AMERICAN SHIP SUNK BY U-BOAT UNWARNED

TORPEDOED BY SUBMARINE
All on Board Saved—Report Says Submarine Retires Ship Help to Sinking Ship.

London, March 14.—The American steamship Algonquin has been torpedoed by a German submarine. The crew was saved. The vessel, owned by the American Star Line sailed from New York for London on March 13.

The Algonquin was torpedoed at 6 o'clock on the morning of March 12 without warning, according to a report made by the American consul at Plymouth. The consul stated that all on board were saved. The submarine refused assistance, according to the report of the consul.

According to a later report from Plymouth, the captain of the Algonquin stated that his ship was sunk by shell fire without warning.

PEOPLE FOR PAVING AND AMPLE DRAINAGE
Petitions asking the city council to take steps to properly drain and pave Wayne are in circulation and with very few exceptions people have readily given their signatures.

The cordial interest and support accorded by the city council members should encourage people who want bigger and more substantial city. It is expected the canvass will be completed in time to publish the list next week.

Mr. and Mrs. Peter Kortum and son, Mr. Ekalaka, Metc. have been here for the winter of the family of Jacob Reibold. They expect to go from here to their former home at Bloomfield for a visit before returning to Montana. They went to Montana in the summer of 1913, country three years ago, and Mr. Kortum says that he is well satisfied. He reports that crops have been good every year he has been there. The weather was not so severe as not felt worse than here, because the altitude is high and the air dry. He received word from his daughter that three feet of snow had fallen recently in Montana. M151ad. "PLANT VAGANT LOTS" IS SERMON SUBJECT. There was a big crowd at the Baptist church Sunday night and it has been a joyous time, since a more interesting service was held at the church. It was a joyous and snappy program from start to finish. There were a score of voices in the choir and the first song started off with an exhibition of the choir's talent. It attracted attention. It was followed by a selection by the Normal Y. M. C. A. quartet. Miss Lillian Brockman gave a nice reading, containing a Mother's Sermon. It was very appropriate and exceedingly well rendered and reflected great credit upon Miss Mack's expression class, of which Miss Brockman is a member. These readings are making a great hit. The quartet sang a second number. "Other selections by the choir given with unusual vigor added attractiveness to the entire service. M151ad. Without taking a text Mr. Gaston stepped out to the edge of the platform and said: "We are living in a magnificent world. Everywhere we see beauty and grandeur. The wide plains and high mountains, the rivers and lakes, all pay mighty tribute of beauty to every scene. Yet the world is full of sorrow and pain. The corpse of the dead Eden. God Almighty planted a garden and started the human race in the gorgeous surroundings of a faultless garden and ever since his flowers were withered by the frost of sin, God has been trying to get Eden back into the world and man back into Eden. It's useless to deny that surroundings have much to do with man. Surround the young with gardens, garland their days with flowers and you have contributed an uplifting, refreshing that will add greatly to their lives. Gardens produce better men than jungles, and for that reason I contend that planting a flower is a religious act. Let us apply our religion to Wayne by a very practical plan. Banish the weed-patch and substitute the flowers and the vegetables in the vacant lots of our city. "When a stranger comes to Wayne he is impressed with three things. Three things stand out prominently and challenge his attention. First, he is compelled to note a few lawns, schools, and churches. There are no better to be found anywhere. Second, he notices that blocks in the business district are not in keeping with the times. He is bound to note that the vacant lots have no friends that they are grown to weeds and counterbalance the beauty of our lawns. Why not change this? Why not organize our boys and girls into garden clubs and plant weed patches to gardens and thus add to the beauty and attractiveness of the home and the food supply. Every available piece of ground in the country should be put to use and made to produce food for the human race. The demand for food is alarming and it will do the boys and girls good to be put to work and receive a little training in industry. A little scientific gardening will go well with the manipulation of the manipulation of the hoe indicates a taste as refined and artistic as that that guides the brush of the painter or the chisel of the engraver. Let us plant "Wayne blossom and bear fruit." At the close of the address there were many who expressed their approval at the address. Let the approval of the Normal Y. M. C. A. through their president Mr. Morgan, volunteered to help. This is really a good thing. Let the agitation go on, but do not let agitation be the only thing done. Take a deep breath now and then for a fine refreshment and inexpensive.

Bed-Davenports Are almost essential in houses with large living rooms. Why not "dress up" your home this spring with one of our roomy davenports that will last a life time? They are made of seasoned oak that will not swell or peel at the first change of temperature. The workmanship will stand the closest inspection by the most critical. Extra bracing adds strength to durability.

There's a Reason For Cabinet Ranges.

The sanitary idea has opened many dark places, has put desks and furniture up on legs, so you can clean beneath. In a dirty factory or messy office and other places where men clean up, this was quite necessary, but in a home, the robin in the kitchen especially, such precautions are not and have never been necessary. To set a range flat on the floor will do with men, but when the Copper-Clad built a pretty "base," this objection was overcome.

Note the small picture. This shows the base of the Copper-Clad range. It is quarter round pressed iron with nickled corners to give a finished look. This raises the bottom of the range two inches from the floor, yet shuts out every particle of dirt. Only the cabinet range has the oven closed, the ideal place to keep hot irons clean and free from rust. Probably the best reason for cabinet ranges is their liberal aspirin space.

Four Walls - Count Them 1 2 3 4 No. 2 is the sheet of pure copper that keeps No. 3 the sweaty acids from touching No. 1, the outer wall or range body. No. 4 is the wireless grey iron that holds the asbestos to place. Between Nos. 1 and 2 is an air space that means to a range what an air space means to a thermos bottle. The Copper-Clad Range is the only range so made. It is the best range in the world. It costs most - lasts longest and makes you Range Happy.

From People You Know

Long Beach, Calif. pictures of the animals, from that country, are very interesting. There is something to interest people of every taste and temperament.

Just above the great beach an astronomer is stationed with a very large sky telescope. For ten cents you can look at the beautiful sky, and hear a lecture at the same time.

The astronomer is a member of the American astronomical board, and each one of us has his station here for the purpose of observing information. I used to think all the stars were in the heavens.

From my standpoint Long Beach is a wonderful and delightful place to spend the winter months. The climate is as near perfect as one could wish—just cold enough to make one feel full of life and energy, and glad that you are alive to enjoy the beautiful sunshine and flowers.

You enjoy looking over the great and mighty ocean, as the waves roll and dash in and out, never ceasing.

You can see for miles large ships that are carrying the goods of the world. There are several large ships stationed around this harbor, for protection.

The Pike is similar to an exposition, for you see everything you see in fairs. It is a mile and a quarter along the ocean beach. There are all kinds of displays, demonstrations of industries and art work. Last week they brought several large displays from the San Diego exposition grounds. The people speak of the Pike in the same manner as we would say, "I am going to the circus." Long Beach would not be the great stopping place it is, were it not for the Pike. If I were a resident of this place, I would ask that the name be changed to Industrial street or Broadway Beach. You can see almost any nationality here at its very best. Each surpasses the Americans in his own line of work.

For graveyards, the carving and all kinds of beautiful work from the Orient, are exhibited. They cannot be surpassed any place in quality or quantity. The first display from Alaska and the moving

east are the white-capped peaks of Old Boulda in full view. On the south you look down on the beautiful valley of Long Beach, with a grand view of the mighty ocean. Beyond you can see the lighthouse stationed at the end of the breakwater, which all the ships see in the harbor. The sunset is glorious from this point. As you stand on the summit and gaze at the setting sun, its reflection on the ocean and the white-capped mountains, the sky, the coloring is wonderful and far more beautiful than brush could paint.

One of all these cities of nature, that Long Beach has the very best there is in you and you feel that it makes little difference whether you are here or over yonder. It is all so grand and beautiful that it cannot be described.

One of the most pleasant features of the place is, that we are always treated with the greatest of courtesy. You hear the remark, "Why should they treat us so? They make their living off us." That may be true, but it is very nice for always receive their courtesy, and that there is no favor too great to ask of them, that will not be granted with pleasure.

"These fairs often come to my mind," says the man that stands the farthest toward making the life while that costs the least and does the most is just a pleasant smile.

"This is all very enjoyable to me, but my own folk at home! There is one 'wee bairn' that I have never seen. I am thankful for my blessings, they are many.—Mrs. Henry Day.

ROAD EFFICIENCY

Nebraska Farmer: Nothing would make more certain for better roads and more efficient use of road funds in Nebraska than to have a county highway engineer or county superintendent, in each county. At present the roads in practically all of the counties are in charge of men who may or may not have had experience in road work, and who whatever their knowledge or experience in that line, give only a part of their time to the roads. Moreover, there is no continuity of policy, for the officials are changed frequently. A county engineer, on the other hand, gives all of his time to the work, is always on the job and has an opportunity to grow in knowledge and experience.

A law now on the statute books gives the people in the separate counties the right to vote upon the employment of a county highway engineer. No county has yet voted under the law to adopt the system. Bills now pending in the legislature would make it mandatory upon county boards in counties of more than 1000 inhabitants to employ a county highway engineer to have general control of the roads and bridges. I should like to see the counties in Nebraska come in this county by the free choice of the people, but I feel so sure of the benefits of the system that I do not think it would be a calamity if the legislature should make it mandatory. I wonder, too, if it would not be profitable in many counties to inaugurate some system of road patrol. However fine may be the theory of each farmer dragging a certain amount of road, most farmers do not find time to do the work. A comparatively few men with rapidly moving trucks and heavy-duty engines, each man having a definite district, could keep the roads in excellent condition. Between showers these men working singly in groups, could repair bad places in

\$78 FOR A HOG

Wynne Tribune—Records are being broken every week in the hog market, and on Monday L. A. Leitzen sold a hog that he said beat all of his previous experience or expectations. This was a sow that tipped the scales on the local market at 620 pounds. She brought 14 cents a pound, netting the owner \$78. This sow was two years old and last year raised a litter of fourteen pigs, which now weigh 225 pounds each.

As the price still continues up in the air there is no telling what may happen, but this is the best price we have heard of so far for a single hog.

The trouble with many specialists in business is that they won't work. Many people fail to realize the force of war or wind until the house comes down.

Persons printing pictures of potatoes should be prosecuted for inflicting extreme and unusual cruelty.

Indiana has had the first cyclone of the season and has this slight one over "Omaha," which usually takes the lead.

The bill to outlaw the smoking of cigars and coffee in Nebraska is the Nebraska legislature and is likely to become a law.

Scattered Christian nations now engaged in ruthless war, ought to have enough in their crusty slaughter to offer due apology to the memory of the primitive American Indians for calling them savages.

We have learned of an Omaha preacher who is evidently rich in material things, and whose name is Holler, appropriately such, no doubt. He is offering a bushel of potatoes to any one who can show him a verse in the bible mentioning a prodigal son.

When Wayne's streets are paved with something more substantial than good intentions and encouraging prospects, people who come to town to do business and who can get out of their Ford and other cars without spraying and plastering their neckties and garments with liquid mud.

It is encouraging to note that the representatives of 2500 American workers have pledged active aid to the United States in the eventuality of war. This avowal of unqualified devotion, and support comes from trade unions, and is a great hope for continued peace and avoidance of grim war is expressed, though it is made clear that a vast army of workers will, if necessary, uphold with all possible effort the flag of the republic of America.

At the Baptist church Sunday night, the pastor wove into his sermon appropriate consideration of the question of bringing peace to Wayne to advance and profit. He would have grounds, hitherto

useless, made into vegetable and flower gardens. He would have no unsightly places, no vacant lots going to waste. The town would look better and realize much in food value. The work of transforming idle grounds into rich gardens would be both a physical exercise and mental satisfaction.

Events and facts associated with early recollection are the ones that stick longest and clearest in memory. The man of advanced years will recall things that happened in childhood as a boy more distinctly than things that happened in middle life. Thus it is important to have children guarded against unpleasant or unwholesome experiences. People are more careless in what they say to children than what they say to adults, whereas the reverse should be true. What they say to children will be remembered through life. What they say to adults will soon be forgotten. It is easy to help or hurt by impressions made on the youthful mind.

If Wayne is to keep in the lead of Nebraska towns of its class, it must improve and advance. It must awaken to the need of improvement that will bring it to a higher standard of municipal life. A progressive city council and a progressive Public Service club must work together for general knowledge and betterment. We must do things to keep alive and progressive. Because the town has survived thus far without certain advantages is no reason why it should continue in the same old rut. It takes money to improve. It takes money to keep out of the dragging village class. It takes more than past reputation and present hot air to keep in the vanguard.

If any one doubts the capacity or ability of Wayne to entertain in satisfactory fashion existing teachers gathered here the last of the month, they will find it well justified when the time comes. No group of buildings in the north part of the state equals that of the State Normal in adequate quarters and facilities for the students. History will be transported gratuitously and promptly. Ample board and lodging will be provided. No community can do more to make the guests feel welcome and their sojourn pleasant and profitable. What more could be asked? Where could more generous hospitality be found? Wayne is the school town of north Nebraska and it is an appropriate place for an educational meeting to be held. Here will be found ample accommodations. Then why not make Wayne the permanent meeting place?

An exchange suggests that the Herald is compelled to issue six-

teen pages each week to accommodate its advertising. One might infer that advertisements are dried at us from getting guns stationed at every point of the compass, and that we just can't escape taking them and tanning extra pages in order to vent them. As a matter of fact, the Herald pushes advertising every day of the week in order to justify sixteen pages. The number of pages is increased to give the care of an inevitable flood of advertising. The size to fill is fixed, and then the flood is created to match. See this, the Herald and all increasing advertising clientele are mutually benefited.

No employment, no funds and no friends constitute a most harrowing and dismal condition. A young woman in Omaha, unable to secure work, determined to end mental anguish and physical discomfort by drowning in the Missouri river. She felt that advertisements are dried at us from getting guns stationed at every point of the compass, and that we just can't escape taking them and tanning extra pages in order to vent them. As a matter of fact, the Herald pushes advertising every day of the week in order to justify sixteen pages. The number of pages is increased to give the care of an inevitable flood of advertising. The size to fill is fixed, and then the flood is created to match. See this, the Herald and all increasing advertising clientele are mutually benefited.

There has been a slight falling off in the output of some important industries; due partly to difficulty in moving the finished product and partly to scarcity of raw materials and high prices for fuel. A scarcity of labor restricts production in some centers.

Lower prices for important staple commodities have diminished the volume of complaint over the high cost of living, but permanent relief from the hardships involved in increased demand and reduced supply is not in sight.

THE NEW POLICY. Lincoln Journal: As matters have shaped themselves in the last six months, the country has had before it a clear choice of three distinct policies toward the German crisis. The president has now made his choice of the three.

But for the moderate course of armed neutrality, majority support can be secured. The war party is dissatisfied with it, the peace party is afraid of it, yet it so far satisfies the great middle ground of national opinion that it can have a trial. This cheats the war god for a time, at least. And time is life in these terrible days.

It is also possible that a group of considerable force, which opposes war in any circumstances. Mr. Bryan is a leader of the radical pacifists of this group.

THE FIELD OF BUSINESS. Sioux City Journal: Financially the most important development of the week was the issuance by the federal reserve board of a resolution of its position regarding investments in foreign loans by national banks.

The action of the president in authorizing the arming of American ships for defense of neutral rights puts the country in a position midway between these extremes. This puts the United States into an endeavoring to avoid war while yet in essence not submitting to the extraordinary pretensions of the Germans to control of the sea by mere threat.

The federal board's first move in regard to foreign loans was made in November last when Morgan & Co. were about to float in this country a large amount of unsecured British treasury notes.

The extreme pacifists have opposed this move by the United States, for obviously it tends, in itself, more toward war than would a continued policy of non-resistance.

The present statement essentially is a natural adjustment of the trade balance, which has been running heavily in our favor since the early months of the war.

THE phenomenal success of the Wayne hospital during the few months since its establishment is but another link in the chain of evidence proving the necessity of a fully equipped hospital in the small town so that the sick and injured may receive the needed attention at the critical time. It is an admitted fact that dozens of cases are lost just because the operations had to be delayed several hours.

THE strictest attention is paid to sanitation all through the hospital. Inspection of all rooms is invited at any time. Call on your friends at the hospital and see for yourself the care they receive.

Big institutions, using yards and yards of red tape, are inclined to criticize small institutions that don't use any, and the fact that a little institution doesn't take in enough money to buy the tape makes no difference to the sap-head clerk of the big institution, who thinks he knows it all.

SENATE VOTES TO SELL STATE'S SCHOOL LAND

Lincoln, Neb., March 15.—The senate yesterday afternoon voted to sell the school lands of the state by a vote of 16 to 10 after a more or less lively discussion. The question is embodied in Senate File 295 by Robertson of Healy.

The governor says that will place lands estimated to be worth \$2,760,000 on the market to be disposed of at the highest bidder. It is a substantial sum by more than 60 acres and the present legislation will have the right to purchase at the highest bid price.

Those voting for the bill were: Bommer, Burthman, Donahut, Dour, Huger, Higgins, Kolar, Matas, McPherson, Sweeney, Wilson, Dodge and Wilson of Frontier—16. Against the bill were: Beal, Bush, Chappel, Haise, Hammond, Hoxell, Lathams, McMillen, Neal, Oberlies, Sandall, Sawyer and Spick—10.

Public Fund Killed.—The house today decided that in the interest of economy, no money should be given to publicity through the creation of a publicity bureau and the \$25,000 appropriation was killed.

Phonies in Stations.—Following are some of the measures considered and passed on third reading—calendar: Requiring railroad companies to have telephones in depots, over which employees must give information to the public, but allowing an arrangement with local telephone exchanges whereby it may furnish such information for the corporations.

Licenses of insurance agents subject to cancellation upon complaints of two persons after a hearing before the county judge in the county from which the complainant comes.

Governor authorized to appoint United States senator in case of vacancy to serve until next election.

Johnson's bill raising the limit of school tax in all districts from 35 to 45 mills was recommended to pass an amendment proposed by the committee on revenues and taxation which lowered the maximum to 40 mills being defeated.

PARAMOUNT STARS BOOKED FOR WAYNE

Every week, or rather every night of every week, brings wholesome and entertaining features on the screen at the Crystal ball. The Paramount hotel here for the coming week will give Wayne people some inkling of the type of play which is being produced. Hiram Powers, president of the company, declares there are no limitations to the art. How he has secured such stars as Marguerite Clark, Pauline Frederick, Geraldine Farrar, Margaret Livingston and Mary Pickford is a story in itself. Four big studios, Lasky, Famous, Mervyn and Pat, are kept at white heat the year round, creating productions that will appeal to the better class of

patrons. It is said to produce that within a few weeks Wayne people will be as keen as the big Paramounts as they have been in other centers since the phenomenal success of "The Right to Be Happy."

Tomorrow night Friday, Lou Tellegen will be seen in "The Unknown," adapted from the stirring novel "The Red Mirage." Edgar Selwyn, the famous Broadway star, will appear afternoon and evening Saturday in his own romantic and picturesque drama, "The Arab."

The most representative Paramount, however, will be screened Monday afternoon at 2:30 and 4 o'clock and Monday night at 7 and 8:30 o'clock when mighty Marguerite Clark will recreate in every heart the altogether bewitching and beautiful dreams of childhood in "Snow White." This little sketch of the everyday life of Marguerite Clark will be read with interest.

"Marguerite" Clark departed for Chicago at the end of last week for a two weeks' vacation—the first which she has had in many months. The brief pleasure trip represents the hiatus between the picture "The Purple Mask" and "The Fortune of Fifi," in which she is to star, and the beginning of the staging of "The Valentine Girl," which is her next vehicle.

At the close of this impressive series of "Living Songs and Living Pictures" was enjoyed. In an open doorway in which rose curtains were draped for a background Miss Jessie Grace in a white and black costume with a shoulder and Scottish cap set jauntily on her head, posed as "Annie Laurie" while the verses were sung by Miss A. B. Davis, Mrs. E. S. Blair, Mrs. J. G. W. Lewis and Miss Winnifred Fleetwood. "Kathleen Maconnough" was characterized by Mrs. J. E. Hunter who wore a white shoulder scarf. Mrs. T. Jones sang the air, Mrs. W. M. Philco sitting at her knitting in a chair and her feet resting on "Mother Machree." In the fourth number Mrs. C. T. Ingham, wearing a filmy head drap, sat with downcast eyes telling the tale of the "Blossoms" as sung by the ladies' quartet. Mrs. V. A. Senter impersonated the Indian maid of which Mrs. W. H. Morris sang in "The Land of the Sky, Blue Waters."

For the closing number Mrs. A. R. Davis, appropriately dressed in the national colors and wearing a crown assumed the role of Columbia while she sang the national anthem and sang the national anthem.

SOCIAL NEWS

Enjoy Club Dance.—City members and friends of the Wayne Dancing club enjoyed a dance at the city hall Friday evening. A famous orchestra of four pieces from Omaha furnished excellent music.

The home of Mr. and Mrs. William Hassenkofer, north of Wayne, was the scene of a merry gathering Saturday evening. Fortteen young people were invited in special the evening in an informal good time. Dancing and music were enjoyed, at the close of which light refreshments were served.

Geography-Travel Club

Colonel James T. delighted the members of the Geography-Travel club and a large number of visitors for an hour and a half on Monday evening with his illustrated lecture "The United States in the Making." Colonel Porter, over one hundred views were shown and each one was accompanied with an interesting explanation of personal experience in connection with it. The club certainly appreciates the pleasant and profitable evening spent with Colonel Pike.

This club meets every two weeks on Monday evening in the lecture room at the Normal C. This club meets every two weeks on Monday evening in the lecture room at the Normal C.

Mrs. Ellis, Hostess.—At the regular session of the Minerva club at the home of Mrs. W. K. Ellis Monday afternoon Mrs. C. H. Bright discussed the alarming food situation in Prussia at the present time. Mrs. Bright also touched on some of the difficulties that befall the able-bodied soldier.

Miss George Porter in her department explained the content and significance of the Ohio and Indiana laws which grant to women partial suffrage.

Mrs. Ellis at this point in the program, played a piano solo, "Ave Maria" by Schumann. She was followed by Mrs. Erskine who detailed how skin taken from the thigh of frogs had been successfully used for grafting purposes. Mrs. Erskine also gave the gist of several articles concerning music. The program closed with a piano duet by Mrs. W. E. Beaman and Mrs. Erskine. They played the "Charge of the Light Brigade" and resided with "Symphony Dance" as an encore. Miss James Britton was chosen as a delegate to attend the district club convention at Oakland, March 27, 28 and 29.

Initiation Ceremonies.—More than one hundred members of the Wayne chapter O. E. S. gathered at the hall Monday evening to attend the initiation ceremonies made up of the receiving of "Mother Redmond," Miss Elizabeth Durrie and Miss Minnie Will into the fellowship of the order.

At the close of this impressive series of "Living Songs and Living Pictures" was enjoyed. In an open doorway in which rose curtains were draped for a background Miss Jessie Grace in a white and black costume with a shoulder and Scottish cap set jauntily on her head, posed as "Annie Laurie" while the verses were sung by Miss A. B. Davis, Mrs. E. S. Blair, Mrs. J. G. W. Lewis and Miss Winnifred Fleetwood. "Kathleen Maconnough" was characterized by Mrs. J. E. Hunter who wore a white shoulder scarf. Mrs. T. Jones sang the air, Mrs. W. M. Philco sitting at her knitting in a chair and her feet resting on "Mother Machree." In the fourth number Mrs. C. T. Ingham, wearing a filmy head drap, sat with downcast eyes telling the tale of the "Blossoms" as sung by the ladies' quartet. Mrs. V. A. Senter impersonated the Indian maid of which Mrs. W. H. Morris sang in "The Land of the Sky, Blue Waters."

For the closing number Mrs. A. R. Davis, appropriately dressed in the national colors and wearing a crown assumed the role of Columbia while she sang the national anthem and sang the national anthem.

During the social hour following the program "sing toss" and other games were enjoyed. Refreshments of ice cream cake, coffee and nuts were served by the committee in charge. The St. Patrick idea was carried out in the coronation and little sham rocks were used as favors.

served when "like a flash of lightning from a cloudless sky" the purpose of the occasion was disclosed. Miss Florence Welch appeared in the center of the assembled company and announced that Harry M. Armstrong had a stunt which he was enthusiastic to perform and eager to have everyone watch, whereupon that gentleman immediately appeared carrying a traveling bag and hiding his enthusiasm by a very blasé and countenance. Needless to say everyone watched and all seemed appreciative. Perhaps they thought that some regrettable circumstance had necessitated Harry to betake himself to distant parts, but Harry M. Armstrong didn't go away. Instead he stepped right in front of everybody, set the traveling bag down on the floor and opened it and lo! a small maltese kitten with a large bow of white ribbon about its neck jumped from the bag to the floor.

The coming marriage of Miss Welch and Mr. Armstrong was announced. To most of the guests this announcement came as a complete surprise, but a few had it necessary for some months past that they heard the stifled moans of an imprisoned kitty and they all the rest seemed exceedingly joyful when Miss Welch and Mr. Armstrong were receiving a host of congratulations and best wishes and while everyone was wondering "when it will be brought to happen" each guest was given a favor consisting of a small basket trunk labeled on the outside, "Bon Voyage!" Inside were the cards of Miss Welch and Mr. Armstrong joined to a little bluebird by a white ribbon. In the lid of the trunk was pasted a small calendar which indicated that the marriage would take place either in August or September.

Some of the friends of Miss Welch and Mr. Armstrong are taking advantage of this "leak" to speculate about town, who have accumulated quantities of old shoes are holding them for the August and September market.

Both Miss Welch and Mrs. Armstrong are prominent in social circles of Wayne and the hospitality of the Welch home is famed among the young element of Wayne. Truly a host of friends wish these young people well. Continued.

MARGUERITE CLARK IN "SNOW WHITE"

The Supreme Picture for the "Kiddies" Coming to Wayne
MONDAY, MARCH 19, at THE CRYSTAL

THE FIRST SHOW WILL START AT 7 O'CLOCK SHARP. COME EARLY

"This Paramount feature, an elaborate screen interpretation of Grimm's classic fairytale, is from every angle highly satisfying. Fascinating to children and their parents alike—for few of the older folks can resist the charm of a finely screened fairy tale. "Snow White" ranks without question among the premier releases of the year," is the verdict of Motography, the trade journal and sharp critic of the "movie" world.

THE STORY.

The part of Queen Brangar, who with the help of the wicked Witch Hex, has usurped the place of Snow White, forcing the latter to share in the kitchen, is very ably handled by Dorothy G. Cumming, while in the role of Prince Florimond, who finally delivers the much-prized against little princess from her persecutors is Creighton Hale. The latter does not figure very prominently nor does he have much opportunity to register dramatic expression, but he makes an admirable prince. Lionel Braham is chief hunter, Berthold, who proves such a staunch friend of the little princess. A very compelling scene is that in which he, by orders of the wicked Brangar, attempts to kill "Snow White," but utterly fails in the attempt. This scene is one of many which contain at once a pleasant mixture of humor and action. They Washington is a real "mistake of goodness" witch.

THE STAGING.

A exquisite "trick photography" has outdressed itself in reproducing the realm of fairyland, where strange phenomena are wont to appear. Children and "grown-ups" alike will enjoy the wholesome purity and the human appeal in this witching production.

"Snow White" was one of Marguerite Clark's stage successes. On the screen the tricks of the "movie" photograph create such a realistic effect of mystification, impossible on the stage, that the absence of the voice is almost unnoticed.

ADVENTURE

The Kidnapping of Snow White. The Entertainment in the Magic Forest. The Wicked Acts of Jealous Queen Alice.

MYSTERY

The Fairy-Birth of Snow White. The Story of the Magic Mirror. The Black Art of the Old Witch.

Mr. and Mrs. M. McMaister of Emmet were Wayne visitors Saturday. Their daughters, Miss Marie McMaister of Carroll and Mrs. William Flegge of Crofton, spent the day with them in Wayne. Mrs. Flegge went to Carroll Saturday evening to visit her sister, Mrs. George Holckamp.

C. J. Anderson of Wausa, came to Wayne Saturday afternoon en route to Omaha with her five-year-old son who had that day suffered loss of his left eye through the accidental discharge of a rifle shell. The boy had the shell in a side and struck the eye with a hammer. The explosion sent the shell into his face, the main force striking the eye. Doctors at Wausa pronounced the sight gone, and advised taking the boy to a specialist at Omaha.

Complaint is made that many cross walks in residence districts are not cleaned, and as a consequence pedestrians have difficulty in keeping their feet dry, and their pelvis, extremities and clothes free from mud. It is pointed out that residents ought to feel the weight of the obligation to clean crosswalks gratuitously to their property. If all would promptly answer the call to such duty, walking would be made more inviting and agreeable during periods of slush and mud.

school talked for the negative.

A. R. Davis presided. Preliminary to the debate was a brief musical program. Miss Magdalene Bohner and Miss Edna Hansen gave a piano duet that so pleased the audience that they were required to repeat it at once. The girls' declamation, under the efficient leadership of Miss Stocking, music director of the school, delighted the crowd with two songs, one given in response to an encore.

The debate, the big event of the evening, came next. The Wayne debaters presented a carefully and skillfully arranged line of facts and arguments. The arguments were well laid and each point was made clearly and forcefully. The arguments were constructive as well as destructive. The delivery of each was quite faultless, and was thoroughly pleasing to every one. Their friends have ample reason to feel proud of them. The Bloomfield debaters lacked due preparation, and were no match for the Wayne students from any viewpoint. The judges had no hesitancy in returning a unanimous decision for the Wayne team.

Dr. E. H. Hinman, professor of a Nation, at Dunlap theater, declaring for their rights and session, the north as one man rally, ing to the flag—only, both sides to emerge from it, four, raising your later full of hatred and rancor and work against each other more ignominious crimes—that is Griffith's Birth of a Nation. At Dunlap theater, Dr. Mann and C. J. Rein, Lincoln attorneys. All the judges have been

well known debaters, and have often officiated as judges.

AFTER the debate a reception was held in the gymnasium where punch was served and where a friendly social time was had. The high school auditorium was appropriately decorated in white, and the occasion was a success.

The Wayne team will meet in debate in due time the team of some other north Nebraska town.

SIGHT OF TWO LIFETIMES.
—The sight of two lifetimes is "The Birth of a Nation"—that of your father and mother, if not directly your own, and also, the sight of all the things that have happened since.

It is nearly three hours of historic tableaux, nearly three hours of smiles and tears and warm heart throbs and gripping pang of need—a panorama of life and love that preceded the first shot on Sunday—and then the break—the south declaring for their rights and session, the north as one man rally, ing to the flag—only, both sides to emerge from it, four, raising your later full of hatred and rancor and work against each other more ignominious crimes—that is Griffith's Birth of a Nation. At Dunlap theater, Dr. Mann and C. J. Rein, Lincoln attorneys. All the judges have been

WOULD YOU BUY A HORSE THAT HAD POOR TEETH?

You certainly would not, unless you could buy him very cheap. If a horse has poor teeth he does not chew his food properly. He does not chew it properly; he does not digest it as he should. His food does not make strength for him and he does not do a proper day's work. No, you would not want a horse with poor teeth.

How about your own teeth? What applies to a horse's teeth applies to your own teeth. If you have poor teeth you cannot chew your food perfectly. It does not digest properly, you fail to get the proper amount of strength from it, and you cannot do as good a day's work as you should. A horse with poor teeth is worth less—so is a man with poor teeth. The moral is obvious.

HAVE YOUR TEETH KEPT IN GOOD CONDITION.

WINS IN DEBATE WITH BLOOMFIELD SCHOOL

Wayne won in a debate with Bloomfield in the high school auditorium at this place Friday night. Resolved, That the United States Should Abandon the Monroe Doctrine was the question discussed. The Wayne high school was represented by Orvin Gaston, Virginia Bowers and Donald Gledhill, who sustained the affirmative. Movin, Birdsell, Conrad Healey and Alva Maxwell of the Bloomfield high

The New DeLaval is A Wonder

For It Is A Bigger and Better Separator than the Old Model for the Same Money

The Greatest Improvement in Separator Construction in the Last Thirty Years

If you are trying to get along without a cream separator, or with a half-worn-out or unreliable machine, why not get a **New DeLaval NOW** and stop your cream waste! You don't need to count the cost because the DeLaval will soon pay for itself. The farmer who gets a DeLaval now, will get a better machine, a simpler machine than any previous DeLaval. Furthermore, the capability is larger although the price has not been raised a cent. Only the tremendous volume of DeLaval sales makes it possible to give the farmer more for his money when others are giving less.

Every **New DeLaval** is equipped with a Bell Speed-Indicator, which warns you if the speed is too fast or too slow. This is a simple, but necessary attachment.

Some of the Points of Superiority of the

NEW DELAVALS—Models No. 12 and No. 15

The New DeLaval bowl design gives a greater capacity and makes possible closer skimming.

The much lower speed of the DeLaval insures minimum wear on gears and much longer life to the machine.

The concave, self-centering bowl, supported on a detached spindle, runs true and does perfect work after long wear.

There are fewer discs; they are unnumbered, interchangeable. The bowl is, therefore, much more easily washed.

All parts are automatically bathed in a film of oil.

The tinware is sturdy, well suited for long, hard wear.

UNCLE WALT

The Poet Philosopher

THE SOMBRE VIEW.

Most husbands take a notion
 of everything on earth they
 bring to town the stiffest news and
 when they get home they must do
 nothing but sit and brood
 all day; they do all their
 dearest, such foolish things they
 do. The wife is killed, all hope
 has long since passed to let
 the roosters do not crow. The
 water has been so heavily drenched
 seems drouth ahead—that every
 thing outdoors must die if not
 watered. We will not better
 no cheese. We have no stalfed
 bees; our hogs are down with
 Bright's disease, our horses have
 the fever. I have heard the
 farmer talk, and his horse has
 more, decidedly away I walk, my
 head and spirit sore. The farmer
 wears a heavy frown and roasts the
 back all day, yet every time he comes
 to town he suits some town away.

EMPTY LIFE.

The strong man said, as he cast
 his eye on a string of cripples that
 hobbled by, "The lame, the halt and
 the blind are here; they're shy of
 teeth and they're deaf of ear, with
 their swollen feet and their stiffened
 knees. They have a maze of scars
 a dog by their side. Oh, what has life
 such shaps as these, with their aches
 and pains and their endless woes?
 If ever they shall come to me
 upon the bright, blue heavens
 and see, when my sinews ache and
 I've lost my pep, and I toil along
 with a cripple's step, when every
 breath is a groan, or sigh, I'll turn
 my face to the wall and die. For
 sickness came, and his strength
 went; he left his bed, and his back
 was bent, his ears were deaf and his
 eyes were dim, and there was tor-
 ture in every limb. So when I sit
 down to read, I say, "Now I'll have
 peace indeed, and comfort six ells
 wide; I'll revel in the printed page,

EVENINGS AT HOME.

Let us down a close of day,
 to read a book by Bertha Clay,
 or Laura Libby's worst, when wearied
 by the daily grind, for books that
 soothe the faded mind I have
 mighty thirst. So when I sit me
 down to read, I say, "Now I'll have
 peace indeed, and comfort six ells
 wide; I'll revel in the printed page,

some good friend or neighbor dies,
 we're filled with wild regret, because
 we're bereft of word of cheer into
 his great and shining car, when he
 was with us yet. When some one
 dies we all unite to make his charac-
 ter seen while, though the slight
 first, we give his virtues quite
 a boom, but he can't sit up in the
 tomb, with laughter and applause.

THE ILL WIND.

There is a storm coming, coming,
 there will be a winter in Kansas, for
 the winter that is coming has been
 but little snowing and the soil is dry
 as blazes, so the weening farmer
 is aching and crying, and
 vasily better than if weather had
 been better. For my miles an hour
 we travel over gum, sand and gravel
 and we don't hit up thirty
 million autos racing over western
 prairies, bearing happy people
 and higher, let the blamed wind
 whirl fifty million autos burning
 where the wind are coming.
 Or the lovely roads were scorching
 scorching, zipping, calyhooning
 tearing rubber tires asunder—let the
 wheat fields go to thunder! If the
 rain bearing storm, every one
 be a fizzle, and enjoyment would
 be ended, oh a winter drouth is
 splendid!

LEISURE TIME.

Omaha Examiner: Leisure time is
 a comparatively modern invention.
 The old-timers never had any leisure
 time. They worked longer hours than
 we do. Farmers used to run eleven
 and twelve hours a day. Farmers
 would get up at 4 o'clock and work
 until dark.
 Clerks, merchants and professional
 men used to run their own back-
 yard gardens. Many men receiving
 large incomes were not averse to
 raising potatoes and beans in the
 home lot. They had become accus-
 tomed to counting the pennies and
 besides they thought the active work
 was good for their health.
 Today working hours are gradu-
 ally growing shorter. Many people
 get Saturday afternoons. The eight-
 hour and the nine-hour days are be-
 coming common. There are a great
 many people who can have their
 evening meal promptly at 6 o'clock
 leaving a good long evening free for
 other pursuits. Hundreds of thou-
 sands of these people whose fathers
 has afforded used to take up the
 hoe and the hoe at that hour are
 now out spinning around in their
 automobiles. Many of the young
 people are simply promandering up
 and down the towns thronging the
 refreshment stands and evying the
 other sex.
 This great change in the habits
 of our people is not wholly a deca-

WHILE LIVING.

If you believe I'm saying wood
 as well as any fellow could, hand me
 a word of praise, without encourage-
 ment I feel I vainly pile the rusty
 steel, and waste my toilsome days.
 But if you say, "You are a peach!"
 The way you say your elm and
 heart is simply out of sight, my
 heart with gratitude is warm, now
 every is in my form, I know the
 world's all right. When I have put
 my saw away, to rest forever and
 a day, no doubt you will come along
 and view my pile of ash and oak,
 and sigh. Alas, that he should
 croak, so patient, brave and strong!
 I watched him sawing, year by year,
 and always meant to grab his ear,
 and whisper something nice, but I
 could my message say; they bore
 his workworn frame away, and
 placed it on the ice." And thus
 we're always heaving sighs, when

ence. It does mark a decline of that
 old resolve spirit that founded for-
 times, and developed savings bank
 accounts. But let us turn to a val-
 uable if used well. The hours an in-
 door worker spends on out-door
 sport are often the most valuable
 of the twenty-four hours.
 Only the time ought not be spent
 aimlessly, simply drifting around
 the streets, develops no muscles and
 lays no foundations for future suc-
 cess. If you would like to succeed
 you must find it in using potatoes.
 They would stand a better chance
 of business success. But whether
 spent in labor or sport, some definite
 end of achievement or physical ad-
 vancement ought to be held in view.

THE LAW AND THE FLAG.

Fremont Tribune: The attorney
 general of Iowa has just given a de-
 cision that no picture of the Ameri-
 can flag can be legally published in
 any newspaper, whether the picture
 be in plain black or in the three
 colors of the flag. Such publication
 is said to violate a statute of the
 United States.
 Since the foreign situation be-
 so intense a great many newspapers
 carry the stars and stripes at the
 head of their editorial columns for
 the purpose of awakening a patrio-
 tic response in the public, and if the
 opinion of the Iowa attorney gener-
 al is correct it is unlawful to do that
 very thing.
 In Nebraska there is a law which
 forbids the use of the flag for ad-
 vertising purposes, either by print-
 ing it or by attaching anything of an
 advertising nature to it, and this law
 is a very proper one. But the print-
 ing of a picture of the flag ought to
 be regarded as a patriotic act,
 and newspapers are entitled to in-
 scribe the material entered into the
 flag, any more than there is in the
 material upon which the picture of
 the flag may be printed. Therefore,
 whatever process will familiarize the
 people with the flag ought to be
 favorably regarded. It ought, in
 other words, to be as commendable
 to print the picture of the flag in an
 newspaper to hang one out of the
 editorial window. If there is a law
 on the federal statutebooks that for-
 bids this it ought to be changed
 and newspapers recommended to
 give the widest possible publicity to
 printing the picture prohibited by act
 of congress.

THE COMING HARVEST.

Lincoln Journal: The high price
 of potatoes is causing gardeners to
 turn with eagerness toward the ap-
 proach of the coming planting sea-
 son. Those who are not satisfied
 enough to plant in cold frames may
 gain two or three weeks on their
 neighbors. Each seed potato is
 planted under this system in a sep-
 arate box to prevent the roots from
 intermingling. Early in May the
 plants may be placed in the field and
 in a surprisingly short time there-
 after new potatoes will be ready for
 the table. This system will be be-
 neficial throughout the world to
 hasten the coming of the next crop.
 Never before in the memory of peo-
 ple have single forces to end the busi-
 ness prosperity that is now so promi-
 nent a feature of American life.

The Missionary society held its regular meeting Friday afternoon at the home of Mrs. N. H. Hanson. The lesson study on South America was led by Miss Frances Mitchell, who conducted an interesting meeting. The following new officers were elected for the ensuing year: President, Mrs. S. H. King; first vice president, Mrs. J. D. Haskell; second vice president, Mrs. N. H. Hanson; secretary, Mrs. C. B. Goe; and treasurer, Mrs. G. W. Henton. The Christian Endeavor society voted Sunday evening to send two delegates to represent the society in the district convention to be held in Tekamah March 24 and 25. Miss Lena Nuehrer and Edward Mathewson were the chosen delegates.

Next Sunday evening at the church hour, Rev. S. H. King will deliver an address on South America. Lantern slides will be used to illustrate the lecture. Everyone is cordially invited to come out and hear this lecture. Admission is free.

Miss Shumway Weds.
Friends of Miss Ruth Shumway were greatly surprised to hear of her marriage last week to Mr. Jerry Burnett, a former university classmate. Miss Shumway has been in the Presbyterian hospital in Chicago, taking the regular nurses' training course, for the past few months. Mr. Burnett had been employed as a secretary at Chicago until he received the call to go to South America. Miss Shumway accompanied him to New York city where they were married. The following guests were present: Mr. Burnett left for South America and Mrs. Burnett came to Wakefield. Congratulations and good wishes are extended the bride and bridegroom.

An Old-fashioned School.
One of the pleasant features of the week was a party given by Mr. and Mrs. W. S. Eberole to seventy of their friends in the parlors of the Logan hotel Sunday evening. The guests were dressed in costumes appropriate to children's days, some in bulky frocks and bonnets and others in kneeboots and kilts. Marbles and jumping rope inspired such buoyancy that the members of the party really felt as youthful as they looked. The feature of the evening was an old-fashioned district school scene, and was presided over by Mrs. R. G. Alter as teacher. The school was organized with four classes. Reading, writing, arithmetic and arithmetic. It is useless to say the pupils were apt scholars and acquitted themselves well. After a strenuous session of school, dinner made with lunch was served, revealed and by means of matching advertisements, partners were found to share the appetizing lunch. The guests departed for their homes at a late hour, feeling that they had spent an unusually pleasant evening.

THE EARLY DAYS IN TWO COUNTIES

From the Logan Valley Herald, March 14, 1884:

Mrs. W. D. Hamilton left for protracted visit with friends in the east.

Stearns and Rice have purchased the City Meat market of Peter & Morris.

Charles Walter has commenced the erection of a paint shop on the rear of Henry Leys' lot.

R. G. Bachman and J. N. Menzie of Alden, Ia., have been in Wayne looking over the grounds for a new mill.

Mr. York and family from Albany, Ill., have arrived and will occupy their land in the south part of the county.

J. Heast of Cedar Falls, Ia., has purchased of H. Taylor the southeast quarter of section 11, township 26, range 4.

James Britton, John T. Bressler and D. W. Britton went up to Norfolk to attend the meeting of the chapter of R. A. M.

Mr. Slater is rapidly recovering from injuries he recently received in a runaway, and will soon be able to be around again.

Judge Crawford held his first

term of court here and disposed of cases in a way that indicates his aptness for judicial work.

I. H. Tomlinson of Stuart, Ia., son-in-law of J. M. Pullen, has returned to this county and will become one of Wayne county's farmers.

Patrick Dixon of La Port, was called to Wayne to examine the Herald that his brother-in-law, J. F. Foley, arrived recently and is building a house on the land bought by him last fall.

From the Wayne Herald, March 16, 1894:

S. D. Relyea is building a residence and has just commenced the same.

City R. Willbur has moved to his residence near the high school building.

E. E. Coleman has sold four pianos to Wayne parties during the past few weeks.

A daughter arrived at the home of Mr. and Mrs. George Portner on Wednesday of last week.

Mr. and Mrs. O. L. Swan and Miss Emma Swanson were married by Judge Martin at the residence of the judge.

Prof. E. E. Coleman and his musical class will give an opera at the high school building on Friday evening.

W. B. Coleman took the first degree and sat on the case at the meeting of the K. of C. on Wednesday.

About 200 teams were hitched throughout Wayne yesterday. Wayne is the most rapidly growing city in north Nebraska, and that is why the citizens want electric lights and other improvements.

Rev. H. H. Millard and family left for Blair, Neb., where they will visit friends and take a much needed rest.

Mrs. Millard has been on the sick list for some time, and it is hoped that she will soon be able to get about her usual avocations.

The citizens caucus was held at the court house Wednesday evening. A. A. Welch was chosen president.

From Ponce Journal, March 28, 1878:

A Trip to Ionia. On Saturday last, in company with O. P. Sullenberger, Esq., we had the satisfaction of an agreeable

trip to Ionia, Iowa. We started from Ponce about 10 o'clock in the morning, and Mr. Sullenberger's rapid steeds swiftly conveyed us along the mazes and tortuous windings of the romantic river about toward Ionia, where we arrived at noon.

We noticed that Ionia had greatly changed in appearance, during the past year. The river has washed in the sand and has raised the banks, and many of the buildings have had to be moved back to more safe foundations.

Among the rest the store of L. T. Hill, Esq., has been neglected and is now a ruin, and other streets. These changes so alter the appearance of the place, that one would hardly know it. Fortunately

Dean Hanson were passengers to Sioux City Friday, Mrs. Hanson returning Sunday and Mrs. Buetow visiting friends until Monday.

Siemon, Gaemant and family moved from Wayne to their farm in this vicinity last Friday. Frank Peterson and family moved to a place near Randolph the first of last week.

Four ladies of the H. H. S. responded to the invitation of the ladies of the Aerie club for last Monday afternoon. The hours were pleasantly spent and much enjoyed by all present.

Miss Gladys Kesterson and pupils prepared and recited an excellent program to a good-sized crowd at the Beckman school-house last Saturday night. It was not learned what the proceeds from the sale of the boxes amounted to.

Albert Paulson and sister, Miss Emma, moved the first of the week to the Sprague place, vacated last week by the Kelly family.

Mrs. Kelley have lived on the Sprague farm since the spring of 1899 when it was bought by the latter's mother for \$55 per acre.

Mr. and Mrs. Roy Peterson entertained the members of the H. H. S. and their husbands last Thursday.

A large crowd did justice to the excellent dinner prepared by the hostess. A program was given in the afternoon. Roll call was responded to by telling of some interesting facts.

The next meeting will be at the Herbert Lessman home March 15.

The average man thinks a satisfactory day is about twice what it is being.

Some men belong to clubs because they have no home, and others because they have.

in the great distance, looking almost as small as do the trains on the C. C. & B. H. road.

Scrambling over rocks and crawling up the sides of precipices, nature had a tendency to sharpen our appetites. Mr. Hill, with the hospitality for which he is noted, invited us to go and take dinner with him, and we did not hesitate to accept. We did not wait to be asked twice. Accordingly, all struck across the bluffs towards his house.

Mr. Hill has most pleasant place. A large garden and orchard filled with a great number of choice fruit trees—many of which will bear this season—grape vines, shrubbery, ornamental shrubs, etc., give it an attractive and homelike appearance. From his house a view is had of the river and town.

We were had the pleasure of seeing Mr. Hill's estate, and also Mr. and Mrs. Smith, the oldest couple in the county, the former being 85, and the latter 77 years of age. Mr. Smith, notwithstanding his age, is smart and active, and would easily pass for twenty years younger.

We had a dinner which, admirably cooked and beautifully provided, was in no way inferior to anything we ever ate as if he never had eaten before, and to tell the truth, so did we. Doubtless Mr. and Mrs. Hill rejoice that we do not come every day or we should not thank them.

After this hospitable entertainment, and having had a delightful visit, we started for home again.

OUR BAPTISM OF FIRE AND NATIONAL AGONY

The awful days from 61 to the end of the terrible reconstruction period in the south has been reproduced and taken in living photograph by a modern wizard, D. W. Griffith, in his twice real spectacle, "The Birth of a Nation" and is being shown throughout the land with all its accompanying battle shots; its sighing and whispering music; its dawning reality in the snowy cotton fields before the war; its loves and its passions; its glories and its horrors; and every citizen of the republic should see it and realize thereby what Lincoln's death really means.

A nation may have been conceived with Washington's triumphs—but it is the struggle for freedom and independence between the north and south, which only can alter long heartaches and struggles.

—Are you a bad back victim? —Suffer twinges, headaches, dizzy spells? —Go to bed tired—get up tired? —It's surprising how few suspect the kidneys.

Kidney trouble needs kidney treatment. Doan's Kidney Pills are for the kidneys only.

Here's a Wayne case: Wayne testimony.

Mrs. C. Huff, Wayne, says: "I have used Doan's Kidney Pills a number of times and can highly recommend them because they always gave me relief quickly. I have been troubled by a steady ache in my back and a general weakness and run-down condition. Doan's Kidney Pills benefited me and I advise anyone troubled in that way to give them a trial."

To Serve You Better

We have moved into larger quarters, just one door west of our old stand. This room gives many more conveniences, which you will appreciate the next time you visit the shop. Larger store rooms will enable us to keep a larger variety of meats on hand all the time. No housewife likes to serve the same kind of meat three or four times a week, and we are going to help you solve this question.

Our Automatic Slicer
is increasing our sales of ham and dried beef and such meats daily. Smooth uniform slices of just the right thickness make cold meats of any kind more palatable. Include some cold boiled ham with your Saturday order for Sunday's lunch.

ORDER OF HEARING AND NOTICE ON PETITION FOR SETTLEMENT OF ACCOUNT.

In the county court of Wayne county, Nebraska, State of Nebraska, Wayne county.

To all persons interested in the undersigned's account as administrator of the estate of James B. Oiler, deceased: You are hereby notified that notice of the pendency of said petition and the hearing thereof be given to all persons interested in said matter by publishing a copy of this order in the Wayne Herald, a weekly newspaper printed in said county, for three successive weeks prior to said day of hearing.

Guarding the Long Distance Lines

Against the Elements

Tirelessly and unceasingly our maintenance forces guard our long distance lines against storms, fires and other unforeseen destructive forces. Constantly the telephone circuits are watched, tested, kept in order, and in cases of trouble repaired hurry at once to the scene of the difficulty, regardless of weather conditions.

Rank Foolishness.

You occasionally see it stated that colds do not result from cold weather. That is rank foolishness. Were it true colds would be as prevalent in midsummer as in mid-winter. The microbe that causes colds flourishes in damp, cold weather. To get rid of a cold take Chamberlain's Cough Remedy. It is effective and is highly recommended by people who have used it for many years as occasion required, and know its real value. Obtainable everywhere.—Adv.

NOTICE OF INCORPORATION.

Notice is hereby given that the undersigned persons have associated themselves together for the purpose of forming and becoming a Co-operative association under the laws of the State of Nebraska, to be known as Farmers Union Co-operative Association, and have adopted Articles of Incorporation. The principal place of business of said corporation shall be Wayne, Nebraska, and the general nature of the business to be transacted shall be the buying and selling of grain, live stock and all other farm products, and goods, wares and merchandise.

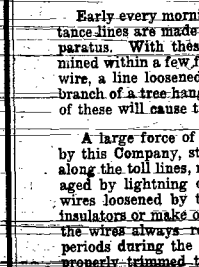

How to Prevent Croup.

When the child is subject to attacks of croup, see to it that he eats a light evening meal—an overburdened stomach may bring on an attack, also watch for the first symptoms—hoarseness, and give Chamberlain's Cough Remedy as soon as the child's throat becomes hoarse. Obtainable everywhere.—Adv.

Pole-to-Pole Inspections Made

To insure the public against the sudden breaking of poles by wind or sleet storms, carrying down with them perhaps a score of wires, pole-to-pole inspections are made at regular intervals. Constantly old poles are replaced by new ones where examinations show it to be advisable.

When storms, winds, snow or sleet are predicted the conditions affecting each telephone line are watched carefully. If trouble is likely, emergency supplies are prepared, and repairmen, testmen, and linemen are rushed by train, auto or buggy to the points of threatened damage. Carefully, constantly, and unceasingly we guard the long distance lines to provide immediate and uninterrupted service.
