Mr. Hahn was one of the instructors at the county institute at Fullerton, Neb., this summer.

FOOD OFFICIALS TO MEET.

Omaha, Sept. 11.—County food administrators of Nebraska, will meet in Omaha on September 11 when plans for the winter and a definite program to be followed will be outlined by Guyton Mr. Watten, federal food administrator for Nebraska.

Mr. Watten, accompanied by Deputy A. C. Lewis, attended the Washington meeting of state officials when Herbert Hoover outlined the food situation as it concerns the allied countries and the country.

Food regulations will not be so drastic in the past in the opinion

of food experts unless unforeseen circumstances arise which might necessitate closer supervision. However, the United States has a big job in front of her for she has to feed her own army of more than 3,000,000 "over there," in addition to furnishing the major portion of the food required by the allies. It's the biggest job the United States has ever undertaken.

PASTOR'S REPORT.

Just before leaving for the annual conference, Rev. D. W. MacGregor of the local Methodist church made the following report:

Mrs. C. J. Huff and daughter, Mrs. Alfred Dragoon, arrived home from their trip to Lincoln and friends and relatives at O'Neill and Hage, Neb.

John Owen of Omaha has been visiting his brothers, Leon and Edward Owen, in Wayne the past week. He expected to return to Omaha today.

Mrs. Elizabeth McKenzie of Carroll, was in Wayne Wednesday morning en route to Lincoln, where she will meet her husband who is attending the Methodist conference at Lincoln.

Miss Elizabeth Kingsbury arrived in Wayne Sunday from Utica, N. Y., where she spent the summer. She has resumed her place in the faculty of the Wayne State Normal.

Miss Mary Louise Killen of Lincoln, who had been spending the summer at Evergreen, Colo., arrived here Monday evening to take up her work as a student at the Wayne Normal.

Miss Elizabeth Bettcher arrived home Sunday from North Liberty, Ind., where she spent a few weeks' vacation. She resumed her work this week as member of the State Normal faculty.

Mrs. C. W. Hixcox arrived home Tuesday evening from a week's visit at Lincoln and Adams, Neb. At the latter place she visited Mrs. J. W. McKibbin, formerly Miss Sara J. Killen.

Mr. and Mrs. William Kudger received a card Sunday announcing the safe arrival of their son, Henry, overseas. They also received, on Monday, a cablegram stating that he had reached England.

Mrs. Jeffries' Ready-to-Wear Store will have the fall millinery opening on Friday and Saturday of this week. The newest, neatest and best in street and dress hats. Styles that are becoming in all types. S121ad

Mrs. J. H. Massie returned Wednesday from Spaulding, Neb., where she attended the funeral of her brother-in-law, Mike Hakey. Mr. Hakey is known in Wayne, having once made his home here.

Did you ever stop to think that those headaches were caused from weak eyes? Let us fit you with a pair of glasses that will straighten out those muscles and make you feel like another person. Our work is absolutely guaranteed. —W. V. Vail, Optician, located in Dr. Williams' old stand. S121ad

Rain fell intermittently Monday and Tuesday, settling the dust and freshening vegetation. The sky clears Tuesday night without a frost. Most people are of the opin-

ion that a frost now would not injure the corn.

Mrs. H. E. Griggs has been seriously ill the past week, but is reported somewhat improved the last few days.

Rev. S. X. Cross will be in Norfolk Tuesday and Wednesday of next week to attend the annual Epworth conference.

The regular monthly meeting of the Wayne library board was held Tuesday evening at the library. Regular business was transacted.

Mrs. G. W. Crossland and Miss Bernice Britz went to Hogbin Wednesday morning and returned home that afternoon in the Brittler car which was left there a few days before Mrs. Britz started to rain while the Brittler family was en route home from Elgin.

We carry a stock of lenses that will fit any eyeglass. Come in and let us examine your eyes and we will guarantee a correct fit, if glasses are what you need. There is no guesswork about it with us. Seek our customers about our reputation as an optician.—W. B. Vail, leading eye man. S121ad

E. M. Fox, who is working at the Mitchell artisenment monument works during the absence of Mr. Christensen, who is in the service, arrived here Monday from Harlan, Ia., where he was a few days before to make arrangements for moving his family here. They will occupy the residence belonging to Mrs. James Fox.

Mr. and Mrs. J. C. Forbes accompanied by their daughter, Miss Marguerite, arrived home Tuesday from Chicago, where they visited their son, Will, who is in training at Municipal Pier, near that city. They report their son comfortably situated.

The Fox family was only block away from the place where the bomb explosion took place.

E. A. Johnson of Sioux City drove out here to accompany Mr. and Mrs. W. M. Fleetwood of this place and Mrs. G. K. Johnson and daughter Geraldine to Sioux City. Mr. and Mrs. Fleetwood will make their home there. They have lived in Wayne for sixteen years and have many friends here who regret to have them leave.

In England at the outset of the War there about 350 women employed by the railroads—today there are more than 65,000. In banks there were a few—telephonists only—today there are more than 35,000. The same conditions are coming in this country. Within the next few months young women living in Nebraska, Kansas, South Dakota, Colorado and Wyoming, are going to be requested to step in and take the places of young men who are being called to the colors. Are you qualified to do it? Will you pay your money into the well known Grand Island business college of Grand Island, Neb., at once for a thorough course in actual business training, the oldest and leading business training school west of the Mississippi river. S121ad

Prof. O. R. Bowen returned on Tuesday from Chicago where he attended a conference made up of Y. M. C. A. secretaries and members of college and state normal faculties, held for the purpose of carrying on the Y. M. C. A. work in connection with the military units, which are being organized in the schools all over the country. The meeting was devoted mainly to discussing the organizing of these units.

Miss Florence York is spending to day in Wakefield visiting the public schools. Miss York is teaching this year in district No. 10, seven miles northwest of Wayne. An account of registration the school was dismissed today.

BUNYAN ACTIVE TO THE END

His Last Years Busy Though Peaceful Ones and Death Result of Act of Self-Sacrifice.

The closing years of the life of John Bunyan were peaceful, unlike in that respect the years that had gone before, but they were busy years devoted to preaching to the work of a pastor and teacher. Of these closing years, Frolic, in his "Life of Bunyan," edited by John Morley, writes: "Bunyan in his work, happy in the sense that his influence was daily extending—spreading over his own country, and to the far-off settlements in America. He spent his last years in his own land of Boulton, Doubting Castle out of sight, and the towers and minarets of Emmanuel and growing nearer and clearer as the days went on."

His end was brought about by exposure when he was engaged in an act of charity. A quarrel had broken out in a family at Reading with which Bunyan had some acquaintance. The father and son were at variance, and in the hope of reconciling them Bunyan journeyed from Bedford to Reading on horseback. He succeeded, but at the cost of his life.

Returning by London, he was overtaken on the road by a storm of rain and drenched to the skin. This brought on a chill. He reached the house of a London friend, Mr. Stratford, but he never left his bed afterward. In ten days he was dead. The exact date is uncertain. It was towards the end of August, 1688, between two and three months before the landing of King William. Bunyan was sixty years of age. He was buried in Mr. Stratford's vault in the burying ground at Bunhill Fields.

ESKIMOS LIKE "RAG" MUSIC

Photograph Donated to Far-Northern Explorer MacMillan Provides Much Amusement.

Eskimos at Etah, in the trackless wastes of the Arctic, not are amusing themselves with phonographs taken to them by the so-called Crocker Land expedition, according to Donald B. MacMillan, who headed the party and who has returned to New York after an absence of more than four years. They don't take to classical music, but they do like rag-time, and their favorite selection is a Hawaiian melody, Mr. MacMillan said. He added that they were learning the two-step.

While the Eskimos don't believe in war and think the warning nations are "running amok," the explorer explained that they are opposed to anything autocratic. When they think the chief man of their tribe is assuming too much power they hold a council and oust him with a harpoon. They have the sociological theory that what belongs to one man belongs to all.

Their marriage customs are somewhat curious, Mr. MacMillan said. Children of eight years have their partners selected for them, and they marry when the girl is able to chew the sealskin sole of a shoe. Frequently the men exchange wives for a brief period. The wives sometimes object, but it does them no good.

Mr. MacMillan announced the discovery of vast coal fields on the west coast of Ellesmere Land, but admitted they were likely to be the world's little good.

IT WAS A CLOSE SHAVE.

B. L. T. in The Chicago Tribune: Germany planned in sinking of the Mr. Vernon to prevent Senator from Oregon from resigning, knowing that this blow would bring the United States to terms. We have had a very narrow escape, men faintly.

Ahern's

Our New Fall Stocks Are Now Ready For You

The merchandise bought on my recent trip to Eastern markets is now arriving.

These up-to-date goods added to the winter merchandise we have been buying for the past several months, completes the largest and finest stock our store has ever had for you.

We would like to show you these goods now while our stock is at its very best.

You will find that this is a most favorable time to commence your fall buying because later on it will be impossible for us or any one else to find more such desirable merchandise as we bought early and now have in the store. Prices, too, are steadily advancing. You will find it most satisfactory and profitable to buy from our present complete and moderately priced stock.

SOCIAL NEWS

Social Forenoon. Mrs. M. Jacobs will entertain the members of the D. A. R. chapter, at her home Saturday afternoon.

Ladies' Aid Supper. The members of the Ladies' Aid society of the Presbyterian church were entertained at the home of Mrs. Carrie Bruner, and secretary, Mrs. D. W. Noakes. The next meeting will be held with Mrs. James Britton Friday, September 20. The program will be carried out as follows: Devotions, the Ten Commandments; roll call, verses on the Sabbath; burial collection of dues, membership report; paper, "Saving Sunday for America," Mrs. S. A. Linton; symposium, "How May Children Be Taught to Love the Sabbath?" Mrs. Rennieck; "Sunday Dinners and Sunday Pleasures," Mrs. D. W. Noakes; Union Signal quiz; Mrs. Crocker. The members are asked to bring their dues as the Union Worker will be discontinued until dues are paid.

THE GOVERNMENT ORDER. The government requires every newspaper in America to discontinue copies not paid for in advance. The Herald should not be considered presumptuous in asking subscribers to remit promptly. The Herald has no choice and must be impartial. But it does not want anyone who desires the paper, to be without it.

THAT EXTRA CENT. Lincoln Journal: Loyal Americans are using so little sugar nowadays that the addition of a cent a pound to the price will not be a serious hardship. All they will ask is that the government make sure that this extra cent doesn't go to the fattening of any profiteer.

William C. De Mille, brother of Cecil B., is now director of the Martin. They make a splendid combination, the mis being as good as De Mille, as the old boys' club bath it.

Broscheit was initiated into the club. Frank Berry of Chicago was an out-of-town guest. Mrs. J. J. Williams Wednesday afternoon. The next regular meeting will be held October 8 with Mrs. Carrie Bruner.

The Ladies' Missionary society of the Presbyterian church is meeting this afternoon with Mrs. H. S. Kinland. At 5 o'clock supper will be served.

St. Mary's Guild. Mrs. William Baumgardner entertained the members of St. Mary's guild last Thursday afternoon at her home in the country. The afternoon was spent knitting and visiting. Light refreshments were enjoyed. Mrs. Frank Davey of Sioux City was an outside guest. The next meeting will be held with Mrs. James Pinn in Wayne Thursday, September 19.

Mrs. Reynolds, Hostess. The members of the P. N. G. club were entertained Tuesday afternoon at the home of Mrs. Reynolds. The members decided to meet at the afternoon, September 19, at 5 o'clock. Cross rooms and new for the club. Mrs. Williams

These prices will be withdrawn as soon as present stocks are exhausted.

CARHART HARDWARE

Perfect Music Re-Creation

A Hundred Years Hence

The world will still revel in the beauty of Anna Case's voice

Yes, a century from now, when a new generation refers to the primitive days of 1918, the great diva's superb voice will thrill vast audiences. Thanks to the genius of Thomas A. Edison it has been Re-Created and preserved in all its glory for our descendants. The men of tomorrow will hear, not a mere imitation, you understand, but the voice itself—pure, bubbling and spontaneous. For it has been Re-Created on

The New Edison

"THE PHONOGRAPH WITH A SOUL"

This means that it has been Re-Created with such fidelity, so perfectly and completely, that no human ear can distinguish artist from instrument. The famous Edison tone tests have proved this beyond question. Before audiences totaling more than 2,000,000, great artists, stars of Metropolitan Opera, have sung in direct comparison with their own voices on the instrument. And not one listener has been able to detect a shade of difference.

Come into our store tomorrow and hear Anna Case on the New Edison.

THE NEW EDISON

Ask for a Demonstration

The Vacant Chair

Turn to music as a solace
'Til he returns from "over there"

Music will ease the aching heart and recall the happier days of peace. Music is what you need to whittle away the lonely evenings until he comes back. Not an imitation of music, but real music—music actually Re-Created as is possible only with

The New Edison

"THE PHONOGRAPH WITH A SOUL"

This is the marvelous instrument which Re-Creates the singer's voice with such fidelity that no human ear can detect the artist from the New Edison. Before audiences totaling more than 2,000,000 people, great artists—stars of the Metropolitan opera—have sung in direct comparison with the instrument and challenged the listeners to distinguish a shade of difference. And not one listener has been able to tell when it was the living voice he heard and when the Re-Creation.

More than 1,500 music critics—the most confirmed of skeptics—have been forced to admit that Thomas A. Edison has finally achieved what was believed to be impossible—Music's Re-Creation.

Now is the Opportune Time to Buy an Edison to Avoid Increased Prices.

Mrs. Harry Fullen and son William of Bassett, Neb., were arrivals here last week to visit the former's father, Mrs. J. J. Barnes, and family. They were en route to Kearney, where William is a student in the military academy.

Mrs. and Mrs. W. L. Richardson, accompanied by their two daughters, Miss Emma and Miss Agnes, of Wayne, and Mrs. C. C. Brady of Indianapolis, Ind., spent Sunday with their daughter, Mrs. Paul Kilion, and family, near Wakefield.

The following day, Mrs. Brady left for her home and was accompanied as far as Sioux City by her mother. Edward Perry who returned last week from a trip through the southern part of the state, confirms former reports of short crops down there. Mr. Perry says people in southern Nebraska have plenty of money, however, and will not suf-

fer by reason of the season's crop disappointments.

Mrs. Lydia Dickson, mother of Mrs. F. L. Blair, and Mrs. Grace Keyser went to Omaha Monday morning to spend a few weeks.

Mrs. G. K. Johnson and daughter Geraldine of Sioux City arrived here last Thursday to visit the former's parents, Mr. and Mrs. W. M. Fleetwood.

Miss Francis Kolber returned Friday from a week's visit with relatives in Bloomfield. She expects to return next week to Sioux City where she has a position.

Mrs. Walter Weber went to Norfolk Saturday evening to meet her husband who was returning from a business trip to Neligh. They returned home Monday morning.

Lewine Johnson, stone-cutter, at the Mitchell & Christensen monument works, went to the quarries at St. Cloud, Minn., last week to engage another stonecutter to assist at the Wayne monument works. The new employe's name is Emil Halberg.

Dr. C. E. Smith, a brother-in-law of Mrs. R. E. K. Mellor, Mrs. H. F. Wilson, and H. S. Ringland, died very suddenly Friday, September 6, at his home in Denver, Colo. Mrs. Wilson and Mrs. Mellor were visiting at the Smith home at the time of his death.

Mrs. H. H. Hahn went to Omaha Tuesday to meet her daughter, Mrs. E. H. Barkley, the latter on her way to Millidgeville, Ga., where she will teach in a women's state college.

Her husband who is in training at Jacksonville, Fla., will meet her at Macon, Ga.

Will Root, A. E. McDowell and Will Clouson of Sholes, were looking after business in Wayne Monday.

John Shannon left Monday evening for the western part of the state to buy cattle to feed on Wayne county corn.

Mrs. L. Wallen who was here, guest of her sister, Mrs. L. E. Panabaker, returned Tuesday to her home at Laurel.

Rev. J. H. Fetterolf left Tuesday morning for Rochester, Minn., to consult the Mayo specialists in regard to his health.

Mrs. D. W. MacGregor left Tuesday morning for a visit at Tekamah and Blair, at the latter place to spend a few days with a son.

Miss Dorothy Bessie and Miss Alma Voter of Laurel, arrived here Monday evening to enroll as students at the Wayne State Normal.

Miss Margaret Chace left Tuesday morning for Chicago to attend school, and was accompanied as far as Sioux City by Mrs. Chace and Miss Goldie Chace.

Mrs. Earl Bruce arrived in Wayne Monday evening to visit the home of her husband's parents, Mr. and Mrs. A. H. Bruce. Mr. Bruce is in the service, having recently been transferred from Camp Mills.

John Deo Hash who was inducted into the service left Sunday for Fort Omaha to receive training. Mr. Hash was married recently and his wife left Sunday for Magnet, where

she will resume teaching in the public schools. Mr. and Mrs. Hash are both graduates from the Wayne State Normal.

Simon Straie, H. E. Rathlow, Otto A. Miller and H. H. Barge of Hoskins, were in Wayne Monday to attend a meeting in the interest of the coming registration.

Mrs. Ed Wright went to Norfolk Monday evening to see her sister, Mrs. Herbert Honey of Carroll, who was seriously sick at the General hospital, where she underwent an operation for appendicitis last week.

Miss Ida Lee and A. C. Williams of Meadow Grove, and Oscar Hodgson of Norfolk drove to Wayne on Sunday and spent the day with Miss Sybil Dixon. Miss Dixon accompanied them to Meadow Grove that evening, returning home Monday afternoon.

Prof. and Mrs. I. H. Briell and family left in their car Saturday for Elgin, Neb. They expected to return home in their car on Monday morning, but an account of the muddy roads were only able to get as far as Hoskins, when they were compelled to make the rest of the trip by train. They arrived home on Monday afternoon.

SWANSON-TREDE.
Bert Swanson of Randolph and Miss Rosella Trede of Pentler were united in marriage at the Methodist parsonage in Wayne Thursday, September 5. Rev. D. W. MacGregor performed the ceremony. The young people will reside at Randolph.

RED CROSS BENEFIT SALE

Rural Home Society, North of Wayne Realizes Over \$200.

The Rural Home society, north of Wayne, planned and carried out a very successful auction sale Saturday evening for the benefit of the Red Cross, the sales amounting to over \$200. The members of this society spent weeks planning this affair and it was due to their untiring efforts that the sale went off so successfully. One half the block on Third street west of the First National and State banks was roped off and the crowds gathered on the walks and in cars in front of W. H. Neely who stood in an auto truck and officiated as auctioneer. The members wish to thank Mr. Neely for his excellent services, and also W. H. Buetow, who acted as clerk. Quilts, chickens, potatoes and other vegetables, cakes, and many other things were sold and all brought good prices.

The ladies also conducted a sale at the Basket Store the same evening. An assortment of aprons was displayed on one table and on another, socks, candy, and popcorn balls were sold by the younger members of the families. Both sales were largely attended and the public was generous and appreciative. A part of the proceeds will be used to make comfort kits and a part will go into the general fund.

Men, be prepared for Cold Weather

Not only in coal alone, but look over your stock of wool underwear. We have a good stock now, but Uncle Sam is using all the rest of the wool for the soldiers and we won't be able to get any more this winter. We have a good stock of Staley, so get yours early.

If you need a leather vest, mackinaw, a good sweater, or flannel shirt these cool mornings, we have them also. Work and dress shoes; gloves and mittens.

Our new overcoats and fall suits are here for you to select yours from.

FRED L. BLAIR
Wayne's Leading Clothier

Quality Candies

We have received a fine line of box candies. The soft, creamy kind, with delicious flavors, and absolutely pure and wholesome. Each box is daintily wrapped. We also have a choice line of candies in bulk. The kind the children like.

Fresh Baked Goods

Are you proving your patriotism by economizing? Buy your bread and pastry here and it won't cost you as much as you spend in doing your own baking.

Our service is prompt and courteous. Our food is delicious and wholesome.

For Sunday dinner what is nicer than ice cream for dessert? Leave your order here.

HOUSEWIVES MAY HAVE SUGAR FOR CANNING PURPOSES

Fruits and Vegetables Must Be Saved and Winter Supplies Laid, By Says Food Administrator

Omaha, Neb.—The Nebraska housewife today has a great problem to solve—it is that of saving the fruits and vegetables by canning and preserving, and in so doing to use just enough sugar to properly preserve these commodities.

Fruits and vegetables must be saved at all hazards. Winter supplies must be laid by so that food will be available and also that transportation will be relieved when the demands are heaviest.

Sugar is an all important factor in the preserving of fruits and vegetables. It must be available in sufficient quantities to promptly preserve these commodities and the Federal Food Administration for Nebraska has made it available, even in the face of scant supplies of sugar.

Sufficient sugar will be allotted the housewife to preserve and can her fruits and vegetables, but she must get her certificates from the Federal Food Administrator of her county or his representative. These certificates will be given on a showing that the sugar is to be used for canning and preserving.

"Every patriotic housewife will cooperate with the government in this regard," says Gordon W. Wattles, Federal Food Administrator. "The Nebraska housewives show what they could do in conserving wheat. Their response in using sugar wisely will be even more numerous."

"It is a time for every woman to use her ingenuity and to make her sugar go as far as possible. Almost about 70 per cent of the country's sugar supply passes through the housewife. It is evident that she is the important cog in sugar conservation. She has two patriotic duties to perform:

"She must see that not more than 2 pounds per person per month is used in her family, and—
"She must preserve and can sufficient fruits and vegetables to carry her family through the winter and until the next crop."

UNCLE SAM FACES GREATEST OF ALL TASKS THIS YEAR

Must Furnish Food in Greater Quantities and Will Do It, Says Wattles

America has her greatest duty to perform during the coming year, says Gordon W. Wattles, Federal Food Administrator for Nebraska. She must furnish food for our soldiers, 8,000,000 men of them, and in addition the greater part of the food needed by the Allies. The Allies will need 60,000,000 bushels of cereals for human consumption, 4,000,000,000 pounds of fat and fat products, 1,500,000 tons of sugar, and 900,000,000 pounds of beef.

"It is the greatest call for foods the United States has ever undertaken," says Wattles. "But we have told them we would furnish these foods. And we can do it. We must make good."

CUT OUT WASTE, AS EACH OUNCE SAVED IS FOOD PRODUCED

Food Administrator Wattles Gives Conservation Suggestions That Work

Gordon W. Wattles, Federal Food Administrator for Nebraska, gives the following suggestions to Nebraskans that they may assist in winning the war.

Limit your sugar for household purposes to two pounds per person per month. The scant supplies make this drastic conservation necessary so that the Allies may have enough sugar to sustain morale.

Can and preserve every ounce of available fruits and vegetables. Sufficient sugar will be provided for this purpose. Every housewife should "put up" enough fruit to carry through the winter.

Use wheat flour and other wheat products wisely and economically. Adhere rigidly to the substitute rules and use 1 pound of substitutes with every 4 pounds of wheat flour.

Use beef in moderation and buy beef from the lighter cuts of carcasses. Beef dressing less than 475 pounds to the animal should be utilized for home consumption. The heavier carcasses are needed for export to "Our Boys Over There."

Whenever possible use other foods for sugar, beef, bacon, wheat, and fats. Many foods are available which may be used instead of these foods and with satisfaction.

Cut out all waste. Remember that every ounce of food saved is an ounce of food produced.

ENJOY THE PRESENT. Minneapolis Journal. In less than three months the old fashioned tile will be on its way down from Medicine Hat, and the asphalt will be creeping to the edges. Now is the time to live in the present.

The Rich Softness of Autumn now Prevails

O. P. HURSTAD & SON

Ready to supply Your wants for Early Fall Wear

"Blanket Time"---So Say We All

We are prepared to supply you with blankets at almost every price—the good, dependable quality. PLAIN COLORS—Plain grey and can with colored borders. PLAIN WHITE: These have dainty colored borders. FANCY PLAIDS—double blankets. Special prices to early buyers.

Outing Flannel Sleeping Garments

It's Time for Them Sure Enough

- Striped Outing Flannel Gowns** With and without collars. Neatly finished with fancy braids.
- White Outing Flannel Gowns** Scalloped embroidered edge done in pink or blue.
- Collarless Gowns** Of white or striped outing flannel.
- Striped Outing Gowns** Also plain white, collarless models.
- Outing Flannel "Pajunions"** One-piece garment very much like pajamas in appearance. Made of white or striped outing flannel.

Warm Underwear is Health Insurance

Doctors tell us that a cold is not to be lightly considered, and it is readily avoided when the body is warmly clad. Kiddies do better work in school when they are comfortable, and we have cozy knit underwear that will keep them so.

School Hosiery in Black or White with Double Knees, Heels and Toes

Practical School Dresses of Gingham

Gingham dresses are perhaps the most practical and economical dress you can buy for the schoolgirl. Beautiful plaid gingham predominate, and we have a number of attractive styles, not too fussy for school wear.

We carry a full stock of Bone Dry Batteries—every one brand new. You don't take any risk—either of delay, or of getting a battery not in every sense as new as the day it left the factory

CHURCH CALENDAR

English Lutheran Church. (Rev. J. H. Petteroff, Pastor.) Sunday school and League next week at the usual hours. There will be no preaching service in this church either morning or evening.

Lutheran Church. (Rev. R. Meehring, Pastor.) There will be no services at Wayne or Winside next Sunday as the pastor is attending synod.

Presbyterian Church. (Rev. S. X. Cross, Pastor.) One of the first articles of the early church was: "The people were together." That should be as true today as it was twenty centuries ago.

"Years Fulfilled in an Hour," will be the theme of the next Sunday morning sermon. The hour is 10:30 sharp. There will be special music under the direction of Mrs. A. R. Davis, chorister. All are cordially invited.

It is a great pleasure to us to welcome again the students of the State Normal college. We are pleased to have you visit us whenever you can and to make your church home with us while you stay in Wayne, if you like. The services of the coming Sunday will have in them a welcome for you.

Prof. A. P. Gulliver has been asked to lead the Y. P. S. C. E. meeting next Sunday evening at 7 o'clock. The topic will be: "The Saloon Power and How to Overthrow It." We have here a social problem that will remain a big problem until the open saloon is no more. This is one of a succession of very interesting sociological and psychological studies in the C. E. program.

The church is an institutional organization varying its features according to local demand. All people who attend the meetings of a modern church and associate themselves with its social activities are, in very fact, a part of the church. Go to church next Sunday. Plan to attend the Sunday evening preaching service. The hour is from 8 to 9. There will be a special music program and

an address on a practical theme of the present day.

First Baptist Church. (Rev. Fleischer J. Jordan, Pastor.) The pastor will preach at both services next Lord's day, God willing. Divine worship at 10:30 a. m. and 8 p. m.

The bible school has its session promptly after the morning worship. All are asked to remain for this hour next Sunday. Classes will be found for all who can possibly remain. The subject for discussion is "Winning the World to Christ." Matt. 5:13-16; 28:18-20; Acts 16:9. The B. Y. P. U. is the leader of the B. Y. P. U. next Sunday evening at 7 p. m. He is assisted by Group III. The topic is, "The Saloon Power and How to Overthrow It." Hab. 2:1-17. Normal students and all young people are cordially invited to be present at this meeting. The B. Y. P. U. had charge of the church service last Sunday evening and those who failed to hear the program attended a great treat.

Plan to attend the mid-week prayer service which is held in the basement of the church each Wednesday evening at 8 o'clock.

Choir rehearsal Saturday evening at 8 o'clock. We hope that we may have the pleasure of welcoming many of our Normal school students, not only to the life of the city, but to all the activities of our church life next Sunday. Give us an opportunity to get acquainted with you. Remember that the pastor and people want to be helpful to all who come to our splendid city.

POTATOES FOR SHIPMENT.

Omaha, Sep. 11.—Potatoes cannot be shipped that are unfit for human food, according to a recent ruling of Gordon W. Wattles, Nebraska food administrator. And in commercial potato growing districts the spuds must be sorted and graded according to government standards.

There is nothing to prevent the shipment of potatoes that do not come up to the government grades, but unfit potatoes are barred from shipment. All licensed dealers must see that potatoes are fit before they deal in them.

"Why Pay Cash and Carry When We Trust and Deliver?"

Grocery Headquarters

This is the place where price and quality count. We handle only first quality groceries and can furnish you with all kinds of good things to eat.

We carry only fresh goods and brands that are recognized by thirty housewives as the very best of their kind.

Fresh Fruits and Vegetables While They are Fresh

Call and see us or phone in your order. A phone order for groceries will have the same personal attention that you would have if you ordered over the counter.

FROM WAYNE BOYS IN WAR

...of the past, of the future, I don't know which. The stores and houses are mixed up affairs, with no certain districts for stores. Love, Knox Jones. The following letter was received five days later: Somewhere in France, August 15, 1918. Dear folks: I have been moving around considerably since I wrote you. I am now a member of the field hospital unit. I have had some very interesting traveling. I have ridden over most of France (third class coaches and first class boxcars) and tramped over half of it. Hiking with a full pack in the hottest work. I have paid his compliments to me in the form of an airplane raid. He didn't drop any bombs close, but shrapnel and anti-aircraft guns were put on our steel derbies. With love, Knox.

CHAUTAQUA NEXT YEAR

Newly Elected Board of Directors So Decide at Meeting. Stockholders of the Wayne Chautauque association met in A. R. Davis' law office Monday evening, and after electing a board of directors, decided to hold a chautauque assembly next year. It is believed omission of the seasons this year will be a successful chautauque next year. Board of directors: S. R. X. Cross, J. H. Kemp, F. S. Berry, W. H. Gilder, sleeve, J. H. Cherry, A. R. Davis, and E. O. Gardner. Officers: Rev. S. X. Cross, president; J. H. Kemp, vice-president; J. G. Mines, secretary; H. C. Henney, treasurer.

DISTRICT AGRICULTURE NOTES.

Select your corn this fall. Now is the time to do it. Today, and not tomorrow. Seed corn should be selected from stalks growing where they grew because only then, with certainty, can seed be obtained from stalks that have a tendency to yield well under the conditions that surround the stalks that grew under the same conditions. (Such seed produces high producing power.) Stalks with suckers. Such seed produces fewer suckers than seeds from sucker-bearing stalks. Strain-proof stalks with ears at a desirable height. Seed corn should be selected so that as it matures be considered desirable stalks, especially early maturing stalks with hanging ears, are then most easily found. Freezing weather injures the seed before it becomes dry. Warm, wet weather may cause kernels to sprout before drying. It is drier, more satisfactory, and much more profitable, than selected from cribs in the spring. Do not be caught next spring like you were last spring. Select your seed corn now. P. C. DONOHUE, District Agricultural Agent.

LOCAL NEWS.

J. H. Foster visited Sioux City on Tuesday. H. E. Siman of Winside, was doing business in Wayne Monday afternoon. Mrs. John Larison and Mrs. F. E. Strahan were passengers to Sioux City Tuesday afternoon. J. H. Kemp went to Omaha Tuesday afternoon to attend a meeting of county food administrators. Mrs. C. W. Reed and daughter Miss Ruby of Winside were Wayne visitors Tuesday afternoon. Charles Bockwold of Davenport, Ia., arrived in Wayne Monday evening to visit Richard Hansen, an old friend. Mr. L. M. Owen and son LeRoy left Tuesday morning for a two weeks' outing at Denver and other Colorado points. David Nettleton of Randolph were in Wayne Tuesday their son Guy who was leaving for the army service. E. Hufford went to Madison, Neb., Tuesday evening to act as judge of poultry at the county fair held there this week. Mr. and Mrs. Clyde Oman and family arrived home last week from a summer's absence spent on their farm in Cheyenne county. Prof. J. R. Armstrong went to Dakota City Tuesday to help organize a Junior Red Cross among the pupils of the public schools at that place. Mr. and Mrs. J. S. Carhart went to Sioux City Tuesday afternoon. Mrs. Carhart expected to undergo an operation for gonorrhea the following day. Mrs. L. E. Marousek and little daughter Frances of Sioux City, Mo., arrived in Wayne Tuesday evening to visit at the S. L. Owen home. Mrs. Marousek is a sixteen-year-old daughter of Mr. and Mrs. Henry Marousek of Wayne. Remember and attend Mrs. Jeffries' military opening Friday and Saturday of this week. Besides a line of new fits of latest styles, she has a new stock of furs, coats, and dresses. \$1214 J. J. Ahern and family arrived home Monday by automobile, from Chicago where Mr. Ahern bought new goods for his store here. He says maturing crops between here and Chicago look well and will produce a normal yield. Mr. and Mrs. Ernest Gieselman and Mr. and Mrs. Louie Eichenkamp of Arlington, arrived in Wayne by automobile Sunday evening to visit relatives. Mrs. Gieselman is a daughter of Mr. and Mrs. Henry Henrichs of Wayne. Francis Owen accompanied to Sioux City Tuesday his son Francis who was on his way to Dubuque, Ia., where he will become a member of a military unit in connection with the college at that place. Francis attended the school there last year and took an active part in military training. Now the military training is in the hands of the government. MISS RANKIN'S DEFEAT. Vermont Republican: Montana decided not to be classed in the freak column any longer, and hence Congresswoman Rankin went down to an inglorious defeat. She can now resume her weeping in private without fear of blotting the pages of the Congressional Record. NEWS TO THE BRITISH. New York World: Haig's Army appears to be totally untroubled of all the repulses it suffers in the German official bulletins. GOING SOME. Omaha World-Herald: Rapid progress is being made by the manufacturers of guns and fast progress also in outfitting them.

CAME FROM DAMAGED STOCK

Idea of Blotting Paper Was the Direct Result of Act of Careless Workman.

Blotting paper, like many another valuable discovery, was found entirely by accident one day in a paper mill in Berkshire, England, a careless workman forgot to put in the sizing and it was necessary to throw out the entire lot as spoiled. Later the angry proprietor sat down to write a note and possibly for reasons of economy used a sheet of the condemned paper. To his increased annoyance the ink adhered to the paper and he was about to give up in disgust when the thought struck him that it might be possible to use the paper for absorbing ink in place of the sand then universally used. After some successful experimenting he was able to dispose of his entire damaged stock under the name of blotting paper. From that time on blotting paper came into general use. At first it was always pink in color, red rags being used. Red was a fast color and difficult to bleach, hence the red rags were useless in manufacturing writing paper. But as the color of blotting paper did not interfere with its usefulness, red or pink was as good a color as any other, and thus provided a means of utilizing otherwise wasted material.

Natural Mortar Beds.

Who invented mortar beds. Some prehistoric people, who are all likelihood hit upon the combination by sheer luck. The mortar used by the ancient Greeks and Romans was the same stuff that we use. But nature was in advance of the human discoverer by some millions of years. In Texas and Kansas, extending over vast areas is a geological formation known in that region as the "mortar beds." It is a stratum composed of sand, clay and lime, which, ordinarily fluid, has "set" and become rock. The process by which the sedimentary rocks of the earth were formed is successfully imitated in the sidewalk pavement of artificial stone, which is spread in a moist condition and allowed to dry. It is better for the purpose than natural stone—made in slabs larger than can be quarried and often formed with grooves so as to expand and contract without breaking.

Shame Makes One Forget.

Forgetting is a strange phenomenon. According to the Illustrated World, we are most apt to forget those things that we do not want to remember—especially those of which we are ashamed. In an address on criminals who are on the border line of insanity, delivered recently before the Criminal Society of St. Elizabeth's Hospital, Washington, Dr. Leon Enlie Duval told of many mentally unbalanced men who in their normal state could not remember a comparison between the rate of expansion and an express train traveling at the rate of 80 miles an hour. "Stupid," he says, "20,000 feet a second instead of the 30 feet a second made by a mile-a-minute train—and you will know why remnants of memory glaze off in your hand will carry a finger with it and get your coat." That is the ultimate in speed.

Tremendous Speed.

Ultimate of accuracy, which is used as the original detonating charge in torpedoes, expands at a furious rate. A writer in the Illustrated World makes a comparison between the rate of expansion and an express train traveling at the rate of 80 miles an hour. "Stupid," he says, "20,000 feet a second instead of the 30 feet a second made by a mile-a-minute train—and you will know why remnants of memory glaze off in your hand will carry a finger with it and get your coat." That is the ultimate in speed.

BURN COKE Cleanest Fuel Known No Soot No Smoke

Don't put your baseburner away when you can get coke. We will have several cars in next week, so phone your orders now. Also have Arkansas Anthracite for the furnace. Have a good supply of Rocksprings lump and nut. If you want good coal order now as later you might not get it. Phone your orders 148.

C. A. Chace & Co.

NOTICE.

We have just received the following from the National War Savings Committee at Washington: "All authorized agents for the sale of War Savings Stamps should be cautioned not to issue any War Savings Certificates without writing thereon clearly and legibly the name and address of the owner in the space provided for that purpose." "The practice of issuing Certificates in blank to the individual not only violates the regulations and permits evasion of the rate against transfer, but also imposes a disad-

vantage on those who purchased stamps at postoffices or other agencies where the rate in regard to names and addresses is strictly observed" Respectfully, Rollo W. Ley, Chairman Wayne County War Savings.

St. Paul Pioneer-Press: The town of Lemmon, S. D., is named for the man who suggested saving off shot-guns to Gen. Pershing. It would be futile to explain to the Hun the American meaning of picking a Lemmon.

School Days

School days are here again and if you wish your children to succeed in their studies you should see to it that they are healthy. A spinal analysis now may be the means of preventing much sickness during the coming school year and will insure marked progress in their studies.

CONSULTATION AND SPINAL ANALYSIS FREE.

Drs. Lewis & Lewis Chiropractors

Spreaders and Tractors

We handle the John Deere and Twentieth Century manure spreaders, and you will find none better on the market. Let us show you the superior merits of these two popular makes.

Waterloo Boy Tractors and John Deere Pony Tractor plows are made and equipped for hard, quick service.

In size, in strong, simple construction, in adaptability, working capacity, and operating economy, the Waterloo Boy means every farmer's power demand. Its prestige has been built by its four year working records in the hands of thousands of users.

There are many points in favor of the John Deere tractor plow which we will be pleased to explain to you. One thing, whether down at work or raised eight inches above the ground, for transportation, the bottoms can be kept level. Let us show you other advantages.

WAYNE, NEBRASKA

Delco-Light Increases Farm Efficiency

Washing, ironing, housecleaning and a hundred tiresome tasks are made easy by Delco-Light, the complete electric light and power plant

Delco-Light furnishes bright, clean, safe electric light. It will pump the water, run the cream separator, churn, wash machine, vacuum cleaner, electric iron, fanning mill, grind stone and other light machinery.

Delco-Light helps the farmer and his family do more and better work with less effort, and soon pays for itself in time and labor saved.

OVER 50,000 SATISFIED USERS ENDORSE DELCO-LIGHT

Specifications: The Engine and Generator: Self-cranking, air cooled; ball bearings, self-stopping. Runs on Kerosene. The Storage Battery: Glass jars, easy to care for; thick plates, long life; rubber sheets, wood separators. Durable and Efficient.

The Delco-Light Creed

1. We believe that the electric light and power plant for American farms is doing more toward INCREASING THE EFFICIENCY OF THESE FARMS AND BETTERING LIVING CONDITIONS than has been done by any piece of apparatus heretofore developed.
2. That any piece of apparatus that BENEFITS THE ENTIRE FAMILY, BETTER LIVING CONDITIONS, INCREASES FARM EFFICIENCY AND SAVES INVESTMENT ABSOLUTELY and should be SO CONSIDERED by everyone.
3. That Delco-Light is absolutely the best farm lighting plant that MONEY, BRAINS and MANUFACTURING ABILITY can produce.
4. THAT IS MADE, SOLD and GUARANTEED by the LARGEST COMPANY in the WORLD devoted EXCLUSIVELY to farm lighting plants.
5. That it DOES MORE for the FARMER AND HIS FAMILY than any other piece of apparatus that he has purchased, and is therefore the BEST INVESTMENT he ever made.
6. That whenever it is possible to improve or simplify in any way the present type of farm lighting plant, such improvement will be FOUND FIRST in DELCO-LIGHT.
7. That Delco-Light will always be sold absolutely ON ITS MERITS, and that no FALSE STATEMENTS OR CLAIMS will ever be tolerated by our company.
8. That the farm market is the largest in the country today, representing an investment of capital estimated at one billion factoring industries, plus railroads, and mining industries, and the fact that every Delco-Light plant installed INCREASES THE EFFICIENCY AND VALUE OF THIS FARM PROPERTY PROPORTIONATELY TO THE GREATEST EFFICIENCY WORK IN THE COUNTRY TODAY.

DELCO-LIGHT The complete Electric Light and Power Plant

Does the Washing

Gives You City Comforts

Delco-Light Saves Time, Labor and Money

Works Three Hundred and Sixty-five Days Each Year—Therefore Pays for Itself.

Delco-Light Price Increase

Effective October 1st the price of Delco-Light Plants increase \$30.00. Buy today and save this \$30.00. Delco-Light is cheap at twice its present cost. Remember, however, that this \$30 saved will buy 220 gallons of kerosene—enough to run the plant two years, or the \$30 saving will pay a year's interest at five per cent on a \$600.00 Delco-Light installation. BUY NOW.

ELECTRICITY BRINGS JOY.

In a certain section of a state in the corn-belt country, the corn was growing green and rank and thrifty. Two hundred thousand acres of it after the dry weather came. Day after day the sun shone hot out of a cloudless sky. The green corn blades wilted and hung down in limp, pendulous ropes, and the hearts of the farmers were heavy, for they could see the crop on which they were counting, and the prosperity which had loomed just ahead all going glimmering.

And then the blessed rain came. For a week it rained, just about the right time, a half inch to two inches—and every drop went to water the thirsty corn fields and to start the green corn stretching and growing on its way to bountiful maturity.

The farmers smiled and their families rejoiced. For the crop was assured, and a glorious reward for their toil and their enterprise.

Or, maybe, instead of the corn-belt, it was the spring wheat section, or the cotton belt, or the regions of the great potato fields, where a beneficent providence smiled on the efforts of the farmer, and a glorious reward for their toil and their enterprise.

Of course it means more dollars in the savings bank, but however much they are necessary, the idea is to get more and more prevalent in every community, city and country, that the very highest type of enjoyment is that which comes from accumulation of dollars, but rather that which comes from the ownership and use of the things which these dollars will find.

An idea it is in keeping with this idea that the farmers who just now seem to be reaping the greatest harvest of dollars, possibly are spending a good part of them wisely but generally for the things that bring more of joy and comfort and satisfaction to their families.

It is going to follow, then, that he who visits the homes of our friends who are so fortunate as to dwell in the country, will find these homes equipped with all the modern features which have so long made city life so pleasurable.

He is going to find modern heating systems, up-to-date bath rooms; there will be the convenient garage, hose and a stream of water under

pressure to play over the garden and the lawn and to give long-needed fire protection for the country home.

That traveler will find modern electric lighting systems, and the sparkling light of "Mazdas" will be as much a matter of course in the farmers' homes as it is in the homes of our city dwellers.

One manufacturer of electric lighting systems reports the sale of some forty thousand systems during the past two years to farmers who are lighting their homes in this old-fashioned coal oil lamps.

It is interesting to reflect what this means, this changing of forty thousand homes through the introduction of this modern force, electricity.

For one thing, assume that fifty electric lamps are placed about the house, barns and grounds in each home. Two million electric lights that can be turned on each night in country homes where a few months ago there were no lights at all, are afforded by kerosene lamps and lanterns!

Then electric power! Just suppose that in every one of the forty thousand homes electric power to the amount of 2 horsepower is used every day for doing the home-keeping. For the washing machine, the cream separator, churn, grindstone, feed grinder, for pumping water and sweeping for floors.

Two horsepower in each of forty thousand homes is 80,000 horsepower, each day, easily one-half million horsepower of electricity each week provided for farmers and members of their families, who a few months ago were doing with actual manual labor the work that now is being performed in the most modern way, by means of electric motors.

Let's suppose that the time saved in each of these forty thousand homes is ten hours per week. In some of the homes they say their saving is considerably more than this, in time saved in doing the chores, in doing tasks by machinery instead of hand power, in freedom from caring for coal oil lamps and from carrying in buckets the water that is now piped to where it is needed.

But anyway, ten hours a week in each of these forty thousand four hundred thousand hours saved weekly in the aggregate! This time is easily worth twenty cents per hour, or total saving of \$80,000 each week in the forty thousand homes served by this particular electric lighting system.

And this is only the beginning. These forty thousand families, de-livered by the electric service, they are receiving from forty thousand

individual electric lighting systems placed conveniently about their premises, offer splendid testimony to the fact that electricity for farm homes has come to stay.

The neighbors of these earlier users of electricity for lighting farm homes likewise are awake to the benefits which they too will realize by equipping their homes with these electric lamps.

And—the rains came—the crops are good—there is more to be done—the things that the farmer wants—and by the same token he is going to have them.

ELECTRIC IRONS.

Sneak down into the laundry early next washday and hide your wife's electric iron in the safest place you can think of. Substitute several pounds of cast iron in the form of old-fashioned "saw" irons.

If you never knew it before you'll begin to realize how necessary the electric iron is to your domestic arrangements.

Shortly after the laundress puts in an appearance the first complaint against going back to old methods will be lodged.

If you remain to listen, and do not weaken into admitting that you "hated" the iron as an experiment, you will find it is a wonderful thing, ironing in general and electric irons in particular that you may never have fully realized.

First of all, you will probably discover that unless the electric iron is produced or replaced you will have to find another laundress. Laundresses are becoming so scarce that to find their work with the help of labor saving appliances that they are mighty shy about backsliding to the back-making methods of fifty years ago.

You will discover that even if the laundress stays she will have to wear an extra half day to get the work done, or that your wife will have to finish up the ironing herself. There's a big difference in the speed of the electric iron as compared to the hot and cold cast-iron device.

You will discover, in short, you have created such a temper that you'll be glad to produce the electric iron and restore peace.

ELECTRICITY HELPS.

Success in farming as in any modern business, depends largely upon getting the greatest possible return from the smallest expenditure of time and effort.

There was a time, not so very long ago, when that was merely an attractive but impractical ideal. It was just considered good business to put such a principle into effect. But things are different now. Today

we are confronted with the absolute necessity of marshalling all the forces of the farm community for the battle for increased farm production.

It is because of this necessity that the government bureaus are lending every possible aid to the cause of increased production—that county agents are making every effort to help the farmers in their respective territories; that money is available to pay over before the purchase of all items of farm machinery and equipment which will help to the common end, assure benefits far beyond the year after year, and an adequate food supply for our dependent millions.

Forces heretofore overlooked are being called into service by the farmer. One of the most valuable of these aids is being discovered in the use of electricity—complete electric service made possible by the introduction of a dependable electric light and power plant for farms.

Electricity is helping the farmer and his family to do more and better work with less time and effort, and as a result of the modern conveniences made possible by electricity, the farmer can better enter place to live and to work.

AGRICULTURE NOTES.

Cattle Tick Work Breaks Record.—The eradication of the tick is getting on apace. In the United States Department of Agriculture, to kill rodents, such as prairie dogs, and ground squirrels, which have proved very destructive in grain fields. This money is used to buy grain and poison, needed in the preparation of poisonous bait, which is purchased through the cooperation of the department at cost. This material is sold to farmers at cost and thus the money becomes a sort of revolving fund in the purchase of more grain and poison. In this way the \$3,000 raised in Sheridan county has resulted into \$2,000 worth of material used in the preparation of poison has been purchased. The department is this year conducting a campaign to destroy rodents on ap-

proximately 11,000,000 acres in the western states.

Entomologists in "Cootie" Fight.—Scientists of the Bureau of Entomology, United States Department of Agriculture, are conducting a fight designed to find a preventive or exterminator for body lice or "cooties" of the war zone. They are working to add to the knowledge of how to repel, kill, or drive away the tiny parasite, one of the world-wide attention has been centered by the war. The scientists, in addition to watching "cooties" as they pass through the stages of their existence, are testing chemicals to learn of their destructive action on lice, their effect on human bodies, and their penetrating of clothing. Also, they are cooperating with army officers in testing laundering and deousing processes.

Women's Club Markets Own Products.

The women of a Tennessee home demonstration club are marketing their own produce, small fruits, eggs, poultry, butter, and cottage cheese with the help of the local home demonstration agent. A table has been secured for the home demonstration to the market where the products are attractively displayed. Since none of the women had experience in dressing fowls for market, the agents called a meeting at one of the homes and showed them the proper way to kill and dress poultry. The club members are making a specialty of week-end baskets. Ordinary peck baskets are used and are filled to order to meet the tastes of the purchasers.

Accredited Dairy Herds Listed.—Federal and state cooperative control work for the eradication of tuberculosis of cattle has been in progress long enough to justify publication of the list of United States Department of Animal Husbandry has issued list. No. 1 of herds officially accredited as free from tuberculosis and herds that have successfully passed one test with a view to certification. If the status of any of the accredited herds should be changed, notice will be furnished promptly to the officials. Additional lists are published from time to time.

few who might be alarmed by such reports as he reveals officially that these rumors are wholly baseless.

There is but one danger that will in the least put in danger of confiscation the savings of the American people, whether deposited in savings banks or other banks or invested in Liberty bonds, or any other investments, and that one thing is a German victory. It is not the American government that our people should fear, but the German government, and with the American soldiers fighting as the are in France and the American people supporting their government as they are in America, the American people, their liberty, their rights, and their savings, are safe.

The United States instead of confiscating the savings of the American soldiers fighting as the are in France and the American people supporting their government as they are in America, the American people, their liberty, their rights, and their savings, are safe.

CONVERTING BONDS.

The privilege of conversion which arose in consequence of the issue of 4 per cent bonds of the Third Liberty Loan will expire on November 9 next and under existing law cannot be exercised or renewed. Delay in exercising the privilege will result in overburdening the banking institutions of the country and the necessity of endorsing the savings necessary to handle all conversions at the last moment and may result in many cases in the loss of the privilege of conversion altogether.

Holders of coupon bonds are strongly advised to exchange them, for registered bonds in order to protect themselves against the risk of loss, theft, and destruction of their bonds.

The banks throughout the country, as a matter of patriotic service, will doubtless all assist bondholders in converting and registering their bonds.

AS AN INVESTMENT.

The following is copied from an advertisement of sale of farm lands in Iowa paper:

"Nothing (but Liberty bonds) can hear an investment in a good farm." The advertiser recognizes the great truth that liberty is the best investment in the world for a good American.
