THE GREAT AND GRAND MAJESTIC RANGE

THE RANGE WITH A REPUTATION MADE IN ALL SIZES AND STYLES.

MAJESTIC NEVER-BURN COOKER, STEAMER, CULLENDER AND DRAINER.—The Perforated Cooker shown in center, has small feet which admit water at the bottom. Nothing can burn. Food can be lifted out of main vessel shown on left, at the same time draining of all the water. The Steamer or Culleender shown on right can be used as an ordinary Culleender. It also fits on top of main vessel, and is used as a steamer.

THE MAJESTIC Extra Heavy Stamped Iron Marble-topped Kettle, complete with cover and handle that locks on cover.

THE MAJESTIC 18-oz. All Copper Nickel-plated Tea Kettle.—Handsomely nickel-plated outside, tinued on inside.

THE MAJESTIC 14-oz. All Copper Nickel-plated Coffee Pot.—Handsomely nickel-plated outside and tinned on inside.

THE MAJESTIC Marble-topped Enamelled Frying Pan.—Made especially for the Majestic Set.

THE MAJESTIC Patent Never-burn Wired Drizzling Pan.—Made especially for the Majestic Set.

TWO MAJESTIC Patent Never-burn Wired Drizzling Pans.—Made especially for the Majestic Set.

Reasons Why the Great Majestic You Should Buy.

- 1st. It has the reputation of being the best range money can buy.
 - 2nd. It not only has the reputation, but IS the best range made, and we will prove this to you if you will let us.
 - 3rd. It is constructed of malleable iron, material you can't heat, and of Charcoal iron, material that resists heat 300 per cent greater than steel; is riveted together air tight. No heat escapes or cold air enters the range, thus uses very little fuel to do perfect work.
 - 4th. The reservoir alone is worth the price of range over any other reservoir made. It boils fifteen gallons of water, is heated like a teakettle, with pockets against "hot hand" things and is movable and sets on a flame that cannot wear out. When water gets too hot it can be moved away from the fire.
 - 5th. Majestic ranges use less fuel, heat more water—and heat it hotter—cost practically nothing for repairs, last three times as long, bakets better, easier to keep clean and gives better satisfaction than any other range on the market. If you know positively that the above statements are true, wouldn't you buy a Majestic at once?
- Come in demonstration week and we'll prove it to you.

It is reported that Elmer Kingsbury who recently quit newspaper work, having sold his interest in the Ponca Leader to R. Q. Stephens, has decided to become a preacher. The step from journalism to the ministry is so short and so easily and consistently taken that the Herald is not surprised at Mr. Kingsbury's decision. A letter to the Herald from Dan Harrington states that he and family are pleasantly located for a few months at Long Beach in a dwelling belonging to a brother of Rev. G. M. Lodge, the owner and family having gone on a trip to Europe. Mr. Harrington says that Dr. W. C. Wightman has bought a two-acre building spot at Long Beach and will soon erect a residence there. The doctor has evidently learned to like southern California. When he returned

from there last spring he reflected on the western coast with a good deal of aversion. Betsy acted the same way toward the bicycle. At first she regarded it with scorn. Later she became a most enthusiastic champion. So with Dr. Wightman and southern California. He has at last dropped into the meshes of southern California charms, and his first burst of real enthusiasm is manifested in the purchase of a winter home.

FORMER SENATOR W. V. ALLEN FOR HARMON
Norfolk, Neb., February 7.—An interview today, former United States Senator W. V. Allen, politician and: "As the time is speedily approaching when delegates must be chosen to the national convention and a candidate for the presidency be nominated, I think the democratic party ought to take prompt steps for unified and harmonious action. I do not think there is any doubt of Mr. Taft's renomination, and yet as soon as that is done the LaFollett and Cummins following will be regarded as factors of the party machine, and the words, "standpat" and "Progressive" will disappear from the republican vocabulary."
"If Mr. Taft shall be renominated, the serious question which will confront the democratic party will be: 'Who can defeat him?'"
"I believe if Wilson is nominated, he will be defeated without much effort. Governor Wilson is an abstractionist; a theorist; a school teacher; and has no practical knowledge of business affairs. He was born and educated principally in the south, which would be against him, as the time is not at hand when a distinctly southern man can be made president of the United States."
"The nominee should come from a state the electoral vote of which he will be able to carry. If Governor Harmon should be nominated, and a systematic, orderly, intelligent and persistent campaign made in his behalf, there would be a reasonable hope of electing him, but even the result might be doubtful."
"While it is true that the president has made serious mistakes, the people as a rule regard him as an honest man and his strong and manly stand against the judicial-recall would give him much strength—among clear headed, conservative and opinion making men, who regard any threatened invasion of the constitution as extremely unwise and dangerous."

 MADISON BROWN, Prop.

Ponder Republic. E. B. Young, the Sunday school missionary, was in town one day last week looking after the interests of the Sunday schools of Thornton and Cuming counties. After he had attended to his work, he took off his coat and proceeded to make himself useful at the type case. Mr. Young will be glad to correspond with anyone interested in Sunday school work in their community and will gladly render any assistance possible in that line. If you want a Sunday school in your community, write him at Wayne, Neb. Madison Post: Herman Sachtjen and wife of Wayne county, are visiting relatives and friends in Madison. Mr. Sachtjen has sold his farm in Wayne county, and after visiting in Arkansas and Wisconsin, will move to Fresno, Cal., and there take up his permanent home. Herman Sachtjen is remembered by old residents of Madison, where he spent many years of his early life.

 Remember the preliminary debating and declaiming contest to be held at the high school this evening. Do not fail to attend this contest. Good music on the program, besides the excellent debating and declaiming.
 On Friday, with Bessie Lauman presiding, the Senior gave the following program: Vocal solo by Willis Fleetwood; Mrs. Johnson playing accompaniment; history of class of 1912 by Alma Craven, experiment from natural philosophy, demonstrating the natural law that the boiling point is lowered when the atmospheric pressure is decreased, by Tracy Kohl and J. M. Strahan; class yell by all the Seniors.
 Rev. Dr. French made an inspiring and helpful address to our high school last Thursday morning. In part Dr. French said: "Get all the education you can while you are young. All education acquired after 21 is superficial. Education dominates the world. The home, the church and the school are the three great factors in civilization. Think along right lines. Sow a thought, reap an act; sow an act, reap a habit; sow a habit, reap a character; sow a character, reap a destiny. Do not be content with yourself unless you are doing your best."
 Keep in mind the school entertainment to be given at the high school on Friday evening, February 23. This will be a program by all the grades.
 On Friday evening of this week the Lyons high school basketball team will play our team in the gymnasium. This will be a fast game as Lyons is said to have one of the best teams in northeast Nebraska. A preliminary game will be played by the seventh and eighth grade teams. This will also be a good game. Come out and see these games Friday night.
 The two games of basket ball at the State Normal gymnasium last Friday evening resulted in victories for the Normal teams. The first game, which was between the high school and one of the Normal teams was close, the score being 10 to 14. The second game, which was between the city team and one of the Normal teams, was not so close, the score being 20 to 11. This game was slightly rough, but exciting

COMMENTS ON "THE TESTING FIRE"

Since the publication of Rev. Alexander Corkey's latest book, "The Testing Fire," the author has received a great number of letters commenting on the story. In addition to a cordial letter from Booker T. Washington, he has received a letter from another distinguished southern educator, Dr. James E. Shepard, president of the National Religious Training School for the Colored Race, at Durham, North Carolina, in which, amongst other things, Dr. Shepard says: "It is a book that ought to have a broad and comprehensive view of the problems, and for the high

and Christian way in which you solve them. It is along the line of this book ("The Testing Fire") that the National Religious Training School has been established. We are working hard in hand."

Rev. S. J. Fisher, D. D., of Pittsburg, Pa., who is at the head of the Freedmen work of the Presbyterian church, and who has also written a widely read book on the negro problem has written as follows: "It has given me great pleasure to read the book 'The Testing Fire,' for as my heart and thought are deeply concerned in the uplift and development of the race I am grateful to all who are equally sympathetic and show a wise consideration of the problem. You have the true story-teller's power, and the volume, while true to the facts, has all the charm and attraction of mere imagination. It is a gift which, so wisely used, is a great power and I congratulate you on its possession. I thank you for your effort to create a larger and kinder interest in the elevation of the negro and especially for your recognition of the interest and power of the best southern people to apply the precepts of the gospel to this question."

The following letter has also appeared in an eastern paper commenting on the book: "I find the wealth of a Roth child or a Rockefeller I would not stop spending it until a copy of Alexander Corkey's great book, 'The Testing Fire,' was in every home in the civilized world. To my mind it is the greatest book dealing with the race problem that was ever written by any one, and it holds our spotlight from start to finish." Yours truly, Rev. W. H. Edwards, Northern Representative, Halifax Normal and Industrial College, Halifax, Va.

The Herald and Presbyter, one of the leading Presbyterian magazines in the middle west, reviewed the book as follows: "The Testing Fire" is a story which has a noble purpose. It is written in a very attractive style and shows that the author has real power as a writer. It is a book that is easy to read for those who like stories for entertainment's sake, and it is filled with a noble spirit that elevates and instructs and arouses. For those who are interested seriously in the matter of the race question of the south, this book offers the only solution. It is the Christian solution. Mr. Corkey has rendered good service to a good cause by his worthy presentation of its merits."

Among the southerners, the book has not in general with a very favorable reception, although naturally many in the south resent deeply the unparing denunciation with which the author lashes those whose main efforts are directed towards the humiliation and degradation of the colored race. Some of the libelous articles of the south describe it as "an awful book which they cannot recommend," and a southern clergyman, Rev. W. H. Frazier of Anderson, S. C., says: "We think Dr. Corkey's book will do more harm in the prejudice it will stir up, in the resentment that it will provoke, because of the very apparent unfairness of the south's attitude toward the negro; and in the estrangement of the two sections that it will bring about, than it will do good. We feel also that his main contention is for social equality of the races. The personification of race hatred in 'Peter Legree' oversteps the bounds. We emphatically deny that our municipal governments in the south are, or ever have been, in the hands of such execrable characters, unless it was in the days of the carpet-baggers."

* STATE NORMAL NEWS *

Members of the faculty will give a reception to the students next Friday evening. Homer Birch was called to his home at Piero, Sunday because of the serious illness of his brother.
Rev. William Gorst and Dr. French were visitors Tuesday morning. Dr. French gave an interesting talk to the students at the convocation period.
Among the advanced elective subjects offered in the second semester is a class in political economy.
A meeting of the faculty was held last Friday afternoon. The chief interest centered in a paper read by Professor Conn on "The Faculty of a Normal School."
Ex-Deputy State Superintendent Frank S. Perdue spent Sunday at the Normal. Mr. Perdue was an instructor in the Wayne institution during several summer terms and he has a large acquaintance among the educators of northern Nebraska.
Miss Emma Andrees, a member of the teachers' training class, is doing substitute work as teacher during the illness of her sister. She will return to Wayne as soon as her sister is able to take up the duties of the school room.
Edward W. Hesse of Harrington, registered Monday morning. He has been attending the Lincoln Academy, taking work preparatory to a course in law, but will make the required entrance credits in the Normal. Mr. Hesse was a student

of this school last year, won a place on one of the debating teams and was active in the various interests of the school.

Ralph Emery sang two solos at the chapel exercises Wednesday morning, and that his singing was appreciated was evident from the hearty applause he received. Ralph is the son of Mr. and Mrs. W. A. Emery of this city. The great part of his time in Wayne and his many friends are pleased to know that he has become so talented a musician.

Last Wednesday morning in chapel Miss Olive McBeth gave an interesting sketch of the life of J. Whitcomb Riley, and then read several of his best poems. Miss McBeth frequently appears upon the program in the chapel exercises and she always has an appreciative audience.

The public is invited to be present on Saturday evening, February 10, at the Normal chapel, at which time will be held the debates preliminary to the contest to be held later with Kearney and Peru. At this time there will be chosen six young people who will represent this institution in the later competition, and two more who will act as alternates. A considerable number of young people in the advanced courses have entered our preliminary contest and a great deal of interest has been aroused. It is believed that those who attend will feel repaid for the effort. There is no charge for admission.

Unable to make final arrangements with the Lyons High school basketball team, the return game with the Wayne high school and city folders were played at the Normal gymnasium last Friday evening. A large crowd of enthusiasts fans watched with interest the fast work of all teams. The score between the high school and the team Normal was very close—15 to 14 in favor of the Normal, and the 1st Normal team defeated the town team 29 to 11. Tuesday afternoon quite a large crowd watched the Model School boys, grade 5 and 7; had in the black and orange suits, defeat a team of boys of equal grade from the public schools. The same spirit and style of play that the larger town show was cheered heartily as the little fellows scored 13 to their opponents 7. The receipts of the game will be used in purchasing suits for the "Little Normal Midgets."

Last Saturday the democrats in the house virtually restored to the speaker-ship the power which they helped the insurgents wrest from Cannon. What was often termed "eat rule" is now tolerable to the democrats with a democrat as speaker.

THE EARLY DAYS IN TWO COUNTIES

We find copies of issues of Wayne County Review omitted from the file from March 21 until May 1, and we will therefore reproduce news of interest from the Logan Valley Herald of 1884 until May 1 when we will resume publishing the Review.

From the Logan Valley Herald, February 17, 1884:

It was sixteen degrees below zero February 7.

The house of John Withar four miles north of Wayne, was destroyed by fire.

The Lutherans are taking steps to build a church edifice. Rev. Mr. Schlar is the plan in charge.

Wayne was incorporated February 3 with the following appointed trustees: R. B. Taylor, A. B. Slater, John T. Brouder, Henry Myers and James Pittman.

Two men are bound over to the jail court on the charge of harboring the slave of Johnson, Smith and Son. Having prisoners to keep gave rise to the question of building a jail in which to keep them.

A review is given of the findings of the supreme court in the case appointed from Wayne county to prevent removal of the county seat from Elkton to Wayne, a vote of citizens having resulted in favor of the latter place. The supreme court decided in favor of Wayne.

away, his wife being left entirely alone. The house from some cause took fire. Mr. Bigley's neighbors who had seen the smoke arrived just as the roof fell in. His wife perished in the flames. Her remains were found near the door, partially consumed. It appeared that she had made desperate exertions to escape, but her strength was insufficient to effect her escape from the building. The funeral took place on Monday at the Catholic church on South Creek.

From Ponca Journal, March 16, 1882:

It is reported that the lojin volcano which has for a long time been supposed extinct, has revived again, and that its heat and infernal rumblings are hourly as great as they were four years ago.

Mr. G. B. Greff, from the neighborhood of Logg Grove, was in town on Friday and gave us a few items of news from that part of the county. He stated that the prospect for this season was most encouraging—a great many new owners are hunting farms, and it is probable that before the end of the year the population would be at least doubled in number. One evening last week a festival was held at the home of the Taylor Bros., three miles from Logan Grove. It was a donation party for the benefit of Rev. W. S. Witherow. About seventy persons were present. An excellent supper was prepared and a most sociable and enjoyable evening was passed. Twenty three dollars was raised.

James McAnally, a young man who has resided with his father about three miles southeast from Neweasle, came on horseback to Ponca on Wednesday of last week to obtain a loan on his farm. He remained until Thursday afternoon. He received \$500 from Mr. Halstead, and then went around town and paid a number of debts and bought a suit of clothes, a saddle, etc. He started for home at about 4 o'clock Thursday afternoon. As he was on his way to pass the house of Mr. Kniffle he fell this side of where he lived. The next morning McAnally's brother saw that the horse had come home without its rider and he immediately started out in search of him. He found him half a mile away.

It appears that he had fallen or been thrown from the horse. That he had cracked some distance on his hands and knees, and finally had become exhausted and could go no farther, and had laid down and frozen to death. Ninety one dollars of his money was found in his pockets, together with receipts and other papers. The coroner, Mr. Lawrence, was notified, and held an inquest on Saturday.

One day last week we had a terrific snow storm, and for a time it looked as if the gray headed god of winter had forgotten himself and had come again, and in connection with Boreas and other cold headed chaps of antiquity, had started in on a regular old-fashioned January. The act of crossing the river between Sioux City and Covington is now accompanied by as many dangers and forebodings as formerly beset the travelers when passing over the river Stix. In addition to the superior advantages of the Stix, it should not be forgotten that Charon was an experienced boatman and never charged but one price.

Strengthen your kidneys, get rid of the pain and soreness, build them up by the timely use of Foley Kidney Pills. Tonics in action, quick in results. Shultheis Pharmacy.

"Link Preston was smart, enough and was well informed, but he made a fatal error at newspaper reporting, because when he went out to interview a man, Link insisted on doing all the talking."

An Epidemic of Coughing

Is sweeping over the town. Old and young alike are affected, and the strain is particularly hard on little children and on elderly people. Foley's Honey and Tar Compound is a quick, safe and reliable cure for all coughs and colds. Contains no opiates. Shultheis Pharmacy.

NATIONAL CITIZENS' LEAGUE IS FORMED

The National Citizens' League for the promotion of a sound banking system has almost completed its organization in this state. A few months ago the officers of the National League, whose headquarters is in Chicago, appointed Hon. E. A. Cady, wholesale merchant, St. Paul, Neb., as president of the Nebraska section, and Mr. Arthur C. Smith, president of the wholesale house of M. F. Smith & Co., Omaha, was appointed chairman of the executive committee. Under the direction of these men a working organization in this state has been effected, and the following well-known Nebraskans have accepted appointments as vice-presidents of the League:

- Chauncy Abbot, Well, Abbot & Norman Co., millers, Schuyler.
- Hon. John T. Bressler, real estate investments, Wayne.

- L. D. Richards, real estate investments, Fremont.
- Hon. Charles C. Ryan, attorney, Grand Island.
- Hon. A. J. Sawyer, former United States attorney, Lincoln.
- Hon. William Steuffer, former state treasurer, West Point.
- Henry A. Thompson, Thompson & Holden Co., Omaha.

Aims and Purposes.
The League has already begun a campaign which will be carried to every city in the state and has as its objective point 10,000 members who will formulate their opinions on the question of needed legislation and through the League present them to Congress.

The purpose of the organization is to distribute the literature of the League, which can be had for the asking, setting forth the basic principles of banking reform for which the League stands. It is a non-partisan association of men of all occupations. It advocates no bill of its own and is open to suggestions from any source. However, the League presents the following objects to be attained, and hopes to have them incorporated into law:

1. Co-operation, not dominant centralization, of all banks by the evolution out of our clearing house experiences.
 2. Protection of the credit system of the country from domination of any group of financial or political interests.
 3. Independence of the individual banks, national or state, and uniform treatment in discounts and rates to all banks, large or small.
 4. Provision for making liquid the sound commercial paper of all the banks, either in the form of credits or bank notes redeemable in gold or law.
 5. Elasticity of currency and credit in times of seasonal demands and stringencies, with full protection against over expansion.
 6. Legalization of acceptance of time bills of exchange in order to create a discount market at home and abroad.
 7. The organization of better banking facilities with other countries, to aid in the extension of our foreign trade.
- An Interview With Chairman Smith.**
Arthur C. Smith, chairman of the executive committee, in an interview said: "The National League was organized last year in pursuance of resolutions adopted by the National Board of Trade in January, 1911, when a committee was appointed to organize a business men's Monetary Reform League, with headquarters at Chicago.
- "The well-known merchant, John V. Farwell, of Chicago, is president of the National League, and Professor J. Lawrence Laughlin of the University of Chicago, is chairman of the executive

committee. Professor Murray S. Williamson of the Northwestern university is secretary of the organization. Under the direction of these men, auxiliary organizations in the several states have been effected, Nebraska among the rest.

"In times of financial stress it is the business men who are most affected, and they now propose that Congress should furnish remedial legislation, which will minimize distress among all classes, and particularly themselves at such times.

"Literature setting forth the objects to be attained by the organization and which it hopes to see incorporated into law is being prepared for distribution. Funds for the conduct of the campaign have been raised among the business men and the fund will be increased by individual membership fees.

"The League opposes Wall street control of the financial affairs of the country and its literature will set forth its opposition to the central bank proposed.

WASHINGTON EXPERT TO ACCOMPANY TRAIN

Omaha, Neb., February 1. Recognizing the emergency of the seed corn situation in Nebraska, the department of agriculture, at Washington, D. C., has detailed Professor L. L. Zook, a grain specialist in the department, to visit Nebraska and accompany the seed corn train which will tour the state about a week in February. Professor Zook is one of the greatest corn specialists in the country and his visit to Nebraska at this time will not only be of great importance but also indicated the urgency of the seed corn situation recognized at Washington, where the department, through its system of reports, keeps full intimate touch with every section of the country.

Arrangements will be made whereby Professor Zook will be enabled to spend part of his time with each of the four trains which will be sent out.

The dates of the train have not yet changed. Instead of starting on February 10, the start will be made on February 20, one week later. The Burlington will run two trains, one starting from Omaha and the other from Lincoln. The Northwestern will run one train, as will the Union Pacific.
