THE RANGE ETERNAL

A Masterpiece in Range Construction

During the week of August 14 to 19, we will make a special showing of these ranges on our floor, when a special factory representative will be pleased to point out to you the "Thirty Particular Points of Eternal Excellence."

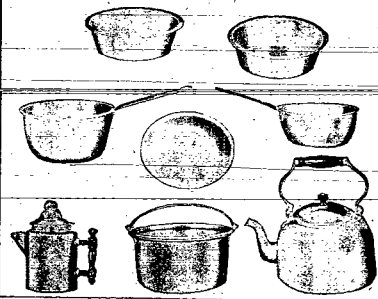

It is built by men who never have marketed a mistake--whose concentrated efforts have ever been towards better quality, and whose range has always been the best of its time.

This range has no heirlooms. It has inherited no old patterns or castings. Its builders have profited by a thirty years' experience in range construction which has taught them what to do and how to do it.

This range weighs more than any other malleable range. They have substituted malleable iron for steel in the end draft, reservoir top and many other places. They have added the heavy steel strengthening back flue lining and the heavy steel strengthening plate on the bottom of all ovens. They are using more rivets in its construction. They have increased the weight of many malleable iron and steel parts which experience has taught them should be reinforced.

ABSOLUTELY FREE!

This set of Aluminumware absolutely FREE with each Range Eternal sold during the week of August 14 to 19.

Among the Producers of Wayne County....

By WARD RANDOL, Staff Representative of the Herald.

H. Finn

This is the fourth year that Will Osterhove has rented his half section of land, which lies six miles west and six miles north of Wayne, Mich. Mr. Finn is fortunate in having a big acreage of corn, 200 acres, with the present bright outlook for an exceptional yield. He also has sixty-four acres of oats and seven acres of alfalfa, besides a big crop of hay. The place is made up of a heavy growing orchard and a heavy grove. The hog on the Finn farm total ninety-five head, all but fifteen head being spring stock. In the yards are fifteen head of cattle, including a small dairy herd.

Frank Kloppling

Frank Kloppling, for the second year, is farming a quarter-section of the property of his father, Henry Kloppling, located five and one-half miles east and four miles north of Wayne. One-half of the land is in corn this year and fifty of the remaining acres are devoted to oats. The rest of the farm is seeded to grasses of good varieties. All of the buildings with the exception of the house are new. It is proposed to put in a complete water system in the near future. Mr. Kloppling raises the Duroc Jersey hogs. His herd contains animals of three ages. There are fifty full grown hogs, twenty-three shoats and ninety head of this spring's stock. He marketed fifty head during the past season.

Adolph Retzwich

Ten miles west and seven miles north of Wayne is the splendid 200-acre farm belonging to Adolph Retzwich, who has been a resident of this county for twenty-four years. Mr. Retzwich is now renting an additional quarter section of land and is producing 150 acres of the winter crop. Corn. He just lately finished the harvesting of 120 acres of oats. Besides the grain crop he has twenty acres of alfalfa and forty acres of sweet clover that require a great deal of care. Mr. Retzwich thinks that the sweet clover is gaining in popularity because of its extreme hardiness. Not the least important feature on this farm is the dairy herd of eighteen cows. The cream is sold, and is netting a good profit. The Retzwich farm is well improved and is within walking distance of a good rural school.

Henry C. Bartels

Henry C. Bartels came to this county as early as 1889, and this makes the eighteenth year that he has lived on the place he is now farming. It now comprises 320 acres and is located six and one-half miles west and six miles north of Wayne. This farm home is equipped with a good variety of buildings which have a splendid background in the well kept orchards and heavy groves. During the past season Mr. Bartels has finished two cars of hogs and one and one-half cars of cattle

the Morrison estate has been farmed for the past two years by George Thompson. This farm is located five miles west and two miles north of Wayne. Mr. Thompson has produced a fine crop of corn on 120 acres. The seventy-five acres of oats were also of good quality. The rest of the land is devoted to pasture and hay. Mr. Thompson does not specialize in stock to a very great degree. At present he has twenty-two head of Shorthorn cattle of good type. He recently sold five head.

W. W. Black

For twenty-six years W. W. Black has been farming a half section of land, ten miles west and six miles north of Wayne. This year he devoted an eighty acre to corn and to oats. There are thirty-five acres of alfalfa and a big acreage of sweet clover, besides the pasture and other hay land. Mr. Black likes to work the five stock of all kinds. He now has only about fifty head of hogs on hand, having recently marketed 200 head. He is now feeding fifty-five head of cattle.

David Evans

This is the third year that David Evans has been operating the eighty acres ten miles west and four and one-half miles north of Wayne. All but twenty acres is in corn this season. The balance is in oats and a small pasture. The place is well improved, a new barn being one of the most recent buildings constructed. Mr. Evans raises the Chester White hogs and has forty head all but five head of which are this spring's stock. He marketed thirty head during the past season.

Lars Larsen

Lars Larsen has been a resident of this county for the last twenty-eight years, and all but eight years of that time he has lived on the place he is now operating. It comprises 160 acres and is located ten miles west and six miles north of Wayne. Mr. Larsen has devoted much time and capital to the raising of good seed of improvements. The barn measures 58x64, and the hog house 24x48. The other buildings are good. In stock Mr. Larsen has the Duroc Jersey hogs and the Shorthorn cattle. There are fifty old hogs and seventy head of spring pigs left in the yards after thirty-five head were marketed. Fourteen head of cattle were recently sold, leaving thirty-two head on the place. Mr. Larsen rents an additional forty-acre crop of corn, forty acres of oats, twenty-five acres of alfalfa, ten acres of hay and fifty acres of pasture.

Alex Laurie

Five years ago Mr. Laurie purchased a quarter section of land ten miles west and four and one-half miles north of Wayne, and has been operating it since that time. This season he has seventy acres of corn,

56x40, is one of the best structures in the county. There is also a splendid garage 26x24. Mr. Morgan specializes in Duroc Jersey hogs. After marketing forty head he has five old long legs, and also fifteen head of water pigs, and forty-two head of spring stock. Nine head of fine draft horses are also kept on the Morgan farm.

H. and G. E. Paulsen

Two of Wayne county's most constructive breeders are Henry Paulsen and his son, G. E. Paulsen, who operate an up-to-date stock farm, just two and one-half miles north of Carroll. Henry Paulsen moved to this place in 1892, and in the twenty-six years of his residence he has established a most enviable reputation as a thorough-going

H. and G. E. PAULSEN

stockman. His son is naturally enthusiastic about the stock and has been a great asset to the Paulsen place. The quality of this farm is Poland China hogs. In the herd at the time of this visit were 110 spring pigs of the big heavy type, much in demand. Then there were twenty-eight head of the old stock.

G. E. PAULSEN

of other sizes. At the fall sale which will probably be scheduled for some time in October, thirty-five head of the spring and fall males will be offered for sale. All of these animals are of the heavy-boned, long stretchy kind that every farmer needs. Another desirable feature is that every animal in the Paulsen herd has been vaccinated and is

considerable acreage of pasture and hay land. The house on this farm is a square structure, 30x30. The barn measures 56x34 and the granary 40x28. An acetylene plant furnishes splendid illumination to the different buildings. Mr. Roberts, after selling one car of hogs, has ten head of old hogs and eighty head of spring pigs in the yards now. The cattle on the place total fifteen.

John R. Hamer

John R. Hamer came to this county in 1892 and about eleven years later he purchased a half section of land, lying ten and one-half miles west and three miles north of Wayne. This place is only a short distance from Carroll, and just a half mile from a rural school. The improvements are fine class. The barn, 68x82, was being painted at the time of this visit as was also the house, measuring 30x30, is equipped with gas lights, water, etc. Mr. Hamer marketed ninety head of hogs, and now has twelve head of old stock besides twenty-five head of fall shoats and fifty-five head of spring pigs. All the hogs were of the Chester White variety. In cattle there are now twenty-eight head in the yards. In addition there are six head of good milkers, which produce high testing cream. One car of cattle were finished for marketing the past season. Mr. Hamer has the following: One hundred forty-five acres corn, sixty-five acres oats, twenty-five acres alfalfa, fifteen acres of hay with the balance in pasture.

W. E. Miller

The first of last March W. E. Miller moved on the W. K. Smith farm, nine miles west and three miles north of Wayne. This place offers 160 acres for cultivation and Mr. Miller has it divided thus: 100 acres corn, eighty in crop, with the remaining fifteen acres seeded to pasture. As to stock he has eighty head of spring pigs, having recently marketed thirteen head of the old stock.

Ross Peterson

Ross Peterson rents a quarter section of the Morrison estate, one mile west and one mile south of Carroll. Of the 160 acres, he devotes seventy-five acres to corn, fifty acres to oats, twelve to alfalfa with the balance seeded to grasses for pasture. As to stock Mr. Peterson has nineteen head of cattle besides a herd of nine milk cows, part of which are Jerseys. The cream produced, which is rich in butter fat, is sold each week. After marketing his pigs he is ready to market about twenty head of fall pigs left on the place.

Stephen Davis

Stephen Davis came to this county twenty-four years ago, but was only a few years since that he bought the 280-acre farm, ten miles west and one and one-half miles north of Wayne. He has been exceedingly busy during these three years getting the place in good shape. He may well be proud of his success. This is a farm of a splendid type. The house, which measures 28x32, offers a pleasing exterior, and furnishes a very attractive interior. It is equipped with electric lights and many more modern conveniences. It also has a bath. One of the proved and improved is a cattle shed. At present Mr. Davis has only thirty head of cattle, all but five of which are yearlings. Last season he marketed six cars of cattle at a high price. There are also five milk cows from which profit is derived by the sale of cream. The Poland China hogs have now much favor on this place. Seven cars were finished for market last year and now there are an even 100 spring pigs besides ten or more head of old stock and seventy head of spring pigs this season. He marketed fifty head of hogs and a few head of cattle during the past year. He now has about twenty head of cattle in the yards. He reports his success in raising corn, fifty acres of alfalfa, ten acres of hay and the balance devoted to pasture and

Fred Stone

Ten miles west and two miles north of Wayne is a splendid stock farm, which for the past eleven years has been operated by Fred Stone. This farm is the property of Mrs. Ensey Moore. The total acreage is 160 acres, one hundred of which are devoted to corn. Twenty acres of alfalfa are in pasture. The balance of the place is in pasture. Mr. Stone is a careful breeder of Holstein Friesian cattle. The accompanying picture shows King Segis

18x60 and one 18x72. The house is modern in every sense of the word and is surrounded by a beautifully kept lawn. A powerful acetylene plant furnishes splendid illumination to all the buildings. In addition to the other buildings, Mr. Roberts has two new 350 acres of choice land in the wheat belt of Canada.

A. T. Darnell

J. H. Massie has been renting his quarter section farm, seven miles west and two and one-half miles south of Wayne, for the last four years to A. T. Darnell. On this place this year there are just 100 acres of corn. Ten acres are just barley planted a big yield when this visit was made. Mr. Darnell has on hand sixty-nine head of spring pigs and thirty-two head of the old hogs. He marketed fifty head not long ago. Besides the fourteen head of stock cattle there are four milk cows, one for daily milk. Mr. Darnell says, however, that the extra work pays, for he takes in a neat little sum each week from the sale of cream.

W. B. Lewis

Eight miles west and three miles south of Wayne is joining the corporation of Winside is the seventy-eight acre farm, which W. B. Lewis bought six years ago. Mr. Lewis has rented an additional fifty acres of the property of H. C. Lindsay. Fifty acres corn, twenty-eight acres alfalfa, sixteen acres alfalfa and a small acreage in pasture. The buildings at the Lewis home are all new. The house is square, measuring 30x30, and has a sixteen-foot porch. The interior is nicely finished and equipped with all the modern appliances. There are two barns, one 28x34, with a sixteen-foot shed, and another 40x40. The hog house is 16x12 and very conveniently arranged. As to stock Mr. Lewis has 170 spring pigs and twenty-five old hogs. He is feeding thirty-four head of cattle. One car of hogs and two cars of cattle comprised the stock shipments of the last year. Mr. Lewis has lived in the county for sixteen years.

Griff J. Edwards

Eleven miles west and one mile north of Wayne is the quarter section of land upon which Griff Edwards has lived for the past thirty-six years. During his residence on this place Mr. Edwards has equipped the building site with a fine set of improvements. The farm is well adapted for raising stock although Mr. Edwards does not make a specialty of that feature. He deals in the Chester White hogs, having ten head of old stock and seventy head of spring pigs this season. He marketed fifty head of hogs and a few head of cattle during the past year. He now has about twenty head of cattle in the yards. He reports his success in raising corn, fifty acres of alfalfa, ten acres of hay and the balance devoted to pasture and

Charles Long

A quarter section of land belonging to the Smith Land company, has been rented for the past three years by Charles Long. This place is located two miles west and three miles south of Wayne. Just exactly half of the land is planted to corn this year. In addition there are thirty-five acres of oats leaving thirty-five acres for pasture building site. Mr. Long does not feed much of the grain to stock, preferring to sell it for cash.

W. C. Davis

Six years ago W. C. Davis purchased an eighty seven miles west and one-half mile south of Wayne and two miles north and one mile east of Wayne. He is operating 125 acres, raising corn, alfalfa and on other parties. Of the total acreage, sixty acres are devoted to

Henry Peterson

Three years ago Henry Peterson purchased a quarter section of land, eight miles west and three miles north of Wayne and one mile east of Carroll. By rotation of crops and other means he has been working necessarily to improve the quality of the soil. This year he has fifty acres of corn and fifty-five acres of oats. The rest of the acreage is in pasture. The improvements on this place are excellent. The house,

Ted Nydahl

Ted Nydahl was born and reared in this county and for the last four years he has been farming a half section of land, seven miles west and one-half mile south of Wayne. This place is the property of J. Nydahl. This is a farm home with the best of improvements. The buildings are of the most up-to-date and attractive type. The other buildings are built in accordance with the surroundings are kept in spic and span shape. Mr. Nydahl has

Henry Peterson

Three years ago Henry Peterson purchased a quarter section of land, eight miles west and three miles north of Wayne and one mile east of Carroll. By rotation of crops and other means he has been working necessarily to improve the quality of the soil. This year he has fifty acres of corn and fifty-five acres of oats. The rest of the acreage is in pasture. The improvements on this place are excellent. The house,

seeded forty acres of his farm to alfalfa and an even greater acreage to other grasses. This leaves him eighty acres each for corn and oats, and two grain crops. The registered Shorthorns are kept on this place. There now being twenty-five head of that strain in the yards. Then there are twenty-five head of other cattle. Three cars of cattle and one car of hogs were of stock produced last season. As to hogs there are now 180 head of spring pigs and forty head of the old stock still on hand.

B. H. McEachen

For the past four years Ben H. McEachen has been achieving a great measure of success in his farming operations west of town. The place comprises a full half section of land, and the building site is just five and one-half miles west on the direct road to Winside. Mr. McEachen has struck a happy medium between grain farming and live stock business. One hundred fat cattle and over 200 head of hogs were marketed from this farm during the last year. This leaves in the neighborhood of 165 head of the young Duroc Jersey hogs. The place was collected there were twenty-two head of fat cattle ready to be sold and sixteen stock cattle on grass. Mr. McEachen is also milking eight cows, realizing a considerable weekly income from the sale of cream. The buildings are of latest construction and have all received a fresh coat of paint this summer. Mr. McEachen has the following crops this season: One hundred seventy acres of corn, sixty-five acres of oats, twenty-five acres of barley with the balance taken up with pasture and alfalfa.

H. C. Lindsay

A well improved farm, which is the property of J. H. Prescott, has been operated for the past sixteen years by H. C. Lindsay. Mr. Lindsay is a thorough-going farmer, and always attempts to build-up the soil rather than to exploit it. This year he has fifty acres each of corn and oats, the remainder being seeded to sweet and timothy. Mr. Lindsay has each year a portion of the land in alfalfa in order that it may receive some of the fertility used by the crop as corn and wheat. Mr. Lindsay handles the Duroc Jersey hogs, and has a fine set of buildings of six spring pigs in addition to fifteen old hogs. His stock total one thousand thirty-seven and then there are seven milk cows. The cream produced is sold each week for cash.

Old wheat flour exchanged for new wheat at the Wayne Roller Mills . . .

for market. At the time of this visit he had just sixty-five head of cattle in the yards and 130 head of spring pigs in addition to the thirty head of old hogs. Mr. Bartels includes his corn crops for the year following: One hundred acres of corn, seventy acres of oats, twenty-five acres of alfalfa. Mr. Bartels served efficiently in the capacity of state representative during the term of 1911-1913.

J. M. Thomas

For three years J. M. Thomas has been renting a 320-acre farm from Robert Mellor. This place lies six miles west and two and one-half miles north of Wayne. For crops this year Mr. Thomas raises the following: One hundred acres of corn, seventy acres of oats, twenty-five acres of alfalfa. Mr. Bartels served efficiently in the capacity of state representative during the term of 1911-1913.

George Thompson

Two hundred and forty acres of

twenty acres of oats, twenty-five acres of alfalfa besides quite an acreage of pasture and hay land. The barn is large, measuring 48x52. The hog house is a structure 24x32 and has a seven-foot basement. At present Mr. Laurie has 150 head of all ages and during the past year he marketed 150 head. There are twenty-two head of cattle in the yards, fifteen head having been recently marketed.

M. Jorgensen

M. Jorgensen is the tenant on a quarter section of the Jones estate. This farm lies ten miles west and three miles north of Wayne and just two miles west of Carroll. Mr. Jorgensen raises eighty acres of corn, thirty-five acres of alfalfa, ten acres of hay and the balance in pasture. The balance of the acreage is devoted to pasture.

A. Morgan

For the last eight years A. Morgan has been practicing intensive farming on his eighty acres, nine and one-half miles west and three miles north of Wayne. He has crossed the Duroc Jersey hogs with the Jersey hogs. One twenty is in corn and two of the twenties are in alfalfa. There are five acres of hay and the balance is in pasture. The barn,

therefore immune from cholera. The herd is headed by Grand Wonder 72385, a massive hog, standing thirty-seven inches high and measuring seventy inches from between the eyes to root of the tail. Anyone who is contemplating starting a Poland China herd, or anyone who wishes to build up and strengthen their present herd would do well to attend the Paulsen sales, which are always held at the Wayne Pavilion, and look over the offerings. The Paulsens also deal in cattle, having thirty-five head of good grade Shorthorns. Seven splendid cows produce a lot of rich cream every week. The crops on the 240 acres are as follows: Ninety-five acres corn, sixty-five acres oats with the balance in hay and alfalfa. The accompanying pictures show the two men who have made for themselves a name as breeders of distinction.

William Roberts

Ever since William F. Roberts came to this county twenty-five years ago he has been living on his place, nine miles west and three miles north of Wayne. It now comprises 240 acres, and in addition Mr. Roberts has another 240-acre patch of ground. He is cropping the 360 acres in this way: One hundred seventy of corn, eighty acres of oats, thirty acres of alfalfa with a

and the other 52x64, one hog house

W. H. Billeter

W. H. Billeter came to this county thirty years ago and two years later settled on a farm, eight miles west and seven miles north of Wayne. By careful methods and continued effort he has built up a splendid stock farm. He is especially interested in Percheron hogs, raising on the average of twelve growling cubs each year. The Chester White hogs are handled on the Billeter place and they are sold by the special farms which are held each year. On the place at the present time are twenty-three head of old hogs, sixty head of shoats and 115 head of spring pigs. Mr. Billeter has a fine set of buildings, especially equipping his place for the handling of fancy stock. The buildings consist of two barns, one 40x50, and the other 52x64, one hog house

We have such a tender and kindly sympathy for Food- and clothing-owners who we were pained to see the variety cuffed around in the recent publication.

The franking privilege gives a congressman in office a long lead in facility of campaigning, and loads the fellow running against him with an unequal task.

We can conceive of nothing lower or more despicable in the line of ingratitude than to secure favor from an individual or an institution and then covertly seek to injure the hand of beneficence.

Now that the speech-making tour of Charles E. Hughes, republican presidential candidate, has begun, it may be said the campaign has fairly opened. Mr. Hughes speaks plainly and leaves no doubt as to what he means. It is evident that he is no quibbler.

Nowhere in Nebraska or Iowa are crop conditions reported as bright and reassuring as they are in Wayne county. Enough moisture has fallen, but not too much. Small grain is coming in well, and growing crops big, luxuriant, and well advanced, will fully mature before the possibility of frost. The rich harvest of all crops in Wayne county this year will bring large returns and cause a wave of most welcome prosperity.

In New York, where it is reported that cats spread infantile paralysis, thousands of the animals have been killed. If cats carry around that disease it is likely they convey other healthful and infectious diseases. It might be well, as a safeguard to public health, and as a protection to the least possible number consistent with the actual cat demand of the community. If the need of a cat is not plainly felt it ought to be mercifully executed.

Many people lack little of distinguishing profitable goods. They have the foundation, having the desire, but lack one little thing—perhaps balance, decision, unflinching persistence or integrity of character—needed to put aspiration over and win the goal of unquested triumph. They are in a constant struggle, and—fully—hoping for a better achievement without avail. Thus, "Many a flower is born to blush unseen and waste its fragrance on the desert air."

The Herald has been criticized for accepting and advertising opposition to the proposed prohibition amendment. Many leading newspapers over the state manifestly share with the Herald the view that those opposing prohibition or favoring it, like those supporting either side of any public question, should be proscribed and determination by popular suffrage, should not be denied a hearing in the advertising columns even though in conflict with the newspaper's editorial policy. It is possible to retract, choose to believe in prohibition, could as reasonably refuse shipments of brewery products. The publicity mentioned cannot be classed with saloon advertising. The amendment is before the people and its opponents as well as its supporters should be entitled to an opportunity to present facts or arguments which may be available. Attempt to deny the privilege of buying space to set forth either side of any question hanging in the balance might be considered an effort at unfair and unwarranted concealment. It would look like a public medium for personal exploitation. Discrimination might be made out in the doubt as to whether the prohibition to present a one-sided policy by voting against it. We believe the time has come to eliminate the saloon, but we doubt our right to issue a hearing to those who disagree with us. One man in view of an advertising, unwittingly questions the sincerity of our position in favor of abolishing the licensed saloon. He also suggests that we must be getting a higher rate than that paid for ordinary advertising. It is our desire to be of course supported by neither

facts nor logic. While filling one's mind with red liquor and getting drunk is most demoralizing, we would suggest to this particularly intolerant critic that there are other evils in the world, and one of them is a revolting and a revolting state of mind that he is willing, without even good ground for suspicion, to misrepresent an individual and impute to him dark and inferior motives. We could agree with the idea of prohibition, but has hindered prohibition, whereas the radical liquor advocate is fostering prohibition. Fanaticism injures any cause which it espouses. We believe the amendment will carry the weight of the common sense and logic which support it, but in spite of them, and because voters have come to regard the liquor traffic through the open saloon, as inimical to health, happiness, and prosperity.

TO BE FAIR AND JUST.
 Edgar Howard in his Columbus Telegram points out what he believes the just policy to follow in handling on the part of newspapers the question of prohibition now before the people. Mr. Howard says editorially:

"If a dealer in lumber should be asked to supply material for the erection of a platform for the accommodation of a political speaker, he would not only refuse to do so, but would pay for the lumber. If a bandmaster should be asked to furnish music for a political rally, certainly those who asked would not expect to pay for the music.

"But when it comes to asking the editor of a newspaper to act as a go-between in the promotion of a political program everybody seems to take it for granted that there will be no charge.

"Just now many country editors in Nebraska are being urged to side with their newspapers over one or the other, for or against the pending constitutional amendment. In the judgment of the Telegram it is not fair for the 'wet' side or the 'dry' side to demand that the country editor shall turn his newspaper over to its cause, without money and without price.

"The newspaper man's advertising space is the same to him as goods on the shelves to the merchant. If he does not wish to do so, then he must look elsewhere for means of taking care of his family. But 'wet' advocates say to the country editor who is opposed to the amendment that it is his duty to print all kinds of argument furnished by the advocates and the opponents of the amendment. It is his duty to turn his entire newspaper over to the 'dry' committee. Surely it is his duty to do so, if he is to be a fair and honest man. It is his duty to the country editor and fowl out of all other classes of merchants. But aside from the manifestly unfair discrimination against the country editor by the advocates and the opponents of the amendment, it is his duty to the average voter furnished by the committees in the present campaign might better go unpublicized. One day—a so-called 'Prosperity League' in Omaha sends the editor of the Herald a copy of a circular of figures to prove that prohibition in Kansas has been a failure, and the next day the other side sends him as many more figures to prove that prohibition in Kansas has been a success. If the poor editor refuses to publish, choose to believe he is complained against by the home-town 'wets,' and if he refuses to publish the 'dry' dope, then the local 'drys' tell him he is in the pay of the 'wets.' It is a sad situation for the editor, whose only way out of the dilemma, and we are glad to note that many country editors are now taking that way. This way points toward dignity and honor at once, and it ends the editor to become the absolute master of his own newspaper space, both advertising and editorial, accepting all acceptable advertising at regular rates, and holding his editorial space as above all price."

Snails Very Nutritious.
 "All snails are edible and nutritious," says Canon Hersey in a book on British and French water gardens. He says that snails are eaten in the garden and in the kitchen. In France are many snails which yield a good profit to their owners. In the French and Italian quarries, snails are used for food. In the French restaurants they are served. "Garden snails" being the most usual.

Snails are easy to raise in large quantities. They need little for making them, but they do not have to be fed.

HICKMAN-WILLERT.
 From the Omaha Bee, August 10: Miss Lillian Willert, daughter of Mr. and Mrs. M. T. Willert of Tekamah, Neb., and Mr. Glen Hickman, son of Prof. and Mrs. H. H. Hickler of Wayne Normal, were married at the home of her brides' grandparents, Mr. and Mrs. Aaron Wilson of Omaha, Wednesday morning at 10 o'clock. The marriage took place in Omaha in the home of the grandparents, who, an invalid, might witness the ceremony.

The Rev. M. L. Mellick of Rising City, Neb., formerly of Grace Lutheran church of this city, assisted by the Rev. W. W. Whelan and Hooper, Neb., performed the ceremony, using the Lutheran service. The bride was given away by her father, Miss Lenora Willert, a sister, acted as bridesmaid. Mr. Ray Hickman of Roundup, Mont., a brother of the bridegroom, was best man. Little "Miss Wynna" Willert carried the ring in a basket of gold-dew. Miss Selma Pettie played the Lohegrin wedding march.

Gold-dew and white asters were passed throughout the house at the wedding ceremony was performed in a bower of the same flowers set in the living room.

The bride was crowned in white taffeta and lace, and carried a stately bouquet of brides' roses. The bridesmaid wore a gown of yellow crepe de chine made with a tunic and angel sleeves and trimmings of delicate lace. She carried sunburst roses.

A great many out-of-town people attended the wedding. Eleven college chums of the bride assisted in the house. They were: Misses Ruth Moore of Chicago, Pearl Fulton of Weston, Mo., and Ethel Gordon, Eva Corbin, Ruth McCook, Nellie Ford, Gene Fletcher, Clara Ford, Edna Shafer, Esther and Mabel Cornish of Tekamah.

Miss Mabel Cornish caught the brides' bouquet. Other out-of-town visitors were: Miss Loretta Relyea of Wayne, Miss Margaret Willert, Miss Wynna Willert, Messrs. and Mesdames G. A. Crammell, E. H. Crammell, J. O. Olinger and M. D. Willert of Tekamah, W. C. Wilson of Tacoma, Wash., Messrs. Oliver, Elmer, and Paul Olinger of Tekamah, Professor and Mrs. H. H. Hickman of Wayne, Dr. and Mrs. E. O. Wilson of Madison and Rev. and Mrs. W. W. Whelan of Hooper, Mr. and Mrs. William Beckenbauer, Wayne.

GOT A FREE BATH
 He Didn't Really Need It, but That Made No Difference.
 JUST SIMPLY HAD TO TAKE IT.

A Visit to a Hospital That Resulted in a Surprise to the Caller and Forced a Conscientious Orderly to Do His Duty as His Gave It.

A very much subdued officer from one of the Indian ships in the port left a Brooklyn hospital the other day on a "free" bath. The man seemed to be in a hurry, and with his blood hot. The officer had been coerced into taking a bath in the hospital; about ten or twelve men may have had the same treatment. The officer was a white-tie—merely a blunder on the part of an officious but conscientious orderly. The orderly himself could speak very little English, and that was partly the cause of the trouble.

The hospital in question has dealings with the merchant marine, and many of the men who come into port are sent to the institution for medical treatment. It chanced that one of the men from that vessel had been taken to the hospital and had a private room on one of the upper floors. The victim of the bath looked to see him and made application to the hospital orderly in the office of the institution. He was able to explain sufficiently that he had come to have a bath in his shipmate, and the superintendent gave him a slip to hand to the nurse, with directions to go to the room where his cot was very comfortably arranged. He went up in the elevator without mishap and encountered a dainty little nurse, to whom in his crude English he explained his intention.

She motioned to him to take a seat on a bench that stood along the wall in the bath, and he just hesitated enough to her talk a little English, and that was all. He was there about five minutes when the orderly came back with a bunch of wet towels. The patient was much surprised to see the towels, and he was there about five minutes when the orderly came back with a bunch of wet towels. The patient was much surprised to see the towels, and he was there about five minutes when the orderly came back with a bunch of wet towels.

"Now take your bath," said the orderly. The sailor didn't want a bath and he didn't want to go to the hospital. "See here, my good man," proceeded his volunteer valet, "you'll have to take a bath, but all I have is about it is a rule of the hospital, and you can't stay here unless you jump into that tub."

It was a delicacy that is not often met with in men ordinarily in city hospitals; this particular official supposed that the new patient might be a bit modest in the matter of a bath. He took the precaution to let him up.

Immediately after the orderly went into a bundle of new soap, and he was going out the trough, the hospital man threw them back again. The man inside sat promptly returned them to the orderly, and the orderly and soap were thrown out, and this made the orderly angry. He went in and out of the room several times.

"You've just got to take that bath, my man, and all that is there about it. If you don't I'll bathe you myself." Miss Martha Hinmericks spent Friday and Saturday with her sister, Mrs. F. H. Kopping.

you to imagine whether or not many of the others think the same. The truth has improved very much in variety, quality and quantity and the boys are quite satisfied with it. Sargeant Daily and Cooks Jennewein and Rogers reside at the cook shack. Following was today's mess: Breakfast, scrambled eggs, hash, boiled rice, hard tack and coffee; dinner, weiners, and sauerkraut, pudding, bread and coffee; supper, boiled potatoes, tomatoes, bread, syrup and coffee. The boys have about five hours' drill a day, as present divided as follows: At 6:35 a. m. we get an hour's hike, then two hours drill and an hour of school until 11:30 a. m. Those who are not on detail then have the time to themselves until 1:30 p. m. when there is another hour's drill. The non-commissioned officers have an hour's school in the afternoon. Such is the program four days a week, Monday to Thursday inclusive. Every third evening, Sunday excepted, comes the (four companies) parade; regimental parade once a week. Friday morning the boys went on their first real hike of about eight miles in length, and it occupied about three hours. No one in this company was obliged to fall out. During the march they were given most of the balance of the day for rest. I understand Friday is to be a regular hike day. Friday evening we turned in the old and were furnished the following equipment: New belt, socks and mess utensils. Shoes, socks, and underwear had previously been issued. Extra shirts have been furnished, but they are of a heavy quality; light khaki clothing has not yet been issued to this company and of course makes the heat much more noticeable. No hay or straw has yet been furnished for the bed ticks. Those who preferred and had the cash purchased cots at \$1.75 each, from a house at 1st Ave.

Fritz Midner has resigned his position as musician. Fritz says there was not enough of either music or pay to suit him. G. G. Madeha has accepted said job of blowing the bugle. L. W. Stallbaum has established himself in a prosperous business. Stallbaum, Brewer, Brown and Maupin got a rattlesnake last Sunday. It was about five feet long and had between twenty and twenty-five rattles. Earl Deuel has a record of exterminating two small tarantulas in his squad tent one evening recently. "Pewee" Mears has been company clerk for some time. He says he likes this position because he is thereby enabled to get excused from so much drill and guard duty. Quartermaster Jones seems to keep right on growing lengthy, but not much sadder.

PAULK WRITES FROM THE MEXICAN BORDER Llano Grande, Tex. Aug. 5, 1916. Dear Editor and Folks at Home: I asked Earl Deuel as to his idea of what is the most talked of subject in this camp. He replied as follows: "I wonder who is going to be sent home." I know it is much discussed and many of the boys are anxious to know. As for Deuel and myself we would like to go home tomorrow. I leave it to you.

I have heard that approximately fifteen in this company will apply for discharge under the dependent relatives clause. Discharges under this rule are being held up temporarily. I do not know what the reason is. Artificer Gilman Weber has gone to the base hospital at Brownsville for a minor operation on his right foot. Cook Perry Rogers and William J. Brown have returned from the base hospital at San Antonio. Charles Rogers has been discharged from the same hospital, receiving also a discharge from the militia and has left for home. Perry feels fine, and William J. is also much better. Earl Deuel has been ill about ten days, but is quite well once more. Earl says he has reduced nearly 25 pounds since leaving home. Larson has also been on the sick list, but is able to be up and aiding declaring himself in favor of a large standing army, Pete Larson not included. P. W. Connelly is assigned to quarters on account of an infection in his left foot. Corporal Hunter has been bothered with a boil on his left wrist. Jerry Jones has left the cook shack and he also plans to leave the camp soon under the dependent family release ruling. Fritz Lerner has returned to the company from the bakery.

Obituary.

After a lingering illness of several weeks Mrs. Joel Hancock passed away at the family home in Carroll about 5:30 P. M. Monday afternoon. Mrs. Hancock underwent an operation three years ago and had apparently regained her health until she was seized with an attack of a gripe during the winter. This lessened her vitality and brought on her former, stomach, cancer, which caused her death.

Ruth Hungerford was born at Stanbridge, Can., November 20, 1842, and was 73 year, 8 months and 17 days old at the time of her death. On April 23, 1861, she was married to Joel Hancock and to this union were born five children, one of whom a son, died in infancy. Soon after their marriage the Hancocks moved to Ridgeway, Pa., where they lived for eighteen years and then moved to Burlington, Neb., in 1877, and then to Carroll in the spring of 1884.

During her thirty-two years of residence in this community Mrs. Hancock had made scores of friends. In early life she had united with the Methodist church, remaining a loyal member until her death.

Besides her husband she leaves the following children to mourn her death: Mrs. J. M. Bovee of Coak, Ia.; Mrs. E. M. Bovee of Carroll; and James E. Hancock of Carroll.

New Engine for Plant.

The Independent Light and Power company which has been set down at noon Tuesday for the purpose of installing a new engine. The old engine was loaded on cars to be returned to the factory and a heavy concrete foundation was immediately laid for the new one, a thirty-five horsepower Muncie. It seems that the old engine, which was purchased by Mr. Morris in August of last year, was supposed to have a capacity of twenty horsepower, but when it was tested only developed about eleven horsepower. A complaint was filed against the company on March 4, but when it refused to take the engine back, the Challenge company through which the sale was made, took the case to an officer to exchange the engine for a new one. This was satisfactory to Mr. Morris and he expects to have it installed and ready for use by Saturday noon.

Home From Auto Trip.

Mr. and Mrs. Lynn Morris who had spent two months traveling by auto through Colorado and Nebraska arrived home Thursday evening. For the past two weeks they have been visiting Mr. and Mrs. Will E. James and Mr. and Mrs. Will Hornby and other friends at Sidney, Neb. They report that Mr. James who bought a farm near Sidney and moved there for his health, has been much benefited. He has gained about forty pounds and cannot say enough in praise of that country. Both the James and Hornby families are planning on returning to Carroll during the winter months. They had just finished harvesting their big winter wheat crop when Mr. and Mrs. Morris arrived in Sidney.

The Baptist Church of Carroll.

(Rev. M. O. Keller, Pastor). Sunday school at 10 o'clock. "The Gospel of Giving," 2 Cor. 9:1-15. Supt. Mrs. W. L. Hurlbert. Sermon at 11; subject, "God's Supervision of All the Affairs of Those Who Love Him," 2 Chron. 16:9. B. Y. M. Y. topic, "Growth of the Mind, Spirit," 2 Cor. 4:40-52. Leader, Wayne Silgett. Sermon at 8; subject, "Christ's Love for Every Disciple," Gal. 2:20. The Lord's supper after the morning sermon. All members are urged to be present.

Rain at Carroll.

The register showed that 1.8 inches of rain fell at Carroll Sunday evening. Corn fields were thoroughly soaked. During the storm a 20-ton stack of alfalfa hay on the Griffith Garwood farm was struck by lightning and burned to the ground. Lightning struck at other points, but no serious losses were suffered.

Guests of Mrs. Roe.

Mrs. George E. Roe invited the ladies of the Methodist church to hold a picnic at her home east of

Carroll last Wednesday afternoon. One hundred thirty accepted the invitation and enjoyed an exceptionally good time. The excellent picnic supper was one of the big features of the occasion.

Improvements. Henry Stinis has now completed the basement for big new residence in the west part of town. Evans Jenkins, Jr., has begun work on his home which is also in the west part of town. W. K. Thomas and W. E. Bellows have ordered their houses wired for electric lights.

At Francis Home.

The young people of the Welsh Methodist church held an ice cream festival last Thursday evening at the John Francis home, southwest of town. A big crowd enjoyed the evening in a social way. The financial returns were very satisfactory.

Ice Cream Sold.

The "Home Guards" and "Mother's Jewels" of the Methodist Sunday school sold ice cream and cake on the William Thomas lawn last Friday evening. After all expenses had been paid the young people secured \$1.00.

Auto to Stanton.

Twelve young people autoed to Stanton early Tuesday morning and enjoyed a day's outing. Fishing was one of the chief amusements of the day.

ferred a great deal of pain before the bones could be set. On the same day Mr. and Mrs. August Paul's daughter, little Miss Frances, also slipped while playing on the walk and fell, fracturing a bone in her left arm. Tuesday noon True Dumont, while cranking a Cadillac car, struck a nail with his right arm. He was taken to Dr. C. B. Coe's office for an X-ray examination.

Line of New Posts.

A string of thirty new hitching posts have been put in just south of the Rexall drug store. The posts are iron and are set in a heavy bed concrete. A concrete curb has also been built to keep the water from flooding around the posts as it has formerly done. This Graves paid for the material and the City paid for the labor on the job. The farmers will certainly appreciate this improvement.

From Pender Times: J. J. Chilcott of Leslie preceded Wayne county, died last Sunday at his home after a long illness during which time he bore his sufferings in great fortitude and patience. The funeral occurred Tuesday from the Presbyterian church at Pender, Rev. A. G. Martyn, the pastor, having charge of the service. The remains were laid at rest in the Pender cemetery. Six of the seven sons acted as casket bearers. The funeral was largely attended.

J. J. Chilcott was born near Winchester, Virginia, November 20, 1854. In the fall of 1870 he located in Missouri with his parents and a few years later moved to Harlan, Ia. He located on a farm near Pender in 1894 where he still resided at the time of his death. Mr. Chilcott died July 30, 1916, aged 61 years. 7 months and 10 days after a long illness of eighteen months having been bedfast and helpless since last November. He was united in marriage to Miss Bell Brown of Harlan, Ia., in 1884, and to this union were born seven sons. They are: Herman, Harvey, Clayton, Lee, Lytle, Lester and Budd, also three daughters, namely: Jessie, Edna and Ethel. His mother, with five brothers and three sisters also survive him. His father having died about thirty years ago. Mr. Chilcott was a man highly

esteemed and beloved by all who had the good fortune to know him. He was square and honorable in his dealings with his fellow man, and his whole ambition being for the welfare of his family. He will be missed in this community by friends and neighbors as well as the dear ones he has left at home to mourn his loss. The family have the sympathy of all in their bereavement.

THE FIELD OF BUSINESS.
 Sioux City Journal: Crop damage and labor troubles were featured in the week's commercial reports. There was no return to normal business. The report suggests that the recently manifested tendency toward stiffer rates without suggesting the possibility of tight money.

New high marks for 1916 wheat prices were set during the week. The winter wheat harvest is out of the way, but the spring crop is still a point in the northwest. From both sides of the Canadian border there have come persistent reports of damage from the deadly black fly. Though Canadian government reports insisted that the damage had been exaggerated, traders regarded the situation as serious and their fears were reflected in a buying movement that sent prices skyrocketing. On Saturday a 15-cent rise had been scored for the week. Within the last four weeks a rise of more than 25 cents per bushel has been recorded. There has been a more moderate sympathetic rise in the price of corn.

The settlement of the garment workers' strike in New York was followed by a strike of street railway employes which may be practically all the surface lines of the metropolis. A similar strike is said to be brewing in Philadelphia. The threatened strike of the railway trainmen, affecting 225 railroads and 400,000 men, has reached its crucial stage. The trainmen's unions have authorized their officers to order a strike and the order may be issued by the last of this week unless a settlement by arbitration is agreed upon in the meantime. It is a virtual certainty that the railway man-

agers will not yield to the demands of the trainmen and that the trainmen will not modify their demands. The government conciliation board, it is hoped, may exert pressure enough to avert a strike. Should it fail, congress may be forced to take action of some sort to prevent a general suspension of rail traffic.

Negotiations for the placing of a Chinese government loan in the New York market have failed for the present, but efforts to secure the accommodation have not been abandoned. American business interests are eager to favor a footing in China in the existing favorable situation and it is realized that financial factors are the basis upon which foreign trade is built. The financial arrangements are proving difficult, but not hopelessly so.

Opinion to the effect that the war is to be brought to a close this year is losing ground. While the tide seems to have turned in favor of the allies, the fighting everywhere is far from the borders of Germany and it is becoming evident that on the defensive Germany may be able to prolong the struggle indefinitely—possibly until the allies are tired of bearing the financial burden. While there are increasing indications that both sides would welcome peace, indications that either side is prepared to yield the concessions necessary to make peace feasible are regarded as lacking. Recent renewals of larger orders for munitions in the American market help to discourage the theory that the allies are counting on an early peace.

Just the Thing for Diarrhoea.
 "About two years ago I had a severe attack of diarrhoea which lasted over a week," writes W. C.

Jones, Bureau, N. D. "I became so weak that I could not stand upright." A druggist recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. The first dose relieved me and within two days I was as well as ever." Many druggists recommend this remedy because they know that it is reliable. Obtainable everywhere.—Adv.

THE TEST THAT TELLS
 Is The Test-of-Time. Many Wayne People Have Made This Test.

Years ago this Wayne citizen told in a public statement, the benefit derived from Doan's Kidney Pills. The statement is now confirmed—the testimony complete. Instances like this are numerous. They doubtly prove the merit of Doan's Kidney Pills. Can any Wayne reader demand more convincing proof? It's Wayne testimony—it may be investigated.

Mrs. Ira Hoshan, Wayne, says: "I was confined to my bed for several weeks by an attack of La Grippe and on recovering found that my kidneys were badly disordered. I suffered intensely from sharp, darting pains across the small of my back and there was much lameness through my loins. I did not rest well and the kidney secretions were unnatural. After taking Doan's Kidney Pills a few days, I felt better and in about three weeks, all symptoms of the trouble disappeared. I have never had a return attack."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Hoshan had. Foster-Milburn Co., Props., Buffalo, N. Y.

Nebraska is, say what you please, Sandwich, a bit too hot.
 The heat is 70 degrees
 My temper has upset,
 And I am prone to kick the cat
 And scold the folks because of that.

And yet, this weather that offends,
 And makes us feel forlorn,
 We surely know the good Lord sends
 To benefit the corn;
 And corn, unless the price should drop,
 Is our great mortgage-lifting crop.

So, welcome to the summer suns
 That heat upon us now,
 And welcome to the sweat that runs
 Adown our back and brow;
 And welcome to the fly and gnat—
 No, I'd not go so far as that.

In time the days will shorter grow,
 The thunder-storms less red,
 The mercury will dip below
 Its present altitude;
 Then we will sit and wonder why
 We growled in August and July.

Heaven help the man who sets his face
 To find upon this sphere
 In all the world down here,
 Our own Nebraska, is I dare
 To say, as good as anywhere.

Here harvests fair the autumn deck
 With many a golden sheen;
 Here, too, the spotted cow called Speck
 Grows fat in pastures green.
 To praise the state now takes some nerve;
 But I can do it, you observe.

NOTICE OF INCORPORATION.

Notice is hereby given that the undersigned have associated themselves together for the purpose of forming a corporation under the laws of the State of Nebraska, to be known as the Wayne Investment Company. The principal office of said company shall be in Wayne, Nebraska. Does Prohibition Prohibit?

Testimony of Two Reputable Witnesses of Des Moines, Iowa

The First Witness:

Extract from an editorial which appeared in The Des Moines Evening Tribune of June 6, 1916:

"The Evening Tribune has asked a half dozen men recently who ought to know, and they agree that liquor can now be bought openly at more places than when we had saloons."

The Second Witness:

Extract from a news article, prominently displayed on the first page of The Des Moines Capital of February 19, 1916:

"Des Moines banished the saloons a year ago last Wednesday.

"But Des Moines today is consuming liquor at the rate of a million dollars' worth a year—mostly whiskey.

"Des Moines is receiving two carloads of liquor a day.

"his is at the rate of 750 carloads a year or fifteen trainloads of fifty cars each." * * *

Here we have the testimony of two responsible Iowa newspapers that Statewide PROHIBITION does not prohibit.

In Nebraska, under our Local Option, High License Law, the people of any community are granted an opportunity to say whether or not license shall be issued governing the sale of alcoholic beverages.

In future articles we will present evidence proving that Nebraska, under that law, has made great progress from a moral as well as from an economic standpoint.

The Best Laxative.

To keep the bowels regular the best laxative is outdoor exercise. Drink a full glass of water half an hour before breakfast and eat an abundance of fruit and vegetables, also establish a regular habit and be sure that your bowels move once each day. When a medicine is needed take Chamberlain's Tablets. They are pleasant to take and mild, and gentle in effect. Obtainable everywhere.—Adv.
