THE WAYNE HERALD, THURSDAY, FEB. 1, 1912

VOL. 36 NO. 50

SELF DESTRUCTION OF HOSKINS DOCTOR

DESPONDENCY IS THE CAUSE
Dr. H. K. Schemel Takes Fatal Carbolic Acid and Refuses Antidote—Lives Only Short Time.

Dr. H. K. Schemel who has been a resident of Hoskins for four years, committed suicide at that place Tuesday by taking carbolic acid. He told his wife and son Edward what he had done, but refused an antidote and would not allow any relief to be administered for his suffering. Dr. Satter of Norfolk, was hastily summoned, but before he had time to reach Hoskins, Dr. Schemel was dead. Dr. J. J. Williams, county coroner, was immediately sent for and went to Hoskins Tuesday evening. He found it unnecessary to hold an inquest.

Dr. Schemel was about 55 years old. He went to Boone, Neb., recently with the intention of locating and practicing his profession, but was evidently disappointed over the prospect there for he returned to Hoskins Friday and seemed to be discouraged. It was Tuesday noon, when, driven by despondency, he shocked members of his family by telling them he had taken fatal poison.

Besides his wife, he leaves four daughters and one son as follows: Edward Schemel, station agent at Fordyce, who happened to be home at the time; Miss Helen Schemel, teacher in Idaho; Miss Margaret Schemel, teacher two miles west of Hoskins; Miss Lucile Schemel, attending school at Danville, Ill.; and Francis Schemel, aged 13 years, living at home. Members of the sorrowing family will have the hearty sympathy of their Wayne county friends.

Neither the daughter in Idaho nor the one in Illinois could be present at the funeral. The body will be taken to day to Columbus for burial. The Norfolk lodge of Sons of Herman had charge of the remains at Hoskins.

Yesterday's Norfolk Daily News says: Dr. Schemel, the Hoskins physician who committed suicide Tuesday afternoon, passed through Norfolk Saturday night en route home, after having been at Boone, Neb., for several weeks looking for a location. He seemed despondent and unstrung when he reached Norfolk Saturday night. He asked a friend if he knew of any location available. When he left the city he might locate at Battle Creek. Station Agent Schemel of Fordyce is a son. A Norfolk physician was summoned but before he could start for Hoskins, Dr. Schemel had expired.

ADVERTISED LETTER LIST.

Letters: J. B. Hughes, W. S. Rollins, Cards: Miss Avis Cooper, Duncan Lumber and Shingle Co., Mrs. Ed Grant, A. R. Handler, Miss Jeanette Lausing, Mr. and Mrs. Robert Murray, Mrs. Nellie Nelson, Miss Amy O'Neil, Andrew Guigley, Miss Pearl Huth, Robt. Johnson, Mrs. Bertha Spartz, Christy Thomas, Mrs. Stella Thomas.

W. H. McNEAL, P. M.
 January 31, 1912.

DEATH OF MRS. DEMUTH.

After a lingering illness, Mrs. Maria Demuth, nee Kaplan, died Tuesday, January 30, at the home of her daughter Mrs. Theodore Midler, at Wayne. Funeral services were held this afternoon at her late home by Rev. J. H. Karpenstein, with interment in Greenwood cemetery. She was aged 63 years and 6 months.

Mrs. Demuth was born July 26, 1848, at Prague, Bohemia, and was married in 1866 to Philip Gustavus Demuth. To them thirteen children were born, four boys and nine girls, of whom only two daughters, Mrs. Theodore Midler and Mrs. Herman Bollenstein, are living. The husband of the deceased died in Germany in 1904. She emigrated to America in 1905, and has lived at Pilger and Wayne.

OBITUARY.

Nellie Alice Spears was born in Ford county, Ill., on November 15, 1876, and departed this life in a hospital at Omaha, Neb., on January 30, 1912, aged 35 years, 2 months and 15 days. She came with her parents to Wayne, Neb., in 1885, and grew to womanhood in this city, attending the public school, and graduated from the high school. On June 9, 1901, she was married to Mr. F. B. Smith of Emerson, and since her marriage has resided at Emerson, but she was a frequent visitor to Wayne as her mother's home is here.

She united with the Presbyterian church as a young girl, and was an earnest church worker and devoted Christian whose life was a benediction to all who knew her. She leaves to mourn her loss her husband, Mr. F. B. Smith, and an infant child, her mother,

Mrs. Mary A. Spears of Wayne, and two brothers, D. A. Spears and G. B.

Funeral services were conducted at the home of Emerson by Rev. Alpheus Corley on Wednesday afternoon, and on Thursday morning the remains were brought to Wayne for interment, a short service being held at the Presbyterian church at the special request of the friends of the family in Wayne.

The sympathy of the community goes out to the bereaved husband and mother and brothers in their sad loss.

MARS PRESIDES FOR BRIEF TIME FRIDAY

Mars is the god of war, and when trouble of any sort starts, his face reddens and beams with delight. He likes it. He likes hot temper, volcanic wrath, Rooseveltian pugacity, Vesuvius in approval and smoke. These evidences of warlike animation tickle Mars, and the old boy regards their appearance with glee. When he sees a little trouble brewing, he sticks serenely to his orbit, and looks on with a placid countenance. So when a great upheaval of noise in Christensen Brothers' office Friday afternoon attracted the attention of Mars, he winked his left eye and smiled approval. But when Satter and Veins saw what was threatening, they were scared and apprehensive, and in their dismay veered out of their orbits a trifle less than a half million miles; the former in his confusion, dropping one of his rings, and the latter, who was especially terrified, losing the bloom from her usually fair features and forgetting for a moment her duty to look after the planting and general welfare of government seeds and other seeds that replenish the storehouses of the earth.

When the First National Bank officials heard the uproar upstairs, they at first thought Dr. Adams, dentist, had an unusual case—that perhaps he was pulling a tooth that had its roots or tails wrapped around the victim's vermillion. They feared he was having some difficulty in getting out the tooth without extracting the backbone and ribs, and that the patient was taking note of the faculty shouting at frequent intervals. But such an exception had not happened in the doctor's dental experience. He says it never will happen, for his surgery is mild, and his patients always free from pain and noise.

People in the north part of town who heard the disturbance thought Columbus A. J. Ferguson and J. M. Cherry were holding a revival—political revival, and that they were bombarding their hearers with their biggest guns in the hope of getting them under the spell of powerful conviction. It was suspected, some that John T. Bressler, whose office is on the same floor, had drifted into the Ferguson-Cherry quarters, and that a series of seismic disturbances accompanied an exchange of political opinions.

Other parts of town, hearing the noise, suspected that the mayor and other attorneys and councilmen and citizens interested in the city injunction case, had gathered in the city attorney's office, and were talking over the merits of the proposition, and were reaching a settlement which would necessarily cause a few preliminary explosions and gaspulations.

But all these suspicious were wrong. The noise issued from Christensen Brothers' office whose atmosphere is usually tranquil. The two Christensenes were there. Editor Gardner was there. They were talking about crops and real estate, the reconstruction of China and other things. M. T. Musingger was there. C. T. Norton who came along later, was invited in. It would seem that Messrs. Musingger and Norton are not fond of each other. They had apparently become estranged. Instead of addressing each other with gentle and feeling solicitude, they gave vent to words that indicated a suspicion of mutual dislike. Their words acted as though they had been warmed with Lucifer matches. The air was soon charged with loud, warlike exclamations. Editor Gardner thought he could smell sulphur, and decided to retreat. He left the group in as orderly a manner as the gush of words would permit. When he got safely out, he made a hasty inventory, and found that he was all together.

The fury of words was exciting while it lasted, but there were no serious results, and everybody was as happy afterwards as before.

MONDAMIN HOTEL BURNS

The Mondamin hotel which was built in Sioux City forty-two years ago, was destroyed by fire Tuesday morning. The fire started in the basement. The loss is estimated at \$204,000, with insurance of \$192,000.

BREACH OF PROMISE IS ALLEGED IN SUIT

PHIL SULLIVAN IS DEFENDANT
Miss McCarthy Alleges that he Promised to Marry Her—Wants Judgment for \$150,000.

Late Thursday afternoon Miss Anne McCarthy, through her attorneys, Berry & Berry, filed suit in the district court at this place against Philip Sullivan, alleging breach of promise to marry and asking for a judgment against him for \$150,000.

In her petition, Miss McCarthy alleges that last August the defendant promised to marry her, and that she promised to marry him, but that she retracted her promise and remained single, and at all times has been and is still willing to marry defendant.

The petition further alleges that on or about October 23, 1911, plaintiff and defendant agreed to be married in a short time, the latter promising to marry her as soon as he could dispose of some property in Wayne county, and that after marriage they would go west to make their home. Miss McCarthy alleges therefore that she prepared for her marriage.

The petition alleges that the defendant has neglected and failed to marry the plaintiff, and now refuses to marry her. The petition alleges further that by reason of the failure of the defendant to fulfill the contract of marriage, this plaintiff has endured great grief and mental anguish, and has engaged great distress and mortification. The plaintiff therefore asks for \$150,000.

This is the second suit of the kind Philip Sullivan has had lodged against him in recent years. In Holly county he was sued for \$50,000 by Mary Cawley, but the action was settled out of court and dismissed. That case was disposed of last April.

Mr. Sullivan is a wealthy and well-known Wayne county bachelor, having lived here for many years.

SOCIAL NEWS.

The Westminster Guild will meet Friday evening at the home of Miss Maude Gotthe.

The P. E. O. society meets next Monday evening at the home of Mrs. J. Woodward Jones.

Mrs. Belle Ley entertains school-day friends at a dinner party this evening in honor of Mrs. Claude Hulston.

The Shakespeare club met with Miss Stocking Tuesday evening and studied the usual lesson. The next meeting will be held with Mrs. Lutell.

The local P. E. O. will be inspected next week by the state organizer, Mrs. Bertha Clark Hughes, of South Omaha, at the home of Mrs. J. W. Jones.

At the meeting of the Tuesday club next week at the home of Mrs. A. K. Davis, preparations will be made for a Valentine party on February 14. The husbands of the members will be invited.

President and Mrs. U. S. Connedighly entertained Superintendent and Mrs. J. H. Kemp and Rev. and Mrs. Alexander Corkey and Miss Lucile Corkey at a 6 o'clock dinner Saturday.

The Home Guard, a missionary society of young people of the M. E. church, met with the leader, Mrs. Bert Brown, Monday afternoon. Fourteen were present and a program of readings and songs was carried out.

The Monday club met at the home of Mrs. E. Cunningham this week. Mrs. Chace gave a review of "The End Shepherd," by Henry Van Dyke. A discussion of current events followed. The next meeting will be held with Mrs. Heckert.

The Acme club met this week with Mrs. Britell, and devoted the afternoon to current events, which were discussed and proved very interesting. At the conclusion of the program Mrs. Britell served a delicious two-course lunch. The next meeting will be with Mrs. Wilson.

Mrs. Henry Ley was hostess to a party at the Crystal last Thursday afternoon, followed by a 6 o'clock dinner at her home. Those present were: Mrs. Elsie Titten, Mrs. U. S. Conn, Mrs. Alexander Corkey, and the Misses Conn

and Torkey. The time was pleasantly spent.

Members of the H. B. club had what they call "housekeepers' day" at the home of Mrs. James Miller Tuesday afternoon. Each member demonstrated her cooking ability by preparing something for a 6 o'clock dinner, and the result was a big, rich feast. The husbands of the members were invited to enjoy it.

Twenty-five neighbors of Mr. and Mrs. R. H. Skiles surprised them Thursday evening by gathering at their home for a social time. They brought good things to eat with them, and had a feast at an appropriate hour. The surprise was a success, and everybody had a pleasant time.

Misses Zoe and Mary Mellor entertained a dancing party last evening at their home in honor of Stanley Huffman, son of Edin, Neb. Music was furnished by Professor Otto Vogel of Norfolk. Fifteen couples were present, and they had a delightful time. Dinner was served during the evening.

Mrs. E. A. Johnson entertained a number of friends at an informal musicale followed by a buffet luncheon, last Thursday evening. Those present were Mrs. E. Cunningham, Mrs. Claude Hulston, Mrs. James Miller and Miss Rachel Fairchild, and Willis Plotwood, Don Cunningham, Lloyd Alexander and Jason Corst.

Members of the Degree of Honor are planning to give a basket social at their home Thursday, February 8. A good program will be arranged and an evening of enjoyment assured all who attend. All young ladies bringing boxes are requested to put samples of the dress they wear that evening in their boxes, so the young gentlemen can thus find partners.

The Minerva club met at the home of Mrs. George Fortner Tuesday afternoon with fifteen members present. The subject, "The Soil and its Products," was presented in an interesting manner under the leadership of Mrs. Grothe who illustrated each paper with appropriate charts. The following ally prepared papers were read: "Corn," Mrs. Coleman; "Wool," Mrs. Rose; "Wool," Mrs. Hunter; "Wood Fibers," Mrs. Bright; "Minerals," Mrs. Berry; "Miscellaneous Products," Mrs. Grothe; Mrs. W. I. Fisher of Des Moines, was a guest of the club. The next meeting will be held with Mrs. Roe with Mrs. House leader.

Members of the Bridge Whist club and a number of others were guests of Mrs. William Mellor at a masquerade party last Friday night. The costumes were unique and interesting. Dancing, a merry time generally made the evening pass pleasantly. Light refreshments were served. Names of the guests: Mrs. H. B. Jones, Mrs. Harry Fisher, Mrs. William Morris, Mrs. James Miller, Mrs. Phil Kohl, Miss Ruth Bressler, Miss Mattie Shulteis, Miss Helen Naugle, Miss Edna Neely, Miss Helen McNeal, Miss Blanche Gaertner, Miss Mary Mellor, Miss Zoe Mellor, Miss Helen Blair, Miss Clara Heckert, Miss Fred Ellis, Miss Jane Arnold, Miss Jessie Strickland, Miss Marguerite Chase, and Miss Katherine Lewis.

The young people of the M. E. church gave what they termed a "college social" Saturday evening. As the young people entered the church they were given registration cards upon paying a fee of ten cents each. They were then shown to the basement which was fitted for class rooms. When the bell rang they went to the class rooms indicated on their cards. Seven classes were organized and taught, and the experience was a very lively and interesting initiation of college work. When all had finished the course of each class they were called to the chapel where Glen Hickman officiated as president, and the exercises succeeded in enlivening good humor. Then sandwiches, pickles and coffee were served. About 150 were present, and the cash proceeds will be used as a payment on a piano which the young people have bought.

Thoroughbred-White Wyandotte cockerels, and eggs for hatching in season. A. G. Crenshaw, Wayne, Neb.

SCHOOL NOTES

Several of the Randolph teachers visited our school last Monday.

Recent visitors were Mesdames Norton, Malhot, Smith and Welch and Miss Chapin.

Remember the preliminary debating and declamatory contest at the high school on the evening of February 8. Don't fail to attend.

Our high school girls have organized basket ball teams and practice on Monday and Wednesday evenings after school. Miss Neely is their coach and trainer.

On Friday evening, February 23, a public school program will be given at the high school. In this program every grade will be represented. Plan now to attend this entertainment.

Our regular gymnasium classes have been so organized that every pupil is given an opportunity to receive physical training. We feel confident that this work will prove beneficial to every one who will take it and we urge all to take advantage of it.

Last Friday morning, with Everett Raymond presiding, the ninth grade debated the question: "Resolved, That Women Should Vote." Mary Lewis and Clara Liedtke upheld the affirmative side of the question and Gene Leahy and Gilbert Weber the negative. All debated very creditably, but the girls won by a small margin, the judges voting four to three.

A large crowd witnessed the two games of basket ball in the high school gymnasium last Friday evening. The first game was between the high school and one of the State Normal teams, and resulted in victory for the high school by 29 to 13. This was a nice, clean game. The second game was between the Wayne Athletic club and another State Normal team and resulted in a victory for the latter team by 13 to 6. This game was a little rough. Following are the lineups:

HIGH SCHOOL: NORMAN Jones, Hickman, Gilderleeve, Jones, Leamy, Hamon, Mines, Marshall, Whitman, Stodden, Baird.

TOWN TEAM: NORMAN Morgan, Foster, Williams, Cress, Jones, Hickman, Leavens, Barker, Lay, Paulski.

There will be games at the State Normal on Friday night of this week and at the high school on Saturday night.

WILLIAM GREW IN THE ROLLING GIRL.

One of the season's greatest theatrical treats will be the return of William Grew who comes to the opera house on next Saturday night in one of the pleasurable farces ever written, "The Rolling Girl." This song comedy is one of the best plays produced this season, and it is in the hands of very clever players. At the head we find Mr. William Grew, one of the best and most entertaining comedians on the American stage today, and in the great comedy role he has in "The Rolling Girl" he is to use the slang phrase, "roit." Supporting Mr. Grew are the Misses Little and Royal, also Jack Wilson, late star of George M. Cohan's "Little Johnny Jones." Benoit Clayton, David Washburn, Adeline Howard and others of the same merit.

"The Rolling Girl" with William Grew will be the attraction at the opera house on Saturday night, February 2. It promises to be one of the best things the local playhouse has booked this season. The plot of the piece is an original one and affords many side-splitting situations and funny climaxes, being as it is, a play written for humorous purposes only. It is without a doubt one of the cleverest song farces produced this season. Mr. Grew in the comedy role of Daniel Truitt, who is a scream from start to finish. Aside from the comedy there are some of the best musical numbers running through the show that have been written in recent years, so that with a combination like that it makes a show worth while.

POULTRY HOUSES FOR SALE.

I have disposed of my poultry and now have two good poultry houses that I will sell cheap. FRANK WHITE, NEX, Herald Office.

SWEEPING COMPOUND.

We buy sweeping compound in ton lots packed in 100-pound galvanized iron drums, fresh goods in neat packages, \$2.00 per can. Phone 68—J. R. RUNDLE & CO.

Bloomfield Monitor: J. H. Krei came up from Wayne about a month ago and has gone on the Wendell Baker farm northwest of town where he expects to live in the future. Mr. Krei was a pleasant caller at the Monitor office on Tuesday and added his name to our list.

The engine on the morning train Tuesday sprang a leak between Newcastle and Ponca.—Ponca Leader. It thus appears that the engine on the Ponca branch has a phenomenally long boiler. Further, while it caused the railroad company some annoyance to suffer a leak in its boiler between Ponca and Newcastle, it must have been comforting to know that its boiler between Sioux City and Ponca, and that part of its boiler extending beyond Newcastle didn't leak.

Attorney K. R. Davis made a trip to Sioux City on business Tuesday.

For sale, barn 14 by 50. Also spring delivery wagon.—Nelson Bros. F11f

Mrs. W. E. Bellows of Carroll, visited Monday with the family of W. M. Fleetwood.

Mrs. Ross Peterson and two children of Carroll, were Wayne visitors Monday afternoon.

Miss Mary Grier went to Sioux City Tuesday to visit Mrs. James Grier at the hospital. Friends of the family will be glad to know that Mrs. Grier is improving nicely.

JURYMEN SELECTED.

Monday Sheriff George T. Porter and Clerk of Court Forrest Hughes selected men to serve as jurors at the term of court which opens in Wayne February 19. They were summoned to appear February 26, the first week to be devoted to court cases. Names of the jurors: Otto Krenpke, Alex Hultz, August Jacobson, Jesse Clayton, Frank Long, Harry Tidrick, Samuel Reichert, R. B. Hanson, August Schellenberg, J. B. McDonald, Henry Kloppe, August Bruce, Henry Ulrich, Emil Splittgerber, Lou Owen, Emil Hendrickson, Oscar Hilder, John Masie, Steve Davis, Jerome Hunter, Henry Bartells, Louis Johnson, Ben Cox, and F. E. Francis.

CHANCELLOR EXPLAINS.

False reports have been circulated in regard to typhoid conditions among students of the university.

"There have been about thirty five cases; one death has occurred. The end of the N street well, the supposed source of contamination, has been disinfected.

All water is now treated with hypochlorite, rendering it practically free from bacteria.

Very few new cases are being reported in the city.

At no time has the percentage of people in the city ill with the disease been as great as in most of the smaller places in the country where typhoid is an epidemic.

The total number of university students stricken is less than one per cent of the total registration.

S. AVERY, Chancellor.

January 25, 1912.

I have a large list of Wayne residence property for sale, some of the best in the city. Prices from \$1,000 to \$6,000. Very best terms.

GRANT S. MEARS.

HOUSE FOR SALE. Good seven-room house, with barn, well located and for sale cheap. N21f BEST BROWN.	HAND IN CORN SHELLER. Raudolph Times: J. W. Gries was severely injured Thursday forenoon by accidentally getting his hand in a corn-sheller. He was assisting in shelling at Charles Downing's place, and in some manner got his hand in the cog wheel, tearing and mangling the hand in a frightful manner. Drs. Kerley and Cook worked for hours on the mangled member, and amputated two fingers. It was a bad accident and the friends of Mr. Gries sympathize with him.

Place For Footprints. "I shall leave footprints on the sands of time," said the idealist. "What for?" asked the crudely practical person. "Nobody will want to go round looking for footprints. What we want to do for posterity is to help build some good roads."—Washington Star.

Everlasting. Vicar's Daughter—I'm sorry you don't like the vicar's sermons, William. What is the matter with them? Are they too long? William—Yes, miss. You'd curate 'e says. "In conclusion," said 'e do conclude. But 'r vicar 'e says "Lastly," and 'e do last.—London

Northwestern Mutual Insurance Company of Milwaukee, Wis. is my Company.

It Always Fills the Bill.

I have closed a contract whereby I become the district manager of this old reliable insurance company for the district consisting of Thurston, Dakota, Dixon, Wayne, Cedar and the east half of Knox counties and shall push their business by adding this department to my hand office. I solicit your business in this line and agree to render you honorable service.

The Northwestern was organized in 1857 and is now fifty-five years old. It has weathered great financial panics and December 31, 1910, had \$273,813,037.00 of assets to its credit. Safe and Sound. During the year 1910 it paid in dividends alone \$11,849,430.00 which dividends are declared annually, beginning at the end of the first year and thus reducing the cost of insurance. The cost is what tells.

The Northwestern is a purely mutual company and each policy holder shares alike in the surplus of the company pro-rata on his insurance. No stockholders to get a large interest rate on their capital stock. I carry \$20,000.00 life insurance myself all of which is old line and \$18,000.00 of it in the Northwestern. From personal experience, I can with a clear conscience recommend the Northwestern to you. While no active agent has represented this company here for some years yet there are over \$100,000.00 of insurance in force in Wayne county.

The Northwestern alone issued over \$2,000,000.00 insurance in Nebraska during the last year and over 30 per cent of its entire business was written on old policy holders. What's the reason? They were all satisfied and wanted more. Try it for yourself and see.

The Northwestern writes a great many different kinds of policies and you can get just what you want. Even the straight life is cheaper than many assessment companies or orders and it has the larger amount of surplus to fall back on. You can loan money on a policy in the Northwestern. It's good security. Try it.

Drop in our office and get my figures on a Northwestern policy and do it today for tomorrow may be too late. Old men must die and young men are apt to go also. You insure your personal property, then why not your life for the protection of those dependent upon you or the financial obligation which you have taken on.

C. M. CHRISTENSEN DISTRICT MANAGER WAYNE, NEB.

EAGLES IN COMBAT.

Fury of the Belligerent Birds in Their Duel in the Air.

An old time observer in Maryland says that the Eastern Shore eagles can fly faster, remain in the lofty night longer and descend from it to the earth with more velocity than any other created thing with wings. He also says that the fierceness of the eagles and the tenacity and power of clutch they can put into their immense talons are beyond belief, and he cites as an instance of it a fight between two of the big birds that he once saw.

Just what incited the two eagles to the combat this spectator of the fight did not know, but they came together high in the air. A long time the two fierce birds fought with beak and talon and wing, rushing upon one another, delivering their blows and retreating for advantage in a new attack. Then at last they clinched and fought at close quarters.

In that position they came plunging to the earth, but neither made any effort to stay the fall, so desperately intent was each on the savage battle. They struck together in the freshly turned furrow of a plowed field, and the impact failed to separate them or to cause an instant's delay in the fight,

and the coming on the scene of a man with a club, with which he at once took part in the battle, did not distract their attention from one another, and the man killed them both. Their talons were buried so deeply in each other's flesh that to separate the two belligerent eagles it was necessary to cut off their legs.—New York Sun.

Married Young to Beat Smallpox.

When I was a lad the number of people whose faces were pitted with smallpox was legion. "Birds-feeds smallpox" was on the card worn by most of the unfortunate street beggars who had lost their sight.

The anxiety of parents to have their daughters married at an age which would now be considered almost scandalously immature was one by-product of the frequency and severity of smallpox. If a girl's face were marked her prospects of matrimony were, of course, impaired, and the ambition of mothers—so common was smallpox—was to see their daughters safely married before they caught the disease.

From Walter Gilbey's "Recollections of Seventy Years" in Nineteenth Century.

An Attention case of big head is maintained by silence and a wise look.

BREW THIS TONIC AT HOME

To many of you there is no medicine quite so good as that made from roots and herbs.

For a general tonic, one that corrects all disorders due to inactivity of the bowels, liver and kidneys—make a tea with

Nyal's Mountain Herbs

This is a combination of ten roots and herbs, carefully selected—we will vouch for their purity and strength and when you buy we can give you the name and action of each—more than we can do with any other.

For indigestion, Constipation, Dyspepsia, Biliousness, Liver Complaint, Flatulency and the Nausea of Headaches, you will do well to make a tea with Nyal's Mountain Herbs—keep them in the home.

25 cents a package.

Besides good food you get good treatment at our store. Always glad to have people come in and look around, whether you want to buy or not. We wait on you promptly, give you what you ask for but never tease anyone to buy anything.

QUALITY In Medicines

There are medicines and medicines. There is as much difference between pure, fresh drugs and inferior, stale drugs as there is between fresh eggs and stale eggs—the former are good and wholesome, and the latter are bad and worthless.

We use only the purest and freshest drugs. That is why our medicines are so reliable and bring about such good results. We fill prescriptions with absolute care and precision and charge very reasonable prices.

PHONE 137

THE WEEK WITH THE CHURCHES.

St. Mary's Catholic Church.
(Rev. William Kearns, Pastor.)
Mass at 10:15 a. m. Sunday morning, followed by benediction. Catechetical class at the appointed hour.

St. Paul's Lutheran Church.
(Rev. C. J. Rieger, Pastor.)
Regular preaching services next Sunday morning at 11 o'clock. Sunday school at 10 o'clock. Catechetical instruction—Saturday at 2 p. m.

German Evangelical Lutheran.
(Rev. J. H. Karpenstein, Pastor.)
No services next Sunday morning on account of the pastor being in Wisconsin. However, Sunday school at the usual hour, 10 a. m.

Presbyterian Church.
(Rev. Alexander Corley, Pastor.)
"Christ, the Teacher," will be the subject of the morning sermon at the Presbyterian church next Sabbath. In the evening the congregation will unite in the union meeting at the M. E. church.

Next week the prayer meeting at the Presbyterian church will be omitted and the congregation will unite with the M. E. congregation on Wednesday evening.

The Sunday school begins at 9:50, commencing with a song service. The preaching service begins at 11 o'clock. The Junior C. E. meets on Sunday afternoon at 3 o'clock, and the Senior C. E. meets at 6:30.

The services at the Presbyterian church last Sabbath morning were especially impressive. The ordinance of infant baptism was administered, and a number of new members were received into the fellowship of the church, after which the Communion was observed.

First Baptist Church.
(Rev. B. P. Richardson, Pastor.)
Sunday morning will be our communion service. We are greatly pleased with both the deepening interest in the monthly service, and the large attendance of our members upon the communion hour. The theme for our meditation on Sunday will be: "Abiding in Christ."

During the absence of Professor Davies our choir will be under the leadership of Professor Coleman. We are thus assured of good music.

Because of some unfortunate circumstances, our heating plant would not permit us to worship last Sunday. But we are now fully assured that things will be warm next Sunday for our meeting together.

There will be no evening meeting except the B. Y. P. T. We shall join with the Methodists in their union service.

Our special services will begin on February 25. Evangelist Will Pugsley, known as the "Canadian evangelist," will be our helper. He is now in a great meeting in this state, a whole town is being moved. From what I can learn he is a strong and safe leader in evangelistic work.

During our meetings Professor Coleman will have charge of our music.

First Methodist Church.
(Rev. William Gorst, Pastor.)
Dr. French struck the keynote of happy and hopeful evangelism last Sunday.

day. In the morning the auditorium was full and the union service in the evening taxed the capacity of the church. Good congregations have been in attendance during the week at both the afternoon and evening meetings, and every talk and sermon has been an inspiration to the people to live a happy, earnest and devoted Christian life. The following is the program for the balance of the week and Sunday:

Thursday, 3 p. m., Sympathetic Service, 7:40 p. m., Harvest Fest Indispensable.

Friday, 3 p. m., Co-operation service, 7:30, The Wedding Garment.

Sunday, 10:30 a. m., Happy People; 3 p. m., Men's Meeting, The Trials and Triumphs of a Poor Boy; 7:30 p. m., A Question for Thinkers.

The men's meeting in the afternoon Sunday will be one of great value to all who attend and it must be remembered that all the men and boys of the community are most cordially invited to come and enjoy this meeting. Let every man see to it that his friends are apprised of this meeting and invited to be present. The Normal male quartet will sing.

On Sunday evening will be another union meeting with the different congregations and their pastors. It ought to be a great service. The meetings will continue through next week.

STATE-NORMAL NEWS.

The second semester began on Monday morning at 7:35 without any break between the work of the two terms. During the past week there were twenty-five registrations which make the present enrollment 375.

Earl Lewis was confined to his house for several days because of sickness, but is again on duty.

The band under the direction of Professor Coleman is doing nicely and we have been hearing much favorable comment on the good showing that the boys make when they meet for practice.

The present crowded condition shows how great is the need for better equipment to properly carry on the work of the school. It is fortunate that we are promised a new building before the opening of the summer term.

Four basketball games are announced for this week. On Friday evening in the gymnasium of the Normal, our first team will meet the city of Wayne, and the Lyons high school will play the Normal's second team. On Saturday evening in the gymnasium of the Wayne high school the Lyons high school team will play the Wayne high school team and the Normal's second team will play the second team of the city of Wayne. The price of admission to these games is twenty-five cents.

Among the students who registered at the opening of the semester, three were enrolled in the Senior class. Elvita P. Roberts is a graduate of the Charter Oak, Ia., high school, spent twenty weeks at the Fremont normal and one year in the Milwaukee, Wis., Training School. Jennie Gaertner was graduated from the Wayne high school in 1902 and from the Scientific course of the Nebraska Normal college in 1903. She has had a number of years of successful experience in rural and graded school in Nebraska. Mrs. Homer Stacey is a graduate of the Lyons, Nebraska, high school and of the Fremont Normal college. She also spent one summer in special work at the Chicago City Normal. Each of these ladies will complete the advanced course of the State Normal School at the close of this year and receive a diploma and a professional life certificate.

Arrangements have been made for the preliminary debates which will take place in about two weeks. Two young women and eight young men have enrolled for these debates and from this list two debating teams will be selected; the first to debate with Peru and the second to debate with Kearney. The question selected for the preliminaries is upon the adoption of the proposed amendment concerning the initiative and referendum. The speakers will be arranged as follows: Affirmative, Miss Britell, Mr. Stierling, Miss Madison, Mr. Barker and Mr. Brittain; negative, Mr. McEachon, Mr. McGee, Mr. Olders-Schnee, Mr. Wickman and Mr. Cross.

LIVE STOCK SHIPMENTS.

Following are the live stock shipments for the past week:

La. Larson, car of cattle to Omaha January 28.

Guy Surber, two cars cattle to South Omaha January 28.

Frank Ringray, car of cattle to South Omaha January 28.

Strahan & Kingsbury, car of hogs to Sioux City January 28.

Henry Link, car of hogs to Sioux City January 25.

A family large enough to eat a turkey at one meal can't often afford it.

COUNCIL ADOPTS TWO RESOLUTIONS

The city council met in regular session Monday evening with Mayor Kate in the chair and the following council men present: Messrs. Bright, Meister, Sprague, McVicker and Kingsbury.

The minutes of the last regular meeting were read and approved. The following bills were then allowed:

Harbert (bushel), balance on water main extension.....	30.60
Hessons-White Coal Co., coal.....	57.70

Ed Merrill, January salary.....	50.00
John Harmer, January salary.....	50.00
John Newman, January salary.....	50.00
George L. Miner, January salary.....	75.00

The following resolution was offered by Councilman Sprague:

"Whereas, Honorable Andrew Carnegie of the city of New York, has donated the sum of \$9,000 for the erection of a public library in the city of Wayne, Nebraska, and whereas, the said Andrew Carnegie as an inducement, requires the city of Wayne, Nebraska, to levy a tax annually equal in amount to \$900 in the total valuation of the city of Wayne, Nebraska, approximately \$28,000, and whereas, by law the city of Wayne is authorized to levy a tax not exceeding three mills on the dollar for the maintenance of a public library;

"Now, therefore, be it resolved by the mayor and council of the city of Wayne, Nebraska, that a tax equal to the amount of \$900 be levied annually for the maintenance of the public library so erected in the city of Wayne, Nebraska."

The roll call on the above resolution was as follows: Ayes: Bright, Meister, Sprague, McVicker and Kingsbury, Nays: None.

Ordinance No. 204, to regulate the license, etc., of this city was read for the second time.

No further business appearing before the meeting, motion was carried to adjourn.

One of the great injustices of wars is that the men who start them seldom do any of the fighting.

Winter may not be the healthiest season, but the death rate among aviators seems somewhat lower during the frigid term.

Extra Special

Saturday

2 p. m.

Uncle Walt

The Poet Philosopher

Old Hippo's whiskers, jolt the town. He tries to live the things things brown, but often gets a brim-dial green that

MAN'S VANITY has a hard metal. His sheet, Cap. He is slain and fat, and yet he wears a ruff and a polky neck

and his clothes outside the holly hock and rose. Judge Hogg is bald but has a hedge of purple hair around the edge; he combs that autumn hair across, to try to hide the total loss. These men are great and faithful friends, and often when the day's toil ends, they sit and talk, and they are agreed that what this country's women need is judgment, muscular and sane. The girls are so stupidly said. They point and nod in fifty ways, and knit themselves in iron stays, and put fool hulloos on their feet, and scare the horses in the street. They are not that they're jaded and muddled, that Jimmie, Brick and Hogg are shocked!

A winning smile, a man may wear when sitting in his easy chair, his slippers on his feet, while out of doors, over yale and bill, the man

TEST OF who runs the weather OPTIMISM will be spending snow and

slip. It's a hard to spring a laugh while winding up the photograph which grows out of your strings, and one may shortly lose, and make who having over recent books produced by Laura Jones. But when the housewife says: "Old sport, me thinks you'd better cease to court the muses for awhile, and to the basement now repair, and tinker with the furnace there," can you still wear a smile? I've gone down to those realms below a stranger to all grief, and was in all that's sad and blue, but when I shook the jagged old grate, and claved out tinklers, stones, and slate, my smile went up the flue. As I came up the cellar stair it was a treat to hear me swear for those who like spoiled words, and then the husband said: "For shame! That is no way to play the game! Sing like the dicker bird!"

I wonder why the Eskimos persist in living in the snows, where every log greaze that flows has whiskers on it.

THE ESKIMOS nor heating stoves, and so those poor, misguided ones just stand around and freeze in droves. It's queer, doggone it! They all have children in their coats, and to the moving picture shows you never see the Eskimos with pleasure

wearing; they have no helpful books to read, no "Sherlock Holmes," "Old Sleuth" or "Quercy," and there the nights are gone to seed, they have no ending. No photograph, no cards, no book! No folding bed, no inglenook! Some grandpas left by Dr. Cook their only solace! No luxuries to come their way, no pumpkin-pies, no lattes of hay! O, jumping ginger, never may their fate befall us! And yet some Eskimo may cry: "What chumps those folks who live and die beneath a tire some sunny sky, and seldom shiver! They're always short on snow down there, they never kill a polar bear, no whale is on their bill of fare, nor will rue liver!"

I flash my roll and frock give to help the abject poor to live, and make their lives a song, when I feel sure the Daily Wave will print a list

THE CHEER- OF those who gave to FULL GIVER aid the hungry through. It is a noble thing to

hand assistance to the ones who stand and weep in darkness, to comfort grief, assuage distress—when we are sure the daily press will chronicle the facts. The widow wails her hands she wrings: "Go, go, with healing in my wings and dry her bitter tears! I give her children bats and shoes when I feel sure that in the News a full account appears. And when that is all I need to aid some worthy project, I'm arrayed with those who hand out kales; and then how anxiously I wait the evening sheet—'It's always late to read the stirring tale!' Oh, Charley, the noblest thing of which the highrow poets sing, I am your faithful friend! For you I always have a song, but I must see I get an ad before that word I spend!"

"I slide in the icy gutter and fracture a neck or knee; and I would that my tongue could utter the thoughts that arise in me. So

THE ICY WALK many of 'em, some found in the mart and talk; what profits their ray dreamings if, perilous is the walk! Come forth from your hall or hovel when slick is the earth with sleet, and do with a wooden shove your stunt in the public street; cease pushing through your mustaches your views on the course of Taft, and sprinkle the walk with ashes for that is the wiser grade. My neighbors will stand debating the worth of the income

tax while out on the walks are skating poor souls on their heads or backs. I don't care a whoop if Teddy or Woodrow or Hob should run; it's snowing upon already, and I shall remove a job of snow with my good old shovel, but sprinkle the ice with salt, that the one may fall and gravel and sweep of the name of Walt.

The water wagon goes its way with crackings long and loud. When it set forth on New Year day it held a merry crowd that filled the

THE WATER art with might and song, with piteous and noble vow; where is that gay and gladsome throng! Where are those heroes hoed? One passenger soon left his seat, hard by the baggage rail; he said he couldn't stand the heat, although the day was chill. And one, who started brave and bold, a youth of princely form, said that he couldn't stand the cold, although the day was warm. And one, a man of stuffing worth, got down, abroad to roam; he had to celebrate a birth that happened at his home. And one announced with bated breath he had to quit the cart; he'd heard upon the sudden death of his step uncle Mart. So, one by one, and day by day, they went along and fled; and on his home, so, weary way the water wagon sped.

NEBRASKA SENATOR IN DEFENSE OF TAFT

Indianapolis, Ind., Jan. 25.—Achievements of President Taft's administration were defended here tonight by Senator Norris Brown of Nebraska at the annual banquet of the republican editors of Indiana. The speech was regarded as a keynote of the administration's efforts in launching a country-wide campaign. Besides the editors republican party leaders from all over the state attended the banquet. Senator Brown reviewed at considerable length what had been accomplished by President Taft and the republican party and laid the greatest stress on the Payne-Albright tariff law, railroad regulation, direct election of United States senators, income tax amendment, enforcement of the anti-trust law and other measures and peace treaties.

The Payne Tariff Law.

In discussing the Payne tariff bill, Senator Brown said: "The Payne law has closed no factory; it has reduced the wage of no man; it has denied labor not a single opportunity. Under it the farmer has prospered. It has in no way impaired the general prosperity of the people. And yet the law can be improved. It should be improved a schedule at a time and this will be done if the president and the republican party have their way. Today congress has before it a message from the president demanding reduction of duties in one schedule based on the facts shown by the experts of the tariff board. "The tariff law contained two other propositions other than tariff duties which go far to give the measure a good name. It contained a provision to tax corporations, thereby compelling those men who prefer to enjoy the profits and immunities of doing business with the public as incorporators rather than as individuals, to contribute to the support of the federal government. That provision alone has brought to the national treasury in round numbers more than \$25,000,000 a year since it became effective."

Senator Brown said "it was left to the Taft administration to complete the job of clothing the interstate-commerce commission with power actually to prevent an increase in rates until after investigation by the commission, and by declaring any change in rates unlawful unless first consented to by the commission."

Recalls Senate Debate.

He said he well remembered the debate in the senate on that feature of the law and while the debate was proceeding "the railroads were also proceeding to increase freight rates." "It is good to know," said Senator Brown, "that while congress was on guard for the people and the day before the increase would become effective President Taft invoked the power of the court and in the name of the United States stopped by injunction every increase proposed by the railroads. Again it was the executive arm of the government and not congress which saved a helpless public from a great wrong. It is not possible that republicans will hesitate to approve public service of that character." Senator Brown declared that for more than half a century the people have been demanding the right to elect by direct vote United States senators and while the proposition never found

Phone 143 J. T. Leahy

place in the national platform of the republican party, it was advocated by President Taft in his acceptance message. Referring to the income tax amendment now pending before the senate, Senator Brown said that the resolution providing for this amendment was resting peacefully in committee until President Taft's special message, amended congress that such an amendment was right and should be passed and submitted to the states.

Sherman Act Enforcement.

As to the enforcement of the Sherman anti-trust act, Senator Brown said: "For twenty years every attempt on the part of law officers of the government has been met by the lawless with stubborn and arrogant resistance. It has taken the courts many years to hear and determine the various questions so presented, but the day of interpretation, through a long one, is about over. Ever since the decree in the Northern Securities case was issued, the march of prosecution has been steady and uninterrupted. The decrees in the Standard oil and tobacco cases, however much they may criticize the philosophy of the opinions of the court, resulted in taking the life of those combinations in restraint of trade. The great captains of the big combinations are facing a trial jury in a fight for their liberty, in a demonstration of the good faith and the determination of this administration to enforce the law. The attorney general whom he said, "quit as personal. He said that during the McKelvie administration three prosecutions were brought for the enforcement of the anti-trust law; forty-four prosecutions during the seven and a half years of Roosevelt's administration and that during two years and nine months of Taft's administration—thirty-seven would tell the whole truth about President Taft," said the senator in conclusion. "There could not be enough democratic votes in the electoral college to make a quorum." He said that if there is any credit to be claimed or any blame to be imposed, what has been done so far during the Taft administration, it belongs to the republican party, as well as to the president.

Income Tax Amendment.

"There is another amendment to the constitution now pending before the states. The resolution submitting it was passed by congress about two years ago. I refer to the amendment vesting congress with undigested power to tax incomes. The power was exercised from time to time, whenever the needs of the country required it, by the federal government for nearly a century, but in 1895 the supreme court held such a tax to be in violation of the constitution. This presented a serious situation. The judgment of the court was binding. It left our nation without a power conceded to every other great nation. No man could tell how soon it might become necessary to the life of the republic to exercise the power which the court had said did not exist. So a resolution submitting an income tax amendment to the constitution was offered in the senate by a republican. It took the usual course and was referred to a committee where it continued to rest in peace and quiet until President Taft by special message admonished congress that such an amendment was right and should be passed and submitted to the states. That message was headed. The resolution was reported, a roll call was had, on the roll call every senator voted yes; not one voted no. It went to the house and received practically all the votes of that body. It was certified to the states. Already thirty-one states have ratified it, including Indiana and Nebraska. Only five more are necessary to make it a part of the constitution. It is now conceded even by those who scoffed at the proposition when it was first made in the senate, that next win-

The Wayne Herald

COUNTY CORRESPONDENCE

The Oldest Established Paper in Wayne County. Entered at the Postoffice at Wayne, Neb., as second class mail matter. HERALD PUBLISHING CO. M. W. HUBE, Editor and Manager. Published Every Thursday. Subscription, \$1.50 a Year. Telephone No. 140.

The appearance of Colonel Roosevelt as a possible presidential candidate has perplexed insurance Republicans a good deal. Congressman Norris has written the Nebraska Roosevelt committee that he proposes to stick to LaFollette, because the latter is the man to whom insurgents originally looked for national leadership.

Last week the Madison commercial club had a banquet and a program of ten-minute speeches for the purpose of arousing public interest in public improvement and business growth. Banquets or smokers are helpful if the businessmen have determination to do anything more than eat and talk and smoke. The habit of getting together to confer the stomach with delicate viands and listen to speeches lauding national resources and business opportunities is of no great consequence unless people keep together through the year and carry out practical plans for progress and betterment.

Here is one of the first-page headlines displayed in Sunday's Chicago Record-Herald: "Fatal Duel in Snow Fought Over Woman. Silhouettes are Used in Deadly Conflict. One Comrades Slain. Fair One Sees the Battle. Knife Slashed Victim in Later Shot. Presumably to End His Sufferings." While the headline is positive, the article that follows is built up almost wholly on suspicion and probability. A man found dead with bullet and knife wounds gave rise to speculation and a sensational story based on slight proof. There is no more evidence that a man had been fought than that a murder had been committed outright. The statements of fact in the lead do not appear in the story. Chicago papers are disposed to make sensational news more unhealthily than the facts warrant. The facts should be considered but enough.

The death of a merchant of considerable grief and loss to a merchant. The merchant goes to a dealer, places his mediocrity and makes certain promises. He says he will pay at a certain time, but doesn't do it. The merchant often trusts the dealer who offers a plausible story and who is apparently sincere, only to be repaid by having his confidence and regard. It is not easy to always detect a merchant, and a merchant, feeling sorry for a man, will be tricked into trusting him on the basis of a few very worn representations. The merchant is a parasite—lives on the energy and thrift of others. What he gets by scheming he figures clear gain without a sense of shame or compunction as to failure to make good his promise. He pays only when forced to do so by necessity.

A STRANGE LEGEND.

Origin of a Curious Custom Observed by Bulgarian Builders. Nine master masons were engaged in building a cathedral in the city of the Volod Negroe found on returning to their work each morning that the portion of the wall which they had completed the day before had fallen in a heap of rubble. The mind of Curian, the head mason, informed his comrades one morning that a voice from heaven had warned him in his sleep the night before that their labors would continue to come to naught unless they swore on that very morning to hanging in the structure the first woman to be wife, mother, daughter, or sister, who should arrive with the morning mail of one or either of them. They all took the oath, and the last man had hardly been sworn when Athos's wife appeared, carrying her babe in a basket. This was the legend, and the woman known in the legend as "Flora of the Fields," was murdered and her blood and flesh incorporated with the wall of masonry. A curious member of the Bulgarian mission who once saw it laid in Bulgaria, which survives to this day, testifies to the vitality of the legend. To insure the solidity of the house they build they measure with a reed the shadow of the first person, who passes after the digging of the foundation has been completed. When the foundation is completed this reed is buried under the first rock, usually the cornerstone.

Company. A crowd is not company. Faces are but a gallery of pictures where there is no love, and talk but a linking symbol.—Francis Bacon.

When men are pure, laws are useless; when men are corrupt, laws are broken.—Mencius.

Heiner, two cars of boys, all to Sioux City, and Gus Deck and J. Wilson, pair of battle such to South Omaha. The Royal Male quartet, the second number of the lecture course, will be at the hall Wednesday evening, February 7. Eric Norling and family moved into the home building this week, and August Riddow moved out to his own home. Arnold Pfaff gave a dance to his friends Saturday evening, it being his forty-first birthday. Arnold is now a full-fledged man. Andrew Lund returned to his home at Westington, R. D. this (Wednesday) morning after a short visit with relatives here.

WAKEFIELD.

Mr. B. D. Lundak went to Sioux City Saturday. Mr. Edwin Johnson went to Sioux City Monday. Miss Lavonia Green went to Sioux City Wednesday. Mr. Clark went to Columbus Saturday to visit over Sunday. Misses Etha and Martha Paul went to Fullerton to visit Grace Rex Monday. Miss Lois Patrick went to Pender Saturday to visit over Sunday with her parents. Mr. Roy Bemis went to Hawarden, Ia., to visit over Sunday, returning Tuesday. Mrs. J. B. Kahl and Miss Flora Krcoun were passengers to Sioux City Saturday. Mrs. J. T. Marriot and daughter, who also were passengers to Sioux City Saturday. The machinery for the Wakefield Manufacturing Co. arrived Saturday and will soon be in working order. Miss Maude Marshall of Niobrara visited her uncle, Mr. E. D. Lundak, the first of the week, returning Saturday. Mr. John Decker of Minneapolis, who is in town this week on business and renewing acquaintances, and he went to Omaha Saturday.

The Junior society of the Wesleyan church elected the following officers: President, Avonia Byrse; and secretary, Evelyn Lyman; secretary, Mrs. Frank Lyman; Mrs. H. D. Lyman; Mrs. M. M. Lyman. Mrs. M. M. Lyman died Wednesday of a pneumonia, aged 72 years. She had been illing for two years. She leaves one son and two daughters, and many other relatives and friends to mourn her loss. A funeral service will be held at the Christian church Saturday.

POLICE BLUE BOOK.

Only Eminent Reasons Find a Place in "Who's Who" of America. This "Who's Who" of America, comprising a handsome volume, bound in slip leather, a limited edition of which is issued every year or so. Only members of the "four hundred" of the criminal world find representation in this register, and an entire page is devoted to each individual mentioned. Officially the volume is known as the Identification Album of the National Bureau of Criminal Identification, an institution having headquarters at Washington. Data for the album, which is literally a blue book, are supplied by the police departments of every city in the United States, and it is to these departments that the volumes are distributed.

Each branch of criminal endeavor has a separate chapter in the book, one telling of pickpockets, another of forgers, and so on. At the top of each page are reproduced two photographs of the offender, one in profile and the other full face. Below come name, aliases, age, height, weight, general appearance and marks and scars. Bertillon measurements and criminal record fill out the page. Filed in the bureau are about 75,000 identification cards dealing with criminals, and each card is carefully preserved in a file. Each of these cards is similar to a page from the book. About one-tenth of the total number of cards are for women. About one-fourth are for negroes. British Bag.

Cathedral's War Chest.

St. Petersburg as well as Moscow and some cathedrals which are marvels of ecclesiastical architecture. St. Isaac's cathedral, for instance, in the center of the city, cost 21,000,000 rubles, or \$12,000,000. Scores and scores of other notable pillars adorn the four equal sides, while several of the beautiful green malachite columns within are worth a king's ransom. It is said that in the golden domes of St. Isaac's and the jewels within Russia has a "war chest" that would defund her for her enemies for many a year. It is said she should need the gold.—Christian Herald.

Kept Him Modest. Lord Herschell, having delivered an address before a large audience, was afterward waited on by the local reporter, who requested a digest of the deliverance. "How is it you were not present to hear it for yourself?" inquired the noble peer. "Oh," said the reporter, "I had something more important to attend to—a big boxing match." Lord Herschell admitted that this kept him modest.—London Opinion.

Young Hostess (giving her first dance, to her sisters)—Girls, I'm so anxious. Do you think I shall enjoy myself? I do hope I shall.—London Punch.

A Miserable. There is no use wasting sympathy on a man who can't bear a hard weather.—Chicago Record-Herald.

THE HUMAN FOOT.

It is Said to Be Changing and in Time May Become Toeless.

A London physician, Dr. H. Clement Lucas, says that it may keep on wearing shoes and living under the present conditions he may eventually develop into a non-foot animal, or, more properly speaking, a toeless one.

A number of years ago Dr. Lucas pointed out that the gradual disappearance of the little toe was getting ahead of the footbone, for while it had not yet lost one of its extensive functions in quite an appreciable percentage of cases, one of its lesser tendons was absent also. On the other hand, the great toe had undergone extraordinary developments because the inner side of the foot was the first to catch the weight of the body from one foot to the other in walking.

The bones, which was once a five-toed animal, now moves about solely on the nail of its big toe or consolidated toes. There is no doubt that man's internal organism has been much modified since he left off living with a tail and began living on it. Interests have changed noticeably. The foot itself has also changed. It is more completely built now, for the toes of the savage races are widely separated and stick out on different angles, the big toe especially being thrown far out and forming the great toes of a baboon's exchange.

CULTIVATE SIDE VISION.

It Will Enable You to See in Several Directions at Once.

One of the most useful gifts one can have is a good side vision. By side vision is meant literally ability to see several directions at once, and to know what is going on in other directions besides that into which the gaze may be fixed at the moment.

Just try the next time you are reading your paper in the train, for instance, and you will understand clearly why it is useful.

With a little practice the range of your side vision can be extended behind you in each direction to an angle of forty-five degrees. But your eye sees clearly very movement that takes place in one side and in another.

Now, just think what this means! The man in possession of a good side vision is not an easy one to take by surprise. In business he finds it a valuable asset. He can see what is going on with more than one person at a time. The eye cannot catch dangers from unexpected angles, and when crossing a roadway he can clearly see the traffic coming from other directions while still looking straight ahead.—London Answers.

Magdalen Islands.

In the center of the gulf of St. Lawrence the small group of Magdalen Islands are populated by 3,000 or 4,000 descendants of the Acadians, under the leadership of the Monts, who were driven out of New France, New Scotland, by the English. Since the first settlement, in 1763 generations of the same families have raised scanty crops in the valleys and fed sheep and cattle on the high coastal hills which constitute a prominent feature of an island landscape. Very few trees have here come out on the waters of the gulf in search of the cod, mackerel and lobsters on which a livelihood depends.

They are simple, primitive people, these natives of the Magdalens, laboring all the while under circumstances that are most discouraging. The year being contains twelve or thirteen distinct seasons, including several gale winds which are not inhibited and never will be.

Odd Tramway Literature.

The Liverpool tramway authorities have furnished two quaint additions to the literature of the subject. Some years ago this notice was posted in the Liverpool cars: "Passengers are requested to pay no more penalties than the conductor in their presence punches holes in their tickets." This, too, was pronounced a failure, and the officials concluded that language had not yet been invented which would have done what they had. But don't you know exactly what the official notice meant?—London Standard.

Candor by Accident.

The hostess was so weary after an hour's long call from a lover that when at last she spoke she said the most incapable of coherent speech, and her words, in consequence, changed places in her final effort at hospitality. It ran as follows: "Oh, Mr. Peters, must you stay? Can't you go?"—London Opinion.

A Fool's Paradise. A world in which there were no factors to be accomplished, no burdens to be borne, no storms to be endured, would be a world without true joy, honest pleasure or noble aspiration. It would be a fool's paradise.

SEA POSTOFFICES. Handling and Sorting the Mail Matter on Ocean Liners. Every one is aware that a large quantity of mail comes from Europe. Probably most persons assume that it is dumped off the steamers in bulk and sorted and routed in the postoffice of the receiving port. Such a system would result in hopeless congestion, and practically all of the 15,000,000 pounds of foreign mail matter received at New York on an average of recent years is ready sorted and sacked when the steamers make port. This is done in the sea postoffice, the other than for New York city and such others as require rehandling. The sea postoffices cost the government something less than \$3,000,000 per annum.

DOCTORS ZOLL AND HESS PHYSICIANS AND SURGEONS. Office three doors west of postoffice. Frank C. Zoll (Deutscher Arzt) Office-Phone 6. Res-Phone 123. WAYNE, NEB.

Dr. A. G. Adams Dentist. Dismal Outlook. "Why do you look so unhappy?" "Well, you know I'm pretty well treated." "Yes, but you always were, and yet you've borne up pretty well. What is the particular trouble today?" "It's just proposed to the girl I love." "Ah! And the answer was unfavorable?" "I don't know." "You don't know? Why, what do you mean? Surely you must know whether she accepted you or rejected you?" "That's just it. I asked her to marry me, and she said she would. Then I asked her if she was sure she could be happy with a man who had no money, and she said she could. She said she had always preferred buying things on credit anyway."—Cleveland Plain Dealer. A daughter was born this morning to Mr. and Mrs. E. W. Hase.

Herbert Louisa of Winnebago, was away from the Wayne this morning.

Professor Otto Vogel was giving musical instruction in Wayne yesterday.

William Kunkel of Winnebago, was in Wayne on business yesterday afternoon.

Gerard Buid, who has been very ill with pneumonia, is reported improving.

Aaron Dolph, living twelve miles southeast of Wayne, is reported critically ill.

Ernest Bond and wife left this morning for their new home at Saltsburg, Ohio.

Mrs. Agnes Stanton learned Saturday night a visit with her brother Dan at Carroll.

A change in local weather will give the remaining a rather chilly reception tomorrow.

Mrs. J. H. Wright, who visited her son, C. L. Wright, at Bremer, returned home Saturday night.

Mr. A. H. Reed and Mrs. Arthur Paulson had their first to Carroll this morning to visit relatives.

David Mackay of Imperial, Neb., will arrive here this week for a visit with his sister, Mrs. V. A. Senter.

Mrs. E. J. Murray returned Tuesday evening from a two weeks' visit with her parents at Lincoln.

Ed. Kille went to Sioux City yesterday to view the ruins caused by the fire which burned the Manhattan block.

Attorney L. A. Kiplinger of the law firm of Davis & Kiplinger, has been kept from an attack of grip this week.

Charles Mackay of Imperial, Neb., arrived here today to attend the State Normal. He is a brother of Mrs. V. A. Senter.

C. S. White of Philip, S. D., arrived in Wayne Monday night his daughter, Miss A. A. White, expecting to return home tomorrow.

Mrs. J. J. Williams went to Sioux City this morning to visit her nephew, Frank White, who is recovering from the effects of an operation in a hospital.

Mrs. Leon Puckard of Sioux City, visited her sister, Mrs. J. J. Sabin, from Tuesday until Wednesday. Miss Puckard was formerly Miss Fern Pigg of Wayne.

Christensen's ad. will interest you.

OLD TIME MIDDIES

They Were Tots of Schoolboys, Some Not in Their Teens.

TOO YOUNG TO WEAR SWORDS

So the Midgets Were Armed With Dink Knives Instead—They Were Fighters, Though, Farragut and Porter Being in Battles at the Age of Twelve.

Something more than a hundred years ago the midshipman was, indeed, the "midget" that he was but a tot of a ball, usually a country or navy boy, before the word was used in the United States. Farragut and Porter were midshipmen, not at all in pitched battles, at twelve years of age and Goldsborough was appointed when only seven years old. Nowadays, however, the midshipman is quite a different person. He must enter the Naval academy under fifteen and, therefore, when on a regular cruising ship after completing his four years' academic course studying a well developed man, physically mature and athletic and with a trained mind. He is far better equipped generally than the boys of old, and many of the capabilities of even seventy years ago.

The old time middies were mere schoolboys. All the warships of any size carried in their regular complements a schoolmaster, whose duty it was to give the lads an education suitable for the needs of the sea and between strictly professional duties. This rating of schoolmaster was abolished, in fact, only about twenty years ago, but after the establishment of the Naval Academy, in 1811, these officials devoted their energies to the sailor's service only, the enlisted boys of the fleet. Even these now obtain their education on shore.

There is a tradition that the three brass buttons the midshipman wears on the sleeve of his full dress coat during his four years at Annapolis originate in a country or navy boy, when their presence was needed to discipline the youngsters from brushing their noses with their sleeves. This is probably a base slander, modern research indicating that the buttons are relics of the days when there was a cut flap on the sleeve.

At all events the extreme youth of the midshipman used to be his most conspicuous characteristic. Instead of the full sized regulation officers' sword that the navy carries, he wore a little straight bladed dirk about a foot long. He was of a large extent a necessary for carrying orders about the ship, but he also took charge of boats and commanded men despite his youth. He was frequently placed in charge of a prize captured in war, taking her into port, and but infrequently suppressing mutinies among the prisoners he held. Farragut was a prize master at twelve and got his prize safely in.

The title "midshipman" is an ancient one. It is above the seaman and below the petty officers forward and below the commissioned officers in the wardroom of 1882 the title of the latter was changed to naval cadet, but it still remains, and the midshipmen were merged with the ensigns. Accordingly the time honored title of midshipman no longer exists officially in the United States Navy.

While officially a naval cadet, that young officer is still regarded and often referred to verbally as a midshipman, for he is the same creature as of old as far as his duties go. But by the side of his earlier prototype the twentieth century "middy" is a very different creature. He is not only a more complex as the old time ever went. The twentieth century lad goes far beyond. He goes through analytical geometry of three dimensions, differential and integral calculus, applied mechanics.

Gunners a hundred years ago was little more than loading, aiming, and firing at short ranges. It now involves metallurgy, theory of the combustion of powder gases, stress and strain, mechanical engineering, manufacture and preservation of complex explosives and other abstruse subjects; in all of which the midshipman of the present day must be proficient.

Midshipmen were conspicuous in all our early wars, notably those with the Barbary States, with the West Indian pirates and with the British in 1812. They were equally conspicuous during our conflicts with the Spanish and Filipinos. Midshipmen, naval cadets, had charge of the extremely hazardous picket duty in the Santiago blockade, close under the Spanish batteries and afterward in Monterey fire from shore. Cadet Powell ran his own launch right into the harbor of Santiago after the Merrimac, remained all night under the menacing guns of the liner batteries, and steamed out again under their fire in the morning.—New York Press.

Special Showing

.....Of.....

Fine Embroideries

Begins Today : (Thursday)

Fine Flouncings, All-overs, medium widths, trimming widths, Insertions, Beadings, Bands and Gallons.

This showing of Embroidery comprises all the things necessary for your Spring and Summer needs and the prices are very reasonable.

\$2.50, \$3.50, \$4.50 each

C. Clasen, Opposite Post Office

Don't plant seed corn that won't grow

Men from the state experiment station who have examined samples of the best seed corn exhibited at the local corn shows,

How to test seed corn.

Enough ears to plant twenty acres can be tested in a single day with home made tester. Take a box six inches deep and about two or three feet in size. Fill the box about half full of moist dirt, sand or sawdust. Press it well down so it will have a smooth even surface. Now take a white cloth about the size of the box, rule it off checkerboard fashion, making squares one and one-half inches each way. Number the checks 1, 2, 3, and so on. Place this over the sand, dirt or sawdust.

Take the ears to be tested and either lay them out on the floor and mark a number behind of each or attach a numbered tag. Now take off about six kernels from each ear (not all from the same place, but at several points on all sides). Put these kernels on the squares, one square to each ear, and those placed on the ears of corn. Be careful not to get them mixed. Keep the ears numbered to correspond EXACTLY with the numbers on the squares of cloth.

After the kernels have been placed carefully on the cloth which covers the moist sand, dirt or sawdust, cover them with another cloth, considerably larger than the box; cover this cloth with about two inches of the same moist sand and keep the box in a warm place. It must not get cold.

The kernels will germinate in four to six days. Remove the cover carefully to avoid mistaking the kernels. Examine them carefully. Some will have long sprouts but almost no roots, others will not have grown at all, but the kernels from ears which will produce corn if planted will have both sprouts and a good root system.

Compare the numbers on the squares with those on the ears. Put back into the feeding corn bin the ears which correspond in number to the numbers on the squares where the kernels did not grow or where they showed only weak roots.

The ears numbered corresponding to those on the cloth which showed strong signs of life are the ones to preserve for seed. Every kernel from these ears should produce a stalk, every stalk an ear.

A number of more convenient seed corn testers are manufactured for sale. They are all good—any implement dealer or seed house will know where to get them.

Corn for seed purposes is in a worse condition than has ever been known.

A grave situation exists. If we are to have a corn crop next year, every ear of corn should be tested to see whether it will grow, before it is planted

Suppose one dead ear is planted. The planter fails to get one thousand stalks of corn—almost twelve bushels of corn lost.

Leading corn authorities say that no man can tell whether corn will grow or not, without making a germination test.

Particularly this year, corn that looks good on the outside may be dead in the germ, and positively will not grow.

The business men of Omaha appreciate that business prosperity depends upon the success of the corn crop, and are therefore making this effort to arouse the state to the necessities of the case. If in any community there is more than enough seed corn to plant your own farm, please let us know, that we may secure the additional supply for other parts of the state.

Address, PUBLICITY BUREAU, COMMERCIAL CLUB, OMAHA.

THE EARLY DAYS IN TWO COUNTIES.

From the Wayne County Review, March 17, 1882.

W. O. Gamble and family of Wood hill, Ill. arrived in Wayne in 1832.

Local markets: Steers, 43; hogs, \$4.50 to \$5.25; corn, 50 cents; oats, 30 cents.

Walter Cook sold his eighty-acre tract in Leslie precinct and starts a blacksmith shop in Watkettville.

Seventeen new buildings are being erected in Wayne and since July seventy residences and business houses have been built.

As Mrs. Beckenbauer and Miss Sadie Hunter were riding out last Monday, they discovered an object on the prairie which they imagined to be a turkey or some other large domestic fowl, but upon approaching nearer they found it to be an eagle that seemed to have just dropped from the sky, quite dead. It being too heavy for them to handle, they reported the fact, and a son of the Senator went out and brought it in. It proved to be a very large specimen of the gray eagle, and measured six feet and nine inches from tip to tip of wing. We shipped it to the taxidermist at Norfolk, and will have it fixed up as an ornament to the print shop at some future time.

From the Wayne Herald, February 18, 1892:

J. R. Manning is recommended for postmaster at Carroll.

Local market: Wheat, 61 cents; corn, 23 cents; oats, 21 cents; rye, 60 cents; flax, 72 cents.

Miss Cora Reynolds teaches in the Second ward school in the place of Miss Leona Hunter who is sick.

Carl Krakau, William Hinrichs, William Lilje and John Gager were summoned to Ponca as witnesses in the district court.

Married, at Hoskins, February 17, 1892, Carrie Cloker and Dave Crackett, at the residence of the bride's parents, south of Wayne, February 17, 1892, Emma A. Tidrick to G. H. Prescott, in Wayne February 15, 1892, Cora A. McFall to A. H. Smith, in Wayne, February 16, 1892, Mary Cranfield to Thomas E. Kelley.

From the Wayne Herald, February 13, 1902:

E. Longnecker and family move to Walnut, Ia.

W. F. Surber died of pneumonia at his home two miles south of Hedon.

Rural free delivery which has been in operation out of Wayne for two weeks, proves very satisfactory.

Local market: Corn, 46 cents; wheat, 58 cents; oats, 34 cents; hogs, \$5.50; humber, 15 cents; eggs, 18 cents.

Married, Thomas E. Sundahl to Mrs. Mary Thompson, and Henry Rushman to Miss Emma Reise.

From the Ponca Journal, March 18, 1879:

We understand from Mr. Rose of Jonia, that two gentlemen residing in Dakota territory have leased of Mrs. Cook the land on which is the so-called volcano, and propose to dig into it, and excavate it. Work will be commenced this week, and it is to be hoped that the mysteries of the volcano will soon be revealed.

On Saturday afternoon the house of Charles Birner in the southern part of the county took fire from a defective stove pipe and was burned together with about all the furniture, bedding, etc., in it. The fire was so rapid, and the influence of the violent wind which prevailed, that the family were unable to save only the clothing they had on.

At this place the ice in the river broke up Saturday morning. Saturday night the river fell four feet. In a few days the river will be clear from running ice, and ferry boats will be enabled to cross. Between Sioux City and Owington the only way of crossing is by bridges. The ancient ferry boat, the Endine, which from time immemorial has plied between Sioux City and Owington, under the guidance of the polite and gentle mannered Sawyer, has like its venerable master retired from the scene, and hence there is no ferry boat there at all. Teams cannot therefore cross the river at that place at present. We understand that in a few days a new boat will be there to ply between those places.

From the Ponca Journal, March 9, 1882:

A big wind started a wholesale business in this town and vicinity on Saturday and kept up a full head of steam for three days. Saturday night the performances were enlivened by thunder and lightning.

Several citizens of the county are making preparations to remove to Washington territory. Among those who are going are Mr. Barber, Mr. Bur-

got and Post Rockwell. They will start in about a month and will go with teams, camping out on the route. It will be a pleasant trip, but we do not believe they will find, when they get there, a better country than this. If Post Laureate Rockwell goes to Washington Territory, and Professor Porriquo goes to Montana, it will leave Father Martin and Professor Brewer alone. We have no hope this well known quartet of savants would not be broken up, and we shall deeply sympathize with Father Martin and Professor Brewer at the departure of their distinguished literary brethren.

SEED CORN SPECIALS WILL COVER STATE

Omaha, Neb., Jan. 31: A whirlwind campaign to get the residents of the great state of Nebraska to realize the seriousness of the lack of good seed corn has been inaugurated. During the month of February, eight, and possibly ten, seed corn specials will be run through the state for the purpose of bringing the condition of the seed corn to the attention of the citizens.

This method was decided upon at a mass meeting held at the Commercial club Friday night when representatives from every line of business in the state were present. Although the details of the trains have not been worked out yet, it was decided that the trains will be run. Representatives from the Union Pacific, the Burlington and Northwestern railroads stated that the trains would be run by the three railroads.

These trains will be manned by experts from the Nebraska State Experiment station; Chas. E. Burnett, Avoy of the University, Dean Samuel of the Agricultural station and C. W. Pugsley of the Extension Department pledged themselves to provide sufficient lectures to properly man the trains.

Two plans were considered—that of running one train, and the other of running as many trains as would be necessary to cover the state in one week. The latter plan was considered the more feasible, the consensus of opinion being that one train could not cover the state in time to bring the seriousness of the condition to the people of the state.

The week of February 18 to 24 was suggested as the date for the whirlwind campaign. Plans for the running of the trains will be worked out soon. Every station and city on the three railroads will be visited. Stops of thirty minutes to one hour will be made at each, when speakers will address the meetings. The commercial people and business men of the cities of the state will be asked to co-operate and thoroughly advertise the coming of the trains.

That the seed corn situation in the state is the acutest in the history of the commonwealth, was the consensus of opinion of the gathering which was the most representative one ever convened for a similar meeting. Addresses were made by the university officials, F. A. Hubler and W. G. Whitmore, regents of the state university; E. P. Peck, president of the Omaha Grain Exchange; Frank O'Dell of Lincoln, secretary of the Rural Life Commission; C. C. Rosewater and Bert Ball, the latter secretary of the National Crop Improvement association of the United States. Ball suggested a permanent organization for the state of Nebraska, and a committee was appointed to perfect such an organization.

"Citizens of the state realize the situation attending the corn crop, thanks to the publicity which has been given by the press of the state," said Professor Pugsley. "And it is the only thing that will save Nebraska a possible loss of \$10,000,000 in its corn crop." The commercial clubs of the state, working on the suggestions and plans of the Publicity Bureau of the Commercial club of Omaha, are doing a great work. And the way the press of the state is handling the situation, demands the thanks to every editor in the state.

Plans for the trains will be made known in due time and every city will be advised of the exact time of the arrival of trains.

The Sound Sleep of Good Health. Is not for those suffering from kidney ailments and irregularities. The product use of Foley Kidney Pills will dispel backache and rheumatism, heal and strengthen sore, weak and ailing kidneys, restore normal action and with it health and strength. Mrs. M. P. Spaulbury, Sterling, Ill., says: "I suffered great pain in my back and kidneys, could not sleep at night and could not raise my hands over my head. But two bottles of Foley Kidney Pills cured me." Shattles Pharmacy.

Sedentary habits, lack of outdoor exercise, insufficient mastication of food, constipation, a torpid liver, worry and anxiety, are the most common causes of stomach trouble. Correct your habits and take Chamberlain's Stomach and Liver Tablets and you will feel as well again. For sale by all dealers.

THE LIFE OF AN EDITOR.

Hartington Herald. Editors, like other people get a certain number of kicks in the course of their daily lives, and to hear some of them talk, you might think they received the maximum amount, but it is not all kicks by any means. The editor receives a great many kicks, it is true, and he encounters so much of the sham and selfishness of human nature that the wonder is that he does not become a devoted pessimist; but the editor's portion is not altogether one of kicks and unappreciation, and he does not and then catch a glimpse of the human heart which cheers him on the way and renews his faith in the following.

There are people who will take all an editor can give and never say "Thank you." There are people who will read pages of excellent matter without comment, and then if they happen to discover a letter upside down they will scold around at the editor for the next morning to call the editor's attention to it; there are people who will take a newspaper for years and then refuse to pay for it; there are people who expect an editor to be as swift as Achilles, as wise as Solomon, and as omnipotent as Jehovah; there are all those and many more, exacting, unappreciative and in no wise sympathetic in their demands; but there are also other people, large souls, who have an appreciation of an editor's multitudinous duties and responsibilities, and who do not forget the small courtesies of a "Thank you" in return for favors received. Once in a while an editor sees something that is appreciative. Once in a while he says something in his lowest mood way that goes home to the heart of the reader and the reader calls next day, not to show the editor a letter upside down, but to thank him for his words. Then, believe us, the editor's cap runs off over.

"It was grand," said a strong man, who had just laid aside his wife to an editor referring to a little notice the latter had written about the deceased. No, it was not grand—nothing grand about it—just a little, simple, notice coming from a heart, going to a heart, but it was appreciated and all the years of study that might have served as an unimposing preparation for that little bit of human service were well spent. Yes, the editor gets his share of kicks, but it is not all kicks. He sees a tremendous amount of the sham and hypocrisy of life, but he sees other things as well. He comes often in contact with selfish and unappreciative men and women, but he also occasionally stumbles upon honest, real things of life, and the glimpses he receives of these realities do much to restore and sustain his faith.

First La Grippe, then Bronchitis. That was the case with Mrs. W. S. Bailey, McCreary, Ky. "My wife was taken down with a severe attack of la grippe, which ran into bronchitis. She coughed as though she had consumption and could not sleep at night. The first bottle of Foley's Honey and Tar Compound gave her so much relief that she continued using it until she was permanently cured. Shattles Pharmacy.

Maybe you can't love your enemies, and we don't blame you much, but if you will leave them alone they won't bother you much.

A piece of flannel dampened with Chamberlain's Liniment and bound on to the affected parts is superior to any plaster. When troubled with lame back or pains in the side or chest give it a trial and you are certain to be more than pleased with the prompt relief which it affords. Sold by all dealers.

Although we are aging somewhat, we never knew any one who was rescued by a dog or died of rabies.

OVERTAXED.

Hundreds of Wayne Readers Know What It Means.

The kidneys are overtaxed. Have too much to do. They tell about it in many aches and pains.

Backache, weariness, headache. Early symptoms of kidney ill. A Wayne citizen tells here a reliable remedy for kidney ill. "Anton Biegler of Wayne, Neb., says: "About two years ago my back was very stiff and I could hardly get up after sitting for awhile. At night after a hard day's work I was in such great pain that I could not get my proper rest. The kidney secretions caused me much annoyance by their frequency in passing. Learning of Doan's Kidney Pills I got a box and their use helped me so greatly that I continued taking them until I was well. I have never had a serious recurrence of kidney trouble." For sale by all dealers. Price 50c. Foster-McMillan Co., Buffalo, N.Y., sole agents for the United States. Remember the name—Doan's and take no other.

UPPER SNAKE RIVER VALLEY IN IDAHO SOMETHING ABOUT ITS CLIMATE

Crops, People, Churches and Schools—Abundance of Snow, but Cold Not Felt as in the East.

The rainfall in many parts of the Upper Snake valley is not of sufficient volume during the growing season to insure big crops. But this assertion does not hold good in the extreme upper, or that part of the valley tributary to Ashton. For in this part of the valley there are no years, in which the rainfall is scanty but not, with proper farming, produce not only good but excellent crops. The country around Ashton, and east and south and including the Teton Basin, has a yearly snowfall of a foot many feet and there are very few winters in which the ground will have much less than thirty inches on the level. I do not wish it to be understood that thirty inches is the winter's fall for it is much heavier. It is not uncommon for that amount to come during two days' time, then other falls will keep coming and packing and falling, so that it is pretty safe to say the average depth for the months of January and February of each year will be about as indicated. These snows will begin to come almost any time after October first, but the snows falling prior to December of each year seldom stay on the ground longer than a few days and most years there is very little snow before December 1. Owing to the early covering of the ground by snow the earth is seldom ever frozen to a depth of six inches and this is quickly drawn out by the snows, and when the snow melts in the spring there is no run off of water as in regions where the ground is hard frozen, but instead, all the water from the melting snow goes into the earth and thoroughly saturates it with moisture to a depth of several feet. This moisture, when retained by proper tillage of the soil, is sufficient in most instances to insure heavy crops of the kinds of grain grown in this region. I have seen crops of oats and barley sown in the spring; grown and harvested without getting even one small shower of rain, that produced thirty bushels of good grain to the acre and no special care taken in the preparation of the ground to withstand drought conditions. But in this part of the valley there is generally a pretty wet time beginning any time after May 20 and continuing as late as July 1, in which the ground gets a pretty thorough soaking and all during the rest of the growing season there will be showers over most of the country that will finish the crops perfectly without the aid of irrigation. However, in the immediate of Ashton a good many of the farmers follow grain irrigation, believing that they can thus add a good many extra bushels per acre to the yield, which they undoubtedly do. I presume when you read of the earth being covered with snow from six inches to four feet for four to five months in the year you will begin to shiver and think of the terrors of the Arctic regions. But let me assure you, gentle reader, that the people living in this snow covered country do not suffer from cold as much as their brothers in northern Iowa, Nebraska, Minnesota or the Dakota and pile up the snow as in the plains states nor do their houses have to be built as warm in order to be comfortable; in fact if you were to make a trip through this country and see how meager are the preparations for winter you would quickly be convinced that either the winters are not extremely cold or the people are much harder than their eastern friends. Churches, schools and roads are built of ice being built in every part of this country. All over the valley pretty nearly every religious denomination has its churches and preachers, and you can take your choice, but as a matter of fact the Mormon church has much the best of it in the number of adherents. I know that Mormonism to many is synonymous with polygamy and its kindred evils, but let me tell you that as neighbors Mormons are not radically different from other people and while I do not approve of their religious doctrines as practiced, I have not found them as a people any more intolerant of the beliefs of others than I have other denominations that talk very loudly of the broadmindedness of their teachings. There is plenty of room for you to exercise whatever religious belief you profess in this great big open, free west without any interference on the part of your neighbors and you will not be ostracized because of it either. The school facilities are very good and Fremont county has for its superintendent of public instruction a former Norfolk, Neb., woman, Miss Harriet Wood, who is now serving her second term in that capacity and who is giving the county an administration of which it is justly proud. All the towns, both large and small, have splendid high schools, employ the best of teachers and pay them much better than do the cities and towns east of the Rocky mountains.

Don't get it into your heads that this country is backwoods in any respect. For if you do and come here and think you can get the advantage of the natives because of your shrewdness you are riding for a fall.

This upper country, for one is new as it is, is pretty well provided with wagon roads and while they are not as good in some instances as could be wished, yet they are fully as good as in any other country as new as this. They are many streams and canals to be bridged and most of them are pretty well bridged.

The people of this upper country are gathered from pretty much all of the states west of the Ohio river, but Utah and Nebraska largely predominate. They are a pushing, enterprising lot who are making the desert land blossom as a rose. They are ready to extend the hand of welcome to any and every man or woman who wants to better his or her condition, if they are really in earnest and ready to invest their money, exert their brain and muscle toward the upbuilding of the country.

The land values in this country are cheap when their producing capacity is taken into consideration. Very few of the lands that were properly farmed and cared for during the year 1911 produced less than \$20 gross per acre and thousands of acres yielded gross incomes above \$25 per acre. Renters in Wayne county are giving two-fifths of the crop where they pay grain rent, and if in the country around Ashton the same rents were paid the landlord would be getting from \$48 to \$10 per acre rent, or 5 per cent income on lands valued at from \$100 to \$200 per acre. But these lands are not selling at \$200 or \$100 per acre but at prices ranging largely from \$30 to \$75 per acre; a few farms can be bought for less than \$50, and a few others could not be bought for \$100 per acre.—E. CUNNINGHAM.

Eley Kidney Pills will cure any case of kidney or bladder trouble that is beyond the reach of medicine. No medicine can compare. Shulthies' Pharmacy.

The worst thing about festive holiday season is that the Christmas indulgences and bills come due on the same day.

How to cure a cold is a question in which many are interested just now. Chamberlain's Cough Remedy has won its great reputation and immense sale for its remarkable cure of colds. It can always be depended upon. For sale by all dealers.

The millennium is that glorious day when they will deal as harshly with fashionable murderers as they do with bootleggers.

For a mild case, action of the bowels a single dose of Doan's Regulets is enough. Treatment cures habitual constipation. 25c a box. Ask your druggist for them.

Mexicans are small men and a general down there has to have his uniform padded to make room for his medals.

You are probably aware that pneumonia always results from a cold, but you never heard of a cold resulting in pneumonia, when Chamberlain's Cough Remedy was used. Why take the risk when this remedy may be had for a trifle? For sale by all dealers.

If a show suits you, it doesn't matter what the critics say about it. And that rule applies to many matters not seen in theatres.

Stops itching instantly. Cures piles, eczema, salt rheum, tetter, itch, liver, herpes, scabies—Doan's Ointment. At any drug store.

"Clean Up the Bowels and Keep Them Clean"

There are many remedies to be had for constipation, but the difficulty is to procure one that acts without violence. A remedy that does not perform its duty by force, but that should be accomplished by persuasion.

After using them, Mr. N. A. Waddell, 315 Washington St., Waco, Tex., says:

"Almost all my troubles with constipation and have tried many remedies, all of which seemed to cause pain without giving much relief. I finally tried Dr. Miles' Laxative Tablets and found them excellent. Their action is pleasant and mild, and their chocolate taste makes them easy to take. I am more than glad to recommend them."

"Clean up the bowels and keep them clean," is the advice of all physicians, because they realize the danger resulting from habitual constipation. Do not delay too long. But begin proper curative measures. Dr. Miles' Laxative Tablets are a new remedy for this old complaint, and a great improvement over the cathartics you have been using in the past. They taste like candy and work like a charm. A trial will convince you.

Dr. Miles' Laxative Tablets are sold by all druggists, at 25 cents a box containing 25 doses. If not found satisfactory after trial, return the box to your druggist and he will return your money. DR. MILES MEDICAL CO., ELKHART, IND.

E. H. Merchant

Leading Horseshoer and Blacksmith

Will handle the justly famous screw calks—ring points—which wear longer, stay sharper, have better threads and are altogether more satisfactory than any other kind. Mr. Merchant also cleans up old iron and makes new iron. "Never Slip."
