WAYNE, NEB.

Our reputation for fair dealing and reliable goods, coupled with the De Laval record of service and durability, has made the De Laval Cream Separator the leader in this community.

No farmer is rich enough to feed high-priced butter to his hogs or his calves in partially skimmed milk. It's a waste of money and food that your pocketbook, your neighbor, your country, all condemn.

But it's a waste that is going on today wherever an inferior or half-worn-out cream separator is being used, or the wasteful "gravy" method.

Why not put a stop to this needless waste with a De Laval Cream Separator?

You can't afford to do this

There is no other separator that can compare with the De Laval in clean skimming, capacity, ease of operation, freedom from repairs, and durability. It's the world's greatest cream saver.

### Cushman Does More Light Plant

Light and Power The Unit Belt Type Electric Lighting Plant in One Plant The Standard 4 H.P. All Purpose Power Plant

Picture on left shows outfit divided into Power Plant and Light Plant. Picture on right shows complete unit belted for electric light service.

#### Why the Cushman "Does More"

It does more because it gives you both portable light and portable power in one plant in the most compact, efficient and convenient form ever devised. It does more because there is less vibration with a belted outfit like the Cushman, and consequently less adjustment, repairs and service are required. It does more because every part is get-able. It is not necessary to "tear down" the plant to correct any trouble. It does more because the same engine—the 4 H. P. Cushman All-Purpose Engine—may be used for work all over the farm, or to be attached to binder, potato digger, corn binder or other machines. It does more because other machinery may be run from clutch pulley of engine at the same time the batteries are being charged by belt from fly-wheel side of engine. It is the most flexible outfit.

#### The Cushman Self-Starter

permits the Cushman Plant to be started, stopped and operated by a woman or child. It is the only outfit that automatically releases engine compression and turns on and off oil. Engine started from Switchboard, by pushing a button.

We have a Cushman "Does More" Light Plant ready for demonstration. Please call and see it.

# Why Armour Cannot Fix Meat Prices

It is generally known that the livestock supply varies from day to day, and that prices fluctuate in consequence. It is not so generally understood that the retail demand for fresh meat varies tremendously also, and that, in consequence, the price obtained by Armour and Company fluctuates, too.

When fresh meat is finished at the plants it is shipped to Armour branch houses located in more than 400 centers of consumption. And, this meat is shipped unchilled. The branch house manager receives with it a memorandum of what it cost to produce the meat. It is a simple matter then for him to determine what he must seek to get for it if he is to show a profit. And, he must sell it in the open market, in direct competition with other packers' branch houses, local abattoirs, and so forth. Also, he must face the uncertainties of weather, heavy receipts of fish and foreign food, unexpected and unusual circumstances.

Under the heading of "unusual circumstances" for instance, would come the recent epidemic of Spanish Influenza. Statistics gathered by Armour and Company show that, while the epidemic was at its height, fresh meat purchases, the coun-

try over fell off no less than 25 per cent.

A sudden wave of intense heat, a severe blizzard which blocks roads and makes transportation difficult; heavy receipts of fish or game; local kills of meat coming on the markets in small communities—all or any of these factors have a marked effect on the demand for fresh meats.

Branch house managers must—because storage facilities demand it—dispose of their stock such as fast as possible. This often necessitates selling below cost.

Thus, if statistics be consulted, it will be found that the selling price of Armour and Company's fresh meats parallels the price of livestock and is consequently "fettered" by the conditions mentioned.

With these facts in view, fair-minded readers must comprehend that it is not possible for Armour and Company to fix the price of meats.

## UNCLE WALT THE POET PHILOSOPHER

### THE LAWN MOWER

How dear to my heart are the thoughts of the winter, the winter that's gone with a jump and a jerk, when lawyer and banker and thrifty and prudent get snow in their eyes, when the old farmer works. Oh, winter's a season of laughter and loving, of singing the halloo and telling the yarn; but spring is ahead and I soon must be showing the rusty old mower that stands in the barn; the clanking old mower, the shrieking old mower, the back-breaking mower that stands in the barn. How sweet is the snow when it's seeping and sifting; 'Til float over a snow-drift, 'Til erect it with smiles and pleasure the snow when it's whirling and drifting—we don't have to move away from it in piles. The snow is all gone from the hill and the valley, it's melted and gone from the top of the barn; I'll have to quit physics and go in the alley, and push the old mower that stands in the barn, the back action mower, the star wheeling mower, the man-hating mower that stands in the barn.

### WILLIUM.

I have a heart of Kronprinz Willy you long, long weary weeks; no doubt he's sitting, sad and silly, with toes upon his cheeks, and thinking of the days departed when he was witty and buoyant-hearted, and when he danced and chattered with the other-thing, frisks. I'm glad there seems thy disposition to push him to the front, to use his pink, rosy condition, as the old man says, to lecture bureau men to want him, and his charming quass willy haunt him; no do do the sidishan magnates haunt him, with offer of much blunt. The manager will bring him better, to make a goodly pile; we're all inclined to let him wither, on his damp misty side; and if the sea should swallow him, or if a rain-pant wind should blow him so flat his father would know him, we'll still love and smile. Be all beside the sea, and doubtless thinks his late is rotten, and doubtless sighs with, chee, 'Imprisoned in the restless river; his linelight days are done and over; he cuts no grass, puts up no clover; 'tis well, as you'll agree.

### PUNISHMENT.

'Sad and lonely Willem's sitting in a room, with his right hand, and the bats are round him hitting as he broods, and broods alone; every moment to him bringing thoughts of the days departed when the boys when he was kinging on a richly cushioned throne. When he wakes and when he'd slumber, bitter thoughts his mind encounter; once he was the warmest dumber, with a crown upon his brow; once he walked in pomp and splendor, biggest sample of his gender, and his silver were legal tender, but he is a has-been now. None to honor or revere him, none to follow him, or ever him, and the staid Dutchman near him wish he'd shoo himself away; this the end to all his scheming; this the finish to his dreaming, and his sentiments, his heart, sorrowing, sobbing, when he hits the hay. Would his pain be half as bitter if we took this erring errant to a tree where some other tree was wrong him from a limb? Would the woe be any greater of this universal traitor, of this loutsome stratterer, if he talked and feathered the boys? 'Sad and lonely he is sitting with the bats around him fitting, and his princely teeth he's gritting when the Holland sun comes on; he has long bleak years before him, and a million thoughts to the golden thoughts of stalwart hands that tore him from his sceptre, and his crown!

### THE TUMBRIL.

My ear has waked in solemn state since winter came to pass; but now that winter's pulled its freight, and gentle spring is at 't' gate; 'tis time to turn our backs, this morn'ing to the barn I step, and looked the tumbril o'er, where it through long, long months has slept; and then I sat me down and wept; my tears splashed 't' floor. 'I hoped to swell my meager roll when my days were done; 'Tis sad to see my children and wife, and to blow myself for coal, and so he has no chance to sit away, a banished, always dingy from his pants the where-withal to feed his aunts, buy the children-pones. And now that spring is here, alas, my account will cut no grass, 'I have to buy up oil and gas and costly tubs and tires, and my husband must be overhauled by skilled and gifted gents; and when they have it fixed and dolled, and with their little bills have called for it, we have twenty cents. For bank accounts all sane men crave, but they are hard to get; we're always planning how we'll save; and when it's time to buy a grave we have to go in debt.

kind of noise. Oh, the boys and girls, when they were in the shack where I dwell, making that old structure tremble, while they whoop around and yell. Then I think of Father Noah and his cargo, in the ark of his warthog and his boar, and his jorge-man eating shark. I appreciate his feelings, while he tried to do his chores; and the rattlings and the squealings and the whinnies and roars. When he tried to give instructions to his helpers, them and Hans, some old bull was raising ructions, scrapping with the South-down ram. It is strange that which to me, when he striced his air-cooled pron o'er the wide and wailing deep. For the horses all were neighing and he heard beyond a cross and the cows were, doubtless braying, all their voices out of tune; and the roosters did their crowing, just as though they were on lands and the cows were bawling, lowing in a style to 'beat the land. Yet there is no record written that old Noah made a scene, even when his leg was bitten by a many volverine. And he could do this crowing with those critics all around; I have no occasion for roaring at a little vagrant sound.

### WATCHING AND WAITING.

Watchfully we all are waiting; how will things come out at last? Will the Germans quit their hating and live down their ugly past? Will they see that hate's an error, will they fully realize that to rule, will the world by terror isn't possible, wise?—Will the German love his neighbor in the golden days of peace, or be anxious to belabor 't' other fellow with a scepter? Oh, I do not trust the German, though he act like Sunny Jim, though he hand me out a sermoun or put up a leg; he is great at talking virtue, he has morals by the stack; but he'll take a club and hurt you if you chance to turn your back. I'm afraid the Germans quit their hating more passion than before; while he cringes he is waiting—for another fitting of gore. Now for is of humbling the German, speaking in respectful tones; but I fear he's always dreaming of more corpses and more bones. He's ready with his pledges; he will

Friendship is an important asset, but it should not be abused. It deserves great personal sacrifice, but is not true if it exacts a price or demands special favor.

Latest reports from Carroll state that a sufficient number of property owners have signed up for paving to guarantee the improvement. Concrete will be used, and the work will soon be under way, according to information received this week. It is hoped every town in the county will be paved, including Wayne.

We notice a number of cities of Wayne's class over the state are planning suitable celebrations for July Fourth. Returned soldiers and sailors are to receive special invitation and honor. The Fourth may be made an occasion to properly entertain the boys and enable them to renew friendships and talk over experiences. If Wayne contemplates a celebration on the Fourth, it will soon be time to take the matter in hand.

It is understood that a total of \$400,000 is to be devoted to road improvement in Nebraska this year. How it will be spent is not certain. Making dirt roads is temporary and must be repeated. One local man who has studied the subject, believes it would be best and most economical in the end to spend the cash in building concrete roads. These would be permanent. Each year's road appropriation by the state and federal government goes into such permanent improvement would result in time-in-the-

ing the state with concrete roads. Simultaneously each county would do its best in the way of road improvement.

Most people of the state will approve Governor McKelvie's action in appointing a woman to membership of the board of control, and the citizens of Wayne County, Aurora, is warmly endorsed by all who know her accomplishments. It will be a woman of the highest sound judgment will aid materially in looking after the institutions of the state, and it will also be conceded that the woman deserves a share of the offices of the state.

A London newspaper voices the approval of British commercial interests that American manufacturers are taking the lead in gaining the world's markets for goods. Complains made that leadership in trade is likely to be developed by the United States. With the country's resources and business generalship, it would be amazing, indeed, if it were to lie down and forfeit to great Britain or any other country coveted trade supremacy. The United States did its best share in winning the war and in giving assistance to countries and people who suffered by reason of it. The matter of developing trade is quite another consideration. Revising old and gaining new trade relations is eminently justifiable and necessary.

Having one's picture taken is a serious and trying operation. For people unable to look as pleasant and civilized as they feel, it is a terrible task to truly represent the inner soul in picture form. If you force a smile, you are liable to look idiotic. If you don't smile, you are apt to appear as austere as a Hindu god. Photography intensifies facial imperfections, we would say, unless you know anything about it. If you have a pimple or a crooked jaw, it will loom up in frightful fashion. Only the artist's retouching skill enables one to tolerate his own likeness and give it without shame or a shudder. An artist can take a really grim face and build it over until it may be safely allowed to run at large. An artist can take a pair of eyes that look as though they would penetrate adamant and smooth them down until they are quite harmless. The deft touch of the artist keeps many a person from suing his face for damages.

We have one Wayne dealer who would restrict the Herald in selling space. We have one who would dwarf the paper's advertising field,

and selfishly compel it to be satisfied with a small circle for usefulness and revenue. The postal law which grants the right to use the United States mail based on the sound policy of equal privilege to all, requires an affirmative answer to this question: "Can all persons or concerns advertise in the publication at the regular rates?" Publication has no right to deny a legitimate advertiser admission to its columns. Like a train, a newspaper is a public carrier. Anyone who is not obnoxious, who has the price, and who complies with rules, may demand the service. The idea that a newspaper is sustained by charity and is published solely for any one group, is antiquated and inimical to progress. Instead of trying to coerce a publisher into a restricted policy, serving a limited number of individuals, an advertiser should welcome competition and invite comparisons. To seek to shut out rival advertisers is an attempt to deny the willing public of Wayne county all possible information. A restrictive policy may be interpreted as evidence of weakness, whereas a willingness to match offerings with those of any who would enter the trade field, will stimulate confidence and develop strength. Plainly one should have enough confidence in the drawing power of his own qualities and prices to seek instead of shun comparisons. If any legitimate advertiser is so much to the disadvantage of other advertising that one should be throttled for an order, manifestly the buying public is vitally interested and should ascertain the facts. The growth and usefulness of country journalism depend largely on an extension of its circulation and the development of its advertising policy. The press of the state is invited to contribute to a discussion of this important question. Any advertiser or subscriber both very much concerned, is invited to express in these columns his or her views on the subject. There is much to be said, and the Herald editor will be pleased to contribute his full share.

### Wirthmor and Welworth Waists

After a careful investigation, we have arranged to distribute these two nationally-known and nationally favored lines of waists in this city. Before deciding on this step, we learned the Wirthmor and Welworth Waists were being handled by many of the best stores in America, that they had attained throughout the U. S. A. TRYING EXCELLENCE, a nationwide popularity; that because of the unique Wirthmor plan under which they are made and sold, they always represented the HIGHEST POSSIBLE STANDARD of value in popular price blouses, and further because of this very unusual method of making and selling waists we would be able to show the NEW and WAIVED STYLES FIRST, in many instances long in advance of their appearance in the market generally.

Under the Wirthmor plan you will be enabled hereafter to buy here the same new styles in waists at the same moderate prices and at the same time that these styles first make their appearance in the recognized style centers of the country.

These are America's only known priced waists, and they are sold at the same low prices the nation over.

**\$1.50 (For the Wirthmor)** **\$2.50 (For the Welworth)**

The first shipment of these very desirable waists just arrived and will go on sale tomorrow. We urge that you come in and see them; for we know that acquaintance will mean substantial savings for you whenever you're in need of a popular price blouse.

Pratt went to Sioux City Wednesday to attend the funeral of Mrs. M. Jones home. Judge William B. Bryant of Hartington came to Wayne Wednesday to hear the address by William Howard Taft. Mr. Bryant says the lecture was by far the best one he has heard.

**LOCAL NEWS**  
Miss Nora Gilbert is spending today in Sioux City. Red Wing shoes will make your spring work easier—Morgan's Toggery. Alvin and James Britton who spent the winter at Long Beach, Cal. arrived home Wednesday evening. Keta good, well improved 160-acre farm, six and one-half miles from Wayne; good terms. W. L. Fisher. Mrs. Rita Honey and Mrs. Harvey Crawford and son of Carroll visited in Wayne Wednesday afternoon. C. A. Chace went to Emerson this morning to meet his wife who was returning from a few months' visit at Long Beach, Cal. Mr. and Mrs. Bessie of Laurel, parents of Mrs. E. R. Rowland, were in the place Wednesday to hear the lecture by William Howard Taft. Miss Alma Votter and Mr. Fred "Big Back" Anderson were united in marriage at the home of the bride's parents, Mr. and Mrs. F. J. Votter, Thursday, April 17. The bride attended the Wayne Normal last fall but was obliged to stop her work on account of ill health.

The Ladies' union of the Baptist church will have an Easter bazaar and sale, Friday and Saturday in abundance. Apples, the prettiest you ever saw, received especially for this occasion. Sunkist brand oranges, the sweet kind that it's a pleasure to eat and, incidentally, the brand you will buy again. Cauliflower, cabbage, turnips, head and leaf lettuce, asparagus, radishes, and onions will be on display.

**Easter Shoppers**  
will find it to their advantage to shop at this Bazaar store. Our stock of good things to eat will consist of the best the market affords. All kinds of fruits and vegetables on sale. Friday and Saturday in abundance. Apples, the prettiest you ever saw, received especially for this occasion. Sunkist brand oranges, the sweet kind that it's a pleasure to eat and, incidentally, the brand you will buy again. Cauliflower, cabbage, turnips, head and leaf lettuce, asparagus, radishes, and onions will be on display.

The school board met Tuesday afternoon and considered salaries. The salaries of two grade teachers for next year were raised. The local school board like other employing institutions is finding it necessary to boost salaries in order to be sure of getting teachers. Miss Hilda Gustafson of Randolph visited in Wayne Wednesday morning with her mother, Mrs. Clara Gustafson. She went to Waterloo that afternoon accompanied by her little nephew, Lloyd Harris Dotson, returning to Wayne that evening. Mr. and Mrs. Andy Thompson left this morning for Camp Dodge, Ia., to see the latter's brother, Carl Madsen, who is in the base hospital recovering from wounds received in France. Carl wrote to his parents this week saying he had received instructions to report to camp in Colorado, so would not be home for some time.

**Strawberries and Cream**  
That sounds good—it is good—and will have a good supply of both Saturday. It will be well to phone your order early as heavy demands may exhaust the supply.

Among those from Carroll who attended the lecture by William Howard Taft at the State Normal auditorium Wednesday evening were: Daniel Davis, Steve Davis, George L. Holcamp, Vaughn Johnson, L. W. Carter, Mr. and Mrs. Griffith Garwood, and sister, Mrs. Ella Steele of Boulder, Colo., G. Burgess, C. J. Nairn, and Miss O. Frise.

**Folger's Golden Gate Coffee**  
Without a doubt this is the best coffee obtainable. Golden Gate costs only 50 cents per pound and it's worth every cent of it. It's just that much better than the ordinary coffee offered in packages. After a trial pound, you will take no chances on something "just as good." Golden Gate coffee gives a permanent center of virtue of real cup quality. Golden Gate coffee, 1-pound sealed tins for the one who cares.

V. F. Wilson arrived here Wednesday evening and is visiting with his wife and children. Wilson was a member of the field artillery overseas and returned to the United States in February. He had been at Fort Monrue, Va., and a few days ago, when he received his discharge. Before entering the service, he was superintendent of the Normal. Wilson graduated from the Wayne Normal Wednesday evening and is visiting with his wife and children.

**Farrell's Nut Butter**  
is a household favorite. Costs about half the price of creamy butter, and more satisfactory. The demand for Farrell's Nut Butter would surprise you. Try it. It really solves the butter problem and saves money besides.

RED PEP'S PHILOSOPHY.

"The unwritten law of business: Make Good or Make Room."

There's "easy money" here. Big values for every dollar you spend at our store.

"A Half Loaf Is Better."

"A half loaf is better than no bread at all" you have often heard.

Very true. Equally true that a half loaf of our bread is bought better than a whole loaf of many other kinds of bread.

The reason? Taste it and you'll have the convincing reason right between your teeth.

THE EARLY DAYS IN THE TWO COUNTIES.

From 'The Wayne Herald, April 16, 1903.

A son was born to Mr. and Mrs. George Deubler, April 12, 1903. Mrs. Maud Miller has charge of the instrumental music at the college.

A daughter was born April 12, 1903, to Mr. and Mrs. Jake Dornberger.

Mr. F. M. Skeen and son Frank went to Pierce to visit Hon. Skeen and wife.

Rev. J. W. Merrill of Beatrice, Neb., visited in Wayne with his father, Mr. E. Merrill.

Charles Steckelberg who attended the Wayne Normal, is spending the summer in Europe studying music.

J. A. McLaughlin of Monticello, Minn., with his cousin, Miss. Mrs. Phil Kohl and Mrs. Minnie Frazier.

Earl Fleetwood of Beatrice, Neb., and George Johnson of Clinton Hill, Mo., visited their parents, Mr. and Mrs. W. M. Fleetwood in Wayne.

Wayne Market prices were as follows: Wheat, 59 1/2 cents; corn, 27 cents; oats, 27 cents; rye, 34 cents; hogs, \$6.60; butter, 12 cents; eggs, 12 cents.

The eight-year old daughter of Mr. and Mrs. G. C. Angle died some time of her parents in Spokane, Wash. The Angle family were formerly residents of Wayne.

Mrs. E. M. Smith entertained a large number of her friends at a luncheon after a party. The house was decorated in flowers and a three course luncheon was served.

From Ponca Journal, April 14, 1918. P. G. Wright and Frank Tappan arrived from Ponca City, Mo., and brought the first mail this town has had for over a week.

The people of St. Helena are disappointed because the season had any coal oil for over a month for the want of which they burn candles and kerosene.

The intensive gorges of ice which have filled the bed of the river for many miles between Sioma and Nohoraha, have not gone out and the water is forced to cut new channels. Mr. Mattison states that the gorges in Sioma, landings still remains, and under the circumstances, will of course remain until melted by the sun.

The state of Nebraska is a body of ice will melt in all summer.

Sunday morning snow commenced falling and during the day continued to fall, and by 11 o'clock it was piled up to the height of six or eight inches, and Tuesday forenoon fell some more. In all from Sunday morning to Tuesday noon, about a foot and a half of snow fell.

On Friday a surge was made up by business men of town, and a flood in Dakota county. He succeeded in getting as far as Jackson, and about a mile beyond that, when he was stopped by the water that had overflowed from the river. He then went to Hubbard, on the Omaha line, and by telegraph message Friday evening (Saturday morning) the water at Covington had fallen three feet in its greatest height, and that day, when he had been four or five deep in the streets of that place. This is the last that has been heard from the levee, and whether the flood is still raging or has subsided, is impossible to tell.

Labor Cost and Living Cost. Minneapolis Journal.—I must be granted that in the present high cost of living there is a considerable amount of surplus profit on every item, perhaps not too many. The old scale of prices is being raised by the war, and everybody with something to sell had free hand to make up a new scale. And until we know something more about the war, we are as to tomorrow's cost of producing goods, the tendency is to hold up the prices of today. This means that the cost of living now sustains the prices of old ones and hoisters up the cost of living.

In many lines of labor before the war the working day had come to the eight-hour basis. All industry may come to this basis, in the reconstruction period. If so, the cost of living will be sustained to that extent, for on the average ten hours' labor is likely to produce more than eight.

In time the new eight-hour day can be made equal productively to the longer day, but only when the workman has learned to put more skill, honest labor into an hour, and when ways of spending up men and machines will have added altho

cal strain to either are studied out. Labor is the largest item in producing practically everything that enters into the cost of living. From 60 to 80 per cent of the cost of everything that comes from the soil is chargeable to labor. As the greater part of the products vital to existence come from the soil, makes an appreciable difference in the food bill whether the average plowman forgets his monkey wrench when he goes to the field and has to let his team stand idle while he goes back for it.

The cost of what the consumer is not fixed by the man with a traction engine pulling six harvesters, but by the man who lets three horses stand idle in a barn, and on while he tinkers at the broken plowman which he should have fixed last winter. Only in a comparatively few show spots is farm efficiency at point of high efficiency. Our costly food is full of costly blunders made in the field and around the barn.

Every hour the ditcher uselessly leans on his spade, every aimless or purposely slow movement made by an unskillful horse earner in the mine or field helps keep up the price of bread and butter, sugar and shoes. The price of a tractor will never match up with the means of living, till men are as willing to earn what they get as to get what they earn.

A WAYNE EVENING.

Mrs. Schmalstieg Tells Her Experience.

The following brief account of an interesting case of a Wayne woman, eight years ago, and its sequel will be read with keen interest by every citizen.

Mrs. Ida Schmalstieg, gave the following statement in August 1910: "I was troubled more or less by a dull, heavy ache through my kidneys, I had had some terrible headaches and dizzy spells. I was bothered a lot by other distressing symptoms—Doan's Kidney Pills strengthened my kidneys and drove away the pains from my back. The headaches left, too, and my health in general improved."

"REID'S KIDNEY PILLS."

On July 15, 1916, Mrs. Schmalstieg said: "I am still recommending Doan's Kidney Pills." Whenever I have any kidney disorder I get Doan's at J. J. O'Brien's Pharmacy and they drive away the troubles."

Doan's Kidney Pills are simply asked for—because they get Doan's Kidney Pills—the same that Mrs. Schmalstieg had—Foster-Wilburn Co., Mfgs., Buffalo, N. Y.

If I were a Farmer. If I were a farmer I would keep at hand a few reliable remedies for minor ailments that are not so serious as to require the attention of a physician, such as Chamberlain's Colic and Bismarck Remedy for stomach complaints.

Chamberlain's Cough Remedy for coughs, colds and croup.

Chamberlain's Liniment for sprains, bruises and rheumatic pains.

Chamberlain's Tablets for stomach troubles, biliousness and constipation.

By having these articles at hand it would often save the trouble of a trip to town in the busiest season or in the night, and would enable me to treat slight ailments as soon as they appear, and thereby avoid the more serious diseases that so often follow.—Adv.

Seed Corn for Sale. We have about 100 bushels of choice Reid's Yellow Dent seed corn for sale. This corn was all field selected in September, reaked and thoroughly air dried.

We have been growing this corn on our farm since 1907, and it was thoroughly seed tested.

At the Nebraska State Corn show held January, 1918, our Reid's Yellow Dent won first premium in the "homemade class," the vegetables for the best yellow corn and the grand championship for the best corn of any variety grown in Nebraska.

At the Nebraska State Corn show held January, 1918, our Reid's Yellow Dent seed corn; we will be glad to show it to you. Price \$5 per bushel (test corn only). Seed house on home farm, three-fourths mile south of Ahona. Address Charles Roggenbach—Wayne, Neb.

Cannot Forget Us. Rochester Post-Express: There is every reason to believe that William Hubbs' home farm has not forgotten the United States, as he assured Ambassador Gerard he would not do after the war.

Do You Sleep Well? To be at his best a man must have sound, refreshing sleep. When he is unable to rest at night he is in no condition for work or business during the day. Wakefulness is often caused by indigestion, and constipation, and is quickly relieved by Chamberlain's Tablets. Try a dose.

 Enola, Neb., April 5.—L. E. Ruchka, one of the incorporators and for the past four years in charge of the Enola State Bank as cashier, has sold his interest in the bank to Mike Minarik and E. R. Gurney of Fremont. Mr. Minarik has been associated with Mr. Gurney in the banking business for several years.

The annual meeting of the bank was held Tuesday and all the present directors and officers remained. Mr. W. W. Stone accepted the position of director to fill a vacancy.

The following officers were elected: B. B. McManis, president; L. M. Wright, vice-president; F. T. Ruchka, second vice-president; Mike Minarik, cashier; E. H. Taylor, assistant cashier.

The three last named have active charge of the bank starting April 1st.

### PARTY LINES WITHDRAWN

Republicans Urged to Quit Politics and Aid Victory Loan.

Washington, D. C., April 14.—Chairman Will H. Hays of the republican national committee, issued a call to all republicans urging their united and effective support of the Victory Loan.

This is not for the fighting men at the fighting front. For them the war is over. Their part is accomplished to their own everlasting honor and the glory of the nation, and no additional burden should be put on them.

To those whose privilege it has been to form the second line, and to whose credit it is recorded that they have attained every objective of their own every lasting honor and political faith, who acted in that unselfish co-operation which brought the fighting men the support they needed to meet the complete vindication of our institutions; the men and women of America, who do not fail in this call.

Let us show to these fighting men who have returned how comrades have been obeyed. Let us send messages of no weakness. Let us show to the world that our patriotism is not that blindly only of extremes and stored up material in our hearts, but devotion which means a duty in the firm determination of conscientious service and performs it. And let us demonstrate to ourselves that we are worthy of the name American and the privilege of our citizenship.

Our first duty as republicans today is to show to those who have not failed and never will fail to anticipate and discharge our duty as Americans. Just as during the first days of the war we were urged by love we could do more for effective action, so now we will measure our every step by how we contribute most to the nation's welfare.

To that end we will abandon all other activities to aid in the Victory Loan.

### Important H-T-True.

Stromx City Tribune.—Major Thomas, president of the Red Cross fund in Belgium, is reported to have declared on his arrival in New York recently that he never would give another nickel to Belgium. He states that Belgians sold Red Cross supplies of food to the German army, and spent money given them in gambling and under the bright lights of the casinos that have become so accustomed to living without working that they are now never willing to help American and British soldiers repair the roads of Belgium.

If the major's description applies to conditions that are widespread, it is time America cut loose from Belgium. An overdose of charity nearly always harms the recipients.

Belgium, the high cost of living in America can be traced directly to the big shipments of food that are going from the United States to Europe. A comparison of figures on staple foods shows that they are cheaper in London and Paris than in many American cities. Some day this will have to be curtailed.

No better place could be found to make a start than with those who may be found to be developing a trifling disposition.

**Notice of Dissolution of The Philo & Harrington Lumber Company.**

Notice is hereby given that pursuant to a resolution duly adopted by the directors of the Philo & Harrington Lumber Company on the 26th day of April, 1919, and assented to by all the stockholders of said company at a meeting of said corporation duly held on the

8th day of April, 1919, said Philo & Harrington Lumber Company has and the same hereby is dissolved from and after the 8th day of April, 1919, and from and after said date has ceased to be in force for any corporate act except such as may be necessary or incidental to winding up the affairs of the Philo & Harrington Lumber Company.

**Affecting Salaries.**  
 Lincoln, April 12.—Governor McClellin has approved several bills one of them being H. R. 209, which allows the Lancaster county attorney an assistant at \$9,500 per year, besides his deputy H. R. 111, increasing the salary of Supreme Court Bailiff F. W. Coleman from \$1,200 to \$1,500, and H. R. 34, raising the pay of deputy state surveyors from \$6 to \$8 per day, have been signed.

Cities of 5,000 to 25,000 population are authorized to issue bonds for electric plants or water-works upon a simple majority vote of the people, which the governor has approved.

**Neglecting Col. House.**  
 Aberdeen News.—Frank H. Simonds has now decided that Premier Lloyd George and President Wilson is the dominating figure in the peace conference. "If Frank doesn't get around to giving the honors to Col. House, he's pretty soon, a lot of us are going to be mightily disappointed." The press correspondents have been neglecting Col. House ever since General Creel came home. "It is about time to do something about it."

### "HIS TREATMENT IS REMARKABLE," HE SAYS

Captain F. S. PATTY, Ex-Passenger Agent, Northern Pacific, Discusses Former Troubles.

Nearly everybody in Knoxville, Tenn., especially railroad people, know Capt. F. S. PATTY, for twelve years district passenger agent for the Northern Pacific railroad, with local offices in Chattanooga, and general offices in St. Paul, Minn.

On account of generally failing health, Capt. Patty was forced to discontinue active work, and for the past few years has been making his home in Knoxville, where he numbers his friends by his acquaintances. He is a kind, genial gentle-

man of the old school and is beloved by all who know him. The following interesting statement was made by him in person to the Yankee representative:

I am 69 years old and always enjoyed good health up to about six years ago when I suffered a nervous breakdown and my general health gradually failed me. My principal trouble was indigestion and catarrh, but my whole system seemed to be out of shape. My condition finally got so bad I couldn't sleep at night and always after eating I would suffer so from indigestion and heartburn that I felt just like there was a "cut" or "tear" in my stomach. My hearing and vision were also affected. I consulted several doctors in Knoxville and other cities, and they helped me considerably, and I finally got so I could go around, but somehow I just couldn't get right and could not sleep at night, which made me awfully nervous and nothing would eat seemed to agree with me.

I began reading about this Tonic when you first came here, but did not decide to try the medicine until I talked with a friend of mine who had actually used it. He said it was the best thing he had ever taken, and that was sufficient proof for me.

I have just finished first bottle and came here this morning not only to buy the second bottle but to tell you just what it has done for me. I began enjoying my meals from the first few drops. My nervousness is gone and I can sleep like a child and always wake up in the morning ready for breakfast and feeling refreshed. I am very fond of onions, but was almost afraid to eat them, because they always disagreed with me so; I could taste them for hours afterwards. I ate one for dinner the other day and it agreed with me perfectly and I felt no bad after effects whatsoever. I tell you I am beginning to feel like a different man and am always going to keep this Tonic on hand. It has done me more good than anything else in the medicine line I have ever taken. I certainly do recommend it to my friends. It is really remarkable.

Tonic is sold by one leading druggist in every town. Ad 714d

any other county in the district. The committee expects the women to do still better in the victory drive.  
**Buy Victory Notes.**  
The chaplain of the Levisthan, visiting the sick-bay, came upon a pink-checked Texas boy.  
"Sit down and chin with me, Father," urged the doughboy.  
The chaplain seated himself on the edge of the cot, but the soldier's glance of pain caused Father McDonald to lean forward anxiously and say "What's the trouble, lad?"  
The Texan demanded, "Get off, Father, you're sitting on my feet!"  
Profusely apologetic, the chaplain jumped from the bed, whereupon the boy laughed. "Don't take it so hard, Father. It was just kidding you, see?"

reading matter or their community work. No other business in a town offers an equal opportunity for the centralized efforts of the community—business, social, educational and religious—as the local paper, and all classes should look into the matter more closely that they may become better acquainted with these possibilities.  
**Movies to Boost Loan.**  
The women's committee of the Victory Loan campaign secured "The Price of Peace," a motion picture Thursday evening of last week to boost the Victory Loan campaign which starts April 21. The show was given free of charge at the Crystal and large crowds attended. The public school children filled the house at the matinee and three shows were given to large audiences in the evening. The show was a fitting introduction to the new drive.

clude jewelry and silverware, musical instruments and vehicle groups, the last including automobile manufacture, rubber and tobacco. These are luxuries and indicate that the upward tendency of trade is among without special consideration of the people who can afford to buy prices. The higher percentage groups are not confined to geographical localities except in the case of jewelry which centers about Providence, R. I., and certain portions of Connecticut and Massachusetts, and automobile prosperity which is confined to the Detroit district.  
The increase in wages of railroad employes by the government is accepted as no indication that wages are not to be expected in the reconstruction period. This being fairly well established, business will adjust itself to the new basis and some of the hesitation which has been pronounced in both industrial and commercial activities will disappear. Both will proceed on a new and higher level. It is clear the country must adapt itself to a new value of the dollar. When the adjustment is made current business will resume, though investments for future incomes will not be as large as they would be had price levels become lower.

Richard Couch, former telegraph operator in the depot here, came up from Craig Monday to visit his parents in Wayne.  
J. H. Easton went to Sioux City Sunday, returning Monday.  
Mrs. Foster who went to that place Friday was in Wayne Monday afternoon. Paul Harrington and B. F. Sticht attended a meeting of the I. O. O. F. in Norfolk Friday night. Ganley and Mrs. Michael, a family case was served. They had a good time.  
Leonard Bastian who recently returned from the front, visited last week in Wayne with his parents, Mr. and Mrs. C. C. Bastian, and brothers, Albert and Martin Bastian. They left Saturday for his home at Chance, S. D.  
Mr. and Mrs. E. B. Forsyth of Lincoln, Ia., arrived Sunday to visit the home of their niece, Mrs. E. L. Michael. They returned home Monday afternoon—B. I. Tripp, father of Mrs. Michael, arrived in Wayne Sunday also.

Cooper Ellis who was recently with the Chamber from the United States Army, left Saturday for Lincoln, Ia., to teach in the manual training department of the high school at Randolph.

**The County Paper.**  
Coleidge Blade: "Papers in the towns too small to pay wages are quitting, and in towns where there is a field for but one they are consolidating. The day has gone by when a newspaper man will put his time to work out a spite for some clique in town, or harp politics for the benefit of a few interested officers. Also, they have ceased to pose as the town model or the scold. They are simply common-house beings who are ready to rough-and-tumble it with the rest of the gang. The paper itself is an open forum. Anyone with ideas or opinions to express are welcome to use the paper. Editors do not care a hoot whether the opinions as expressed correspond with theirs. Papers are no longer personally conducted excursions. They are business propositions, wholly for the community, and while the personality of the man running them may show through them, for it's hard for any man to be neutral himself, or wish to be, yet he by no means dominates their

Trade and Spring.  
Sixth City Journal: Physical conditions have dominated the trade and industrial situation for the last week. Storms in the west and middle west, with their effect upon country roads, and resultant diminishing of country buying, are some of the pronounced adverse elements of prosperity. Against this for the winter wheat conditions and the high prices which farm products command. Hog prices have reached a point which is forcing large supplies on the market and the investment of the purchase price in other things has been a stimulating influence upon both trade and banking. The purchase of farm machinery has been another important element in the increased volume of trade.  
But these immediate conditions are discounted by the results of a recent survey of 4,400 industrial establishments. This survey shows that in five out of twenty-two principal groups of industries, business activity is between 25 and 50 per cent of normal. The five which show more than 50 per cent of normal in-

**Sailing of Transports.**  
During the war, 957 ships were sent out from the port of Hoboken, with an aggregate of 1,293,874 soldiers. Twenty-three sailed in one day. Nine were sent out in the dead of night in ninety minutes. That was August 31, 1918, when the total for the day of 52,428 soldiers was achieved. The nine big transports were sent off without flashing lights or sounding of bells. All signals had to be whippers and by whigwag, even in the dark, and allowing ten minutes to the sailing of each great ship, there were nine ships out of the harbor toward the sea.

with this Curtis built-in ironing board. It is always ready for use, always clean, always handy, never in the way, no flimsy fold-down legs to worry with, no need for chairs or props, no heavy board to lift. Equally convenient to the wife's wash or a single piece.

If you have flat irons, build the cabinet into the wall by the range so as to save space in using the board. If you use the electric iron, put the socket inside the cabinet.

This board is made of light, white pine, which will not warp, crack or split. It is contained within a built-in case made of durable yellow pine.

The board can be raised or lowered to suit the height of the person working at it.

If you build a new home you want to be sure to include this extraordinary convenience. Better yet, remove your old kitchen—and equip it, too, with this work-saver.

The cost is hardly worth mentioning compared to the benefits it will save you.

Decide where you want this amazing board in your kitchen and have it built in. Begin now to save work, time and steps in the kitchen.

**Courtright-Martins.**  
Louis E. Courtright, son of Mr. and Mrs. L. J. Courtright, was united in marriage at the Methodist parsonage in Wayne Saturday, April 12, 1919, to Miss Minnie Henderson Martins of Wisner, Neb. Rev. D. W. McGeege performed the ceremony in the presence of the bridegroom's parents. The young people will make their home in Wayne. The best wishes of friends are extended.

**Victory Workers Meet.**  
The women's committee of the Victory Loan drive held a meeting in the city hall Saturday afternoon. The chairmen of the precincts and other workers in the drive and plans were made for the new drive, which starts April 21. Mrs. A. T. Chapin, the county chairman of the women's victory loan committee, presided and gave the workers literature which they will distribute to all families in their districts. According to the county record there are 1,520 families in Wayne county and the women plan to visit every home. The committee will leave pamphlets and explain the necessity of sustaining the army of soldiers and the feeding of millions of hungry people throughout the devastated countries of the east. In the fourth liberty loan drive, Wayne county women bought 24 per cent of the bonds in the county. This percent was very much more than

# The Land of Opportunity Kit Carson County, Colo

## Located in the Rain Belt of Eastern Colorado

This land produces more wheat, rye, barley, and oats per acre than eastern Nebraska, where land is selling for five and six times as much. Alfalfa grows equally as well as on your \$250 and \$300 land.

Corn will yield from twenty to fifty bushels per acre, depending on the manner of cultivation. With this combination it makes the ideal stock-raising country, as cattle, horses, sheep, hogs, and poultry are free from the many diseases so prevalent in the east.

Burlington, the county seat of Kit Carson county, is located on the Main line of the Rock Island railway as it enters Colorado from the east, and the markets are brought very close to us.

Denver, Colorado Springs, and Pueblo on the west, Kansas City, Omaha, St. Joseph, and Chicago on the east afford an excellent market for both grain and stock.

Kit Carson is especially favored when it comes to climatic conditions. The air is very invigorating, and never heavily laden with humidity as in the eastern localities.

The altitude of this county is 4,160 feet.

As in eastern Nebraska and Iowa, settlement means higher land values. The same conditions exist here as in western Nebraska three years ago, where lands are now selling from \$85 to \$150 per acre, that you could have bought then for \$25 to \$30 per acre.

Prices are mounting upward rapidly and purchasers of this land at present prices will double and treble their money in the next year or two.

Land is now selling for from \$25 to \$50 an acre for the choicest farms land, but will not stay at that price for many months, and those who have money to invest or who want an ideal farm home will do well to buy at once.

The original purchase by the thirteen large real estate firms now operating in Burlington is now nearly exhausted, and this will mean you will have to pay from \$10 to \$20 more per acre in the next sixty to ninety days.

### CHURCH CALENDAR

**Presbyterian Church.**  
Rev. J. A. Laurie, D. D. of Des Moines will be with us for the Easter services.  
The Sunday school will have the Easter lesson, and a short program by the primary department. We urge you to remain.  
The choir, led by Mrs. A. R. Da-

vis, will render special Easter music for both the morning and evening worship.  
The annual congregational meeting of the Presbyterian church was postponed, and will be held on Monday, April 21.—Committee.

**Evangelical Lutheran Church.**  
(Rev. Rudolph Moehling, Pastor.)  
On Easter day, Sunday school at 9:45 o'clock; service at 10:30 in

the morning. The sacrament of the Altar will be administered. Service on Good Friday in the afternoon at 3 o'clock.

**Methodist Episcopal Church.**  
(Rev. D. W. MacGregor, Pastor.)  
Easter Sunday, the day's services will commence with the "Morning Watch" service at 6 a. m., conducted by the E. L.  
Sunday school at 10 a. m. East-

er sermon at 11 a. m. E. L. and I. L. at 7 p. m. Vesper service at 8 p. m. Everybody welcome to the services of this church.

Monday evening, the Imperial orchestra will give a musical in the church, under the auspices of the Epworth league. Don't miss this high-class entertainment.

Eatonic service, "Following the Stars and Stripes." A patriotic pageant will be given in the church

at 8 o'clock on the evening of April 24. All Civil war veterans, all returned soldier boys, are cordially invited. The people of the community are urged to come out and welcome the "boys" back to Wayne county. See notice elsewhere in the papers.

**English Lutheran Church.**  
(Rev. J. H. Fetterolf, Pastor.)  
Sunday school convenes promptly at 10 a. m. This is a good time to make a fresh start in Sunday school effort.

The service of public worship will begin at 11 a. m. It will consist of a short sermon especially adapted to the needs of the confirmands, special Easter music by the choir and the celebration of the Lord's Supper. Easter is a red letter day in this church. We expect every member of the church present at this communion season. We will make a special effort to provide seating accommodations to the full capacity of the church.

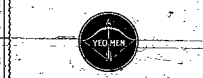

Luther league prayer meeting at 7:15 p. m. Why not have every leaguer bring someone along to this meeting and fill the lecture room on Easter night at 8 o'clock.

Mrs. E. C. Tweed will entertain the Ladies Aid society next Thursday afternoon. The committee appointed at the business meeting to draft new rules for the regulation of this society will report at this meeting.

**Back from California.**  
H. C. Lyons and daughter, Miss Laura Lyons, arrived home Saturday morning from a three months' sojourn in California, where they went in the hope of benefiting the latter's health. Most of the time was spent in Long Beach, although they bought a residence in Englewood near Los Angeles. Mr. Lyons says the streets of Wayne do not look like California, where they have miles of smooth paving.—Mr. S. E. Auker was at the train the morning Mr. Lyons and daughter started for home. Mr. Auker expects to leave for Wayne soon.

**Mr. and Mrs. Ley Return.**  
Mr. and Mrs. Henry Ley arrived home Friday evening from Long Beach, Cal., where they spent a pleasant winter. Mrs. Ley, whose health was very poor when he left Wayne, is much improved. His wife says he thought nothing of taking a three-mile walk. A month

after they were at Long Beach they bought a new bungalow and are planning to spend each winter there. The first day they moved into their new home, thirty-two Wayne people gave them a house-warming, and presented them with a beautiful chair. Mr. and Mrs. A. J. Ferguson expect to start for home the first of May, and Mrs. C. A. Chace will leave for Wayne next Monday. The Larson family will remain until after the public school is closed, sometime in June.—Mr. and Mrs. C. J. Lund have bought a fine new automobile, but have decided to leave it in California and use it when they return there next fall. They expected to leave for Wayne the middle of this week. Mr. and Mrs. Ley visited Mr. and Mrs. W. L. Cunningham and daughter Virginia. Mrs. Ley says they built one of the finest homes in Hollywood. It is of colonial architecture, and modern in every detail.

The Yeoman box social was a great success at Carroll Friday, April 11, and was so well attended that many who came could not get into the hall at all because of the crowd.

About twenty-five Yeomen and friends from Wayne were there and a splendid time was had. The total proceeds from the sale of the boxes were \$91.50 and the total expense of putting on the program was \$28, which left a balance of \$63.50. This amount was divided equally between the new Carroll homestead and the Wayne Homestead. The new Carroll Homestead will organize and elect officers this week.

All members of the Wayne Homestead are asked to be present at the meeting Friday night, April 18, as this is our regular meeting night and will be an important meeting. So come and bring the names of your friends who desire to become members for there are not many days left of the campaign, but there is still opportunity to win the grand prizes.

Paving Prospects Bright.

The prospects for paving Main Street in Carroll look bright. The petition which was circulated last week among property owners, was signed by two-thirds which means that the majority are in favor of the improvement. The next step will be to get an engineer and survey the street.

Death of Cy Sinton.  
(By the Pastor.)

Cyrus Clarence Sinton was born at Winfield, Mo., on June 3, 1886, and died at Harper, Colo., on April 10, 1919, aged 32 years, 10 months, and 7 days.

His boyhood days were spent on a farm at Winfield, Mo., after which

he went to Hugo, Colo., where he spent a number of years on a ranch. He next moved to Carroll, Neb., where he was married to Miss Florence Bartels on September 30, 1914. This union was blessed by one child, Morton.

At Carroll Mr. Sinton was engaged in the grain and lumber business until he began to fall in health. In March, 1917, he went to Monte Vista, Colo., and later moved to Hooper, where he was employed by the Hooper Lumber and Hardware company of which firm he later became manager. He was a quiet and unassuming man, loved and revered by all who knew him. During the later years of his life he became a true convert, received the sacrament of holy baptism and died as a Christian.

Grammar Room.

Good Incomes and Good Times.

Lincoln Journal: Business men are beginning to think of the business prosperity to result from the buying power of the farmers which will come from a bumper crop of \$2 wheat. That is a point of view too little understood. Good incomes for farmers and laborers inevitably result in good times for business. Business panics have been known to result in the past where nobody had money or credit with which to buy what business had to sell.

Inspiration.

Helen Rowland: The most successful men are not those who have been inspired with a vision to rise up to a noble woman's ideal; but those who have persisted in the effort to satisfy some foolish woman's whims.

Quite Important.

Omaha World-Herald: It is indeed very important in Mexico to make sure that a rebel chieftain reported dead, is really so.

# Greater Telephone Revenues Are Required

## High Costs Have Increased Operating Expenses

Since the European war began there has been a steady increase in the price of nearly everything we use. There has been a corresponding increase in telephone rates.

In order to meet the high cost of telephone operation, a revenue in just proportion to the expense must be obtained.

The necessity for more telephone revenue is easily understood.

The cost of telephone operation has steadily advanced both because of the increased cost of material to the telephone company and the increased living expenses of employees.

The consumer has realized the necessity of paying more for rent, for food, for clothing and for transportation. The telephone industry has been affected by the same conditions which have produced higher prices in all of the necessities of life.

If this company is to continue to furnish telephone service to the public and obtain such rates as will produce a revenue sufficient to cover the cost of providing the service.

A very pleasant time was spent in games and conversation. A picnic basket was served from the baskets the guests had brought with them.

**Alfred** A Birthday Party—Forty friends gathered at the home of Grandma Haas, a resident for thirty-one years in Wakefield, Friday afternoon to celebrate her anniversary—ninth birthday. After spending a few hours in visiting an elaborate lunch which the guests carried with them was served. A large birthday angel food cake, baked by Mrs. Ethel Hunter, dignified the feast of honor.

**Alfred** The Fifth Loan. Three reasons have been advanced why the fifth loan will be an easy one to accomplish in the first place, the banks have already advanced money for other loans, and the people must make up the loan so that the banks can go on doing business and lending money. All classes will subscribe, because it is going to be an exceedingly fine investment. The people also know that they have not paid the price that other countries have paid and they will be willing to sacrifice to do what must be done.

**Alfred** What we are paying for now is, of course, war materials, which were for all used. But it had a wonderful saving influence. The Germans knew that a steady stream of munitions was flowing across the sea and more being manufactured at home. Guns not fired had almost if not quite, as much effect as the guns fired. We won and we must pay.

**Alfred** Finally, the money from this loan will take care of our sick and

wounded boys. The success of the loan would be assured on that score alone, for we must do what is right by the men. Reconstruction of every form, from a four-year college course to a six-months training for shop work is offered and the soldier-student finishes he will come out an independent, self-reliant man, who can command good wages—Woman's Victory Loan Committee.

**Emil Weststrand Dies.** Emil Weststrand, a well-known farmer of this vicinity, died of lockjaw at the home of his mother, Mrs. C. P. Weststrand, four miles northwest of Wakefield, Sunday morning, April 13, at 2 o'clock. The deceased was whittling about six weeks ago when he sustained a strain of his hands. He removed the object and did not feel any effects from it until ten days before he died. Blood poisoning set in and lockjaw developed. The funeral was held at the Mission church in Wakefield Tuesday afternoon, conducted by Rev. C. J. Hahn. The body was laid to rest beside that of his father in the Wakefield cemetery.

Emil Weststrand was born in Red Oak, Ia., January 13, 1872, and died April 13, 1919, at the age of 47 years and 3 months. About thirty-five years ago he moved to Wakefield. He lived in town for ten years, and then made his home with his parents over twenty years on the farm where he died. He was well known, both in Wakefield and the surrounding country. Besides his mother, he leaves two sisters, Mrs. Leonard Olson and Mrs. Nora Weststrand, and two brothers, Carl Weststrand and John Weststrand, who returned recently from overseas. He also leaves a son, Carl Weststrand, and one half-sister, Mrs. Swan, of Wausa.

The bereaved relatives have the deepest sympathy of many friends.

**THE CIVIL CODE BILL.** The Lincoln Journal defends the civil code bill as one that "does not increase the governor's power by a hair's breadth" but "merely reorganizes departments, already under his control." The Journal insists that the proposed "civil laws" will not confer automatic powers, concluding with these observations: "That is what we propose in the field of government, when we insist upon enmeshing our hired men, of whom are under control of laws made and elections of our own making, in a web of official responsibility to keep them from becoming 'auto-

### Put the Tractor to Work THE TITAN 10-20

Is Superior to Other Tractors in the Following Respects:

#### DOUBLE CHAIN DRIVE

Power is transmitted to the rear wheels through chains and sprockets. This gives a very serviceable drive for the tractor for many reasons. It is easier to keep it in alignment than a gear drive, and if slightly out of alignment it will work well, whereas gears would wear out rapidly under such conditions. Repairs for a chain drive cost much less than for a gear drive. Repairs to a chain are trifling matters should they be necessary, and much less expensive than repairs to gears.

#### AMPLE COOLING CAPACITY

The engine is cooled by water circulating from a tank having a capacity of 40 gallons which is a sufficient supply for long runs without refilling.

This engine has been built from start to finish to operate on low priced kerosene (coal oil), or distillate. It is not a one-time gasoline engine built over to burn kerosene. It does more than burn it, more than to simply run on kerosene. It delivers its full rated horse power and does any kind of work within its capacity on any kind of oil fuel above 55 degrees Baumé gravity. This includes all of the oil fuels from gasoline down to low-grade kerosene or distillate, as it is usually called.

### AGRICULTURE NOTES

#### Infertile-Egg Campaign Begins.

While poultry raisers in the north are still busy in the midst of hatching season, the infertile-egg campaign has been begun in Florida by poultry extension men of the United States Department of Agriculture, working in co-operation with state agricultural colleges. The southern campaign began with the issue of the hatching season and will develop into a nation-wide movement. Just as soon as the last egg is required for incubation the rooster should be yarded apart from the hens or killed. Do not be careless about this, the specialists say, for eggs are infertile to keep in bad weather and hatch eggs keep longer.

#### Larger Acreage in Crops in 1918.

When this country entered the world commercial war, the increased production of food, urging the farmers of the country to plant every available acre. The food producers of the nation responded by planting over 11,000,000 acres more than had been planted during the year previous. The acreage of all crops during 1918, according to figures just tabulated by the Bureau of Crop Estimates, United States Department of Agriculture, was 362,738,000 as compared to 356,341,000 acres planted in 1917, and 344,793,000 acres planted in 1916. These figures are based on the average of all crops, wheat, oats, barley, rye, buckwheat, corn, potatoes, sweet potatoes, tobacco, flax, rice, hay, cotton, pea-

nuts, kafirs, beans, broom corn, hops, and cranberries, which crops comprised 96.6 per cent of all the crops grown in this country in 1918.

#### Selecting Superior Studs.

To select strains of potatoes which are best adapted for commercial production, the United States Department of Agriculture and cooperating state agencies are conducting extensive experiments in seed improvement. Trials are being made in Wisconsin, Minnesota, Iowa, Oregon, Washington, Maine, Louisiana, Texas, Oklahoma, and Arkansas. Several strains of the leading commercial varieties now grown in the north are under test, the purpose being to study them carefully under actual growing and harvest conditions in the field, and to select the best strain of seed for each commercial variety. The following year each strain will be grown on a larger scale. As the supply of seed stock permits, the seed is to be distributed among growers and seedmen, and in this way is to be gradually popularized and disseminated. This investigation will be of country-wide significance in improving the future stocks of seed potatoes.

#### Demand for Canned Canned Products.

Some of the canning-crop girls organized by the demonstration agents of the United States Department of Agriculture and state agricultural colleges utilize their canning knowledge only to provide the family table with plenty

of fruit and vegetables. The larger number, however, not only practice what they have learned for the benefit of their families, but increase their incomes by marketing the surplus. The agents who have helped during the canning later assist in the marketing of the products. The uniform excellence of the A-H brand makes it a comparatively easy task to keep a customer once he has used the product. The agents in deeper reality. Miss Bee found a ready sale with a lumber company for the canned fruits and vegetables her girls made with 70.

#### One Day in March 5175 worth worth weighed, sold, and shipped to this company.

The demand is constant because the buyer reports that the club girls' canned goods are the best he has found on the market.

#### More Boys than Girls in Bread-Making.

Bread clubs conducted by the extension specialists of the United States Department of Agriculture and the state agricultural colleges, in Massachusetts, as well as in every other state, are popular projects for boys as well as girls. From the number enrolled in these clubs apparently the young people realize how necessary good bread is for health and enjoyment. Last year 18,338 young people in the "bread and club" learned the art of making bread. At Salem, Mass., seventy-eight applied for membership in the bread-making club—and strange as it may seem, more boys than girls applied. As a consequence two classes are being conducted for

the boys and one for the girls. Sixty hours of work, with a written report and an exhibit at the end of the contest, which closes April 15, are required. Besides bread making, the boys and girls are taught all kinds of household tasks which can be properly done by boys and girls from 10 to 18. Every member of the club who completes the course satisfactorily will receive a club achievement pin.

#### Last Week's Storm.

Norfolk Daily News, April 10.—Norfolk was out of the outside world by telephone. Thursday morning, snow and snow storms were in progress in many parts of the state; the shipment of livestock was annulled and at least one railroad line—the M. & O.—was tied up by snow drifts. Freight train No. 13, due in Norfolk at midnight, was hindered by a snow-drift east of Windsor and had been lost to the train dispatcher until late Thursday morning when the conductor of the train reported from Haskins to which place the locomotive was taken. A snow plow was sent to the rescue from Emerson. The Albin line of the Northwestern Road was also tied up and snow plows were sent there to clear the track.

#### Hundreds of Poles Down.

Sleet storms played havoc with wires belonging to the telephone company and hundreds of telephone poles were reported on the ground and many miles of wire were tangled. A spasmodic conversation was opened with Omaha dur-

ing the morning, but additional wind, sleet and snow again put the wires out of commission. A big storm was reported in progress in the South Platte country. Stockmen reported that livestock which has been on the range since Sunday has suffered terribly from the sleet and snow which clings to the hair of the animals.

#### Union Pacific Trains Behind.

Union Pacific trains were running somewhat behind time Sunday morning was shown by a railroad man over reports of blizzard-like weather around Oconee. Between that point and Rogers, over sixty telegraph poles were torn down by the sleet storm which preceded the snow. From West Point to Omaha similar conditions were reported by the telephone wire chief Thursday morning. Between Windsor and Sioux City more telegraph poles were cut and the sleet storm was said to have been quite severe. A heavy wind drifted the snow over the M. & O. tracks badly in this locality, and freight train No. 13 was absolutely lost when it hit the big snowdrift east of Windsor shortly after midnight. Dispatchers made frantic efforts to locate the train. Telegraph conversation between the dispatcher and the Norfolk operator regarding the lost train on Thursday morning was overheard by the Hopkins agent who announced the arrival of these of the crew with the locomotive of the lost freight train.

#### The trainmen had planned to take the freight cars out of the snow banks in sections, one by one. The

passenger train due to leave Norfolk at 7:30 Thursday morning was being held and the passenger train from Sioux City was to be sent eastward behind snow flows before an attempt would be made to send trains out of Norfolk again.

#### Reports in Northwestern railroad head-quarters indicated that train service on a crippled schedule was being maintained with the Black Hills country, although the telegraph service was still out of commission west of Chadron where a heavy northwest wind was blowing over the territory and about four inches of additional snow had fallen during the night. The Postpaid line was reported clear late Thursday morning.

#### Fear Heavy Cattle Loss.

Elsworth, Neb., April 30.—The loss to stock in the blizzard which began Sunday, it is feared will reach big figures, for there are many weak cattle owing to limited feed situation during the winter. This loss is greatly augmented by the loss of young calves born on the range without protection.

WASHOUT WRECKS MIDNIGHT FREIGHT

Engine and One Car of Steam Train Go Into Ditch Tuesday Night Near Hoskins.

TWELVE CATTLE KILLED

Engineer Lynch Jumps Into Stream to Save Crew from Drowning.

The eastbound freight train from Norfolk struck a washout during the storm Tuesday night two miles west of Hoskins, and the engine and a gasoline car turned over and went into the ditch. The wreck happened at 10:30 o'clock. In addition to the engine and gasoline car, twelve cars of cattle made up the train. The cattle were killed and the engine was damaged. The crew was rescued by the engineer, Lynch, who jumped into the stream to save them from drowning.

FORMER WAYNE MAN DIES

Henry Beckenauer Passes Away at Home in Aberdeen, Wash.

Henry Beckenauer, who moved with his family from Wayne to Aberdeen, Wash., thirteen years ago, died at his home there recently, according to the following newspaper report from that place: Henry Beckenauer died on Thursday night at the home of his son, Carl Beckenauer, following an illness of the week. Mr. Beckenauer was 82 years old at the time of his passing and had lived a useful and kind life which made him greatly beloved by his family and many friends.

Mr. Beckenauer is survived by his wife and five children: Mrs. W. H. Bower, of Sterling, Colo., who arrived in Friday; Mrs. E. J. Taggart, Messrs. Carl Arthur and Leo Beckenauer, all residents of Aberdeen; Mr. Beckenauer, who is at Aberdeen with his family thirteen years ago, removing from Nebraska to this city. Though feeble in health, Mr. Beckenauer had a very familiar figure, especially keeping up his association with the Presbyterian church, where he was for years an active member. He was one of the most highly respected of men.

The funeral will be held this morning at 10 o'clock from the Wayne undertaking home, with relatives and intimate friends to attend. Mr. Earl Ross will sing "The Holy City." The funeral service will be held at 1:30 p. m. at the home of Rev. Chas. T. Hard. The pall-bearers will be the members of the congregation. Burial and internment will be in Fern Hill cemetery.

ARBOR DAY OBSERVED

Stare Normal, Plunkett, Everett and Treace Normal Schools Boys.

Arbor day was observed at the Wayne Normal school, and at former students who fell in the fighting beyond seas. To each of the six who gave their lives to the country, a tree was planted. Professor O. R. Bowen presided at the gathering held on the campus at 4 o'clock. After the singing of hymns, the Rev. Dr. W. M. Coleman, and prayer by Rev. D. W. MacGregor, Dean Halme presided at the ceremony. The purpose of the day was to honor the men who were the costly sacrifice of these young lives. President Bowen spoke of the significance of the day to the young men themselves. The program was as follows: Ivan B. Lyons, Wayne, who attended the Normal during the winter of 1910-11; George Nelson, Jackson, Neb., who attended the winter of 1913-14; Anton C. Bastian, Wayne, who attended part of the winter of 1912-13; Lloyd Clifford Benschoff, Wayne, who attended winter terms for four years, 1909-10; Raymond C. Laune, Central, Neb., who attended the winter of 1911-12; Roy C. Reed, Windsor, Neb., who attended the Normal for two sessions and graduated in the class of 1916.

EASTER SUNDAY IN WAYNE

Abundant Weather Invites Introduction of New Growth.

The most respectable weather of the season was introduced on Easter Sunday with the great introduction of new growth and mild relief. People were resplendent in new toggery, and breathless in the sunnier hue and new chill of winter and belated spring. In the morning the churches had large congregations, and the spirit of the day was personated in the faces of worshippers. Sermons appropriate to Easter were the rule, and the hope of the resurrection was reported and repeated.

Congregational Meeting

The annual meeting of the Presbyterian church was held Monday evening at 7:30 o'clock. The purpose of the meeting was to get the opinions of the members in regard to tendering a call to Rev. J. A. Landis, D. D., to succeed the late pastor. The meeting was unanimously in favor of calling Mr. Landis to the pastorate of this church. The meeting was held at the Presbyterian church at Wakefield, presided at the meeting. Reports from the various departments of the church were given by the officers during the year. J. H. Kemp, chairman of the New Era committee, reported a successful campaign for the New Era building. The necessary money being raised by F. H. Jones and W. A. K. Neely, vice president, and W. M. Orr, re-elected trustees.

School Notes

Professor Lewis addressed the high school Thursday afternoon on the subject of political parties. The annual track and field meet of the Northeast Nebraska High School Athletic association will be held on Wednesday, May 15. The teams are expected to participate in the tournament. The medal events will take place. A gold medal will be awarded to the individual winning the highest number of points, and a silver cup to the school scoring highest.

FIGHTING-TANK COMING

TOMORROW AFTERNOON

Will Be in Wayne from 2:30, Afternoon. Until 10:30 at Night.

One of the government fighting tanks, turning north at Nebraska in the interest of the victory loan, will arrive in Wayne on a special train tomorrow afternoon at 2 o'clock, and will be the first of three units to be sent to Nebraska. The special train will consist of one motor car, one tank car and one Pullman. A tank crew and victory loan speakers will accompany the train. The train will come from an engine house in Norfolk.

It is pointed out that the tank will go on its own power. It will be unable to take on the road and will have to be pushed from the front line trenches in Europe during the late part of the war.

WILL SOON CALL SPECIAL ELECTION

Petition Containing Twice Number of Names Needed Now on File With City Council.

STORM SEWERS PROPOSED

Bond Issue of \$27,000 to Properly Take Care of Water Waste.

A petition asking the city council to call a special election to approve a proposition to issue \$27,000 in bonds to build a system of storm sewers, was circulated last Friday and in a brief time about double the requisite number of names had been secured. Only holders of real estate could sign the petition, but all were being secured as fast as they themselves at the election. Many more names of freetraders could have been secured by the city council.

While people are not yet ready to appreciate the importance of comprehensive drainage, they are beginning to appreciate the need of it. The city council is expected to call a special election to approve a proposition to issue \$27,000 in bonds to build a system of storm sewers.
