

WELCOME TEACHERS
TO WAYNE NEXT WEEK

SEVERAL HUNDRED COMING
Every Courtesy Awaits the Army of
Guests—Generous Hospitality
Is Assured.

"One week from today between
four and five hundred school men
and women will be our guests," pre-
sident of the North Nebraska Teachers'
association. Cards of acceptance
are pouring in day after day and
every indication points to a record
breaking crowd even at the opening
session. Several parties will drive
from Alton and other points in
that section. Eighty girls are
coming in a party from
Neigh for the contest Thursday at
Nebraska.

Unprecedented enthusiasm is
manifest in the declaratory contest,
which will be the largest ever held
in the history of the association.
Thirty-two Normal high schools are
participating. Many entries will arrive
in Wayne Wednesday afternoon
evening in order to secure the ad-
vantage of at least one rehearsal in
the Normal auditorium. In most cases
parents or members of the family
will accompany the contestants.
Many will see the Wayne Normal
for the first time. They will form
impressions of Wayne, its
schools, its churches and its people.
This one visit will not only attract
their attention to Wayne and awaken
interest in the Normal, but in con-
vincing these visitors that our city
is in reality the educational and cul-
tural center of north Nebraska, it
will also be instrumental to eventu-
ally making this their home.

And the teachers, who have been
accustomed to attending meetings
in larger cities, will find that the
entire committee and courtiers at the
hands of Wayne people, the cheer-
fulness of the committee and con-
siders that all provisions have been
made to accommodate at least 500
guests. Additional rooms
may be easily secured if necessary.
Down town headquarters will be
opened in the office rooms of the
Wayne Normal building. The
teachers will register and be as-
signed rooms by Prof. O. R. Bowen
and a corps of assistants.
Hotels and restaurants are making
entire preparations to serve the
teachers promptly. The ladies of
the Baptist church, for whose kind
appetizing meals, will also serve
lunch for the first time. They need
hesitate to come. Wayne will
play her part. Welcome to Wayne!

Declaratory Contest.

TRACKS WASHED OUT
BY SPRING FLOODS

Between 500 and 600 feet of track
on the M. & O. road, about 30
miles east of Wayne, are out as a
result of high water, which began
to rise during the night Tuesday.
But the flood, a succession made
trip over partially submerged rails
Wednesday morning at 1 o'clock,
but when the sun began to thaw the
ice and mud, the tracks were swept
away so that the Norfolk
passenger, could go no farther than
Wayfield. All west-bound trains
have been annulled since that time.
The Norfolk passenger made the
trip from Wayne to Norfolk
both yesterday afternoon and this
morning.

A crew of fifty workmen and three
locomotives were dispatched
to the washout this morning, and
it is hoped that the tracks may be
temporarily repaired by noon
this afternoon so as to send the
Norfolk passenger as far as Wayfield
to bring back transferred passen-
gers and mail. The superintendent
expects to have this train arrive in
Wayne Sunday afternoon. The
train will be resumed tomorrow, although
several weak spots, in addition to
the one big washout, have been
found. Clearing up work is being done
at the Crofton and Wynot lines are
partially crippled by high water.

HOSPITAL NOTES.

Miss Nelson, 34 years of age,
of Sioux City, Ia., entered the per-
manent employ of the hospital, hav-
ing arrived here Friday.
Dr. Rush Hughes, son of Mr. and
Mrs. W. D. Hughes, of the Winfield
county, was operated on Saturday
for appendicitis, and is reported
to be recovering very rapidly.
James Keister, who was operated
on for a serious attack of appendi-
citis, also made such a pronounced
recovery, and will be able to leave
the hospital tomorrow for his home
at Valentine.
The infant daughter of Mr. and
Mrs. H. J. Wagner, of Norfolk, was
operated on Tuesday morning for
appendicitis, and is reported recov-
ering satisfactorily. The afflicted
young man was accompanied by Dr.
Keister.

BIRTH RECORD.

A daughter was born Wednesday,
March 21, to Mr. and Mrs. R. N.
Braga, Wayne.
A daughter was born Sunday,
March 11, to Mr. and Mrs. David
A. Cronhardt, at Lutherville, Md.
Cronhardt will be remembered
as Miss Florence Henyon, formerly
of this place.

MARGUERITE CLARK
PLAYS SNOW WHITE

No picture ever shown in Wayne
has kindled so much enthusiasm
among all classes and ages of people
as "Snow White" the superb
Paramount feature, in which Mar-
guerite Clark really lives the part of
the fair princess, whose palace the
help of the wicked witch Hex has
assumed and action characterized
the human, emotional
and thrillingly dramatic. The
evil character will eventually make
her a rival for the title of the most
lovely girl in the world. The story
one would call it lacking in good
drama. The pathetic scene in which
the handsome Berthold attempts to
kill Snow White is faultless done.
Humorous touches, added by the
local music, especially in the close-
up scene, lend pleasing contrast.
Photographic trickery is used
to give the witch the appearance of
the Grim classic. The ani-
mated dolls, the bird and butterfly
scenes in which Snow White charms
the animals, especially in the close-
up scene, are the most beautiful
on the screen.
The witchery of many scenes is
enhanced by novel lighting effects.
The acting in this realistic interpreta-
tion affords an ideal back-
ground for Miss Clark and her com-
pany to tell this magic story of
white-oven purity.

FEELING CHESTY.

The county court is feeling chesty
over having adjourned at the wed-
ding of a son of William H. Van
Derbeek of New York. Officer John
Soble, 40th Avenue of the court, is
feeling the same over the fact that
he was not invited to the ceremony.

HELP WANTED.

The United States government
wants a lot of additional mechanic
and electric helpers and any one in-
terested in this exciting work should
write at once to the United States
Bureau of Mines, Washington, D. C.,
Room 3000, for application blanks.

MRS LUNDBERG GETS
HANDS INTO WRINGER.

While operating a power washing
machine Tuesday morning, Mrs.
Herman Lundberg accidentally
caught both hands in the wringer
and they were badly crushed and
burned. If the rollers had been
screwed down as tight as usual, her
hands would have been more seri-
ously injured. She had to be cut off.
Fortunately no bones were broken.
She will be unable to use either
hand for some time.

GARDEN PROJECT IS
FAVORED IN WAYNE

C. W. PUGSLEY TALKS HERE
Explains Plan Used in Lincoln—
Local Committee Appointed
Last Evening.

"Nebraska has achieved some-
thing distinctly unique in the mat-
ter of home school gardening work,"
said C. W. Pugsley, director of the
extension department of the
state university, Lincoln, in pre-
sented his plans before the men and
women of Wayne at a meeting held
in the high school auditorium Tues-
day night.
Gardening as a systematic effort
to give children employment was
started in this country about twelve
years ago. At first the Belgium
dwarf, which the work was done
during the winter months, was used,
but glaring defects were soon evi-
dent. Gardens were neglected dur-
ing vacation periods. The consi-
derable amount of time and money
to start jobs without finishing them
was usually had.

Change Place of Meeting.

The club convention of the third
district, which was announced to
be held at Oakland Tuesday, March
20, has been changed because of an
epidemic of contagious diseases. The
meeting will convene at Norfolk
March 27, 28 and 29. Mrs. James
L. Lewis, delegate from the
local Minerva club.

Normal Science Club.

On Monday evening, March 19,
the Normal Science club of the
State Normal held its fortnightly
meeting.
Ralph Clayton performed some
enlightening experiments on the na-
ture of chemical reactions and re-
acts of various kinds of sugars. An
interesting illustrated talk on radio-
active substances with especial em-
phasis on radium was presented by
Louis Swale. Mr. Lewis also dis-
cussed phosphorescence and flores-
cence.

Senior Junior Banquet.

Last Friday evening in the parlors
of the Baptist church Pres. and
Mrs. U. S. Gorman, assisted by Mrs.
G. W. Lewis, Dean and Mrs.
H. H. Hahn and members of the
junior class were honored at the an-
nual banquet given by the seniors
of the Normal. Shortly after 7:30
o'clock the guests were shown into
the dining room, where covers for
168 were placed at five long tables
beneath a lattice of lavender and
white streamers. The tables were
artistically decorated in the same
colors in checkerboard design and
lavender and white streamers
formed attractive borders. The
open doorways, Pennants and foot-
ball blankets added a further touch
of college spirit.
The guests were seated by means
of a delay, silver-plated cards. The
ladies having voted, and the seniors
white roses, for favors. The color
scheme was further carried out by
the use of rows of white candles
throughout the centers of the tables
and lavender decorations on the
nut cups.

The following four-course dinner
was served in excellent style:

- Fruit Cocktail
- Arling Chicken
- Supreme of Chicken
- Snowy Potatoes
- Waldorf Salad
- Wafers
- Junior '12 Ice Cream
- Angel Food Cake
- Mints
- Nuts

At the close of the banquet, Clere
Eabin, toastmaster, announced
the following toasts: "Forward
March," W. Chas. Gerny; "Pres-
ident Arms," Herman Slens;
"Shoulder Arms," Ward Randol;
"Count March," Cooper Ellis;
"Aim," Dean H. Hahn; "Fire,"
"Victory Duor," Harry Paul; "G.
W. Lewis."

SECTION FOREMAN IS
RUN OVER BY GAS CAR

Herman Sund, section foreman at
this place, was run over by his gaso-
line car Tuesday night and suffered
bruises that will keep him in bed for
some time. He and his brother,
Carl, were out guarding against
damage by high water, and while
running along, struck something
that threw Herman Sund in front
of the wheels which ran over him.
His back, hips and ribs were in-
jured, and he received a cut over
one eye. No bones were broken.

HE'S COMING TO WAYNE.

"Here goes with the best there
is in me," said George M. Cohan as
he began his initial activities before
the northern picture camera for Art-
istic pictures some months ago. It
was a typical George M. Cohan ex-
pression and displayed the sincere-
ness with which he took up the
new field of the silent drama. His
first photoplay, "Broadway Jones,"
an adaptation of his greatest stage
hit, is about to be released by Art-
craft and judging from early reports,
will result in a duplication of his
stage success among screen patrons.

WILL SCHEDULE DATE
FOR JOINT MEETING

Members of the committee ap-
pointed recently to take steps to
push the opening of Logan street
over the track met this Tuesday
evening for a further discussion of
the subject. Plans for different
kinds of crossings were presented,
but no definite steps were taken
except to elect A. E. Davis, the
attorney representing the commit-
tee, to go to Omaha to arrange a
date for a joint meeting of railway
officials and the local committee.
Rollie W. Ley arrived home last
evening from a few days' business
trip to points in northern Iowa and
Minnesota. Reaching Wakefield, he
found progress by rail interrupted
by the washed-out tracks, and came
home by train, the muddy roads
making the trip very slow and la-
borious.

Miss Christine Anderson of this city and Mr. John Nydahl of Omaha were married, Thursday, March 8, by the county court in Omaha. After spending a few days in Omaha Mr. and Mrs. Nydahl came to Wayne where they will stay until July 20, after which they will go to Omaha to make their new home.

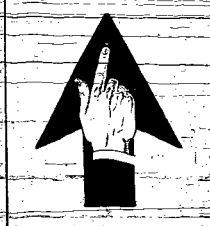

Mr. and Mrs. Nydahl are well at the Callmer Cafe Saturday noon and discussed the undertaking in an informal way. It was learned that other business interests of Bazile ample funds could be raised for the purpose and that the movement will go forward with the least possible delay. Those who met are: Eph. Beckenauer, Andrew Stamm, Willard Morgan, C. E. Carhart, E. O. Gardner, George Lamberson, W. A. Hiscox, and W. O. Hanssen.

Members of a committee appointed to push forward the proposed opening of Logan street for the accommodation of stockmen in reaching the stockyards, conveniently without driving their animals down Main street, lunched together.

STRIKE CALLED OFF EMPLOYEES WINNERS

New York, March 21.—The railroad strike has been called off. Yielding to the appeal of President Wilson and facing the probability of this country's entrance into the world war, the railroad men today granted the demands of the five employees' brotherhoods for an eight-hour day. The telegraph wires this morning are carrying throughout the United States messages from the brotherhood chiefs reciting the orders for the inauguration of the great laborers' strike at 7 o'clock tonight. The decision is regarded as a complete surrender to the brotherhood brought about, however, after the criticism of the railroad managers has been put to rest. The president's mediators, playing with what they considered their last trump card were not successful in their mission until after more than 100 hours of anxious conferences all of which centered within a day that before the decision was announced was inevitable head-on.

Line Praised Rail Manager.
The strike line and the railroad managers. Mr. Laidlaw immediately for the committee of railroad and unions to Elisha Lee, their spokesman said:

"This is a magnificent thing you have done for your country. It will go down in history as one of the greatest things ever done here. The brotherhood chiefs, who already had left the hall where the conferences were being held and had retired for the night apparently con-

vinced that a settlement of the differences could not be reached, were summoned next. Their faces showed the relief they felt from the strain under which they had labored since early Friday evening with the president's committee.

W. G. Lee, head of the trainmen, announced for them that orders would go forward at once informing all their chapters of the results of the successful outcome of the conferences.

Salary List Raised \$60,000,000.
By terms of settlement the combined salary list of the railroads will be increased approximately \$60,000,000 a year according to conservative estimates. Workmen profiting by this increase will be more than 300,000.

That the crisis resulting from the sinking of three American ships by German submarines was the prime factor in clearing the situation and restoring the country to normal conditions far as transportation facilities were concerned was conceded by all.

Conferees will be held tomorrow to decide a list of compensation to be granted to the strikers. The new agreement is retroactive to the strike's beginning. It is estimated that the men have won an increase of \$1,000,000 and \$15,000,000.

WOULD HAVE PEOPLE EXERCISE JUDGMENT

Washington, March 18.—Senator Norris has decided to let the voters of Nebraska recall him from the senate if they wish to. He made public tonight a letter he has sent to

Governor Neville, suggesting that the legislature provide a special election not later than May 1, and if they decide against him, he will resign.

Senator Norris' letter is in part as follows: "On account of my opposition in the senate to some of the legislation demanded by the president which in substance, abridges the constitutional prerogative of congress to declare war, and gave this power to the president, I have been severely denounced and criticized not only in Nebraska but all over the country. These charges have been published and republished by the newspapers of the country with a venom and persistence which show a gigantic combination to conceal from the people of the United States the real issue involved and to push our country into the vortex of the terrible and senseless war being waged in Europe. It is charged not only that I am a traitor to my country, but that I do not represent the people of Nebraska, from whom I hold my commission as a member of the United States senate.

Recall is the Remedy.

"I have no desire to represent the people of Nebraska either in the United States senate or elsewhere if my official conduct is contrary to their wishes, and if I am misrepresenting them the remedy is a recall. Under the constitution of the United States the prerogative of Nebraska is powerless to enact a law that would enable the people of the state to recall a United States senator. I am, however, willing to waive this technicality and whatever rights I may possess in this respect under the constitution. I suggest, therefore, that you ask the legislature of Nebraska now in session, to pass a law providing for a special election at which the question of my recall can be submitted to the people of the state. If such an election is held not later than May 1, 1917, under a law that will properly provide for the punishment of illegal voting, I agree to abide by the result and if the verdict is against me, I will at once place in your hands my resignation as a member of the United States senate from the state of Nebraska.

"I am making this proposition to you in the hope that you will stand as all confident in my own mind as to what the result of such an election would be. The denunciation I have received in the hands of the press and the condemnation of my course by organizations and individuals, indicate to me that there is a strong probability that the voters have pursued a correct policy to the people whom I represent and it seems, therefore, only fair that the matter should be submitted to them for decision. I will not, however, even at the heaviest of unanimous constituency violate my oath of office by voting in favor of a proposition that means the surrender by congress of its sole right to declare war and the placing of that power in the hands of the president. Our forefathers fought to take this power away from the king. I will not even vote to confer it on him, even though he is designated by a misdeed name. I am opposed to making a czar or a kaiser out of the president. If my refusal to do this is contrary to the wishes of the people of Nebraska, then I should be recalled and some one else selected to fill the place.

Sees Big Combination.

"I am not unmindful in making this proposition that against me will be the greatest combination of wealth and political power that has ever known in the history of our states. In such a contest the expenditure of even millions of dollars to control the election would be but a small item and would require but little exertion on the part of my opposition. I am, however, so firmly convinced of the righteousness of my course that I believe if the intelligent and patriotic citizenship of the country can only have a fair opportunity to hear both sides of the question, all the money in Christendom and all the political machinery that wealth can concentrate will not be able to defeat the principle of government for which our forefathers fought and for which I stand in my opposition to the legislation demanded by the executive. If I am wrong I do not only ought to retire, but I desire to do so, I have no desire to hold public office if I am expected to follow blindly in my official actions the dictation of a newspaper combination controlled and influenced by stock jobbers of Wall street who desire to coin the life blood of my fellow citizens into dollars for their own use. I much prefer to be a private citizen, rather than to be a rubber stamp even for the president of the United States.

Senator Norris expects to go to Nebraska in a few days to discuss the question at various meetings in the state.

America's sweetheart--and yours-- In Her Latest Artcraft Offering "The Pride of the Clan"

The charmingest, sweetest story Mary has ever helped to tell. Let your pulse beat with Mary's—let your heart leap out to her.

Produced by the master director, Maurice Tourneur, who recently won fame by saving the life of "Little Mary" when an old fishing schooner on which she was working sank off Marblehead, Mass.

This is what Motography, the national magazine has to say: "The Pride of the Clan" more than ever crystallizes for all time not only the wonderful charm of the most popular girl in the world, but affords her opportunity to display a dramatic finesse of rare merit. The merits of this photo-play de luxe are not confined to its extraordinary drawing power, but are evidenced in every department of its presentation of the sweetest story ever screened. It is undoubtedly Miss Pickford's greatest achievement."

The man who stands up for his own rights stands up for his own home, his own family, his own property, his own future.

The streets and cross-walks of Wayne have lately presented powerful argument in support of proposed drainage and paving.

Correct English may be awkward and void of ideas. Some correct sentences are painfully long and end without saying anything. English must be more than correct to hold attention and excite interest. It must express ideas clearly, concisely and forcefully.

The time will come when people will read of kings as they now read of witches, and wonder how nations could have been so foolish. They will read of the selfishness of kings, how the lust for gain and power, they aroused subjects to fight and kill. Future generations will wonder how the world could have stood for hereditary rulers.

We know a man who recently had the good fortune to come into possession of a bushel of potatoes. In exporting the potatoes into England he met a success in that direction. The treated rank by taking of his overall, wearing neatly creased trousers and putting on other many potato eyes were so impressed by this act of due deference.

The effort to interest Wayne school children in systematic and productive gardening ought to be encouraged. Success in that direction will be a cure for idleness and mischief. It will also yield profit and develop health. Young people need something worth while to put their hands to and nothing is more desirable than cultivating grounds and making them productive.

The railroads having conceded the Adamson law to employees, the threatened strike has been averted and the transportation business will now move along serenely. Interruption of railway service would mean great inconvenience and loss at any time, but it would be infinitely more serious at a time of international crisis when close and constant co-operation with these elements is needed to safeguard the nation. Aside from meeting a critical foreign situation, amicable settlement of differences is of almost importance to all classes, including the public. Without ranking disputes and with unity of purpose, public service should be made better. It is hoped transportation troubles will remain cured for a long time.

Next week Wayne will extend its hospitality to several hundred visiting teachers, and will do its utmost to make their sojourn pleasant and profitable. Wayne people will work as a unit to insure a cordial welcome. We submit the Wayne State Normal group of teachers and equipment as a source of convenience and accommodation superior to any to be had elsewhere in the north part of the state. We will supply the city's facilities and comforts and lively and kindly interest as additional evidence of fitness and adequacy to entertain an educational gathering of the proportions of the one coming here. We only ask teachers to judge fairly and then consider Wayne's merits for future meetings. We feel confident such unbiased judgment will make Wayne the permanent meeting place.

ropes. It is hoped so. Accident of birth has been to kings prestige, power, riches, luxury and ease to which they are not entitled by any right of an individual. They are often far inferior in essential qualities to the subjects whom they have the audacity to govern. The assumption of the right of kings is a mere twaddle, and if other European nations follow Russia in awakening to the fact, all thrones will fall; republicanism will be established and progress toward higher civilization will be given a mighty impetus. The sudden collapse of the Russian empire encourages the hope that compensation for the present world struggle and sacrifice will come in the crumbling of every throne and the end of imperial oppression and tyranny everywhere. If out of the ashes of the present conflagration of hate and death and ruin come freer, more intelligent and more excitable nations, there will be appreciable gain for the awful sacrifice. If the war crushes for all time the authors of the European struggle, gains will be secured. Standards will be lifted and extended.

SPECIAL SESSION OF CONGRESS IS CALLED

Washington, March 21.—President Wilson recognizing that Germany is practically making war on the United States on the high seas, today called congress to assemble in extra session on April 2 to deal with the situation. The purpose of the session now called two weeks earlier than the date first set, as announced in the president's proclamation, is to receive a continuing resolution from the chief executive "on grave matters of national policy which should be taken immediately under consideration in his address to congress." The president in his address to congress will detail how Germany practically has been making war on the United States by the mines, the destruction of American lives and ships on the high seas in violation of all the laws of nations and humanity.

Congress Expected to Act.—Congress men are expected to pass a resolution declaring that a state of war has existed between the United States and Germany for some time. Such a resolution in itself will not be an act of war in technical sense although it will practically amount to the same thing. As a consequence the United States will take further steps to protect its interest on the high seas and elsewhere against the warlike acts of Germany and whether an actual state of war will come to exist in its full sense depends on the future acts of the imperial German government.

All the resources of the United States industrial as well as military are being mobilized to meet the emergency in the latest state of readiness for any eventuality.

Navy is Rushing Work.
For the present the responsibility rests with the navy which is arming its fleet with anti-airplane launching orders for submarine chasers, spending \$115,000,000 by special authority of congress to hurry the naval construction, advancing the "The Zachary Taylor" at Annapolis, protecting American harbors from invasion by German submarines and marshaling the nation's resources necessary to stand behind the will.

Will Ask \$500,000,000.
While it is not known how much money President Wilson may suggest to congress, the members of the senate have held the view that not less than \$500,000,000 should be granted at once in case war is declared. It is not probable that legislation giving such a sum would meet with any opposition.

The Crowning Glory of Your Spring Outfit Is Your HAT

We have them ranging from \$5.00 up, but whether you pay \$5.00 or \$25.00, for the hat you select, you simply cannot find as smart nor as handsome models, as we exhibit in this Spring Style show. And each one is a value far beyond its price.

This week we will have an especially nice assortment of millinery trimmed in colors to match the popular spring shades in outer garments. You will find it advisable to select your hat at the same time you choose your spring coat or suit, and the colors will harmonize.

MISS TEMPLE.

For the Teachers

If there is a thing we can do to help make your stay in Wayne agreeable and enjoyable, you will please us by calling for it. You are welcome to use our telephone, rest room, stationery, delivery system or anything else we have that will add to your comfort or convenience.

Spring Blouses

of finest quality Georgette-Crepes trimmed with hand embroidery in gold and colored threads are the most appropriate for real dressy wear. Tub waists of Crepe de China, China and striped wash silks are both pretty and serviceable and may be had at

\$2.50 to \$3.75

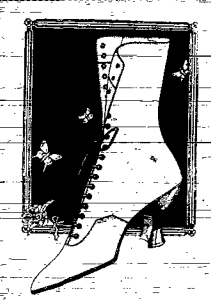

Hundreds of dainty white wash waists of voile and organdy are here at \$1.25 and you will find it good economy to lay in a summer's supply now because such good values will not be available later in the season.

Silk Dress Skirts

Are In Great Favor

Because it requires a real fine, dressy skirt to look well with the very fancy, high-colored coats which are so popular this spring.

La Jerez or silk jersey in the fashionable shades of gold and chartreuse makes up into beautiful skirts which may be had here for \$12.50. Skirts of Sport Stripe, Yo San and of Plaid Taffetas are also very attractive. Besides these we have a very nice assortment of Poplin, Silk Faille and Chuddah skirts at \$6.00 to \$12.50. All alterations made without charge by an experienced ladies' tailor.

Fancy Footwear

You can depend on us for the correct spring footwear. We have the proper styles for dress wear and will carry all widths from A to D. Our store is to be shoe headquarters for ladies and children in Wayne and we will provide a stock and service to merit your patronage.

Skirt lengths continue short with the result that high shoes are to remain the favorite footwear. The nicest looking shoes and the ones that stay nice looking will be made of genuine kid. We have them in all white, all grey and in combinations of colors at \$7.50 to \$11.00. Pretty patent shoes are \$4 to \$4.50. Shoes of fine white cloth that closely resembles leather in appearance are \$3.75 and \$5.75.

We sell good shoes that wear well, stay good looking and clean nicely.

MUSLIN UNDERWEAR BARGAINS

At 98c you may choose from a table filled with gowns, combinations, undershirts and corset covers that are well worth \$1.25 to \$1.50. At 48c take your choice of a large assortment of muslin underwear that usually sells at 60c and 75c. These are salesmen's samples which we bought at a good discount and we offer them to you at the same saving.

HOT WATER QUICK

The more water in a reservoir the faster it heats. It too low it heats very slowly. See the big surface that lies flat against the fire plate. This is the secret of the Copper-Clad Reservoir.
It is easy to hot water the boiler of the bottom and shift away from the fire plate.
This is a good reason for buying a Copper-Clad Range. No other range but the Copper-Clad has this shifting device it is patented.
There are 25 other reasons, but the chief reason is—clad with copper, they can't rust out.

CARHART HARDWARE

THE FIELD OF BUSINESS.
St. Louis City Journal: The threat of general railway strike due to renewal of the controversy supposed to have been settled by the Adamson act took the business world by sur-

prise early last week. Though the trainmen's organizations seemed quite businesslike in their preparations of the strike, business men as a rule assumed that some way would be found to avert such a calamitous development. A strike at this time it was admitted on all sides, must be calamitous from a patriotic as well as a commercial standpoint. Confidence that the strike could be avoided was justified in part on Saturday when the order to eastern trainmen to quit work was postponed for forty-eight hours in response to the mediators' efforts to the council for national defense.

In connection with the postponement there was intimation of a pending possible compromise that might settle the whole controversy over the validity and meaning of the Adamson act.
A sweeping requirement of western railway rates has been proposed by the interstate commerce commission and is likely to be accepted by the railroads. Under the schedule offered the material advantage long held by Pacific coast points over intermediate points west of the Missouri river will be minimized and the rates to that vast area of western territory will be determined on the zone basis. The Pacific coast advantage will be restricted to the few commodities in which western competition now actually fixes current transportation rates. The change is justified, at least as a temporary expedient, by the fact that water transportation between the coasts has been practically suspended on account of the higher profits to be made in trans-Atlantic trade. Under the proposed schedule Pacific coast rates will be increased and interior rates left as they are or reduced. The readjust-

ment is not designed to bring about a reduction of railway revenues, but rather to equalize commercial advantage in the territory affected.
A succession of foreign developments of large importance had their effect on the American securities market, where conditions are now regarded as immune from disturbance by any ordinary shock. Increased prices for iron and steel have as yet failed to bring the falling-off in orders which has been reported in other industries, where high prices and difficult conditions for raw material and labor have been responsible for a conservative disposition toward distant deliveries.
The annual report of the treasury recorded a considerable falling off in exports and imports easily attributable to the consequences of Germany's new submarine activities. The training of oceanic ships, put into effect during the week, is expected to relieve this situation.
The practical application of the federal board's recent announcement regarding foreign loans became apparent last Saturday when J. P. Morgan & Co. announced the flotation of a \$100,000,000 issue of bonds to bear interest at 5 1/2 per cent. They will run for two years and will be sold at a price that will net investors a share better than 6 per cent. Twenty million of the purchase is that a similar loan of \$250,000,000 to the British government has been arranged. These loans mean in effect that the United States will give credit to the allied governments for a portion of our balance of trade, instead of demanding gold or the pledging of securities. Early in the winter the federal reserve board warned American banks against investing in such loans and practically squelched this plan of financing. Since then American money sent abroad have been falling off, gold for which we have no use has been piling up, and Great Britain and France have become our prospective allies. The new loans will have a cordial indorsement of the federal reserve board.

Stormy weather and bad roads have interrupted somewhat with spring trading throughout the country. The volume of business disclosed in the bank clearings continues to reflect a lessening environment. Total for last week was \$5,387,000,000.

AS TO ADVERTISING.

Here call. It is an interesting problem in business psychology to determine why people trade at one store rather than another. Price, location, quality, are all vital, but not the whole thing.
The wise manager of a real store comes down town full of the spirit of enterprise. He does not ask to be sure of two dollars but he asks for a will spend one.
Start something, he calls out to the boys, and soon the place radiates his pushing personality.

His first move is to spread the news. He finds that he has in this store where he got unusual values, or something he wants to turn into cash. He realizes that the public will never know what he can do for them unless he tells some part and goes to some expense to inform them.
By persistent advertising, he gives the public the news of his store's special offers. His impression is spread abroad that it is a store where there is "something doing."
The American people have little use for inactivity. They seek little for the business man who waits and waits for opportunity to knock and business to come. They will go out of their way to trade with a man who seeks their trade and shows some spirit of push.

The one way to convey this impression is of course to advertise. Circulars don't give it to any large extent. There are other ways to throw away "meat." With the circulars all crumpled up in the waste basket, the newspaper remains on the parlor table until the whole has been brought in. Solicitation from door to door, if done by a tactful and competent man, gives an impression of enterprise. But advertising is twenty times cheaper and quite as efficient. It spreads the news all over, and makes a man seem like a pusher instead of a waiter.

THE CLOSED SEASON.

Pierce Leader: Now that the spring shooting season is approaching sportsmen will be interested in the reply of the United States Department of Agriculture to inquiring sportsmen in the middle west in regard to spring shooting of waterfowl in their respective states. It has made the following public announcement:
"Under the federal regulations there is a closed season from February 1 to September 1, inclusive, every year throughout the United States on waterfowl and other migratory game birds. The season for hunting waterfowl is further restricted in various parts of the country to periods not exceeding three and one-half months. The open season on waterfowl in the states of Ohio, Indiana, Illinois, Iowa, Nebraska, Kansas, Missouri, is from September 16, to December 31, inclusive, and it is unlawful to hunt or kill waterfowl in these states on any other time persons committing violations of the regulations may be prosecuted at any time within three years after an offense is committed."

A self-made man shouldn't talk about that job all the time.

INTERESTING NOTES ABOUT LITTLE MARY

In the charming Artcraft picture, "Less Than the Dust," Miss Pickford has a part to play. She is shown at the Crystal theater, one night, Mary Pickford has the novelty of having her brother-in-law as a stage star. In other words, the popular Matt Moore, brother of the equally popular Owen Moore, the husband of Mary Pickford, has been made to play the part of "Shorty" and understanding the fact that he is Irish and proud of it—Mr. Moore makes in the picture, just the lad to win the heart of a "honey" lassie. For all that, "Mary Pickford is Irish, too, but she is a wonderfully charming Scotch lass in "The Pride of the Clan" and in this she never presented a more engaging picture of her lovely self.

Mary Pickford has an uncontrollable desire to adopt homeless animals. Sometimes or other they are "found" to become actors.
"An 'Less Than the Dust' Miss Pickford has a cat and the second cow. Now they are at liberty and at home, but they will come again. In the meantime her famous duck, "Huddie," that swam all the way from Chicago to New York in the wash basin of a Pullman traveling coach, has become a pet, or rather an actress. She has made her debut in "The Pride of the Clan," the new Pickford Artcraft picture shown tonight at the Crystal theater.

Mary Pickford's new play, "Less Than the Dust," takes its name from a poem written by Laurence Hope and is the wall of a little castaway who though of English birth has been reared among the lower caste of India. Booked for Wayne April 5.
And Mary Pickford loves children. Not long ago she was on her way in her motor to the city when some little folks playing along the road side called to her. She jumped out of her car, went to them and found that they were playing that fine and favored game of "Twenty days known as 'Mother.' She was at once interested and joined in the game and was given the honor role. All of this lasted an hour while the car waited and at the studio John Emerson, the director, waited with watch in one hand and sore his hair out with the other.

Yes, Mary quite likes "Mary," the screen's sweetheart. But did you know that she had a new "bean" here? This latest admirer met her while she was starting to make "Poor Little Rich Girl," which will be shown at the Crystal "Max." Read the story of his devotion in next week's Herald.

THE FARM BUSINESS.

Nebraska Farmer: A valuable bulletin entitled "A Method of Analyzing the Farm Business" recently has been issued by the department of agriculture as Farmers' Bulletin 661. It shows how to determine investment, receipts and expenses, and from them the labor income. All the data necessary to make the analysis are contained in the bulletin. Two of the problems of farm accounting are to know what to keep and to keep what is to make of them after they are kept. In showing how to analyze the farm business, the bulletin suggests the records that should be kept throughout the year to furnish data to determine the labor income accurately. The bulletin is as valuable to the average farmer in showing what records to keep as it is to the expert to use them to determine the profitability of the business. Most farmers know a great deal more about their respective businesses than they are given credit for having, and a few of them have an accurate method to determine the efficiency of the farm business. This bulletin is designed to furnish a method that is simplified by the elimination of the unessential so that no farmer need hesitate for fear that it would load him up with so much office work that he would have no time to sow oats or feed pigs. Every farmer interested in farm accounting should obtain a copy of the bulletin, which may be done by writing the Secretary of Agriculture, Washington, D. C.

Regardless of whether or not the ground hog sees his shadow, some married men are heckled all of the year around, around.

SPREADING OUT THE CIVIL SERVICE.

Bloomfield Journal: Postmaster General Burtelson has announced that the president has decided to put all offices under the civil service by an executive order to be made effective on the first of next month. President Taft before he left his office placed the fourth class postmasters within the rule and President Wilson sticks to his determination to have all postmasters appointed by competitive examination instead of political preference.

The change will be almost revolutionary in its effect upon local political machines throughout the country. And as explained by the postmaster general, the effect will be felt especially for the president's plan is not to include the postmaster incumbents, but to have examinations for each office as the terms of incumbents expire. The president said they doubted if a tenth of the postmasters could pass the civil service examinations, and that the effect of the order would be a complete "downfall" of political fences

throughout the country.

Congressmen in discussing the matter are plainly disturbed at the effect of the coming order. Herebefore they have regarded postmaster positions as rewards for their supporters who have been regarded as the local political leaders of the party in power, or at least as the local workers. In a particular sense they were supposed to be workers for the congressman that procured their appointments. In congressmen's minds that is where the shoe pinches. The postmaster general is prepared for clamorous expressions of disapproval. He points out to alarmed congressmen that in the end the change would work to their advantage, because they would thereby be saved the embarrassment and labor of having to choose postmasters from among their active constituents. Many congressmen have said that the distribution of offices was their barest task. Some have settled rivalries by this or that. As outlined, the plan is for the efficiency of the service, and to remove it from political intrusions.

HOPE IS ENCOURAGED FOR A NEW CAPITOL

Lincoln, Neb., March 14.—Opponents of a new capitol lost heart when the bill introduced in the house to cover the building of a new wing only on 76 mill levy for the next two years, and had been accepted by the delegation voted against the whole. Taylor of Carter led the charge on the bill in a effort to defeat its recommendation for discussion and third reading. The opposition backed its votes although they were assisted by Goodall and Hopkins of the Douglas county delegation, the only ones of these delegation voting against a new capitol, though Keegan was absent. A roll call was demanded on the motion to discuss for third reading which carried by a vote of 88 to 50.

Dry Bill Reported Out.

The senate committee yesterday morning reported out the joint committee dry bill, House Roll 793, without amendments. This decision was reached at a meeting of the senate

committee at the Franklin hotel Monday evening. The bill as it now stands is considerably amended and modified by the house committee of the whole by amendments which should make many alterations in minor provisions as compared with the original bill drafted by the joint committee.

At the same time the committee reported out Senate File No. 208 the bill of the committee minority—Moriarty, Mattes, Kohl and Albert which places a fine of five dollars on SIGN ON DRUGGISTS who advertise remedies containing more than 2 per cent alcohol and on newspapers who accept this advertising.

Bar Cigarettes in Sale.

The day of cigar smoking in any public place in Nebraska is doomed, if a roll call vote by the senate committee of the whole in the full anti-cigar bill, H. R. 248, which passed the house in any indication.

A committee had recommended for indefinite postponement. Senator Deal moved as a sub-motion that be placed on general files. It was lifted by the ominous vote of 21 to 12.

The bill makes it a misdemeanor to smoke cigars in any public place, except in a private residence, or in a bar, or for minors under 18 years of age to smoke cigars at all.

Accepts Compensation Bill.

After a long discussion, lasting nearly all Monday and part of yesterday forenoon the house accepted the Norton substitute, Senate File No. 214, for the compensation bill of the clergy here, H. R. 352 and H. R. 44. Douglas county members succeeded only in one thing, namely, raising the maximum compensation for permanent disability of a loss of members from 60 to 75 per cent of wages during a specified period of time.

ATCHISON-GLOBE SIGHTS.

An absent-minded man can forget about everything but his troubles.

You are threatened with a good deal more than ever happens to you.

A young man can be a girl's hero, but he is apt to marry her and get over it.

Long association with farmers teaches one that it is always "too wet or too dry."

Still, the granch who comes in to tell you about it is preferable to the one who writes anonymous letter.

Most of the dreams of getting rich never come true, or it would be difficult to get anyone to do the work.

A man doesn't think he is marrying his wife's kin, and he may also learn later that he can't divorce them.

What has become of the old-fashioned family which celebrated the merry-spring time by drinking sassafras tea?

There are other tests of wisdom, but the man who knows when he has enough has learned something in this world.

Ab Adkins figures that a strategic retreat is about the best a man can hope for when he engages in conflict with a woman.

A woman the telegraph tells about who has had five divorces, is too tangled progressive for this conservative country.

A man uses up so much patience fishing that he rarely has an address, while the central gives him the wrong number.

A kurdhell man is so contrary it is doubtful if the devil will have him around hell finding fault with the present methods of torture.

Probably ever since time began, the old women have been complaining that the young men aren't as modest as they ought to be.

Privately most people know there isn't much mysterious about the disappearance of missing girls. They also know that very few missing girls had to be coaxed very much before they permitted themselves to be kidnapped.

You're often told to persevere; and fight along one line a year if you would gain success; and yet it sometimes comes about that those who hit this well known route, should meet another guess. Don't try to do what can't be done, and swear that you will never run into hell is caked with ice. To swear there's no such word as fail will not collect the golden kale, mazuma or the price. Far better seek some other plan to help yourself and fellow man than play so long to lose it.

Try alone is not enough to purchase food and other stuff, and keep the kids in shoes. So while 'tis very well to try, don't bide the limit to the sky, and you can't quit; some big league stars in every land have gone to bat three times and fanned before they made a hit.

When you get out a sorry track, have the sense enough to turn back and try another deal; don't try the same old track again if you wouldn't win the praise of men, but bask in this spiel! —Rufe Hoskins.

HATCH CHICKS EARLY

For it is the March and April chickens that lay eggs during January and February, when prices are soaring. The following poultry dealers present attractive offers in eggs

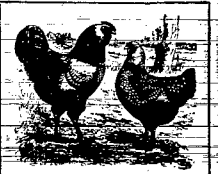

BEAUTIFUL WHITE WYANDOTTES

Having been a breeder of the White Wyandottes for the past ten years, I can recommend them as being good winter layers and unexcelled for table use. I like the bustin strain—top-notchers in the poultry world.

Can furnish eggs for hatching at the following prices: Am booking orders now.
100 eggs \$5.00, 50 eggs \$3.00, \$1.50 per setting.

MRS. V. H. MCCHESENEY, Phone 12-414

TWO GOOD STRAINS

For cockfosters, the Silver King and Barben, an eastern breed, have been used in strengthening Mrs. Miner's flock of Silver Laced Wyandottes. These fowls are average weight and their flesh is sweet, juicy and tender. As layers they are among the best. A few choice cockers are being offered at very reasonable figures.

Eggs for hatching are quoted at \$1.50 per setting, \$5.00 per 100.

MRS. H. J. MINER, One mile south of Wayne, Phone 121-425

FROM FISCHER STRAIN

Plymouth Rocks have long been recognized as favorites for general purpose fowls. The White Plymouth Rocks, which are pure white in plumage throughout, conform to the general features of the breed in that they have broad, full breasts, moderately large heads, ornamented with upright red combs and wattles. They are hardy, mature early and are good layers throughout the year. They are good sitters and excellent mothers. Eggs sold by the hundred or in single settings at reasonable rates.

MRS. GUS WENDT, Call 212-416

ROY E. JOHNSON

Breeder of fancy poultry announces the following prices for eggs: White Plymouth Rocks \$1.50 per 15; \$5.00 per 100. Choice White Guineas \$1.50 per 13; \$2.75 per 26. Mammoth Pekin Ducks \$1.50 per 11; \$3.00 per 50. Fawn and White Indian Runner Ducks \$1.50 per 13; \$5.00 per 50. Toulouse or Emment Geese \$1.25 per 8; \$2.50 per 10. Mammoth Bronze Turkeys \$2.25 per 9; \$4.00 per 18. Book your orders early. Satisfaction guaranteed. Address Roy E. Johnson, Wakefield, Rt. 2.

BUFF ORPINGTONS

My flock contains fowls of a good strain of Single-Comb Buff Orpingtons, a breed taking its name from Orpington, in Kent county, England, where William Cook originated this type of chicken. I have found them good general-purpose fowls, of average size and prolific layers of brown-shelled eggs. They are a rich, golden-buff throughout. Sole prices of eggs: \$1.00 per 15, \$4.00 per 100.

MRS. J. L. HUNTER, Wakefield, Route 1, Phone 1931

BARRED PLYMOUTH ROCKS

Are popular for the farmer or market poultryman, being of medium size, well proportioned with a deep, full breast. They mature early and are very hardy. Use Plymouth Rocks stand second to none. Eggs for hatching will be sold at the following prices: Seventy-five cents for 15, \$3.00 per 100.

MANY PEOPLE FAVOR CITY IMPROVEMENTS TO DRAIN AND PAVE TOWN

Partial List of Those Who Favor Undertaking Move for Side Street Paving.

Two petitions, one favoring drainage and the other paving, have been circulated in the past week and have been generally signed. Only a few failed to attach their names to one or the other or both. Many who favor the proposed improvements have not been seen, and will gladly add their endorsements. The canvass will be continued and results will be published from week to week. No name during which the improvements are expected to be made, is specified, though it is presumed petitioners favor starting work as early as possible. It is not to be inferred that people would petition now for something they would have delayed until next year or later. The exact steps to be taken must be left largely to the judgment of the city council.

All tax payers are interested in the proposed improvements. Whether one owns real estate in the paving district or not, he would, if a tax payer, be required to help pay for drainage and the paving of alleys and streets.

The petitions follow:

For Drainage.

Boy Scout Pictures

For the benefit of the local troops of Boy Scouts, H. Lee Wells has procured the film, "The Adventures of a Boy Scout" in five reels. This is a new feature and shows the various phases of Boy Scout work. The Woman's club of Omaha recently ran this feature in the Strand theater. The pictures received much enthusiastic comment and praise by Omaha people. Supt. O. R. Bowen, local Scout Commissioner, gives his recommendation. Manager Nelson of the Crystal theater is doing his part by donating his play house.

Fourth Birthday.
Twenty little guests were entertained at the home of John Austin Reynolds, son of Mr. and Mrs. Ray Reynolds, Saturday afternoon to help him celebrate his fourth birthday anniversary. Although the little host was sick and unable to entertain his guests, yet a full afternoon entertainment had been planned for the children and they had a merry time. The guests delighted in a peanut hunt and also a fish pond where little gifts were caught. At 5 o'clock Mrs. Reynolds assisted by Edith Trice, Edith Philcox and Helen Reynolds served light refreshments.

Fill Up Those Shelves

The careful housewife keeps a good stock of canned goods on hand for any emergency. Buying several at a time not only saves the necessity of going to the store after them when you need them in a hurry, but makes any meal easy to prepare.
On our shelves you will find every description of canned foods—fish, fruit, vegetables—all ready to turn out into a dish and serve.
During Lent
Try our Salmon, gardenes which are famous for their delicate flavor. Balboa, fish flakes and codfish make excellent substitutes for meat. Mitter's Keg, tiering a specialty.

SOCIAL NEWS

Large Attendance.
The regular meeting of the Girls' Bible circle at the home of Mrs. E. P. Young Saturday evening drew a large crowd of enthusiastic Bible students. At the close of the lesson, which was conducted by Miss Laura Thompson, a miscellaneous valedictory concert was enjoyed.

Housekeeping Day.

Mrs. William Wroebel was hostess to the ladies of the Pleasant Valley club at an afternoon session last Thursday. Each member told of her favorite dish in response to roll call. A paper, "System in Housekeeping" read by Mrs. William Morgan was read by Mrs. J. H. Miner. In the general discussion it was agreed that the wife's first duty lay in the successful management of the family. Mrs. Wroebel served a delicious three-course luncheon at 5 o'clock.

Jointly Entertained.

Mr. and Mrs. A. B. Carhart and Mrs. C. E. Carhart jointly entertained the members of the Early Hour club and a few guests at the A. B. Carhart home last Thursday evening. The game of "500" was enjoyed at seven tables. At the conclusion of the playing the house unanimously concurred in the action of the senate in adding the emergency clause to the bill passed appropriating \$1,200 for the state railway commission to pay expenses of the car shortage investigation. The emergency clause was defeated a week ago by the same body.

After games and music had been enjoyed, an elaborate two-course lunch was served by the ladies. Forty-four guests enjoyed the delightful occasion.

School Crystal Party.

Miss Edith Stacking, critic teacher in the first and second grades at the Normal training school, and Miss Alwine Luets, kindergarten critic, took the children in their rooms to the Crystal. Forty-four guests enjoyed the delightful occasion.

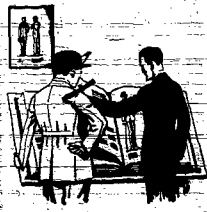

INDEFINITELY POSTPONED.

Lincoln, March 19—All house bills left in the hands of standing committees at noon today, 200 or 300 of them, became indefinitely postponed under the Reagan budget resolution last week. Just whether any of them are really of much consequence remains to be discovered when the matter is a little older. The house unanimously concurred in the action of the senate in adding the emergency clause to the bill passed appropriating \$1,200 for the state railway commission to pay expenses of the car shortage investigation. The emergency clause was defeated a week ago by the same body.

Our All Wool Spring Suits Have Individuality and Quiet Dignity

You men who have followed the papers know that wool was never so high as it is this season. Next season it will be clear out of sight. Clothing manufacturers and others in position to know, claim that clothing will cost at least 50% more next season.

We are fortunate in having laid in a supply of guaranteed all wool suits at prices that enable us to offer them to the men of this community, lower than they will be able to purchase the same quality of garment elsewhere for many a day. Business men—men who demand service, as well as dignity in the clothing they wear, will find this store as usual, well able to satisfy their most exacting requirements. Our suits for Spring and Summer wear are no more extreme than you would have them. They are stylish of course. But in appearance, in perfection of fit and service, it is no exaggeration to say that they are up to the standard of the best custom tailor you can name. \$25 PRICED AT

percentage of fats and protein is balanced by the sugar which is mostly carbohydrates. People often wonder how children can eat so much candy and not get sick. The reason for this is very simple. As the child grows and physical great deal of energy is being consumed continually. Candy Supplies Energy. Candy can supply this energy factor as it is a well known fact that the human stomach assimilates sugars very readily. We also wonder why we lose our appetite if we eat a considerable amount of sweets. As has been said before, the candy is very rich and can supply the required caloric value quickly and by the use of small quantities. Therefore, when we eat candy the eating crave is satisfied and we no longer feel hungry. Another question asked is, "Why do people eat more fats and candy in winter than they do in warm weather?" The answer to this is found in the fact that the body has to supply more heat in cold weather than it does when it is warm. If more heat is necessary, more energy is used up and consequently more fuel must be consumed. Another fact is that fats can furnish heat almost immediately after being taken into the body. Captain Cook's Gumdrops. Here it was pointed out that Cook fed the Equimos on gumdrops and that the natives went wild over them. The class commented on compressed foods. They declared that nature so combines and prepares food as to make them suitable for human use. If compressed they are generally changed in some dietic respect. A peculiar fact was brought out about the use of cheese and sugar in the United States. It was shown that the average American eats about three pounds of the former per year while the use of the latter is twenty-five times as much. Cheese is considered a very good food and the class thinks more of it should be used. By listening attentively you can hear almost anything.

EXPENSIVE ECONOMY

Ever hear of that kind of economy? There's lots of it, especially in dentistry. The patient can't tell the difference between good and bad dentistry, but he can depend on the ability and honesty of the dentist. The work that looks well may have been hurriedly and carelessly done. Decay will go on underneath, unseen, and the tooth will be lost. That is expensive economy, even if the first cost was low. The honest dentist aims to perform his operations and have them thoroughly and carefully that every one will be a lasting advertisement for his work and real economy for the patient. THE JANESVILLE SINGLE LEVER GANG PLOW

The Janesville has made a new single lever gang plow, a New Method of Furrow Laying, and a New Method of Handling the Plow in the Furrow by the Operator

THIS NEWEST AND BEST PLOW, best as proven by winning in last three contests against all competitors at Big Rock and Wheatland, Illinois, for three consecutive years, has that very delicately curved moldboard, built to turn the soil in the best possible way with the least resistance, making a light draft and does perfect work.

This new single lever plow of Janesville make has cut out the bothersome lever of the old style riding plow. The plow bottoms well as the frame is operated and tilted by a single hand lever in connection with the foot-trip-horse lift, on which patents are now pending.

Beams are hung to a single bail which is operated by the single lever. Lever or foot-lift may each be operated separately or jointly, perfectly regulating depth of furrow with bottom absolutely level.

Come in and let us show you all the good points about this new Janesville plow.

CHURCH CALENDAR

German Lutheran Church. (Rev. R. Moehring, Pastor).
Next Sunday morning at 10:45 services will be held at Windsor. Consequently, there will be no services at the Wayne church. Confirmation exercises will be conducted in the Wayne church Sunday April 1, at 11 o'clock.

St. Mary's Catholic Church. (Rev. Wm. Kearns, Pastor).
Services will be held in St. Mary's church Friday evening at 7:30 o'clock. There will be no services Sunday on account of the absence of Rev. Father Kearns who will be in Cassel that day.

Sunday morning, April 10, there will be services at 10:30 at the church. This is Palm Sunday and every one should attend.

Methodist Church. (Rev. A. S. Buell, Pastor).
The work is about completed in all parts of the church so that the basket-makers and upstairs rooms will all be available for use next Sunday.

Rev. E. A. Worthley, student pastor at the state university, Lincoln, Neb., was with us last Sunday, preaching at both morning and evening services. Rev. Worthley reports an enrollment of about thirty

hundred Methodist students in the state university this year.

We will have all of our regular services next Sunday. The theme for the morning sermon will be "The situational Christianity." The evening message will deal with the "Evil Force in the World."

You are invited to make this homelike church your church home.

St. Paul's English Lutheran Church. (Rev. J. H. Peterson, Pastor).
Sunday school at 10 a. m. The regular program of morning and evening services next Sunday at 11 a. m. the subject will be "The Church at Sardis and Its Lessons for Us." At 7:30 p. m. there will be another sermon on "Pilgrim's Progress." "Pilgrim's Fight with Apollyon."

A new feature of our evening service is the junior choir. They did splendidly last Sunday night in their first appearance. They will furnish the music again next Sunday evening.

After League meeting Sunday 6:45 p. m. There has been a steady gain in attendance at these services for some time past. This is as it should be. Now that we have won that campaign let us set out upon another for better preparedness for the meetings.

Women Against the Men.
The men did well in the music line at the Baptist church last Sunday night, but the women are plan-

ning to do better next Sunday night. It will be their inning and a great many of them will be at the bat and do their best to delight the audience with better music than the young men gave at the time of their try-out.

The program will be arranged with pleasing effect and embellished with interesting numbers. There will be an appropriate reading by a member of Miss Mack's class of ex-presidents. So far these readings have attracted great crowds, the efficiency of the expression teacher and the ability of the young people who have rendered them.

Mr. Gaston will discuss the latest war developments and give some attention to Russia, the last born republic.

Do not fail to be present and hear the splendid music, the splendid reading and the timely discussion of the theme of the hour.

Presbyterian Church. (Rev. S. K. Cross, Pastor).
The Junior work is starting out nicely under the superintendency of Misses Georgia Moore and Mae Hiscox.

The men of the church are especially invited to attend the Y. P. S. C. E. meeting next Sunday evening. A. R. Davis will speak on "The Salvation—The Foe of Society."

There will be a called meeting of the session of the church in the lecture room next Sunday morning at 10 o'clock. There will be a joint

It is almost needless to tell the farmer who has used a single lever Janesville gang plow or their farm machinery that it there is to be any improvement the Janesville people will have it, for they spare nothing in expense to place the best in the hands of their dealers. We handle the full line of Janesville Famous Farm Machinery, and once you try the plow so perfect you will find it that you will be interested in their Disc Harrows, Seeders, Corn Planters and Cultivators, and later we will tell you of other labor-saving implements in their season.

Our stock of farm implements is now very complete, and the machinery of known merit and real value is carried here.

PEACE WHOOPS

French Tribune. In the Forum today this paper is seen to check its old friend, H. G. Meyer, for fitting its editorial page up with war whoops. Mr. Meyer thinks the people of Concord, Nebraska have no interest in the agitation for war and suggests it would be a good deal more pleasant to contemplate the coming again of spring and the song of the meadow lark and fishing beside the murmuring stream. But Mr. Meyer is mistaken about the editorial page of this paper uttering any war whoops. It has been filled with peace whoops ever since the war started, just such whoops as its Quaker-bred editor might be expected to give. But as the circle of fire has been narrowing around us and as we are now being drawn into the conflagration by the ruthless hand of Fate the Tribune has seen the futility of "peering peace" when there is no peace. The people of Nebraska do have an interest in what becomes of the nation's dignity and standing and whether or not it is to be flouted and cursed and turned its other cheek. When the world is at fire it would be folly for us not to procure some hand grenades, and that is what the Tribune has of late been advocating—not war. It ought to have urged preparation sooner, because it is now discovered that the tender mercies of war-mart nations cannot be relied upon. We shall not urge war; that will come without urging and despite all the peace advocates may do, for it is in the hands of Germany and we have no control over her hard necessities in this crucial hour. Not to be prepared in the best way it is now possible to do will be neglecting a plain duty, not being entirely to America. To wake up some morning and find a legion of Greasers under German command besieging Arlington would be funny, not being entirely to the liking of Mr. Meyer, who would then be unable to see any meadow lark in the landscape or to hear the Elm-horn "quietly murmuring."

Ten ladies comprised this jolly party and the afternoon was a very pleasant one. At an appropriate hour, refreshments which the guests had brought with them, were served.

Entertain at Dinner.
Miss G. W. Haver entertained a few guests at a 6 o'clock dinner Saturday evening. The St. Patrick idea was carried out in the table decorations, the green and white being used effectively. The guests were Miss Helen Rockwell, Miss Lillian Plank, Miss Bessie Stormont and Miss Grace Long. After the dinner the party was escorted to the DuSap theater where they enjoyed the evening.

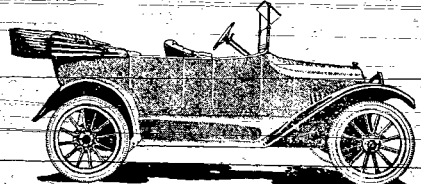

Birthday Party.
Miss Della Chace was hostess to the members of her Sunday school Thursday evening, at a 6 o'clock dinner. The occasion being her twelfth birthday. Twelve little girls were seated at the table, which was artistically decorated in pink and white, the class colors. A bouquet of pink and white carnations was used in the center of the table, making an attractive centerpiece. Tiny place cards and favors in pink and white were used to carry out the color scheme. A delightful two-course dinner served by Mrs. Henton, the guests spent the evening in games and a general good time. Many thanks were given in respect in memory of the occasion.

Performance--Endurance

Did you ever stop to think that those two points, above price, beauty and outside finish, should determine your choice of a car? Varied colors may look the same on iron as on steel, but they cannot conceal weakness in construction. Hence, the CHEVROLET, through and through, is of genuine steel, the best steel. All iron, from bronze and brass used in the car parts, no matter whether they're visible or not, are the very best.

TECHNICAL POINTS

1. THE VALVE-IN-HEAD Motor—a short cut to maximum power.
2. The exact weight of the piston assembly.
3. The crank shaft, rigidly tested with micrometer and caliper.

If you don't understand why these features are of utmost importance, call and let us show you the inner workings of the CHEVROLET.

ROSS HAMMOND in Fremont Tribune. "Since the price of news print went up higher than a cat's back, the Wayne Herald has doubled its size. Some people seem to thrive on trouble. Anyway Editor Huse laughs it to scorn."
THE COUNTRY CLUB. (Continued.) O, shout aloud! make big hubbub! We're going to have a country club. The Wayne Herald has doubled its size. We're going to have it right away. Just east of town, out by the lake. So we can all a boat ride take. When weather's hot, to keep it cool We'll have a swimming pool. There'll golf links be, and tennis grounds. May be a fox, and pack of hounds; And a grand old dog to be named. You never know when it will end. To those who walk, all good may come. Why not join in and make things So people all will stay at home. Why do they think that they must roam The distant parts, big things to see. When right at home, they'd happier be. Take Wayne in June, the country near. There's no spot on earth so nice. So when you're asked where you will spend Vacation days, or brief week-end. Just say in tones as loud and clear. "It's in the neck of the woods you may hear. I'm going to take my well earned Right in the place that I love best." The country club has solved the riddle. And cut expenses in the middle. 'Twill be a place where friend and neighbor Can find a life when through with labor. And father, mother, sister, brother, Will learn to play with one another. "Spent it in Wayne" will be our slogan. The pretty city on the Logan.

URGENT and finally eliminating such protection when the strike threat loomed. He intervened none the less, congressional defenders of the constitution. It is requested that all breeders of pure bred stock make a special effort to attend the meeting. March 27 when officers will be elected for the permanent organization, and a constitution and by-laws will be adopted. Several questions of interest are to be discussed, and if you have any question to offer or suggestion to make, be on hand and help get the organization started off in good shape. This is an invitation to every one in the vicinity who breeds pure bred horses, cattle, sheep, hogs and poultry. Don't think because you are not big in the business or are just starting that you are not needed, but be there. H. J. Miner, President, V. L. Dayton, secretary.

NOW FOR CONGRESS. Lincoln Journal: Congress will doubtless take notice that not to it is the glory for the nation's narrow escape from a disastrous railroad strike. Such credit as honors and any political agency is due, on the contrary, to another act of presidential usurpation. Thanks to congress the president had no authority to do anything for the public

how these will be then from the congressional defenders of the constitution. The alternative to this outcome is action by congress to provide other means than force and executive usurpation for the adjustment of railroad-labor troubles. If peace with our victory in Europe—a peace based on justice and not force—is essential to the welfare of the world, then how much is needed some other method of settling such labor disputes as this. This industrial peace is dictated under the guns of Germany. No such peace can be permanent. It is for congress, unless it wishes to pave the way for some more "executive usurpation" to attend to this great matter at the first opportunity.

EXCERPT FROM TALK BY FORMER WAYNE MAN

E. R. Gurney, Fremont banker, formerly in the banking business at Winside, Wayne county, gave an interesting and thoughtful address before the citizens of his home city recently on the subject, "Providence and War."

"Now, I have said all this that you may realize most fully that humanity in its march toward happiness has a long road to travel and that so deep seated are the forces of error that only mighty tools will uproot them. It is true that the strength of an able leader is as nothing to achieve such results. The inevitable course of peace, whether social, theological, or political is found in the notion of 'letting well enough alone.' There is a smugness about satisfaction that avoids being disturbed. In every age it has taken the violence of force to break down the barriers of tradition. King John did not write the guarantees of Magna Charta into the bill of rights of England. Cromwell and Stephen Langdon and his company of soldiers enforced it from him. King George gave no sanction to our own existence as a free people until our first and our second constitutions were at Lexington today you will find in having bronze the statue of him who fired the shot heard round the world, while the torres of alliance sided in with the power that

"The knows no exceptions to his laws, which endure from everlasting to everlasting. Let us see if, in this baptism of fire which may be over our own nation any day, there are any constructive influences. Let us see if anything about this war might make a better preparation for our home and any other agency of earth, tends to abolish class distinction. When men are side by side in trenches, and one shoulder to another, through the elements of earth and shell when one falls and another carries him to safety, or lies with him, crumpling behind, shouting back to his class of officer to moaning lips, then the superficialities of station, brought about through birth or chance, are as nothing. They are banished, never to return to such men. When duchesses work beside waitresses preparing bandages for the Red Cross, when noble mother and plebeian wife weep over the death of their first born, their humanity reigns and heredity is forgotten. Then in time of war there is a great revival of religious spirit. In times of peace we grow forgetful of our blessings. We say grace at meals without appreciation of our food. We grow careless in our relations with the Almighty. We shall be still before we are called to account. But when we are massing for conflict, when we look grimly fatal in the face, we begin to think of real things, and it is the universal verdict in Canada, in England, France and Germany that the wave of religious enthusiasm exceeds anything before known from war. A great majority are permitted to do what they are forbidden to do. They found themselves. They are no longer slaves of an account. They have no more superstitions to contend with. Their fear is gone. He who has faced death without flinch, he who has borne the prisons of the earth is no longer obse-

PRESS CENSORSHIP

Fremont Tribune: It is said that one of the best things the new congress will do when it convenes in April will be to enact a press censorship.

This will be done for the purpose of suppressing news that the government regards as against the public interests to have published.

Very naturally and very logically a check is being placed against the best interests of the public should be suppressed, whether it be news or anything else; for there is no more imperative or beneficent general rule than that of "the greatest good to the greatest number."

But it may be wondered how far the suppression of news really helps a country at war. It is customary to immediately clamp the muffer on the press when war breaks and this fact creates the presumption that the process is a wise and necessary one.

But cannot there be some doubt? Is it to be taken for granted that the "free publication of facts" will work injury to a country?

No belligerent nation would ever rely upon getting its information from the press concerning the situation of an enemy country. The spy system practiced by all countries is the dependable method of ascertaining conditions. Spies are said to be thicker in this country right now than at any time in its history. A belligerent nation has had open to it all that has been said in the newspapers of the United States during all this war. Spies are employed to ascertain things that no newspaper cares, or undertakes to print.

Just now we are getting no more news from abroad about the sinking of submarines or the work of steamships. It has suddenly stopped because the British censor has been cutting this news out of what he has been permitting to come through to the United States. This is important news for the people of the United States to know, for it bears directly upon whether or not we are to have war. The British press is probably not printing it either. Surely the British people ought to know whether they are succeeding or failing.

It is not surprising that the British press is probably not printing it either. Surely the British people ought to know whether they are succeeding or failing. For this reason the people are anxious to assess conditions. If a democracy the people rule and so they are the more insistent about knowing conditions that they may rule wisely. In this war we have no more news from abroad about the sinking of submarines or the work of steamships. It has suddenly stopped because the British censor has been cutting this news out of what he has been permitting to come through to the United States. This is important news for the people of the United States to know, for it bears directly upon whether or not we are to have war. The British press is probably not printing it either. Surely the British people ought to know whether they are succeeding or failing.

were and decided war as something tedious to think of, are living in their own lives, as well as in the fact that it is war that a nation find itself. We go on down from year to year in the fatness of peace, and unconsciously we come to lean upon our government, our army, most-thought being to achieve position that our government may bestow honors and money upon us. We are content to be comforted in the name of hands and mortgages, or money and credits, of jobs and titles of pleasures and pity. But when the nation's life is threatened and a heavy cross is put upon a generation of the fact that they are fighting for their existence, then there is a re-consideration of race for country and a purging of selfishness and individual greed. It is the realization of the greatest possession is my native land, I believe in a solidarity of the people, in the preservation of their ideals in the realization of their hopes and aspirations. I believe that in this unity of thought and purpose, in the strife of rivalry between nations, and in the emulation of every good work, that the truest achievement here below and real praise to God that shall resound above."

Don't say unpleasant things over the telephone or at the dinner table. "While children complain that parents are as obedient as they should be, the parents are learning schools are practically without funds and will have to run from April 1 until June 1 of next year. This will mean that when the time comes for the money to be available there will be a deficiency to come from the fund of probably \$300,000. A great deal of the overfunds of the fund of \$129,000.

shops in Omaha might be used to point to a rather unwelcome conclusion. In the first, well-known business man shot and killed himself in his car, which started heading for a downtown street for some hours before anyone troubled about him.

These events suggest that we are amiable, too self-centered and too neglectful. One reason for this is, of course, that the generous impulse of well-meaning Samaritans very frequently ends in such disaster that even the more sympathetic and understanding are cautious when it comes to going to the rescue of an apparently needy person. A line must be drawn near, rather than in the far side of neighborly concern.

Honestly, now, don't you like Skirts are being worn so short that many men are becoming as base as the London busman, and if you are right half the time you are there is no longer any great advantage in a March wind.
