OCTOBER 9 AND 10 HAVE BEEN SET APART AS SPECIAL BARGAIN DAYS BY THE BUSINESS DISTRICT OF WAYNE

PORTION OF THE BUSINESS SECTION OF WAYNE

WAYNE STATE NORMAL PRESENT AND FUTURE

PRIMARY PURPOSE OF SCHOOL

Demand for Capable Teachers Greater Than Supply—Possibilities of State Normal.

(By J. T. H.)

The writer of this article does not know the exact number of students in the Normal at the opening of the third year under the management of the Normal. He only knows that it is comfortably large. What is of importance is that the fact that here in our town the future of the educational life of this whole section of the state is to be greatly influenced. It is important that this community and this portion of the commonwealth understand this.

The primary work of the institution is to prepare teachers for the performance of their tasks in the schools of this neighborhood. It is true that, with the help of other normal schools, private colleges and the state university, the high schools are already fairly well furnished with efficient teachers, though even this field is not without need.

But to those who know conditions, the need in rural districts, especially those somewhat removed from the towns, is pitiful. The farming community inspires the county superintendent for the very best teachers. They offer good wages, but the fact is that teachers are not to be secured at all prices, because they do not exist. No profession has today so great a field, and so great lack of laborers. Now, the Normal has gone at this problem seriously. The candidate for a second grade certificate in this institution is required to secure professional training, just as thorough so far as it goes as the teacher who is to grade over a high school. Already hundreds have received this training and are now doing better work for our rural communities as a result of this special instruction.

The students of the Normal who have done this sort of work are in demand. In great demand. The good results are reciprocal in character. The teacher gets better pay and the better taught school is a greater blessing to the community and the state.

But let not the public suppose that the task of the Normal is merely to prepare rural teachers. The fact is that our graduates are in such demand in the towns that we find it hard to save some of them for the country districts. From Sioux City to Ponca and Bloomfield, from Pender to Wakefield, and in fact, all over this section, they are already making themselves felt in the school life about us. A few of the graduates are now taking, or planning to take, graduate courses in this school leading to the degree of Bachelor of Education. This fact is due to the appreciation on the part of such students of the work being done here. Many colleges do not have so strong and thoroughly equipped teachers as does the local institution. The school is up to date. Manual training, domestic science, kindergarten methods, all under the charge of specialists attest the fact that the Normal is abreast of the times.

Now, these facts are not here recited as a means of advertising. We write that the people of this community may know of the worth of the work being done here, and by reason of the knowledge may assist in spreading the influence of the school. We desire many students, not for our sakes, nor for theirs, primarily, but for the sake of all this vast region to which we now minister in part and to which we hope to minister in great abundance. We want every boy and girl in northern Nebraska to know that it is possible for an education. We want every

parent to know that the children may come here and get blessing. We want every one who cares about the needs and the future of this state to spread the tidings to all our people that here in our city high grade intellectual work is being achieved. If all will join in this task and privilege, the time will not be long (indeed, it will be very short) until we shall number our students, not by the hundreds but by the thousands, and our bill, made hallowed by years of sacrifice in pioneer days, shall be covered by state buildings such as grace the sites of many old and venerable universities of the east. And we can say of the institution that her "line has gone out to all the earth and her words to the end of the world."

STATE NORMAL NEWS.

A delightful occasion of the school year was the reception given by the faculty to the students on Monday evening, September 23.

Dean Hahn will speak before the general session of the Northeast Nebraska Teachers' association, which will be held at Emerson October 12. His subject will be "The Man Element in Man-Making."

The first public program of the year will be given next Friday evening by the Crescent literary society. This society has organized by electing Albert H. Miller, president; Glenn Gidderleeve, vice president; and Eugene Maclean, secretary. Miss Edith E. Beecher, member of the class of 1912, is registered for work leading to the degree of Bachelor of Education. Miss Beecher is supervisor of drawing in the Wayne public schools but has so arranged her program as to be able to spend every forenoon at the Normal.

William I. Fleetwood registered Monday and will take special work at the Normal this year. Mr. Fleetwood is a member of our Normal male quartet and has been rendered good service to the school during the past year. We were all glad to have him enroll as a student.

The Junior class met last Friday afternoon and organized by electing the following officers: President, Tracy Kohl; vice president, Martha J. Woolsey; secretary, Freda J. Ellis; class sponsor, Professor Bright. This is the largest class in school and insures a strong senior class next year.

The Christian associations started the work of the new year by holding a union meeting in the chapel on the afternoon of Sunday, September 22. Professor Brittle gave a very interesting talk on "Things Not in the Curriculum." Special music was furnished by the Normal male quartet and by Miss Tina Hughes. Elmer B. Rogers is president of the Y. M. C. A. and Bertha B. Preston president of the Y. W. C. A. The matter of financing school activities has always been a problem to those who have been entrusted with that part of the school life. For this reason normal schools and colleges have seen the necessity of placing all public entertainments of a strenuous financial basis. In many institutions the payment of such a few by students at the opening of each semester is made compulsory, but it was thought best by the board of education to leave this part of the work in normal schools entirely optional with the student body. On Wednesday morning a plan worked out by a special committee and approved by the faculty, was presented to the students and met with an almost unanimous endorsement. Under the new arrangement, instead of paying separately for every entertainment, a student will be permitted to purchase a semester ticket for \$1.50. This ticket

will entitle him to all the entertainments given under the auspices of the Normal for the current semester. During the first semester the following attractions are offered: Four foot ball games; five basket ball games; two lectures or entertainments, and one subscription to the school paper. The enthusiastic support given by the students to this new plan is very gratifying to the management of the school. At least seventy-five per cent of those now in attendance at the Normal have assigned for a semester ticket, making the proposition entirely practicable and leaving no question as to the success of school activities this year.

Program of Crescent literary society at Normal chapel, Friday evening, September 27, commencing at 8 o'clock: Crescent Song.

- Vocal Solo.....Miss Miller
Reading.....Miss Iva Root
Vocal Solo.....Mr. Miller
Piano Solo.....Mr. Alexander
Vocal Duet.....Mr. Fleetwood and Mrs. Johnson
Reading.....Miss Jewell
Vocal Solo.....Mr. King
Piano Duet.....Miss Banks
.....Misses Brittle and Palmer
Everybody welcome.

TWO MEN INJURED BY RUNAWAY TEAM

At the close of services at the German Lutheran church northwest of town, Sunday noon, the team of Herman Steckelberg who had driven from Lyons to attend the missionist, broke loose from a post to which the animals were tied and ran away, charging on the crowd gathered in front of the church. Fred Heurichs of Wayne, and William Munk of Concord, was knocked down and trampled under the feet of the horses. Munk had a number of ribs broken and his head was badly cut. He was rendered unconscious. Heurichs' head received some ugly bruises and he was hurt in the chest. The buggy was demolished, but the horses escaped injury.

AUTOMOBILE GOES DOWN EMBANKMENT

A. M. HELT'S CAR HAS ACCIDENT

Party Was Returning From Sioux City—Contempted Suit Against Dixon County.

A. M. Helt, local contractor, who drove his automobile to Sioux City last Thursday, in company with four companions, had his car turned over as he left a bridge and dropped into a washout, three and one-half miles north of Wakefield, in Dixon county, and he is figuring on instituting a damage suit against that county.

Mr. Helt, J. W. Souders, John Dennis, Frank Oden and August Lau were returning from Sioux City in the evening. As they left the bridge at the point mentioned, the car dropped into a washout and turned over once and a half. The party and car tumbled down a fifteen-foot embankment. The men were thrown out, but fortunately no one was hurt. Due, no doubt, to the fact that the car was running slowly. From a nearby farm house a farmer saw the lights and hurried to the scene of the accident. The car was damaged but not so seriously that it could not be made to run. After being restored to the road, it was driven on to Wayne. Mr. Helt has retained Attorney A. R. Davis to take legal action against Dixon county.

DAMAGES ALLEGED AS RESULT OF FIGHT

In the suit of William Bruecker against Chris Maas asking for \$4,000 to cover damages alleged to have been sustained by reason of a fight August 11, it is reported that the defendant will present a counter claim for \$5,000, that men live in the Hoagins vicinity.

We have some very fine lands for sale, well improved, good corn land in Minnesota to sell. See us—Johnson & Daerig. S2812

SCHOOL NOTES.

Several pupils were enrolled this week.

Mrs. Welch, Mrs. Elison and Mrs. Dennis were recent visitors.

Mr. and Mrs. Heckenbauer and Mrs. Charles Reynolds were recent visitors.

The high school foot ball team will play at Norfolk next Saturday, September 28.

Anna Jones is absent from high school this week on account of an attack of appendicitis.

Bernard McConnell of the class of 1912, was a high school visitor on Wednesday.

Miss Dora Lewis of the class of 1908 visited the schools last week. Miss Lewis is teaching in the Plainview schools.

Advisers for the high school classes have been appointed by the superintendent as follows: Senior class, Mr. Leas; junior class, Miss Lewis; sophomore class, Mrs. Phillips; freshman class, Miss Hardy.

The senior class gave the following twenty minute program last Friday morning with Raymond Duerig presiding: Piano solo, Bessie Crockett; review of the political situation, Raymond Fox; vocal solo, Frank Stodden; advice to the under classes, Leta Fisher.

The Freshman class organized last Friday. Fritz Miller was elected president and Francis Oman secretary. Committees were appointed to select class colors and yell. The class showed much enthusiasm in planning for the rhetorical programs which they are to give in the high school during the year.

DR. CORKEY SPEAKS TO HIGH SCHOOL

On Wednesday morning Dr. Corkey of the Presbyterian church addressed the high school and made his usual excellent impression on his audience. Mr. Corkey took for his subject "Little Things." He said that in the present age people are too prone to notice only the big things, forgetting that it is important to notice the little things.

He introduced his subject with a few concrete illustrations, telling how the little mistake, using a "u" for an "i," and repeating a "pink tea" as a "punk tea," caused much grief to the lady who gave the tea. Mr. Corkey said that the smile, the kind word, the care of teeth and nails, the way one enters a room, shuts a door, addresses his superiors, and personal appearance are all "little things" which are of vastly more importance than is generally recognized. It is these little things which reveal the character of the individual and point to success or failure. "He who is faithful in little things, is faithful in big things." The speaker urged his hearers to attend well to the "little things" in all their activities and they would unconsciously be doing big things; they would unconsciously become big men and big women of big achievements.

THE WAYNE-STANTON GAME.

The foot ball game last Saturday between the Wayne and Stanton high school foot ball teams resulted in a victory for Wayne by a score of 35 to 6. Though the opposing team was a little heavier, it was evident from the start that the Wayne boys had had more training and knew the game better. In the first quarter the Wayne team made three downs so consistently after Stanton kicked off to them, that within five minutes after the game was started Marsteller carried the ball over Stanton's line for the first touch-down and followed it with a goal. Score 6-0. But Stanton came right back at the boys with a touch-down by their

star fullback, Captain Bair. They failed at kicking goal. Score 7 to 6. The second quarter netted two touch-downs for Wayne, both being made by Marsteller from the 49-yard line. Score 21 to 6. The third quarter added two more touchdowns to Wayne's side of the score, one by Jones and one by Marsteller. Score 35 to 6. When it came to the last quarter Coach Leaven thought the boys had a big enough score, so replaced some of the Wayne men with others of less experience. This new lineup held Stanton for downs, but failed to add to the already plentifully large score.

It was a good game throughout and much closer than the score would lead one to think. The Stanton boys are gentlemen and their fallback and left half are stars in the game. The Wayne team will play a return game on October 26.

The Wayne lineup last Saturday was as follows: Miner, center; Muninger, right guard; Stodden, right tackle; Duerig, right end; Ash, left guard; Lower, left tackle; Gossard, left end; Noakes, quarterback; Leaky, full back; Jones, right half, and Marsteller left half. In the last quarter, Main, Miller, Hoguewood, Sears and Moran took the places of Lower, Noakes, Stodden, Ash and Muninger. The boys all played a good game.

WEATHER CHANGES INEXCUSABLY OFTEN

The weather has gone the limit in fickleness this week. Monday was an almost perfect day for comfort, and a month of ideal fall weather was expected. Before Tuesday morning clouds appeared and rain set in. A cold rain fell most of the time Tuesday. In the western part of the state rain turned to snow. Here the elements were chilly, but no serious frosts were reported. Yesterday the sun appeared again, and more agreeable elements prevailed. The weather has acted so unsettled lately that no assurance of the kind that will be dashed out next can be given.

FIRST SNOW OF SEASON.

Valentine, Neb., Sept. 25.—A wet snow fell here yesterday and for the time ground was covered. The mercury hung around freezing and a gusty wind blew all day which made the opening day of the year make a complete day of the year make a complete day. A large crowd of people gathered here Monday to witness at the opening. It was impossible to carry out any of the program on account of the weather. The big crowd patiently waited for the morrow in the expectation of a good day.

PLUM BREED IN WINDPIPE.

Craigton, Neb., Sept. 25.—The little 6-year-old son of Elmer Shingley ate plums yesterday afternoon and last night the little fellow died. A plum seed had lodged in his windpipe and the doctors were unable to remove it. The funeral was held this afternoon. The family lives two miles east of town.

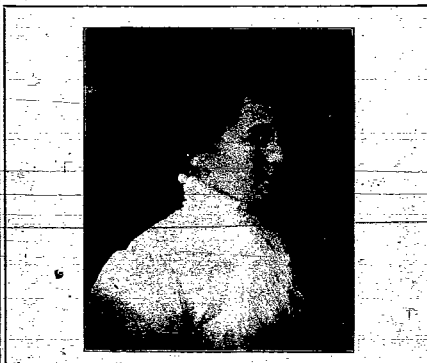

ADVERTISED LISTENERS LIST.

Letters: J. E. & W. Brown 2, Ed. Guzman, Carl Walker, Herman Stovne, Miss Debbie Walker, Michele Guzman, Cards: Mrs. Stella Carlson, Torval Christenson, John Eliason, Miss Per Dilti Morgan, J. S. Moses, Miss Maria Nilson.

W. H. McNEAL, P. M. September 25, 1912.

Oscar wood for making pencils may soon be exhausted, but by that time some genius may furnish a satisfactory fountain pen.

It is also time for father to figure how he can make that vacation as though another season.

MISS ELIZABETH BETTCHER

is a graduate of the Indiana State Normal School, and for some time a student in the Indiana State University. Her experience as a teacher covers every phase of public school work. For several years she was employed in the public schools of Indianapolis. Upon coming to Nebraska she was elected to a position in the grades at McCook, and later promoted to the English department of the McCook high school. From this position she was called in 1910 to serve as county superintendent of Red Willow county. At the close of her term of office she was elected to a position in the state department of education and is still a member of the board of examiners for life certificates in Nebraska. At a meeting of the board of education held at Lincoln on September 2, Miss Bettcher was elected intermediate critic teacher of the Wayne State Normal School and began her work at the opening of the new year.

STATE CONVENTION OF BAPTIST CHURCH

MEETS IN WAYNE ON OCTOBER

Large Number of Leaders of Organization to be Present—Meeting Will Benefit City.

Only a little over two weeks before the Nebraska Baptist state convention will meet in Wayne. The convention opens October 12 and closes October 17.

The meetings Saturday evening and throughout Sunday will be of special importance to those interested in young people's work and Sunday school problems.

When a girl tells a man he is no gentleman, she believes she has gone about the limit in scathing scorn.

A woman's idea of economy is to visit her distant kin.

LOCAL NEWS

Mrs. B. C. Turpin went to Bloomfield Tuesday.

Griffith Garwood of Carroll, was in Wayne Tuesday.

Mr. and Mrs. C. J. Russell went to Omaha Tuesday morning.

Miss Frieda Kreppeke of Carroll, was in Wayne Monday afternoon.

Richard Clouson and T. A. Jackson were down from Sholes Saturday.

Dr. Edna Heeren of Carroll, was a Wayne visitor Tuesday afternoon.

Mr. and Mrs. Henry Westschmidt were visitors from Winslow Monday afternoon.

Miss Clara Stallsmith went to Wakefield Tuesday afternoon to visit her sister.

Mrs. Peter Jensen and son, Martin of Hoskins, were in Wayne Monday afternoon.

Mrs. John Kret left Tuesday morning for a visit with relatives at Sioux Falls, S. D.

Mr. and Mrs. Perry Francis went to Sioux City Tuesday afternoon for a few days' visit.

Eight automobile loads of Norfolk boosters visited Hoskins and Winslow Friday afternoon.

Miss Mary Swanson went to Wakefield Tuesday to spend a few days with her mother who resides there.

R. Peck of Laurel, was in the city between trains Tuesday en route to Magnet where he is in the stock business.

Mrs. W. F. Anderson and baby returned to Sioux City Tuesday after a few days' visit at the Homer Wheaton home in Wayne.

Miss Ethel Buppel who had been an apprentice in Mrs. Ball's millinery store, left Saturday evening for her home at Winslow.

Mr. and Mrs. Harry Tidrick of the Winslow vicinity were Wayne visitors Monday. Mr. Tidrick arranged for advertising a public auction of Poland

China and Duroc Jersey pigs October 10. His advertisement will be found in this paper.

Clarence Bastian arrived home Friday from Mandan, N. D. Mrs. Bastian who accompanied her husband to North Dakota, returned for a longer visit.

Mrs. E. K. Meadon and daughter of Lincoln, arrived in Wayne Tuesday to visit the family of the former's daughter, Mrs. J. Woodward Jones.

Miss Ethel Huff went to Sioux City Tuesday to meet Miss Florence Haney on her way to Wayne from Ginton, Ia. Miss Haney will teach school near Carroll this year.

Mr. and Mrs. John Liveringhouse left Tuesday for Ardmore, S. D. to visit a daughter Mrs. Albert Bastian. From there they will take a trip to Portland Ore, and return home via California.

They expect to be gone several months. Judge H. H. Moses and P. E. Moses and wife left Tuesday morning for Pasadena, Cal., where they will locate permanently. Halley Moses, son of Mr. and Mrs. P. E. Moses, will reside on the old home farm, ten miles southwest of Wayne.

DESIRE TO HELP EAT UP THE BIG HAY CROP

Judge James Britton wants to buy a horse on account of the superabundance of hay with which to feed animals of the kind mentioned. Last spring he sold a horse that he wintered on high priced feed. Hay was scarce and he concluded to dispose of the animal. Now that the hay crop is big, he wants to help consume it, and do his share toward avoiding waste and stimulating the price, and therefore he wishes to become repossessed of that which he became dispossessed. As he does not need a horse for any other purpose he is particularly to have one armed with a stupendous appetite. A horse old enough to have served at the steeple of Troy will be satisfactory if it can eat. The only essential: Constant desire for hay, with tireless powers of mastication and digestion. In his ambition to help eat up the hay crop, Judge Britton has the encouraging co-operation of Professor J. T. House who also has a horse of similar fitness for the same purpose.

REV. WILLIAM GORST RETURNED TO WAYNE

The annual north Nebraska conference of the Methodist church, held at Madison, closed Monday with the reading of appointments for the year. Rev. William Gorst comes back to Wayne, and his many friends here will be pleased to know.

Following are the appointments for the Norfolk district: Superintendent, E. E. Hosman; Allen, J. H. Hand; Bancroft to be supplied; Beemer, E. E. Shafer; Belden, J. C. Galloway; Bloomfield, C. H. Moore; Carroll, R. E. McKenzie; Central circuit, J. J. Kemper; Coleridge, T. S. Waters; Creston, to be supplied; Dakota City, John Crews; Decatur, E. T. Astin; Dixon, P. D. Cox; Harrington and Hubbard, A. W. Ahrens; Homer and Crawford, L. R. Keckler; Laurel, H. G. Langley; Lyons, A. S. Baugh; Madison, F. M. Drullner; Maskel, S. A. Drake; Norfolk circuit, H. H. Mard; Pender and Thurston, A. Peter; Pilger, H. H. Louis; Ponca and Waterbury, J. B. Roe; Randolph, E. T. Connolly; Rosalie, R. Garlock; South Sioux City, J. L. Phillips; Stanton, J. F. Poncher; Wakefield, J. J. Burke; Walthill, G. M. Pendell; Wausa and Magnet, J. A. Martin; Wayne, William Gorst; Winslow, S. E. Cornell; Wisner, T. W. Sloum; Wynet and Spring Valley, W. O. Romick.

WAYNE YOUNG MAN WEDS

Yesterday, at the home of the bride's parents in Lexington, Mo., took place the marriage of Mr. Frank Wilson, son of Mr. and Mrs. H. F. Wilson of Wayne, to Miss Mary Bertie. The ceremony was witnessed by the parents of the groom and other Wayne relatives of the couple.

The bride is a sister of Mrs. William Mellor of Wayne, and in visiting her sister here, had become acquainted with many at this place. She is an estimable young lady.

Mr. Wilson attended the Wayne schools and grew to manhood here. He is a young man of good habits, and is commonly deserving of the prize he has won.

Mr. Wilson and bride will reside in Winslow until spring when they will move on the Wilson farm east of that town. Frank has been engaged in farming since leaving school, and has made a success of it. Wayne friends will extend congratulations and cordial good wishes.

In a Lexington paper is reported a prenuptial refusal function as follows: "Miss Rachel Anderson entertained at breakfast this morning at her home, 7612 South Street, the bridge club of which she is a member, in honor of Mrs. B. H. Tillman, of Washington, D. C., and Mrs. Mary Melloe of Wayne, Nebraska."

The dining room was tastefully decorated in the child's colors, pink and white. In the center of the table was a

CLEAN AIR AND HEALTHFUL HOMES. If every home here were equipped with a Favorite Base Burner, there would be so much more health and happiness this winter. Sickness and misery would be reduced wonderfully -- fuel bills decreased at least one-half.

Favorite Base Burners More Heat - Less Cost

fill homes with genial, even, comfortable warmth, upstairs and down, all winter long. And it is clean, fresh, sanitary warmth, free from ash dust, soot and coal gases. This saves house work and doctors' bills.

The heat from the fire in a Favorite travels through many feet of flues before it is allowed to pass out the chimney. These flues are set out from the stove, and separated from each other.

This construction is patented.

Every bit of heat is radiated from these flues into the home. None escapes up the chimney.

Place the thinnest and toughest piece of paper in any door or frame of the Favorite Base Burner. You cannot put it out without tearing it after the door or frame is closed.

This paper tight fitting can only be found in the Favorite. It prevents fuel waste—keeps coal gas, ash dust and soot out of the rooms—and, enables

the Favorite to hold fire for several days and nights without attention.

These are but two reasons why the Favorite heats entire homes for less money than common stoves warm one or two rooms. There are many others.

In spite of all these exclusive features, the Favorite costs no more than inferior kinds. In its fuel saving, cleanliness and protection of your family's health it soon repays its cost.

Face the heating question today, and settle it for once and all the Favorite Way.

BARRETT & DALLY

Phone Number 144

Your Suit, Coat or Skirt

LISTEN!—Isn't it a fact that nearly all garments look fine when new?

But isn't it a fact, too, that far too many of them do not look so fine after three or six months' wear?

Take those made of fabrics that are not pure wool—the most of them will fade. Then take a fabric that is all wool, but was not put through a satisfactory shrinking process before ever a pattern was laid upon it and it is almost needless to tell you that the garment made of that fabric will pucker at the seams and will sag or shrink out of shape.

Now the Coat, Suit or Skirt that we offer you is made of pure wool fabric, fully shrunk. Then in addition to that we not only guarantee the wearing quality of the garment you buy, we guarantee that its good appearance will also last.

Come to the store before the best of the garments are gone and let us show you other superior points in the garments that we sell.

Orr & Morris Co.

Phone 247. Wayne

satin ribbons running to each card. The pie contained a secret, as all pies do, and when it was cut it was found to contain little suit cases for each guest which in turn contained the picture of the man in the case. Mr. Frank Wilson of Wayne, Nebraska, who, as was announced will marry on September 25, Miss Mary Berrie, the charming, accomplished and cultured daughter of Mr. and Mrs. R. B. Berrie of this city. Mr. Wilson is a graduate of Wentworth, where he is held in highest esteem.

OFF TO COLLEGE

Randolph, Neb., Sept. 23.—During the past week twenty-five young people from this town and vicinity have departed for schools and colleges in different parts of the country to pursue courses in higher branches. This is said to be the largest number of students from any small town in Nebraska. Following are the students and the schools they are attending:

Paul Buol, Katie Buol, Lauretta Herbert Reese, Carl Luol, Suedey Lord, Minnie Pittman, Nellie Thorndike, Lorraine Holtz, El Hwarat, Bessie Rogers, Durand Park, Nebraska University; Floyd Peck, Edith Knight, Katherine Light, Park College; Mae Agertzer, Hazel Agertzer, Oerlin College; Winnie Davidson, Bellevue College; Elmer Fox, Alice Fox, Ames College; Lena Stewart, Wesleyan University; Guy Rogers, Frank Davidson, Wayne Normal; Jarret Oliver, Winna Nance, Brownell Hall.

BOY DROWNS

Broken Bow, Neb., Sept. 23.—While playing at the edge of a pool of water late this afternoon the 3-year-old son of Mr. and Mrs. Mark Pessenden of this town, accidentally fell in and was drowned. Mr. and Mrs. Pessenden have recently been in Texas and Mrs. Pessenden returned yesterday with the children ahead of her husband, who is making the trip by auto. When the mother went to look for the little fellow today she could not find him. Becoming alarmed she notified Coroner Pennington who with others began a search. A rake was used in dragging the pool and the body was finally brought to the surface. It had been in the water about five hours.

VACCINATION FATAL

Red Cloud, Neb., Sept. 23.—A wide

spread warning has been sent out from Red Cloud that practically all of the horses that have been vaccinated for the new disease are dying. Well posted horsemen say that a large number of animals have been vaccinated with the virus used in treating blackleg in cattle and that all that have been thus treated are dead or dying. The disease itself is dying out in this vicinity.

FINDS AN INFERNAL MACHINE

Exeter, Neb., Sept. 21.—Alex Nelson, a schoolboy, today found near town what he regarded as a curiosity in the shape of a tin box with a peculiar mechanism inside. In taking it to his father's blacksmith shop, he attempted to investigate. There was an explosion which rendered him unconscious, partly wrecked the shop and set it on fire. The boy is badly injured, but has a chance of recovery. Where the supposed infernal machine came from is a mystery.

LEGAL NOTICE

In the District Court of Wayne County, Nebraska. George Hufeldt, Plaintiff.

vs. James Taylor, et al, the unknown heirs and devisees of James Taylor, et al., Frederick A. Bayer, known also as F. A. Bayer, and the unknown heirs and devisees of Frederick A. Bayer, known also as F. A. Bayer, Defendants.

Notice to Non-resident Defendants and Unknown Heirs and Devisees. To the above-named James Taylor, et al., the unknown heirs and devisees of James Taylor, et al., Frederick A. Bayer, known also as F. A. Bayer, and the unknown heirs and devisees of Frederick A. Bayer, known also as F. A. Bayer, Defendants.

You and each of you are hereby notified that on the sixteenth day of September, 1912, George Hufeldt as plaintiff filed his petition in the District Court of Wayne County, Nebraska, against you and each of you as defendants, the object and prayer of which is to cancel and discharge of record a certain mortgage recorded in Mortgage Record "C", page 9, of the real estate records of Wayne county, Nebraska, created by Charles F. Huppock in favor of James Taylor, et al., and which mortgage conveys the southeast quarter of section four, township twenty-six, range three east of the 6th P. M., Wayne county, Nebraska, on the

ground that said mortgage and the note secured thereby have been fully paid and satisfied.

Plaintiff further asks to have the cloud created by said mortgage removed and the title to said premises quieted in him and for such other and further relief as justice may require.

You are required to answer said petition on or before the fourth day of November, 1912.

GEORGE HUFELDT, Plaintiff.

By Berry & Berry, his attorneys. 32414

It is pretty hard to give satisfaction. Old J. P. Morgan is abused for not talking enough, and everyone else for swinging the other way.

# THE COUNTRY'S BUSINESS AT FLOOD TIDE

From Every Section of the Nation Comes the Good News of a People's Prosperity.

BIG CROPS, PLENTY OF WORK, GOOD WAGES

That Is the Chorus That Comes From Every State, and it Is a Song That Must Gladden the Heart of Every American Who Loves His Fellow Men and Wishes Them to Prosper.

**T**HE country is at the flood tide of prosperity. The last four years under Republican laws and Republican policies mark a triumphant climax in the nation's history. From the day that William McKinley, in the name of the Republican party, assumed control of the government, down to the present time, when William Howard Taft is proving the worthy and patriotic successor of the martyred president, there has been uninterrupted progress, unexampled prosperity, marvelous growth. Business everywhere is booming. Labor is in great demand and wages are never better. Banks' deposits are increasing. Railroads are carrying enormous quantities of freight. Shipbuilding has taken on a new lease of life. Farmers are making money and miners and all other classes of workers are busy. Never was such universal activity known before. The details presented in these columns tell their own convincing story. They are gathered from all sections of the country—a broadside of interesting, instructive facts that demonstrate the widespread blessing of prosperity all over the land.

### "EVERY PROSPECT PLEASES"

### BUSINESS IS BRISK

Bradstreet's Report Says That Trade Continues Its Onward March.

Bradstreet's Report, a recognized authority on business conditions, runs up the present prosperity in the following words:

"Every prospect pleases and trade continues its onward march. Cumulative strength appears to be the order of the day. The quickening impulses of better things are extending to sections that heretofore have been relatively backward, and what is most significant, increased crops contribute even higher yields than were anticipated a fortnight ago, with those yet to be gathered—corn and cotton—giving evidence of astonishingly good progress. The crop situation is such as to generate optimism, the influences of which on trade are clearly apparent. The 'vest' is good. Steel business was never better, specifications in August were of record proportions, pig iron is active at an unprecedented rate of production, and higher prices have been named on a number of finished lines. Jobbers of dry goods have enjoyed a good house trade despite the holidays. Retail buyers still being in evidence, and road sales are larger, while business for spring is opening in a good way with first hands."

Local Merchants in the Towns Find Receipts Increasing Each Month.

Under the heading, "Business is Brisk this Fall," the Freeport, Ill., Journal says that local merchants are optimistic and that "autumn displays in local windows include great variety of high class goods that will sell well." The Journal then says:

"Recent reports from shippers in almost every section of the country give one the idea that the only family we will have is one of freight cars rather than of produce. The conditions in the harvest fields of our great grain sections this year have demanded more labor than they could get, and that condition has not existed for several seasons. Wages are at the top notch and there is plenty of work. Factories are working full force and are turning out their goods. 'And the farmer still buys automobiles.' 'Among local merchants business has been good this summer and each month has shown an improvement over the corresponding month one year ago.'"

### WILL DEPEND UPON ELECTION

Politics, Unfortunately, Will Have an Influence Upon Continued Prosperity.

In an interview published in New York, Mr. James S. Alexander, president of the National Bank of Commerce, said: "Merchants have been increasing their stocks. Labor is well employed. Tremendous crops are assured. The outlook is exceedingly good. But Mr. Alexander added that politics, unfortunately, were a factor in the situation and that if present conditions were changed by the election, the business world would naturally suffer."

### PROSPERITY IN THE WEST

Chairman Lovett Reports Crop and Business Prospects Good.

From the New York Tribune.

Ex-Judge R. S. Lovett, chairman of the executive committee of the companies embraced in the Harriman system, who arrived this city at the close of last week from a five weeks' trip in the west, said yesterday as the result of his observation that the crop and business outlook could not be more encouraging. As to the crops, he said he did not see how they could be better, and business was for that reason unusually good. Labor, however, was very scarce, and as a result, a good deal of the construction work of the system's roads was being delayed.

### Business Continues Good.

From the Jackson, Mich., Patriot, Sept. 11, 1912. As to the general business of the country, although within less than eight weeks of election, with conditions growing feverish among candidates, there can be no two opinions. It is large and tends to become larger, in some cases showing a volume never before recorded. This is especially the case with those industries which imply a large volume of business in other lines and directions, such, for example, as the industrial demand for fuel and the biggest output ever known in manufactured steel.

At no time in the history of this country has the production of steel been so great, and its relation to other industries is shown in the large orders received from the railway equipment companies.

### A Great Business Revival.

From the Independence, Kan., Daily Republic. Pronounced revival of business prosperity has set in, according to the growing belief of business and financial men, from all over the country. A decided awakening from the period of excessive dullness and limited business operations that has continued in the country since the war is clearly indicated by men in touch with business conditions.

### THE STORY IN HEADLINES

From the Chicago Record-Herald, Sept. 15, 1912.

### AMPLE CASH IN BANKS FOR BUSINESS NEEDS

Enough for Crop Moving and Legitimate Enterprises, but None for Speculation.

### GOLD COMING FROM EUROPE

Engagement of \$750,000 First of Series—New York Exchange a Premium.

### Bright Business Signs.

From the Reading, Pa., Times. It gratifies the Times to be able to bring to the attention of its readers the many evidences of business improvement appearing in all sections of the country. These come from the west as well as from the east, and affect the agricultural, as well as the industries and financial and commercial houses.

### Let Well Enough Alone.

From the Quincy, Ill., Mail. It strikes us that we should be satisfied with our present prosperity under President Taft and not be misled by those who are trying to create a spirit of unrest throughout the country.

#### VOLLEY BALL

Volley ball has this advantage, that it can be played on most any sized court, the regulation size, however, being twenty-five feet wide and fifty feet long, to be divided into two square courts, twenty-five by twenty-five feet, by a net.

The game is valuable from a hygienic standpoint as the chest is never in a contracted position during the play. It especially appeals to desk workers, as the ball while in play is almost constantly higher than the head, and when hitting it is necessary to raise the arms high, which has a marked effect on the deepening and broadening of the chest.

The back and neck muscles which have a relation to erect carriage, are strengthened by watching and hitting the ball while higher, than one's head.

This position has also a tendency to correct round shoulders and the forward position of the head so common to those assuming positions during the day which require the head to stoop forward, such as desk workers, stenographers, compositors, etc.

Quick, accurate judgment is developed by the receiving and returning the ball advantageously for one's side.

The lower limbs are brought actively into play as it is oftentimes necessary for the player to cover a large territory; this depends on the size of the court and the number of players; the smaller the number the more territory to be covered and consequently the more vigorous the play.

It may be played by either sex and individuals of most any age, as it can be played with interest and profit by all classes, as it lends itself to all classes and conditions of players.

#### Volley Ball Rules.

(From Spalding's Athletic Library.) Any number of persons may play that is convenient to the place. It consists in keeping the ball in motion over a high net from one side to the other, thus partaking of the character of two games—tennis and hand ball.

1—Play is started by a player on one side serving the ball over the net into the opponents' court. The opponents, without allowing the ball to strike the floor, return it, and it is in this way kept going back and forth until one side fails to return it, or it strikes out of bounds. If the serving side fails to return the ball to the opponents' court, it counts as an out. If the receiving side fails to return the ball in the opponents' court, the serving side scores one point.

#### Rules:

1—Game.—The game shall consist of twenty-one points.  
 2—Court.—A court or floor space shall be 26 feet wide, 50 feet long, to be divided into two square courts 25 x 25

feet by the net. The boundary lines must be plainly marked so as to be visible from all parts of the courts.

3—Net.—The net shall be at least two feet wide and 27 feet long, and shall be suspended from the walls on uprights placed at least one foot outside of the side lines. The top line of the net at the center must be 7 feet 6 inches from the floor.

4—Ball.—The ball shall be the Spalding official ball; it shall be made of a rubber bladder covered with leather. It shall measure not less than 23 inches nor more than 27 inches in circumference, and shall weigh not less than 9 ounces nor more than 12 ounces.

5—Server and Service.—The server shall stand with one foot on the back-line. The ball must be hit with the open hand and not struck with the fist. The ball may be served over the net into any part of the opponents' court. A service which strikes the net or anything within the playing space and falls good in the opponents' court shall be called a fault. A server shall lose his service if he serves two consecutive faults. A service which strikes the net or any object within the playing space and falls within the opponents' court, shall return the server. In a service the ball must be hit at least ten feet, no dribbling allowed. A service which would strike the net but is struck by the player of the same side before striking the net, is good. The man serving continues to do so, until out, either by the ball being knocked out of bounds by his side or their failure to return it. Each man shall serve in turn.

6—Scoring.—Each good service unreturned or ball in play unreturned, or ball knocked out of bounds by the side receiving, counts one point for the server. A side scores only when serving as a failure to return the ball on their part or knocking the ball out of bounds, results in the server being put out.

7—Net Ball.—A play which is returned but strikes the net aside from the first service, is equivalent to a return.

8—Line Ball.—Is a ball striking the boundary line, and is equivalent to one in court.

9—Play and Players.—Should any player during the game touch the net, it puts the ball out of play and counts against his side; if said player is on the serving side the ball goes to the opponents; if on the receiving side, one point is scored for the server. Should two opponents touch the net simultaneously, the ball shall be declared out of play and shall be served again by the serving side only. Should any player catch or hold the ball for an instant, it is out of play and

counts for the opposite side. Should the ball strike any object within the playing space other than the floor and ceiling, and bound (back) into the court, it is still in play. If the ball strikes any object outside of the court and bounds back again, it shall count against the side which struck it last. To dribble is to strike the ball quickly and repeatedly in the air; dribbling is not allowed. Any player seeing the captain addressing the umpire, or making remarks to or about him or any of the players on the opposite side, may be disqualified and his side compelled to play the game without him, or get a substitute, or forfeit the game. Any player kicking the ball may be disqualified and his side be compelled to play the game without him or get a substitute, or forfeit the game.

10—No player shall be allowed to strike the ball while supported by any player or object, but must strike it while on the floor or while jumping up unassisted.

11—A ball knocked under the net shall be declared out of play and count against the side which struck it last.

#### Helps in Playing the Game.

- 1—Strike the ball with both hands.
- 2—Look for uncovered space in opponents' court.
- 3—Play together; cover your own space.
- 4—Pass from one to another when possible.
- 5—Watch the play constantly, especially the opponents.
- 6—A player should be able to cover about 10 x 10 feet of floor space.
- 7—Keep four eye on the ball.

If there is any reason why a group of school children should yell like a band of Comanche Indians upon being dismissed from school we wish some one would tell us of it.

Teachers in the following districts have not yet filed proper preliminary reports: Nos. 3, 5, 13, 14, 19, 27, 34, 35, 46, 54, 57, 58, 65, 66, 68, 72 and 81.

Are you one of the teachers whose clock always runs slow the first three days of the week, but begins to gain on Thursday so school can be dismissed at half past three by the correct time on Friday? "Be sure your sins will find you out."

**SCHOOL READERS.**  
 A five-book series of readers is in use in the county—the fifth reader being intended for use in the seventh and eighth grades; the fourth reader in the fifth and sixth and the third reader in the third and fourth. Some of the beginners do not seem to understand the series and how to use them.

**TREASURER'S BOND.**  
 There are seventeen treasurers in Wayne county who have not yet filed bonds with the county clerk. The law

does not allow the county treasurer to pay out school money to any district treasurer until proper bond has been filed. Those treasurers who receive a blank bond within a day or two will do well to file it as soon as possible so that there be no delay when they wish to draw the school money.

Never empty the ashes about the trees; they have a hard enough time trying to grow on school grounds without such treatment from the teacher.

State of Nebraska, Department of Public Instruction,  
 Lincoln, Sept. 10, 1912.

To County Superintendents:

The majority of the county schools open in September. The special attention of teachers should be called to the "Fire Law." Deputy Fire Commissioner C. A. Randall has been very active the past year in his endeavor to lessen fire losses in the state.

The law definitely requires each teacher in the state to spend thirty minutes each month on the subject of "Fire Dangers." Please call your teachers' attention to this matter. Urge them to attend to this. Thirty minutes a month is very limited time to devote to teaching lessons concerning loss by fire and showing that by carefulness much suffering may be avoided and thousands of dollars' worth of property saved.

Do not let it be said by any pupil in your county, at the end of this school year, that "Fire Prevention" and "Fire Drill" was not taught in school. Yours for the most profitable school year in your county,

JAMES E. DELZELL,  
 State Superintendent.

A Fire Prevention Text Book having a lesson for each month in the school year will be sent to each teacher soon. Let not a school in Wayne county fail to comply with the law.

#### FROM A COUNTY SUPERINTENDENT'S NOTE-BOOK.

"Teacher's poor English asked out by slang."

"A little breeze came through the open window; the rest of the class period was spent in hunting for the pages that had lessons on How (School board ought to buy new books)."

"Pupils mischievous and idle. Teacher nagging at the children here and there, not sure of the school. Pupils afraid of the teacher, but not respectful."

"Teacher studied lessons just before calling the classes. Program did not indicate any period for each work. Not using plan book or course of study."

"Teacher slovenly in appearance. Pictures not straight on the wall, win-

dow blinds run up crooked. Map-book half open with maps dangling. Dust, dirt, disorder the rule of the day."

"Things beautifully clean, and attractive, including the teacher."

"Pupils annoying the teacher in every way possible, principally to see her snap and snarl at them. They seem to know that a barking dog never bites."

"Clock slow; also the teacher."

"Teacher in a blue serge one-piece work dress. Windows clean. Blinds drawn to the same height all about the room; pictures—and furniture well placed. As one would expect from the appearance of the teacher and the workshop, the work itself is orderly and well managed."

#### STUDY PERIODS.

It is as much a teacher's duty and as important a factor in her success, to supervise the study-periods of the pupils as to hear their recitations. Children do not know how to study, and it is a poor teacher who will leave them to devise their own methods. Teachers should know just when and how pupils in the grade are studying each lesson and should see to it that the process is a thinking process not a "memorize" one. There should be as much regularity about the study periods for each subject day after day as there is about the recitations. McMurtry says in his "How to Study," "Wrong methods of study involving much unnecessary friction, prevent enjoyment of school. This want of enjoyment results in much dawdling of time, a meagre quantity of knowledge and a desire to quit school at the first opportunity."

#### OF GENERAL INTEREST.

Two swings, a trapeze, a stationary bar and two volley ball sets were placed on the Carroll school ground last week. Besides this they have organized teams in basket ball and base ball.

The school house in district number 81 has been much improved by new paper and paint. Now blinds, a sectional book case, and a hanging globe add much to the attractiveness of the room. This is one of the best-equipped rural schools in the county, having a large school room, plenty of blackboard, an organ, a heating system and a good teacher. Perry Beneshoff who has been director in the district for a number of years, resigned at the last board meeting owing to the fact that he is moving from the state. A successor has not yet been appointed.

The school room in number 20 is a very pleasant place. The walls and wood work are a soft, warm gray and not a speck of dust is to be seen. The

new floor of hard pine has been oiled making it easy for the teacher to keep the room clean. The walls are covered with picture cards and "knick-knacks" to tire the eye and gather the dust. With the exception of one good, large picture suitably framed, the walls are left bare and restful. Being placed day after day in such a clean, artistic school room will put something into the character of the pupils that is invaluable—an appreciation of the fitness, the beauty of simplicity. Louise Wendt is the teacher.

The country seems to be full of book agents who are driving from school house to school house with all manner of books to sell teachers. Of course a teacher needs books to help her in her work but she should not be persuaded by some over-zealous agent to buy something she cannot afford or that is not worth the money. Neither should she leave an agent use the time that belongs to the school to show his wares. Somehow agents seem to consider teachers "easy marks," but if there is any class of people who ought to exercise judgment in buying books it is teachers.

The Hoskins school board have ordered laboratory material and will add botany to the course this year. There are three members in the tenth grade who will finish the course in the spring with sixteen or seventeen points to their credit.

Mrs. Maria Wolf who was to have begun school in district number 57 on the 23rd of September, will not be able to begin until September 30.

Miss Edith Dufine, teacher in number 41, had the misfortune to sprain her ankle the first day of school and was unable to teach for the remainder of the week. However, she is able to get about on crutches now and has resumed her school work.

District No. 49 reports twenty-five enrolled. Miss Emma Mumm is beginning her third year as teacher in the district.

A teacher writes that on one of the rainy days the children played school. She says the principal thing that happened in their school was to have Mrs. Littell visit them when they were not expecting her. Now, why?

The enrollment in the Carroll school this year reached 437. This school has about twenty high school pupils outside the district, their school terms being only 146.

A wall has been built on the school ground in district number 35. This school is now quite well equipped, having a heating system, single seats, or

(Continued on Page 7)

REPRODUCED FROM WAYNE COUNTY TEACHERS.

gan, hanging globe, book case and oiled floors. There are thirty pupils enrolled.

Questions were sent for a special examination in September, but as there was no demand for it in Wayne county it will not be given.

The south school in district number 28 is making a study of Hiawatha and Indian life, during September. Miss Martin is the teacher.

The pupils in number 13 are very enthusiastic over their new game of volleyball. Perhaps we can get a picture of them playing the game for the October number of the Wayne County Teacher.

Miss Clara Wischhof, the teacher in district number 91, was unable to teach last week, being under the care of a doctor. During the time school was closed, the school board added much to the appearance of the school house by a new roof, new paint and varnish and oiled floors.

This is the third week of school and a few teachers have not yet taken the dusty, dirty picture cards and specimen work that is on the wall from last year.

THE COUNTY READING CONTEST.

The following pieces have been selected for the reading contest to be held in the county this year. The pieces are found in the various school books and all of them are found in Seaton & Martin's Fourth Reader. The pieces are not so difficult but that any one above the fourth grade can enter the contest. We would suggest that in the precinct contests the selections be used in the order in which they are here given—first 16, if land, etc. contests in a precinct, the first six selections be used, etc.

luses throughout the state. It is stated that in the aggregate the losses in the state have been so great that it will result in the normal acreage of winter wheat being cut twenty-five per cent on account of the farmers not having the necessary teams with which to do their seeding. In the territory of the Omaha division of the road the losses have been very light, and none whatever in the extreme west end. On the Lincoln division the losses have been quite heavy, 125 horses having died in Seaward county; 200 in the vicinity of Stromburg, York county, and in Colfax county three per cent of all the horses. In Hall and Hamilton counties losses are reported as heavy but no figures are given. The town of Sutton reports 200 horses having died in that vicinity; Fairmont one hundred and Hastings twenty-five. The towns on the lines northwest of Aurora report twenty-five to thirty-five horses having died in the vicinity of each. On the Wymore division, the towns from Strang west to Holdrege, and in Clay, Nuckolls, Fillmore, Webster and Franklin counties report from fifty to one hundred horses in the county indistinct and tributary to each. On the McCook division the losses have been quite general and between Red Cloud and Orleans, in the Republican river valley, farmers have lost more than 600 horses. Horse Disease Dying Out. Lincoln, Neb., Sept. 23.—State Veterinarian Bestrom and E. T. Davidson of New York, expert in the service of the bureau of animal husbandry of the Department of Agriculture, declare in a report made here today that the horse disease in Nebraska is dying out. They say that in some counties as high as fifty per cent of the animals affected are recovering and that the disease is less virulent in form. They report that many well horses have been vaccinated with blackleg virus by the farmers and have died from this cause.

RULES PRESCRIBED TO AVOID DISEASE

Tuesday's Omaha Bee: Professor Udall, the expert veterinarian, brought here from Cornell university by the Union Pacific to cope with the forage disease prevalent among horses in the central west, has issued a code of rules looking to the prevention, but not to the cure of the epidemic. He has forwarded copies of them to Charles J. Lane, general freight agent of the Union Pacific. The rules: Remove all litter and rubbish from the barn yard or corral and from the mangers. Thoroughly scrub out all water buckets, troughs and tanks. Disinfect all the premises and containers by applying a liberal application of some reliable disinfectant, such as ordinary dip, 2 per cent carbolic acid, lime or whitewash. Remove all horses from their accustomed feeding or grazing places and place them in the disinfected corrals and barns. Do not allow horses to drink surface water. Do not drink water and all the fresh slaked lime that will go into solution (lime water) or add copper sulphate (blue vitriol) in the proportion of a level teaspoonful to four large pails of water (about ten gallons). Horses should be kept away from diseased animals and all articles or places that have come in direct contact with the latter should be immediately disinfected. Horses should be kept from pasture until cooler weather sets in. Diseased horses should have a separate attendant, and all water buckets and other utensils used for sick horses should be taken away from healthy animals. Dead horses should be buried or buried deeply after being covered with lime. Do not drench diseased animals. There is no known cure. Do not use anthrax vaccine, blackleg vaccine or tetanus antitoxin. Professor Udall is now working in the eastern portion of Kansas and writes Mr. Lane that in a few days he hopes to diagnose the horse disease, after which he will be able, he thinks to suggest a remedy that perhaps will be a cure. In making a weekly report to General Manager Holdrege of the Burlington division, the veterinarian, made the following statement: "I am certain that the disease is not a contagious one, but is a local one, and is caused by the use of certain feeds."

We take pleasure in announcing that Our Fall Stocks are Ready. The MOST Satisfactory Line of Women's and Children's Coats we have ever shown; warm and comfortable as well as stylish, with storm collars for cold weather.

We are sole agents for the celebrated "From Sheep to Shape" MACKINAW Coats for College and High School girls, the hit of the season—\$10.00 and \$12.00.

Blue Serge Dresses for school and better wear, now here. See them for style and utility.

SHOE Stocks are Complete—we can fit and please you.

S. R. Theobald & Co.

Men are not so stubborn but that a woman can cry them over to her side if she can't coax them. There are exceptions to every rule; brave men have been known to devote considerable time to talking about it. Married men are guarded closer than any society debutante, but in her case it is called being chaperoned; he is shadowed. Possibly the man who drives a nitroglycerine wagon wonders that a sailor

will engage in such a hazardous occupation as going down to the sea in ships. There isn't as much dignity to a coat as some men who insist on wearing them through the hottest weather seem to think. A lawyer can make money getting revenge for some one else, but there isn't anything in it for the man who is getting it for himself. Speaking of sweet music, there is the sound of an exploding automobile tire as heard by the pedestrian who is never

invited to take a ride. Treating is another one to be added to the long list of fool habits that cost more than they are worth. If the girls are between sixteen and twenty, chances are their conversation is mainly about boys whom they call men. Circus improve a good deal as the years go by, but remembering those of his boyhood, it is hard for a man to believe it.

BIG SALE OF POLAND=CHINA BOARS

I will sell at public auction at my farm, two miles south and one and three-fourths miles east of Winside, and six miles south and six miles west of Wayne, commencing at 2 o'clock sharp, on

THURSDAY, OCTOBER 10th Twenty head of fall and 7 spring Poland-China Boars and also Five Head of Duroc-Jersey Spring Boars.

As you will notice on sale day the boars will not be loaded down with fat, but will be in their every-day clothes. Every boar is guaranteed a breeder if not turned out with the herd. These boars are of the big-boned, and big, stretchy kind; so come to this sale and buy these boars at your own prices. You are welcome whether you buy or not.

### THE WEEK WITH THE CHURCHES.

**St. Mary's Catholic Church.** (Rev. William Keasars, Pastor.) Mass at Wayne next Sunday morning at 8 o'clock and at Carroll at 11. Catechetical class at 9:30 p. m. and benediction at 7:30 in the evening.

**German Evangelical Lutheran.** (Rev. J. H. Karpenstein, Pastor.) Sunday school at 10 o'clock Sunday morning, followed by preaching services at 11 a. m.

The Ladies Aid society will meet at the home of Mrs. Jacob Reeg, four miles northwest of town, a week from today, October 3.

**St. Paul's Lutheran Church.** Sunday school next Sunday at 10 o'clock.

Rev. J. Kubu of Atchison, Kas., will be here next week and occupy the pulpit October 6, and remain here until the return of Rev. Blessing next spring.

The Aid society will meet at the home of Mrs. Florh Thursday afternoon, October 3.

**First Methodist Church.** (Rev. William Gork, Pastor.) Mrs. D. C. Main and family and Mrs. Phillips were guests of the annual conference at Madison Sunday.

The next to constitute the three conferences—the Nebraska, North Nebraska and West Nebraska—was carried by seventy-five to eleven. As it now stands the Nebraska conference is the largest body of its kind in the Methodist church, having 414 members. At its present size, it will be entitled to eighteen delegates in the next general conference.

Next Sunday we begin the new conference year. It is the "key day." There will be a sermon to sound the "key-note" for the year and every member and friend of the church is to be present if possible. Any failure in this interest of either pulpit or pew can be forgiven, but it is sincerely desired that all necessities for diligence shall be reduced to the minimum.

In the evening the pastor will speak to the young people more especially about Peter.

Epworth League services at 6:30, followed by preaching services at 7:30.

**First Baptist Church.** (Rev. B. P. Richardson, Pastor.) Next Sunday's services will be prophetic, as Sunday classes are closed for the year. The subject of the morning's service will be: "The Prosperous Way." In the evening, after a song service by the large chorus choir, the pastor will preach a short evangelistic sermon.

In but a little over two weeks the convention will meet with us. Much need to be done between now and then. Let each member of our committee be prompt in responding to the direction of the chairman.

Our Sunday school felt the opening of the Normal by a largely increased attendance in the adult department. We are glad to welcome the returning students and greet the new students.

Our next week's prayer meeting will be very important. It will be our monthly convenient meeting and also the time when delegates will be chosen for the coming state convention. While all want to attend the convention, only the delegates can vote.

In spite of the very disagreeable weather last Tuesday evening, our annual fellowship gathering was a most enjoyable affair. A good number of the members were present and an excellent time was had. The short address by Professor Lewis, Mr. S. R. Theobald and Mr. Sprague were splendid and well received by all. The special music by Professor Davies and Miss Ina Hughes was appreciated very much. The different contests and the awarding of prizes, followed by an elegant serving of ice cream and cake, made the evening delightfully spent.

We were sorry that the stormy weather made the attendance of all of our members impossible.

(Rev. Alexander Corby, Pastor.) Presbyterian Church.

Next Sunday morning will be Rally day at the Presbyterian church. The combined service begins at 10:30 a. m. and the program, printed elsewhere, will be appropriate to the occasion.

In the evening the sermon will be on "Cornelius, the Good pagan." This is another discourse in the series on "Bible Portraits."

At the Wednesday evening meeting, beginning this week, the church is studying questions relating to our country and its progress. The subjects to be discussed are as follows: "Growth of the United States," "Source of Immigration," "The Negro," "Loss of Population in Nine Great Agricultural States," "Women and Children in Industry," "Economic Aspects of the Nation," "Evolution of Ownership of Land," "The United States and the World," "The Church and the Nation."

cial Reform." "The Church as a Religious Force." These subjects will be illustrated by specially prepared charts.

The C. E. society has resumed its regular Sabbath evening meetings one hour before the service of worship. This winter the young people will take up the study of Arthur H. Smith's book, "The Uplift of China," in connection with their meetings, beginning the study next Sunday evening under the leadership of Miss Mamie Wallace.

Little pennants bearing the motto: "Count on Me," will be given to all the members of the Sunday school responding to the roll call at the Rally day service next Sunday morning.

The Women's Missionary society held a delightful social meeting at the home of Mrs. Eph Beckenbauer on Thursday afternoon of last week. During the summer three of these social meetings in the country have been held, the other meetings being with Mrs. C. S. Ash and Mrs. J. C. Forbes.

### RALLY DAY.

Rally day program at the Presbyterian church next Sunday, 10:30 a. m.: Organ Voluntary. Processional by Sunday School Choir. Singing of Hymn. Prayer, followed by Lord's Prayer in Concert. Responsive Scripture Reading. Singing by Primary Department. Hymn by the School and Congregation. Responsive Reading—"America for Christ." Singing by the Choir. Roll Call of the Sunday School in the following order: Cradle Roll Department. Beginners' Department. Primary Department. Junior Department. Intermediate Department. Singing by the Choir. Adult Classes. Home Department. Hymn. Object Sermon by the Pastor—"The Railroad Frog." Offering for Missionary Work Among the Foreigners in the United States. Secretary's Report. Closing Hymn and Benediction.

### TRIALS OF A PRESIDENT.

Bixby in Lincoln Journal: Every administration we ever had was subject to bitter condemnation at the time by the honorable opposition. It is doubtful if any president ever pulled through a four years' trial of his integrity and patience without stepping on his own feet at various turns in the devious highway. No man's judgment is immaculate, except that of the critic who stands on the outside and howls "What did I tell you!" Mr. Taft has stepped off the bank a few times where it was pretty middling high, and taken several awkward tumbles, but he has advocated some grand and weighty reforms. Note these two in particular. One to secure greater expedition in judicial procedure, so that a verdict may sometimes be reached during the unhappy life-time of the parties litigant. Surely that is a commendation devoutly and religiously to be wished. In the next place, he took a sane and courageous stand in favor of international arbitration as a substitute for the present ruinous system of armaments and navies, and an international game of bluff and bluff. In his peace contentions President Taft was externally right and the men who opposed him internally wrong. It is claimed that we need a monster navy for the "defense of our national honor." Mightily few nations who have come to war in defense of their honor had any honor to defend. The nation that plays a square game has nothing to fear from any source, internal or external. The safety of a nation, as of an individual, lies in its character. There no longer exists the least justification for international murder in the settlement of conflicting interests and opinions. Arbitration is the only sensible solution of the whole problem.

# Round Oak Riverside

## --base burners

Certainly one of these beautifully designed, and economical stoves should appeal to your sound judgment when you buy a base burner.

Everything a late model stove contains is built into these two stoves; 3 flue return; nickel removed in 1 minute, without touching a bolt or screw; ground joints; the best of iron; in fact, there is nothing lacking in either of these stoves—and three beautiful designs from which to make a choice.

We Invite You to INVESTIGATE.

# Craven & Welch

**HIGH COST OF LIVING.** Washington, Sept. 25.—Marked upward trend of the cost of living is disclosed in the federal bureau of labor's report of investigation of prices for the last ten years conducted in the important industrial centers of thirty-two states. Fifteen most important articles of food, as well as coal, comprising two-thirds of a workman's needs, were investigated. In many cities the investigators gathered statements of merchants on the cost of living and specimens of these are published in the report.

On June 15, 1912, the report shows fourteen of the fifteen articles of food were higher than a year before, and ten had advanced in the last ten years more than fifty per cent over the average retail price for the ten-year period, 1890-1899.

During the last decade prices of potatoes advanced most and sugar the least. Their advances were 11.9 and 8.5 per cent, respectively. During the last year, however, which decreased just one-tenth of one per cent, was the only one of the fifteen principal articles of food that showed a decline in price, while nine of the fifteen advanced more than 10 per cent, varying from 2.4 per cent for milk to 18.6 for round steak. Of the fifteen, only milk, butter, eggs and sugar were lower, but the price of three of these four is normally lower during summers than during winters.

**PRINCIPALLY HOT AIR.** Bixby in Lincoln Journal: The working out of a national progressive program would be a comparatively easy task were it not for the ambitious politicians who are determined to boss the job. For a long time to come the people will get nothing out of the agitation but the hot air of which it is the principal part.

against it. Of course it is true that facial embellishment originated with the sort who are beyond the pale of polite society, but that is true of a number of other fashions. But there are perfectly worthy women who seek the roses for their cheeks at the corner pharmacy, having lost the original somewhere along the trail of our complex civilization. And we should not wonder if that's their privilege.

**NOTICE OF DISSOLUTION.** Notice is hereby given that there being no debts outstanding against the Pender Drainage District, and all debts against the same having been paid in full, the directors of said district did on the 20th day of September, 1912, in a regular directors' meeting called for that purpose, pass a resolution to call an election of qualified voters of said district to vote upon the question of dissolution of said district as provided in section 5627, Cobbe's Annotated Statutes of Nebraska for 1911.

Now, therefore, in accordance with said resolution, and said section 5627, of Cobbe's Annotated Statutes for Nebraska for the year 1911, an election will be held in the County Clerk's office of Thurston County, Nebraska, in the Village of Pender, Thurston County, Nebraska, on Monday, the 21st day of October, 1912, between the hours of eight o'clock a. m. and six o'clock p. m. for the purpose of voting upon the question of dissolution of said district.

PENDER DRAINAGE DISTRICT,  
By  
THOMAS L. SLOAN, Pres.  
H. P. SHUMWAY, Sec. pro tem,  
W.M. VOGT, JR., County Clerk of Thurston, Nebraska.

**ATCHISON GLOBE RIGHTS.** Women are gay deceivers; at least they are deceivers, and most of them are gay enough about it. But probably no woman expects a hand-painted complexion to pass as the real thing when viewed by an interested spectator. She paints it because she thinks it looks better than what is provided by nature. It is a fine river. And it happens that the water is not so clear as it looks, much as the girl's eyes are not so clear as they look.
