HOT WATER QUICK

The more water in this reservoir the faster it heats. If too low it heats very slowly. See that big surface that lays flat against the fire plate? That is the secret of the Copper-Clad Reservoir.

If it gets too hot, twist the lever at the bottom and shift away from the fire plate.

This is a good reason for buying a Copper-Clad Range. No other range but the Copper-Clad has this shifting device—its patented.

There are 25 other reasons, but the chief reason is—clad will copper. They can't rust out.

FREED FROM DRAFT

Columbus, Neb., Oct. 15.—Frank Brent who went to Camp Funston with the first draft boys returned home by permission of Uncle Sam. He received word from the war department stating that an error had been made in the examination and that he was released from service.

Mr. Brent believes that the fact that he had 160 acres of corn to husk had something to do with the action of the war department in releasing him. He speaks very highly of the officers in camp and says that the boys are receiving very care. He had begun to enjoy soldier life and said that if it had not been for his crop he would have preferred to remain in camp. All his expenses and transportation charges for the trip home are being paid by the government.

FOR EXTENSION WORK.

Because of the vital importance of the food situation in this war, congress made the appropriation in the recent food bill of \$1,000,000 for extension work among women of the north and west states. Nebraska has been divided into ten districts and into each one a trained worker in home economics has been placed, who is at the service of the women of that section for help in home problems. Miss Alma Blandin has been appointed extension home demonstration agent for northeast Nebraska, with headquarters at Wayne. She may be reached at the courthouse, office of county superintendent.

BANKERS RESPOND.

Omaha, Oct. 17.—More than seven hundred bankers gathered in Omaha last week at the annual convention and while in session added materially to Nebraska's bit of the Liberty bonds.

They added more than \$3,000,000 to the total raised by Omaha, making a total of more than \$10,000,000 raised in the two meetings.

Just another evidence of Nebraska's spirit and response in this national crisis.

Presbyterian Church. (Rev. S. A. Cross, Pastor.) When in Omaha this week, visit the Nebraska school in session in the new Presbyterian church.

The Junior Endeavor will be reorganized on the afternoon of Sunday, October 28. "Think it over, and please to have the children bring." Prof. I. H. Orfill will preach in the pulpit of this church next Sunday. We shall be pleased to have Prof. Orfill with us and bespeak for him a cordial hearing.

Sunday school and church attendance Sundays are proving successful. Plan to stay for the Sunday school next Sunday. There are classes suited to the needs of every possible case.

Attend the meeting of the Y. P. S. C. E. at 6:30. The meeting will be bright and enthusiastic. There is always a treat for welcome visitors and a big field of usefulness for those who are willing to engage in the work.

Miss A. R. Davis has been selected as chorister in charge of all the church music for both morning and evening services. There will be entertaining and inspiring service of song. All whose duty does not call them elsewhere are heartily invited to worship with us.

For the rest of the fall and winter there will be two week-night meetings. The teachers' reading class will meet on Tuesday evenings and the regular mid-week meeting of the church will be as formerly, on Wednesday evenings. There is a cordial welcome to all who can attend these meetings.

Chicago, October 10.—How freight car space is wanted by buyers, shippers, or commodities in bulk is shown by reports just received by D. I. Forsyth, vice chairman of the Chicago Car Service committee of the Railroad War Board.

Less than 2 per cent of the freight cars in the United States have a marked capacity of 50,000 pounds or less. Yet 60 per cent of the total orders placed with shippers call for lots of 30,000 pounds or less.

In other words, over 98 per cent of the freight cars could carry larger loads than shippers can put in them, because of weight restrictions imposed in 60 per cent of the orders placed by buyers.

The average carrying capacity per freight car in 1916 was 30,000 pounds, but the average load per car today is hardly half as much, despite all efforts to secure more intensive loading.

Only five per cent of the freight cars of the country have a capacity of less than 40,000 pounds. Thirty per cent will carry 60,000 pounds; 35 per cent 80,000 pounds and 30 per cent 100,000 pounds. Yet 80 per cent of the orders by buyers contain the loading of cars by shippers to 60,000 pounds or less.

"There is today and will be while the war lasts a demand for many more freight cars than the railroad can supply," said Mr. Forsyth. "The demand will increase but the number of cars cannot be increased to any appreciable extent in the near future. Shippers cannot send a larger number than they order. Therefore, the remedy for wastage of freight car space lies mainly with buyers of commodities in bulk. They should quit using the car destroying trade units established in the old days when cars were small, and increase their orders in proportion to the increase in capacity of cars."

I pledge allegiance to my flag and to the Republic for which it stands; one Nation, indivisible with Liberty and Justice to all.

A Herald subscriber wants to know the size of the Kaiser's salary and how he gets his pay. He receives 15,000,000 marks, or about \$2,500,000 per year for managing the job as King of Prussia. The Kaiser has his revenues from a vast amount of private property—castles, forests, and estates situated in different parts of the realm. Also there are certain special funds, income from which is available for the needs of the royal family. Manifestly the Kaiser gets too much. If he had but the royal family were there but they would have been a king who would suffer the useless burden of maintaining the imperial sham and also as a consequence bring on themselves the costly and deadly burden of a throne. The Kaiser's revenue Kaiser Bill could not render his kingdom a service that would count more than his extravagant income than ever before.

Our boys who have gone to the front are offering all to fight for democracy and liberty. They have no other wish than to see the king suffer the useless burden of maintaining the imperial sham and also as a consequence bring on themselves the costly and deadly burden of a throne.

The Turks do not allow the territories to be infested with converted factories and nuclei of Armenians. Outrages against women and children are too revolting to be recounted. The war has human liberty. The war has not accomplished the full purpose it does not result in a new world of governments of Turkey and putting all the world's hands that will be humanity and unity.

The cost of living varies according to habits. One family may live and save \$100 a month, while another may spend \$100 a month and not be able to meet, saving nothing about saving, on the same income. Some people take naturally to economy and in time become rich. Other people take naturally to extravagance and are always hard up.

Some fine specimens of Wayne County wheat have been shown here. They are of apples to display. The wheat is of a fine quality and is being shown to the public. The wheat is of a fine quality and is being shown to the public.

The farmers of this county who can produce a bushel of wheat for less than 50 cents and a bushel of corn for less than 30 cents, are making a good thing for themselves. If the government would take them in charge and enforce this it would be a great benefit to the country.

We would like to see Kaiser Bill take enough interest in Christian civilization to abdicate and take the rest of the royal family with him.

THE FIELD OF BUSINESS

St. Louis, Mo., Oct. 17.—Heavy liquidation of stocks, largely unexplainable on any concrete basis, and slashing of provisions-prices when the government announced an expansive policy of foodstuffs control, were features of a busy business day. Money rates tended to become easier. Crop conditions on the whole were good, giving further assurance to retail interests of strong recovery in the general business community later on. The flotation of the second issue of Liberty loan bonds, now nearing the half-way stage, was conducted without glowing indications of success. Steel prices were cut by a government decision, making the new figures to the government and to individualists about one-third less than they were previously obtaining. Coal prices were boosted with federal consent in some districts.

Some of the early weakness in stocks was due to the fact that the year's crop estimates. Latest the liquidation became almost torrential, hammering down the leaders, such as steel, gas, and railroads, to 2 points in one day. Bonds were generally heavy. Liberty 3-1/2's were steadily below par, going from 99.82 to 99.52, the latter figure equaling the previous low record. A report from the various federal reserve districts of the country indicated that popular subscriptions to the second Liberty loan bond issue from \$100,000 to \$1,000,000 were far below the necessary daily average if success is to be achieved in the time specified. It is understood that the reports do not show all the contributions that are actually assured, but even with this in mind the necessary officials professed to entertain considerable anxiety. Another issue of treasury certificates, known as the "P" issue, was put out, bringing the aggregate of such issues in advance of the Liberty loan disposal to \$1,500,000,000 or more than half the minimum figure of \$3,000,000,000. Financial authorities called attention to the heavy strain under which banks now are operating. Time loans early in the week ranged from 3-3/4 to 6 per cent, dropping later to a range from 3-1/2 to 3-3/4. Call money became easy at 2-1/2 to 3 per cent. Bar silver continued to drop, touching 88-7/8 cents an ounce.

The government announced that beginning November 1 all but the smaller business units dealing in staple foodstuffs will come under the federal licensing system, with a view to curtailing speculation and excess profits and to assure the producer an unobstructed channel to the consumer. The farmer is exempted from the licensing requirement. The government is expected to regulate the business of the farmer, but it is not expected that early decision will be reached in the matter of establishing either a price or a profit standard. A coal industry agreement is expected to show their partnership connections, so that any dummy jobbing concerns formed to collect profits from the coal business will be broken up. Despite a loss of \$3,000,000 in September, according to government estimates, a record-breaking corn crop for the year was assured. The total was estimated at 1,100,000,000 bushels. Oats showed a gain for the month also establishing a record. Other principal crop-shown losses. An early corn harvest advanced due to wet weather as on the 15th of the September loss was followed by a sharp break when the government figures came in. All grains and provisions were hit similarly. Corn suffered in particular. The government's understanding that the adjustment of corn and pork prices should be \$10 to \$15 a bushel and \$10 to \$15 a barrel, respectively, was a great relief.

Railroad earnings continued to be higher than ever before, but some companies also. Trueman, an agent of Chicago and north of the Potomac river announced their intention of demanding wage increases. The labor situation in general was expected to get pressing as the need of the United States of steel mills. Contracts for new Government under the \$350,000,000 appropriation were expected to be completed by the end of the month.

Young Ladies' Circle. The Young Ladies' Bible circle met Saturday evening at the home of Mrs. Mabel Lee. An interesting lesson was led by Mrs. E. B. Young. Next Saturday evening Miss Blanche Fry will be hostess to the circle at the home of Mrs. F. B. Young.

The Woman's Club. The members of the Woman's club met at the Red Cross rooms Tuesday afternoon and spent several hours knitting and sewing. The club decided at a previous meeting to meet the third Tuesday in each month at the Red Cross rooms. The next meeting with the program is held once a month.

P. E. O. Meeting. A meeting of the P. E. O. chapter was held at the home of Mrs. W. Morris Monday evening. Regular business was followed by current events. During the evening the members knitted and sewed for the Red Cross. The next meeting will be held with Mrs. Paul Mines, the first Monday in November.

Union Bible Circle. A meeting of the Union Bible circle was held at the home of Mrs. D. W. Nokes Tuesday afternoon. The study of the lesson was conducted by Miss Myrtle Hurdhans and a profitable meeting was held. The next meeting will be held at the home of Mrs. William Goldsmith next Tuesday afternoon.

Central Social Circle. Mrs. George McClellan entertained the members of the Central Social circle at her country home six miles west of town last Tuesday evening. The members of the club were present and a pleasant afternoon is reported. The members were seen knitting and sewing. The next meeting of the club will be held at the home of Mrs. J. H. Kemp next Monday.

A Birthday Party. A birthday party was gathered at the home of Mrs. Wm. Whinnery on his birthday afternoon. The school teachers and other guests were present. The party was a very successful one.

Mrs. Felber, Hostess. Mrs. J. J. Felber entertained the Missionary Society of the Presbyterian church at her home last Thursday afternoon. The lesson of South America was led by Mrs. C. A. McMaster. The program was followed by a social hour. Mrs. Felber served a delicious lunch.

Fall Dress Up

We have the most remarkable and interesting array of the newest and best garments for men who want to "Dress-Up."

Every man now feels the desire to "Spruce-up" and look his best. It's in the air. Nature herself is doing it.

But there is more than mere good looks in men's clothes—there is underlying quality in dependable fabrics and good tailoring in our clothes for men. You can bank on looking right in an outfit purchased here. Now and Afterwards. For our clothes wear like iron and hold their shape.

It doesn't matter whether you like the new and extreme styles of clothing or something conservative; we agree to fit you or we will not take your money.

Our Shoe Department

is full of everything that's good in fall shoes. Just now we are showing some beautiful new lasts in the Cherry tan and Mahogany shades at \$5, \$7.50, \$8.50 and \$9.50. In Black shoes we have a great array from \$4.50 to \$8.50. We fit your feet correctly by the use of a new measuring device which makes it almost an impossibility for us to fit your feet too short. We carry the largest stock of men's dress shoes in the county.

which Mrs. Walter Weber, the leader, read an interesting short story entitled "Strawberry Shortcake." During the program the ladies knitted and sewed for the Red Cross. Mrs. C. A. Britten, sister of the hostess, was a guest of the club. The next meeting will be held Monday, with Mrs. E. E. Carhart.

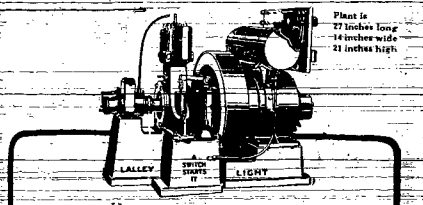

D. A. R. Meeting. Saturday afternoon the Douglas King chapter D. A. R. was entertained at the country home of Mrs. J. H. Dayton. Roll call was responded to with items of religious interest. Three very good papers on Quakers, Shakers, and Mennonites were read by Mrs. Ray Reynolds, Mrs. Clara Ellis, and Mrs. E. Kostromitsky, respectively. Mrs. Dayton was assisted in serving a two-course dinner by Mrs. Clarence Corbit and daughter Rosamond. A special meeting is called for the chapter next Saturday at the home of Mrs. J. Woodward Jones, at which time the members will do work for the local Red Cross.

WHEAT PRICE EXPLAINED

Government Price Fixing is the Result of Act of Congress.

Although there has been much said by way of explaining the government price of wheat many people are still asking for information on the subject, and this is not at all strange for the problem of price fixing by the government is entirely new to this country.

The price now is \$2.20 at Chicago for No. 1 wheat of the different varieties. This price was determined by a committee of twelve selected by the president, the membership of the committee being composed of two prominent economists, two representatives of capital, two representatives of big business, two presidents of state agricultural colleges, three representatives of organized agriculture and one individual farmer. These were the committee four men actually engaged in farming.

The price of \$2.20 for No. 1 wheat at Chicago is a fixed price for the 1917 crop and will not be changed before July 1, 1918. The government will buy all wheat offered at that price, provided there are no other buyers who will pay that much, but will not permit any buyer to pay more. So that, although the government may not buy all of the wheat yet this price is a fixed price which will be made neither more nor less.

In the legislation establishing food control the congress placed a minimum price on wheat in the 1917 wheat crop. This minimum, below which the price cannot go, is \$2, but is based on "the principal interior markets" and not on Chicago alone which means the price can not be below \$2 at any one of those "principal primary markets" such as Minneapolis, Omaha, Kansas City, etc.

The price of \$2 is only a minimum guarantee. It will become effective July 1, 1918, and continue in effect until May 1, 1919. It will not be changed or withdrawn. It is not a rule of the Food Administration, but an act of congress. No matter how large the crop raised next year may be, if there are not other buyers for the wheat who will offer \$2 the government must take it at that price. On the other hand, if costs of production increase or there is a high yield, or if for any other reason the costs of production are unduly high or the demand is very urgent, the price may be above \$2 as it is now.

The present price of \$2 is a fixed price that will not be changed in any way until July 1, 1918. The \$2 price for next year is only a minimum. The actual price for next year cannot be less than that, but it may be \$2 or more.

PUBLIC SALE OF Pure Bred Duroc Jersey Male Pigs

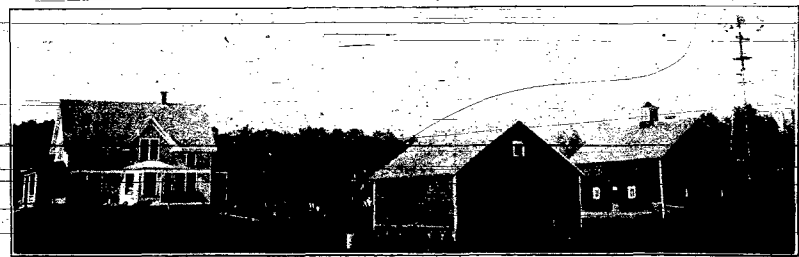

...At... Plainview Farm

...On... Thursday, Nov. 1

*Five miles east and three-fourths of a mile south of Wayne and 3 miles west and 3 miles south of Wakefield.

Sales commences at 1:30 o'clock p. m.

PLAINVIEW FARM WHERE SALE WILL BE HELD.

The thirty male pigs in this offering are from the best blood lines of the breed. They were sired by Glendale Bud, a grand type of hog purchased from Edgar Taylor of Plainview. Dams of these pigs trace back to such well known animals as Blue Ribbon model owned by Wm. Moderow of Beemer, and Golden Model Fourth owned by Henry Stuthman of Pilger. Leading breeders of the state have contributed to the superior bloodlines so conspicuous in the Sandahl herd. Every one of the thirty male pigs to be sold is of good bone and excellent color, perfect in form and flesh, and will prove an animal of which any breeder may be justly proud.

All are registered, and pedigrees will be on exhibition sale-day. Come to Plainview Farm November 1 and see a fine group of cherry red males.

TEACHERS' ASSOCIATION HAS ANNUAL MEETING

Sessions at Emerson Saturday Rank Among Best Ever Held.

Saturday, October 13, the sixteenth annual meeting of the North-eastern Nebraska Teachers' association took place at Emerson. The attendance was the largest ever held in the state. The beautiful day attracted an unusually large crowd of sight-seers.

The teachers were gathered at the station at Emerson by the members of the reception committee who directed them to the many automobiles waiting to take them to the public school building. There they were met by Supt. F. W. Clemons, who invited all to register and inspect the different departments of the school. A very pleasant feature of the meeting was the beginning of the program by the meeting of old friends, many being heard to remark that the renewing of old acquaintances is not one of the least attractive features of this gathering.

The new plan of sectional meetings in charge of their respective chairmen, meets the needs and interests of each class of teachers. The programs of the four sections began simultaneously at 10 a. m. in the high school building.

Miss Carrie A. Beck of South Sioux City presided over the program. She was given by pupils of the Emerson schools after which an excellent paper was read by Miss Edith T. Bechel of the Wayne State Normal on the subject, "Geography." Miss Bechel outlined a year's work in that subject and her ideas were of extraordinary value.

Miss Gertha Peterson of Waltham read a paper on language in the first and second grades, which was also valuable to the teachers. Both papers were full of helpful suggestions and were well received by the teachers, about twenty of whom attended the program of the primary section. A vote of thanks was extended to both Miss Bechel and Miss Peterson for the excellent training. The afternoon session was given by Miss Gertha Peterson, who brought to their co-workers.

The meeting of the grammar section was opened by appointing Prof. A. F. Gulliver of Wayne as secretary and Olive L. Hust of Wakefield, secretary. Next the teachers were entertained by a song by some of the grammar grade boys. After this, Mrs. M. Westerman of Oakdale spoke on the subject, "Practical Arithmetic and How to Teach It." She said only the practical problems should be taught, that is the problems which the child will use in the day life. Furthermore, he thought all arithmetic work should be motivated so that the child would be made to see the need for learning how to work the problems quickly and accurately.

Next Mrs. Elsie C. Stephenson of South Sioux City, gave an interesting talk on the subject, "Some Features of the Grammar Grades." She spoke of discipline as one of the most important. She emphasized the fact that the subject matter should be made interesting to the child and the teacher should try something to interest the inattentive child if possible. In developing thoughtfulness on the part of the child she considered memory as one of the little things the child must be taught to reason. She next spoke of the nervous child. A child of this temperament should not be told that he is nervous and should be allowed the short time for relaxation if he becomes too nervous. She also spoke about the seating and ventilation as two important facts in the discipline of a room.

The program was a song by the intermediate girls, followed by a brief talk by Supt. W. H. Clemons. He said that in the difficult times the teachers should help save the food by cooperation with pupils and parents of their respective schools.

Supt. C. B. Mapes of Radick, presided over the school section. Miss Lena Cole, being elected secretary of the meeting. A musical number was given by a girls' chorus of Emerson and the singing of "The Liberty Loan" was the first paper on the program was on the subject, "The Value of Play in the High School" by Supt. J. R. Armstrong of the Wayne State Normal. This was an able production and very well received. It showed that Supt. Armstrong is awake to the necessity of caring for the child's physical welfare, and that the teachers propose to develop a few pupils to the neglect of the many. He has made a thorough study of the subject and possesses the enthusiasm requisite to put his ideas along that line into practice.

Supt. H. B. Tibbels of Lyons read a paper on "The High School Curriculum." He advocated combining some of the school branches in the sixth grade and introducing some high school branches in the

seventh and eighth grades, thereby paving the way for a more extensive high school course. Supt. Tibbels stated that he had tried this method out with great success. As the plan seemed revolutionary his paper called forth a lively discussion.

Supt. F. M. Marchek of Hubbard presented the subject, "Vocational Guidance in the High School." It proved very interesting also and was followed by a discussion which brought out a great many helpful suggestions gleaned from the experience of the various speakers.

Prof. A. V. Teed of the Wayne State Normal school, presided over the Rural section, which was attended by the largest number of teachers. There also the musical number, was supplied by the Emerson pupils. Miss For. Burns of Radick read an excellent paper on the subject, "Industrial Work in Rural Schools." This was very well received as was also the paper on "Music in the Rural Schools" by Miss L. L. Moore of Tekamah.

A. H. Dixon of the state department also addressed the rural teachers. The liveliest discussion of the forenoon was on the question of hot lunches.

State Supt. W. H. Clemons greeted all four sections during the morning session and Miss Martha L. Powell, president of the State Teachers' association also addressed the teachers of each section. Miss Powell urged all to attend the State Teachers' association at Omaha November 7, 8 and 9 giving assurance of a profitable program and hearty welcome from Omaha citizens.

At 12 o'clock adjournment was made until 1:30 p. m. The ladies of the English Lutheran and Presby-

terian churches served chicken dinners in their church dining rooms, to which the visitors did ample justice in accordance with the instructions given them by State Supt. Clemons who had urged upon all sections the importance of teaching the value of the clean plate.

Supt. E. F. Orflon of Emerson presided at the afternoon meeting in the opera house. By this time, the crowd had increased to still larger proportions and it was impossible to find seats for all.

The program opened with a "Poppy Chorus" by Emerson grade pupils, following which the "Landing of the Quaker" sang two selections. State Supt. W. H. Clemons addressed the teachers on the subject, "What Can We Do for Our Rural Schools?" He presented many helpful ideas, especially along the line of what the schools can do to promote the social side of life in rural communities.

Miss Juanita Fish of the Harrington public schools rendered a piano solo and responded in an enclosure.

Prof. I. H. Britell of the Wayne State Normal spoke very ably on the problem "The Social Life of a Teacher." It is apparent that he has studied all the phases of this important question and there is no doubt of the soundness of his conclusions. His speech was worth while, and his advice, if followed, can not fail to benefit all teachers.

The program closed with the vocal solo, "Absent," by Miss Esther Blankenship of Harrington. The time between the concluding of the program and the leaving of trains was spent by the visiting teachers at the moving picture mat-

inee or strolling about town. All who attended expressed themselves as being delighted both as to the entertainment and the success of the meeting.

SUPPORT TO BE PLEDGED

President Issues Proclamation Asking Aid for Bonds.

Washington, Oct. 15.—President Wilson in behalf of the Liberty Loan last night issued a proclamation setting aside October 24 as a Liberty day and urging the people of the nation to assemble on that day in their respective communities and pledge to one another and the government that represents them the fullest measure of support.

"Let the result be so impressive and emphatic," the president urges, "that it will echo throughout the empire of our enemy as an index of what America intends to do to bring this war to a victorious conclusion."

The president's proclamation follows: "By the president of the United States of America, a proclamation: The second Liberty loan gives the people of the United States another opportunity to pledge those funds to the government to sustain their country at war. The night of the United States is being mobilized and organized to strike a mortal blow at autocracy, in defense of our cause against American rights and the cause of liberty. 'Billion of dollars are required to arm, feed and clothe the brave men who are going forth to fight our country's battle

and to assist the nation with whom we are making common cause against common foes. To subscribe to the Liberty loan is to perform a service of patriotism.

"Now, therefore, I, Woodrow Wilson, president of the United States of America, do appoint Wednesday, the 24th day of October, as Liberty day and urge and advise the people to assemble in their respective communities and pledge to one another and to the government that represents them the fullest measure of support. On the afternoon of that day I request that patriotic meetings be held in every city, town and hamlet throughout the land, under the general direction of the secretary of the treasury and the immediate direction of Liberty Loan committees which have been organized by the federal reserve banks. The people responded nobly to the call of the first Liberty loan with an over-subscription of more than 50 per cent. Let the response to the second loan be even greater and the amount be so large that it will serve as an assurance of unequal support to heroes the men who are to face the fire of battle for us. Let the result be so impressive and emphatic that it will echo throughout the empire of our enemy as an index of what America intends to do to bring the war to a victorious conclusion.

"For the purpose of participating in the Liberty day all employees of the federal government throughout the country, whose services, can be spared, may be excused at 12 o'clock, Wednesday, the 24th of October.

"In witness whereof, I have hereunto set my hand and caused the seal of the United States to be affixed.

"Done in the District of Columbia, this 15th day of October, 1917.

this 12th day of October, in the year of our lord, one thousand nine hundred and seventeen, and of the independence of the United States of America, the one hundred and forty-second.

(Signed)—Woodrow Wilson.
By the president.
(Signed) Robert Lansing, secretary of state.

HOUSE TO HOUSE CANVASS

Women's Committee Will Get Busy in Interest of Bond Issue.

Members of the Women's Committee of the Wayne County Council of Defense met in rooms in the State Bank building Saturday afternoon and agreed on plans to push sale of Liberty loan bonds. The members propose to make a house to house canvass in the interest of the proposition. The committee will request the ministers of the county to preach next Sunday on the importance of buying bonds.

JUNCK-DORMAN.

Mr. Charles Junck and Miss Regina Dorman, daughter of Mr. and Mrs. Adolph Dorman, living south of town, were united in marriage at the English Lutheran church in Wayne Tuesday morning at 10 o'clock. Mr. Junck has been farming south of town the past year, and will next year farm north of town.

Following a wedding dinner at the home of the bride's parents, the newly married couple left on a month's automobile trip, expecting to visit points in Iowa and Illinois. They have the hearty good wishes of many friends.

Our Wealth Must Win

We must remember this: Soldiers win battles, we win the war. The success of a Government loan during war times means more than a victory on a 20-mile front. By united moral support we can stop our enemy's advance. By united sentiment a people supply the needs of the soldiers.

Shall this great second Liberty Loan go half-heartedly, or will all Americans join in whole-hearted making this all-important war measure a sweeping, soul-stirring success? That is the question of the hour.

On the Liberty Loan there can be no two opinions. Grim terrible war is upon us. This war will go on, and we can stop our onward march.

If at the end Prussian autocracy stands fast, then, of course, we have failed. Put no American could think of failure. So those who do not want our country to lose want to see the war stop strong enough to allow a generous peace, not weak enough to enable Prussia to dictate terms of peace.

To make this peace-loving nation strong billions are now needed. Our soldiers need new shoes, carry guns for defense; and surely we all want extra comforts for them, too. Every fighting man must feel that he is fighting for his own heart and soul. That gives the fighting strength. So the only question conceivable from any American regarding the Liberty Loan is this:

Shall America be weak or shall America be strong?

SECOND LIBERTY LOAN 1917

Free service to beat the Kaiser and insure Democracy

The World's Best Investment

A bond for rich and poor alike!

Uncle Sam says: "I want to see a Liberty Bond in every American home."

"Liberty Bonds" is just a name for United States Government bonds issued during our fight for Liberty.

From the point of view of pure business we can conscientiously recommend the United States Government 4 per cent Liberty Bonds as the world's greatest and best investment.

1. Safe—Like a mortgage on the U. S. A. Your bond is a promise to pay authorized by Congress and signed by the Secretary of the Treasury. This bond issue was authorized by our Congress, by all our representatives, whom we elected, and by all our 96 Senators, without a dissenting vote. The Secretary of the Treasury arranged the details and executed the orders of our Congress. His signature is on the bonds. That means that the promise to "pay back" is signed by all our one hundred and ten million American people, including every multi-millionaire in the country. The bond is like a mortgage on every acre of ground, every wheat stalk, every barn and building from coast to coast.

2. "Safety first"—This is a time to "play safe." Just because we do not know what is coming, just for that reason, we all should save our money and put it in the safest place possible. And what other place is there as safe as the Treasury of the United States?

STOCK MEN HOLD MEETING

Association Considers Pictures and Stories of Trip.

The Pure Bred Stock Breeders' Association met in the city hall in Wayne Saturday afternoon and considered business incident to the late booster trip. All pronounced the trip a success from every viewpoint and unanimously adopted a resolution expressing thanks to Wayne for the success of their hearty and active cooperation.

Competive pictures and descriptive articles of the trip were considered. The association had offered a prize of \$5 for the best picture taken on the trip, and awarding the prize was delayed until the next meeting, when a larger attendance is expected. In addition each breeder was given a certificate of appreciation taken on his place. Breeders selected at the meeting made these selections: Geo. A. McEachen, picture taken by Lyle Gamble; Henry Cozad, picture taken by Lyle Gamble; H. J. Miner, picture taken by Edwin Reid; L. C. Prince, picture taken by J. T. Jensen; William Less, picture taken by Edwin Reid.

Awarding the prize for the best story of the trip was delayed awaiting decision of the following disinterested committee: — A. A. Senter, C. E. Cahart, and Fred Blair.

ANOTHER SHOT.

Linnah Journal. It is now proved mistake to say that the German government relies wholly upon powder in attacking its objects. There has grown slowly into sight through the past three years a German organization as elaborate as its military organization and moving to the front. And the instrument of this organization is not force, but fraud. Germany has fought with shells not less determined that it has fought with shells. Its submarines have raided the neutral seas no more stealthily and ruthlessly than its gold has raided the neutral lands.

For the clear light in which this machinery of fraud now stands the American state department is responsible. Yesterday's installment of Secretary Lansing's serial story of German intrigue is a new manifestation of this machinery. It shows in divers forms had previously been exposed.

In this latest instance the German ambassador is making himself an agent for German plots against a neighbor people and against the industries of the nation to which he is accredited. He is to arrange the blowing up of railroads in Canada and the practice of sabotage in American factories. For this latter act the Germans were depending upon anti-British Irish-Americans. Just before this we had an exposure

of the transference of German money through the United States for the purchase of French newspaper opinion in favor of a German peace. Before that Amba-sador Bernstorff was being furnished with German money to influence the American congress. It was a thorough system, as thorough as the military system; and as unscrupulous and as justifiable. It is not only "might is right," but to the German government fraud is right. On the side of the allies we have not detected a similar organization so unreservedly committed to the doctrine of anything-to-win. We have a right to feel that we are in a holy cause. For if the principles practiced by the German government can prevail, then is the universe chaos and Beelzebub its prince.

Mrs. S. H. King last week returned home Friday. Mr. King has an excellent position as public auditor, accountant and systematizer, with headquarters at South Bend.

Mr. and Mrs. F. O. Borg drove by automobile to Camp Funston, Kas., last week to see their son, Arnold, who is in training at that place. They made a fast trip in their car, covering the distance of 80 miles in less than twelve hours.

Mrs. A. C. Mettlen, Miss Lottie Childs, J. S. Lash and son, Floyd, drove by automobile to the rural school, north-west of Wakefield, taught by Miss Lucille Mettlen and enjoyed a "Columbian" program given by her pupils that afternoon.

S. S. Lash and son, Floyd, of Waukegan, Okla., who had been spending a month with old friends in Wakefield, left Monday morning for their home. They were accompanied in their car by Peter Peterson who will look at land in that state.

Mrs. Charles W. Long returned Monday evening from Rochester, Minn., where she went two weeks ago to consult the Mayo specialists. She underwent an operation for the removal of tonsils and received a great deal of encouragement from the doctors in regard to her health.

SOCIAL

The Woman's Missionary society of the Presbyterian church were entertained Friday afternoon at the home of Mrs. V. H. Hansen.

A Picnic Sunday

Mr. and Mrs. E. S. Uecht and family, Mr. and Mrs. George Astorpe and family and Mr. and Mrs. W. O. Harmon and family drove by automobile to Stone Park in Sioux City Sunday and enjoyed a bountiful picnic dinner. They report a fine ride.

Mrs. Hypse, Hostess

Mrs. E. E. Hypse was hostess to twelve ladies at a Kensington Thursday afternoon at her home in honor of Miss Nina Fleetwood who left Monday for an extended visit in Florida. The afternoon hours were spent in knitting and sewing and at 5 o'clock a delightful luncheon was served.

A 6 o'clock Dinner

Mr. and Mrs. Walter Carlson entertained a party of friends Tuesday at a 6 o'clock dinner in honor of Fred Harrison and Tanel Hypse who expect to leave in a short time with the next quon from Dixon county. The guests were seated to table artistically decorated with flowers and enjoyed an excellent two-course dinner, served by the hostess.

A Wedding Anniversary

Twenty relatives of Mr. and Mrs. Charles Levine, gathered at the home of the latter's mother, Mrs. C. A. Johnson, Saturday evening to celebrate the twentieth wedding anniversary of Mr. and Mrs. Levine.

The guests took their suppers with them and at 6 o'clock enjoyed an elaborate feast. Mr. and Mrs. Levine were presented with a china luncheon set, as a gift from the relatives on this happy occasion.

An Oyster Supper

Last Thursday evening Mr. and Mrs. E. E. Hypse, Mr. and Mrs. S. T. Allen and family, Mr. and Mrs. Lawrence Ring, Mr. and Mrs. C. A. Carlson and family, and Miss M. Martin Ekeroth and family were invited to enjoy an oyster stew at the home of Mr. and Mrs. Clarence Bard. The party drove in cars to the Bard home where an appetizing stew awaited them. The evening was cool and the guests thoroughly enjoyed the supper.

A Birthday Party

Miss Ethel Lund and Miss Anna Kay entertained a party of young ladies at a 7 o'clock dinner Monday evening at the home of the former in honor of the birthday of Miss Grace Kay and Miss Alta Christ. The table was decorated with Hallows' eve place cards and unique little favors. After an elaborate two-course dinner had been served, the guests enjoyed some Hallows' eve stunts and games under the direction of Miss Maude Samuelson and Miss Ethel Lund. The guests reported a jolly time.

Push the Red Cross

The interest in Red Cross work continues to increase and many are now sewing, knitting and giving of their time and energy making garments for the soldier boys.

The Red Cross rooms will be open beginning this week on Wednesday afternoon, Thursday evening and Saturday afternoon, to give the teachers and those employed during the day, a chance to work during the evening. The rooms are open to all women to come and see and help to fill the order which is allotted to Dixon county.

Fractures Skull

Miss Amelia Dorman was seriously injured Saturday evening, when she jumped from an automobile thinking the car was on fire. The accident happened two miles south of Wakefield when the car which belonged to Emil Buhl, started to back fire. Seeing the smoke and hearing the loud noise, Miss Dorman who was in the car, became frightened and thinking the car was on fire, jumped out while the car was running. She struck her head fracturing her skull and leaving her in an unconscious condition. She was taken to the Oscar McGee hospital and a physician was summoned. The following day she was taken to her home. She is still in a critical condition and a nurse is caring for her. Her friends hope a change for the better will soon follow.

Four Minute Talks

A company of four minute men has been arranged for at Wakefield, to give four minute speeches at the Dunlap picture theater, between the showing of the pictures on Wednesday and Saturday evenings. The speeches are to be on topics of importance selected by the government, and the facts for the same will be supplied by the Federal Committee of Information, Washington. The Wakefield speakers consist of: Hon. H. T. Shumway, Mr. H. H. Dorman, Supt. M. L. Zerkele, Prof. Earl E. Bruce, Rev. S. H. King, Rev. J. T. Kraft, Rev. Frank Williams, and one other to be secured, thus giving variety and ensuring that the speakers shall not any of them be called upon oftener than once a month.

Rev. S. H. King gave the first talk Sunday evening. Rev. J. T. Kraft spoke last night and H. T. Shumway will speak Saturday evening.

WAKEFIELD

Swedish Lutheran Church. (Rev. J. T. Kraft, Pastor.) The northeast district of the Ladies Aid society will meet Thursday with Mrs. Andrew Lundahl.

The Martha society will be entertained Saturday at the home of Miss Ruth and Miss Irene Erickson. Sunday school goes 10 to 11. Preaching service in the morning at 11. Evening service at 7:30. Midweek prayer meeting at 7:30 o'clock.

Young people's business meeting on third Friday of each month.

Methodist Church. (Rev. Frank Williams, Pastor.) The first quarterly conference of this year will be held in the lecture room of the church tomorrow, Friday evening. Members of the official board are urged to attend, a cordial invitation being also extended to the members of the church and congregation. This will be the first visit of our new District Superintendent, Dr. E. M. Forman, and we would like everybody to get acquainted with him, being persuaded that acquaintance in this case will beget respect and affection.

The men did a little talking last Sunday morning about their subscription of \$500 for the new church building, which was as yet unpaid, with the result that somewhere between three and four hundred dollars has been given already and there seems to be no doubt but that the whole sum will be paid by this week end. Largely this is due to the generous promise of George Whipperman that if the thing were going to be cleared up he would undertake to find the last hundred dollars of it. Long may he and his wife and others who have made so generous gifts this week, be in a position to do so.

Sunday school and preaching next Sunday morning as usual, and league on the evening. Floyd Johnson being the leader and the topic being "The Battle Against Booze." There will be no preaching service in the evening owing to the pastor being engaged in revival meetings at Pleasant Valley. These meetings will be going on for at least one week longer. Pray for us, and if possible come down to take part in them.

Presbyterian Church Notes. (Rev. S. H. King, Pastor.) The subject of the sermon next Sunday morning will be "A Man Thinketh." In the evening the pastor will preach on the subject, "Dare to be a Daniel." The young people of the Christian Endeavor society of this church will

FINANCIAL ABILITY.

Extracts from talk by Charles H. Sablin, president Guaranty Trust company, New York City.

"The new loan for three billion dollars can be floated without seriously disturbing business. In fact, it should promote materially the prosperity of the entire country.

"The proceeds from the sale of the liberty bonds will be expended in the country Secretary McAdoo explains that the situation is largely a mere matter of shifting credits. The money will remain in this country and will not involve any loss of gold or any loss of values. It is

...ous that the more money that we have in this country the greater will be our prosperity.

A leading English financial writer acknowledges that London has surrendered its position as the foremost money market in the world.

Our soil is capable of supporting five times the population it maintains at present.

The payment of the interest on the foreign loan will not tap the resources of our fields, factories or mines; the money will come from the annual income and production of the country, now estimated at fifty billion dollars in value.

We are having unusual crops and great increases in grain values. This is generating a prosperity which will be apparent first in the west and later throughout the entire country.

Cattle—There are twice as many cattle and swine in the United States as in any other country, with a total value of live stock products of more than four billion dollars.

Corn—Our corn crop is ten times greater than that of any other country.

Wheat—Our wheat crop is not so large as we had hoped for, but it is larger than that of any rival.

Cotton—Our cotton output is more than one half of the world's supply.

Coal—Our coal production is nearly one-half billion tons annually, which is about twice that of Great Britain, our nearest competitor.

Oil—Our oil production of over 300,000 barrels is twice that of Russia, which ranks second.

Iron and steel—Our output of iron and steel is twice that of Germany, our nearest rival.

Copper—We produce more copper than all the remainder of the world put together.

Manufactured goods—Our output of manufactured goods last year was more than thirty-six billion dollars.

The balance of our exports over imports amounted to more than three billion dollars.

Our total resources of approximately three billion dollars is more than one third of the world's total.

Our wealth is now more than two thousand dollars for every man, woman, and child in the country.

The total wealth of Great Britain, France, and Germany amounts to \$27,500,000,000. The national wealth of the United States aggregates \$28,000,000,000.

A careful consideration of these facts must certainly reassure even the most dubious as to our ability to absorb not only the second liberty loan, but a third and a fourth, if necessary.

Mr. and Mrs. D. C. Paterson entertained a number of friends at a progressive euchre party.

Charles Bevelton threshed six hundred bushels of wheat from twenty-six acres of ground.

George Beardshear, W. B. Larison, H. C. Wright and S. B. Russell ate in Minnesota, hunting ducks.

Grimes Mayberry and Miss Martha Blodgett of Leslie precinct were married by the county judge October 8.

Rev. G. H. Pittenger and Rev. M. Olinde of Barr county will preach at the Manning schoolhouse Sunday afternoon, October 25.

W. M. Bennett bought the lots west of H. M. Tollinger's from F. A. Dearborn, and will make arrangements to build a residence at once.

G. White who lives with his son, W. J. White, on the Stambaugh ranch in Bronna, is 82 years of age and yet helped his son put up 350 tons of hay over the year. 300 tons of hay alone besides assisting in caring for it after it was cut.

From the Wayne Herald, October 18, 1891:

The Early Hour club will give a dance at Mellor's hall.

The Ladies' High Five club was entertained at the home of Mrs. Boyd.

H. Heckert of Red Oak, Ia., visited his brother, Dr. T. B. Heckert, in Wayne.

From Ponca Journal, October 11, 1877:

Professor Davies lectured at Wilbur's schoolhouse, on music, last Friday evening. He is shortly to start a music school at that place.

Remember this prophecy, viz: "Land that now sells in Dixon county at from three to ten dollars per acre, will within two years bring about that price, and within five years will sell as from five to ten to twenty-five dollars per acre."

We are glad to hear that Messrs. Heydon and Whitmer are contemplating the erection of a large cheese factory for the coming winter for business in the spring. This matters are progressing for the prosperity of the county.

"We had feared that Mr. Rockwell had gone back on us, but this week he entered our office with a fine poetic phrenzy still shining in his eye, and the affluents dripping from his brow. He handed us a roll of manuscript which proved to be a grand epic poem which will be found in another column. We trust that hereafter the Bard of South Creek will often pause from the labor of evolving useful and war-saving inventions from his well stored mind, and seek the realms of poesy for the benefit of our readers."

THE HOME OF MUSIC AND ART

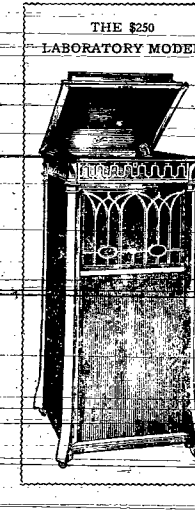

Music's Re-Creation

Every music lover should hear the Edison Diamond Disc Phonograph—not once, but several times. When you are down town stop in and we will be glad to play you any of our many beautiful records.

Edison, Himself

THE \$250 LABORATORY MODEL

NO CHANGE OF NEEDLES NECESSARY. RECORDS NON-BREAKABLE.

In creating the cabinets for the Edison Diamond Disc, we required our designers to follow classic lines. To the same extent that the superior musical quality of the Edison Diamond Disc appeals to the cultured musical sense, we determined that Edison Diamond Disc cabinets should appeal to those who have a cultured knowledge of furniture design.

EDISON DIAMOND DISC RE-CREATION OF MUSIC

These Edison Re-Creations of music differ utterly from talking machine records. Recorded by methods known only to Mr. Edison and his trusted assistants, and made of a material new to chemistry by highly exact laboratory processes, they re-create every tone of the original music, including all of the delicate overtones, or tone colors, which give music its quality and beauty and which are distressingly absent from talking machine records.

Also, since an Edison Diamond Disc Re-Creation of music is capable of containing a musical composition one and one-half times as long as can be recorded on a talking machine record of equal size, Edison Re-Creations open the way to the perfect re-creation of symphonies and other pretentious forms of music, which, on talking machine records, cannot even be attempted.

In strong contrast with talking machine records, Edison Re-Creations are in a practical sense unbreakable, and with proper use can be played indefinitely without diminution of their musical perfection.

NO CHANGE OF NEEDLES NECESSARY. RECORDS NON-BREAKABLE.

Have Your Hogs Vaccinated

YOU cannot afford to run the risk of losing your high-priced hogs through failure to have them properly vaccinated. Breeders realize more and more the importance of saving every hog, thus insuring the pork supply and contributing to the wealth of the country.

HAVE been busy administering this safeguard against disease, and I will attend to all orders promptly, insuring best results. Every herd should be vaccinated.
