

ANNUAL TENNIS MEET ATTRACTS BIG CROWD COURTS BEST IN THE STATE

Interesting Series of Matches Participated in by Crack Players—The Score.

With ideal weather and courts prepared in the best in Nebraska, the annual state tennis tournament in progress here this week, has been a most gratifying success. Under the effective leadership of Frank S. Morgan, the young men of the city have certainly reflected credit on their ability and on the hospitality of the city. Every one of the hundred or more visiting players is entertained free of cost, and is made to feel welcome. For months, the young men of the city have spared neither time, labor nor expense in preparing the grounds. As a result, the courts are like asphalt, and have met highest praise from players. Tuesday night's rain put the grounds in bad shape for only a few hours, but the management had them raked, rolled and gasolined so that by afternoon of Wednesday they were in excellent condition. Such display of energy deserves and receives the commendation of all spectators. Many spectators witness the contests, and much local interest has been manifested.

Opening Day.

At 6 o'clock Tuesday evening the Nebraska Tennis Association has completed the first round of its state tournament and begun the preliminaries. The first round prevailed some fast playing. Coach Stehm of the University of Nebraska, playing in fine form, defeated S. E. Peterson in four set straight in Plattsmouth, champion of Nebraska two years ago, was unexpectedly defeated by Briskine of Siles, who opposed him when he won the championship. Score, 6-4. Of interest and worth the two matches of R. Powell, the Omaha high school star, who won from Patterson of Arapahoe, 6-4, 6-3, and from Hamblin of Randolph, in the preliminaries, 6-1, 6-2. The first round of the University of Nebraska champion, defeated Haskell of South Dakota, 6-2, 6-2. Other matches were as follows: C. Powell of Omaha won from Head of Omaha, 6-1, 6-1; Elliott of West Point defeated Greig, 6-2, 6-2; Cusack of North Bend, and Carlson of Wakefield, from South of Norfolk, 6-3, 2-6, 6-2; Buck of Omaha, from Thompson of West Point, 6-2, 6-2. Kuehn of Omaha, defeated Kuehn of Springfield, 8-6, 2-6, 6-3; Calvert of Crete, from Kemp of Wayne, 6-3, 6-0; Krantz of Norfolk, from Pile of Wayne, 6-4, 6-4; Hamblin of Randolph, from Lewis of Wayne, 6-4, 6-2; Greig of Omaha, from Grosvener of Walthill, 6-4, 2-6, 6-2; Barta of Center from Watkins of Wayne, 6-1, 6-2.

Wednesday's Events.

Playing a smashing rallying game, at 7 o'clock last evening Madden of Omaha, defeated Davis of Beaver City, champion together with Ellis in the doubles of last year, in the best match of the day. Score, 6-3, 6-2.

On account of the rain Tuesday night playing was delayed until 10 o'clock yesterday afternoon.

In a game characterized by fast and furious playing, Morgan of Wayne, defeated Barta of Center, 6-3, 6-4, 7-5; second and third sets: Morgan, 10-8, 6-4. Contrary to expectations, McKillip of Seward, by steady playing and fast volleying, defeated Ellis, who, together with Madden, made up the championship team in doubles last year. Ellis did not play his usual game, and it is expected that he will "come back" in the consolation match. Score, 6-3, 6-4.

In one of the closest matches yet played, E. Gay, head of the commercial department of Dana college at Blair, was defeated by Kuehn of Crofton, 6-3, 6-4, 7-5. Gilderleeve, a young player of Stuart having won the second round from Stockham of Randolph, by his skill in lobbing. Score 6-2, 6-0. Rankin of Lexington, defeated Buck of Omaha, 6-4, 6-4, 6-4. Cusack, of North Bend, defeated Carlson of Wakefield, 4-6, 6-4, 6-4.

An elaborate prepared banquet was given at Vibber's cafe last evening for the visitors, and following

the feast, L. A. Kiplinger, presided as toastmaster in the absence of N. H. Huse, editor of the Norfolk Daily News. Who had been selected for the place, but who was unable to be present. Mr. Kiplinger made a capital toastmaster, and his witticisms were thoroughly enjoyed. The address by the visitors were generous in praise of Wayne's hospitality. They also called attention to the growth of tennis. Champion Harry Koch of Omaha, discussed the science of the game, mentioning leading players and the recently organized eastern tourneys. He claimed for tennis an especial advantage as a game in which all may share.

The annual business meeting followed the tennis. President C. M. Mathewson of Walthill, presiding. The following officers were elected: Samuel Caldwell, Omaha, president; O. E. Stehm, Omaha, president of Nebraska, secretary; H. Koch, Omaha, treasurer; Frank S. Morgan, Wayne, vice president. These directors were chosen. C. A. Patterson, Arapahoe; D. P. Rankin, Lexington; C. M. Mathewson, Walthill; F. S. Morgan, Plattsmouth; John Madden, Omaha; E. O. Stehm, Lincoln; R. E. Weaverling, North Bend; P. H. McKillip, Seward; L. H. Pasewalk, Norfolk. It was voted to join the National Tennis association. Lincoln was chosen the place of meeting for next year.

The entries for the competition in singles were as follows: Heald, Osceola, and Powell, Omaha; Wilson, Wakefield, and Halderman, Newman Grove; Durland, Norfolk, and Madden, Omaha; Birch, Center, and Davis, Beaver City; Grimes, Osceola, and Elliott, West Point; Pile, Wayne, and Krantz, Norfolk; Pile, Wayne, and Hamblin, Randolph; Post, Omaha, and Patterson, Arapahoe; Fisher, Wayne, and Cusack, North Bend; South, Norfolk, and Carlson, Wakefield; Harrington, Wayne, and Harrison, Scribner; Walz, Harrington, and C. M. Mathewson, Walthill; Riley, Omaha, and Stehm, Lincoln; J. S. Mathewson, Walthill, and Shirley, Omaha; Lindstrom, Gresham, and Drummer, Plattsmouth; D. Farrell, Omaha, and Ingham, Wayne; Gault, Omaha, and Elin, Grand Island; McKillip, Seward, and Pasewalk, Norfolk; Ellis, Beaver City, and Huse, Norfolk; Oldham, Winler, and Cook, Plattsmouth; Gilderleeve, Wayne, and Grosvener, Walthill; Stone, Wayne, and Stockham, Randolph; Morgan, Wayne, and Eby, Harrington; Barta, Center, and Watkins, Wayne; Weaverling, North Bend, and Haskell, Gregory. S. D.; Larson, Plattsmouth, and Edmundson, Omaha; Elin, Grand Island; Thompson, West Point, and Buck, Omaha; Kuehn, Crofton, and Christianston, Springfield; Gaydon, Bean, and Mapes, Norfolk; Calvert, Crete, and Kemp, Wayne; McCague, Omaha; Proud, Arapahoe, and Gayey, Fairmont; Van Dusen Blair, and Hannigan, Omaha.

PIONEERS AND OLD SETTLERS' PICNIC ON COURTHOUSE LAWN

H. E. Siman and Robert I. Elliott, Main Speeches, Pleasant Dinner—Good Music.

Pioneers and old settlers are enjoying a picnic on the courthouse lawn today. The program for the forenoon was carried out about as planned. The address by H. E. Siman on the subject, "Then and Now" was replete with humor, and was much enjoyed. He dwelt at length on the differences in home life, methods of work, and modes of travel noticed today as compared with those of fifty years ago. R. I. Elliott, formerly of Wayne county, now deputy state superintendent, made an address on "Progress in Education." He called attention to the changes for the better that have been made in the educational system of Nebraska such as higher requirements of preparation for teachers, free high school privileges for rural students, and normal training high schools. In outlining his policy, he declared himself in favor of special training in the state normal schools for rural teachers. Mr. Elliott has many friends in Wayne county who are watching the campaign with keen interest.

After Mr. Elliott's address, the normal male quartet in which Prof. M. S. Davies took the place of Prof. J. J. Coleman, sang, and the meeting was adjourned for dinner. At the business session this afternoon, it was decided to hold the picnic at Winside next year; and A. H. Carter of that place, was chosen president. Frank Weible vice president. H. E. Siman secretary. Gilbert French treasurer, and Chajotte M. White historian.

WAYNE TRAVELERS IN EUROPE AT THIS TIME

Like most communities in the United States, Wayne feels a personal interest in conditions in Europe. Rev. Rudolph Moehring of this city, has two brothers and two brothers-in-law in the German army. One of these men, when he returns to the front, must leave a family of little ones to the care of the country under whose flag their father faces death. No doubt many others from foreign lands have friends and relatives in Europe. It is estimated that 150,000 tourists now sightseeing in Europe. Miss Edith Stocking of the State Normal faculty, and Miss Franc Long of Madison, a relative of the Craven family. If their party had traveled according to schedule and August 1 they were in Paris the first of this week and no doubt suffered inconvenience and embarrassment such as all American travelers are experiencing through inability to cash travelers' checks.

Otto Voegt and mother are also in Europe, but since they have relatives who are citizens of Germany, they no doubt find themselves more fortunately situated than most Americans now in Europe.

Local people interested in developing the playground feature of the forthcoming chautauqua for children, would like to use the courthouse grounds for the purpose and request to ask for the privilege. It is believed the commissioners would be heartily upheld by the people of the county in granting use of the grounds for the laudable work proposed.

Miss Faye Laub who attended summer school at the Wayne State Normal, and who has been the guest of the W. M. Fleetwood family since the close of school, departed this morning for her home at Ripper, Mo.

TWO CANDIDATES FOR GOVERNOR TALK HERE

Address Wayne Audiences on Main Street, and Outline Ideas of Public Policy.

J. B. Howell of Omaha, republican candidate for governor, was in Wayne Tuesday evening, and addressed a company of voters at the First National bank center. After relating the history of the fight in Omaha for the rights of the people against the infringement of corporations, stated his policies on questions of state government. Among other things, he said he stood for inspection of stock yards, conservation of natural resources, especially water for irrigation or waterpower, and for control of corporations. Mr. Howell made a good impression on his audience.

J. H. Kemp Speaks.

J. H. Kemp of Fullerton, republican candidate for governor, was in Wayne yesterday, and addressed a crowd of voters on the street. Mr. Kemp says that he stands for agricultural interests in Nebraska, having been instrumental while in the state legislature, in securing the passage of the stockyards bill which protects the interests of the shipper, and places the stockyards under the control of the state railway commission. He declared himself in favor of protection of Nebraska industries. Mr. Kemp has many political friends in this part of the state.

CHIROPRACTORS WIN SOUTH DAKOTA SUIT

Yankton, S. D., Aug. 1.—After being out only fifteen minutes, the jury in the case of Brownell and Brownell, chiropractors, of this city, charged with practicing medicine without a license, brought in a verdict of not guilty. The trial of the defendants has caused much interest as a test case on the part of members of the chiropractic profession. Among the prominent chiropractors here to attend the trial was B. J. Palmer, of the Davenport School of Chiropractic.

ART DEPARTMENT.

In addition to the usual drawing, designing, and painting, the students of the art department of the State Normal, under the direction of Miss Sara Killen, did some very creditable work in the pottery line this summer. Vases, plaques, and dish forms were molded of potter's ware, stained, glazed and fired, so that the finished product was entirely the work of the students. Much was done also in clay and plaster casts, molds being formed, and casts made of heads, hands, animals, etc. Many students, feeling that their finished pieces to grip or trunk, were carrying them home to insure their safety. The art department is gradually but surely broadening its scope, and Miss Killen and the school may justly feel proud of the work constantly being done.

Prof. L. C. Alexander has received notice of his election as director of the Conservatory of Music by unanimous vote of the board of trustees of the college.

Prof. L. C. Alexander has received notice of his election as director of the Conservatory of Music by unanimous vote of the board of trustees of the college. He will begin his work at the opening of school in September. He will be greatly missed among musical circles in Wayne.

CITY COUNCIL MEETS IN REGULAR SESSION PLANS FOR IMPROVEMENTS

Late Sewer Extensions Accepted—Petition to Install Water Meters Presented.

The city council met in regular session Tuesday evening. Following the approval of claims, a resolution was adopted providing for an extension of the water mains, the building of a fifteen-foot extension on the standpipe, and the purchase of a new pump for the water tower. The pump is to be four or five hundred gallons per minute.

The city engineer and committee appointed to inspect the newly installed sewer in districts 2 and 3, report favorably, and a resolution was adopted accepting the work.

A petition signed by sixty people, asking for installation of water meters, was presented and was followed by a motion to refer the matter to the board of engineers, with instructions to endeavor to find a meter that will meter the water used in Wayne.

In the matter of the judgment of Maggie E. Warner against the city of Wayne, warrants were ordered issued for \$85.80 to the clerk of the district court, and \$604.85 to Maggie E. Warner.

JOHN E. AGLER WRITES HERALD FROM CANADA

Prince Albert, Sask., Canada. July 28, 1914.

Wayne Herald: Have received a copy of your souvenir edition, and think it is quite well gotten up, as the farm scenes and city dwellings are so far reproduced.

The family and myself are located at Prince Albert, Sask., a very pleasant little city of 15,000 people, mostly Americans. The city is situated on the banks of the North Saskatchewan river, a stream about the size of the Missouri at Omaha. We have three railroads: Hudson Bay R. R., Canadian Northern, and Grand Trunk Pacific, also a steamship line from here to Edmonton, a distance of 450 miles. The largest boat plying the river is 225 feet long and 50 feet wide, with upper deck rooms for sixty passengers. They also ply the river in smaller boats, from one foot to 150 feet long. This enterprise is owned by the Saskatchewan Coal and Transportation company, a syndicate from Minneapolis.

The country around Prince Albert is what is known as the Parkland. It is a half timber and half prairie, which makes it very good for mixed farming, as the farmer here can raise anything that can be grown on the Nebraska farms except corn; the nights are too cool for it. But you grow white clover, alfalfa and grain and make fine crops. The alfalfa cannot be harvested as many times per year as in the states, but can be cut two or three times. Potatoes make from two hundred to four hundred bushels per acre. We planted our potatoes this year on prairie soil. Plowed it six inches deep the 10th of May, and have had potatoes to use a couple of week, these as large as baseballs; and in the thirty-five states, I have not seen in Nebraska, mature so quickly.

The seasons here are somewhat shorter than in Nebraska, but one does not notice the difference. This year, spring work began April 20, last year, April 16. Winters begin about December 1. The river froze over this year January 6, and ice moved out on May 4. The winters are not so severe as the people of Nebraska would think. The thermometer drops to 20 degrees below zero, but it is not felt so much as 10 below in Nebraska, as we have no wind when the mercury drops below zero. The heat in summer is felt much greater here than in Nebraska. Monday, 95 in the shade, felt like 120 in the shade in the states.

Snow begins to fall just before Christmas, and then everything is moved on runners except the automobiles, and they keep plugging along all winter in this city; but in the states, they need help for old Dobbin and the sleigh. This is the time when the trappers hit for the north country. They go by dog sleigh. Six dogs make a common dog team, but you can see as high as eighteen hitched to a toboggan for the government mounted police.

Mr. Alex Jeffrey, living north of Wayne, won the piano in the contest which closed at Ralph Runkell's grocery Saturday night, and Mrs. Jeffrey wishes the Herald to express her thanks to people for their generous interest and support in her behalf.

Mr. and Mrs. Simon Lessman entertained Sunday at a reunion of the Lessman family in honor of Mr. Lessman's sister, Mrs. J. P. Butler, of Leavenworth, Kan.

All of the Lessman family were present except Mr. and Mrs. William Lessman who reside in Kansas. You are frequently asked to listen to reason when you can't hear it.

WORK OF INSTALLING NEW FACTORY BEGINS WILL MAKE WAY INCUBATORS

Machinery and Material Soon to Be Here—Wayne Fortunate in Securing Industry.

P. H. Kohl and J. E. Hufford have returned from Council Bluffs, where they went last week to arrange for the removal here of machinery and material for the manufacture of the Radio Round incubator. Carpenters are now busy remodeling the building recently purchased for the new four or five hundred gallons per minute. The work will be covered with zinc sheeting, and made practically fireproof. Machinery is arriving, and will be installed at once. It is expected that everything will be ready to begin operations in a month or six weeks.

The Radio Round is a new machine, having been on the market a little over a year, but the new firm believes that it has features that will make it popular. The room and center lamp automatically regulated insure equal distribution of heat with the least oil, making the expense of running low. In fact, it has all the features essential to a good incubator, and all of its objectionable features have been carefully eliminated.

Wayne is to be congratulated upon the enterprise of the men who have confidence enough in the future of the city to locate such a factory here, and they are to be congratulated upon their good judgment in choosing a location so well adapted to such an industry.

Louie Porter, formerly a partner in the company from whom the factory was purchased, has been employed by the new firm, and is assisting in installing the new plant.

They use dogs instead of horses when they start from here to the Hudson Bay ports close to the Arctic circle.

A person from the states sees many new and different sights here in manufacturing. The lumber industry is a big thing here. We have two saw mills employing five hundred men each, and it is quite a sight to see a lumber train on the Nebraska prairie to see them throw a thirty-foot log on the skids two or three feet across and run it into the gang saws where in three minutes it is turned into half a thousand feet of two-by-four dimension lumber.

Money has been a little tight in Canada for the past year, but wages for mechanics are thirty-five to fifty cents per hour, which is about the same as in Omaha.

Very truly yours, John E. Agler.

BLAUGAS

The Nebraska Blaugas company of Omaha, Neb., has placed Charles Blaugas in charge of its distributing agency in Wayne. Mr. Merritt is equipping a display room in W. B. Vall's building opposite the Union hotel.

What blaugas is: Blaugas is liquefying an ordinary gas which is invented by Herman Blau, a resourceful German chemist in 1901. Chemically, Blaugas consists of about the same elements as coal gas. The process used in distilling and liquefying Blaugas eliminates the undesirable elements found in all other gases. The hydrogen gases which have a very high explosive range, and the carbon monoxide gases which are poisonous are removed from Blaugas during the liquefying process. The removal of these elements makes Blaugas the safest gas sold. Do not install any cooking and lighting system until you have investigated Blaugas. A624d

Miss Emma Schverin who was teacher in the Wayne city schools a few years ago, and who has been taking a course of study in the State Normal here this summer, is to be a republican nominee for county superintendent of Cedar county. She has no opposition for the republican nomination. Two men are contesting for the democratic nomination, and one of them will be pitted against her. There is a growing belief that women are better fitted than men to handle the duties of the county superintendent's office, and it remains to be seen whether Cedar county will take such advanced ground in education hereafter, taken by many other counties. Most teachers are ladies, and they would naturally prefer a lady superintendent who is more keenly in sympathy with their work. In Wayne county where a lady has held the office for several years, it is doubtful if a man could be elected. Miss Schverin is well qualified for the office, and her Wayne friends would be pleased to hear of her triumphant election in November.

(Under Auspices Local Committee.) How Men Came to Vote. The history of the enfranchisement of men in this country is shown by the following facts: 1. The first voters got their rights by the original colonial charters, most of them including religious qualifications, and all of them, including property qualifications.

MOST SUCCESSFUL IN HISTORY OF NORMAL INCREASED ATTENDANCE

Work on New Building Moving Satisfactorily—New Term Opens September 14. The school year that closed at the Normal on July 31 was the most successful in the history of the institution. The most pleasing feature of last year's attendance in comparison with that of previous years is found in the larger number who entered for advanced work. The number who completed the advanced course, receiving a diploma which leads to a professional life, is just double the class of 1912. The junior class was the largest this year, showing an increasing large number of high school students who come to the Normal after completing a four-year high school course in their home district. The year just ended is the first year in which the financial affairs of the school were met from revenue derived from the fractional mill levy under the provision of the legislative act of 1913. This has also proved highly satisfactory to the four normal schools of the state. Under this provision, the Wayne Institution was allowed for the biennium \$110,000 for maintenance, and \$85,000 for permanent improvement. At the close of the first year of the biennial period, the Wayne Normal expended for maintenance \$24,942.23, or \$52.77 less than one-half of the amount granted by the legislature was allowed for the biennium. The institution at Wayne has never called upon the legislature for the payment of a deficiency claim, and the condition of the funds at the present time shows that unless something unforeseen shall occur, the school will be able to meet all claims for maintenance to March 31, 1915, without going beyond the allowance already made. Work on the new administration building is progressing nicely, and the contract calls for the completion of the building January 15, 1915. Repair work on the grounds and buildings will receive attention during vacation, and everything will be in readiness when the new school year opens September 14, 1914.

county are members of the alumni of the Wayne institution. Supt. W. E. Miller is now completing his fourth term of continuous service in that office, and is recognized as one of the most efficient school superintendents of the state. Miss Emma Schweinin has just completed a course of work in the summer session of the Normal. If elected, her scholarship and years of successful experience in rural and graded school work eminently qualify her for the duties of the office. Three members of the summer normal faculty were employed as special instructors and were here for the first time. Supt. E. S. Cowan is a man of scholarly attainment, a successful city superintendent, and proved the right man for the place in the department of mathematics. The good work of Miss Mayme Anthony who came to fill the vacancy created by the leave of absence of Miss Pipher was much appreciated. She will have the good wishes of a host of friends in Wayne as she returns to her work in the Urbana high school next year. In the absence of Miss Leavelle, Miss Pipher was fortunate in having an experienced kindergarten teacher to take up the work with the children. Miss Ryan's training and experience made her a valuable addition to the training school during the summer.

thus restricting the ballot to relatively few men. 2. After the Revolution, for the sake of the "common defense" and the "general welfare," the religious qualification was removed. A large number of men were then enfranchised, but they did not ask for the vote, nor did they promise to use it, well, or use it at all. 3. In 1790, by the Naturalization Act of Congress, another large number of men were enfranchised, which not only enfranchised their descendants, and again they did not ask for the vote nor promise to use it well. 4. When the negroes were given the vote, it was not at their request nor were they required to show that they would make good use of it. 5. The same has been true of the enfranchised Indians. #### THIS GOOD WORLD.

This good old world is wonderful, it gives us every chance; and if our lives are miserable, and if we don't blame the fault is ours, that's evident; we do not "play" the game; we ought to make a heavy dent in history or Fame. The world is kind and generous to every useful man. I will help. I'll bet a temperate, every worthy plan. It is more prompt and dutiful, and labor day by day, the world will act just beautiful, and help us on our way. It makes me feel jam-jam-jam-jam-jam-jam down to shoes, when kickers, loud and clamorous, this good old world abuse. If it's so beastly burdensome, with grief and woe so rife, their staying here's absurd and some of them should quit this life. But when they get to Paradise they'll stand round and kick and want to shake the narrow dice to see who throws a brick. All worlds are stern and rigorous to that besotted mind which only can be vigorous when it has fault to find. This fine old world we're broiling in, where sunshine's always free, this world were blidely toiling in, is good enough for me!

#### MARY ROBERTS RINEHART.

There used to be a foolish rumor that women have no sense of humor, and can't inspire a smile; but Mrs. Rinehart's joyous stories, among their other charms and glories, have wit that's worth the while. Her "Sense of humor" fairly bubbles, and makes a guy forget his troubles, his worries, and his debts: of all the choroidal books I treasure, all of which give me endless pleasure, her novels are my pets. The fiction fans, in countless legions, throughout all sane, enlightened regions, entranced, enraptured look when busy-publisgers are hitting another Rinehart book. That means another round of laughter, without distress or colic after, a tonic for the mind, a solace for the soul that's weary, a book to cheer the day that's dreary, and ease the honest grind. They say that Mary's

coining money. I hope it's true—dame so funny should have a big reward; she came, this great and graceful writer, she came to make the gray world brighter, anointed by the Lord.

#### THE CAN OPENER.

This handy tool, the household pet, we ply with skill and speed; in the modern kitchenette, it's really all we need.—The shining tool that opens cans makes household work a job, it supersedes the knife and the screw; it's used to open tin snooks. In old times the toiling wives were always on their feet; they were away their weary lives preparing things to eat. They fired the meat, they laked the beans, they cracked the spuds; they had the no-time-for-magazines, for each or bridge whist. How fortunate the modern wife, with many a leisure hour! For she can fill with her beer, life, and languish in her glow; and when an evening comes her, man, impatient for the cats, she says, "I'll open up a can of beans or deviled beats." It takes three minutes by the clock to get his meal in shape; he's so well trained he doesn't balk or try to make escape. It may be, as hand over hand, he throws the victuals in, he sighs for grub that isn't canned, that doesn't taste of tin. It may be that his voracious mind recalls the old-time steak and gold, exploiting the all-old kind his mother used to make. But she dies are the man's regrets, and the vain his hopes and plans; this is the age of kitcheneets, and things put up in cans.

#### SUPERANNATED.

So living that when the gray is showing on your brow, the boss won't come and say, "We do not need you now; we have a younger man to take the work you do, and so we tie the can, reluctantly, you." This tragedy occurs a hundred times a day, and it may hit you first, when you are growing gray. Conserve your strength and health, don't paint the village red, and you'll be earning wealth when sunny is your head. The gray-haired man is fired because he's all worn out; he got his spirit trilled at was-sal and at rout. He burned the midnight gin, and seldom hit the pump; and so a youth steps in, and he steps to the dump. Don't sweat by ancient things, but innovations praise; a fossil he who clings to prehistoric ways. The good old world moves on, and you, if you would last, must always face the dawn, turn back to the past, and you must shed the things that are ever forward turned is seasoned, sane and wise, and he will not be spurned.—It is the played-out wreck who can't get down to tacks, who gets it in the neck, as chickens get the axe.

#### COOL CLIMATE.

An Eskimo was sighing before his igloo door; the snow around was flying, which made him rather sore. The ice was in his galways, the snows was in his cap, and ever more and always the climate froze his tears. "Doggone this beastly blizzard," the Eskimo remarked, "it chills a fellow's gizzard—and keeps his larynx barked. Ah, would that Luxere living in those United States where Nature's always giving her sunshine to the skates! I've heard it said the weather is often there so hot that people get together and cuss—delightful thought!" He had a summer season when the ax does not blow and no one thinks of freezin' or dying in the snow! Oh, it must be delightful to live in such a climate, away from every frightful old elemental crime. But Doctor Cook informed me that folks don't like the heat—their infatuated wives, "With anger, I repeat," they don't appreciate it, the climate they have there; in fact, some people hate it, and rant around and swear." His meditations soured, he took a polar bear, devoured him, and then it froze to death.

#### Not So Strange After All.

You may think it strange that so many people are cured of stomach trouble by Chamberlain's Tablets. You would not believe it were you should give them a trial. They strengthen and invigorate the stomach and enable it to perform its functions naturally. Mrs. Rosie Rish, Wabash, Ind., writes: "Nothing did me the good as they have been using Chamberlain's Tablets. It is decidedly the best medicine for stomach trouble I have ever used." ### HERALD EXCHANGE CLEANINGS OF WEEK

Boxy in Lincoln Journal: At all times and in all places, war is a calamity.—the abolition of abominations, the curse of curses, the hell of hells. No terms of denunciation can be made strong enough to express the truth concerning it.

Laurel Advocate: The Presbyterians will not exactly rebuild, but while repairing the damage done by the Fourth of July fire, the building and painting of the full size monument put under. At the congressional meeting held Tuesday evening, the trustees reported that plenty of funds were in sight to warrant the undertaking.

Barnard Crimewar, a farmer living in St. Charles township, Cumung county, met with a fatal accident, while unloading hay in his barn. Some woman, a pull, with which the hay was lifted, began to loose and when it came down, it struck him on the head, rendering him unconscious.

Jarrington Herald: While lying in the hospital recently, the writer enjoyed considerable entertainment looking over the souvenir edition issued jointly by the Wayne Herald and Wayne Democrat. It is a sixty-page magazine, exploiting the all-around features of Wayne and Wayne county, and is a work of high literary and mechanical excellence. A unique feature of the magazine is the cover design which is composed on the Herald's line type.

Randolph Times: Miss Emma Schwerin of Belden, at one time a popular teacher in the Randolph schools and a lady of experience and ability in school matters, is unpopular in the primaries for the republican nomination for county superintendent. There is a general desire all over the county, more general than we had thought, for a change in the county superintendent's office.—A lady of the ability and high ideals of Miss Schwerin would make for an uplift in our rural schools.

Fairbury News: It was a good old-fashioned republican convention that met in Lincoln last Tuesday, and wonderful amount of patriotism was manifested. The two factions of the party that were divided in 1912 worked harmoniously together without indication of restraint or evidence of friction. Chieving near unity, every county in the state, and the party enters the campaign with every indication that its efforts will be crowned with success in November.

John Wanaemaker: If there is anything on earth that a advertiser should let severely alone, it is advertising. To make a success of advertising one must be prepared to stick to it like a barnacle to a ship's bottom. He should know before he begins that he must spend money. Somebody must tell him also that he cannot hope to reap results commensurate with his expenditures early in the game. Advertising does not jerk; it pulls. It begins very gently at first; but the pull is steady. It increases day after day until it exerts an irresistible power.

Fremont Tri-Weekly Tribune: You are acquainted with the fellow who is continually knocking, and n' you? But did you ever see him or hear of him doing anything to better the condition he criticizes? We haven't. The chronic knocker, and every community has its share of them—is a detriment to a neighborhood and the city, particularly when his criticism is directed toward the wrong things, with anger. It is more discouraging than to bear a person speak disparagingly of the city in which he lives. Loyalty to the city in which one chooses to live (and none of us is forced to remain in one's citizenship). It is always true that the best citizen, the one who is the most valuable to the community, is not the one who is constantly complaining and criticizing, but is the one who, with cheery countenance and a good word of encouragement for all, always has a good word to say for the town, and if some things are displeasing, puts forth his best efforts in correcting the faults. The knocker is a mighty power against the community, even though he may be a large taxpayer. The man who boasts, day in and day out, who forgets the disagreeable things and talks only of the advantages of his city, is the one who is helping to make the city better and brighter and to add to its attractiveness, even though his bank account be small, and his opportunities for helping in a financial way be limited.

Would you go into a grocery store and say, "Give me a cake of soap?"

Ask for Safe Home Matches and you will get the very best matches that money will buy.

Non-poisonous—don't spark—don't sputter—don't break—a real safety strike—anywhere match. Inspected and labeled by the Underwriters' Laboratories.

So with breakfast foods, you would ask for the best adapted to your needs. So with breakfast foods, you would ask for the kind that has the pleasantest taste or is most nourishing.

Follow this rule with matches. Tell the grocer you want Safe Home Matches. If you ask for "matches," goodness, knows what you may get.

### MORE PEOPLE

Every day, more and more people are realizing the many advantages of carrying their money in a home bank and paying their bills by check. The safety, the freedom from worry; the ease with which they can keep accurate tab on their income and expenses; always have just the right change, and a receipt for each and every cent paid out, whether on account or purchase. There are many other advantages, very material advantages, which we would like to explain to you.

As the central attraction for the reading public, American politics will have to yield its position to the terrible European conflict.

Wayne's welcome to guests attending the state tennis tournament here this week is genuinely cordial, and is manifestly appreciated.

The United States government has given prompt assistance to this country in avoiding a financial panic, due to the European war situation.

Ground for Roosevelt's clamor for a bigger navy and greater standing army as a safeguard for peace has been demolished by the clash of arms.

## THE TWILIGHT OF THE KINGS.

Chicago Tribune: Before establishing hell on earth the pietistic kings commend their subjects to God. See the Lord's sanction for the devil's work.

"And now I commend you to God," said the kaiser from his balcony, to the people in the street.

"Go to church and kneel before God and pray for His help for our gallant army."

"Go to church and pray for help!"—that the hell shall be hotter in the equally innocent Kovno.

The pietistic czar commends his subjects to God that they may have strength of arm in a quarrel they do not understand.

## WHAT WAYNE COUNTY MAN SAW AT LINCOLN

I went to Lincoln last week as a delegate to the state convention, and I wanted to learn something.

Thirty-three years ago I was a delegate to the Cedar county convention, and after riding something like twenty-five miles across the prairie to St. Helena.

I learned shortly after the convention was called to order that at some previous time and place, there had been a state prepared, and it went on and on.

I thought that the Lincoln retainers have injured their cause by clamoring for things they do not need, and that they have left the impression out that the university is not visited the penitentiary.

I viewed the state farm, went through the farm buildings, and took a good look at most of the stock. I saw things that any good farmer might justly criticize.

I met several men in uniform, and I saw one that was dressed in striped clothes, cuffed hair or anything of that kind.

I viewed the state farm, went through the farm buildings, and took a good look at most of the stock.

**JOHN G. WOOLLEY**, known everywhere  
 as "the greatest orator in America." His  
 lecture tour of the world ten years ago  
 is known today as perhaps the most notable  
 lecture tour ever made. He has lectured  
 since 1888 and comes on today  
 with a new and far more  
 great wisdom and remarkable understanding.  
 You will always be proud to say you  
 heard John G. Woolley, the dean of the  
 American platform. He will be on our  
 Chautauqua program this summer. He  
 will give his world famous lecture, "A  
 Power" - his work speaks for the fitness.

**ROBERT SCHODNOVER**, former  
 judge of the Kansas Court of Ap-  
 peals, known and revered  
 throughout the world as a man devoted to  
 high principles and high ideals. Every school-  
 boy knows him as a distinct "uplift." At a  
 hundred Chautauquas everywhere he  
 has lectured on "The Freedom of the  
 Press" and "The Freedom of the  
 Mind." He will be announced the day of his  
 arrival. The Lecture has paid Fletcher  
 more than \$10,000 for the first of these.  
 It is recognized everywhere as "stand-  
 ard." He is one of the most masterly  
 of the Lecture and Chautauqua.  
 He speaks the sixth day.

**ROY H. GUILD** will discuss problems of  
 the church for the help of the church lay-  
 men and the churchmen. He was secretary  
 of the Men and Religion Forward  
 Movement which swept over the country  
 with such astounding effect a few months  
 ago. He is necessary to Chas. M. Sheldon  
 and ranks as one of the most aggressive  
 church men of the age. A brilliant orator,  
 what is more important a forceful  
 thinker who deals with live issues and  
 practical problems in church affairs.  
 He will speak the fourth day.

**CLARA W. LAMKIN** on "The School and  
 the Home." She deals with problems of  
 public education, not to tear down any  
 system, but to aid in making more effi-  
 cient the system we have. A school  
 authority who speaks from experience.  
 Her talk will be entirely along constructive

**JONES BROTHERS' AND WILSON'S SHOWS, AN INNOVATION IN AMUSEMENT CIRCLES.**  
 Wayne, August 11.

That that there is nothing under  
 the sun has been proved by Jones  
 and Wilson's shows in  
 presenting their attraction to the  
 public this season. It is conceived  
 along original lines, and is presented  
 on a scale of grandeur and mag-  
 nificence, making all other competi-  
 tors pale to insignificance.

The moment one enters the large  
 caucuses, from the handsomely dec-  
 orated cages and dens, to the comfort-  
 ably arranged seats, everything de-  
 notes class.

A large elevated stage, enclosed  
 by a large steel-barred arena, fills  
 one entire end of the tent. This im-  
 mense steel-enclosed stage measures  
 eighty feet wide and sixty feet deep.  
 It is an exact duplicate of the stage  
 used by the Hackenback Wonder  
 zoo and circus that created such a  
 sensation in the Olympic in London  
 last winter; in this arena the wild  
 animal performances are given. The  
 rest of the tent is filled by two regu-  
 lar circus rings and a large ele-  
 vated stage.

The wild animal performances are  
 wonderful, the animals themselves  
 are a revelation to circus goers;  
 even an inexperienced eye can tell  
 at a glance that these are not the  
 stereotyped, muzzled, indolent  
 usually seen with tented organiza-  
 tions. In asking Mr. H. G. Wilson,  
 one of the proprietors for an ex-  
 planation, he answered, "The reason  
 is very simple; we use only forest-  
 bred animals for our groups, and  
 employ a trainer to handle forest-bred  
 animals must be an expert in his  
 line, there is not as much chance of  
 accidents as from domestic raised  
 animals, for with our animals a  
 trainer is always on his guard; he  
 cannot be a part of any of our  
 them, consequently he never re-

**JOHN G. WOOLLEY**, known everywhere  
 as "the greatest orator in America." His  
 lecture tour of the world ten years ago  
 is known today as perhaps the most notable  
 lecture tour ever made. He has lectured  
 since 1888 and comes on today  
 with a new and far more  
 great wisdom and remarkable understanding.  
 You will always be proud to say you  
 heard John G. Woolley, the dean of the  
 American platform. He will be on our  
 Chautauqua program this summer. He  
 will give his world famous lecture, "A  
 Power" - his work speaks for the fitness.

**ROBERT SCHODNOVER**, former  
 judge of the Kansas Court of Ap-  
 peals, known and revered  
 throughout the world as a man devoted to  
 high principles and high ideals. Every school-  
 boy knows him as a distinct "uplift." At a  
 hundred Chautauquas everywhere he  
 has lectured on "The Freedom of the  
 Press" and "The Freedom of the  
 Mind." He will be announced the day of his  
 arrival. The Lecture has paid Fletcher  
 more than \$10,000 for the first of these.  
 It is recognized everywhere as "stand-  
 ard." He is one of the most masterly  
 of the Lecture and Chautauqua.  
 He speaks the sixth day.

**ROY H. GUILD** will discuss problems of  
 the church for the help of the church lay-  
 men and the churchmen. He was secretary  
 of the Men and Religion Forward  
 Movement which swept over the country  
 with such astounding effect a few months  
 ago. He is necessary to Chas. M. Sheldon  
 and ranks as one of the most aggressive  
 church men of the age. A brilliant orator,  
 what is more important a forceful  
 thinker who deals with live issues and  
 practical problems in church affairs.  
 He will speak the fourth day.

**CLARA W. LAMKIN** on "The School and  
 the Home." She deals with problems of  
 public education, not to tear down any  
 system, but to aid in making more effi-  
 cient the system we have. A school  
 authority who speaks from experience.  
 Her talk will be entirely along constructive  
 lines, and he will hold conferences  
 with school boards, schoolteachers  
 and school patrons interested in school  
 problems.

**Notable and the Canal Locks.**  
 Alfred Noble rendered a unique en-  
 gineering service to the United States  
 at a critical moment. He prevented it  
 from making the blunder of building a  
 sea level canal at the isthmus.

All the foreign engineers and three  
 of the American engineers who had  
 a majority report advising the construc-  
 tion of a sea level canal. Five Ameri-  
 can engineers, with Mr. Noble at the  
 head, stood out in favor of a lock canal.  
 We say "Mr. Noble at the head" be-  
 cause from his long experience in con-  
 sultation with the lock at Sault Ste.  
 Marie he was better able than any en-  
 gineer upon the commission to speak  
 authoritatively with respect to the con-  
 struction and operation of great ship  
 canal locks. To Alfred Noble's discern-  
 ing wisdom and independent judgment  
 and to his willingness to stand in a mi-  
 nority in defense of what he believed to  
 be right the country owes it today that  
 it did not undertake what we now  
 know would have been the folly of a  
 sea level canal at Panama.—Engineering  
 News.

**Checking Up.**  
 A Providence merchant believed thor-  
 oughly in advertising.

"I get queer answers sometimes,"  
 he said. "I ask my customers if they  
 frequently do, what publication they  
 saw my ad in."

"As a rule they reply courteously  
 and give you a satisfactory answer to  
 the question as you affront. One promi-  
 nent old fellow told me it was none of  
 my business. Another advised me to  
 get a checking clerk. One language  
 and somewhat young man referred me to  
 his valet. But I was worst taken  
 back by a roughly dressed customer to  
 whom I sent the usual question.

"What magazine, my I ask, did you  
 see my ad in?"

"In all of them, sir," he replied, indig-  
 nantly, "and you think I am not worthy  
 my appearance, that I read only one?"  
 —Buffalo Express.

**An Expensive Dish.**  
 Caruso, the great Italian singer,  
 dined at a private house in London,  
 and he was so pleased with a dish of  
 macaroni that the cook had sent up to  
 the table that he insisted on going  
 down to the kitchen to offer his thanks  
 to the cook. Not only did he thank the  
 person, but offered her the choice of a  
 ticket to bear him sing at Covent  
 Garden or a song on the spot.

The cook, not trusting very much to  
 the remunerative capacity of famous  
 tenors, said she would have the song  
 on the spot. So Caruso, leaning against  
 the kitchen dresser, immediately fa-  
 vored her with "La Donna e Morta"  
 in his most brilliant manner.

As somebody pointed out after-  
 wards:

"Caruso experts at least \$2,500 for  
 a private concert, which makes the  
 cook's macaroni the 'most expensive  
 dish ever eaten."

**Astronomical.**

Some curious and interesting astro-  
 nomical phenomena are recorded in  
 the vivid Chinese annals which go back  
 to a great antiquity. In 657 B. C. a  
 night is mentioned without clouds and  
 without stars. This may refer to the  
 total eclipse of the sun, but if so the  
 eclipse is not mentioned in the  
 Chinese list of eclipses. In the year  
 414 B. C. it is stated that the sun and  
 moon appeared of a deep red color dur-  
 ing five days, a phenomenon which  
 caused great terror among the peo-  
 ple. In 312 B. C. it is recorded that a  
 star as large as the moon appeared  
 and was followed in its motion by sev-  
 eral stars of ordinary size. This  
 probably refers to an unusually large  
 bolide, or fire ball, in 38 B. C. a fall  
 of meteoric stones is recorded.

**The First Gold Certificate.**  
 Prices on the Mediterranean caused  
 the creation of the first gold certificate,  
 according to most authentic records.  
 Rome bought wheat in Egypt, while  
 Egypt had to pay tribute money for  
 the maintenance of the Roman army.  
 To ship gold for these payments was  
 to tempt the insidious pirates who in-  
 fested the eastern Mediterranean. It  
 was probably some able money lender  
 who thought of the scheme of having  
 the wheat importer take his gold to  
 the Roman bank, which had a branch  
 in Alexandria, and getting certificates,  
 which the pirates would not dare go  
 into Alexandria to attempt to steal.  
 The Egyptian tax collector got his cer-  
 tificate from the Alexandria bank and  
 sent it to Rome, where it was honored.  
 —Wall Street Journal.

**Unravel This.**  
 A young woman asked the magis-  
 trate for a separation from her hus-  
 band, to whom she was married only  
 three months ago. She added:  
 "He is my second husband. My first  
 is doing time."  
 "Then this man is not your hus-  
 band?" asked the magistrate.  
 "No, your honor," was the reply. "I  
 was my first husband's second wife.  
 His first one is still alive. That is  
 what he is doing time for."—Essex-  
 and.

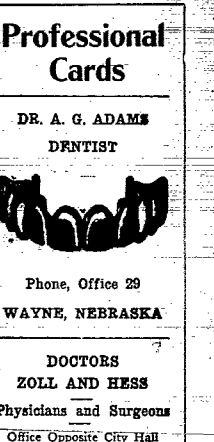

**Porcelain Flowers.**  
 Artificial flowers were made in an  
 ancient town by the Egyptians. In Eu-  
 rope, during the eighteenth century,  
 when there existed such a craze for  
 porcelain, flowers were made of this  
 substance. At the edge of the sea, the  
 flowers was imitated by the use of  
 perfumes.

### ORDER TO SHOW CAUSE.

In the district court of Wayne county, Nebraska.  
In the matter of the application of J. M. Gustafson, administrator of the estate of John G. Gustafson, deceased, for license to sell real estate.  
On this 21st day of July, 1914, this cause came on for hearing upon the petition under oath of J. M. Gustafson, administrator of the estate of John G. Gustafson, deceased, praying for license to sell the following described real estate of said John G. Gustafson, deceased, to-wit: Beginning at the northwest corner of sub-lot eight (8) of lot three (3), Capital addition to the south eighty-one (81) feet to gas-pipe; thence east sixty (60) feet; thence line four (4) feet south of

the southwest corner of three-story brick and frame structure; thence north eighty-one (81) feet; thence west sixty (60) feet, to place of beginning; being the north eighty-one (81) feet of sub-lot eight (8), of lot three (3), Capital addition to the city of Omaha, Douglas county, Nebraska, as surveyed, platted and recorded, for the payment of debts, allowed and existing against said estate, and costs of administration, for the reason that there is not sufficient amount of personal property in the possession of the said J. M. Gustafson, administrator, belonging to said estate to pay said debts and costs.

It is therefore ordered that all persons interested in said estate appear before me at chambers, in the city of Wayne, and said county of Wayne, on the 31st day of August, 1914, at nine (9) o'clock a. m., to show cause, if any there be, why the license should not be granted to said J. M. Gustafson to sell said real estate or so much thereof as may be necessary to pay said debts and expenses.

It is further ordered that a copy of this order be served upon all persons interested in said estate by causing same to be published once each week for (4) successive weeks prior to the date of said hearing in the Wayne Herald, a newspaper printed and published in said county of Wayne, Nebraska.

ANSON A. WELCH,  
J2314 Judge of the District Court.

### NOTICE TO BIDDERS.

Notice is hereby given that sealed proposals for extending the system of waterworks in the city of Wayne, Nebraska, according to the plans and specifications—now on file with the city clerk, will be received until 8 o'clock p. m., Tuesday, August 11, 1914, at the office of the city clerk, at which time the bids will be opened.

The city council will proceed without unnecessary delay to award the contract for said extensions by the lowest responsible bidder, hereby reserving the right to reject any and all bids.

Each bid must be accompanied by a certified check or draft payable to the treasurer of the city of Wayne, Nebraska, for five per cent of the amount of the bid, to be returned to

the bidder after the contract and bond is executed and approved.

Separate bids are required as follows:

1. 427 feet of 4-inch cast iron water main at so much per lineal foot, 10 fire hydrants, 4 gate valves, 13 T's as specified.
2. 15 feet extension on top of standpipe.
3. One Triplex pump, about 50 gallons per minute capacity, with one 35 h. p. D. C. motor, direct connected or with belt.

The estimate of the city engineer for the construction of the above mentioned extensions in the sum of \$7,000.00.

All work to be done in a good and workmanlike manner, and only the best of material to be used.  
Dated at Wayne, Nebraska, this 21st day of July, 1914.  
C. A. Chace, Mayor.  
Attest: J. M. Cherry, City Clerk. J2313

The Zensal Co., Oklahoma City, Okla.

Gentlemen: At the age of 3 months my little grandson's face and head were covered with a dry, scaly eczema—in some places the flesh was raw, and we had to tie the little fellow's hands to keep him from scratching. Two doctors had tried, but we saw no change. I was carrying your ad. in my paper, so decided to try your preparation. Two jars of Dry Zensal produced a cure. When the baby began to fret and cry, an application of Zensal would stop the itching and the little fellow would go to sleep. Six months have gone by with no return of the trouble. Thankfully yours, TOM C. Fields.

### PROBATE NOTICE TO CREDITORS.

In the county court of Wayne county, Nebraska.

In the matter of the estate of Mrs. E. A. Slater, deceased.

Notice is hereby given that the creditors of the said deceased will meet the executrix of said estate, before me, county judge of Wayne county, Nebraska, at the county courtroom in said county, on the 24th day of August, 1914, and on the 24th day of February, 1915, at 10 o'clock a. m. each day, for the purpose of presenting their claims for examination, adjustment and allowance. Six months are allowed for creditors to present their claims and one year for the executrix to settle the same from the 24th day of August, 1914. This notice will be published in the Wayne Herald for four weeks successively prior to the 24th day of August, 1914.

Witness my hand and seal of said court, this 25th day of July, 1914.  
JAMES BRITTON,  
County Judge.

### ORDER OF HEARING ON PROBATE OF FOREIGN WILL.

The State of Nebraska, Wayne county, ss.

At a county court, held at the county court room, in and for said county, August 1, 1914.

Present, James Britton, county judge.

In the matter of the estate of Winifred D. Halbrook, deceased.  
On reading and filing the petition of LeRoy W. Halbrook, praying that the instrument purporting to be a duly authenticated copy of the last Will and Testament of said deceased, and of the probate thereof by the circuit court of the county of Multnomah, state of Oregon, and a copy filed in this court, may be allowed, filed; probated, and recorded as the last Will and Testament of said deceased in and for the State of Nebraska, and that LeRoy W. Halbrook be appointed administrator in and for the will annexed of said estate.

Ordered, that August 22, A. D. 1914, at 2 o'clock p. m. is assigned for hearing said petition, when all persons interested in said matter may appear at the county court to be held in and for said county, and show cause why the prayer of petitioner should not be granted; and that notice of the pendency of said petition and the hearing thereof be given to all persons interested in said matter by publishing a copy of this order in the Wayne Herald, a weekly newspaper printed in said county, for three successive weeks prior to the said day of hearing.

Given under my hand and seal of said court, this 1st day of August, 1914.  
JAMES BRITTON,  
(A true copy) County Judge. A63

About 2 o'clock yesterday morning Pipestone's bakery was discovered on fire. The alarm was given, and prompt action of those present on the ground got the flames under control before the arrival of the fire engine. Forty or fifty dollars was covered the damage.

In the reading contest given by the members of the teachers' institute, the first prize in reading was won by Miss Jennie Dobbin; second, Miss Etra Welch. The first prize for recitation was won by Miss Annie Wallace, the second by Miss Blanche Collins.

From the Wayne Herald, August 15, 1895:  
Died, Wednesday, August 7, infant son of Mr. and Mrs. Harry Barrett.

The Wayne County Commercial club held a meeting at the courthouse Monday evening at which the following were admitted, Messrs. Chas. Dearborn, and Pile were appointed as a committee on advertising.

At the democratic county convention held at the courthouse Saturday afternoon, two sets of delegates were proposed, the free silver delegates to the state convention being Andy Shinn, Walter Gaebler, N. B. Cullen, Robert Fenski, Vaughn Davis, Thomas Fitzsimmons and Henry Klopas.

The sound money men chose delegates, A. B. Charde, W. C. Wightman, J. H. Mitchell, J. Reichert, C. O. Fisher, J. J. Alger, Henry Ley, W. H. McCluskey, A. P. Childs, and A. F. Brenner.

From the Ponca Journal, August 26, 1880:  
S. A. Bennett states that he was informed by Mr. Brown, the railroad superintendent, that trains will commence running between this place and Livingston on the first day of September. This is good news, and it is to be hoped that it will prove true.

Mrs. N. S. Porter, the wife of Major Porter of the Fort Peck Indian agency, came down on the train from Benton on a visit to her relatives and friends, and arrived at this place on Friday. She was accompanied by her children, and will remain until October.

O. P. Sullenberger, the former popular landlord of the Central hotel, moved on Monday, and the new landlords, Messrs. J. Thum and F. Pletsch took possession. Messrs. Thum and Pletsch are well recommended as hotel men, and no doubt will keep a first-class hotel. The travelers will find their best interests to call at the Central hotel.

From the Ponca Journal, August 22, 1884:  
Near the Summit, Dan Eush and Fred Sims have been threshing their grain. The wheat yields twenty-one bushels to the acre, and the oats sixty.

have since been informed that the party seen between this place and Newcastle was not a company of bugologists and botanists who were exploring the country for curiosities in the animal and vegetable life. They intended to follow up the river for two hundred miles and would then strike south to New Mexico, and on the route expected to gather a great variety of bugs, ice snakes and other reptiles and insects. Since writing the above, it is reported they were railroad engineers after all, and that the bugologist story was simply a blind.

## Telephone Wages in U. S. and Europe

American telephone employees get higher wages than are paid anywhere else in the world. Telephone operators in America get more than double the wage paid in France, Germany, Sweden, Norway, Austria or Denmark, and 45% more than English wages.

Here is a comparison based on close investigations of average labor and material costs, in four leading European countries and the United States:

- In England \$1.00 will buy what requires \$2.28 in the United States for the payment of wages and the purchase of material.
- In Austria \$1.00 will buy what requires \$2.00 in the United States for the payment of wages and the purchase of material.
- In Germany \$1.00 will buy what requires \$1.50 in the United States for the payment of wages and the purchase of material.
- In France \$1.00 will buy what requires \$1.48 in the United States for the payment of wages and the purchase of material.

American telephone rates are the lowest and the service the most efficient in the world.
