W. O. HANSSEN

CANDIDATE FOR COUNTY TREASURER

On the Democratic Ticket

What I have been. What I am to-day. What I promise to do if elected.

Having been called on to tell Wayne county people who I am and what I was, I will endeavor to tell you in my own plain words and thereby fulfill the duties I owe the voters of Wayne county, so they may intelligently judge of my ability to handle the affairs of the County Treasurer's office, the place I seek and whether I am worthy of being entrusted with the duties of the office. No one knowing me better than I know myself I take this means, and challenge anyone to deny or repudiate any statement I may hereafter make.

I was born near Hamburg, Germany, on November 7, 1875, and will be exactly 41 years of age on election day.

My father being destined to work and toil for little compensation and finding he had no success in the old country, he emigrated to Iowa in 1888 with mother, who is now living at Holstein, Iowa, and five of us children, five others having preceded them to this country. The first summer I spent on the farm and the winter in school, I being very anxious to master the English language. Two years were thus spent, at work and school. During the last year, a nine-month period, I earned at the same time \$15.00 a month for janitor work. After this I started to learn the butcher's trade and being used to small wage in previous years, \$15.00 per month, and board looked good and the savings which were at least two-thirds of that amount, went to my parents who were growing old and trying to pay for a little home, which by our first year accomplished.

Being of an adventurous nature I left home in 1894 to see the world, and I did. Working at various trades and labor I had the fortune or misfortune, whichever it might be, to land in St. Louis, Mo., sick and penniless in the winter of 1895 and 1896. The Sisters' hospital there took me in and with motherly care made me again fit to face the world. I was too proud to write home for help, and being anxious to demonstrate that I could make my own way I immediately secured a position as a farm hand near Cedar Rapids, Iowa. With my summer

savings I then started out and in 1898 I landed in Minnesota and started to learn the bricklaying trade which I soon mastered. I married in 1900 and my wife and I left immediately for Colorado. Locating at Colorado Springs I soon became foreman for a Denver contractor which position I held until leaving in 1904 on account of my wife's health.

We then located at Randolph, Nebraska, where I went into the butcher business with my brother. I came to Wayne

I am also doing a little farming and doing what I claim is creating a better sanitary condition and making a saving for the people of Wayne by gathering the refuse which would otherwise be left in the alleys and forming breeding grounds for disease, vermin and germ carrying insects. I ventured to overcome an annual expense of \$1,100 on a 40-acre tract to work out this scheme and am satisfied it will prove successful and leave a little balance for myself.

Failure in my undertakings I have never known, with the exception of being once defeated for the office of County Treasurer when I had been but a short time in the county.

My dealings with perhaps one-third of the people of Wayne county for a number of years since should enable you to place judgment this fall. I have not obtained great wealth and am only to be what I make myself. I have always been a cheerful contributor whenever needed for individual or public purposes to better conditions of someone or something. One commandment I try to follow most. "Do unto others as you would have them do unto you."

The fact that I am now serving my third term as City Councillman in Wayne should prove that my home people who know me have confidence in me.

I have always attended my own books in business. Have gained much experience and knowledge through various occupations. I will please the public in general business matters as I have been in contact with men in all stages and conditions of life, socially and otherwise. I claim the ability to perform all that is required of me should I be successful in obtaining by your vote the office I ask for.

I promise you to perform the duties that may be entrusted to me most faithfully and with efficiency second to none. Whether Democrat or Republican, judge me from a non-partisan standpoint. Trusting that you can conscientiously support me in this campaign I am,

Yours for service,
W. O. HANSSEN.

Hornby Bros., Winside Breeders of Big Boned Poland Chinas

All Classy and Black Top Notchers. Public Auction of Forty Spring Boars at Home Farm Oct. 21st. All Fine Selects, Thrifty and Immune. Young Breeders Have Been Successful. Watch the Smoke.

Right here is where you are to read and having concluded please don't stop until you get out and look at the story that is supposed to be readable. It has pictures to make you see and you will see there is no other side to the story. The villain is not hanged in the last chapter. We turn no rhetorical horridities, or sentimental sentimentalities. We have no flowery words for a plain story of every day farm life and stock breeding. You are going to tell in plain words and in simple sentences the story of HORNBY BROTHERS POLAND CHINAS.

There are two hundred and fifty head of hogs on the Hornby place and they are all of the highest quality. They are all of one blood, like the best of the breed. They are Poland Chinas. They have the black body color and the regulation white marks. They are growthy, and if you know any of the phrases that will describe the long and longitudinal frames, please speak out, we will be glad to set them out for you. They are a sale. They are going to have a sale of pure bred males and break into the circles of hog raisers with a view to a heavy trade in stock. So shut your eyes and fashion the hog on the Hornby place, just as you see it. Make it a type large, the neck long and give them fine appetites for alfalfa and corn. Use a thin bone and build a frame and go for it. Make it a type large, the neck long and almost touch, corners. Mark out the hams and shoulders and make so conspicuous that they will look as if they were a part of the thought and put onto the hog after he was built. Give them well shaped heads with drooping, alert ears. Put large snouts in the face and give them each three or four white teeth. Stretch them out good and long—snouts that they will have to go slow around curves. Make the legs stand well out on the corners. Put them on high enough so that some might call them legs. Make the hooves glossy and rather thin. Trim the lower end of the legs with good will. Put the feet on the same of the Hornby herd of pure bred Poland Chinas. Read on now and find out more of the things that have been done on a story that has been produced, but first think a moment about the demand for lard and pork.

SIDE MEAT, HAMS AND SAUSAGE
The hog business will never be better. The world has long been in the hands of the poor and a luxury with the rich. Side meat, hams, and sausage and cured meats on store shelves and lard and pork.

ner point than grows sweet and at thirty-six cents per pound is sweeter than honey and the finest food for the pig. It is a better pigging business than has ever been known. It is profitable from every standpoint. It is a business that can be run on a small farm. The prices of stock hogs and fat hogs are as high now as they can get, without going up to exorbitant to make the figures. Get into the hog business, it is good advice for every Wayne county farmer. Get in and get in right. Get in with the best stock you can find on the market. I would have a fine herd of sows put a pure bred pair at the head of the pen, and you will cross your grades up to still better types. Better types will bring you more weight in shorter time, an less feed and that means more money all round. You can afford to pay a \$100 for a pure bred male to cross on your grades if he is an individual in his own right. Every porker of his get will help to pay back the first money and when once started they never quit paying a farm.

HORNBY FOUNDATION STOCK
"Searching the six or seven years ago, Hornby Brothers started in to breed pure Poland Chinas. The first dam purchased was Shell Creek, then a mixture bred by Fred Wille of Columbus, Nebraska. She started them with a high classed family and plenty of good points. The first sire was a Wagon and was named Wagoner. Here you find back to the famous Peter Mow stock. Only Peter Mow stock is still remaining in the world. The big thing they laughed him down for years, but the farm came in broders bowed to his greatness and he is now the best of the Mow stock in the world. His name is now the name of Poland Chinas are the aristocrats of the breed."

A GREAT HERD HEAD
Jumbo The Herd Sire traces back to the Famous Jumbo family and crossed onto the Mow. Wonder family produces most of the young males that go to the sale ring.

beries. They belong to popular strains and are one hundred of swindlers.
The Hornby hogs come of this strain and are as good as any of their relatives. They are the best of the breed. During the years of other great famines have been crossed and re-crossed with the selected matrons and this improvement has been kept up.

A BIG STOCK ON HAND
There is a great invoice of A 1 pork at the Hornby farm. The stock on hand sizes up something like this:

Twenty head of great mammoth matrons.
Two great herd head hogs of magnificent type.
One hundred and ten spring sills and boars.
Forty fine spring boars, selected for the first sale.
Ninety-seven fall pigs.

We have boxed and put into these columns a sample pedigree of one of the Hornby matrons and a description of the present pen sows. If a herd of hogs can be immune from cholera, the herd is immune. Vaccination has been given to all the pigs. The hogs that go from this place will go into the best of health and condition.

A WORD ABOUT THE HORNBY'S
The Hornby Brothers have been thirty-two years in the hog raising business. They are the best of the breed. They have a fine stock on hand and are well back from the market.

NEGLECTED ROADS.
Nehalaska Farmer: Road dragging is something that should be given a more serious consideration. I have driven 6000 miles since the 15th of April—most of the distance on the worst roads in the state. I have now traveled 100 miles on dragged roads the whole season. Last week I made a trip of 200 miles in the east and had to leave, and aside from a few miles of city pavement, found nothing but ruts and bumps. Not a mile of those roads had been graded, and the rains early in September, and if in any place the "drag had been used this season, no ruts could be detected. To go rolling and bumping over such roads is enough to put a person out of spirits with his grandmother. As it is, the people become disgusted with earth roads and advocate paving. But it is the fault of the car, or lack of care, given them. A well dragged road is solid and smooth, a very large proportion of the time in this state. When the question of drag-

ging is so low—from \$10 to \$15 a year per mile—why should we be so entirely dragging.

roads are as much of an advantage in hauling loads as in motoring. When you feel discouraged and neglect of earth roads also increases a dose of Chamberlain's Tablets and a few more will be certain to fill your ruts that never would have right within a day or two. Des-

Dispendency.
As a little problem for today, try to figure out why some men sign their names so no one can read their signatures.

KEITH NEVILLE Democratic Candidate for Governor A NATIVE SON

A practical man of the people who has a record in the business world and who has the trust of the ambitious politician are unknown.
He stands a constructive program that will benefit the people of Nebraska and his candidacy is in harmony with the strong sentimentality plan adopted by his party at Hastings.
He believes that the highest duty of any public servant is to carefully see to it that the will of the people, as expressed at the polls upon all questions, is carried out.
The two Republican newspapers in North Platte are supporting his candidacy and the vote of nearly five to one given him at the primary election by the people of his home town, among whom he was born and raised, is proof absolute that he is a man of character and ability.
He is a man of business, well-entrusted with the business affairs, and with the enforcement of the laws of the state.
Vote for a home-grown man and a confident, economical and business administration of state affairs.

SHORT POTATO CROP

Lincoln Journal. Owing to the short potato crop in the United States, arrangements are being made to import potatoes from Canada, Holland or any other country with surplus to spare. If the war is over to overrun us with a flood of foreign goods, we may wish it should be now, and that potatoes would do much of the overrunning. We could use a fair-sized flood of wheat to advantage also. No great hopes on this line are justified, however. If the United States, at peace and with more than its share of fertile soil, cannot feed itself, what country could be expected to feed us?

Many people who have a petty dislike are inclined to admire a crook who plays a big game.

How Catarrh is Contracted.
 Mothers are sometimes so thoughtless as to neglect the child when their children contract the catarrh of the mucous membrane of the nose, throat, larynx and the child has chronic catarrh, a disease that is seldom cured and that may prove a life long trouble. Results who have had this disease will remember having had frequent colds at the time they contracted a little hemorrhage. The use of Chamberlain's Cough Remedy judiciously used, and all this trouble might have been avoided. Obtainable everywhere.

The Truth About PROHIBITION and MURDER

MURDER is being committed in prohibition Kansas with far greater frequency than in Nebraska.

Official Prison Record:
KANSAS-- Sentenced for Murder in 2 years 85
NEBRASKA-- Sentenced for Murder in 2 years 29

Eighty-five Kansas murderers convicted and sentenced in the short space of two years ending June 30, 1916, as against twenty-nine in Nebraska in the same period! The appalling murder record of Kansas carries a lesson of terrible import to the citizens of Nebraska. Under prohibition there has grown up in Kansas the inevitable "Alley Joint" evil. In these "joints" liquors of the vilest sort are dispensed to men and boys by dissolute characters, both male and female, spreading crime and debauchery to every part of the state.

(Excerpts from article in "The Topeka Daily State Journal" of August 29, 1916.)

***Of the 166 criminal cases docketed for the September term of court, 106 are for violations of the prohibitory law.
 ***As a rule, about one-tenth of the cases brought charging violations of the prohibitory law are tried. They cost the county about \$50 each.

"One noticeable thing about the criminal docket for the September term is that forty-six of the JOINT cases are against women."

If you are opposed to the Alley Joint evil and the increase of crime, vote No on the prohibition amendment.

The squares shown below will appear at the TOP of the ballot. An X marked in square 301 is a vote AGAINST PROHIBITION.

A "Deestrick" School.

As the first meeting of the Woman's club is always a social afternoon, the committee in charge has planned a unique program for the session today. As soon as the guests have gathered at the home of Mrs. A. B. Carter, they will be entertained in an old-fashioned "deestrick" school over which Mrs. H. E. Siman will wield the rod. Some typical features of the school will be abandoned and a Friday afternoon program will be given. Songs, recitations and a lead-in to the school features in this program. Shortly after 5 o'clock the teacher will line up the pupils and lead them to the butter in individual lunchboxes packed in paper pails. The guests will then return to the living room to enjoy the excellent lunch.

Mrs. Rehms Injured.

Mrs. Gustav Rehms was badly shocked and slightly injured Friday evening when an auto, driven by Roy Neary, struck her as she was crossing the street from the Weyers & Shult store to Metten's corner. It seems that she was talking and did not notice the car until it was almost upon her and then, becoming confused, she attempted to jump backwards instead of forwards. The driver had no time to stop although he was driving reasonably slow, and the fender struck Mrs. Rehms in the side, breaking the cartilage over the ribs. However, the patient is recovering nicely at this time. Her daughter and husband, Mr. and Mrs. Paul Reinhart, came from Norfolk as soon as they heard of the accident and remained in Winside over Saturday.
