THE WAYNE HERALD
CHURCHES.

German Evangelical Lutheran Church
(Rev. R. M. Moberg, Pastor.)
There will be services at 11 o'clock and Sunday school at 10.

St. Mary's Catholic Church.
(Rev. William Kearney, Pastor.)
There will be no services next Sunday, as the pastor will be at Carroll. At the latter place, there will be mass at 10:30 a. m., and intercession at 11:30.

First Baptist Church.
(Rev. H. D. Collins of Lincoln, will be with us from Friday evening until Sunday evening. He is the director of our Sunday school and young people's work at New York. He is a specialist. He knows his work and proves a great up lift to all workers who come in contact with him. His lectures or addresses here all especially interest young people and Sunday school workers, but will be of some value to all. Just what will be the program for Sunday, we do not know, but will be able to announce it on Friday evening. Let us give him a good attendance and attention.

On Sunday, we shall have our regular services with Brother Collins in charge. Young people's service at 6:20 p. m., led by Miss Laura Conover.

Last Sunday, the pastor spent the day at Wakefield, preaching morning and evening at the Presbyterian church. At this church, the memory of Brother and Sister Kinch is held very sacred.

Next week, Professor Joy, a strong Christian leader in morals, especially among young people, will spend some days in Wayne. More particular notice will be given on Sunday. Mr. Joy's work in other cities has been highly commendable.

The church extends its sympathy to all those who mourn the departure of our Sister, Laughlin. The fragrance of her sweet Christian life will linger long in many hearts.

Sing and think if there is not some one where you should visit in behalf of your savior. They obey him.

St. Paul's Lutheran Church.
(Rev. P. E. Blessing, Pastor.)
Sunday school every Sunday morning at 10 o'clock. We were very much pleased to see the increase in interest

MALT

For Nervous People

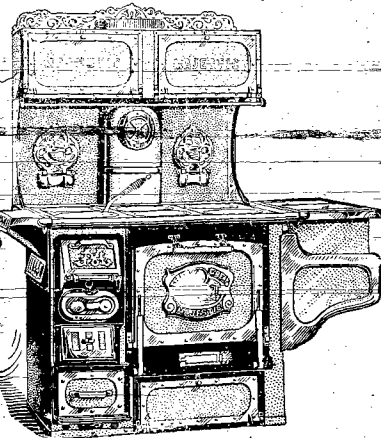

Anything that builds flesh, bone and muscle enriches the blood is good for nervous people.

Malt Extract

is especially rich in these building elements and is so easily assimilated that its good effects are promptly felt. It stimulates the appetite, aids digestion and makes one's sleep more refreshing. A splendid remedy for run down people.

Four Reasons Why YOU Should Buy the Great MAJESTIC Range

RESERVOIR—Fifteen-gallon all copper reservoir, heated like a kettle through one-piece copper pocket against left-hand lining. Boils the water in a jiffy—by shifting lever, reservoir and frame move away from fire—stops boiling. A patented feature used only on the MAJESTIC.

CHARCOAL IRON—Used only in MAJESTIC—the same kind of iron used in "olden days" for making wrought nails, cellar floor hinges, stove pipe, etc., that seemed to last a season. By actual test CHARCOAL IRON resists rust 300 per cent greater than steel. This feature alone makes the MAJESTIC worth three times as much as a steel range.

MALLEABLE IRON—Malleable iron used in constructing a MAJESTIC Range permits all joints to be riveted practically air-tight, no stove putty used—insures even baking with the least possible fuel. No breaking, no repair bills.

and attendance last Sunday morning. Services were held at 10 o'clock next Sunday morning will be "Growth in Grace," 2 Peter iii, 18. Growth is one of the great laws of God. A child born into this world must be best nurtured and under the most favorable circumstances, will not profit by them if he remain always an infant. He must grow into manhood. We may plant a young tree in rich and suitable soil, by the side of water, through which moisture it may always be given. But to what end does the tree possess these advantages, not that it may remain a stunted dwarf? But rather that through all the rough yet kindly forces of nature, the tree may wax greater and stronger; then will its branches give to the birds of the air homes, and the leaves of the tree the shade which will be fruitful to many a creature. Like-wise, it is the intention of God, and the duty of the Christian, that there should be spiritual growth—strong faith, true grace of our Lord and savior, Jesus Christ.

Evening services at 7:30. The subject of the sermon next Sabbath evening will be "The Inheritance of God," Dan. V, 6.

The Ladies' Aid society met at the home of Mrs. Julia Kinsion last Thursday. The meeting was well attended, and enjoyed by all. The ladies have been doing very good work in the past year, and are planning for greater things for the present year. The next meeting will be held at the parsonage January 22.

Catechetical class, on Saturday afternoon at 2:30. A cordial invitation is extended to all who wish to work up with us.

Presbyterian Church.
(Rev. Alexander Corkey, Pastor.)
"How to Enter the Kingdom of God," will be the subject of the sermon at the Presbyterian church next Sunday morning. In the evening, the congregation will unite in the union services at the M. E. church.

The men's brotherhood will enjoy their annual banquet this year on Thursday evening, January 22. Tickets will be 50 cents, and a full crowd of the men is expected. Arrangements for the program have not been concluded, but a full line of toasts will be provided for, with L. A. Kiplinger as toastmaster.

The Sunday school meets at 10 o'clock, and the C. E. at 6:30. On next Sunday evening, the young people's meetings will be held as usual, but the service will close at 7:15 promptly, so that all can attend the union services at the M. E. church, which begin at 7:30.

Last Sunday morning, at the morning services, F. G. Philcox addressed the congregation in regard to the budget for the coming year. The congregation was congratulated on the successful financial year just closed and all were urged to use the weekly envelope system in making the offerings to the church. It has been decided not to issue any printed budget this year.

The services last Sunday morning were unusually interesting. The subject of the sermon was "The New Birth," and a prominent place which this teaching has in the Christian teaching was set forth. "The men who have led the church forward," said the preacher, "during the past nineteen centuries have been men without exception whose first requirement was that men should be 'born again.' The leaders who failed were the men who neglected this teaching. The church members for nineteen centuries should have hindered instead of helped the cause of Jesus Christ in the world have always been church members who were not 'born again.' Marvel not, therefore, that I am saying unto you with such earnestness, 'Ye must be born again.'"

Methodist Church.
(Rev. C. L. Myers, Pastor.)

Eighty-three per cent of the women members of the church are now in school from the Sunday school. Should we not exercise great care, not only to raise the per cent but to carefully train the scholar?

Miss Geneva Henderson was received into the church January 12. The average age at conversion, says Professor Cox and Dr. Strabrick, of 7,784 cases, was 30 years. Better take care of the children.

At a meeting of the Sunday school board, a vote of thanks was given to the various committees which made our Christmas entertainment so delightful. We ought to have a pledge signing in our Sunday school, for only 500,000 of the 2,000,000 Sunday school members in the United States have signed the temperance pledge.

The pastor was in Norfolk Thursday evening, attending to district evangelistic business.

The ladies of the W. O. T. U. will entertain their husbands and friends interested in the work of the union at Mrs. Dayton's Friday evening, January 16. The Artists' recital concert will give the second number for the Methodist

CASH PRIZES FOR SCHOOL CHILDREN

THE FIRST NATIONAL BANK offers three prizes for the best essays written on the Panama Canal. Secure Rummel's wonderful painting, showing birdseye view of "Greatest Engineering Feat in History" as 1914 art calendar. Calendar to be placed in every schoolroom and every child in this vicinity under 16 years can compete for the cash prizes. Essays must be mailed to the First National bank, not later than April 1.

Every boy and girl in this vicinity is given a chance to win one of these cash prizes offered by the First National Bank for the best essay on the Panama Canal. The First National Bank has secured from the Colburn Company an art calendar showing in full color a birdseye view of the "Greatest Engineering Feat in History."

In addition to giving one of these calendars to each of its patrons, the bank has placed a large calendar in each schoolroom, where every child may study this modern wonder of the world.

We venture to predict that you will be amazed to discover how much you have to learn about the Panama Canal when you look at this reproduction of Richard W. Rummel's great painting, and study the interesting descriptive matter that is attached to the calendar.

Did you know, for instance, that the Pacific Ocean entrance to the canal is 22 1/2 miles east of the Atlantic? Did you know that one of the interesting bits of information that this calendar has brought to us...

In order that there may be a more general knowledge of this Great American Canal, the First National bank offers three prizes for the best essays written by our boys and girls under 16 years of age—a first prize of Ten (\$10) Dollars; a second prize of Five (\$5) Dollars, and a third prize of Three (\$3) Dollars.

Essays must be in the hands of a jury to be named next week, not later than April 1. Mail your essay to the First National Bank as soon as you have written it. Write on one side of the paper only, and use ink.

No essay should contain over two hundred words. This newspaper will publish the name of the winner of the first prize early in April with the essay that captures the Ten Dollar Gold Piece.

The second prize winner will be announced, and his or her essay published a week later, and the third will be published the succeeding week.

Ten essays of particular merit will be given honorable mention or awarded prizes of One (\$1) Dollar each.

If there is anything further you want to know—telephone the First National Bank at No. 7, or call and get the facts at the bank.
You will find a calendar in every schoolroom to help you, if you were not fortunate enough to secure one from the First National Bank before the edition was exhausted.
This contest will result in astute study of the Canal and all of us will know more about it when the first ship goes through next year. Incidentally, every boy and girl has a good indecement to produce an essay that will reflect credit to him or her, and will be an honor to our younger generation.

Norfolk democrats will soon hold a primary to select a postmaster. Committee meetings have been called and plans are being made.

In commenting on the fact that no printer could be found among the 1,000 entries in the Illinois penitentiary at Joliet, the St. Louis Globe Democrat points out that skilled labor of the highest quality is indispensable in handling the mechanical departments of the modern newspaper plant.

PROBLEMS OF CIVILIZATION. We Are Too Stupid and Narrow to Solve Them, Says Shaw.

When you are a stupid people, and we are, and looking toward the future, you have narrow minds and we have had manners. A great deal of that in a society of inequalities, brought up in a well what happened to myself.

Can remember one of my earliest experiences. I was playing with a certain little boy in the street and telling me I was a hero. He said, "I'll give you a medal to understand that he was a very inferior and objectionable kind of fellow."

"His father keeps a shop," I said to my father. "Well, but you keep a mill." There my father rolled out to me that he sold things wholesale and that this little boy's father sold things retail.

"When you are brought up, as you naturally are in a society like ours, with that sort of biasness being continually dinned into your ears; when you are brought up to feel that you are a very inferior and objectionable kind of fellow."

"The question of granting the privileges of the ballot to women will be discussed at the meeting of the Y. W. C. A. and submitted to popular vote next week."

When you are brought up, as you naturally are in a society like ours, with that sort of biasness being continually dinned into your ears; when you are brought up to feel that you are a very inferior and objectionable kind of fellow."

There is scarcely any crime in New Zealand, largely because they make a strenuous effort there to arrest, try, convict, hang and bury a criminal within five days of his crime.

It is certainly New. "Well," said a farmer to an Irishman who was smiling on his way. "I hear that you had a lively little son with my bull yesterday who was killed."

When you are brought up, as you naturally are in a society like ours, with that sort of biasness being continually dinned into your ears; when you are brought up to feel that you are a very inferior and objectionable kind of fellow."

Abe's Rebellion

How "He Made Good"

By CLARISSA MACKIE

Abel Durham had lived for years at Miss Pollock's boarding house and had patiently eaten the dishes that were set before him till one Sunday morning he revolted at the usual corned beef and bacon and eggs.

Abel Durham patterned down the brownstone steps of his boarding place and wandered aimlessly to the street where he waited for a car. His eyes glared at the black and white sign which read "Miss Pollock's Boarding House."

TRICK OF A HOTEL 'BEAT'

Plausible Scheme by Which He Swindled the Gardening Clerk.
A "beat" detailing how, ostensibly the detective department of the American Hotel Protective association trails hotel debts was told recently by a Cincinnati hotel man.
It appears that a man who registered as "John B. Smith, New York," failed to pay a bill of \$50. As the Smiths of New York are almost as common as the snails of the beach, the billing of the particular "John B." was looked upon as a herculean task. However, the signature was traced on paper and sent to various cities. Finally the owner of that particular signature registered at a hotel in the north. He was promptly made to pay the bill.
A hotel "beat" used the business letter scheme to swindle hotel keepers. His trick was to open a letter in front of the clerk, take out a check and then allow the clerk to read the letter. The letter was a request for a bill to be sent to the recipient's home, give the recipient a ruble for not turning in more orders: "Now what do you think of that?" the swindler would say, administering anger. Then he would have the check cashed without question. The manager of the hotel, however, received a warning about the letter swindle and caused the arrest of the guest after the money had been turned over to him. It is alleged that the man had forged and passed sixty-six checks with great profit to himself. He was convicted. *Cincinnati Times-Star.*

BELTED AND COATLESS.

Pen Picture of the Typical American - by an English Artist.
The American as he now walks better than the English - more freely, with a taking swing and almost with grace. How much of this is due to living in a democratic and less staid society no traces it is very difficult to determine.
But certainly it is the land of belts and - therefore of more loosely moving bodies.
Also Americans take their coats off, which is something that the English do not do so beautifully because they are belted and not belted. They take their coats off everywhere and anywhere, and somehow it strikes the visitor as the most symbolic thing about them. They have not yet thought of discarding collars, but they are unashamedly shirt-sleeved.
Any sculptor seeking to figure this republic in stone-must carve in future a young man, open faced, pleasant and rather vulgar, straw hat on the back of his head, his trousers full and sloping, his coat over his arm. The motto written beneath will be of course: "This is some country."
The philosophic gazer on such a monument might see some way toward the dismantling of the making of the Panama canal, that exploit that no European nation could have carried out. *Westminster-Gazette.*

A Haunted Library.

One of the most curious "hauntings" occurs in a northern castle of great antiquity. The ghost of a queen of Scots, Mary, queen of Scots, rested when she was being conveyed to prison, although originally a nun, rested in the library and takes the form that the books cannot be kept in order. They move about or are moved about from shelf to shelf, if you arrange the works of Shakespeare in correct order on one shelf by next morning the volumes are scattered anyhow on different shelves. This has gone on for years. At different times the library has been searched and locked, watches have been set all night, servants have come and gone, but the mysterious occurrence goes on and is vouched for, not by the family, but by the guests who have stayed in the house. There is no legend to account for it. *London Mail.*

Dogged His Own Rules.

Gladstone's suggestions on the art of speaking, commented to a correspondent in 1875, are remarkable as beginning with two which few orators ever more persistently violated—"First, study plainness of language, always preferring the simple word; second, shortness of sentences; third, distinctness of articulation; fourth, test and question your own arguments beforehand, not waiting for critic or opponent; fifth, seek a thorough digestion of and familiarity with your subject and rely mainly on these to prompt the proper words; sixth, remember that if you are to sway an audience you must, besides thinking out your matter, watch them all along." *London Graphic.*

Too Much For Him.

"How true that old saying is about a child asking questions that a man cannot answer," remarked Poppleth.
"Was the trouble now?" queried the friend-Singleton.
"This morning," replied Poppleth, "my little boy asked me why men were sent to congress, and I couldn't tell him." *Chicago News.*

Gold and Microbes.

Microbes are never found on gold coins, while paper money is an ideal home for them, and every old bill is a breeding place for them. The United States treasury in New York City believes the gold acts as a bactericide. *New York World.*

Did He?

"You never saw a man who understood women?"
"Well, I knew a man once who claimed that he did."
"And did he?"
"No," he never married one." *Houston Post.*

DEATH OF MRS. VAN NORMAN.

The following which appeared in the Mobile, Iowa, Mail of January 5, reads: "The death of Mrs. Van Norman to the mother of the Van Norman brothers of Wayne and vicinity."

Mrs. Peter Van Norman, for over fifty years a resident of Woodbury county, died at her home here Tuesday morning at two o'clock.

On December 9 Mrs. Van Norman was taken to Sioux City, where she underwent an operation for appendicitis. As a result she received much benefit and was able to move home. Her condition became worse the past week and on Saturday she was brought home. Since then she gradually sank.

Mary C. Long was born at Janesville, Wis., March 18, 1846, and died at Mobile, Iowa, January 8, 1914, aged 67 years, 10 months, 1 day. When about 8 years old she came with her parents to Winnebago county, Iowa.

On Friday last, Mrs. Paul Deek received word of her brother's death in a hospital at St. Paul, Saskatchewan, Canada. She at once started for her parents' home in Lebanon, Mo., thinking the night might have been spent there for burial. She was accompanied on her way as far as Omaha by Mr. Deek who returned on Saturday evening.

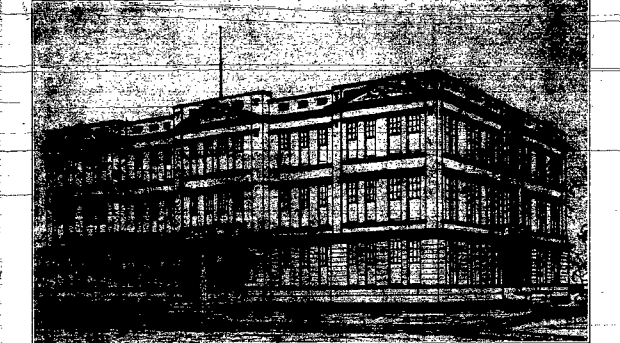

On Monday evening, Mrs. August Ulrich who visited with her sister, Mrs. Anna Schuchert, started to town in company with the rest of the family. On descending the steep hill just west of

the railroad track, the pole became disengaged from the necked-over dropped, the horses starting off in a mad career. The occupants were caught in the heavy top and jugged until the heavy harness and buggy parts had bruised, and scratched, sustained a double fracture of the left lower arm. The others escaped with more or less slight bruises and scratches.

The funeral was held yesterday when services were conducted in the F. B. church by Rev. J. E. Uhlir.

PROPOSED NEW STATE NORMAL BUILDING FOR WHICH CONTRACT WAS LET TUESDAY, JAN. 13.

Snyder, delivered an excellent sermon, and in the afternoon, Rev. Mr. Babo of Bloomfield, occupied the pulpit, and preached an impressive sermon. The church was beautifully decorated.

The German Evangelical Lutheran church of Wayne was organized January 7, 1889, with a membership of twelve. Rev. J. F. Mueller being pastor at that time. Services were held in the different Wayne churches for several weeks, and until a suitable building could be secured. The residence now occupied by William Lutz was for many years used as a place of worship. In 1890, Rev. Emil Asbrand succeeded Rev. Mr. Mueller. Rev. Mr. Asbrand remained with the congregation until 1896, when he left for Kansas to accept a charge, and Rev. Arthur Grahn was elected to fill the vacancy.

In 1899, plans were discussed for a new edifice, and shortly thereafter, lots were purchased and final plans made for the erection of a spacious building. Work was commenced, and in January, 1900, the building was dedicated with due ceremonies. Rev. Mr. Graber left Wayne in 1901, when J. H. Karpenstein accepted the charge here, and was a faithful head of the church until December, 1912, when he received a call from Hastings, and left for that place with his family December 12. He was succeeded by the present pastor, Rev. B. Mothring.

At this time the membership includes sixty families, and the future appears bright and reassuring. The parsonage was built in 1905, and other improvements have been added from time to time, the Ladies' Aid society performing an important part in the onward movement.

DEATH OF MRS. J. D. HOGAN.

Mrs. Mary Ellen Bosteder-Hogan, wife of J. B. Hogan, died in Wayne Sunday morning, January 11, 1914, and the funeral services were conducted Tuesday at St. Mary's church by Rev. William Kearns, with interment in Greenwood cemetery.

Mr. Elmer Bosteder was born May 20, 1847, at Manchester, Delaware county, Neb. At the age of 4 years, he came to Nebraska with his parents. At Omaha, Neb., November 22, 1868, he was married to J. D. Hogan. In March, 1910, the family moved to St. Paul, Minn. Four years ago, Mrs. Hogan fell and received injuries which caused a cancer. Although an operation was performed, she never fully recovered and two months ago her husband brought her to Wayne, where she passed away.

AT THE AGE OF 17, she united with the Baptist church, and at the time of her marriage she united with the Catholic church, always living a consistent Christian life. Through all her suffering, she was patient, and her family, consisting of a husband, father and mother, three sisters and seven brothers.

WARD OF THANKS.

We desire to express our thanks to the kind friends and neighbors for their help and sympathy during our bereavement—John Hogan, and Mrs. Bosteder and family.

At the age of 17, she united with the Baptist church, and at the time of her marriage she united with the Catholic church, always living a consistent Christian life. Coffee Judging Experts Do The Buying

Skilled blenders and roasters do the bulk of the work that guarantees the quality of Chase & Sanborn's coffees. If it is a C. & S. blend, you can depend on it that you have the richest, smoothest flavor at the price. If it is the Chase & Sanborn Seal Brand, you have the most delicious coffee obtainable at any price.

Chase & Sanborn are pioneers in the coffee and tea business. They have been in the coffee and tea importing and coffee roasting and blending business for over forty years. Would you trust the judgment of boys like you would to the judgment of men Chase & Sanborn's buyers, roasters and blenders? We all men of long years' experience in the coffee business. If you had an expensive watch needing repair, would you send it to a blacksmith? Chase & Sanborn company are specialists in their line. It has been their entire study.

We have given the reason why our coffee business has doubled each successive year over the previous year. It will take a wonderful sale of coffee during 1914 to double our output of 1913, but we will have it if we can only get as many users of our inferior coffees to try Chase & Sanborn's blends.

We have four distinct blends in packages, and the Seal Brand, their leader, in two-pound cans, all unground, but we grind it for you in any grade of fineness.

We want everybody to have their choice in coffee, and we think the only way you can get your choice is to try Chase & Sanborn's blends.

We ask every family in Wayne and vicinity to try at least one package and be convinced. Include a package in your next order or call in and get it.

Next Friday morning the Wayne Variety Store will open up business at its new quarters and with that day it will begin a new business. The next few months will witness big improvements and innovations all intended to give the public the greatest possible value for their money together with the best possible service and attention. Every purchase made in this store will carry with it a guarantee of "Satisfaction or Money Back," everything will be priced so that you will have absolutely no excuse for sending away for it.

I take this opportunity to thank all my customers for the patronage they have given me in old place and hope they will follow me to the new home. If honest values, good service, and low prices can influence trade, I know I will not only retain you as customers but trust I will gain many new ones.

The special offerings here mentioned are only part of what you will find.

WALL PAPER—I have bought of C. A. Berry the Wall Paper stock which he carried. This stock is too favorably known in Wayne and vicinity to say much about it. Some of the patterns—and mostly the best ones—are sold down to only a few rolls. I have made bundles out of all of them and will sell them next Friday and Saturday in bundle lots at 10c per double roll. The bundles to contain from 3 to 8 double rolls, enough to paper an average closet, kitchen or bedroom. The paper is all first class, the patterns good, border, wall and ceiling matched, and the price enables you to give that faded-looking room of yours a new and friendly appearance at the expense of a few cents. If you don't need it now buy it ahead for next spring.

Not What Was Meant.
A certain doctor, who has a somewhat frank admission, "the ugliest man in your county" has a keen sense of humor which enables him to enjoy any rail and crotchety remarks upon his facial deficiencies.
"One" after he had arrived took a seat upon a poor woman who had been killed in a factory, the local newspaper published an ambiguous account of the case, which the doctor, with great solicitation, presented.
Having first described how the woman had come by her injuries, the newspaper said:
"She" says were entertained of having her life until he, "I" arrived, had a few minutes to spare, and "I" fought, for the moment the doctor showed his face within the door, the poor woman fell back with a gasp and expired.—Philadelphia Ledger.

Trick of the Quaker.
Dixwell, whose countrymen Lord Can be seen know that of themselves tried hard to give his horses the impression that he was in the habit of carrying his viewless, ill-used, Plank's remedy with Dixwell, Lord Canville reminded that the Irish statement dedicated so long for a woman that she was in the habit of breaking down.—Lord bless you! Dixwell exclaimed, "Did that take you in? Why, that is part of the trick. I have often done it to make appear that my speech has not been prepared."—London Chronicle.

RIGHT UNDER OLD SOL.

They Were in Blazing 'Sunlight, Yet Cast No Shadow.
Every one knows that when a person stands in the full sunshine his shadow is cast under him. When he is either short or long, according as the sun is high in the heavens or near the horizon at sunrise or sunset. A little thought will bring it home to the reader that, obviously, if the sun is exactly vertical over a person's head, there can be no shadow.
But the problem is to determine when and where this shall be the state of things. As regards the "where," that must evidently be at some place on the earth in the tropics, and the "when" must be the hour of midday. To get these two things together by "practicing" is a matter of no small difficulty.
But—as a matter of fact—they did occur on a day in February, 1913, namely, the 13th, when a scientist, W. B. Gibbs, was in midnoon in latitude 10 degrees south, the sun's declination being about 15 degrees south.
A photo, reproduced in the London Strand, represents Gibbs and another man standing with their backs to the sun, holding a staff, and clearly shows the absence of any sign of a lateral shadow—in other words, that the sun was about 15 degrees overhead and that the time was noon, when the sun was at its highest altitude as between east and west.—Exchange.

SAVE YOUR APPENDIX.

This Mysterious Organ May Prove to Be a Valuable Gland.
The appendix is not a useless organ undergoing degeneration, as has been hitherto supposed, but is a valuable gland, and persons should think twice before having it removed. This is a fact set forth by a presentation to the French Academy of Sciences by Dr. Perrier.
Another well known French scientist, Dr. Louis Chassagnard, warned the medical world some years ago that the appendix probably was underserving of present day contempt. He said that the organ was in such a possible function of this small and mysterious organ.
Dr. Perrier's report is based upon studies made by Dr. Robinson. The latter collected the various sections from a large number of appendices removed at the hospital and prepared a serum which on being injected into animals, was found to stimulate the contractile movements of the intestines. It was found that the serum convinced that the appendix cannot be cut out without seriously interfering with intestinal action, although he admitted the possibility of its being diseased.—Paris Cor. New York Sun.

— Making a Present.
Lady Jersey was in her time one of the leaders of fashion, and her house was the scene of political and other doings. With her lived her daughter, Lady Clementine Villiers, a handsome and clever girl. This custom had been so long that all friends should give the latter a present on her birthday, and these presents were set out in an antechamber. About one day she found a Lord Hornblum, then an old man, he called on a birthday, but had forgotten what the occasion was, and had brought no present. He was so embarrassed that he asked one of the ladies and took it in a safe present, slightly counting that the young lady was not a friend of his, but that it was that already had been given to her. And very proud he was of his presence of mind. But, then, he was an old-fashioned creature.—London Times.

"Oscult" Information.
A Henry Savage Lander may deny on good authority the existence of any "lost Atlantis," but there are among the theosophical and other occult fraternities people who will cheerfully give you a description of its people, their manners and customs. The information is obtained by various magical means "revealed" by clairvoyance, etc. Some years ago it was discovered by a similar "occult" method that the temperature of the earth's interior existed there a kind of arctic aridity. It was all very interesting and very profitable, but the fact that the temperature was so low that it was unaccountable.—London Chronicle.

Consistent About It.
"Mr. Giffard," asked the caller, "are you carrying all the life insurance you can afford?"
"No," answered the man at the desk; "I can afford more, and I had expected to take out more, but from a note I got from my employer this morning I have to resign my position, and I can't carry a good thing that goes down to the ground."—Chicago Tribune.

Fashion Note.
"So you've decided not to get that new gown that you had ordered from your dressmaker?"
"Yes," she says; "but that the contrary have it done for at least three weeks, and by that time it would be out of style."—Chicago Record-Herald.

Family Affair.
"Are they happy together?" He asked.
"They are in every evening. But then they must be.—But she goes out—Judge."

Fortune displaces our virtues and our vice as light makes all objects appear.—La Rochefoucauld.

REPORT ON SCHOOLS.

Total Spent for Education in Nebraska Last Year Was \$9,220,977.
Lincoln, Jan. 12.—According to the report of State Superintendent DeLoach, the receipts of the superintendent's office for the school year ending Aug. 7, 1913, were \$11,025,171.39 and for expenditures \$9,220,977.51, giving a balance in favor of the state of \$1,804,193.88.
The total value of all school property is \$20,928,819.49, the bonded indebtedness of \$5,535,714.22 and an un bonded of \$717,359.88, making the total indebtedness of the districts \$6,253,074.10.
The amount derived from state appropriation was \$659,585.90; from state aid to weak school districts, \$21,126.61; from fines and licenses, \$45,236.60.
There were 14,757 teachers employed in the state during the year, of which only 1,622 were men. The men earned \$72,577.21, an average of \$45.31 per month, while the women earned \$1,562,826.24, a total of \$4,738,349.21.
The census showed that there were 195,005 boys between the ages of five and twenty-one years and 187,450 girls entitled to draw school money, a difference in favor of the boys of 7,555. There are 7,154 districts in the state and 537 graded schools. There are 7,155 school houses in Nebraska.

FAIL TO FIND CASHIER FELT

Wanted at Superior to Explain Share in Work of Failed Bank.
Superior, Neb., Jan. 13.—Efforts are being made to locate Cashier A. C. Felt of the failed First National bank of Superior, but so far they have not met with success. A number of telephone calls has been made to various towns in Nebraska with the purpose of inducing him to come to Superior to explain deposits and other matters that appeared, but he has not yet arrived in town.
It is said that bankers from surrounding cities in Kansas, Missouri and Nebraska, when they got to comparing notes, discovered they hold papers that was recently intended for only one transaction, but was made to do for two. This, it is stated, although it does not affect the condition of the failed bank, but is a personal transaction on the part of some one and the bank is not involved. So far less than \$,000 has been discovered in power of this character.
It is authoritatively stated, however, that a group of men possessing ample capital stand ready to take over all the papers with a few of the assets, and realize it as much as possible from the assets.

TABLE ROCK MAKES BID

Asks That New State Reformatory Be Located There.
Lincoln, Jan. 12.—Table Rock wants the new state reformatory which will be built by the board of control this summer and makes a bid for the institution, which has been under the board, by the Commercial club of the town.
It is set forth that Table Rock is a city of some 400 population and has two brick yards, which will do about the state in case the reformatory is erected there. One of the brick yards is worth \$7,000 and the other \$1,000. One has about forty-five acres of land connected with it, and the other about ten acres. They all go with the yards. The clay in that locality is especially fitted for making brick for building and paving.

POLITICS TO BE BARRED

Meetings of Organized Agriculture Begin Next Monday.
Lincoln, Jan. 12. Instant pressure has been brought to bear on the subject in charge of organized agriculture for the institution of political subjects into the programs. These efforts have been discouraged and the committee has urged all the societies to devote their attention to the agricultural questions which govern production, marketing and distribution.
The Nebraska tax commission will be in session at the state house for the purpose of listening to the views of the farmers on taxation questions. The commission is authorized by the legislature.
The meetings of organized agriculture will begin next Monday.

STIEHM GETS INCREASE

Given Three-Year Contract as Coach at \$2,500 a Year.
Lincoln, Jan. 12.—The University of Nebraska athletic board gave Coach Edward O. Stiehm a three-year contract at \$2,500 a year, an increase of \$1,300. The salary covers Stiehm's work in all branches of all athletics, the same as under the existing contract. These provisions are included in the recommendation which the athletic board makes to the board of regents, the latter body having final action in the matter. Stiehm's position of coach has become a faculty place under the all year coach rule.
Buffalo County Fair to Enlarge Scope
Kearney, Neb., Jan. 13.—At the first annual meeting of stockholders of the Buffalo County Fair Association in this city, it was decided to change the name to Buffalo County Agricultural and Mid-West association. Dr. Peter Johnson, secretary, announced to increase the scope of the fair, both in agricultural and horticultural lines. It was also decided to hold a large page meet at the fair grounds on July 3 and 4.

State Institutions Show Condition at Close of Year's Work.

DECLARE MUCH ACCOMPLISHED

Heads of Various Asylums and Hospitals and That Much Has Been Done With Funds Placed at Disposal.—State Veterinarian Reports
Lincoln, Jan. 13.—Several reports from state institutions and departments found their way to the executive offices of the state and tell the story of the work accomplished during the year.
The code commission, empowered to prepare the laws of the state and have them printed, reports that the legislature made an appropriation of \$20,000 for the work. There has been spent of this amount for salaries, supplies, office rent, etc., \$14,781, leaving a balance of \$5,219. The contract for printing was let at \$147 per page, with \$300 for extra work of the printer. There will be 6,000 volumes printed, of which 1,000 will be on bible paper with flexible covers while it will cost 45 cents for each of the other volumes. The contract provides that the printer shall allow the state 75 cents per pound for the metal plates used in the printing, amounting to \$250.
The complete statutes will contain 2,894 pages, which at the contract price per page will cost \$424,518. Extra cost of the bible edition will be \$605, with deduction of \$275 for plates, which will leave the total cost of printing at \$424,243. Added to the expense of preparing the work, which was \$14,781, will make the cost of getting the statutes ready for distribution, \$439,024.38.

Tubercular Hospital.

The tubercular hospital at Kearney reports that the institution is two years old. The original building which was used for the hospital was converted as far as use for a hospital is concerned and as soon as the new \$100,000 building is built the patients will be moved to that. Most of the men are doing well and those in the first stages of the disease are improving. One patient, aged sixteen, came in in October and under the treatment given has gained twenty-three pounds. A young man has averaged three pounds gain per week for the last two months, there weighing only seventy pounds now weighs 115.
Several radical changes made by the superintendent, Miss DeLoach, when she took charge of the hospital, were not liked by the older patients who were compelled to come under the new rules. These rules forbid patients to leave the grounds, prohibit smoking and required them to be in bed by nine o'clock in the evening. Guard Expenses Not Very Heavy.
The annual report of Assistant General Pittman made to the governor shows that of the \$77,880 appropriated for the national mental hospital for the balance of the biennium \$50,705, showing that an expenditure of \$27,175. This includes maintenance and operating expenses, with the guard. Office expense shows the largest percentage of expenditure, and the other items are charged to patients to the fourth floor of the state house and expense of getting a new armory at the fair grounds.
