# PIANOS AND PLAYER PIANOS

The Acoustigrande, made by Chickering Brothers, Chicago, is unrivaled for richness and depth of tone. It is a vertical piano with the tonal qualities of a Horizontal Grand

## Davenport-Tracy Piano.

The highest development in piano and player piano construction has been reflected in these superior instruments—they are as near perfection as human skill and endeavor can attain—they possess extraordinary value in tone, elegance and durability.

We wish to announce that we have added two new and popular makes to our line of pianos—Adam Schaaß and Hazelton.

## Adam Schaaß

The TONE of the Adam Schaaß Piano is clear and sustained in its free vibrations, with a rich full volume and no tendency to flatness.

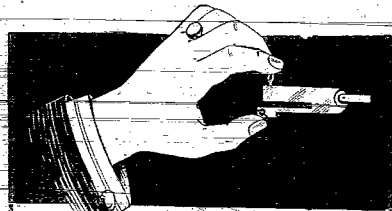

The entire SCALE is smooth, uniform and perfectly blended and responds to the most minute nuances of the artist's taste.

The ACTION is pliant, easy and responsive to the touch, coupled with unerring precision and great powers of repetition. It enables the performer to obtain the full grandeur of the best musical compositions.

## Hazelton

The magnificent tone of the Hazelton Piano is its chief glory. Inspired with a determination to create the most perfect toned piano, the House of Hazelton has spared no effort at any time in its history to build an instrument of true tone richness and of marvelous musical resources. As a medium of the lover of melody for the expression of lofty conceptions and emotional moods, the Hazelton piano, touched by the hand of genius, is the highest summit of the art. With its sympathetic, limpid treble and its full, rich sonorous bass, blending into one grand tonal beauty with all the sweetness and grandeur of Cathedral chimes, the Hazelton Piano stands transcendent in tone.

Place Your Order Early for Christmas

ONE of the many exclusive patents of the Player Action contained in our Player Pianos is the Flexible Striking Finger.

The much sought, yet rarely realized, human touch—the soulful playing of the performer, is directly due to this ingenious feature.

The art of the accomplished pianist, playing by hand, is remarkably duplicated by the Flexible Striking Finger.

Come in and find out what the important functions of this feature of our Player Pianos are.

**T**HE guiding device in our Player Pianos insures the perfect tracking of the music roll—practically alignment at all times. This patented feature is, one other of the many that have made the player action in our instruments the most popular, the most efficient in the world. Let us show you how our guiding or Tracking Device works. Its functions and operation are highly interesting and important.

Nebraska's allotment for November has been cut nearly a half million pounds as Nebraska will have to limit their use to make the allotment.

Nebraska is given 3,700,000 pounds for all purposes for November. The remaining certificates will be issued, announces Mr. Wattles. The ensuing season is over as far as sugar for canning is concerned. "Nebraska has done unusually well," says Wattles. "I am confident that the remainder will be met with the same spirit and that we will be able to reduce our consumption."

**NEBRASKA SPUDS.**

Omaha, Neb., Oct. 30.—In order to settle for all time the claim that Nebraska potatoes are of inferior keeping qualities to those raised in other states, Gordon W. Wattles, federal food administrator for Nebraska, will have a scientific investigation made of the quality of potatoes raised in this state.

He is also having an examination made of the books of dealers in potatoes to see that there is no profiteering in this commodity.

His decision followed a conference with potato growers and dealers of the state during which dealers declared Nebraska potatoes were not of as good quality as theirs. He is also investigating the reports that abnormal profits are being taken by dealers.

If the reports coming to me are true, there is too great a spread between the price paid to producers and that paid by consumers. This marketing will be lessened."

After his investigation started potatoes about one cent a pound in the Omaha market.

**REDUCE USE OF SUGAR.**

Omaha, Neb., Oct. 30.—If Nebraska is to live within her sugar allotment during November, her citizens will have to cut their use of the sweet necessity, according to Gordon W. Wattles, federal food administrator.

During October, Nebraska, at the first time, lived within the allotment permitted by the government. The allotment was 2,884,200 pounds for all purposes, except canning. Of this amount, 2,084,300 pounds were used for household purposes. The remainder

### CANVASS FOR THE HERALD

Tour of Rural Districts to Satisfy New Federal Ruling.

(By a Representative.)

The Herald has been touring the county to get the subscription list in shape in compliance with the new government ruling. The measures taken by the government are designed to accomplish the saving of paper. According to the new ruling, subscriptions are to be paid in advance, thereby avoiding the printing of a supply of paper that is wasted.

While the present canvass of the county is made primarily for business reasons, it is also a source of pleasure to the representatives of the Herald. We become acquainted with new subscribers and renew acquaintances with old ones and therefore have the satisfaction of feeling that we are sending the paper each week to friends instead of dealing with mere names.

We are glad to learn what the farmers are doing, and that they are receiving a fitting reward for their seasons' work. At present corn picking is in full swing and it is pleasant indeed to watch the skill of the huskers and to hear the fall of the golden ears into the wagons. The farmers' condition is a source of shortage of help. Many of their wives and daughters, legal American women, every one of them—are in the fields, each doing her bit to "get the plentiful crop under cover." The representatives of the Herald have received many cordial invitations to hire out as huskers, and are it not for the attraction of the "open road" and the pleasure of calling at the delightful farm places which are the boast of Wayne county, they might have long ago departed to hunt for work in hand and demonstrate their husking ability.

The towns of Wakefield, Winside, and Carroll have already been covered, also routes 1 and 4 out of Wayne, and routes 1 and 2 out of Carroll. The remaining routes of the county will be completed as fast as the weather permits.

In case the homes of any of our subscribers should happen to be missed in the canvass, it would be well if each person would call at the Herald office and attend to their subscriptions shortly before the date of expiration. The conservation of paper is just one more way of helping to win the war.

### 1918 HOME CARDS.

Omaha, Neb., Oct. 30.—Because of the flu epidemic, the 1918 home cards will be distributed during the first week in December, instead of the last week in October. In the meantime, announces Gordon W. Wattles, federal food administrator for Nebraska, the state is urged to voluntarily comply with the new regulations.

There is no definite restriction on any food or the amount that Nebraskans can eat, but citizens are asked to save the exportable foods and eat more of the perishables. We must save the meats, fat, and sugar, says Wattles, that they can be sent to the boys across.

Three hundred and twenty-five thousand "home cards" will be distributed throughout the state during the first week in December. The distribution will be made through the school children of the state. Twenty millions of cards will distributed throughout the nation during the week.

In the meantime, let every Nebraskan subscribe to the requests of the food administration, says Wattles. Eat wisely, eat plain, but do not waste food, and save the meats, wheat, fat, and sugar.

### A. H. BACKHAUS BUYS FARM.

Pierce Leader, October 24: At the H. S. Beal sale held Tuesday, A. H. Backhaus, ex-editor of the Leader, purchased the farm of 160 acres. Mr. Beal is going west and this is his only reason for leaving this country, and making a clean sale of his property. The farm is well located, having the finest modern country school in the county right across the road from it. It is a well-improved place, and will make an ideal country home. The price paid was a great deal less than the farm is really worth and those present declare a land bargain such as Mr. Backhaus acquired will probably never be heard of in this section of Nebraska again. Mr. Backhaus gets possession the first of March, and whether he will improve the farm or rent it, is not yet known.

Your battery's usefulness depends on the way you treat it, but even the best of care won't make a poorly insulated battery stand up through a long busy life.

The Still Better Willard, with ordinary care gives a good deal more than ordinary service and a great deal longer than ordinary life.

One of the reasons why this is so is that this battery has Threaded Rubber Insulation—which indefinitely postpones need of re-insulating.

I pledge allegiance to my flag and to the Republic for which it stands, with liberty and justice for all.

The war industries board is now asking the different departments of government to reduce consumption of paper, avoiding all waste.

Grant S. Meers became well acquainted with the ropes and learned how to get good treatment to his district. Another term he will be able to do even better.

If E. Sيمان will cut some ice in the state senate if he is elected as the candidate. He is able and fearless, and his heart is in the right place.

The president's unwarranted plea for support for democratic congressional candidates ought to stimulate interest in the candidacy of Judge R. E. Evans, republican nominee for congress in this district.

Giving often helps the giver more than the recipient. Giving tends to make the giver unselfish, and unselfishness comforts and uplifts the soul.

The change back to the old time is quite agreeable to rural communities. Many farmers did not make the change in time last spring, but followed the old schedule.

Many people have put in overtime thinking and talking sickness. Sickening has been rampant in the town and gloom. This state of mind is not conducive to either mental or physical health.

A. N. Porter who has worked like a horse for Dixon county as deputy clerk and then clerk is a candidate for election, and if he gets elected is justly coming to him, he will be returned to the trust by an overwhelming majority.

The exposure of an effort to lure up the much criticized non-partisan league of the state in support of the war needs is an interesting development of the past week.

Wayne, Mich. Mr. McQuinn has been running rapidly in popular favor, and his private secretary, at the invitation of the Nebraska Farmer, and have found good reason to commend his ability, cheerfulness, and unflinching in his support of the cause of the common people.

In view of the fact that republican members of the house are not to have given the president's war policies from the start staunch and unswerving support, President Wilson's proclamation asking the country to elect only democrats at the forthcoming election on the plea to avoid division and obstructionism seems wholly unwarranted.

"A PERFECT 36" Mabel Normand is at her finniest in this picture, in which she appears as a boarding-house girl, an amateur player-banger, a shirter, an amateur, a fortune teller and numerous other things.

# Mogul Hopper-Cooled Kerosene Engines

If you want the most serviceable engine for your money, you can find it in the Mogul line. The Mogul won first place at the San Francisco exposition as the best engine for farm work.

## Some Reasons Why We Recommend Mogul Engines

The Mogul Mixer uses kerosene, distillate, gasoline, or other fuels—the one that you can buy the cheapest. This mixer is so designed and perfected that anyone can change from using one fuel to another without the slightest trouble.

Why doesn't every engine operate on kerosene? Because their makers have not found out the secret of burning kerosene successfully. Years ago the designers of the Mogul turned their attention to solving this problem. They saw the handwriting on the wall. They realized that if you were to have cheap power it must come from cheap fuel—kerosene, distillate, etc., and not from gasoline. These men, the ablest minds in the inventive field, had but one aim in view—to design an engine that would burn kerosene economically and just as satisfactorily as any other engine would burn gasoline. And they did it. The Mogul Engine is the product of their labors.

All Mogul Engines are thoroughly tested. We know that every engine that leaves the factory will deliver its rated horse power at the belt, for they all undergo the most rigid inspection while being built. Each one is then put on a test block and made to pull more than its rated belt load for several hours. This fact insures you that when the Mogul engine arrives at your farm it is ready for service.

Mogul Engines are equipped with serviceable magnetos. As you know, the magneto is a very important part of an engine. Magnetos used on Mogul engines are of proven value, having behind them years of experience in magneto building. The engine starts on the magneto—no batteries are needed. No spinning of the engine is necessary—the first spark is as large and as hot as any of them. The ignition system is of the make-and-break type.

The best wear-resisting bearings are used. Special attention has been given to the bearings in all Mogul engines. They are made large and long to increase the wearing surface and add to the life of the bearing. Phosphor bronze and high grade babbit bearings are used in all Mogul engines. All chankshafts and connecting rod bearings are removable and can be adjusted to take up wear.

Mogul Engines operate at a uniform speed. All the Mogul engines are supplied with a throttle type governor, which not only controls the speed but likewise the amount of fuel used by the engine. You can plainly see the advantage of this feature, for if the engine is carrying a heavy load the amount of fuel needed will be supplied, and on the other hand, if the load is light a small amount of fuel will be used. The governor is so accurately designed that the variation of the speed is very small. It is a fuel saver.

from Ponca Journal November 9, 1883:

"We understand that the new town of Harrington in Cedar county, has now eighty-five buildings, many of which are large and costly structures. Harrington at six weeks old, is said to be larger than Wakefield was when a year old. No such remarkable growth has ever before been known in this state."

The Northwest telegraph company furnished returns on the night of election from all the precincts, except Wakefield, in the southern part of the county. The results being as follows:—Magnesburg, and from there wired. When we consider the delay there used to be before the wire was up in getting reports, we feel that we ought not to spare the telegraph line between Ponca and Magnesburg.

Ponca precinct pulled by a big majority a greater vote than ever before, being nearly a hundred more than last year. The vote of 1882 was 226, and of this year 311. The election officers worked all night, and at 8 o'clock the next morning counting the votes. Last year the vote stood about 116 republican, to 130 democratic. It now stands 190 republican, 120 democratic.

### Can Now Eat and Sleep in Comfort

Indigestion, you should read what Miss Agnes Turner, Chicago, Ill., has to say: "Overwork, irregular meals and careless eating gradually undermined it until last fall I became a wreck of my former self. I suffered from continual headaches, was unable to digest my food, which seemed to lay as a dead weight on my stomach. I was very constipated and my complexion became dark and sallow. To date the same food which I used to eat now gives me sleep and comfort. I am today entirely well."—Ad.

# Swat the Machine!

THE Hitchcock-Mullen-Gooch Machine which dominates Nebraska Politics today, has repeatedly thwarted the expressed will of the people. It is the enemy of the boozing interests. It is entirely out of sympathy with the principles of government of the people, by the people, and for the people.

S. R. MCKELVIE has been an aggressive and fearless opponent of the machine in this campaign. His election will mean the return of representative government to Nebraska. A vote for McKelvie is a vote against the machine.

# REPUBLICAN STATE CANDIDATES

## AND WHAT THEY STAND FOR

Twenty-two Reasons Why You Should Vote For Them

### Text of the Platform

Adopted at the State Republican Convention

1. Unflinching allegiance to our Country in this perilous hour of its history.
2. Prosecution of the War until the unconditional surrender of our enemies.
3. The first opportunity to homestead Public Lands to the men and women of the United States who have brought new glory to our Flag and to whom we pledge protection and provision for the dependents of those who fall or are disabled.
4. Denunciation of criticism prompted by partisanship or malice, but defense of criticism of inefficiency, incompetency and injustice.
5. Non-partisan conduct of the War and the selection of the best talent in all parties for the grave duties it involves.
6. Placing Patriotism above Partisanship.
7. Opposition to sectional control of Congress and the placing of War burdens on North and West.
8. Sane preparations now for complex problems after the War.
9. Condemnation of Democratic Administration for its failure to fix price of cotton of the South when it fixed the price of the wheat of the North.
10. Sound money and a protective tariff.
11. Condemnation of Democratic Administration for failure to stop profiteering.
12. Economy and efficiency in State Government.
13. Ratification of Prohibitory Amendment to National Constitution.
14. Equal Suffrage in State and Nation.
15. Improvement of Employers' Liability and Compensation Act.
16. Maximum production and most efficient distribution of products of Nebraska fields and factories.
17. Co-operative efforts of Farmers to secure economical distribution of their products.
18. Legislation for further development of irrigation in Western Nebraska.
19. Calling Constitutional Convention.
20. Exclusive use of English language in Common Schools.
21. Development of such natural resources as Water Power and Potash Deposits under plan whereby the interests of the public will be protected.

### DEATH OF JOHN DOLAN

The death of John Dolan of Randolph, nephew of the late Dr. J. Williams of this place, was a shock to his many friends in this community. He passed away following a severe attack of influenza, October 25, at the home of his mother, Mrs. C. J. Dolan. The funeral services were held at the home of his sister, Mrs. Louis Peters, Sunday, October 27, Rev. S. X. Cross pastor of the First Presbyterian church of Wayne, officiating. The deceased was born in Hampshire, Neb., July 4, 1893, and died at Randolph October 25, 1918, at the age of 25 years, 3 months and 21 days. When eight months old he moved with his parents to Norfolk where he lived until 1901, when he moved to Randolph. At the age of 16 years he started his business career with the Peters Hardware company. Later he was manager for the Edwards & Bradford Lumber company and the Shull Lumber company at different points. In accordance with medical advice, he resigned his position as manager for the Shull Lumber company at Okaw, Ia., in March, 1918, and went west hoping the climate would benefit his illness. At the time of his death he was manager of the Bradford Lumber yard at Gering, Neb. He was called in Randolph October 12, in response to a telegram announcing the death of his brother-in-law, Louis Peters. The following Monday, John was taken sick, and for four days was an intense sufferer.

Mr. Dolan had lived the major part of his life in Randolph and was highly esteemed by the entire community. He was a member of the First Presbyterian church of Randolph. He was a man of fine character, his mother, Mrs. Cella J. Dolan, and three sisters, Mrs. P. E. Max of Ponda, Ia., Mrs. A. Peters and Miss Jennie Dolan of Randolph, besides many other relatives and hosts of friends.

### BUSINESS INFLUENCES

Sioux City, Iowa.—The continuation of the epidemic of influenza the quarantine maintained against the disease in the whole country and the rigid enforcement of the same by the respective states, and the fact that the retail trade is still dominating influences in retail business. There is a marked tone of listlessness throughout the retail trade which is traceable directly to this cause. Naturally this falling off in retail trade has had an effect on wholesale trade so that this line of business has suffered as much as the retail.

The exchange of diplomatic notes on the question of peace last week caused business in general to fluctuate from a war basis towards one of peace. This was reflected in the depreciation of the price of corn. The possible ending of the submarine warfare and the release of large numbers of ships because of an armistice, which would permit the shipping of large consignments of corn from Argentina and South Africa, sent the domestic price downward on the report of Germany and upward on that of President Wilson. Throughout the week the market wavered between the two influences of peace and continued hostilities. With a drop of more than 2 cents from Saturday's quotations, November corn closed at \$1.29 1/4 Monday, reaching the highest point of the week on Wednesday, dropping back on Thursday and Friday to near the top on Friday.

Peace rumors caused a decided weakness in foreign exchange rates, particularly those of Switzerland and some of the Scandinavian countries. There was a heavy shifting of money in the eastern markets, \$10,000,000 of actual loans and discounts being recorded in New York alone.

### BOY SHOT IN THE HEAD

George, the 5 year old son of Mr. and Mrs. Louis Jones, the former caretaker at the country club, was accidentally shot by his playmate, Vern Nichols last Thursday morning, about 8:30 o'clock. The boys were playing with a rifle in the house and were starting out doors when the gun, which the Nichols boy was carrying, discharged. The bullet struck George's head just over the right temple. He was taken immediately to the hospital where an X-ray examination was made. The bullet lodged in the back of the boy's head. On account of the child's weakened condition it was thought advisable not to remove the bullet until later. The boy received treatment at the hospital for several days he was taken to the Nichols home where he is reported recovering.

### WOUNDED IN FRANCE

Mrs. George Church received word this week from Washington, D. C., that her husband had been wounded while in action in France. Mrs. Church is the wife of Miss Bessie Crockett. She has been making her home with Mr. Church's parents in Battle Creek, Neb., since her husband has been in the service.

# Harry Tidrick

Democratic  
 Candidate for  
**COUNTY COMMISSIONER**

HARRY TIDRICK

DURING his long residence in Wayne Co. Mr. Tidrick has never before consented to run for a county office. Though he has served as assessor and road overseer at the earnest solicitation of friends for many years, he has not until now allowed his name to be used in connection with a county office. He has been busy all these years raising fine pure bred hogs and cultivating rich Wayne county land. Prompted by people who know his ability, he now comes before voters asking for the responsible commissionship. His record in the exercise of sound judgment is ample guarantee of the satisfactory manner in which he will look after county affairs.

# A Declaration of Principles

**DAVID HERNER**  
 Democratic Nominee for Representative for Wayne County.

To the Voters of Wayne County:

As I am a candidate for representative of the Twentieth Representative District, it is right that I make known my views on public questions, and take this opportunity to do so.

"I stand first for 100 per cent Americanism. No man should be elected to a position of trust unless he has shown that he favors the one central thought of making this country the greatest democracy on earth, free from taint of any special interest of any kind.

"That our state government assist our president in winning the war; that the legislature cooperate and assist in every way possible.

"I believe that the natural resources of the state should be owned and controlled by the people of the state, such as water power, mineral or oil or gas deposits.

"I believe it to be the duty of the next legislature to pass laws to control monopoly in restraint of trade; and to stop profiteering. All public utilities should be owned or controlled by the people.

"I am in sympathy with any patriotic movement the farmer and stock raiser may take to protect his calling and improve his condition. Every other trade and profession has organized for cooperative action, and why not the farmer?

"If elected, I promise to cooperate with the farmers in securing such just legislation as they may desire.

"I favor the ratification of the prohibitory amendment to the federal constitution.

"I favor the enactment of laws for the betterment of the people of the state educationally, socially and economically."

POLITICAL LIES TALKED!

Congressman Stephens Calls Evans' Committee to Account

(PLEASE SAVE FOR REFERENCE)

Fremont, Nebraska, Oct. 22, 1918. Editor Dakota County Herald... Dear Mr. Keam:

In an editorial appearing in your issue of last week you give my alleged voting record in Congress which is a list of lies. I am sorry to hear that you are beginning to end so much so I feel compelled to recognize it.

SOLDIERS' BAY INSURANCE, COMPENSATION AND ALLOWMENTS. You state that I voted against paying the soldiers \$3000 per month. It is absolutely false. It is a shame that a brazen misstatement of facts like that can be given wide publicity and the offender escape proper punishment therefor.

EMBARGO ON ARMS AND AMMUNITIONS. You state that I voted for an Embargo on Arms and Ammunition. Such a slander as that is nothing short of criminal. Where did you get this mass of falsehoods as to my record anyway?

ROLL CALLS. Your friends who no doubt are co-operating with you in this critical work you are engaged upon also charge that I miss many Roll Calls. Roughly speaking I missed about 100 million dollars of the work.

ABROAD APPROPRIATIONS. You state that I voted against a 400 thousand dollar appropriation for airplanes after the war broke out. Another half truth that ought to shame its author.

INCREASE IN THE REGULAR ARMY. You state I voted against the increase of the regular army to 250 thousand after war broke out. Another half truth that ought to shame its author.

### POLITICAL ADVERTISING For UNITED STATES SENATOR

**FORMER GOVERNOR**  
**JOHN H. MOREHEAD**  
OF FALLS CITY  
**FARMER, STOCK RAISER AND BUSINESS MAN**

**ENDORSED BY PRESIDENT WILSON.**  
In Response to a Telegram from Mayor Edward P. Smith of Omaha.

"The White House, Washington, D. C. Oct. 28.—Hon. Edward P. Smith, Omaha, Neb.: I cannot refrain from expressing my deep interest in the election of Mr. Morehead to the United States Senate. I regret only something of his quality but I have more particularly in mind the delicate and difficult tasks immediately ahead of the congress and am convinced that it would be of the utmost value not only to Nebraska, but to the country to have a man of his quality and principles in the senate. We need men with just his steadfast loyalty to the cause which now stands in need of unflinching support."  
"WOODROW WILSON"

### ORDER OF HEARING ON PETITION FOR APPOINTMENT OF ADMINISTRATOR

In the County Court of Wayne County, Nebraska.  
State of Nebraska, County of Wayne, ss.  
To all persons interested in the estate of George Helms, deceased: On reading the petition of Peter L. Topp, praying that the Administration of said estate be granted to Peter L. Topp, as administrator, it is hereby ordered that you, and all persons interested in said matter, may and do appear at the County Court to be held in and for said County on the 15th day of November, A. D. 1918, at 10 o'clock a. m. to show cause, if any there be, why the prayer of the petitioner should not be granted; and that notice of the pendency of said petition, and that the hearing thereof be given to all persons interested in said matter by publishing a copy of this order in the Wayne Herald, a weekly newspaper printed in said county, three successive weeks prior to said day of hearing.  
Witness my hand, and seal of said Court, this 30th day of October, A. D. 1918.—LAYS F. BRITTAIN, (Seal) County Judge.

### ALL PARTIES ARE LOYAL

#### Democratic Leaders' Claim of Monopoly on Patriotism Insult to Millions.

It is of themselves, not of the President, that Democratic members of Congress are thinking when they urge the election of a Democratic Congress upon the ground that it is necessary in order to support the President in his war program. It is yearning and not patriotism that they are preaching. It is a selfish effort to make party capital out of a national crisis which is in its very beginning the Republican Congress have unhesitatingly voted money, men and other resources and power without limit whenever the Administration asked it as a war measure. The record shows that upon several occasions when they were asked by President Wilson were being bitterly fought by Democratic leaders the Republican leaders came to the rescue of the President and gave him what he wanted.  
Republicans have resigned their seats in Congress to enter into active military service to support the war. Republicans everywhere have sent hundreds of thousands of their own flesh and blood to give armed support to the President and the government. Republicans have led the fight for preparedness. They have stood by the war to the utmost. They are committed against any peace that is not dictated by victory. Their record is a party in Congress and as individuals outside of Congress proves their 100 per cent. Americanism.  
In making control of the war Congress Republicans are merely asking permission and opportunity to pull half the load; to share in the patriotic responsibility of handling the affairs of their nation during a crisis. To meet this crisis they have responded without question, without stint and without thought of partisanship, to every demand and every request of the Administration.  
To intimate that the election of a Republican congress would not be standing by the President and the government is to accuse every Republican of disloyalty. To brand the Republican request for participation in governmental affairs as being a measure to the nation and the President and a request which the voters should reject is an insult to every Republican home which has a soldier there and to thousands of Republicans communities which have oversubscribed Liberty loans and given a keener-up, run-over measure of loyal support to every request of the government and the President.  
The claim of Democratic leaders that they have a monopoly of loyalty and that not of their political belief are not good Americans and should not be trusted in official positions will receive its just rebuke on November 5.

### NO "DICKERED" PEACE

#### "Germany Must Surrender," Say Republican Leaders in Treaty Making Senate.

Early in August, Senator Lodge, ranking Republican member of the Senate Committee on Foreign Affairs and Republican leader in the Senate, sounded an earnest warning against any premature or compromising peace with Germany. He demanded a peace dictated only by victorious American and Allied arms, a peace involving Germany's unconditional surrender. His address aroused the greatest enthusiasm in all the Allied countries, which it was reproduced in the public press.  
When the recent Teutonic overtures for peace were made, Republican leaders in the Senate, which is the treaty-making body of this government, immediately went on record against any armistice or "dickering" with Germany and her allies. Senator McClintock, Republican of North Dakota, introduced a resolution committing the United States against any cessation of hostilities or peace negotiations with Germany until the Hun surrendered unconditionally and agreed to make reparation to the nations he had ravaged.  
This resolution was endorsed by the Republican leaders in the Senate, who insisted there must be no let-up in the prosecution of the war until they have support at home until Germany and her allies lay down their arms and say, "We are defeated. What terms of peace and reparation do you make?"  
It is absurd to attempt to make it appear that if Senators Lodge, McClintock, Fountain, Nelson and their Republican colleagues carry the November elections and win control of the next Senate such an event would be hailed with joy in Berlin and with dread by our Allies.  
During the Spanish-American war, when McClintock was President, all but six Democrats of the House opposed the war revenue measure which issued \$800,000,000 bonds with which to finance the war; all but seven Democrats of the Senate opposed the measure. Contrast that attitude with the fact that the Republicans of this Congress have voted, without division, in support of every war loan resolution asked by President Wilson.  
There is no reason why Democrats should be the heirs of the American people. The Republican Revolution is for all.
