# Men's Suits

## which will hold on to their shape

Lots of suits, a short time after they are worn, have a habit of becoming mussed up all over and looking like a chicken in a thunderstorm. To keep them appearing anyway decent, a man has to keep pressing them all of the time, which is not at all enjoyable, to say the least.

Buy suits in the first place that are made from good stuff above and below their surface, and which are well put together in every stitch and seam and there will be no need of using the iron so often.

Suits such as these we sell here. We can give them to you at any price you want to pay in most any material and color you want.

Ask us to show you a couple of these, they are beauties, every one of them.

Miss Morda Coleman of Sioux City joins the Herald Staff.

Miss Morda Coleman of Sioux City, who graduated in July from the Iowa state college at Ames, Ia., specializing in journalism, has joined the staff of the Wayne Herald, coming here Sunday to take up her work. She succeeds Miss Elizabeth Mines who leaves the last of next week to enroll for a year's study at Grinnell, Ia. Miss Mines has been a faithful and progressive member of the Herald force and has reflected talent and energy that give assurance of success in newspaper work, to which she expects to devote special attention, and later follow.

Miss Coleman has been a contributor to the Country Gentleman, Farm Journal of Philadelphia, Successful Farming, and other farm magazines of wide circulation. She was a frequent contributor to the Des Moines Capital. She was acting editor of the Iowa Agriculturalist at Ames for a time. She has the inclination, inspiration and ability to abundantly make good. The Herald knows she will be cordially welcomed by Wayne and the neighboring towns which she will visit. Also the Herald is confident farming communities will be glad to get acquainted with her.

Harry Echtenkamp Home.

Corp. Harry Echtenkamp, son of Mrs. W. H. Echtenkamp, arrived home Saturday from Camp Dodge where he had received his discharge from army service. Members of the Echtenkamp family met him at the train in Wayne and Sunday many friends called at his home to give him north of Wayne to welcome him back. He entered the army September 17 with the Dixon county contingent and received training at Camp Dodge. Corp. Echtenkamp was overseas from April, 1918, August, 1919. The return trip from Gerbany to Wayne took only twenty-two days. He was with Co. A of the Fourth Infantry and saw service in the front line from June 11 to November 11, of last year, taking part in five offensives. He says that the boys appreciated the sacrifices made by those that stayed at home. He received the Herald each week and looked forward to its coming to receive news of the home folks.

Mrs. C. E. Carhart went to Sioux City Tuesday. Mrs. A. D. Hastings and daughter, Miss Mary Jane, returned to Wayne with Mrs. Carhart that evening. They had been visiting at Omaha, Mapleton, Castana, Ute, and other points in Iowa. They will remain here this year and are now guests at the C. E. Carhart home.

Miss Jennie Owens of Carroll passed through Wayne Saturday on her way home from a visit with friends in Omaha. While there, a horse party was given, in her honor by Miss Ethie Gates of that city. Miss Owens was in Omaha and another out-of-town guest. She was en route home after spending two weeks at the Y. W. C. A. conference at Lake Geneva, Wis. These three girls had been in attendance at the Wayne State Normal the past year.

## This is the Store for Coats, Suits, Dresses

Because We Carry By Far the Largest Stock

You will find more coats, suits and dresses here for your selection than are shown in many city stores. We have such a great stock because two of our salespeople go out and give special coat and suit sales during the season in sixty other towns of Nebraska and Dakota and we have to carry hundreds of garments here to ship them for these sales.

You can choose your coat or suit from ALL these garments if you come here, and where the average store has a few coats to show you in your size, we have hundreds.

### Prices are Moderate—Styles are the Very Choicest

We own our coats and suits at the lowest prices made this season, because we bought early. Many of our garments having been purchased in June and July, before the sharp advances.

While we carry a good assortment of the finer garments at \$60 to \$175, our principal showing is in coats and suits at \$25 to \$50, and no store anywhere has better styles and values at these prices than you will find here. The very best eastern factories solicit our business as we sell a lot of garments in sixty towns, and we get a choice of the best styles and lowest prices to be had in the country. You can be fitted and suited here at a nice saving.

## Fine Footwear at Moderate Prices

So much has been said and written about the high cost of shoes lately that we are all almost afraid to go to buy a pair. In the last six weeks there has been quite an advance, but our stock was all bought in June and July and we can sell you shoes just as reasonably as we did last year. But get your shoes now—outfit your family from our present stock—it will mean a big saving. And buy good well-made shoes. At present prices cheaply made shoes are a great extravagance. Get good leather and good workmanship—it will mean a big saving. We handle dependable shoes only—we guarantee good service.

### School Starts Monday. Let us Shoe Your Boys and Girls

We will sell you good wearing shoes and good looking shoes. Krieger's shoes for boys and girls are considered the best moderate priced line of shoes in the country. We have sold them for years and they give genuine satisfaction in wear and style. We know how to fit the children—we give them our best attention always.

## Buy Traveler's Sample Blankets and Save One-Third

I traveled 5 years for the largest blanket distributor in Chicago and through this connection I am able each season to buy a stock of their traveling salesmen's samples which they sell me at one-third off the regular price. These samples are blankets which their salesmen carry around the country in trunks in May and June, when taking fall orders from their merchant customers. They get slightly soiled from handling so they are sold at this discount. Samples are always selected very carefully and are mostly extra large sizes. The slight soil is hardly noticeable and the one-third saving in price is nowadays a big item. We have just opened up the stock they sent us of about 300 pair and you will find it very advisable to get your blankets from this lot as no more samples are to be had this season. (You will save one-third and you will get the very choicest of blankets.)

Willard STORAGE BATTERY TRADE MARK REGISTERED

Service First Advice Second Sales Third

There's our policy in a nutshell.

First—When the customer comes in, find out what HE wants. Give him satisfaction at the lowest charge consistent with a good, thorough job.

Second—Tell him how to prevent battery trouble. We're not anxious to repair his battery, except to make it last longer.

Third—When he really needs a new battery we want him to buy it from us, naturally, and to buy a Willard with Threaded Rubber Insulation—because that battery will last longer and give him less occasion for expense on repairs than any other battery he can buy.

Come in and find out the wonderful story in regard to Willard Batteries with Threaded Rubber Insulation.

A PUBLIC HEALTH NURSE

Wayne County Will Have One Under Auspices of Red Cross.

Wayne county is to have a public health nurse, supported by the Red Cross, according to the following letter in response to action by the local chapter.

Omaha, Neb., Aug. 28, 1919. Mrs. E. W. Huse, Chairman, Wayne County Chapter A. R. C. Wayne, Nebraska.

My dear Mrs. Huse: Your very kind letter of August 22nd, is at hand.

I am certainly glad to know that the members of your Executive Committee are all in favor of a Public Health Nurse for Wayne county. This is certainly a most progressive step and I am certain the people of your county will be more than pleased to know that they are to undertake this most important work.

All expenses which the nurse will incur in carrying out her work will of course, have to be borne by the county chapter. The salaries which they usually pay range from \$90.00 to \$125.00 and some times as high as \$150.00. This is a matter however that is usually decided upon by the nurse and the Executive Committee of the chapter.

We are placing your request upon our records and assure you that your application will be given the earliest possible consideration.

With kindest regards, I remain yours very truly, L. W. TRESTER, Acting State Director.

Anthrax in Cedar County.

Harrington, Nebr., Aug. 28. A vigorous fight is being made to drive anthrax out of the north part of the county, and to save the herds of that locality from the ravages of that dreadful disease.

Dr. L. R. Cantwell, one of the assistant state veterinarians, is on the ground, and is being assisted in his campaign against anthrax by Drs. R. W. Hecker and T. E. Strayer of this city, and by the county veterinarian. A rigid quarantine is being maintained and every effort is being put forth to stamp the disease out and prevent its spread. At the present time, there are nine herds under quarantine and it is hoped that the epidemic may be used will result in the speedy eradication of the disease.

To a representative of The Herald, Dr. Cantwell stated that repeated investigations and examinations had certainly established the fact of the existence of anthrax in the northern part of the county. The disease has made its appearance in a number of herds, and some cattle owners have lost quite heavily in the Meng herd, 26 have died from the effects of the disease, and in the Schaefer herd, there have been 12 deaths. Cattle have also been affected to some extent, and a number of cattle owners have suffered the loss of individuals. The territory most heavily infected by anthrax is just west of St. Helena, although cases have appeared in other localities.

Anthrax is a true blood disease (septicemia), and is very deadly in its effects. It is caused by a germ which is commonly found in the food that an animal eats, and poisons the blood stream. It is infectious and contagious, and is found in the manure of infected animals. One of the serious features of the disease is that the germ may be dormant in the soil for years, and may be revived by a season of wet weather like we had last spring. The only way to get rid of the germ is by the use of lime.

Vaccination is being used in the present campaign against the disease, but animals are being vaccinated only when necessary.

Lower Taxes Impossible. Lincoln Journal. Congressman Farlinery, republican chairman of the ways and means committee, is politically wise in predicting that taxes cannot come down for ten years or so. They can't, not if the government follows a sensible fiscal policy. The new debt, which should be paid in the course of the next twenty-five years, forbids a decrease in taxes. Politicians who seek votes by promising lower taxes will lose votes eventually because of unkept promises.

Pursuing Isms, No Work. Sioux Falls Press—Somebody has remarked that if Europe would quit tumbling and fretting and get down to work, perhaps the situation might work shrink. But it isn't work Europeans want. They are chasing after idealisms and other isms, some of them with their guns.

President Carranza protests against the charge that Mexico is incapable and unwilling to protect foreign lives and property. Then why doesn't it do it?

There is such close affinity between the value of hogs and the price of pork that the drop in the former should cause a material downward revision in the latter.

Let everybody produce more to meet the increased demand, and prices may be gradually reduced until our great shock to commerce and industry. There are too many localities and non-producers.

The king of Italy has surrendered all the crown's properties for the benefit of the peasants and national work for former soldiers. This good move should be followed by abdication and the establishment of a democratic form of government.

A news report states that sixty-two French brides who married American husbands, have returned to their native land and rebuffed dissonance on the ground that they could not adapt themselves to the ways of the United States. We'll guarantee that their American husbands would be just as averse to adapting themselves to the customs of France.

All former attendance records have been broken at the state fair in Lincoln this week. More people and more automobiles were recorded during the first three days than during any similar time in the history of the organization. This reflects the prosperity of the people and the unusual interest in the educational and constructive policies of the state fair.

Only the most unqualified me-too partisan in an agricultural community upholds the president in his veto of the daylight-saving law. All who understand the conditions in a farming territory and who are not blinded by partisanship, sustain congress in overruling the president and reestablishing a system of time which will insure conformity and avoid annoying conflict.

Teachers in the rural schools of Wayne county are receiving as high as \$110 a month, and still the demand for teachers is not satisfied. The small number of pupils in some districts would seem an inducement for consolidation. By consolidating districts and enlarging schools, fewer teachers would be needed, and those employed would be able to give better service. The present condition would seem a strong argument for the economy and efficiency of consolidation.

The advice to reduce buying in order to reduce prices will not appeal with favor to people who write the time in conserving during the war. Many who wore out old clothes, haven't any more in ward-robe. Many who shackled their appetites and bore up by the aid of substitutes, are hungry for luxuries. With plenty of money in circulation, loosened desires find satisfaction in the marketplace notwithstanding the high cost. Thus, the demand taxes the supply, and accordingly prices go up.

The current Pictorial Review contains an article pointing out awakened interest in the building of community houses as symbolizing the new democracy. That is the spirit that prompted the Wayne Women's club in securing the foundation in the purchase of the opera house property. It is proposed to build a community house as soon as possible. In the meantime funds to meet the original cost must be raised, and the women are busy working out plans to that end. They deserve hearty and liberal co-operation. In due time, a new structure will be erected to the credit of Wayne and vicinity.

**PREACHERS MAY STRIKE**  
The Herald has received the following newspaper clipping with a request to publish it:

New York, Aug. 26.—"Only a sense of duty, altruism and service prevents the preachers of America from forming a union, calling a strike and letting the country go to hell," said the Rev. John Roach Straton in a sermon in Calvary Baptist Church.

"Everybody in the world almost has gone on strike except the undertakers and preachers," he added. "I suppose we will be next in line. Certainly the preachers have grievances

enough on the score of under-pay and if we are to move in line with the spirit now prevailing in the world we will have to get together soon in a joint convention."

We have long thought ministers were underpaid, due in a measure to too many denominations and consequently underpaid. With the preachers get together, we suggest that they strike for church consolidation and fewer ministers, and thus devoting stronger institutions. Preachers eliminated by consolidation would find plenty of employment outside of the ministry.

After the usual greetings and music a delicious dinner was served by the hostesses assisted by Mrs. Blair and Mrs. Keyser.  
Dinner Party  
Miss Wilma Gildersleeve and Miss Genevieve Roberts entertained last Thursday evening at dinner at the home of the former. The guests were Miss Marsaline Lewis, Miss Elizabeth Mines, Miss Josephine Horney and Miss Ruth Ingaham who are leaving Wayne for the school year.—The affair was also a slumber party and the night was spent at the Gildersleeves.  
For Howard McEachern  
Mrs. E. McEachern invited the members of the Christian Endeavor society of the Presbyterian church to a party Wednesday evening in honor of the sixteen-year-old son Howard. The young folks gathered at the church and went to the home of the McEacherns, where they took Howard out by surprise. The evening was spent in playing various games. Mrs. McEachern served light refreshments.  
Bible Study Circles  
The Ladies Bible Study circle held its opening meeting of the season Tuesday afternoon with Mrs. E. B. Young. Mrs. Carlos Martin was the leader. As Mrs. S. A. Smith, sister of Mrs. Robert Perrin was leaving this week for a visit with relatives a small remembrance was given her by the circle in appreciation of her work as a member of the organization. Mrs. Fred Benschhof will be hostess next Tuesday. All are invited to attend.  
Miss Mable Gossard will be hostess at a business meeting of the Girls' Bible Study circle Saturday evening if all the girls are invited to be present.

# PORTABLE FARM ELEVATORS

## WOOD OR STEEL ELEVATORS THAT PAY THEIR WAY

### Muscle-Saving Machinery

In these days when work is plenty and labor is scarce and high, the "hired man" problem looms up like a specter on the busy-farmer's horizon. The farmer who provides himself with muscle-saving machinery not only gets the pick of men, but he cuts the corners of cost and time and makes more net profit on his crops than his neighbors who farm "by hand." Foremost among the modern inventions for saving time, money and muscle is the Farm Elevator—a machine that relieves farm help of the laborious, muscle-straining, back-breaking work of unloading corn and small grain from wagons to granaries, bins and freight cars. This work comes at the climax of crop-gathering, when nerves and muscles are already strained to the breaking point and when every minute counts—Probably as hard work as there is on the farm is where you, your family or hired hands, have to shovel the corn into the crib. It means a constant bending, pushing and raising that tires the back and arms and makes every muscle of the body ache. It is exhausting, laborious drudgery for even the strongest men. It's a job nobody likes and that most hired men despise. Yet such is the need of help and haste at corn husking time that even the young boys are forced to do this work that is almost too much for men.

Don't lag behind! Don't work at a disadvantage! Don't depend on muscle to do the work that the elevator will do better, quicker and cheaper.

### Don't Scoop

#### HANDLE YOUR GRAIN WITH AN ELEVATOR

A farm elevator will make money for you because it is built to satisfy and to meet your demands: In building cribs, it is the foundation, roofing, and flooring that costs you the most money. If you use a scoop or an inferior elevator you have to build low cribs, but if you use the elevator we offer, you can build one crib for all of your grain, both ear corn and small grain. You thereby save the cost of one or two foundations, floors and roofs. This is another way in which the farm elevator makes money for you. With large cribs in which to store your grain, you do not need to sell direct from the field, but can hold for the best prices. By holding your grain for favorable prices, you many times will make the price of both elevator and crib. Large cribs for storing grain are made practical by installing elevators. Another big saving is in repairs. You will need very few of them for farm elevators. In many large factories the repair end of the business is one of the most profitable parts, but, frankly, we will say that if we had to depend on the repairs we sell for profits, we would go broke. A farm grain elevator will not be an expense; it will be one of the best investments you have ever made.

### THE EARLY DAYS IN TWO COUNTRIES.

Wayne Herald, Sept. 4, 1902: Dr. Lechenring has moved to his new office quarters, recently erected three doors west of the post office.

Miss Clara Burson went to Bloomfield to assume her duties as teacher in the public schools for the year.

### Factorial County Council

Walden Tucker of Fairfax, S. D., and Mr. and Mrs. H. J. Feller of Laurel were guests over-Sunday of Mr. and Mrs. A. L. Tucker.

Alex Suhr brought in from his farm two dozen apples of the "pound pippin" variety that averaged 2 1/2 pounds a piece in weight. They were the finest apples ever raised in this country.

Many farmers have completed grain stacking. It is more than probable that another year farmers will give prompt attention to stacking after the grain is cut. A neglect of this work this season was not profitable.

A pleasant picnic party was enjoyed by some young people of the city. After a ride in a hay-rick to cut-off lake a most sumptuous supper served to the young people by the young ladies. At 7:30 they returned home, all more or less hay "seedy" from their ride in the hay rick.

A carriage of Wayne people, Mr. and Mrs. W. H. Hoguewood, Mr. and Mrs. Ed. Pratt and Miss Blanche and Miss Grace will meet with an accident while en route to Atlanta. While driving near the Logan bridge south of the city a

hault holding the front wheels under the carriage box came out and just as the team crossed the bridge the front wheels came off and the carriage over throwing the occupants out, all of whom received bruises more or less severe. The team was caught a short distance away.

From Ponca Journal Sept. 14, 1903:

The schools of this place opened on Tuesday with the following corps of teachers: Principal, W. J. Goodrich from Waverly, a grammar department, Miss Maggie Gaughran, Ponca, intermediate department, Miss Mamie Rogers, Dakota City; second primary, Miss Fannie Bolter, Three Rivers, Mich.; first primary, Miss Flora Hoskinson, Ponca.

Harrington, the new town in Cedar county, the future queen city of northern Nebraska, was on Tuesday under the able management of Peavey Brothers of Sioux City, successfully launched upon a prosperous career. About \$25,000 worth of lots were sold to parties who will locate and build this fair city. The excitement is great, yet it is well founded. Harrington is beautifully located in the center of a rich and well settled country, and will within a year have a population of not less than 2,000.

On Monday afternoon the team of Thomas Melvin started when near Stough & Miksel's store and ran away. Mr. Melvin was thrown off the wagon but was not much hurt. The team ran down East street across the bridge and towards home. No great damage was done on Tuesday afternoon Mr. Melvin

was again driving the same team, and near his home three miles south of Ponca, again they ran away. Mr. Melvin was thrown off and so badly injured that at latest accounts he was not expected to live.

### Held on Murder Charge.

Esbridge, Kan., Aug. 29.—Rufus King, charged with murder in connection with the disappearance of Maple Hill several years ago of John A. Wood, a young farmer, at a preliminary hearing here late

Friday was ordered held without bail for trial in district court. At a second preliminary hearing concluded last night, King was bound over for trial on a charge of murder in connection with the disappearance of a jewelry peddler at Maple Hill, several years ago thought to be William F. Ringer. Ringer, of T. O. Ringer, Tilden, Neb., and O. R. Ringer of Wisner, Neb.

A week ago King was held for trial on charges of murder in connection with the disappearance of Reuben Gutshall of Maple Hill, several years ago.

King's arrest followed the finding of skeletons of property he formerly occupied.

**Inquiry at Neligh.**—The entire state of Kansas has been horrified by the unearthing of skeletons and decayed bones on the farm of Rufus King at Maple Hill. King has been charged with three murders and has been brought back to Maple Hill from Colorado, where he was placed under arrest.

The tragedy was brought home to Neligh by an inquiry from Richard Hopkins, attorney general of the state of Kansas to County Attorney R. M. Kryger of this city. William F. Ringer supposed to have been a victim of King was a former resi-

### Dead to Neligh Lots.

The authorities in Kansas who are investigating the case, found on one of the houses a deed to lots one, two and three, tucked in the city of Neligh, made out to William F. Ringer and the attorney general of Kansas, telegraphed to Mr. Kryger asking that he investigate and report findings in full.

Mr. Kryger's investigation indicated that the lots were at one time the property of William F. Ringer and were located near the city waterworks standpipe. He lived here some thirteen years ago and left in a small wagon drawn by a horse without saying where he was going and has never been seen since.

The murdered man's father died several years ago at Wisner leaving a sum of money for his son, which was never delivered because he could not be found. The money is still held for the son.

William Ringer is a nephew of Ed Ringer of this place and a brother of T. O. Ringer of Tilden. The latter went to Maple Hill Wednesday to definitely determine if the deceased is really his brother as the facts strongly indicate.

Topeka, Kan., Aug. 28.—That the unidentified skeleton of a peddler for whose death Rufus King is charged with murder, may possibly be identified as William F. Ringer, was indicated in a telegram received by Attorney General Hopkins from T. O. Ringer of Tilden, Neb., and his brother, O. R. Ringer of Wisner, Neb.—They announced their intention of attending King's preliminary hearing at Esbridge today, and expressed their belief that the peddler was their long lost brother.

The Ringers were located as the result of the finding of skeletons of two town lots at Wisner, Neb., made out to William F. Ringer, by attorneys last week among papers discovered at the house at Maple Hill formerly occupied by Rufus King.

## Prest-O-Lite Battery

Annabel Lee of the Prest-O-Lite Clinic

**She Drove the Family Car 12,000 Miles in 18 Months**

Of course Annabel had help—good help—from two sources:—

- help from the little Prest-O-Lite Battery, which started the big engine and fed the bright headlights;
- and help from a proud father who taught her what she should know about the rules of the road and the folly of exceeding the speed limit.

Thanks to the surplus power of the Prest-O-Lite, Annabel never experienced a minute when that little helmsman failed to spin the busy engine as a touch of her toe.

And thanks to the skill acquired from her clever tutor, she backed the car into only one ditch—killed only one chicken—barked only one telegraph pole in all that time.

To keep her faithful little Prest-O-Lite Helper in 100 per cent condition, Annabel relied solely on us.

For Annabel herself—(deadly as it may seem)—did not even know what kind of girls were inside of that battery.

And not once has she found it necessary to take even a peek at the hieroglyphics in the battery booklets which came with her car.

You who head this, and envy Annabel, certainly can't do better than follow her lead—join the Prest-O-Lite Clinic while the joining is good.

We are waiting to welcome you and install you as a member in good standing.

We are headquarters for recharging, repairing, and service on all makes of batteries.

**Beware of Ointments for Catarrh that Contain Mercury**  
as mercury will surely destroy the sense of smell and completely derange the whole system when it enters the mucous surfaces. Such articles should never be used except on prescription from reputable physicians, as the damage they will do to you is often fatal. Catarrh can possibly derive from them. Hall's Catarrh Cure, manufactured by J. C. Cheney & Co., Toledo, O., contains no mercury, and cures internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is sold in 50¢ and 1.00 bottles. Take Hall's Catarrh Cure. J. C. Cheney & Co., Toledo, Ohio, 297 E. Water St. Write for literature. **UNCLE WALT THE POET PHILOSOPHER**  
CLOSE TO EARTH.

I never get ruffled in atmosphere of balloon, although I've often been bid to board one and go 'skiddin' around the smaling moon. In motor cars I've gadded, but I'm not keen to fly until the Earth is puffed, with velvet cushions added. I will not soar on high, I'll note the phone and scan it, but if I tell from that the job would shock the planter and all the folks who must be seen leave the building flat. I hold it right and proper for youths to tour the city, for they're much to be commended, and if they come a cropper they do not need to care. But my old blood is chilly, I limp in many styles, and I'd look rather silly if I fell. Willily naps a dozen miles. My years are three score seven, and I'll lose agony, if I come down from heaven, some ten or twelve leagues or seven, and I can't hear the air fins cutting, come with us, if you please. The sport is appealing for one whose beard is falling all snowy, to his knees. Let reckless youth untraced the clue to a mystery, the trail in which I travel, the unpolished gravel, is trout enough for me.

**SEPTEMBER AGAIN.**  
"Oh, out about the sighing, for summer is here, September is here at the gate; September so winning has been for an hour and August is pulling its freight. The summer is a season that's based upon reason, it's good for the country, and without it the granger would see a stranger, and we would have nothing to eat. The summer is good, the fields that are seeded without it would fail to produce; and so we must bear it, this season of merit while sizzling away in our ears. Although it is splendid we're glad when it's ended, we're tired of its charms, we admit; with laughter we wriggle, we dance and we giggle, when summer is here, the boys and girls are roasted, our whiskers are toasted, we're baked and we're poached and we're fried; we long for cool breezes and Autumn, she eases the burden to which we've been tied. Oh, welcome, September, seem to remember we had September last year, and she was a hummer that followed the summer and filled our old bosoms with cheer. Oh, she was a daisy with distances hazy and zephyrs that hinted of frost, with nights that were chilly—not sizzling and silly; I boost her, regardless of cost.

**HIGH COST.**  
It's hard to salt a nickel to save a pleasure; I have to buy a pickle, and then again a prune; the figures such things cost me upset my apple cart; they stagger and exhaust me, and make me sick at heart. All men are profiteering, it surely seems to me, when shipboard I see steering, to buy a pound of tea; to buy a pair of trousers, a birdcage or a hat; and money mad carousers are doubtless getting fat. We men who work for wages are shy of all resources; we fly in futile rages, and clamor till we're hoarse; but still the profiteering goes forward with a will, and daily are meeting the poorhouse on the hill. But let's be calm and steady, and can our wild remarks; our Uncle's getting ready to swat the robber sharks. Our Uncle's slow as blazes, but take this to your heart: All kinds of smoke he raises, when once he starts a squawking. We who toil and suffer, may not give up to see the profiteering dufer suspended from a tree. Or, if that isn't hot in his being too severe, no doubt he'll go to prison, and stay year after year. The profiteers and hoarders and other soulless men will be the nation's boarders in some poor scented pen. Our Uncle Sam moves slowly, but he has giant thighs; his wrath is hot and holy, and spikes are in his shoes.

**USELESS NOISE.**  
The prices still are soaring, but noise won't bring them down; not all our frenzied roaring will cheapen things in town. So let us get toger, renouncing needless vain, and ask our neighbors whether we can't do something sane. The prices have been speeded until our hearts are sore, and sanity is needed more now than e'er before. We must be sane and thoughtful if we would lay, it's clear, our vengeful hands and sweat upon the profiteer's throat. No vain and rapid ranting, no anarchistic wheeze, will bring the robber's panting upon their stalled knees. We must be calm and sober, an earnest, quiet troop, or long before October we'll be in the soup. While we remain contented the profiteers will say, "These delegates are bent on easy marks to fly. While they are raising thunder, and standing things up on the profiteer's feet, let that quiet wouldn't lend." The pirates profiteering will hear their passing knell, when we are done carrying and raising merry Hell. So let us go together, and cease our riots vain, and ask our neighbors whether we can't do something sane.

**TURBULENT TIMES.**  
Uncle Sam is really soiling, as he never did before, and his wintery locks he's tearing, and we see him walk the floor; for the country's all excited, and our old time peace is blighted, and the wren's

that should be righted come a rattling at his door. Ed, you might as got a hammer, and we all rear up and knock, and we yawp around and yammer, and we yave a bang and rock, and we strike and quit our labors, and go joining with neighbors with the soldiers, with their wire drive a home, and we're all flat. We are full of peevishness, and we stamp old systems flat, for the country is unsettled, and we don't know where to cast our eyes, we're driving shoppers to the refuge of the papers, and we whip the village coppers and knock off the stages, man's hat. All respect for law and order, we have lost and care no hoot, and we're drifting to the border of black show, and we're all ready to stop before arriving, and our Uncle, still surviving, will behold us nobly striving to overwhelm that chaos brute. For in time of such dire straits, after all the wartime strain, and we're tearing down the fences— but we'll put them up again, for we are no blame level, to keep up this lick forever, and we soon will make endeavor to convince you that we're sane.

**GOLD BRICKS.**  
Some busy fellows in our lower areas always bustling about, they're out on a hunt for gold, they want to raise a bunch of kale to trim a flagpole on the jail, or build two courthouses, or they want to paint the country club, or hire some highly gitted dud to beautify the grounds, and so they come to me and say, "We need money, we need money, so much up seven pounds." But always I have other use for my money, and I have a good many easy Hicks who blow themselves for gilded bricks, or strips of azure sky. I have a gold mine in Maine, where any man would be same who dug around for gold; I have an ice plant on a shore where Arctic billows always roar, and I have a coal mine, I have a ranch that ought to grow all kinds of grain that moderns know, if it had any soil; I have an oil well on a hill where high priced workmen drill and drill, and never reach the oil. I'm always buying costly shares that ought to make me millions, but, never, never, do; I'm always buying and selling, and grizzly bears and pumpkin vines, and remedies for flu. And so I cannot spare a red to help our village fore head, to aid the boosters' fads, assessments are always coming due, it seems to me I'm never through with shelling out the seeds.

**UNSHAKEN TESTIMONY.**  
Time is the test of truth. And Doan's Kidney Pills have stood the test in Wayne. No Wayne resident who suffers backache, or annoying urinary ills can remain unconvinced by this twice-told testimony.

Mrs. Ira Hoshaw, Wayne, says: "I was confined to bed several weeks with a severe attack of grip. Upon recovering I found my kidneys had become weakened. I was a great sufferer from sleeplessness. After taking Doan's Kidney Pills a few days, the backache left me and my kidneys were strengthened. In three weeks all symptoms of kidney trouble had disappeared."

Mrs. Hoshaw gave the above statement August 1916, and on July 15, 1916, she added: "I keep Doan's Kidney Pills on hand all the time, getting them at Felter's Pharmacy. They keep me in good health by getting away any signs of kidney trouble I may have."

Price 60c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Hoshaw had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.—Adv.

**The Most Welcome Tire That Ever Came to Market**

**Men Who Appreciate Superlative Values Prefer The Brunswick**

In every great tire factory, the chief question is: "How much can we give for the money?" And the product depends on the policy adopted.

Every man who has become acquainted with Brunswick Tires knows that Brunswick standards are again evident. This famous concern—noted as a leader in every line entered since 1845—has once more proved that its policy is right.

A perfect tire is simply a matter of knowledge and standards and skill. No secrets nor patents prevent making an ideal tire.

But standards come first. For in tire making there is vast room for skipping, for subtle economies, for hidden shortcomings. Makers without the highest standards don't build high-grade tires.

The Brunswick organization of tire makers includes a brilliant staff of technical experts. Not a man

News, Suggestions and Comments on Affairs of Interest.

#### Butler County Has Live County Farm Bureau.

In a letter to the Butler County Press at David City, Neb., the Butler County Farm Bureau declares its belief in the effectiveness of organization among farmers. The latter no longer wish to be exploited by organized labor or "big business." They are tired of getting what they are entitled to through the Farm Bureau is the best method of improving the conduct of their business.

In speaking of the general prejudice which exists in some rural districts against the county agent, the bureau says: "County agents have been considered youngsters recently graduated from agricultural colleges, sent out to tell old, experienced farmers how to farm. It is not the purpose or the duty of the agent to give advice on all subjects. He is on the job to keep the work moving and get information from reliable sources for the farmer."

#### Two Butler County Boys Sent to State Fair.

Clarence Haskin and Lyall Mart were the two fortunate county boys to be sent to the Iowa Educational camp at the state fair because of their work in the county pig club. The two after success in raising their pigs and making a good school record.

by the county superintendent of schools. The camp is under the supervision of Y. M. C. A. men. It gives farm boys who have initiative and the ability to have an opportunity to gain much by seeing the sights at the state fair.

#### How to Kill a Community Club.

1. Don't come.
2. If you do come, come late.
3. If too wet or too dry, too hot or too cold, don't think of coming.
4. Kick if you are never appointed on a committee and if you are appointed, never attend a committee meeting.
5. Don't have anything to say when you are called upon.
6. If you do attend a meeting, find fault with the proceedings and work done by the other members.
7. Never bring a friend whom you think might join the association.
8. Don't do anything more than you can possibly help to further the association's interest. Then when a few take off their coats and do things, howl that the association is run by a few—Community Builders from Dodge Ia.

#### Farm Deal Establishes New Record for Boone County.

One hundred eighty acres of farm land just northeast of Albion brought \$500 an acre at a recent sale. The highest price for this tract of land was paid by B. P. Peterson of Platte county to Wolf Brothers.

#### No Horses Needed on Largest Farm in the World.

A 20,000-acre farm, devoted entirely to wheat, is described by a writer in Everybody's. All of the work on this tract of land, which is considered to be the largest farm in the world, is being done by tractors. Fifty machines turned up the soil last fall when the land was sown for the first time. One acre a minute is the average time for plowing. All the seeding and harvesting are done by machine. Horses are absolutely non-essential on this farm.

#### Old Clothes Worn by Oklahoma Men.

As a beginning of a campaign against the high cost of living, one of the Penitentiary congressmen, Oklahoma, signed a pledge to wear old clothes for three months and as long after-

wards as they will last, or until the price is reduced.

In carrying out this pledge, old suits, collars, shirts, overcoats, and socks will be worn. The campaign was launched by the morning newspaper, with the result that already the price of meat and sugar has been reduced.

#### Results of Grain Farming in Nebraska.

Notes from the Wakarusa Republican indicate that there is nothing to fear from grain farming in this state.

J. W. Lewis, Chase county farmer, threshed from two big wheat fields, twenty-six and thirty-three bushels to the acre.

Warden Fenton of the state penitentiary has sold the grain raised this year on the penitentiary farm south of Lincoln and the state treasurer received a check for \$5,988.

A 600-acre wheat field in Deuel county yielded 21,194 bushels, which tested easy to 50 under a number of wheat fields in the county produced as high as forty-five bushels to the acre.

#### Need for More Improved Roads in America.

Few people who enjoy good roads realize what a small percentage of America's roads are improved. If we are to catch up with the immense highway systems of Europe, our efforts must be redoubled. In 1914, Prussia alone had 75,000 miles of hard surfaced roads. The United States would need in proportion to the size of the two countries, 4,611,000 miles.

#### New Store by and for Laboring Men.

Seventy-five laboring men of Fairbury have made the preliminary arrangements for the opening of a general store in the near future. Every laboring man who wishes to trade at the store must pay \$10, which goes for the purchase of the initial stock. They are planning on selling goods at just enough margin to pay running expenses of the store. One man is to be appointed soon as general manager of the concern.

### Pure Candy

BIG ASSORTMENT JUST ARRIVED. Demand for candy is universal. Everybody likes candy, but it must be fresh and it must be good. Our stock has been selected with the finest materials and our special specialties. No fancy packages to add to the cost—just real pure, wholesome candy, and kinds you will buy again.

### Nut Margerine

Nut margerine has become a big factor—millions of pounds go into consumption every month. People have learned in many respects it is superior to butter. It can be bought for less, and when colored looks like butter and tastes like butter. These qualities account for the growing demand. We receive nut margerine twice and three times a week. Help reduce the H. C. L. by using nut margerine.

Judge J. M. Cherry at the home of Prof. and Mrs. H. H. Hickman, Wayne, Neb., at 2:30 p. m., Sunday, August 31.

The beautiful and impressive "ring ceremony" was employed. The young couple stood between banks of ferns and roses in the alcove of the beautiful home of the host and hostess, on College avenue. The bride is Mrs. Hickman's niece. The very worthy young man is a machinist in Sioux City.

The young couple will spend their "honeymoon" visiting with his and her parents. After October 1 they will be at home in South Sioux City.

**Effilene Albertson.**  
Fred Effilene and Miss Elsie Albertson were married Aug. 30 by Judge J. M. Cherry. The bride is a daughter of Mr. and Mrs. Lawrence Albertson, living in the southern part of the county. The bridegroom is a son of Mr. and Mrs. George Effilene of Thurston county.

The happy couple after a short visit with home folks, will begin housekeeping near Magnet, Neb., where the bridegroom is now farming.

**Max Ash Arrives Home.**  
Max Ash, son of Mr. and Mrs. C. Ash, left for home from a tour of nearly two years of army service half of the time of which he spent overseas. He was a member of the infantry in the Third Division and saw active service in six of the great battles of the last year. He left with the second group of drafted men from Wayne county in September 1917. He is glad to be back in Wayne county and expects to work on the farm with his father.

### REAVER & KELLEY'S "UNCLE TOM'S CABIN"

**Big 2-Car Tent Show—Coming Soon**

The new popular "Uncle Tom's Cabin" as produced by Reaver & Kelley will make its appearance in Wayne in their big tent theatre seating 2,500 people.

The Reaver & Kelley Show possesses the unique distinction of being the only company presenting Harriet Beecher Stowe's Immortal classic in its original form. Messrs. Reaver & Kelley have assembled a company of Metropolitan stars and will offer the people of Wayne a most superb production. Nothing has been left undone to make this presentation complete in scenic effects and equipment. The band orchestra has a feature and twice daily upon the principal streets a free band concert will be given.

Among the many added features with the Reaver & Kelley Show is Miss Esther Brodie, cast as Eva in the play. Little Miss Brodie having been featured on the best Charming Circuits and Vaudeville time, will be seen in a series of original Scotch songs and dances. Miss Brodie is second only to the great Harry Hader.

One performance only will be given at Wayne, Neb.—one night only under the mammoth water-tight tent theatre, Wednesday, Sept. 10. 5414d

## He Has Had His Day

### AS TO THE CONSTITUTION

Prof. J. G. W. Lewis Treats Subject in Current Nebraska Fair.

On August 29, Prof. J. G. W. Lewis, member of the Wayne State Normal faculty, and a candidate for membership in the constitutional convention, outlined the following to the late issue of the Nebraska Farmer:

To The Nebraska Farmer: I am asked to state some of the fundamental considerations underlying the proposed revision of the Nebraska constitution. In the first place, the basis of any political structure in our country must be democratic control. Notwithstanding the shafts often leveled at democracy by its critics, the fact remains that there is no other government good or even possible. With this in view every change sought to be inaugurated in the constitution should be in the direction of making more possible and more certain a control by the people.

In this connection it should be remarked, however, that the people cannot be said to exercise a choice when they are compelled to exercise it blindly as with a long and confusing ballot. The political machine should have fewer parts and should be brought more perfectly under control.

Again, control by the people does not mean control by any fraction of the people. We must give up the idea that it is possible in the long run, for any class of people really to prosper at the expense of any other class. The effort must be made to prevent the division of our society into distinct classes, but if it cannot be prevented entirely, the next best thing is simple justice between classes. Simple justice is the great preventive of discontent and in these days of interesting unrest we shall do well to remember the old adage which says so wisely that "An ounce of prevention is worth a pound of cure."

Right along this line arises the pertinent question as to the wisdom of fostering a battle between the farmers and the farmers. The interests of the farmers, rightly interpreted, are the interests of the vast majority of the people of the state, and any one who is engaged in any occupation which is necessary to society, is a producer. It is cheerfully admitted, however, that as society advances, the lines between producers and non-producers need continually to be redrawn. There is little doubt that the line of demarcation needs adjustment just now, but why not make common cause with all real producers against common wrongs? So as a mistake to think that the farmers have no friends outside their immediate ranks. Plain wisdom dictates that they should not restrict themselves to the use of purely "farmer" instrumentalities.

Finally, it must be kept in mind that a constitution is not the statute law of a state. It cannot descend to statutory details; it must deal with general principles and leave to future legislatures, the determination and the satisfaction of passing needs. Indeed, the process of revising our constitution should, in all probability, be one of removing constitutional restrictions on the legislature without relaxing the people's hold on that body.

The history of constitutional restrictions is that they operate quite uniformly to restrict the will of the people, and that the needs of a future generation can not be entirely anticipated by the present generation. In other words, in spite of the desire of humanity to effect general principles once they are established, the business of government to printed documents, it is probably none the less true that an eternal vigilance is the price of liberty.

Mr. and Mrs. J. H. Fitch returned Tuesday from a few days' visit at Thurston.

medical year will be held Sunday morning September 14, at 11 o'clock. Do not allow any outside plans to interfere with your presence on this important occasion.

**First Presbyterian Church.**  
(Rev. J. W. Beard, Minister.)  
Morning services at 10:30. Theme of the morning sermon—"Trees by the Streams."  
Evening services at 8:00 o'clock. Theme of the evening sermon—"Why?"  
Sabbath school at 11:30, classes for all. We especially invite all young men of the town to our Young Men's Bible Class.  
Senior Endeavor at 7:00 o'clock.  
Prayer meeting Wednesday evening at 8:00 o'clock.  
"Come With Us And We Will Do Thee Good."

**Methodist Episcopal Church.**  
(Rev. D. W. MacGregor, Pastor).  
The services at this church next Sunday will be as follows:  
Sunday school, 10 a. m., Vacation days are over; let us get busy with the Lord's work. We hope to see a large number at Sunday school. There will be preaching at 11 a. m. and 8 p. m. The Epworth League will meet at 7 p. m.  
Let us as a church get on the "whole armor" for efficient service to our Lord. Come to all the services.

**Piano Bargains.**  
I have one piano which is in fine condition, has been used only four years, cost \$400 four years ago, and they cost more now. I will sell for \$185, a bench and scarf included. Also one piano which is the greatest bargain in player pianos that you ever saw. This player has been used only three years and looks like new, and is as good as new. I will sell it for half of what it cost new, a bench, a scarf and a music rack with 40 rolls included.  
Come see—visit and see these wonderful values. Ernest Vogel, 34 blocks east of opera house, 5422d.

### WOMEN TO HAVE EXCHANGE

Will Open Salvage Department—Comfort Station Proposed.

The Wayne Women's club met Saturday afternoon, and among other things, decided to open a salvage department in the opera house, which will be kept open an hour each day. Any one having an over-supply may bring the surplus to the opera house to be disposed of. The exchange is calculated to serve economy and cut down unnecessary waste.

The club resolved to appeal to the city council for the establishment of a comfort station in the business district. The city hall was mentioned as a suitable place for it. A vote of thanks was tendered to T. A. Morgan for moving the opera house.

Mrs. W. H. Morris sang two Indian songs and responded to enclosures.

These household helps were suggested in the course of the time given over to the question box:

- Have an extra cover for dresser to take on-off to save time of cleaning.
- Sew bands on apron to hang it up to save time of hunting for it.
- Cut up a nickel's worth of sandpaper to use in cleaning sticky dishes.
- Put bread through meat grinder to clean it.
- Roll hard boiled eggs to get off the shells.
- Put tumble over curtain rods to facilitate hanging.
- Have waste paper basket upstairs.
- Soda water is recommended for tea-staining.
- Peach or pear skins make good butter by running them through a colander.

A business meeting of the club will be held next Saturday afternoon at 2 o'clock.

### Koch-Thompsons

Dr. J. Koch of New Haven, Mo., and Miss Minnie Thompson of Wisner, Neb., were married by Judge J. M. Cherry, August 28, 1919. The bride has been assistant at the Jeffries store the past two years and the bridegroom has just returned from two years' service in the American army. The couple left immediately for their new home in Denver, Col.

## Get Out of The Rut or Stay in It

**YOU MEN** of the farm pay for it. Stay in and you wear out the side-walk of your tires, get out and you ride the bumps. You pay either in the discomfort, or your tires.

But in or out of the rut, you pay less if your car is shod with Goodrich Tires. For Goodrich Tires are built to meet the harsh demands of unpaired roads.

Examine their extra thick, extra wide, SAFETY TREAD. See how the Goodrich interlocking safety bars spread beyond the ball of the tire to the sidewall. Under weight and pressure it lays more tough tread rubber, and more safety clutch on the road.

See how the wider tread carries on up the tire, and beneath the side strip, giving an extra shield of tough rubber to fortify the tire in the weakest spot, the spot where ruts attack it.

There is a full farm day work, and long farm life in the bulky, broad shouldered bodies of Goodrich Tires.

For high-powered cars always use Goodrich Silverton Cords. And the same advice holds good for Goodrich Truck Tires in your heavy hauling.

### AGRICULTURE NOTES.

#### Must Mark Weight on Meat.

Wrapped meats, including ham or other material, including hams and bacon, coming within the jurisdiction of the Federal food and drugs act must be labeled to show the net weight of each package, by the provisions of an amendment to that law incorporated in the Agricultural Appropriation act for the current year.

The food and drugs act requires that the quantity of food in packages from coming within its jurisdiction must be plainly and conspicuously marked on the outside of the package in terms of weight, and not of nominal weight. Wrapped hams and bacon previously were held not to be food in package form within the meaning of the act, since they are not of uniform size and are sold by the pound by actual weight and not by a fixed price for each package as are most foods in package form.

#### Crop Reporters in Convention.

Men with similar interests find it pays to get together and talk over their common problems. Hence, the annual convention of all crop reporters of organizations. But a meeting in Columbus, Ohio, on August 28, was out of the ordinary. Most of the voluntary crop-reporters of Ohio there are about 2,500 of them—gathered in response to invitations from the management of the Ohio State Fair and they discussed many things—not from cabbages to kings, exactly, but from cabbages to wheat and other crops. The voluntary crop reporters do not work for salaries, but solely for the service they can give to their state and the rest of the country by telling what is what in agricultural production. They paid their own expenses to Columbus for the same object. They were well addressed by the director of agriculture and by the chief of the Bureau of Crop Estimation of the United States Department of Agriculture. One hundred members of the 15 states whose crop-reporting organization have policies of close cooperation with the federal government.

#### More Jelly With Less Fruit and Sugar.

To obtain the largest possible amount of jelly from fruit with the use of the smallest possible amount of sugar, follow the directions given below by the United States Department of Agriculture specialists:

If a good jelly-making fruit, such as quince, green grapes, tart and partly ripe apples, or other fruits, is being used, make a second extraction from the fruit. That is, take the pulp from the jelly bag, add one cup of water to each pound of pulp, cook twenty minutes, and drip a second time, using some pressure at the last. Second-extraction jellies are likely to contain more sugar than those from the first and it is an excellent plan to combine the two juices before sweetening.

When fruit is cheap and sugar expensive, jellies may be made to advantage with one-half as much sweetening as usual. That is, with one-half cup of sugar to one cup of juice. The yield of jelly will be less for one cup of a good jelly plus one cup of sugar should make between one and one and one-half cups of jelly, whereas one-half cup of sugar plus one cup of juice makes between one-half cup and three-fourths cup of jelly.

One-half of the sweetening may be glucose sirup, light-colored corn sirup, honey or sorghum sirup. If the other half is granulated sugar, there will be little noticeable difference in sweetness in most cases. Grape with glucose or corn sirup will make a good jelly even when no sugar is used.

#### Wayne County Soil Survey.

The Herald has received from United States Senator Geo. W. Norris seventy-five copies of a public document showing the results of a recent soil survey of Wayne county, and they may be had while they last, by those calling for them. It would seem an important document to any one engaged in agriculture or interested in the subject in this county.

#### Accommodating.

(Continued from Page 4.)

Saturday at 10 a. m. to organize a class to begin the work for religious instruction during the coming season.

A bible class will be organized next Tuesday evening at 8:30 o'clock. The English language will be used exclusively in this class. We hope to have a large enrollment at the first meeting.

The Northwest circle of the Ladies' society will meet next Thursday at 3 p. m., with Mrs. Lemuel Hagen as hostess.

The new arrangement that was begun last Sunday morning in uniting the members of the church to see the whole Sunday school gathered at the front of the church and taking part in the services. The children seemed to enjoy the services since they could join in and take active part in the worship. The members who prefer to worship in the Swedish language are given a complete morning service. Thus all our members are given the spiritual care in their own heart language.

Presbyterian Church.

(Rev. P. M. Orr, Pastor.) Services at 11 a. m. and 8 p. m. Sunday school at 10 a. m. Junior Christian Endeavor at 4 p. m. Christian Endeavor services at 7 p. m. Miss Opal Birth will lead the meeting.

The subject of the morning sermon will be "The Perplexities of Life."

On Tuesday evening the officers of the church will meet at the Farmers National bank. The study of the Acts of the Apostles will be continued at the prayer meeting on Wednesday evening.

A teachers' training class will be organized on September 14 at the Sunday school hour.

Methodist Church.

(Rev. Frank Williams, Pastor.) Preaching services at 11 a. m. and 8 p. m.

Epworth league at 7 p. m. Wednesday at 8 p. m., prayer meeting and midweek service.

All services at the usual hours next Sunday. This will be the last time the pastor will preach before conference, and all the members are urged to attend. The annual conference is to be held at University

Place, Lincoln, and the pastor leaves on Monday morning for that place.

There will be no preaching on Sunday, September 14, but Sunday school and League will be held at the usual hours.

The Ladies' Aid society will hold its annual meeting for the election of officers this Thursday afternoon at the church. All the ladies of the congregation, whether members or not, are earnestly invited to be present. A liberal covered lunch will be served.

The Mission Church.

(Rev. C. J. Lolin, Pastor.) Preaching services at 11 a. m. and 8 p. m.

Sunday school at 10 a. m. Prayer meeting Wednesday at 8 p. m.

Thursday evening of this week the young people will meet at the home of Otto Frederickson.

Next Sunday morning the subject of the sermon will be, "The Self-Propagating Power of Sin." The evening service will be especially for the young people with special music and songs.

A large company of people assembled last Monday evening at the home of Mr. and Mrs. John E. Bengtson to honor their eldest son Albert who had just been married. Rev. Mr. Holm read the scriptures, offered prayer, and spoke to the newly married people. A sum of money was also presented to Mr. and Mrs. Albert Bengtson.

The best wishes of the people of Wakefield go with them. Both are going to Chicago to pursue further studies; Albert at North Park college and wife, Margaret, at the Moody Bible institute. Marie Bengtson also leaves this week to continue her studies at the Moody institute.

In Sheridan County, Neb., and Shannon, Bennett and Haakon Counties, S. D.

## Location Crops

These lands are situated north of Gordon, Neb., 315 miles west of West Point, on the main line of the C. & N. W. Ry. Can leave on the noon train and arrive in Gordon about 10:30 p. m. Have a good night's rest and be fresh for the auto trip in the morning.

Alfalfa is king. Corn is queen, producing 25 to 45 bushels to the acre. Small grain of all kinds do exceptionally well. Potatoes are shipped out by the train loads.

## Soil

Rosebud dark loam. Very productive. Subsoil is yellow and white lime. No stone, gravel, sand or gumbo.

The cheapest lands, in proportion to what they will produce, of any lands on the market in the United States today. Lands north of Gordon sell for \$50 to \$125 per acre. But just across the line in South Dakota we are selling better land at \$25 to \$35 per acre. We also have rough grazing land farther north for \$12.50 per acre.

## Rainfall

Average is 19 3/5 inches according to government reports, covering a period of twenty years.

We also have land in Eastern Nebraska ranging in price from \$90 up that can be bought with payments of from \$4,000 to \$6,000 March 1.

HE WOULD WALK FLOOR FOR COULDS Had Smothering Spells and Could Hardly Breathe—Suffered 26 Years.

I have been in poor health for twenty-six years, and have tried many different medicines and treatments, but my troubles were not relieved. I consulted a doctor named Tanlac, said C. D. Williamson, who is employed as engineer for the Union City, Ind. Electric Co., who lives at 1060 Everett Court, St. Paul, Minn., the other day. "I suffered from stomach trouble and indigestion during all these years," he continued, "and when I commenced taking Tanlac, I had given up all hope of ever finding a doctor who would do me any good. During the past year I took six different treatments, but I didn't get any relief at all. Everything that I ate caused me to vomit, and I was bloated up with gas for hours at a time, and would have a very often this gas would get up into my chest and cause my heart to palpitate so bad that I could hardly get a good breath, and when these spells came on me at night, I couldn't lie down, and just had to leave the floor for hours at a time, trying to get a good breath. Sometimes my arms and legs would go to sleep and I would have to rub them for a long time before I could use them. I finally got so weak and run down that I had to lose a lot of time from my work.

"One day a friend of mine told me that he knew a man who had suffered exactly as I was, and that Tanlac had brought him around all right. Well, I thought that if I had done that man so much good, it ought to help me, and I commenced taking Tanlac right away. I had a look at the view of the matter, for my twenty-six years of suffering is a thing of the past now, and I am in better health in every way than I have been for many years. I am completely rid of that stomach trouble and indigestion. I have a fine appetite, and I eat just anything I want and I never suffer a pain afterwards. I never have a headache or a cramping spell, and I sleep on me like they did. In fact, I am as well and strong as I ever was in my life, and I go to sleep as soon as I hit the bed at night, and am dead to the world until time to get up every morning. I can do as much work as anybody now, but I never take any medicine from the job. Yes, sir Tanlac was a god send to me, and I say a good word for it every chance I have. TANLAC is sold in Wayne—adv.

HOOVER VISITS JEWS; TELLS OF SUFFERING

American Food Administrator Pictures Terrible Conditions in Poland and Czechoslovakia.

\$400,000 FUND IS ASKED OF NEBRASKA THIS MONTH

CHILDREN ARE SO WEAK THAT THEY CANNOT WALK.

"Dr. Goldfarb of Warsaw tells me a reputation that in his clinic during the past year there has not been a Jewish child up to four years of age who could walk. Some of the children have forgotten, have unlearned how to walk. They have been afflicted from an early age, from being—fed once a day this warm potato soup and this hunk of bread."

—From an eye-witness.

First-hand information of the starvation and destitution of the Jewish people of Poland and Czechoslovakia, as it exists today, is brought out of this land of sorrow and horror by Harbut Hoover, head of the inter-allied relief commission, who has returned to Vienna after a trip of inspection.

Mr. Hoover declared that the economic situation in much of the territories he visited could only be expressed by the term "complete demoralization."

As a result of severe invasions by different armies, the country has been largely denuded of buildings. These regions are four-fifths uncultivated.

The territory which Mr. Hoover visited is but a part of that in which 6,000,000 Jews, sufferers of what he calls "equally horrible afflictions," are to be found. He said that the Jews are equally helpless today, hopeless, too, save for the promise of aid from America, which may give them food and clothing until other comes out of chaos and gives them again a chance to make their own livelihood.

To meet this trip of starving and destitute Jews, the American Jewish War Relief Committee is conducting a nation-wide campaign for \$35,000,000 as a 1919 budget to supply the MINIMUM needs. Nebraska's share of this fund, \$400,000, to be raised in a campaign during the week of September 15-22.

George Brandels, well-known Omaha merchant, has accepted the chairmanship of the drive, and has named as secretary, under the chairmanship of Governor McKeite.

Harry Wolf, leaving Omaha visitor, has agreed to pay the entire expense

of the Nobelski campaign. This means that every cent that every other contributor gives will be used for direct relief in food, clothing, hospital supplies and other necessities of life.

Headquarters of the campaign have been established in a "hut" on the corner of Howe and 9th Streets.

WHAT AMERICAN DOLLARS MEAN TO STARVING JEWS

The Need: SIX MILLION STARVING SOULS.

Six-million Jews in Poland, Lithuania, Galicia, Palestine, Turkey and Siberia are dying of starvation. Refugees, they wander homeless, hungry, in rags. Herbert Hoover has said that one million people will die in Eastern Europe this winter. Thousands upon thousands will perish of starvation and exposure unless immediate relief comes from America. The destitution of Jewish war sufferers during the coming months will probably surpass anything ever known in the history of human suffering. Their suffering is worse than death—it is the lingering torture of starvation, the desperate struggle of execution—the horrible waiting, in agony of hunger, for the grim reaper to end their misery. These six million despairing souls are totally dependent on American generosity for the bare necessities of life.

The Object: \$35,000,000 for 5,000,000 JEWS.

This year Andra Prussianism and this year fabled Prussians and famine remains increasing with each new happiness. Until a stable government is established and industry begins again, the Jewish war sufferers are entirely dependent upon our help. America must respond with characteristic generosity to save the lives of these starchen people whose lives have been freed. The minimum adequate for relief is \$35,000,000. If Nebraska is to stand its share with a contribution of \$400,000. Without this money the indispensable food and clothing cannot be secured. Without it, the work of relief cannot go on.

HOW THE MONEY IS DISTRIBUTED.

With the sanction and assistance of the state department at Washington, these funds are sent through a branch committee in the Netherlands and by it distributed to the various relief centers.

HOW TO CONTRIBUTE

George Brandels, Treasurer, Nebraska Committee for Jewish Relief.

Dear Sir: I hereby subscribe \$..... for the relief of Jewish war sufferers, all of which is to be used for direct relief. (Signed)..... (Enclose your check and mail to George Brandels, Jewish War Relief Committee, Court House—Square, Omaha, Nebraska.)

Lithuania and its People. Lithuania is situated in the basin of the Niemen and Dvina rivers on the southeastern coast of the Baltic sea.

The capital is Vilna. Its area is approximately 80,000 square miles, the population about 9,000,000, of whom 7,000,000 are Lithuanians, 3,500,000 Lithuanians proper, 1,000,000 using six-six tenths and 2,000,000 Letts. The country also contains a third of a million Poles. The rest of the population consists of Jews, White Russians, Germans and Mongols. It is said that there is no trace in the history of the world of any other people having lived in these regions. Although situated between the Slavs and the Teutons, the Lithuanians are in no way related to them. They claim that their language is one of the oldest and strictly in the world of the world. It is said to resemble ancient Sanskrit.

He was a high school pupil, and was indulging many bits of philosophy. At home he watched the women folk and the boys, who used to be chastised and for getting every other person to do as they wished them to do. And from these he drew conclusions which he later used.

"Times have changed since that history was written," he told his father one night. "Then the girls were the ones who used to stamp around and kill and frighten people into submission. Today the rascals have dropped their weapons and use more sensible ones—tears. I think a woman who cries in order to get her own way is a bigger tyrant than ever those old fellows of long ago were."

Anyway, it set father to work thinking.

Primroses of Picardy.

Nature in her own way is looking after the solitary war graves scattered throughout the shell-shattered Picardy countryside, according to a writer in the London Daily Chronicle. Those that lie in the three-fourth-over ground between Albert and Compiègne are covered with early spring primroses. In Lierancourt the madolids are blooming, and the brambles on the graves in Beuvry are green with new leaves. The lonely war warriors are to be gathered together in the central cemeteries under the care of the Imperial war graves commission. The French government, in compliance to the British offer, has purchased the necessary material and has presciently arranged for all time to England.

Hotel Chateau Thierry.

There is still a plot on foot for a large American-managed hotel at Chateau-Thierry. It is to be built on a small plot which is the site of a German machine gun position. The hotel is required there on the opening day. Their memories of that section will be the most pleasant. The Germans will return there in great numbers.

BELIEVED IN EVIL SPIRITS

Queer Story of Superstition Existing in England Comparatively Only a Few Years Ago.

In these days of education it is rather difficult to understand the mentality of the people of sixty or seventy years ago. Two life-sized effigies were removed from the altar tomb in the church owing to the strange noises they were heard to utter and removed from the altar of the rectory, where owing to their continuance of emitting noises they so disturbed the residents in the building that in self-defense they were interred in the consecrated ground of the churchyard.

Local archeologists recently decided to read the truth of the story, and after three days' digging recovered the statues. The figures were decapitated and the necks had lost the legs, but the head of the woman was recovered and the man's head is in the possession of a resident of the village.

The church records show that early in the last century there was a handsome altar tomb with full-length figures of William Hunt and Mary, his wife, in the church and these figures agree with the records. The figures are recumbent and the heads rest upon embossed cushioning with tassels carved in stone. They represent a man clad in plate armor and a woman wearing the head-dress of the Elizabethan period. The tomb and effigies are carved out of Tipton-hoe stone and the traces of heavy gilding and the superior workmanship show that the monument just here had been a very handsome one, the approximate date of erection being about 1600.
