Be Prepared With Summery Dresses

Don't let the June days catch you napping. The three hottest months of the year are approaching. You will want several cool, crisp dresses, whether you live in town or in the country, whether you are staying at home or working in the store or office.

For dresses to wear around the house choose a neat checked or striped gingham or a clean, fresh-looking percale.

If it's a frock to wear in the afternoon, pick out a dainty tissue or a fine French gingham or linen in some light shade that is becoming to your complexion, eyes and hair.

For a dressy gown for Sundays and evening nothing is prettier than a crisp organdie or a fluffy marquissette or voile daintily trimmed with fine lace or exquisite embroidery.

SPECIALS FOR FRIDAY AND SATURDAY

One table filled with dainty dimities in flowers and stripes which formerly sold at 25c and 35c. This lot also includes sheer tissues and attractive novelty cloths.

Your choice, **18c**
Per yard

One table filled with soft crepes decorated with flowers in either pink or blue. Also some pieces of Ray de Soie, a silk fabric, and high grade tissues which ranged from 65c to 75c.

Your choice **59c**

Remember we have the trimmings, patterns and other things necessary to complete the dress.

MR. ROOT'S SPEECH.

Lincoln Journal: Even those who feared that Elihu Root was not the man for the Russian mission because he is an American conservative sent to treat with Russian radicals can find small fault with Mr. Root's statement of his mission. Mr. Root's speech to the council of ministers, and through them to all Russia, voiced accurately and wholeheartedly democratic American sentiment toward the war and toward Russia.

Those are good words, and wise. They remind the Russians by inference that democracy is no over-night achievement, but a long and arduous and often a struggle of suffering in evidence the fact that after 140 years of the form America is still struggling, still short of the full substance. Recognition of this fact is necessary to the nations to gather itself together for a successful stand against the forces opposed to the free Russia. But with this hint of expediency Mr. Root suggests no lowering of the ideal, the "partnership of honor" in the struggle for human freedom which Mr. Root describes implies the hope which Americans hold of the character and outcome of the contest in which they find themselves.

NEWS EXCERPTS FROM

HERALD EXCHANGES

For Sixth Regiment.

Randolph Times: Work of the organization of the new Sixth Nebraska regiment is starting in fine shape and it is expected there will be little trouble in gathering sufficient men to give it its full war strength in a short time.

With the organization of the new regiment Nebraska will have sufficient men to form a brigade composed wholly of Nebraska men and for this reason it is expected the work will go on rapidly. The sooner the regiment is completed the quicker will the boys from Nebraska get the chance to go to France.

It is the intention to form a battalion in Oklahoma and Missouri and to have already had one battalion belonging to the Fourth regiment, and it is expected that there will be little difficulty in getting men there for the four companies needed for the same.

It is also hoped to have Lincoln represented in the new regiment, although the capital city has one company in the Fifth, a hospital company and a band in the same regiment.

Fishing Party.

Cotridge Blade: O. G. Richter, U. G. Bringham and Dr. E. G. Brigham of Wayne, comprised a party of fishers to Lake Andes, S. D., Tuesday. The idea of taking a doctor with a party of fishers is good. The big ones get away and spare the sulphur as well as calm the imagination.

Install New Grade.

Allen News: At a recent meeting of the patrons of the Allen school district No. 70; it was voted to install the twelfth grade in the high school. The account of this move appears in the following article.

Following a spirited discussion regarding the matter, it was voted to install the twelfth grade in the curriculum of the Allen high school and hire another teacher for the higher grade year to assist in teaching the extra grade. This means a direct saving of about \$150 for the coming year on tuitions that would have had to have been paid for pupils going to school elsewhere, if the extra grade had not been put in.

Prenuptial Party.

Pell County: Miss Myrtle Hefce gave a prenuptial party to a small company of girl friends at the home of her sister, Mrs. R. S. Stenkraus, Thursday evening in honor of Miss Aylene Prehart, whose marriage to Frank Melickit this month has been announced. The affair partook of a "kitchen shower," many gifts useful in the pathway of being presented the prospective bride. A two-course luncheon was served during the evening.

Red Cross Work.

Bloomfield Journal: The local Red Cross Bandage circle has been working diligently the past weeks and as a result of their labors will this week ship to the National Red Cross organization in New York 1,300 dressings, composed of bandages, compresses, pillows, pillow slips, etc. The committee that has been soliciting donations of linen and cotton materials for use in making the dressings has met with great liberality on the part of our people and wishes on behalf of the circle to express earnest thanks for the same. Interest in the organization is on the increase and the atten-

dance grows better with each succeeding week. There were thirty-five present at the last meeting. The quota of members is also on the up-grade and now numbers sixty-six. There are prospects for substantial gains in the near future. The work of the circle is such that every lady in Bloomfield and vicinity who can spare a little of her time, should not hesitate to fit in with it and do her "bit" in the grand cause. It should certainly appeal to us all from every standpoint—patriotic, religious and moral. You are all equally interested in it and are urged to join the circle. Meetings are held every Tuesday afternoon in the Odd Fellows hall and we will be glad to welcome you as a member and feel confident that you will be pleased to assist in this great work for country and humanity. Mrs. R. Griffith.

Winter Wheat.

Bloomfield Journal: A. H. Philson came up from Wayne Saturday evening. Mr. Philson in company with J. A. Kelly of Bancroft, recently acquired E. A. Salmon's place in Wayne county, generally known as the Cheyenne county real estate on the deal. Mr. Philson had charge of the business last week and Mr. Kelly will act in a like capacity this week. The managers have several plans in view for adding to the defective machinery which the estate now enjoys. In conversation with A. H. he informs us that the winter wheat on his big farm out in Cheyenne county is looking fine and chances are that it will go better than thirty bushels to the acre, which will certainly bring in some big returns and no mistake.

Canning Schools.

Nebraska Journal-Leader: About 2,000 Nebraska folks have enrolled in canning schools to be conducted by the Agricultural Extension Service of the University of Nebraska in thirty-two towns and cities of the state during the month of June. Every person enrolled has pledged himself to teach others how to can. The first of the canning demonstrations will be utilized to teach canning locally this summer, the university will continue canning instructions throughout the season. Beginning the first of July, county demonstrators from the university will be sent out on "runs" over all parts of the state, each expert being wanted to give demonstrations at a number of points. County requests for such demonstrations to the Extension Service, University Park, Lincoln before June 22. Applications should specify the number of days demonstrations are desired and the probable number of persons to be reached.

Inadequate Supply.

The Nebraska State Council on Defense, in regard to the wheat crop, says many counties of the state will not raise enough wheat to supply their normal seed requirements; and as it is the duty of all citizens to make the best use of the land, the council is urging that in these counties no wheat be shipped away before seed requirements for next fall have been met.

George Coupland, food conservation member of the state council of defense, has called to his assistance E. R. Danielson, secretary of the state board of agriculture, Prof. W. H. Burd, head of the agronomy department of the college of agriculture, Prof. A. E. Anderson, field agent and statistician of the federal crop service, and Prof. C. W. Page, general director of the agricultural extension service, to ascertain as

early as possible the acreage and condition of live winter wheat crop now growing in Nebraska.

From the tabulated reports gathered by these men all over the state it has been found that the average surviving the severe winter is about 375,000 acres, which is only about 10 per cent of the acreage sown last fall. The reported condition of this wheat is about 50 per cent of the last 10-year average, and the estimated yield for this year is between five and six million bushels.

Many of the counties in Nebraska will not raise enough wheat to supply their normal seed requirements, and it is very obvious that this matter should receive immediate attention. The stocks of wheat on hand in this state are not large, and the state council of defense urges that in these counties care be taken to prevent export of wheat before the necessary seed requirements for next fall have been provided for. The council also urges the planting of a full normal acreage of wheat this fall and immediate provision for seed required.

County defense councils, farmers, bankers, commercial clubs, railroads and all patriotic citizens must unite their efforts to see that this demand of the hour is met.

Poultry For Each Family.

Allen News: Three hens set now with fifteen eggs each, will make the average family independent of the cold storage egg merchant next winter according to college agriculture poultry husbandry specialists. These eggs will hatch, on an average, twenty-five live chicks of which twelve will be pinner, and proper care they will lay four dozen eggs weekly, the amount consumed by the average family.

Two piano boxes placed back to back make a poultry house large enough to winter twelve pullets. Such boxes cost \$2 each. The cost of feed required to raise the pullets will be offset by the income from the sale of chickens.

Big scraps of nearly \$1,000 worth of which was raised annually in the United States) can be utilized.

Rest Room.

Randolph Times-Enterprise: Ladies' rest room was started in the room for ladies. The new garage of Griffith & Schram will supply the community need for our sister town. Mike Schram, formerly of Belden, is a member of the firm.

Former Ways Student.

Randolph Times-Enterprise: Ralph D. Hall and Leona Mae Wiley, prominent Cotridge young people, were married last week. They will live on a farm east of town. The bride was a teacher in the Cotridge schools.

Newspaper Boosting.

Fairbury News: The government apparently has been recognizing the value of advertising in the matter of selling the government bonds, but there is no indication that she recognizes the part the newspapers of the country are playing in this gigantic enterprise. If the government were compelled to pay regular rates for the newspaper advertising it has received in the matter of the bonds and especially in the instructions regarding registration of the sum-would run into the millions. In everything the government does, from the matter of holding civil service examinations to enlisting an army of a couple of millions, the newspapers are called upon to do the advertising free, and they respond without a murmur. There is no class of business that makes as good a contribution to the government as the newspapers of the country, and still there is a very pronounced unfriendly feeling towards the papers by many in authority, and the publishers are continually called upon to oppose laws that threaten their very existence.

JUGGLING COAL PRICES.

Omaha Bee: A hurry call for relief from the perils of high-priced coal has been forwarded to the railroad committee of the national defense council by the Pittsburgh Coal Producers' association. It is based on an alleged shortage of cars, the familiar excuse which reverberates through the last winter's squeeze. A reputation of that gouge is feared by the Pittsburghers unless the government intervenes and compels railroads to supply and to the business suffered. The railroads are charged with gross neglect in falling short 30,000 cars in May demand preventing the shipment of 1,500,000 extra tons of coal to the north.

Similar alarms are heard in the West Virginia and Ohio fields and Indiana and Ohio operators roast the railroads with equal vigor. For what? The railroads are not to be publicly reprimanded to have. Evidence is not wanting to show that white railroads are exerting all energies to meet public demands for fuel transportation operators are not as frightened as they pretend lest the public swamp them with excess dividends. Federal Trade Commission figures show an increase in output and movement of coal during April over the same month last year. From all coal fields the coal movement of coal exceeded that of April 1916 by 30 per cent. Reports for the month of

Splendid Shoe Values
All shoes are not high priced, in spite of the many stories you hear. There are still in some communities a number of foresighted shoe merchants who laid in such a supply of good shoes at the previously low prices, that they can afford to offer today, values that will compare favorably with those offered before the European War sent the price of leather sky high.
We are proud to be able to class ourselves among such foresighted shoe dealers, as the following offers will prove to you.

Stay Satisfactory Clothes
Are the kind you will recommend to your friends. You men know that it is not a question of simply picking out a suit that looks well and is stylish. A suit that will hold its shape even after it has been worn a considerable length of time is the kind you are looking for. When you buy a suit you want to look for quality on the inside as well as on the outside. In that event you are satisfied, and so are we.

FIRE AT PIERCE
Pierce, Neb., June 18—A spectacular blaze broke out here Saturday afternoon when an auto truck belonging to the W. W. Wasson company caught fire while unloading. The fire started in the filling station at the Pierce Auto Hospital. Serious results were averted only through the prompt action of Henry Kluske, owner of the chemical engine. Chief August Korh and others, who plunged into the intense heat, and succeeded in smothering the blaze before the gas-demons could explode. The flames rose normally but high, destroying a large fire, and threatening the garage and hotel.
Several hundred people witnessed the fire from a safe distance, as the town was filled with Saturday shoppers. The truck was badly damaged, and probably is beyond repair. The cause of the fire is a mystery, but it is assumed that a spark resulting from friction ignited the gas. No one was injured.

CHILDREN WILL JOIN WAYNE CANNING CLUB

Garden Supervisor Herman Siems reports that nearly all of the boys and girls, who are gardening in Wayne this summer, were at the meeting at the high school last Saturday morning. A list of names was given together with the names of the boys and girls who are interested in the club. At that time Mr. Siems, with the help of some of the young gardeners will discuss the best methods of planting and staking tomato vines. Every child who has planted any tomatoes at all should be at this session to learn ways of producing more and better tomatoes. Children who are not enrolled in any garden club and grown-ups who are interested in the work will be welcome at these demonstrations.

Central Social Circle

The Central Social Circle met at the home of Mrs. Gus Wendt Thursday, June 14, and all members but three were present. Each member responded to roll call with something pertaining to the club. Each one was called on to tell where and where she was married, the kind of dress worn on the occasion, the first home, and first day's experience in housekeeping. Everyone brought a recipe for canning strawberries. Guests of the club were Mrs. Herbert Robinson and Mrs. George Thompson. Miss Abbie Wendt, assisted by Miss Lulu Smith, served an excellent two-course lunch. It being flag day, tiny flags were used as favors. Music from the victrola accompanied the meeting adjourned to meet with Mrs. John Grier in July when new officers are to be elected.

THE OMAHA STRIKE

Omaha, June 19.—Oscar F. Nelson, federal commissioner of conciliation of the department of labor, informed employes and their employers who are parties to the strike now in progress in Omaha that it is up to them for the safety of the country to resume their former relations pending settlement of the strike. The session of the board of conciliation adjourned until 10 o'clock this morning when attorneys will present briefs.

Five thousand men are at headquarters with their employers and are ready to return to work. The building trade industry is practically at a standstill, the movement of merchandise is sadly hampered and the only wagons running are those delivering bread and milk and those carrying supplies for the government. The strikers say that it is a deliberate and concerted movement on the part of the organized employers of the city to crush the unions.

ANOTHER CROP REPORT

Omaha Bee, June 19: In the Nebraska crop report for last week Burlington officials estimate the winter-wheat crop for the state at 1,000,000 bushels, as against 64,000,000 last year. The spring wheat crop is estimated at 6,000,000 bushels, as against 3,000,000 last year, oats 95,000,000 bushels, as against 80,000,000 last year, and barley 50,000,000 bushels, as against 3,000,000 last year. There has been an immense increase in the acreage of corn, but it is too early to predict the outcome of the crop.

The weather throughout the state was favorable for the growth of small grain, but a little too cold for the corn. However, corn is reported to have made reasonably fair growth. Generally the rainfall was light and farmers were enabled to spend practically all their working hours in the fields. As a result, it is said that the corn is usually free from weeds.

Good Apple Crop

According to the report, there will be the better than an average apple crop throughout Nebraska. Peaches will be almost a complete failure, a large number of the orchards having been killed by the cold of last winter. What apples with reference to peaches, apples equally as well to the berries and grapes. Cherries are going to make about an average crop.

The first cutting of alfalfa is well along, and where the plant is not winter killed, the yield is up to the normal.

For Improved Roadway.

The road north of Wakefield has been so trip for the last few years that the county supervisors so slow to act in behalf of needed improvement that thirty-five business men, members of the Commercial club, went in a body to France Friday morning to interview the county fathers, then in session, and impress on them the demands of the highway and the importance of prompt action. After thrashing out the proposition, an agreement was reached whereby the county will pay for four new cement bridges and Wakefield township will pay for necessary grading. The state engineer will be called on by Wakefield to locate the bridges and will offer suggestions regarding the proposed improvement. High water has damaged the roadway and often made it almost impassable. Wakefield felt justly aggrieved over difficult access to the town from the north, and proposed to harbor no delay in the matter of improvement. The long need of a properly built roadway will now be supplied. The supervisors received the Wakefield visitors cordially, and on an understanding of the condition, showed a willingness to cooperate in making the improvement.

D. D. Hike Monday.

The young ladies of the D. D. club enjoyed their customary hike to the country Monday evening. They met at 7:30 o'clock and walked to Dilts' grove, two miles south of town, where they enjoyed an appetizing luncheon. The out-of-town guests were present. Mrs. Will Hassel of Lusk, Wyo., and Mrs. W. H. Calk of Sioux City.

Celebrate Anniversary.

Thursday afternoon fifteen ladies called at the home of Mrs. R. H. Mathewson and reminded her of her eighteenth wedding anniversary which was to follow the next day. As is customary Monday evening celebration is to take place, the guests gave her a shower of culinary utensils, which the hostess thoroughly appreciated. The afternoon was spent sewing and visiting after which an excellent lunch which the ladies took with them, was enjoyed.

Picnic Monday.

Thirty married ladies and children from the Wakefield vicinity enjoyed a picnic supper at the Bluffs, two miles southeast of town, Monday evening. Among enjoyments, camera work, card party and numerous pictures were taken. The sumptuous supper was thoroughly enjoyed. Following married ladies were present: Mrs. Otto Johnson, Mrs. Andrew Kincaid, Mrs. Charles Sackerson, Mrs. N. P. Nelson, Mrs. John Sundahl, Mrs. E. A. Munson and Mrs. Almond Anderson.

Surprise Mrs. Marriott.

Mrs. J. T. Marriott was completely surprised Friday afternoon when a number of her friends came to see her to help her celebrate her birthday anniversary. The afternoon was spent in sewing and visiting. At an appropriate hour an appetizing lunch which the ladies had taken with them, was enjoyed. Mrs. Marriott received a very nice gift from her friends as remembrance of this occasion. Last Sunday morning an interesting program was given by the young people of the Sunday school at the Children's day service. The church was filled and all enjoyed the numbers which had been so well prepared. The church was decorated with an abundance of flowers and ferns.

Every effort is being made for a successful meeting of the district conference which will be held June 26 to 28. A number of prominent out-of-town speakers will be present and three hundred delegates from towns in the district will be in attendance. The committee will assist in providing rooms and breakfast for the guests. The ladies of the Aid society will serve dinners and suppers in the church basement. Everyone is cordially invited to these meetings.

The children's day program last Sunday was thoroughly enjoyed by all who were present. Miss Mae Howard, Miss Faith Haskell and Miss Leona Nuernberger who defied the "little folks" deserve a great deal of credit for the success of the program. The church was decorated profusely with spring flowers and potted plants.

The Ladies' Aid society is holding a meeting in the social rooms of the church this afternoon. The meeting will be of the usual order of sewing and sociability. A committee composed of Mrs. George Green, Miss August Fisher and Mrs. Dollie Fisk will serve light refreshments.

Tomorrow evening the young people members of the Christian Endeavor society, will hold a picnic at the home of Miss Elfrida Nuernberger. The party will take with the a lunch and will roast winners. Games have been planned for the evening's entertainment.

A meeting of the Sunday school workers was held in the main Monday evening for the purpose of making arrangements for the Sunday school picnic which will be held on the Fourth of July.

The annual Sunday school picnic will be held on the Fourth of July, at the home of Mrs. M. S. Thomas. A program has been prepared and a ball game has been scheduled for the afternoon. All members of the Sunday school are urged to make their plans to attend this big all-day picnic.

Is not a mere catch phrase. Those three words really voice the verdict of hundreds of B. P. S. users. Here are a few reasons they give.

1. Pure Old Process Linseed oil is used,—you can smell it.
2. The pigment combines quickly with the oil,—try stirring it.
3. B. P. S. is smooth and even, free from grit, rub it between your fingers.
4. B. P. S. does not chalk or peel,—notice the houses in your vicinity.

No matter what needs painting or varnishing around the premises we have something in the B. P. S. line that will just fit the bill.

B. P. S. looks well and wears well. "Look into it."

Ask to see "Pat-Co," a wall enamel with the shine taken out.

The Fountain of Youth

That's what our fountain looks like after the concert Wednesday night and in fact every warm night. Young folks are judges of good sodas, delicious malted milks and fancy sundae. When you see our place crowded with young folks—there's a reason.

We serve all the popular summer drinks in a clean, sanitary way. Nothing but the purest ice creams and freshest fruit flavors used.
