## "Wear-Ever"

### Aluminum Utensils

are a powerful ally in your war on waste—they save food, fuel and time

The "Wear-Ever" Roaster is an "every day" utensil. In it you can prepare—at one time, on top of the stove—an entire meal consisting of a delicious roast, macaroni, baked apples, peas and carrots, and even a dessert such as baked apples, rice pudding, etc.

In addition it is excellent for stewing, stewing food, cooking fruits and vegetables, and for baking bread.

It is light, bright, easy to keep clean, and compact.

"Wear-Ever" aluminum utensils are made from thick, hard sheet aluminum. They have no seams or leak or catch and hold dust and dirt. The corners are rounded for easy cleaning. They are pure, safe, sanitary. They are made to save you money. One "Wear-Ever" utensil will outlast several ordinary ones. Their wonderful durability saves the expense and annoyance of constantly buying new cooking utensils.

Save less time in the kitchen; each year whole meal in one time in a

# Will You Help Bring Back The Boys of This Community?

**O**UR boys, the boys from this town and this county and this state, are fighting the Huns. They are in the trenches in France, they are sailing the U-boat-infested seas, they are going "over the top" in the face of German cannon and machine gun fire.

Many, many more of our boys are now training and will soon be in France, and more are yet to be called.

And, remember, these are our boys, those who are near and dear to us. They are doing their ALL. They are giving their ALL. They are prepared to make the extreme sacrifice that our homes, our town, our nation, may escape the ravages of the Hun.

We want them—one and all—to come back to us—

## Will You Help to Bring Them Back?

Will you help to provide them with the things they need, with clothes and food and munitions, that they may complete as quickly as possible the terrible task assigned to them?

Will you support our boys while they are fighting for us, fighting the German autocracy that seeks to destroy our ideals of liberty and justice?

Compared to their heroic sacrifice our part is but small—that of providing the funds to keep them equipped; to build and man the ships that will transport their food, their clothes, their guns and their ammunition, and to pay for these things.

Yes, we, the people of this community, will support our boys.

**We will do it by buying bonds of the Third Liberty Loan; by buying all these bonds we can; by making such sacrifices as are necessary to do this. That will be our support for our boys.**

# Have You Looked Over That Planter?

To find out how much blacksmithing will be necessary to put it into tip top shape for the season.

Inspect your plows and discs. There may be bolts missing here and there or some part that is weak and needs repairing. No matter what ails your machinery we can fix it up so you won't have to stop and patch it up when you are the busiest. You know as well as I do that there is nothing so gratifying as farm machinery that really works and doesn't get out of sorts.

### WHERE THE SWEATERS GO

Women, where do your sweaters go?

"Straight to the soldier boys and now here else," replied Mrs. Idelle Gibson, who has returned from France after seeing everything the American Red Cross does for our boys over there.

"When I arrived at our American training camps in France and saw our boys, some of them just back from the trenches, with the sweaters showing under their tunics, I wished every woman in America could realize just how much comfort these garments are bringing to those they love," continued Mrs. Gibson.

"Since I came back, every time I see a woman knitting socks I want to go to her and tell her how I saw, on Christmas morning, at one of our largest training camps in France, boys holding their socks to their breasts and fingering them, much as a child does a beloved red wagon."

"I just want to add one word more—something that was hurled at me from the Red Cross headquarters at Paris, from the trenches, from the sector which our brave boys are holding now. The Red Cross is, first of all, an organization to help with our boys. Every man, woman and child who enrolls in it is a soldier, and is pledged to fight in every way possible against German propaganda and German autocracy."

Mrs. Gibson is giving her experiences to the American people in a series of articles copyrighted by the Newspaper Enterprises association. She states that not a sweater or other knitted article has ever been sold by the Red Cross, but are given to soldiers impartially.

### AUTOMOBILES IN NEBRASKA

Lincoln Trade Review: The record of automobiles in this state is in a large way a record of the universal and diversified prosperity that there is in Nebraska.

According to the report of the secretary of state, he has already licensed the first three months of this year 141,950 automobiles. During the month of March 31,400 licenses were issued and with the record of last year before it, the secretary of state estimates that with the same percentage of licenses in the last nine months of this year that there were in 1917, the total licenses of automobiles for the year will reach 180,000. According to the same official, Nebraska now stands first in per capita number of cars owned, with a per cent over Iowa.

It has not been an active season thus far, this year in the sale of autos. The severe and heavy winter greatly delayed the average movement of cars from dealers to purchasers. Every dealer anticipates that if the cars are obtainable the next two or three months will see a great increase in sales, even over the corresponding month one year ago.

With bank deposits increasing at the rate of \$100,000,000 in three months, there is a prosperity in this state that is being manifested in the purchase of modern pleasure vehicles. The record that is made in automobile sales and licenses in Nebraska, is only in keeping with

### FOLKS NEED NOT WORRY

Captain Archie Roosevelt, son of the ex-president was well on the road to recovery, from wounds received from a shrapnel shell, when a correspondent saw him in the Red Cross hospital in France. Said he: "The Red Cross is doing everything possible for us. If our folks could see the way we are being taken care of they would stop worrying."

Thousands of letters are coming home from the American soldiers in France with messages of approval of Red Cross activities. This testimony will have the greatest weight with the American people when they are asked next May to invest another \$100,000,000 in Red Cross service for their sons and for the war-stricken people of Europe. It is evident that this service which the Red Cross gives to our sailors and soldiers, of whom there are nearly 2,000,000 now, is just as much of an investment as money that is paid for electricity, street car transportation and other public service utilities. The value received by the parents and relatives of the enlisted men is just as tangible as the food through Switzerland so that he will not go hungry in a German prison camp.

The cumulative proof of Red Cross utility undoubtedly will cause the American people to astonish the world by their support of it in the forthcoming campaign to replenish the treasury.

**TEACHERS RELECTED.**  
Pilger, Neb., April 6.—The board of education relected the entire corps of grade and high school teachers at an annual salary of \$10 per month over last year's

schedule. Mrs. Elsie Vaught is retained as principal of the high school; Supt. E. K. Rogers was re-elected for two years at an increase of \$100 the first and \$200 the second year. This is Mr. Rogers' third year in his present position.

**Constipation and Indigestion.**  
These are twin evils. Persons suffering from indigestion are often troubled with constipation. Mrs. Robert Allison, Mattoon, Ill., writes that when she first moved to Mattoon she was a great sufferer from indigestion and constipation. Food distressed her and there was a feeling like a heavy weight pressing on her stomach and chest. She did not rest well at night and felt worn out a good part of the time. One bottle of Chamberlain's Tablets corrected this trouble so that she has since felt like a different person.—Adv.

### Nature Cures, the Doctor Takes the Fee

There is an old saying that "Nature cures, the doctor takes the fee," but as everyone knows you can help Nature very much and thereby enable it to effect a cure in much less time than is usually required. This is particularly true of coughs, Chamberlain's Cough Remedy relieves the lungs, soothes the tough muscles and aids in its expectation, allays the cough and aids Nature in restoring the system to a healthy condition.—Adv.

**The Bell Telephone Links the Fighting Forces and the Great Industries**

The high development of telephone efficiency in this country gave the United States, when it entered the war, a superiority over all other nations for quick communication.

The nation's capital and the various military headquarters and camps are linked with all the great industrial centers by long distance lines of the Bell Telephone System, which reach 70,000 communities.

Thousands of miles of special telephone wires have been turned over to the government for its exclusive use.

In spite of the war and what it has meant to this company in the increased number of telephone messages to handle, the enlistment of so many of our trained men, the shortage of equipment, the scarcity of labor and the high cost of telephone material—

In spite of all these obstacles, we are meeting the needs of the public for telephone service in a remarkably successful way.

He was 82 years of age and was accompanied to Scribner for burial by the son, Leon Peltzer, and Mrs. William Peltzer, the widow. The pall bearers were William Fletcher, Ernest Strate, Fred Fenske, and August Kruger. His retiring and unassuming disposition endeared him to his many friends and neighbors by whom he will be greatly missed. MONEY FOR THE WAR. Lincoln Journal: With the coming of the third drive for liberty bonds, America begins to see just how much it is faced with in the way of money requirements for the war. We know now what is required, and we can make our plans accordingly. March 31 ended the third quarter of the first fiscal year of the war. Hitherto we have been dependent upon the matter of the carrying of our money demands for the war. As late as last December government estimates had the year's expenditures going close to \$2,000,000,000. With three-fourths of the year gone the total expenditures of the government, including loans to the allies, have been \$3,292,645,000. If the rate of expenditure for the remaining three months of the fiscal year is the same, the total for the year will be about \$12,200,000,000. The government estimate last December was a half larger. This includes, it should be remembered, the sums loaned to the allies as well as the sums spent on our own account. Expenditures will grow somewhat no doubt, as the war advances and the government's interest charges increase. There is reason to think the increase will not be very great. There will be no cantonments to build next year. It is not expected that many of the wastes incident to the organizing of great new war activities will be cut down as time passes. Apparently our average annual war expenditures, including loans made to the allies, will run in the neighborhood of \$13,000,000,000 a year. Of this our own expenditures will be perhaps in the neighborhood of \$10,000,000,000, a full third less than we were anticipating six months ago. For the more nearly we manage to pay for this war out of taxes, the less burdensome will be the war's economic aftermath. This leaves the over \$6,000,000,000 a year to be met by bond issues. That, provided the loans to the allies are financed in other ways, means two such liberty loan drives a year each year. Knowing this, we can lay our plans. We ought, if possible, to make these loans out of our savings. Unless we do, the war is encroaching upon the nation's capital, a thing to be avoided if humanly possible. As the war goes on, we may need several billions a year in taxes and in addition save five or six billions to lend the government if we will set our selves to it. The government has arranged the payments on this issue of bonds in a way to make it convenient to pay out of savings. We have to pay but 5 per cent of our subscription when we make the subscription. We have nearly two months, or till May '28, to make the second payment of 20 per cent. We have nearly two months more, until July 18, to make the next payment of 35 per cent. Then we have till August 15 to pay the final 60 per cent. After that we have two months to get in shape for the next loan which will probably come in October. If we finance the war in this way, out of taxes and out of bonds bought by savings, we are fighting the war out of current income. That will mean that the country is not being impoverished by the war; that we can keep up the fight, so far as economic strength is concerned—and that is the determining factor in a modern war—until the war is ended, right whenever that may be. What Military Training Does. Cedar Rapids Republican: What a difference it makes! A score of high school cadets acted as escorts at the teachers' convention. They wore uniforms. They have had training along semi-military lines. They know the call of the bugles and the drum beats make their hearts gladder. And what a difference it has made in them. They did everything in order and properly. Their conduct was a fine character-builder in the world of education. When Manager Johnson of the Hotel Montrose, in recognition of their fine conduct, gave them a complimentary luncheon yesterday, the boys all sat at table like gentlemen. It is fine to see such things. They make us think better of the future. They make us do not matter so much, but the boys and girls, they are everything to this country of ours. A LITTLE SPEED. Chicago News: America is moving into the war with the majestic deliberation and force of a dreadnought swinging out to sea—but sometimes one rather longs for the speed and agility of a destroyer. HINDENBURG'S MISTAKES. Indianapolis News: How could Von Hindenburg say that we were unresponsive to Germany's peace intentions? Haven't we got an army on the west front that is growing larger every day?

### BREAD WASTE SERIOUS.

Omaha, Neb., April 10.—"He who wastes a slice of wheat bread is actually hindering the prosecution of the war," said Curtis W. Fay, the federal food administrator for Nebraska. "He is also endangering our chance for victory over Germany."

"One year ago we asked you to be neutral nation. We pledged the made good on our promise. We must make good the only way we can make good is to do what we promised. Any person who keeps wheat from the allies is guilty of helping directly to the success of the enemy."

"We must make good, and we must limit our consumption of flour to the one-half ration of one and one-half pounds per person each week at the most. Do your patriotic duty."

**FOUR-MINUTE CAMPAIGN**  
Rev. S. X. Cross, Chairman, Has Effected an Organization.

There is now in Wayne a company of more than twenty "Four-Minute Men," thoroughly organized for the campaign of the third liberty loan, under the leadership of Rev. S. X. Cross, chairman. This will probably be the greatest special effort ever attempted by this division of the committee on public information.

The keynote of the campaign will be: "Our boys are at the front; we here at home must do our own bit but our best to help them over there." The energies of every patriotic person must be bent this month to make the third liberty loan drive a great success. We must go over the top. The Four-Minute Men of Wayne may be counted upon to be in the front ready to sacrifice—their time—their comforts—and their labor at all times during these crucial weeks.

Uncle Sam says: "I want to see a Liberty Bond in Every American Home." Wayne proposes to do her part to see that this desire is gratified.

The special sphere of the Four-Minute Men is the movie theater. There they have been given excellent privileges of speaking. All speakers in the local theater will be assigned by the local chairman, who will distribute, instruct and check the speakers under the Four-Minute Men rules.

The Four-Minute Men are for the coming month also at the disposal of the local liberty loan committee for speaking outside of the theater.

The following are the assignments for the rest of this week and for next week:

Thursday, April 11, Prof. A. V. Teed.

### DR. DONAHEY TO SEATTLE

Leaves June 1 to Engage in Business With Former Employer.

Dr. R. N. Donahay who has been engaged in the optical business in Wayne very successfully for five and one-half years, expects to leave here June 1 for the purpose of locating in Seattle, Wash., where he will join in a partnership with J. C. Hutson, formerly of Omaha, by whom he was employed for ten years. Mr. Donahay has been hustling for himself for seventeen years, and has made good in every stage of life game. Mr. Hutson recently let Mr. Donahay go from his employ when he came to Wayne, and now wants him back as a partner, having made a very attractive business proposition. In Wayne Mr. Donahay has been active in public work. The past year he has served as secretary of the Public Service club, and has been a booster for public and private enterprises. His

**JOHANNES HANSEN DIES**  
Fatal Cancer of Stomach—Deceased Lived in County 27 Years.

Johannes Hansen died at his home eight miles northwest of Wayne, Friday, April 5, from cancer of the stomach with which he had suffered for about a year. Funeral services were conducted in the English Lutheran church Sunday by the pastor, Rev. J. H. Fetterolf, followed by interment in Greenwood cemetery.

Mr. Hansen was born in Holstein, Germany, January 15, 1859, and was heretofore aged at the time of his death 59 years, 2 months and 20 days. He came to America in 1883 and located at Millard, Neb., where in 1887 he was married to Wiecka Lueders. The family moved to Wayne county in 1891 locating on the farm where he died. He is survived by his wife and four sons and daughters: Henry and Will Hansen and Mrs. Carl Miller, jr., and Mrs. Tena Mahaffey. He leaves four brothers: Henry in Germany, Chris of Elkhorn, Neb., Dee of Elm, Oklahoma, and Herman of Omaha. Chris and Herman were in attendance at the funeral.

## WANTS TO RELIEVE STAR

An Admirer Invites Miss Mary Minter to Quit Movie Grind.

Some of Mary Miles Minter's admirers are simple kindly folk who come in from the back country to see moving pictures plus once in a while and are greatly distressed to witness the hard life pretty little Mary has to lead—associating with rough characters, in search for instance, and having to put up with the brutality of a bad father like Jim Skeam in "Her Country's Call," the latest American-Mutual production.

A simple old farmer's wife who signs herself "One who offers you a happy home"—with her name Caroline Dwyer—is obsessed with the idea that Miss Minter must be compelled by the necessity of making a living to work in distasteful surroundings, so she writes:

"We haven't got much, but the house is comfortable and my husband and I are very happy and will be mighty good to you. If you come to live with us all you'll have to do is milk a few cows and help me make the house." Write R. F. D. 11, Thomas Doly.

## "GIRL BY THE ROADSIDE"

There's something about street service dramas which always attracts. That is the knowledge that something startling is likely to develop at any moment. The average theatergoer likes that attribute known as suspense better than any other in the spoken or silent drama.

This is why "The Girl by the Roadside," the Bluebird photoplay starring Violet Mersereau, is certain to please. From the very beginning of the story, when the heroine, Judith Ralston, finds herself in a most distressing situation and is rescued under most unusual and unconventional circumstances, the story weaves its way in and out among incidents and situations both exciting and unexpected.

## POPULAR SCREEN STARS

Three Charming Girls Who Typify Distinctive Personality.

Have you ever stopped to wonder who made a star? We often have, and of course one of the first answers is personality.

Mac Marsh, Miss Kennedy and Mary Miles Minter are three stars who typify distinctive personality. Mac Marsh, whose whimsical character has endeared him to the masses, is the exponent of wholehearted, kindness, spirituality. Mac Marsh's devotion to her family, her mother, four sisters, a brother and two nieces, is the most potent factor in her real life and perhaps one of the things that has endeared her to her screen life—her "hominess."

Madge Kennedy, the girl with the wonderful eyes and smile, is characterized first of all by vivacity and then by a facility for feeling and making others feel the comedy of life. While in reality Miss Kennedy is a serious little lady, with studious inclinations, on the stage and screen she has always been associated with farce-comedy.

Of course, Mary Miles Minter's great charm is the appeal of youth and beauty. This child, the great American-Mutual star, lives in a world where, they say, the people are always on the lookout for a glimpse of her. Mary is absolutely unapproachable, recently she received her first real love letter and was so embarrassed that she blushed violently and fled from the presence of her amused mother and grandmother to the sanctuary of her own room. They are all three—regular girls. Motion Picture Magazine.

## SHE PLEASURES HER MOTHER

Thinks Singer's Art Has been "Naturalized" by Motion Picture.

The opinion of her family strongly influences Mary Garden in her choice of motion pictures. The Golden Star declares that the cinema is art not less than music is art. Each has its devotees, each demands much from its followers. She would no more abandon the screen for the stage than she would retreat from the drama. Once, she says, she pleases the other and

which is indissoluble to her happiness and artistic expression. Mrs. Robert Davidson Garden, mother of the singer, was frequent in the guest list at the home of her daughter's work in "The Splendid Sinner," and her comments were no less interesting than those of the star when she made her first appearance at the studio in Fort Lee.

"I wish she had done it sooner," said Mrs. Davidson, "but for my purpose no other company could offer her the artistic security guaranteed by Goldwyn. Mary is supremely happy here. Now I know why. Each visit I have paid has shown me additional reason.

"First of all, my daughter is under the direction of men and women distinguished in their own profession. Mr. Hugo Ballin, Miss Margaret Mayo, Mr. Edwin Carewe—it means a great deal to know that Mary is trusting herself to their guidance.

"As for her acting, I assure you the cinema is where she has needed it, really, all along. She will return to opera with her histrionic ability strengthened—naturalized, so to speak. Everyone knows that the routine of opera does tend toward artificiality. But not so with—you call it the silent drama, do you not? Here one is free from self-consciousness, from studied effect. The artist must not simulate emotion, but live it. The camera is far too searching, too clairvoyant, to let a deception escape or half-measure suffice. I assure you that my daughter is giving more of herself to cinema audiences than she ever thought necessary to give when she sang.

"It's all so wonderful and Mrs. Garden and I are tremendously proud of Mary. Nothing since the day we received the cablegram announcing her triumph at the Opera Comique as Louise has so thrilled us with pride in being the parents of the woman the world has never succeeded in stealing from us."

## BENEFIT OF HOME GUARDS

Survivors of Famous Canadian Regiment to Lecture in Wayne.

Sergeant G. V. Hanley, one of the thirteen survivors of the Princess Patricia's famous Canadian regiment, who spent 23 months in the trenches in France and Belgium, will give a vivid portrayal of his experiences on the western front in a lecture at the opera house, Wednesday, April 17, for the benefit of the home guards.

His lecture includes descriptions of many thrilling and terrific battles in the early days of the war, life in the trenches, conditions on the western front, the conditions which existed in 1914 and throughout the war up to the present time and by means of comparisons will show why the allies will win.

A noteworthy feature in connection with Sergeant Hanley's lecture is 5,000 feet of thrilling war pictures taken along the western front by dare-devil camera men, which show every phase of the great European conflict. These pictures were arranged and explained in detail by Sergeant Hanley as it is flashed on the screen.

"The film depicts conditions along the front line in the most beautiful and now battle-scarred France is shown with the important cities of Verdun and Ypres, where the most desperate battles of the war are now being fought. The film shows every phase of the great war from the front line trenches, with battles in progress, to the hospitals behind the lines.

Life-in the Trenches vividly portrayed.

The film shows the German and French front lines, which are 40 feet apart, with a terrific battle in progress. This scene shows the vast importance of bombs and hand grenades, which are used effectively when battles are fought at close range. Gas and liquid fire bombs are seen bursting on both the German and French fronts.

A thrilling battle in the air is shown between the German taub and the French aeroplanes which was taken 10,000 feet in the air, in which the French pilot forced the German machine to the ground. Immediately after the battle is shown the filled big guns and the batteries in which the big guns are seen blasting forth death-dealing shells. The high explosives and shrapnel are seen bursting on the German trenches. The film is not without humorous moments, as the German soldiers, the buttons of the pants of the German prisoners to keep them from running away, is shown. At the conclusion of the picture scenes showing pontoon bridges which are constructed in a very few minutes by the engineers, observation towers, balloon and aeroplane observers in action, submarine chasers and hydro aeroplane in action, showing the methods of hunting down the fisher woman, and the attack, showing the use of respirators and numerous other thrilling scenes. At the conclusion of the picture the sergeant will make a summary of conditions during the three years of the war in such a plain and simple manner that there will be no difficulty in determining that that there can be only one ultimate

### "The Blue Bird"

AN ARTCRAFT PICTURE  
Tradition whispers that in the sky a blue bird, blue as the sky itself, will bring to its finders Happiness.

But everyone cannot see it; for mortal eyes are prone to be blinded by the glitter of wealth, fame and position and deceived by the mocking Will-o-the-Wisp of empty honors.

But for the fortunate ones who seek with open eyes and hearts with the artlessness, simplicity and faith which are richest in childhood, there is an undying promise and to them the Blue Bird lives and carols, a rejoicing symbol of Happiness and Contentment unto the end.

### Mary Garden in "The Splendid Sinner"

This is a story of a woman who paid her great debt in silence.

Pitched in a very high emotional key is the story of "The Splendid Sinner." A great love comes to the heroine out of a morass-of-lies, deceit, intrigue and passion and, like all tremendous psychological conflicts, there is a high price to pay.

### Violet Mersereau in "The Girl by the Roadside"

Another Bluebird Day at the Crystal theater is approaching, the management announcing that Violet Mersereau, brightest of Bluebird stars, will be seen on April 17 in "The Girl by the Roadside," a screen dramatization of Varick Vanande's popular novel of that name. Miss Mersereau will be supported by a cast of the usual Bluebird excellence. From the very beginning of the story, when the heroine, Judith Ralston, finds herself in a most distressing situation and is rescued under most unusual and unconventional circumstances, the story weaves its way in and out among incidents and situations both exciting and unexpected.

## RETURNS TO CALIFORNIA

Cecil B. DeMille Returns to Hollywood After Month's Absence.

After a month's vacation, during which time he visited New York, Cecil B. DeMille, the director of Arctcraft pictures, has returned to the Lasky Studio, in Hollywood. Immediately after his arrival at the studio, Mr. DeMille took up the work of finishing the new Geraldine Farrar production, "The Devil Stone," to be released by Arctcraft next month.

The newest Arctcraft vehicle, for Miss Farrar is said to be considerably different from any of the film plays in which she has thus far appeared. In this production the director creates the role of a simple Breton fisher woman, removed after the early part of the story to America as the wife of an unscrupulous millionaire of the fisheries; Silas Martin. The similarity of the man's name with that of Silas Marner, the miser of fiction, is particularly appropriate because Mary has to have the fisher girl in Brittany, whether he has gone to subdue his

employees who are clamoring for higher wages, demonstrates his miserly impulses by marrying the girl in order to get possession of a valuable emerald which she has found along the seashore. The story, in her simple, superstitious belief, is a relic of the legendary Norse Greenland, of Norse folk lore.

Underlying the theme of the narrative, namely, the sinister effect of the world-old stumbling block of man's superstition, furnishes the basis of the story.

The scenario of "The Devil Stone" was written by Jeanie Macpherson, author of "The Woman God Forgives" and "Joan the Woman," and based on the story by Beatrice De Mille and Leighton Olsie. Miss Macpherson, who also recently visited New York with her mother, has just returned to the Hollywood studio and has commenced work on a new script for "Arctcraft."

Mr. DeMille is now putting the final touches to the new Farrar production and it is expected that this film will be finished within a week.

Mr. and Mrs. Fred Westman who live northeast of Wakefield are the proud parents of a son born Saturday, April 6.

### Dolliver Hypse.

The community was grieved Sunday when it heard of the death of Dolliver Hypse, son of Mr. and Mrs. M. Hypse, which occurred at 7 o'clock that morning. Several weeks ago he was taken seriously ill with pneumonia, but had recovered apparently and was able to return to school. He was taken with a severe cold a week ago Tuesday which gradually grew worse until the end came.

Funeral services were held from the Swedish Lutheran church Wednesday afternoon at 2:30 o'clock, conducted by the pastor, Rev. J. T. Klotz. The body was laid to rest in the Wakefield cemetery.

Dolliver Hypse was born in Corde, Texas, November 24, 1901, and died in Wakefield, 1918. He was aged at the time of his death, 16 years, 4 months and 13 days. When five years of age he moved with his parents to Wakefield where he has lived ever since. He received his education in the Wakefield public school, and was a member of the sophomore class at the time of his death. The high school students and teachers, besides a host of other friends and relatives, were present at the funeral.

He leaves besides his sorrowing parents, four sisters, Euwodia, Myrtle, Adele and Elzada, all living at home.

Friends extend heartfelt sympathy to the sorrowing family.

The difference between "pull" and "glide," which illustrates the difference between the new Kisselkar HUNDRED POINT SIX and other motor-car types, will appeal particularly to those seasoned motorists who constantly look for "that little more" of satisfaction which no automobile has yet given them.

Sample cars were sent to various parts of the country for months of unsparring tryouts. The hardest hills, the roughest roads, every conceivable method and degree of test, were applied. The results—checked and rechecked—surpassed the highest expectations as to flexibility, speed and general merit.

Here indeed is power "in harness"—no jerks in starting—no sense of propulsion—merely a feeling that can only be compared to flying. Its instantaneous pick-up is a revelation to those who have driven only other types. Its perfect performance in traffic leads one from wonder to enthusiasm.

Nearly all of Leslie attended the tag meeting at the Farmers' hall Sunday. Thurston county has a council of defense that does things and they go over the top in everything.

Mrs. Fisher is confined to her bed from a paralytic stroke and Mrs. F. Fisher has been ill also. These people live in Wakefield, but for many years were residents of this community and have many warm friends here who regret to hear of their sickness.

The meeting at the square school house, although not as large in numbers as the one at the church the week before, was nevertheless very interesting. We believe Leslie is trying to do her part in every way. However, a few persist in absenting themselves at all of these meetings. The proper authorities are noting these absentees and are wondering how it can be possible for anyone in Leslie to act so.

### AN EXPLANATION

April 9, 1918.

To the Editor of the Herald,

Dear Sir: The report of a paper entitled "The New Psychology or the Power of the Soul" appearing in a recent issue of the Herald, and read by a member of the State Normal faculty before the student body contains several references to Christian Science and I feel it necessary that your readers be given a clear idea of what Christian Science teaches. If you will allow me space in your columns.

Christ Jesus taught and healed, and his christianity was found abundantly sufficient to meet the needs of humanity in the healing of the sin and sickness as well as a most satisfying religion. Surely no one believes that suggestion had any part in the healing work of our Master, neither is there any intimation of suggestion in his instruction to the disciples when he told them to go into all the world and preach the gospel, with certain signs following, amongst which were the healing of the sick. "Ye shall know the truth and the truth shall make you free" designates that healing is the result of exact knowledge and not of suggestion. Christian Scientists accept the teaching of Jesus in its entirety and endeavor to exemplify his words: "He that believeth in the works that I do, shall be do also."

Mary Baker Eddy, the discoverer and founder of Christian Science, in her text book, "Science and Health with Key to the Scriptures," has explained the mission of Jesus and the purpose of his teaching so clearly that all may understand. Many mothers and fathers do find in this new old doctrine a complete and safe remedy for the ills that afflict the human family and a religion that is most satisfying and practical.

Christian Science differs from all other so-called methods of mental healing in that its practice is based upon the all-power and all-presence of good—God—and the total unreality of evil. Jesus and his disciples cast out devils or evils, the sicknesses and sins that blind the people and prevent them from attaining scientific knowledge of God. He said of the devil, that he abode not in the truth, for there is no truth in him; he is a liar and the father of it. This devil represents the sum-total of all evil, having no real existence for it is a lie and therefore exists only as a derogation of the human mind, the carnal mind which Paul says is enmity against God. This evil then is destroyed upon the basis of its unreality. Proof positive that sin and sickness are healed by one and the same method is found in Jesus' words "Whether it is easier to say, thy sins be forgiven thee, or to say rise take up thy bed and walk?"

Christian Scientists may be classed as extreme in the sense that they demand exactness in statement of this science and permit of no latitude in this direction. Christian Science is an exact science, therefore it must be carefully expressed, it teaches that we are punished by our sins, not for them, that sin brings its own punishment. The denial of sin must be accompanied by a demonstration of goodness, else the denial amounts to nothing but lip-service, and much more than this is required to overcome evil. Merely denying evil and continuing to practice it is not demonstration. The denial of sin in the mastery over it, which means its destruction and disappearance.

There is no short cut to the accomplishment of these results; there is no easier road. In order to demonstrate this truth that Jesus taught, one must overcome self and selfishness and follow in his footsteps.

As stated in the report there is a vast difference between hypnotic suggestion and the method of healing in Christian Science. Mental suggestion is the belief in one mortal mind influencing another mortal mind and in inducing a belief either of truth or of error, while in Christian Science man is governed by divine mind, which mind was also in Christ Jesus and was employed by him in casting out all manner of evil and healing the sick. Christian Scientists pray each day that this mind might also be in them, and in the measure that they manifest this mind are they enabled to overcome disease and sin.

There is nothing of evil in the teaching of Jesus or in Christian Science that one needs to guard against and any method that contains an element of evil that needs to be guarded against is well worth letting alone. Christian Science also teaches that there is but one soul or spirit, and that is God, and that the image and likeness of God reflects or manifests this soul or spirit in just the same way that the sun is manifested in the rays of light that emanate from it. Sincerely yours, Claude DeLongo, Committee on Publication.

### CHURCH CALENDAR

**English Lutheran Church.**  
(Rev. J. H. Fetterolf, Pastor.)  
Since the clock has set forward there has been a slight tendency toward tardiness on the part of some members of the Sunday school. It will require a little more effort to come five or ten minutes earlier, and by so doing advance the interests of the school. The school opens promptly at 10 a. m.

Public worship at 11 a. m. and 8 p. m. A hearty invitation is given to the public to attend all these services.

Luther league at 7:15 p. m. Subject: "What Our Church Did for Home Missions." All the confirmed members should identify themselves with the league and attend every session. It will be to your interest to do so.

Mrs. A. D. Erickson will entertain the Aid next Thursday afternoon. The address of Mr. C. H. Weller on Sunday morning was appreciated by the large congregation that greeted him; and those who failed to hear him missed a rare treat. In his clear, cut straight from the shoulder talk he gave all of us a better conception of what the duties of every christian are.

**First Baptist Church.**  
(Rev. Fletcher J. Jordan, Pastor.)  
Worship in the Baptist church both morning and evening. Sermon at 10:30 by the pastor. Evening service begins at 8 o'clock. We try to make these meetings helpful to every one. Strangers and folks without a church home are always welcome to make our church their home.

The Bible school meets after the morning service. Let us make the school inspirational and helpful to those who remain for its sessions. The next meeting is on Wednesday evening at 8 o'clock. Christ has promised to be with all those who call upon His name in sincerity and truth.

Choir practice Thursday evening at 8 o'clock.

The subject of the B. Y. P. U. next Sunday evening is "Denominational Fellowship." Subject, 1-17. This organization meets at 7. Both young and old are asked to be present.

"Don't forget to pray for the special meetings which we hold next month. Evangelist Sherrod visits the pastor that already eighteen months ago he visited here. He is staying at Gering, Neb., and has only been there a week. Let each of us make prayer lists of those we wish to be saved and pray fervently and in faith and God will give us the blessing.

**Methodist Episcopal Church.**  
(Rev. D. W. Wabcoeur, Pastor.)  
Sunday services, April 14, 1918: Sunday school, 10 a. m., subject, "Jesus Requires Confession and Loyalty." Miss Bechtel, teacher. At 11 a. m. sermon, subject, "Jesus Stood on the Beach." Epworth league, 7 p. m. Frances Oman, leader. Music by the orchestra.

Boy Scouts, 7 p. m.; Intermediate league, 7 p. m.

At 8 p. m. sermon, subject, "Adam's Creation." "Did God make man, or man make God?" This is the first of a series of evening sermons. Watch for subjects of interest. The church is glad that thinks for itself is the church that acts in harmony with God's word.

"We invite all our membership and all our friends to help us help possible out of our services of this church and ministry by attending. The singing last Sunday by a bar sextet of four voices was the best we have heard in many days. The large congregations of the morning and evening were greatly interested in the praise of the services at led by Prof. J. J. Coleman and his assistants. Some more of this same kind next Sunday, please.

**The Sunday School.**  
Brutality, murder, destruction and injustice are today engaged in a world struggle against the teachings of love, service, protection and peace of Jesus Christ. This challenges the church and Christian workers to unusual activity. The Sunday school is the university of the church. Friends, help the church in its task of making the Christian virtues safe in America and the world. The M. E. Sunday school invites you to lend it your assistance and your presence. The school meets each Sunday from 10 to 11 a. m. The school is growing and your cooperation is earnestly invited to the Methodist Episcopal Sunday School.

**Presbyterian Church.**  
(Rev. S. X. C. Peck.)  
The subject for the sermon for next Sunday morning will be "The Church and Her Present Message." This is a theme for the times. All are cordially invited to participate in the privileges of this church. There will be special music under the direction of Mrs. A. R. Davis, chorister.

At the evening service next Sunday, Prof. I. H. Britell will give an address on "Patriotism" and our duty at the present time. All who have heard Professor Britell will want to hear him again. Come to

this meeting in the spirit of American patriotism, the biggest and best kind in the world.

Mrs. Carl F. N. Clasen will lead the Y. P. S. C. E. meeting next Sunday evening. The topic will be: "Come to Enjoy Sunday." Come to C. E. It is an excellent way of spending the early hour of Sunday evening. You will find a hearty welcome and a program of music and instruction that will be helpful to all.

The Sunday school wants you. You want the Sunday school, if you only stop to think about it. There are classes for all ages and conditions. You will surely find that which will be of value to you. Visitors are always welcome in this Sunday school. We plan to visit to the others; we want you to visit us. The greatest desire we know is to be of service in the community. If there is anything that we can do that we are not now doing, tell us. We will do it if we ought to, and can. Come and help us to do our service.

**DR. ERSKINE IN FRANCE.**  
Mrs. E. B. Erskine arrived in Wayne from France, April 10, to visit friends. Until three weeks ago she was visiting her sister in Lincoln. Recently she took the civil service examination and is now waiting to receive an appointment for a position in Washington.

Friends of Dr. Erskine will be interested in knowing that he went to France December 1, and was in training until March 5, when he went into active service. He has a commission as first lieutenant in field hospital No. 122, and is now within five miles of the front line trenches. He has entire charge of all the bone and joint work of the hospital. Women mills being many on account of the fact that most shell wounds cause fractured bones. Aside from his hospital duties, he is the official censor for all mail going in and out of the hospital. Together with these two duties he has been appointed adjutant general in the hospital. Dr. Erskine writes that he is gaining in weight and is in the best of health.

**REAL ESTATE TRANSFERS.**

A. C. Dean to John H. Brugger, southwest 14, 26, 2, \$20,000.

**THE FIELD OF BUSINESS.**  
Sioux City Journal. Preparations for the third Liberty loan campaign and the expansion of that campaign featured the business week. The period was one of exceptional listlessness on the securities market, with a tone of confidence, however. Reactions to ordinary influences were slight. Money was plentiful at the steady 6 per cent rate for time loans and was in demand of 24 to 53 per cent for call loans. The basis of most transactions was in the neighborhood of 4 per cent. The bond market was irregular with a slight tendency toward heaviness. Liberty 3s led the war list, selling close to 97. The secondary market ranged all the way from 96.50 to 96.70.

Grain quotations responded to variations in arrivals and in demands for export. May corn started the week at \$1.25 and closed at \$1.26. 5-8. No. 2 white oats, cash, moved upward from 92 cents to 93 cents. No. 2 hard red winter wheat during March registered a considerable improvement in prospects. Cotton advanced sharply, owing in power to control demands, to a figure \$10 a bale above the recent low level; and plans to stabilize the market were subsequently discussed.

Government officials, trade and government officials. Women mills were directed by the quartermaster general to hold all unsold stocks for government disposal. The supply of the ordinary trade will be by government permit.

Cost of the war during the first year was shown to be approximately \$100,000,000, of which about half represents loans to the allies. Congress passed the Liberty loan bill, with its provisions authorizing transfer of authority from Washington to the treasury and further loans to the allies. The war finance bill, legalizing the war finance corporation with capital of \$500,000,000 and bond issuing powers up to \$3,000,000,000, was agreed on also. The shipping board asked congress for enlarged powers to control shipping, shipbuilding, rats, docks and terminals. A merger of railway express lines into a unified national system similar to that of the nationally operated railroads apparently was decided upon. A committee was formed to formulate a national policy governing meat production, sale and distribution, with the likelihood of federal control of the meat industry will be recommended in some form.

Heavy trade with Asia featured the last year's overseas commerce reports shown. February imports were \$8,000,000 in excess of the total for the same month a year ago, and the export of that country. In order to correct the falling exchange rate the Canadian government decided to curtail imports from the United States to the extent of \$1,500,000,000 a year. The Russian government affected a decision to visit America for the purpose of liquidating Russian war orders and of establishing trade relations.

Shipbuilding in March fell again below the average. Some additional delay occurred last week because of a strike of workers at Hampton Roads yards. One hundred per cent deliveries of supplies to shipyards was required by steel mills and fabricating plants by government order.

OUTLOOK GOOD FOR WHEAT

Washington, April 10.—A widespread interest centering in wheat production forecast of this season's winter wheat and rye crops, estimated by the department of agriculture from the condition of the crops on April 1. Winter wheat, sown last autumn for 40,000 acres, the largest area ever planted to that crop in the history of American agriculture, entered the winter with the lowest condition on record, December 1. In the department of agriculture estimated the crop would be about 540,000 bushels. Efforts had been made in the past to try to make a reduction by heavy planting, but weather and other conditions were adverse.

The government had aimed to have a crop of 672,000,000 bushels of winter wheat and relied upon farmers to plant the spring wheat to bring the country's wheat production this year to more than one billion bushels. Under conditions through the winter have not been adverse to the winter grain crops, and early reports indicated that the winter wheat crop was springing in better condition than had been expected. It was felt from these indications that the production forecast of 540,000 bushels, larger than those expected as a result of the December conditions.

Winter wheat production last year was 490,000 bushels, less than condition on April 1. The 1916 production was 480,500,000 bushels and the average ten year April condition is 83.6 per cent. The crop condition on December 1 was 79.3 per cent of a normal crop.

Yield acreage last autumn showed a 36 per cent increase over the previous year with 6,119,000 acres planted. The condition of the crop on December 1 was 84.1 per cent of a normal and the forecast of production made at that time was 85,000,000 bushels. Last year production was 60,145,000 bushels and the condition on April 1 was 86 per cent of a normal. The 1916 crop was 480,000 bushels and the condition was 78 per cent while the ten-year average April condition is 89 per cent.

STRICT ENFORCEMENT.

Nebraska, April 10.—An organization of a food administration enforcement division for the states of Nebraska, Kansas, Oklahoma, Colorado, New Mexico and Texas was effected in Kansas City, Texas in election of an executive committee, which will have full power in this district.

Gurdon W. Wattles, federal food administrator for Nebraska and Chas. T. Neal, vice president U. S. department of agriculture, are two of the five members. Standardization of rules and regulations and interpretations in these lines is the present aim of the organization. It will have jurisdiction over the manufacture of all grain and cereal products from the time the commodity leaves the manufacturer until ready for wholesale or retail distribution. This method will eliminate the confusion of varying interpretations in different states. Gurdon W. Wattles, "and will greatly facilitate the business of the food administration."

BY THE WAY.

Duluth News-Tribune: The senate has been weeks investigating the German-American alliance. It would be taken about ten minutes unless it was needed as a camouflage to conceal the whereabouts of the La Follette investigation.

A GRAND FAITH.

Bisby: Socrates informed his persecutors that when they got his bones they didn't come within a mile of getting him. To have the assurance must, as Briggs would say, be a grand and glorious feeling. To think that man is greater than earth is a heavenly gift, inspiring thought, but the way the brute sometimes carries on in provocation for a responsible doubt. We better be too good to know. Is that not so? Yet it is good to trust. Above the dust Life must forever bloom— The silent tomb. Only selfless clay. Somewhere the day Breaks in transcendent light Above earth's night. No more of pain and grief. No words to soothe. No wars to defile. No unkind fate To do a fellow's track. No love and hate. But life and light and joy. Without alloy. A faith like that is great At any rate.

STUART IS ROUSED.

Stuart, Neb., April 8.—Saturday afternoon a lecture by Harrington gave a very patriotic address here before a large audience. His address was well received and was interrupted time and again with loud applause. At the conclusion of his address William Krotter took the stand and took exception to some of the patriotic remarks of the speaker. The audience took exception immediately to what Mr. Krotter said and with shouts of disapproval he gave hisses from the platform. During the afternoon and evening the feeling against Mr. Krotter was aroused to such a high pitch that a high sheriff and two deputies were sent for to prevent what appeared to be a riot and feather party and other violence.

NOT COURAGE.

Courage is to judge. To have one's bosom to the saber thrust. Alone in daring. Courage is to grieve. To have the hurt, and make the world believe you are not caring. Courage does not lie. Alone in dying for a cause. To die is only giving. Courage is to feel. The daily dangers of relentless steel and keep on living. —Douglas Malloch, in the American Lumberman.

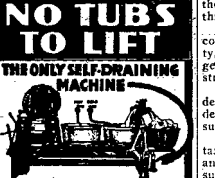

AGAIN "KNOWING HOW."

Brookings Register: A forsighted soldier at the front went into one of the libraries behind the lines and found a book by Dr. Berlin. That boy knew his business.

TWICE PROVEN.

If you suffer backache, sleepless nights, tired, dull, days and distressing urinary disorders, don't experiment. Read this twice-tested remedy. It's Wayne evidence doubly proven: W. H. Hoguewood says: "My back was often so painful and lame I could hardly get up after sitting down. Other symptoms of kidney trouble left no doubt in my mind that my kidneys were in a badly diseased condition. I had tried Dr. Doan's Kidney Pills and was not disappointed with the results. They relieved me almost immediately. And in a short time I was cured." (Statement given August 4, 1910.)

On July 17, 1916, Mr. Hoguewood said that the cure Dr. Doan's Kidney Pills gave me has been permanent, which makes me think more highly of them than ever. Price 60 cents at dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Hoguewood had. Foster-McBarn Co., Mfrs., Buffalo, New York—Adv.

Successful Box Supper. The box supper held in district No. 63, Friday evening, April 5, was a big success. The net proceeds were \$125 and \$100. An excellent program was given by Miss Madeleine Stanton and her pupils. A quilt contributed by the ladies of the district brought \$15 and a cake \$2.65. Boxes also sold high showing the willingness of the people to contribute their time and money to this patriotic cause. C. Evans officiated as auctioneer.

Patriotic Meeting. A large crowd of Carroll citizens went to Wayne Saturday evening to hear the patriotic address by Dr. J. P. Jacobs of Kansas City. Carroll is in no responsible for the success of the meeting for the Carroll band and Welch sextet created enthusiasm by their stirring patriotic address. The Welch sextet made their first appearance before a Wayne audience and the way in which they were received was sufficient proof of their success. The Carroll home guards marched in a body in the parade from the city hall to the opera house.

The Congregational Church. (Rev. Henry Davis, Pastor.) Preaching at 1 o'clock. Junior C. E. at 1 o'clock. Sunday school at 2 o'clock.

How to Enjoy Sunday? leader, W. H. Rees.

A cordial welcome to all services. The Nebraska Home Guard and Ruth Hamer were appointed delegates to the Elkhorn Valley Association of Congregational churches, which will meet next Monday at Plainville.

Last Sunday evening at a patriotic meeting held in the above church, Henry Davis spoke to a crowded audience on "The War as a War for Morality." Special patriotic songs were rendered by Mr. and Mrs. Euna Davis, Miss Amanda Davis and Richard Pinkham.

A MATTER OF SPELLING. A crowd of Carroll citizens, common sense and simplicity have triumphed and America now writes it "holismism," instead of the awkward "holismism." In time, doubtless, we shall know it as it now asks to be known, as simply communism.

TAX VAGANT LOTS. Sioux Falls Argus-Leader: It might help some if the assessor would dole the taxes on every vacant lot that grows weeds this year instead of garden stuff.

FARMERS OF NEBRASKA ORGANIZE WAR COUNCIL

Will Help U. S. in Liberty Loan Campaign and Other Activities.

Is First Body of Its Kind in America; All Bodies in State Join.

Following a series of conferences in Omaha the farmers of Nebraska through the heads of their various farm organizations, have inaugurated The Nebraska Farmers' War Council. BANISHED. Philadelphia Public Ledger: "Extraneous matter of any description" must be eliminated from railway advertising. Thus Mr. McAdoo robs us of many a picturesque phrase in the name of efficiency, and banishes forever that sweet girl, Phoebe Snow. STILL DREAMING. New York World: The Arbeiter Zeitung, of Vienna, warns the Austrian and German governments that "the greatest victory cannot impose a peace of violence on America and England." The Zeitung has seen a light, but Berlin and Vienna are still dreaming. PLACING THE ACCENT. Sioux Falls Press: "Bigger ships will be built, we are told now, by building a great deal about how many ships are going to be built. We await eagerly the announcement that many big ships have been built, with the accent on the 'have been.'" ONE MAN'S TROUBLE. Kansas City Star: Herbert Hoover is wavered declining to interfere in the bakers' strike in Kansas City. And it must be admitted that Mr. Hoover already has pretty nearly all the troubles one man is entitled to.

Buy Madison Farm Tools.
