V. L. DAYTON'S SALE OF PURE BRED LIVE STOCK

On account of the roads being impassable, only a small attendance V. L. Dayton's public sale of Duroc Jersey pigs and Holstein cattle at this farm, three miles east of Wayne, last Thursday. The offering of male pigs was certainly a top-notch. The thirty-four spring pigs averaged in weight 225 pounds. Several who attended the sale said it was the best lot of spring hogs owned by one man, they had ever seen. Considering quality it could well be considered a bargain sale, but considering the weather conditions which no one could control, Mr. Dayton was well satisfied. The thirty-five hogs were sold at an average of \$37.55. The demand for girls and Holsteins was poor, and so few were sold. The top hog of the sale was No. 13, an outstanding good pig, sired by Grand Crimmon Wonder and out of Blue Ribbon Queen. He went to C. M. Christensen of Rapid City, S. D. at \$89. After the sale Mr. Christensen was offered \$100 for the animal but leaving the farm, J. D. H. Cunningham, auctioneer, was in charge of the sale.

EARLY SNOW STORMS

Blair, Pa., Thursday, October 18, 1816, will now go down in history along with October 15, 1880, and October 17, 1898, as the three years in which had snow storms occurred in these parts this early in the month. The one last Thursday wasn't quite as bad as those on the dates above mentioned, but it was some storm just the same. The rain turned into snow at about 8 o'clock and an until noon it snowed about as hard and fast as we have ever seen it.

record for most about the storm of 1880, except that we remember it was a very hard winter, with great snow drifts twelve to fourteen feet high around the old farm house, on the Papio. We were a box of fine at that time and one morning it was so cold we nearly froze going to school at the old Brewster school and stopped at Uncle DeWitt's place, a half mile from our house. We remember we were so cold that first snow never went off and the corn that wasn't husked stayed in the field all winter. On October 17, 1898, we were in the third Nebraska volunteers during the Spanish-American war, and I know very little about that winter that followed for we spent most of it in Cuba, where winter is unknown. The first snow thing we saw on, however, but a very hard winter followed, we are told and the records bear out their statements. Last Thursday's snow was pretty much all coming Saturday, so 1880 isn't to be repeated this year either.

GEO. M'EAUGHEN SELLS POLAND CHINA PIGS

George McEaughen had his initial sale of pure bred Poland China pigs at the livestock pavilion in Wayne Saturday, and the result was very gratifying to him. He had excellent stock and people who grow Poland Chinas, were pleased to secure additions from the McEaughen herd. D. H. Cunningham officiated as auctioneer.

THE FIELD OF BUSINESS.

St. Louis City Journal: Consistent increases in prices supply the outstanding feature of the commercial situation. The rise in prices runs the whole gamut of production, beginning with agricultural products and raw materials of all sorts, ranging through manufacturing and distributing, and finding final reflection in the quotations of all classes of all sorts. New profits in some industries have been accompanied by wage increases, but as a rule, the cost of living is coming up faster than wages can follow it. Wheat indulged in further pyrotechnics last week, recording various fluctuations and closing the week with a round 10-cent gain over opening quotations. The December option on Saturday closed at \$1.87. Corn kept pace with wheat, and established a new record on Saturday when it reached \$1.43. This figure was 1 cent higher than the \$1.42 quotation reached in 1892 during the civil war. A good deal of last week's excitement in the wheat pit was due to reports that the British government has obtained control of the American situation, having contracted for deliveries that will test export competition facilities until January 1. The tenacity of the American market was relieved somewhat by sales in London for present and future deliveries. Cotton shared the honors with wheat and corn. New high spots were touched during the weeks by steel, sugar, leather, copper and gold securities. Steel common for the first time in the history of the United States Steel corporation, passed the preferred stock. J. Pierpont Morgan has gone to London to induce the British government to accept a credit loan for which it was not expected that the market until later. The loan is to be for \$300,000,000 and is to take the form of three and five-year notes at 5 1/2 and 6 per cent interest. It is backed in all probability by American standard securities now held in trust by the British government. No one here has connected the business to seek this loan in preference to encouraging further gold imports. Since the beginning of the war \$748,000,000 in gold has come to this country, increasing our total holdings to \$2,636,000,000. This is a 40 per cent increase over the total of gold in this country at the beginning of the war and a 100 per cent increase since 1907. Far-seeing financiers believe that it is undesirable for this country to upset the world balance by accumulating more than its fair share of the world's gold supply. A redundant gold supply tends to undue inflation of values. Bank clearings last week aggregated \$290,000,000.

On the Beautiful River An Episode of a Century Ago By WILARD BLAKEMAN

When what is now known as the middle west was opened up to civilization the Ohio river was the main thoroughfare for emigrants moving in that direction, and the dardest was their conveyance.

The great danger of the earliest voyagers was the Indians, who assisted their native allies to plunder the emigrants by acting as decoys. The emigrants were taken to a flatboat and then the Indians would surround the boat and take him aboard, that he had been captured by Indians and escaped and if he refused would be turned and killed.

When the boat reached a turn in the river, called South Bend, about twenty miles south of Cincinnati, while passing near the Kentucky shore, it passed a man wearing a white cloth and followed by her slaves that she wished to speak with them.

FROM OTHER EDITORS.

Hartington Herald: How do you like the idea of the democratic administration putting its products on the south with a tariff and putting the products of Nebraska on the free list so that the farmer here has to continue with genuine corn and other cheap products from abroad.

Fremont Tribune: William D. Warner is a man of substantial qualities and the people of his corner of the district who know him are going to rally to a big majority for him because they believe in him. He has had a varied public experience and is a thoroughly good. As county attorney, county judge, state senator and United States marshal his record has been of the very highest.

Norfolk Daily News: A. O. Thomas, state superintendent and candidate for re-election, has earned a vote of confidence from the people of Nebraska, regardless of politics. He has developed the rural schools and the normal schools of the state with splendid success and under his administration these departments of our school system will fare well.

Fairbury News: "He kept us out of war" is a good, short, catchy sentence that is apt to attract the sympathetic or the sentimental, but to men of the world it is a joke. Certainly not out of war with whom? Certainly not with Germany, because we could not have gotten close enough to Germany and Germany could not have gotten close enough to us to fight, and besides Germany has got a plenty to do at home to keep her interested. He certainly hasn't kept us out of war with Mexico for a state of war has actually existed between this country and Mexico for many months, and we have lost more in it than we did in our war with Spain and the indications are that it is going to last longer. The decrepit condition of the Mexican government is the only thing that has minimized the effect of the war to date.

Aurora Republicans: In his criticism of the manner by which the Adamson so-called eight-hour law was passed, Mr. Hughes has been rather unwise in his criticism concerning its constitutionality. As a professional student of law, he undoubtedly has a very definite opinion on that subject, but with fine discernment he recognizes the impropriety of a former member of the United States supreme court passing his opinion on the constitutionality of a law presented for official consideration. Can anyone imagine Mr. Bryan, or even Mr. Wilson, maintaining silence under such circumstances?

Leslie's Weekly: The same Charles F. Hughes, who the New York World is cartooning and lambasting every day, turns out according to the World, to be Joseph Pulitzer, the founder of the successful World, named as one of the trustees of his estate with an honorarium of a million dollars. With Mr. Hughes' high ideals of his duty to the public, he declined the service and the magnificent honorarium and took his place on the bench. The World in extenuation of its remarkable attitude now says that the fact that the honorarium was a million dollars. Mr. Hughes for a trustee must not be regarded as evidence that he thought Mr. Hughes was qualified for the honorarium of a million dollars. The observation has been made that Mr. Pulitzer, in casting about for the most sagacious and trustworthy trustees to act as trustees of his estate, somehow missed Woodrow Wilson, who was then unsuccessfully applying for a pension from Princeton. Perhaps he was reserving him for the White House.

Fremont Tribune: Colonel Roosevelt is given the most accurate and terse definition of "watchful waiting." He said as "Louisville," President Wilson and his policy, Mexicans being at war with us, so long as we are not at war with Mexico. "Watchful waiting" could there be of "watchful waiting."

London Republican: Hon. John L. Kennedy has won many friends during his campaign by the fairness of his presentation of the political situation and his vote for Mr. Kennedy is a vote for higher education, enthusiasm with which he is received in all parts of the state is an indication that he will be elected as United States senator by a big majority.

Norfolk Daily News: If a protective tariff is a good thing for the farmer of the south, why shouldn't it be applied to the farm of the north? If, as the democrats have told us, a protective tariff is a failure, why should the southern democrats enjoy a protection that discriminates in favor of them as against the rest of the country? The Underwood tariff bill, adopted under the whip of President Wilson and the support of the Congressional Dan Stephens and Senator Hitchcock, protects the industrial products of New Jersey, President Wilson's home state, protects the indus-

trial products of Georgia, the home state of Underwood, author of the bill, and protects the cotton, tobacco, rice, sugar, peanuts and Ankara goat hair of the whole south—the "solid south"—that through secret means has for two years controlled our national government. Mr. Wilson objects to the cry of sectionalism being raised in the discussion of the bill by two persons to blame other than himself and the democratic congress who have by their sectional acts brought this issue to the attention of the public.

Stanton Picket: Judge A. L. Sutton spent his early days in hardships and privation upon a homestead in northern Nebraska and is one of the common people. He has risen to prominence through adversity and honest toil and if elected to the highest office in our state will be an official who will do all in his power for the best interests of the farmer, the laborer and the common citizen. He has worked sixteen years in the juvenile courts of Omaha and has accomplished much for the boys and girls who were down and out in that city. The editor of the Picket has known Judge Sutton personally for twenty years or more and we know him to be a man of integrity, a man honest in his convictions and a man who can not be bought by corporations or influenced by class or factions. Judge Sutton has earned every cent he has on earth and was not born with a silver spoon in his mouth, but has come up through tribulations, as it were, and stands on his own record. No one can go wrong by voting for Abraham L. Sutton for governor of Nebraska.

St. Louis City Journal: Surgeons having discovered a painless, bloodless, anaestheticless method of performing operations, the patient of the future will scarcely know he has been operated upon and he receives the surgeon's bill. Then he may doubt the claim that the operation is really painless.

NEWSPAPERS AND LYING.

(St. Louis City Journal)
"The most deliberate liar I know of is the modern newspaper. It lies by evasion; it lies by suppression; it lies by the lengthened shadow of a lying editor."

So runs a pulpit indictment. The condemnation is sound and sweeping. No exceptions are made. Thus are the innocent made to suffer for the sins of the guilty. The lie is the life of the modern newspaper; it would say that the most deliberate liar, the most malicious liar, is the newspaper that lies by evasion and by suppression; the newspaper which lies not positively but negatively, by indirection. It is a subtle and insidious method of lying men get into the newspaper business; or if honest, truthful men, having got into the business, should become so corrupted by their environment as to abandon their ideals of righteousness.

The Journal believes that even the preacher will agree that an occasional scoundrel gets into the pulpit to the discredit of the Christian ministry. If scoundrels cannot be got out of the pulpit, why not get them out of the newspaper? The truth of the matter is that while there are lying newspapers there are also the other kind. It is the boast of American journalism that the best type of the modern newspaper is found in this country. It would be a simple matter to enumerate a rather long list of American newspapers which are known for courageous presentation and discussion of the news devoted to fairness, accuracy and truthfulness without coloring, evasion or suppression. These are the beacon lights of American journalism.

One lying and malicious newspaper can do more damage to the general reputation of newspapers than a dozen good newspapers can repair. All are tied with the same stick. When the public's feelings are outraged, when his sense of justice is offended, it is not likely to exercise discriminating criticism or denunciation. Its indictment covers the whole company of newspapers, and the honest, upright and just are punished alike.

This tendency merely illustrates the weakness of humanity. When passion is aroused, the consequences are unfair and follow the destruction of reason and common sense.

The difficulties in the way of the newspaper which is committed to enlightenment and a desire to present the truth are tremendous. It is in

To the Voters of Nebraska:

An attempt is being made to induce supporters of President Wilson and his policies to vote against the reelection of Senator Hitchcock. It is alleged that Senator Hitchcock has not worked in harmony with the Wilson administration, and that President Wilson would be better assisted by a republican senator from Nebraska. President Wilson is qualified to speak for himself. He has spoken for himself. Editor Phelps of the *Howells Journal*, wrote the President the following letter to ascertain his sentiments: "An editor of a democratic newspaper in Nebraska for 33 years I am deeply interested in the success of our candidates and policies. Some republican newspapers and campaign workers in this state are charging that Senator Gilbert M. Hitchcock is in disfavor with the democratic administration and that his success or failure in the coming election is a matter of indifference to you. May I have the honor of hearing directly from you with regard to this matter?" To this inquiry Mr. Phelps received the following reply:

THE WHITE HOUSE
WASHINGTON

SHADOW-LAW,

October 16, 1916

My dear Mr. Phelps:

I am very glad to reply to your

letter of October second. I am glad to have an opportunity to say that I sincerely hope that Senator Hitchcock will be re-elected, and I am sure that the hope is shared by those who have had the pleasure of being associated with him in the Senate. I do not know how the false rumors to which you refer can have originated.

Sincerely yours,

Mr. H. E. Phelps,
The Howells Journal,
Howells, Nebraska.

Vice President Marshall joins the President in hoping for Senator Hitchcock's reelection, and says: "God never made a cleaner, better, or more patriotic citizen than Gilbert M. Hitchcock. I know he has never been criticized by some who do not know the facts for having opposed the administration. I know better than that. I want to say that the administration owes a debt of gratitude to Senator Hitchcock for the part he took in perfecting the banking and currency act, for the intensive study he made of conditions in this and other countries. That bill is a better law for the work he did upon it."

Senator Ollie James of Kentucky says: "I am very much interested in the campaign of Senator Hitchcock. He deserves to be re-elected. His heart, as his service in the senate proves, has been on the people's side. He is one of the senate's great democrats, and will be a tower of strength to our party in its future contests in the senate."

Senator Salisbury of Delaware, a close personal and political friend of the President, says: "Senator Hitchcock, from President Wilson down, hopes for the success of Senator Hitchcock. He is recognized as one of the leaders of the senate and his integrity and character have won him that position. He wields great influence in that body and it would be a misfortune to the nation if he should not be returned."

John Lind says: "Senator Hitchcock is a man of vision and ideals, and has a loyalty to those convictions and ideals from which he never swerves. I know of no man whose public and whole attitude with respect to public questions is more in harmony with the true spirit of the west. I sincerely hope that the people of Nebraska will reelect him, not only for the sake of Nebraska, but for the sake of the west and the nation."

Senator Hitchcock's partisan enemies ignore the evidence of these great leaders and ask you to vote against Hitchcock "for Wilson's sake." Looking the facts squarely in the face, what do you think of the nature of the campaign that is being waged against Senator Hitchcock?

IS IT THE SORT OF CAMPAIGN THAT MEETS WITH YOUR APPROVAL?

continued conflict with the forces which would evade and suppress the truth, and under the present circumstances is the apparent inability of the public to distinguish between the good and the evil newspapers, and its ever ready willingness to condemn all newspapers as unworthy.

NEBRASKA CORN. Nebraska Farmer: The very remarkable way in which the Nebraska corn crop rallied from the effects of the July drought shows what moisture will do even when it comes apparently too late. Based upon conditions on August 1, the Bureau of crop estimates forecasted a crop of 170,000,000 bushels of corn in this state. By September 1 conditions had improved enough to warrant boosting the forecast to 190,000,000 bushels, and September improvements put the October forecast up to 209,336,000 bushels.

VOTE NEBRASKA DRY

There is every reason on earth why the saloon should be abolished from Nebraska. There is no sane reason why it should remain. The Liquor Question is an economic question. It affects your pocketbook. It has a Bearing on your Living Expense on every Commodity of Life. The money spent for Liquor in the United States each year is Greater than that spent by all the people for food, clothing and fuel. The money spent for Liquor in the United States each year is twice as great as that which it takes to run our federal government. The money spent for Liquor in the United States each year would build six Panama Canals. The money spent for Liquor in the United States each year is three times as great as that spent for education.

Booze Compared with War

WOUNDED AND KILLED BY WAR

In all the wars of the world from the Russo-Japanese as far back as 500 B. C. the killed and wounded amounted to about 2,800,000. Over 700,000 were killed in battle and 2,100,000 wounded.

WOUNDED AND KILLED BY ALCOHOL

Register General of England states that out of every 10,000 of the population there will be about 1,000 deaths every year, but out of the same number of total abstainers there will be only 560 deaths. Therefore, 430 deaths out of every 1,000 that occur can be attributed to alcoholic poison.

Applying that to our own country: 440 deaths every year out of 41,000 of our population means 720,000 deaths every year by alcohol, while but 200,000 men have been killed in battle in all the wars of the world for 2300 years.

If a young man at the age of 21 is a total abstainer, his prospect of life is 47 years. He will live, on the average, to the age of 64. If he is a temperate regular drinker of alcoholic beverages his prospect of life is 31 years. He will die at the age, on the average, of 51 years—having lost 13 years out of his life.

A soldier wounded in battle and losing ten years of his life is considered seriously wounded.

From 23,000,000 to 24,000,000 people in the United States drink alcoholic beverages. These have cut out, on the average, 13 years of their lives.

Add the number of confirmed drunkards—4,000,000—and we have a grand total of 27,000,000 to 28,000,000 Americans who are seriously and more than seriously wounded, while but 2,100,000 of men seriously wounded in all the wars of the world since the dawn of history.

Alcoholic poison is, roughly speaking, 10,000 times as destructive as all wars. —Hon. R. P. Hobson.

The Money Spent for Drink

\$2,500,000,000 Spent for Drink Annually

It is estimated that the people of the United States spend almost two billion and a half annually for intoxicating liquors. It is difficult for the mind to comprehend so large a sum unless we resort to comparisons. Let us suggest a few.

It has recently been stated on high authority that the cost of the war now raging in Europe reaches the enormous total of three hundred and seventy-five millions a week—or more than fifty millions a day. If this is true the drink bill of the United States would carry on the war for six weeks—and that means that the daily cost of liquor to the people of the United States is more than one-tenth of the toll that the belligerent nations pay because of the awful conflict now raging. The cost of that which the world has ever known, whether measured by the number of men engaged, the destructiveness of the implements employed or its expenditures to the nations involved.

Would Build Six Panama Canals Each Year.

The cost of the Panama Canal, the most gigantic engineering feat in history, was about four hundred millions of dollars. Is it not appalling to think that we spend for drink every year something like six times the cost of the Panama Canal.

Three Times the Amount Spent for Education

We have endeavored to secure an accurate estimate of the amount of money spent on education in this country, and the figure given is seven hundred and fifty millions of dollars. This pays all the teachers who instruct the children, from the kindergarten to the university, in this land of more than ninety millions. It provides salaries for the great intellectual army whose inestimable service no figures can describe. If we were to cease these expenditures, this nation, so conspicuous in all that contributes to the civilization of the world, would lapse into barbarism. And yet we spend for drink more than three times as much as we spend for education.

WHAT THE GOVERNORS OF OTHER STATES SAY

State of Arkansas
 Little Rock, September 23, 1916.
 HON. W. T. THOMPSON,
 Chairman Nebraska Dry Federation.

My Dear Sir:—I am in receipt of your letter asking an opinion as to the effects of the statewide prohibition law in Arkansas.
 In reply, I beg to advise that I think the law one of the best that has been passed in this state in many years. It is certainly a great success in every way, from an economical as well as from a moral standpoint. Our business interests are greatly improved; we have more money in the banks; our merchants are doing more business and make better collections; and, of course as you know, that means that helpless children and good women are being better provided for. In addition to this, crime has greatly decreased since the prohibition law went into effect January 1, 1916.

Very respectfully,
 (Signed) GEO. W. HAYS,
 Governor.

State of Washington
 Olympia, October 2, 1916.
 OFFICE OF GOVERNOR
 MR. W. T. THOMPSON,
 Chairman Nebraska Dry Federation.

My Dear Sir:—I beg to acknowledge receipt of your letter of the 20th ultimo asking for an expression from me regarding the results of the law that closed the saloons of the state of Washington on January 1, 1916, and in reply would say that the state has now had eight months during which the law has been in force. There is no question in my mind but that the enactment of this law has been a great benefit to the people of the state. Sentiment in its favor is much stronger today than on the day when it took effect.

Yours very truly,
 ERNEST LISTER,
 Governor of Washington.

State of Mississippi
 Jackson, September 22, 1916.
 MR. W. T. THOMPSON,
 Chairman Nebraska Dry Federation.

My Dear Sir:—I am in receipt of your letter and in reply beg to state that my observation has been that prohibition does prohibit. I regard it as the very greatest benefit to any state to have the most stringent law prohibiting the sale and manufacture of liquors.

Since Mississippi has been in the "dry column" crime has materially decreased and money of every year has been turned into legitimate channels of trade which would otherwise have gone for the purchase of intoxicants. Our prohibition law is one of the most stringent on the statute books of any state, and no person is allowed to have in his possession more than one quart of whisky or twenty-four pints of beer in any quantity to any one person other than once every fourteen days.

(Signed) THEO. G. BILBO,
 Governor.

High Schools Are Hurt by Saloons

The following is compiled from the Nebraska Educational Directory of 1914-15, issued by the State Department of Education. It should convince every sane person that saloons keep at least one-half of our boys and girls from getting a high school education.

In the 205 accredited high schools of the state, those in the dry towns enroll an average of 26.26 per 1,000 of school population, and the average attendance is 22.83 per 1,000.

In the wet towns the enrollment is 122.3 per 1,000 school population, and the average attendance is only 102.6 per 1,000. Again, an advantage for the dry towns of more than 100 per cent.

No person can raise the cry of "picking" the towns; for these official figures include every one of the high schools in Nebraska. There is but one answer to it. Banish the saloon.

Drink Bill Double the Expenses of Federal Government

The annual appropriations of the federal government are a little less than a billion and a quarter of dollars. This sum includes the salaries of all the public officials from the President down. It includes the salaries and expenses of our Ambassadors and Ministers through whom we maintain diplomatic relations with the entire world; it covers the cost of our consular service which looks after our commerce in foreign lands. It includes the expenses of the treasury, which handles our money, collects our taxes and supervises the banking system of the nation. It covers the expenses of the army and the expenses of the navy. It provides means for enforcing the laws of the United States. It includes the operations of the postoffice department, which carries mail to every village, hamlet and city, with its fifty-six thousand postmasters, its nineteen thousand railway clerks and its seventy-five thousand mail carriers in the cities and in the country. It covers the expenses of the interior department, with its multiplied agencies for dealing with pensions, with the public lands of the country, with irrigation and with Indian affairs. It covers the expenses of the agricultural department with its experimental work and its search throughout the world for that which can be profitably grown in this country. It supplies the needs of the rapidly increasing department of commerce and the vitally important work of the department of labor. It supplies the funds needed by the Interstate Commerce Commission for the regulation of railroads and by the new Federal Trade Commission for the prevention of monopoly.

All of these governmental agencies employed in administering the Federal Government of this great nation are operated at an expense of less than a billion and a quarter of dollars. Think, if the mind can comprehend it, of this nation spending twice that amount for alcoholic liquor. One billion and a quarter for running the government. Two billion and a half for booze.

MR. HARVEY PREDICTS VICTORY FOR HUGHES!

New York, Oct. 31.—Four years ago George Harvey Russell wrote an article in which he predicted that in 1908 he would have received electoral votes out of the way and in 1904 only twenty-two. In April of the present year he received the state had indicated a preference for the nominee he elected an analysis of the political situation under the heading "Who will carry Hughes but the People?" with the postscript appended that "rightly or wrongly, wisely or not, the will of the people will prevail." Mr. Charles F. Young Hughes will be the next republican candidate for president of the United States. In the North American Review published yesterday, Col. Harvey presents the election of Hughes as certain. The details are as follows: Electoral votes essential to a choice are 266.

We predict that Mr. Hughes will carry these states:

California	13
Illinois	7
Indiana	11
Iowa	13
Missouri	10
Maine	6
Massachusetts	18
Michigan	12
Minnesota	12
New Hampshire	4

BRITISH STEAMER IS TORPEDOED AND SUNK

London, Oct. 31.—The British steamship Marina sank within ten minutes after being torpedoed, Wesley Foster, American consul at Queenstown, reported to the American embassy today. He said survivors' state the vessel was torpedoed without warning.

Mr. Frost's statement to the embassy follows:

"Fifty-two more survivors of the Marina landed at Castletown Pier. Only thirteen now missing believed dead. Not less than thirty-six Americans aboard of whom sixteen saved at Crookhaven. There will probably be some American fatalities."

"Survivors stated the vessel was torpedoed without warning in heavy sea and sunk within ten minutes."

Mr. Frost is obtaining affidavits from survivors and ascertaining how

many Americans are among the Castletown arrivals. The embassy has also received a telegram from the American consul at Glasgow, stating that the Marina left Glasgow, Scotland, for Boston and New York.

Sixteen American Survivors

A preliminary report received from Crookhaven, Ireland, by the American consul at Queenstown, among the survivors of the Marina were two American boys, sixteen Americans, three boys and one girl.

Frank Howard Smith, a veterinarian, according to the telegram received by Mr. Stanley reports that two boats containing six survivors were seen at the same time. This telegram evidently was sent before news had been received that the Marina was torpedoed.

Is Torpedoed Twice

Marina was torpedoed twice, it is reported. The first torpedo struck the ship in two places. It is reported that the ship was hit in two places.

Lansing's Reports Meagre

Washington, Oct. 31.—Secretary Lansing said today that his reports on the destruction of the Marina were still too incomplete to permit of any conclusions or allow him to discuss the case. Fuller reports with affidavits of American survivors have been ordered by cable.

Situation is More Grave

This morning's news dispatches saying some of the survivors had seen the wake of a torpedo and that the ship was struck twice, added gravity to the situation.

Officials noted, however, that the British admiral was not prepared to say the ship was torpedoed and that Consul Frost's report yesterday said was destroyed by sun fire.

Entirely aside from the first as-

pects of the case, officials made it plain that no conditions could be drawn until all apparently conflicting circumstances had been cleared up.

It was viewed as more serious when the news of the destruction of the Marina was received. The fact that the Marina was destroyed by a torpedo was a serious matter, but the fact that she was destroyed by a torpedo was a serious matter.

Await Confirmation

The news dispatches indicated that the ship was very much damaged and that the crew was in a perilous position. It was reported that the ship was struck by two torpedoes and that the crew was in a perilous position.

Without Definite News

The fact that the ship was destroyed by a torpedo was a serious matter, but the fact that she was destroyed by a torpedo was a serious matter.

BRYAN IN NEW ROLE

Lincoln Journal: Questioned about the charge entered by Senator Lodge that President Wilson had strengthened the second Louisiana note by wiping out a concluding postscript, Mr. Bryan makes a tart rejoinder. "Why should I discuss what is purely a cabinet question?" he said yesterday. "Why should Brockenridge? It is a matter for the president. If he has any reply to make, he is perfectly able to make it."

The most incomprehensible incident in Mr. Bryan's career was his sudden resignation as secretary of the state at the time of the second Louisiana note. He had signed the first

note announcing that the government would not permit any necessary act to be performed in the name of the United States and its president. When the second note was issued and ready to be circulated, Mr. Bryan took the piece. The note was a declaration of the president's duty to maintain the rights of the United States and its president. It was a declaration of the president's duty to maintain the rights of the United States and its president.

Omaha, Neb., Oct. 31.—Mr. J. W. Wilson, who began his campaign for Nebraska in the interest of the prohibition amendment yesterday, passed through Omaha last night. His train arrived late in the evening and remained only a short while. He left it only to walk about the union station to attend to some correspondence and to telephone. It was here that newspaper interviewers found him.

"Reports that I've been getting today confirm my opinion that Wilson will carry the state of Nebraska," he told the reporters who met him.

"When asked what he thought of the possibility of a 'dry' republican being sent to the United States senate from Nebraska he held up both hands.

"I will not discuss the governorship nor senatorship of Nebraska," he answered quickly. "However, I wish to reiterate what I said in the Commonwealth that the voter should forget partisanship in voting for senate and house. Drys should vote for dry candidates regardless of party and as between candidates they should vote for the best of the drys and take no chances until the saloon is driven from Nebraska."

BURGERS ENTER AND ROB HOSKINS SALOON

Hastings, Neb., Oct. 28.—Fred Johnson's saloon was ransacked here about 1 o'clock this morning by burglars who boldly drove an automobile up to the front door of the building, hoisted it with a hook and drove away. Tracks showed that the car had been backed up to the curb and several bottles were heard to about 1 o'clock going outward and the tracks led in that direction. Footprints were gained through a rear window and \$20 in silver was taken from the till and \$200 in cigars and eight parts of whisky secured from the shelves.

As soon as the burglary was discovered the telephone was put in use in an effort to head off the thieves. It is not believed they can get far on account of the condition of the roads.

IMPORTANCE OF TARIFF.

Omaha, Dec. 1.—While many other matters of current interest to Americans are being discussed in the present campaign, none are more vital to the future of the country than is the tariff question. President Wilson and his supporters defend the Underwood bill and in the same breath point to their tariff commission as a means whereby the tariff is to be made over again to fit the times.

A Wolf in Sheep's Clothing

Very accurately describes state-wide prohibition. Be not deceived.

The claim that the proposed prohibition amendment will make Nebraska "dry" is a fraud.

Those who propose a law that is to be submitted to a vote of the people are expected to file with the Secretary of State an explanation of what the law undertakes to accomplish.

Over the signature of the Nebraska "Dry" Federation appears this explanation:

"The proposed amendment does not attempt to deal with the habits and appetites of our citizens."

This is the naked fraud that is put before the unsuspecting voters of Nebraska.

In plain language, addressed to the drunkard, the boot-logger, to the boy and to the young man, the actual promise of the amendment is:

"Buy a money order. Mail-order any quantity of beverage from Chicago, St. Joseph, or Kansas City. Our so-called prohibition law permits you to be as intemperate as you like so long as you purchase outside of your own state."

There can be no denial of the fact that these are the conditions offered Nebraska under the fraudulent prohibition law we are to vote on.

The Yoke of Prohibition Is Heavy

For if this amendment is adopted, it will fasten on Nebraska the demoralizing conditions now prevailing in other prohibition states.

In Kansas this fraudulent brand of prohibition has prevailed for thirty-five years, and has made the vile, unspeakable alley-joint a fixture in nearly every community. In the past two years Kansas sent 85 murderers to prison, Nebraska, in comparison, sending only 29 in the same period.

This is what the fraudulent prohibitory amendment is offering Nebraska, instead of a Nebraska "dry." Look these facts square in the face and decide if you want these conditions to prevail in Nebraska. Think it over!

The home of morning worship is to be 30. The sermon for Sunday morning will be: "Power or Witness." Read the first chapter of the book of Acts.
The Brotherhood classes are proving attractive to all men, young and old. We want more men to become permanent members of these classes. Sunday morning at 11:30.
The Y. P. C. C. concert on meeting will be led by Miss Elor once Wednesday. This will be a meeting of real consecration. Lives and emotions to be sold all boys and girls who are in the grades in the public schools. An intermediate society will sing this sermon. Delegates of all ages are invited.
The Christian Endeavorers who secured Dr. Robert W. Taylor for his excellent Photovoxels last Friday evening to be congratulated.
The fine lecture accompanying, or rather accompanied by the splendid pictures more than met the expectations of all who were present.
Taylor has traveled much and has seen things as he has traveled.
All who read these lines are cordially urged to set aside next Sunday evening from 7:30 to 9:00 o'clock for the big meeting at this church, unless duty absolutely calls you away. The service will be held along the lines of the consecration of social life. There will be something said of interest to all.
The big choir will sing. The service promises to be entertaining, interesting and helpful to all who will attend.

CROP VALUES.

The crop report for Nebraska for 1916 is about 115 per cent of the normal crop, according to the annual crop report just issued by the United States National bank of Omaha from its estimate survey.

Samplers county has the honor of producing the most corn this year, the estimate being 6,212,354 bushels. Adams county produced the most wheat, the estimate being 2,567,804. Cedar claims the record for oats, the estimate being 4,131,952. Buffalo county gets the cup in the matter of alfalfa, the estimate being 121,700 tons in other words at tame hay Holt county leads, with an estimate of 194,056 tons.

Table with 2 columns: Crop, Value. Includes Corn, Wheat, Oats, Alfalfa, Hay (wtd), Hay (tame), Total, Other Grains, Kye, Barley, Speltz, Millet and Hungarian, Total, Seeds, Alfalfa, Flax, Millet and Hungarian, Other seeds, Total, Fruit, Sundry Products, Total soil products.

HUGHES AND LEGISLATION. St. Louis Globe-Democrat: The democrats who demand that Mr. Hughes exhibit some of the hypothetical legislation he would have enacted to solve future problems are careful to avoid his record of legislative achievement.

After the panic of 1907 showed the weaknesses in the banking system of New York he set about removing them. The result was a set of model banking laws, protective of the public and of the stockholders.

Some of the farmers around here were hauling rock last Wednesday and Thursday for their use. A car load was ordered some time ago.

Mr. and Mrs. Fred Ambrust of Geneva, visited with the latter's sister, Mrs. William Peters and husband, Sunday.

He has written laws and he has construed them. His old law firm is now few in the extent of its business with international trade, and it trained some of the greatest experts in the world. In dealing with future legislation he will not simply an exhibitor. He will see that all the bills he signs are given their full weight and accomplish what their authors intend.

ELECTIONITIS.

The election has become almost garish in explaining that Secretary Baker did not mean anything when he announced before last that he was not to take to taking on a job between Mexico and the United States for political reasons.

The war department has received definite information from other sources, that enemies of the administration's policy toward Mexico, in connection with Villa or other bandits in Mexico have arranged a spectacular attack to be made either upon some part of the American forces or upon some American community on the border.

On and after the date of the election for the purpose of turning the tide of sentiment against the policy which the administration has adopted for the protection of the border. It is significant that both the state and war departments were advised that the bandits were operating at the present time in Mexico are being paid in silver coin.

The official explanation to be made of this extraordinary pronouncement is that it was inspired by the excitement that comes of a sudden act on the eve of an important election. Few of us are immune from the disease of which Secretary Baker seems to have fallen victim.

ALTON, Mo., October 26, 1916. Corn picking time is here now. Gus Behrens bought twenty-head of calves in Wisner, last night.

Oscar Reinhardt bought a load of vice feeders last week in Wisner. William Pilgrager drove home a bunch of nice registers from Wisner last Saturday.

Frank Matthes returned home Saturday from a two weeks' visit in Lawrence, Mo.

Mr. and Mrs. Hago Spitzberger left for Creighton last week to visit relatives and friends. E. Shields bought four fine Holstein heifers from J. V. McGuire a short time ago.

George Roggenbach has been visiting a sister and friends. Carl Wolters shipped a load of hogs to Omaha Monday night. Mr. Wolters went to Omaha with the hogs.

Henry Stuthman bought a thoroughbred Durco Jersey cow last week from R. Wilde & Son of Geneva. Mr. and Mrs. Fred Ambrust of Geneva, visited with the latter's sister, Mrs. William Peters and husband, Sunday.

ELECTION NOTICE.

Notice is hereby given, that on Tuesday, the seventh day of November, 1916, next, at the usual voting places, in each precinct of the county, a general election will be held for the purpose of electing the following officers, to-wit: Eight presidential electors. One United States senator. One governor. One lieutenant governor. One secretary of state. One auditor of public accounts. One state treasurer. One superintendent of public instruction. One attorney general. One commissioner of public lands and buildings. One railway commissioner. Two regents of the state university.

One congressman for the Third congressional district. One state senator for the Seventh senatorial district. One state representative for the Twentieth representative district. One chief justice of the supreme court. Three judges of the supreme court. Two judges of the district court for the Ninth judicial district. One county clerk. One county treasurer. One county sheriff. One county superintendent of public instruction. One county attorney. One county surveyor. One clerk of the district court. One county assessor. One county commissioner for the Second commissioner's district. One police magistrate for the city of Wayne.

Also, at the same time and places, two amendments to the constitution of the state will be submitted to the electors for adoption or rejection under the provisions of the initiative, to-wit: Shall the constitution of the state of Nebraska be amended by adding thereto the following: One. On and after the date of the manufacture, the sale, the keeping for sale or barter, the sale or barter under any pretext of mail, fictitious names or fictitious quantities, liquors are forever prohibited in this state, except for medicinal, scientific, or mechanical, or sacramental purposes.

That Article V (5), entitled "Executive Department" of the Constitution of the State of Nebraska, and hereby is amended by adding thereto the following new section to be numbered Section 19: Section 19. The governor shall appoint an elector of the state who shall be known as the Food, Drug, Dairy and Oil Commissioner. Such commissioner shall be appointed for a term of six years and shall have power to administer all laws now administered by the Food, Dairy and Oil Commission, and the powers possessed by the governor as the commissioner of the Food, Drug, Dairy and Oil Commission shall cease to exist in the governor and his deputy, and shall be vested in the Food, Drug, Dairy and Oil Commissioner, which commissioner, without further authority of law is hereby authorized and directed to assume and exercise the powers and perform all the duties heretofore vested in, or exercised by the governor with reference to the Food, Dairy and Oil Commission, but nothing herein shall limit the general supervisory or examining powers vested in the governor by the laws of the constitution of the state, or such as vested by him in any committee appointed by him. Said Commissioner shall have and exercise such compensation, perform all duties and comply with all regulations that are fixed and established by law.

Which election will be open at Eight o'clock in the morning and will continue open until Eight o'clock in the evening of the same day.

In Testimony Whereof, I have hereunto set my hand and seal this 5th day of October, A. D. 1916. CHAS. W. REYNOLDS, County Clerk. O124

POLITICAL ADVERTISING.

John L. Kennedy Republican Candidate for U. S. Senator

Expressed in the following words: "I am proud to be a part of the people."

VOTE FOR HIM

Andrew M. Morrissey Non-Partisan Candidate to Succeed Himself

The Judiciary has been taken out of politics. Judges are not nominated by political parties, but are voted for on the merits of their own merits. Judge Morrissey's work as Chief Justice has been heartily commended by those having business before the Supreme Court. In the April primary the voters showed their appreciation of his efforts by giving him a solid majority. Out of 83 counties he received a majority of 80, and in the whole state he received 69,890 more votes than were cast for any other candidate for Chief Justice. He is in vigorous health; in the prime of life; has demonstrated his fitness for the position, and for these reasons you are asked to help elect him to succeed himself.

Keith Neville Democratic Candidate for Governor

A NATIVE SON

A practical man of the people who has made a success in business and to whom the tricks of the ambitious politician are unknown.

He offers a constructive program that will benefit the people of Nebraska and his candidacy is in harmony with the strong Democratic platform adopted by his party at Hastings. He believes that the highest duty of any public servant is to carefully see to it that the will of the people, as expressed in the polls upon all questions, is carefully carried out. The two Republican newspapers in North Dakota are supporting his candidacy and the vote of nearly five to one given him at the primary election in North Dakota is evidence of the confidence in him as a man of character and standing and a safe one to be entrusted with the business affairs as well as the enforcement of the laws of the state. Vote for a home-grown man and a candidate who is supporting his administration of state affairs.

At least two country meetings are held at each session to participate in the reception, Philo Graves, who erected the handsome building at a cost of \$1000 and who since its opening has made several visits to girls in the way of pictures and furnishings, was a guest of honor.

Miss Julia Long entertained a company of ladies at an afternoon party at her home in town. Mrs. A. Peterson and daughter, Helen, who formerly lived in Wakefield, but who are now located at Rockwell, were the guests of honor. The hostess served delicious refreshments.

and Mrs. Waite of Knapp, Wis., arrived in Wakefield Tuesday to visit their aunt, Mrs. W. J. C. Smith. Mrs. G. W. Waite, who formerly lived in Wakefield, returned to her home at Sioux City Tuesday afternoon after visiting old friends here for a few days.

BRIST
The New Lawn Game
The Brist Boomerang, with which Brist is played, is a most wonderful and novel invention.
The Boomerang can be thrown through the air in a horizontal line, making a perfect curve, returning with complete accuracy to the thrower.
It may be thrown completely around a house. It may be thrown under a train, curve upward and return to thrower over the train.
The Boomerang is scientific in construction and intensely interesting.
Prices of Boomerang alone 25c, 35c, 50c
