Mitildad W. R. Morehouse of Randolph was in Wayne Sunday visiting at the home of his sister, Mrs. Walter Weber. Mr. Morehouse was on his way to Sioux City to make a car of stock.

Mrs. Henry Damm living in the southern part of the county, was adjudged insane by the proper authorities at this place Monday, and taken to the Norfolk state hospital for treatment.

I. W. Alter and N. J. Jublin went to Omaha Monday morning to attend a meeting of the grand lodge of the A. O. U. W. While there Mr. Jublin will consult a specialist in regard to one of his eyes which has been troubling him.

E. D. Lundak, formerly at the head of the Wakefield schools, for a number of years superintendent of the Ft. Pierce schools, has been granted a leave of absence to attend the U. S. officers' training camp at Fort Snelling, Minn. The training begins May 14.

The government wants more stenographers and typewriters; both male and women, and will pay salaries from \$900 to \$1,200 a year on the start. A letter to the U. S. Civil Service Commission, Washington, D. C., will bring full information on the subject.

Mr. and Mrs. Edward Bostedder and three children of Fremont spent Sunday at the home of Mr. and Mrs. A. A. Chance in Wayne. They left Monday evening for Lusk, Wyo., and will make their home on a farm near that place. Mrs. Bostedder and Mrs. Chance are sisters.

Mr. and Mrs. Henry Puls living southeast of Wayne, went to Winfield Monday to visit the family of Mr. and Mrs. John Scofield. They were especially attracted there at that time by the accident which befell Mr. Schulz's little daughter who suffered a broken shoulder.

Mrs. William Beckenhauer and little daughter, Eugene, who is attending West Point Monday morning, returned the wedding of a niece, Miss Anita Krause to Mr. Trump of North Platte, Neb. The church wedding took place Tuesday evening in the presence of a large number of friends and relatives. Little Eugene was the ringbearer.

Miss Cora Panabaker who had been employed at the local telephone exchange for several years, went to Lusk, Wyo., Monday evening to live on her claim for several months. She was accompanied to Lusk by little Zoe Scofield, daughter of Mr. and Mrs. John Scofield of Wayne, who will spend several months at the home of her aunt, Mrs. Henry Peetz.

Paul Mithner who sold his variety store at Madison last week arrived accompanied by his wife in Wayne Sunday, guests of the former's parents, Mr. and Mrs. Herman Mithner, until Monday when they went to Charter Oak, Ia., for a visit with Miss Paul Mithner's parents. Mr. Mithner has a number of openings in view and is at this time undecided what he will do.

George Roe, formerly in the employ of the First National bank at this place, who returned last week from Douglas, Wyo., to attend the wedding of his brother, William Roe, last week left again Monday morning for Douglas, Wyo. He has been undecided what he will do in Wyoming, though he has a number of good prospects and expects to take advantage of one of them in the near future.

Miss Winifred Burr of Norfolk, who is employed in the district manager's office of the Nebraska Telephone company, was in Wayne Monday, teaching and assisting the new operators who are learning the ins and outs of the switchboard. Four of the Wayne operators have left and a new force is now starting in.

Miss Anna Jacobi is learning the new check-cashers and will undoubtedly make good in her work. Miss Etta Benschool, Miss Della Stewart and Miss Lavina Luder are the new students. Miss Edith Barrett is now substitute work.

The Wayne people must have patience until the regular force gets "on to the job" and the usual good service is resumed.

**A PASTOR STRICKEN WHILE DRIVING AUTO**

Rev. Charles O. Trump, pastor of the Methodist church at Randolph, Neb., died from heart failure Sunday while driving in his automobile to Sholes, where he was going to conduct religious services. He leaves a wife and two sons, one of whom is attending a university in the west and the other is a senior in the Randolph high school.

Rev. Mr. Trump was well known in this district and his many friends will be grieved to hear of his sudden death. He was 47 years old, and came to this part of the state from Ohio, where he taught school at one time. The remains will probably be taken back to Ohio for burial.

Rev. Trump had suffered from heart trouble several times, although the attacks were not frequent. At the time of his death he was on his way to Sholes alone in his car. Some people in another machine behind noticed that the car ahead of them was swerving from side to side and they drove their car alongside that of the pastor just as it stopped. Rev. Trump was living then and the end came a few moments later. It is apparent that he had been able to stop the machine just before the fatal stroke came. A number of close friends of the family from neighboring towns, out to Randolph in response to the announcement of Rev. Trump's death.

**PLANS COMPLETE FOR THE GARDEN PROJECT**

The group leaders of the new garden project held at meeting Saturday afternoon at 2 o'clock in the city library building. Supervisor Herman S. Siems suggested that the name of "school garden" project be changed to "Home Garden" project. The name "School Garden" originated in the east and the plan was then carried out differently than it is today. The new garden project was made in the school yard, or adjoining the school, and each child was given a plot of ground to care for, but now the gardens are made at the homes and cared for at home, and for that reason the name "Home Garden" is the more appropriate.

The home garden movement should have a motto like all other leading projects, and the following has been suggested: "Get your hands and feet into the soil of mother earth; it is good for the soul."

The same cards for the group leaders have been prepared. Mr. Siems explained the way to keep an accurate account of the work produced by each child. The manner of keeping the record book of each child has been discussed. Mr. Siems explained that the tools such as spades and forks that the children buy should not be added to the expense column, because they will be good for other years to come, and the plan of the book is to contain only the immediate expense in putting in the garden.

Several children have enrolled in the garden club since it was organized. The following are the members: Alice Wright in Rev. A. S. Buell's group; Ralph Wright in Mrs. Homer Seace's group; Edward Reynolds and Lyle Mabbutt in Mrs. A. R. Dazey's group; and Ralph Carhart in Mrs. J. G. W. Lewis group.

A general spirit of trying to make the gardens yield a larger abundance than ever before seems to be in the minds of the citizens of the town, and it is assured that a great deal of good will be derived from a systematic plan of gardening.

**WAYNE PEOPLE ENJOY MARY PICKFORD PLAY**

Mary Pickford always pleases but she went even farther than that in the difficult role of Gwendolyn in the "Poor Little Rich Girl," which was presented at the Crystal theater Thursday evening. The success through the entire play did the clever "little Mary" forget that she was the quaint, wistful little daughter of a rich man.

Her performance was roundly applauded by everything that could be found by anything for companionship and love.

Her life is a dreary round of tedious hours with austere tutors. In one of the scenes in the last act she falls in with one in a while a hurried kiss from her mother who has "a social bee in her bonnet." When the nurse drugs the child with a sleep-inducing medicine, Gwendolyn becomes a hideous nightmare, into which glide Nurse Jane, the two-faced thing, wearing a replica of her own countenance upon the face of her head. Mr. Roubin, the "snake in the grass," and Thomas, the butler who has ears equal his head in size.

To her anxious parents hanging over their daughter's delirium reveals the terrible neglect of which they have been guilty. They see things "as they are" and on the child's complete recovery they lay down the law of the love and affection which she craved more than all else in the world.

In exact keeping with the subject, the scenes show an extravagant display of wealth including a locale of a costly conservatory with its lily pond, playing fountains, rare birds and immense botanical exhibit, which is later completely de-

# How the Maytag Multi-motor Washer

## Will Take the "Blue" Out of Monday on the Farm

### These five distinctive advantages over other power machines abolish the rub and drudge of wash day and make each Monday seem like a holiday

#### Special Features

1. Equipped with a quick release lever on wringer so that there is no chance of injury to the fingers or to the clothes.
2. All moving parts are enclosed—"Safety First"—and ALWAYS.
3. The pulley on end of shaft can be used to drive any light machinery by belt connection.
4. The engine is securely fastened beneath the tub—out of the way all the time.
5. A simple half turn of the handle locks washer lid and throws dollie in gear; a half turn in the opposite direction reverses the motion.

#### Convincing Evidence

In demonstrations in actual laundering in the home economics departments of both the Nebraska and North Dakota state universities, the MAYTAG MULTI-MOTOR WASHER with the Swinging Reversible Wringer was emphatically pronounced an advanced household utility for farm women. Read what they have to say of the performance, the safety, the simplicity, the economy, the convenience and the thoroughness of the Maytag washing. But even then you must come to the store and see for yourself why you should buy a MAYTAG.

There's a Maytag washer of every type—hand, power driven, electric—all built to the enviable Maytag standard

### ALL MEN SUBJECT TO DRAFT TO REGISTER

Washington, May 5. An official outline of the methods by which military registration is to be carried out under the selective conscription bill was made public today with an appeal from the war department for the voluntary services of state election and other officials in order that there may be no delay in enrolling and classifying millions of men for army duty.

Careful preparation has been made to place the whole task in the hands of civilian officials of the states and to remove every suggestion of military force in putting the measure into effect.

**In Hands of People.**  
The only function of the federal government will be supervision through the provost marshal general. The department's statement follows:

"There was a time in the con-

clusion are to be registered, the registrar would have to enroll about 7 percent of the precinct population.

It is desirable to accept the services of competent volunteer registrars to serve without compensation. All registrars must be sworn.

**Register at Voting Places.**  
The voting place in each precinct must be prepared for registration. Full printed instructions covering every detail of registration will be in the hands of sheriffs and mayors on the fifth day after the president's proclamation.

The mayor of each city containing more than 30,000 inhabitants or the officer designated by the governor therein shall, with approval of the governor, appoint for each ward or convenient subdivision containing about 30,000 people one registration board and shall designate one officer of each board to perform duties similar to those imposed on the sheriff, as hereinafter outlined. If the mayor desires he may appoint a central board to coordinate the

work of the minor boards.

"On the fifth day after the president has issued his proclamation clerks of counties and cities of over 30,000 must secure a supply of blanks and copies of the registration registry's history when military enumeration is to be made.

On the fifth day after the president has issued his proclamation clerks of counties and cities of over 30,000 must secure a supply of blanks and copies of the registration registry's history when military enumeration is to be made.

The approval of the new national army bill and the president's proclamation thereunder will be completed. All persons within the age limits provided will be required to present themselves for registration at the customary voting places in the voting precincts in which they have their permanent homes, on a day which the president will announce. The probability is that from ten to fifteen days will elapse between approval of the bill and registration day.

#### Governor is Chief

The governor of each state will be the chief of registration therein. The machinery of registration in each county is to be in charge of county clerk and the county physician acting ex-officio unless a different board shall be announced by the governor. In cities containing populations of more than 30,000 the registration will be under the control of the mayor and selected boards of registration.

#### Must Appoint Registrars.

In order that the designated county and city officials and the people generally can get a clear understanding of the census methods the following brief time is given:

"The sheriffs or other designated officials immediately upon receiving notice from the governor shall appoint registrars for each voting precinct.

"The proportion of registrars shall be one for each 120 persons to be registered. Each age to be registered will comprise about 1 per cent of the population. In the instance of all municipalities between 10 and 25 years of age registrations from the sheriff or from the mayor. Absentees and the sick will apply to such clerks to have their registration cards filed out. In no case shall such persons be given registration certificates. They are to be instructed by the clerk that the burden is on them to see to it that the cards reach the registrar of their home precincts by registration day.

#### Absentees Register by Mail.

"Persons absent from their home counties may be registered by mail so absent a man should go to the clerk of the county where he may be staying on the sixth day after the date of the president's proclamation. If he is in a city of over 30,000 population the city clerk is the official to whom to apply. The absentees will be told how to register but he must mail his card in time to reach his precinct by registration day.

"Persons too sick to present themselves for registration must send a competent person to the county or city clerk on the sixth day after the issuing of the proclamation. The clerk will give instructions for registration. Officials of educational, charitable and other institutions should apply for instruction to the county or city clerk on the sixth day after the date of the proclamation, as to the method of registration.

"The wardens of jails, penitentiaries and reformatories should apply to the county or city clerk for instructions.

"Five days after the date of the president's proclamation complete registration will be in the hands of all sheriffs and of the officials of cities of over 30,000 population.

call upon public officers to assist in the execution of the law. The plan is, however, to rely on the people for the proper execution of the law. It is expected that patriotic citizens will offer their services free as registrars. Such service will be gratefully acknowledged. Volunteers for this service should communicate immediately with the proper official.

#### NORFOLK NOT HAVEN FOR STOLEN AUTOS

Norfolk Daily News. Little credence is given to reports that a "tiger" for stolen automobiles is located in Norfolk notwithstanding that four stolen automobiles have been located here and returned to their rightful owners and that at least twelve more "suspicious" cars are being investigated by the authorities.

One Norfolkian who declares that he has been victimized by an automobile thief says that this city has been used by at least two sets of automobile thieves as a likely place where cars can be sold to persons who want to buy "cheap."

One man who sold a stolen car here passed himself off as a stock buyer and another one managed to make some people believe that he had come to Norfolk to purchase a rooming house. Still another successful seller of stolen cars is said to have represented himself as a salesman of mining stock. According to one victim, salesmen of stolen cars seldom work the "rush act" in selling their machines. One of these men came to Norfolk and remained here for over a week before starting activities. His first work was to become acquainted with several men on a certain saloon. He then let it be known that he was here for the purpose of purchasing a rooming house. He took his chance acquaintances to various locations in the stolen car, but took pains not to mention the automobile until a favorable opportunity. This came when the chance acquaintances made some remark about the car. Then an offer was made to sell and in the case the deal was made in quick time. This car is said to have been left in several garages in the city before the sale was pulled off.

The only guarantee against being victimized is for the buyer to demand a bona fide history of the car.

CROP CONDITION AS GOVERNMENT SHOWS

Washington, May 8.—In the face of a threatened world food shortage the American winter wheat crop shows the lowest condition recorded since 1888 and promises a smaller yield than any other year since 1904.

Agricultural conditions otherwise are good, the department announced and it recalled that although the winter wheat crop of 1912 showed an equally discouraging outlook, the total production of crops that year was the greatest on record.

Cereals Largest Ever Sown. The winter wheat crop, planted last autumn on one of the largest acreages ever sown to that grain but which met disaster in several important producing states from severe winter conditions, now promises a harvest of 366,116,000 bushels this year. That quantity was forecast by the department which based its estimate on the condition of the crop May 1 as reported by the thousands of agents throughout the grain belt. A month ago a crop of 430,000,000 bushels was forecast. Production last year was 474,400,000 bushels and in 1915 it was 673,947,000 bushels.

On May 1 the area of winter wheat to be harvested was about 27,000,000 acres, compared with 40,000,000 acres sown last autumn and

34,829,000 acres harvested last year. The condition of the crop on May 1 was 73.2 per cent of a normal, compared with 63.4 on April 1st, 82.4 on May 1 last year and 86.6 the average of the last ten years on May 1.

Meadow (hay) lands: Condition 88.7 per cent of a normal, compared with 88.4 on May 1 last year and 87.9 the ten-year May 1 average.

Spring plowing was 72.4 per cent completed up to May 1, compared with 70.4 on May 1 last year and 69.3 the ten-year May 1 average.

Spring planting was 56.7 per cent completed up to May 1, compared with 56.7 on May 1 last year, and 56.3 the ten-year May 1 average.

LONG WAR PREDICTED

BY JAMES W. GERARD

Chicago, May 3.—James W. Gerard, former ambassador to Germany, told members of the Chicago Bar association at a banquet given in honor tonight that the war with Germany would be "long and bitter."

Mr. Gerard asserted that there was little likelihood of a revolution or uprising in Germany. Although the people of Germany are feeling the pinch of hunger, he said, there is no real probability that starvation may put an end to the struggle. There is enough food in Germany to last until the next harvest in July, he declared.

"Many persons in this country believe that we are not actually in this war," Mr. Gerard said. "There is a hope that such a view 'will be long ahead of us, and we are in it until the finish. The fight will be long, but there is a prize ahead of us. We are in the fight because we are fighting this war for ideals. We are fighting for liberty and democracy and the permanent peace of the world. This great prize only will be obtained when Prussian autocracy has been overthrown."

"I do not believe the German people will rise. The people have been too long a part of the efficient German state to rise and assert themselves. An uprising is impossible because all the able-bodied men are at the front, and those who are at home can do nothing because of the police."

Universal military training will prove to be the saving of this nation, Mr. Gerard said. He also predicted that the German-Americans would prove loyal to this cause.

END OF A REALLY HARD WINTER.

Omaha Dec.—A rather depressing spell of rainy weather marks what all hope will be the passing of a hard winter. The rain itself is really a sign of promise, the earth, freed out by means of slush, is drinking deep of the steady down-pour and soaking in moisture that will be returned a little later in beautiful yields of grain and fruit. So far as the actual needs of the great agricultural empire of the middle west is concerned, no more timely nor beneficial shower ever fell than this, been experienced for the last ten days. It has not been excessive and has descended so gently that practically every drop has gone where it will do the utmost good for the crops to come. If the rain had been made to order it could not have been better designed for the purpose.

Netherlands have felt the rigor of the long winter, yet they will find they have little cause for complaint if they will but consider the plight of others. Holland for example, the Dutch are at peace with the world, but the nation has been under arms for over two years, compelled to stand guard over its borders to protect its neutrality from the aggressive Germans. No country actually in the war has been more completely under its influence than Holland in its efforts to keep out. Nowhere was greater distress and inconvenience felt throughout the long winter than there. Food and fuel both were all but exhausted, factories closed, houses left unheated, public buildings shut up and privation endured by all. Rich and poor alike felt the pressure, for no amount of money could create food or fuel that did not exist and the government made no distinction among its people in distributing the limited supplies available. All alike were destitute and suffered because of the unhappy combination of war and weather.

All around the world the third winter of the war reached a point not soon to be forgotten and our very worst time does not compare with the experience of the Europeans, involved in the desolation of war.

FOR STATE COUNCIL.

Lincoln, May 2.—Gov. Neville has completed the purchase of the state council of defense by appointing George Coupland of Elgin to represent the agricultural interests of the state. Mr. Coupland was formerly regent of the University of Nebraska, and is closely identified with agricultural work, owning and working a large farm in Antelope county. He has been in California during the winter. In response to a message of inquiry by the governor if he would accept the position, Mr. Coupland replied in the affirmative, adding that he would come home immediately and put in all the time he was able and lend all the assistance he could to carrying on the work.

Best Remedy for Whooping Cough.

"Last winter when my little boy had that whooping cough I gave him Chamberlain's Cough Remedy," writes Mrs. J. B. Roberts, East St. Louis, Ill. "It kept his cough loose and relieved him of those dreadful coughing spells. It is the only cough medicine I keep in the house because I have the most confidence in it." This remedy is also good for colds and croup.—Adv.

### NEW BUILDING AT THE NORMAL NEAR FINISH

Nebraska may justly feel proud of the new Manual and Industrial Training building which is nearing completion on the campus of the State Normal at Wayne. Emma Riddle is pushing the work as rapidly as possible, and President Conn hopes that the building may be used, at least in part, during the summer session. It is to consist of a large and well arranged gymnasium, the new structure will provide excellent quarters for manual training, thus supplying a great need in the work of the school. The floor space is as follows:

**First Floor.**  
On entering the main corridor, to the left is the men's locker room and toilet. From here, a stairway leads to the gymnasium on the second floor, and doors open into the girls' shower room, the men's shower and individual dressing rooms are provided for forty-two young women. The plunge bath is adjacent to this room, a plunge 45x72 feet set from three to seven feet deep. The boys' locker and shower room is also adjacent to the plunge, entrance to the dressing room being on the northeast side of the building.

To the right as one enters the main corridor on the first floor is the department of domestic science. A unique feature of the arrangement is a large kitchen for laboratory work, connected with a modern dining room, where the practical application of food preparation and serving is made possible. The remainder of this floor is occupied by the department of mechanical drawing. To the right is a ladies rest room and a large class room, a room which eventually will be used for industrial art. To the right is the department of domestic art with its spacious laundry, sewing and fitting room. The machine shop and forge department occupies the remaining floor.

**Second Floor.**  
On the second floor the gymnasium occupies about one-half of the floor, an unbroken floor space of 88x58 feet, fourteen feet to the balcony and twenty-eight feet to the ceiling, making an ample space for all games possible. To the left as one enters on this floor is a ladies rest room and a large class room, a room which eventually will be used for industrial art. To the right is the department of domestic art with its spacious laundry, sewing and fitting room. The machine shop and forge department occupies the remaining floor.

**Third Floor.**  
On the third floor is the balcony above the gymnasium, which will also be used as a running track. To the left is the boys' locker, bath, shower room and department of mechanical and architectural drawing. Turning to the right is the regular demonstration and class room for the department of industrial art, connected directly with the woodworking shop, with provision for twenty benches, eight lathes and all the latest motor-driven woodworking machinery. This room has adjacent to it a large finish room and dry kiln.

As a whole the building is strictly fire proof, with every detail particular in a model in arrangement and practical in every part.

Being agreeable means agreeing with people, utterly regardless of your own opinions.

### SOCIAL NEWS

#### In Honor of Classmate

A company of seniors at the State Normal honored Ward Randol, who leaves soon for Denver to take training for service in the medical corps of the army, at a dinner at the Calumet cafe Friday evening. Covers were laid for twelve. During the social hour following the dinner, several eleven toasts were given in the guest of honor. Ward leaves for Omaha Saturday.

#### Elect Officers

Mrs. U. S. Conn, assisted by Mrs. W. E. Beaman, Mrs. G. W. Foster and Mrs. H. E. Leys as hostesses, entertained the members of the Minerva club at the last meeting of the year Monday afternoon. During the business session the following officers were elected for the ensuing year: President, Mrs. E. E. Lackey, vice president, Mrs. W. E. Beaman, secretary, Mrs. E. B. Erskine, and treasurer, Mrs. W. E. Beaman and Mrs. Erskine were re-elected to their offices. A vocal duet, "Somewhere a Voice Is Calling," by Mrs. Erskine and Mrs. A. G. Gilbert with Mrs. Beaman at the piano, was the feature of the social hour. The guests enjoyed an excellent two-course luncheon served by the social committee. This year the club had a year of profitable study and delightful sociality for the Minerva club ladies. The regular sessions of the club will be resumed some time in September.

#### W. H. S. Seniors Entertained

Members of the junior class of the Wayne high school entertained the W. H. S. seniors at a banquet Friday evening for the graduating class of 1917. The young people gathered at the high school building at 8 o'clock and enjoyed an appropriate program prepared by the juniors. The first number of the program was a vocal duet by Don Gillette and Knox Jones which was a parody upon the "Bells" among the Golds. Wilma Gildersleeve read a poem entitled, "See yourselves as Others See You," each series representing a member of the senior class. The banquet was a most successful one, the proceeds carried out the price which was a mirror, for guessing each one correctly. The next feature was a playlet entitled, "The Little Girl in the Blue Dress" which was cleverly given. The senior class prophecy by Russell Prescott was also a success. The program closed with Glee songs by the choir. Wilma Gildersleeve, Knox Jones, Don Gillette and Agnes Weiler.

The music room in which the program was given was decorated in the senior colors. At 9:15 p. m. the party adjourned to the banquet rooms of the Baptist church where a sumptuous four-course dinner was served. The following was the menu:

- Supreme of Fruit
- Olive Cream of Tomato
- Wafers
- Creamed Chicken in Ramekins
- Potatoes au Gratin
- Asparagus on Toast
- Broiled Tenderloin
- Perfection Salad
- Wafers
- Neapolitan Ice Cream
- Cake
- Coffee

The tables were arranged in a square, the center of which was a bank of ferns and potted-house plants. Candles with red tapers in blue holders were used to light the room and cast a subdued glow over the table. The place cards, nut cups and menu cards carried out the prevailing colors, red and white. Following the dinner, Don Gillette presided as toastmaster, and the following program: the theme of which was "A Reading Room" was enjoyed.

#### CHURCH CALENDAR

St. Paul's English Lutheran Church. (Rev. J. H. Fetteroff, Pastor.) Sunday school meets at 10 a. m., followed by preaching at 11 o'clock. Miss Violet McKay will conduct the Luther League meeting at 7 p. m. There will be no preaching in the evening. Writing the above notice I have learned that Rev. Dr. Albrecht, one of our returned missionaries to India, will be in town and is expected to preach for us on Sunday evening. He will also deliver the sermon to the graduates of the high school being preached on that night, and our services being cancelled, it will be impossible to give him a hearing at the time he desired, but he being one of our representatives on the foreign field, and only one date open on which he is available, we should be glad for the opportunity to hear him. For this reason the two Lutheran churches have arranged for a union service at the German church Monday morning at 11 o'clock at which time Dr. Albrecht will speak.

#### Presbyterian Church.

(Rev. S. N. Cross, Pastor.) The church and Sunday school will observe Mothers' day next Sunday at the hour of morning worship. This great day will rather be observed this time as a Son and Mother's day. Every man and boy who has a mother living here is requested to accompany his mother to the service on Sunday morning and occupy the pew with her. The church will be open at 10:30. There will be appropriate music under the direction of Mrs. W. E. Johnson. The sermon theme will be "Why I Love My Mother." If you honor a pink or red carnation. If she has passed to Great Beyond, wear to her sacred memory a white carnation to a crowd which will be held at the church.

#### Methodist Church.

(Rev. A. S. Buell, Pastor.) Next Sunday is Mothers' day and the Methodist church will have a special service in honor of our mothers. We shall be glad to welcome you to the service. Each teacher and officer in the Sunday school is requested to remain a few minutes at the close of Sunday school to register your vote on the matter of changing our Sunday school hour from 11:45 a. m. to 10 o'clock.

#### TRAIN STRIKES AUTO KILLS VETERINARIAN

Creighton, Neb., May 8. - Dr. Oscar F. Newell, a veterinarian of Plainview was instantly killed at 4:30 yesterday afternoon when the automobile he was driving about five miles northwest of Plainview, Neb. was struck by a train. The car was carried 200 feet and demolished and Dr. Newell was thrown some distance. He was dead when he was picked up. The body was brought to Creighton for the inquest and taken to his home in Plainview this morning.

#### Had Strapped Near Crossing

Plainview, Neb., May 8. - Trainmen who witnessed the accident in which Dr. O. F. Newell was killed yesterday afternoon said the doctor had apparently stepped his car some distance from the track, then, thinking he could make the crossing ahead of the train, started his car. One report says the car evidently became stalled on the track. The train was late and was running at a high speed.

Miss Etha Jones, Miss Ruth Sterling, Miss Eunice Linn and Miss Ezzella Ziener of Carroll, were guests Friday evening of Miss Wilma Garwood and Gladys Francis, students at the Normal. They returned home Saturday morning.

Saturday the supreme court issued an order granting A. J. Loeferling, former county attorney of Madison county, a new trial in the action charging him with accepting bribes from Norfolk resort keepers. On conviction in the supreme court, he was sentenced to from one to seven years in the penitentiary.

Mrs. C. E. Dotson of Randolph who had been visiting at the home of Mrs. J. J. Williams several days, returned home Saturday morning. Mrs. E. R. Williams of Randolph arrived in Wayne the same morning on a few days' visit with Mrs. Williams. Mrs. E. R. Williams is a sister-in-law of the late Dr. J. J. Williams.

Mrs. A. V. Teed and little daughter, Lennie, went to Dorcas Friday morning for a visit at the home of Mrs. Teed's parents, Mr. and Mrs. H. C. Fields. Prof. Teed left Friday afternoon for Lincoln where he attended a home of the Normal Masters' club, of which he is a member. The following day Prof. Teed gave an address on the "Consolidated School" at York, Neb.

"How did you need the money?" "Well, many are the men who will work no. I didn't exactly need the money, for \$3 per week rather than to be day." "I was mighty lucky to get but if I hadn't got this job I might die!"

**THE WAYNE HOSPITAL**

Home-Like and Cozy in all Details. Takes Care of all Kinds of Cases.

DO you know that of every hundred people who are sick enough to need a physician only twenty-two are afforded the conveniences and comforts of a hospital? The remaining eighty-eight sick folks figure that it is too much of an effort to reach a city hospital, and, furthermore, they dread being surrounded by strangers during the long weeks of convalescence.

AND yet not one home in twenty is properly equipped to care for a patient, who is seriously ill or who is recovering from a major operation. Country hospitals are meeting this genuine need in a thorough-going manner. The rooms are as attractive, the equipment as complete, the modern appliances and surgical instruments as up-to-date as found in the palatial hospitals of metropolitan cities. A well-fitted hospital is a real benefit to any community.

Care of the teeth is all of these. Neglect is hard on the teeth, injurious to health, bad in taste and expensive in the end. Waiting for a more favorable time to care for your teeth is more expensive than the dental operation itself. It costs money, trouble, and teeth to wait.

My Country 'Tis of Thee, Sweet Land of Liberty

I pledge allegiance to my flag and to the Republic for which it stands; one nation indivisible with Liberty and Justice for all.

MOTHERS' DAY.

Next Sunday will be Mother's day, and when the mothers are expected to wear red carnations, and those whose mothers have passed away, white carnations...

In the present unparalleled world tragedy, thoughts of mother have longed in innumerable cases has been searching the trenches of Europe. Mothers are suffering with those at the front and would give their lives to reach them.

If women had the question to determine there would never be any war anywhere and no more hunger and permanent peace lies in the growing influence and authority of womanhood.

Men of the world need not grow gladder over assurance of increased power for women. Men have no ground for boasting. Women could not have done so well in the exercise of authority without not have brought on the war in Europe.

Whether mother lived fifty years ago or a year ago or is dying now, she is regarded by her mother and daughter with the utmost affection and consideration, of which she is eminently deserving.

CHICKENS VS. GARDENS. Both gardens and chickens are valuable, but neither would be justified in attacking and destroying the other.

attend to its own knitting, i.e., growing vegetables with which to fight the H. C. of L. On the other hand, flocks of chickens should not figure in the future food supply. They shouldn't be allowed to organize marauding bands and swoop down on the tender-growing vegetation...

FREE PRESS NECESSARY. A strict censorship of American newspapers is unnecessary. The people are entitled to know facts and to know the reasons therefor. It is not necessary to censor the press, so the people will not feel free and correct regarding their own business.

HOOR BEFORE DAWN. We do not believe in attributing to deity responsibility for the world war. We do not believe this terrible tragedy is punishment for the sins of the fathers.

YESTERDAY AND TODAY. State-wide prohibition, the result of education and the development of a new habit, suggests the contrast between Nebraska towns of today and those of thirty years ago...

TO HELP FARMER'S WIFE. Much is being done to help out the man on the farm, but little attention is given to lightening the burden falling on the head of the household on the farm.

The reichstag in Germany has trimmed the sails of the Kaiser somewhat lately by amending one of the articles in the imperial constitution. This is done of course to appease the growing discontent of the people.

Students of the state university propose to answer, in response to the advice of the chancellor, the call to extraordinary service during the coming months of national emergency.

Writing last week in an endeavor not to do to acquaint young people with the coming months of national emergency, the editor of the Hartington Herald made this observation: "A strange light was seen in the vicinity of the past week which no residents declare is produced by a planet called the sun."

Colonel Roosevelt's request for permission to lead an army to France is so patriotic and courageous, with possibility of effective and decisive service, that many Americans would grant it and cheer him in the endeavor.

The several women's clubs of Wayne have manifested a desire to grant service which will help the government in the present crisis.

One should not think the cry to avoid waste in the kitchen and elsewhere is intended just for the other family. If every one practices saving to the limit, the tranches of the world passing will be made easier, and fewer people will suffer.

The Kaiser's telegram to the crown prince shows that he feels himself on familiar terms with God, although he treats the American man as an equal and less as a subordinate than usual.

Any one who tried to plug through Main street last week with an automobile or any other kind of motor vehicle would probably find need and advisability of paving.

It is fortunate that America is big enough and strong enough to become a decisive force in helping Europe straighten out and settle its terrible family row.

## Start a Bank Account

For that boy or girl who is graduating from the rural schools or from the high school this spring. In these H. C. of L. days you cannot afford to squander money on mere trinkets, just for the sake of giving presents. A bank book with a neat sum on the credit side would be a substantial and a highly satisfactory gift to any boy or girl.

Everybody knows that money in the bank is what talks. A bank account not only awakens pride but it encourages the habits of economy and thrift, for where is there a boy or a girl who would not be eager to make the \$5 grow into \$10, or \$10 increase to \$25?

THE WAR WITHIN.

Lincoln Journal—For nearly three years men's talk has been all of war and its effects upon the surface of the earth.

These three years, and especially in America the last three months, have been making a new world for the eyes of those who would see.

The war going to do in the world? Every man of person whose the war began, I shall be a different person at center when the war is over.

These are the real tests of the war, the important to men and nations, the mental and moral nature of the people left alive by the war than

the mere and formal of government, the family, the international, the treaties. When all's thought and bled, still as mankind thinketh so is it.

It is no reckless guess to say that with the one who is a spectator the result is still, in doubt. Some there be, no doubt whose inner victory or defeat has already been sealed.

# HERE'S TO THE GRAND JUBILEE OF 1917

It is only fitting that you should commemorate this event by choosing gifts of good taste and lasting quality.

## Gifts to Please HER And Likewise HIM

For the boy buy books of history and biography. What boy would not be interested in such works as "The Life of Edison" and how about a today? Perhaps there is no other single gift that will afford more pleasure for a greater length of time than a good camera. Pictures bring back the "yesterdays" better than anything else. Our line of Spalding athletic books was never more complete. Find out what the boy needs in that line.

### Jones Bookstore—"The Gift Store Ideal"

Well, first there is stationery—box note paper, French Cheviot pound papers, correspondence cards, delicately tinted and embossed with initials. Then, there's books of all kinds, from the elegantly bound volumes to the popular copyrights. All the newest works of fiction. Attractive memory books. School pennants, blankets, spoons, pins and other souvenirs of school days are always appropriate.
