DEATH OF S. B. SCACE IN WAYNE LAST THURSDAY

Had been in Wayne Twenty Years Before Moving to New Home at Lusk, Wyoming.

S. B. Scace who lived for twenty years in Wayne, and was well known and highly respected, died at the home of his daughter, Mrs. John Scace, at this place last Thursday shortly after noon. Mr. Scace came to Wayne from his home at Lusk, Wyo., along the middle of October in 1895. He was about 60 when he arrived here. He was taken sick with pneumonia complicated by lung-stiffening, which was at the time appearing in a stage which it was hard to

Dr. House opened his discussion with the case of the late S. B. Scace, who died last Thursday. He said that the late Scace was a man of high character and a true citizen. He was a member of the Wayne Normal school and a member of the Wayne Normal association. He was a man of high character and a true citizen. He was a member of the Wayne Normal school and a member of the Wayne Normal association.

Man is subject to social control through many factors, he said, the primary ones being the family, the playgrounds and the neighborhood. It is through these factors, he declared, that society must be rebuilt. He declared to be an important factor in improving the ideals of men and he said any city that failed to make provision for the betterment of its playgrounds was overlooking a vital factor for its own good. He recommended a board of sanitation to have general oversight of conditions. He commended the desire to make money but held that the desire to make money should be subordinated to the desire for the benefit.

Funeral services were held in the Methodist church at 10 o'clock conducted by the pastor, Rev. A. S. Buell, assisted by Rev. S. X. Cross of the Presbyterian church. Many floral tributes attested to the high esteem in which the deceased was held. A large crowd of sympathizers and friends attended the services, and followed the remains to their final resting place in Greenwood cemetery.

S. B. Scace was born in New York November 6, 1838 and died at the age of 77 years on Thursday, December 2, 1915. When still a boy he moved to Wayne, Ill. In 1863 he went to Wisconsin. At Mount Salem, Ill. in 1877 he was married. Following the marriage he moved to Wayne, Neb., and engaged in business there until 1889 when he moved to Wayne. He lived here until 1909 when he moved to Lusk, Wyo., near which place he secured a government homestead and bought other land.

NIOBRARA WOMAN IS SERIOUSLY BURNED Niobrara, Neb., Nov. 30.—Sunday evening at about 6 o'clock while Mrs. S. C. Glines was preparing supper, her apron caught fire in some unaccountable manner from the stove. She was instantly enveloped in flames. Rushing to the door she called for her son, Frank, who was at work in the yard. He immediately came to aid her and tore the burning clothes from her body. Dr. W. E. Clark was summoned and everything was done to ease her frightful suffering. The upper part of her body, her arms and throat, are terribly burned. She is in a very serious condition but hopes are entertained for her recovery.

He was a member of the Wayne Normal school and a member of the Wayne Normal association. He was a man of high character and a true citizen. CAT IS A LITTLE UPSET BUT IS STILL ALIVE

Harrington, Neb., Dec. 1.—Additional evidence concerning the proverbial 'nine lives' of a cat has been furnished by an incident which occurred in this city, and which is vouched for by reliable witnesses. There is a cat and kittens at the Great Northern mills and on Tuesday one of the kittens climbed into the life rim of a flywheel and fell asleep. The engineer did not notice the kitten when he started the engine in the morning and for nine consecutive hours the little creature, held in the perilous position by the centrifugal force, whirled around and around on the giant flywheel at the rate of ninety revolutions a minute, and it was still alive when evening came and the engine was shut down for the night. Having traversed the circumference of the wheel 48,600 times at lightning speed, although alive the kitten was in a dazed condition, and was unable to stand on its feet, but the engineer, who had been on the night mill brought it around all right and it is now as well as ever. The engineer said the kitten is the only living thing that has ever survived such an ordeal; that rats and other animals that do not get into the flywheel and have sailed away through space to their death.

HARDEST GAME EVER WITNESSED IN WAYNE

Over an Hour of Lively Football Played on Thanksgiving Day.

The hardest, closest game ever witnessed on the Wayne gridiron was played on Thanksgiving day, when the University of Omaha and the Wayne Normal eleven fought for an hour to a scoreless tie. Time after time the ball was carried by Dale and Wallin, and to be lost on downs. Several times both sides were dangerously near to scoring, but somehow lacked strategy in crucial moments to carry the ball over. Wayne, as a general rule, excelled in ground gaining. In fact Dale scored a touchdown on a free fumble, which was ruled out as an irregularity.

First quarter: Wayne kicked off. Dale booted the ball to the 30-yard line. Omaha's first play, which was fumbled by Wayne and recovered. In the next play, which broke through and recovered Omaha's fumble on Wayne's 40-yard line. Dale gained fifteen yards around and Christianston smashed line for a good five yards. Stonebraker called back from end, made four yards. Church at quarter made ten yards around end. Omaha breeched up and held Wayne for downs. Unable to gain, Omaha resorted to a punt, making but fourteen yards. The quarter ended with the ball in Wayne's possession on the 35-yard line.

Second quarter: Ellis smashed the line for a gain. Dale carried the ball around end for eight yards. Wayne here lost the ball on downs. Omaha lost on downs. Dale again, on an end run, gained twenty yards. Wayne lost on downs. Omaha punter tried to gain substantial yardage. Ellis made five yards through the line. Dobry, substituted for Christianston, made twenty yards through the line on a cross buck, ending the half.

Third quarter: Omaha punted to Wayne. Ellis, as usual, made a good gain through the line. Wayne lost the ball on downs. Omaha punter and recovered the ball on Wayne's 22-yard line, but were held for downs. Dobry gained three yards around the quarter.

Fourth quarter: This quarter began with the ball in Wayne's possession on Omaha's 35-yard line. The normal team losing on downs. Omaha gained fifteen yards by the overhead route, only to lose the ball on downs. Here Wayne showed the 'pep' of former games. Wallin went around end for twenty yards. Wayne lost on downs. Omaha punter in the same way. Wallin again made fifteen yards. Time was called with a promising chance for a touch-down. The ball on Omaha's 20-yard line.

Lineup: Omaha Wallin, L.E. Howe Runkquist, L.T. Dutcher Mihm, L.G. DeBolt Hering, L.C. Karlomaks Dale, R.G. Seibert Stonebraker, R.T. Bruce Ellis, R.H. Sullivan Christianston, L.H. Adams Rockwell, E.B. Leach Christiansen, Wayne, Dobry for Christiansen. Officials: Referee Cress; Umpire Kemp; Timekeeper—Morgan. Yards gained: Wayne 180. Yards gained: Omaha 105.

ELIZABETH SPENCER TO BE IN WAYNE SOON

Miss Elizabeth Spencer, the well-known soprano, will be in Wayne to present a song hearing on December 16 or 17, in the college auditorium. A number of prominent musicians and music lovers will receive cards of invitation to this hearing and will consider themselves fortunate in having done so, as Miss Spencer is one of the most versatile artists before the American public today. Originally a Denver girl, she has appeared for a number of years in grand opera and oratorio as well as in the better grade of popular New York productions. Miss Spencer possesses a voice of remarkable range. She sings soprano roles, as well as mezzo soprano and contralto selections, and the remarkable part of it all is that her voice is properly placed and effective in all registers. Miss Spencer's programs are thus of greater variety than those of any other living singer whose work is strictly legitimate. Miss Spencer has the distinction of being the first star from grand opera to sing in Wayne.

RAILROAD AGREES TO BUILD CULVERTS

A. H. McLaughlin, general counsel and A. P. Winter, engineer, of the M. & O. railroad, were in Wayne Saturday to see what could be done to provide escape for waste water from land in the southwest part of the city. They agreed to build necessary culverts through the embankment of the right-of-way to take care of all surface water, but advised the necessity of filling land to effectually remove the cause of complaint. The building of culverts will be done this fall unless a freeze-up prevents. The officials also agreed to put in an ample culvert at the foot of Nebraska street.

THE SAVIDGE COMPANY GIVES SATISFACTION

Walter Savidge's dramatic company closed a three nights' engagement here Saturday night, and gave general satisfaction. "The World and a Woman," presented Friday night, gave an impressive lesson of the evils in so called high society, and tends to strengthen the resolution for correct and honorable living. "All the plays have been chosen wisely, and each fully meets expectations. Mr. Savidge had arranged to appear during the balance of the season after January 1, at a theatre at Fremont, but Monday morning fire destroyed the theatre which he had rented there, and the Herald has not learned what change in the arrangements will be made. The company appears at Randolph and Blomfield this week.

RELIGIOUS SERVICES THANKSGIVING DAY

Citizens of Wayne, from all the churches and people who are not members of any denomination gathered together last Thursday evening at the Baptist church for a public Thanksgiving service. There was a fairly large crowd present, the main auditorium being fairly well filled. Prof. Davies had charge of the music at the familiar Thanksgiving songs were sung, beginning with "Old Coronation" and closing with "America."

Rev. A. S. Baell preached an inspiring Thanksgiving sermon, his love for a Theodores has earned just a trifle and he wants to give back by having the secretary of state put the Roosevelt petition on file in the political hopper and deposit in the waste basket could be. It appears to be a proposition with Mr. Yeiser of "How happy I could be with either were the other dear charmer away."

Letter to Yeiser. Now the hard hearted secretary of state refuses to bring joy to the heart of the field—wearer of presidential preferences by refusing to allow the Roosevelt petition to be withdrawn. He hands the package to Mr. Yeiser kindly, warning and threatening that if he does not do as follows:

My Dear Sir: I am in receipt of your favor of November 19, 1915 wherein you request that the petition filed by you and the requisite number of electors, asking that the name of Hon. Theodore Roosevelt be placed upon the primary ballot in the year 1916, be withdrawn. In reply thereto I will state that when you filed the petition it became a part of the records of this office and the property of the state of Ne-

braska, which of necessity precludes me from granting your request. However, I will say that if you have withdrawn from the petition, a disingenuous question might arise, but the general rule of law appears to be that one filing a petition may withdraw his name after the paper has been filed, but not after the authorities have entered upon the consideration of it, nor where the effect of such a withdrawal would be to deprive them of jurisdiction to consider the petition.

J. C. MINES.

J. C. Mines, moved to a Century from Norfolk a quarter of a year ago, and is now starting his twenty-sixth year in the jewelry business at this place. Soon after he bought a fine new automobile, Main street, and put a new frame building which was replaced five years ago by his present commodious and stylish quarters. He has enjoyed prosperity, and has every reason to be glad he located here.

Paul Mines, who recently completed a course in a polytechnic school at Peoria, Ill. has joined his father in handling his business.

SECRETARY OF STATE REFUSES A REQUEST

Lincoln, Nov. 27.—Colonel John Oliver Yeiser of Omaha stands in the position of officially having no law candidates for the republican nomination for the presidency. First he filed the name of Theodore Roosevelt and now he comes along and files another asking for the same privilege for William H. H. Thompson.

However, in filing the name of Thompson Mr. Yeiser admits that his love for a Theodores has earned just a trifle and he wants to give back by having the secretary of state put the Roosevelt petition on file in the political hopper and deposit in the waste basket could be. It appears to be a proposition with Mr. Yeiser of "How happy I could be with either were the other dear charmer away."

Letter to Yeiser. Now the hard hearted secretary of state refuses to bring joy to the heart of the field—wearer of presidential preferences by refusing to allow the Roosevelt petition to be withdrawn. He hands the package to Mr. Yeiser kindly, warning and threatening that if he does not do as follows:

My Dear Sir: I am in receipt of your favor of November 19, 1915 wherein you request that the petition filed by you and the requisite number of electors, asking that the name of Hon. Theodore Roosevelt be placed upon the primary ballot in the year 1916, be withdrawn. In reply thereto I will state that when you filed the petition it became a part of the records of this office and the property of the state of Ne-

braska, which of necessity precludes me from granting your request. However, I will say that if you have withdrawn from the petition, a disingenuous question might arise, but the general rule of law appears to be that one filing a petition may withdraw his name after the paper has been filed, but not after the authorities have entered upon the consideration of it, nor where the effect of such a withdrawal would be to deprive them of jurisdiction to consider the petition.

If Colonel Theodore Roosevelt should make a personal request to be permitted to withdraw his name from consideration, his wishes would be treated in a like manner as in the case of Justice Hughes.

Yeiser to Fight. John O. Yeiser last night wrote a letter to Secretary Pool in which he declared he had been denied a hearing on application to withdraw Roosevelt's name, the matter being being given due notice. He says he will resort to legal proceedings if Pool tries to put Colonel Roosevelt's name on the ballot.

WITHDRAWAL OF HUGHES.

Fremont Tribune: The withdrawal of the name of Governor Hughes from the filing as a presidential candidate does not materially alter the situation. It discredits the suspicion that powerful interests were undertaking to prevent him from being considered as a candidate. It also makes it clear that he will not under any circumstances allow himself to become a candidate prior to the meeting of the national convention. It does not change the situation in Nebraska, where, no matter what is said and done, the belief widely prevails that Mr. Hughes is the most available candidate for the republican nomination and election are concealed. If it should come to pass that the convention should turn to Hughes in its quest for a candidate, as many believe it will, no matter what sort of delegate should be sent to the convention from Nebraska they would willingly and quickly fall into line for Hughes.

Lincoln, Nov. 28.—E. M. Pollard of Nebraska is very well satisfied with the reception the people are giving his candidacy for the republican nomination for governor.

Mr. Pollard was in Lincoln last night and left today for his home in Cass county, and this week will attend the meeting of the National Farmers' congress, which will be held in Lincoln, where he will take an active part in the session.

least need it, were the reasons advanced for taking this attitude. We believe the Harrington board is right in giving serious consideration to the athletics. However, a corrective remedy might be better than a killing one. Fewer games with other schools would sufficiently correct the waste Friday afternoon. Insisting that the schools live up to the state athletic regulations would effectually eliminate ineligible. Interclass games, played more for fun than for winning, could be substituted for most of the inter-school games; this would give physical training to the ones needing it.

WHY THE MERCHANT? Atlantic City, News-Telegraph. "There are some things in life which pass human understanding and one of these is the habit people have when they want to build a church, erect a Y. M. C. A., pay an evangelist or do other things of a public nature which cost money in towns of Atlantic's size they expect the business men of that town, the merchants on the secret, to bear the big end of the expense of it. No matter how many men there may be in the town not in business and with oodles of money the merchant is the fellow who is bled the hardest, because he happens to have a stock of goods and because, mainly, he seeks the patronage of the public and the implication is at least, that if the towns not "do up" he will lose a portion of it—an implied blackmail. "The merchant, he pays the freight," and then the tight wad, the fellow with the money he is going to take with him, sits back and enjoys the benefit of the other fellow's enterprise and liberality.

MR. BRYAN'S BREAK. Lincoln Journal. It had to come. After all he has been saying about war and war preparation, Mr. Bryan could not support the president's double defense program; neither could he keep still. Mr. Bryan's ancient enemies will say that he had never intended anything else than to break with Wilson and oppose him in next year's convention. It is not necessary to assume that. When Mr. Bryan left the cabinet there was no sign of the adoption of a radical armament policy by the administration. Mr. Bryan was publicly against it before President Wilson was publicly for it. The armament question has become, moreover, easily the paramount national issue. If Mr. Bryan has been looking for a chance to break with the president, fate has been kind to him. It creates a situation not of Mr. Bryan's making which compels the break. It would be unpeppable self-stultification for Bryan, the passivist, to support a program which all militarists are madly supporting.

The Unclean Mouth A Menace to Health

Ignorance of the condition of the child's mouth, on the part of parents and teachers is an unnecessary and almost fatal, as his future health, strength and normal development is dependent upon the health of his mouth.

Many otherwise intelligent mothers, who are careful of the child's mouth, are not only ignorant of how to maintain in his little mouth, decayed teeth, fitted with a mass of putrefaction, which is a constant menace to his own health and of the children associated with him in the school.

LIFE AND DEATH.

Be enough of a booster for Wayne to cause any interest in the future of the town, to give local dealers an opportunity to supply your needs. Don't pass judgment without knowledge, and foolishly condemn any of the country with home-dealers can do for you.

If you believe you are dead, call in the undertaker. If you think you are alive, ginger up and lead other people to agree with you.

To the snob: Your self-importance is based on false and fleeting grounds. If you have wealth or are a beach-comber, or a loud and stupid voice, you have no advantage that may not quickly disappear. You have no advantage that many others of less pretense do not possess. Your vaunting display is as distasteful as a wig on a woman's head. Forget self and develop the little stock of brains which nature entrusted to you for that purpose. Don't lift your nose scornfully. You are, or may be, one of the few people of charity. You may need the hand of neighborly help. From the one you disdain, you may have to give an emergency call for help. Come off your high perch, and give more attention to real refinement and to be able when things which puff you, vanish into nothingness, and you pass hence, to have more of soul to take with you than mere recollection of appetite and other materiality.

The electrolier system, just completed and ready for service, gives the business district a touch of up-to-date and is very comforting. Getting rid of the unsightly poles on Main street will necessarily follow as soon as possible. The next essential municipal improvement will be the paving of the business district. Property owners are the ones who will shoulder the burden of the paving expense, and they have signified their willingness to do so. Their vital interest in the town stimulates their anxiety to have it paved.

Mr. E. M. Grant, who has been a public improver since the fact which such men are most anxious to understand and appreciate. If property owners are generally in favor of paving, no one without property would care to have any good reason to oppose it.

Don't let a little adversity of hand

luck knock the Christmas spirit out of you. Because you haven't enjoyed the most prosperous year in your life is no reason why you should let the warmth of your soul go down to zero. Christmas cheer does not necessarily mean extravagant gifts. It means suitable remembrances, generous and kindly thoughts as well as deeds. It means to turn the corners of the mouth up instead of down.

Another banquet by the Commercial club reminds one of a banquet held in the city a few years ago. The banquet was remembered that the tables were so wholly inadequate that they had to be prescribed with the utmost care to give each guest a taste. The "cute little beef roast" which looked as though it might have been baked in an oyster shell, and which was solemnly brought forth to feed two or three hundred men, suggested that the committee intended to imitate the miracle of the loaves and fishes, but nothing miraculous happened to multiply the food supply, and the whole performance—abridgement of eatables and eating implements—was so ludicrous that the crowd forgot to be unhappy or dissatisfied. No such unique banquet will probably ever happen again. It certainly will not happen next Thursday night, and all who attend the coming function may rest assured of an abundance of good things to eat.

ROOSEVELT REQUESTS WITHDRAWAL OF NAME

Omaha, Dec. 1.—Former President Theodore Roosevelt has announced that he has requested the secretary of state of Nebraska to withdraw his name from the ballot to be used in the coming primary election in Nebraska. Mr. Roosevelt also received official notification from the Nebraska secretary of state that a petition had been filed to place Mr. Roosevelt's name on the Nebraska primary ballot as candidate for president.

ANNUAL MESSAGE READY.

Washington, Dec. 2.—President Wilson tonight completed his annual address to congress which will read at a joint session of the senate and house a week from tomorrow.

In preparation of the address the president has followed the precedent set by him when he took office of reading his messages to congress in person, and it contains no long review of the activities of the different government departments. It is understood that there are less than 4,000 words in the document. In order to finish it today president says he will confer and work in his study from the time of his arrival from New York early in the morning until tonight.

It has been established that the president will read other messages to congress after the Christmas holidays in order that he may take up subjects not bearing on national preparedness.

GOVERNOR DECLINES TO ACCOMPANY FORD

Lincoln, Nov. 30.—Believing that little can be accomplished by a mission such as Henry Ford is financing because it is not sponsored by the highest officials of the United States, Governor John H. Morehead has refused the invitation of Mr. Ford to be his guest as one of a number of people who will go to Europe on December 4 to try to bring about peace among the belligerent nations.
Governor Morehead received another letter this morning from Mr. Ford urging him to accept the invitation and going more into details regarding the mission. He figured that it would take at least six weeks to make the trip. The party will go over in ships together, but will break up into sessions of peace conferences, and each individual will be provided transportation back to his destination.
Besides the reasons given in his letter to Mr. Ford for not going to Europe, Morehead does not believe he would be justified in being away from the state for such a period and beyond immediate recall if matters of great importance should need his attention. His letter to Mr. Ford is as follows:
—Your two telegrams and letter received. Without the cooperation of the president and the commission headed by men of international prominence, backed by the government of a majority of the states, indicating a general endorsement of the people of the United States, with a possibility of a hearing granted by the officials of the belligerent gov-

ernments, I feel that little can be accomplished. My personal sacrifice in leaving the work I am so interested in would be great, and yet if I could convince myself that I could be of service in ending the war I would not hesitate to make the sacrifice. Believing as I do, that a movement of this kind, such as a movement by Dr. Riphat officials in the United States, and backed by the minor ones, I am inclined to think that such a mission as suggested by you would prove fruitless, and for that reason I am impelled to decline your kind and generous offer.

THE MONTH OF NOVEMBER.

Lincoln Journal: Kindly weather saw to the safe harvest of the greater part of the corn crop and to the completion of wheat threshing in Nebraska. Thus November put the cap sheaf upon the state's agricultural good fortune, giving ground for a whole-hearted Thanksgiving so far as material things were concerned. Industry, the nation showed activity, partly as a result of agricultural plenty.
The war seemed to get nowhere. Except for the slow crushing of Serbia there were no notable military advances.—Russia stiffened against the invading Germans and even drove them back at some points. Winter began to close in with the situation reduced to a virtual state of siege—a question of financial and human staying power. Occasional risk of peace was heard, but with little indication that peace short of the exhaustion of one or the other side is possible.

Americans began to think a little of politics. The approaching meetings of national committees to set dates for the conventions aroused presidential interest. The filing of Justice Hughes' name in Nebraska provoked a declaration of non-alignment. Several prospective republican candidates retired to the dark horse stables, leaving the open field to such as Root, Weeks, Cummins, Burton and Sherman. Meanwhile America lost its most noted negro, Booker T. Washington.

Santa Claus in the Movies

By GENE MORGAN

YOUR information is in part correct, and Santa Claus, receiving the interviewer in the library of his ice palace.

"It is true that I have received several flattering offers to star in moving picture productions. But it is not true that I have accepted any one of these propositions. I am still in doubt as to whether it would be the proper thing.

"I have my duty to the children of this world, and I must not neglect it by the strenuous work demanded in the movies. But I wonder if the children who see me in their dreams do not get a better and more satisfying idea of me than they would in the picture.

"You see, my dear sir, the camera does not lie. I am sure it would not lie for me when it will not tell falsehoods about the appearance of kings and potentates. Every child in the world thinks of me as a very kind and generous old gentleman. Some of them may have an idea that I am inclined to be a little stout—but a good many know I have as graceful a form as that of a young soldier. They think I curl my whiskers and have a beautiful way in my long, silky locks.

"Your Uncle Santa Is Getting Fat."

"They are not aware that your uncle Santa is getting so fat that there isn't room in the sleigh for himself and the larger toys. Now that the season of pair isn't what it used to be, if people ever sent me presents—which, of course, does not occur to them—I should like to murmur a little wish for a bottle of hair tonic.

"One moving picture firm wants to put me into a play. The plot is something like this: I am driving my reindeer over the treetops, when I am set upon by a band of acrobatic pirates. The pirates make me hold up my hands and then divest me of my stock of toys. Just when the hoodlums are about to fly away, leaving me in distress, the chief of the robbers makes a discovery.

"Among the trunk of toys he finds a rag doll. By the tag around its neck he sees that it has been addressed to his little daughter. My thoughtful remembrance of his little girl, despite his father's profession, touches the bandit's heart. He weeps, and then to the astonishment of his pals, he orders them to lift me into the aeroplane.

"Now, Mr. Claus, he says, according to the subtitle, 'we are going to

deliver your toys for you all over the world and to make—give us directions and we will fly wherever you command.

"So at my direction, the bandit's assistants, detaching the toys, making much better time, let me tell you than my poor reindeer who were left behind. Things are going along fine. Our aeroplane for conveyance has covered Canada, the United States, Australia and South Africa, when suddenly, to our dismay, we find that we are being pursued.

"More pirates? I ask in alarm.

"No, the aeroplane! shouts my pilot. The police had found my plane sleigh and motionless reindeer. They naturally concluded that I had been caught and imprisoned. I pledge myself on the trail of my captors. The pirates are very much afraid that if arrested, they will be hanged at once. The police craft is gaining upon us in order that the pirates may escape. They decide they must throw all of my toys overboard. The vicious crew demands that your old friend St. Nick be thrown overboard too, as I am pretty heavy, besides being the cause of the trouble.

"The race continues through the sky.

"I want to raise the white flag as a sign of surrender. I pledge myself to the captain of the pirate aeroplane that I will plead the cause of innocent and his crew and secure their release from the police. Then they say that the police will do them no harm; after having explained their intention in carrying my toys all over the world.

"The police craft is gaining upon us that escape seems impossible.

"Give me a white flag, I cry.

"There's lack a white flag on board, says the pilot, but I have no time to lose. If you don't surrender, they will shell us. And in that case, we will have to throw you overboard, St. Nick.

"My mind works quickly. I have no white flag. My handkerchief, like those of the pirate's is a red handkerchief. What am I to do? Whiz! Another shell rips past our airship.

"Ah! I have it. It is the scheme that saves the day. It is the scheme the interviewer at this point leaped to his feet and shouted in excitement.

"Well, what do you do to have your life?"

"I gave my white whiskers at command Santa Claus, proudly. 'It is the signal of truce. Our lives and our precious cargo of toys are spared. You may now think of this as a play.' They want to name it, 'Santa Claus in High Life.' You think I would make a hit as the star? Well, I would you think so."

Unselfishness is the key to Christmas happiness.

ENVIUS.

"Do you ever wish you were a girl?"

"Only at Christmas time," answered the boy.

"Why do you wish it then?"

"Because of the stockings they wear."

Cultivating the Christmas Spirit.

"Alas," sighed the moody man, "there is no goodness for me in this joyous season."

"Tut-tut!" said the optimist. "Surely there is a ray of sunshine for you, as there is for all of us if we but look for it."

"No," replied the moody man, "I have not a single friend and no relatives with whom I am on speaking terms."

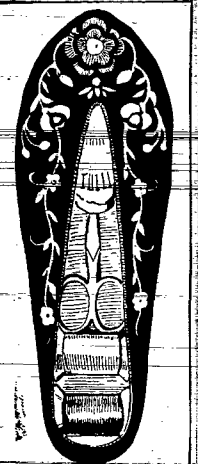

"Never up, then, advised the other, with a shake of his head in tones. "Can't you be nice because you will not have to buy any Christmas presents?"

CHINESE SHOE WORKBOX

Perhaps This May Provide Work for Some Small Child's Nimble Fingers.

The small girl who would like to make mother or older sister a gift, but whose pocket money is limited, should try her hand at the little Chinese shoe workbox shown here. She will surely succeed if she can sew at all, and if she will be very careful about the cutting and sewing. The beauty of it is the piece bag will probably supply the materials for making within 25 cents will buy the finished.

One must cut two pieces of cardboard, each seven inches long, then shape it into a sole and take off one quarter inch from the toe of one piece. The larger piece is covered on one side with white muslin and the small

Nice Present Any Girl Can Make.

With a bit of blinding in sewed all around the white covered sole and then to the smaller sole, silk upward. When this is sewed together you have a sole half an inch in thickness turning up at the toe as the Chinaman's shoe does. Fill this with cotton.

The one thing to remember is to take time in making this pretty box. It costs next to nothing, but it will not be a success if carelessly done.

The writer saw an exquisite model of this work case that is to be given to a bride. It is carried out in white satin embroidered in silk and silver thread in a wistaria design, the linking being of wistaria-colored silk to match.

This should be a hint to girls who have friends marrying during the holiday season. If embroidery is beyond the donor's skill, a tiny spray of orange blossom tied with silver cord might decorate the top, or the initial of the bride could be placed there.

THE GIFTS FOR MOTHER

She'll be here at Christmas day. And the hairs are lighter when she comes in clucked again. All the smiles are brightest. When the family singing an' old, from out to little brother. With all the love that heart can hold Come, bringing gifts to mother.

We keep her presents till the last. An' then when she sits rocking. An' all the other gifts are passed. We go an' get her stockings. We gather round her away chairs. First one an' then the other. Here's something else for mother!

An' with each present comes a kiss. An' all to still an' quiet. When mother murmurs: "What is this?" An' hastens to give it. Then everybody willy willys. An' about the perfect gift. An' mother's eyes are moist with tears. But not the tears of sadness.

Oh, there's a scene that god can't buy, The smiling face, the glistering eyes of love and an celebration. And with each gift Christmas day We pray to know another. When we shall meet the self-same way And bring our gifts to mother.

RED BLOOD.

Lincoln Journal: The war fever has carried the world to the point where the man of peace is a coward. "Anemic idealism" is Robert Herrick's word for it, and with this bloodlessness he couples the charge that its source is in "an imaginative dislike of the unpleasant." That is, idealism is selfish as well as cowardly.

We begin to hear about "red blood" in making this pretty box. It costs next to nothing, but it will not be a success if carelessly done.

The writer saw an exquisite model of this work case that is to be given to a bride. It is carried out in white satin embroidered in silk and silver thread in a wistaria design, the linking being of wistaria-colored silk to match.

This should be a hint to girls who have friends marrying during the holiday season. If embroidery is beyond the donor's skill, a tiny spray of orange blossom tied with silver cord might decorate the top, or the initial of the bride could be placed there.

Shall Mr. Herrick next be announcing that after four months in eastern Kentucky he is ashamed of his opposition to dueling and the feud; that it sprang from the "anemic idealism" and had its source in "an imaginative dislike of the unpleasant." For red blood cannot require men to stand for their rights in vain.

Can a man be brave and red-blooded as against a foreigner? Can a man be brave and red-blooded as against a woman? Can a man be brave and red-blooded as against a nation? Can a man be brave and red-blooded as against his local enemy? The analogy may not be true, but it is a good one.

CLOSING OF RANGE SHIPPING SEASON

Norfolk Daily News, Nov. 30: The range stock season on the Northwestern ran road will end on December 1 and by that time more than 360,000 head of stock will have passed through Norfolk for the winter months within four months. The months of August, September, October and November are figured as the range stock season in the Northwestern road and during those months thousands of head of stock are shipped through from points west of Long Pine. The reports do not include the large shipments of stock from the country east of Long Pine. With the receipts of

November yet to be heard from 3,437 cars of cattle, 1,103 double deck cars of sheep, 253 cars of horses and 229 cars of hogs were shipped out of the range stock country. The sheep were in the majority with approximately 247,925 head, 87,925 cattle, 17,175 hogs, and 6,325 horses.

Notwithstanding the large amount of stock shipments coupled with the first heavy movement of grain, there is declared to be not the slightest sign of car shortage here. In the east where the railroad cars are stretched for miles filled with all kinds of commodities because of the lack of room at the Atlantic docks, there is a huge cry of car shortage.

In this district that shortage is yet to be felt.

SENATOR HITCHCOCK REACHES WASHINGTON

Washington, Nov. 30.—Senator Hitchcock, Mrs. Hitchcock and Miss Hitchcock arrived here yesterday, and for the time being will make their home at the Shoreham, pending the selection of a house for the congressional session.

Mr. Hitchcock, speaking of the particular activities in which he will interest himself so far as legislation is concerned, said he proposed to introduce a bill providing for the guarantee of bank deposits as to banks under the federal reserve sys-

tem, giving an option to the banks whether they desired to avail themselves of the provisions of the act. He said that he was constrained to present this legislation in view of a number of national banks in Nebraska which have decided to withdraw from the national banking system and take out charters under the state banking law, which guarantees deposits.

Senator Hitchcock will reintroduce a bill prohibiting the exportation of arms and ammunitions to countries at war and proposes to push the measure with all his strength.

So far as local legislation for Nebraska is concerned Senator Hitchcock said he would introduce a bill

creating an irrigation district in the counties of Gosper, Phelps and Harlan for the purpose of storing the flood waters of the Platte river in those counties in order that the stored waters might be used in the district during periods of drought.

The hundred thousand acres in the counties named, according to the senator, could be made certain of fruitful yields if such legislation were enacted. It would in his judgment solve the problem of flood control in both the Missouri and Mississippi and, while experimental, he believed the greatest problems confronting the semi-arid lands in the west.

QUARTER OF A CENTURY IN BUSINESS IN WAYNE

This was at the fall of 1890. The next day they moved into a building on the site occupied by the present Sberlaha quarters. The following year, Thanksgiving day in 1891, when a group of buildings on Main street was wiped out by the Theobald store was destroyed. Unlike President Cleveland, the former democratic chief executive, President Wilson does not make his messages painfully long-winded nor fill them with sesquipedalian words.

A statistician gives out a report that the number killed in football during the season, just closed, is larger than that of a year ago, and otherwise the sport enjoyed increased success.

A dispute in the Herald office over use of capitals in writing "o'clock" in a heading or display line was referred to an authority on the subject. The authority, Chicago, and "o'clock" was pronounced the correct form unless all capitals are used.

Clark Perkins, editor of the Aurora Republican, has the distinction of being held up and robbed of \$10 recently. It would seem that an editor who will carry that much money at one time and keep it out of circulation, ought to be robbed and thus justly punished.

The statement of John L. Kennedy of Omaha, candidate for the republican nomination for United States senator, will attract the favor of many republican voters. He is frank and fair and sound in his opinions touching public policies, and impresses one as highly fitted to intrust with senatorial responsibilities. He is a man of large ability and fine judgment.

Some people who remain hard up, remind one of the man sinking in a boat that leaks. Instead of stopping the leaks, he devotes himself to bal-

ancing out water. The leaks grow larger, and he increases his energy at baling. Finally he goes down. Often the man who has difficulty in making ends meet, makes a desperate effort to increase earnings without trying to stop leaks and check the load of expense. While bailing, the sinking boatman should stop leaks. While pursuing the individual in a store on a fact of any line of endeavor ought to look out for leaks and see that they are closed.

It is often pointed out that young women discourage young men who are not earning overly incomes, in the direction of matrimony. The average young woman has come to require so much in the way of flowers, and suppers, and auto drives, and costly attentions, that a young man is led to hesitate. A recent step which suggests extravagant demands which his purse might not be able to satisfy. Referring to this question, the Fremont Tribune says: "We hear a great deal these days about exigencies and taxes on bachelors and other phases of the eternal question of wedlock. Still a great many continue to shy at the problem of conjugal bliss and celibacy remains about as difficult to cure as cancer and hog cholera. A Fremont young man discoursing on the subject the other day said: 'The girls expect too much. Social attractions require the expenditure of too much money and the young fellows are left hard up. There are taxes and flowers and suppers and admissions and what not, that ordinary salaries will not meet. It is difficult to meet these requirements and save a neat egg with which to start a nest. And the modern idea is that the young people must start at the top. No wonder young men postpone the day that they think they are prepared to undertake the founding of a home.' This is not a new idea; it is the repetition of what ministers are saying in their political party has yet had the courage to put it in its platform."

The town of Aurora has been having a lot of trouble over a series of evasive meetings concerning a man named Kirkland. He essays the role of "Billy" Sunday. He evidently tried to out-Sunday Sun-

day, and the result was the engendering of discord and bitterness. On account of the language he used, Miss Kathleen C. Hean, for seven years principal of the Aurora schools, protested to the ministerial association asking that the evangelist be dismissed. Then she is said to have been made the object of the evangelist's wrath, and people took sides for and against his methods.

Of the ministers of the town, six defended the evangelist, and one, Rev. J. D. M. Buckner, pastor of the Methodist church, took a stand against him and issued a statement explaining his position. Speaking of the evangelist, he said: "His language, his language, vulgar and coarse." That is the reason Miss Hean who had been moulding the characters of boys and girls for seventeen years, and trying to make them nobler and better, wanted him dismissed. The Methodist minister protested against the unwarranted denunciation aimed at Aurora people by the evangelist. The six other ministers have also issued a statement in which they uphold the evangelist, saying that he used the same sermon everywhere and that they should not be taken personally. But the Methodist minister's clear and forcible statement, together with the position taken by the high school principal with an excellent record of seventeen years in one position, will naturally win the bulk of public opinion. The brave stand taken by these two people in behalf of higher Christian ideals will bring an abundance of support. Rowdyism in the conduct of evangelistic meetings, assailing without just grounds the lives of good people, and doing violence to the teachings and methods of Christ, does the cause of the church more harm than good. It is surprising that ministers and church members will import a man and pay him liberally to abuse them, impugn their conduct, question their sincerity and consign them to hades if they don't think as they think. People will not often vouchsafe to the evangelist the privilege of passing judgment. People have progressed too far to be cudgeled by unwarranted rough-neck methods. What they want and appreciate is a plain, straightforward spiritual truth, not an exhibition of the flaming sword and the fiery pit, which smacks of materialism, and

have largely lost their influence. People want to be led into the path of spiritual truth which is rational.

CHURCH UNITY.

One of the signs of the times is the evident movement toward unity of church activities. This movement is an actual fact—at least in the minds of the people. There is a growing conviction that there is a vast waste of funds and energies in the multiplicity of church organizations. People are beginning to believe that this dissipation of forces should be remedied in any community of right-thinking people by a getting together.

There is a movement in that direction in process; of possible realization in our own community. At least two of our young people's societies of Wayne have formed a "Union" and plan to meet together once a month. Leading men of the brotherhoods of the several churches are right now trying to devise some plan by which the brotherhoods can be united. A Christian manhood is worth while and if in union there is strength, surely this getting together is to be commended.

in every way. The meeting next Sunday evening will be a consecration meeting and will be led by Ralph Ingham. This will be an interesting meeting and should be attended by all.

A conference was held Sunday afternoon composed of representatives of the various church organizations of the town to discuss the possibility of forming a union evangelistic campaign this winter. The sentiment was unanimous for union work, if any at all. And if those who might befriend you, Whom the ties of nature bind, Should refuse to do their duty, Look to Heaven, and "never mind."

Methodist Church.

There will be a bazaar and tea at the home of Mrs. D. C. Main Thursday afternoon. All are invited. Friday afternoon the W. C. T. U. will meet with Mrs. A. M. Helt. Last Sunday afternoon an informal meeting of representatives of the various Protestant churches of Wayne was held at the Methodist church to discuss a union-tableau meeting. The proposition was submitted to have Dr. W. D. Hamilton of Sutherland, Kas., who has had some splendid success at Hastings and Seward and many other places, to conduct a meeting in January. The baptist people desired to arrive before taking any definite action. Others thought that we would not be able to get ready for a January meeting. The general feeling seemed

to be that we must get together in an evangelistic program as soon as possible. At the present time a great revival wave is sweeping the state. The meeting adjourned to meet Sunday afternoon, December 12, at 3 o'clock.

The trustees of the Presbyterian church met last week and made up the budget of the estimated necessary for the ensuing year. The various items of the budget foot up approximately \$4000. It takes a good deal of money to run a modern church in a modern town. The church is doing a good work in the community as evidenced by the fact that hard-headed business men are willing to finance it.

THE SUPREME COURT UPHOLDS STATE LAW

Washington, Nov. 29.—Justice Hughes in the decision of the supreme court, affirming the opinion of the supreme court of Nebraska, in the case of Henry W. O'Neil and Cornelius K. Herferan, plaintiffs in error, against Jacob F. Leamer and others, supervisors of drainage district No. 2 in Dakota county, said that the provisions of the fourteenth amendment, "embodying fundamental conceptions of justice can not be deemed to prevent a state from adopting a public policy for irrigation of arid lands or for the reclamation of wet or overflowed lands."

In a brief ex-Senator W. V. Allen said that he had been widely known in the past to convince the supreme court that the acts committed by the defendants in the district mentioned in taking the lands of the plaintiffs in error for purposes of irrigation or drainage was in clear violation of both the state and federal constitutions.

To this contention which was pleaded by Senator Allen in his argument before the court in October, Mr. Justice Hughes says:

"States may take account of their special exigencies and when the extent of their arid or wet lands is such that a plan for irrigation or reclamation according to districts may fairly be regarded as one which promotes the public interest."

One by court order.

Continuing a decision which has stood for many years, Justice Hughes said: "In the present instance the record shows that the drainage district as organized embraces a large area, with many projects, and the original proceeding the district court made its deliberate order that the enterprise would be a public utility and conducive to the public convenience, health and welfare."

Nothing, going to warrant a different conclusion."

Senator Allen appeared for Henry W. O'Neil et al, while R. E. Evans of Dakota City appeared for the supervisors.

MOTORCYCLE AND AN AUTOMOBILE COLLIDE

Newman Grove, Neb., Nov. 30.—As the result of a collision of a motorcycle and an automobile, Lawrence Broberg, son of Magnus Broberg, is lying at the point of death at his home north of town. Broberg was driving his cycle at a high rate of speed near the farm of Charlie Lindahl, when he collided with Mr. Lindahl's automobile which was coming out of a grove of trees and could not be seen. The collision was terrific. Broberg and his cycle were hurled high, and the handle bars struck his stomach, puncturing the intestines and causing other serious internal injuries. He is attended by several of the best doctors in the county but is not expected to live. The occupants of Mr. Lindahl's car escaped without serious injuries although the car was badly damaged.

PERIODICITY OF HOG CHOLERA

Wallace's Farmer: Many things in this world seem to come in waves, like the waves of the sea; and every seventh wave, so sailors tell us, is bigger than the six preceding it. Religious movements come in waves. We have waves of war and waves of peace. There seem to be cycles in the seasons: a period of wet years, or years with the precipitation above the normal, followed by a period of dry years, that is, with precipitation below the normal. It would take a wise man to understand the reasons for this periodicity or movement in waves. It is really a cosmic question, a question affecting the whole system.

Hog cholera seems to follow the law of periodicity, or movement in waves. The first outbreak of cholera recorded was in Ohio, in 1833. It was reported from North Carolina in 1837, Georgia in 1838, and from Alabama, Florida, Illinois and Indiana in 1840. During the period from 1855 to 1860 there were seven outbreaks reported in Iowa; so that in that state the disease is at least 60 years old.

The Iowa Agricultural college at Ames, has issued a bulletin, from which we take the above historic facts. It gives also two tables that are interesting, showing the number

of deaths per hundred in Iowa, from 1884 to 1914, and the number of outbreaks of cholera in Iowa, from 1884 to 1914. The number of outbreaks of cholera in Iowa, from 1884 to 1914, was 10. The number of outbreaks of cholera in Iowa, from 1884 to 1914, was 10.

disease looks at them from an adjoining farm or township. There are times when the hog makes money for the farmer— plenty of it. The tendency is for farmers to increase their herds, that they may gather in the harvest. It takes a scourge of cholera to bring us up standing, and make us realize that the laws of nature govern, and we can not violate them with impunity. Much has been expected from serum. No doubt serum has value, but we are having some bitter lessons this year by being brought to realize that serum made in hog pens which have contracted the disease, although it may not be in evidence, will give foot and mouth disease to cattle, if they come in contact with it. We are having some bitter lessons also with regard to the double treatment. While it may be feasible, under competent veterinary direction, to give this treatment we are more and more forced back to the conclusion that we must depend on breeding, sanitation, care and exclusion of visitors whose cholera is suspected, to protect

THE SPIRIT OF CHRISTMAS

New York, Nov. 10.—Christmas is in the air! We are reminded of the earnestness at every street corner, of the most matter-of-fact among us, of the spirit and anticipation of cheer. Safe and sane Christmas shopping has been preached for ages, but nevertheless, each year sees the same crowd in the shops and hears the same question on every store front—shall I give for Christmas? The easily answered this year is:—

intended recipient is feminine. There are all sorts of warables that may be worn for the thirty maddest days of Christmas morning to be received with little exclamations of delight.

The Shopper's Costume.
If one has time to tarry a moment or two at the main entrance of one of the big shops on one of these busy afternoons, they will have a revelation in clothes. Serge rules in the matter of suits and simple frocks. These garments are made and never have we had a season when they were becoming and so much within the reach of all pocket-books. There are wide soft collars and cuffs; small round muffs, and any number of other accessories which may be made at home if desired, and added to the suit of serge to enhance its charm and style. The majority of the suits show the high collar, and many of the dresses too, although one often glimpses beneath top-coat, and suit-coat, a dainty sheer blouse of crepe de Chine or crepe Georgette with open throat, dainty in its softness. How About the Petticoat?
Has the petticoat returned in all its old-time fluffiness and rustle to add to the bouffant and charm of the full skirt, or have the dainty pantaleons, introduced quietly and cautiously at the beginning of the season, entirely usurped its place in the hearts of well-dressed women?

AURORA BOREALIS.
(Dixey)
What shall we do when preachers disagree?
This thought with force and power appeals to me,
Since fair Aurora is all rent and torn
By gods that can't be cured and
Must be borne.
I sometimes think the reverend who
Sings
Is he who seems to save men from
their sins;
Who slams the sword of truth clear
to the hilt,
And brings to wicked men a sense
of guilt;
Who bids them save the gold, reject
the dross,
And will not rest until they come
across.
Kirkland has come and gone,
and there is still
The flowing stream of mingled good
and ill;
And what he did and said, it now
appears,
Helped some and set the others by
the ears.
So it will take some time for local
cuts
To figure fair on "general results."
I hear it said from many a trusty
source
That Kirkland's language was the
least bit coarse,
The words he used, the English
would call "rum."
They oftimes needed fumigating,
some
And he displayed a temper sharp as
steel.
He crushed his critics' meath his
iron heel,
Sounded aloud the cruel crack of
dent,
And sent more men to hell than
there was room
In some ways Kirkland pleases me,
frstrate,
The words he uses I repudiate.
And, were I in his place, I would be
mild
And fair and kindly—language un-
defiled,
And conduct well in keeping with
the same.
I would employ in this sin-killing
game,
No cuffs received, I would return
no kicks,
But turn the other cheek and let
'em.

You Should Buy Wisconsin Land Now

Every day the farms of Upper Wisconsin are proving that the soil is fully as productive and desirable as in the southern section, and each year the development is more noticeable.

We want you to visit Wisconsin and look over the convincing prospects for profitable farming and the certain advance in land value over present low prices.

The remarkable growth of grasses and excellent water assure profitable stock raising. Markets are nearby, transportation is accordingly low.

I wish Ford had invited me To take that ocean trip; I'd like to sail across the sea Inside his chartered ship. I'd like to face those naughty kings Behind this war absurd; I'd plainly tell them some few things That kings have seldom heard.

I'd tell the czar to drop his crown, And do it right away; I'd say to Wilhelm, "Knuckle down," For now's the time to pray." And all the other kings should cease The rulership of men, And over all the dove of peace Should flutter, once again.

But it is not my fate to go Across the sea this fall, For Henry doesn't seem to know That I am here at all. The only reason I have stopped The press to make these tricks Is that the war cannot be stopped Without the help of - Bix.
