading circle during 1911-12 will be Colgrove's "The Teacher and the School." All teachers will be expected to make a careful study of the book and report on the same at the county meetings under direction of county superintendent.

A credit of 5 per cent may be added to the theory or reading work done in the Teacher and the School. A like credit of 5 per cent may be added to the grade in composition for satisfactory work done in Ethics for Children.

Visiting Schools. In visiting the rural schools of the county we have endeavored to put in our time where it would do the most good. We found a school with everything going nicely, the teacher master of the situation and the pupils well graded and not out of the time with that school. There was a little work, some schools were visited three or four times during the year, others but once. Generally, beginning teachers need more for assistance and encouragement than a better plan to visit this way than to follow the absolute rule of visiting each school twice during the year.

All the annual reports of the directors are now in but those from No. 2 and No. 35. We are holding our report to the state department open for these a few days longer. This year a few teachers have given up town positions to teach in the country. When a country teacher can get a salary in the country with at not more than \$15, it will be but a short time until teachers will leave the towns where they are getting \$35 with \$20 for board and transportation and no positions. Rural school boards have at last begun to solve the problem of being merely a training school for the towns.

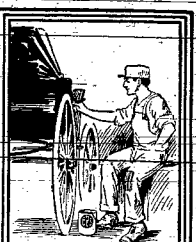

Somewhat teachers make the mistake of changing districts every year. This is bad, not only for the school, but for the teacher also. We are constantly asked this question, "Why is it that the best teachers in the country with the most money and if there is no good reason for the move there is but one natural conclusion. It is a good recommendation for a teacher to remain two or three years in the same school. School boards in Wayne county are dealing quite generously with the teachers and it seems that a certain amount of obligation rests on a teacher to remain in a school as long as the board does the right thing to the teacher (other conditions being equal).

The following teachers' certificates have been issued last week: Hilda Nord, second grade; Ora Davis, second grade; Lena Lush, second grade; Edith Garwood, second grade.

Have your school treasurer file a bond with the county clerk. Miss Jennie Gaertner is assisting in the superintendent's office this week. Miss Clara Whitney, who taught in district No. 30 last year, has been elected to a position in the grades at North. Miss Ada Leonard, who was principal of one of the wards at South Sioux City last year, has decided to take the home school at \$60 for next year. If your district has decided upon a teacher and her names does not appear in the list published, it is omitted because this office has not been notified of her election. The director and moderator cannot become parties until the treasurer's hand that the reasons that they are ones to approve the bond. This is a mistake made frequently in filling out these bonds. Institute convenes in Wayne county on August 28 and last one week. The law provides that all schools shall be closed during institute, so teachers' contracts should be drawn up for a term beginning September 4. One hundred thirty-five teachers were writing on the county examinations on Friday and Saturday. Most of these are students at the normal. The institute fund of Wayne county is very materially increased by the summer school here. We are pleased to note by the teachers' reports that so many of the school officers visited their schools last year. One directed us to show that he thought that was a very poor sign for school officers did not visit the schools unless there was some "kick" to straighten out. We certainly hope that such is not the case. "A good certificate doesn't exactly guarantee that the holder will be a good teacher. It attempts to show that the holder is properly educated. The certificate is a legal requirement. It takes more than an education to be a good teacher. It takes that, plus sympathy and a lot of good common sense." Superintendent Carl Frank Piker. Announcements of the Wayne county teachers' institute will be issued next week. All persons who are intending to teach in Wayne county during the next year are required to be present. Expenses for absentees will be charged only for very unusual reasons. We were compelled to dismiss one teacher last year for non-attendance. She evidently thought this requirement a bluff. Ex-State Superintendent Bisson now a professor in the state agricultural college at Ames, Ia., who recently visited the county, has written a list of forms State Superintendent Calbreath that Nebraska has the best rural schools and the strongest rural school teachers of any state in the west. He considers that our teachers are not only better qualified in scholarship, but that they are more enterprising and practical in their methods of teaching.—World Herald.

**STATE NORMAL SCHOOL CLOSES FIRST YEAR**

**RESUMES AGAIN IN SEPTEMBER**

All Interested Have Reason to Be Proud of Progress Made in Developing Institution.

The State of Nebraska and this community may well be proud of the State Normal at this' phase as shown by the work of the first year which is now drawing to a close. One year ago it was an unsettled matter whether the institution was to continue another year under private management, become at once a state school, or close for a time at least.

With but one month in which to advertise, President Coon opened the doors of the new normal with fewer than a hundred students. During the winter the enrollment increased to 200, and the summer school has been large. The new catalogue shows an enrollment for the year of 328, exclusive of the model school.

It is no work of the comfortable confidence that the management chiefly relies on itself and the public. It is rather on the substantial nature of the work done. The graduates of the year rank with those of the other state normals. They are all engaged for next year at good salaries in worthy positions. The faculty of the Normal now numbers twenty-four, and while President Coon does not say that this faculty is the best in the state, he does express confidence that no mistake has been made in the personnel of the group. The class of students has been of the earnest sort, who are in school for definite purpose and who work hard and achieve success.

The added equipment in the new building, water, library, laboratories—all are a source of encouragement for the students of the future.

For the successful performance of all the many details involved in the accomplishment of this large task, for the courage displayed, the wide vision and far-reaching judgment, and the care in the planning, tactfully, considerate, kindly self possessed and able president of the institution.

In all his work he has had a worthy aid in Registrar Dickinson, a patient, thoughtful, thoughtful of others, a man without an enemy in the worth-while of every student and teacher.

**How Faculty Spends Vacation.**

The members of the faculty will spend the coming period as follows: President Coon, Registrar Richmond and Secretary Wagoner will remain for the most of the summer in Wayne, planning and working for the large attendance that is anticipated for next year. Mr. Richmond will also attend the Epworth assembly at Lincoln. Miss Sara Killen, teacher of art, will have charge of the school's exhibit at the state fair.

Professor Hahn, after teaching in some county institutes, will go with his family to New York to continue his studies in Columbia university. Professor and Mrs. Bright will summer in Michigan. Miss Hester will go to Colorado. Miss McHugh of the education department will reside at various Chautauquas and will be one of the attractions at the state soldiers' reunion at Grand Island, August 27-31. She will further study in Chicago. Professor and Mrs. Coleman and Professor and Mrs. House will spend the entire time in Chicago. Mr. Coleman in the study of history at the University of Chicago. Mr. Hester will take the degree of Ph. D. Professor Lewis will teach in the Institute of Banner county. Professor Hickman will remain in Wayne supervising the construction of the new school. Miss Fairchild and Miss Sigshaw will remain in Nebraska with their parents, and Miss Kingsbury will go to her home in Ohio. Professor Lackayo of the department of geography will spend the vacation at the station of the Nebraska conservation commission, mapping the meandering flood plain of the Logan river. This work will also include a description of the agricultural conditions and possibilities. Draining problems and general geology of the area studied. Professor Britton and his family will summer on the family home-stead, and Professor Wiley and wife will visit in Shenandoah, Ia. Miss Luers will spend the summer and next year in the school of education in connection with the University of Chicago. Professor Juniemoer will take a long trip. He does not tell where he will be, but he will not be in public. Miss Piper will spend her vacation at her home in Lincoln.

On Wednesday morning Dr. Corley spoke to the students in chapel on the Soc. arts, and Rev. Mr. Richardson led the devotional exercises.

**NOTICE.**

People who have gone in the habit of riding bicycles on sidewalks must quit it. If they don't stop without further notice, arrests will be made. The practice is contrary to the ordinances, and will not be tolerated. All persons who have been riding on sidewalks and who have not quit, are notified to stop at once.

**GET THE IDEA** that this Chautauqua, that is to be here for a week this summer, is for you—not for any particular class of persons—but for every one who loves a few hours of best music and best entertainment.

There is not a person in the community that this Chautauqua does not intend to include. It's for every one.

It costs so little that the cost proposition to you need be no consideration. It can be given at little cost because it has been arranged on a great system plan, benefiting the largest possible number.

Every attraction is a leader in its respective line. It is a program based on high quality. It is planned and carried out by the men in this community with the aid of a system of Chautauqua program experts.

It is for the enjoyment of every citizen. It is for you. Plan to attend it.

"W. E. Miller went to Wayne Tuesday on invitation of Professor Pil, of the Wayne Normal, to deliver an address to the students."

Harrington Herald: John Neu, who was arrested last week on the charge of assaulting his wife, appeared before Judge Ready, Saturday, and pleaded no guilty. He was put under an appearance bond of \$150 and his trial was held Tuesday, when the court found him guilty as charged and fined him \$100 and costs. The defense appeared its case to the district court.

South Sioux City Record: The problem of how to fill Crystal lake with two or three feet more of water and not damage the farmers at the head of the lake was pretty well worked out Sunday at a large friendly meeting of lake front property owners and farmers, held at the John Thayer cottage on Isl. and beach. The artesian well project was dropped on account of the large cost of maintaining such a system and because there was no assurance that Crystal lake was in the artesian well belt.

Randolph Times: J. W. Stageman the past week threshed the winter wheat on his place rented by the late Charles New Style. There was forty acres of this wheat, and it made just 825 bushels, or one-twenty bushels to the acre. About ten acres of the field was on low land and it took four more bails of twine to bind this ten acres than it did the other thirty acres. The little piece of low land yielded at least forty bushels to the acre. This same ground will be put in winter wheat again, and will be sowed about the last of August, and if the wheat gets to be before frost it will seed well on fall pasture. Timely seed will be sowed with the wheat and the aim of getting the field seeded down. Mr. Stageman will leave twenty acres of his alfalfa for seed this season.

Randolph Times: Talk about a fuss! The democratic leaders in Nebraska are just now in a fuss that is taking up several columns each day of talk so hot—that it has to be handled with tongs. Douglas county denounces, under the leadership of Jim Dehms, dipped their pen in the acid bottle and roasted Bryan in a set of lurid resolutions in which the Peeres-Lendor is called a traitor, etc. Bryan came back with a sizzler that threatened a hot war. Then Mike Harrington took in hand his trusty (not rusty) pen and lambasted Richard Metcalfe, editor of the Commoner. Richard came back strong and tells some of the inside workings of the noted Grand Island convention. He incidentally dumping Shalshberger into the fracas by accusing him of fibbing. The "Harmon and Harmony" slogan of the Omaha Democracy is having a rocky path. This breaking into print is bad business. The disputed republican side in congress is an ex-hibit.

**ANSWERS EVERY CALL**

Wayne People Have Found That This Is True:  
A cold, a strain, a sudden wrench,  
A little cause may hurt the kidneys,  
Spells of backache often follow,  
Or some irregularity of the urine.  
A certain remedy for each attack,  
A medicine that answers every call.  
In Doan's Kidney Pills, a true specific.

Many Wayne people rely upon it. Here is Wayne proof:  
Mrs. C. Fox of Wayne, Neb., says: "I know that Doan's Kidney Pills are a specific for trouble arising from disordered kidneys. This remedy has been used in our family for dull pains across the small of the back and other symptoms of kidney complaint, and the most satisfactory results have been obtained. I have seen what Doan's Kidney Pills will do and do not hesitate to give them my public endorsement."

HAZEL LATHROP, SOPRANO.

HAZEL LATHROP'S work as a soprano attracted attention a few years ago at a small musical recital in an Eastern Conservatory. She was sent to Europe as a young girl to study in the Sterns Conservatory at Berlin. She finished her studies and after a few months spent in a concert tour through Europe she came back home and is now recognized as one of the greatest sopranos of America. There is this that is charming in Hazel Lathrop—she was at one time a very plain little American girl. Now that she is a great singer, she loves to sing the songs not only that are classics, but the songs that are loved by every person. She sings the songs that are dear to every heart and yet sings them in a thoroughly artistic way—sings them as only an artist can sing.
