All the Family HEALTHY

Yes, they're all healthy and happy because among other common sense health principles they observe, they breathe fresh air in the home. And they all keep warm and comfortable in the coldest, blustriest weather, too. That's because their home is economically heated with a

Warm Air Furnace Does Double Duty

A warm air heating system is just as durable, serviceable, reliable and trouble proof as any modern, high-grade heating system. And it doesn't cost any more than as much to install, nor to operate afterward.

But this system not only heats but VENTILATES. It forces out vicious green-laden, poisonous air and constantly replaces it with a steady stream of fresh, pure air circulating to breathe and a million times more healthful.

If you're going to have a new heating plant, you might as well have the best—and the most healthful.

PRYOR-DARCY.

The following extract from the Creighton News tells of the marriage of F. R. Pryor, son of Mrs. M. A. Pryor of Wayne:

Miss Catherine Eleanor Darcy of Francis Keymouth, Pa., was united in the holy bonds of matrimony at 6 o'clock in St. Ludger's Catholic church Wednesday morning, Oct. 3. Father Wilhelm's joyful celebration of the mass and of being at the marriage ceremony. Miss Marie Darcy, sister of the bride and Richard Kain were attendants to the wedded couple.

The bride was handsomely gowned in a beautiful costume of light pink satin with diamond jewelry and pearl trimmings. She wore a wreath and veil of exquisite design, the wreath being adorned with natural flowers. She also carried a bouquet of bridal roses.

The bridesmaid was costumed in a lovely gown of pink silk and lace. Both groom and bridesman wore congenial costumes of subdued colors.

Following the marriage ceremonies a sumptuous three-course wedding breakfast was served for relatives at the spacious home of the bride's parents on north Redick avenue.

The married couple left on the forenoon train for Wayne and other places on a brief honeymoon and upon their return will abide in the Mrs. Dowling property for a projected period.

Mrs. Frank Pryor is the eldest daughter of Mr. and Mrs. John P. Darcy, Sr. By her charming personality and refined culture she has won for herself many friends in this community where she has grown from childhood. Mr. Pryor is one of our leading business men having active management of the Creighton Lumber company. He is very popular with his fellow citizens. News unites with the very great number of friends in extending congratulations to the newly wed, and in wishing them an abundance of happiness in their journey through life.

WAKEFIELD.
Miss Margaret Forbes of the Herald staff is editor of this department, and will visit Wakefield every Tuesday. Any suggestions for the department will be gladly received by her. She is also authorized to receive new or renewal subscriptions.

Late Improvement.
Wakefield business men seem to have caught the fever for the latest innovations in the line of machinery. Dr. C. M. Hyspe went to Omaha the first of last week and returned with a big auto haul. It is a handsome car, in fact an excellent one. The advantage of such a machine is that it can easily be converted into an ambulance.

Washburn School.
The Washburn school is having a social at the county fair, during which time all school children will be given the opportunity to see people enjoyed themselves to the fullest extent.

Republican Candidate for Sheriff of Wayne County

He will appreciate your vote, and offers his past official record for the consideration of voters.

FRANKING PRIVILEGE

Norfolk News: Dan Stephens wasted a postage stamp on the envelope that was sent to newspapers containing his speaking itinerary. Dan isn't usually so careless. Last week every paper in the Third district got a letter from him in the name of Dan Stephens, in violation of the franking privilege. It has been suggested that the shortage in postage stamps in this country may be the result of Dan's prolific use of government stationery to be sent out to the voters under a frank.

Pierce Call: Congressman Dan W. Stephens, under date of September 25, 1916, advised that the bill changed from Washington, D. C. to Fremont. There is nothing of particular interest about this only that a letter, which of course was a private nature, was sent in an official franked envelope. In other words our Congressman is using government stationery to transact his private business, which is in direct violation of the postal laws and regulations. But this is nothing new. The practice of using the franking privilege has become notorious, yet the people shut their eyes and help Dan W. Stephens to do it. It would cost Wm. P. Warner, republican candidate for congress, \$1,000 to send a single letter to each voter in this congressional district. Dan Stephens, by violating the government franking system, sends a letter to each voter during a campaign without costing him a single penny.

CONSCRIPTION?

Lincoln Journal: The assertion of the socialist candidate for president that the national defense act passed by the last congress contains a gross conscription provision has enough plausibility to deserve our attention. Mr. Benson has not been alone in putting this interpretation upon the law after receiving the alleged conscription provision as a joker smuggled into the bill by its sponsors without the knowledge of congress. The American must against militarism agrees with Mr. Benson and makes a public statement to this effect.

The law as it originally passed the two houses of congress provided for the establishment of reserve battalions in time of war. These were to be recruited from citizens recruiting at home for filling up the depleted ranks of the regiments at the front. In the matter of these reserve battalions it is insisted that in case enlistments do not keep the reserve battalions at full strength "a sufficient number of the members of the militia shall be called into the service" to maintain the battalion at its proper strength.

Then the two houses amended the word "called" had been changed to "drafted." It is charged that the change of the committees having the measure in hand, Representative Gray of Virginia and Senator Chamberlain of Oregon, did not explain this change to their respective

houses as the rules require. The conference report was accepted, we are told, without the knowledge that a draft clause had been inserted in the bill. In other words, the bill was jockeyed.

There was enough fire back of this smoke to bring about the introduction, before congress adjourned, of a bill to repeal the military provision. Representative Gray and Senator Chamberlain do not appear to have explained themselves yet, at least not satisfactorily, and there is said to be a great deal of unexpressed indignation among congressmen over the way the thing was done. It is a distressing episode and more will doubtless be heard from it.

UNNECESSARY

Aurora Republican: Brother Carson of the Anti-Saloon League is said to be industriously collecting signed pledges from candidates for the legislature to support certain bills in the event of their election, and threatening to leave their names off his list if they refuse. A government mile has nothing on Carson in the matter of gall. There is absolutely no excuse for his interference in such a manner. His indignation, which is dry as a bone and whose legislative candidates on both tickets are avowed supporters of the prohibition people and the temperance cause, but he insists that they must sign up to support measures of questionable propriety or be blacklisted by his organization. This is self-indulgent sponsorship by a few holier-than-thou fanatics of the Carson type is becoming decidedly obnoxious to a great many people. It is to be expected should happen to the prohibition amendment, this fall, as it did happen to the woman suffrage bill. It will not be difficult to fix the blame.

TAMMANY FOR WILSON.

Lincoln Journal: It is reported as a matter of news that Tammany intends to support Wilson. Isn't it a matter of course that a democratic machine should support democratic candidates? At all political machines are independent. If the election of a party candidate doesn't promise to be good for the machine, the machine, whenever found, always takes pleasure in his defeat. Tammany never supported Mr. Bryan seriously. Political regularity is only for the rank and file who stand outside of the political inside.

ASKS DAMAGES.

Madison, Neb., Oct. 2.—Alvina L. Lueltke has commenced action in the district court against Ferdinand Peters, Radolph Rohde, N. H. Neumann, William F. Smith, Roy Welch, M. F. Blank, Arthur Kaun, Ralph L. Beveridge, Emil Kuehn, Michael Kemplek, Ernest A. Harms, Albert Silbeck, Joseph Silbeck and Thero Frey, present and former saloonkeepers of Pierce and Norfolk, and their bonding companies, to recover \$27,000 damages, alleging in her petition that her husband, William Lueltke died December 2, 1915, of chronic alcoholism brought about by intoxicants purchased of the above saloonkeepers.

ATCHISON GLOBE SIGHTS.

Every citizen who has a man who makes people wonder how he makes a living.

The finishing school may have that effect on father's pocketbook if he isn't wealthy.

Probably the most thoughtful person is a woman who thinks twice before she speaks.

Ambition to get anywhere, must consist of something more forcible than wishing for things.

The father of several grown daughters knows who controls the balance of power in his home, all right.

If your inclinations are that way you will have to restrain yourself considerably to avoid being a scold.

We are also disposed to be suspicious of the person who makes a search for a vivification in his life work.

It may be hard to convince a healthy man that health is more important than wealth, but a sick man understands it.

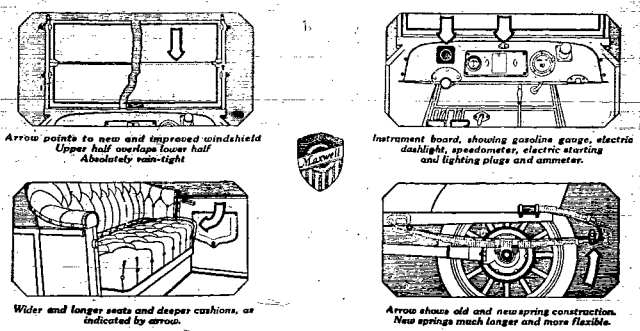

Careful investigation fails to disclose why some men will work like horses in pursuit of sport, but show anything called labor.

As another little problem for today, will you be able to figure out why it takes so much longer to establish a good reputation than a bad one.

SHORT-HORNS.

Grandsons of the celebrated imported Choice Goods 186802, the blood that topped the big Short-Horn sales of 1916, at Bellows Bros, Marvle, Mo., June 14, 1916, at \$1140 average for thirty-four families, John S. Lewis, Jr. & Son can supply you at the right price. Britton Goods 339757, son of imported Choice Goods, heads their herd. Best cattle for the money in the United States.

4 New Refinements

MAXWELL Motor Cars are now equipped with a new and improved windshield, still longer and more flexible springs, wider seats, deeper and softer cushions, dashlight, gasoline gauge, and other equally important refinements.

To the generous value heretofore present in the Maxwell product, these extra improvements have now been added.

This is in line with the Maxwell policy—so widely advertised—not to change the Maxwell in any essential detail, but to continue improving it so that it will always be a standard, recognized product, constantly abreast of the best practices of the industry.

Notwithstanding the superlative and sometimes confusing claims that are made in behalf of various automobiles, we restate our sincere conviction that Maxwell Motor Cars offer more real value per dollar than any other car in the world.

This too, is the belief of the thousands and thousands of Maxwell owners. And these beliefs are supported by actual and tangible facts. We actually know that within the entire history of the automobile business, no motor car—in any class or at any price—has equalled the Maxwell in honest dollar-for-dollar value.

And if you will examine a Maxwell, ride in it, compare it with other cars, consider its splendid record, reputation and past performances, you too, will know it. Call or phone for a demonstration.

FARM BARGAINS

160 acres 7 miles northwest of Wayne, 4 miles east of Carroll, mostly good quarter of land for a man who wants to raise a good bunch of stock; good lowland pasture and plenty of good-water pipe and term's right, will carry \$12,000 five years at five per cent.

100 acres five miles from Windsor; good improvements, running water, good pasture, twelve head alfalfa, all fenced, and cross-fenced, can give good farms. Price \$90.

I have several other good bargains in 80-, 160-, and 320-acre farms, the kind that never go out of the market. Don't hesitate to ask me about them.

THE FIELD OF BUSINESS.

Sixty City Journal: Last week was the fourth week of the most enthusiastic stock buying movement Wall street has experienced since the boom that accompanied J. P. Morgan's huge industrial consolidations. Every business day for four straight weeks more than 1,000,000 shares of securities changed hands on the New York stock exchange. One day the 2,000,000 mark was passed and several times was closely approached. United States Steel has led the procession. Steel common, which once sold under 10, is now quoted at 124. Other securities have risen in the same proportion, as have copper, sugar, shipping, motors, munitions and other industries. Bulls have pointed to the labor war by the public interest in the stock market. In the main, popular optimism over business prospects is lack of the buying. Other September dividend and interest disbursements totaled \$143,000,000, as compared with \$115,000,000 in September of last year. This offers an index of the corporate prosperity that now seems so attractive to suckers for investments.

In the industrial field a number of existing or impending labor troubles offer the only offset to the general trend of activity. The closing of last week made it reasonably plain that the effort to induce a general sympathetic strike in New York City in behalf of the striking team employees was not to be successful. The street railway strike itself appears to be a failure.

There has been a cold weather

put an end to summer merchandise and gave merchants a chance to get action on fall and winter goods. The receipts comprised 11,400 cattle, 3,275 hogs and 1,879 sheep.

September week established a new high mark Friday, when it touched \$157.

Last week was one of the busiest weeks in the history of the Sioux

City stock yards. Monday's run was the largest single day run ever recorded there. The receipts comprised 11,400 cattle, 3,275 hogs and 1,879 sheep.

Frost last week did a little damage to the corn in the east—middle west and far west. However, a bountiful crop will soon be in readiness for husking. For the most part, the weather has been favorable for fall farm work and corn cutting, potato harvesting, threshing, plowing and preparations for winter seeding proceeded satisfactorily.

Bank clearings for the week aggregated \$1,874,307,486.

W. H. BILLITER'S LA PERCHA STOCK FARM

Ton-Sized Percherons Make "Pharaoh's Horses" Look Like Bronchos

A Great Showing of Chester White Hogs—A Prolific Strain in White Pork

GALETAS 62788
A Famous Percheron Sire.

A BILLITER CHESTER WHITE

It is a good thing for Pharaoh and Sobah that they have a long time to do. If they were still wearing their blankets we would dare them to lead out some of their famous bronchos and march them up with Billiter's Percherons, exhibited in this page. We know the horses of that giant pair had outstanding veins, protruding eyes, distended nostrils, sleek ears up, hooked tails and were well groomed by Billiter. He has Billiter's horses are not of an ordinary, tethered on chains. They eat oats and their tails in Norman lineage, and we prize them.

BETWEEN CARROLL AND THE NORTH STAR

If you want to find the La Percha Stock Farm follow the north side out of Carroll for three and one-half miles and on the west side of the road you will find the place. It is marked by a well-known landmark, the heavy pasture of big horses and a barnyard full of white hogs.

Billiter was born in Iowa, but his life for the most part has been lived in Nebraska. Mrs. Billiter is a very excellent lady and has always been an equal contributor with her husband to the Billiter home and success.

For fifteen good Wayne county years Billiter has been breeding Percherons and you will always find from forty to fifty well-bred and well-bred drainers on the place. If you have any doubts about his raising prize stock, go to his home and look through his barns, and if this is not enough, go into the house and count sixty-four ribbons and a sack full of medals, which have been taken in the last few years by the horses on the place. Ribbons taken by horses that have been sold with the horses. These ribbons come from the lists of three great states and run the gamut of color from pink fourths to purple champions. In fact, the color mark the steady rise and progress of the breeder.

Billiter's Percherons are famous for their strength and endurance. They are well-bred and have a long history of success in the show ring. They are also known for their ability to stand up and tell their own story.

AND "PIRON" GATHERS FIBBONS

Piron's horses, three-year-old sires, that have proved of his own. In 1914, he won the title of sire of the best stock in the world. He is the American bred sire of the best stock in the world.

FAIR RESULTS ARE FAIR.

There is Billiter's horse record at the fairs. At Lincoln he took eight ribbons and eight medals.

Three thirds six seconds, four firsts, three champions eight medals. He won more champions than any other breeder.

GREAT FAMILY OF CHESTER WHITES

Snow Colored, Big Boned, Long Bodied, Prolific Hogs.

For three years Mr. Billiter has been breeding Chester White hogs and has perfected a rare type, prolific family. Better hogs than his Chester Whites could be found in the country. He has twenty head of great matrons, that are long and heavy and ready to match quality points with matrons of any other breed. At the head of the white herd he has a nine hundred pound boar, named, Giant Hero, that is a top son of Sweep Stake Giant and traces back to the twelve hundred pound boar Sweep Stake.

He has another great boar, that he has recently purchased from Lloyd Hinkle of Greena, for a price that topped Hinkle's sales. The young girls and sows that will be offered for sale next February, are bred to this outstanding boar.

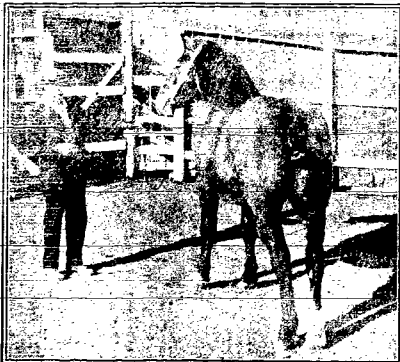

On the place today are two dozen fall gilts, and one hundred and fifteen spring sows of great size and range. Out of this litter he has forty-seven fine young males ready to go out onto the farms of Wayne county and become great producers.

A CHESTER WHITE INCUBATOR

Billiter's first sow was Avoca Bess. He owns her yet. She has a record for Rooseveltian families. In four years she has farrowed eight litters, or a total of one hundred and four, living pigs. One year ago last spring she farrowed sixteen; last fall she farrowed eighteen, and this spring she climbed up to twenty. This fall this will probably go up to twenty, and make it an even two dozen.

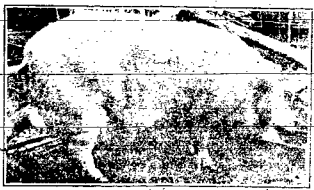

This spring her descendants sold for \$1,640 more. Avoca Bess is clean, or grand dam, of 1700 descendants that will be offered in the February sale. Buy into this family, she bears a great name.

How Catarrh is Contracted. Mothers are sometimes so thoughtless as to neglect the colds which their children contract. The admission of the mucous membrane, at first acute, becomes chronic and the child has chronic catarrh, a disease that is seldom cured and that may prove a life burden. Many persons who have this loathsome disease will remember having had frequent colds at the time it was contracted. A little forethought, a bottle of Chamberlain's Cough Remedy judiciously used and all this trouble might have been avoided. Obtainable everywhere and that may prove a life burden.

Shall We Discard Local Option and Adopt State Prohibition?

Under the existing Local Option Law, it lies within the power of the citizens of any community in Nebraska to adopt local prohibition for their own city, town, or village.

In every community in this state absolute control over this question lies in the hands of the majority of the voters. No interference from the outside is possible; nothing can thwart the wishes of the majority in the city, town or village, with respect to the question of license or no license.

Many communities in this state have availed themselves of the power granted to them under our Local Option Law, and have adopted local prohibition for their own community. Where there is a dominant LOCAL public sentiment in support of that policy, it is possible to make the no-license policy respected and obeyed.

There are, on the other hand, many communities in this state where it is the opinion of the majority of the citizens that the license policy is better adapted to their own community. Where that is the prevailing sentiment, the community is permitted, under our existing Local Option Law, to license the sale of alcoholic beverages—subject of course to the provisions and restrictions of the general state law.

In neither case, is a policy forced on a community from without. The principle of Home Rule prevails.

It is now proposed to substitute for this policy of local self-government, the policy of state-wide prohibition. This prohibition policy is not intended for the relief of communities in which the no-license policy already prevails, but is designed to FORCE such a policy on other communities against their will.

The result, as the experience of other states has abundantly established, would be disastrous in every city and town on which prohibition is forced. It means, where dominant local sentiment is opposed to prohibition, lax enforcement of the law, the dividing of such towns into bitterly hostile factions, the reign of the spy and of the informer, the rapid growth of crime—and in the end it means higher taxes.

Against the substitution of such a system for that under which Nebraska is now operating, everyone having the best interests of the people of this state at heart, should solemnly protest.

THE REAL ISSUE.
Fremont Tribune: The issue in the amendment campaign is purely one against the saloon. The amendment aims at the death of that institution.
Since, therefore, the fight against the saloon opponents of the amendment must defend that institution, it flows many of the friends of it are loyal to the cause of something of benefit to the community?
Defending the saloon in the face of its record of violations of Sunday closing, of selling to minors, of debauching its patrons, would be as if to engage in the impossible task of making black appear white.
And to argue for the moderate use of the saloon's stock in trade is to ignore the devilish nature of whiskey. Unlike bread a sufficiency

of it is necessary for the health of the State of Nebraska, L. L. McKeon, the county treasurer of Wayne county, will on Monday, the 6th day of November, 1916, between the hours of 9 o'clock a. m. and 4 o'clock p. m., at the office of the county treasurer in the county court house in Wayne, in said county, offer at public sale and sell the following described real estate, or as much of each tract of land as to him it shall be necessary for the amount due thereon for the taxes of the year 1915, as herein stated together with all expenses for advertising, costs and fees that by law have or may be accrued at the time of payment.
