It will do you good to think on these things.

The Sunday evening's subject will be a practical message on the subject "Off duty—What Then?" Every student not identified with some other service should hear this message Sunday evening.

COUNTY BREEDERS TO ORGANIZE JANUARY 13.

The American Association of Organizing County Breeders of Poultry has favored the middle of January as the best time to meet. The meeting was scheduled Saturday, January 13, at 2 o'clock. This will be the date...

Every breeder interested in the improvement of live stock should make a large attendance at the first meeting. Much of this work of organizing will fall on the public spirit of breeders in every county. These men can be of great service to their own communities by stimulating breeders of all classes to get organized...

entering the new year confidently but cautiously prepared either for a continuance of the frolic they have been enjoying or prepared for the fight that may be forced upon them. The year 1916 stands unprecedented in the financial, commercial and industrial history of the United States.

The national breeders' organization, which will be affiliated with the county associations, will be made up of representatives from the different sections of the county. At the meetings of this national organization new and useful ideas can be exchanged.

THE YEAR IN BUSINESS. St. Louis City Journal. The new calendar year opens with a seasonable lull in some lines and a more general consideration of the necessity of re-adjustment than prevailed at any time during the year just closed. The tendency toward conservatism is due only in part to the talk of peace, which has filled the holiday time.

With higher prices and higher profits to producers there came a tendency toward higher wages. This tendency was worked out in many lines of production, either through direct wage and salary increases or through a means of bonuses. To the whole, however, it cannot be said that the incomes of wage earners have kept pace with the increase in the cost of living.

The most glittering profits last year were made in certain lines of production devoted to the fulfillment of orders from across the Atlantic. The reaping of extraordinary profits in these industries has been accompanied by an extraordinary boom in their securities, and fortunes have been made by speculators who foresaw the drift of profitable business.

### WAYNE EVIDENCE FOR

#### WAYNE PEOPLE

Home testimony is real proof. Public statements of Wayne people carry real weight.

That a friend or neighbor says concerning respect.

The word of one whose home is far away invites your doubts.

Here's a Wayne woman's statement:

"And it's for Wayne people's benefit."

Mrs. J. Messer, Wayne, says: "I used to have weak kidneys, and I was hardly ever free from a bearing down pain in my back. When I started taking Foster-Milburn's Kidney Pills, from a chair knife-like pains, I could cry out. I could get little rest and my kidneys acted too often. The trouble kept me in a run-down condition. Doan's Kidney Pills, procured at the Roberts Drug Co., rid me of the trouble."

#### NEBRASKA TELEPHONE COMPANY.

If you do not speak directly into the telephone, the sound waves will not strike equally the metallic disc in the transmitter and the other party will hear you faintly and indistinctly.

### Better Service is Obtained by Talking Directly into the Telephone

Recently one of the comic papers had a cartoon of a man with his nose in the telephone mouthpiece. Underneath was the line, "Can't you hear me?"

Many who saw this picture smiled and recalled how often they had seen people talking out of the window, at their feet or through a cigar, but not INTO the telephone.

To be heard distinctly over the telephone one must talk directly into the mouthpiece, with the lips about an inch away.

If you talk with your lips against the mouthpiece, your voice is muffled and suppressed. To the listener it sounds as though you were troubled with a severe cold and could not articulate properly.
