Planview Garage Burns. Plainview, Neb., Dec. 19--Fire, believed to have resulted from burning hard coal in a soft coal heater, caused \$25,000 damage to the Howard Johnson garage here at 9 o'clock yesterday afternoon. The fire department is housed across the street from the garage and in a few minutes after the fire alarm was

turned in, two large streams of water were playing on the building. The fire was quickly extinguished, although the blaze was extensive, due to there being so much gasoline in the building.
Immediately after the fire started, the flames and smoke were of such large volume that it looked to observers as though the entire building would be destroyed. About ten cars, most of which belonged to private owners, were damaged, having the tops and upholstery destroyed. There was no escape of any of the cars. One new sedan was burned.

NEW WAYNE HOSPITAL

Equipment Most Efficient Obtainable **Nurses Are Courteous and Obliging**

The success of the old Wayne hospital has proved that the methods used are worthy of confidence; they are the best known to medical science.

The new Wayne hospital is prepared to accommodate a large number of medical and surgical patients. Its arrangement includes laboratories, sterilizing rooms, diet kitchens, modern operating and X-Ray equipment, comfortable private rooms for patients and the latest ideas in heating and ventilation.

construction season of unusual activities. The cold wave, which has covered all the northern portion of the country for more than a fortnight, has increased the retail demand for heavier clothes, and the trade has displayed a marked increase in bulk.

The foreign business situation is improved. Exchange has steadied, though it has not rallied materially. With the English and French exchanges at their lowest point in years, foreign buyers are unable to make purchases in this country when they realize that the low rate of exchange will increase the face value of their bills more than one-fourth. The passage of the Edge bill by congress has stimulated foreign buying of grain and hog products and slight advances in the prices of these commodities may be expected as a result.

The cost of living last week showed a slight decline on the whole caused by lowered prices on butter, eggs, pork and potatoes. While these reductions did not reach all consumers, it is evident that where they did not, the retailer is responsible for the preservation of the higher level.

Hides and leather showed a slight decline, but not sufficient to foreshadow any reduction in the cost of shoes and other leather goods. Holiday trade bounded upward, following the ending of the coal strike, and the last seven days show an aggregate of retail buying equal to that of the entire previous pre-holiday buying season. The outlook is that the few remaining days until Christmas will bring all records for total holiday trade.

The agreement between the government and the packers came too late in the week to have any effect upon the general business. What the dissolution of the allied industries will do to trade is generally being eagerly speculative at this time. It will require several months for the full effects to make themselves manifest.

The Way to Bankruptcy.

Washington Post.—A change of styles every month and more varieties of cloth are suggested by the professional dressmakers as cures for the social unrest. It's a fact that this plan would reduce everybody to a common level of bankruptcy.

A Desperate Alternative.

Kansas City Times.—Attorney General Palmer's suggestion that the four-minute speakers be mobilized to reduce the high cost of living is a desperate one, but the public might be able to stand it if not attorneys general answer the call.

It's what's inside your battery that makes it last long or wear out quickly.
Inferior insulation wears out before the plates do, and retards the electrolysis.
Thru-seal Rubber Insulation eliminates the need of retensioning, makes a battery last much longer under equal conditions, and reduces the liability to any other kind of repairs.
It's the cost biggest battery improvement in ten years—demonstrated now by four years of use.

HOME FROM CONVENTION

Mr. Lewis, Representing Wayne County, Explains Progress.

J. G. W. Lewis, who represents Wayne county in the constitutional convention, is home for the holidays. Mr. Lewis has this to say relative to the convention:

"The convention now seems fairly organized and ready for work. For a presiding officer, we have a Mr. Weaver, whose father was a member of a former constitutional convention. Mr. Weaver seems to be a man of strength, poise, and strict fairness, and seems to recognize the ability and seek the assistance of even those who might perhaps be thought to be opposed to him.

"The convention harbors no feeling that it is the ablest body of men that could have been selected in Nebraska. Quite the reverse is probably true, although few members would admit the convention is not considerably superior in ability to the average legislature.

"The delegates mingle together without distinction as to politics, religion or professions.

"In fact, this far, no one is able to tell for sure who either the radicals or the ultra-conservatives are. This may be due to the fact that no very decisive tests have yet come before the convention. The general feeling, however, is that the alignment will not depend largely upon the particular proposal under consideration. A fair prediction, perhaps, would be that the temper of the convention as a whole will be found to be quite conservative, or at least no more than mildly progressive. There certainly seems no chance of very great radicalism.

"The sessions of the convention will be open to the public, but those not members of the convention will not be permitted on the convention floor except on the invitation of some particular member. The committee meetings will be held in the "afternoon" and at a meeting place the "official" hotel has been chosen owing to lack of facilities at the capitol.

"About 150 proposals, largely of details, and comprising numerous duplications, have thus far been introduced. No time limit has been set, but it is the desire of the convention to have all proposals in within about a week after the reassembling of the delegates, January 6.

to civil service, a matter well understood by everyone."

The three proposals of Mr. Lewis follow:

Proposal No. 91—Executive Bureau of Investigation.—There should be an executive bureau of investigation consisting of one or more persons of special fitness, as the legislature may deem needful, to be appointed by the governor alone, who shall maintain a systematic survey of the governmental affairs of the state and to whom the governor may refer for investigation, and report any question concerning the government of the state, and who shall assist in the preparation of the budget and such other proposals as may properly be included in the message of the governor to the legislature.

Provision shall be made for the publication in series and the distribution of the reports of the executive bureau of investigation, and the legislature shall have power to make all laws necessary and proper for carrying into execution the provisions of this constitution relating to the great herein said house before named.

Proposal No. 128—Bills; Origin.

Any bill introduced in either house of the legislature, or bills may be introduced by any member of the executive department. Any member of the executive department shall be privileged to appear before either house of the legislature in support of any measure introduced by him and shall be the duty of any member of the executive department, upon due notice, to present himself before either house of the legislature in support of any bill passed by both houses and presented to him for signature which amended bill, if agreed to by a majority of each house in the order of its former passage, by no other than the governor's amendment or amendments added thereunto by the governor, and become a law.

Proposal No. 26—Civil Service.—Appointments and promotions in the civil service of the state and all civil divisions thereof, including cities and villages, shall be made according to merit and fitness, to be ascertained so far as practicable by examinations, which so far as practicable, shall be competitive.

Rebouncing Trade.

Sioux City Journal.—The mannequin in which trade and industry resumed after the coal strike was removed is one of the surprises of the last seven days. It shows as nothing else could the healthy condition of both trade and industry, if they were relieved of the collateral influences which effect them at different stages. Supplies of bunker coal on the eastern seaboard increased and it should be diffused among the people.—Proposal No. 128 stipulates that the removal of restrictions enabled industries which had been forced to suspend or reduce operations to resume on full time with resultant increases in output. There has been an active buying of iron and steel for immediate and spring deliveries, indicating

The town of McComb is to have a new hotel costing \$150,000. Is McComb going to get more excitement than Wayne?

Do others, as you think others do, do you have to be often substituted for the Golden Rule, and it is a very poor substitute.

As the old year draws to a close, let us bid bigger and better for the coming year. Let us improve Wayne and make it what it deserves to be.

The past week's business in Wayne has been unprecedented and every check should close 1919 in a most happy and encouraging state.

Clark Perkins of the Aurora Republican has bought a controlling interest in the Daily Express newspaper and will be its editor.

The deportation of shiploads of so-called "reds" who have been menacing this government, is a wholesome sign, and ought to have a beneficial influence on others who are inclined to bolshevism and anarchy.

The removal of Christmas commemorating the life of the babe Nazarene, brings out the best in people. If one does not feel buoyant and generous, one must be a hardened misanthrope.

Christmas. The ray of light from the manger causes men to pause in their accustomed tasks and direct attention to others. It prompts one to peer into the eyes of the meek and lowly children and seek to cheer their hearts with helpful words and kindly attentions.

Two thousand years have passed since the earthly career of the Man of Galilee, and though the centuries have rolled by, the necessities many serious crises in human affairs, the Christ came, he lost none of its lustre, lost none of its comforting power.

During periods of reconstruction and readjustment and often bursts of bolshevism and near chaos, following great wars, the Christ spirit exercises a steadying and buoying influence. Frequent evidences of this spirit in the present sometimes make one wonder whether it is getting better or worse.

In the process of the earth's evolution, God has revealed that the soul would dip into the ice of the arctic, and as the earth revolved the soul would gradually put and its contents fall to the earth in the exact longitude and latitude of Holy-Gragh's farm.

St. Gragh has refused to sell the place, Galileo offered to sell, except the farmer as a partner upon the payment of \$300,000. Holy-Gragh to come upon the ice, while Galileo went to the pole and harness his soul upon it.

Chicago Daily News: "People who will not volunteer for the war against the high cost of living should be conscripted."

A-Plenty. Minneapolis Journal: "The coal strike is settled, but thank fortune, it is still enough left to worry about."

Early Day Journalism. In reviewing early day newspapers we have had brought back to us the lamentably thoughtless double-edged blade, the starting gun, then in vogue. One of the first things done when the raw prairie was opened over for the starting of a new town was to start a newspaper. Every town thought it had to have a newspaper to boom its name, and it was supported as necessary help to growth.

What About Prices in 1920?

Lincoln Trade Exhibit: At this time the rather looked for and hoped for lower prices for the coming year that were treely talked of some three months back, are not in sight. In the late summer months, many troubles have come to the point as have since arisen, that it was a debatable question in everyone's mind whether the present level of prices would be maintained or not.

Quite True.

Alexandria Herald: A speaker at the republican proposal meeting at Pierre made a hit when he touched upon the democratic slogan. "He kept us out of war," by stating that the only Americans he kept out of war were Col. Roosevelt and Gen. Leonard Wood. Some truth to that, too.

In this consideration, the question of food products must be immediately eliminated, as a certain amount of information and agitation have with great force been conducted for many months and the farmer is in a hurry to get ready for the coming year.

Cost of the Strike.

New York World: To say that the coal strike has cost \$25,000,000 means nothing to a public cloyed with big figures by the war. Call it \$0 for every average family in the United States, and it is recognized as a sum that would be handy for Christmas.

Manufactured products of every kind and character, however, point the other way. Nothing but continued wage advances are in sight. The government's policy, covering the many items of foods. However, it was noted this week that retail prices on meats in Chicago showed declines from 10 to six cents. It is very possible that foods will not go much higher.

Letting Up Him.

Buffalo Enquirer: The nomination of Gen. Pershing on either ticket it is so remote that partisans on both sides take a chance and speak well of his report of the army's operations in France.

Lady Astor's Good Begining.

Kansas City Star: "Lady Astor has been very popular so far. We hope she doesn't imperil her standing with the higher feminism by dwelling too much on the great big things she has done for the house of commons by keeping still."

They Must Have Left Soon

Unexpected company dropped in on us—and not having much for supper, we were obliged to make do with what they had. They stayed quite late and it was compelled to ask them to supper. After supper my mother retired to her room and the next morning while our guests were still with us, I was heard to cry—My mother, thinking the guests were still with us, asked me, "Did they go home?" My guests urged me to say "Yes" without thinking what mother would say so I answered "Yes" as they were about to leave and I answered, "Yes, mother, they have gone." To my embarrassment mother called down, "Thank goodness! Did you see such a pig as butter?"

Star Mail, Madison

The other day an excited individual rushed into the Star Mail office with a letter full of scandal burning his tongue. It made no difference to this person whether the scandal affected the daughter of a neighbor or the daughter of the girl was seriously ill—that the brother was just entering what is called the "scandalous" period of his life in favor and he wanted to see it in the paper. He told the editor about it with a certain relish of a confidential confidante, but impressed upon the newspaper man that the source of his information must be kept secret.

Ask Any Doughboy Who Was "Over There"

and he will tell you that American railroads are the best in the world.
He saw the foreign roads -- in England and France, the best in Europe -- and in other Continental countries -- and he knows.
The part railroads have played in the development of the United States is beyond measure.
American railroads have achieved high standards of public service by far-sighted and courageous investment of capital, and by the constant striving of managers and men for rewards for work well done.
We have the best railroads in the world -- we must continue to have the best.
But they must grow.
To the \$20,000,000,000 now invested in our railroads, there will have to be added in the next few years, to keep pace with the nation's business, billions more for additional tracks, stations and terminals, cars and engines, electric power houses and trains, automatic signals, safety devices, the elimination of grade crossings -- and for reconstruction and engineering economies that will reduce the cost of transportation.
To attract to the railroads in the future the investment funds of many thrifty citizens, the directing genius of the most capable builders and managers, and the skill and loyalty of their best workmen -- in competition with other industries bidding for capital, managers and men -- the railroad industry must hold out fair rewards to capital, to managers and to the men.
American railroads will continue to set world standards and adequately serve the Nation's needs if they continue to be built and operated on the American principle of rewards for work well done.

Laurel Bandits, Doing Time for Murder, Denied Re-hearing.
Hartington News: The Laurel bandits who shot down Harold Crowner in cold blood and who shot Dr. C. C. Sackett so that he died the following day will have to serve the sentences imposed by Judge Graves in the district court here, according to the opinion handed down by the Nebraska supreme court last Monday, in which the sentence was affirmed.
James Re-Francis and James L. Parker, whose names are said to have been in Sioux City, are the men who were arrested and convicted of the crime of murder.
The men had robbed several stores and were escaping with the loot in an automobile stolen near Des Moines, a fire went down and they were overtaken by members of a posse east of Laurel. As soon as the car following them stopped, the posse rushed to shoot. Two other men were injured.
The appeal was based on the claim that the killing was not done while they were committing the robbery but while they were over two miles away from the place robbed. The supreme court found this claim without merit and affirmed the conviction. Both men are now in the state penitentiary.

AGRICULTURE NOTES.

When to Sow Broom Corn. After several years of experimentation in the improvement of broom corn in western Oklahoma, the United States Department of Agriculture has obtained results which indicate that the crop should be sown in the first half of May or the last half of June. These seeding periods bring the crop into head either before or after the hot, dry period, which usually occurs about the middle of August in that section. Placing the rows seven feet apart with the plants seven inches in the rows space an advantage over rows spaced three and one-half feet apart with the usual stand in the row. A higher yield and a better quality of grain is obtained if harvesting is done while the seeds are in the dough stage. Both earlier and later harvesting have been tried but have given less satisfactory results.
If harvested in the flower or milk stages, the brush has not yet become green and elastic, and if harvest is delayed until the brush is mature, it often has become badly discolored and brittle.
Lessening Loss of Perishables. Decay in the transportation of potatoes, cantaloupes, lettuce, tomatoes, spinach, strawberries, and onions is primarily due to faulty methods of handling and refrigerating according to the Bureau of Market United States Department of Agriculture. Marked reductions in losses have resulted from more careful methods of digging and grading potatoes, suitable temperature in refrigerator cars and storage houses, and by improvements in the handling of lettuce, such as the more complete removal of the lower leaves of each head in harvesting and shipment in ventilated crates instead of closed baskets. It was found that the decay of strawberries in transit results largely from avoidable causes, such as wetting and washing and from inefficient refrigeration.
Vegetables from the south, shipped in properly constructed cars, cooled one degree an hour faster than those forwarded in cars of the ordinary type, and deteriorated less than one-third as much, the bureau reports.

Bird Population Increasing.

The migratory bird treaty act is beginning to be felt. The United States Department of Agriculture, through its Bureau of Biological Survey, has conducted investigations of the breeding areas of ducks in North Dakota and Nebraska. Compared with former years, a gratifying increase of breeding waterfowl, particularly in North Dakota, is evident. The fifth annual series of counts of birds of all species breeding on selected areas in various parts of the United States contained a large proportion of reports showing increases in the bird population. The total number of reports received, however, was not large. Many of the persons who had formerly taken part in the annual bird counts were unable, because of extra duties assumed during the war, to find time to do the work required by the fifth count.
"Many species of migratory birds," reports the chief of the Bureau of Biological Survey, "show a marked increase under the existing treaty act. Waterfowl formerly driven to the far north by spring flooding have remained in steadily increasing numbers to breed in localities where none had previously nested for many years."

Bunk.

Argonaut: A Pacific coast citizen is lamenting the growing "smartness" in "Young America," said: "Only the other Sunday a little chap asked me, 'Do bees and cows go to heaven when they die?' I answered 'Of course not' and he remarked, 'I was wondering if all that stuff about milk and honey in heaven was a bunk.'"

TO HAVE COMMUNITY TREE

Aurora to Hold one Big-Christmas Celebration—Other News.

Aurora will have a community Christmas tree this year, with a treat for every boy and girl in town over 15 years of age. A chorus will sing Christmas carols and there will also be community singing. In cases where the children cannot be brought to receive the treats, arrangements will be made for adult members of the family to deliver them.

All closing restrictions adopted as emergency measures in Aurora during the recent coal-miners' strike have been withdrawn and normal hours of business in that place were resumed last week. Aurora dealers had received eight cars of coal and the shortage there was no longer serious.

Three cars of coal were received in Randolph last week, and the usual business hours were resumed on Thursday. The last three days before Christmas the stores will be open as long as necessary to accommodate shoppers.

A contract for four water main extensions amounting to \$7,247 were let last week by the city council of Albion to Howard McCray, a contractor in that place.

That American soldiers were more popular against the Germans as individuals is shown by a letter recently received by Mrs. John Denton of Albion. The letter came from a New York soldier, recently returned from overseas, who wrote to send Mrs. Denton news of his brother, a German soldier who was an American prisoner. The New Yorker, who served as a cook, spoke highly of the prisoner who assisted him and declared that every man in the company liked the German.

Ann Burke, aged 42, charged with arson, had a preliminary hearing in the city court at Pierce last week and was bound over to the district court. Three men went on her bond fixed at \$500. The girl is charged with burning the schoolhouse in district 26, southwest of Pierce, last month.

The O'Neill Frontier states that Tuesday of last week was the first day since November 25 that the thermometer at the government weather station registered above the freezing point. It then registered 34 degrees. The mercury dropped to 22 degrees below during that period.

Although Ord had only enough coal to run the city plant half a day, the closing hours were lifted last week and business was resumed as usual, in the hope of getting more coal before the supply was exhausted. The city had received notice that a car for the plant had been released at Denver, and was expected at any time. Until it arrived, the dealers were making every effort to supply the city.

An Elaborate Wedding.

Leslie precinct was the scene of a large and pretty wedding on December 17, when Miss Marie Tarnow and Mr. John Hansen were united in marriage.

Formally at 2 p. m. began the strains of Lohengrin's wedding march, played by Mrs. Elmer Beckhauser, and the bride and bridegroom, preceded by Misses Ann Tarnow, dressed in pink garter crepe, and Miss Ann Schmitt, dressed in blue silk and georgette.

The wedding party consisted of John Hansen, Henry Hansen and John Holt marched to the altar where Rev. H. L. Boneman met them, and using the double ring ceremony, pronounced them man

RENEWED TESTIMONY

No one in Wayne who suffers backache, headaches, or distressing urinary ills can afford to ignore this Wayne woman's tragic testimony. It is confirmed testimony that no Wayne resident can doubt.

Mrs. Jos. Schmalstieg, Wayne, says: "I was troubled more and more by a dull, heavy ache through my kidneys. I also had terrible headaches and dizzy spells. I was bothered a lot by other distressing symptoms. Doan's Kidney Pills strengthened my kidneys and drove away the pains from my back. I'm headache-free, too, and my health is generally improved."

Relies on Doan's.

Nearly six years later, Mrs. Schmalstieg writes an enthusiastic commending Doan's Kidney Pills. Whenever I have any kidney complaint, I get Doan's at Feiber's Pharmacy and they drive away my trouble."

and wife. After the congratulations, a four-course dinner was served to about 150 guests. The out-of-town guests were Mr. Will Hansen and family of Wausa, and Otto Sals and family of West Point.

Presenters were numerous and beautiful.

Four charivari crowds made life misery for awhile and they were royally treated.

The bride is the eldest and an accomplished daughter of Mrs. Lena Farnow and the bridegroom as a son of Mrs. Louis Hansen, known for his good character and industry. After March 1 Mr. and Mrs. Hansen will be at home to their friends on the Will Korth place. Leslie friends wish for them a long and happy married life.

Miss Eunice Linn was the guest of Mrs. E. J. Gwert during Christmas night. The occasion was Miss Linn's birthday.

Mrs. Ben Cox will entertain in the W. C. T. U. Friday, Mrs. M. J. Cobb will be leader. The subject will be "The Progress of Temperance in Foreign Lands."

Mrs. E. G. Wessell was hostess to the five ladies of the club Friday night. C. E. Closson won the first prize and Mrs. George Holeman won awarded the consolation prize. Mrs. Wessell served refreshments.

The members of the Yeoman lodge entertained at the hall Thursday night. The evening was spent in dancing and cards and a supper was served. All the Yeomen were invited. Several out-of-town couples attended.

Mrs. and Mrs. Robert Jones were surprised at their home Friday night when a party of neighbors gathered to celebrate their thirtieth wedding anniversary. The guests brought a dinner. About twenty-five attended.

School Notes.

The Carroll school closed Friday for a two weeks' vacation. All of the teachers will spend the holidays at their homes. Miss E. G. Linn, Miss Clara Linn and Miss Farabee will remain in Carroll. Miss Lillian Jensen has her home in western Nebraska. Miss Astra Osgo to Nemaha, Miss Lottie Ostrander to Pierson, Ia. Miss Agnes Richfield and Miss Olive Huse to Wayne.

The pupils of the grades gave a Christmas program Friday afternoon. There were six main divisions that they had to go upstairs in the assembly room for the program and the high school students were allowed to witness the same.

A double-headed basket ball game was played at the gymnasium Friday night between the Carroll and Winslow high school, and town

teams. In both cases Carroll defeated the visitors. In the basketball game, the score was 20 to 11; and in the game between the town teams Carroll won by a score of 45 to 27.

Lutheran Church.

(Rev. N. Sorensen, Pastor.) On account of the absence of the pastor, no services were held Sunday. The Christmas program will not be held as planned.

The Lutheran Ladies Aid society will meet with Mrs. Carl Carlson, Wednesday, December 21.

THE EARLY DAYS IN TWO COUNTIES

From the Wayne Herald, Dec. 25, 1912:

Dr. and Mrs. J. J. Williams went to Iowa City for a few days' visit. Miss Edna Nieman, who is attending St. Mary's academy in Omaha is home for the holidays.

Miss Libbie Ellis is home from Minneapolis, where she is taking business course, to spend the holidays.

Terwilliger Bros. have purchased the hardware store from E. P. Clinton and will take possession January 1.

Prof. Gregg leaves for Lincoln to assume legislative duties. Mrs. Gregg will spend the winter with the Browns at Ohio.

Judge and Mrs. Hepholt of Holdege came to visit their daughters, Mrs. John Hufford and Mrs. John Kite, during the holidays.

Miss Clara Ahrens is home from Leavenworth, Kas., to spend the holidays with her parents in Wayne. She has been attending an academy there.

University church in Omaha preached the funeral sermon.

From Ponca Journal, December 19, 1919:

It is reported that the telegraph wire will be stricken to this place from Sioux City inside of a month, and that we shall have telegraphic communication with the outside world.

At the residence of the bride's mother, in Ponca, Neb., on Wednesday evening, December 8, by Rev. C. H. Schauer, Miss Paul Jones was married to Prof. M. S. Davies of Sioux City, Ia.

East-Saturday Mr. McDonald was a subject of the vicissitudes of outrageous fortune while crossing the Missouri on the ice between Covington and Sioux City. The ice was covered with water to the depth of six inches, and was exceedingly slippery, and hence when his feet moved out from under him, he sat down with such resolute force that he would have broken his way into the river, had not the six inch film of water received him gently like a cushion. As it was his wearing apparel was insubstantial, and chilliness prevailed his back like a cloud.

The coal miners are slowly and cautiously ascending their way downward. On Friday of last week they struck a small vein of coal which was a little over two feet thick. It was 41 feet below the 43 foot vein. The rocks and formation below the 43 foot vein coincide exactly with the rocks below the vein of same thickness at Fort Dodge, Ia., in which place 43 feet below that vein occurs a vein 2 1/2 feet thick, and which corresponds very nearly with the small vein found at Keokuk. Taking the rocks at Fort Dodge as a guide, we shall strike a six foot vein of coal below the small vein. This fact is a certainty is believed by Prof. Aughey. Today the miners are within 18 feet of where they may expect to touch the large coal bed. Within a week more, it will probably be reached.

A Term of Reproach.
Chicago Daily News: Some day that adulatory phrase, "a good spender," may become a term of reproach. "Good spenders" are largely responsible for keeping prices high.

The Price of Peace.
St. Paul Pioneer Press: Five hundred and fifty-one American soldiers, sailors and civilians have been slain by Mexicans since 1910. We pay a stiff price for peace it seems.

Christmas was observed in all the churches, December 24. Programs were given by the children and Santa Claus visited each church and gave treats to the children.

F. L. Neely purchased the interest of C. M. Craven in the hardware firm of Craven Bros. After January 1 the firm will be Craven & Neely, H. B. Craven retaining his interest. C. M. Craven will now devote all of his time to the photographic business.

Mrs. C. C. Brown died at her home in Wayne county Sunday, December 21, 1919. She was born in 1842 in Lee Chester, N. Y. and lived in this county since 1884. Her husband and five children survived her. Funeral services were conducted Monday, December 22, by Rev. C. N. Dawson from the Methodist church.

J. H. Piegrey died December 18, 1919, at the age of 84 years. The cause of his death were a paralytic stroke, injuries received by a fall, and old age. Deceased was a native of Vermont being born in Mont Holly, April 19, 1839. On February 1, 1884, he was married to Miss Mary Prober and in 1885 went to Iowa where he made most of his fortune. He leaves a wife, one son and sixteen grand children. One daughter, Mrs. Recknick died a few years ago. The funeral was held December 20 from the Methodist church. Rev. Dawson delivered the prayer and Mrs. Mary Andrews of

Three dozen Buff Orpington chickens; one dozen pure bred cockerels.

Free Lunch at Noon

Terms: Ten months' time will be given on approved notes bearing eight per cent interest. Sums of \$10.00 and under cash.

Milo Kremke

D. H. Cunningham, Auct. State Bank of Wayne, Clerk.

\$120.00 is all that he had paid in toward such stock and he now asks that the sum of \$20.88 be refunded.

On motion the Board reduces the actual valuation \$900.00 and orders the county treasurer to refund the sum of \$20.88.

Comes now L. S. Needham & Bros., a partnership engaged in the grain and live stock business at Winside, Nebraska and say that for the year 1917, they were assessed with an elevator on lots 1, 2, 3, block 12, original town of Winside, and for that year they were also assessed with a \$20,000 elevator on their personal property situated in the same town as a right of way which constitute a double assessment. That said tax was paid under protest and now asks a refund.

The Board after due consideration denies the application for a refund for the reason that said affidavit was not filed within the time required by law, and that the tax has been distributed by the county treasurer to their respective funds.

Comes now Earl Lound and says that for the year 1918 he was assessed on an actual valuation of \$2655.69 for Chapin precinct, which made the tax amount to the sum of \$32.23. He paid said tax under protest and filed affidavit giving as his reason over taxation.

The Board after due consideration denies that he is overtaxed and rejects the application.

Comes now Carl H. Leonard and says that for the year 1916 he was assessed on an actual valuation of \$36,000 in Logan precinct, Wayne county, Nebraska, which makes his tax \$43.04. That he paid the tax under protest and filed his affidavit showing that he was assessed on a valuation of \$250,000 in Thurston county, Nebraska, on some of the same items, as he was then carrying on farming in both counties and he now asks that the sum of \$17.37 be refunded.

The Board after due consideration reduces the actual valuation from \$69,000 to \$180,000 and orders treasurer to refund the sum of \$17.37.

Comes now Mrs. J. F. Jeffries and says that for the year 1918 she was assessed with a valuation of \$3925.00. That she was assessed with a cash item of \$250.00. That said item was held for purpose of paying a debt that she was owing at the time and that she should have been allowed that deduction. That her tax in all amounted to the sum of \$92.69 which she paid under protest and filed this affidavit and now asks that the sum of \$13.50 be refunded, this being the tax on the cash item of \$250.00.

Coming Hydroelectric World. San Francisco Chronicle: The first famine conveys a lesson which the world will do well to heed. It will be observed for a while but the time will soon be here when mankind will perceive that it must depend upon a source of heat, energy and light which cannot be exhausted. The assistance of civilization depends on the generation of hydroelectric energy.

Nothing to Worry About.

Stout Falls Argus-Leader: The steel strikers have decided not to call off the steel strike. Meanwhile the steel mills keep right on filling their orders and can continue to do so indefinitely. If we had no more to worry about than the steel strike, life would be one glad, sweet song.

Profiteering Made Easy.

Chicago Daily News: Profiteering is general because so many persons ready pay double prices for everything.

Forget Something.

St. Paul Pioneer Press: Those members of the republican national committee who tried to con-

fine Will Hays's diet to peanuts seem to have forgotten that their chairman likes something with plenty of pepper in it.

Obdurate.

New York World: On the subject of a coal strike commission, Dr. Garfield would rather freeze than be agreeable.

Puzzling.

Kansas City Star: The downward trend in the price of goods is hard to understand considering that the hog is about the closest affinity the profiteer has.

Here's Hoping.

St. Paul Pioneer Press: The Toledo Blade hopes there will be no rush hour in heaven. We hope there will be none in the other place, either.

The Kind She Likes.

Dallas News: A girl's idea of a good conversationalist is a young man who says, "Let's go!"

Lengthening.
