

WAYNE STATE NORMAL ENDS ANOTHER YEAR

FIFTH YEAR OF SERVICE

Opened as a State School Five Years Ago—Past Growth—Future Improvements.

The Wayne State Normal closed its summer term last Friday with an array of students dispersed for their homes. Crowds of young people...

In the five years of the existence of the school as a state institution, it has grown rapidly in buildings, equipment, attendance and enrollment.

Improvements planned for the coming year will cost many thousands of dollars. A new building for a gymnasium will be built at a cost of between \$40,000 and \$50,000.

The following article touching the growth and importance of the institution was written for the Goldenrod by Margaret Mills, which is of general interest.

It seems significant that Wayne Normal, guardian of high ideals, should stand upon a hill, and that its buildings should greet against the tender blue of a Nebraska sky and the north Nebraska wind stretching out beyond.

The growth in enrollment in the past few years is proof of this loyalty. It is safe to assume that the majority of young people in this section of the state who attend an institution of higher learning come to Wayne.

With the growth in enrollment of the last few years, the faculty has also increased in number. The regular faculty of the old Nebraska Normal numbered ten or twelve.

Two buildings erected in the last five years are very much alike in architecture, modern in every way and beautiful in woodwork and marble.

While at these additions of the past five years, have been much needed and patiently waited for, they are not, by any means, what makes the school. Regarding the faculty of Wayne Normal I am reminded of what one man has said of the founder of a great university.

DEATH OF WAKEFIELD GIRL IN MINNESOTA

FATHER STARTS INQUIRY

Investigation by Wayne Attorney Results in Holding Man to U. S. Grand Jury.

Attorney Fred S. Berry arrived home yesterday morning from Minneapolis where he spent a week at the instance of A. J. Erickson of Wakefield in an investigation of the death of a 17-year-old daughter, Ruth, last spring. The recent death of H. E. Johnson, formerly of Wakefield, to the federal grand jury on a charge of violating the Mann white slave act. The hearing was held at the instance of Johnson's bond was fixed at \$5,000.

This morning's Sioux City Journal contains the following account of the investigation and prosecution:

The Fred Berry, of Wayne, Neb., who was indicted for the recent death of his daughter, Ruth, yesterday at his home in Minneapolis, where he is aiding in the prosecution of a white slave case in connection with the recent death of Miss Ruth Erickson, 19 years old of Wakefield, Neb.

"One week ago yesterday Mr. Berry departed for Minneapolis to investigate the case and was informed that the death of the Wakefield girl, who was the daughter of A. J. Erickson, a merchant at Wakefield, the result of his inquiry was that Theodore Harry E. Johnson, of Minneapolis, had been indicted by the United States commissioner at Minneapolis and bound over to the grand jury.

"Criminal Operation Charged." It is alleged that a criminal operation was performed upon Miss Erickson, which later caused her death. Berry entered the case at the request of the girl's father.

The Erickson came to Wakefield last spring to organize a town, which Miss Erickson became acquainted with Johnson.

Johnson courted the Erickson girl for several weeks. In May the girl accompanied him to Minneapolis. The marriage of the couple had been arranged—the parents of the girl consenting with the exception that they desired to have a ceremony performed at Wakefield.

"According to Mr. Berry, the parents' wishes could not be granted, as Johnson had advised the girl that the marriage should be held in Minneapolis. He says that the girl departed for Minneapolis on June 5, the ceremony to take place in that city.

The girl was met at the Minneapolis station by Johnson, a Baltimore resident, who accompanied her to a boarding-house at 1219 Hennepin avenue. Mr. Berry said he had learned through his investigations, that on July 18, Miss Erickson was taken to a rooming house in Minneapolis. She died at that institution on July 22, the result of a criminal operation according to the coroner of Minneapolis, who conducted a post mortem examination.

The parents of the girl were notified of their daughter's illness. When she died they were notified. Mr. Erickson grew suspicious of his daughter's death. He telegraphed to the Minneapolis chief of police, informing him that his daughter was coming and asking that a detective be sent to the train to meet him.

"According to Mr. Berry, no police were at the station to meet the girl. He says that he was to investigate the circumstances which led to the young girl's death, Mr. Berry continued.

"The father then returned home in company with his daughter's father, who had been notified of her death. He sent Berry to Minneapolis. Not receiving satisfaction from the police, Berry took the matter up with the federal authorities. He was given the aid of a 'secrecy service agent'."

F. E. STRAHAN'S HOUSE SUFFERS FIRE LOSS

The large, elegant residence of F. E. Strahan suffered damage by fire Friday afternoon when gasoline in the yard caught fire and quickly spread flames and ignited the house, which is being repaired by pumping on the ground water which had settled in the bottom of the gasoline tank, and with the water was enough gasoline to cause, under the heat of the burning, a large quantity of a number of passing birds, some distance away, is believed to have lighted a match and set fire to the gas flames which instantly communicated flames to the house.

The fire broke out in the kitchen, but he prevented serious burns by rolling in the grass. The fire department extinguished the blaze before it reached the inside of the house. The north porch was badly burned. The blaze was caused by smoke and water. Mr. and Mrs. F. E. Strahan were at Lake Okoboji at the time, though Mr. Strahan came home the first of the week to ascertain the damage and look after making repairs.

# YOUR EYES

If the needs and the care of the eyes were better understood there would be less suffering and blindness, less sorrow and less regret.

Use your eyes, but do not abuse them. When you discern a hint of dimness, a tired feeling, an ache or headaches, it is nature's cry for help.

So when looking for eye help, go to a place where nothing is done, but eye work.

### NEXT TOURNAMENT TO BE HELD IN WAYNE

The Wayne tennis enthusiasts who awaited the state tournament in Lincoln last week succeeded in persuading the association to meet in Wayne next year. The state tournament was held here a year ago, and the good treatment accorded it at that time was undoubtedly influential in winning a decision in favor of his point for next year's meeting.

The Wayne boys were not overly satisfied with their visit in Lincoln. The residences at the Normal were for the meeting, and the capital city did not display its lethargy long enough to take much notice of it.

### SUNDAY MORNING'S TORRENTIAL RAINS

# SAVINGS SERMONETTE

## NUMBER FOURTEEN

The Girl and Her Savings. The average girl in our country who each day walks by our bank on her way to work or to school or on any other mission little realizes how much the bank would mean to her if she would only take advantage of its opportunities. It may mean an education, or it may mean a trousseau, or it may mean any of the many comforts and luxuries that little money laid aside can procure.

The habit of thrift and saving when developed in youth will manifest itself when the girl reaches womanhood and wifehood. It makes her mistress, not slave to the man who chooses her for his life mate. Many a marriage has been made a complete success by the simple fact that the wife knew how to save as a girl and later taught her husband the same useful and helpful lesson.

The start may be small, only 25 or 30 cents a week perhaps, but it is a start and it is worth the making. Perhaps not worth a dollar a week can be put aside, but in the course of time, though it is slow, uphill work, a snug sum can be accumulated.

SUNDAY DINNERS A SPECIALTY AT GEM

The Gem Cafe is devoting special attention to Sunday dinners, and it would seem that households of the city would take advantage of the opportunity thus afforded to rest from labor at least on one day of the week. The house wife is entitled to a day's respite each week from the heat and toil of cooking, and she will enjoy some one-essle meals and service occasionally. Such variance in the monotony of housework is made possible by the excellent fare and excellent service and reasonable prices at the Gem Cafe. Take a Sunday off from kitchen drudgery and give the Gem a trial.

ATCHISON GLOBE SIGHTS

Association makes more men drunk than booze. What other people do is after all the greatest law. A gambler calls it luck. A preacher calls it providence. Inspiration makes a lot of good people do a lot of fool things. It is said that a sheep killing dog never kills any sheep at home. Advertising for a wife is no way to prove adversity, but it is apt to get results.

SOCIAL NEWS

Miss Neva Orr entertained at a luncheon at the Casino Park at Lexington Saturday afternoon. Miss Virginia Chapin of Winslow was an out of town guest.

Miss Mary Richards entertained Tuesday evening in honor of her friend, Mrs. Catherine Parks of Sioux City. The evening was passed with games and music. A two-course luncheon was served.

Miss Anna Ervett entertained at a bridge-what party Monday afternoon. The rooms were decorated with garden flowers. A two-course luncheon was served. Miss Maud Beugh of Sioux Falls, was Miss Out of town guest.

The Girl's Bible circle met Saturday evening at the home of Miss Florence Gardner. Miss Frances Kile was a visitor. She told some interesting facts concerning the high school gospel teams of Des Moines. The circle will meet next Saturday evening at the home of Mrs. Fitch.

Last Friday evening the young people of the Baptist church met at the home of Miss Ellet Huth in a sort of farewell gathering for Mr. Elmer Rogers. Over thirty were present and a delightful evening was spent together. The spirit of the occasion will express the high appreciation in which the young people hold Mr. Rogers. His varied activities brought him into closer relationship with many very different people, and they were glad to have an opportunity to express their feelings. As a token of regard for his friendship, they presented Mr. Rogers with a beautiful music box. In a fitting way Mr. Rogers expressed his appreciation of the fellowship of the young people, during his stay in Wayne, and especially for their handsome gift. Choice refreshments were served and the evening spent in pleasant sociability.

Mr. and Mrs. Clarence Linton were most pleasantly and completely surprised on Monday evening, when over forty of the Baptist people and neighbors walked into their home unannounced about 8 o'clock. After recovering from the shock Mr. and Mrs. Linton did everything they could to make their guests feel at home. The occasion of this event was the fact that in the near future this family will leave Wayne, for Dakota City, where Mr. Linton has been chosen superintendent of the school for next session. They have won a great host of friends, during their stay in Wayne, by their true, quiet, faithful manner of life and work. The friends at this time expressed their appreciation by presenting them with a set of sectional book cases. To this token both Mr. and Mrs. Linton responded, in an appropriate manner. They spoke of what Wayne had meant to them and how many memories most pleasant will ever live with them, keeping fresh the months spent here. The best wishes of many go with them. Ice cream and cake were served during the evening.

AN UNUSUALLY COOLD WAVE HITS NEBRASKA

Monday and Monday night a cold wave invited people to increase the weight of their clothing and build fires for comfort. It was the coldest August weather in many years. But while the elements suggested frost in the central west, the east was in the grip of a hot wave that resulted in numerous prostrations. Tuesday brought a clear sky and rising temperature.

Philadelphia, Aug. 3.—Fifteen deaths and numerous prostrations were reported as due to the heat yesterday. Eight of the victims were infants. During the last four days forty-five deaths including seventeen children, have been reported as a result of the hot weather.

Washington, Aug. 3.—The heat which caused a number of deaths and illness suffering in the eastern half of the country has been broken by a cool wave approaching from the northwest has brought lower temperatures which weather bureau officials predict will continue until the end of the week. Higher temperatures, however, will prevail over the Pacific coast and the northwest states.

Washington was the hottest of eastern cities yesterday. Its official temperature being 94 degrees. Jacksonville, Fla., was only 78; Savannah, 82; Baltimore and Philadelphia, 80; Pittsburgh, 84; Chicago, 78; St. Louis, 90; Kansas City, 82; and Omaha, 72. Sioux City at 62 was the coolest of the larger cities.

THE VACATION HABIT

Osaka Examiner: In a recent generation vacations were the rare exception. Most men worked all the year. Business men didn't usually care to quit. If they withdrew their noses from their ledgers they might lose \$150. That would be terrible.

As for the working people getting anything that was different. Factories probably worked in a more unremitting way then. Orders were given for large lots a long time ahead. Most shops were busy in summer making goods for the next year. There more profits are given for quick deliveries. Factories are run at higher pressure when times are dull. Many working men may not get any formal and regular vacation, but there are times when the shop is shut down and when they get all the fasting they care for.

A farmer's wife some years ago who took a ten-dollar bill and went over into the next state to visit a relative, was asked by her neighbors to have committed an act of folly. Farmers worked from dawn to dusk in summer and during the winter they hibernated.

To do the farm people, a great deal of traveling. Not in summer as they have too large interests at stake. But read the rural correspondence of any country paper during other parts of the year. Notice that a lot of going and coming is given. Farmers and their families may not go much to costly hotels. They may be able to afford it as well as many of the people that do. They don't care for bridge and tangling and afternoon tea and piazza gossip. If they want time off, they visit relatives and friends, look over other sections of the country, and see how other farmers are doing it. Their time off perhaps pays them better than any money than any week in the year.

So the American people have their going shoes on. In the case of people of wealth, it goes to the point of excess. They travel. When most of them is no more travel than is needed for diversion and for an intelligent conception of other parts of the country.

COLDEST JULY SINCE 1891. Sioux City, Mo., Aug. 3.—Last month was the coldest July in Sioux City since 1891, records of the government weather station show. The average temperature last month was 64.4 degrees, while in 1891 it was 69.2. The month's normal is 74.2. The monthly meteorological summary issued today shows that the rainfall since January 1 has been 2.34 inches, while the average for a year is only 25.96 inches. Last month's precipitation was 7.45 inches, while the normal rainfall for the month is 3.61. There now is an excess of 8.26 inches of rain since January 1.

Only twelve days last month were clear. Ten were partly cloudy and

More Sickness

Is caused in SCHOOL ROOMS by improper heat and ventilation than from any other cause. Lack of FRESH AIR is almost as detrimental as sewer gas from defective plumbing. Some state laws require thirty cubic feet of FRESH AIR EVERY MINUTE TO EACH PUPIL. The school house that is equipped with a stove can supply this only by keeping the windows open—rather a severe experience on a real cold day. Consequently the windows are kept closed and the children suffer by breathing over and over again the AIR LOADED WITH GERMS.

By using a ROUND OAK Heating and Ventilating System, fresh air from the outside is continually supplied—yet, none of the children are in a cold draft. Those having charge of the country school houses will do well to investigate this Round Oak System.

CHURCH CALENDAR

The German Evangelical Lutheran Church. (Rev. M. Oehring, Pastor). Sunday school next Sunday at 10 o'clock and preaching at 11 o'clock. The pastor will preach at Winside in the afternoon at 3 o'clock. There will be no services in the Wayne church Sunday, August 15, when the pastor will preach at a mission festival at Columbus.

Presbyterian Church. (Rev. S. Xenophon, Pastor). Morning service 10:30. Sunday school 11:30. Christian Endeavor 6:00. Vesper service 7:00. Special attention is extended to all vacation visitors in Wayne to attend any or all of the services announced above.

First Baptist Church. (Rev. B. P. Richardson, Pastor). All the services last Sunday were well attended and the attendance was good. The young people's meeting was especially interesting. It is a good thing for us to maintain regular meetings during all the summer months.

St. Paul's English Lutheran Church. (Rev. F. E. Blessing, Pastor). Sunday school next Sunday morning at 10 o'clock. The subject of the sermon for next Sunday will be "Something Nature Does Not Teach." John 3:16. Nature is indeed a "perfect genius" in attaining her ends. She has a wonderful power of adaptation to circumstances, and countless devices at her command for securing the perpetuity of species. She can stress in every conceivable form of grace and beauty, and thus win people of every race to love her.

Sticks to Moose Party. Oyster Bay, N. Y., Aug. 2. Colonel Theodore Roosevelt, who reached home this morning from his western trip, issued a statement tonight relative to recently published announcements of some of the progressive party leaders in New York state that they intended to enroll with the republican party this year. Col. Roosevelt's statement follows: "As regards the progressives who have announced their intention of enrolling as republicans in this state, I have nothing to say except that I am sure they are acting conscientiously in the step they now take and with the purpose of doing what they regard as most useful to the community."

How high is Gilroy's kite? Curly Stone was asked: "It seems that there is trouble brewing nearly everywhere on the earth," said Short Jenks. "Yes, I expect my wife to kick me in the face any day," replied Jude Johnson, who kept on whistling and jinning.

Central Meat Market. This is one of the best equipped and most sanitary markets in the state, as pronounced by all inspectors. The best best meats prepared by experts with the aid of the latest machinery guarantee to the buying public highest qualities and most excellent service. Sausage made to satisfy the most critical appetite. The electric shaver shaves meat so thin that it becomes a delicacy. Prompt and courteous treatment always. Two Phones, 66 and 67.

Rev. and Mrs. W. McCarthy returned Friday from a month's vacation at Grand Rapids, Minn. Mrs. W. H. Terwilliger went to Omaha Friday afternoon for a few days to assist with her daughter. Mr. and Mrs. J. F. Westerland and Mrs. Emma of Pender, were over Sunday visitors at the home of their son and daughter, W. F. Westerland. Mrs. Stella Chapin who had been visiting a few weeks at the home of her parents, Mr. and Mrs. Jacob Rhodes, returned Saturday to her home at Mountsides, Iowa.

Walter Gibson who is a student at Oxford college, home on a vacation, spoke at the M. E. church Sunday evening on the work of the Y. M. C. A. among the soldiers of England.

The state convention of the Lutheran League of the Swedish Lutheran church met here Thursday evening and closed Sunday evening. Eighty delegates were registered besides some twenty visitors. The meetings were well attended throughout and were very helpful and inspiring. The program Friday evening given by the young people and the Sunday afternoon meeting at which Prof. M. Anderson of Rock Island, Ill., spoke on "How Shall we be Faithful Servants of our Spiritual Heritage?" were especially good. The business meeting was held Saturday morning, reports of the delegates given and officers elected for the ensuing year as follows: President, Rev. C. G. Bloomquist, Benson; Vice-president, Carl Swedberg, secretary, Miss Ellen Lindberg, Omaha; treasurer, Emil Benson, Wahoo. The visitors were entertained by members of the local church, all meals excepting breakfast being served in the church basement. The place of meeting for next year was not decided upon.

BRENNA. Did you notice Art Auker's smile? He has a new Ford. Ella Benschoff of Wayne, spent the latter part of the week visiting Miss Zola Oman.

Mr. and Mrs. Oliver Sellers were home last Friday. Mr. and Mrs. William Benschoff are spending this week with their daughter, Mrs. Ed Lindsay. A message from Abergle, North Wales, came to Harry Millward last Friday bearing the sad news of the death of his father at that place.

Mr. and Mrs. Harry Tidrick and daughter, Thelma of Winside, were Sunday guests of Mr. and Mrs. Carl Wright. The Ladies Aid society of the Grace church which was to have met Thursday with Mrs. Everett Lindsay, was postponed until next week.

William Montgomery left Monday morning for a month's visit in western Iowa with his daughter, Mrs. Henry Rasmussen and his son William. He will also visit other relatives before returning home.

A letter received this week from Perry Benschoff of Van, Eagle, Wyo., states that men in that locality were wearing overcoats and that one man even wore a fur coat when riding seventeen miles to Van-Bassel to celebrate the Fourth. Every country has its troubles. In Nebraska we need rain-coats.

We are sorry that people from the towns, while riding in the country, last Sunday would criticize the farmers for running the binders on that day. Ordinarily we do not run our binders. Had a matter of fact, the best men who were running the binder last Sunday being idling away

FOR THE SUMMER DIET. Fremont Tribune: The high cost of living has not been lost, simply mislaid. Although the price level for foodstuffs is 2-per cent higher than in 1913, when every other newspaper column contained references to H. C. L. the soft pedal has been placed upon lamentation. Food costs more than ever, but nobody is excited upon that account. Missions are being carried on the Atlantic coast and the other side of the globe. We are thankful to be alive and functioning in the normal way, no matter how much it costs. Well being is comparative; when the rest of the world is so much worse off than ourselves, none but small souls would bring forward the high price of food as a cause for despair. So we are learning to live with our new neighbor, High Cost of Living. Economy is the order of the day. Not that America has suffered greatly from this forced economy. Unquestionably Americans eat too much. Literally we "dig our graves with our teeth," as the old adage runs. A knowledge of the simple rules of gastronomic chemistry in the kitchen is worth hundreds of dollars in cash to a family, to say nothing of health and content. Half of the national food bill is due to the American sin of swift eating. Ten chewing into liquid 50 per cent of the food now ordinarily consumed and your system will be exactly as well nourished and your appetite as thoroughly satisfied. Moreover, your system will be saved the burden of handling surplus food, taken into the body so indifferently broken up by the teeth that it is incombustible and useless.

Summer is the best time to practice economy at table. All foods create heat in greater or less degree, consequently the sparing eater feels high temperature far less than the heavy eater. A little food well chewed, a diet rich in vegetables and light in meats, sugars and starches, and a matter of fact, the best of it between meals, at least one-half a day, fresh air and regular light exercise—these will bring a normal person through the summer in comfort and steadily increasing vitality. As a matter of fact, the best features of expensive sanitarium treatment for dietetic ills can be

given at home. It's all in knowing and then sticking to the schedule.

FAVOR CONTROL BY FEDERAL EXPERTS. Omaha, Aug. 3.—To have the interest of animal industry at Washington in absolute control of the situation, sanitary-commissioners and boards of each stock growing state in the union furnishing inclusive reports of specific local conditions from time to time, all adhering to the decision of the national board, was in brief the plan outlined by stock and sanitary representatives at four states at their joint meeting with the Nebraska Livestock Sanitary board yesterday afternoon at the Exchange building in South Omaha.

Twenty-two stock men, sanitary experts, officials and state veterinarians of Colorado, Kansas, Iowa and Nebraska met in informal session and discussed in detail the stock situation and as it now exists. To the apparent unwillingness of the farm-

er and stockman to meet the proposition of eliminating hog cholera, coupled with the unregulated sale of hog cholera serum, was attributed the indirect cause of the present epidemic of cholera among hogs. The activities in eliminating the foot and mouth disease that caused so many millions of dollars' loss to stock grazers and farmers and expense to the states, handling stock, was reviewed in detail and the mistakes of procedure depicted to advantage. At the close of the conference the Nebraska sanitary board met and decided to free the southern part of Kansas from the quarantining embargo against the four-and-one-half states which has been in force against the section since the beginning of the epidemic. This will permit free shipment of stock to and from the entire state of Kansas hereafter.

I wish to say a kind word about Jude Johnson," said Short Jenks today. "While Jude is a liar in general I know of one particular occasion on which he spoke the truth."

Colonel Roosevelt seems to be earning distinction as the bellwether of American progress.

After the lapse of a year, it would look as though the English had had sufficient notice of the progress of war to get busy and try to accomplish something.

There can be no civilized government in Mexico as long as those in control are uncivilized, and it looks though no one could be picked from the present population that could possibly be fitted for just such a thing.

Chicago capitalists have planned to build a theatre at a cost of \$85,000 in Fairbury. In the absence of Chicago capitalists, how would it do for Wayne capitalists to build one of similar proportions and elegance in Wayne?

Let Wayne pull steadily for paved streets and electric lines until such improvements have been accomplished. The time is long past due when the business district should be brought up to a standard offering far superior comparison with residence sections and State Normal hill.

The Herald is pleased to publish a second edition of the description of the Rev. S. Xenophon Cross who treats in terse and intelligent fashion the important subject of community building. He urges co-operation from all hands to strengthen the ties of population and advance public interests along all lines. Other live wires, appreciating the needs of the city, will be welcome contributors to these columns.

The European war has been in progress a year, and roysters have thumped the Supreme Being for divine aid in dealing out crushing blows to the enemy. The great architect of the universe must feel honored indeed, to be asked as a contributor to a wholesale killing and ruin in Europe. To make the source of all life and goodness a party to the greatest crime of the ages is inconsistent and impossible.

The year has turned barren into a caldron of hate—a huge, geyser, smoldering pen in which men are pathetically sacrificed for what? No one has thus far been able to find out.

Time was when the average county politician had his circle of active voters on the one hand and circle of silent knokeyers on the other, and the former was devoted much to obsequious attention and fulsome praise, and to the latter unfavorable criticism and calumny. Today the live, progressive rural publication, serving an increased clientele and multifarious interests, must succeed, do its full duty, treating the public with uniform candor and fairness, and neither flaying at the feet of friends nor seeking to punish those who disagree with it or who hold fancied pigues. The paper which cannot get away from special favor to a few and disregard the interests of the many, cannot reach a high standard nor efficiently serve the masses which it must reach and satisfy to be of value as a public agency.

Col. Roosevelt announces that he will stay in the so called progressive party, and will advise others to do so. He mentions something about acting in accordance with his conscience, which is always felt to be doing or not doing a thing. He served seven years as a republican president, and after praising Taft as one of the two greatest men in the world and using his influence to secure Taft to its election, he is presently turned against him, contradicting his own judgment and trying to swing the American people with him. Failing to whip the national convention into line for himself, Roosevelt, by the way, which had honored him, and organized a new party. The result was the election of a democratic president. The party thus organized to honor one man, has been dwindling from

the day of election in 1912, and little is left of it today. If it is resurrected at all, it will be done by Roosevelt. If his effort is allowed to exercise any considerable influence, it can have but one possible achievement to wit, the success of the democratic party. He aims shifts of bitter criticism at the democratic party, and yet would help that very organization by seeking to strengthen it a third party—and cannot do so. It would seem that one with such a powerfully active conscience could just be so utterly inconsistent.

**BEARING BURDENS.**  
Every man shall bear his own burden of responsibility in the same manner to which he lives. If any individual neglects to do his part, that part shall never be done. In the great work of community building, there is something for you to do and that something cannot be done by another. The trouble with too many of us is that we try to put our share of the work for the general welfare off on the shoulders of somebody else. Be a worker, a pusher, a booster! Be proud to have a part in the onward move of the social community of which you are a part.

The divine corollary is, that we shall bear one another's burden. Perhaps we need a better organization here in order that we may realize more fully our organic life as communities. At any rate, by all working together, a community like this can have anything it wants. Hospitals, chauntiqua, street lighting, good roads—all come to them who work and do not wait too long. All members of the community—merchants, farmers, professional men—men with money and men without any—must bear the common burden. What we do that, the task shall be easy and the burden light.—S. Xenophon Cross.

Church next Saturday afternoon, but the school will be held as usual on Sunday morning, August 15. Come out and hear a good sermon. Mrs. George Sweet returned Thursday night from an extended visit with her aged mother who has her limb broken. A couple months ago she was in the hospital at Fremont. Miss Aren of Lincoln, arrived Monday night to make arrangements for teaching in the school here this fall. She went to South Dakota and from there to North Dakota before returning to take up her school duties. A good sized crowd gathered in town Saturday to attend the field day meet, but had the weather not looked so threatening the crowd would have been much larger. The Vasa military band arrived on the morning train and furnished the music during the day. The parade at 11 o'clock was small, but good. The base ball game between the Allen and the boys ended in a tie. Caught the greased pig. Herbert Reese won the foot race and the farmers won in the tug of war. The boys furnished music for the chess game while the Belle orchestra of Holden furnished the music for the dance in the hall. All the business houses and stands did a good business during the entire day.

HOSKINS

Mrs. Emma Schemel, Editor of the Hoskins department and authorized representative of the Herald. New subscriptions and renewals may be paid to her. Bert Tomplin of Winslow, visited home folks here over Sunday. Elmer and Leo Machmuller were over Sunday visitors in Norfolk. M. Benedict who was ill last week was able to be up again Saturday. Mrs. Joe Dahlgren of Norfolk, was a visitor with friends in the country last week. A barn dance was enjoyed Saturday evening by the many friends of Mr. and Mrs. John Bruse at their farm home. Wm. Behmer who was confined to his bed by illness the greater part of last week is able to be up and about again. Auditor Charles Johnson of Omaha, visited the Bowman-Kranz farm Monday. Milo Hanson, Frank Phillips and Herbert Barge were Saturday visitors in Norfolk. Glen Green took a party of young men to Winslow on a business mission Wednesday. Miss Helene Schemel returned Monday from a weeks' visit with friends in Omaha. Carl Zutz of Norfolk, arrived Monday to relieve in the bank, dur-

ing the absence of Robert Tomplin on his vacation. A. T. Wadgett took final leave of his friends on Friday and left for Morristown, S. D. where he will remain during the summer. Dr. Taylor of Norfolk, called by Dr. Hooper of Cambridge, on the morning of Mrs. August Zieher's decease, Tuesday, returning the same day. Erection of a fine new twelve-room residence was begun by Charles Ohlman on the farm of Mrs. J. J. Hays, six miles east of Norfolk. The new school house building in the newly created district No. 86 was finished last week and is ready for the reception of the children for the new term. The new house of Mr. Harry Ruhlmann, 1011 1/2 S. 10th St., will be built by Charles Ohlman and will begin next week. Misses Lizzie and Martha Deck left Monday for Jefferson, Mo., to visit relatives, before returning home. They will visit Chicago and other points in Illinois.

Who Will Win the Piano?

Eight hustling boosters are in the race and all are doing great work. Last month Edna Fievort won the gold watch for having collected the most coupons during that four weeks. This month another watch will be given and if you have a favorite booster whom you would like to see get it now is the time to get coupons for her. If you buy a \$5.00 trade book or her she gets 2,000 coupon. These trade books are as good as cash at our store any time. This year or next. If you do any trading next week you get four quadruple coupons which means 400 coupons instead of 100 for every dollar you spend. If you hand in any kind of a list of words in our word building contest you get 50 coupons—if you should win you get 10,000 coupons and a set of dishes. Hundreds of letters are at work making as many words as they can out of the letters in the three words "Ahern Sells Shoes." Lists containing up to 275 words have already been turned in. Can you do better? Try it. Win the prize. Your list must be handed in PERSONALLY by next Saturday, August 14th.

Ahern's Specials for Next 10 Days

You may buy these goods at these prices until one week from Saturday night. Here are offered the best bargains of the summer—the prices are very low and the goods are things you will need within the next two months.

Ladies' Dress Skirts At \$3 and \$5

At \$5 you can choose from all of our newest new skirts that sold at \$6.75 to \$7.50. They are new styles (perfectly good for fall wear) made of fine poplins, serges and black taffeta, colors, blue, black and red gray. All sizes, 32 to 34 waist. We make this \$5 offer only twice yearly. Many of our customers wait and watch for this sale, so you will do well to come early, and get a nice fall skirt at a saving of \$2 to \$3.

At \$3 you may choose from twenty nice all wool skirts carried over from last fall. They are of fine materials and good colors, but the styles are a little different from this season's skirts, hence the great reduction. They will make excellent skirts for ordinary wear. With a little alteration, you could make them reasonable the late styles. They are a great bargain at \$3.

Agnes 15 to 17 Summer Dresses \$1

There are just eighteen of them. They are made of fine ginghams, percales and lawns, well worth \$1.50 to \$2.25. Just the thing to finish out the summer, for every day wear. \$1.00 would hardly buy the material.

Children's Dresses, 2 to 12 Years, At 20c and 55c

20 cents is a ridiculous price for a dress, and you will be surprised at the neat little garment (new style) you can get at this price. They come in 2 and 4 year only. At 55 cents you can choose from 60 neat, pretty gingham dresses and aprons that will fit girls from 4 to 12 years of age. Some have bloomers to match. School starts soon, and you'll have plenty of use for these dresses. Get your girls fitted out now while the prices are so low. There are also about 35 better waists on hand at \$1.25 to \$2.00, prices of which have been greatly reduced.

Boys' Wash Suits, At 45c

Made of good wash ginghams and romper cloth, mostly in the popular Oliver Twist style, with large pearl buttons around the waist band. The material is worth almost as much as we ask for the suit. A few better suits are also marked down. Get in early before sizes are gone.

Girls' Low Shoes, At \$1

Choose from 100 pairs of kid and patent allpers that sold at \$1.50 to \$2.00. If your girls need footwear to carry them through the next two months, here is a chance to get it at less than the cost of barefoot sandals.

New Home Sewing Machines \$32.50

By buying five machines, we obtained a special discount, which permits us to offer these regular \$35.00 machines at \$32.50. There is no better machine made at any price. We will gladly give you the names of dozens of families in this county who have used their New Home machines from 5 to 17 years, and are still using them with complete satisfaction.

New Shirt Waists, At \$1.25

Our last express shipment of these waists and skirts came in last Saturday morning. Besides the white waists there are colors in these real wide stripes which are now popular. They are great bargains at \$1.25. The white skirts are made of fine pique or cotton corduroy, trimmed with large pearl buttons and one patch pocket. They are as nice and useful a garment as you can get for August wear. Priced at \$2.25.

Spot Coats of White Polo Cloth, At \$6 and \$8.75

For an outside summer and early fall wrap these jaunty coats are the one popular garment everywhere. This is the first time they have been made up to sell at less than \$10.00. See them in our windows.

Cane Sugar \$1.70; Best Flour \$1.70

This is the best eastern cane sugar put up in 25 pound bags. You can get a sack with every grocery order and have plenty of sugar on hand for your canning needs at the big saving in price. The flour is the best brand milled by the Norfolk Mills—hundreds of our customers pronounce it as fine as any flour they ever used. One sack with every grocery order and you make a good worth while saving. You will find all your groceries here—fresh, full weight and fine quality at the lowest prices. If you are helping some Booster save Piano-Coupons be sure and note the twenty grocery-savers we have arranged on a special counter—100 coupons are given with every one of these items.
