Chronic Constipation. Perhaps you have never thought of it, but this disorder is due to a lack of moisture in the residual matter of the food. If you will drink an abundance of water, eat raw fruits and use lots of outdoor exercise, you may be able eventually to overcome it entirely. In the meantime use the most mild and gentle laxatives. Strong and harsh cathartics take too much water out of the system and make a bad matter worse. Chamberlain's Tablets are easy and pleasant to take, and most agreeable in effect. Give them a trial. THREE RINGED CIRCUS IS COMING TO WAYNE

Yankee Robinson is to Show Here Tuesday, July 1.

A real three ringed circus is coming to town, with wise boys and girls trained, acrobats, jugglers, animal bear, seals and ocean animals, young acrobats with human stars and troops of clamor like those between the thrills.

The Yankee Robinson Wild Animal Circus which is coming to Wayne on Tuesday, July 1, is huge and grand and new enough to warrant the very highest of praise.

Everyone will laugh at the capering clowns, gasp at the feature acts and shudder at the sensations crowded together into two hours and a half.

The biggest and most daring of the wild animal acts is the performance of Capt. Jules with his mixed group of natural born jungle enemies including lions, tigers, jaguars, panthers and hyenas, less mercies may be, but almost as sensational as the trained camels and zebras. Just to do good measure to the performance it is interspersed with a score or more of high class stars of the acrobatic world.

Of course there are clowns and thirty of them will surely make you laugh, if you have one stored away in you. An athletic feature is one of the season's big attractions and it is headed by no less a personage than Young Hackenschmidt, world's champion middleweight wrestler who will meet all comers at each performance, forfeiting one hundred dollars to any man he cannot win a fall from in fifteen minutes.

Another show-wonderful program presented under the "big top" of the Yankee Robinson Circus will

give boundless pleasure to big and small.

Will Happen Here, Too.

Albion News. That community spirit, public and private enterprises is conspicuous is being illustrated at present in Albion. Since it was decided in the spring to have the first section paved, sentiment favorable to improvement along all lines has been growing until some are contending that Albion is on a "boom." Before actual work on the paving in District No. 4 was begun, there were petitions filed for paving the larger portion of the residence district. Large building projects have been started and others are under serious consideration. Numerous new residences are under contract, and desirable building lots are being secured in larger number than ever before in the history of the town. Additions to the town are being platted and prices for lots are rising to what would seem to be prohibitive figures. The spirit of improvement is being manifested by numerous additions and improvements to residence and business buildings. Numerous farmers desiring to retire from strenuous activities are buying properties in town, and the attractions of our enterprising city are drawing residents from other towns. As a matter of fact Albion is not up to the contributory county in point of development and there is no immediate danger of overbuilding in building or growth. Albion is the best town in a radius of fifty miles, and is destined to become a nice little city of at least five thousand. It is the ideal time to become a resident here, and share in the prosperity program presented under the "big top" of the community offers.

Willard STORAGE BATTERY SERVICE STATION

Neighbors

This is more than a place where you can get your battery charged.

It is more than a store where you can buy a new battery.

As we look at it we are neighbors of yours, and we want you to feel the same way about it. A good way to get acquainted is to drive around and have us test your battery with a hydrometer. If you like, we'll show you how to do it, and tell you the few simple rules that ought to be followed to keep the charge up to 1285, where it belongs.

If yours is a new car with a Willard Battery, be sure to drive in right away so that we can register the battery and give you the benefit of Willard 90-day battery insurance.

Wayne Storage Battery Co.
Second Street, West of Main, Wayne, Neb.

We test, repair and re-charge storage batteries, and always carry a full supply of battery parts, new batteries and rental batteries.

PUBLIC NOW TOLD ALL ABOUT TANLAC Authorities Now Show Just What This Medicine Really Is

In a recent issue of this paper an announcement was made that Tanlac now has the largest sale of any medicine of its kind in the world...

"These are unusual figures, and the question naturally arises in the mind of the reader why this phenomenal success and why has this medicine so far outstripped all other medicines of its kind...

In the first place, Tanlac is manufactured in one of the largest and most modern equipped laboratories in this country...

Many of the ingredients have been scientifically known and used since civilization first began, and some of them have been used and prescribed by leading physicians...

In referring to one of the more important medicines of Tanlac the Encyclopedia Britanica says: "It has long been a source of the most valuable tonic medicines that have ever been known or used."

In discussing another ingredient the Encyclopedia Britanica says: "It is one of the most efficient of that class and is used in many cases as a tonic to the stomach..."

In discussing another ingredient the Encyclopedia Britanica says: "It is one of the most efficient of that class and is used in many cases as a tonic to the stomach..."

The United States dispensary where a general tonic is prescribed regarding another ingredient: "It may be used in all cases of pure indigestion of the digestive organs..."

There are certain other ingredients described in the dispensary and in other standard medical text books as having a beneficial action upon the organs of secretion...

Tanlac was designed primarily for the correction of disorders of the stomach, but it is equally effective at the same time, however, it is a powerful reconstructive tonic and body builder...

Although Tanlac's claims for support are abundantly supported by the people themselves who have readily made Tanlac what it is, millions have used it and have told other millions what it has done for them...

Tanlac has become the real sensation in this Herold in this country and that is also why it is the most widely talked of medicine in this country today.

New Rates Established for Long Distance Calls

Charges Quoted are Based on Different Kinds of Service Provided

This company has put into effect retroactive to May 21, new regulations governing charges for long distance telephone calls.

These regulations are the same as have been in effect for interstate telephone calls since January 21. They have not been put in force before because only recently the United States Supreme Court fixed the authority for making telephone rates within the state.

The principal change from the former method of determining long distance telephone rates is that instead of one class of service there are several, each with a different rate.

For example, there is to be one rate for "station to station" calls when anyone at a certain telephone is wanted, another rate for "person to person" calls when a definite party is desired, another for "appointment" calls, for night calls, and so on.

Basis of Rates.

The basis of all charges on long distance telephone calls is the "station to station" rate. This is determined by the air line distance between towns. The rate is computed for the initial period of conversation on the basis of 5 cents for each six miles up to 24 miles and 5 cents for each eight miles beyond that distance.

"Station to Station" Service

The "station to station" rate applies when the calling party does not ask to talk to a particular person at the telephone designated, but merely to anyone who answers the telephone. The word "station" as used here means "telephone," the service being a telephone to telephone method.

"Station to station" calls must be made either by giving the telephone number, wanted or the name or address under which the telephone is listed. If the calling party states that he wishes to talk to a definite person, the "person to person" rate, which is higher, is charged. Charges for "station to station" calls cannot be reversed, that is, they cannot be charged to the telephone called.

The "station to station" service is the cheapest and quickest form of long distance communication. It is furnished at a lower rate than other classes of service because it requires less work on the part of the long distance operators and "ties up" the wires for a shorter period than when a particular party must be summoned to the telephone.

"Person to Person" Service.

When a toll call is made, specifying that conversation is desired with a particular person and the connection is established and conversation held with that person, the "person to person" rate applies.

As this service requires a greater amount of operating effort and holds the wires for a longer period than "station to station" calls because a particular party must be brought to the telephone, before a conversation is held, the rate for such calls is about one-fourth greater than the "station to station" rate.

"Appointment" Rate

When the calling party in placing his call appoints a definite specified time at which he will talk on a "person to person" basis and the conversation is held accordingly, the "appointment" rate applies.

The "appointment" rate is about one-half greater than the "station to station" rate.

"Messenger" Calls

When a call is made on a "person to person" basis and a messenger is required to secure attendance of the designated person at a public pay station at the distant point, the "messenger call" rate applies.

This rate is the same as the "appointment" rate for the same distance, plus any charge for messenger service.

Messenger charges incurred are to be paid even though the desired conversation is not held.

"Report Charge"

The "report charge" applies when a "person to person" call, an "appointment" call or a "messenger" call is made and the particular person desired is not in or will not talk, or when the right telephone address of the particular person desired has not been given and he cannot be reached at a telephone within one hour.

Such a charge also applies if the calling party is absent when the connection is completed within one hour, or if he refuses to talk.

The cost of handling a call where we are unable to locate the party called, is nearly as great as when the person is found and the conversation is held. The "report charge" covers a portion of this expense.

The rate for a report charge is about one-fourth the "station to station" rate.

"Collect Calls"

"Collect calls" are calls for which the charges are reversed, that is, are to be collected from the subscriber at the distant station at which the call is completed.

"Collect calls," or reversed charges, are not allowed in conjunction with "station to station" calls but are with other classes of service.

Standard Toll Night Rates.

The following rates are charged for night service on a "station to station" basis. Night rates do not apply to other classes of service:

8:30 p. m. to 12 midnight—About one-half of the "station to station" day rate.

12:00 midnight to 4:30 a. m.—About one-quarter of the "station to station" day rate.

The minimum night rate is 25 cents. Day rates apply on calls made at night when the "station to station" charge is less than the minimum night rate.

Example Showing How the Method is Applied.

Following are examples for a call about 150 miles distant:	Report charge	\$.25
"Station to station" rate \$3.00	Rate between 8:30 p. m. and 12 midnight, "station to station" service only	50
Completed "person to person" rate	1.25	
Completed "appointment" rate	1.50	
Completed "messenger call" rate	1.50	
Plus messenger charges.		
Rate between 12 midnight and 4:30 a. m. "station to station" service only	25	

The lowest "person to person" rate quoted is 15 cents, the minimum "appointment" rate is 20 cents, the minimum "messenger call" rate is 20 cents and the minimum "report charge" is 5 cents. On "station to station" calls, where the rate is 25 cents or less, an initial talking period of 5 minutes is permitted without extra charge. Where the rate is higher the initial period is 3 minutes. On "person to person" calls, "appointment" calls and "messenger" calls the initial talking period is 5 minutes.

The rates for any class of service may be obtained from the long distance operator.

THE EARLY DAYS IN TWO COUNTIES

Early days from the Wayne Herald, June 25, 1903.

A son was born, June 27, to Mr. and Mrs. William Fout—southeast of Wayne.

Prof. H. E. Mason of Stanton visited his parents, Mr. and Mrs. J. W. Vasey in Wayne.

Miss Mabel Griffith who attended college in Boston, arrived home to spend the summer.

A piano recital was given at the court house by Prof. Dilworth, assisted by Miss Cunningham.

D. C. Main, Henry Ley, H. F. Wilson and B. E. Sward attended the bankers' meeting in Sioux City.

G. R. Williams of Omaha, visited his brother, J. J. Williams in Wayne. The former was on his way to Randolph.

Mr. and Mrs. George McElroy of Vinton, visited the former's sister, Mrs. D. C. Main and family in Wayne.

Charles Culler was appointed a clerk in the railway-service and went to Sioux City to report to the chief clerk.

Miss Reynolds returned to Fullerton after a two weeks' visit with relatives and friends in Wayne and vicinity.

Miss Mildred Goshorn of Kalspell, Mont., visited her aunts, Mrs. Northrup and Mrs. Ringland in Wayne.

Miss Jessie Tucker who had been attending college at Mount Vernon, Ia., is spending the summer vacation at home.

Mrs. Ted Perry entertained several young people in honor of Louise Glass of Chicago, a niece of Mrs. P. M. Corbett.

Mrs. W. O. Gamble entertained a crowd of young people in honor of her nieces and Miss Grace Baker who were visiting her.

Mr. and Mrs. James Hayes, Mrs. W. A. Love and Miss Cook went to Graig to attend the funeral of their brother-in-law, Mr. Fry.

Misses Gertrude and Hattie Weber arrived home from Omaha where the latter had been receiving instruction in vocal music.

Mrs. Robert McElroy assisted by Mrs. H. S. Ringland gave a party in honor of the former's sister, Mrs. Queen, and the latter's niece, Miss Mildred Goshorn, of Kalspell, Mont.

A fence has been placed around the city property at the electric light and water work plant and the task of sinking thirty wells was begun. These wells will be 17 feet deep and 8 feet apart.

From the Ponca Journal, July 5, 1883:

On Sunday we noticed a large number who were trying to worry a tedious and lonesome day by sitting on dry goods boxes in front of stores, whittling, talking, and meeting. If this town had a free reading room and a public library everything would be different.

J. E. Bennett while engaged in moving a building in Wayne county a few days ago, was so unfortunate as to get his foot under one of the rollers, which passed over a guttering it badly. He is now at home and it will be several days before he will be able to be around again.

It happens that the railroad lines entering Cedar county this year should come together near the center of the county, we might expect to see a big town built up. The coming new town probably will be in the neighborhood of Paragon Mills.

After all the talk and speculation as to the route over which the railroad will be extended, it will not reflect the sagacious determination of the railroad company which will probably go, when the matter comes to the scratch, along the route where it will pay the best.

A couple of red-mouthed pumpkin-rollers, who were, as they expressed it, "fuller nor wagon," made the earth wobble on its axis yesterday by a little punning match in which they engaged for the space of half an hour. Both parties breathed freely at last accounts.

Notice of Sheriff's Sale.

Notice is hereby given that by virtue of an order of sale issued by W. M. Cherry, county judge of Wayne county, Nebraska, in an action pending in said court, wherein the State of Nebraska is plaintiff and John Nugent is defendant, and to me directed, I will at 10 o'clock, a. m. on the 9th day of July, A. D. 1919, at the south front door of the court house in Wayne county, Nebraska, offer for sale at public vendue for cash a certain Ford automobile, engine number 25629, license number 281650, Iowa.

Dated June 20, 1919.

CARL MADSEN COMES HOME

Under Treatment Since Nov. 9 for Wounds Received in War.

Carl Madsen who is still suffering from wounds received in battle in France November 9, two days before the armistice was signed, arrived home Tuesday morning from Fort Detrick, Nebraska, accompanied by his two sisters, Miss Eugenia Madsen and Miss Clara Madsen, who went to Des Moines last week, Carl is feeling better, and it is believed home association will hasten recovery.

Carl enlisted in the service March 24, 1918, and landed overseas June 24. He took part in the St. Mihiel and Meuse-Argonne offensives, and he was in the thick of the fight until struck by a piece of shrapnel which penetrated one of his lungs. He was taken to a hospital, and his condition has often been serious. He landed in New York March 12 and was taken to Camp Dodge. Two weeks later he was transferred to Fort Des Moines.

His many friends are pleased to see him again, and glad to know the condition of his health is steadily improving.

Must Serve Time

Lincoln, Neb., June 23.—Arthur J. Koestgen, county attorney of Madison county, notified accepted bribes from a Norfolk resort keeper twice in district court of that county and granted a new trial in the supreme court once, must serve his sentence. The state supreme court today found no error in the last trial at which he was convicted. Koestgen was found guilty by a jury in Norfolk October 3, 1915, of having for four successive months, beginning September 30, 1914, while county attorney, accepted \$75 from Nannie Myers, an alleged resort keeper. The total was alleged in this case to be \$300.

In addition to the pecuniary sentence the court found that he should pay the costs of the criminal suit, which amounted to \$396.65.

The defense in appeal vigorously attacked a special jury panel, which was drawn expressly for the trial of Koestgen on the charge of which he was convicted.

A regular panel had acquitted the former county attorney on a similar charge, involving Fern McDonald, another alleged resort keeper. The same witnesses and the same

prosecution had been used in the Myers prosecution, following immediately afterward, which resulted in a conviction. The defense sought to establish error for the reason that the judge sitting on the case which admitted the same evidence as in the trial on the McDonald charge refused to admit as evidence the jury acquitted.

Alleged Gambler Caught. John Wright who suddenly disappeared on hearing that a warrant had been issued for his arrest on a charge of gambling, was nabbed by the sheriff here Monday night. Taken before the county judge, he waived examination and was bound over to the district court with bond in the sum of \$500, which he furnished in cash.

N. C. 4 "WILLARD EQUIPPED" ON FIRST TRANS-ATLANTIC FLIGHT

All Three Navy Planes Use Willard Batteries on Big Jump.

"Our engines worked perfectly," said Commander Read of the N. C. 4. The N. C. 4 carried Willard Batteries. On the long jump, high in the air above the fog the Willard Storage Batteries functioned perfectly, never a miss or a skip.

Ten Willard Batteries, with three lead rubber insulation, were on the N. C. 4 as she blazed the new trail and made history. Four batteries were in use and six were held in reserve and never needed.

Absolute dependability and constant performance were essential—Willard Batteries were chosen, and lived up to their reputation. Every unit on the N. C. flying boat had to pass a thorough inspection and rigid test before it was used. Willard Batteries were not chosen on reputation alone—they were selected because they earned and continued to earn that reputation.

Everyone is talking about the wonderful feat of the N. C. 4 and we are proud of the part that Willard Batteries played in it. The fleet of seven air planes now flying from Dallas to Boston, are Willard equipped.

IS CONFERENCE CENTER

First Annual Life Conference Begins Next Sunday.

Some months ago a group of Wayne young women became greatly interested in reading in leading religious journals. At the Sunday School Times and Record of Christian Work, the report interdenominational world movements of the week, and the beginning of a spirit unite through the great English conferences held in Keswick, India, Toronto, Canada, and Princeton, N. J. Rev. E. Campbell, Morgan of England, Charles Gallander Trumbull of the United States, and Dr. W. H. Griffith Thomas of Mysore College, Toronto, Canada, being among the leading promoters of the movement. Hearing of the wide and gracious influence of these vigorous life conferences, weaver began to ascend that such a conference might be held in Wayne and finally correspondence was opened with H. B. Dwidwille of New York, secretary of the conference board. Some of the western and central cities were making urgent calls and it seemed to the board to be the mind of the Lord to extend the work to the middle west, and in response to pressing invitation, Mr. Dwidwille paid a visit to Wayne, came into the group of praying folk and returned to place a conference here, mainly with leading bible expositors and preachers for one week, June 29 to July 6. Those most interested are not considering the difficult road, because of the hot weather, the busy season, the celebration time—but are looking to God who has opened the hearts of the most true to wonderful truths of the Word—men of power, and they are coming to Wayne with the pledge of one cent of money to meet defray expenses. These conference sessions will be held in the Methodist church through the week, beginning next Sunday. It is expected that one of the conference speakers, Dr. Stearns, Professor of Theology in Scotland, will fill the pulpit of the Presbyterian church Sunday morning at 10:30. Sunday afternoon at 8 o'clock the great mass meeting at the Methodist church and again at night at the usual hour of service.

CLUE TO BUY OPERA HOUSE

Women Decide to Make Investment for Community House

At the meeting of the Wayne Women's club in the city hall Saturday afternoon, it was decided by a vote of 12 to 1 to purchase an opera house, and in time put up a new modern building for a community house. Funds for the enterprise will be raised in different ways. Among entertainments to secure funds will be one by Miss Frances and Miss Fern Omer, singers, and a reader, and one by Miss Ardath Conn.

At Saturday's meeting Mrs. T. T. Jones sang "I Love of the World Is Mine," responding to an encore with "A Little Bit of Ireland." She was accompanied on the piano by Mrs. James Miller.

Miss Belva Nickell gave a talk on "School Gardens." She said there were forty-two in the garden city and twenty-one in other parts. The group is called the Wayne Workers Club.

Mrs. Magdalene Bartley talked on "Food." She said women were turning attention from housekeeping to housekeeping. They are studying food ways, and are also studying improving conditions of health. She mentioned "vitamins" as an important food property. Its value for life was recently discovered.

Mrs. T. T. Jones sang "The Old Maid Show" and the "Floral Offering."

Dr. J. T. House spoke on "Community Life." He mentioned the importance of a wholesome spirit in the health, mental and social life. Women are potent factors in seeing that things are run right. He believes in communitarianism. He spoke of the future public discussion. He thinks investigation leads to improvement.

On account of the Fourth, it was decided to cancel the meeting which would come July 5.

HOSKINS BOY IS DROWNED

With Companions, He Was Swimming in Lake Near Norfolk

Norfolk Daily News, June 23.—Ivan Radetz, 19 years old of Hoskins, Neb., died in the home of Carl Haase, living in the north part of the city Sunday evening after two physicians worked over him for several hours. He was pulled out of a lake on the William Wagner farm southeast of Norfolk, where three other companions went to swim. Radetz was unable to swim and went down three times when he was noticed by his comrades who pulled him out with considerable difficulty. The bursting of a blood vessel is believed to have caused his death after he had been resuscitated.

At one time the life of one of his companions was in danger when the drowning man pulled his rescuer in to the water with him. After dragging Radetz to the shore his companions tied his feet to the limb of a tree and after working over him for some time brought him back to life. The police department, with the city's pulmonologist on the scene after Radetz was taken down from the tree, finding him alive the police rushed him to the Carl Haase home where he had been visiting. The boy never regained consciousness and the two doctors who worked over him believed that his lungs were filled with sand. Death came about three hours after he had been taken from the water. The remains will be taken to Hoskins for burial.

Carl Hanson, 20-year-old Sunday was a day of many narrow escapes in the river and in some of the lakes about the city. A girl swimming with the boy got her wings in the Elkhorn river, near Mapes park was saved from drowning by Water Commissioner Carneck who pulled her from near death. Two other accidents had gone wrong with the water wings.

She had gone into the deep water and the strong current had taken her wings over her head. Carneck who was swimming in the vicinity saw her go down twice and saved her life. Two other accidents were reported during the day.

AGRICULTURE NOTES.

Plan Hog Development Program.
This year the workers in some husbandry of the United States department of agriculture, several state directors of extension work, and others, met last week with officials of the department. Plans were worked out for carrying on the extension work in developing hog production along more uniform lines than heretofore. Addresses were made by Dr. J. R. Mohler, chief of the bureau of animal industry; G. M. Roumell, chief of the division of animal husbandry; E. Z. Russell, in charge of swine investigations; Bradford Knapp, chief of extension work in the south; and E. S. Smith, chief of extension work in north and west. The workers spent a day at the department's experimental hog farm at Beltsville, Md., where judging contests and demonstrations of feeding and vaccination for cholera were held. All sides of the hog industry were discussed during the conference. Particular attention was given to the promotion of feeder animals to the south and the finishing of pork in the corn-belt states.

Plenty of Profit from Good Fowls.
The story of Reuben Lowe of North Shapleigh, Me., illustrates the possible profits from poultry keeping where careful management is practiced. During 1918 this poultryman, who devotes only part of his time to chicken raising, kept 250 birds, which paid him a profit over feed cost of more than \$1000 equivalent to \$4 a bird. Included in this amount are the sales of a few eggs for hatching, about thirty cockerels sold for breeding purposes at \$3.50 to \$5 each, as well as the market eggs, which were obtained in large quantity. Mr. Lowe keeps White Wyandottes of a strain that wins in the show ring when judged according to either the Standard of Perfection or a utility standard.

One pen of twenty pullets owned by this Maine poultry raiser produced eggs as follows: November, 1918, 413; December, 1918, 418; January, 1919, 380; February, 1919, 326; March, 1919, 456; a total of 1993 eggs, averaging 96.6 eggs per bird in five months.

It pays to keep poultry of this kind, and growers everywhere are coming to realize that there is much money in keeping better fowl and feeding them properly balanced rations than in wasting time with inferior birds.

An Iceless Cooler for Porks.
Put the hogs in the "cooler" during the hot days—not as punishment, but to keep the heat from reducing daily gains in pork.

From a demonstration agents of the United States department of agriculture and the state colleges have been demonstrating the iceless refrigerator, and these handy coolers are becoming very popular. The swine-extension man in Mississippi who is working in co-operation with the federal department, is planning to put into practice the same principle used in the iceless refrigerator to keep hogs cool in summer. The iceless refrigerator is made by enclosing a frame in cotton flannel, burlap, or duck. A pan of water is placed on top and water is extended down the water over the side of the pan and down the sides of the flannel. The evaporation of the moisture in the wicks keeps the refrigerator cool. In applying this principle in the hog lot a frame will be built to provide shade for the hogs and large burlap wicks will extend down the sides from containers which are placed on top and are filled with water. It is expected that the iceless refrigerator will keep the hogs cool and thus enable them to make more economical gains during the summer months.

Heat Causes Losses to Shipped Hogs.
Last May 651 hogs, weighing approximately 157,000 pounds, were unloaded dead or died in the stockyards at the South St. Paul market, the loss to shippers of about \$18,360. This loss, says the bureau of markets, might have been largely avoided had the shippers had in proper care in loading, seeing that all cars were properly cleaned before loading, and that cars were not loaded so heavily at the custom in cooler weather. If these hogs had been loaded in clean cars the losses could have been further decreased by having them sprayed with lime in transit by the carrier, especially upon arrival at transfer points, and also upon delivery to the terminus.

One of the largest buyers of hogs at the South St. Paul market, who reships to other markets for slaughter, states that the losses were not so heavy at the time in May were no heavier than usual, but that they were extremely careful to have their cars thoroughly cleaned and sanded before loading, in addition to loading lighter than usual and taking the adequate precaution of requesting the railroad officials to issue instructions to have the hogs sprayed as often as possible in transit.

Soils of Wayne County.

Washington, D. C., June 23.—To determine the nature of soil types in Wayne county, Nebraska, in order that local farmers may be assisted in fitting crops to soils to best advantage, the bureau of soils of the United States department of agriculture in co-operation with the University of Nebraska, has made a soil survey of the county. The report of the survey published by the department contains a colored soil map of the county, which shows the location and distribution of the various soil types and on which the approximate locations of farms may be found. It contains 50 pages of text describing the various soils and discussing their capabilities. The report also includes a brief historical and geographical sketch of the region surveyed, together with statistics relating to its climate and present farm practices. The soils of Wayne county are separated into 12 groups, which are subdivided into nine soil types.

The cropping systems employed in the county, according to the report, are not, in general, well designed to maintain the productivity of the soils. There is a general need for growing legumes more extensively in the rotation, and for more attention to systems of green manuring to increase the organic matter supply. Although good yields of crops are obtained under the prevailing methods, the average production is below that which might reasonably be expected from soils inherently so productive and so well suited to such crops as alfalfa and clover. All the soils seem to be high in lime content. Copies of the report may be had on application to the U. S. Department of Agriculture, Washington, D. C.

Church Reception.
A reception for the new pastor of the Presbyterian church, Rev. J. W. Beard, and family, together with a picnic supper, was held at the Presbyterian church last Thursday evening. Plans had been made to have the supper on the lawn under the trees, but on account of the rain the tables were arranged in the church. A table had been reserved for the invited guests. The rooms looked very pretty, having been decorated with an abundance of summer flowers. The tables were loaded with good things to eat. Mrs. C. M. Craven and committee had charge. After the supper, A. R. Davis gave a very fine and very welcome and a quartet gave several songs and a very good time was had by all these here.

A Real Musical Treat.
Don't forget the big musical treat Friday evening, June 27, at the opera house given by Miss Fern and Miss Frances Oman, assisted by Miss Irma Wolfe of Albion, Neb.

Miss Fern Oman has a very sweet voice and her tones are very clear. Her whistling is wonderful.

Miss Frances Oman also has a lovely voice. The expression and variety in her style of music make it very attractive and entertaining.

Mr. and Mrs. Oman who are also known for their musical talent have consented to sing.

Miss Irma Wolfe of Albion, Neb., is a well known reader and impersonator from the dramatic department at the state university at Lincoln.

New Country Home.
H. L. Harmer, near one mile east and one mile north of Carroll, is erecting a fine new ten-room residence on his farm. The building is full two stories with basement. It is equipped with a complete plumbing system as well as hot air heating system and electric lights. A large porch on the south side of the house, extending on the west side, adds greatly to the appearance of the exterior. The porch pillars are made of pressed brick. A balcony upstairs on the east side adds greatly to this fine home. The Harmers expected to move into their home the first of July, but on account of a strike among the mill workers, work has been delayed. Seastedt Brothers of Carroll are the contractors.

Fine Country Home.
A fine new country home is being built on the Verde. The tower farm one mile north of the Wayne county line in Cedar county. The building is two stories and is modern throughout. A pipeless furnace is installed and a complete system of plumbing. A garage is built in connection with the first of July. The tower and family will have one of the best country homes in Cedar county when it is completed.

UNSHAKEN TESTIMONY.

Time is the test of truth. And Dean's Kidney Pills have stood the test in Wayne. No Wayne resident who suffers backache, or annoying urinary ills can remain unconvinced of this twice-told testimony.

Mrs. H. Hoshaw, Wayne, says: "I was confined to bed several weeks with a severe attack of grip. Upon recovering I found my kidneys had become weakened. I was a great sufferer from sharp pains across the small of my back, and sometimes through my loins. My head throbbed for hours at a time and I could not rest at all at night. After taking Dean's Kidney Pills a few days, the backache left me and my kidneys were strengthened. In three weeks all symptoms of kidney trouble had disappeared."

Mrs. Hoshaw gave the above statement in August, 1916, and on July 15, 1916, she added: "I keep Dean's Kidney Pills on hand all the time, getting them at Felber's Pharmacy. They keep me in good health by driving away any signs of kidney trouble I may have."

Prices Submerged.

Sioux City Journal: For the first time since the declaration of war in April, 1917, the demand for production of supplies for domestic purposes has submerged all thought of prices. This condition, which has been developing for some time, became pronounced during the week. The question of prices no longer dominates industry, but when the commodities can be delivered, either the producer is adjusting itself to a new basis or high wages and prices have created a selling opportunity which trade will not ignore. If the former suggestion is right, the new value of the dollar is fairly well established and business will be forced to readjust itself to that value. Prices which were fair and which produced a remunerative income in 1917 will have to be raised to the current value of the unit of trade. Business will settle on this basis, which may be expected to prevail for a considerable period of time. If the increased demands for goods irrespective of cost are due to inflated or abnormal wages and incomes, business cannot adjust itself to the standard thus established with confidence or assurance of permanency. But the evidence points with considerable strength towards a new adjustment and the readjustment of the long discussed stabilization of business.

While the increased demands cover the entire country, which in its turn has resulted in increased employment of labor. The development is not sufficiently wide to establish the consumption of a great era of industrial prosperity, but it is wide enough to assure a decided improvement over the past.

As the harvest approaches, the prospects of large wheat crops become more certain. In the agricultural regions except for local exceptions, the view is optimistic. The possibility of a bumper crop in the wheat areas has become a probability. The buying power of the agricultural regions is a stabilizer on future orders in the wholesale world. Money, it is figured will be cheaper than it has been though call loans occasionally soar skyward in the money centers.

Suspensions of "Dick"

Waterfront Public Opinion: By the way R. O. Richards, of Huron, is spending his money to defeat the prohibition law in this state, especially the "search and seizure" feature, one might conclude Dick has a few high-grade hid-aways, the possible discovery of which is giving him his nightmare.

Hobson Discovered It

Minneapolis Journal: Sergeant York says that this hero worship is one of the devil's snares. Congressman Hobson of Alabama, could have told him that twenty years ago.

Who Knows?

New York World: It comes as two months ago that the president will be able to return week after next.

Still Marriages Increase

Sioux Falls Argus Leader: The shortage in houses has not yet reacted against the marriage license business. Evidently, the newly weds intend to board.

Partial Justice

Omaha World-Herald: If von Bismarck should lead the German delegation in signing the treaty there would be some poetic justice in the fact.

A Thing of the Past

Lesterville Ledger: Judging from the present price of hogs, there isn't going to be any cheap corn in this country for some time to come.

Any Text Will Do

Springfield, Mass., Republican: Why trouble about the genuineness of the copy of the treaty? Any text will serve for an attack on the president.

A Home or an Investment

Why pay rent when you can buy a farm of your own just as productive as the one you now rent?

These days you will never save enough to buy the farm you rent. Even if you could you would only be enriching the man who bought the land when it sold at about the price land is selling in Colorado now.

Your landlord did not get rich buying \$200 land; he bought when it was cheap.

You have the same opportunity in Kit Carson county, near Burlington. Just now land is selling at \$30 and up per acre, according to location and improvements.

organization. Officers for the year were elected as follows: President, Miss Anna Nyberg; vice-president, Elfrida Nuernberg; and secretary and treasurer, Mauritz Carlson.

The latter part of the evening was spent in games and a general good time. The crowd was divided into groups representing the Hartington, Emerson, Fenner, and Wakefield schools. Contests took place and all had a jolly time.

Men's Banquet.—The men of the Presbyterian congregation met in the basement of the church last Thursday evening at 6 o'clock and enjoyed a banquet prepared by the members of the Ladies' Aid society. Thirty-five were seated at the dining table. Immediately following supper, Rev. Mr. Orr, acting town minister, called on George Lundberg of Eugene, Ore., who was visiting old friends here. Dr. W. Horton and J. D. Haskell, each of whom responded with toasts. Mr. Lundberg, who was a resident of Wakefield twenty-five years ago, gave a very interesting talk on the country where he now lives. Rev. T. W. Beard of Wayne who expressed to give the main talk of the evening, was unable to be present on account of the muddy roads.

Swedish Lutheran Church. (Rev. E. G. Knock, Pastor.)
The Ladies' Aid society of the town district is meeting this afternoon with Mrs. Neils Larsen.

At the assistance of E. J. Jensen, a sweet tenor vocalist from Nebraska Wesleyan university conservatory of music, as well as that of Mrs. Anna King Sunday.

All services will be held at the usual hours next Sunday. We are trying to reach a mark in the Sunday school, an extra amount reached if all our members will turn out together once. Let's try it on Sunday morning.

Methodists "Over the Top."
The latest word in regard to the Methodist movement of the Methodist Episcopal church is that the Norfolk district of the Wakefield conference, in which district Wakefield is situated, has taken the top with her appropriation of \$242,000 all subscribed, and that she is going on for a large over-subscription of \$100,000, of which \$50,000, a year, an extra amount to next missions in the same time, and \$25,000,000 to war reconstruction at the rate of \$50,000,000 for the next five years.

dist-church equipped to do mightier mission work than even her best of the days-gone-by.

The unique celebration of a hundred years missionary work is now taking place at Columbus, O., where tens of thousands of Methodists from all-over the world are gathered, and where exhibits of all kinds are going on from June 21 to July 15, on a scale never before known in connection with this great missionary church.

St. Paul Pioneer Press: Burlington is termed a standing menace by a fellow democrat. This is at least one degree less horrible than to be called a standing joke.

Enough Signers Assured.
Lincoln, Neb., June 24.—With practically four full weeks remaining before it will be necessary to file the referendum petition on the governor's code bill, in order to put it up to the voters at the election on July 27, Fred Ayers and his followers who are conducting the referendum petition have ceased to worry about the matter of any possible failure to acquire the necessary number of signers.

With the petitions now on file in Ayers' office, and those on hand in the larger counties, but not yet turned into headquarters, only a few thousand more are necessary to make up the necessary 10 per cent of the general election of 1918. However, the referendum law requires that the petitions must carry the signatures of 5 per cent of the electors in thirty-eight counties. There are still eighteen counties which do not quite come up to their 10 per cent, and the work now being done to finish the job, and directed to getting the county quotas, which will probably bring the number of signers over the 200,000 mark.

D. Scott of Lincoln has taken charge of the detail work in the office, giving Ayers a chance to get out among the workers and put the finishing touches on the job. He told the report that Ayers had given up the work and turned it over to others.

"I am not worrying much about what they say," said Ayers, "but you can rest assured that I will not let them finish the job, and when I quit it will be after the referendum petition on the code bill is ready and legally filed with the secretary of state. Then I am sure the voters will do the rest."

Solons Favor Vacation.
Lincoln, Neb., June 24.—Governor McKelvie says the members of the legislature favor a mid-July session. He said he had received answers from many of them indicating that they were willing to undertake the work ahead of a special session, when called. It is understood the call will specify action on ratification of the surface amendment and adding an emergency clause for the governor's civil administrative code bill passed at the last session.

German Motive Suggested.
Kansas City Star: The Germans clamor for immediate admittance to the league of nations is hard to understand, unless indeed they think the league is more vulnerable to attack from within than from without.

Mr. Wilson's Definition.
New York World: President Wilson in his speech before the Belgian chamber of deputies defined the league of nations as a "league of rights." That is a view view of the league that seems never to have occurred to the republicans of the United States senate, who have been construing it as a league of wrongs.
