STATE NORMAL TO OPEN NEXT WEEK

Prospect for Large Enrollment Good Normalizing War Conditions.

RURAL TRAINING SCHOOL

Changes in Different Departments - A Student Army Training Corps Unit, Likely.

The prospects for a good enrollment at the opening of the State Normal school on September 10, are very good, notwithstanding abnormal conditions caused by the war.

The rural training school has been provided for in connection with the rural department which was established a year ago in the rural training school there will be six grades. This department will be in charge of Miss Margaret Brown from Lincoln.

The new head of the domestic science department is Miss Helen Burton of Chicago. Miss Burton is a graduate of the University of the City and for the three years has been a teacher in Lewis Institute of Chicago. Miss Louise Wendt, a former graduate of the normal, will be assistant in the department of home and home economics and also in the physical science department.

Arrangements have been completed for the opening of the radio buzzer work. Anyone who is physically able for military service and over eighteen years of age may be enrolled in this work.

It does not imply that the individual will be inducted into the service, but if he desires to be inducted after his training, he will become a member of the signal corps. There is a great demand for wireless operators and it is to be expected that a large number will wish to take this work. The one condition imposed by the government is that it is to be done absolutely voluntarily.

A petition for naturalization was filed by Erick English of the Hoskins vicinity.

ANNUAL MEETING

At the annual meeting of the Greenwood Cemetery association held last night were presented and officers elected.

PICK SEED CORN EARLY

Flandreau, S. D., Sept. 4.—Fifty thousand bushels of seed corn picked from the crop in this county.

FLAG POLE SERVICE

Arrangements are being made by a committee for the raising of a flag pole, which will take place Friday, Sept. 13, General Pershing's birthday.

CLASSIFICATIONS

Local board hereby classifies the registrants of August 24, 1918, as follows:

- Class I Harold Alexander Peterson, Jesse Monroe Randol, Harold Leon Neely, Ellis Erick Olson, Charles Valentine Kelley, Elmer Roberts, Collier Junior Boyce, Gal Charles Selton, Harry Fredrich Smith, John Mettlen, LeRoy David Owen, William Raymond McMillan, Philip Elmer Richardson, Edward Fred Kai, John Frederick Thomson, William Samuel Roberts.

IN THE DISTRICT COURT

An Action Filed Against Nebraska Teachers Association.

A case was filed in the district court at this place August 29, seeking to enjoin the officers of the Nebraska Teachers Association from holding the annual meeting outside of Omaha.

It should be made clear to them in a suit of this nature that it is not in the interest of their own individual interest to discontinue foreign language and customs as far as they possibly can and at the earliest moment in order to avert an increasing prejudice which may cause them more serious embarrassment in the future.

It is urged by the state council that the proposed constitutional amendment to limit the franchise in Nebraska to citizens either by birth or naturalization, the effect of which will do away with foreign-born citizens, if adopted, the state council says: "It is one of the most important measures to be passed upon at the present time."

O. E. S. MEETS

The regular meeting of the Eastern Order of Sons of Norway was held last evening. All members are urged to be present.

AS TO USE OF FOREIGN LANGUAGE OVER PHONE

Points Called to Attention of County Council of Defense.

The chairman of the Wayne county council of defense has called attention to his attention by the state council of defense a number of questions which are of interest to the general public.

Attention is directed to the recent ruling of the state railway commission in regard to the use of foreign languages over telephone lines. It is pointed out that while the commission rules that no law as yet governs the use of such languages, it is the policy of the state council of defense and its subordinate organizations to discourage the use of foreign languages on the street, in the home and over the telephone.

VOGEL SELLS AT NORFOLK

Conservatory of Music Bought by Miss Miller, Known Here.

Norfolk Daily News, Aug. 30.—Miss Beatrice Miller has succeeded Otto A. Vogel as director and owner of the Vogel Conservatory of Music of Norfolk. The announcement was made in the conservatory Thursday morning. Miss Miller had just returned from New York city and is now in complete charge of the conservatory. Mr. Vogel gives up his musical profession to recuperate in out-of-door activities and will spend a few months on a farm and then return to Norfolk. He has not decided what his future business will be. He expects, however, to engage in some business in Norfolk until called into the army service by the selective draft.

Miss Miller has just completed a tour of the Maine summer resorts with a party of New York musicians including one of her musical instructors, Hans Letz, a famous New York violinist. The party gave several concerts in Maine.

The assumption of Miss Miller as director of the conservatory is no surprise to her friends here who have had several hints that she was expected soon to succeed Mr. Vogel. She will be assisted here by her sister, Miss Ruth Miller, who is a graduate in piano and theory of the Vogel conservatory.

Miss Miller is a Nebraska product and has been unusually successful in music. She is the daughter of Howard Miller, a business man of Battle Creek and is a graduate of the Battle Creek high school where she had charge of the orchestra work. She also has studied in the Peru normal. Miss Miller was a student of Mr. Vogel for six years and is a graduate of violin, piano and theory, having passed the normal examination of the Conservatory conservatory course. After gradu-

Speaking of Fall Suits

What's in a Name?

"A rose by any other name—you know the old quotation. It's true of course, yet we would question a bit if the flower were called by an unfamiliar name.

The same is true of clothes; those Hart, Schaffner & Marx suits would be just as good if the labels were taken from them. Yet, there's assurance in the name. YOU know and WE know that you're going to get all wool clothes, perfect in style, fit and value, when you buy them. Back of our name is a guarantee of service and satisfaction that has no "ifs"—mighty important in these days of shoddy clothes!

Styles for mature men of quiet taste, and models for young fellows who want snap and class.

Consider the School Boy

When you buy his suits, just remember that no real honest-to-goodness boy has time to wonder what will happen to his clothes if he climbs fences or investigates the school cellar, or does anyone of the thousand things a "feller" simply has to do. Buy these sturdy suits, built specially for boys, and let the youngsters go their way. You will find these suits are made to stand the severe use they always get.

Permit Us to Help You Select the Right Stove

So many folks come in to buy a stove for a certain price they feel they want to pay. Instead of satisfying themselves as to just what the stove will do, they let the question of price decide the purchase.

A heating stove should be bought not for one year or five years, but for a generation. That is why we recommend the stove that renders the greatest service—

ON THE SCREEN

A COMEDY SCREAM.
The world famous comedy scream Byrne Brothers in "Eight Bells," is coming to the Crystal theatre tonight. If you do not know what "Eight Bells" is, you will soon find out. The film version of this comedy is even funnier than the stage version and it was a real riot.

"Eight Bells" is fun, that's all—just fun. But, oh, boy, what fun. Starting with a snicker, gabbling quickly into a giggle and rising to a snort and a howl and a hurricane of laughter, this offering jolts a ha-ha out of the worst gloom goblin who ever stalked through a cemetery. "Eight Bells" rings a clarion call for all laughter lovers.

Imagine a wild chase for a will-a-storm on the most hilarious kind of a ship-trick doors that turn the wrong way, that double up and flop around and everything else. Imagine the most intensely dramatic situations treated like farce. And if you can imagine all this you'll have a faint conception of the funny situations, starting exploits and genuine entertainment you will find in this exceptional attraction.

"Eight Bells" has been built for entertainment purposes only. And it sure does serve these purposes well. It's a riot, it's a scream, it's a knock-out fun hit.

"Ask Dad—He Knows."

"SAY, YOUNG FELLOW"
Douglas Fairbanks' new photoplay "Say, Young Fellow" is described as the young fellow's most novel in which he ever has appeared. The story was written by Joseph Henabery, who also directed the picture. An admirable cast of players appears in support of the popular Arctarf star.

In this photoplay Mr. Fairbanks portrays the role of a young, optimistic reporter employed in a small city, who wins distinction by interviewing a millionaire who not only has never been interviewed before, but who announced that he never would submit to reportorial inquisition. How Mr. Fairbanks, known as "the young fellow," gets to the millionaire and obtains the story he is after, is said to be a highly interesting development new to modern motion pictures.

His success with this assignment prompts his appreciative city editor to give him another and more difficult one. He sends his young fellow to a neighboring town, where he is to expose a fraudulent scheme

in connection with a big factory. When enters in quick succession "the villain," portrayed by Frank Campeau, said by Mr. Fairbanks to be perhaps the best portrayal of a villain roles in the country. The reporter and this arch villain have several encounters which prove diverting to the audience as well as to those taking part therein in the picture.

When everything is at sixes and sevens, and the efforts of the young reporter to expose the fraud he finds rampant in the vicinity, are nearly frustrated, "the girl" appears and by her aid all is set right and the reporter wins his fight. There are many thrilling situations, in all of which the Fairbanksian methods are continually in evidence, so that all admirers of the "Tiger Man" star have a treat in store for them.

PLAYS PART OF COOK.

Wanted—A good cook, not too good looking, but just average.

That isn't the way it was advertised, but it might have been for all the good it did pretty "Jean Mackey," an impoverished aristocratic girl, when she sought a situation as a cook. The applicants for a cook's position just wouldn't have "Jean" because they were afraid—well, they couldn't get it. That good looks and good cooks could have anything in common.

Mary Pickford plays "Jean" in her next picture "How Could You, Jean?" which will be displayed at the Crystal theatre soon, and it gives her another opportunity to display her rare versatility, so well shown in "Rebecca," "Stella Maris," "Amerity of Clothesline Alley," "Miss," all entirely different characterizations. As "Jean," Miss Pickford essays a role which it is believed, will be a worthy successor to her portrayals of the last year. She finally made her position at the top of the list of the world's screen artists, more secure than ever.

A UNIQUE CHARACTER.

Portraying one of those unique characters of the west, with which his name is so intimately associated, William S. Hart has in his new Artcraft picture, "The Tiger Man," a vehicle that is bound to be received with pleasure by his countless admirers. This is the story of the fierce leader of several outlaws, who long have terrorized the avenues of travel to the gold fields in the early

days of the rush to the new El Dorado.

In a wagon train on the desert is a pretty young woman, Ruth Ingram, who is accompanying her husband to the gold fields on a religious mission. The supply of water is exhausted and Mrs. Ingram goes in search of aid. She is met by Hawk Parsons, the bandit, who, after hearing her story, goes to the assistance of the imperiled emigrants. With this meeting, a new light dawns upon Hawk's soul, and he determines to possess himself of this woman.

The train is attacked by Indians, but the savages are driven away. With the approach of federal troops of cavalry, "The Tiger Man" realizes that his capture is

intention of Adolph Zukor, president of the Famous Players Lasky corporation. He went straight to see the play and having seen, went again and again. Each time he studied the little star more and more carefully and became more and more impressed with her beauty and personality. The outcome was she was engaged for the screen and since that time has never gone back to the legitimate stage, having appeared in many Paramount photoplays in which she has scored hits both in this country and abroad.

The screen version of "Prunella" has been taken bodily from the play and many features that were impossible of reproduction on the stage, such as the details of the glorious old garden where dwelt

task and is an unwilling witness of a murder. Later episodes show the well-remembered phillicker incident when Tom administered the medicine to a confiding cat with disastrous results; the finding of the hidden treasure and the panic on the island when Tom and Becky Thatcher, his childish sweetheart, are lost in the cave. An excellent direction of William C. Taylor who also directed "Tom Sawyer," have made of this Paramount picture, one of the wholesome, most amusing of the season.

HAS NO USE FOR PEACOCKS

In her newest Paramount picture, "Madame Jealousy," Pauline Frederick has occasion to use a huge horned owl for "atmosphere." It is a well known fact that the star has no use for peacocks and it was thought that her dislike might extend to owls. Not so, however, for she alone of all the cast, seemed to have a calming effect on the great bird. Her ruffled feathers laughily when others approached, and made queer sounds of disapproval, but when Miss Frederick talked to him or sang softly, he shut his eyes and went peacefully to sleep. "Madame Jealousy" which was written by George V. Hobart and directed by Robert Signol, and which boasts an especially well chosen cast, including Thomas Meighan, Frank Losee, Elsie McCloud and others.

LET'S GET A DIVORCE.

The romance of life in a French convent and its effect upon an impressionable girl is admirably illustrated in "Let's Get a Divorce," the new Paramount starring vehicle featuring Billie Burke, the dainty actress, whose work in "Eve's Daughter" and other successful photoplays, will be well remembered.

In this story, which is an adaptation of the romance of Cyrano de Bergerac, the celebrated stage success, Miss Burke depicts in delightful fashion the romance of a young girl, a girl in a convent whose romantic nature finds expression in numerous harmless flirtations. She grows, becomes dissatisfied, demands a divorce, which she later refuses to accept and finally discovers the error of her ways, and a reconciliation with her husband follows.

SISTER MAKES SACRIFICE.

Five pictures in which Miss Ferguson has taken part for a year, pass "The Lie" in point of human interest and distinct heart appeal. The theme embodies a great sacrifice made by one sister for another, to the end that the family honor may not suffer. The scenes of the

inevitable, and he prevents the emigrants from lighting a beacon to attract the attention of the soldiers. He finally consents to his, however, on one condition—that Ruth Ingram accompany him. This she agrees to do, and, swinging her up before him on his horse, he gallops away.

How this woman regenerated him and appeals to the latent good which slumbers in his heart, is best told by the picture itself, which will be seen at the Crystal theatre.

HAS SCORED MANY HITS.

Did you know that Marguerite Clark owes her screen debut to a stunning photograph of herself as "Prunella" which, came to the at-

Prunella and three aunts, have been incorporated in the screen version. The old Sun Dial and Statue of Love erected by Prunella's "run away" father are all beautifully shown.

We feel sure you will not miss seeing this charming story of "Love in a Dutch Garden."

WINNING NEW LAURELS.

Jack Pickford is winning new laurels for himself in "Huck and Tom," a continuation of the role yet a story complete in itself, which he played recently in "Tom Sawyer." The irrepressible Tom, aided and abetted by his friend the disreputable Huck Finn, overhears grave robbers at their gruesome

photoplay are laid in an old Abbey in England and afford interesting glimpses of aristocratic country life. It is filled with numerous thrilling dramatic incidents, not the least absorbing of which is the scene in which the sacrificing sister refuses to give up to its mother the child she has learned to love as her own and for whose sake she has suffered bitter scandal and reproach.

The picture is based upon the famous play by Henry Arthur Jones, the scenario having been written by Charles Maigne, author of many famous pictures. The production was directed by J. Searle Dawley.

"HOW COULD YOU, JEAN?"

Suppose you were very rich, and suppose all at once, through no fault of yours, your income ceased and like the old song, was "All Going Out and Nothin' Coming In." What would you do? Well, that was just what happened to Jean Mackey, but not being daunted, she took matters into her own hands, and started out to do cooking in the house of a literary couple. Can you just imagine what happens? Especially when Mary Pickford is the venturesome Jean, and also especially when the rich young son of a dyspeptic millionaire happens to drop into the affair. It's a delightfully droll, deliciously delectable dish. Come and sample it.

JOAN OF ARC.

Stands supreme as the greatest woman who ever lived. Ignorant, untaught, she rose from a peasant's hearth until, within a short span of two years, she stood beside kings. At seventeen years of age she was commander-in-chief of the French armies. At nineteen she was burned at the stake by the people she loved. They did not understand.

It is a story which has thrilled men, women and children through the centuries. Now it is told, beautifully, wonderfully, by the marvelous motion picture.

"My Country 'Tis of Thee, Sweet Land of Liberty."

I pledge allegiance to my flag and to the Republic for which it stands, one Nation indivisible with Liberty and Justice to all.

The youths who have been employed during the summer, but who have now resumed school, will enjoy the vacation period with increased satisfaction.

The Hindenburg line is beginning to crumble, and the German army is in retreat. The result of the great war is now known, but it will be some time yet to reach Berlin and complete the task.

The Wayne State Normal anticipates a successful session for the school year. The plan is to have a member of the faculty meet with classes in neighboring towns for Saturday sessions in several towns, plans for such work are already under way.

The state-wide primary is an attractive theory, but it doesn't work out extra well in practice, though the likelihood is we will nevertheless turn to the old convention system. Objections to both plans are manifest, and improvement in the plan for vote will ever be sought and hoped for.

Hundreds of bushels of apples grown in Wayne county this year will go to waste unless they are distributed by sale or gift. People who have apples on the ground and would give them to people who would gather them, should let the fact be known. People should not allow apples to rot or freeze on the ground through lack of attention. Many would be glad to get them for use.

Rules governing the classification of men registering between the ages of 18 and 45 will give increased latitude to local boards. It is proposed to make such discrimination as will not hinder essential industries. The law now provides that persons may be given deferred classification when engaged in occupation or employment including agriculture, which can be established as necessary to the public establishment or maintenance of the national interest.

Representatives of a German city met recently to discuss an appeal to the German government asking for an agreement between the fighting nations to abstain from air raids on open cities. The appeal is based on allied successes which mean that Ger-

many will in due time be at the mercy of her enemies. But why did representative citizens of Germany think of the inhumanity of bombarding unprotected towns when their armies were in the ascendancy and before they were compelled to ask for different treatment from that brutally dealt out to the opposition? It is not presumed, however, that the allies, under the influence of the United States, will resort to barbarity and revenge of the character unnecessarily perpetrated by the German armies on Belgium and France, though it is expected they will employ bombing planes and deadly gases, previously used by Germany, as a means of effectually defeating the Prussian power and hastening the end of the war.

The cost of many necessities is figured at not far from double what it was five years ago. If the war continues another year, it will probably take \$2 to pay for a thing that cost \$1 five years ago. The increased cost of everything is particularly hard on salaried men and comparatively small employing institutions. Salaried men must necessarily go up, but if they go as high in proportion as the increase in cost of commodities, the small employer must suffer. It is a struggle to make ends meet when prices advance by leaps and bounds as they have the last year. Touching the subject, the New York Evening Post comments as follows: "For the profiteers and for all whom as employers or employed the war has enabled to earn larger wages and inflated profits, halving the purchasing power of the dollar makes little; it is only necessary for them to adjust the swollen cost of living to their swollen incomes. For salaried persons, people on fixed incomes and all who have had no share in war prosperity, the problem of their swollen incomes is acute. It has become an acutely serious one. Their only relief can come from the return of the dollar to its former status and this is being to be a slow process, possibly requiring a decade to effect."

GERMANS RETIRING.

Washington, D. C., Sept. 4.—American troops in close pursuit of the Germans retiring north of the Vesle have captured the villages of Bazoches, Perles, Fismette and Dasfleux, taking prisoners and machine guns. Gen. Pershing reported in his communique for today, received tonight at the war department.

The American forces, Gen. Pershing said, have reached the general line of Vauxceur-Blancy, Le Giand and Hameau. American aviators also have successfully bombed the railroad yards at Loupigny, Domary-Daroucourt and Confans.

WAR AND LITERATURE.

Lincoln Journal.—The death of Joyce Kilmer in action August 1 begins for America those inroads on its literary men which have been so marked in accounts of the war. In war in other countries, Kilmer was only 32 years old, but he was known the country over for excellent literary work. Literature, life, and the writer must see life wherever life is richest if he is to serve the law of his being. When war comes these students of life face into the war. Then the casualty lists begin to come in and the writers furnish their share or more. This has been true of England and notably of France. Will the war then destroy genius by which its spirit and its lessons can most effectively be transmitted not only to posterity, but to contemporary humanity? In some degree, undoubtedly. That is one of the permanent lessons from war.

UPSETTING WORLD MARKET

New York World.—A few American soldiers spend part of their pay in France; then more, and still more, do so. And presently exchange on France rises with a lull, and French-British-Spanish exchange, and relations even more intricate and distant, gyrate in answering curves. John Jones of Oklahoma has been paid for his gold and chocolate for French children, never dreaming that he upsets world markets.

DISTRESSING.

Philadelphia Public Ledger.—Think how it must grieve the Germans to have to retreat so precipitately that they cannot destroy everything they are unable to carry off!

MORE NEEDED.

St. Paul Pioneer Press.—Von Boehn, Germany's "retreat expert," is the busiest man in the world. Why not break in a few more retreat experts? The Hun is going to need them.

A BORDER QUARREL.

Minneapolis Journal.—It isn't a war with Mexico. It is more in the nature of a neighborhood spitting fence affair.

Before starting the fires in furnace, baseburner and range in the fall, pipes and chimneys have to be cleaned. Obligated to burn only soft coal, this process has to be repeated more or less often during the winter. Each operation involves a lot of labor and inconvenience and is a sore trial to the housewife. You can avoid all this by using Carbonoid.

Carbonoid is a granulated compound which will destroy soot in chimney, pipes, and boiler flues. It will prevent the carbonic acid in the soot from eating out the pipes. A few tablespoonfuls of it will remove the soot without dust, dirt or odor. No need to take down pipes. The small price of 25 cents for a 14-ounce can should be inducement enough to give this money- and labor-saving article a trial.

GERMAN PEACE STRATEGY. Chicago Daily News. There has been an immense change in the tone and spirit of the utterances of Germany's military and diplomatic chiefs. Anxiety concerning the future is frankly admitted by Count von Hertling. Neither he nor Field Marshal von Hindenburg now indulges in boastful predictions of a German victory. The desire for "peace by understanding" is clearly betrayed, and the whole present effort in Germany is to convince the people that the allies, including the united States, are determined to annihilate the empire.

Hertling even accuses the allies of feeling hatred of Germany, "bordering on insanity," while Hindenburg asserts that on the battlefields of France and Flanders the German army is defending the sacred ground of the fatherland. This remarkable bit of junker blarney is reminiscent of the original claim of the kaiser that Germany had been wrongfully attacked by seven nations and was forced to defend itself.

The talk of defending the sacred soil of the fatherland on foreign territory devastated by German armies would be unworthy of notice did it not point to a serious purpose. The purpose undoubtedly is to pave the way for another peace offensive by Hertling or his successor by exciting sympathy for Germany among the pacifists and the sentimentalists of the world, and convincing them that on the allies rest the responsibility for further bloodshed.

In this purpose Germany will not succeed. Her tears over bleeding Europe are crocodile tears, in the view of those who have seen the map of Europe and the world so long as she is ruled by a remorseless and arrogant clique that knows no law but its own ambition, and that has made a profession of international highway robbery. Peace with the irresponsible kaiser is impossible, for Germany is still in possession of her loot is impossible. The allies do not wish to destroy Germany, but in defense of civilization and humanity they must destroy the criminal government of Germany upon which rests the responsibility for the most awful war in history.

GERMANS GIVING GROUND. The Germans are now giving ground over the entire 150 miles of battle front from Ypres to Reims. Seemingly the question whether the Germans will be able to hold even relatively their present line from Flanders to Champagne is being answered. And the answer apparently is negative.

Marshal Foch's strategy which imposes upon the Germans the necessity of falling back in Flanders, Artois, and Picardy, is compelling the enemy to withdraw from the zone between Soissons and Reims, northward toward the Aisne.

Outflanked on all defensive works, along the western part of the battle line and in great danger of a turning movement eastward from the regions of Noyan and Soissons, the German high command has been forced to begin the retrograde movement in the Soissons-Reims sector. Military experts long predicted would be necessitated by the allied successes.

DELAYED TRAINING. Duluth News-Tribune: The Germans have never cultivated outdoor sports. But in Germany there are sprinters and will soon qualify for the marathon.

A DIFFERENT PLACE. Boston Traveler: There is no use pretending. The old barber shop can never be the same with Fuch dead and gone.

KAISER BILL'S SILENCE. Lincoln Journal: Not the least miraculous of the allied achievements in the war is the silence which the kaiser has maintained, since July 15. No one had supposed that there could be made to keep as still as that for six weeks. Yet Fuch has done it.

FARMS FOR SALE. I have for sale three quarter-acre farms and two eighty-acre farms. All good terms.—P. C. Burrows, Carroll, Neb. S5149

Our First Showing of The New and Distinctive in Fall Hats

Our showing of the fashionable new hats is complete in every respect. All sorts and sizes—as many varieties of style as there are women to wear them.

We are proud of the fact that our millinery is noted for its smartness, its originality and its exclusiveness. We are always anxious to suit individual tastes, and we are never satisfied with a sale unless the hat is, above all, becoming to the woman who buys.

Fall Opening Friday, September 6

And now, at the very beginning of the season, is the time to choose your hat. The hats of this season are not high in price and the styles are particularly becoming.

Our styles for smart Fall headwear have proven popular with the early buyers. And never before have we been able to offer such splendid values.

Come to our opening this week; choose your hat and enjoy the satisfaction of a full season's wear

MISS BELL TEMPLE WAYNE, NEB.

A TIP TO ANTIONETTE.

Houston Post: It is announced that the Crown Prince Rupprecht of Bavaria is to marry Princess Antonette of Luxembourg. We think the bride ought to know in advance that even if she does not adhere to our present plan of hanging the price he will certainly be out of money and without a job and she will certainly have to take in washing.

HERTLING'S ADMONITION.

St. Paul Pioneer Press: Deduced to its simplest terms, what Chancellor Hertling told the Huns was to keep their mouths shut; if they were discouraged and disgusted and revolutionary and ready to collapse.

THE FOCH METHOD.

Omaha World-Herald: Foch did not blow along the trumpet and invite neutral newspaper correspondents to witness his grand offensive, but he is delivering the goods.

MORGAN'S TOGGERY advertisement featuring illustrations of men and women in various styles of clothing, including suits, overcoats, and hats. The text promotes 'Of Course You Like Good Clothes' and 'There's a Difference' in quality and fit. It includes the name 'MORGAN'S TOGGERY' and 'LOCAL DEALER FOR ED. V. PRICE & CO.' The logo features the initials 'E.V.P.' in a decorative frame.

HOLT COUNTY LAND

A man in Wayne told me the other day that there was a little good land in Holt county, and an awful lot worth nothing. He is mistaken. There is some poor land, but it is worth something. More of it is good. I can tell you the land is good and what it is worth. I can show you all the pieces that I know are worth more money than the owners are asking for it.

Do you know of anyone who would trade Wayne residence property for good Holt county land. Buy and sell before it goes up, and where the crops will pay good interest on your money. J. P. GOLDEN with Fred S. Berry. Office north of postoffice

IT MEANS YOU.

You read the figure handed down by this and that official board; you read, with something like a frown, the reprimand to those who hoard. You say "Ods bodie's! Ods bodie's! They're always springing something new." But this you seem to overlook—the reprimand's addressed to you.

APPLIQUED FRANCE.

The war has knocked things out of plumb, our comfort privations come, but let us on our woe be dumb, and think of France. It costs a lot to buy our rice, our sugar and our flour. It costs a lot to buy our flour, our sugar and our rice. It costs a lot to buy our flour, our sugar and our rice.

think some idle jay should do some useful labor. He tramps the village selling books, and boring thus his betters; and in these times of trial and tribulation, we have such a chance for letters. He ought to beg or steal a hoe, and work out his salvation, and make a hill of spinach grow, to help to feed the nation.

BETTER DAYS.

For months the news was grim and sad, we learned of the word "reverse," oh, every day the news was bad, and next day it was worse. The gods seemed smiling on the Hun, while we could see the Hun and his plied his sabre and his gun, and never met defeat. We took our hearts to the ground, and we were all in a heap.

USEFUL LABOR.

I often hear a fellow say, when pointing to a neighbor, "I really

They told me Hindenburg was down, that he was dead and crated, and I astonished all the town, the way I celebrated. I painted all of Main Street red, my soul was being manifested; they told me Hindenburg was dead and in the honeymoon planted. But Hindenburg still draws his breath, and he is now in a crack, and back to Berlin driven. He lived to see his armies win full many a red-hot battle; and he'll be here when they begin to run like leeches. Big things will happen yet this fall, the tide of battle's turning, the Huns will hike for timber, they'll talk for steady maddy wearning. From now, methinks, until the end, the Huns will have no inaning; the allies on their trail will wane, and victory will—and winning—and if

THE BOYS' AND GIRLS FAIR

Miss Eva Mills Reports the Result of Recent Exhibits

(By Eva Mills.)

The Junior Fair held Aug. 29 convalesces that the girls and boys have not been altogether idle during vacation. While school was still in session, Supt. Armstrong organized the school children for garden work. Under the supervision of local leaders they raised all kinds of garden truck, particularly vegetables that could be canned or stored for winter use.

When the Juniors decided to have a fair the Pure Breeders were the first to subscribe money for prizes.

The time is not far away when a contest will be held in each county to look after agricultural and home economics work for boys and girls.

The following is the list of prize-winners at the Junior Fair:

TERMS FOR GERMANY.

Minneapolis Journal: It is perfectly possible to win the war and then lose it.

When we look alive see American armies it will still be possible for her to defeat our statesmanship. Unless we look alive see American armies it will still be possible for her to defeat our statesmanship.

The American is a proper blend of idealism and hard-headedness. When he is dealing with facts he is hardheaded and Germany is a fact.

Consequently a defeat of Germany in the field will not content us. Nor will any negotiated peace serve to satisfy us.

The English Manchester Guardian, which opposes Lloyd George's terms for Germany, says that America will prove a relentless.

Lincoln, Sept. 2.—If anybody has a word to say in any way interfere with the exhibits at the 1918 Nebraska state fair he will very soon see his mistake.

The government exhibit is easily one of the great crowd attractions. In addition to the wax exhibits there is an exhibition a large number of large photographs of actual war scenes taken on the western front.

Mountain Gun Mounted. A mounted mountain gun and a full sized machine gun exhibit of all equipment of the soldier in all departments is an interesting feature of the government exhibit.

Another exhibit of much interest to those who live in an agricultural state is the county agricultural exhibits. The idea that Nebraska has a crop failure or even a partial crop failure is quickly disproved by the exhibits from many of the counties of the state.

NOTICE TO WAYNE COUNTY THRESHERMEN. As a supplement to the prices fixed for threshing grain in Wayne county, the Council of Defense hereby directs that the price of threshing oats which have been stacked shall be four cents per bushel.

BRENNA. The rural schools in Brenna opened their term last Saturday.

Harry, Charles and Florence Baird accompanied by Mr. and Mrs. G. L. Auler of Laurel, attended to Newman Grose last Saturday and were guests at the home of Mr. and Mrs. J. H. Tough, returning home the following day.

THE FOURTH LIBERTY LOAN

The campaign for the fourth Liberty Loan begins September 28 and closes October 19.

We have a great inspiration for a great effort. The news from the battle front inspires every American heart not only with pride and patriotism but with a great incentive to do his or her part.

"PEP." New York Times: King George, according to the versions reported of four Canadian editors who heard him simultaneously, made use of a locution not often met with in royal utterances.

The Americans are very wonderful. It is an inspiration and an earnest of victory simply to look at them. Their great height, their perfect physical fitness, their fresh young faces, and their boundless business are very stimulating to us.

GOING DOWN. Chicago Daily News: Crown Prince Rupprecht of Bavaria, also is beginning to fall into disrepute, but he will never overtake Crown Prince Friedrich Wilhelm.

SHOWING ROYAL BLOOD

As further proof of the superior breeding of the male Pollard Durham and Shorthorn calves offered for sale by H. J. Miner, proprietor of Fairview farm, just south of Wayne, Rural Lavender, Second, the sire of Blocky Lavender, sire of the calves mentioned, won the grand championship at the Iowa state fair in Des Moines last week.

The Bean and the Army. The profound, intangible psychological change that has been coming over the country in these latter days now finds its typical and symbolized by the unexplained removal of the bean from the armistice in France.

CIRCUS HERE SATURDAY

Great Crowd of People Gather to See Yankee Robinson's Show.

Yankee Robinson's circus was the attraction in Wayne Saturday, and approximately 10,000 people were in town. They came early and stayed late. Fair weather on a Saturday, with rich harvests, gathered or maturing and with everybody able to take a day off, the circus was greatly favored.
The Yankee Robinson parade soon afternoon presented the usual attractions, culminated by bands of music and the indispensable calliope. At the afternoon performance, all available seats were inadequate, and canvas spread on the ground accommodated many. It was a huge crowd in the afternoon, and large enough in the evening to abundantly satisfy the circus management.
The circus is not so large as some, but the program is good. The animals—elephants, camels, seals, lions, horses, dogs, and others—are well trained and the show is almost human intelligence.
People were ready for a day of diversion and amusement, and accepted the circus as the main event.

FINNEGAN-HEDGLIN

Laurel Advocate: Miss Grace Hedglin of Hartington and Mrs. J. Finnegan of Theford were married Saturday in the home of a sister of the latter at Hastings, and will live at Theford, near Mr. Finnegan is in the banking business.
For two years Miss Hedglin taught the eighth grade in Laurel and for the last seven years has been connected with the schools of her home town, her position there being assistant superintendent.
For seven years Mr. Finnegan was at the head of the Hartington schools, though for several years past he has lived away from there and followed other work. Both are worthy of the best, and the bride has many warm friends in Laurel who will rejoice in her happiness. We don't know Mr. Finnegan personally, but we have friends who do, so we have a pretty good idea of his worth, and it strikes us that the union is about as fitting as it could be, so we wish 'em luck—all kinds of it.

MAN FROM FRONT SPEAKS

Lieutenant Nash Addresses Wayne Crowd on European War.

Lieutenant C. C. Nash, Canadian soldier, who spent two and one-half years in the battlefields of Europe, gave a vivid and interesting account of his experience before a large and enthusiastic audience on the courthouse lawn Friday evening. Standing on an auto truck, he talked for nearly two hours, and frequently applause showed the lively interest taken in his speech.

Lieutenant Nash enlisted with British forces in Canada in 1914, and was in active service for forty-one months, at the end of which time he was wounded. He now carries several pieces of shrapnel in his side.

Lieutenant Nash detailed the way the Canadians fooled the Germans at Ypres, where the utmost showing in machine guns and ammunition was made to lead the Germans to believe unlimited resources in troops and munitions were available. He said the allied armies fooled the Germans a good many times. He explained the signals used and the effect of listening posts which were used to indicate the approach of gas and surprise attacks.

Lieutenant Nash said during the first two years of war the allies had no railroads back of their lines to haul ammunition and other supplies, but had to use trucks and wagons. In the end the German armies were equipped with modern transportation facilities.

Lieutenant Nash emphasized the value of good-fellowship among soldiers, and especially the need of a pal in going over the top amid the roar of guns.

Following a ten-minute recess during which an offering was taken for Lieutenant Nash, the speaker told of some of the atrocities perpetrated by the German armies. In a message to the mothers, he said if their boys should fall on the field of Flanders, they were following the footsteps of the Nazarene who died to "make the world a better place to live in." He said his boys get more religion in a half hour on the front line, amid the German snipers, than they would in a year at home.

Lieutenant Nash said there should be no anti-Fifty Americans, but one hundred per cent Americans.

Otis Frank Crane was born in Keen, N. H., in 1846. He was a mere boy, probably about 12 years of age, when he enlisted in the northern army in the war of the rebellion in the 11th Illinois cavalry.

When he first came to Wakefield he settled a couple of miles south of town and for a time was postmaster at Taff, a landsight that has long since faded away.

One of the most curious incidents of his life was his total and unexpected disappearance in November, 1890, for reasons best known to himself he vanished as from the face of the earth, and did not show up until nearly ten years afterwards.

THE ONE SURE SPOT. Work has been done on some safe and sure old Richardson county that the farmers are now admitting the cutting of their corn crop fifty per cent by the drought and one newspaper says the estimate will probably prove much too low by shucking time.

HERE'S HOPING. Berensford Republic. A headline in the dailies tells of a puncture in the Hindenburg front.

IT'S UNANIMOUS. Omaha World-Herald. The policy of German annexation of northern France seems to have been decisively repudiated by all factions.

FRANK O. CRANE. Wakefield Republican: Frank O. Crane, one of the earliest settlers in this part of the country, died at a hospital in Sioux City, August 25, at the advanced age of 72 years.

Otis Frank Crane was born in Green, N. H., in 1846. When a youth he probably about the year of 1860 he enlisted in the northern army in the war of the rebellion in the 11th Illinois cavalry.

When he first came to Wakefield he settled a couple of miles south-east of town and for a time was postmaster at Taft, a landsight that has long since faded away.

GO WITHOUT SAYING. Louisville Courier-Journal: Americans are poor linguists. They cannot pronounce the names of places on the war map, but when anyone points out a place held by the Germans they can take it.

A MYSTERY. Brookings Register: Anyone who has seen a picture of the crown prince of Germany cannot understand why he is so anxious to save his face.

Waterloo Boy Tractors

Tractor farming is necessary to overcome the present labor shortage and world-wide food needs, and the Waterloo Boy tractor is an important factor in meeting the demand.

In size, in price, in strong simple construction, in adaptability, working capacity, and operating economy, the Waterloo Boy meets every farmer's power demand.

Up-to-the-minute in every detail, the Waterloo Boy is equipped with Hyatt Roller Bearings, a perfect automatic oiling system, trouble-proof ignition, a powerful 2-speed valve-in-head motor, with exceptional transmission strength, and easy accessibility of gears and bearings.

John Deere Pony Tractor Plows

In the most important farm operation—the light tractor pays the biggest returns on the investment. Regardless of how good the tractor is, however, the fact must not be overlooked that all it does is pull—the plow behind does the actual cutting, turning and pulverizing of the soil.

Pay particular attention to the plow. Buy one of an established reputation—a tractor plow that you can be sure will do its work properly because all other plows made by the same factory have been giving excellent results for years.

First the walking plow, next the riding sulky and gang plows, then big engine plows and now the Pony Tractor plow—John Deere plows have been a success for over eighty years.

There are many points in favor of the John Deere tractor plow which we will be pleased to explain to you. One thing, whether down at work or raised eight inches above the ground for transportation, the bottoms can be kept level. Let us show you other advantages.

Obituary.
(Contributed).

Gustaf Johnson (Hyspe) was born September 31, 1823, at Jonkopung Lau, Sweden, and died at the home of his daughter near Wakefield Saturday, August 31. He was married June 24, 1848, and to this union two sons and two daughters were born. Three of these children died while the family immigrated to America in 1853; one daughter was buried at the first landing in Ireland; two sons were lowered into the ocean. The last daughter born in 1854 at Sweden, Ill., died in infancy, being only five days; the mother and beloved wife was called home a few days later.

His second marriage was to Anna Christina Lund July 5, 1856, to which union five sons and three daughters were given: John William, Frank A., Anna Mary, Andrew M., Sophia C. Gust Nataniel, Ida J., and Oscar E. The beloved wife and mother the Lord called home March 26, 1875; then daughter, Mary, two years later; Frank and Oscar were called some years after they had become heads of their own home and happy family surroundings.

Mr. Johnson was an old pioneer and did his work nobly, enduring many hardships. He first settled on a 40-acre homestead near Sweden, Ill. In order to hold this homestead and keep his family warm and supplied he walked eight to twenty miles to market, snow, rain or sunshine to a lumber camp where he cut logs for 75 cents to \$1.00 a day. He would stay at the camp a week during the winter in the cold food which he had taken from home, returning Saturday evening. Then on Sunday he would walk to church and back to his task again. He assisted in cutting out logs and material to build the first Lutheran settlement church at Sweden and some nine years later attended the fifth memorial fest of this church.

In 1864 he moved to Farmersville a small settlement near Patton, Ill., where Augustana college and seminary had started its existence. He became considerable aid to Augustana and the Swedish community in which he settled by being one of the main promoters in building the church.

In 1865 he with his family moved to Wakefield, Neb., settlement, locating eight miles northwest of town. In 1880, when his daughter, Sophia, Mrs. S. Collins, married he moved to town and ever since has made his home with the Collins family with the exception of two ten weeks when he was out at the old homestead place with daughter Ida, Mrs. Chas. Lundberg.

Grandson Johnson was a constant Christian and was the first one to promote the organization and building up the Lutheran congregation and church at Wakefield. Always hopeful and never discouraged he took that side which he was sure was right and just to God and mankind.

The last three years he gradually became weaker and weaker as the years went on. The cardiac blow that he received peacefully, leaving three sons, two daughters, thirty-three grand children and nine great grand children, not to mention but to be thankful to the good Lord

Mr. and Mrs. Joe Overman visited in Hawkins Sunday. Mrs. Mike Graef and daughter, Helen, were Wayne visitors Thursday. Mrs. H. S. Moses and Miss Louise Wendte were Wayne visitors Friday. Miss Sadie Thomas is spending her week in Carroll, a guest of Mrs. Claude Bailey. In a business transaction the past week William M. Schmidt became owner of the George Snowden farm north of town. Mrs. Etta Overman, who has been working in Hawkins this summer returned Sunday to be ready for school Monday. Mrs. Ella Carpenter of De Moines, came Thursday for a three weeks' visit at the home of her mother, Frank Carpenter. Mrs. Eugene Groves returned to Wayne Thursday. While here she was a guest at the Sun, Hotel and C. E. Benson's home. Mr. and Mrs. Perry Knud and Mr. and Mrs. Paul Snowden went fishing Friday, north of Wakefield, and came home delighted with their catch. Members of the D. B. Club attended the "Chief of Police" play

at the Savidge carnival grounds on Saturday evening with Miss Loretta Cullen as guest of honor. Gus Wendte with his little daughter, Evelyn, and sister, Miss Louise Wendte, moved to Wayne Monday. Miss Wendte has a position at the Normal. Mr. Wendte has made no definite plans for the future. Misses Dorothy and Nettie Needham returned to their home in Norfolk Sunday accompanied by their uncle and aunt, Mr. and Mrs. Chas. Nauman, who spent the day in Norfolk. Mr. and Mrs. P. C. Anderson returned Thursday from Rushville where they visited Mr. and Mrs. Andrew Davis, formerly of Winside. They also visited Mrs. Anderson's sister at Creighton. Mr. and Mrs. Bert Oman returned Friday from Sidney, Neb., where they have been for a couple of months. Mr. Oman will work corn in Wayne county and has not as yet decided upon making Sidney his permanent home. A great change has taken place in the life of Winside children. Last week the merry go round, and ferris wheel as well as other carnival attractions attracted attention. This week the quietness of the school-room prevails. Miss Loretta Cullen left Monday morning for Washington, D. C., where she will be in the war insurance department. Mrs. J. B. Wylie will do the work as trimmer in the Robert Morrow store, the position vacant by Miss Cullen's leaving. The Executive board of the Old Settlers Association held a meeting and selected the following officers for the coming year: President, George Burnett; vice-president and treasurer, Fred Weible; secretary, G. A. Pestal. Also selected for the picnic next year was Winside. Mrs. J. E. Egler and daughter who have been visiting Mrs. Egler's sister, Mrs. H. C. Smith, left Saturday for Sigourney, Iowa, to visit another sister, before returning to their home at Prince Albert, Canada. Their visit in Winside was shortened by a message stating that Mrs. Egler's son would soon leave home to join the army. Mr. and Mrs. G. E. Wolfe and daughter, Maxine, visited from Saturday until Monday at the A. H. Carter home. They were returning from Fargo, N. Dak., where they have been visiting for some time. Their home is Bladen, Nebraska. Mr. Wolfe is very high in his praise of Wayne county. He made the trip by auto and says much of the territory over which he passed has suffered severely for want of rain. D. B. Club Entertains. Mrs. Lucian Carter, assisted by the members of the D. B. Club, will hostess Friday afternoon at the home of Mrs. Lute Miller, the guest of honor being Miss Loretta Cullen. Each guest presented Miss Cullen with a beautiful handkerchief. The afternoon was spent socially. Coffee, sandwiches and salad were served. Those present were: Mrs. Roy Carter, Mrs. John Reinbrecht, Mrs. Clarence Rew, Mrs. Henry Brunce, Bess Rew, Edith and Josie Carter, Bess and Myrtle Leary, Helen Reinbrecht, Miss Helen Estlin, Thelma Jessie and Alta Price, Paula Mittelstadt and Mrs. Glen Green of Haskins. BAN ON GASOLINE.

Washington, Aug. 30.—The ban on the use of gasoline on Sundays for motor vehicles and boats will apply only to pleasure riding, Fuel Administrator Garfield announced today. He said reasonable use of gasoline driven vehicles for necessary purposes was not intended to be prohibited.

The request made by the fuel administration, "that pleasure riding be discontinued on Sundays for the present to conserve our supply of gasoline for war needs was not intended to prohibit reasonable use of gasoline driven vehicles as a means of necessary transportation where no other means are available.

"Mr. Garfield believes the public will construe the request wisely and intelligently and will not use their automobiles for other than the most necessary purposes. The intention of the request is that all mere pleasure riding be eliminated, but that necessary use of the automobile be not interfered with.

"Just what is 'pleasure riding and what is 'necessary use' must be determined by the individual.

The United States fuel administration will not attempt to prohibit automobile traffic on Sunday.

While tax cuts were not mentioned in the statement, it was said informally the restrictions would not prevent taxi service for necessary purposes, though there should be no hiring of cabs for pleasure riding.

The use of pleasure automobiles on labor day and other holidays should not come under the restrictions. Officials said, however, persons desiring to use pleasure cars on labor day should look into their consciences to determine whether

they should use gasoline on that day.

REFeree's SALE.

Notice is hereby given that under authority of an order of the district court of Wayne county, Nebraska, made on August 17, 1918, in a cause then pending in said court wherein Henry E. REGISTRATION DAY.

Washington, Aug. 31.—President Wilson today signed the man-power act and immediately afterward issued a proclamation fixing Thursday, September 12, as the day for registration for the army draft of all men in the United States between the ages of 18 and 45 inclusive who have not already registered or who are not now in the military or naval service.

In a proclamation issued immediately after he signed the new man-power bill, authorizing extension of the 21 to 31 draft ages, the president called on the younger and older men to enroll on that day with local draft boards where they make their permanent homes.

Decisive Victory Proposed.
"We solemnly propose a decisive victory of arms," said the president, "and deliberately to devote the larger part of the military man-power of the nation to the accomplishment of that purpose."

"It is the call to duty to which every true man in the country will respond with pride and with the consciousness that his duty is to play his part in the vindication of a great cause at whose summons every true heart offers its supreme service."

Registration Hours 7 to 9.
The hours of registration will be from 7 a. m. to 9 p. m., and all state and local officials are called on to make immediate arrangements for maintenance of registration places on that day.

All men within the new ages, whether citizens of the United States or not, must register, unless they are diplomatic or consular representatives of foreign nations, in case of illness on the registration day, arrangements for tardy enrollment may be made with local boards and men who expect to be absent from their homes may register by mail, sufficiently in advance that the registration record reaches the board by September 12.

If a man has no permanent residence he is to register at the place he is on September 12 and those out of the country on that day are required to enroll within five days after their return.

13,000,000 Men to Enroll.
At least 13,000,000 men will place themselves subject to call for war service under the new registration act. It is estimated, although only those without dependents, in good health, and otherwise qualified for arduous duties of soldier life are to be taken.

Youths in their eighteenth will be placed in a separate group, the war department has announced, and will not be called until the supply of other available men in the new classes is exhausted. This does not mean that their service will be long deferred, however, inasmuch as it has been announced that all men in the new registration, accepted for general service, will be called on September 30, 1919. The man-power bill makes no specific provision for separate classification of 18-year-old boys and the war department has announced that no such provision has been made on executive initiative.

Must Work or Fight.
Although the "work or fight" clause which would exempt affected striking workmen was taken out of the bill, before passage, Provost Marshal General Crowder has planned to apply vigorously existing regulations relating to idle men or those engaged in non-essential employment to the newly registered men.

The man-power bill was signed today by presiding officers of the house and senate and sent to the White house for the president's signature, which made the measure law. The president at once signed it and issued the proclamation carrying the new draft provisions into action. After citing the law and stating the regulations for registration, the president's proclamation reads as follows:

"Fifteen months ago the men of the country from 21 to 30 years of age were registered. Three months ago and again this month those who had just reached the age of 21 were called. It now remains to include all men between the ages of 18 to 45.

Not a New Policy.
"This is not a new policy. A century and a quarter ago it was deliberately ordained by those who were then responsible for the safety and defense of the nation that the duty of the military service should rest upon all able-bodied men between the ages of 18 and 45. We now accept and fulfill the obligation which they established, an obligation expressed in our national statutes from that time until now. We solemnly purposed a decisive victory of arms and deliberately to devote the larger part of the military man-power of the nation to the accomplishment of that purpose."

"The younger men have from the first been ready to go. They have furnished voluntary enlistments out of all proportion to the numbers. Our military authorities regard them as having the highest competent qualities."

"Their youthful enthusiasm, their virile eagerness, their gallant spirit of daring make them the admiration of all who see them in action. They covet not only the distinction of serving in this great war, but also the inspiring memories which come of a great day and a great service for their country and for mankind."

now called upon, the opportunity now open to them will be accepted with the calm resolution of those who realize to the full the deep and solemn significance of what they do. Having made a place for themselves in their respective communities, having assumed at home the graver responsibilities of life in many spheres, looking back upon honorable records in civil and industrial life, they will realize as perhaps no others could, how entirely their own fortunes and the fortunes of all whom they love are put at stake in this war for right and will know that the very records they have made render this new duty the commanding duty of their lives. They know how surely this is the nation's war, how imperatively it demands the mobilization and massing of all our resources of every kind. They will regard this call as the supreme call of their duty and will answer it accordingly.

will be called upon to bear arms. Those who are not physically fit will be excused; those exempted by alien allegiance; those who should not be relieved of their present responsibilities; above all those who cannot be spared from the civil and industrial tasks at home upon which the success of our armies depends as much as upon the fighting at the front. But all must be registered in order that the selection for military service may be made intelligently and with full information. This will be our final demonstration of loyalty, democracy, and the will to win. Our solemn notice to all the world is that we stand absolutely together in a common resolution and purpose. It is the call to duty to which every true man in the country will respond with pride and with the consciousness that in doing so he plays his part in vindication of a great cause at whose summons every true heart offers its supreme service."

THE STUFF THAT MAKES VICTORY.

New York Tribune: The slogan adopted at the congress of allied women in Paris is high and fine and big: "Believe Victory! Think Victory! Preach Victory! Live Victory!"

But the stuff that makes victory is in the wild new slogan from the trenches: "Hell, Heaven or Hoboken by Christmas!"

New York Herald: "How can you unscramble an egg?" The question asked by the late J. P. Morgan apropos of the great steel merger is being recalled with some uneasiness apropos of the proposal to merge all the telephone companies with the Bell system under government control. The chance of these properties being returned to their owners after the war is very slender.

PLEASE DO NOT ASK FOR THE TIME OF DAY

On September 1, we discontinued answering requests for the "Time of Day." This was done because it is imperative now that all non-essential practices be eliminated to conserve labor and equipment.

When a subscriber lifts his telephone receiver and asks: "What is the correct time, please?" it requires as much of the operator's time and an equal use of the telephone equipment as would be required to complete an ordinary telephone call.

In Wayne alone 225 requests for the time are made daily. The answering of such requests requires considerable use of equipment as well as the time of operators.

The supply of transportation, labor, raw material and equipment is only sufficient to meet the present demands of the government and of industries either directly or indirectly connected with the prosecution of the war. It is therefore, becoming more and more necessary to reduce non-essential services of every kind.

The telephone service is necessarily affected by the general condition of the labor and material market, and the less essential uses of the telephone must be restricted.

War conditions have greatly increased the demands for NECESSARY SERVICE, which makes it imperative that telephone facilities be conserved in every possible way.

Please Do Not Ask the Operator for the Time of Day.

THE FIELD OF BUSINESS

Sioux City Journal: Progress of war legislation easily led in interest during the last business week. The revenue measure was completed by the house committee and probably will be presented today. It provides for raising and a general good time during the coming year; includes a flat 80 per cent war profits tax with an alternate excess profits tax ranging from 25 to 100 per cent, with certain exemptions; and fixes the normal tax on incomes above \$4,000 at 12 per cent. The man power bill was passed by the house on September 12 as the date for registra-

tion of approximately 13,000,000 men between the ages of 18 and 45, inclusive. The senate's "work or fight" clause, to which organized labor took exception, was stricken out in conference. Practical certainty of national prohibition to be effective as a war measure July 1, 1919, was reached. An amendment to the emergency agricultural appropriation bill, forbidding the use of insecticides until demobilization of the army, will accomplish the result. The senate mines committee reported favorably a bill approved by the president to authorize taking over by the government of production and distribution of minerals essential to the war.

The secretary of war announced the appointment of Assistant Secretary Benedict Crowell as head of a new bureau of munitions, with complete centralized power, and of John D. Ryan as head of a merged department of airplane production and personnel training. The director general of railroads took under consideration recommendations that wage increases between 15 and 25 per cent be granted to about 300,000 railroad employees, mostly track laborers and clerks. A facilities division of the war industrial board was formed to assist in construction of new war plants and plants to a war basis, and it was announced that federal financial aid will be extended where necessary to aid in development of new oil refineries was laid. Elimination of Sunday pleasure motoring east of the Mississippi was asked as a means of saving fuel. The war industrial board plants agreed to limit their output for the last half of the year to 25 per cent of the total production in 1917.

The Smith & Wesson Arms company, objecting to the policy of the war labor board, asked that its plants be taken under government control. A United States court decided that the Curand company is not liable for damages in connection with the loss of the Lusitania, and forecast collection of damage claims from the German government after the war.

Despite credit restrictions urged by the federal loan board, the stock market for the week was much improved. Some rails and industrials reached maximum quotations for the year. United States bonds, including 1916's, Greater net earnings shown by railroad statements for July constituted a bullish factor. Money rates remained at 6 per cent. Liberty bonds, including the 3 1/2's, reached somewhat. French exchange reached the highest point attained in the last three years. Negotiations with Spain for a loan to the United States, in order to avoid exchange of dollars into pesetas, were carried on.

Corn prices in Chicago opened the week strong, but thereafter weakened steadily. October corn closed Monday at 91c and ending at \$1.54 7/8. October oats moved with corn. A temporary grain rate reduction between Lake Michigan ports and Buffalo and the seaboard amounting to 2 cents a hundred-weight, was declared for the period September 1 to October 10.

Administrator Hoover announced that a war bread of higher quality would be available during the coming season for all the allied countries, and that the government would be prepared to purchase an equal quantity of substitutes with each purchase of wheat flour will be recorded.

AFTER THE WAR

Nebraska Farmer: Secretary Lane of the department of the interior says that it is not too early to begin planning for our soldiers after the war is over. We believe that Secretary Lane is right if this planning in no way interferes with the vigorous prosecution of the war.

The manager of a Lincoln concern the other day said that fifty-two from a pay-roll of 175 had left for war service. It is important for the concern to replace these men with train male workers and therefore, wherever possible, the company is training women to take the place of men. Within the last few months the company has installed approximately \$50,000 worth of automatic machinery. This machinery does the work that men formerly did and can be operated by less skilled workers.

It happens that this company is in a business which is essential. It must keep up its production in the face of labor shortage. There are thousands of concerns in our country in the same predicament, and there are trained male workers and therefore, thousands of them training women and installing automatic machinery. This is exactly as it should be, for necessary business must be kept moving and there is no other way to do it.

After the war is over many of these women will still continue their work. It will be necessary for many of them to go to their homes for their intended mates will never return from the battlefields of liberty. The automatic machinery will also continue in operation. The women of our boys will come back from over there to find their former places occupied either by women or machinery, and will realize that an entire revision of life's plans must be made.

In wars heretofore we have always had vast domains of unoccupied land to which the returning soldier could go. Now our good agricultural lands are all occupied. Secretary Lane's suggestion is that it is the duty of the government to re-

claim lands by irrigation and drainage, to make these available to returned soldiers at reasonable prices and to help the new farmer through the science of agriculture to make a success of his business.

THE ONLY SAFE COURSE.

Lincoln Journal: It may be that Germany is a hollow shell, ready to break to pieces under a little more pressure, as many of the prisoners seem willing to report. But their readiness to tell discouraging stories about conditions behind their own lines will naturally arouse some suspicion. The only safe course to take now is to assume that Germany is still at the maximum of her strength and can be overthrown only with tremendous power. That

power it the duty of the United States to exert the coming year.

What The Packers Do For You

Not very many years ago in the history of the world, the man that lived in America had to hunt for his food, or go without.

Now he sits down at a table and decides what he wants to eat; or his wife calls up the market and has it sent home for him. And what he gets is incomparably better.

Everyone of us has some part in the vast human machine, called society, that makes all this convenience possible.

The packer's part is to prepare meat and get it to every part of the country sweet and fresh—to obtain it from the stock raiser, to dress it, cool it, ship it many miles in special refrigerator cars, keep it cool at distributing points, and get it into the consumer's hands—your hands—through retailers, all within about two weeks.

For this service—so perfect and effective that you are scarcely aware that anything is being done for you—you pay the packers an average profit of only a fraction of a cent a pound above actual cost on every pound of meat you eat.
