WOMEN'S MEETING.
Norfolk, Neb., Feb. 10.—About 200 Norfolk women attended a

meeting here this afternoon, held under the auspices of the social department of the Woman's club and listened to a detailed explanation of the state's voting laws by O. S. Spillman, county attorney of Pierce

county, who urged the women to use their enfranchisement during the spring elections. The women showed intense interest in this meeting, which is the first of a series of educational meetings to

teach women to use the ballot intelligently. The women are especially anxious to participate in the city caucuses which will be held here to nominate candidates for city offices.

CARD OF THANKS.
We wish to thank the neighbors and friends who called on us during the sickness and death of our loved one. We especially appreciate the beautiful floral offerings—Carl Baker and family, Mr. and Mrs. William Dammie and family, and Mrs. and Mrs. John Baker and family.

It is none too early to plan your paper hanging, and in doing so please remember that I carry supplies the latest and best patterns. Let me show you what I have and give you figures. I can furnish you the paper and do the work of hanging, and I can give you money and will guarantee satisfaction. J. H. Boyce, Wayne, Neb. F1316d

FOR Y. M. C. A. BUILDING.
C. W. McGuire writes the Herald a letter strongly endorsing a Y. M. C. A. building and organization for Wayne. He thinks a public meeting should be held to discuss the question and plan for definite constructive effort. He thinks church people and others should co-operate in going over the top with the enterprise and making it a reality for the benefit of present and future generations.

TO ENFORCE LAW.
Lincoln, Neb., Feb. 10.—In a statement issued today explaining his request for a \$25,000 emergency appropriation bill from the legislature to tide his prohibition enforcement department over until April 1, Gov. Samuel B. McKelvie declared that in his opinion there was as much "hogge" in Nebraska when he took office as when the state had open saloons. The governor declared the appropriation was needed to employ from forty to fifty men to patrol the principal entrances to the state in an effort to prevent the importation of intoxicating liquors.

After declaring that it was not his intention to reflect unfavorably on the past state administration, Governor McKelvie's statement said that when he took office last January "hogge runners were covering the state in a very methodical and businesslike manner."

"Certain ones who have been most active in organizing the work have made more money out of the traffic than was ever made by any legalized effort by saloonkeepers," the statement said. Hereafter, only a few men had been employed to enforce the state prohibition law, the statement said, adding that the number of these officers was not large enough to patrol the points of entry to the state. "We expect to stop the booze runner," the governor said, "and this means that we must have a force of no less than thirty or fifty men who will patrol the points of entry to the state."

The house and senate are deadlocked on the "matter of return of the guaranty deposit fund for state banks that have liquidated. The house wants to stop the fund deposited one-half to the banks and the other half to the state. The senate wants to hold the fund as a guarantee. The senate appointed a conference committee.

The senate in committee of the whole favorably considered the bill to give the city of Lincoln eminent domain in the matter of public utilities. The bill provides that the city may condemn and take possession of heat, light, power and street railway properties. The bill was amended to take in cities of 1,000 or over, giving them the same powers as in cities of 500 or over. Democrats in the house made an

FROM EVANS BROTHERS.

Wayne and Elwyn Evans, whose letters are published herewith are brothers of E. C. Evans of the Sholes vicinity. The young man now serving in France, were born in Wayne county, moving a few years ago, with their father, T. E. Evans, to Traer, Ia. The young men enlisted at the beginning of the war and were among the first to be sent to France. After thirty days training in France, they were sent to the front. Their letters follow:

Months.

In France, December 18, 1918—My dear folks: Received your letter of September 27 and October 20. Was surely glad to hear from home and to know you were all well at that time. I suppose you have wondered why I didn't write,

but believe me, we have been a busy bunch for a long time, so guess the best you can do is to forgive me for the present and give me a good paddling when I get home. I don't feel fine, just as good I guess as when I left home two years ago, but I think I have been just one of the luckiest men over here, I think since I have been over here, I think since I went through nine straight months of fighting at the front without a rest, and was not sick once. I got a couple, although they come so damned close at times that I had much rather have been somewhere else. The only thing that did get me was my overcoat at first and night, but I got over that in a couple of days.

NO doubt you have often wondered why I have had so many differ-

ent addresses. Well, I guess it will do no harm to tell now that I have been in a real traveling circus from one place to another with shock troops, so you can rest assured we were always sure of plenty of excitement every place we struck. We were not with an American troop until July 14, before that we were

attached to the French army and fought with them for four months. While I was with them our regiment received several citations for our brave work. I was first hit in the front a year ago last October (1917). The year ago was a good bunch of fellows, but when the first American army went into action we joined them, and believe me, I was a little tickled guy, and we stayed together until the war was over. We were some glad when the news came of the signing of the armistice, and believe me, the Germans were wise, for I think they knew they were in for the best fighting of the war, and it surely had already started twelve hours before, and we were surely making it hot for them up to two minutes—two minutes!

ELWYN J. EVANS.

Well, ma, I only hope I get a fast home as it can't get me there too soon. I was made corporal on the way to the front the last time. Guess I must close now. With lots of love to all.

SERGEANT MEEKER HOME

Laurel Advocate: Yesterday Mrs. B. J. Hoie received a letter from her brother, Sergeant C. E. Meeker dated January 18, in which he stated that his wounds were practically healed and that he hoped by the time the letter reached her he would be on his way home. Sergeant Meeker was a hard fighting and will have much of interest to relate. He wrote that he was about 100 yards from Camp Korff when the latter was killed, and saw him fall. The day before he saw Sergeant Meeker said he had met a lieutenant who was struck by the same shell as himself and until then he had not known his fate.

THE CHIROPRACTOR'S PRESCRIPTION

The Chiropractor has but one Prescription. It is "ADJUSTMENT." People must believe the wisdom of their senses. If a person comes to a Chiropractor with a so-called disease which Medical men have failed to cure, and that person is completely restored to health, he must believe. He is not tripped up with long technicalities and prescriptions written in a "dead" language; he only knows that he is sick and wants to be well. The Chiropractor tells him WHY he is sick and proves that his line is correct by giving him CHIROPRACTIC SPINAL ADJUSTMENTS which allow Nature to restore him to health. Avoid Winter Battery Troubles

Now, more than at any other season of the year, the storage battery on your car needs regular, careful attention.

Cold weather not only means harder work for the battery, it increases the demand of your starting and lighting system—but it means decreased battery efficiency.

Take no chances on your battery suddenly weakening under the strain of starting a cold, stiff motor.

Drive in here regularly for expert inspection of your battery. We will make a hydro meter test and add distilled water if necessary as often as you wish—free of all charge.

Should your battery need recharging or repairs, remember we are equipped to do the work promptly at reasonable cost. We have a service battery for you to use while we put yours in proper shape.

We carry a full stock of batteries and battery parts for all makes of cars. Next time, buy a Prest-O-Lite Battery. We have the correct size for your car.

 The price of hogs, live weight, at Sioux City on Tuesday was \$4.75 per hundred pounds. Wheat \$1.10 per bushel.
 About 11:30 o'clock Monday night a very large meteor, appearing half as large as the full moon, was seen to cross the heavens with great rapidity, moving from northwest to southeast. The time occupied by the meteor in passing over, was not to exceed three minutes. It was attended by a long train of fire.
 On Friday the coal miners met with a mishap, which, however, is not a serious one. One of their drilling-rods was broken off, and the drill was left at the bottom of the hole. The miners found that they would have to draw out 200 feet of the tubing before getting out the drill, and that work they have been engaged in doing. When the tubing is all out, it is not a difficult matter to bring up the drill. Fortunately Mr. Perry is a miner of great experience in such matters, and under his competent management everything will in a few days be ready to go ahead again. The rock where the miners were drilling when they met with this setback, is very hard, being similar to that over the coal.

A SOFT JOB.
 ANSWERS, London: An Irishman was engaged at stone breaking on the roadside, but not being used to the work, he did not make much progress. A friend who chanced to pass as Pat was vigorously laboring a large stone, tried to show him the right way. Taking the hammer he broke the stone with ease.
 Said Pat: "Sure, now, it be easy for ye to break the stone after I have been softening it for the last half-hour."

IT MAY BE.
 Storm Lake Globe-Tribune: Perhaps if Sioux City was willing to pay her policemen better salaries, better men would be attracted to the force and it would not take an army of state agents to keep them from making unclean money.

NEW SCHOOL REDISTRICTING LAW NEEDED.

Never before has every kind of feed been so high in price as it is today, and it will continue to be for a long time to come. Whatever insures the feed is a better investment this year than ever before. The silo is a good investment at any time. It's a better investment this year. Early buyers get the best service, the best workmanship and a liberal discount from regular prices.

A Good Combination:

The "Everlasting" Silo and the "Climax" Ensilage Cutter

The "Everlasting" is the only tile silo in the world that is built with a channel steel door frame providing for steel reinforcement of every layer of tile. It is guaranteed air-tight, wind-proof, fire-proof, and rot-proof. It needs no repairing. The "CLIMAX" ensilage cutter operates with less power than any other. It cuts and elevates silage in one operation and the ensilage is always cut clean—not hacked or torn into unequal lengths. Both "Everlasting" silos and "Climax" ensilage cutters are made in sizes to suit every farmer.

and weak districts are often left stranded. There will never be opportunity for them to unite with other districts to form logical community centers, and they will always be placed at a handicap both educationally and socially. In an effort to overcome this, a former legislator proposed that the entire county might be redivided under petition. The difficulty is that where a matter is left to petition it is often never done and in the meantime, larger districts are being formed without regard to the weaker and isolated districts round about. It is these places which really need more aid from the progressive and strong districts. The proposal of J. D. Ream, president of the Rural School Patron's association, that the present legislature shall pass a law making the appointment of a redistricting committee in each county compulsory, is to our mind a splendid one. This will give every community a fair chance to present its claims to the redistricting committee and will give the committee an opportunity to look the county over as a whole. Such a scheme will result in the establishment of logical community centers which will adequately serve all the families of the county.

LETTER FROM LEO PRYOR. Leo Pryor, son of Mrs. M. A. Pryor of Wayne, writes the following letter from France, where he is doing hospital work with the American forces: "46, 1918—My Dear Mother: I received your letter to-day, the one written on the sixth of December. It took a long time for a letter to be in transit, but that is getting through in pretty good shape for all the distance it had to

come, and to find me over here. We have moved to Nevers, France, in the south central part and have taken over some work here in the medical line. There are twelve wards and about 700 patients, mostly on the road to recovery, as they have been here for some little time. I am chief of the change, and also glad to get in among all Americans again, as all the novelty had worn off in being among the French, and I can't say that I am

especially interested in the French as a whole. We are now in the largest hospital center in France, one in the world for that matter. They had a hospital here built up and about completed for 100 patients; that is, had accommodations for that many so you can have some idea of the extent of the place. It is all built up of small low down low buildings, mostly cement floors and some with brick walls, while others are of lumber. We have nice accommodations and individual rooms and good food and plenty of it; also the coldest men here have it better than we have in our northern part. The rainy season is, letting up here a little now, and the ground is starting to get dry again, although there is yet an awful lot of mud and I have known nothing but mud and slop ever since I have been over here. There are about seventy nurses attached to our organization, and the Red Cross has many, little entertainment here. We have good times here, dancing and shows and movies, something nearly every evening. Then we have plenty of good music through the day as well as several bands here. I like it here very much, and am keeping in good health, and am doing little work, however. It took a few days to get established here and the place running. I have thirty-five men under me and have charge of transportation, repair department of cars and trucks, plumbing, heating, electric lights, clothing, equipment, kitchen utensils and tobacco, laundry, medical supplies, dental equipment, "delousing" plant, incinerator, construction and most important finance and accounting. I am in charge of the store and all public vendors. However, my men look after it all in good shape, and ordinarily I'll be busy from about ten to three in the afternoon.

We expect to have all the patients evacuated and on the way home within forty or sixty days, and undoubtedly we will come home with the last of them. That will be soon enough to come home, as the sea will be mighty rough sailing from now on and spring.

Surely mighty glad that I had the opportunity of visiting the front here we came down here as they will be no more opportunity for the officers to get up there, as we are too far removed to make it conveniently. Now being down here, hope to get to Paris, Nice, Monte Carlo and some of the more famous resort points of France before we sail home. I would like to get over to England and Ireland, but don't know if I will get to make it or not. It will depend on how the ship after we get through here, I could get into Italy and Switzerland, and over that way, but I am especially interested in going that way unless I could get to Belgium, and that I guess, I can't get to do. So from now on, am going to save all my visiting time in attempting to get over to Ireland.

Well, guess I shall bring this letter to a close for the present and will write more often now that I am settled in one place and have an office and all the conveniences needed. Also will not be on any more long tours of the country for a while, such as I was at the front. I hope and pray, mother, that you are feeling well and keeping well, and you take good care of yourself and keep yourself comfortable as money will make you and enjoy everything you possibly can find in the way of enjoyment and pleasure. Your loving son,

L. E. Pryor.

Brighter Light; Safer Light

ELECTRICITY makes better light than kerosene. Lalley Light furnishes electricity for light and power. It is better light. It is safer. It can't explode. It cannot be upset and set fire to the house and barn. It is always ready—wherever you want it—at the twist of a switch. Lalley Light is tried and true. Its engine runs smoothly and easily on extra large ball bearings. —It has been in farm use more than six years. We will gladly demonstrate free on your farm. Call for the owners' testimonial book.

Why Swift & Company Handle Poultry, Eggs, Butter and Cheese

Swift & Company went into the produce business because they saw a crying need for the kind of service they were equipped to perform.

The produce business was in chaos. Collecting, transportation, preparation and distribution was hit or miss, with delay, deterioration and loss on every hand.

The farmer was at the mercy of an uncertain, localized market. He had no way of reaching through to the people who needed what he was raising for them. There was no premium upon improving his stocks, for grading was lax or lacking.

The consumer had to accept produce that, as a rule, had no known responsible name behind it. He had no way of knowing how long the eggs or the butter he was buying had been lying around in miscellaneous lots in the back room of a country store. Much of the poultry was not properly refrigerated before shipment or properly protected by refrigeration in transit.

Swift & Company's initiative brought system to this chaos. Their organization, equipment, and experience in handling perishable food products were already adjusted to the task. Their refrigerator cars, branch houses, central points, far-reaching connections, trained sales force, supplied just what was demanded.

Now the farmer has a daily cash market in touch with the nation's needs with better prices. Standardization makes better produce more profitable. More consumers are served with better, fresher, finer foodstuffs.

Nothing suffers from this save inefficiency, which has no claim upon public support.

Swift & Company, U.S.A.

Basket Stores Co. Inc.

Omaha, Nebraska

Will in the near future, open one of their up-to-date combination grocery stores and sanitary meat markets in Wayne, Neb. We lower the cost of living 20 to 25 per cent.

How do we do this? We do not deal with middle-men. We have our own warehouse and cold storage in Omaha, from which we supply all of our stores. We buy direct from the manufacturer and producer and sell to the consumer.

We have seventy stores in operation at the present time in Nebraska and Iowa. We pay cash and 2 cents above the market price for produce.

How do we do this? Twenty-four of our stores are in Omaha, nineteen in Lincoln and three in Council Bluffs. All the produce we can buy, we are able to sell in our own city stores.

We make our money not on large profits, but on the volume of business. Our profit is only 4c on the dollar, but we turn our capital fourteen times each year, and last year made 56 per cent for our stockholders.

One hundred dollars invested in this company ten years ago, is now worth \$2,500.

This company has paid a cash dividend of 7 per cent regularly for the past ten years since they began business.

We started in Lincoln ten years ago with two stores, and besides paying 7 per cent, they grew out of the profits alone until they had fifty stores in 1918.

We are now selling enough of our capital stock to increase our business to 200 stores after which time no more of this stock will be for sale.

A very limited amount of this stock is offered to the public in and around Wayne.

Our plan is to sell a little of this stock around each store and is not for sale to people living elsewhere.

We are selling this stock at a par value of \$100 per share in units of three shares, consisting of two shares of preferred and one share of common.

To each investor we give our agreement that any time after 1923, at their option, they can cash in their preferred stock for what the whole amount there and keep the common stock as a bonus.

For further particulars and without obligating yourself in any way, we would be pleased to have you take the matter up with our authorized representative as follows:

NOTICE
In the District Court of Wayne county, Nebraska, Es. Kl.
The State of Nebraska, Es. Kl.
Norris Brown, Attorney General, Plaintiff,
vs.
The Wayne County Agricultural Society, Defendant.
Wayne Speed and Fine Stock Association and the County of Wayne, Defendants.

To all stockholders and officers of and all other persons interested in claiming to have any interest in or claim against the Wayne County Agricultural Society:
Now on this 5th day of February, A. D. 1919, this cause came on for hearing upon the petition of John T. Bressler, Harry B. Jones, (substituted for Dr. G. Mann, deceased) and Gilbert E. French, as trustees of the Wayne County Agricultural Society, dissolved, asking that the court may fix a time and place for all stockholders of said Wayne County Agricultural Society and all persons having any interest or claim in or against said society to come in and file their claims and ownership of stock; that notice may be given to all persons having or claiming to own stock in said society and all persons having or claiming to have any interest in said society of the time and place of such hearing; that the claims and ownership of stock being established, the trustees be authorized to pay the parties entitled thereto, the portion of the assets of the said society belonging to said society; that the trustees be allowed a reasonable reward for their services; and that the trustees upon the completion of their trust be discharged.

It is therefore ordered that all stockholders of the Wayne County Agricultural Society, dissolved, and all persons having any interest or claim in or against said society, shall appear at the county court room with the clerk of this court, on or before March 17, A. D. 1919; that John M. Cherry be and he hereby is appointed referee to examine and make a report to the court, and it is ordered that all the books, records and papers of said Wayne County Agricultural Society be turned over to said referee who is hereby directed to examine the same and report thereon so far as possible the names of stockholders and persons entitled to shares of stock as shown by the books and records. Said referee shall fix a time for receiving proof of claims of ownership of stock and interest in and claims against said society, giving the parties filing such claims, notice of the time of such hearing, and shall take the evidence in support thereof and report the same with his findings of fact thereon to the court on or before March 21, 1919.

It is further ordered that all persons claiming to be stockholders of said dissolved corporation or to be entitled to receive shares of stock therein, or claiming any interest in or against said dissolved corporation, who fail to file their said claims on or before said 17th day of March, 1919, be and they hereby are forever barred from claiming any interest in the assets of said corporation as stockholders or otherwise.

And it is further ordered that a copy of this order be published in the Wayne Herald for four successive weeks commencing February 6, 1919.

Dreadful Cough Cured.
A severe cold is often followed by a rough cough for which Chamberlain's Cough Remedy has proven especially valuable. Mrs. F. W. Olsen, Marvite, Mo., writes: "About two years ago my little boy [Jan] caught a severe cold and coughed dreadfully for days. I tried a number of cough medicines, but nothing did him any good until I gave him Chamberlain's Cough Remedy. It relieved his cough right away and before he had finished taking one bottle he was cured. I think it is just fine for children."—Adv.

Getting Rid of Colds.
The easiest and quickest way to get rid of a cold is to take Chamberlain's Cough Remedy. This preparation has been in use for many years and its value fully proven. No matter what remedy you use, however, care must be taken not to contract a second cold before you have recovered from the first one and there is serious danger of this. A man of middle age or older should go to bed and stay in bed until fully recovered. It is better to stay in bed three days at the start than three weeks later on.—Adv.

That Terrible Headache.
Do you have periodic attacks of headache accompanied by sickness of the stomach or vomiting, a saw-tooth skin and dull eyes? If so, you can get quick relief by taking Chamberlain's Tablets as directed for biliousness, and you may be able to avoid these attacks if you observe the directions with each package.—Adv.

THE DIFFERENCE.
Cleveland Plain Dealer: "French country is exciting for the citizens but they have not thought of burning President Poincare's speeches as a method of obtaining it."

Indigestion.
"Take a few doses of Chamberlain's Tablets as directed for indigestion, and you will soon forget about your stomach troubles." Try it.—Adv.
There is more matter in this section of the country than all other diseases put together, and all the last few years was supposed to be the cause of the great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local remedies, it has become a general chronic disease and is now a general constitutional treatment. Chamberlain's Tablets, Toledo, Ohio, is the only one that cures it. It acts directly on the blood and mucous membranes. They offer you a hundred dollars for each case if you can cure it. Send for circular and testimonials. Write to Chamberlain Medicine Co., 219 East 14th St., St. Paul, Minn. Ask Hall's Family Pills for constipation.

Fisher Says:

I have 160 acre Wayne county farm, highly improved, just 14 miles from city limits of Wayne. Buildings are nearly all new and in the best of condition; consisting of 7-room house, large barn, cattle barn, hog house, double corn crib, chicken house and other buildings. There is a good water system, with underground system and piped to the different yards; the water is supplied from a good well and mill.

The 160 acres are all fenced, hog-tight with woven wire, has 20 acres of good alfalfa—fenced hog-tight; 20 acres of good pasture; the remainder of the land is in a high state of cultivation. Lays well, the soil being of the very best. Any one wanting to buy a good farm close to town, and close to good school and churches, should investigate this one, as it is only two miles from the State Normal school. This place is furnished with electric lights and power to all the buildings from the city light plant, making it the same as in town in that respect. I have this place for sale for a short time only at \$25 per acre. If interested in one of the best bargains in Wayne county, write me as to terms.

The telephone service has not been exempt from the increased cost of labor and materials. It is costing this company a great deal more to furnish telephone service now than it did before the war.

BOLSHEVISM AND AMERICA.
New York Evening Post: The question of the bolshevik peril in this country resolves itself into the question of land ownership and work and wages and food and clothes in this country. We have not the soil to grow bolshevism. The weeds of it which may appear here and there can scarcely survive except as carefully potted and sighted over in our soviet drawing rooms.

DISCREDITING TRADE UNIONISM.
Springfield, Mass., Republican: The 30,000 members of the building trades council of Newark, N. J., next against prohibition, won't succeed in getting the beer they are after, but they have already succeeded in burlesquing trade unionism; a feat for which organized labor will hardly thank them.

FOURTEEN—COUNT 'EM.
New York World: President Wilson and fourteen of his colleagues sat around a circular table in the apartments of Col. House—Paris dispatch.
One point for each colleague.

IT'S AN ILL WIND, ETC.
Seattle Times: After reading any one of the numerous screeds put out by the distillers, a harassed seaman after truth must reach the conclusion that prohibition will be a good thing for the press agents of the liquor interests.

MISAPPREHENSION.
Kansas City Times: The threat

of the German government to break off negotiations with the allies implies some confusion in the German mind. The allies have no negotiations on with Germany.

WHERE U. S. WILL BE IMMORTAL.
Rochester Post-Express: President Poincare in a speech to President Wilson said that France would never forget the Americans. He might have added that Germany never would, either.

CURE WORSE THAN DISEASE.
St. Louis Journal: The fare from Chicago to New York in the proposed airship line will be \$520. This will almost reconcile one to remaining in Chicago.

THE SAVING GRACE OF DEATH.
Washington Post: Experiments show that all dead bolsheviks, by some strange coincidence, are good bolsheviks.

AMERICA'S IDEALISM.
Chicago Daily News: America asks nothing for itself in the way of land and is not even locking up the Philippines at night.
