### DO YOU MAKE THE FIRES?

Then you will appreciate the Drey Draft Door of the Copper-Clad Range.

Put your kindling in—light from the outside and leave draft door down to force the draft.

Your fire burns strong and quick—then you close up tight all over and hold a slow fire for long, long time. To quicken the fire again, open draft door and use poker. This is one reason for buying a Copper-Clad Range.

There are 25 others. You will be "Range Happy" with a Copper-Clad.

**GARHART HARDWARE**

Mrs. Lola Contois who had been visiting in the state four months, returned to her home in Clearwater, Neb., Monday morning.

Mrs. D. C. Chick and three children, who had spent Sunday in Wayne at the home of the former's sister, Mrs. S. X. Cross, returned home Monday.

Mr. and Mrs. J. C. Whitney of Grand Island, who spent several days last week at the home of the latter's son, Prof. J. G. W. Lewis, left for their home Monday evening.

F. J. Owen whose home is in Wyoming arrived in Wayne Saturday to visit his son, S. L. Owen, and family. Mr. Owen had been visiting in Wisconsin before coming to Wayne.

Mrs. George Crossland left Wayne Monday afternoon for Litchfield to attend the state four-month convention which begins today. She spent the first few days of the week with her sister in Omaha.

Miss Ruth Ingham who has a position in the public schools at Coleridge, arrived in Wayne Monday to spend two weeks with home folks. The schools are closed in Coleridge on account of an epidemic of scarlet fever.

Mr. and Mrs. C. W. Salsbury of Cherokee, Ia., were guests this week of Mr. and Mrs. C. M. Craven in Wayne. Mr. Salsbury was formerly the employer of Mr. Craven and now owner of a photograph gallery in Cherokee.

Mrs. J. E. Barker and Mrs. George Baird of Chicago and Mrs. W. H. Bontrere of Chadron, Neb., spent Sunday in Wayne at the home of their sister, Mrs. J. E. Barker. They left Monday for Chicago, accompanied by Mrs. W. H. Bontrere, all visit at the home of another sister.

Miss Ella Morrison and sister, Mrs. G. O. Smith of Lincoln, drove to Wayne by automobile Saturday to visit at the home of their sister, Mrs. J. Woodward Jones. Miss Morrison had been visiting two months in Lincoln, but expects to spend the winter in Wayne with her sister.

Major Arthur Parker, an officer in the United States Army, arrived in Wayne Saturday to visit a few days at the S. L. Owen home. His wife who is a sister of Mr. Owen, had been here for some time. Mr. Parker was formerly stationed at Cheyenne, Wyo., but is now en route to Charlotte, N. C.

Charles Gildersleeve, L. C. Gildersleeve, and W. D. Redmond of Wyan and Mrs. Edna W. Redmond drove to Fort Riley, Kas., to see Glenn Gildersleeve and Roy Reed who are in training there. They report the boys getting along fine and well satisfied with camp life. On their return trip they stopped at Lincoln to see Harry Gildersleeve who is attending the university.

Mrs. Joseph Contois of Clearwater, Neb., and Mr. and Mrs. W. C. Van Buskirk of Stralain, Ia., Mr. M. E. Farrar of Marysville, Mo., and Mrs. Charles Harden of Chambers, Neb., and Mrs. Lloyd Brance of Winside, Ia., and Mrs. Clyde Perrin of Carroll, Mo., and Mrs. George Davis and daughter Miss Ruth of Laurel and Mrs. C. A meeting of the liberty loan committee was held Monday morning for the purpose of investigating the system which the banks had undertaken and to see how the results were working out. The committee reports from each bank had not been turned in, but the prospect of raising the amount pledged was said to be very favorable.

Handolph Times: "Saw thirty or thirty-five corn pickers from Kansas arrived in Randolph and Carroll this week, some of them making the trip by auto. These men came at the request of the Farmers of Carroll and many of them are now at work on farms in this section. Some of them we understand, returned to Kansas when their price of ten to twelve cents are bashed for corn picking was refused. There is plenty of work around here picking corn this fall, but farmers rather back up on prices such as were asked by some of these men."

Howells Journal: Marius B. Nielson was over from Wayne the first of the week on business and at the same time enjoyed a visit at the home of his father, Dr. C. T. Ingham, arranged for the presentation of "Mother o' Mine" at the Royal theater. This is a Bluebird extraordinary feature—one of the greatest of tumults—a production so popular that when it was shown at Mr. Nielson's theater at Wayne the crowds from that place, neighboring towns and surrounding country were so large he tells us that he turned fully a thousand people away who could not gain admission. So great is the demand for this photoplay that there are no open dates for the film for this state and by special arrangement the picture will be sent here direct from Chicago. Mr. Nielson is planning for special music for the occasion, the date to be announced later.

### LADIES' AID ENTERTAINS

**M. E. Society Gives Program and Raises Money for the Church.**

The M. E. Ladies' Aid society gave an entertainment and social in the church Friday evening, October 19. At 8 o'clock about 250 people gathered in the auditorium for the program which opened with Mrs. D. C. Main's beautiful solo, "Who Knows," followed by Mrs. A. Lugen's musical reading, "Kate Lee and Willie Gray," "The Little Man and the Little Girl," Clyde Oman's solo, "The Ladies' Aid Society," was entertaining and a fitting introduction to the playette, "How the Story Grew," presented in attendance at the funeral of the late Robert Perrin in Wayne Sunday.

Mrs. L. M. Owen, Miss Ella Redmond, Mrs. William Penwick, Mrs. V. A. Senter, Mrs. Clyde Oman, and Mrs. R. W. Ivey the scene of this particular story that "grew and grew" until the tellers themselves did not recognize it, was an old fashioned home with clock and organ of ancient design, life-size plaster of paris cat and dog, red table cloth and other relics of a by-gone day. Each lady's costume and coiffure belonged to a similar period, and her mannerisms and diction were exceedingly well taken, and the audience caused much merriment and dialogue. "We Will Not Talk About Our Neighbors," by Messrs. Blair and Phillips, was a very fitting climax to the burlesque. The first part of the program closed with Mrs. R. S. Blair's beautiful solo, "I Love You Truly."

The second part of the evening's entertainment was planned to give people an idea of how the ladies have earned the money to pay for the basement improvements. The room was darkened and Mrs. H. B. Craven read an original poem which explained the exact price of each lady re-enacted in silhouette the manner in which she had earned her dollar. One busily hemmed stockings for each neighbor, and another the lawnmowers did without gum, candy, and moving pictures, if their shadows spoke truly. One lady was seen picking up potatoes, another baked and sold a pie, and another, one did a washing, another an ironing. One lady cleaned her husband's panama and received a dollar for the operation, although her husband preferred to stay at home from church afterwards rather than wear the hat. Another member of the society made her husband a \$4 silk shirt and sold it to him for \$3.98. A courtly gentleman "kissed" his wife whenever her cooking especially tempted his appetite, and so she earned her dollar. Finally one in desperation demanded five dollars from her husband, and the last one aided the good cause by cautiously extracting the dollar from the pocket of her trusting spouse. In simi-

lar ways, the ladies raised \$78, and the silver collection taken at the social brought the amount to \$105, all of which will apply on the basement fund.

After the program, the people retired to the church parlors, where they spent a pleasant hour in conversation and refreshment.

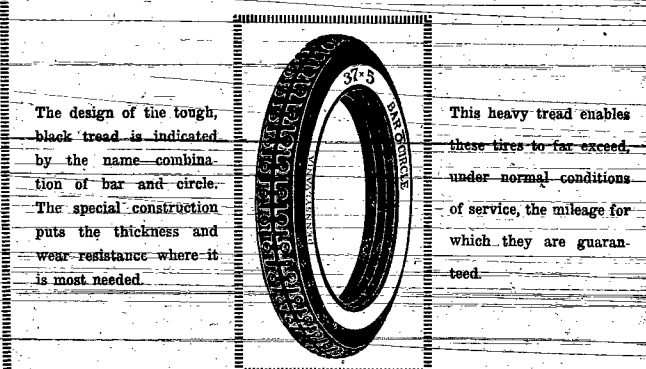

A forced laugh is that of a man laughing at a joke on himself.

# The Store That Serves Your Needs

WE feel free to announce with all candor that no store in Wayne devotes more time or energy in anticipating the needs of the community than we. Not only do we tip-toe to the last word in novel ready-to-wear apparel as well as to the new ideas in dress accessories, but we also keep all staple lines complete as to sizes and colors. We have faced the dye situation, and, in most cases, have come out with the goods by placing small orders with dozens of different firms. When these tactics failed we visited the markets personally and secured what we wanted.

## BLANKET WEEK

Every housewife in Wayne county will be overhauling her blanket supply this week. Scores will be adding "blankets" to their shopping list. Although we have a large stock, the wise customer comes early and gets first choice.

**Cotton Blankets** Some people prefer cotton blankets. It is surprising how much real warmth they do afford. You can have them in a variety of color combinations, and at prices ranging. **\$1.50 to \$4.00** from

**Wool Blankets** What is more luxurious than to snuggle down between soft wool blankets? Zero weather and cold rooms mean nothing if you are thus prepared. Take your choice of this complete assortment, at from **\$6.00 to \$10.00**

<p><b>Do It Now!</b></p> <p>No matter if it does seem early, you will have to buy that winter <b>UNDERWEAR</b>. We have a variety of styles and weights to suit every taste. The <b>SANITAS</b> medium weight wool is a favorite number with ladies. You may have the number in a low-necked and short sleeved model. Good heavy two-piece suits for the children.</p>	<p><b>Do It Now!</b></p> <p>Look over our line of <b>MITTENS</b>, especially for your boys and girls. We select yarn gloves for the girls and heavy leather mittens for the boys. Then there are <b>CAPS</b>. In our stock you will find caps of every description, some with fur lined ear pads, some without. If you need a heavy <b>DUCK COAT</b> for choring or driving, come in and try on some of ours. They are absolutely wind proof.</p>	<p><b>Do It Now!</b></p> <p>Plan for Christmas. Study our window of new and unique ideas in <b>FANCYWORK</b>. Map out your gifts for your friends. A remembrance with a touch of hand work means so much more. We have small novelties all ready stamped that will take only a few hours' time to embroider and all the best threads in desirable shades for tatting and crocheting.</p>	<p><b>Do It Now!</b></p> <p>Buy your winter <b>BLOUSE!</b> Did you know that we received a large line of exquisite patterns for fancy blouses Monday? Beautiful plaids and stripes in silk marguissettes with extra heavy chiffon cloth in harmonious shades for foundation. We also can show you exclusive patterns in heavier silks, such as taffeta, satin, etc.</p>	<p><b>Do It Now!</b></p> <p>Fit the family out with <b>OVER-SHOES</b> while our stock is still complete. One, two and four buckle storm shoes for the children who walk to school or play outdoors a great deal. High cut artics for more dressy wear. It has been a hard pull to get quality over-shoes that we could sell at regular prices. Take advantage of our bargaining.</p>	<p><b>Do It Now!</b></p> <p>Begin to investigate our grocery department. ### GARRATT HARDWARE

### UNCLE WALT The Poet Philosopher

### WILD GEESSE

Will geese were flying south to day. I heard them honking overhead, and to my aunt I paused to say, "The winter's coming, autumn's dead. It's up to me to lay in coats, to strip my skin and meagre roll of weather strips and winter duds. The weather prophet in his den may tell us what next week may bring, but all the prophets of men are merely tom-tom-bly jing. I would not for cold days prepare, if warned by any human seer; man says tomorrow will be fair, and it is dark and bleak and drear. Man says tomorrow will be cold, and it is so hot we stew in sweat; no weather rightly was foretold by any human prophet; the wild geese have no maps or charts, no instruments of brass or steel; they do not try to break our hearts with "high" or "lows" or kindred spiel. They have no traps to nestle wind, to weigh the clouds or test the air, but when for southern times they've skinned, for wintry

days we should prepare. I saw the wild geese gallivant, some southern and in their goal, so lead me forty bones, dear aunt, and I'll lay in a stock of coal."

**CHEER UP.** Cheer up, cheer up! If you are sound, no sign of illness giving, you have no right to paw around about the cost of living. No man has any right to snort, or let tears run in rivers, unless we know that he is short on soups, stews and hivers. Cheer up!—Though it is quite a chore to stock the bin and larder, a gloomy mug won't bring you more—just buckle down the harder. Cheer up! The prices make you yell, when you go forth as buyer; but when you've anything to sell, the price keeps going higher. I sell my ham every day for quite a lot of dollars; what matter, then, if I must pay high price for shirts and col-lars? My father got a lot more flour than I do for a shilling, but I earn more in half an hour than he by all day's drilling. Cheer up! There's work for every lad, success for him who pushes the market through the shipping canal is growing on the banks, cutting the worries and alarms, toll like the bees that humble the man who has no legs or a his snore has right to grumble.

**THE OLD COMPLAINT.** I have to buy my winter duds and winter coat and winter park. I have to lay in flour and cheese and many other things like these. I'm very anxious to get a new car, but the prospect with a sigh. "For every plank I have in store I'm needing seventeen or more for the must buy an automobile and some flags and sweaters and wool and wax, and pay a most unholty tax. And still the passers of the hat come sailing to my humble flat, and some of them are hard-earned yen and help some poor and needy men." Old Gaffer Johnson's needing aid, we want to buy him marmalade and some jam, and in the hole and I sent him half a ton of coal. Oh, loosen up and gladly dig, to buy the Widow Skate a pig. The gaffer, and the gossip, too, refuse to work when skies are blue and when the wintry tempests roar they some for handouts to your door. And you, who work to beat the band,

must target them with an open hand, responding to their delectables with soups, sandwiches and pies.

**AUTUMN WEATHER.** The nights are bleak and chilly, the wind has dismal notes—fall weather gets my tully (the garden name for goat). In summer I am healthy, as husky as can be; no ailments punk or stealthy are bringing grief to me. Existence then is sweet, although in heat I try, the white I shoo the skeeter, and swat the noisome fly. But when the frost falls whitely upon the autumn world, and wire-edged zephyrs nightly grow colder and more cold, I feel rheumatic twinges, I feel lumbago's shock, and all my joints and hinges are creaking as I walk. The doctor and the plumber come along with my bones, and so I long for summer, with useless sighs and groans; just as I long for Autumn, when summer is on deck, and there's no top or bottom to sizing heat by heck. Alas! There is no season that suits me to the ground; I'd like that some reason to raise a doleful sound. I'm always longing yearning for something that is past for summer weather, burning at winter's angry blast.

**HEARTRENDING.** It must be trying to the soul to do at home, so's peaceful slant, and hear each day that quiet driff. "Why aren't you fighting at the front?" Perhaps the stay-at-home can appreciate a reason why he's not going; but it must jar like everything to tell that reason over and over. The mother saw him with disdain as in the soldier boys they battle, that glimpse say, "You're like a virgin; don't you try to do your bit." The blooming damels coldly gaze upon the friendless, duteous wight and sigh. "We'll have no truck with you who stay at home when brave men fight. The children see him pass their school and cry loud, a rickard horde. The corkscrew is this slacker's seat while other youngsters are in the fray." He may have reasons good as wheat for staying home and bating hay, while martial neighbors go to meet the pruned Prussians in the fray; but who will listen while he tells the reason why he doesn't go? Men say, "If you'd be wearing bells, you ought to swat your country's foe."

**SOMEWHERE IN FRANCE.** Somewhere in France I would like to be fighting, putting in licks for the land of the free; oh, it is woman's work, scribbling and writing when there is scrapping across the

**MEACHEN PIGS SELL WELL**

Breeders Appreciate Good Hogs and Are Quick to Buy Them.  
The initial sale of pure bred stock in the Wayne pavilion this season took place last Saturday when Geo. A. Meachen sold thirty-five head of fine Poland-China male pigs. The top pig brought \$100 and the average was \$70. If five pigs which did not quite measure up to the standard, had been eliminated from the sale, the average would have run about \$85. Mr. Meachen and good stock, and breeders showed that they wanted it. Auctioneer D. H. Cunningham of Wayne was assisted by Auctioneers Ed Evans and Carroll. The crowd was large, and there was no delay in the bidding. The animals were driven through the ring in a hurry, and the sale was soon over. The crowd Mr. Meachen has put forth in getting only the best animals was rewarded in this sale.

**ECHO OF THE FLEGE CASE**

Taxpayer of Dixon County Objects to Big Fees for Experts.  
Lincoln, Neb., Oct. 20.—An echo of the Wilhelm Flege murder case from Dixon county was heard in the supreme court when the appeal of Chris Wischhof, taxpayer of that county, from an allowance of \$300 to each of the state's medical experts was submitted.

The defense brought two expert witnesses from Chicago to substantiate their theory of the case. Flege was twice convicted of murdering his sister and twice had his conviction reversed by the supreme court. When brought up the third time, County Attorney Kingsbury consulted with the commissioners about the necessity of hiring experts from the county. He pointed out that the supreme court had held that so long as the state made no effort to show by experts that the conclusions of the defendant's experts were incorrect or untrue, they were not binding upon the jury.

The commissioners authorized him to hire Omaha and Lincoln experts. He did so and they testified. On that trial Flege was convicted of manslaughter and the conviction was upheld. The board allowed \$300 to each of the two experts. By agreement an appeal was taken on the Dixon claim, the decision to appear in both. Wischhof lost in the district court.  
He contends that in the absence of a specific contract a medical expert cannot collect any more for his testimony than the ordinary sum allowed by statute for witnesses; that the county board cannot delegate to the county attorney the making of a contract and that there was no such contract.

It was argued to the court that it should not lightly take away from the county attorney in criminal prosecutions any instrument of war, and that for it to say that he cannot employ experts and agree to pay them extra compensation is to take the teeth out of prosecutions and make it useless to start many.

**FORCES AT WAR.**  
Washington, October 22.—At least 38,000,000 men are bearing arms in the world, 7,500,000 on the side of the moral allies, and 10,600,000 on the side of the central powers, according to latest war department compilations from published reports in various countries. These figures do not include navy personnel strength, which would raise the total several millions. Against Germany's 7,000,000, Austria's 3,000,000, Turkey's 3,000,000, Bulgaria's 300,000, are arrayed the following armed forces: Russia 9,000,000, France 6,000,000, Great Britain 5,000,000, Italy 3,000,000, Japan 1,400,000, United States more than 1,000,000, China 451,000, Rumania 320,000, Serbia 300,000, Belgium 300,000, Greece 300,000, Portugal 200,000, Montenegro 40,000, Spain 36,000, Cuba 11,000, and Liberia 300. Some Dominions and States also have small forces under arms.

**Ideal Hog and Poultry Waterer**

An absolutely sanitary Waterer that will not freeze in winter and keeps the water cool, fresh and clean in the summer. An all-the-year-around waterer. Every hog raiser knows that good clean water is an absolute necessity in raising hogs and chickens to get the most out of them. It is the basis of a good healthy condition. A hog crows you raise and the better care they receive the more profit they make for you.

It is the basis of a good healthy condition. A hog crows you raise and the better care they receive the more profit they make for you. It is the basis of a good healthy condition. A hog crows you raise and the better care they receive the more profit they make for you.

You can positively save 25 per cent of your feed cost by giving your hogs a constant supply of good clean water, with the chill off just as they want it.  
A hog will live and put on weight for 4 or 5 days with practically no food if he is given all the water he wants but will begin to lose weight in two days if he has no water, even though he has all the corn he wants.

The water in the hardest chills on the farm is properly watered hogs, especially in cold, zero weather when the water freezes in the trough in half an hour. It is a hard job to chop ice from the trough every three times a day to give the hogs fresh water, and even then they do not have water as often as they should. With an Ideal Waterer your hogs can have a constant supply of good clean water with the chill off just as they want it night and day. Hogs will drink ice-cream water at night and the water is convenient and right temperature.

With the tank style of Waterers the water is automatically led to the drinking pan by the vacuum effect of the water in the tank. It will never over-flow. No mud hole or disease breeding places around the drinking troughs. The drinking trough is thoroughly protected so horses and cattle cannot get into it with their feet to foul or waste the water, but they can always have all they want to drink.

**Waterers for Farms Having a Water Supply.**

Many farms have supply tanks and for these we make the No. 10 and No. 22 Waterers which are connected to the water supply system or can be connected to a common round stock tank or cistern.  
The No. 10 and No. 22 Waterers are made of heavy galvanized iron and have a heavy positive float valve which regulates the water in the drinking pan. Simply run the water under floor line to the Waterers, then up through the bottom and float valve to the drinking troughs.

No. 22 Waterer has two drinking troughs, is so constructed that it can be set into the ground, making the troughs the right height for hogs to drink.

The floor being in the upper part of the Waterer so you can easily place the lamp under the drinking pan. As a permanent Waterer in the hog lot where you have water piped from a supply tank the No. 22 is just what you want.  
No. 10—For attaching to supply tank, weight 40 lbs. \$42.00

- No. 5—60-gallon Waterer, weight 100 lbs. \$25.00
- No. 10—Same No. 10, with two drinking troughs, weight 40 lbs. \$17.00
- No. 22—To be attached to supply tank, with two drinking troughs, weight 45 lbs. \$20.00
- No. 52—60-gallon Waterer, with two drinking troughs, weight 100 lbs. \$31.00
- No. 62—100-gallon Waterer, with two drinking troughs, weight 140 lbs. \$40.00

**IDEAL NON-FREEZING STOCK WATERER**

Is a sanitary drinking fountain for horses and cattle. This stock waterer is constructed of heavy galvanized iron, with heavy supports and braces. It can be connected to any supply tank or water pressure, and has a float valve which will work perfectly on any pressure from 5 to 70 pounds.

The float is protected by a partition so that it cannot be disturbed.  
There is an outlet in the bottom so that the tank can be easily cleaned.  
The Waterer is 30 inches high, 20 inches in diameter and holds 42 gallons.  
There is a 1 inch air space between the water tank and the outside casing which gives the heat a perfect circulation.  
It is equipped with large lamp which keeps it from freezing the winter.  
The lamp holds 3 quarts and will burn 48 hours at zero weather.

Get an Ideal Non-Freezing Stock Waterer installed, since you and your horses and cattle will have a good supply of clean, sanitary water at all times.  
Price complete with lamp \$41.00.

**Ideal Chicken Waterer.**

You realize the importance of giving chickens good, fresh clean water, both winter and summer, and know how much trouble it is to properly water the chickens. In winter weather you must carry warm water to them several times a day and then it gets warm only a short time.

Hens will lay better in winter if given fresh water with the chill off. Eggs are 65 per cent water and the chickens must have plenty of good water at the right temperature.

The extra eggs you will get will soon pay for an Ideal Waterer besides the saving of time and labor.  
It is no trouble to have a constant supply of good, pure water at the right temperature for your chickens if you use our Ideal Chicken Waterer. It holds 5 gallons and the water automatically feeds to the drinking pan by the vacuum system.

There is always about one inch of water in the drinking cup so the chickens always have all they want.  
The drinking cup is protected so the chickens can get only clear water to drink. They get not get into it with their feet or scratch dirt into it. The tank is inside a casing with an inch air space all around. Under the tank is a lamp so the water cannot freeze, but is kept at just the right temperature.  
The expense of running the lamp is very small as it costs only about 1 cent a day and as the chickens do not drink at night you can empty the Waterer and pump the lamp out if you wish.  
The tank is easily filled or emptied, as it fits out of the casing, and to fill it you simply lay it down and pour or pump the water into the drinking troughs. When you set it up the pan will always have about one inch of water in it. To empty the tank, simply tip it forward and the water will run out.

With an Ideal Waterer you know your chickens have all the water they want—just as they want it winter and summer.  
Ideal Chicken Waterer \$7.00

LETTER FROM PORTO RICO

Vere Mauri, Wayne Normal Graduate, Now Teacher on Island.

Vere Mauri graduate of the Wayne State Normal in 1914 and principal of the Hoskins school last year is now stationed as teacher in Porto Rico, where he went in August. His home is at Laurel. He has written Dear H. H. Hoskins of the State Normal an interesting letter under date of October 7, and the Herald is pleased in reproducing the following excerpts:

"Convento is the name of the town where I am now located. It is about the size of Wayne in population but

the size of Hoskins in extent. Maintains them as in all sides and coconut, banana, and orange trees grow all about us. There is a pretty and swift mountain river east of this town. Any time of day a person can go down there and see a half a hundred native women doing their washing on the rocks and in extra poor their children dip in the water while their only clothes are washed and dried. Rocks are very rough and sharp. The mountains that surround the town are about the height of the mountains in Wayne. Tobacco is the main crop in this vicinity and the fields extend even up to the tops of the mountains. All the people are such that the

could be cultivated if a man can stick on their sides with a hoe. Tobacco is some of the best in the world. It is raised under these conditions in order to keep off injurious insects. The fields are handled for the most part by large companies and not individual farmers. They hire men and women to do their work, somewhat under the same system as the sugar plantations. They work with the negroes. They are given credit at stores run by the company for men is about 65 cents per day. A day's work for a woman is 40 cents. Tobacco is marvelous how they can sustain it with a large family on such meagre wages. They all seem happy and content with what they have. They turn foolishly. The people call them 'jeuts' and they are in every sense of the word. I guess

"I suppose you have heard about the wonderful roads in Porto Rico and without them it would be almost impossible to exist in the interior of this island. The whole island is a work of fine roads made of crushed rock and kept up by the government. It rains so often that no other road would be any good and is so mountainous that it is almost impossible to get up the mountains. We reach here by automobile. Autos take the place of trains to a large extent, in traveling. Supplies are brought up here by large trucks and products sent out the same way. Men and women bring their farm products in on their heads or else have them strapped onto their backs, or have their extra travel in carts. It is a very picturesque but not what I call efficient way of marketing products. The enrollment of our school is about 400. There are ten teachers to handle that many and one or two of them are special teachers so you can imagine what the conditions are. The lowest grade teachers have over fifty pupils each to take care of. And such pupils, especially the pupils in the lower grades and those of the poorer classes. No teacher who had more than 50 or 60 pupils could do his job. I have seen some of the most illiterate homes and the most squalid homes imaginable. They are lucky to have any clothes to say nothing of clean clothes. They don't know until they are taught, that water is to be used both externally and internally. They have no sense of morals. Mighty small chance of working anything like the honor system. All the teachers are Porto Rican except myself and a young fellow from New York who teaches manual training. The teachers certainly do good work with what material they have to work with. The above paragraph refers only to the small children and lower grades. "Our school building is a long irregular building of one story and made of cement. All large schools in Porto Rico are built alike. We have fair equipment to work with. The school board furnishes books, paper, pencils, and ink for everything the child needs. Above the eighth grade the children must furnish their own books. "I teach four classes of English a day, one class in each of the following grades: Sixth, seventh, eighth and ninth. We only have nine grades. I also teach eighth history, arithmetic and civics along with ninth algebra. I have quite a busy day as high school classes last 30 minutes and all my other classes 30 minutes. "My high school grade and the eighth grade would compare favorably with any group of students in the states. They are willing workers and much more willing receivers. Too willing, in fact, as their Latin nature makes them say what they know or just, no matter who is reciting. They are more restless and inattentive to long and prolonged attention as are American pupils. I can not say an unfavorable word about them. I believe. Their motor responses (as you would say) are becoming less vigorous. It is some jobs-trying to teach them English. They do not talk anything but Spanish outside of school and never hear English anywhere but in school. We also have to use texts made in American and much of the subject matter is outside of their own experiences. In reading for instance, 'The First Snowfall' is a type of readings they are supposed to study when none have ever seen snow. Their lack of any other gives them difficulty in expressing themselves or understanding the lessons. Their pronunciation of English is also crude, or I might say inaccurate. "I had some mighty good practice in discipline with the sixth and seventh grades. For a week it was an open question with myself as to who would triumph. They knew very little English, took advantage of me at every turn, lied, cheated, and in fact made life miserable for me. For a week I seemed to be the scum of the town as a rule. I tried everything and at last found how to handle them. It is against the laws of Porto Rico for a teacher to inflict corporal punishment or I should have tried to follow out the teachings of Moses about sparing the rod and spoiling the child. I straightened them out as soon as I found that they liked staying after school. I kept both grades till 5 o'clock two days in succession and the most unruly ones every day. They have never seen me now everyone who is unruly retires

after school and has his home put on the list of bad pupils. I suppose all my trouble arose from having an American here last year who lacked sternness. I was so angry at them that I could not expect the faculty or the board to be the rest of the year. No exceptions can occur here if a teacher is not set going. "The island is divided up into five severely municipal districts, of which has a supervisor of education. Each municipality is divided up into barrios and from the barrios are formed the school districts. A district generally takes in several barrios. The rural teachers are all native Porto Ricans. They have some pretty bad conditions to go to and some of whom are most of the people are illiterate and very poor. The supervisor keeps track and issues all supplies. He makes rules, has no more duties than I can see how to get done. He is again under the department of education and they are not all his pupils very certainly. The school system is so much out of connect with it that it is necessary to have it so. "My supervisor is an American and has lived in Porto Rico ten years and can do anything you care to do. He speaks Spanish better than English although he speaks very good English. He is up-to-date in an educational way and a fine fellow to work with. He is in a fine way now writing as he lives in this town and I occasionally do a little typewriting for him. You see I am a student and he is not. He is a teacher and spends most of his time on a horse riding up and down these mountain roads. He gets wet several times a day as a rule. "The United States Commissioner of Education is a former teacher of Romance Languages in the university of Wisconsin. His name is P. W. Miller. He is a fine fellow and a very efficient educator and organizer. He met me at the steamship when I arrived and knew me at once from the picture I had sent of myself. He called them by name as soon as he saw them although all he had were photos. He met me at a wonderful party by sight and never before having seen any of them except in photos. "Spanish and English are both spoken in Porto Rico. Spanish is used in the school. In the lower grades Spanish is used altogether but English is used mostly in the upper grades. Spanish is all I hear outside of school and I am learning the language. A person can't help but learn it as it is impossible to get along in these small towns without it. The people I heard with the most understood English is all I am taking lessons from one of the teachers in Spanish and find it an easy language to learn. I get immediate practice in its use of course. I would like to come down here to teach to get rich. It's hard to get over \$75 a month unless very good in some special line and they don't take your word unless you are good you are either. The principal of our school gets but \$65 a month and he is an excellent disciplinarian. I come under a different classification. I am not a teacher but I do not mind to report to him. I am not sorry I came although for the first two or three weeks the conditions of living, trouble with kids, etc., were so bad that I was in a bad way. I was cooked so differently was the trouble I had with living. I am getting used to it now or have got them in mind as to leaving out part of the garlic and get along fine. I am with any person against coming down here if he expects to have conditions the same as in the U. S.

Sour Stomach. Eat slowly, masticate your food thoroughly, abstain from meat for a teacher for a few days, and in most cases the sour stomach will disappear. If it does not, take one of Chamberlain's Tablets immediately after supper. Sour meats are most likely to cause sour stomach, so you may find it best to cut them out. While there are two sides to the coin, the changes are only one of interest you

The Winside basketball team will go to Wayne to play November 2. The following was received from Miss Evert Madach, writer of one of her many Winside friends:

I would like to attend some meeting at Winside on I could have a discussion with you as of old. Are you having sociology or literature class this year? I have work along those lines here and find it very interesting. I think this a wonderful school. The campus and architecture are beautiful. One has the opportunity of hearing and seeing some very fine things here. This was sent from G. P. Woodlawn, Chicago. Miss Madson will be remembered as the lady of the Herald Ford.

Result of Tag Day. The proceeds of Tag day on Sept. 23, amounted to \$105.45 of which was sent to be used on the million dollar fund for the soldiers' library and the following letters were received in response: Lincoln, Neb., Sept. 28, 1917. My dear Miss Bayes:

I congratulate you on the splendid results of your campaign for the army library fund. It must have been gratifying to you to have the people respond so well. Thanks very much for your efforts, and I am sure that no money spent for the soldiers will bring more pleasure than this 'Cordium yours,' Charlotte Temple, October 1, 1917.

Dear Sir:—This can be only one to express some measure of the gratulations which the library war council sends you on the patriotic response of Winside to our nation's need. Cordially yours, Harold Braddock, Director. The remaining \$60 was given to the local Red Cross work.

The meetings at Pleasant Valley will continue all week except Saturday. Preaching twice, afternoon and evening on the 28th. Let all who will come. FEDERAL PRICE FIXING  
Prices That May Be Established  
According to Congress.

There has been much discussion about what prices the Food Administration can fix. Prices have been fixed on coal and wheat by authority conferred by the Food Control legislation. Prices have also been fixed on iron and its products, but not under the Food Control law. This was done by agreement with the iron and steel industry and is voluntary on their part.

The Food Control legislation confers power on the president to fix prices on coal and if necessary on any other article. It also confers authority to buy and sell, and therefore to fix prices on wheat, flour, meal, beans, and potatoes. These are the articles for which the president is given the price fixing power.

The president is given power to license any business of the country when the business annually exceeds \$100,000. The power under such license is conferred to regulate profits in any line of business but not to fix prices. Authority is given over ferrous and agricultural implements under the license provision but the power to fix prices is not conferred only the power to regulate profits.

CHURCH CALENDAR

The German Evangelical Lutheran Church. (Rev. R. Moehring, Pastor). Next Sunday there will be Sunday school at 10 o'clock and preaching at 11 o'clock. The pastor will preach at Winside in the afternoon at 3 o'clock.

St. Paul's English Lutheran Church. (Rev. J. H. Petteroff, Pastor). Sunday school 10 a. m. Worship with sermon at 11 a. m. and 7:30 p. m. Luther League at 4:45 p. m. Mrs. Clara Seay will entertain the Ladies' Aid Thursday, November 1.

First Baptist Church. (Rev. Fletcher J. Jordan, Pastor). The regular morning worship in the Baptist church will be the report of the Baptist state convention held Sunday morning at 10:30. The evening service begins at 7:30. The subject of the sermon will be "The Pedigree of Sin." Special music at both services. You are earnestly invited to be present next Lord's day.

The opportunity is still open for each member of the Sunday school to add new pupils to the school. We should endeavor to remain next Sunday in the Bible school in order to bring up the attendance and also to study God's word. The session begins at the conclusion of the morning service and continues for one hour. We are depending on everyone in our church and congregation to help us continue the noble work which has characterized our school in the past.

A NATION-WIDE CAMPAIGN  
Plans Made for Big Drive in Interest of Food Conservation.

The county executive council on food conservation and the women's county committee on food conservation held a meeting in the city hall Saturday afternoon for the purpose of making definite plans on the big drive which lasts one week, beginning October 28.

The supplies, such as pledge, home and kitchen cards, were given to the county superintendent, who mailed them to all the teachers in the county. The teachers are to be assigned the duty to go to a card school which is to be taken home and signed by the mother and sisters. The cards must be returned, whether signed or not. If they are not signed, the teacher's duty is to find out the reason and report to headquarters.

Presbyterian Church  
(Rev. S. X. Cross, Pastor).

We are pleased to have you at any and all of our church services. Come and worship with us on the coming Sunday. The theme for the sermon will be "The Beginning of the Gospel." That is for the morning worship. Special music will be rendered by the best of the junior department of the bible school have been organized and recognized and the certificates will be on the walls of the department next Sunday. Come to the evening services on next Sunday. We will welcome you. The sermon topic will be "The Compulsion." A good program of music is being prepared under the direction of Mrs. A. R. Davis, chorister.

Methodist Episcopal Church  
(Rev. D. W. MacGregor, Pastor).

Sunday school 10 a. m. Officers and teachers be at your best in Sunday school work. The best of the better grows. This is good philosophy.

Epworth League will meet at 6:30 p. m. Miss Glederslev, leader. Last Sunday evening a music service was a hummer. Number printed nearly the half hundred mark. Let us make it seventy-five next Sunday evening.

The Epworth League at 6:30 p. m. This is surely a live wire bunch. The pastor loves them as they are whole-souled in their work. Miss Adams is surely a success as leader in the Epworth League.

Prayer meeting on Wednesday evening. Come, have a spiritual feast of holy thought.

Everybody welcome to our services. The following ministers met in Wayne on Monday from different parts of the district: E. M. Farman, D. D. District superintendent, Norfolk; Geo. M. Bing, Laurel; E. E. Sala, Blomfield; R. J. McKenzie, Carroll; and Dr. J. R. Gettys, Lincoln. They met at the parsonage with pastor MacGregor. The object of their meeting was to plan and organize the district for the raising of a half million pension fund for the old and retired ministers.

Rev. MacGregor goes to Randolph to deliver an address on the "New Financial Plan" on Friday evening. Randolph is coming to the front as never before in the church world. Business methods is their slogan. This year they built their new church, and raised their pastor's salary \$300 over last year. After the ladies of the church will serve a banquet.

VISIT CAMP FUNSTON  
W. H. Echtenkamp of the Wayne vicinity, and Jurgen Cook of Concord arrived home Monday from Camp Funston, where they visited their sons, Harry Echtenkamp and Louie Cook. They left here Friday and spent Saturday and Sunday with the boys in camp. They were very happy to see their boys and found all enjoying the best of health and in the best of spirits. One day while at the camp, a large party of men, including some from the Wayne county, started for the camp at Denning, N. M.

Build System in France  
Americans Build and Man Plant  
Connecting Encampments.

An American telephone system, built by the American telephone men with American wire, American switchboards, American instruments and operated by Americans, has just been completed in France. This connect General Pershing's headquarters with all the encampments and training quarters of the American forces. Everything used except the wires came from the United States.

Two battalions of the army men who built the first American telephone system in France. The Bell Telephone system of the Bell Telephone system. About 2,500 other former Bell employees are already in France with the army signal corps or in mobilization camps awaiting orders to embark.

"It is a great treat for the officers to be able to talk through an American instrument instead of the types used on the continent," says a former Bell employee. "Officers using the new army telephone system in France are not the first of the American forces to find their way to France. They had their had at home. In France the government owns and operates the telephone systems, and an army officer must wait his turn like the citizens in time of war, in the United States, where the telephone systems are privately owned. Military requests for telephone service have only to be made to the United States government. Telephone calls have been given precedence over all others since the war began.

According to a Paris dispatch, when the first of the American expeditionary forces reached a French port, an American general expressed a wish to report to General Pershing, who was at the port postoffice where the long distance lines of the government telephone system converge. "Number 24, if you please, sir," the telephone operator called the officer when he gave her his call for General Pershing.

"Twenty-three," returned the General in astonishment. "What does that mean?" "Twenty-three," called before you, Monsieur le General. Your turn will come in about four hours."

"Cancel the call," ordered the General at the same time calling his Chief of Staff.

"String up four telephone wires between here and Paris and start work at once," Use the poles of the French wires.

The telephone men of the American army were at work in five minutes. In ten the General was surrounded by a veritable host of French government telephone officials, large and small, each excitedly exultating.

"The French officials protested, and they begged for a commission. But the American permission was obtained, an authorization was necessary," they said. All was for no avail. While they talked the American soldiers kept on stringing wires and they went through and is now in use.

Coats and Suits That Are Not A Bit Ordinary

To make claims is easy. Perhaps that is why so many do it. To live up to it as in our case ahead of what one expects from reading constant claims of superiority, is characteristic of the Orr & Orr organization.

There are well defined reasons why Women's Apparel from this store is better styled and better tailored than one finds generally. Our display will demonstrate better than words can do, our meaning.

Bedding

"Don't ask us anything about the proportion of wool in our blankets," said one representative to us. "No one else is asking; they are taking what they can get. Wool is mighty scarce." And we are selling blankets at prices that are most reasonable. We have a few covered wool batts for comforters at \$3.00

October Offering of Furs

AN EVENT of extraordinary interest, because it chronicles news of the best of Furs at unusual prices. The pelts for these furs were selected and purchased many months before the last sensational advance and consequently when a woman comes here to purchase she is sure of the highest quality and the lowest price.

Dress Gowns Grow More Interesting Every Day

We are lucky to have them, and you will be lucky to share them. Every day the papers are talking about the scarcity of wool. We have plenty of these materials NOW of all kinds and are featuring them at low prices.

CROP COMPARISONS.

"THE SPY"

VITAL, SENSATIONAL AND TIMELY WILL BE SEEN AT THE CRYSTAL, NOV. 12-13

This wonderful motion picture production by the Fox Film Corporation deals with the devilish spy system as practiced in this country by the Prussian autocracy. Dustin Farnam, a known star, appears in the leading role, and every one should see how he fooled the kaiser. "The Spy" is another marvel of the moving picture world, and stresses a story of intrigue in a way that excites intense interest from start to finish.

Rich Comedy at Crystal

Large Audience Delighted With "Baby Mine" Shown on Screen.

Madge Kennedy who made her debut in motion pictures as the wife of Mary Kay's famous farce, "Baby Mine," the second Goldwyn production, appeared at the Crystal theater Thursday evening.

The audience was kept laughing from start to finish as the thoughtless young bride who loved her husband, but forgot to show it, got from one unfortunate plight into another. The misadventure that resulted when the young wife tried to palm off a bogus baby on her husband as her own, kept the audience in roars of laughter.

The story centered around the young wife who was always going to tell her husband the "real truth," but seldom did. She denied having had dinner with Jimmie, the husband of her girl friend, and then the family row started. The husband left home suddenly and had been absent several months when one day he received a telegram saying, "Mother and son doing well," whereupon he immediately started for home. Jimmie, one of the conspirators, had gone to the children's home to get a baby, but before he reached the home of the baby, her husband had returned. After extravagant attention to the infant, the telephone rang and announced the mother of the baby, who had come for her child. Conspiring mother entered at an opportune moment and announced the fact that they had "twins at their house," so Jimmie was sent to borrow money from the place of the stolen one. When he returned with the little one, the husband was amazed. He was then informed that he was father of twins. In order to satisfy the jealous mother who was waiting downstairs for the baby, the plotters must find another baby to carry out the twin story. They decided to borrow the washwoman's other baby and Jimmie again bungled the plot by bringing it into the room in the presence of the young wife's husband. There was nothing to do but tell the husband that there were "triplets" and they wanted to break it to him gently.

The story unravels by the parents coming to the home and claiming their babies, while the young wife admits to her husband that she only borrowed them and if he would forgive her she would tell him the "real truth."

eral years, but for the past month had been visiting home folks in Princeton, Ill., has decided to remain at home. His brother joined a branch of the army, making it necessary for Edwin to stay at home.

**Liberty Loan Day.** Liberty Loan day was duly observed in Wakefield yesterday. At three o'clock the school children formed in line in divisions, headed by their teachers, and marched to the grandstand on Main street. Each child carried a flag, gift of the patriotic committee, and each division carried a large banner, with the words, "Buy a Liberty Bond," stamped on it. The parade was marshaled by Rev. S. H. King, Rev. J. T. Kraft, Andrew Hyppse, and Prof. M. L. Zerkel. Two stirring addresses on "Patriotic Ideals" were delivered by Rev. S. H. King and Rev. M. Kraft. Following the speeches was the parade, which included besides the school students, a float by the commercial club, bearing a banner which said "We bought a Liberty Bond." The Christian Endeavor society of the Presbyterian church also rode in a float, and carried a banner saying, "We bought a Liberty Bond." Other civic organizations marched in the parade and made a grand showing of patriotism.

In the evening, a mass meeting was held in the auditorium, and several hundred people turned out to hear the patriotic program which consisted of music by the Wakefield cornet band, selections by the Wakefield high school orchestra, and an address by Rev. Gail Hyppse, and the address by Rev. H. Stone of Sioux City. The meeting was presided over by J. D. Haskell and was a rousing success.

**School Notes.** School was dismissed Wednesday afternoon at 2 o'clock to permit the students to take part in the parade for the purpose of boosting the liberty bond movement.

Six boys are absent from the high school in order to husk corn. Their absence will not be counted, but all work will have to be made up on their return.

The Freshman class had charge of the program Tuesday morning at the opening exercises. The following program was enjoyed: Cornet solo, Harold Henry; reading, Edith Johnson; and current events paper, Edith Johnson.

The following is the spelling report for the past week: Those receiving 100 per cent were Merle Helm, Marion King, Mildred W. Carter, Carl Peterson, Gail Hyppse, Ada Lundberg, Melvin Collins, May Pearson, Pauline Hyppse, Elvira Mortensen, Lucile Schurz, Ethel Johnson, Alice Henry, Edith Johnson, Edith Kane, Ella Nuerberger and Evelyn King. The lowest average of any pupil was 70 per cent. The ninth grade averaged 89.53 per cent, tenth grade 89.53 per cent, eleventh grade 87.45 per cent, and twelfth grade 92.78 per cent. The boys' average was 82.70 per cent and the girls' 95.82 per cent. A double-header basket ball game will be played in the gymnasium in Wakefield Friday evening, with the boys' and girls' teams from Carroll.

**Obituary.** John Decker Spencer was born in Orange county, New Jersey, October 4, 1832. When quite young, he married Charity Goldsmith and by this union three children were born, of whom only two, Mrs. Mary E. Harris, of Home, Neb., survives. His first wife dying in 1863, Mr. Spencer married Harriet Carrnike on August 14, 1864. They moved to Ames, Ia., in the spring of 1872, being among the first settlers in Dakota county. In 1875 they moved to Wisconsin, and lived there until 1898, when they moved to Wakefield, Neb., and here they remained until the end. Mr. Spencer had been failing for some two years, and for the last year had been very weak. He quietly breathed his last in sleep on the 23rd of October, 1917, at the advanced age of 85 years and 16 days. He leaves to mourn his loss, besides the above named, a wife and eight children, namely: Frank H. Spence of Knapp, Wis.; Mrs. C. C. Cooley of Wakefield, Neb.; George Spencer of Anoka, Minn.; Mrs. Lillian Smith of Hudson, Wis.; Mrs. Leona Chase, Mrs. Ida Barto, and Mrs. Della Barto, all of Wakefield, and Edgar Spencer, Fourth U. S. Cavalry, Honolulu, T. H. All but the latter were present at the funeral which was held from the house on Monday afternoon. Rev. Frank Williams, pastor of the M. E. church, officiating, the singing being rendered by a quartet party from the choir of the same church. The body was laid to rest in the Wakefield cemetery. Besides the foregoing, Mr. Spencer leaves twenty-four grandchildren and thirty-one great-grandchildren.

**Swedish Lutheran Church.** (Rev. J. T. Kraft, Pastor.) Members of the town district of

the Ladies' Aid society are meeting this afternoon at the home of Mrs. F. E. Dunlap.

Prayer meeting will be held this evening instead of Wednesday evening on account of the liberty loan celebration, which took place last night.

The regular monthly meeting of the Luther League will be held Friday evening in the church.

Sunday school at 10 o'clock. Teaching service in the morning at 11. Evening service at 7:30. Midweek prayer meeting at 7:30 o'clock.

Young people's business meeting on third Friday of each month.

**Presbyterian Church Notes.** (Rev. S. H. King, Pastor.) The subject of the sermon next Sunday morning will be "A Great Contrast," found in I Peter, 1:4-19. In the evening there will be a union temperance service at the Methodist church at 7:30 o'clock. Dr. W. MacGregor, pastor of the Methodist church in Wayne, will deliver the address. The object of this temperance meeting at this time is to obtain a quarterly meeting of the Union Gospel Temperance League of Wakefield. All should attend this meeting.

Sunday school at 10 o'clock. G. W. Henton, superintendent. Morning service at 11. Junior C. E. at 3 p. m. Miss Vida Leamer, superintendent. Senior C. E. society at 7 p. m. Evening service at 8 o'clock. Prayer meeting on Wednesday evening at 7:30.

**Methodist Church.** (Rev. D. W. Williams, Pastor.) Sunday school attendance is increasing. Help to keep up the increase by all being out Sunday morning next. At the morning preaching hour the pastor will take for his subject, "The Antidote to Weariness."

At the evening church service the topic will be "Christ's Holy Made Easy." The leaders will be Ruth Nuerberger and Margaret Murphy, and we bespeak for them a goodly crowd.

The canvassers for promises of attendance during "Wine-ye-choom" week please bring in the results of their canvass on Sunday sure.

At the evening hour there is to be held a church union meeting of all the local churches, under the auspices of the Wakefield Gospel-Temperance union, when a special address will be delivered by Rev. D. W. MacGregor, pastor of our church at Wayne.

Remember the League is planning a special treat in the shape of a Halloween social, which is to be held on Tuesday evening next, the 29th before Halloween. It is not given us to tell what mysteries are in store, but better be on hand in the basement of the church on Tuesday evening when the witches begin business.

**SOCIETY.** Mrs. John Harrison entertained eight young people at a six o'clock dinner Sunday in honor of Fred Harrison who expects to leave for a training camp soon.

Miss Ruth Davis entertained at a six o'clock dinner Wednesday evening in honor of Fred Harrison and Janet Hyppse who leave soon with the next quota of soldiers from Dixon county.

Mr. and Mrs. Walter Howard entertained a party of young people at an oyster supper Tuesday evening in honor of Gail Hyppse who expects to leave soon with the next quota from Dixon county.

**A Surprise Party.** Eight friends of Mrs. Dan Patterson surprised her Tuesday afternoon by bringing their knitting bags with them to her home and spending the afternoon with her. A pleasant time is reported. At five o'clock an

elaborate lunch which the guests part brought with them; was enjoyed.

**A Class Party.** Miss Alta Chinn entertained the members of her Sunday school class of the Methodist church at her home Saturday evening. Games and various kinds of amusements were planned for the little folks and they report a pleasant time. At an appropriate hour the hostess served dainty refreshments.

**Miss Haskell Honored.** Miss Julia Haskell of Lincoln is a guest of honor at a party at the home of Mr. and Mrs. J. D. Haskell this afternoon. The guests are young ladies, friends of Miss Haskell who formerly lived in Wakefield. The afternoon will be spent in knitting. At an appropriate hour a dainty two-course luncheon will be served.

**A Surprise Party.** Miss Anna and Miss Grace Kay planned a surprise party on their brother Lewis last Friday evening. Twenty young people were invited to their home to help Lewis celebrate his twentieth birthday anniversary. They report a jolly evening, spent in games and various stunts. At a late hour delightful refreshments were served.

**Mrs. Henton Hostess.** Mrs. G. W. Henton entertained her Sunday school class of the Presbyterian church at a party last Wednesday evening. This class has the distinction of winning the honor for the highest average in attendance and collections. The party spent the evening in games and a general good time. Light refreshments were served at the close of a pleasant evening.

**Mrs. Haskell Hostess.** Miss J. D. Haskell was the guest of honor at a party at the home of Mrs. J. D. Haskell Tuesday afternoon at home. Miss Julia Haskell of Lincoln was the guest of honor. The ladies brought their knitting with them, and the afternoon was pleasantly spent in needlework and visiting. At five o'clock the hostess assisted by her daughter, Miss Edith Haskell, served a dainty "flourvortzel" two-course luncheon.

**In Honor of Guest.** Mr. and Mrs. R. H. Mathewson entertained twenty young people last Wednesday evening at their home in honor of their niece, Miss Irene McKichen, of Cherokee, a. The early part of the evening was spent at the picture show, after which they went to the Mathewson home, where they

# Wakefield's New Garage

## Wakefield Motor Company, William Kay, Proprietor, Moves to New Quarters, Across the Street From High School Building.

William Kay moved into his big, new garage this week, and has everything arranged to serve and accommodate the public. The new garage is modern in construction and equipment in all respects. The main building is 50 by 150 feet, the rear arranged for a repair department which is in charge of thoroughly competent experts. A ladies' waiting room in the front of the garage will be a source of much comfort and satisfaction. An adjoining apartment is used for an office and display room, built for the purpose and giving every advantage for show and inspection.

### FORMAL OPENING NOVEMBER 4.

While Mr. Kay is doing business at his new garage, he has postponed the formal opening until Saturday, November 4, when he will have a parade of the cars he handles,—the Overland and Kissel Kar—enlivening the occasion with brass band music. Latest models of the Oakland and Kissel Kars will be on exhibition. A man from the Oakland factory will be present to explain the merits of the Oakland automobile. Also an Omaha represen-

tative of the Kissel Kar Company will be on hand to show off the advantages of its product. An interesting demonstration of U. S. tires will be made. Remember to be in Wakefield on November 4 and attend the grand opening.

### MR. KAY CAME TO WAKEFIELD IN THE EIGHTIES

Mr. Kay came to Wakefield in the early eighties. Dixon county people thought so much of him that they elected him county treasurer two terms, for the second term without opposition. He has been engaged in the automobile business nearly four years. Former quarters on north Main street proved too small long ago, and he determined to put up a building that would adequately accommodate his business. So he set to work this year to realize his need, and the result is the palatial new garage across the street from the school house. That Mr. Kay's enterprise will be appreciated and rewarded by increasing business, there is no doubt.

## Announcing the New Oakland Sensible Six

The New Oakland Sensible Six Is Here. It is a continuation of the remarkably successful Oakland Sensible Six of the past three seasons, which has been annually refined, improved and strengthened so that now we are offering tomorrow's car to you today—the forerunner of the type of automobile that shall soon command America.

Scientific development of the engine now makes it more powerful, more speedy at the getaway, more active in traffic and more economical in use of fuel.

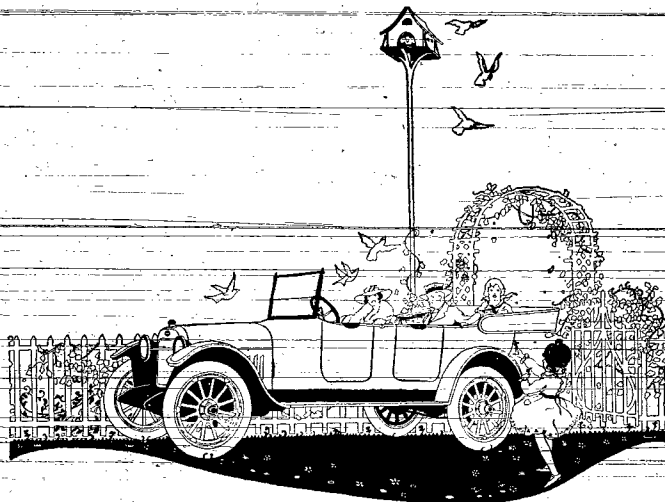

Improvements in the design of intake and exhaust manifolds secure the utmost power value from today's gasoline.

The overhead valve high-speed, six cylinder engine now delivers 44 horse power at 2600 r. p. m. or one full working horse power for every 48 pounds of car weight.

The new force feed oiling system gives thorough lubrication to the vital moving parts of the engine.

Higher cooling efficiency has been obtained through the use of a larger pump and new type bi-plane fan of powerful suction.

Proper design has contrived a full 106 inches of body room on the 112 inch wheelbase—affording seating capacity and leg room equal to that of many cars of much longer wheelbase.

Long, specially graded, semi-elliptic underslung springs and extra large tires give ideal riding comfort—accentuated by the deep genuine leather upholstery.

The fine appearance of the new Oakland Sensible Six is enhanced by a sloping windshield of new design; an oil gauge of pressure feed type on the dash; a deeper radiator; a higher body wall and the tire carrier at the rear of the car.

These are just a few of the features that contribute to the complete excellence of the new Oakland Sensible Six.

See all of them in the car itself in our display room.

## Every Inch A Car — THE KISSEL KAR — Every Inch A Car

Since the introduction by Kissel of the All-Year Car idea no other subsequent development in motor car construction has approached it in importance or effect. It has wrought quick and almost revolutionary changes on the automobile map.

It has changed the habits of motorists, revised the plans of motor car manufacturers, readjusted the season of distributors, and made the automobile a social and commercial neces-

sity—a vehicle of rapid and convenient transportation twelve months in the year.

As other manufacturers of convertible types approach a little nearer to Kissel standards, Kissel invariably moves a step forward, maintaining by a safe margin, the traditional Kissel leadership in convertible motor cars.

This year the evidence is more convincing than ever before.

in the refinements and improvements in the ALL-YEAR Car that can be enjoyed in the fullest measure in the HUNDRED POINT SIX with its sturdy chassis and wonderful KISSEL-BUILT motor.

Kissel not only keeps abreast of modern progress in automobile designing and manufacturing, but consistently maintains an advanced position in the progress toward the ultimate in motor car perfection.

Five miles east and three-fourths of a mile south of Wayne and 3 miles west and 3 miles south of Wakefield.

...On...  
**Thursday, Nov. 1**  
Sales commences at 1:30 o'clock p. m.

PLAINVIEW FARM WHERE SALE WILL BE HELD.

The thirty male pigs in this offering are from the best blood lines of the breed. They were sired by Glendale Bud, a grand type of hog purchased from Edgar Taylor of Plainview. Dams of these pigs trace back to such well known animals as Blue Ribbon model owned by Wm. Moderow of Beemer, and Golden Model Fourth owned by Henry Stuthman of Pilger. Leading breeders of the state have contributed to the superior bloodlines so conspicuous in the Sandahl herd. Every one of the thirty male pigs to be sold is of good bone and excellent color, perfect in form and flesh, and will prove an animal of which any breeder may be justly proud.

All are registered, and pedigrees will be on exhibition sale day.  
Come to Plainview Farm November 1 and see a fine group of cherry red males.

Ohio and Indiana particularly, were called in defiance of the orders of union officials and the pleas of Fuel Administrator Garfield. A similar strike in the southwestern field was averted. In all more than 100,000 miners were affected by the strike. The slight delay necessary for Dr. Garfield to examine the tentative wage agreement received by miners and operators, which if approved will involve upward revision of coal prices, was the occasion for similar request. The Government field conveyed a veiled threat to use drastic measures to compel operation of the mines if that becomes necessary.

Eastern railroads decided to ask the interstate commerce commission to permit commodity rate advances, at least temporarily, and western roads were said to be preparing a similar request. Trainmen and yardmen of northwestern lines in the United States and eastern lines in Canada have decided to demand a general wage increase of not less than 20 per cent.

**THE FIELD OF BUSINESS.**

SIoux City Journal: Financially, the Liberty loan campaign continued the most important event in progress during the last week, as during that preceding. A speeding up of efforts and a corresponding improvement in results led to a change in the focus of the treasury department chiefs. Loans by the end of the week were believed to have passed in actuality \$2,000,000,000. Obtaining of the fixed minimum of \$3,000,000,000 was considered to be assured, and lively hopes again were felt as to the possibility of touching \$5,000,000,000. The present week is to be the last of the week.

A feature of the government's policy of mobilizing all the nation's gold reserves as far as possible under the control of the Federal Reserve Board was the pressure exerted to bring all banking institutions of size into the reserve system. The response was gratifying, many banks

which heretofore had held aloof from the government financed an agreement with Mexico whereby gold shipments to that country again will be permitted on the promise of Mexico that the same will be exported to the United States. The United States treasury holds 6,000,000 Mexican pesos to be returned into American silver pieces, this being made necessary, for the first time in the country's history, by the shortage of silver coins. Additional loans to the allies brought the total to \$2,736,000,000. Liberty bonds of the first issue sold during the week at from \$97.50 to \$98. Call money ranged from a minimum of 2 1/2 per cent to a maximum of 4 per cent. Time loans went at from 2 1/2 to 3 1/2 per cent. Bar silver continued to drop, approaching the \$160 limit.

Asserting that regulation of industrial prices concerned in the handling of foodstuffs had brought about price reductions at wholesale and had assured continuance of more moderate prices, the national food administration notified the public that only a disposition of retailers to profiteer can now prevent distribution of food staples at reasonable figures. The government will publish weekly wholesale price lists, to enable the public to detect unreasonable prices.

## This Is Edison Week

Industries founded by Thomas A. Edison are observing this week as the thirty-sixth anniversary of the invention of the incandescent light by the great inventor. Call at this store and hear the wonderful re-created music from the Edison machine. It will be appreciated as a marvel of perfection and charm.

The Quartet from Rigoletto is a new one that will appeal to the fine sense of every music lover. Ask to hear it.

Mr. Edison's favorite invention is the New Edison—a phonograph with a soul. Direct comparison between the living voices and the re-created voices has proven this to be true. This is the holiday model and bears the direct seal of Thomas A. Edison.

See the Edison window in our store. Ask for a demonstration.
